A Close and Correct Shave

Without danger of cutting the face is what a man can get by using the Non-Cutting Razor. This razor is so constructed that it causes the razor to cut in a sloping direction from heel to point, or vice versa, as in mowing grass. Most men do not know how to shave but simply scrape the face, which makes the best of razors pull and the face sore and tender. With the Non-Cutting Razor a man with a most tender face can shave with pleasure in five minutes either on a train, steamboat or at home. No waiting in barber shops and no danger of going without a shave on Sunday or holidays. No danger of getting facial diseases. Saves time and money. We guarantee to fit any razor with this shield for both right and left hand shaving. One second removes or replaces the shield. Nickel plated and will last a lifetime. Full directions with every shield. Try one.

THE INCOME TAX

Is in the House of Its Friends—The Vote on the Nicaragua Canal Bill is Close—Other Congressional News.

Washington, Dec. 13.—Senator Allen, of Nebraska, in commenting upon the fact that he and Senators Peffer and Kyle had voted against the taking up of the sugar bill and the yeast closure resolution, said to-day that they had taken this position on the sugar bill because they considered the movement to get it up in the interest of the speculators and in no wise an effort at serious legislation.

"As for the yeast resolution," he said, "the Populist senators believe in general principles in rules that will permit the transaction of business, but they are of the opinion that the present effort to secure closure is for the purpose of passing the Nicaragua canal bill and putting through Secretary Carlisle's currency scheme and they are not ready for that yet."

HERE'S A STATE OF THINGS.

The Universal Peace union has forwarded to the emperor of Germany a petition urging his consideration of a proposition that Germany restore to France that portion of Alsace-Lorraine whose occupants speak French. The petition recites that such a measure would result in the permanent reconciliation of France and Germany.

WEST POINT CADET.

Senator Bate, chairman of the board of visitors to the West Point military academy, presented his report to the senate to-day, taking strong grounds in favor of a change in the law which will increase the number of cadets to 469 or one cadet for each senator and representative and twenty for the president in lieu of the present number, which is about 250.

THE INCOME TAX ALL RIGHT.

In the house to-day Mr. Cockran's motion to recommitt the income tax bill with instructions to strike out the appropriation for collecting the income tax was defeated by a vote of 19 to 168.

ITS FRIENDS RALLIED.

Senator Blackburn moved in the senate this afternoon that when the senate adjourns to-day it be to Monday next. The friends of the Nicaragua canal bill rallied and the motion was beaten by a vote of 23 to 22.

THE CANAL BILL.

In the senate, Senator Dolph, Republican, of Oregon, spoke in favor of the Nicaragua bill. He said the people of the Pacific coast were a unit in favor of the bill and discussed the advantages which the canal would bring to the whole country. The canal, if owned and controlled by the United States, would be of great service in time of war. In that event Lake Nicaragua could be so utilized by the navy as to soon reimburse the United States for any outlay made by the country. The main difficulty to be encountered will be the question as to the amount of money to be paid the old company for the work done and the concessions held by it. He devoted some time to the consideration of the Clayton-Bulwer treaty and the instrument presented no obstacle to the construction of the canal by the United States, and to the control of it. In closing the senator said the United States had adopted a policy, had declared a principle which is approved by her people and well understood by the world, which is just and right and in the interest of the people of this hemisphere and will be maintained at all hazards.

Senator Sherman pointed out the only provision of the Nicaragua bill that he was entirely satisfied with, was the agreement to be paid to the maritime company, which he thought was entitled only to the amount of money expended in the enterprise thus far. He wanted the bill stripped of all doubtful provisions in this respect and to have refunded to the company all expenditures made by it. Having said that, the government could proceed to work constructing without interference by the company.

PENSION REVENUES ABANDONED.

The pension bureau has received a report from Special Examiner Stocklager at Fort Smith, Ark., announcing the recent sentence of Tom Bear to six years in the penitentiary and the sentence of T. J. Thornton to six months in jail and a fine of \$200. This disposes of the ring leaders in a big scheme to defraud the government. They were connected with fully 500 claims said to be fraudulent and a commission of five special examiners under the supervision of Examiner Stocklager is still at work on the conspiracy.

THE RESERVOIR SITE BILL.

The senate agreed to the conference report on the bill providing for the purchase of reservoir sites on the public lands by ditch companies. The bill provides that such sites may be secured for \$2 per acre.

THE POOLING ACT PASSED.

The struggle over the bill to authorize railroad pooling was terminated yesterday by the passage of the bill by the decisive vote of 168 to 110. The Cooper substitute, which placed the entire control of the conditions of the pooling in the hands of the interstate commerce commission and gave absolute power in the matter of revoking pooling orders, was defeated, as were all subsequent efforts to amend and re-commit it, and the bill passed as reported from the committee. Several attempts were made to defeat the bill by filibustering, but they were unsuccessful.

Will Contest Tarnsey's Seat.

Washington, Dec. 13.—Col. R. T. Van Horn, editor of the Kansas City Journal, has through counsel served notice on Representative Tarnsey, of the 5th Missouri district, of his intention to contest the latter's seat in the house. Mr. Tarnsey had a plurality on the face of the returns, but it is alleged that frauds were committed in the district.

FIRE SWEEP PLAINS.

A Wall of Fire 125 Miles Long Hanging in Eastern New Mexico and Western Texas.

San Antonio, Texas, Dec. 13.—Letters from L. P. Holman, a ranchman of Doane, Texas, says: The largest and most destructive fire known in years has swept over a large portion of the plains and is still burning to the south. It began near the Pecos river, just this side of Fort Sumner, N. M., two weeks ago and burned toward the southwest, clearing the large pastures of Ray Bros., Deliver Bros., and others, and a large amount of open range. Then the wind turned and blew a gale, driving a

SOLID WALL OF FIRE
fifty to seventy-five miles long to the east. The best horse could not head the blaze. It crossed the Escabedo division of the Capitol Syndicate pasture, clearing out a greater portion of the range. It also crossed over the north part of the Spring Lake division of that company's lands.

It had not been for the heroic efforts of a few men along the line of the west of La Plata the whole country toward Amarillo would have been burned. As it was the fire was forced south and crossed into the southern part of Deaf Smith and Castro counties.

THE LINE OF FIRE
was thence forced east nearly through Deaf Smith county until it struck Randall county, when it turned northeast once more.

How far it burned east is not known, but it is supposed to have reached the front of the plains. A strong northern wind came up, driving the fire line extending from the base of the Pecos on the west to a point far east of here, supposed to be the eastern edge of the plains, to the south. This solid breast of fire, sweeping south, was not less than 125 miles long. How far in this direction it was is not known here, but last night it was dark.

A HUGE BANK OF SMOKE
The greater portion of the vast area included in the outlines given was burned clean. Guards and roads that would have stopped ordinary fires did not even check except this at a few places like the eastern part of Deaf Smith county. The greater part of the entire range is burned.

A Menstrual Trial.

Antonio, Colo., Dec. 13.—The district court convened at Conejos yesterday. The present term promises to be the most noted here in Conejos county for many years. The first case on the docket is the Ortiz-Arellano murder case, in which Casimiro Arellano will be tried for the killing of his wife and her paramour, Refugio Ortiz in July last. John Waldron, the noted criminal lawyer of Pueblo, who will assist in the prosecution, arrived several days ago and has been at work on the case. T. B. McDonald and J. W. Hughes will stand for the defense.

The case promises to be very sensational and will probably occupy a week. Refugio Ortiz, one of the wealthiest men in southern Colorado, will do all in his power to convict. General sympathy seems to be with Arellano, who had his erring wife and young Ortiz arrested several months before the killing, but released them upon a compromise.

CARLISLE'S BILL.

Text of the New Financial Measure Proposed by the Secretary of the Treasury.

Washington, Dec. 13.—Secretary Carlisle has presented his financial bill to the committee on banking and currency. In the first section all acts relating to the deposit of United States bonds to secure circulating notes of national banks are repealed.

The second section provides for the issuing of circulating notes to a national bank equal to 75 per cent of the paid and unimpaired capital upon depositing legal tender notes with the United States equal to 50 per cent of the circulating notes applied for. These circulating notes shall be in denominations of \$10, and multiples of ten, and shall be uniform in design.

Section 3 levies a duty of 1/4 per cent for each half-year upon the average amount of the bank's circulation.

Section 4 provides for the mode of redemption and retirement of a bank's circulation.

Section 5 creates the safety fund for the prompt redemption of circulating notes of failed national banks. Each bank shall pay to the United States treasurer in the months of January and July in each year a tax of 1/4 per cent for each half-year upon the average amount of its circulating notes outstanding until the said fund amounts to 5 per cent of the total amount of national bank notes outstanding, and thereafter said tax shall cease. A bank retiring or reducing its circulation shall be entitled to withdraw any part of its fund. The mode of procedure in case of a bank's failure is outlined.

Section 6 allows the secretary of the treasury to invest money belonging to the safety fund in United States bonds.

Section 7 also provides that on July 1, 1895, national banks now having bonds on deposit may withdraw them and substitute the 50 per cent guarantee fund.

Section 8 repeals previous acts conflicting with this measure.

Section 9 provides that the secretary of the treasury may, in his discretion, redeem and retire United States legal tender notes; that no United States or treasury notes authorized by the act of July 1, 1890, of a denomination of less than \$10, shall be issued.

Section 10 states that the banks, duly organized under the laws of any state, which transact a national banking business, shall be exempt from any taxation regulating state banks.

Section 11 provides that state banks shall not issue notes similar in design to United States notes or certificates or national bank notes.

The bill has been introduced in the house by Congressman Springer, of Illinois.

STILL TALKING.
Washington.—The house banking and currency committee continued its hearing to-day. Letters were read from Wm. D. Allen, editor of the Commercial and Financial Chronicle, and from R. B. Ferris, vice president of the Bank of New York. Ferris said: "There seems to be no good reason why the existing national banks who have United States bonds on deposit with the controller should not be allowed to

CONTINUE AS THEY ARE
until their charters expire or their deposits bonds are paid off. Section 7 of Carlisle's bill seems like forcing the banks to do what they have not been consulted about."

Ferris advocated the establishment of central redemption agencies which would, he thought, enhance the security of circulation based on the deposit of bonds. Referring to section 10 of the Carlisle bill, providing for the issue of notes by state banks without the provision of a sinking fund, Mr. Ferris said: "It makes the bill simply

AN INFLATION MEASURE,
modified by the deposit of 30 per cent in legal tender notes and a provision to cancel U. S. notes to the extent 70 per cent of the new circulation issued when the treasury has means to do it."

The letter concluded: "As the bill substitutes national bank notes for a new issue it will be a failure, as it presents no inducement to solid banks to become issuers of circulation of mushroom institutions, and to stimulate the organization of banks not subject to U. S. inspection is questionable."

William C. Cornwall, president of the New York banking association, read a carefully prepared paper advocating the Baltimore plan.

REPLYING TO QUESTIONS
by Mr. Warner, Cornwall said he thought the greenbacks and treasury notes outstanding should be redeemed, but he would perform this redemption with low rate U. S. bonds. He also said he did not consider that part of Secretary Carlisle's plan relating to the retirement of treasury notes sufficiently definite. Cornwall said a return to state bank notes would bring about a return of counterfeiting now reduced to a minimum.

A Panic at St. John's.
St. John's, N. E., Dec. 13.—It is stated that two more of the largest concerns in the city will make assignments. The feeling of insecurity increases hourly. It is feared the Union bank will be unable to sustain the strain. Duder's indebtedness to the Commercial bank is over \$200,000, a sum greater than the bank's capital stock.

THE WAR IN PERU.
Deploable Condition of the Government and the People—Hebels Gaining Ground.

New York, Dec. 13.—Advices from Peru are to the effect that Gen. Pierola, who is in arms against the Peruvian government, is gaining accessions. The general sentiment of the people appears to be in his favor. He has control of several of the principal ports and is very strong in the interior of the country. He has a well equipped army and is close to Lima.

On November 22 the government fitted out an armored train with a Gatling gun battery to carry 2,000 soldiers along the Oroya railroad to drive off the revolutionists. As the train approached the camp of the revolutionists 1,500 government troops deserted with their arms and ammunition and joined the rebels.

The condition of the government troops is deplorable, owing to bad food and ill treatment, and they have not received pay for several months. Great distress and suffering also prevail at Lima and Colón, owing to high prices and scarcity of provisions. People able to do so have provided themselves with sufficient food in anticipation of a thirty days siege. In Colón the marines on one of the government hulks mutinied. To prevent insubordination spreading, all hands were placed under arrest and the hulk anchored between two government ships and all shipping in the harbor was notified to withdraw from the line of fire.

The mail steamers of the Chilean and Pacific steam navigation companies are subjected to search and inspection by each party and are doing practically no business in Peru.

Seems to Get Along All Right.
Chicago, Dec. 13.—The state of Illinois is without an executive head, and there is nobody in the state qualified under the law to act as his substitute. Governor Altgeld is in St. Springs, Ark. Senator Gov. Gill is out in California. Senator Coppinger, president pro tem of the senate, is on federal duty in Canada and nobody knows where Speaker Craft is.

BRAND THE CLAIMS FALSE.
World's Fair Officials Expose a Pretender to an Award.

Chicago, Ill., Dec. 13.—One of the odd results of the World's Fair is the claim now made to awards by some who were not even exhibitors. Officials of the Exposition have not as yet taken final action in the matter, believing the quick wit of the people will detect the spurious claims. But to the case of a New York baking powder, that has been widely advertising an award, the attention of the Chief of Awards for Agriculture has been directed. He brands the claim of this pretender as false, declaring: "Neither the records of this department, nor the official catalogue of the World's Columbian Exposition, show that this New York Company was an exhibitor; consequently it could not receive an award at the World's Fair."

Those who fairly won their honors at the Fair seem disposed to treat this fraud as any other fraud should be treated. The Price Baking Powder Company, of Chicago, having received the highest award, say they are convinced their claims, and those of all other holders of rightful honors, will be fully vindicated by the public.

MEXICO NEWS.
The Great Feast of Our Lady of Guadalupe—Yaqui Indian Marauders.

Mexico City, Mexico, Dec. 13.—The religious feast of Our Lady of Guadalupe, the greatest ecclesiastic event of the year in Mexico, is being celebrated with unexampled splendor throughout the republic. Many large pilgrimages of Indians have arrived in this city during the past few days from the most distant parts of the republic.

MURDEROUS TAQUIS.

GALLUP'S LOSS.

The A. & P. Coal Town Suffers \$50,000 Due to Fire.

Gallup, N. M., Dec. 13.—Two-thirds of the business portion of this town was burned last night. The fire started in Reitz & Johnson's butcher shop from an unknown cause. The loss is fully \$50,000, partly insured.

Following is a statement of the losses: European hotel, T. P. Inch, proprietor, badly damaged, insured; A. T. Dies' building, loss \$1,000; Reitz & Johnson's market, \$5,000; A. Whitaker, two buildings, \$1,000; P. Kennedy, saloon, \$3,500; Celestine hall, \$13,000; W. M. Murray, building, \$5,000; Joseph Maionny, undertaker, \$3,500; Steve Conovan, two buildings, \$5,000; Dan Mayer, hardware, \$2,000; J. P. O'Neill, building, \$2,500; Joseph Ralford, two buildings, \$7,000; A. T. Reis, postoffice building, \$2,000; miscellaneous, \$2,200. The total insurance is \$16,500.

Honors to the Dead.

Windsor, Eng., Dec. 13.—By command of Queen Victoria everything possible was done to make the funeral of Sir John Thompson, the Canadian prime minister, a national event. The queen personally placed two wreaths upon the coffin. The procession was in the nature of a state ceremonial. The body was placed on a train to be taken to London, where it will be embalmed preparatory to removal to Canada.

Stealer Seely's Bond.
Chicago, Dec. 13.—Samuel C. Seely, the bank defaulter, was taken before Commissioner Wirt for preliminary examination to-day. President Crane, of the National Shoe and Leather bank outlined his crime and Seely was held out \$25,000 bonds. He waived examination. He will be taken to New York this evening.

A Place for Tupper.
London, Dec. 13.—It is said on reliable authority that Sir Charles Tupper, at present Canadian high commissioner in London, will succeed the late Sir John Thompson as premier and minister of justice in Canada.

TO-DAY'S WIRINGS.

Ex-President Vicente Cauda, of Nicaragua, is dead.

At Evergreen, Ala., a fire broke out last night in a racket store and spread rapidly destroying fifteen buildings.

The imports of silver into India for the month of November amounted to 27 lakhs of rupees, against 60 lakhs in September.

The annual convention of the National Civil Service Reform league is in session at Chicago. Carl Schurz, president of the organization, is present.

The Commercial bank, of St. Joseph, is in the hands of Arthur Kirkpatrick, he being selected as assignee. The assets are \$325,000 and liabilities \$370,000, principally being due depositors.

At Philadelphia to-day Mrs. Amelia Westergaard, widow of Lars Westergaard, committed suicide by slashing her throat with a carving knife. The suicide was the result of excessive grieving over the death of her husband.

President Robertson, of the Bank of Odell, Neb., who was recently arrested while visiting in Quincy, Ill., on the charge of embezzling \$15,000, was discharged on a preliminary hearing. The affair grew out of a business deal.

The conference between the tin plate manufacturers and workers at Pittsburgh, Pa., ended without an agreement being reached. The strike or lockout, which effects 12,000 men, now stands just where it did before the meeting and will be hotly contested by both sides.

ALIEN LABOR.
A Boston Man's Resolution Stirrs Up a Big Discussion in the Federation Congress.

Denver, Dec. 13.—In the Federation of Labor convention this forenoon a spirited discussion was precipitated by the report on resolutions. The committee was in favor of the adoption of a resolution, introduced by Edward L. Daley, of the Plasterers' union of Boston, asking congress to pass a law making it an offense, punishable by fine and imprisonment, for any employer to employ during a strike or lockout of his employees, aliens who have resided in the United States less than one year or who have not expressed their intention of becoming American citizens. A substitute was adopted that this resolution be referred to the incoming executive council, with instruction to secure legal advice regarding the constitutionality of such a law if passed.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

THURSDAY, DECEMBER 13.

It's a very poor sort of a banker who hasn't a currency plan to suggest these days.

The time for the assembling of the legislature is coming on apace. If you want all the news you should subscribe for the New Mexican.

SENATOR VEST'S closure proposition has been voted down in the senate, so that distinguished body will continue in its old time rat as little better than a debating society.

The suggestions of legislation made for the consideration of the New Mexico law makers are already numerous enough to consume the whole of the coming sixty days' session.

There must be some good points in Secretary Carlisle's financial scheme. Calvin Brice and Lyman P. Gage are opposed to it, while John Sherman still continues to hesitate about expressing an opinion.

This territory has a good delegation at Washington working for statehood.—Albuquerque Citizen. Indeed it has. The aforesaid delegation hails exclusively from Santa Fe. Such being the case we are somewhat surprised that the Citizen admits its excellence.

STATEHOOD for New Mexico is what every believer in local self-government should work for, observes the Raton Reporter. Yes; particularly now should we have unity on this subject since the A. P. A. has put its foot down against New Mexico's admission.

The president had better go to school about "Blewfields." That is Manry's spelling, the superintendent of the naval observatory at Washington, also James Monteth's copyrighted orthography in Barnes' Complete Standard of Geography. See map on p. 88 of the copyrighted official U. S. text books. The attention of Br'er Kelly, of the Independent Democrat, is also called to this little matter.

THE NEW MEXICAN notes with pleasure that the Republican papers of the territory are coming out strongly for statehood. It shows that these papers realize that even if congress passes an enabling act a big fight must be then waged over the adoption of a constitution. In the latter contest, there should be, as Mr. Joseph says, no politics, for neither party is strong enough to adopt a constitution as a party measure. All factions should come together for the good of the territory in its efforts to escape from its present state of political vassalage.

GROWTH OF IRRIGATION.

The irrigation idea is growing rapidly these days. President Cleveland says the American and Mexican governments must see to it that plans are adopted for storing the flood waters of the Rio Grande near the international line at El Paso. The officers of the Union Pacific system admit that upon irrigation depends much of the future of that giant corporation. Kansas and Texas have recently held state conventions to consider the subject of irrigation at which the attendance was a surprise, showing widespread interest in the subject in these states, and now comes Orange Judah's American Agriculturist so frankly admitting the existence of an agricultural empire in the Rocky mountain country and beyond that it has decided to issue henceforth a western addition of its famous journal devoted to irrigation farming as conducted in Colorado, Wyoming, Montana, New Mexico, Arizona and other parts of the west. Let the good work of ditch building and the storage of water go on in New Mexico. The harvest time is near at hand.

MISTAKEN, AS USUAL.
We extract this delectable bit from a half-column editorial in the Albuquerque Democrat:
"The up-to-date meaning of the word metropolis, is the chief city of a country, a state or territory. Originally the word was applied to mother cities or the seats of government, but usage now bestows the title upon the greater municipal centers of trade and population. For the latter reason Albuquerque is entitled to be known as the metropolis of the territory and will be the chief city of the state. Santa Fe is pretentiously urging its claims to that distinction, a procedure not warranted by its commercial importance or its population."

As usual, the Democrat is mistaken. The distinction of being "the metropolis" is one thing that Santa Fe has never laid any sort of claim to. It has no mill ditch, nor a couple of broken banks, nor any alkali water, nor any idle machine shops, nor any busted real estate booms, nor any Albright, hence Santa Fe feels that it has no sort of justification in setting up any claim to being "the metropolis." This distinction, with all its necessary adjuncts, such as those enumerated above, belongs only to the Democrat's home.

PRESS COMMENTS.

A Populist View.

The people of New Mexico have the utmost confidence in their present delegate, Hon. Antonio Joseph, and that he will labor unceasingly for the passage of the enabling act by the senate admitting this territory into the Union; and no doubt the people of Arizona have the same confidence in their delegate that we have. The people of New Mexico and Arizona well know that these two territories never will be admitted into the Union by a Republican congress; hence our only chance is in the present short session, and our delegates should make Herculean efforts to have both enabling acts passed. Otherwise we will have to wait two years longer; 1896, when Democracy will again unfurl its banner to the breeze.—Eddy Independent.

Railroad Aid Bonds.

If it shall be held that neither Santa Fe nor Grant counties, nor Silver City have to pay these obligations, it will be hard on the bondholders, but will be a relief to the taxpayers. The taxpayers can stand the affliction, even if the bondholders de kick. In this connection a question comes up in the minds of honest men and they ask whether it is honest to repudiate a debt that was contracted in good faith; whether it is not better to pay a debt that may technically be illegal than to have their consciences suffer because they repudiate an honest debt? Other men are asking whether it is honest. Should they be called upon to pay a debt which has been incurred by the firm-hand process, when in paying such debt they violate a law passed by the highest legislative body in the land, interpreted by the highest court in the country? Which of these men is the more honest?—Lordsburg Liberal.

An Amendment Suggested.

The law relative to the issuance of attachments in this territory should be radically amended. At present attachments can only be issued by an order from the judge of the district court, or some member of the supreme court. In many instances, the delay occasioned is practically a denial of justice. Suppose a case in Lincoln or Chavez county should arise where an attachment is necessary, and the district judge should be holding court at Socorro, or be sitting with the justices of the supreme court at Santa Fe, the necessary delay in securing an order for the attachment makes the proceeding a farce and is practically a denial of justice. We recommend, first, a change in the law relative to the qualifications of probate judges, and second, a change in the law authorizing probate judges, on proper affidavit, to issue the order for an attachment. Have the attachment, affidavit and order, together with the declaration, filed in the probate clerk's office; allow him to issue the process and certify the same, together with all the papers, to the district clerk's office.—Roswell Record.

AYER'S

Sarsaparilla
ADMITTED

READ RULE XV.

"Articles that are in any way dangerous or offensive, also patent medicines, nostrums, and empirical preparations, whose ingredients are concealed, will not be admitted to the Exposition."

Why was Ayer's Sarsaparilla admitted? Because it is not a patent medicine, not a nostrum, nor a secret preparation, not dangerous, not an experiment, and because it is all that a family medicine should be.

STILL THEY COME.

Conklin and Romero Institute Contests in Hopes of Again Getting at the Pie Counter.

The political pot is in a fair way to boil quite merrily awhile longer in this county in view of the contests which have been filed in the district court by four Democrats and which were met by contests filed late last night by two Republicans against their victorious Democratic opponents.

The contesting Republicans are James C. Conklin, who says that he defeated Adolph P. Hill for probate clerk, and Anastasio Romero, who thinks that on a recount he would be given a certificate of election as assessor over his opponent, Frank Gonzalez y Baca.

On the face of the returns as declared by the county commissioners, Mr. Hill defeated Mr. Conklin 19 votes and Mr. Gonzalez defeated Mr. Romero 7 votes.

The petitions, which are the same in the two cases filed by the Republicans, are quite lengthy and allege fraud and illegal voting very promiscuously.

They allege that in precinct 2 (Tesque) there were ten illegal votes cast by persons not qualified to vote by reason of minority and non-residence.

In precinct No. 3, in this city, it is alleged that a party named Abraham Adams voted illegally, not having been in the precinct thirty days, and that there were in addition fifteen other illegal votes cast.

In precinct No. 4, it is alleged, that William Deutcher, Esquibel, Martinez, Cruz Gutierrez, Santiago Quintana, Jose Talles, Luis Montoya and William Perry voted illegally, some because they were disqualified by non-residence and being under age and others by having been intimidated.

In precinct 5 (Agua Fria) it is alleged that ten persons who were not registered voted; and that in precinct No. 7 (Cerrillos) Santiago Montoya, John Wilkinson, John Denovan, Wm. Wright and Andy Horne, who voted.

THE DEMOCRATIC TICKET, were not qualified so to do and that several Republicans were prevented by fraud from voting, so that the Republicans wrongfully lost, so they claim, ten votes.

In precinct 11 (Golden) it is claimed that ten parties, six of whose names are given, voted illegally.

In precinct 10 (Dolores) it is claimed that there were many illegal votes cast, by reason of the parties being non-residents, unregistered or intimidated. Among the citizens mentioned under this head are C. V. Wright, Santiago Lopez, Jesus M. Martinez, Manuel Romero, O. H. Taylor, Juan Sosa, Jesus Mirabal and W. H. Loomis.

In city precinct 18 a number of SIMILAR CHARGES ARE MADE, affecting the votes of the following persons: Jesus Garole, Catalino Gonzales, Charles Franks, John McNeal, Randolph Kelley, Hunter Woodson and I. Neustatter.

The petitions wind up with several rhetorical flourishes, the substance of which is that 200 other persons, whose names are not now given, were led into voting for Messrs. Hill and Gonzalez either against their will or against the law.

The contestants are represented by Messrs. Catron & Spiess and Gen. E. L. Bartlett.

Your headquarters may be in your hat, but your work and marching is in your boots. Buy the latter of Gusdorf & Dolan.

FOUNTAIN'S HAND.

Mr. Shannon Returns from the South and Speaks of the Charges Preferred Against Judge A. B. Fall.

Hon. C. M. Shannon returned this morning from El Paso and other points south. Speaking of the fight which is being made against Judge Fall by the Republican politicians whose nefarious practices he has checked, Mr. Shannon says:

"I understood while south that a number of charges have just been forwarded to Washington by various parties in Dona Ana. Some of them charge Judge Fall with having held back indictments in consideration of a vote for the Democratic ticket, and similar foolish attacks have been made. Those who are acquainted with the fact that Dona Ana county is the vilest political cesspool in the west will not wonder to learn that some of these charges are even supported by affidavits, for there are scores of persons down there who would hasten to make such an affidavit for a dollar, or even a less amount in an emergency."

"Whatever effect these charges might otherwise have at Washington is obliterated in advance by the knowledge that they are inspired by Albert J. Fountain, as contemptible and corrupt a politician and demagogue as exists. This man Fountain's character is well known at Washington and all about Judge Fall will have to do to show the absolute falsity of the charges to the satisfaction of the authorities there that Fountain is connected with their origin. I do not think Judge Fall is losing any sleep over the matter, and I am sure from the information I received from fair and impartial sources in Dona Ana county that in the recent political disturbances in that county the judge only pursued his consistent policy of performing his duty and preserving the peace. It is really his inveterate record in this and other matters that is causing all this howl from those disreputable members of the Republican party who have been thriving upon political theft."

It is a fact that Gusdorf & Dolan can and will sell you any goods in their line at such figures that there is no use to send east for them. Call at their store and be convinced of this fact. Their stock is the most complete and best in the city.

Lieut. Anderson, who has been stopped at the sanitarium for some weeks, went up to Colorado Springs this morning. He will return in the course of a fortnight.

Judge N. B. Laughlin and family returned last night from Dallas, Texas, where the latter have been on a visit of several months. The judge says that he found as many Democrats down there as usual, and that they will, under good Democratic leadership, all be found at the polls in '96. Referring to subjects more non-political, he says that since his last visit to Dallas eleven years ago that city has improved wonderfully. Times were never better in Texas for while cotton is down to the 5-cent mark, the crop this year is most abundant, amounting to 2,000,000 bales in the state. In Dallas the shipments are so heavy that the railroads are unable to handle them. Miss Nellie Crane, who was expected to accompany the party back, will remain in Dallas a week or two longer. The judge and his family are glad to get back to Santa Fe's glorious climate and to escape the mosquitoes which even in December are making the nights in Dallas anything but delightful.

HERE'S A TIME.

Pointers for the Public—Pretty Prospects for Plaza "Promment"—At the Palace To-night.

The dance and Christmas sale given by the Woman's Board of Trade to-night at the Palace hotel gives promise of being a very pleasant affair. Through the generosity of Prof. Perez in giving the services of his orchestra without charge and the equal generosity of Mr. Clausen in giving the large dining room for dancing and the sample room opposite for the use of the bazaar, the expenses of the ladies will be reduced to the minimum of the actual cost of the numerous fancy and useful articles which will be for sale at reasonable prices. All these articles are intended for Christmas presents and one can not do better with his money than to invest in some of the novelties which will be for sale by sales-ladies of great business ability, if somewhat amateurish, in their art. There will be only one admission fee, 25 cents for each person who dances, and that will for 50 cents give the young man and his best or other girl four solid hours of the light fantastic. If he desires to refresh himself, or "cheer" it will cost a reasonable fee and the articles for sale are marked down to "free trade" prices. The object is one in which every citizen of Santa Fe is interested—the final payment for the plaza coping which is fully completed, and the ladies of the Board of Trade hope to realize from this entertainment enough to pay the balance due. It is believed they will succeed and have a surplus with which to start the further improvements they contemplate on the plaza for the coming spring.

OFFICIAL GOSSIP.

Rev. G. G. Smith has been appointed chaplain of the 1st regiment of Infantry vice Rev. S. C. Wright, removed from the territory.

Dr. J. H. Sloan has been appointed surgeon general on the staff of the governor vice John Symington, deceased, with the rank of colonel.

A long needed improvement in the executive departments has been commenced in the cutting of a door to connect the governor's office with the secretary's office. This will obviate the past necessity of going on the street to effect communication between the two offices.

Lee Kai, the Chinaman who was arrested on the Santa Fe train at Cerrillos about three weeks ago and brought to this city for trial on the charge of having no certificate of citizenship, will be released from the custody of the United States marshal, Judge Laughlin having this morning received a certificate showing that he is an American citizen.

Two appeals were taken yesterday from Magistrate Garcia's court to the district court, one in the case of Hartman & Wells vs. A. S. Arnold, in which there was a judgment for \$86.68, and the other in the case of Sol. Lowitzki vs. Carl Eikenmeyer, in which a judgment for \$49 had been rendered.

The income tax law will go into effect January 1, 1895. The internal revenue department at Washington is now busy with the blanks and schedules for this year, and the instructions to be sent out to the internal revenue collectors. An increase of Collector Shannon's clerks is expected to be soon ordered.

Hon. J. B. H. Hemingway left this morning for Washington on business and pleasure. Partaking of the nature of both is his intention to work for statehood. Mr. Hemingway will be gone until some time in January. He will return via St. Louis, where he will argue the appeal in the Folson case the early part of January.

U. S. Marshal Hall returned from Socorro last night. He says that Judge Freeman created quite a sensation yesterday by a roast administered to the grand and petit juries for not finding indictments and proper verdicts. There will be no further court down there on account of lack of funds and the federal court will last all of next week.

A complete line of rubbers, men's arctics and ladies' and gent's over-gaiters just received at Gusdorf & Dolan's.

Armijo Dead. Manuel Armijo, who was shot a week ago by Ysidro Rodriguez, died yesterday at his home in Rancho de Atrisco from the results of the shot. The ball entered on the left side of the head, back of and a little above the ear, and lodged in the cavity of the skull. The funeral took place this forenoon.

THE A. & P. ROAD.

Some Further Facts Respecting the Move to Sever It from the A., T. & S. F.

In the case of the parent company the Atchison, Topeka and Santa Fe, and the Frisco, a petition was filed by the receivers yesterday for authority to annul or disaffirm the contracts with the Atlantic & Pacific, which have been a heavy burden upon the Atchison and the Frisco, and have been quite a factor in the insolvency of those companies. The petition cites, among several agreements, trade and otherwise, one dated October 5, 1886, by which the Atchison and Frisco companies were obligated to loan to the Atlantic and Pacific sufficient money to meet (1) any deficiency in its operating expenses, (2) the rental of the Mojave division, and (3) the interest on the guaranteed 4 per cent bonds of the Atlantic and Pacific. The three companies entered into an agreement with the Mercantile Trust company under which the Atchison and Frisco companies guaranteed the payment of the principal and interest of the 4 per cent bonds. The receivers allege that the Atchison and Frisco companies have paid hundreds of thousands of dollars to and for the Atlantic and Pacific, which is in violation of the law, and is an operating expense and thereby became insolvent themselves.

In January, 1890, the Frisco was the owner of a majority of the stock of the Atlantic & Pacific, which at that time owned the line extending to Yuma, I. T., and was authorized by act of congress to construct a line from Yuma to the Pacific coast. In July, 1890, the Atchison and

Frisco entered into the contract by which the Atchison acquired ownership of one-half the capital stock of the Atlantic & Pacific, owned by the Frisco. The Atlantic & Pacific line extends from Albuquerque, N. M., to Mojave Cal., and the gap from Sulpita to Albuquerque has never been filled in. There are now outstanding in the hands of the public \$18,794,000 of the 4 per cent bond of the Atlantic and Pacific, guaranteed jointly by the Atchison and Frisco, both principal and interest.

The only agreement which the receivers do not wish disaffirmed is that relating to traffic of the Wichita and Western, which is to be made the subject of a further petition. The court directed the Atchison petition to be filed at Topeka, and referred it to the master for a report.—St. Louis Democrat.

THE LAW AT FAULT. Oil Inspector Hart Has a Word to Say as to Frequent Complaint.

To the Editor of the New Mexican. Las Vegas, Dec. 12.—In your issue of the 10th of December, I notice that some of your citizens, disgusted with the quality of oil pronounced good by me, purchased some oil which had been pronounced worthless, claiming that it was very much better than the oil that stood the test.

I desire to say that it is not part of my duties to pronounce oils good, and further if people will only read the law that governs all of my official actions they will see that it only provides for a "fire test" of 160 degrees and says nothing about the quality of the oil.

In the next place I desire to say that these complaints are not new to me. The fact is, that the same complaint has come to me from every part of the territory, but the fault is in the law and not in its administration. I am only permitted to make "fire tests" and the fire test in this territory to-day is up to 160 degrees, but the complaints come from the "gravity test" over which I have no jurisdiction, as that test does not come within the inspection law as now in force.

If citizens will kindly communicate with me over their own signatures I will only be too glad to investigate the matter complained of, so far as the "fire test" goes.
