THE NATIONAL CAPITAL.

Rank of Lieutenant General Restored—Gen. Schofield Promoted—Nothing New Financially—Tampering with Territorial Bill.

Washington, Feb. 6.—The president has approved the bill creating the rank of lieutenant general of the army and nominated Gen. Schofield for the place.

RESOLUTION ON FINANCIAL BILL. Senator Butler has offered a resolution to give the pooling bill the right of way after the next two appropriation bills are disposed of. It is intended to test the senate on the bill.

NOTHING NEW FINANCIALLY. There was nothing new regarding the proposed bond issue up to 2:15 p. m. Word has been received that \$700,000 in gold has to-day been withdrawn from the New York sub-treasury. It is not for export. The senate to-day took up the diplomatic appropriation bill and has been engaged most of the day in debate over the amendment appropriating \$500,000 to begin laying a cable to Hawaii.

DECIDED BY PRESIDENT CLEVELAND. The president has decided the dispute between Brazil and the Argentine republic over the Missions country, in favor of Brazil. Both countries left the matter to his arbitration.

SAVING OUR DEMOCRATS. Treasury officials generally express the opinion that Secretary Carlisle's estimate of a surplus of \$22,500,000 for the calendar year 1895 is conservative. It is argued that the customs duties on sugar alone should bring in at least \$35,000,000 during the next eleven months, and that the revenue from the income tax is likely to reach \$10,000,000. The receipts from general customs and from whisky withdrawals are expected to materially increase from now on, which, it is believed, will bring the receipts for the twelve months up to about \$380,000,000. The disbursements for the year, it is thought, will not exceed \$351,000,000, leaving a surplus after deducting the \$7,000,000 of deficit for January of \$22,500,000. The internal revenue officials in figuring on the receipts from income taxation estimate that the returns "prior to July will amount to \$10,000,000, and for the remaining six months \$30,000,000.

TO COIN THE BULLION. Senator Allen, of Nebraska, has given notice of a proposed amendment to the sundry civil appropriation bill for the coinage of all uncoined silver bullion owned by the government.

THE CHAPMAN CASE. The supreme court of the United States has denied the application of Elveston R. Chapman, the recalcitrant witness in the senate sugar trust investigation of last summer, for a writ of habeas corpus, on the ground that it was not competent for the supreme court to interfere in the matter until after the case should have been disposed of by the district courts.

WILL BE CONFIRMED. The senate judiciary committee has voted to report favorably the nominations of Holmes Conrad, of Virginia, for solicitor general, and I. M. Dickinson, of Tennessee, for assistant attorney general.

A NEW ENABLING ACT. In the senate Mr. Carey, of Wyoming, has given notice of a proposed amendment to the New Mexico enabling act, permitting Oklahoma and Arizona to form constitutions and state governments and to be admitted to the Union. This is an omnibus bill introduced by request.

Destitute Farmers. Kansas City, Mo., Feb. 6.—Destitution among Kansas and Oklahoma farmers is becoming more evident, and urgent appeals for outside aid are being made.

"Women begging for food is a daily sight upon the streets of our suffering little town," said Patrick McClusky, a merchant of St. Francis, Cheyenne county, Kas., here to-day. He is a member of a relief committee appointed to apply for aid at the principal western cities.

"We have given all our means," continued he. "The county has issued warrants to pay for food and fuel until its responsibility has been impaired, and one will take the warrants. We are forced to appeal to the country or seek our women and children perish with cold or hunger. The same distress prevails in other counties of northern Kansas and across the line in Nebraska."

Sentenced to Hang. Boise, Idaho, Feb. 6.—Charles Perry has been sentenced to hang at Pocatello, on March 27, for the murder of Patrick McNamara in June last.

Chicago.—Wheat, February, 60 1/2; May, 64 1/2. Corn, February, 43; May, 45 1/2. Oats, February, 27 1/2; May, 29 1/2.

Dr. Price's Cream Baking Powder Forty Years the Standard.

Steamship Overdue. New York, Feb. 6.—The French line steamer, LaGascogne, three days overdue from Havre, has not been sighted. The wind is blowing from the northwest very strong.

REIGN OF BOREAS.

Bitterly Cold Throughout the East—Heavy Snowfall—Widespread Blockade Threatened.

Boston, Mass., Feb. 6.—Seven degrees below zero has broken the season's record. The northeast gale, blowing since yesterday, has added to the discomfort. Suburban car lines are blocked and incoming trains are late. No vessels are sailing and few arriving.

Clearfield, Pa.—At 8 o'clock this morning the thermometer registered 20 degrees below zero.

Philadelphia.—The thermometer registered 3 degrees below this morning—the coldest weather experienced in this city for fifteen years.

Chicago.—The snow storm prevailing to-day threatens a widespread blockade.

The weather bureau gives notice of probably a heavy snow accompanied by a severe cold wave in Kansas, Nebraska, Iowa, Missouri, Illinois, Michigan and Indiana.

COLDEST EVER KNOWN.

New York.—Last night was one of the coldest ever known here. The thermometer at 6 a. m. registered 5 degrees below zero.

Pittsburg.—Intensely cold weather has prevailed here for the last three days. Last night it was 6 degrees below zero.

For the first time in many years both rivers are frozen over. A shortage of natural gas caused much suffering and many families have returned to coal.

Buffalo.—Thirteen and three-tenths degrees below zero was the record here this morning, being the lowest temperature ever recorded here, except on January 25, 1884, when the thermometer registered 13.5 degrees below zero.

Albany.—At 4 o'clock this morning mercury marked 20 degrees below zero.

BITTERLY COLD IN EUROPE.

London.—Bitterly cold weather accompanied by snow storms prevails generally throughout Great Britain. Several persons have been found frozen to death in the country. Railroad trains in Scotland and Wales are blocked. The weather on the continent is also very severe. In Paris there were five deaths yesterday from cold.

COLD WAVE PREDICTED.

Washington, D. C.—A special bulletin of the weather bureau says: "The indications are for the severest cold wave of the season in Colorado, northern Texas, Oklahoma, Indian Territory, Kansas, Nebraska, Iowa, Minnesota and South Dakota."

St. Joseph, Mo.—A severe snow storm set in here early this morning and has seriously impeded street car and railroad traffic.

Lawrence, Kas.—A blizzard set in about 8 o'clock this morning and the thermometer fell rapidly. At noon it was at zero.

Kansas City.—The blizzard struck Kansas City at 9 o'clock this morning. The Signal Officer O'Connor says it will be from 10 to 15 degrees below zero before midnight.

Chicago, Feb. 6.—The sharpest cold wave that has hit Chicago for two years made its appearance yesterday and is still on with unabated vigor. The mercury in the office of the signal service fell to thirteen degrees below zero, the coldest on record since 1873. Reports from many places in Illinois, Iowa, Wisconsin and Michigan show the same state of weather, the mercury ranging from eight below in southern Illinois to twenty below in northern Wisconsin.

CHINESE DISMAYED.

Pretty Well Satisfied that the Japs Will Go to Peking Before Making Peace.

London, Feb. 6.—A dispatch from Peking says that the capture of Tseung Chow (Wei Hai Wei) has made a deep impression upon the Chinese. The fall of Port Arthur. The dispatch adds that the reported refusal of Japan to treat with the Chinese envoys confirms the belief expressed in Peking that the Japanese are not willing to name their terms of peace.

Ohio and Indiana Fires.

Columbus, Ohio, Feb. 6.—A fire at Adelphi, caused serious losses and the fatal injury of four firemen.

Plymouth, Ind.—A fire at 4:30 a. m. destroyed the entire building of four floors occupied by G. Wolfe, clothier; C. H. Welch & Co., jewelers; other stores and law and business offices. Loss \$30,000.

TENNESSEE WRANGLE.

Evans, Republican, Takes the Oath as Governor—Secretary Declines to File Oath.

Nashville, Feb. 6.—The legislature in joint assembly met again to-day and the opening and reading of returns for governor was resumed. After the returns of the counties had been read, Evans, Republican, took the oath of office which was administered by a magistrate in the state library. The secretary of state declined to file the oath.

SENSATIONAL SCENE.

An Infatuated Witness in a Minnesota Murder Trial.

Minneapolis, Feb. 6.—There was an intensely sensational scene in the court room to-day shortly after the Hayward murder trial opened. Bixt, the self confessed murderer, was still on the stand, and Erwin began the day's campaign by charging directly that the witness had doctored his confession given yesterday to suit the public clamor.

The state objected to this manner of cross-examination and the court sustained the objection on the ground that it was an attack on the character of the witness. Erwin then asked Bixt how he accounted for the discrepancy between the two statements he had made as to having given him whisky. Bixt wanted to go into an explanation of this after his own ideas, but Erwin insisted on a direct answer. Again Bixt tried to hedge, answering that he was in no condition at the time of his original confession.

"Any man in the condition that I was in," said Bixt, "would not be likely to know whether the time that Hayward brought the whisky was 5 o'clock or 7:30 o'clock."

Hayward laughed aloud and looked at Bixt.

The face of the murderer turned livid, his voice trembled and he half rose from the witness chair. "This," he cried, "is no laughing thing, I tell you." He was pointing one shaking hand straight at Hayward and his lips trembled as he gasped, "Yes, you—yes—are the man that do it all, I know I tell the truth and you know."

Hayward, with his chin resting on his hand, his white teeth showing as his lips parted in a broad grin, had enraged the witness beyond endurance.

Bixt was called down by the court and the cross examination went on.

POSTOFFICE LOOTED.

Poughkeepsie, Feb. 6.—Three masked burglars broke into the postoffice at Mattawan at 2 o'clock this morning. They blew open the safe. The explosion was heard by an officer, Marshal E. Snyder, and he entered the building. One of the burglars shot him, and his condition is critical. The burglars escaped with the contents of the safe, consisting of several hundred dollars.

FAMILY BURNED.

Standish, Mich., Feb. 6.—John Bock, wife and four small children were burned to death this morning at Homer.

PRINCE PULLMAN.

Wanted as a Witness, But Can Not Be Found.

Chicago, Feb. 6.—Four of the defendants in the Debs conspiracy trial were discharged by Judge Grosscup yesterday. Dennis Larkin, Frank Dwyer, James McDonald and John Burke. The judge reserved his decision as to John T. McVeigh and John Hannon, directors of the A. R. U. Referring to the other eleven defendants, including Debs, he simply said to the attorneys for the defense, "You may go ahead with your side of the case."

Chicago, Feb. 6.—At the opening of the Debs conspiracy case to-day the deputy marshal, who spent yesterday in attempting to summon George M. Pullman as a witness for the defense, reported that he had been unable to locate the Pullman car manufacturer, but was informed that he had gone to Washington. The defense then called President Debs, of the A. R. U.

Judge Sloan's Scheme.

New Orleans, La., Feb. 6.—A party of 300 negroes has arrived over the Queen & Crescent. They came in on a special train which left Birmingham last night. The negroes are the first of a large party of perhaps 10,000 who will pass through the city during the next few months en route to Mexico. The Mexican Colonization company, having headquarters in Mexico, have secured large concessions from the Mexican government on the Rio Grande river, and the negroes are being imported to raise coffee.

QUEEN LIL ABDICATES.

One of the Fortunate Results of Late Revolt in Hawaii.

Honolulu, Jan. 30, via San Francisco.—Queen Liliokalani has abdicated in favor of the republic. This is by far the most important outcome of the late rebellion. The document was drawn up by A. S. Hartwell at the request of the ex-queen. It was presented on the 26th inst. to President Dole. The document, according to the wording, was executed freely and voluntarily.

The queen made a plea for the Hawaiians and others who took part in the rebellion. She expressed a desire to live in absolute privacy henceforth. The queen's abdication was not unexpected. In many quarters it is looked upon as a step to secure clemency when she appears before the military court now sitting. In her home were found arms and ammunition and damaging papers. They showed that she was

CERTAIN OF RESTORATION.

She even had her new cabinet made out. It is thought that the government has under arrest all who took part in the rebellion.

Since the arrival of the Philadelphia it is learned from trustworthy sources that

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder ABSOLUTELY PURE

United States Minister Willis has made objections, both written and verbal, to the military court now sitting. He seems to take the same view as Paul Newman, counsel for the prisoners, that offences committed previous to the date on which martial law was proclaimed should be tried before a civil court and jury.

Gold Discoveries in Russia. St. Petersburg, Feb. 6.—The Siberian newspapers announce the discovery of rich and extensive gold fields along the upper reaches of the rivers Neva, Nina and Uibat in Veniesisk, east Siberia.

Spanish Taught. For terms apply to Larkin G. Reed, corner Cathedral street and Palace avenue.

PERSONAL.

Mr. R. W. Sammon is here from Mora. Hon. A. B. Laird came up from Silver City this morning.

Sheriff C. F. Hunt came up from Albuquerque this morning.

Capt. W. R. Fall left last night for a visit to his home in Las Cruces.

Mr. Arthur Tisdall, of the Bell ranch, is in the city from San Miguel county.

Messrs. C. H. Morehouse and H. Eichwald, of El Paso, are visiting the city.

Mr. William Kroenig, the pioneer farmer from Watrous, is at the Exchange.

Mr. Robert Black, of Silver City, has returned to the capital and may be found at the Palace.

Hon. W. S. Hopewell reports two new gold strikes at Hillsboro and a steady increase in the output of that great gold center.

Mr. John S. Clark, of Las Vegas, walks around among the law makers as if he didn't care whether school kept in Santa Fe or not.

Col. W. S. Williams, editor of the Socorro Chieftain, dropped into Santa Fe and wrote his autograph on the Palace register as natural as two in a bed, yesterday afternoon.

At the Exchange.—H. L. Warren, Albuquerque; Mariano Armijo, Albuquerque; A. Horne, Wallace; William Kroenig and Teodora Martinez, Watrous; W. S. McClane, Denver; B. Esler, Redlands, Calif.; R. W. Sammon, Mora.

At the Palace.—W. S. Williams, Socorro; W. S. Hopewell, Hillsborough; B. S. Rodey, Albuquerque; Charles S. Harmon, Chicago; George M. Somerville, Missouri; A. G. Anderson and wife, Springfield; Robert Black, Silver City; John S. Clarke, Las Vegas; C. E. Turmon, Rochester; Arthur Tisdall, Bell Ranch; C. H. Morehouse, H. Eichwald, El Paso.

"While fruit culture," he adds, "is the chief industry of the valley, the production of alfalfa and the fattening of stock for the market is forging to the front. About 15,000 head of beef and 2,000 head of cattle are now being fed on alfalfa and cotton seed near Roswell."

Mr. Jaffa says it was not necessary for Sheriff Perry to capture Bill Cook to satisfy the people of Chaves county that they had selected the right man for sheriff. Mr. Perry is about 37 years old, has been a resident of Roswell for some nine years, and as city marshal, deputy sheriff and sheriff has proved himself one of the shrewdest detectives and best criminal officers in the country. "He has done very much," adds Mr. Jaffa, "toward promoting peace and order in Roswell, and, while he doubtless has some enemies, he has a host of friends. He is not much of an office man, but he takes care to have a competent deputy in charge of his books."

Mr. Jaffa is deeply interested in the passage of the pending bill appropriating \$15,000 to the military academy at Roswell. His reasoning on the subject is strong.

A LUMBERTON LINE.

The Biggs Interests Going to Build a Railroad in Northern New Mexico.

The Rio Grande & Pecos Springs Railroad company has been incorporated by J. J. McGinnity, Charles D. McPhee, William T. Field and William McPhee, of Denver, and Edgar M. Biggs, of Rio Arriba county. The capital stock is placed at \$100,000. The company proposes to build a railroad from Lumberton, N. M., on the Rio Grande, to Pecos Springs, Colo., tapping a region rich in lumber, coal and other minerals and opening up a fine agricultural and stock raising country.

Buckingham's Dye for the Whiskers is the best, handiest, safest, surest, cleanest, most economical and satisfactory dye ever invented. It is the gentlemen's favorite.

COAL NOTICE

On and after Jan. 14th we will deliver one ton anthracite coal, \$6.50; or 2 tons at \$6 per ton. One ton White Ash Lump coal \$4.25; or 2 tons at \$3.75 per ton. Terms cash.

DUDROW & DAVIS.

Ivy Poisoning

Eight Years of Suffering

Perfect Cure by Hood's Sarsaparilla

"Dear Sirs:—We have tried Hood's Sarsaparilla and find it to be all you claim for it. My wife was poisoned by ivy when a young woman, and for eight years was troubled every season with the breaking out and terrible itching and burning. I thought there was as bad a case as anyone ever had. She was in this distressing condition every year until she began to take Hood's Sarsaparilla, which has effected a perfect cure, without leaving any scars, and she has had

New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

WEDNESDAY, FEBRUARY 6.

The news, eh? Well, you'll find it in the New Mexican these days.

By the way, what's become of the bill to repeal that iniquitous change of venue act?

The future of the New Mexican continues to worry the Albuquerque Citizen. But the Citizen is such a fool bird that nobody pays any attention to its mad ravings.

The passage of house bill No. 50 would forever put a stop to the construction of water storage reservoirs in New Mexico. It would be worse than the alien act for shutting out investments.

MANY of the territorial papers, notably those of Albuquerque, steal column after column of readable matter from the New Mexican these days, never thinking of giving proper credit. Well, that's all right, the New Mexican is a newspaper published for all the people.

The senate finance committee came very, very near reporting a free coinage bill to the senate yesterday. It was near enough to set Wall Street trembling. But wasn't it too bad that the hour for the senate to meet came on just as the committee had fairly entered upon a consideration of the subject?

It is worthy of note that the Pullman Palace Car company doesn't even pass its own dividends. Prince Pullman might, however, conclude to sign a few half-section passes if a measure was introduced and pushed in the New Mexico legislature providing for equitable taxation of his company in this territory.

That is a wise provision in the capitol rebuilding law which provides that the building shall at all times be insured against loss by fire. This is a provision that might very properly be placed henceforth in all acts providing for the erection of public buildings in New Mexico.

YESTERDAY occurred the 107th anniversary of the birth of Sir Robert Peel, who repealed England's corn laws and startled the world by his masterly exposure of the "protection" fraud. His memory is very green on American soil to-day. On his monument is this simple yet far reaching inscription: "I gave this people cheap bread."

THERE has been a good deal of ugly talk indulged in on the quiet in financial circles of late to the effect that gold is likely to go to a premium on Wall Street if congress doesn't carry out the president's recommendations and provide for a large issue of gold bonds. If the Wall Street sharks should go that far, they won't scare anybody, for all will recognize it as a bluff. Clearly even such a dastardly threat will not go with the present congress, and it won't be necessary with the next.

The legislative council did itself proud yesterday in so promptly passing the act to enlarge the territorial insane asylum. The records show that 11 per cent of the unfortunate sent to this institution during the past two years have been cured, while the others have been comfortably cared for, clothed and humanely attended. At present there are over 100 insane persons in the territory who can not have the benefits of this charity because of lack of room. It is true that times are hard, business depressed and many interests are demanding the attention of our law makers; but can any cause appeal more earnestly, both to the head and heart, than that of the sick and helpless insane? The New Mexican believes the council has done its duty in this respect.

A BOGUS CONCERN.

The New Mexican is informed that a London broker named Frazer, working through unknown American parties, is meeting with very great success in securing subscriptions for what he calls the Toltec Irrigation company, to bring under cultivation large tracts of land in the Rio Grande valley, in New Mexico. He claims to have his canal project completed and in operation "as far as Albuquerque," and on the strength of some sort of a pledge to guarantee enormous profits he is said to be picking up any number of subscribers. Indeed, a private letter, under date of the 16th inst., states it as a fact that \$25,000 has been raised and lodged in banks in London, and the American end of the concern, shrewdly using this subscription as a basis, has gone to Glasgow, Scotland, where he hopes to raise \$100,000 additional. As far as the New Mexican can ascertain by inquiry this is a fraud of the rankest sort. There are any number of legitimate enterprises of this nature in New Mexico that go begging for capital to make them yield phenomenal profits, and it seems a pity that a bogus concern should meet with such ready success among our English cousins. Untold harm is done worthy enterprises by such methods.

THE ROSWELL MILITARY SCHOOL.

The promptness with which the council acted upon and passed C. B. No. 40, the bill providing for the maintenance of the Military institute at Roswell, was a tribute to the popularity and energy of its author, Councilman Curry, as well as a strong evidence of the genuine merit of the measure. The bill provides for the issue of 5 per cent bonds to the amount of \$15,000, payable thirty years from July 1, 1895, but redeemable at the pleasure of the territory at any time within ten years from July 1, 1895, which date they shall bear. The auditor is required to levy a tax sufficient to pay the semi-annual interest and the principal. The tax to satisfy the latter shall not, however, be levied within ten years from the date of the bonds. The bonds, when issued, shall be delivered to the board of regents of the institute to be by them negotiated to the best possible advantage. The proceeds thereof shall be used by said board in the erection of suitable buildings and for such other improvements as may be deemed desirable. The bonds may not be sold under par and within six months from the date of the passage of this act a tract of not less than forty acres, suitable for the purposes of the institute, shall be donated and conveyed to the territory. Until this latter is done, the bonds shall not be issued. Another condition of the issue of the bonds is an agreement on the part of the board of regents that each county may annually appoint a student who shall, without any charge for matriculation or tuition, attend the institution. The bill will, within a few days, be considered by the house, where the popularity and ability of Representative Hinkle who will then manage its interests insures for it a reception as favorable as that it received in the council.

PRESS COMMENTS.

The School Funds.

The White Oaks Eagle sounds the keynote of truth and justice when it says: "Some means ought to be found to supply better educational facilities to the county districts, but without crippling the towns, most of which have had to create debts to provide proper buildings and apparatus for the benefit of the children within their limits."—New Mexican.

The above is very true, but, if there are better educational facilities provided for the country districts, they will have to

COULD HARDLY WALK

ON ACCOUNT OF

RHEUMATISM

P. H. FORD

—OF—

Quachita City, La.,

After

TWO YEARS

Suffering

IS CURED

—BY—

THE USE OF

Ayer's Sarsaparilla

"For fully two years, I suffered from rheumatism, and was frequently in such a condition that I could hardly walk. I spent some time in Hot Springs, Ark., and the treatment helped me for the time being; but soon the complaint returned and I was as badly afflicted as ever. Ayer's Sarsaparilla being recommended, I resolved to try it, and after using six bottles, I was completely cured."—P. H. Ford, Quachita City, La.

be made in some other way than leaving it to the people. In this, Aztec district, at the election for a special levy for school purposes there were only three tax-payers of any note who were decidedly in favor of or who voted for the levy, viz: W. J. Wright, W. H. Williams and James Scott. The other tax-payers of any importance, some of them were heard to say, they would not go to the polls as they were opposed to the levy and would vote against it which would be useless as they knew they would be out numbered. The election was carried by the moderate tax-payers who are mostly single men with no children of their own, or if they have do not own them. What the legislature should do is to fix a levy for school purposes at a per cent sufficient to support the schools for a period of not less than six months and then pass a compulsory school law with a clause in it that any parent failing to comply with said law would be compelled to work on the county roads for a period of not less than thirty nor more than ninety days.—San Juan Times.

THE MAXWELL LAND GRANT

Farm Lands!

UNDER IRRIGATING DITCHES.

Gold Mines!

Choice Mountain and Valley Lands near the Foot of the

FOR SALE.

For the Irrigation of the Prairies and Valleys between Raton and Springer One Hundred miles of large irrigating Canals have been built. These lands with perpetual water rights are sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of Agricultural, Coal and Timber Lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same, if they should buy 160 acres or more.

The famous Gold Mining Camps near Elizabethtown and Baldy are thrown open to prospectors on more favorable terms than locations on Government land. Mining regulations sent on application.

Daily, four-horse, covered coaches leave Springer at 7 a. m., except Sundays, for Cimarron, Baldy and Elizabethtown, and leave these points every morning, Sundays excepted, for Springer.

The A. T. & S. F. and U. P. D. & G. railroads cross this property. WARRANTY DEEDS GIVEN. For full particulars apply to
