Bond Question Before the House.—Senator Carlisle Replies to Senator Gorman—Conflicting Views of Colorado and New Mexico Miners.

Washington, Feb. 14.—The house committee on rules decided to make the bond resolution the way and means committee the special order for the day with an agreement that a vote should be taken at 5 p. m. The resolution does not provide for any amendments or substitutes and under its terms no vote can be taken upon the direct question.

HOUSE ADOPTED THE RULE.—The house to-day adopted by a vote of 152 to 28 the special order reported by the rules committee providing that the day be devoted to debate on the bond resolution, a vote to be taken at 5 p. m. The speaker announced that Mr. Wilson and Mr. Reed in the affirmative and Mr. Hopkins and Mr. Bryan in the negative, all members of the ways and means committee, would be permitted to control four hours of the time allotted for the debate (two hours each side) and that one hour would be given to general debate under the five minute rule.

BOND RESOLUTION DOOMED.—Careful inquiry about the house indicates that the bond resolution will probably be defeated by a majority larger even than that on the Springer bill.

DEFEATED AGAIN.—The bond resolution was defeated—yeas, 109; nays 157.

CONFLICTING PETITIONS FROM COLORADO AND NEW MEXICO.

Representative Bell to-day presented petitions from Red Cliff and Spencer, Colo., protesting against any further suspension of assessment work on mining claims.

Delegate Joseph, on the other hand, presented a lengthy petition of citizens of New Mexico for exemption from assessment work during 1895.

SILVER'S SENATE FRIENDS.

The senate finance committee's amendment, reported by a vote of 6 to 5, provides: "That from and after the passage of this act, the secretary of the treasury is hereby authorized and directed to receive at any United States mint from any citizen of the United States silver bullion of standard fineness and coin the same into silver dollars of 412½ grains each. The seigniorage of said bullion shall belong to the United States and shall be the difference between the coinage value thereof and the market price of bullion in New York on the date of presentation is made and all expenditures for coinage done under the provisions of this act shall be paid out of said seigniorage and the secretary of the treasury shall deliver to the depositors of such bullion standard silver dollars equal in amount to the price thereof as ascertained by the mint." The act, herein provided for, shall be received into the treasury, certificates may be issued thereon in the manner now provided by law.

The vote on the motion to report this section as amended was as follows: Yeas—Volstead, Hatcher, Vest, Jones, of Arkansas, Jones, of Nevada, White, Nye—McPherson, Morrill, Sherman, Allison and Aldrich.

It was also agreed to hold a special meeting to-morrow for reconsideration of the bill removing the differential duty of one cent of a cent on sugar imported from bounty paying countries.

SECRETARY CARLISLE'S REPLY.—Secretary Carlisle to-day sent to the senate his reply to the resolution introduced by Senator Gorman asking for information as to what portion of the gold reserve in the treasury on January 1, 1893, had been used for concurrent expenditures, how much of the funds realized from the recent sales of bonds had been so used, and the amount required to replace the money so used.

The secretary says that the original reserve, augmented by the gold proceeds of the sales of bonds, was diminished during twenty-five months to the extent of \$172,674,315, of which \$105,002,143 was directly or indirectly devoted to concurrent expenses, and that \$67,672,172, converted into notes by the process of redemption, was still on hand.

"It is proper to state in this connection," says the secretary, "that when the United States notes or treasury notes of 1890

THE MARKETS.

STEAMER ASHORE.

Baltimore, Feb. 14.—The German tank steamer Elise Mary, from Hamburg for Baltimore, is ashore off Cape Charles.

New Police Commissioner.—New York, Feb. 14.—Avery D. Andrews was to-day appointed police commissioner to succeed Sheehan resigned.

Want Mortgage Foreclosed.—Jefferson City, Mo., Feb. 14.—Mr. Julian presented a resolution in the legislature to-day, which the house adopted, calling on the Missouri senators and congressmen to vote for foreclosing the government mortgage on the Union Pacific railway and operating it at cost.

SNOW IN TEXAS.

Railroad Traffic Impeded—Cattlemen Anticipate Heavy Losses.

Austin, Texas, Feb. 14.—Snow began falling here last evening, and is still falling. It is six inches deep on the level with bad drifts. Railroad travel is impeded and street car traffic almost suspended. The storm is the worst ever experienced here.

Fort Worth, Texas.—The second snow-storm of the year fell here yesterday and last night. The snow is four inches deep. Storm was general over northern Texas. Cattle men expect heavy losses on the range.

SNOW AT NEW ORLEANS.

New Orleans, La., 1 p. m.—Snow has been falling here steadily since 11 a. m., covering the ground to a depth of one inch, a sight not witnessed here for twenty years.

A Bomb Was Thrown.

Wheeling, W. Va., Feb. 14.—Early this morning a bomb was thrown into the office of the Buckeye glass works at Martin's Ferry, Ohio, doing considerable damage. Manager Humphrey was supposed to be sleeping in the office. He was shot at ten days ago. A strike was inaugurated in this factory some months ago, and early in January operations were resumed with non-union men.

LABOR CONTROVERSY.

Investigating a Question of Veracity Between Wild and McBride in Ohio.

Columbus, Ohio, Feb. 14.—In the meeting of the United Mine Workers to-day, Mark Wild, district organizer of the American Railway Union under Debs, being granted the floor, stated that when the A. R. U. last summer was attempting to stop the running of trains on the Hook Valley road, John McBride, president of the United Mine Workers, gave him \$50 to induce the settlement of the strike of railroad men on that road.

McBride said that he did give Wild money as a charitable donation from the coal mine operators, the strike on the railroad company.

McBride said further: "None of the money came from the railroad company." A committee was appointed to investigate and report upon the subject in controversy between Wild and McBride.

French and Siamese Troubles.

Bangkok, Feb. 14.—Difficulties have arisen between the Siamese and French on the left bank of the Mekong river and serious disturbances occurred. In the conflict between the Siamese and French troops a French officer was severely wounded.

Cholera in Constantinople.

Constantinople, Feb. 14.—Between the 5th and 12th inst. there were sixty-one cases of cholera here and twenty-nine deaths.

CANADIAN SENSATION.

Twin Brothers Arrested for Murder—Life Insurance Assigned as the Cause—Plot to Murder the Bride of One Brother.

Toronto, Feb. 14.—Harry Place Hyams and Dallas Theodore Hyams, twin brothers, doing business as brokers in this city, have been arrested on the charge of having murdered William C. Wells on January 10, 1893. At the time young Wells was reported to have been accidentally killed in an elevator in the Hyams warehouse. The only other person in the building at the time was Harry P. Hyams, who had placed heavy insurance on the life of young Wells and to whose sister he was engaged. The insurance was paid and recently Harry Hyams and Miss Wells were married. Ten days ago, a Toronto paper learned that an attempt had been made to place \$200,000 insurance on the life of the bride. When Mrs. Hyams heard this she became alarmed, and a detective guard her, refused to return to Montreal with her husband and asked the companies to cancel the policies. The Hyams brothers were not known to possess sufficient capital to warrant them in incurring a liability of \$5,000 a year in insurance premiums, and further investigation has resulted in the arrest of the two brothers for the murder of their brother-in-law, Wells.

MINNEAPOLIS MURDER.

Defendant Appeared Jubilant as He Entered Court this Morning—Kissed His Mother.

Minneapolis, Feb. 14.—The defense's turn came in the Hayward murder trial to-day. The defendant's demeanor upon entering the court room was positively jubilant. He nodded to his lady friends and said to his mother: "Good morning little mother," and kissed her upturned lips.

John Day Smith, in addressing the jury, called attention to the number of things the state had promised at the outset to prove and which he said had not been proved.

Smith declared that the insurance transactions and the acquiring of an insurable interest and waiver of the assault clause, of which much had been made by the state, were all in the ordinary course of business and not in any way unusual.

Independent Knights of Labor.—Columbus, Ohio, Feb. 14.—A new labor organization was formed here to-day to be known as the Independent Order of Knights of Labor. The new organization, it is claimed, will start out with a membership of about 60,000 embracing glass workers, brass workers and miners.

Permission Denied.

Albany, N. Y., Feb. 14.—Attorney General Hancock has handed down a decision denying the application for permission to bring action to vacate the charter of the Brooklyn Heights railroad company for failing to operate its lines. The attorney general holds that if the ten hour labor law had been violated it was the officers of the company and not the corporation itself.

El Paso Alert.

El Paso, Texas, Feb. 14.—There will be a mass meeting of the business men and property owners of El Paso held at the court house to-night to consider ways and means for building the proposed railroad to White Oaks, N. M.

Rumor Denied.

Bucharest, Roumania, Feb. 14.—It is semi-officially announced that there is no truth in the rumor circulated in Berlin last evening that Prince Ferdinand, of Bulgaria, had been expelled and fled to Roumania.

CRIME IN ARIZONA.

Store Held Up Near Tucson—One Robber Killed—Others Fled.

Tucson, A. T. Feb. 14.—The stage from Mammoth brings the news that yesterday three men entered the store at Alma, where old man Doll and his son were murdered a few weeks ago, and attempted to hold up John Roach, who was in charge of the place. Before they could use their guns Roach fired six shots, which brought one of the would-be robbers to the ground, perhaps fatally wounding him. The others fled. Roach then rode to Mammoth. When he returned to the store, accompanied by two men, he found that during his absence, Mexicans had entered the store and taken the money from the cash drawer.

Santa Fe Route Dining Car Service.

Under present time card train No. 2, Atlantic express, is scheduled to leave Kansas City at 9:30 a. m., arriving in Chicago at 10 p. m., same day, thus giving a daylight ride.

The train carries Pullman palace sleepers, and an arrangement has just been entered into whereby the Pullman company instead of charging the regular double berth rate of \$2.50 will make a seat rate of \$2 from Kansas City to Chicago. This \$2 seat rate applies only on train No. 2. Attention is also called to our dining car service between Kansas City and Chicago on trains No. 2, 4 and 6, east bound, and 3 and 5, west bound. Instead of the usual arbitrary charge of \$1 for a meal the service is now on what is commonly known as the "European plan," i. e., guests only pay for what is ordered. This arrangement is popular with the traveling public. It is in effect only on a few western lines, thus giving the Santa Fe another advantage over its competitors between the Missouri river and Chicago. The menu on our dining cars comprises all the delicacies of the season. The food is always nicely cooked and daintily served. For 35 cents, the minimum price, one can obtain a very nice light lunch. A slightly larger sum will pay for a full course breakfast or supper.

Judge G. D. Bantz.

The Times received an Associated Press telegram from Washington yesterday reading as follows:

"The president has sent to the senate the name of Gideon D. Bantz to be associate justice of the supreme court of New Mexico."

Judge Bantz is one of the ablest and most highly esteemed jurists of New Mexico, and resides in Silver City. He is appointed to succeed Judge Fall, who resigned the office several months ago. The new judge has many friends in El Paso to congratulate him on this new and deserved recognition of his ability as a lawyer and his worth as a Democrat, loyal to his party.—El Paso Times.

HERE'S A LAUGH.

A Pen Picture of Sheriff Perry as Presented by a New York Newspaper.

Sheriff C. C. Perry, of Roswell, who captured Outlaw Bill Cook and delivered him to the United States authorities at Fort Smith, Ark., is a native of Texas. He is 40 years of age, is 6 feet and 4½ inches in height and weighs 210 pounds. Everybody in the southwest who has looked over this "description" of Sheriff Perry printed a few days ago in the New York Journal:

"As no other paper has given a description of Perry, the Journal hastens to supply the deficit."

"A few years ago there appeared in Oklahoma a short man, spare of figure though every broad of shoulders, with a keen, razor-like face and light blue eyes, which, when he was engaged in peaceful conversation around the stove in the corner grocery, were as mild as an antelope's, but when roused by anger or to action, flashed like the rays of a revolving light."

"This was Ed Perry, a man totally without fear, and a dead shot, two qualities that subsequently secured for him the appointment of deputy United States marshal, and made him a terror of all evil-doers in the territory."

"One of his peculiarities is that he always carries his revolver in the front of his belt instead of behind, so that by a quick muscular movement of the stomach he can toss the pistol into his hand before his adversary has time to draw on him."

"Shortly after his appointment Perry was sent after a desperado Mexican bandit, or 'greaser,' as they are called in that country. In a few days he returned to Oklahoma driving a wagon and in the wagon was the dead body of the Mexican with a label pinned to his breast by a dagger, and bearing this inscription: 'Resisted arrest. Ed Perry.'"

TAXES RECEIVED.

Collector Spiegelberg Starts the New Year by Hustling After Tax Payers.

Capt. Sol Spiegelberg, county tax collector, who entered upon his duties January 1, makes the following report of taxes collected during the month and turned over to the several treasury officials:

R. J. Palen, Ter. Treas., for '92..... \$ 3 76
R. J. Palen, Ter. Treas., for '93..... 144 68
R. J. Palen, Ter. Treas., for '94..... 376 95
\$ 525 39

H. B. Cartwright, Co. Treas., for '92..... \$ 5 00
H. B. Cartwright, Co. Treas., for '93..... 147 05
H. B. Cartwright, Co. Treas., for '94..... 375 90
\$1,023 85

W. L. Jones, City Treas., Santa Fe '93..... \$ 63 79
W. L. Jones, City Treas., Santa Fe '94..... 357 29
\$ 421 08

E. B. Ames, Town Treas., Cerrillos '93..... \$ 13 23
E. B. Ames, Town Treas., Cerrillos '94..... 32 24
\$ 45 47

Total..... \$1,091 56

Considering the hard times the showing is an excellent one, and indicates that Collector Spiegelberg is the right man in the right place. Similar reports in future will be made prior to the tenth day of each month as the law directs.

Changes on the Atlantic & Pacific.

Note important changes in the Atlantic & Pacific railroad advertisement in another column. The branch from Seligman to Prescott is no longer operated. Hereafter close connections will be made at Ash Fork over the Santa Fe, Prescott & Phoenix railway for points in central and southern Arizona. No change is now made by sleeping car passengers between San Francisco, Los Angeles, or San Diego and Chicago. H. S. Van Slyke continues as general agent at Albuquerque.

Southwestern Cattle Call.

Mr. James E. Cree, of Fort Stanton, who is now in the city representing the Southwestern New Mexico Stock Growers association, has as secretary of said organization, issued a call as follows: "Mr. J. C. Loving, secretary Cattle Raisers association, of Texas, has requested me to call a meeting of the principal cattlemen of the Pecos valley and neighborhood at Roswell, N. M., for the purpose of organizing a special round-up of that country, to be under the personal direction of Mr. J. M. Barkley, one of the inspectors of that association."

"In view of the large number of 'burnt' cattle in this section it is highly important that this matter should receive the support of all cattlemen interested. Owing to unavoidable absence from home, I have been unable to fix the date of this meeting earlier than Saturday, March 9, but trust it will be well attended. The meeting will be called to order at the court house at 10:30 o'clock a. m."

Winter Tourist Tickets.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the south-west.

THURSDAY, FEBRUARY 14.

Let's put a quietus on the professional tax-dodger once for all.

A great deal of very excellent political history is being made these days.

Protestations from excessive heat have not been common of late in any part of the country.

Pay the legislative employees up to date and cut down the list to the actual needs of good government.

It is apparent that there are yet a great many people in New Mexico who labor under the impression that a legislative assembly is organized for their individual benefit only.

The Lincoln Weekly News is the latest journalistic venture in the territory. It is published at Lincoln by Roy Norman; is independent in politics, and at work for the good of all New Mexico. The News has a grand field and the New Mexican is glad to welcome it.

The fruit growers of Bent county, Colorado, recently shipped 6,500 jack-rabbits to the hungry and suffering in Denver. This seasonable action will doubtless save a good many fruit trees, but is rather rough on the poor. Coyotes, jack rabbits and sage hens are about equally palatable.

The editor of the Congressional Record will soon be able to take a rest. So will the entire country. Congress will adjourn in eighteen days, and unless Mr. Cleveland should execute his direful threat of calling a special session it will stay adjourned until next December.

That distinguished gold bug institution, the Associated Press, is particularly careful to state that the senate finance committee's report "provides for unrestricted, but not for free coinage of silver, giving the government seigniorage." The New Mexican—always a stickler for facts—is most gratified at this exhibition on the part of the Associated Press to tell the truth and nothing but the truth.

The depressing news comes over the wires that Life Pence, the silver-tongued Populist who has represented Colorado in congress for the past two years, has accepted an election as vice-president of a New York railroad company. The seductions of capital are as subtle as they are numerous, but it can not be possible that Life Pence has yielded to the charms of the golden temptress.

Mr. HINDEL's bill to abolish the office of county school superintendent in counties having a total taxable property of \$2,000,000 and less, might as well go further and wipe out the office entirely. Generally the probate judge is a pretty level headed man, and the duties of county school superintendent may be given into his care for the common good of all concerned. He would get a better salary and the county schools would have from \$800 to \$1,200 more annually to apply to the cause of popular education.

REALIZING that a gold bug Republican congress will be in control of the legislative branch of government after March 4, the president and his man Vilas are making most desperate efforts to try and have a Democratic congress take the final step toward fastening the gold standard shankles upon the hands of the people. That was a silly bill Vilas introduced yesterday to this end, entitled "A bill to save the American people \$16,174,770." Oh, what rot! And to think that a Democrat would be engaged in such truckling to the dictates of Wall street!

REASONS FOR STUDYING SPANISH.

A correspondent of the Atlanta Constitution in the City of Mexico was recently accorded a most entertaining and instructive interview with ex-Governor Crittenden.

den, of Missouri, at present ably representing the United States as consul general to Mexico. Governor Crittenden pays a high tribute to President Diaz, whom he classifies as the greatest man Mexico has produced and one of the ablest statesmen of the age. "As long as President Diaz lives," he adds, "there will be peace and prosperity in Mexico. He is a statesman in the best sense of the word, and has an eye to the building up of his people to a high standard."

Among his wise and far-reaching plans is the establishment of a complete system of public schools, reaching into the remotest corners of the Mexican republic, in which the English as well as the Spanish language shall be taught by the agency of general taxation. In anticipation of the early carrying out of this noble idea hundreds of young Mexicans are now in the schools of the United States studying the English language with a view to fitting themselves for the work contemplated; yet Governor Crittenden says that the ten or fifteen thousand teachers needed can not be obtained in Mexico for years to come.

This suggests to the distinguished Missourian a cogent and substantial reason why the Spanish language should be more generally taught in the public schools of the United States. A thorough knowledge of the musical language of Castelar would enable many young men and women of this country to secure lucrative and desirable positions as teachers in Mexico. Dwelling still further upon this subject, Governor Crittenden urges the study of the Spanish language in this country as a means of strengthening and building up the trade relations between the United States and Mexico. Touching this subject, he adds:

"Now as to the present business prospects of Mexico, and the chances for increase of American trade here, there is much that might be said. By sheer force of circumstances, the United States has control of one-third of the Mexican trade. * * * Besides improving the consular service, the United States should encourage the study of the Spanish language. Time is thrown away on Greek and French, while this language, which they may need any day, is ignored. Our trade relations have become so close that business houses are constantly sending their young men down here to introduce their trade. It is then that they discover that they can speak French, Greek or German, but not a word of Spanish. I candidly believe that the study of the Spanish language should be made a part of the grammar school class. Solid trains now run from the heart of the United States into the heart of Mexico, and not a man of the crew can speak a word of Spanish. You see from this that a knowledge of the Spanish is becoming necessary, and that no young man will be prepared for business life without it."

The wisdom of these remarks will not be denied by any thoughtful person. They apply with particular force to the people of the trans-Mississippi region, whose close proximity to the Republic of Mexico by rail and telegraph affords them superior opportunities to cultivate the trade of that republic.

PRESS COMMENTS.

Cantankerous Stupidity.
The Albuquerque Citizen demands that an injunction be sought to prevent the issue of \$75,000 in bonds for the rebuilding of the capitol at Santa Fe. This is the completest case of pure and unadulterated cantankerousness ever coming under our observation. The only motive of the Citizen is to prevent the restoration of

ASTHMA,
Distressing Cough,
SORE JOINTS
—AND—
MUSCLES.
Despaired
OF RELIEF.
CURED BY
Ayer's Cherry Pectoral

"Some time since, I had a severe attack of asthma, accompanied with a distressing cough and a general soreness of the joints and muscles. I consulted physicians and tried various remedies, but without getting any relief, until I despaired of ever being well again. Finally, I took Ayer's Cherry Pectoral, and in a very short time, was entirely cured. I can, therefore, cordially and confidently commend this medicine to all."—J. ROSELLS, Victoria, Texas.

"My wife had a very troublesome cough. She used Ayer's Cherry Pectoral and procured immediate relief."—G. H. POMEROY, Humphreys, Ga.

S. S. S. SPECIFIC CO.,
Atlanta, Ga.

the capitol at Santa Fe, in the hopes that some day the seat of government may be changed to Albuquerque. In this hope, the Citizen is willing to endanger every territorial interest, including its own university; for no one but a fool could doubt that if the capitol bonds are enjoined, so will those for the insane asylum, the normal and agricultural schools, the university and all other territorial institutions. The result of such action would be that congress would legalize the capitol bonds if stopped by an injunction, while those for the institutions named would remain enjoined. Thus would the Citizen cut off its nose in the unsuccessful effort to spite its face. For cantankerous stupidity and inability to see beyond the end of its nose, the Citizen has shown itself an expert in its fight against statehood and against the retention of the capitol at Santa Fe.—Las Vegas Optic.

The New Mexican Gets All the News.
The New Mexican says the Albuquerque daily newspapers are stealing column after column of its legislative news without giving credit. The dailies should be as honest as the weeklies, and a number of them including the Advertiser, have already given notice that they were using the New Mexican's excellent report of the doings of the legislature; sometimes altered and cut down. The New Mexican is the only newspaper in New Mexico publishing any fully intelligent report of the business transacted by both houses.—Socorro Advertiser.

THE MAXWELL LAND GRANT Farm Lands! UNDER IRRIGATING DITCHES. Gold Mines! Choice Mountain and Valley Lands near the Foot of the FOR SALE.

For the Irrigation of the Prairies and Valleys between Raton and Springer One Hundred miles of large irrigating canals have been built. These lands with perpetual water rights are sold cheap and on the easy terms of ten annual payments, with 7 per cent interest. In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of Agricultural, Coal and Timber Lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance. Those wishing to view the lands can secure special rates on the railroad, and will have a rebate also on the same, if they should buy 160 acres or more.

The famous Gold Mining Camps near Elizabethtown and Baldy are thrown open to prospectors on more favorable terms than locations on Government land. Mining regulations sent on application. Daily, four-horse, covered coaches leave Springer at 7 a. m., except Sundays, for Cimarron, Baldy and Elizabethtown, and leave these points every morning, Sundays excepted, for Springer. The A. T. & S. F. and U. P. D. & G. railroads cross this property. WARRANTY DEEDS GIVEN. For full particulars apply to

Send for maps and illustrated pamphlets, giving full particulars.

PECOS IRRIGATION AND IMPROVEMENT COMPANY, EDDY, NEW MEXICO.

A Recommendation from Los Angeles.
632 Castelar Street, Los Angeles, Cal.—
After having suffered for a long time from acute rheumatism without obtaining relief, I used Chamberlain's Pain Balm and was almost immediately relieved. I highly recommend this as the best medicine known. D. M. Hamilton. For sale at Ireland's Pharmacy.

Sympathetic plain friend to inconsolable young widow—The last time I met your dear husband he stopped and spoke to me with such a sunny greeting, that I was the happier for it all day long. Young widow, still oblivious to everything except her loss—Yes, that was just like David. There was no woman so humble, or homely, or unattractive, or dull, but that he could find something pleasant to say to her, and would take pains to say it.

Like a Sieve.
The chief function of the kidneys is to separate from the blood, in its passage through them, of certain impurities and watery particles which make their dual exit through the bladder. The retention of these, in consequence of inactivity of the kidneys, is productive of Bright's disease, dropsy, diabetes, albuminuria and other maladies with a fatal tendency. Hostetter's Stomach Bitters, a highly sanctioned diuretic and blood depurative, impels the kidneys when inactive to renew their sifting function, and strain from the vital current impurities which infect it and threaten their own existence as organs of the body. Catarrh of the bladder, gravel and retention of the urine are also maladies arrested or averted by this benign promoter and restorative of organic action, malaria rheumatism, constipation, biliousness and dyspepsia also yield to the Bitters, which is also speedily beneficial to the weak and nervous.

We say and we say and we say,
We promise, engage and declare,
'Till a year from to-morrow is yesterday,
And yesterday is—Where?

A young man in Lowell, Mass., troubled for years with a constant succession of boils on his neck, was completely cured by taking only three bottles of Ayer's Sarsaparilla. Another result of the treatment was greatly improved digestion with increased avoirdupois.

Impossible, Mrs. Strongmind—If women would only stand shoulder to shoulder they would soon win the suffrage.
Dr. Guffy—But madam, that is something they can't do, with the present styles in sleeves.

The exposure to all sorts and conditions of weather that a lumberman is called upon to endure in the camps often produces severe colds which, if not promptly checked, result in congestion or pneumonia. Mr. J. O. Davenport, ex-manager of the Fort Bragg Redwood Co., an immense institution at Fort Bragg, Cal., says they sell large quantities of Chamberlain's Cough Remedy at the company's store and that he has himself used the remedy for a severe cold and obtained immediate relief. This medicine prevents any tendency of a cold toward pneumonia and insures a prompt recovery. For sale at Ireland's Pharmacy.

Willie's One Accomplishment: Do you know what Miss Cayenne says about you? said the young woman who bears tales. No, replied Willie Washington. She says that you have proposed to her seventeen times. Yes, that's quite true. It's the only thing that I can do that really seems to amuse her.

In a recent editorial the Salem, Oregon, Independent says: "Time and again have we seen Chamberlain's Cough Remedy tried and never without the most satisfactory results. Whenever we see a person afflicted with hoarseness, with a cough or cold, we invariably advise them to get Chamberlain's Cough Remedy; and when they do, they never regret it. It always does the work, and does it well. For sale at Ireland's Pharmacy."

A STRANGE CASE.

How an Enemy was Foiled.
The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that existed in my arms, hands and legs. I had to rub and heat those parts until they were sore, to overcome the strange weakness in my back and around my waist, together with an indescribable 'gone' feeling in my stomach. Physicians said it was creeping paralysis, from which, according to their universal conclusion, there is no relief. Since it fastens upon a person, it continues its insidious progress until it reaches a vital point and the sufferer dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit. When I saw an advertisement of Dr. Miles' Restorative Nervine, procured a bottle and began using it. Marvellous as it may seem, but a few days had passed before every bit of that creepy feeling had left me, and there has not been even the slightest indication of its return. I now feel as well as I ever did, and have gained ten pounds in weight, though I had run down from 170 to 157. Four others have used Dr. Miles' Restorative Nervine on my recommendation, and it has been as satisfactory in their cases as in mine."—James Kane, La Rue, O.
Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It is free from opiates or dangerous drugs.

Sold by all druggists

THE ABSENT ONE.

A Youthful Inquiry Developed What She Was Doing.

In a quiet little home on the west side the gentle and loving father was arranging all for the night, and as the little children gathered around his knee to listen to their father's bedtime stories, he was telling them of the young man who had been absent for some time, and how he had been so busy that he had not had time to write them.

Experienced in all of the trifling details which make the most perfect guardian of childhood, the kind father's precision and self-control were indeed a pleasing sight, and the most careful critic would find it hard to discover any flaws in this home management, which is the foundation of all good government and the cornerstone of the best civilization. Indeed nothing seemed to be wanting to make the scene more complete until the second twin, with that quick curiosity which oftentimes in children so quaintly betrays itself, even about the most remote and unfamiliar objects, suddenly exclaimed with startling distinctness:

"Papa, where is mamma?"
"Carefully placing the paragon bottle back in its accustomed place, the fond father, with the light of a great pride shining in his eyes, his whole face illuminated at the thought of the one being he had been long accustomed to reverse, replied: 'Darling, you must not ask for mamma. Tonight she is making one of the greatest woman suffrage speeches of her life.'—Life.

A Practical Test.
"I see by the newspapers," he observed, "that the city of Paris tried to borrow money and was offered 50 times as much as was asked for."

"Yes, that's true."
"I notice, too, that the German loan was oversubscribed a good many times."

"It indicates that money is plentiful and cheap."
"It does."
"Now, if I were to ask you to lend me a dollar would you offer to make it \$50 or \$75?"

"Certainly not."
"If I were to ask for a dime, would you offer to make it a \$3 bill?"
"No."

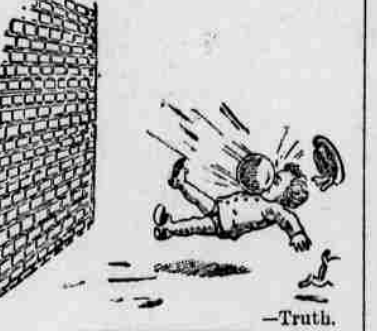

"If I should endeavor to negotiate the loan of a cent, I suppose you would not suggest that I take a nickel?"
"You are quite right."

"It is as I thought," muttered the would-be borrower as he walked away. "It is such a practical test as this that makes me skeptical of what I read in the newspapers."—Pittsburgh Chronicle-Telegraph.

The Discharge and the Recoil.

College Athletics.

He Hoped For Something Different.

"I liked your sermon very well, Dr. Fourty," said a member of the congregation at the close of the service, "all but that part of it in which you spoke of heaven as consisting of several entirely distinct heavens, one above the other."
"What is your objection to that?" asked the Rev. Dr. Fourty. "It is clearly taught in the Bible."
"Perhaps it is," rejoined the other dubiously, "but it seems so much like living in a South Side flat."—Chicago Tribune.

Easy to Get Along With.

Hicks—What an amiable fellow Willings is! I never knew him to wrangle with anybody.
Wicks—No. He is a perfect peacemaker. When another begins to differ with him, he says in his inimitable way: "Why should we quarrel about this thing? Accept my ideas, and all will be smooth and pleasant."—Boston Transcript.

A Michigan Isak Walton.

Two told me by an angler, a trout and grayling straggler, who said that he could coax the fish selectively to bite.
So skilled his every measure, they seemed to think it pleasure, he said, to hang upon his hook and fly out in the light.
Each graceful creature funny was really such a mimic, so far as this great fisherman was with their fate concerned.
They fairly rushed and wriggled, gasped, gulped, dived and stilled, and for a place upon his barb most anxious cried and feared.

He said in every water he made such fearful slaughter that people who came after found but mules or a cub.
They might as well try fishing by staying home and wishing or taking practice timidly by angling in a tub.
His catches were amazing, his reputation blaring; he chartered sturdy donkeys to transport his wondrous catch.
At luring fish treasures until they packed peak measures and all the bags available nobody saw his match.

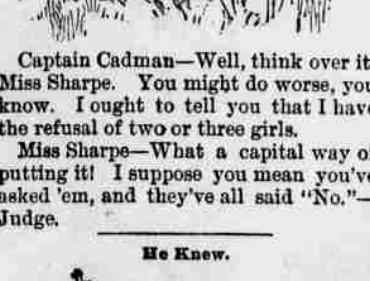

Then some of these were long ones, most beautifully strong ones; the trout were mostly two pound claps, the grayling bigger still.
The muskellunge attitudinized, thirty or forty pounds, and these in one day's catching would be a rowboat nicely all.
I should perhaps have added, and his stalwart stories padded, by remarking that he said he was a very truthful fish.

And such his deep anxiety to help and nurture prey that he could tell no falsehoods, for he told us this himself.
One day from care exempted, the streamer at last emptied, he fell among crabs, south of the lake, and found him lying still.
And his heirs with prospects healthy found he had them wealthy—his rich imagination he had left them in his will.
—Detroit Tribune.

A Retort Feminine.

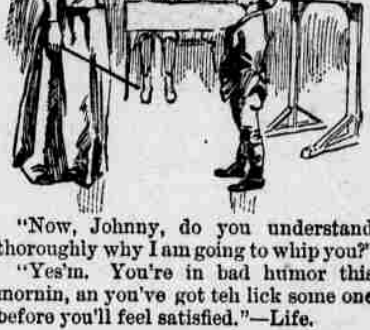

Safe Enough.

Now, Johnny, do you understand thoroughly why I am going to whip you?"

"Yes, you're in bad humor this morning, an you've got tell me some one before you'll feel satisfied."—Life.

On His Mind.

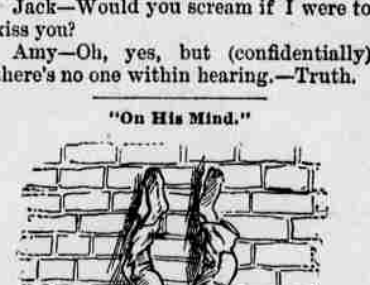

Jack—Would you scream if I were to kiss you?"

Any—Oh, yes, but (confidentially) there's no one within hearing.—Truth.

THE LEGISLATIVE LOG.

Anti-Administration Scheme to Abolish the Office of Solicitor General—Discussing Water Rights.

Employees Pay Resolution Passed Over the Executive Veto—New Laws and Many of 'Em.

In the house this afternoon Mr. Martin, by request, introduced a bill to abolish the office of solicitor general. A motion to advance the matter to immediate consideration was made, but the house instead adjourned until to-morrow morning.

H. J. R. No. 12, providing for the pay of employees, having passed the house this morning over the governor's veto, was also passed by the council late this afternoon by a vote of 8 to 4, Messrs. Perea, Anchaeta, Hadley and Galles voting "no."

The Council.

YESTERDAY FORENOON'S SESSION. Mr. Hadley presented a petition from the citizens of Albuquerque protesting against the passage of the Hinkle insurance bill.

In behalf of the committee on territorial affairs, C. B. No. 5, relating to the board of equalization, was adversely reported by a vote of 8 to 4, Messrs. Perea, Anchaeta, Hadley and Galles voting "no."

C. B. No. 86, an act prohibiting convicts from being witnesses in criminal cases, was introduced by Mr. Garcia and referred to the committee on judiciary.

C. B. No. 87, an act to enable the protesting of foreign wills, was introduced by Mr. Anchaeta and referred to the committee on judiciary.

C. B. No. 88, an act providing for a district attorney for the county of Lincoln, was presented by Mr. Curry and referred to the committee on judiciary.

C. B. No. 89, an act relating to and defining weights and measures, was introduced by Mr. Bunker and referred to the committee on territorial affairs.

H. B. No. 40, Mr. Lucero's public and private ditch law, was tabled indefinitely upon recommendation of the committee on irrigation.

The committee on judiciary favorably reported C. B. No. 53, Mr. Curry's bill regulating bail in criminal cases, with an amendment substituting H. B. No. 88, an act amending chapter 57 of the 28th legislative assembly, relative to the sale of drugs, medicines, etc.

The council then adjourned to this morning.

THIS FORENOON'S SESSION. The whole of this morning's session was taken up in considering the special order, C. B. No. 73, the bill relating to irrigation, framed by the committee on irrigation and reported through Mr. Lagrango. The matter was considered in committee of the whole with Mr. Chavez in the chair. After a heated discussion lasting for an hour or more, the committee reported the bill to the council with the recommendation that it be postponed indefinitely.

The report of the committee was adopted.

By unanimous consent, however, the bill was recommitted to the committee on judiciary, in order that a substitute might be framed acceptable to the members of the council.

The council then adjourned to this afternoon.

The House.

THIS FORENOON'S SESSION. Upon the conclusion of the reading of the journal, Mr. Martin entered an appeal from the decision of the chair, made yesterday to the effect that it required a two-thirds vote of the whole house to pass a bill over the governor's veto and he argued forcibly in favor of the appeal, calling attention to the rules prevailing in the national congress.

Mr. Christy thought as a reversal of the chair's ruling was in effect a passage of the bill over the governor's veto, it should require a two-thirds vote to sustain an appeal from the decision of the chair.

The speaker cited in support of his position section 1842 of the organic act, which makes it necessary to secure a two-thirds vote of each house in order to override a veto. He said that in the opinion of able lawyers the legal membership of the house was twenty-four, so that it requires a vote of sixteen to pass the resolution over the veto.

The chair was reversed by a vote of 18 to 18, Messrs. V. C. de Baca, Carr, Clancy, Christy, Hinkle, Locke, Mora and Thompson voting in favor of sustaining the chair.

"Does this pass the resolution over the governor's veto?" inquired Mr. Carr. "It does," said Mr. Speaker. "What effect it will have on the constitutionality of the resolution is another question."

Mr. Martin here presented a communication from the territorial employees of the legislature reciting the circumstances of their employment, the difficulties surrounding the attainment of their compensation, at the same time thanking their friends for the assistance rendered them in the matter. The communication ends by tendering their resignations to take effect upon their payment in full to date. The signatures of all the employees except House Committee Clerk J. C. Sears is appended.

Mr. Martin thought that immediate action should be taken in the matter, stating, however, that he hoped not a single employee would resign.

Mr. Sanchez was also heartily in favor of taking action.

Mr. Carr said that he was in favor of the payment in full of all employees. He thought, however, that there were too many employees and that the unnecessary ones should be discharged. Mr. Carr moved the reference of the communication to the committee on rules that they might take appropriate action.

Mr. Martin said that Mr. Carr was very inconsistent in that he favored the payment of employees at the same time that he considered such payment unconstitutional. He also attacked the governor's veto and concluded by a request to withdraw the memorial from the employees, presumably to arrange for more prompt action in their behalf than could be secured by the reference to a committee of the matter.

Mr. Pino spoke earnestly in favor of the employees.

Mr. Martin then moved that the memorial be spread upon the minutes of the house which was ordered without objection.

Mr. Martin moved that the resignation of the employees be not accepted. Mr. Christy raised the point of order that the resignations were not to take effect until the employees had been paid

so that the resignations were not properly before the house.

The chair was inclined to take this view, but Mr. Martin insisted on his motion and it was carried by a practically unanimous vote.

H. B. No. 74 and C. B. No. 27, relating to building and loan associations, were favorably reported by the committee on public institutions.

The rest of these, Mr. Sanchez's bill providing for the purchase of certain master roles, etc., owned by Mrs. Jose D. Sena at a cost of \$100, was on motion of its author put on its passage.

Mr. Martin desired inserted in the bill after the word "dollars" wherever it occurs "and no more."

Mr. Martin's amendment was adopted. The bill as amended passed by a unanimous vote.

H. B. No. 60, the sheriff's compensation bill, was favorably reported by substitute by the finance committee.

H. B. No. 59, the bill relating to the killing of animals by railroad trains, was adversely reported by the committee on railroads.

The same committee adversely reported H. B. No. 68, Mr. Leaden's bill, regulating railroad passenger rates, and H. B. No. 45, Mr. Callegos' bill, as to railroad and sleeping car rates and accommodations.

H. B. No. 67, Mr. Thompson's bill, amending the New Mexico pharmacy law, favorably reported with amendments by the committee on judiciary.

The bill was next put on its passage and carried by a vote of 19 to 3, those voting "no" being Messrs. Armijo, R. A. Baca and V. C. de Baca.

H. B. No. 75, fixing fees of justices of the peace, was favorably reported by substitute to the committee on judiciary.

The same committee favorably reported H. B. No. 70, relating to elections for justices of the peace, and adversely H. B. No. 71, amending section 2390 of the Compiled Laws, as to appeals from justices of the peace.

Substitute to H. B. No. 34, Mr. Clancy's bill as to police at county seats, was reported by the committee on judiciary with the recommendation that the council amendment be not concurred in.

The committee's report was adopted.

On motion of Mr. Martin a standing committee on conference consisting of five was appointed with a membership consisting of Messrs. Hinkle, Pino, Thompson, Clancy and Sanchez to consider H. B. No. 34, and other measures upon which there might be differences of opinion.

H. B. No. 108, an act to provide for the publication and distribution of New Mexico reports, was introduced by Mr. Leaden and went to the committee on judiciary.

H. B. No. 72, regulating the distribution of water, was reported by substitute by the committee on irrigation.

Upon motion of Mr. Carr the house then adjourned.

MR. CARR'S GAMBLING BILL. Mr. Carr's bill introduced yesterday, preventing the entrance of minors into gambling houses, is quite a strict one. It provides that minors going into such houses shall be fined not more than \$20 nor imprisoned for more than ten days. The owner of a gambling house allowing minors to enter may be fined from \$25 to \$100 or imprisoned from thirty days to three months. For a second offense he shall forfeit his license. The owner must post a notice to the effect that minors are not allowed on the premises.

HELP FOR THE SCHOOLS. A brief, yet most important, bill is that introduced in the house yesterday at the request of Superintendent of Public Instruction Amando Chavez. It makes it lawful for Indian children to attend the public schools of this territory, provided the government pays into the school fund of the district where such child or children attend a sum to be agreed upon between the secretary of the interior and the superintendent of public instruction. This shall not interfere with territorial control of such schools. The arrangement contemplated by the bill would afford very great assistance to the county school funds, as it will add to the school fund to a very considerable extent. That the government will enter into such a compact is known to be true, because it is in line with the present policy of the Indian bureau and because, upon Governor Thornton's recent visit to Washington, he was assured that the interior department would be willing to enter into such an arrangement.

NEW LAWS. The following measures have become law by receiving the governor's signature:

C. B. No. 65, an act to prevent the introduction of diseased cattle into New Mexico.

H. B. No. 8, an act for the adjustment and reappropriation of the property and debts of Guadalupe and San Miguel counties.

H. B. No. 37, an act to establish a weather and crop service for the collection and dissemination of crop statistics and climatological data.

C. B. No. 25, an act providing for the pay of sheriffs for feeding prisoners.

C. B. No. 55, an act to prohibit the sale of tobacco, cigars, cigarettes and cheroots to minors.

C. B. No. 46, an act to amend the law as to the office of oil inspector and the tests for illuminating oil.

C. B. No. 40, an act to provide for the maintenance of the military institute at Roswell.

C. B. No. 57, an act to provide an addition to the insane asylum for the accommodation of all insane persons of the territory and for other purposes.

H. B. No. 3, repealing sections 988, 989, 990 and 991 of Compiled Laws of New Mexico, relating to the duties of married persons.

H. B. No. 19, an act to amend section 283 of the Compiled Laws of 1884 of the territory of New Mexico.

H. J. M. No. 3, Mr. Carr's free silver memorial.

H. B. No. 29, an act to repeal chapter 69 of the session laws of 1889 with reference to habeas corpus.

ANOTHER SCHOOL BILL. Mr. Hinkle has introduced a bill requiring school directors and boards of education to make and publish quarterly

a full statement as to the money received and expended. The bill also regulates the administration of school funds and makes it a misdemeanor for any school director or a member of a board of education to have any connection directly or indirectly with any contract made or let by such board.

TWO MORE DISTRICT ATTORNEYS. Two bills, each providing for a new district attorney, were introduced in the council yesterday afternoon. One of these gives Lincoln county an attorney on a salary of \$300 from the territory and \$200 from the county, besides fees. The other provides for an attorney for Union county on a salary of \$150 from the territory, \$500 from the county and the duty of which shall be the duty of the judicial district they are or would be makes an additional attorney necessary.

BIOGRAPHICAL—REPRESENTATIVE LOPEZ. Hon. Ricardo Lopez, one of the quiet and solid men of the lower house, was born at Chamisal, Taos county, in 1855. Being denied the privilege of attending school he did not, on that account, allow himself to remain uneducated, but promptly, by a course of self-instruction, made himself competent to grapple with the problems of life. That he has done so is shown by the happiness of the home in which he now lives, surrounded by a family composed of a wife and four children. His occupation is that of a farmer at the place of his birth and in this business he has made a success that shows the energy and industry of his attention to work.

Mr. Lopez has been school director in his county and last fall was chosen by his home people to represent them in the assembly. At the conclusion of the present session he will return to his constituents with a consciousness of duty well done to receive from them the gratitude which is always bestowed upon fidelity to duty.

THE QUESTION OF A CODE. Judging from the activity of the antic code contingent in the lobby of the council this forenoon, a very vigorous effort is going to be made to defeat the bill providing for the adoption of the new method of procedure in the courts. The fact that the code is the property of the members of the bar are favorable to the measure; the fact that a non-partisan commission has spared no pains to draft it; the fact that it will enable the courts to transact just about double the business in a given time that they now handle; and the fact that it does away with the costly master and materially lessens the cost of litigation—these facts will doubtless inspire the assemblymen to give the subject most careful consideration before they finally pass judgment on the bill.

At the request of many members of the Bar association the New Mexican prints the age and nay vote of the members of the organization on the question:

Ayes—G. D. Bantz, J. H. Crist, J. H. Knebel, J. P. Victory, N. B. Laughlin, A. B. McKullen, G. A. Richardson, T. N. Wilkerson, E. W. Dolson, W. B. Childers, G. Hill Howard, E. L. Bartlett, A. B. Fall, B. M. Read, Frank Springer, A. B. Elliott, W. C. Wrigley, W. A. Hawkins, H. B. Hamilton, Thomas Smith, W. T. Thornton, H. L. Warren, A. A. Jones, William Berger, G. Knebel, N. S. Berry, J. Leahy, H. B. Ferguson, L. B. Prince, W. S. Williams and O. N. Marron.

Nays—C. A. Spiess, J. G. Fitch, T. B. Catron, E. A. Fiske, L. G. Read, L. Sulzbacher, L. C. Fort, S. B. Newcomb, R. L. Young, B. S. Rodey, N. B. Field, E. V. Chavez, Chilion Riley, S. Alexander, F. W. Clancy.

LEGISLATIVE CHAT. Col. J. G. Albright is back among the legislators.

Assistant Journal Clerk James Winslow is quite sick. He is threatened with pneumonia.

The news that Gov. Thornton had signed the bill appropriating \$30,000 to the insane asylum caused general rejoicing in Las Vegas.

Capt. William French returned last night to Grant county. He said before leaving that he thought it was necessary to complete his happiness was the passage of that Mogollon bill.

The bill fixing sheriffs' salaries and paying them out of the territorial treasury was with some amendments favorably reported by the committee on finance today.

The Albuquerque Citizen notes: "Mrs. George F. Albright and Mrs. Borden went to Santa Fe last night to lobby for a \$2,000 appropriation for the Children's Home in this city."

Representative Leaden's bill reducing railroad passenger rates to 3 cents per mile, was adversely reported by the house committee on railroads this morning, as was also the bill regulating sleeping car rates and accommodations.

Representative Gutierrez has introduced a bill giving to the jury in criminal cases the right to impose the penalty. The bill concludes: "In no case shall the judge presiding in any court have the right to impose the punishment."

Representative Gregorio Gutierrez has introduced a bill providing for the compensation of coroners and police officers as follows: In counties of the first class, respectively \$50 and \$40 per month, and in counties of the second class, respectively \$45 and \$35 per month. What population shall constitute counties of the two classes is left blank in the bill.

Mr. Christy's bill prohibiting liquor traffic and gambling within two miles of the county college appears to have been well received by the assembly, as well as to those which shall make application for licenses in the near future. The fine provided is from \$100 to \$500.

The house bill preventing the fouling of waters by manufacturing, domestic or other use, introduced yesterday, is intended to keep pure streams, ponds and springs used for drinking purposes. It is to be enforced by a fine of from \$100 to \$1,000 and of from three months to one year imprisonment.

Councilman Bunker has introduced a bill enforcing the use of standard United States weights and measures in purchases and sales in this territory under a

penalty of fine and imprisonment. For the purpose of enforcing the law a sealer of weights and measures is to be appointed by the governor, the duty of which sealer it shall be to visit various portions of the territory. The sealer shall give a bond of \$1,000 and shall receive a fee of 25 cents for each test made.

The bill abolishing county school superintendents in counties with less than \$25,000 taxable property, which has passed the house, is worded so as not to go into effect until January 1, 1897. Under the assessment of 1894, the counties not affected are Bernalillo, Colfax, Dona Ana, Grant, Santa Fe, San Miguel, Socorro and Valencia.

St. Valentine's day was not allowed to pass unobserved in the assembly, a number of the statesmen and employees being remembered. House Interpreter H. L. Ortiz received three valentines. The pleasure of receiving the first, which was on the embroidered "token of love" order, was somewhat dimmed by the fact that the other two bore pictures of a certain well known animal with long ears and a mischievous smile.

ROUND ABOUT TOWN.

Snow shovels are in demand these days.

St. Valentine is delivering his messages on snow shoes to-day.

The guild meets to-morrow at 2:30 at the residence of Mrs. R. J. Palen.

The Building & Loan association will meet to-night at the office of W. E. Griffin.

City Marshal Torres has a force of men doing good work cleaning snow off the side walks.

The Bachelors' Valentine ball at the Palace hotel to-night promises to be a brilliant affair.

Last night was the coldest of the year. Mercury touched 7 below zero, and at 6 a. m. it was 5 below.

The bracing air has vibrated during the fleeting hours of the day with the merry music of sleigh bells. Something not common in Santa Fe.

Sleigh bells and cow bells and merry yells filled the air last night. Many a young man was out with his best girl to enjoy skimming over the frosty beauties.

Prof. S. C. Putnam, of San Francisco, will deliver his popular lecture on "The Rights of Man" in the court house to-night at 7:30. No admission fee will be charged.

The body of Mrs. Freeman, late housekeeper at the Palace hotel, has been embalmed and the funeral will be delayed until Monday or Tuesday awaiting the arrival of a son from Canada.

The New Mexican acknowledges the receipt from Prof. Charles Longmeare, chairman of the committee on invitation, of a polite and cordial invitation to attend the meeting of the McGinty club at El Paso on February 20.

Owing to the inclemency of the weather the lecture which was to have been given this evening at the Presbyterian church. Due notice of the date when the lecture will be given will be published.

Owing to the continued illness of Chief Justice Read at his home in Iowa, the absence of Justice Stone in Spain, taking testimony in the Peralta land fraud cases, and the sickness of Justice Murray at the Palace with a severe and threatening cold, the United States court of private land claims has not been able to hear any cases this week. Justices Fuller and Scales are in the city, but being a minority of the court, cannot transact business. It is earnestly hoped that one or both of the sick judges may soon be on duty and that the important business before the court may be proceeded with.

When Others Fall. Hood's Sarsaparilla builds up the shattered system by giving vigorous action to the digestive organs, creating an appetite and purifying the blood. It is prepared by modern methods, possesses the greatest curative powers, and has the most wonderful record of actual cures of any medicine in existence. Take only Hood's.

Hood's Pills are purely vegetable and do not purge, pain or grip, 25c.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.
