New Mexican Printing Company. "Santa Fe Daily New Mexican, 07-13-1895." (1895). https://digitalrepository.unm.edu/sfnm_news/5056

This Newspaper is brought to you for free and open access by the New Mexico Historical Newspapers at UNM Digital Repository. It has been accepted for inclusion in Santa Fe New Mexican, 1883-1913 by an authorized administrator of UNM Digital Repository. For more information, please contact disc@unm.edu.

Chafing dishes figure on the handy list of articles for house keeping, light or otherwise. As a matter of fact they are so wonderfully convenient, that those who have once used them will never be without them. With the all but indispensable chafing dish, you can warm or cook anything like soup, or a steak, or eggs in an instant, and the consequent saving of time and trouble is enormous. The cost of the article is nothing by comparison. It always pays to save, and the chafing dish is pre-eminently the saving article for housekeepers. Ours are the best at \$3 and up.

CHRISTIAN ENDEAVORERS.

What the Great Religious Gathering is Doing in Boston.

Boston, Mass., July 13.—This the fourth day of the great Christian Endeavor conference is designated, "Good Citizenship." The leading speakers are men whose fame is the result of their efforts for municipal and state reform. The many thousands of delegates began the day as they have every day thus far with devotion. Prayer meetings were held in a score of churches at 6:30 o'clock. Many impromptu meetings were also held on the streets. The weather was perfect, as it had been since the convention opened. An hour before the doors of Mechanics' Hall opened several thousand persons were singing Endeavor songs, while they waited on the sidewalks. On the common vast numbers were congregated. At this meeting Bishop Alexander Walters, D. D., of Jersey City, spoke interestingly of the responsibility of the Afro-American race in American citizenship. Congressman Elijah Morse, of Massachusetts, aroused great enthusiasm by a strong speech on citizenship. Bishop B. W. Arnett, D. D., of Wilberforce, Ohio, was the leading speaker at 10 o'clock. At the tent of the Christian Endeavor societies, a lively and earnest parliament on the subject, "What are you going to do for Christian citizenship?" was conducted by Rev. William G. Clarke, of Chicago. In the morning meetings at the hall the presentation of a banner to the union making the best record in promoting citizenship was the feature. In both tents under the program title of "Voices from North America," six minute reports on civic improvements were made by delegates, representing all parts of the country.

THE MARKETS.

New York, July 13.—Money on call nominally easy at 1 1/2 per cent; prime mercantile paper, 3 @ 3 1/2.
Silver, 66 1/2; lead, \$3.12 1/2.
Chicago.—Cattle, market strong; Texas, steers, \$2.75 @ \$4.40; bulk, \$3.35 @ \$3.90. Sheep, steady.
Kansas City.—Cattle, market firm to steady; Texas steers, \$2.65 @ \$4.10; Texas cows, \$2.10 @ \$3.20; beef steers, \$3.30 @ \$5.00; native cows, \$1.50 @ \$3.50; stockers and feeders, \$2.10 @ \$4.65; bulls, \$2.00 @ \$3.45. Sheep, steady.
Chicago.—Wheat, July, 65; Aug., 65 1/2; Corn, July, 45 1/2; Sept., 46 1/2. Oats, July, 23 1/2; Sept., 22 1/2.

Santa Fe Company Wants It.

Springfield, Ill., July 13.—The recent agitation to purchase the Chicago, Peoria & St. Louis railroad by the Cairo Short Line has aroused the Atchison, Topeka & Santa Fe people to the importance of this line as a part of their system. A party of Santa Fe officials, headed by Receiver Walker and Traffic Manager Biddle, have made a thorough inspection of the roadbed and equipment. St. Louis, July 13.—Receiver Walker was asked to-day whether the Santa Fe contemplated purchasing the Chicago, Peoria & St. Louis railroad as reported. He said: "I came down over the road yesterday and stopped at Peoria and Pekin. This is how the report started, I suppose. The line has for several years been a friendly neighbor of the Santa Fe and there is considerable interchange of business between the two. What the Santa Fe people may do I can not say, but my trip over the road had nothing to do with the purchase."

NATIONAL EDUCATORS.

Great Denver Meeting Has Adjourned.—The annual meeting of teachers will spend their vacations in the mountains.

Denver, July 13.—The National Educational association's convention, which closed last night, equalled, if it did not exceed in point of attendance, the memorable Chicago meeting. The registered excursion tickets have been deposited with the railways to secure an extension of the time limits. Several thousand teachers left the city to-day for Manitou and other points in the mountains to spend vacations. Hundreds have departed on excursions to Salt Lake, California, Yellowstone Park and the City of Mexico.

Minnesota Silver Clubs.

St. Paul, July 13.—Congressman Chas. A. Towns, of the 6th district, Lieut. Gov. Frank A. Day and other silver Republicans had a conference, and decided not to call a silver convention, but to begin a campaign of education. They will organize silver clubs in the ranks of the Republican party. The first club will be organized at Duluth.

Immense Wealth of a Bishop.—City of Mexico, July 13.—Archbishop Guillou, of Oaxaca, has inherited from English relatives \$18,000,000 in gold, which, at the present rate of exchange, equal nearly \$25,000,000 of Mexican money. Archbishop Guillou was already very wealthy. There is on foot a movement to bestow upon him a mitre by the church authorities.

GOLD AGAIN LEAVING.

First Shipment Since the Syndicate Contracted to Prevent Exportation.

New York, July 13.—Gold to the amount of \$250,000 has been engaged for shipment to-morrow to Europe, by Neillage, Colgate & Co.

It was fortunate for the bull contingent on the stock market, the announcement for the shipment of \$250,000 in gold for shipment to-morrow was not made until after the close of business on the exchange. Had it been known the first break in the lines of the bond syndicate was about to be made there would undoubtedly have been a flurry on the board in which values might have suffered severely.

The amount of gold to be exported becomes important only by reason of the fact of its being the first gold shipment since the bond syndicate contracted to prevent the exportation of gold. Members of the syndicate decline to express an opinion on the subject.

A member of the firm of Neillage, Colgate & Co., stated that shipment would be made in the ordinary routine of business. Said he: "Our firm in London needed gold, and, there being a profit in shipping it at the present rate of sterling exchange, we decided to send it forward."

A Great House.

Dallas, Tex., July 13.—A diagram of the great Corbett-Fitzsimmons building displayed at Dan Stewart's office shows an octagon structure covering 400 feet of ground, or nearly four acres. The following are its dimensions: Unreserved seats 30,866; reserved seats, 17,688; seats in balcony 2,466; seats for the press 632; total 52,815. There never was such a theater built in the United States. The Democratic wigwag at Chicago had 50,000 and the Music hall at the World's fair no more. The price ring in the center will be forty feet square, four feet from the ground. Enormous as the capacity is it is expected that every seat will be taken.

Paris, July 13.—Delegates Thery and Fongier passed the latter part of last week with M. Kardoff and Counts Mirabach and Arndt, endeavoring to reach an agreement. After much discussion Kardoff abandoned the idea of the gradual reformation of silver by a system of seigniorial rights, and other Germans, signed the French proposal, which provides for the convention of an international bimetallic conference which shall fix the ratio of silver and gold 15 1/2 to 1.

INCREASING FORCES.

Western Railroads Hiring Many More Men in Consequence of Business Revival.

Omaha, Neb., July 13.—All western railroads are again increasing their forces. During the panic the Milwaukee laid off 20 per cent of its employees, but now orders have been issued for the increase of its force in all departments. Nearly, if not quite all the old force will be at work soon, and by August 1 possibly more than were formerly employed. The Union Pacific is opening its Cheyenne shops, and the Burlington is increasing its shops at its oldroldge. The Elkhorn is also ramping the benefit of better times, and its force on the sections and in the shops is being increased slowly.

Campos Tired of It.

New York, July 13.—A special to the World from Havana says: Telegrams received from Spain make it evident that Gen. Campos wishes to be relieved of the command in Cuba. He sees small prospect of leaving the island in triumph and with honor.

Iron Business Booming.

Cleveland, Ohio, July 13.—The Iron Trade Review this week says: The fact that even under the latest advances buyers of foundry iron are still trying to make purchases beyond the time limits set by most producers would indicate a belief that the advance had not yet spent itself, and that buyers are getting work in hand that makes them more willing to cover fully at current prices than they were to buy in 100-ton lots four months ago. Consumption is still plainly in excess of production, and the tonnage of finished steel in all forms shows no signs of relaxing.

Crop Estimates Given Away.

New York, July 13.—There is much kicking among grain men on the Producers exchange to-day over the leakage of the crop report. Insiders, it is alleged, are about twenty-four hours ahead of the rank and file of traders in getting the report. A prominent operator who is indignant at the alleged tips became possessed Thursday afternoon of figures on the conditions of spring and winter wheat, said to have come direct from Washington. It is said the northwest also had a straight tip on the government report, for they were heavy sellers in this market yesterday.

ELEVATED BICYCLE ROAD.

Chicago and Milwaukee to Be United by an Elevated Plank Road Exclusively for Wheelmen.

Milwaukee, Wis., July 13.—Chicago and Milwaukee are to be united by an elevated bicycle road. Work will begin as soon as right-of-way into the cities has been granted. The plan is to construct a wooden elevated road sixteen feet wide. Though the toll will be only 10 cents, its promoters predict that it will be patronized by 20,000 bicyclers per week.

Weekly Bank Statement.

New York, July 13.—The weekly bank statement is as follows: Reserve, increase, \$1,123,600; loans, decrease, \$2,512,700; specie, decrease, \$231,600; legal tenders, increase, \$987,400; deposits, decrease, \$1,908,200; circulation, increase, \$44,300. The banks hold \$33,405,400 in excess of legal requirements.

School Teachers.

Notices is hereby given that the regular annual examination of applicants for public school teacherships in Santa Fe county will take place at the county court house, July 26 and 27, 1895. The board of examiners consists of District Attorney J. H. Orlie, Mrs. Anna L. Hurt and the undersigned.

FLAT-OPENING BLANK BOOKS.

Being satisfied that if you have once used a flat-opening book, you will always use them, and in order to get you to try one the New Mexican Printing Co. of Santa Fe, will sell you FLAT-OPENING BLANK BOOKS, bound in full leather, with patent FLAT-OPENING STUBS, with your name and the number, or letter, of the book on the back in gilt letters, at the following low prices:

5 gr. (400 pages) Cash Book - \$2.50; Journal - \$3.50; Ledger - \$5.00. They are made with pages 10 1/2 inches, of a good ledger paper with round cornered covers. The books are made in our bindery and we guarantee every one of them.

LITTLE FRANC'S CLEVELAND

The Star Gazers Are Laying Out Her Pathway Through Life.

Chicago, July 13.—The Times-Herald's Washington dispatch says: Inasmuch as President and Mrs. Cleveland went to the Bible for names for their first two daughters, it is quite reasonable to expect them to look there again for a name for the little girl born at Gray Gables. Mr. and Mrs. Cleveland received thousands of suggestions of names for the other children. If the Bible is drawn upon again, as those who know the president and Mrs. Cleveland expect it will be, there are a dozen names which would associate well with Ruth and Esther. Ruth signifies beauty and Esther, a star, good fortune. Some people think the baby may be called Frances, which is Mrs. Cleveland's name, and others have particular reasons for saying that the baby will be called Mary. The little girl came into the world as the twenty-second degree of Virgo (the constellation of the virgin) was culminating and the fifth degree of the sign Sagittarius (the archer) was ascending the eastern horizon. These signs occupy the same position in the horoscope of this baby's sister, Esther, who was born in the White house in September, 1883. Jupiter is the ruler of the child's horoscope, and is termed by astrologers "the greater fortune." When he presides at a birth or rules over a nativity he gives a tall and erect stature, handsomely formed high forehead, large, penetrating and expressive eyes, well cut features (nose rather prominent) and dark brown hair, which will recede from the temples. The baby is likely to become somewhat stouter than Esther, and will not be quite so tall. Her intellectual gifts are indicated by Mercury, who is conjoined with the Sun and Jupiter, and configured with Venus and with the mercurial Uranus. These show the intellectualty of a high order, keen perceptive faculties, a retentive memory, an active mind and excellent judgment. She is endowed with artistic and scientific abilities, which grasp ideas quickly, learn with ease and become accomplished in music and literature. She will be generous and free, but proud, merciful, affectionate, charitable and liberal, but not easily imposed upon; a pleasing conversationalist, refined in character and of exceedingly attractive personality, fully equipped with all the natural requirements to enable her to become a shining light in society. Her horoscope contains most fortunate conditions for marriage—much better than either of her sisters.

Last of the Populists.

Topeka, July 13.—Governor Morrill said to-day that he had determined to remove J. J. Barnes, the remaining Populist on the penitentiary board.

SCANDAL IN CHICAGO.

Two Aldermen Indicted for Soliciting Bribes—Change in the Law Recommended.

Chicago, July 13.—The special grand jury, which has been investigating the city council scandal, was discharged to-day after returning but two indictments. Aldermen Finkler and Martin were indicted for attempting to secure bribes to prevent the passage of the pure ice ordinance. The jury recommended that the law be changed so as to admit of imprisonment in all cases involving the acceptance of bribes.

WOOL GOES UP AGAIN.

Advance of 2 Cents Just Reported—Demand Still Continues.

Boston, July 13.—The Commercial Bulletin will say to-morrow of the wool market: "Never has there been such a sustained demand for wool. This is the third successive week of heavy sales. Boston, in the last three weeks, has sold 31,000,000 pounds of wool." There has been another advance of 2 cents per pound in fine wool, territory being again 35 to 38 and the choicest at 45 cents, clean. The advance is now 20 per cent from the lowest point. Sales of the week are 7,477,000 pounds domestic and 3,894,000 foreign, against 6,890,000 domestic and 3,772,000 foreign last week, and 1,840,000 domestic and 440,000 for the same week last year.

NICKEL PLATE SUE.

Railway Man Claims Large Damages for Being Blacklisted.

Norwalk, Ohio, July 13.—Frank Schaefer, of Bellevue, has brought suit against the Nickel Plate railway for \$5,300. He claims that the company discharged and blacklisted him without cause, and he finds it impossible to obtain a position on any other railroad until the Nickel Plate furnishes him with a written statement that he was not concerned in the big railway strike of last year.

AMERICAN WHEELMEN.

Well Attended Meet at Asbury Park—Permanent Racing Rules Adopted.

Asbury Park, July 13.—The weather this forenoon was favorable for the wheelmen who participated in the trial heats of the six races, which constitute the program for the last day of the annual meet of the league of American wheelmen. The attendance was large. The conference between the representative committee of the league and the cycle board of trade, during the week, have resulted in some good and insure the prosperity of the sport. The board has agreed that the league shall have exclusive control of every form of cycling races and has decided to co-operate with the league in the enforcement of all racing rules.

KINDERGARTEN.

Miss Guilford will, when her private classes resemble open a kindergarten on the most modern and approved principles, assisted by another thoroughly trained teacher.

THE NATIONAL CAPITAL. NEW MEXICO NEWS.

Important Annex to the White House Contemplated—Alarming Mortality in Cuba.

Washington, July 13.—Col. John M. Wilson, of the engineering corps, in charge of the White house and other public buildings and parks about Washington, in his annual report recommends an appropriation of \$250,000 for the erection, in connection with the executive mansion, and directly opposite to the treasury building, of a granite structure for offices for the chief executive. This improvement would serve a double purpose, by relieving the mansion of the terrible crush incident to the evening official receptions.

ALARMING MORTALITY.

The report from Santiago says: The death rate is increasing at an alarming rate. At Puerto Prince the military hospital is crowded and the disease is of the most malignant type. This being near the center of the island of Cuba would indicate that the epidemic is working west toward Havana.

The news from San Juan comes as a surprise, as nothing had been previously heard from there since April 24, when only one death was reported. The United States consul writes:

"While the military barracks are never quite free from disease, the present condition of affairs bids fair to produce a serious epidemic during July, August, September and October. There are 300 or more cases in the military hospital, and the disease seems to be increasing, while the mortality is alarming, reaching as high as 80 or 90 per cent."

Surgeon General Wyman is redoubling his efforts to protect the American coast against infection.

STRIKE AT SAN PEDRO.

Herman Goodman Has Encountered a Fine Body of Gold Ore in the New Mexico Mine.

Great excitement prevails over the discovery of high grade gold ore in the New Mexico mine at San Pedro.

Herman Goodman, who owns a half interest in this property and who holds a six month lease on the other half, is in Albuquerque patiently waiting a report from Assayer Jenks regarding his ore. Mr. Goodman claims that the vein is two and one-half feet thick and estimates the value at from \$75 to \$200 per ton. The strike was made on July 8, and since that time every available moment has been used in getting out the precious metal, and there are now some fifty tons of this ore on the dump. Emmert, who owns the remaining half interest in the mine, leased Goodman his interest for six months. If Goodman's assay pans out at an anticipated it will entice capital and energy which now lie dormant.

Going to Mexico in July? You ought to take one of the cheap excursions over the Santa Fe route and Mexican Central lines to City of Mexico and return. The ticket rate is about 1 cent a mile; dates of sale July 6 to 20. Talk it over with local agent.

Board of Trade.

The Santa Fe Board of Trade, at its annual meeting yesterday afternoon, elected the following officers for the ensuing year: E. T. Webster, president; E. L. Bartlett, vice-president; Geo. W. Knebel, secretary; Sol. Spiegelberg, treasurer; J. G. Schumann, Bernard Seligman, E. L. Bartlett, L. B. Prince, E. T. Webster, S. H. Day and Sol. Spiegelberg, trustees. The subject of the Fort Marcy reservation was thoroughly discussed and it was finally decided to supplement the recent letter of Gov. Thornton on the subject to the secretary of the interior with one from the president and secretary of the board. This letter will be prepared and forwarded in a few days.

Voyagers for Pleasure.

Or business, persons on the point of taking an "outing" on land or sea, yachtsmen and tourists need and should be provided with some preventive of sea sickness and corrective of the occasional ill effects of unaccustomed air, food and water. Many nervous persons experience qualms akin to sea sickness when traveling by rail. They, too, require a medicinal safeguard. The best in existence is Hostetter's Stomach Bitter, which promptly relieves nausea, sick headache, biliousness, cramps and colic, etc. If business calls you to some locality where chills and fever or bilious remittent is prevalent, don't fail to provide yourself with it. For constipation, rheumatism and ineffectuality of the kidneys it is an excellent remedy. Eminent physicians commend it highly. Lay in a supply before you start by boat, steamer or train. It is a most serviceable traveling companion.

Book Binding at Reduced Rates.

During the past few months many orders received by the New Mexican for the binding of books, magazines and pamphlets have necessarily been more or less neglected on account of a rash of other business. But during the dull summer months especial attention will be paid to this class of work. Thus all orders now on file will at once be filled and all those who are in need of any work in the line of binding can rely upon having their orders promptly executed in the best style of the art and at reduced rates. Send in your orders to the New Mexican.

Wanted:—A wide awake man to make a systematic distribution of our new work. Everybody wants it! Everybody gets it. Few can do without it. The easiest method of making money fast and at the same time please everyone to whom you give a copy absolutely free. We pay from \$10 to \$150 in cash for distributing our goods. All our representatives average at least \$10 a day. Give reference and full particulars. Address American Cash Coupon Co., 1020 Chestnut St., Philadelphia, Pa.

The town of Cerrillos is entirely out of debt.

The Cerrillos streets have been thoroughly cleaned and present a greatly improved appearance.

A. C. Sloan, now of Colorado Springs, has sold his residence at Las Vegas to Mrs. Clara A. Carruth for \$2,500.

Max Goldberg is dipping 7,000 sheep for J. M. Pabbes, of Colorado Springs, at the Hild ranch, near Las Vegas.

Cattle shipments from all over New Mexico and Arizona are falling off, as is shown by the cattle inspectors' returns.

Superintendent J. C. Giffney is working six men on the Gold King at San Pedro. The vein is improving and pans well.

The Santa Fe is preparing to put in steel culverts along the Las Vegas division. Nineteen car loads are now in Las Vegas.

Las Vegas Optic: It is a busy scene about the new normal school building. The handsome brown stone is now being laid on the first story.

Northern New Mexico is getting pretty well soaked. Another heavy rain is reported in the vicinity of Springer this afternoon.—Las Vegas Optic.

Dr. D. C. Kelly, of Bland, came from Santa Fe Wednesday night, en route to San Pedro, but was taken with a chill here, and is now confined to his bed at the Palace hotel, says the Rustler.

A carload of hardwood lumber and fixtures to finish the Montezuma club rooms in the Masonic temple arrived yesterday. As soon as put in place the building will be completed.—Las Vegas Examiner.

Cattle Inspector P. J. Tower, who gave the Optic the very large figures of his inspection for April and May, nearly 105,000 head, says his report for June will show larger movements than either for April or May.

Las Vegas Examiner: Seldomridge & Pebbles have 6,000 sheep at the Las Vegas pens to dip, but as they have been put off some time on various excuses it is probable that the herd will be moved to Gallinas springs and dipped there.

M. W. Flournoy, of the First National bank, and W. C. Purple, of the Crescent Coal company's office, left last night for southern California, where Mrs. Flournoy and children are sojourning during the summer months.—Albuquerque Citizen.

Albuquerque Democrat: A. E. Osborn, who has charge of the Episcopal church at Gallup, writing to a friend in this city, says the concert recently given for the benefit of the boy who was seriously injured by being run over by a train at Gallup, netted \$235, a goodly sum certainly.

Gross, Blackwell & Kelly, the St. Louis house of wool buyers, have this season purchased among other wool clips, those of W. L. Crockett, 30,000 pounds at 8 cents; F. S. Kays, 70,000 pounds, at 8 cents; Geo. Longmore, 60,000, at 8 cents; James Garrard, 30,000, at 8 cents; A. G. Mills, 40,000, at 7 cents. These are some of the New Mexico fine wools, and the above firm are large handlers of that class of product.

Conundrum Answered.

It is now freely intimated that Pedro Garcia, the accused master mind in the recent cold blooded murders of innocent sheep herders in the Cabezon region, was seen a few days ago at San Pedro. It is important that the whereabouts of the supposed desperado should be located at once. Whose duty is it?—Albuquerque Citizen.

Going to City of Mexico in July?

The Santa Fe route and Mexican Central will take you through to City of Mexico and return, on fast express trains, at about 1 cent per mile, if tickets are purchased any day between July 6 to 20. It is a trip to look forward to, and then think of years afterward.

Letter List.

List of letters remaining unclaimed for in the postoffice at Santa Fe, N. M., for the week ending July 12, 1895. If not called for within two weeks will be sent to the dead letter office at Washington.

All contracts and bills for advertising payable monthly.
All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to The Editor, Letters pertaining to business should be addressed to New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

SATURDAY, JULY 13.

The Roswell Record is entirely too thin skinned. It should know better than to surmise that the New Mexican would accuse it of endorsing such cheap political clap-trap as appears in the Las Cruces Republican.

In the political future, observes an exchange, some of the prominent men who rested their legs under Mr. Chauncey M. Depew's mahogany at his recent harmony dinner, may feel very much inclined to exercise their aforementioned limbs by kicking one another.

What is being done toward ferreting out those assassins that recently did such vicious work in Bernalillo county? San Miguel county also, if reports be true, has an ugly case to look after. Let the law officers in Bernalillo and San Miguel move promptly. Crime must be put down in New Mexico.

Long power coats. Denver bicyclists took the two first prizes offered in the great meet at Asbury Park, N. J. If Kentucky had our altitude and pure air her race horses would have no difficulty in distancing all the world. Some day Crocker, the Dwyers or Bob Pate will find this out and put up a string of racers that will do credit to the Rocky mountains.

The government crop report for July makes a showing that will still further increase the outlook for a business boom this fall. The percentages are: Corn, 99.3; winter wheat, 65.8; spring wheat, 102.2; oats, 83.2; winter rye, 92.2; spring rye, 77; barley, 91.9; potatoes, 91.52. The acreage of potatoes compared with 1894, 107.9; corn, 107.8; being an increase of 6,000,000 acres over 1894. The average condition of all wheat for the country is 76.2.

INFORMATION FOR HOME HUNTERS.
At a meeting of the Western society, held in Chicago on Wednesday evening, steps were taken toward the organization of a bureau of information for the benefit of persons who are hunting homes in the west. The idea is an excellent one. If it materializes in proper form, it will confer great benefits upon thousands of worthy families in the over-crowded east, as well as upon the still sparsely settled states and territories of the far west that need more honest and intelligent workers to develop their diversified resources. It is a distinct recognition of the fact that there are many discontented people in the eastern states, who are anxiously looking for opportunities to better their conditions by acquiring productive homes of their own, and that these opportunities are presented in the west. In fair and fruitful New Mexico, for example, a veritable empire on the map, are fertile lands under ditch, particularly in Colfax, Chaves, Eddy, Grant and San Juan counties and in the beautiful Rio Grande valley, where hundreds of just such locations as eastern home hunters want can be obtained on the most reasonable terms. Right here in the Santa Fe valley, all of which will soon be under the ditches of local water companies, rare chances are offered for numerous families to render themselves independent raising fruit, gardening and cultivating small farms. The same is true of the Española and Chamita valleys. In the event that the organization of the proposed bureau of information for home seekers is perfected at Chicago, no time should be lost in placing the facts respecting the soil, climate, water and other advantages of New Mexico before those in charge of the bureau.

SOME COMPLICATIONS.
It seems to be England's policy to interest as many European nations as possible in Venezuela. Both France and Germany are now in a position to have something to say about the enforcement of the Monroe doctrine. The government of Venezuela seems to have used German capital freely in developing the country, and the government of Germany thinks it has money enough in Venezuela to warrant the acquisition of a coaling station off the Venezuela coast. A Washington dispatch says the United States is likely soon to be called upon to say what construction it will place on the Monroe doctrine. It will not of course be held that the United States stands between any European government and the collection of its debts by the ordinary process of collection. It will not be held that the United States will interfere to prevent the enforcement of any demand for reparation for an outrage committed by any country of South or Central

America. In respect to debts, the United States will require European governments to satisfy their demands with something less than the territory of the nation owing the debt. In other words, a debt due by Venezuela or other South American governments will not serve as a pretext for the acquisition of territory. The Monroe doctrine is older than any debt Venezuela owes. It was in existence when Venezuela's present debt was contracted. German capitalists knew that whatever they accepted in the way of security was subject to the condition that the general territory of Venezuela could not be levied upon. The danger the Monroe doctrine was intended to guard the United States against would be the same whether territory was acquired in satisfaction of debt or by conquest. A combination of European powers against us should not materially affect the definition the government will give to the doctrine. President Monroe stated a principle essential to our national security if not to our national life. If this doctrine is broken down we should have one European nation or another at our doors. We would have to fight them under serious disadvantages.

PRESS COMMENT.

Can't Lie Longer About Wool.

The sheepmen in New Mexico are realizing about 12 cents a pound for their wool. Two years ago when the McKinley law was in full force, they were glad to get 6 cents. An advance of over 100 per cent, and wool still on the free list! Men and brethren of the Republican fold, it seems to be necessary for you to find something else to lie about.—Albuquerque Democrat.

Always a Cattle Range.

There will always be an immense cattle range in this country. Farms will not prevail against it. The mountains are much the better and bigger part of the cattle range. There is more shelter, more water, more and better grass in the mountains than on the plains. The mountains will support more cattle, square mile by square mile, than the plains.

In the winter when the snow covers the grass on the plains and mountains, too, the latter, more generous than the plains, furnishes plenty of oak and quaking aspens. There are barren stretches up above timber line in the mountains where grass can not grow and cattle could not climb; but there are also tracts of country on the plains of no avail as range. There is grass but no water there. Wild cattle drink once in forty-eight hours. They will be at the river or night. All the next day they will stretch out upon the plains; the fastest walkers going a dozen miles, never further. The second night they will sleep out on the waterless plains, and the following day graze back to the river again for further grazing on the waters. Area for area, the mountains will support more cattle than the plains.—Springer Stockman.

Santa Fe, N. M.

The PECOS VALLEY of NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.
The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.
Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.
The cultivation of cotton—a farming material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.
The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.
Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, prolific soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.
The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feltz section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses, the results of overwork, sickness, worry, etc. Full strength, development and tone given to every organ and portion of the body. Simple, natural, and safe. Immediate results. Failure impossible. 2000 references. Book, explanation and proofs mailed sealed free.

ERIE MEDICAL CO., Buffalo, N. Y.

FLAT-OPENING BLANK BOOKS

Being satisfied that if you have once used a flat-opening book, you will always use them, and in order to get you to try one the New Mexican Printing Co. of Santa Fe, will sell you **HAND-MADE BLANK BOOKS**, bound in full leather, with patent **FLAT-OPENING STUBS**, with your name and the number, or letter, of the book on the back in gilt letters, at the following low prices:
3 qrs. (400 pages) Cash Book - \$5.50
6 qrs. (800 " " " " " " " " - 9.00
7 qrs. (560 " " " " " " " " - 7.50
They are made with pages 10"x18 inches, of a good ledger paper with round cornered covers. The books are made in our bindery and we guarantee every one of them.

Voyagers for Pleasure
Or business, persons on the point of taking an "outing" on land or sea, yachtsmen and tourists need and should be provided with some preventive of sea sickness and corrective of the occasional ill effects of unaccustomed air, food and water. Many nervous persons experience qualms akin to sea sickness when traveling by rail. They, too, require a medicinal safeguard. The best in existence is Hostetter's Stomach Bitters, which promptly relieves nausea, sick headache, biliousness, cramps and colic, etc. If business calls you to some locality where chills and fever or bilious remittent is prevalent, don't fail to provide yourself with it. For constipation, rheumatism and inactivity of the kidneys it is an excellent remedy. Eminent physicians commend it highly. Lay in a supply before you start by boat, steamer or train. It is a most serviceable traveling companion.

DET CIGARETTES

ARE THE BEST

CIGARETTE SMOKERS

who care to pay a little more than the cost of ordinary trade cigarettes will find the

PET CIGARETTES

SUPERIOR TO ALL OTHERS

Made from the highest cost Gold Leaf grown in Virginia, and are

ABSOLUTELY PURE

SUNBEAMS.

Not the Climate This Time.—Jones: Nice growing weather, Brown? Your seeds, I suppose, are beginning to show well?—Brown: Show, indeed! They've been up long ago.—Jones: How extraordinary! Mine are only just peeping through the ground. Difference in soil, I suspect.—Brown: Not a bit of it! Next-door neighbor keeps fowls!

Too Good to be True.—She: Have you heard what is the latest thing in theatre hats?—Windows, perhaps.

The Old Curiosity Shop.

Can you locate it? You ought to be able to because you live in it. This world is the biggest curiosity shop that we have known anything about up to date. Jupiter or Saturn may be able to discount it. Perhaps, and perhaps not. It is pretty full of people who are continually tinkering with themselves—patching themselves up—so to speak, in a medical way. If they are constipated, bilious or dyspeptic they rush to the nearest druggist for a violent purgative. If they are morose they fly for relief to that ancient but ineffectual reliance—the sulphate of quinine. This is what they should do. What they should do is to begin and pursue a course of Hostetter's Stomach Bitters, the primeval of alternatives and anti-malarial specifics, particularly valuable also for rheumatism, neuralgia, nervousness and debility, and a promoter of sleep and appetite beneficial to all chronic invalids.

Comparison.—Oh, yes, of course she's pretty, but she knows it so well.—Well, that's better than being ugly and not knowing it, you know.

Very Encouraging.—Uncle: So, Charles, now let us begin to write down all your debts.—Charles: Well, my dear uncle, please let me fill the inkstand up first.

A heavy shower is like the goose with the golden eggs; it lays down the dust.

A Good Liver.

Keep your liver active and you'll not suffer with biliousness—there's the secret. When bilious try a 25-cent package of Simmons Liver Regulator powder. Take it on the tongue, or make a tea. You'll take no more pills.

An Indecent.—A: What a lovely book you have there! What does it contain?—B: In it I enter all my liabilities. If you lend me a few your name shall also be entered in it.

What Gladstone Couldn't Do.—I say Gladstone can't use those two fingers.—By Jove! How's that?—Because they belong to me.

A Pioneer's Recommendation.

Mr. J. W. Nennable, of Downey, a pioneer of Los Angeles county, Cal., says: "When ever I am troubled with a pain in the stomach or with diarrhoea I use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it for years, know it to be a reliable remedy, and recommend it to every one." For sale by A. C. Ireland, Jr.

Definitions Up-to-Date.—A Singular Measure: The Plural Voting bill. Hard Work: Getting up a Labour demonstration.

Word of Command for Hospital Sunday:—Present Arms!

A Yorkshire Gossip.—First Gossip: So you was niver used to funeral?—Second Gossip: Niver as much as inside 'em. But nobbut wait till we've a funeral of us own, an' we'll show 'em!

RHEUMATISM, LUMBAGO, SCIATICA, LAME BACK, DEBILITY, Etc.

WHY BE SICK

When a trifle will bring the greatest healing invasion of the day! Dr. Sanden's Electric Belt is a complete body battery for self-treatment, and guaranteed, or money refunded. It will cure without medicine Rheumatism, Lumbago, Sciatica, Lame Back, Kidney and Liver Complaints, Nervous Debility, Weakness, Looseness, Brains and all effects of early indiscretion or excess. To reach men it is the greatest possible boon, as the mild, soothing electric current is applied directly to the nerve centers and improvements are felt from the first hour used. A pocket edition of the celebrated electro-medical work.

"Three Classes of Men."

Illustrated. Is sent free, sealed, by mail upon application. Every young, middle-aged or old man suffering the slightest weakness should read it. It will show in easy, sure and speedy way to regain strength and health when everything else has failed. **THE SANDEN ELECTRIC CO.,** No. 525 Sixteenth St., Denver, Col. Also New York, Chicago & London. Largest Electro-Medical Concern in the World!

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used, and I take pleasure in recommending it to my friends." For sale by A. C. Ireland, Jr.

HOME FROM THE HILL.

Home is the sailor, home from the sea, And the hunter home from the hill.

—R. L. S.

Let the weary body lie

Where he close its grave,

'Neath the wide and starry sky,

By the southern wave.

While the island holds her trust

And the hill keeps faith,

Through the watches that divide

The long night of death.

But the spirit, free from thrall,

Now goes forth of these

To its bright and inherits

Other lands and seas.

We shall find him when we seek him

In an order home—

By the hills and streams of childhood

'Tis his word to roam.

In the fields and woods we hear him

Laugh and sing and sigh,

Or where by the northern breakers

Sea birds troop and cry.

Or where over lonely moorlands

Winter winds fly fleet,

Or by sunny graves he harkens

Voices low and sweet.

We have lost him, we have found him.

Mother, he was faint

Take his life again

To the breast that first had warmed it

To the tried and true—

He has come, our well beloved,

Scholar, back to you!

—W. R. Nicol in Blackwood's Magazine.

LOST REVENGE.

The news of his death came upon her as

a blow. There could be no doubt of that.

She had never anticipated that he would

die so soon, while the roses were all

in flower, and the nightingales were awake

in the copse, and the sun had the glow

and the shadows the cool reticence peculiar

to the earlier days of the summer. She

had never anticipated that he would die at

all while she was alive. It seemed so unlikely.

She was such a delicate slip of a

snow white maiden, with the vagueness of

the undiscovered country in her great

brown eyes, with the trouble of a tragic

future in the curling lines of her tremulous

rosebud mouth. And he had been so strong

—so terribly strong. The iron of his great

arms might have held up a world, she

thought. His voice was the voice of the

thunder. In his eyes a threatening command

dwelt always. And now he was dead. She

had just heard so, and scarcely any one

knew it yet. His mighty frame was

stretched out in the room below—the

garden room, where she generally sat at

evening; the garden room to which one

times came as evening fell. But she did

not think of that immediately. That the

world would go on just as usual now all

was so changed for her did not occur to

her. The man below had been her husband,

and he was dead. She could only think

of that at first.

How she had hated him!

He had bought her as the wife he desired.

So, surely, he must have once loved her.

But he had never shown it. She had forced

him terribly that very first day, when they

went away together from the church, down

the flat, gray road to the almshouses,

where the old women stood bobbing in

the rain, over the village green haunted by

wandering geese, whose feathers were

blown about wrong way by the wind that

stormy day of their marriage. How he had

stared at her in the shadow of the shut

carriage, while the hoofs of the horses splashed

in the puddles of the country road. His eyes

never left her. They were slightly blood-

shot and looked excited as they traveled

over her face, and his full lips moved un-

der his black mustache. But he said nothing.

How she had hated him!

The morning after their wedding she

had tried to escape from him. She slipped

out of the great Lord Warden hotel at De-

ver in the gray dampness of the dawn

when he was sleeping. The sullen sea,

which they were to cross presently, roared

in her ears, and the sea gulls cried to her

from the foam decked pebbles of the steeply

curving beach. The hull of a steamer

loomed on the ragged horizon, and the rain

dropped from the eaves of the hotel. Two

or three sailors hanging about, with peaked

caps drawn down above their wet faces and

hunched shoulders, peered at her as she

crept from the hotel, a grain of humanity

awakened by the whirlwind. How cold it was,

and how desolate! In the wind came to

her the strangled whistle of an engine, and

then she knew she was too late. The train

was flashing away as she struggled on

against the tempest. She returned to his

embrace.

How she had hated him!

And they traveled together. The snow

of the Switzerland, the green valleys,

where the chalets rested on the steep slopes

as if tired and pausing for a moment;

the blue lakes of Italy; the old, old cities,

with their streets full of the echoes of dead

voices; the weary ruins, passively enduring

still calling tourists; the vineyards, where

life was laughter and was song; she

had seen them all with him. She had

them all. Even the flat reaches of the venerable

Nile and the rose gardens of Damascus

were loathsome to her. She had

watched the flame blue line of Arabs wind

away beneath the flame blue sky. She had

heard the tinkling bells of caravans and

the wild chant of the sailors sweep up from

the pallid gray green mimosas bushes, and

she had only sickened and longed to die.

She had only longed to die. And now he

lay dead, and she could hear the nightingales

beginning to flite. Yet was she glad!

They had come back to England. People

envied her. Women murmured his name

as she passed by, murmured it in admi-

ration, while the blood flamed in her

cheek at thought that she was his. The

great world took her for awhile, took her

and gave to her only such profound wear-

iness. In the park, as her victorias stood

against the railings in the hot sun, and the

murmur of society rippled round her be-

neath the trees, and the queens of society

and the courtiers who were the recognized

queens—the sinner incoignita and the

queen incoignita—passed her by, she sick-

ened again and thought of the rose gar-

dens of Damascus and of the flame blue

line of the Arabs and wondered if the

world could give to her nothing, if his

shadow must be upon everything, like the

shadow of fate brooding black over the

pleasure of life. She wondered in the

madness of dreaming, and the voices under

the trees said she owed, because for a

moment she ceased to think of them. Then

she drove home as the twilight gathered

about the city and tried to hush it all, in

vain. She dreaded the falling of night as

children dread the grave.

How she had hated him!

And then a golden thread twined into

the web of her tangled young life. One,

in the midst of the ignorant and the care-

less, understood that she was in the prison

house of despair and staid awhile outside

the grating of her cell to whisper of com-

fort. The dew fell upon the poor parched

flower, and she opened her petals to re-

ceive it. But so secretly, always so secret-

ly. Surely no one ever knew. Outside the

garden room in the dusk he came when all

was quiet. The jaller was away. He came

and came again, and he taught her to see

the stars through the grating of her cell,

and he told her of the rising of the moon.

And when he came it seemed to her that

the nightingales were always singing.

And now the jaller had gone away for-

ever. The prison doors were open. She

stepped out into the night and she lived

moonlight. He lay dead in the room be-

low her. She had not seen him dead. She

must go down into that silent place where

he lay in silence. She thought only of him.

Her small face was very white and she

walked softly down the stairs. She saw

the merry music dancing in the clear

gold dust that the sun shed obliquely

through the leaded lattices of the hall, and

she turned her eyes away from them and

wished the sun would go down. With the

darkness, her strange constraint of calm

might fade away. She longed to feel more

natural. She passed through the doorway

quietly and closed it behind her and looked

it. He had been laid upon the wide couch

where she sat sometimes at evening alone.

A white covering shrouded the great form

that her girl's flesh had shuddered at, had

shrunk from so often. A ray of dying

light glinted where the head was. When

she drew back the covering, the ray shone

upon the gray, swollen face, into which

she gazed for a long while. The upper lip

was drawn back from the strong white

teeth. The mouth seemed to grin callous-

ly. She could fancy that the downy soul

of the dead man was laughing somewhere far

off, and that the body which in life, had

so often obeyed the spirit, with the weak-

ness of custom still mechanically bowed to

its will, still revealed outwardly that which

was no longer prisoned within it. Yes, as

she looked at the mouth, she felt that the

dead man's soul was laughing.

She wondered why she stood

wondering, over the smooth shaven lawn,

past the sun dial and the looping silver of

the fountain, one came to the garden room

—the man who understood her and had

striven to comfort her.

He did not know yet. He stole so softly

because he believed her husband was liv-

ing and not because he knew he was dead.

He stood at the window and whispered

her name, and, as he spoke, a rush of joy

swelled through her heart. She left the

dead face uncovered and crossed to him.

"Is he gone?" he asked.

"He is gone," she answered. "Kiss me."

He caught her passionately and pressed

his lips on hers.

"How I love you!" he murmured.

"As he said the words she turned round

from him and looked back into the slowly

darkening room.

A strange, horrible fancy seized her.

The Daily New Mexican

SATURDAY, JULY 13.

Notices are hereby given that orders given by employees upon the New Mexican Printing Co., will not be honored unless previously endorsed by the business manager.

Notice

Requests for back numbers of the New Mexican, must state date wanted, or they will receive no attention.

Advertising Rates.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted. Prices vary according to amount of matter, length of time to run, position, number of changes, etc. One copy only of each paper in which an ad. appears will be sent free. Wood and electrotype not accepted. No display advertisements accepted for less than \$1 net, per month. No reduction in price made for "every other day" advertisements.

Are you taking SIMMONS' LIVER REGULATOR, the "KING OF LIVER MEDICINE?" That is what our readers want, and nothing but that. It is the same old friend to which the old folks pinned their faith and were never disappointed. But another good recommendation for it is, that it is BETTER THAN PILLS, never gripes, never weakens, but works in such an easy and natural way, just like nature itself, that relief comes quick and sure, and one feels new all over. It never fails. Everybody needs take a liver remedy, and everyone should take only Simmons' Liver Regulator.

Be sure you get it. The Red Z is on the wrapper. J. H. Zeilin & Co., Philadelphia.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

TECHNICAL EDUCATION.

Prof. Seamon, the New Director, Will Do All in His Power to Build Up the New Mexico School of Mines.

Prof. W. H. Seamon, who has recently accepted the directorship of the New Mexico School of Mines at Socorro, will return from Rolla, Mo., about August 1, and will then visit most of the towns in the territory for the purpose of acquainting himself with the requirements of the people in technical education and also to acquaint them with the opportunities offered them by the School of Mines for a sound and liberal technical education.

In an interview with a New Mexican reporter recently he stated: "The School of Mines will open on September 16 with a corps of at least three good teachers. Full and complete courses in mathematics, physics, mining engineering, chemistry, ore concentration, metallurgy, assaying, mineralogy and geology will be given. Provision will be made for instruction in Spanish and German and a preparatory department will, in accordance with an act of the last territorial legislature, also be inaugurated."

The school is well equipped for its work and Prof. Seamon is firmly convinced that there is a splendid opportunity for the development of a mining school in this territory, which will be of great benefit to its citizens. It is his intention to develop the school along the lines of greatest usefulness to the territory. It is his opinion that a school of mines has a twofold work to perform: first, that of instruction, for the purpose of training the youth to take charge of the development of our mines, the concentrating and smelting of our ores, and the conversion of the various metals into articles of utility; second, the School of Mines should place itself in close touch with the mining interests of the territory and assist as far as its resources will permit, in the development of the mineral wealth of the territory, by investigation of the complicated problems of concentration and smelting so frequently presented. It is along these lines that he proposes to develop the school and it will fall short of his desires only so far as the resources at his command are lacking.

In the development of a new territory such technical schools are of the first importance. They deal with the practical every-day questions, the "bread and butter" problems, which concern all. By thorough technical instruction the eye is first carefully trained to observe the properties and possibilities for development of natural resources; the mind is also trained to plan, processes for utilization, and finally the hand is trained to execute the carefully formed plans of the trained and observing mind. It is in these respects that a technical education is now regarded as superior to the old collegiate course, which, while valuable so far as it goes, only succeeds in cultivating and storing the mind with useful facts and knowledge.

Just What's Needed

Exclaims thousands of people who have taken Hood's Sarsaparilla at this season of the year, and who have noted the success of the medicine in giving them relief from that tired feeling, waning appetite and state of extreme exhaustion after the close confinement of a long winter season, the busy time attendant upon a large and pressing business during the spring months and with vacation time yet some weeks distant. It is then that the building-up powers of Hood's Sarsaparilla are fully appreciated. It seems perfectly adapted to overcome that prostration caused by change of season, climate or life, and while it tones and sustains the system, it purifies and vitalizes the blood.

SATURDAY SALAD.

A MIDSUMMER HOUR.

BY E. M. L. (KITTIE THISTLE.)

Red lilybells blush in the garden. Tower drowsily watches them blow. White roses scatter their petals. Like drifts of summer snow.

Gold pansies whisper their thoughts. To the wild inquisitive bee. The south wind kisses the blossoms. Of the trembling graceful sweet pea.

Ethelwyn stands by the trellis. Philip plucks a leaf from the vine. All nature is hushed into silence. Not a murmur is heard from 'neath the pine.

The hour moves on enchanted. The midsummer sun comes true. When he whispers: "Thou'lt be mine love." Is affirmed in her eyes of blue.

Brother Botolph, president of St. Michael's college, has returned from Las Vegas.

Miss Hortense McKenzie receives a cordial welcome at the hands of her many friends.

Gov. Thornton left last night for a five days' trip to his mines in the Organ mountains.

Mr. Silas Alexander, city attorney of Socorro, who is on his way home from Denver, expects to go south this evening.

Mrs. L. Bradford Prince and son have returned from Fort Reno, where a delightful visit was had with Col. Pearson and wife.

Judge Henry L. Warren, who has been attending to legal business at the capital for a day or so, will return to Albuquerque this evening.

Mrs. E. L. Hall and children and Miss Loomis are now at Redondo Beach, Cal. Hon. E. L. Hall will join them next week and enjoy a month's vacation.

TANGIBLE FACTS TALK.

Organization of New Mexico Mining, Smelting & Refining Company—No Longer Any Doubt About Big Smelter at Cerrillos.

As forecast by the New Mexican several days ago, the New Mexico Mining, Smelting & Refining company, of Cerrillos, filed articles of incorporation with the territorial secretary about noon to-day.

The capital stock of the new company is named at \$1,000,000, and its incorporators and directors are Robert G. Balcomb and Sidney F. Johnson, of Denver, and Lyman N. Cook, of Cerrillos, with headquarters at the latter place.

Mr. Cook informed a representative of this paper this afternoon that the smelter projected by his company at the Little Pittsburgh might now be classed among the moral certainties.

The smelter will be located upon the eighty acres of land secured of Judge Laughlin a half mile southeast of Cerrillos. The plant will be composed of two 80-ton stacks with plans for two more such stacks at an early day. Indeed, Mr. Cook says he hopes that, when once started, the work will not stop until all four of the stacks are completed. The establishment will be first class in all respects.

The work will all be done by contract, the company furnishing all the necessary stone and clay, and as soon as the plans are completed bids will be invited by advertisement. Besides local bidders, it is expected that at least three Colorado contractors will make proposals to do the work.

Mr. Cook, who has located permanently at Cerrillos, will have charge of the work as superintendent. He hopes that the contracts will be awarded early enough to enable the contractors to begin before the 1st of August. He estimates that 1,500,000 bricks will be required.

This is good news for one day. The good times coming, so often sidetracked, seem at last actually to have arrived in south Santa Fe county. Cerrillos, shake!

ROUND ABOUT TOWN.

"Mother, may I go out to wheel?" "Yes, my darling daughter."

I suppose, of course, you won't wear skirts. Although I think you'd oughter.

Bernard E. Boyle, of La Junta, Colo., is at the Exchange.

At the Palace: Mrs. R. D. Johnston, Philadelphia; M. B. Barkley, Charleston, S. C.

Coronado Camp, W. O. W., will hold a special meeting to-night for the purpose of initiating a candidate and for other specified purposes.

Mr. Robert Harvey informs the New Mexican that he has received a letter from Rev. Mr. Moffit, of Flagstaff, formally declining the call to the pastorate of the Presbyterian church of Santa Fe.

The New Mexican's weekly Spanish edition sold well on the streets to-day and will reach its 1,200 readers to-morrow. It is the best all round advertising medium in the southwest.

Lieut. Walker and family arrived in the city on Thursday night and will remain here until September. Lieut. Walker is instructor in military tactics at the Mexico, Mo., college, and comes on a visit to his father, Hon. J. H. Walker.

Read and ponder the attractive new display advertisement of H. B. Cartwright & Brother in this number of the New Mexican. This well known grocery house is one of the largest and best stocked establishments of the kind in the southwest and those who deal with it are sure of fair and liberal treatment.

Beginning at 7 and continuing until 8:30 o'clock the following program will be rendered in the plaza pagoda, to-morrow evening, by Prof. Perez' band:

March—Reception. L. Wallis. Medley—War Songs in Camp. L. Wallis. Waltz—Song. H. P. Brother. Mexican Song—Singing. L. Moreno. Polka—Adieu. C. Faust. Galop—Run Home. M. Class.

Mr. Joseph P. Conklin has resigned his position with Creamer's apothecary to accept a position behind the prescription counter of the Winters Drug company at Las Vegas. Mr. Conklin is a graduate in pharmacy and a most capable druggist. He carries with him the best wishes of many Santa Fe friends.

The brand new sprinkler, glittering in bright colors and drawn by the city's fine span of bays, materialized upon the streets of Santa Fe this morning. It weighs about one ton, has a water capacity of 600 gallons, and works like a charm. This service will add very much to the attractions of the historic capital.

There will be no ball game to-morrow, two of the Santa Fe players being barred from the grounds. This will end the ball season in Santa Fe, unless the bar is raised or other grounds are put into shape.

Santa Feans are beginning to feel that they won't have much real summer weather this year of grass. Here it is nearly the middle of July and overcoats are not uncomfortable at times. It is a fact that up to date Santa Fe has this season had but two days that could be characterized as "summerish." These came on July 4 and on the Sunday following, July 7. Santa Feans certainly have no need to go to the mountains for cool breezes in summer. Doubtless none would go if it wasn't for the delightful sport of trout fishing.

Wanted—To purchase a second-hand walnut book case with glass doors and one or two drawers beneath; height, between six and eight feet; width, between three and one-half and five feet. Inquire inside of three days at Presbyterian Mission School.

For Sale. Must be sacrificed at once, two valuable mining claims at San Pedro, Santa Fe county, N. M., in the New Placers mining district, near the Lucky and Big Copper mines. Sixty-five feet work done on one and forty feet on the other. Both have good leads and assay well. Address D. A. office.

TANGIBLE FACTS TALK.

Organization of New Mexico Mining, Smelting & Refining Company—No Longer Any Doubt About Big Smelter at Cerrillos.

As forecast by the New Mexican several days ago, the New Mexico Mining, Smelting & Refining company, of Cerrillos, filed articles of incorporation with the territorial secretary about noon to-day.

The capital stock of the new company is named at \$1,000,000, and its incorporators and directors are Robert G. Balcomb and Sidney F. Johnson, of Denver, and Lyman N. Cook, of Cerrillos, with headquarters at the latter place.

Mr. Cook informed a representative of this paper this afternoon that the smelter projected by his company at the Little Pittsburgh might now be classed among the moral certainties.

The smelter will be located upon the eighty acres of land secured of Judge Laughlin a half mile southeast of Cerrillos. The plant will be composed of two 80-ton stacks with plans for two more such stacks at an early day. Indeed, Mr. Cook says he hopes that, when once started, the work will not stop until all four of the stacks are completed. The establishment will be first class in all respects.

The work will all be done by contract, the company furnishing all the necessary stone and clay, and as soon as the plans are completed bids will be invited by advertisement. Besides local bidders, it is expected that at least three Colorado contractors will make proposals to do the work.

Married at Albuquerque.

With all the pomp and ceremony of the old Spanish marriage rites Aurelia, daughter of Santiago Baca, was married on Thursday evening in the church of San Felipe, at old Albuquerque, to Flavio, son of Desiderio Sandoval, and the solemn words of the priest who celebrated the nuptials joined two of the oldest and most distinguished of the old Spanish families of New Mexico. The famous old church of San Felipe never in its life of hundreds of years contained a larger assemblage of citizens of both the old and the new town.

Wanted—Lady agent in every county in the territory, \$2 to \$5 per day; good references required. Apply to, or address, The Lilliputian Novelty Bazaar, Santa Fe, N. M.

Legal Notice.

In the District Court of the First Judicial District sitting in and for the County of Santa Fe in the Territory of New Mexico.

Odaville Yates, Complainant.

The Lincoln, Lucky & Lee Mining Co., Defendant.

Chancery No. 3489.

In pursuance of a final decree made and entered in the above entitled cause on the 13th day of June, A. D. 1895, whereby it was provided that, in the event of the failure of the defendant herein to pay within twenty days the several sums of money in said decree decreed to be paid the property hereinafter described should be sold to satisfy said decree, I, A. B. Renahan, appointed special master therefor for the purpose of executing said decree, hereby give notice, the condition of payment within twenty days not having been complied with, and said twenty days having expired, and said indebtedness not having been paid and no part thereof, that I will on Saturday, the 3rd day of August, A. D. 1895, at 10 o'clock in the forenoon of said day, at the front door of the court house in the County of Santa Fe in the Territory of New Mexico, offer for sale and sell to the highest and best bidder for cash, be the same the complainant herein or any other party, all the following described property, to-wit:

All and singular the Lincoln Mining Claim and the land comprising the same together with all veins of mineral, dips and spurs, and the improvements thereon, together with machinery, houses, etc., situated in the New Placers Mining District in the County of Santa Fe, Territory of New Mexico, and being located on what is known as Lucky Hill, about one mile east of the town of San Pedro in the county aforesaid, and about one-half mile south of the Santa Fe Copper Mines, and which said Lincoln Mining Claim is located on the northwest by the Lucky Mining Claim, on the northeast by the Lee Mining Claim and on the southeast by the Anacostia Mining Claim.

Out of the proceeds received from the sale of said property, in accordance with the order of the court aforesaid in the said final decree contained, the undersigned, special master, will pay first, the lawful fees, charges
