Hard wear indeed, so hard that there is not much wear left for his clothes, whatever may be said of the man. But there is plenty of ware and hardware too, left in our great stock. Facts tell and everybody knows that our display of hardware, ironware, tinware, cutlery, farm and garden implements, everything is here, and whatever is here is selling at a lower price than you can find anywhere else. Do not forget that every article we keep in stock is not only low priced, but a gift edged value. You owe it to yourself to get the most for your money. Try your just debt to No. 1, which means, among other things, come and see us.

W. H. COEBEL,

DEMOCRATIC SILVERITES.

Plan of Organization Outlined at the Great Party Conference in Washington.

Complete National Committee will be Appointed Later—An Adjourned Meeting of Conference Probable at St. Louis—Headquarters No Yet Located.

Washington, Aug. 16.—The Democratic free coinage conference adjourned yesterday afternoon after adopting the following

PLAN OF ORGANIZATION:
Believing a large majority of the Democratic voters of the United States are in harmony with the sentiments expressed by this conference and knowing a full and free expression of their views can only be ascertained and made effective through properly organized efforts, we recommend the following as a plan for such organization:

First—There shall be a national committee of Democrats who are in favor of both gold and silver as the money of the constitution, which shall be composed of one Democrat from each state and territory and the District of Columbia, and an executive committee hereinafter provided for.

Second—That until otherwise ordered by the national committee, Senator Isham G. Harris, of Tennessee, James R. Jones, of Arkansas, and David Turpie, of Indiana, and Hon. W. J. Stone, of Missouri, W. H. Hinrichsen, of Illinois, and Casey Young, of Tennessee, be, and they are hereby constituted an executive committee and shall have full power and authority, and it shall be their duty as early as possible to appoint members of the national committee herein provided for and to fill vacancies in same.

Third—That said national committee shall have full control and direction of the patriotic efforts of the bimetallic Democracy of the nation to secure in the next national convention a maintenance of the time-honored principles and policies of the Democratic party, and when the national committee herein provided for is not in session the legislative committee shall have authority and discharge all duties hereby conferred upon the national committee.

Fourth—It shall be the duty of the member of the national committee from each state immediately after his appointment to take such steps as he may deem best to organize the bimetallic forces of his state, and it is earnestly recommended that in each county and legislative precinct in each state bimetallic clubs be organized, and for this purpose he may appoint such committees and canvassers as he may deem best.

Fifth—That fully realizing the fact that neither this nor any other plan of organization can be successful without the hearty co-operation of the voters themselves, we urge every voter in every state in the Union who is in sympathy with this movement and who wishes to restore permanent prosperity to his home and country, to aid and influence the national committee in the selection of the committee and adjourned subject to the call of the chairman.

Col. Young said to-day that it was the purpose of the executive committee to complete the national organization as soon as practicable. It is probable that an adjourned meeting of the national conference will soon be held in some western city, and St. Louis has been suggested as the place most convenient. It is also expected that permanent headquarters will be chosen at this meeting. Some members of the committee advocate locating headquarters at Washington, while others believe a western city would be preferable.

Gold Shipments.
New York, Aug. 16.—Hard & Rand will ship \$100,000 in gold to-morrow.

Convicted of Murder in First Degree.
Grand Haven, Mich., Aug. 16.—A verdict of guilty of murder in the first degree was returned against Geo. Cheabro, the 17-year-old lad, who killed his grand-mother, Mrs. Mary Pierce. There was much surprise as a verdict of manslaughter was expected.

BOY RUSTLER CAPTURED.

A Young and Daring Cattle Thief Behind the Bars at Trinidad—Large Rewards.

Denver, Colo., Aug. 16.—A special to the Times from Trinidad, Colo., says: Hayes Resabias, better known as "Buffalo Bill," who has been stealing cattle and dodging the officers for the past two weeks, was captured last night by Constable Titworth and is at last safe in the county jail. He is not more than 18 or 19 years of age. He has been confining his operations to the country between Apanaha and Sunflower valley and has shown activity and ability that would put to shame old rustlers. Only the other day, with six officers hot on his trail, he stole two cows and a bull and got away with them. Once the officers passed within six feet of his hiding place. The cattle men's association offered a reward of \$275 for his arrest and conviction.

A Novel Idea.
Minneapolis, Minn., Aug. 16.—Capt. Judson N. Cross, a prominent attorney of this city, has mailed to President Dole, at Honolulu, a letter containing a novel suggestion as to how Hawaii might annex itself to the United States without presidential intervention. His proposition is that Hawaii elect delegates to the American congress and demand that they be seated on the same basis as the territorial delegates. Congress, Capt. Cross says, would send them and they would settle the matter. He maintains that there are historical precedents and logical reasons for such a course of procedure.

May Not Come West.

Washington, Aug. 16.—Mgr. Satolli, the papal legate, now thinks he will not go to Santa Fe on the occasion of the investiture of Archbishop Chapelle. Speaking of the matter he said that, while he should like to see the country he felt somewhat discouraged by the great distance, and added that he had an aversion to long journeys. He has not, however, definitely decided and there is a possibility of a change of mind.

A New Woman.

Perry, O. T., Aug. 16.—Deputy marshals arrested the notorious Jenny Metcalf, but she stole an officer's horse and fled. She was formerly Jenny Stephens, a distant niece of Bill Dalton, and no officer in the territory is a better shot. She was arrested two months ago for selling whisky to the Oange Indians, and gave bond. Although 18 years of age she is said to have sold more whisky to the Indians than the oldest offender.

A Catholic Pilgrimage.

New York, Aug. 16.—Several hundred Roman Catholics from this city and Brooklyn, and as many more from Philadelphia, will at once begin a pilgrimage to the shrine of Our Lady of Martyrs near Anacostia, N. Y. Anacostia, which 249 years ago was the scene of the devotion of Father Isaac Jogues and of Father Rene Couplé, was also the scene of the labors of Kateri Tegakwitha, the Lily of the Mohawk, to convert the members of her tribe. Around the inclosure attached to the shrine have been erected crosses in memory of the sufferings undergone by the missionaries. The shrine has been transformed into a calvary having three large crosses bearing life-size figures commemorating the death of the Savior. A Jesuit father will say mass there every morning until the end of August.

TO-DAY'S CONDENSATION

The fifth session of the executive council of the Woodmen of the World, Pacific jurisdiction, is in session at Denver.

The St. Petersburg Novosti recommends that Russia, France and Germany should unite to oppose the United States in Britain with the view of obtaining satisfaction for the outrages committed by the Chinese upon the different missions and in order to obtain guarantees against a repetition of these occurrences.

A recent count of the Grand Army of the Republic shows that there are still 365,000 warblers enrolled upon its books. Fully one-third of these will make the journey to Louisville next month, where the twenty-ninth national encampment of the order will take place on September 11 to 13.

At Los Angeles the trial of E. C. Mayne, the real estate operator of Omaha, San Francisco, San Diego and Los Angeles, charged with robbing the two sisters named Shipton, aged 12 and 14, of San Francisco, is being heard to-day. The girls gave some damaging and sensational testimony.

In London to-day the tone of the market was strong. Kaffirs are booming and large trusts are forming with English capital for the purpose of dealing in mines. Argentine securities rise steadily. America was steady notwithstanding the rise in sterling exchange. The position of American trade and finance is much discussed again here.

At a meeting of the Republican National league in Chicago reports from various states were received. The outlook was declared promising, particularly in Iowa, Minnesota, Connecticut, and New York. A committee on league work was appointed, consisting of John Goodnow, of Minnesota; P. F. Powers, of Michigan; George C. Felt, of Arizona, and the president and secretary, whose duties shall be to map out a plan of operation for the various state and territorial organizations. Before adjourning Senator John M. Thurston, General James S. Clarkson, W. W. Tracy, A. B. Humphrey were made advisory members of the executive committee.

LARGE STEAMER ASHORE.

Presumed to Be Bound from Liverpool to Queenstown.

Queenstown, Aug. 16.—News has just reached here that a large passenger steamer has run ashore on the coast in the vicinity of Ballycotton, to the eastward of this harbor. It is presumed to be a vessel bound for this port from either Liverpool or Southampton, although nothing definite is known. A dense fog prevails along the coast and the coast guards have gone to Ballycotton with life preserving apparatus. When the coast guardmen arrived at Ballycotton they found that the steamer had been floated and had proceeded on her journey. Her identity was not established.

Big Notion House Assigns.

Chicago, Aug. 16.—The wholesale notion house of C. M. Livingston, one of the largest concerns of the kind in the country, made a voluntary assignment to-day. The amount of assets and liabilities was not scheduled.

BLACKBURN CONFIDENT.

Returns To-day Show that He Has Enough Pledges to Render His Re-election Certain.

Frankfort Ky., Aug. 16.—Returns to-day show that Senator Blackburn has enough pledges to secure his re-election, provided this district before carried by the Democrats give their usual results. Many of those pledged to Blackburn are opposed to his free silver views.

Hanged for Murder.

Mount Sterling, Ky., Aug. 16.—John Johnson, colored, was hanged to-day for killing Policeman Charles Evans, June 16. Johnson did not die for twenty-five minutes after the trap was sprung.

THE MARKETS.

New York, Aug. 16.—Money on call nominally easy at 1 per cent; prime mercantile paper, 3½ @ 4½; Silver, 66½; lead, \$3.37½.
Chicago, Aug. 16.—Cattle, market steady to strong. Sheep, cattle, market steady to strong. Kansas City, Aug. 16.—Cattle, market steady to strong; Texas steers, \$2.70 @ \$3.85; Texas cows, \$2.00 @ \$3.80; beef steers, \$3.50 @ \$5.55; native cows, \$1.00 @ \$3.25; stockers and feeders, \$2.75 @ \$4.20; bulls, \$1.50 @ \$2.75. Sheep, steady, unchanged.
Kansas City, Aug. 16.—Wheat, August, 66½; September, 66½ @ 67½. Corn, August, 33½; September, 37½. Oats, August, 20½ @ 21½; September, 20½ @ 21½.

GOD'S CHOICEST BLESSINGS.

Contrast Between the Condition Existing in Nebraska Now and a Year Ago.

Barns Bursting with Plenty—Want Banished—An Abundance for All and an Immense Surplus to Spare.

Lincoln, Neb., Aug. 16.—An incident occurred at this city to-day which marks, in a way that nothing else could have done, the difference in the condition of things which exists throughout the state now and that which existed at this time last year, when starvation stared them in the face. Now they have not barns nor corn cribs big enough to hold the produce which bountiful nature has provided for them. In the very month, from which 500 people had distributed to them all through the winter the supplies sent to them from the east, a reception was given the Burlington's land agents' excursion, and a feast of Nebraska products spread before them good enough for a king.

The hosts embraced the opportunity of expressing in words which came from the heart, their appreciation of the aid extended to them, while they pointed with pride to the walls hung with some of this year's produce of their fields and assured their guests that Nebraska had enough for twelve months to come to feed the world. It was no idle boast. The party, to which these words were addressed, had, during the previous two days, traveled over more than 1,100 miles of Nebraska soil. They had seen nothing but evidence of abundance. They learned that the Nebraska grain crop of the year will not be less than 225,000,000 bushels. Miscellaneous crops, such as hay, alfalfa, potatoes, beets, etc., will be relatively as large.

Cavalry General Dead.

Richmond, Va., Aug. 16.—Gen. John D. Imboden, a famous confederate cavalry general, died yesterday at Abingdon, in southwest Virginia.

Big Distillery Burned.

Leavenworth, Kan., Aug. 16.—The big seven story distillery here burned to-day. It was one of the largest fires ever known in this city. Eli Sherman, the owner, loses \$110,000, and has not a cent of insurance.

WESTERN ASSOCIATION.

Permanent Headquarters Established in Chicago, Where Information Will Be Furnished to Home Seekers.

Chicago, Aug. 16.—At a meeting of the Western society last night, it was decided to establish permanent headquarters in this city with exhibits from the different states. The object of the society is to furnish information to people desiring to locate in the western country. P. D. Dyer, agent of the Canadian government, was admitted to co-operate with the Western society. Mrs. Alice Houghton, of Seattle, Wash., inaugurated this plan and the purpose of last night's meeting was to secure the co-operation of various states interested. The products of Montana, Washington, Idaho, Arizona, Minnesota, New Mexico and other western states and Canada will be exhibited.

Three Women Burned.

Memphis, Aug. 16.—Just before daylight a log-house, near Arlington, occupied by Mrs. Callie Harrell, two grown daughters and a son, burned. Mrs. Harrell and the two girls perished. It is thought that the women were drugged before the fire.

DOWN AN EMBANKMENT.

Serious Disaster on the Cotton Belt Railroad—Trammen Badly Hurt.

St. Louis, Aug. 16.—The north bound passenger train on the Cotton Belt railroad ran through an open switch at Stramp's station last night. The engine, baggage car and mail car rolled down an embankment. No passengers were hurt. Webb, the engineer, and Fireman Dunn were badly bruised; W. W. McCabe, express messenger, leg broken; Mail Clerk Cleveland, arm dislocated; J. P. Bland, Pullman conductor, fractured ankle.

A Bomb Exploded.

Ancona, Italy, Aug. 16.—While the police to-day were arresting an anarchist named Bernardelli, who was placarding a thoroughfare with a manifesto eulogizing Cesaros Santo, a bomb was exploded in front of the French consulate, doing much damage.

BUILDING COLLAPSED.

O'Donnell Block in Denver Falls Without Warning—Several Persons Injured.

Denver, Aug. 16.—Without warning the building at the northwest corner of Santa Fe and Ninth avenues, known as the O'Donnell block, collapsed to-day. Three people were injured as follows: Mrs. Lector Miller, hit on the head by bricks; Fred Miller, 6 months old, hit by a scumpling, severely bruised; Capt. E. V. Williams, manager of the Rocky Mountain carriage works, arm out and generally shocked. Just how the accident happened is a mystery, but it is supposed that the recent rains caused the roof supports to become loosened, drawing the side walls to the center. The extremely hot weather during the past few days dried every portion of the supports and the joints and caused the building to fall in. The damage is estimated at \$6,000.

NEW MEXICO NEWS.

The Pease Valley Railroad company has made a low rate from Roswell and Eddy to Albuquerque, and it is expected that at least 250 of our citizens will attend the irrigation congress.
At Las Cruces Messrs. T. J. Bull & Co. have moved into their new store in the Commercial building. The store is a great improvement and the large stock of new goods makes an attractive display.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder
ABSOLUTELY PURE

W. H. Lumley, of Piencho, informed a Lincoln News reporter that he would raise about 15,000 pounds of beans this year on his school land place. Last year Mr. Lumley harvested the largest crop of beans grown in the county.

District Attorney Young has returned from the White Oaks country, and he reports that the people over there are working like beavers on the railroad project. Bell is there, and the Pease Valley railroad people seem to be co-operating with him. It appears to be pretty near a sure thing that the line will be extended to White Oaks and connection made with the Rock Island in Kansas.—Las Cruces Independent.

Lincoln county note: Theodore Harris recently discovered some bits of coal at the mouth of a badger's burrow on the plain five miles north of Three Rivers and west of the Hog ranch, and by sinking a hole twelve feet deep he uncovered a vein of bituminous coal five feet thick. The discovery excited the White Oaks and Three Rivers people.

The small farmer who grows fruit and berries, corn and vegetables, a little hay and grain, and keeps a cow and a few sheep and hogs is not complaining, like his big neighbor, of hard times, low prices and a short crop. The small farm well tilled is a success in all parts of the territory.—San Marcial Bee.

Mrs. B. F. Houts returned Sunday with her son, Bert, from Albuquerque, where Bert was treated by the "healer." At the time they were there the "healer" was very weak from his long fast. He said that Bert would feel better in two weeks and be well in three months.—Raton Reporter.

The Chama paper reports: Miguel Chavez, a merchant of Parkview, loaded several wagons with goat skins last week and started them overland for Santa Fe. While crossing an arroyo near Chumita one of the teams got stuck and before he could pull out a cloud-burst came down and carried team and pelts into the Rio Grande river.

The fruit market at Farmington is congested at present; probably a week or two will relieve it. The San Juan Times wonders whether the railway will condescend to give any reasonable rate out of Durango. Should they decide to do this then their market is further on, and a chance of getting rid of the splendid crops at a decent rate.

B. M. Frewitt returned from Gallup Tuesday. He reports Gallup as booming. The citizens there are calculating on building a large reservoir in a spot where the formation of the country is adapted for that purpose. The A. & P., whose line runs through the locality, will move their line to permit of the dam being constructed.—Farmington Times.

Geo. A. Griswold, of Denver, and a Starkville woman, named Leore Edwards, had a quarrel at Raton on Sunday when Griswold drew a revolver and pining the muzzle on the woman's temple pulled the trigger. Fortunately there were some dirt between the hammer and the shell and the gun failed to explode. Griswold was jailed but made his escape Sunday night.

E. R. Ziser, of Flora Vista, San Juan county, has issued the following peculiar announcement: "Mrs. E. R. Ziser, or Mary Ziser, the lady traveling around the country, is my wife and the mother of my children, and I hope all will treat her with kindness and respect, as I suppose she is doing her duty as a wife and a mother; but I differ from her in that respect, and my financial condition is such that I can not stand any foolishness, but my own, and I give notice that I will not be responsible for any debts she may incur or transactions enter into."

At Las Cruces Constable Williams was arrested again last Sunday by Deputy Sheriff Lee and taken to jail for wearing a pistol while on the street and not in the discharge of his duties. Mr. Williams did not claim to be in search of anybody, but said he was just "looking for general

results." He did not even have a warrant in his pocket, the officers say. Lee arrested him without a warrant, and again cautioned him not to make a conspicuous display of his guns when there was no occasion for it. Lee suggested that if he really couldn't walk the streets of Las Cruces on a Sunday afternoon without a pistol, he might at least wear it out of sight. Williams will be tried by a justice of the peace at Las Cruces.

The success achieved at the first annual fair given by the Colfax County Agricultural association, held at Maxwell City last year, has stimulated the management to that extent that they believe this year they will be able to outdo their previous effort to a considerable extent. Already pledges have been made which insure more than double the exhibits had last year. The date for holding the fair has been fixed for September 25, 26 and 27. The grounds and race track have been improved considerably since last year and the association now has two half mile tracks, one kite-shaped and one oval, both regulation tracks and as good as can be made. The premium list, which will be announced shortly, will be more liberal and complete than before.—Raton Reporter.

At a meeting of the Las Vegas school board yesterday it was "decided that all children over 6 years of age whose residence is not in the school limits of the city of East Las Vegas, or who may have a temporary residence within the city for the purpose of attending school, may be admitted on the payment of a tuition fee in advance of \$2 per month in the primary department, which includes the first four years, and at \$3 per month in all other grades, provided that, however, non-resident pupils shall not be admitted to the prejudice or inconvenience of any department, and shall fulfill all requirements made of resident pupils. The question of admitting pupils under 7 years of age was again considered, and it was decided to admit all pupils between the ages of 6 and 7 years to half-day session, or in other words, all in the first primary grade will have half-day session as last year."

Hon. F. A. Manzanares has been raising fruit for twelve years on his home place, just north of town, and during that time he has never been visited by hail, nor has he been damaged by insect pests of any kind. His peaches, apples, apricots—in fact all kinds of fruit—are as fine and healthful as anyone ever saw. Large in size, beautiful in color, and delicious in flavor, they are prize fruits in every particular.

The Eddy base ball team has challenged the Roswell's for another game, this time for \$500 a side, the game to be played at any place outside of Roswell. The challenge was accompanied by a \$100 check as a forfeit. Roswell accepted the challenge and the game will probably be played at Hagerman.

The Timmer House All Right.

In view of the fact that the report has become current that the walls and foundations of the Timmer house had been rendered unsafe because of the encroachment of the recent floods, we, the undersigned, as experts, were asked to make an examination of the premises, and are prepared to state that, after having thoroughly examined the same in every detail, that we found all the foundations, walls and partition in perfectly safe condition.

Letters pertaining to business should be addressed to New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

FRIDAY, AUGUST 16.

SAY, wasn't that a great meeting of Democrats in Washington yesterday?

THE first thing Judge Hill, of Missouri, knows, somebody will be wanting to play him as the Moses of the west against David B. of Albany.

THE venerable Gov. Morton flames up as red as a slice of fresh liver when any allusion is made to his age. There are other reasons besides his age, however, why he can't follow Mr. Cleveland's trail from Albany to the White house.

SAN JUAN and Colfax counties are to be congratulated over their determination to again hold county fairs this fall. The original outlay of expense will be returned ten-fold. That's one class of advertising that never fails to return a large and substantial profit.

SENATORS TELLER and Wolcott, of Colorado, are preserving a silence these summer days that could easily be sliced with a cheese knife. When either Harrison, McKinley, Morton or Reed is mentioned in connection with the Republican nomination for president, doubtless the brilliant Colorado senators feel a good deal like the fellow did at the country dance. And he stood a while on one foot first. And then he stood a while on tuther. And upon which he felt the wust. He couldn't a told you nuther.

JUST so long as the floating debt of the United States in the form of demand notes is six or seven times greater than the gold reserve in the treasury will the United States government be at the mercy of the bankers. In spite of everything the administration could do to prevent it, the bankers possess the power to bankrupt the treasury of its gold in ten days. Either the silver dollar should be restored to its rightful place in our currency system or the entire floating debt of the country should be funded on the best terms possible. It is not pleasant to think that our national treasury is merely permitted to do business at the old stand by the sufferance of the gold syndicate bankers.

THE copper market seems to be the subject of a good deal of manipulation just now. It is up one day and down the next, whereas in reality, by all the rules of trade, it should be showing a steady price with an inclination to advance. A Boston enthusiast wants to wager \$100,000 that copper will sell at 13 cents in America and \$50 in London before the year is out. The price of copper is being worked up in New York and quotations are made which appear to be quite beyond the price of actual dealings. The talk is of 12 and 12½ cents, for lake ingot, but the highest price in actual dealings that has come to notice is 11½ cents. The talk is presumably part of the tactics employed to affect the metal and copper share speculation, and is otherwise wholly unevaluated. For the copper situation is favorable enough without artificial support, and a hurried advance movement will carry a penalty.

OUR MILK SUPPLY.

THE New Mexican thinks the New Mexico board of health has taken a most important and timely step in demanding that only pure dairy products shall be offered for sale to the people of this territory. It is undoubtedly true that many of the most fatal ailments that human flesh is heir to comes through the use of impure milk. Modern science has amply demonstrated this to the satisfaction of all intelligent people. It is hoped that every community in the territory will co-operate with the authorities in undertaking to have all milk cows examined and the true state of their health made known. Dairywomen who keep posted on their premises a certificate showing the entire absence of tuberculosis in their herds should have the patronage of the community and those who refuse or neglect to do this should be made by public sentiment to suffer full penalty for their folly.

WITHIN DEMOCRATIC RANKS.

STRAIGHT Democracy gave utterance to its sentiments on free coinage at the national capital yesterday. The work of that conference goes even further than the most enthusiastic western Democrat had expected. The country never before witnessed such a spectacle. The fearless, outspoken character of the addresses; the earnestness of the demand for justice for the masses; the high positions occupied by the participants in their respective states, indicates how deep-rooted in the hearts of representative Democrats is the

subject of free coinage. There can no longer be any question about this. The issue stands out to-day boldly above and beyond all others in national importance. No matter what the gold-bug Republicans do in 1896, or what the wandering, straggling few that are left of the Populists incorporate in their platform, this question of free coinage will be settled by Democrats, within the ranks of the party, to the full satisfaction of all demands of the masses.

NEW YORK REPUBLICANS.

So Mayor Strong has entered into a combine and will boom McKinley for president, he to be rewarded with the New York governorship. Not if Gov. Morton and Tom Platt know themselves. Platt is boss in New York and McKinley's goose is pretty well cooked there as a result of his alliance with Strong, who, by the way, is a fearfully weak individual, both as a man and as a politician. He is a mere accident, the up-heaval of Dr. Parkhurst's alleged reform movement, which brought more rottenness to New York than ever was dreamed of under Tammany rule.

PRESS COMMENT.

Give Us a Rest.

LAST week the Carnegie company paid out \$110,000 to the men in the employment of that concern. Under the increase of 10 per cent in wages recently made by the company this was \$11,000 more than was paid by the company any week during the time that the McKinley tariff law was operative, and when we consider that the Carnegie works were idle for months under the McKinley act, owing to an effort to reduce wages; the real value of the new tariff law is made clear.

The purchasing power of the dollar is also greater now than at the time when Republican tariffs were forcing down wages and prescribing the labor organizations.

In view of such conditions it is difficult to understand by what processes of reasoning the Republican leaders have reached the determination to make the tariff question the "overhanging issue" of next year's campaign. That determination can be accounted for only on the assumption that the Republican party, as to issues, is in the fix of the boy who was digging for the ground-hog. They are out of meat. The gas is out of the Hawaii balloon. The revival of business has put an effectual stop to the calamity cry. The records made by Republican legislatures which came in on the tidal wave of last year are not of a sort to inspire the hope of desirable party results. The Democratic party is in a position to invite the contemplated assault of the Republicans on tariff lines. The country is in no mood for such a period of unrest and insecurity as the Republicans have assured us tariff agitation always produces.—St. Louis Republic.

To Boston.

A one-fare rate for the round trip for the Twenty-sixth Triennial Conclave Knights Templar, which will be held in Boston August 26th to 30th, inclusive, has been made by the Burlington Route. Tickets on sale from Colorado points August 17th to 22nd, inclusive. A slightly higher rate will be charged for tickets which are good going by one and returning by another or different routes. Take advantage of these greatly reduced rates and visit your friends in the east. Select your own route and write to the undersigned for rates and full particulars. Apply to your agent or Geo. W. Vallery, General Agent, 1039 Seventeenth street, Denver, Colo.

FLAT-OPENING BLANK BOOKS

Being satisfied that if you have once used a flat-opening book, you will always use them, and in order to get you to try one the New Mexican Printing Co. of Santa Fe, will sell you HAND-MADE BLANK BOOKS, bound in full leather, with patent FLAT-OPENING STUBS, with your name and the number, or letter, of the book on the back in gilt letters, at the following low prices:

54 pr. (400 pages) Cash Book	\$5.50
54 pr. (400 pages) Journal	6.00
54 pr. (500 pages) Ledger	7.50

They are made with pages 10½x16 inches, of a good ledger paper with round cornered covers. The books are made in our bindery and we guarantee every one of them.

Items of Interest By The Wabash Man.

Bulletin No. 6.
The state of Colorado has at present about 66,800,000 acres of public lands. From Kansas City to St. Louis by the Wabash, the distance is 277 miles, Toledo 662 miles, New York 1437, Boston 1489 miles.
Of vacant public lands in Colorado there are 40,851,000 acres.
The Wabash is the popular line east for its free chair cars, excellent meals at low price, and its direct connections in Union passenger stations.
The United States national debt is at present \$916,962,112, or \$14.62 per capita. The per capita indebtedness in France is \$116; in England \$87; in Dutch East India \$4 cents.
Any truthful ticket agent, lawyer or newspaper man will tell you that the Wabash is the best and cheapest line east.
Lookout for bulletin No. 7.

IT IS FOR SALE EVI

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while the competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

FOR SALE.

For the Irrigation of the Prairies and Valleys between Raton and Springer One Hundred miles of large irrigating Canals have been built. These lands with perpetual water rights are sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of Agricultural, Coal and Timber Lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same, if they should buy 160 acres or more.

The famous Gold Mining Camps near Elizabethtown and Baldy are thrown open to prospectors on more favorable terms than locations on Government land. Mining regulations sent on application.

Daily, four-horse, covered coaches leave Springer at 7 a. m., except Sundays, for Cimarron, Baldy and Elizabethtown, and leave these points every morning, Sundays excepted, for Springer.

The A. T. & S. F. and U. P. D. & G. railroads cross this property. WARRANTY DEEDS GIVEN. For full particulars apply to

IN OFFICIAL CIRCLES.

Lockhart vs. Woolacott Argued in Supreme Court—Amended Articles Filed—Official Notes.

In the supreme court this forenoon the case entitled Henry Lockhart, plaintiff in error, vs. J. H. Woolacott, defendant in error, was argued and submitted. Warren, Ferguson and Gillett represented Lockhart and T. N. Wilkerson represented Woolacott. The amount originally involved in this case was about \$30 and the costs of the litigation will amount to \$500 or \$600.

AMENDED ARTICLES FILED.

The Santa Fe & Cochiti Railway company has filed amended articles of incorporation with the territorial secretary reciting that at a recent meeting of the board of directors, presided over by President E. H. Bergmann, the route of said proposed railway was changed as follows: Beginning at a point within the corporate limits of the city of Santa Fe, N. M.; thence running by the most practicable line southwesterly to and through the Canon de la Brea to the town or settlement called La Bajada, and thence along or near the base of the foothills of the mesa to or near a point on the east bank of the Rio Grande del Norte opposite the mouth of the Canon de Cochiti; thence crossing said river to a point on the west side thereof, and thence continuing along or near said Cochiti canon to the Pinar canon at or near the town of Allerton; thence in and along Pinar canon to a point at or near the town of Bland in the mining district of Cochiti.

OFFICIAL NOTES.

The records of the United States court will be removed from Las Cruces to Silver City within a few days.

The governor has appointed the following notaries public: A. O. Bailey, of Colima, Grant county, and J. D. McGrath, of Guadalupe, Mora county.

Special Master G. W. Knebel is to day engaged in taking testimony in the suit of T. B. Catron vs. Soren N. Langhlin, of California, involving lands within the Eaton grant.

A meeting of the cattle sanitary board is set for the 20th instant. Among other things the cattle brands will be revised and those brands that are not now in use will be canceled off the records.

Translator Jose Segura has completed the index of the session laws in Spanish and it was placed in the hands of the New Mexican printers this morning. Hence the laws in Spanish will be ready in a very few days.

The board of regents of the Normal School of New Mexico has been called to meet at Silver City on September 2. The members thereof are Messrs. J. W. Fleming, W. G. Ritch, W. C. Hadley, J. L. Mahoney and H. J. Loomis.

Judge Beutz has set the Raymond-Ascarate contest case, for the shire of Dona Ana county, for the second day of next term of court at Silver City, being September 3. Judge Newcomb appears for Raymond, Judge Fall for Ascarate.

Andrew Jackson Loomis, the brilliant editor of the Silver City Eagle, has accepted a position in the office of Collector of Internal Revenue at Santa Fe. He will not stop work on the Eagle but will run that and the collector's office to the satisfaction of the people of the United States and the glory of the Democratic party.—Lordsburg Liberal.

Mr. W. H. Pope, special master in the suit of John S. Thompson et al. vs. the Santa Fe Mining & Smelting company, is to-day examining into the correctness of a number of accounts filed against the company by Leonard Skinner, administrator of the estate of Alex. Rogers. The amount involved is between \$2,000 and \$3,000, the bulk of it being for services and supplies under Rogers' administration as custodian of the mining property.

Died.

Michael Fox, a former well known and respected citizen of Carrollton, Mo., who came to New Mexico five years ago, and has been since that time a patient at St. Vincent's, died yesterday at 4 p. m., at the ripe old age of 86 years, and was buried this afternoon at Rosario cemetery. He was a wholesale merchant in Carrollton, Mo., for twenty years prior to 1860 and was an intimate friend of the Blackwells, Eads and other prominent families. His son, James Fox, who is connected with the Chesapeake and Ohio Railroad company, Madrid, came in last night to attend the last rites of his father. He and two daughters living in Denver are the only ones of his family now living. It is needless to say that during his last years of lingering illness the old gentleman received the best of care.

ROUND ABOUT TOWN.

There will be a meeting of Aztlan lodge, No. 3, I. O. O. F., this evening at 8 o'clock, at the hall on lower 'Frisco street.

Invitations were issued this morning for the Santa Fe base ball club dance, to be given at Firemen's hall, Saturday evening. Admission, 75 cents.

There will be a special communication of Montezuma lodge, A. F. & A. M., at 7:30 this evening. Work in the M. M. degree. Visiting Masons invited.

An Albuquerque visitor speaking of the alleged "healer" tells the New Mexican that citizens of Albuquerque generally count him as a right clever drawing

card and they are trying to persuade him to remain there until after the territorial fair.

Col. Asa B. Carey, a former well known officer on duty in New Mexico and especially at Santa Fe, has been assigned to duty at Denver as paymaster of the department of the Colorado. He has many friends here who would be glad to receive a visit from him.

Fine McBrayn whisky at Colorado saloon.

EDDY AT THE HELM.

The Rio Grande Reservoir Project is a Go—A Big Deal in Land and Water of Moment to All New Mexico.

Good laws are at hand from the Mesilla valley. That long pending storage reservoir enterprise is at last shaped up and in condition to be pushed to a successful finish. The news below is verified by private letters received here to-day from the lower Pecos valley. For years the storage of water in the lower Rio Grande has been earnestly advocated by the New Mexican and it is with no little pleasure that this journal is able to-day to reprint the following from the Las Cruces Independent at hand this morning:

POSITIVE INFORMATION HAS BEEN RECEIVED

here that the Smith and Boyd irrigation projects have been practically consolidated and placed in the hands of C. B. Eddy, who undertakes to finance the scheme, place the bonds and do for the Rio Grande valley what he has done for the Pecos.

Last week Mr. F. H. Peitz, county surveyor, who was employed on the Pecos Valley irrigation works before coming here, received a letter from Mr. Eddy, dated at New York, notifying him that Mr. Eddy would soon have a great deal of work for him to do in Dona Ana county and would be here in about two weeks. Last Saturday Mr. Peitz was in El Paso and had an interview with the secretary and one of the directors of the Boyd company and they told him that all their franchises, etc., and the franchise of the Smith party had been turned over to Mr. Eddy, who would take control of the whole business at once. The statement was positive, direct and without reservation.

Major Llewellyn also says he has received a letter from Frank Smith conveying the same information, and there is no doubt whatever that the deal has been made.

There were filed last week in the probate clerk's office of this county two agreements and plans that

of the enterprise. One is an agreement between the Mesilla Valley irrigation colony and Dr. John M. Vair, of Lorne Park, Dorchester, England, for the purchase of twenty acres of the Brazito grant with perpetual water right for \$400 sterling. Dr. Vair has paid \$20 down, the balance to be paid in eight installments. The vendor agrees to furnish water for irrigation at \$1.50 per acre. The second agreement is between the same vendor and the Mesilla Valley Fruit and Vinegrowing company, limited, of Westminster, England, for the purchase of 1,000 acres of

the Brazito grant, for \$16,000, or at the rate of about \$80 per acre. The receipt of \$1,000 is acknowledged, and the balance is to be paid as follows: Two thousand pounds on September 1, 1895; \$3,000 on November 1, 1895, and the remainder in five annual installments of \$2,000 each. The purchasers agree to cultivate two-thirds of the tract within five years, and the vendor agrees to supply water for irrigation not before January 24, 1896. The signing directors of the purchasing company are Dr. John M. Vair, N. P. Allison and Henry Martin.

A map filed with the agreement shows the tract divided into ten-acre lots, and it appears to be the purpose of the purchasing company to establish a colony town.

A part of the purchase price has been paid by the American company to the Casad heirs, owners of the grant, and another large installment will be due within ninety days.

The D. & R. G. Trunk. It is quite apparent that the D. & R. G. company proposes to leave nothing undone that will add to the efficiency and comfort of its train service in and out of Santa Fe. Since the visit of President Jeffrey a few weeks ago, nearly all the heads of departments have been here to give personal direction to the improvements now in progress. Yesterday the following named officials were out along the line of the road taking measurements and giving directions to the several squads of surveyors, tie, track and bridge men:

Chief Engineer W. H. Rogers; C. S. Thompson, general superintendent of bridges and buildings; Geo. Worth, superintendent of bridges and buildings, 4th division; Cole Lydon, superintendent 4th division; John Roper, roadmaster; Peter Lund, superintendent of water service.

PERSONAL.

Mr. Morye Wicks is here from Albuquerque.

Dr. Pascal Craig, who is interested in coal mines at Monero, is a late arrival at the Exchange.

Hon. Henry L. Warren is in the capital from the Deuel city looking after the interests of his numerous clients.

Capt. John C. De Laney, formerly post trader at Fort Stanton, arrived last night from the state of Washington on his way to his old stamping ground in southern New Mexico.

J. T. Hagan, one of the Kentucky investors in the Chama placers, who has spent the last two or three years in that vicinity, was in Santa Fe yesterday and left for Oregon last night on a brief visit.

At the Palace: Ed S. Waddles, St. Joe; Morye Wicks, Thos. N. Wilkerson, Albuquerque; F. Lumburg, Denver; Mrs. Ellen L. Stahl, Berlin Heights; A. H. Smith, Chicago; Thos. Gardiner, Eddy.

At the Exchange: G. A. Donden, Pueblo; S. S. Craig, J. M. Roper, Alamosa; C. M. Wagner, J. E. Bradford, Denver; Pascal Craig, Monero; J. C. De Laney, Ft. Stanton; James Fox, Cerrillos.

BLAND'S COMING BOOM.

Recent Arrivals from the Cochiti Mining District Talk Encouragingly of the Great Camp—Big Movement of Crown Point and Lone Star Ore—Other Notes of Moment.

Mr. P. L. Tinen, formerly a railroad conductor in the east and now interested in real estate and mining property at Bland, came in from the metropolis of the Cochiti mining district last evening. He has proved his confidence in the district by putting up one of the best business houses in Bland and says he is perfectly satisfied with the outlook of the camp.

Mr. Frank Wynkoop, who has been employed at Bland and Allerton for about a year, came in with Mr. Tinen on his way to Denver. He also speaks most encouragingly of the present condition and future prospects of the camp. He reports that numerous improvements have been made in the Beckman mill since the trial run, and that it is now running night and day, chiefly on second grade ore from the Lone Star mine, with every prospect of a satisfactory clean up.

W. S. Trimble keeps eight large ore wagons constantly employed delivering fifty tons of high grade Crown Point ore at Thornton (formerly Wallace) weekly for shipment by rail to Pueblo for treatment. In addition to hauling Crown Point ore, Mr. Trimble has closed a contract to deliver 1,500 tons of first grade Lone Star ore in Thornton at the rate of one car load per day for shipment to Pueblo. Thus it will be perceived that these two mines alone are now shipping away nearly enough ore to supply one 40-ton furnace of the projected smelter in Cerrillos.

Owing to the financial troubles of Gen. Woodbury in Denver, the Cochiti Mining & Mining company, of which he is president, is doing nothing with the Iron King mine at present, but confidence is expressed that Gen. Woodbury will come out on top again before long and that he will then quickly resume the development of his valuable Cochiti properties.

It is reported that Geo. Ostrander has recently encountered a large body of \$100 rock in one of his properties in Peralta canon.

A rumor is afloat that Mr. Thomas H. Lowthian, one of the principal owners of the Lone Star, Albernare and other fine properties in the district, has finally decided upon a process for treating his ore and will soon begin putting up a mill, one report says at the Albernare mine in Colla canon and another at the river. Mr. Lowthian went over to Bland from Santa Fe yesterday for the purpose of re-examining the Beckman mill. Engineer William Garstin expects to complete the survey of the Santa Fe & Cochiti railroad, between Santa Fe and the river, in about two weeks. He has not only surveyed the line from the Crown Point mine to the mouth of White Rock canon on the river, but has made a large map and profile thereof, showing every cut, fill, bridge and culvert that will be required, from which contracts can be let.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

For Sale.

Must be sacrificed at once, two valuable mining claims at San Pedro, Santa Fe county, N. M., in the New Placers mining district, near the Lucky and Big Copper mines. Sixty-five feet work done on one and forty feet on the other. Both have good leads and assay well. Address D. A. this office.

HERMAN CLAUSSEN, Prop.

The A. & P. Case.

At 4 o'clock yesterday afternoon, Judge Collier announced his decision in the A. & P. receivership matter. He denied the application, giving leave for it to be renewed on November 1, 1895, if what were claimed to be injuries by the A. T. & S. F. toward the Atlantic & Pacific Railroad company were not corrected or by then shown to be without foundation in fact.

Judge Collier's view, says the Citizen, is that if the Atlantic & Pacific is not getting its fair proportion of earnings as a part of the Santa Fe system, this in justice can be remedied through the steps already begun for its correction, and he directs that the special master, Hon. Henry L. Warren, shall notify the other masters that this court requests their co-operation to a hearing of the traffic matter by September 15, a joint reference having been made to the three masters in the Atchison, Topeka & Santa Fe, St. Louis & San Francisco and Atlantic & Pacific cases.

Did You Ever Think

That you can not be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth the great blood purifier.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

Dr. Wm. M. Bell.

The veterinary surgeon who has been testing the cows of the different milk dairies in the northern part of the territory for tuberculosis (consumption), is in Santa Fe fully prepared to test the herds and family cows of our city.

Miss Gulliford will, when her private classes reassemble in September, also open a kindergarten on the most modern and approved principles, assisted by another thoroughly trained teacher.
