## SEN. BRICE KNOCKED OUT.

Democratic County Convention at  
Cleveland Declares for Silver  
and Elects Anti-Brice  
Delegates.

Brice Men Bolt and Hold a "Rump"  
Convention—Action of Regular  
Convention Condemned—  
Brice Cheered.

Cleveland, Ohio, Aug. 17.—The Democratic county convention to-day elected Alfred Whittaker chairman by a decisive vote over James Lawrence. This indicates that the delegates from this county to the Democratic state convention, next week, will be for free silver and anti-Brice.

THE BRICE MEN BOLT.  
Cleveland, Ohio.—A motion by a free silver delegate, to appoint a committee of seven to select delegates to the state convention, caused a row that for a time threatened to result in more than a war of words. The Brice men, headed by James Lawrence, retired from the hall to hold a "rump" convention. After their withdrawal, the committee of seven to select delegates to the state convention was appointed, being composed entirely of free silver and anti-Brice men.

The seventy-five delegates organized and elected fifty-nine delegates to the state convention. Resolutions were adopted condemning the move of the so-called regular convention and three rousing cheers given for Brice.

FREE SILVER RESOLUTIONS ADOPTED.  
Resolutions were passed by the regular convention opposing Calvin S. Brice for U. S. senator and favoring the free coinage of silver.

SILVER SENTIMENT GROWING FAST.

Denver.—A special to the Times from Washington says: Ex-Representative Sibley, candidate for president, arrived here to-day en route home from North Carolina. He indignantly denounced the statement that the sentiment expressed in the bimetallic league's platform is dying out. "If there is anything the matter," he said, "it is growing too fast. It is growing faster than we can organize. The people have been educated by the 'free silver' newspaper press," and asserting emphatically that the silver craze was not dying out, but fast widening its fields. It was like a volcano, which could not be suppressed by covering the crater. The belief in the east that it was dying out, he added, was due to the fact that it had now passed the pyrotechnic stage of noise and demonstration.

PEPPER DECLARES HE IS STILL FOR SILVER.

Minneapolis.—A state official, who wrote Senator Pepper, of Kansas, asking him whether the news that he had gone back on free silver was true, received a reply this morning stating that the "free silver" newspaper press, and asserting emphatically that the silver craze was not dying out, but fast widening its fields. It was like a volcano, which could not be suppressed by covering the crater. The belief in the east that it was dying out, he added, was due to the fact that it had now passed the pyrotechnic stage of noise and demonstration.

A Lynching not Improbable.

Lexington, Ky., Aug. 17.—Henry Smith, the colored assailant of Mrs. Hudson, was brought before the court to-day and waived an examination. He was taken back to his cell by a bare entrance and escaped the wrath of 600 men, who had gathered to lynch him. Every man who entered the court room during the hearing was searched. There is still talk of an attack on the jail, which is guarded.

## KANSAS WOMAN'S PLUCK.

Winged a Burglar with a Pistol He Severely that He Fled in Haste.

Atchison, Kas., Aug. 17.—Mrs. J. S. Thomas, wife of a Rock Island engineer, awoke at 1 o'clock this morning and found a burglar standing by her bed. He cursed her and told her to remain quiet. Instead she pulled a pistol from under her pillow and fired, wounding the burglar, who left a trail of blood. The burglar fired at Mrs. Thomas before retreating.

Buried Under the Ruins.

Detroit, Aug. 17.—A thunder storm, accompanied by a heavy wind, came up suddenly at noon to-day. At the United Presbyterian church, which is situated on the corner of 12th street and Grand River avenue, portions of the walls collapsed, several men being buried in the ruins. Frank Senova, a bricklayer, was buried under two feet of brick and mortar and killed.

Securities Paralyzed.

Montreal, Aug. 17.—Great excitement was caused here to-day by the statement that \$40,000 worth of securities had been purloined from the safes of the city treasurer.

## CORRUPTION SUSPECTED.

Difficulty of Obtaining a Jury in Durrant Case Attributed to Bribery of Clerks.

San Francisco, Aug. 17.—Since the retirement of Juror Brown the selection of four additional jurors for the trial of Theodore Durrant has caused the police department a good deal of worry. Captain of Detectives Lese is suspicious of the deputy county clerks entrusted with the drawing of veniremen. He says the same officials were connected with the trial of Counterfeiter M. D. Howell, when the jury disagreed. The police are still working to ascertain to source of money which is alleged to be used sparingly in connection with the preparation of Durrant's defense. The prosecution thinks the money is being raised by subscription. To-morrow a new panel of 115 veniremen will be in court and it is hoped to secure four more jurors.

Backbone of Strike Broken.

Naguanue, Mich., Aug. 17.—It is evident that the backbone of the miners' strike is broken and it is generally conceded that the men will soon return to work.

## Natives are Alarmed.

Hong Kong, Aug. 17.—The commission appointed to investigate the recent massacres of missionaries and their families, at Ku Cheng, which left Foo Chow on Tuesday, has arrived at Ku Cheng. Important arrests have been made. The natives are alarmed at the arrival of the commission.

## Threatened Strike in Chicago.

Chicago, Aug. 17.—It is probable that the 3,000 garment workers employed in the sweat shops here will strike shortly. The workers are organizing rapidly and will demand better pay and shorter hours.

## Price of Beer Will be Advanced.

Chicago, Aug. 17.—It is stated that the brewers' agreement to advance the price to retailers in Chicago now lacks only four signatures of comprising all the beer producers in Chicago. The first effect of the agreement will be to drive out of business at least 2,000 of the 7,000 licensed saloon keepers in the city.

## THE MARKET.

New York, Aug. 17.—Money on call nominally easy at 1 per cent; prime mercantile paper, 3 1/4 @ 3 3/4. Silver, 66 1/2; lead, \$3.37 1/2.

Chicago.—Cattle, market dull and weak at yesterday's late closing; hardly enough to make quotations. Sheep, quiet and steady.

Kansas City.—Cattle, market steady to strong; Texas steers, \$2.40 @ \$2.45; Texas cows, \$2.20 @ \$2.25; beef steers, \$3.70 @ \$3.75; native cows, \$1.00 @ \$1.25; stockers and feeders, \$2.50 @ \$2.25; mixed, \$1.75 @ \$3.00. Sheep, steady; lambs, \$3.00 @ \$4.25; muttons, \$1.00 @ \$2.50.

Chicago.—Wheat, August, 65 1/2; September, 66 1/2. Corn, August, 39 1/2; September, 37 1/2. Oats, August, 21; September, 20 1/2.

## OMAHA POLICE TROUBLE.

Controversy Between the Rival Board Appealed to Supreme Court—Old Board Still Holds the Fort.

Omaha, Aug. 17.—The controversy between the rival boards of fire and police commissioners is now before the supreme court on a stipulation of the attorneys of the contending parties. The supreme court will meet on August 22 and take up one on printed briefs. The court will render a decision as soon as possible thereafter. Meantime the old board is in undisturbed possession.

## VERY WEARY OF WAITING.

Chicago Railroad Sued By a Contractor For Overdue Staff—Wants Receiver Appointed.

Rockport, Ind., Aug. 17.—Frank Malone, of Chicago, to-day filed suit in the circuit court against the Chicago, Indianapolis & Chattanooga Railway company for \$52,000, claimed to be due him as contractor for grading the road from this city to Grandview. The plaintiff alleges that the officers of the company have mismanaged its financial affairs and converted the assets to their own use, rendering the company bankrupt. Wherefore he asks for the appointment of a receiver.

## AS VIEWED IN ENGLAND.

London News Comments Upon Democratic Silver Conference and Revival of Business in the United States.

London, Aug. 17.—Commenting upon its New York dispatch which details the doings of to-day's Democratic silver conference at Washington and the impulse to return to prosperity throughout the United States, the Daily News in an editorial says:

"The dispatch would furnish a good text for the speech which Lord Farrer is announced to deliver at next Saturday's meeting of the Cobden club. Nobody ever believed the wage earning classes of the great American cities would abandon all to the silver dollar. The tendency to turn against protection is the more interesting because less generally expected.

"Six months ago the election of another protection president was confidently counted upon. Our correspondents inform us that the prospect is now changing. An enormous increase of trade followed the passage of the Wilson bill, and proved, in a rough and ready way, most effectively to the electors, that McKinley did not hold the only key to the industrial paradise. It is not clear that there is any man of sufficient power and popularity to win his support from all sections of the country, but the feeling against increasing the tariff will probably induce the Republicans to drop McKinley."

## Weekly Bank Statement.

New York, Aug. 17.—The weekly bank statement is as follows: Reserve, increase, \$2,238,100; loans, increase, \$299,100; specie, increase, \$208,700; legal tenders, increase, \$3,008,900; deposits, increase, \$3,546,000; circulation, increase, \$31,800. The banks now hold \$41,266,876 in excess of legal requirements.

## TOILS TIGHTENING.

Holmes Will Have to Answer For His Bloody Crimes in Chicago—Then Toronto Will Claim Him.

Philadelphia, Aug. 17.—It has practically been decided that H. H. Holmes, the alleged murderer of Minnie and Nannie Williams, B. F. Peitzel and half a dozen others, will go to Chicago for the murder of the Williams girls. This, it is said, was the outcome of a lengthy conference held in this city to-day between W. A. Capps, of Fort Worth, Texas, and District Attorney Graham. After the conference Lawyer Capps said he had urged the district attorney to allow Holmes to go to Chicago, and that Mr. Graham could hardly refuse to grant his request.

CANADIAN AUTHORITIES WANT HOLMES.

Toronto.—Deputy Attorney General Cartwright was seen this morning regarding the finding of a verdict of murder against Holmes, given last night by the coroner's jury, and he emphatically stated that, should the United States authorities fail to convict the prisoner, the province of Ontario would spare no expense to bring him to justice.

## SETTLERS AND BANNOCKS.

Prospect That the Settlers of Jackson Hole will Be Prosecuted by Indian Bureau.

Discovery of a Treaty Whereby Assaults of Whites on the Bannocks and Shoshones May Be Punished in Federal Courts.

Washington, Aug. 17.—In spite of reports to the contrary, it may be definitely stated that the Indian bureau, as yet, has taken no steps whatever looking to the punishment of the Jackson Hole settlers for killing the Bannock Indians. The bureau has sent no communications on the subject to the department of justice.

It is probable, however, that steps will be taken almost immediately to bring those engaged in the killing to justice. The delay was caused by the fact that no law was known under which the U. S. courts could take cognizance of the matter, and the further fact that it is practically impossible to secure convictions in the Wyoming state courts, owing to the strong feelings against the Indians. To-day, however, it was discovered that the treaty of July 8, 1868, between the United States and the Bannock and Shoshone Indians, contains the following provision: "If any man among the whites, or among other people subject to the authority of the United States, shall commit any wrong upon the persons or property of the Indians, the United States will, upon proof made to the agent and forwarded to the commissioner of Indian affairs at Washington City, proceed at once to cause the offenders to be arrested and punished according to the laws of the United States, and also to reimburse injured persons for losses sustained." While the bureau has not yet decided on a course of action, it is probable that arrests will be made by U. S. marshals under the provisions of the treaty. The persons arrested can sue for writs of habeas corpus, thus bringing the validity of the treaty and the whole status of the Indians into court.

## Fugitive Cashed Here From.

Salida, Mo., Aug. 17.—A letter was received here to-day from J. C. Thompson, the fugitive cashier of the defunct First National bank, in which he says that he has taken out naturalization papers and become a citizen of Mexico.

Milk Punch 10 cts a glass at the Colorado saloon.

## HUNDRED MILES AN HOUR.

Scheme Projected in California to Annihilate Space—Candidate McKinley Will Take Notice.

San Francisco, Aug. 17.—San Francisco and Santa Cruz will soon be equaled by a bicycle railroad, and articles of incorporation of the Shore Line Bicycle Railroad company have been filed. It is said that a number of eastern capitalists are behind the project. The promoters of the road are said to have constructed a similar line on Long Island. The Westinghouse Electrical Manufacturing company and the Baldwin Locomotive works are also said to be interested in the road, which its promoters hope eventually to extend to Los Angeles. The distance to Santa Cruz is ninety miles, and the company expects to run trains at the rate of 100 miles an hour.

## BLOODY DEEDS AT TOLEDO.

Two Officers Wounded by Desperate Tramps—Six Prisoners Escape from Jail—One Badly Hurt.

Toledo, Ohio, Aug. 17.—Three tramps gave the police a two hours' chase and a pitched battle to-day. Policeman Shaffer was shot through the right shoulder and Policeman Smith in the right hand. For some time tramps have been making rendezvous near the Park street bridge, near the Lake Shore road. Patrolman Shaffer ordered the gang to leave. Part of them did so, three defying him. He called Officer Smith to his aid and proceeded to drive them out. Clarence A. Smith, a sailor from New York, drew a pistol and wounded both officers. A patrol wagon was summoned, and after a two hours' chase, the three were captured, after Smith had his legs from the knees down filled with bird-shot from a doubled barreled shot-gun fired by an officer.

JAIL BREAK AT TOLEDO.

To-day six prisoners at the county jail attacked Turnkey Mosier, who was being shaved by a prisoner, hand-cuffed him, locked him in a cell and escaped by means of his keys. Munday, who murdered his wife, was at the head of the conspiracy. The others were burglars. It was fifteen minutes before the alarm was given and so far but one of the fugitives has been retaken. McClelland charged with grand larceny. Detective McLaughlin found him in the outskirts and halted him. He ran and the officer fired, the ball striking at the edge of the fugitive's forehead, plowing a furrow to the rear of his head and stunning him.

## I Am Glad

To tell what Hood's Sarsaparilla has done for me. I had the grip and it settled all over me. I had cramps in my legs and frequently I had to get up at night and walk to relax the muscles. I also had stomach troubles. I then took Hood's Sarsaparilla. One bottle cured the cramps, and another has helped my stomach trouble greatly. I have taken 3 bottles and use Hood's Pills which are the best I ever took." H. A. McVining, Sisters, Oregon.

## GOLDEN'S GRIST.

Sale of a Copper Property—The Har-

old Purchase—Mining Matters

Looking All Right.

Correspondence New Mexican.

Golden, Santa Fe Co., Aug. 15.—The sale of the San Rafael copper mining claim by Henry and Stephen Colwell, of La Madera, and Juan E. Segura, of San Pedro, for a nice little sum last Monday was an agreeable surprise to this community. The deal was worked so quietly that no one knew anything about it, excepting the parties directly interested, until it was consummated. The negotiations were engineered by Val Schick, of Cerrillos.

On account of the absence of the parties interested your correspondent is unable to give the exact amount paid for the claim, but I have obtained reliable information that the lucky discoverers and locators above named received quite a stake from the sale of the property.

As yet I have not ascertained who the real purchasers are, but in the meantime sufficient to lead me to believe that this transaction means considerably more to this section than appears on the face of it, and more of a similar nature will follow soon.

It means the development of this and other desirable prospects, which have long lain idle. Development, properly prosecuted, will make producing mines out of these prospects, which is what this camp needs to bring it to the front.

It looks as if this part of Santa Fe county will from this time on receive the consideration it has so long justly deserved.

The building of the Cerrillos smelter and the prospective building of the D. & R. G. railroad through this section is having the much wished for effect of attracting capitalists and promoters of mining enterprises to the district.

The Lucas mill is running again, full blast. The new crusher and other improvements are in place and everything working nicely.

Mr. M. Harold bought the boiler, engine, tools, etc., the property of the Golden Hydraulic & Irrigation company, as advertised, which were sold by the sheriff under execution last Saturday. Mr. Harold paying the sum of \$950 therefor. He will probably organize a placer company on his own hook.

## A Santa Fe Connection.

Now that the narrow gauge road between Espanola and Santa Fe has passed into the hands of the Rio Grande, it is being improved and put in first-class shape, and train crews are being run through from Antonito to Santa Fe. President Jeffery has been over the line, and promised the people of Santa Fe to do all in his power to develop the traffic which should naturally come to it. As that official always means what he says, and is also always open to reasonable suggestions, the news regards it as a proper time to renew the agitation for a through train to Santa Fe, leaving Denver in the morning. The fact that all trains for New Mexico leave Denver in the evening has always been a serious drawback to communication with that territory. Denver papers and mail are twenty-four hours old before they leave the state en route to New Mexico, which enables the Kansas City and St. Louis papers and mail of the same date to get into Santa Fe on the same train. If a mail train were run from Denver in the morning, this discrimination against Denver would not exist.

By the way of Salida to Santa Fe the distance is 461 miles. By the Veta Pass route, the distance is 409 miles, the last named route being fifty-two miles shorter.

## Stiffed By Apprehension.

London, Aug. 17.—The financial article in the Standard says: "The gold syndicate assumes a bold face, but that none will not prevent gold exports from America, and the autumn exports of produce do not promise to be anything like so heavy as to allow the syndicate to liquidate its debts here and at the same time to turn the gold current inward. Therefore the American railroad market is stiffed by apprehension."

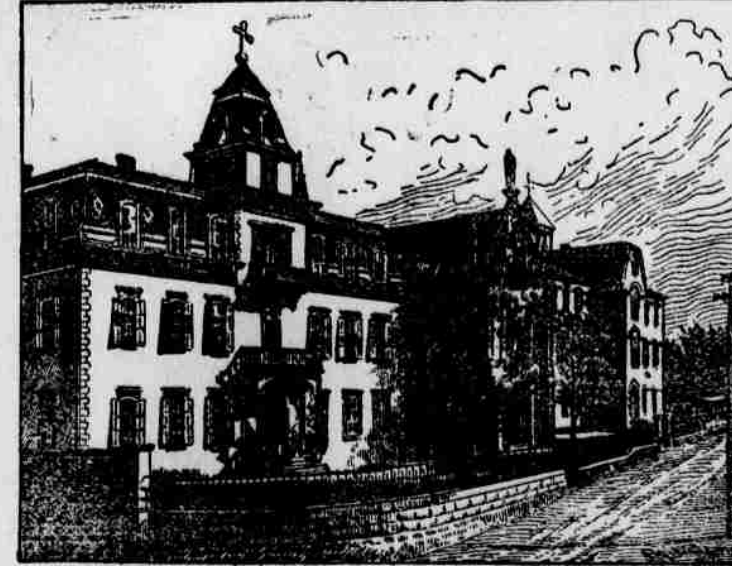

## How An Alleged Insane Criminal Enabled Train Robbers to Escape from Prison.

Poughkeepsie, N. Y., Aug. 17.—William E. Hopkins, of Low Point, an ex-attendant at the Mattewan state asylum for insane criminals, was locked up to-day on the charge of intoxication, but in reality he is accused of aiding the train robber, Oliver Curtis Perry, and four fellow convicts to escape from the asylum last April. Hopkins received a package of valuable diamonds and jewelry, last October, from Mrs. Howell, of Troy, who visited Perry several times, in consideration for which he agreed to help the train robber escape. Hopkins got blank keys, which he gave to convict McGuire, who fashioned duplicates, and thus unlocked the cells of Perry and his pals.

## Stiffed By Apprehension.

London, Aug. 17.—The financial article in the Standard says: "The gold syndicate assumes a bold face, but that none will not prevent gold exports from America, and the autumn exports of produce do not promise to be anything like so heavy as to allow the syndicate to liquidate its debts here and at the same time to turn the gold current inward. Therefore the American railroad market is stiffed by apprehension."

All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to The Editor. Letters pertaining to business should be addressed to the New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

SATURDAY, AUGUST 17.

HAVE you lately heard from Cochiti? Things seem to be all right over in that great mineral district.

THE National Republican league headquarters are to be removed from Chicago to the east. That's where they belong—right under the nose of Wall street.

SENATOR JOK BLACKBURN is making a winning fight for free coinage in Kentucky. Already he has enough delegates pledged to his support to assure his return to the U. S. senate.

DENVER is feeling the effects of the fast returning good times. This is indicated by the fact that over 400 buildings are now in course of construction in "the queen city of the Rockies."

THE people of Las Cruces have been very strongly reminded that they had best talk less politics and more business. Wait till C. B. Eddy gets there, and it will be different.

LADY ABERDEEN is getting herself into very hot water in Canada, so they say, by the extreme democracy which she preaches and practices. At the houses which she visits she takes pains to ask the servants how they are treated, advises the maids to refuse to wear caps, aprons and other badges of servitude and shakes hands with all the servants.

THAT line in President Cleveland's answer to a letter of congratulation, "Life is one grand, sweet song," has inspired Edward Deering, of New York, to write verses with it for the refrain, and to set the whole to music. He sent the first copy of his work to the president, who wrote to him the following letter of thanks, from Gray Gables: "I have received the music you kindly sent me, and desire to thank you for it and for the friendly expressions contained in the letter accompanying it."

#### A BUDDING BOOM.

THE New Mexican extends its congratulations to the people of the Mesilla and lower Rio Grande region over the announcement that Hon. C. B. Eddy has secured control of the Boyd and Smith reservoir projects, and it trusts that every word that has been reported on the subject is truth. With Mr. Eddy at the helm there can be no doubt about this new irrigation enterprise being carried out carefully. It will add millions of dollars to land values in the fruitful district between Fort Helden and the southern boundary line of the territory, and El Paso, too, can afford to give the undertaking its heartiest moral support, for that city and vicinity will also receive large benefits therefrom.

#### PEPPER, GOOD BYE AND GOOD RIDDANCE.

Senator Pepper, of Kansas, easily distances all competition as the most tiresome individual in public life. In his latest public utterance he declares in favor of discarding silver as well as gold; even goes so far as to say that he will take the stump against the entire silver movement; and insists that a new fangled notion of his own, issuing money based exclusively on land values and abolishing all forms of interest, is the only panacea for the ills of the people. The champions of silver have reason to rejoice that Pepper has voluntarily cut loose from them. The sooner the righteous cause of the shining white metal is well rid of all such visionary nobodies as Pepper the better it will be for the cause. The movement for the restoration of silver to its rightful place in our monetary system vitally and materially concerns every man, woman and child in our broad land. It involves purely practical, matter of fact, everyday-in-the-year questions; questions that long-haired dreamers with wheels in their heads and perpetually moving jaws have precious little comprehension of; questions that must be solved by men possessed of plenty of common horse sense and well balanced reasoning faculties. Happily thousands of men of this sort are flocking to the silver standard in all parts of the country, and, if, as all the signs of the times now plainly indicate, the Democratic party adopts "free coinage of silver and gold at 16 to 1" as its battle cry in 1896, the grand old party of the people certainly should and doubtless will command the united support of all sincere friends of silver throughout the country. Pepper, good bye and good riddance. Such men as you and Blood to the Bridges Waite, however well meaning you may be, would handicap the best cause that ever enlisted human support.

#### Las Cruces Sees the Point.

The United States court will be held no more in Las Cruces; it has been transferred to Silver City by order of the supreme court of the territory at Judge Bantz's request. Judge Bantz lives in Silver City, and he has very naturally favored his own town and consulted his own convenience, and we have not a word of adverse criticism to utter concerning his action.  
Las Cruces has lost the judgeship of the district court, the district clerk's office and the United States court because of the everlasting and idiotic squabbling that has made Dona Ana county a stench in the nostrils of the people of New Mexico. There is no peace in this community from one year's end to another. A few sordid office-seekers, who have no political principles but make ducks and drakes of all parties and policies for their own personal profit, keep this county and particularly Las Cruces in a disgraceful turmoil with their pestilent bickering and poisonous backbiting, and a peaceable man has about as much show here as a cat in a shoe without claws.—Las Cruces Independent.

#### Regarded as Settled.

The tariff question may be regarded as settled for a number of years to come. While some of the more ardent protectionists in the Republican party are anxious to make the tariff an issue in the next campaign, the more conservative of the Republican politicians are anxious to drop it and follow the advice of the New York Tribune. The country has been given an object lesson concerning the tariff and all the howling that the Republican orators can do will not make the people believe that it is to their interests to pay a tax for the benefit of the manufacturing classes. During the past year the people of New Mexico have had a little experience with a Democratic tariff law and the experience has been entirely satisfactory. Although Mr. Morrison, the tin plate orator of New Mexico, faked himself hoarse over the tariff question and insisted that the placing of wool on the free list would bankrupt the sheep men of the territory, his prediction has not come true. Some of the sheep men became frightened when the bill passed putting wool on the free list and sold their sheep, but now they are regretting very much that they acted on the advice of the great tariff advocate of New Mexico. The protective policy is dead and our Republican friends should inter the remains as soon as possible.—Silver City Eagle.

#### That Receivership Contest.

Beyond any peradventure the appointment of a separate receivership for the Atlantic & Pacific railroad would have worked great injury to the people of this city. A thousand straws pointed out the apparent intention of the Santa Fe Railroad company to cut loose from the Atlantic & Pacific railroad unless the receivership question were left as it is. Such a cut, would mean irreparable injury to the people of this city, business men as well as property holders; it would have meant the shutting up of the shops of the Atlantic & Pacific Railroad company in this city and as a consequence the closing of many a business house which has weathered the storm of a recent depression.

While it is true the independent operation of the Atlantic & Pacific road might result in the bringing of another through line into this city, it is also true that no line could be built to this city to make a connection with the Atlantic & Pacific railroad within many months—and during that period of inaction Albuquerque could not well have weathered the storm. The Democrat congratulates the people, and for the people and itself congratulates Judge Collier.—Albuquerque Democrat.

#### Items of Interest By The Wabash Man.

Bulletin No. 6.  
The state of Colorado has at present about 66,800,000 acres of public lands. From Kansas City to St. Louis by the Wabash, the distance is 277 miles, Toledo 692 miles, New York 1437, Boston 1489 miles.  
Of vacant public lands in Colorado there are 40,861,000 acres.  
The Wabash is the popular line east for its free chair cars, excellent meals at low prices, and its direct connections to Union passenger stations.  
The United States national debt is at present \$915,962,112, or \$14.62 per capita. The per capita indebtedness in France is \$116; in England \$87; in Dutch East India 64 cents.  
Any truthful ticket agent, lawyer or newspaper man will tell you that the Wabash is the best and cheapest line east.  
Lookout for bulletin No. 7.

Insist upon having the genuine.  
IT IS FOR SALE EVERYWHERE.

## The PECOS VALLEY of . . . NEW MEXICO

**OFFERS** unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Land with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, the productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

## THE MAXWELL LAND GRANT Farm Lands! Gold Mines!

UNDER IRRIGATING DITCHES.

Choice Mountain and Valley Lands near the Foot of the FOR SALE.

For the Irrigation of the Prairies and Valleys between Raton and Springer One Hundred miles of large irrigating Canals have been built. These lands with perpetual water rights are sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of Agricultural, Coal and Timber Lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same, if they should buy 160 acres or more.

The famous Gold Mining Camps near Elizabethtown and Baldy are thrown open to prospectors on more favorable terms than locations on Government land. Mining regulations sent on application.

Daily, four-horse, covered coaches leave Springer at 7 a. m., except Sundays, for Cimarron, Baldy and Elizabethtown, and leave these points every morning, Sundays excepted, for Springer.

The A. T. & S. F. and U. P. D. & G. railroads cross this property. WARRANTY DEEDS GIVEN. For full particulars apply to

SUNBEAMS.  
Mary had a little ring—  
Twas given by her beau—  
And everywhere that Mary went  
That ring was sure to go.  
She took the ring with her one day  
Off to the seashore, where  
She might display it to the girls  
Who were all clustered there.  
And when the girls all saw that ring  
They made a great ado,  
Exclaiming with one voice, "Has it  
Just got around to you?"

When They're Rebellious and Shirk Duty.  
Don't attempt to overcome inactivity of the kidneys with fiery, unmediated alcoholic stimulants. Use instead Hostetter's Stomach Bitters, in which the spirituous basis only serves as a vehicle for the superb tonic medicinal principles blended with and held in perfect solution by it. Just the right degree of impetus, and no more, is given to the kidneys and bladder by this estimable tonic, stimulant and corrective, which expels through those channels the impurities that give rise to rheumatism, dropsy and gravel, and remedies that chronic inaction of the organs which otherwise must terminate in Bright's disease, diabetes or some other formidable renal malady. An innumerable remedy in the Bitters also for constipation, dyspepsia, liver complaint, rheumatism, malaria and nervousness. Promote appetite and sleep with it.

Some folks will be growlin'  
When storm-winds are howlin'  
They feel like to grumble an' sigh;  
But I somehow content me  
With all that is sent me,  
For the good Lord's a-runnin' the sky!  
There are the bacilli in a kiss!  
Exclaim the sage, suspicious;  
But microbes in a case like this  
Are really delicious.

The difference between pills and Simmons Liver Regulator, is just this: Pills don't go down very easy with most people, and you feel them afterwards. While Simmons Liver Regulator in liquid or powder is very pleasant to take, and the only feeling that you have afterwards is the great relief that it gives from constipation, biliousness, sick headache and dyspepsia. It is a mild laxative and a tonic.

Despite my lady's frown, that fills  
My heart with coward fears,  
I'm all but tempted to propose,  
She has such pretty ears!  
Love whispered there, I'd swear, must  
seem  
Full sweet to her who hears;  
To poetry plain prose must turn,  
Made music by her ears.  
Fried's sentinel to silence me  
Her haughty eye appears:  
I dare not look, my love, but oh,  
I'd trust it to her ears!

One night when Mr. Isaac Reese was stopping with me, says M. F. Hatch, a prominent merchant of Quartermaster, Washington, I heard him groaning. On going to his room I found him suffering from cramp colic. He was in such agony I feared he would die. I hastily gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved and the first words he uttered were, "what was the stuff you gave me?" I informed him. A few days ago we were talking about his attack and he said he was never without that remedy now. I have used it in my family for several years. I know its worth and do not hesitate to recommend it to my friends and customers. For sale by A. C. Ireland, Jr.

I told my love unto the dew  
That vanished in the air;  
I told it to a little bird  
That warbles everywhere.  
At eve I told it to a rose  
And said, The secret keep.  
Quoth she: Beware, and have a care  
I whisper in my sleep.  
An adept grown, I told my love  
To her whom I adore,  
She smiled and said: It must be so  
I've heard it thrice before.

The World's Fair Tests  
showed no baking powder  
so pure or so great in leavening power as the Royal.

The Manager—What look did you have on your fishing trip?  
The Actor—None at all. When I got to the center of the lake, I found I had gotten my lines and my performance was a dismal failure.

## Men Don't

Further waste money on drugs, medicine, etc. They you have men and know what is incurable: Neuritis, Weakness, Impotence, etc. But nature's own remedy must be scientifically used. It is SANDER'S ELECTRIC OIL, and the greatest possible perfection for its application is attained in the well-known Sanderson Electric Oil. This is known to be sold and given complete satisfaction for nearly thirty years, and we refer our customers to hundreds of cures in every State. Throw drugs to the dogs, and join our army of cures in blessing the greatest boon ever given weak men. It will also cure:  
Rheumatism, Lame Back, Lumbago, Dyspepsia, Kidney and Liver Complaints, and general ill-health.  
A pocket edition of Dr. Sanderson's celebrated book  
"Three Classes of Men," will be sent free, sealed, upon application. Every man should read it. It is the only full and complete guide for self-treatment ever offered. Free to everybody. Send for it.

The Sanderson Electric Co.,  
No. 595 Sixteenth St., Denver, Col.  
Also New York, Chicago & London, Eng.  
Largest Electro-Medical Concern in the World!

Mr. C. G. Strong, principal of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for lameness and slight wounds."  
Lameness usually results from sprain, or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost immediate relief and in a short time effects a permanent cure. For sale by A. C. Ireland, Jr.

Hypothetical Trolley Tunnels.  
The trolley car party is as popular here as elsewhere, but it remained for Baltimore wit to invent an attractive novelty for the trolley ride. Last week a party of 40, comprising a due proportion of gay youths and maidens properly chaperoned, started for a ride to Glyndon. On the return trip a member suddenly left his seat and had a long whispered consultation with the motorman, whose subject he refused to divulge to his curious companions, although, stimulated by the mischievous twinkle in his eye, they plied him with questions. On merrily went the car till all at once the motorman sang out:  
"At the top of this hill look out for the tunnel!"

The mystified members of the party looked at him and one another in amazement, for no tunnel could they remember on the road. But when the top of the hill was reached they shot into quick darkness, for the motorman had turned off the electric lights. A peal of laughter rose as the joke was seized, and then all over the car arose sounds of an oscillatory nature which the perplexed chaperons could not locate, but were pacified when told the girls were only kissing their hands in deference to tunnel customs. Six tunnels were passed, and finally the motorman cried out:  
"Last tunnel before we reach the city!" And the tunnels were unanimously voted the best part of the jolly ride.—Baltimore American.

Was Noah a Carpenter?  
"Twas a bright, warm morning in early spring a few years before the completion of the ark. All was peace and quiet. The sunny silence was broken only by the tap of Noah's hammer and the occasional ribald remarks of some young toughs who had strolled over to Josh him about his proposed voyage.

But suddenly the calm was jarred to fragments by a prolonged shriek of agony, which caused Mrs. Noah's hair to creep and startled her into dropping a porterhouse steak into the coal vase. Hurrying out to the ark, she beheld her spouse with his head bowed on his breast rocking to and fro in speechless pain.  
"What troubles thee, my soul?" she inquired in trembling tones.  
Noah raised to her two eyes full of suppressed emotion, removed from his mouth a mangled thumb, held it up to her gaze beside a bloody hammer and observed in a voice quivering with intense feeling:  
"By the whiskers on the foaming of my father, madam, if this thing continues much longer, I'll be durned if I don't hire one of these unregenerate sons of Babel to stand around at two bits an hour and swear for me."

Whereat he again tenderly inserted his injured thumb into his mouth, while Mrs. Noah wept tears of silent sympathy.—Truth.

In 1930.  
"Such an odd choice, and yet!"—The two young men laid down their embroidery and proceeded to eat some bonbons.  
"George had his reasons for promising to marry that football player!"  
Raising a salted almond to his cherry lips, Reginald also raised his pensive eyes inquiringly.  
"Yes, Reggy, dear, he had good reasons. You know Sara Van Winkle comes of good old Knickerbocker blood; she is the best quarter back at Vassar, and besides!"—Willie gazed at the marquis rings on his pink tipped fingers.  
"George always thought he would look so well in black!"

The manservant having announced a caller, they dashed some powder on their noses and went into the drawing room.—New York World.

"But why have you thrown George over?"  
"Oh, I hate him! The other evening he asked me if he might give me a kiss, and because I said 'No' he didn't."—Sketch

A Deceiver.  
"I have been deceiving you," he wildly cried.  
She would have fallen had she not clutched her hair.  
"I have been deceiving you, I!"—The words seemed to be fairly wrung from his unwilling lips.  
"Am the man who writes those 'fair with stationary temperature' predictions in the papers?"  
With a shriek that was eloquent with anguish she turned and gazed gloomily into the gathering dusk.—Detroit Tribune.

She Wanted to Help.  
She was in the country for the summer and was interested in everything she saw.  
"Excuse my ignorance, won't you," she exclaimed as she went over to where Farmer Cornsheel was working, "but I do so love to pick fruit. These plants are very pretty, but I can't see what grows on them."  
"No," was the reply. "It is pretty hard to see."  
"But what do you pick of them?"  
"Tater bugs."—Washington Star.

Would Make an Alteration.  
Biggerstaff—Young Huggins says he adores the very ground Miss Fendick walks on.  
Timberwheels—He wouldn't have such an affection for it if he knew it was mortgaged to its full value.—Detroit Free Press.

An Eye For the Sistietha.  
Postmaster—Is there a colored carrier outside?  
Clark—Yes, sir. Black is there.  
Postmaster—Send him in. I want him to deliver this special letter with a mourning border.—Chicago Tribune.

Upheld by the Bible.  
Father—What do you mean, sir, by hugging my daughter?  
Jack Ford—I was merely obeying the Biblical injunction to "hold fast those which are good."—Lawiston Journal.

Legal Notice.  
Cruz Sanchez, et al.,  
Complainants,  
vs.  
Hartman & Weil, a  
partnership com-  
posed of George  
W. Hartman and  
Alfred Weil,  
Defendants.

In pursuance of a final decree made and entered on the 6th day of May, A. D. 1895, whereby it was provided that, in the event of the failure of the defendants herein to pay the complainants within twenty days the sum of \$1,868.85, with 6 per cent interest thereon from March 1, 1894, and costs as therein decreed, the property hereinafter described should be sold to satisfy said decree, I, William H. Pope, special master, hereby give notice, the condition of payment not having been complied with, that I will on the 10th day of September, 1895, at ten o'clock in the forenoon of said day, at the front door of the court house of the county of Santa Fe, territory of New Mexico, offer for sale and sell to the highest and best bidder for cash, as an entirety, the following described property, to-wit:  
The southwest quarter of the southeast quarter of section thirty-two, township thirteen north, range nine east, New Mexico principal meridian, together with all veins of coal and improvements thereon, situated near the town of Cerillos, in Santa Fe county, New Mexico; said property being known as the "Mara coal mine."

The purchaser or purchasers shall upon said sale deposit with the undersigned special master at least ten per cent of the purchase money together with a memorandum signed by or in behalf of said purchaser or purchasers promising to pay the balance of said purchase money immediately upon the confirmation of said sale by the court and the tender of the special master's deed. The undersigned special master on the day of sale and from time to time thereafter may adjourn and keep open said sale in his discretion; and from and after the date of the sale of the said property by the undersigned in the manner aforesaid, the defendants and all persons claiming under them shall be and stand absolutely debarred and foreclosed of and from all equity of redemption, in and to the lands, real estate and premises herein ordered to be sold.

WILLIAM H. POPE,  
Special Master.  
A. B. RENNAN,  
J. H. SUTHERLIN,  
Solicitors for Complainants.  
Dated at Santa Fe, this August 9, 1895.

Legal Notice.  
In the district court of the first judicial district of the territory of New Mexico in and for the county of Santa Fe thereof.  
Norman B. Cornwell, Complainant,  
vs.  
Mary L. Cornwell, Defendant.  
Respondent.

The above named respondent is hereby notified that suit for dissolution of the bonds of matrimony existing between the said respondent and the complainant in said cause and for general relief has been filed against her in the district court aforesaid and that unless she enter or cause to be entered an appearance in her behalf in said cause on or before the return day of process therein, occurring on the first Monday in October, 1895, a decree pro confesso therein will be entered against her in the same.

Knights Templars Rates.  
August 17 to 22nd, inclusive, "The Burlington Route" will sell tickets to Boston at one fare for the round trip, and give you choice of routes east of St. Louis or Chicago. Many beautiful water trips offered. For full information apply to any coupon agent or G. W. Valley, General Agent, 1039 Seventeenth street, Denver, Colo.

G. A. R., Louisville, Ky., Sept. 10-14, 1895.

For the above occasion the Santa Fe route will place on sale tickets to Louisville, Ky., and return at one fare for the round trip to Chicago or St. Louis, added to 1 cent per mile from those gateways to Louisville and return. Dates of sale September 6 to 8, 1895, good for return passage until September 26, 1895.

For particulars call on agents of the "Santa Fe Route."

AT THE BALL GAME.  
Wigglesworth Takes His Wife and Boy to See It.

"Oh, mamma!" screamed Willie Wigglesworth, running into the house. "Come quick! Here's pa with a horse!"  
Mr. Wigglesworth was steering a long, bony animal to the sidewalk, an operation not unaccompanied with difficulty, for the horse had his own views of how a sidewalk ought to be steered up to, and they apparently did not coincide with those of Mr. Wigglesworth.

"Why, where are you going, Ellery?" called Mrs. Wigglesworth from the veranda.  
"What's that got to—what! you old fool!—got to do with it?" returned Mr. Wigglesworth, red in the face with his efforts at the reins. "Get on your things and prance out here, can't you? I yank the jaw off this miserable beast!"  
"Shall I take Willie?" asked Mrs. Wigglesworth, running down the walk with her bonnet on one side.  
"Take him?" answered her husband tartly. "Course you'll take him."  
With Willie's knees doubled up against the tacker, Mr. Wigglesworth finally shook out the reins and got his plume into motion. As they jogged on he pulled the bridle horse out of the gutters and curbed as well as he could that eccentric animal's predilection for involving their carriage wheels with telegraph poles and rival vehicles. Willie Wigglesworth's eyes fairly goggled from his head and a shriek of wonder rose to his lips as they presently skirted a tall board inclosure and turned in at the carriage entrance to the baseball grounds.

"Why," cried Mrs. Wigglesworth in surprise, "what place is this?"  
"What place is this?" repeated her husband. "Baseball grounds, of course. What you think it was—United States patent office? Seemed to you to be an asylum for parentless orphans likely."  
"I know what it is, pa," said Willie Wigglesworth gleefully.  
"You shut your head," growled his father, being at that instant called upon to twist the neck of the bridle horse in order to avoid running over the legs of some strangers, whereupon the horse gave a kitchin skip and jammed a fat man against the fence.

"What you do that for?" yelled the fat man, aiming a blow at Mr. Wigglesworth with his cane. "Don't they know any better than to let you out when there's a crowd?"  
A policeman pulled the fat man away and then led the bridle horse to a position back of the crowd. The game was already under way.

"There!" said Mr. Wigglesworth, standing up and looking about, "this is something like it. Our club is in, I believe."  
"In what?" anxiously queried Mrs. Wigglesworth, gazing toward the grand stand.  
"Oh, yes," she added, "I see—in that wire cage. What are they in there for, Ellery?"  
"That's the stuff!" shouted Mr. Wigglesworth, as a robust player in stuffed pantaloons struck the ball a terrific blow.  
"That's good for three bags."  
"Three bags of what?" asked Mrs. Wigglesworth, but the boy with peanuts passed at that moment, and she concluded it must relate to the traffic he was carrying on.

Presently the side went out, and the club with red stockings came to bat.  
"That's the dandy pitcher for you," Mr. Wigglesworth commented. "He's got his curves right on today."  
"What are his curves?" Mrs. Wigglesworth wanted to know, "and what has he got them on, Ellery?"  
But it needed only a glance at the pitcher, who had twisted himself into a knot preliminary to shooting the ball toward the striker, to indicate where his curves were to be found. Never in her life, Mrs. Wigglesworth said afterward to the minister's wife, had she seen a man so full of them.

"Three balls!" declared the umpire.  
"Wow!" howled Mr. Wigglesworth, in chorus with the crowd. "What an umpire! The ball was square over the plate."  
"Ellery," cried Mrs. Wigglesworth, turning a wild gaze about the grounds and the howling, hustling crowd, "I beg of you to explain to me."  
"What all you?" snapped Mr. Wigglesworth, reluctantly turning from the contemplation of a brilliant altercation between umpire and pitcher and numerous other players on both sides. "Why don't you watch the game and keep still, same as I do? What you come out here for anyway, if you don't want to see?"  
"I do want to see," protested his wife, "and I want to know what it means. I heard that man with the wire trap on his head say there were three balls, and I can't for the life of me see but one, and then you said there was something square over the plate, and I want to know where the plate is, and what they've got anything over it for, and—"

"Yow—yow—yow!" shouted Mr. Wigglesworth, turning scornfully from his wife and applauding a marvelous catch at second.  
"What was that?" piped Mrs. Wigglesworth, and her husband was just hissing to her to stop her noise when the second base shot the ball toward third for double play. The ball flew wild, dashed erratically through the dodging crowd and caught the bridle horse fairly in the ribs.

With four leaps and an equal number of snorts the bridle horse was over in the diamond with Mr. Wigglesworth attached to the reins and pulling up the turf at every leap. Mrs. Wigglesworth, left behind with the carriage, set up a scream that never ceased until the entire act was played out, while Willie, with his neck thrust through the wheel, waited patiently for everybody to come and unravel him.

There were a dozen reporters present, but none of them was able to explain why the worst of the bridle horse could clear the field so completely and keep it so, with nothing but Mr. Wigglesworth on the end of a pair of reins to do it with. But he did it.

"Who was that other man?" asked Mrs. Wigglesworth the next day as she was putting some more articles on her husband's baggage.  
"What other man?" growled Mr. Wigglesworth.  
"Why," explained his wife, "the second time the horse lunged you around you knocked down a man in a gray jacket, and every time the crowd rushed back and forth, chasing you and the horse, they trampled on him, and then when it was all over I saw the poor man lying there limply, and nobody seemed to care for him a bit. Who was it, Ellery?"  
"Why," responded Mr. Wigglesworth, "that must have been the umpire."—New York Recorder.

The Explanation.  
Old Gentleman—You say your father lingered a long while and died a sudden death. What do you mean by that?  
Tramp—Well, the vigilance committee told him to leave town in an hour, but he lingered for a day.—Philadelphia Record.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent here last summer and it never took but two or three doses of that remedy to effect a complete cure." For sale by A. C. Ireland, Jr.

98%

of all cases of consumption can, if taken in earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod-liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like palliatives. Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy emulsions, and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cent stamp. You can then write those cured and learn their experience.

Address for Book, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

There were 4,999 eyes fixed on the speaker at the meeting.  
How do you know?  
Well, I would have said 5,000, only I noticed that a man in the crowd was blind in one eye.

ATLANTIC & PACIFIC RAILROAD.  
(Western Division.)  
(J. W. Reinhart, John J. McCook, Joseph O. Wilson, Receivers.)

TIME TABLE NO. 39.

In Effect Sunday, November 4, 1894.

Leave Chicago at 10:00 p. m.; 10:00 p. m. Arrive at Chicago at 10:00 p. m.; 9:00 a. m.  
Leave Kansas City, Mo., at 1:50 p. m.; 2:00 p. m. Arrive at Kansas City, Mo., at 8:10 p. m.; 5:00 p. m.  
Leave Denver at 11:50 p. m. Arrive at Denver at 5:15 a. m.; 4:45 a. m.  
Leave La Junta at 7:20 a. m.; 10:10 a. m. Arrive at La Junta at 10:50 a. m.; 8:55 p. m.

Arrive San Diego 12:45 p. m.; 9:20 p. m.\* Leave San Diego at 2:15 p. m.  
Arrive at San Francisco at 9:15 a. m. Leave San Francisco at 9:00 a. m.  
\*Every day but Sunday.

CONNECTIONS.

ALBUQUERQUE—A. T. & S. F. Railway for all points east and south.  
ASH FORK—Santa Fe, Prescott & Phoenix railway for points in central and southern Arizona.  
BLAKE—Nevada Southern Railway for Purdy and connection with stage lines for mining districts north.  
BARSTOW—Southern California Railway for Los Angeles, San Diego and other California points.  
MOJAVE—Southern California Company for San Francisco, Sacramento and other northern California points.

Pullman Palace Sleeping Cars

No change is made by sleeping car passengers between San Francisco and Los Angeles of San Diego and Chicago.

The Atlantic & Pacific Railroad, the great middle route across the American continent, in connection with the railways of the "Santa Fe route." Liberal management; superior facilities; picturesque scenery; excellent accommodations.

The Grand Canon of the Colorado

the most sublime of nature's work on earth, indescribable, can easily be reached via Flagstaff, Williams or Peach Springs on this road. To the natural bridge of Arizona and Mesquima's well you can journey most directly by this line. Observe the ancient Indian civilization of Laguna or Acoma, "the City of the Sky." Visit the petrified forest near Carrizo. See and marvel at the freak of Canon Diablo. Take a hunting trip in the magnificent pine forests of the San Francisco mountains. Find interest in the ruins of the pre-historic

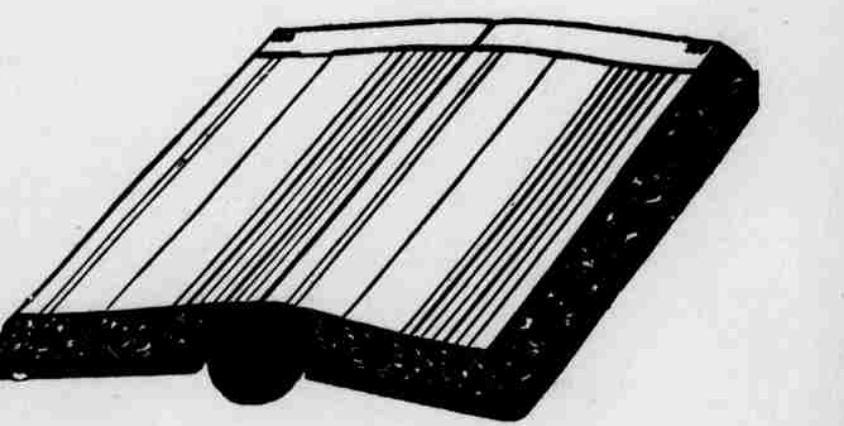

Cave and Cliff Dwellers.

View the longest cantilever bridge in America across the Colorado river.

Something New!

We call especial attention to our celebrated Frey's patent flat opening blank book

We make them in all manner of styles. We bind them in any style you wish. We rule them to order

JOB WORK

Of all kinds done with neatness and despatch. We carry a large and complete line of commercial stationery, consisting of wedding cards, business cards, programs, etc.

BOOK WORK

We are the best equipped establishment in the whole southwest for this line of work, and our unequalled facilities enable us to turn out work at the lowest possible figures.

LEGAL BLANKS

We carry a full and complete line of all Legal Blank, including those required by the Brand Law enacted by the last legislature.

NEW MEXICAN PRINTING COMPANY.

# The Daily New Mexican

SATURDAY, AUGUST 17.

Notice is hereby given that orders given by employees upon the NEW MEXICAN Printing Co., will not be honored unless previously endorsed by the business manager.

Notice.  
Requests for back numbers of the New Mexican, must state date wanted, or they will receive no attention.

Advertising Rates.  
Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading local—Preferred position—Twenty-five cents per line each insertion. Display—Two dollars an inch, single column, per month in daily. One dollar an inch, single column, in either English or Spanish Weekly.  
Additional prices and particulars given on receipt of copy of matter to be inserted. Prices vary according to amount of matter, length of time run, position, number of changes, etc.  
One copy only of each paper in which an ad. appears will be sent free.  
Wood base electrots not accepted.  
No display advertisements accepted for less than \$1 net, per month.  
No reduction in price made for "every other day" advertisements.
