SANTA FE, N. M., MONDAY SEPTEMBER 30 1895

NO 186

We have no axe to grind in claiming everything for our hardware. The truth is best at all times, and that's the truth. We carry nothing but first-class hardware and draw the hardware line at A1. If you buy any article second grade, don't let it be hardware. Poor hardware is one of the best things in the world not to have around you. Be generous and let somebody else have all there is of it. That is our policy and we find it pays. It will pay you to adopt our hardware platform. Every article we carry is true and genuine as steel.

CHINA DECIDES TO YIELD TO POWERS

Order Formally Announcing the Re-
tirement of Gen. Schofield—His
Successor Not Named—
Treasury Surplus.

Washington, Sept. 30.—U. S. Consul
Sohram, at Uruguay, reports that the
shipments of Uruguay wools to the United
States have largely increased by reason
of the tariff change. "This is greatly
beneficial to the interests of the United
States," he adds, "from the fact that the
fine qualities raised here never before
reached the United States. As these wools
can not be produced in the United States
and at the same time are essential to the
manufacture of various articles, it is evi-
dent that the cheaper they can be made
to our manufacturers the more they will
be enabled to compete with the world's
markets as well as in supplying the home
market."

BANK STATEMENTS CALLED FOR.
Deputy Comptroller of the Currency
Tucker has called on the national banks
for a statement of their condition at the
close of business on September 28 and
for a statement of taxes of all kinds paid
by them for the past fiscal year.

CHINA YIELDS TO THE POWERS.

Minister Denby has cabled the state
department from Peking as follows:
"Imperial decree has issued. The fol-
lowing is an abstract of the document:
The responsibility for the Szechuen riots
rests with the officials; Viceroy Liu was
careless; took no notice of the beginning
of the riots; he is to be deprived of
office, never to be employed; the other of-
ficials are to be punished."
"This would seem to indicate that the
crisis impending in China, involving a
naval demonstration by British forces,
has been averted for a time, at least by
a compliance with the principal demands
of the British. It can not be learned
whether the decree concedes all the de-
mands made."

The cablegram makes no reference to
the sweeping conditions imposed by the
British minister that the guilty officers
be punished by suspension for three years
in all promotions and appointments in
the civil service in the province of
Szechuen.

THE VICEBOY IN TROUBLE BEFORE.

Viceroy Liu, whose fall is announced,
has been in trouble before. It is said
that he was found guilty last November
of misappropriation of funds, and later,
because the French investigations showed
that he was responsible for the Cheng Tu
riots, he was obliged to pay an indemnity
of \$800,000 to the French Catholic
missions from his own pocket.

The present condition, which has been
brought about apparently by British
threats, will not involve the abandon-
ment of independent investigation into the
Cheng Tu riots ordered by Secretary
Olney.

There has been a change in the per-
sonnel of the commission. Commander
Barber, the naval attaché, who has fallen
ill, has been relieved from duty as a com-
missioner by Lieut. Commander John P.
Merrill, executive officer of the United
States steamer Baltimore.

NO ACTION IN CAPT. ARMES CASE.
Secretary Lamont has as yet taken no
action in the case of Capt. Armes. Gen.
Schofield left Washington last evening
for Pelee Island in Lake Erie to spend
a few days. The objectionable
letter addressed to him by Capt. Armes
has been turned over to Secretary La-
mont.

ASIATIC SQUADRON DISPATCHED.

The Asiatic squadron, which has been
concentrated at Chefoo, has dispersed.
The flagship Baltimore has gone to
Nagasaki, the Yorktown to Chempulop
and the Concord to Shanghai.

RETIREMENT OF GEN. SCHOFIELD.

The following order was issued to-day:
"Lieut. Gen. John M. Schofield, having
reached the age fitting him to retire from
active military service, he is in accord-
ance with the provisions of law, hereby
placed upon the retired list of the army,
to date September 29, 1895, with all pay
and allowances belonging to his rank
upon such retirement."

"It is with much regret that the pre-
sident makes the announcement that the
country is thus to lose from the command
of its army this distinguished general,
who has done so much for its honor and
efficiency. His gallantry in war challenges
the admiration of all his countrymen,
while they will not fail gratefully to re-
member and appreciate how faithfully he
has served his country in times of peace by
his splendid and successful performance
of civil as well as military duties."

"Lieut. General Schofield's career, ex-
hibiting unvarying love for his profes-
sion, zealous care for its honor and good
name, just appreciation of subordination,
exact and constant manifestation of the
traits of true Americanism, furnishes to
the army an example of inestimable value,
and should teach all our people that the
highest soldierly qualities are built upon the
keenest sense of the obligations be-
longing to good citizenship."
(Signed) GROVER CLEVELAND."

GEN. SCHOFIELD'S SUCCESSOR NOT NAMED.
It was said at the war department that
the order assigning to duty the successor
to Gen. Schofield will not issue for sev-
eral days.

CLOSED WITH A COMFORTABLE SURPLUS.
The treasury closed the month of Sep-
tember in comfortable shape with a sur-
plus of \$3,175,040 in receipts over ex-
penditures, instead of the deficiency,
which has been for some months a char-
acteristic feature of the monthly state-
ment.

MYSTERIOUS MURDER.

Body of a Woman Found in Kansas
With the Skull Crushed in a
Horrible Manner.

Axtell, Kas., Sept. 30.—The body of
Mrs. Fenagherly, mother of John Fen-
agherly, a prominent farmer, was found
to-day on the floor of their house dead with
the skull crushed in a horrible manner.
There is no clue to the murderer. Rab-
bery led to the crime. Mrs. Fenagherly's
son had been absent from home for two
days.

Religious Freedom in Hungary.
Buda Pesth, Sept. 30.—The lower house
of the Hungarian diet today adopted bills
providing for the recognition of the
Jewish religion and establishing the free-
dom of worship.

LIVES CRUSHED OUT.

Shocking Disaster at a Quarry Near
Independence—Six Persons Killed
by a Huge Rock.

Kansas City, Sept. 30.—Six lives were
crushed out at a quarry, eight miles out
from Independence, this morning, by the
premature explosion of a blast.
The victims are:
Miles McKernan, Contractor.
Con Pratt, farmer, 25 years old.
Daniel Larkin, quarryman.
Antonio Carlin, quarryman.
Pat Welsh, quarryman.
Tom Ferguson, 9 years old.
The men were crushed under a big
rock and instantly killed.
The boy lived only a few hours.

Viceroy Degraded.

London, Sept. 30.—It is announced
that China has accepted the British ul-
timate and that the viceroy of Szechuen,
who is held to have been responsible in-
directly for the massacre of the mission-
aries in the territory under his juris-
diction, has been degraded.

American Goods.

Berlin, Sept. 30.—Mr. R. K. Kille, rep-
resenting R. G. Dan & Co., of New York,
has just completed a tour through Ger-
many. He reports that exports from the
United States into Germany are con-
stantly increasing, especially in the lines
of furniture and fruits. About 300 com-
mercial travelers from the United States
are now in this country trying to open
fresh channels of trade for American-
made goods, and are meeting with a
reasonable measure of success.

TEXAS LAW MAKERS.

No Doubt Entertained that the Texas
Legislature Will Pass a Rigid
Law Making Prize Fighting
a Felony.

Austin, Texas, Sept. 30.—Very few leg-
islators have arrived and a quorum will
hardly be here on Tuesday. The senti-
ment of the members heard from con-
tinues favorable to the immediate pas-
sage of a law making prize fighting a
felony and all indicate a desire to prevent
the Dallas fight.

Gov. Culberson will recommend a most
rigid law and urge its immediate passage,
with an emergency clause. It is intimated
that he may recommend a law making
gambling a felony.

He will say other matters before the
legislature and it will probably be in ses-
sion for thirty days.

FITZSIMMONS IN TEXAS.

Bob Fitzsimmons, who arrived here
yesterday afternoon, left on the noon
train to-day for his training quarters at
Corpus Christi, where he begins work im-
mediately.

The Presidential Race.

New York, Sept. 30.—Senator Richard
F. Pettigrew, of South Dakota, is reg-
istered at the Fifth Avenue hotel. In an
interview he announced the candidacy of
Cushman K. Davis, of Minnesota, for the
presidential nomination on the Republi-
can ticket.

Senator Pettigrew said: Cushman K.
Davis is the choice of the northwest for
president. In the nominating convention
he will have the solid delegations from
his own state, the Dakotas, Montana,
Oregon, Washington and probably a part
of the Wisconsin delegation.

A Noon Wedding.

New York, Sept. 30.—Miss Consuela
Vanderbilt and the Duke of Marlborough
will be married on November 14 in Grace
church. Bishop Henry C. Potter, D. D.,
will perform the ceremony, assisted by
the rector, Rev. Dr. Huntington. William
K. Vanderbilt will give his daughter away
at the altar, but whether or not he will
appear at the reception which is to follow
the ceremony at the residence of Mrs. W.
K. Vanderbilt in Madison Square is un-
known. The marriage will be at high
noon and will be followed by an elabo-
rate breakfast.

It is said that the Prince of Wales will
send a representative.

BIG WASHOUTS REPORTED.

Passenger Train Capsized Near El
Paso—Trouble on the Mexican Cen-
tral and Southern Pacific.

Denver, Sept. 30.—A special to the
Times from El Paso, Texas, says: A
passenger train from New Orleans partly
capsized today at 7.30 a. m., near Malone,
eight miles east of here, owing to the
softening of the roadbed by the heavy
rains. The engine, tender, mail and bag-
gage cars turned over. Engineer Thomp-
son was badly scalded. Big washouts are
reported on the Mexican Central, near
Chihuahua, and also on the Southern
Pacific, west of Lordsburg.

Money for the West.

New York, Sept. 30.—The New York
Financier says this week: The statement
of the associated banks of New York City
for the week ending September 28 reflects
the continued shipments of currency to
the west for grain-moving purposes.
Loans have been contracted \$5,868,700
and deposits are down \$8,327,000. The
actual decrease in cash is \$2,458,300, of
which \$298,100 is in specie and \$2,160,200
in legal tenders. The heavy reduction in
the deposit liabilities accounts for the
smallness of the decrease in the reserve,
which is only \$147,828.
The total reserve in excess of legal re-
quirements is now \$22,266,175.

Philadelphia Wins.

Have Ford, Pa., Sept. 30.—Concluding
to-day's play in the 3rd international
cricket match between the Philadelphia
club and the Cambridge and Oxford men
was begun with the Americans leading by
167 runs, and it seemed hardly probable
that they would be required to go to bat
for a second inning. The wickets were
in fine condition.
The Philadelphians won in one inning
by thirty-nine runs.

THE FURY OF THE WINDS.

Yesterday Witnessed a Most Violent
and Destructive Storm on
the Lakes.

SHORES STREWN WITH STRANDED SHIPS

Five Steamers Aground Near Detroit—
Two Steel Steamers Ashore at
Keweenaw Point—No Loss of
Life Thus Far Reported.

Chicago, Sept. 30.—Yesterday's storm
on the lakes was one of the most violent
and destructive of recent storms.
No less than eighteen vessels have been
reported stranded at various points, while
reports continue to be received of others
flying signals of distress.
At Milwaukee, the schooner Condor is
long overdue.

Thirteen persons narrowly escaped
drowning when the steam barge Kershaw
went on the reef at Chonlay beach, break-
ing completely in two.

Five steamers are grounded near De-
troit and the barge R. J. Henry went to
pieces on the rocks near Sault Ste. Marie.

Several vessels lost their deck cargoes
and others were stripped of all their can-
vas, steering gear, etc.

The steamer Puritan, from Chicago to
St. Joseph, Mich., was obliged to put
back to port after making three attempts
to land at the latter port, the passengers
becoming panic stricken and many were
helpless when they were unable to help
themselves.

Thus far no loss of life has been re-
ported.

ASHORE AT KEWEENAW POINT.

Sault Ste. Marie, Mich.—The captain of
the Anchor Line steamer Schuykill, who
arrived from Duluth to-day, reports pass-
ing two boats ashore at Keweenaw point.
He thought they were the Matos and the
Masaba, big steel steamers belonging to
the Minnesota company. The Matos and
the Masaba cleared from Two Harbors
for Cleveland yesterday.

Keweenaw point is one of the most dan-
gerous points on the lakes and the
boats stranded there are likely to prove
a total loss owing to the heavy north-
western gales.

STEVE ON A WHEEL.

Hon. S. B. Elkins Tries the Cycle as
an Anti-Fat Remedy and Gets a
Severe Fall.

Kingwood, W. Va., Sept. 30.—United
States Senator Stephen B. Elkins met
with an accident at Hallishurst, his
country place at the town of Elkins.
Mr. Elkins is quite a robust man and
intely has been gaining flesh rapidly. To
overcome this he some time since took
to the bicycle. While he is comparat-
ively expert his age makes him a little
clumsy, and while going down a slight
descent he toppled over, spraining his
ankle severely. He was helped home,
and as the ankle became very much
swollen he decided to waste no time. Ac-
cordingly he boarded his private car and
started for New York, where he will have
the best attention possible. The local
physician feared there might have been
some small bones dislocated or fractured.
He cannot bear any weight upon the
ankle and walks with a crutch.

CLERGYMAN ACQUITTED.

His Wife Charged Him with Undue
Intimacy with Women of His
Church.

Kansas City, Sept. 30.—A special to the
Star from Fort Scott, Kas., says: The
United Brethren of the Neosho confer-
ence have exonerated Rev. A. Cornish,
of this city, on the charge of undue intimacy
with women of his church, as preferred
by his wife. The conference also advised
him to become reconciled to his wife and
to ask her to return home, from which he
is said to have driven her a week ago.

Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, SEPTEMBER 30.

The railway mail service in the Rocky mountain country is still sadly out of joint. The Pueblo Daily Chieftain, which should have reached the New Mexican on Thursday last, and the Cerrillos Register, due on Saturday morning, failed to come to hand until this morning. Such things are of daily occurrence under the present order of things. The proper authorities should try and find time to look into such complaints.

Quite as we expected, Gen. Harrison was forced out of his presidential candidacy by the New York Herald's declaration that he had pronounced for McKinley. "Were Gen. Harrison's advice solicited," says the other smooth eph, Col. John C. New, in an "inspired" interview, "he would select neither McKinley nor Reed as the Republican candidate for president." Col. New declined to state when Gen. Harrison would prefer as the candidate, which simply means that Harrison is for Harrison. But, on the whole, isn't all this devilish tough on McKinley and Reed—this declaration by the ex-president that he doesn't consider either one of them fit presidential timber?

The gold-bug Democrats in New York are not going to have it all their own way by long odds. The Fairchild-Grace following is anti-Hill and anti-Tammany to the core, and in New York City there is "another Richmond in the field." The other day a new Democratic organization was formed there that will cut no small figure in the pending contest. It is composed largely of former members of the O'Brien anti-Tammany Democracy, and is under the leadership of Colonel John J. Gifford, John J. McKenna and several other former lieutenants of ex-Sheriff James O'Brien. "Home rule, hard money and harmony" is the motto of the new organization. It declares for local option, a gold and silver standard and for the platform of the national and state Democracy in other matters. A county convention of the Home Rulers, or as they have already been designated, the "3 Hs," is to be held on October 10.

AN ACCESSION TO THE RANKS.

The New Mexican is pleased to learn that Hon. L. R. E. Paulin is to assume control of the Albuquerque Democrat. We are sure the result will be good for the paper itself; beneficial to Albuquerque in particular and the territory at large, and from a political standpoint the change is certainly most desirable. For a long time the Albuquerque morning daily has been neither fish, flesh nor fowl as far as concerns its political policy. Mr. Paulin's coming will remedy this. He is a sterling good man, and an earnest Democrat who is above factional strife. As a member of the 29th legislative assembly he made an enviable record and is really considered to be the sponsor for our present excellent public school law. He has had some experience in journalism during his long residence in San Juan county and is a first class business man and a student, being familiar with the territory and all its business and political interests. We welcome Mr. Paulin to the field of daily journalism.

THE IRRIGATION CONGRESS.

If the affairs of the irrigation congress are to be discussed from purely local standpoints, there are certain things that may properly be remembered.
At Denver last year, Atlanta, Chicago, Spokane and El Reno were candidates for this year's convention, and formal application was made by governors and mayors on behalf of those places. Every one there present well knows that without the active and influential aid of the delegates from Santa Fe, Albuquerque would not have had a ghost of a chance. In fact the first suggestion of Albuquerque was made by Governor Prince. Many delegates asked why not go to Santa Fe instead, as this is naturally the place of interest, but the Santa Fe delegates refused to complicate matters by presenting their own town and loyally stood by Albuquerque. The representatives of the latter promised the amplest accommodations, giving the total of available rooms in the town, with everything empty, no one then thinking that the congress would be jammed into the crowded fair week.
After Albuquerque had been chosen, Santa Fe's influence aided materially in getting an appropriation from the legislature, though in no other known case has a state or territory aided in such matters, but the town in which the congress was held has paid all expenses. This bill was passed, however, in order that all

parts of the territory should be shown to the visitors. Properly not a cent of the \$2,500 should have been spent in Albuquerque, which was expected to bear the ordinary expenses of the congress, but as a matter of fact it was mostly used to ease the burden of that town.

The congress was almost wrecked by the obstinate determination of the Albuquerque people to put it in the crowded fair week, as an adjunct to the fair, instead of having it at a better season and when the hotels would be empty and the people and the press could have given the congress the attention which it merited and expected. This was done against the earnest opposition of everyone connected with the congress and who had been instrumental in getting it to Albuquerque. The consequence was discomfort to the delegates and an utter lack of attention of various kinds, which was monopolized by the fair; and it has injured the chances of New Mexico to obtain other inter-state meetings for a considerable time.

Still, Santa Fe and the Pecos country did all that was possible to overcome these disadvantages and make the congress a success, and those who were present know what work was done by them.

As to the excursion to Santa Fe, that was one of the distinct promises made by Mr. Hadley and all the other advocates of Albuquerque at the Denver convention. Our own people did not care about it, as it necessarily involved expense; but as soon as the delegates began to assemble it became evident that Santa Fe was really the only place they cared to see. The engineers all wished to examine the hydraulic dam and the others to see the antiquities. While we did not seek it, yet it became impossible to avoid it without gross inhospitality and a breach of promise. The people of Santa Fe paid every dollar of expense of every kind except for the dinner and printing a little program, and succeeded in pleasing and interesting the delegates to the highest degree, and did more in that way to make their visit to New Mexico of benefit to the territory than any one else.

That little sum of less than \$70 is all that was spent on this section of New Mexico out of the whole \$2,500 of territorial funds. The Citizens alone, as a gratuity for supposed advertising, received far more, and certainly with far less general benefit. The appropriation was made exactly for this kind of work, and we venture to say that no \$70 of it has done one-quarter of the good accomplished by the excursion to Santa Fe.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.
The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.
Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.
The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.
The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.
Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.
The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feliz section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

AMERICA'S LEADING REVIEW

\$3.00 PER YEAR. 25c. a Number. For Sale Everywhere.

THE FORUM will take up for discussion, during 1905, an unusually wide range of timely and important topics by the most eminent writers in the fields of Politics, Finance, Sociology, Literature, Religion, Art, and Science.

To read The Forum is to keep in touch with the best thought of the day.

To be without The Forum is to miss the best help to clear thinking.

A catalogue of the writers who have contributed articles to THE FORUM in the past would embrace practically every man of eminence in America, and most of those in Europe. A list of subjects treated would cover in the widest degree all topics of contemporaneous interest. THE FORUM is therefore of inestimable value to any one who desires to keep closely in touch with the best of current thought.

SUNBEAMS.

Will you think of me when I am gone? asked Mr. Linger sentimentally, as the hands of the clock moved toward 12. Certainly, replied Miss Kittling; how soon shall I have an opportunity to begin.

Beware of Counterfeiters. Who infest the market and are the means of robbing sick people of their money, and what is of still greater consequence of not unfrequently aggravating the complaints under which they labor. It is an act of duty we owe to society to warn the people against these dangerous frauds. A little care on the part of the purchaser will protect them from the imposition by bearing in mind this fact: Never buy where it is offered in bulk, (in kegs or jugs) as the genuine Hostetter's Stomach Bitters are sold only in bottles bearing the handsome steel plate label depicting the combat between St. George and the Dragon, and having at the bottom a miniature note of hand for one cent, bearing a fac simile of the signature of the president of the company. Over the cork is a metallic cap, on which is impressed the name of the article, together with a medallion head in the center. Any person selling the counterfeit Hostetter's Stomach Bitters we shall not hesitate to bring to justice, as we never fail to convict.

Man—I want your opinion in a matter. Would you advise me to borrow \$10 to help me out of a tight place? Lawyer—By all means. Man—Very good. Lend me ten. Lawyer—That's all right. My fee for legal advice is \$10 and we'll just call it square.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

In the Alps—On reaching a certain spot the driver turned round on his seat and observed to the passengers: From this point the road is only accessible to mules and donkeys; I must therefore ask the gentlemen to get out and proceed on foot.

Last August while working in the harvest field I became overheated, was suddenly attacked with cramps and was nearly dead. Mr. Cummings, the druggist, gave me a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy which completely relieved me. I now keep a bottle of the remedy handy. A. M. Though she's discussed by every tongue, A novel theme, as we believe, Yet the new woman isn't young—She's just about as old as Eve.

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial. For sale by A. C. Ireland, Jr.

THEY DIDN'T MEET.

And the Elevator Man Doubled If They Would on Earth.

A well dressed woman walked into the Crocker building yesterday afternoon and took an elevator. Her husband saw her from across the street and hurrying over took the next elevator. He went to the office where he knew his wife had business and found that she had stepped in and out again and went down in the next elevator.

In the meantime his wife had gone down, and the elevator dispatcher said: "Your husband just went up in the elevator. I think he is looking for you."

The lady took the next elevator up. Just then her husband came down. He looked all around and then inquired of the elevator man:

"Have you seen my wife here?"

"Yes, she just went up this minute."

The man took the next elevator and he was no more than out of sight till his wife came down again.

"Your husband has just gone up again," said the elevator man.

"I guess he'll wait for me this time, so I'll go up." And up she went.

Down came her husband a second afterward.

"Did my wife come down again?" he inquired.

"Yes, and just went up again. She thought you would wait for her."

"Well, I'll wait here."

He waited about five minutes, and then, growing impatient, took an elevator up stairs. She had been waiting for him and came down again just as he disappeared.

"Well, I will wait for him and catch him this time," said she.

After standing in the corridor several minutes she decided to go up stairs and find him. As she was whisked out of sight he stepped out of another elevator.

"Your wife has just gone up," said the elevator man.

The husband swore a little under his breath and started to leave the building. At the door he hesitated, changed his mind and took the next elevator up. Down came his wife at the same moment.

"He's just gone up again," was the elevator man's answer to her weary look of inquiry, "and he's mad as a hornet."

"Then I had better go right up and catch him," said she.

"Just went up," remarked the elevator man.

"I'm demmed if I'm going up again," said he. "I'll wait right here," and he sat down on the stairs. Half an hour later he was still sitting there, and his wife, equally determined, was waiting for him up stairs.

"I hope they'll meet in heaven," remarked the elevator man.—San Francisco Post.

A Letter.
(To an Aspiring Novelist.)

MY DEAR MISS LOLLIE—Replying to yours of the 29th of February, let me say that it is not so difficult as you seem to think to become a successful novelist—that is, provided you can manipulate a pen or a typewriter. You ask anxiously about spelling. Have no fears regarding that. The proofreader attends to it. Style, construction and grammar are equally lacking in importance. All that you need is incident. Have your hero and heroine meet in some unusual way. For instance, let your hero drop from the moon and fall into a geyser in the Yellowstone National park. The heroine (a princess at the least) is giving an afternoon tea to a group of cowboys in the immediate vicinity. The hero is spouted up from the geyser, grabs hold of the basket of a balloon that is sailing overhead and is not at all surprised to find that it contains the villain. The hero and villain have a duel at short range in the balloon, for the possession of the parachute, which hangs from the car (and which the hero recognizes as an umbrella stolen from him in Australia). The hero wounds villain, secures parachute, drops into the lap of the princess and asks, "Do you wonder why I came 240,000 miles to see you?" This is merely to start you and the events set forth should not occupy more than a chapter. The rest of the story will suggest itself to you, however. Your only care must be to put in an incident every other sentence. Permit me in advance to hail you as the novelist of the century. Truly yours,

WETMAN-CAINE-DOYLE-DAVIS.

Decision.
"Could I only read the future," She nervously played with the fragile fan, while the color alternately deepened and faded upon her cheek.

"The future." For an instant her eyes met the eyes of the man who stood waiting for her to speak.

as if con- on always the bright- est. Maybe it isn't so. Maybe it seems so because consumption is the most frequent of all diseases. Consumption kills more people than wars or Cholera or Yellow Fever. Fully one-sixth of all the deaths that occur in the world are caused by consumption. And consumption can be cured. Doctors used to say that it was incurable, but the doctors were merely mistaken. It would be strange if medical science did not make some progress. Many things were once considered impossible. The ocean steamer, the locomotive, the telegraph and the telephone, the phonograph, the electric light—all these were once impossible, and once it was impossible to cure consumption. That was before the time of Dr. Pierce's Golden Medical Discovery. Taken according to directions, this standard remedy will cure 98 per cent. of all cases of consumption. Consumption is a disease of the blood. It is caused and fostered by the blood. Purify the blood and consumption is cured. It is by weakness and loss of vitality in the blood. It is cured by purity and richness of the blood—surely, certainly cured. Those who have consumption or any lingering bronchial, throat or lung disease, and those who are on the road to them, have a positive remedy at hand. Any condition of the body that indicates weakness, any indication of impurity in the blood, should be attended to at once. Loss of appetite, loss of flesh, loss of vitality, nervousness, weakness and unnatural weariness, are indications that the body is running down. Dr. Pierce's Golden Medical Discovery makes the appetite good, the digestion strong. It builds up solid, healthy flesh and vigorous strength. Thousands of people have testified that it has really saved their lives. Some of these testimonies, together with hundreds of things that everybody ought to know about health and sickness and medicine, have been embodied in Dr. Pierce's "Common Sense Medical Adviser." This 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, Buffalo, N. Y.

Are you taking SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" That is what our readers want, and nothing but that. It is the same old friend to which the old folks pinned their faith and were never disappointed. But another good recommendation for it is, that it is BETTER THAN PILLS, never gripes, never weakens, but works in such an easy and natural way just like nature itself, that relief comes quick and sure, and one feels new all over. It never fails. Everybody needs take a liver remedy, and everyone should take only Simmons Liver Regulator.

NEW PLACER FIELDS.

Further Particulars Regarding Fresh Discoveries of the Yellow Stuff in South Santa Fe County.

Mr. Thomas Harris, an employee of the Cerrillos Coal Railroad company and an all-around hustler, informs the New Mexican that he has personally visited the extensive new gold placer fields near Golden, spoken of in these columns last week, and that he is persuaded they are likely to prove a genuine sensation in the mining world.

These newly discovered gold fields seem to cover an area of about 1,000 acres, beginning at a point five miles east of Golden and extending east to within two miles of Felipe's ranch or for a distance of some three miles on both sides of the road between Golden and the O'Mara coal banks.

About half of the rich tract is situated on the Ortiz mine grant, but, as the placers near Golden and Dolores have been worked for years without interruption, it is presumed that the grant owners will not interfere with the working of the new grounds by private parties. The gold is coarse and it is claimed that the dirt will run as high as 10 cents per pan. Nearly the whole of the tract has already been staked, chiefly by persons living in the locality, and confidence is expressed that active and systematic development work will yield yellow returns of great value.

Prize Fighting in the Territories. Advice from Washington says that Attorney General Harmon has but one opinion in regard to prize fighting, and when questioned said there will be no fighting in the Indian Territory or in any territory over which the United States government has jurisdiction. He did not remember whether there was any territorial law against prize fighting, nor did it much matter whether there was or not. If it became necessary they could find a law to fight the case and it might be stated on his authority that the fight would not be permitted in any territory of the United States.

There is no law on the New Mexico statutes bearing directly on this subject. At the last session of the legislative assembly Representative Carr, of Grant county, offered a bill prohibiting pugilistic encounters, bull fighting, etc., in this territory, and he earnestly urged his colleagues to rally to its support, but somehow it got lost in the shuffle.

Teachers Examined.

County Superintendent Herrera, Mrs. Maul L. Hurt and District Attorney Crist will conclude their labors as county examiners of applicants for teachers' certificates to-day. The following applicants were examined: Mrs. Guy Phillips, of Espanola, and Miss Schnepf, Mr. McDonald, Candido Ortiz, Pablo Padilla, Luciano Valdez, and Narciso Lujano, of Santa Fe. Doubtless the results will be made public in time for publication in the New Mexican to-morrow.

Territorial Educators. The territorial board of education went into session at the governor's office at 2 o'clock this afternoon. The object of the meeting is to designate the text books to be used in the high schools of New Mexico, of which there are now five in operation with others to start this fall. The five are at Deming, Eddy, Albuquerque, Las Vegas and Raton.

The members of the board are Gov. Thornton, Prof. S. P. McCrea, ex-Gov. E. S. Stover, Prof. F. Schneider and Hon. Amado Chavez, all of whom are present save Gov. Thornton, who is confined to his bed by sickness.

ROUND ABOUT TOWN.

Mr. Beardinelli contributed his orchard's mite to Ireland's fruit display to-day, the same being a duchess pear weighing seventeen ounces.

In the absence of a quorum no meeting of the board of education was held on Saturday evening. Another meeting is called for to-morrow evening.

Miss Edna Miller, of Albuquerque, opened the fall term of the public school at Bland this morning in the substantial new frame school house located in the lower part of town.

Several eastern physicians who participate in the annual meeting of the American Health association at Denver this week are booked for a tour of New Mexico points. They are coming to study climatology.

The case of the Territory against Uedio and Abran Lucero, charged with twice firing a gun at Max Bernstein and wife while they were at supper, came up before Justice Thomas Smith at 2 o'clock this afternoon.

Charles Dyer, general superintendent of the Santa Fe, has issued a circular announcing that, on October 1, T. H. Sears will return from his temporary post at St. Louis to the office of superintendent of the western division. His headquarters will be at La Junta, instead of in Pueblo as heretofore.

Prof. S. P. McCrea, president of the New Mexico Agricultural college, is a visitor at the capital to-day. He is pleased with the opening attendance at the college for this term, having ninety-four students now enrolled with the chances that it will reach the 100 mark before another week. The college is now running most harmoniously and a successful year is in sight.

bank. The amount paid to the territorial treasurer on account of same was \$4,883.21, making in all \$14,649.03 placed to the credit of the special territorial court fund on account of dividends. The treasurer reports the cash balance to the credit of the special court fund, on Saturday evening, at \$2,858.

Writing from Eden, Fla., to renew his subscription to the New Mexican, ex-Sheriff C. A. Robinson, who owns a pineapple farm on Indian river, says the freeze of last winter left thousands of fruit growers in that region without means of support this year. However, he has good courage and expects to clean up an even \$5,000 from his pineapple crop next season.

A group of lads were in the police court this morning charged with noisy and vicious conduct whereby they disturbed a number of the residents of Hillside and upper Palace avenues on Saturday night. They were fined \$5 and costs. Mr. Ireland, who prosecuted them, having no difficulty in making out a case. It is hoped the result will prove a lesson to them. Their names are withheld from publication this time out of respect for their parents.

About 6 o'clock last evening, the fire leading from the fire place in one of the rooms of the old Palace, used as a sitting room by the family of Secretary Miller, was discovered on fire. After some difficulty the fire was extinguished and this morning Contractor Monier was called in to ascertain the cause of the fire and repair the damage. Mr. Monier's exploration discovered the fact that several of the alleged adobe composing the lining of the flue were really slabs of kiln-dried pinon and these caught on fire. These were taken out, replaced by material that will not burn, and curio-hunters can procure some rare, old, partly charred "pinon adobe," doubtless three or four centuries old, by making early application to Secretary Miller.

A special coach containing some thirty-five natives of Brazil reached the city from the east last night. The occupants of the car are not a very prepossessing lot. They are in camp near the A. T. & S. F. depot, and are en route to California where King John has selected lands for a colony of his people.

JEMEZ AND SULPHURS.

Both Bland and Espanola Building Roads to Open a Wonderful Region.

Bad roads, that have so long rendered inaccessible that really marvelous region west of Santa Fe, the Jemez and Valle mountains, will not much longer stand as a handicap and a barrier to its opening and development.

With characteristic energy the people of the Cochiti district have gone to work to open a good road over the mountains between Bland and Jemez hot springs, a distance of eighteen miles, and construction is now being pushed vigorously under the supervision of Mr. Geo. Hofheins. At present some five miles of road up the canon beyond Bland is finished. As the Cochiti Herald says: "To the citizens of Bland it is a matter of great satisfaction to see nearing completion this much needed road through the greatest mining district to the greatest health resort in the southwest."

Also a wagon road is being put through from Espanola to the hot springs, forty-five miles west. The fame of these springs is constantly increasing. Dr. Knapp, of Espanola, who spent several years at German universities, thinks Carlsbad is not to be compared with these springs. A number of marvelous cures have been effected by a short course of these baths. A stage line will be put on to the springs from Espanola as soon as the wagon road is completed through the Santa Clara canon.

Tired women need to have their blood purified and enriched by Hood's Sarsaparilla. It will give them strength and health.

D. & R. G. SPECIAL.

A Handsome Train to Convey New Mexicans to the Festival of Mountain and Plain in Denver.

A grand display of the resources of Colorado will be held at Denver, October 16, 17 and 18, on the occasion of the first annual Festival of Mountain and Plain.

For the above event General Agent T. J. Helm, of the D. & R. G., who has just returned from Denver, has arranged to put on a special excursion train to make the round trip between Santa Fe and Denver at the low figure of \$10.25. This train will be composed of Pullman palace cars and sleepers and will leave here on the morning of October 16, giving its patrons two days in Denver. It is expected that the central Rio Grande valley towns will send here a number of passengers to take advantage of this special train and the unprecedented low rate for the round trip.

In this festival of Mountain and Plain Denver undertakes to provide the Rocky mountain country with an annual gala time that shall prove to this region what the Mardi Gras is to New Orleans and the south and what the Villedu Prophete is to St. Louis and Missouri. There will be a grand exhibit of Rocky mountain resources, a trades procession and a royal allegorical pageant conducted by the "Slaves of the Silver Serpent," a new mystic order which has sprung into existence in Denver.

Re-Arrangement of Cases. By agreement of a majority of the members of the supreme court, a re-arrangement in the order in which cases will be heard, upon the assembling of court on October 7, has been made. Cases will now be heard as follows:

October 7—No. 569, Lyndonville National Bank vs. S. M. Folsom; No. 584, First National Bank of Albuquerque vs. John A. Lee.

October 8—No. 629, Gentili vs. Kennedy; No. 384, Territory vs. Patrick Carmo.

October 9—No. 566, Strauss vs. Smith; No. 585, Johnson vs. Gallegos.

October 10—No. 610, Robinson vs. Territory; No. 612, Union Trust Company vs. A. T. & S. F. R. R. Co., Postal Telegraph Cable Co., intervenor.

October 11—No. 617, Stanton vs. Catron; No. 635, Territory vs. Romero.

The Kirkman Court Martial. The court martial of Capt. Joel T. Kirkman, of the 10th infantry, closed on Saturday evening at Fort Leavenworth, and the findings of the court were forwarded to Washington. Much local interest is taken in the outcome of this trial because all the parties concerned are well known in this city.

Owing to the sensational charges made and the undoubted and unquestioned high character of the lady whose name is involved, Gen. Merritt ordered that the trial of the case should be had in star chamber proceedings. Even the charges and specifications were withheld from the press, but it is well known that Capt. Kirkman was charged with abruptly forcing himself into the sleeping rooms of Mrs. Littell at Fort Reno on two separate occasions. There was an outcry and a great disturbance, as the scene occurred in the home of Capt. Barrett, of the 10th infantry, who is the father of Mrs. Littell. The lady is 35 years old and the mother of two children, and her name and character are far beyond the breath of suspicion.

Both Capt. Barrett and Capt. Kirkman have fine military records. Capt. Kirkman, the accused, is a man of family, having grown children, and is a brother of Vice-President Kirkman, of the Chicago & Northwestern railroad, and has prominent friends.

It is said that the defendant claimed he mistook the room of Mrs. Littell for that of the servant girl. Growing out of this same scandal, is now a case pending before a United States commissioner in Oklahoma territory wherein Capt. Kirkman is charged with burglary, and is now under bond to appear for a preliminary hearing.

It is said the evidence introduced by the defense tended to show that social rivalry between Mrs. Capt. Kirkman and Mrs. Lieut. Littell had much to do with the bringing about of the official charges against Capt. Kirkman.

Mrs. Bush has fitted up the Lehman Spiegelberg house with comfortable sitting and dining rooms and will resume keeping boarders on October 1. She will give single meals or take boarders by the day, week or month. For terms apply to Mrs. M. Bush, Santa Fe, N. M.

Santa Fe Tenders Congratulations. Catcher "Billy" Clarke, of the Orioles, is going to be married September 25, to Miss Isabelle Taylor Thomas, one of Baltimore's belles.—Sporting Life, September 21. This is "our own" Bill, who learned all he knows about base ball right here in Santa Fe, going from here to Aspen, Colo.; thence to Ottumwa, Iowa; thence to San Jose, Cal., and from there direct to Baltimore, with which team he has played the three seasons past. The Baltimore catcher captured last year's pennant, and, by Saturday's victory over the New York Giants, won it again this year. Clarke is considered one of the best catchers in the business to-day. Proof of this is shown in the offer of \$5,000 for his release by the Washington management. Will has a host of admirers in Santa Fe, who have been watching his record with deep interest, and who will be glad to hear of his embarkment on the sea of matrimony.
