## WANTS TO BLOW UP NEW YORK

The Spanish Organ in Mexico Speaks of the Blistering Dwarfs of America's Metropolis.

## WANTS TO TEACH YANKEES A LESSON.

A Sugar Planter Talks of Cuba's Struggle for Independence—Organizing for Relief.

City of Mexico, Oct. 22.—Recen Latina, a Spanish daily paper here, the organ of the resident Spaniards, declares that when Spain has completed the subjugation of Cuba she will send the sixth division of the Spanish army to bombard New York, thus inaugurating a war with a nation of barbarians who, although numerically superior to the Spaniards, are really contemptible blistering dwarfs. Spain must rely on her Spanish pride to teach the Yankees a lesson.

The Spanish colony here is exceedingly bitter against the American people and war is a common threat.

A SUGAR PLANTER TALKS.

Rochester, N. Y.—Ex-Assemblyman J. P. Tumulty, of this city, is one of the foremost sympathizers of the Cubans. He has large financial interests in the island, and is well acquainted with the country. To a reporter the ex-assemblyman said:

"The natives of the island are more oppressed than were our forefathers under the tyranny of Great Britain. Why, even in times of peace, the collectors who are sent from Spain to extort additional taxes from the already overburdened people may take possession of a Cuban's house and make it their headquarters. Even the wives and daughters of these so-called insurgents are not safe from the presence of the Spanish nobles and hidalgos. In Cuba there is absolutely no punishment for a Spaniard. He may do what he likes."

"Here almost within a stone's throw of us, figuratively speaking, are weak people, downtrodden under the heel of a rotten tottering monarchy, few in numbers, it is true, but brave as lions for all that. "The other day," continued Mr. Tumulty, "every piece of cane on my plantation was burned to prevent the Spaniards from utilizing the crop. I would rather see them burned a thousand times than furnish an ounce of food for a Spaniard's stomach."

According to Mr. Tumulty, a movement has been started to form a stock company to have for its object the fitting out of merchantmen as privateers, to cruise in Cuban waters. Another object of this company will be to furnish the Cuban patriots with arms and ammunition. Mr. Tumulty thinks congress will take some action in the Cuban matter when it meets. Already, he says, members of the western states are being instructed to secure the passage of measures of relief for the patriots.

NO COMPROMISE.  
Madrid.—Senor Canovas de Castillo, minister for foreign affairs, is quoted as saying it is impossible that Spain should come to terms with the Cuban insurgents.

Outside Products Boycotted.  
Butte, Mont., Oct. 22.—The Silver Bow trades and labor assembly resolved against the use of building materials not made in Butte, and when Contractor H. Godin tried to use Minneapolis lumber, a boycott was declared. He offered big wages, but had to yield, and was also made to pay a fine of \$500 to the union. The boycott is against outside products of all kinds.

Hearty Greeting.  
Spartanburg, S. C., Oct. 22.—The president's train reached here at 11:45 a. m. to-day and 6,000 people, including the students of Conover's college were at the depot to meet them. The president shook hands with hundreds of people. The train stopped for ten minutes and the president was continually cheered.

Minneapolis Convention.  
Minneapolis, Oct. 22.—The two houses of the Episcopal convention met in joint session this afternoon as a final act of their busy three weeks' session. In discussing church unity the bishops are not hopeful of any immediate or general results, save in the spreading of the sentiment for unity throughout all Christendom.

Statement From Hayward.  
Minneapolis, Oct. 22.—Harry Hayward, the condemned murderer, to-day issued a formal statement to the public of some 4,000 words, explaining his recently exposed plot to break jail. He admits there was such a plot and describes it in detail. He maintains stoutly, however, that the whole thing was engineered by Deputy Sheriff Kierce for the purpose of making money, and make himself solid with the authorities. He says all his dealings were with Deputy Sheriff Kierce who obtained the false keys to his cell and jail door. He admits he bit like a sucker, but shows up Kierce in a very unfavorable light.

## SCHLADER THE HEALER.

A Critical Californian Declares Him to Be Insane—His Alleged Cures.

Denver, Oct. 22.—E. B. Jordan, of Ontario, Cal., stopped in this city en route from Chicago to investigate the claims of Schlader to be Christ and the reports of cures performed by him. Jordan publishes in the Times to-night the results of his investigation. He found after running down many cases that a majority were entirely fictitious. A few who had been benefited, Jordan believes, would have derived the same benefit without seeing Schlader, as the crisis in their disease had passed on or their cure resulted from an abandonment of sin. Jordan quotes from Schlader's biography to prove that he is insane and not inspired by God.

The Erratic Clay.  
Louisville, Oct. 22.—Cassius M. Clay, jr., of Paris, Ky., who made the race for governor of Kentucky with General P. Watt Hardin, the Democratic candidate, and was defeated in the convention by a small majority, publishes a letter to-day addressed to the Democratic campaign committee, refusing to speak in behalf of Hardin. He charges Hardin with repudiating the Democratic convention's platform and will not vote for him.

## The West Moves, Too.

Chicago, Oct. 22.—The motorcycle or horseless carriage race from Chicago to Waukegan and return, a distance of about 100 miles, will be contested Saturday, November 2. From present indications there will be not less than forty starters in the great race. It is said that several motorcycles will make the distance in less than six hours. The following judges have been selected:

Major General Wesley Merritt, commanding the department of the Missouri; Prof. John P. Barrett, city electrician of Chicago, and formerly chief of electricity of the World's fair, and Henry Timken, of St. Louis, president of the National Carriage Builders' association. Major General Merritt has selected Lieut. Ludington as his assistant. Prof. Barrett has named Leland L. Sumner, editor of the Electrical Engineering, and President Timken has named C. E. Kimball, the Chicago carriage manufacturer, as his first assistant.

All contestants must pass preliminary tests, which will be held in October 29, 30 and 31, at which time all impracticable vehicles will be debarré from the contest of November 2.

Several motorcycles from France and Germany are entered in the race.

## THE ANACONDA SALE.

A Big Deal that Will Attract English Capital to American Mining Properties.

New York, Oct. 22.—The details of the sale of a quarter interest in the great Anaconda copper mine to Messrs. Kahn, Leob & Co., representing a syndicate composed of themselves, the Rothschilds, Messrs. Cassel, Wertheim, Leit & Co., and the Exploration company of London, have become known in Wall street. The negotiations were begun early in September by Messrs. Looney & Co., representing the officers of the Anaconda mine. That firm gave the prospective purchasers an option on 300,000 shares of the stock of the Anaconda Mining company at \$25 a share, for thirty days, within which time the syndicate was to have the mine examined by experts. The time was subsequently extended to October 22, but at the examination of the property, which has been made under the special direction of Mr. Hamilton Smith, has proved satisfactory, the syndicate concluded to take the stock.

As soon as the syndicate obtained the option it placed the stock conditionally in London at a price understood to be about \$30 a share. The par value of the stock is \$25 per share.

The Anaconda mine has been owned by the estate of its discoverer, the late Senator Henry H. Higgins, Messrs. J. B. Higgins and his partner, Mr. Levi and Marcia Daly, who is in charge of the mine. It is understood that no option has been given upon any part of the 900,000 shares of the capital of the Anaconda Mining company. The purchase syndicate will be represented in the directory of the Anaconda company by two directors.

W. C. T. U. Elected Secretary.  
Baltimore, Oct. 22.—Miss Francis Willard was again elected as the president of the W. C. T. U. to-day with practically no opposition, although a few complimentary votes were cast for several other prominent workers.

Other officers were elected as follows: Vice president-at-large, Mrs. L. M. N. Stevens; corresponding secretary, Mrs. Katherine Lente Stevenson, of Massachusetts; recording secretary, Mrs. Clara C. Hoffman, of Kansas City, Mo.; and assistant recording secretary, Mrs. Francis J. Beschamp, of Kentucky.

Venezuelan Affairs.  
London, Oct. 22.—The Standard (conservative) has an editorial on the Venezuelan question in which it says: "The Venezuelan ultimatum is entirely likely to lead to doubtful complications. The convention of 1850 has been repeatedly infringed by the Venezuelans in encroaching upon soil indisputably British. These outrages and high handed acts might have been overlooked had not the outrages by the Venezuelans authorities reached lengths no longer endurable. If such an aggression as the Uruan affair is to be ignored we shall be surprised if the responsible diplomats of the United States persist in maintaining that the Monroe doctrine has any bearing on the present case."

WANT THE GOLD FIELDS.  
The possibility of active intervention upon the part of the United States, which is recognized as being the most serious side of the dispute, is discussed by the Times, but the Englishmen profess to believe that the Monroe doctrine is only a sort of bluff which needs only to be met with a firm attitude. It is generally believed that the British colony of Guiana is in a bad way and that her salvation lies in exploiting the gold fields which are in the disputed area.

The war office has been inundated with applications from officers who are desirous of serving in the believed-to-be approaching Ashanti campaign, but nothing will be done until October 31, when Great Britain's ultimatum takes effect.

Postponed To December.  
Topeka, Oct. 22.—Judge J. B. Johnson, master in chancery of the Santa Fe road, received information to-day from Wheeler H. Peckham, solicitor for the Union Trust company, at present in New York city, that it would be necessary to postpone the sale of the Santa Fe railway until December 10, as the necessary arrangements cannot be completed before that date.

## EL PASO IS IN THE LEAD.

Fitzsimmons Stands Pat for a Finish Fight and Favors the Central Rio Grande Town.

## MORE WINDY TALK FROM ARKANSAS.

Corbett's Case Before the Supreme Court—Manager Julian Issues a Public Statement.

El Paso, Oct. 22.—A telegram was received here last night from the Fitzsimmons' people at Corpus Christi, stating that Corbett would be invited to meet Fitzsimmons for a fight to a finish at El Paso. Fitzsimmons refused to enter into the "pillow" throwing contest with Corbett at Hot Springs because of his assurance of a fight to a finish to be fought off at El Paso.

## MAY FIGHT YET.

How Springs, Ark.—Corbett and Fitzsimmons may yet fight. Stuart and Vaidy state that, in view of Fitzsimmons' arbitrary stand, the contract between the club and the fighters, so far as it relates to Fitzsimmons, is abrogated.

The club stands ready to offer a new contract, which comprehends modification of the purse offered to \$25,000 at most, and fixing the date of the battle two or possibly three weeks later than originally fixed.

Vaidy this morning got a telegram from J. J. Quinn, Maher's backer, offering to bet \$5,000 on the Irishman if a match between Corbett and Maher can be made. Julian has till noon to make another application for a purse.

Little Rock, Ark.—The supreme court was filled with lawyers and prominent citizens this morning when the hearing of the Corbett case was called. Arguments were made by Attorney General Kinsworth, County Attorney Murphy and Judge Hemmings for the state and by W. H. Martin for the Florida Athletic club. The constitutionality of the law of 1891 making prize fighting a felony was gone over. The question whether prize fighting is assault was argued. Hemmings asked that Corbett be held in arrest until the matter could be decided. The court adjourned till to-morrow.

## JULIAN'S STATEMENT.

Hot Springs.—Martin Julian, manager and backer of Robert Fitzsimmons, has made a statement to the public of which the following is the most important part:

"Fitzsimmons to-day stands ready to carry out to the letter every word contained in the articles to which he signed his name. He wants to fight Corbett. "He wants to fight for the purse offered by the Florida Athletic club and a stake of \$10,000, and he says if the Florida Athletic club is unwilling, or unable to carry out its part of the compact, in so far as the purse is concerned, then Fitzsimmons will, on October 31, take James J. Corbett to a finish for \$10,000 a side stake, each man to select six men, and these only to be present at the fight. I do not care to mince matters, I simply want to state, and state it strong, that if James J. Corbett and Robert Fitzsimmons do not meet and fight on October 31 it will be by reason of no fault of Robert Fitzsimmons."

## MORE LITTLE ROCK GEAR.

Little Rock.—It is certain, in case the supreme court decides in favor of the fighters, that Gov. Clark will call a special session of the legislature, regardless of his previous assertions. The governor has telegrams already written to the legislators notifying them of a special session, to be held in readiness for an adverse decision by the supreme court.

## Old Land Mark Gone.

Philadelphia, Oct. 22.—The Seven Stars tavern, situated in East Vincent township, Chester county, burned last night. The Seven Stars was built long before the revolution, and was a famous stopping place for travelers from Philadelphia to Baltimore. Gen. Washington and many other generals often stopped there.

## Kansas Bank Suspension.

Wellington, Kas., Oct. 22.—The First National bank of this city was closed at 10 o'clock this morning by order of the directors. The bank has been doing business since 1888 with a capital of \$50,000. A gradual shrinkage of business is responsible for the suspension. The deposits amount to about \$31,000.

## Work of the Flames.

Madison, Minn., Oct. 22.—About forty buildings, chiefly business houses, burned here to-day. The loss is \$150,000; insurance \$45,000.

## Utah Democrats.

Salt Lake, Oct. 22.—The Democratic territorial convention held at Ogden September 5 was reconvened to-day. The call was read, stating the purpose for which the delegates were called together. All the officers of the original convention held at Ogden were made permanent, with Chairman Powers, of the Democratic campaign committee, in the permanent chair. The committee on credentials was appointed, also a committee composed of one member from each county to formulate an address to the people. A recess was then taken until 8 o'clock.

## THE NATIONAL CAPITAL.

Washington, Oct. 12.—The announcement that Rear Admiral Kirkland had been detached created a sensation in naval circles. It is expected that he will apply to be placed on the retired list. Rear Admiral Kirkland's trouble arose from congratulating President Faure, of France, on his election, which Secretary Herbert thought improper and unnecessary, making uncomplimentary remarks about American missionaries in Syria and Armenia; an alleged insult to a naval chaplain at the Kiel festivities, and charges of general indiscretion.

## UNITARIAN CONFERENCE.

More than 1,000 leaders of the Unitarian church, including scores of prominent divines, were gathered to-day when the national conference of the Unitarian Christian churches formally opened. Gorman B. Eaton, of New York, presided. Rev. George Bacholor, chairman of the council of the national conference and secretary of the Unitarian association, read the address.

TUESDAY, OCTOBER 22.

From a financial point of view Chaves county stands at the head of the list. Home-seekers invariably make a point of this when seeking out a location.

The leading bicycle manufacturers of the United States give the number sold last year at about 500,000. It is estimated that the demand for the coming year will be close to 1,000,000.

There is no occasion for alarm over the Saints prediction that the end of things will come in 1941. Comparatively few of those now living will know whether or not the prediction is fulfilled.

Since the legislature of Texas passed the law prohibiting prize fighting under penalty of imprisonment eastern states which can not enforce similar laws look to Texas with profound respect.

The more numerous and insurmountable the difficulties interposed to prevent that skin-tight glove contest with Fitzsimmons the braver does Champion Corbett become. It will probably soon be necessary to hire several stout men to hold him.

The London Standard estimates the capital put into the South African gold mines at about \$1,500,000,000. Talk about shrewd and careful business men! They are not in it over there with the Yankees.

A CINCINNATI paper offered to receive 5-cent contributions to a fund for the relief of Mark Twain. At last reports it had \$15 in its Mark Twain treasury. The humorist's remarks when he hears of the project will be worth \$15.

SENATOR QUAY has taken an active part in securing the national Republican convention for Pittsburgh. As all the Republican candidates except Harrison are bidding for Quay's support, he will be a hard man to beat in the national committee.

COL. TIMONEY, who seems to be managing the southeastern New Mexico end of the McKinley bureau, has not as yet succeeded in bringing the brightly Lincoln News into the fold. The News speaks approvingly of the effort to prevent "McKinley, with all of his high tariff idiocies, from becoming the standard-bearer of his party."

SENATOR THURSTON, of Nebraska, in a recent interview said that the Republican national convention would give the west "a free coinage plank," but further along he qualified it by saying it would be "similar to the plank of the last campaign." This is just about the size of it. Western Republicans will ask for bread and receive a stone, as usual.

SENATOR CHANDLER, of New Hampshire, positively affirms that, with the assistance of Senator Pepper and other Populist senators of Republican tendencies, the Republicans will reorganize the United States senate in December. And Senator Pepper, of Kansas, pronounces the statement of the New Hampshire senator a lie manufactured out of whole cloth. This is "senatorial courtesy" with a vengeance.

## A FIELD FOR DISCUSSION.

And now the fruit-growers of San Juan county—and they are a power—are after one Johnson, of the so-called Gem nurseries, Dallas, Texas, because of his fraudulent nursery stock. It is said this man has flooded New Mexico with fruit trees that are of little or no value. The fact is that all southern nursery stock is as a rule unfit for use in New Mexico. The New Mexican cordially invites practical fruit growers to the use of its columns in discussing this subject. It is of importance to the future of the territory that citizens make no mistake in planting young orchards.

## INDEPENDENCE IN SIGHT.

Prominent eastern journals, even at this late day, are urging congress to prevent Utah from coming into the Union next July on the trumped up charge that the Mormon church is interfering with the campaign now in progress there. The false and frivolous charge preferred, however, is merely a subterfuge. The real reason of eastern hostility to Utah's becoming a full fledged state, just as in the case of New Mexico, is the fact that the people of Utah are friendly to silver. Thank heaven the day is near at hand when the great west will be able to do business with the rest of the world through deep water harbors on the gulf and will not have to pay tribute to eastern seaboard cities.

The state of Arkansas declines, through its governor, to be an exception to the general rule against prize fighting. The governor wishes it to be distinctly understood that Arkansas is in the Union.

The small section of breakwater already constructed at Aransas Pass is doing such tremendous execution in cutting down the bar that Galveston will have to keep the journals hot on those new dredges to come in first with twenty feet of water.

The big packing firms of Chicago are in a panic over the efforts of the city administration to expose and punish wholesale larceny of city water. The packers pay for 10,000,000 gallons daily, and steal 40,000,000 gallons daily through blind pipes that have been in use for six years. The steal amounts to \$480,000 a year, or \$2,880,000 for the six years. Quite characteristic of the beef trust this.

## PRESS COMMENT.

The editor of the Albuquerque Citizen, says the Denver Post, lately published a contributed editorial without reading it, and after its publication found to his consternation that it contained an unwarranted libel on the supreme court of the territory. The Post adds that persons who are not responsible for the utterances of a paper, when they can get a chance at its columns, are very apt to be exceedingly courageous and aggressive in the expression of their personal spite and hatreds. They are a good deal like the non-resident English landlord who wrote to the resident steward of his Irish estate: "Tell the tenants that no threats to shoot you will terrify me." The Denver paper, however, fails to see the chief point in the Citizen libel. It was not the usual aggressiveness of an irresponsible party, but was the deliberate utterance of a party sufficiently important for the Citizen editor to commit perjury for his protection. That is where the spirit of the production is evident.—Las Vegas Optic.

## Too Many Blazers.

The Southern Pacific train crews are reported to be getting very handy with their six-shooters. There have been reported several instances of tramps being shot in what was called self-defense. These are cases, however, which would be far fetched to call self-defense. Not long ago a brakeman and a tramp had a dispute at Sagar which ended in the tramp speeding across the plain, while the dust was kicked up around his heels by balls from the angry brakeman's six-shooter. That the company does not make a practice of hiring fighting men is shown by the subdued action of train crews when they are tackled by express robbers. Why a brakeman should be fiercer in protecting the Southern Pacific road from a tramp who wants to steal a ride than from a bandit who wants to rob the express and mail cars is a mystery. Of course it would be hazardous to make a gun play on an express robber and it is comparatively safe to run a blazer on a tramp.—Lordsburg Liberal.

## conditions

In some conditions the gain from the use of Scott's Emulsion of cod-liver oil is rapid. For this reason we put up a 50c. size, which is enough for an ordinary cough or cold or useful as a trial for babies and children.

In other conditions gain must be slow, sometimes almost imperceptible, health can't be built up in a day. For this Scott's Emulsion must be taken as nourishment, food rather than medicine, food prepared for tired and weak digestions.

# The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, neotarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Land with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

## SUNBEAMS.

Fancy a man's being measured for his walking-stick, and yet no man can really be a well in these days who is not. First, the exact height is taken, and then the muscles and general build are sized up. This does away with the possible danger of the stick's being heavier than the man. Then the east of the hand is taken in wax in order that the handle may be of proper contour.

**Take Care! There is Danger** in allowing inactivity of the kidneys to grow through neglect. The deadly shoals of Bright's disease and diabetes will wreck the goodly bark of health if it is allowed to drift heedless upon them. The bladder, too, if inactive, and judicious medication does not speedily direct the helm toward the port of safety, will be whelmed by the quicksand of disease. In selecting a diuretic, let your choice fall on Hostetter's Stomach Bitters, which stimulates the renal organs without irritating and exciting them, two effects to be apprehended from the unmediated stimuli largely resorted to. These have a tendency to react prejudicially. The Bitters invigorate the kidneys and bladder, common with the nerves and the digestive organs, and so affording lasting aid. It also affords dual assistance in preventing and curing intermittent and remittent fever. Biliousness, constipation and rheumatism it also subjugates.

Russet leather shoes will be worn in the fall and winter, and their natural beauties are enhanced by various devices. In one style the toe cap is brought backward along the sides of the foot nearly as far as the arch. This toe cap is plentiful perforated with holes arranged in harmonious curves and leaves.

"While down in the southwestern part of the state some time ago," says Mr. W. Chalmers, editor of the *Chico (Cal.) Enterprise*, "I had an attack of dysentery. Having heard of Chamberlain's Colic, Cholera and Diarrhoea Remedy I bought a bottle. A couple of doses of it completely cured me. Now I am a champion of that remedy for all stomach and bowel complaints." For sale by A. C. Ireland, Jr.

And now they do say that rats and false hair are coming back.

An opalescent silk in shot ciel blue and maize is the material of a graceful evening gown for dinner and reception.

There is one medicine which every family should be provided with. We refer to Chamberlain's Pain Balm. When it is kept at hand a severe pain of a burn or scald may be promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure. In about one-third the time otherwise required. Cuts and bruises should receive immediate attention, before the parts become swollen, and when Chamberlain's Pain Balm is applied it will heal them without matter being formed, and without leaving a scar. A sore throat may be cured in one night. A piece of flannel damped with this liniment and bound on over the seat of pain, will cure lame back or pain in the side or chest in twenty-four hours. It is the most valuable, however, for rheumatism. Persons afflicted with this disease will be delighted with the prompt relief from pain which it affords, and it can be depended upon to effect a complete cure. For sale by A. C. Ireland, Jr.

The fancy silk waists which are now worn in preference to those of wash materials can be freshened by bands of ribbon.

Hornee Greeley once said: "The way to resume is to resume," speaking of again putting gold into circulation, after the war. But you may say "resume" any number of times to that torpid liver of yours and it won't budge until you take Simmons Liver Regulator. Many people seem to forget that constipation, biliousness and sick headache are all caused by a sluggish liver. Keep the liver active.

Opera hats will be made after the present style, and will be seen in merino and satin. They will be worn more than last season.

**The U. S. Gov't Reports show Royal Baking Powder superior to all others.**

The white satin stock should show lace and muslin points under the chin and at the breast; the front laps of the frock need to be caught up with a cluster of loose silk, variegated roses, or poppies.

Mr. J. K. Fowler, secretary and treasurer of the Corinne Mill, Canal and Stock Co., of Corinne, Utah, in speaking of Chamberlain's Cough Remedy says: "I consider it the best in the market. When troubled with a cough or cold give this remedy a trial and we assure you that you will be more than pleased with the result. For sale by A. C. Ireland, Jr.

## GEMS IN VERSE.

**Faith.**  
My God, I thank thee! May no thought  
E'er deem thy chastisement severe,  
But may this heart, by sorrow taught,  
Calm each wild wish, each idle fear.  
Thy mercy bids all nature bloom.  
The sun shines bright, and man is gay;  
Thine equal mercy spreads the gloom  
That darkens o'er his little day.

**"One, Two, Three."**  
It was an old, old, old, old lady  
And a boy who was half past three,  
And the way they played together  
Was beautiful to see.  
She couldn't go running and jumping,  
And the boy, no more could he,  
For he was a thin, little fellow,  
With a thin, little, twisted knee.

They sat in the yellow sunlight,  
Out under the maple tree,  
And the game that they played I'll tell you  
Just as it was told to me.  
It was hide and go seek they were playing,  
Though you'd never have known it to be—  
With an old, old, old, old lady  
And a boy with a twisted knee.

The boy would bend his face down  
On his little sound right knee,  
And he'd guess where she was hiding  
In guesses One, Two, Three!  
"You are in the china closet!"  
He would cry and laugh with glee.  
It wasn't the china closet, she said,  
But he still had Two and Three.

"You are up in papa's big bedroom  
In the chest with the queer old key!"  
And she said, "You are warm and warmer,  
But you're not quite right," said she.  
"It can't be the little cupboard,  
Where mamma's things used to be,  
So it must be the clothespress, gran'ma,"  
And he found her with his Three.

Then she covered her face with her fingers—  
They were wrinkled and white and wet—  
And she guessed where the boy was hiding  
With a One and a Two and a Three.  
And they never had stirred from their place  
Right under the maple tree—  
This old, old, old, old lady,  
And the boy with the lame little knee.

This dear, dear, dear old lady  
And the boy who was half past three.  
—Scribner's Magazine.

**The Tale of Death.**  
Once I saw Death go sporting through a plain  
Of living men, and none perceived him there.  
The old, of what they did all unaware,  
Each moment ran against him to their bane.  
The young, trusting their youth, that of the pain  
Of death knows nothing, gave him not a care.  
Purblind were all, none sought to 'scape the snare.  
While with his hand he counted out the train.

Then he prepared to shoot, closing each eye.  
He fired and missed. I, that his aim did see  
Thus reckless, shouted, "Butcher, hold thy hand!"  
He turned, and "Such was war" was his reply.  
"If you pass life without a look at me,  
How dare you more respect from me demand?"  
—Edgar Prestage.

**The Sweetest Apple Tree.**  
That high top sweetest uccer stand  
Right on our way ter school,  
Stood there ter coax us boys ter break  
Command an golden rule.  
Part of the tree wuz 'hind the wall,  
Part 'truded on the road.  
An' hung them sweetest apples out  
Our appetites ter good.  
Ef any boy could pass that tree  
An' not let fly a stick,  
He must ha' been an angel boy  
Or else a boy that's sick.

Ole Deacon Jinkins uccer say,  
"Th' our 'us under me  
Ef all them sticks an' stumps an' clubs  
Should 'lect beneath that tree."  
Oh, high top sweetest apple tree!  
Schooldays when we ware young!  
Them very words bring smiles an' tears  
When slippin off the tongue.

Where air them keener barefoot boys  
That clubbed that tree with me?  
They're layin low ter shoot them boys  
As club our sweetest tree.  
—Boston Transcript.

**The House of Regrets.**  
We make the molds in the springtime,  
In the fervor of life's first years  
We soften the earth with promises,  
We sift it with smiles and tears.  
With fair, fresh hopes and eager faith  
Water and clay we mix.  
Saying one is strong and one is pure,  
And laugh as we pile our bricks.

In summer we raise the solid walls  
And frame the roof above them;  
We smooth each niche and angle down  
As if we had learned to love them;  
We plant sweet blooms about them  
To make doubt and fear look fair,  
And when the house is built we go  
And leave it standing there.

But in winter the things we have forgot  
And the things we have forgiven  
Rise up like creeping, crawling mist  
Between our eyes and heaven,  
And rather than hide in useless watch,  
While the sun o'er the great sea sets,  
We enter and close the heavy door  
And dwell in the House of Regrets.  
—Household Words.

**Forgive.**  
Wait not the morrow, but forgive me now.  
Who knows what fate tomorrow's dawn may bring?  
Let us not part with shadow on thy brow,  
With my heart hungering.  
Wait not the morrow, but forgive me now.  
In mine, with sweet forgiveness full and free.  
Of all life's joys I only understand  
This joy of loving thee.

Perhaps some day I may redeem the wrong.  
Repair the fault I know not when or how.  
O dearest, do not wait—it may be long.  
Only forgive me now.  
—Academy.

**A True Friend.**

The friend who holds a mirror to my face,  
And, hiding none, is not afraid to trace  
My faults, my smallest blemishes within,  
Who friendly warns, reproves me if I sin—  
Although it seems not so—he is my friend.  
But he who, ever flattering, gives me praise,  
Who se's rebukes, nor censures, nor delays  
To come with eagerness and grasp my hand  
And pardon me ere pardon I demand.  
He is my enemy, although he seem my friend.  
—From the German.

**He Kept His Vow.**

"I offer thee my hand and heart," said he,  
"Ah, no! Your wealth is not enough for me.  
Guy Havelock is a better man than thou."  
In anguish Jack replied: "Then hear my vow.  
I swear by yonder marvelous dog star,  
I swear by thee, so near and yet so far,  
If thou renesth me I die." He ceased.  
The dog star winked and vanished in the east.  
"Thy oath is broken to me," the maiden cried.  
Full forty autumns passed, and then he died.  
—Occident.

G. T. NICHOLSON, G. P. A., Chicago

A good doctor may be a good old man, but even so, medical examinations and the "local application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line.

This is true of Dr. R. V. Pierce, chief consulting physician of the Invalid's Hotel and Surgical Institute, at Buffalo, N. Y. Doctor Pierce's Favorite Prescription, for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It was originally sold with an absolute guarantee that it would cure every case, or that the money paid for it would be refunded. Its success has been so universal that this guarantee is no longer necessary. The Favorite Prescription" relies now upon the thousands of testimonials from grateful and happy women, in all parts of the land, whose lives have been made worth living by its use. "Favorite Prescription" is sold by druggists.

Complete information regarding it, and testimonials from hundreds who have used it, are embodied in Dr. Pierce's Common Sense Medical Adviser, a standard medical work of 1000 pages, profusely illustrated, which will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. This work is a complete family doctor book and should be read by both young and old. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.
