We carry a full line of hardware, and every article we show is worth carrying, too, and worth buying for the same reason. When you want hardware, you want hardware, first-class ware that has wear in it, because it is good metal. Anything else can't be low priced enough to be worth buying. Wear is the test of ware, and judged by this test our ware can't be beat anywhere. We know what our goods are. So do our customers. Buy where you know what you are getting, and you are sure of getting what you ask and pay for, first-class goods at moderate prices.

MORE ABOUT THE AVALANCHE

Reported that President Cleveland and Secretary Carlisle Anticipated Exactly What Happened.

AS COMFORTING AS POLAR BREEZES

Bradley will Be Pressed by Kentucky for First Place on Republican Ticket—Gorman and Altgeld Blame the Administration.

Chicago, Nov. 7.—A Washington special dispatch to the Daily News says: President Cleveland is charging none of the results of the election to his administration. On the contrary he is taking a quiet smile over certain features of the returns.

Senator Gorman declares "Cleveland's personal influence contributed to the success of Lowndes."

Administration Democrats appear willing to assume the responsibility as another achievement for reform. There seems no doubt they expected and desired the defeat of Gorman's ticket.

The president and every member of the cabinet took a deep interest in the case of Campbell, of Ohio, and express regret at his defeat.

The helpless condition presented by the Kentucky Democracy is regarded as a rebuke to the free silver Democrats. The president and Secretary Carlisle have confidently expected the defeat of Hardin and Blackburn or their elections by majorities so meagre as to amount practically to a defeat.

REPUBLICANS GAINED BROOKLYN. Brooklyn.—The Democratic campaign committee to-day admitted the defeat of their local ticket and will take no steps looking to a recount. This elects Warner, Republican, mayor.

ALTOBEL'S VIEW. Springfield, Ill.—It is the belief of Governor Altgeld that the great Republican landslide was brought about by the national administration and gold bug wing of the Democracy in Wall street. Democratic conventions in many states, he says, were packed by postmasters and ministers of the administration who forced the adoption of Cleveland's policy on the money question.

BRADLEY LOOMS UP. Louisville, Col.—Col. W. O. Bradley, who carried Kentucky for the Republicans in the gubernatorial election, will be the choice of the state for the presidency, and his friends claim he will have the support of southern Republicans.

It is a significant fact that the friends of Gov. Morton and the political champions of Gov. McKinley have all been in constant correspondence with the friends of Bradley and urged them to push his claims for second place on the ticket.

UTAH. Salt Lake.—The Republicans have elected the state ticket and carried the legislature by a safe majority. For congress, Allen, Republican, has a majority of 1,000. Gov. Wells' majority is about 1,500.

Creditors Seek Protection. Chicago, Nov. 7.—The Union National bank, a creditor's bill filed in the superior court, seeks to set aside the sale of \$20,000 worth of stock of the Omaha Building company to the owners of the Omaha office building. It is charged that the alleged sale was consummated to prevent the creditors of D. C. Plumb and Dorr Clark from collecting their claims.

Winter Carnival at Leadville. Leadville, Colo., Nov. 7.—Twenty thousand dollars have been raised and plans completed for the ice palace to be built in this city. The main building will occupy a ground space 300 feet square, exclusive of dancing hall, toboggan slides and other auxiliary annexes, and will be 100 feet high. The toboggan slide will be two miles long.

IRISH NATIONAL LEAGUE.

Michael Davitt Succeeds Timothy Healy as a Member of the Executive Committee.

London, Nov. 7.—At a meeting of the executive committee of the Irish National league this afternoon, it was decided to remove Timothy Healy from the executive committee on account of his election at the time of the Socially Omgah revol, when, at the county of Tyrone Nationalists' convention, he accused John Dillon of selling Tyrone to the English party. Michael Davitt was elected to fill the vacancy.

Became the Bride of an Artist. Richmond, Va., Nov. 7.—The most notable wedding of the season here took place to-day, when Miss Irene Langhorne became the bride of Charles Dana Gibson, an artist, of New York.

BACKBONE BROKEN.

Strike on the Great Northern Suspended to Have Been Terminated This Morning.

Minneapolis, Nov. 7.—A Devil Lake, N. D., dispatch says: The backbone of the Great Northern strike was broken this morning by the arrival of a train with seventy special policemen, thirteen new conductors, twenty-five brakemen and three firemen.

The deputies are patrolling the yards and trains have all been started out. The recruits enlisted at Chicago by the detective agency are a sorry looking lot for clothing.

There has been no disturbance and none is now expected.

Fair Will Case not Compromised. San Francisco, Nov. 7.—The attorneys engaged in the Fair will case say that there is no foundation for the statement in a local paper that the contest has been compromised.

MINING STOCKS.

Lively Times on the Colorado Stock Exchange—Chicago and New York to Take a Hand.

Denver, Nov. 7.—The past week has been the most active in months on the Colorado Mining exchange, not only in point of sale, but in general interest manifested by brokers and the public as well. The "pit" has been a decidedly lively place every day, while the gallery and seats for spectators, have been actually crowded. The whole country is undoubtedly awakening to the fact that the United States is going to have a substantial mining boom, and naturally interest begins to center on the exchanges handling the stocks of Cripple Creek, a gold camp that is now returning out about \$1,000,000 per month, with the output steadily increasing.

Arrangements are being made to have a number of the Cripple Creek securities listed on the consolidated exchange of New York and the Chicago stock exchange.

CHICAGO IS AT WORK. Chicago.—The Chicago stock exchange has put itself on record against the establishing of a mining stock department.

Meers, Chase and Thompson favored the listing of the mining stocks under certain restrictions, and Mr. Adelt, the minority member, reported against the proposition. Mr. Adelt's report was adopted by the governing committee by a vote of 8 to 5.

There will undoubtedly be an immediate attempt at organizing a purely mining exchange. There is no doubt that Chicago is going to be given an opportunity to trade in mining securities, and if it is not on the stock exchange, it will be on a new exchange organized for the purpose.

The action of the governing committee, however, does not define the position of the stock exchange finally. An attempt will be made to list a particular stock—the action up to the present time has been general—and with all the conservative safeguards possible, the exchange will trade from its position and list some of these stocks upon individual application.

Enormous Potato Crop.

Chicago, Nov. 7.—Advance sheets issued by the Orange Judd Farmer show the potato crop in the United States this year to be the largest ever known. The acreage has increased out of all proportion to the demands of consumption, in response to ill advised suggestions from high official sources, coupled with a natural desire to replace wheat in the northwest with some paying crop. The farmer places the crop at 282,148,000 bushels. In many districts in the northwest growers have abandoned the results of the year's work and did not dig the crop, the prices not paying the cost of digging and hauling. But for the enormous crop of the section, the total crop of the country would not be excessive.

Canada is no exception to the rule of the bountiful crop, approximating 57,000,000 bushels.

COLD STORAGE COLLAPSE.

Warehouse in Leavenworth, Containing 50,000 Barrels of Apples, Fell with a Terrible Crash This Morning.

Leavenworth, Kas., Nov. 7.—A large portion of Ryan & Richardson's cold storage and ice plant fell in with a terrific crash this morning, causing a loss of thousands of dollars. This is the largest plant of the kind in Kansas and contains 50,000 barrels of selected apples. The cause of the collapse was the giving way of the foundations built over the sewer.

THE NATIONAL CAPITAL.

Important Disclosures Regarding the Seal Fisheries—Rear Admiral Muffet Passes Away—End of a Notable Career.

Washington, Nov. 7.—Captain C. L. Hooper of the revenue cutter Rush, who commanded the Behring sea fleet last season, is more than ever convinced of the ultimate destruction of the seal herd, if pelagic sealing in Behring sea is continued. The most important of Captain Hooper's recommendations to the treasury department, therefore, will probably be that all sealing in Behring sea be prohibited for a time at least, except that carried on at the islands by the company having a contract with the government.

DEATH OF A GALLANT NAVAL OFFICER.

Rear Admiral Robert W. Shufeldt, retired, died this morning after a long illness following an attack of la grippe and an accident while driving about a year ago. He was appointed a midshipman from New York May 18, 1859, became a rear admiral in May, 1888, and retired in 1894. He had a notable record, having opened Corea to the world by treaty, surveyed the Tehuantepec canal route and took an important part in the civil war.

Legal Notice.

District court, Santa Fe county. Daniel Carter vs. C. G. Story and James M. Allan, defendants above named.

You and each of you are hereby notified that Daniel Carter, the above named plaintiff, has brought the above entitled suit against you in which he seeks to recover the sum of three hundred and seventy-eight and 30-100 dollars against you together with interest from December 15, 1894, and costs for work, labor and services rendered to you as custodian and watchman of your property in Glorieta, in said county of Santa Fe, territory of New Mexico; that your said property has been attached in said suit; and that unless you appear at the next regular term of said court, appointed to be held on the second Monday of December, 1895, being Monday, December 9, 1895, judgment will be rendered against you and each of you in said suit and your said property sold to satisfy the same.

TURKISH SITUATION GRAVE

Promises of the Porte Regarding the Restoration of Order in Armenia.

VERY DISQUIETING RUMORS FROM SYRIA

Evidence that the Dissatisfaction with the Rule of the Sultan Has Extended to the Army and Navy—Alarm at the Palace.

Constantinople, Nov. 7.—Hali Rifat Pasha, Turkish minister for the interior, has been appointed grand vizier in succession to Kiamil Pasha, resigned. The Turkish minister of foreign affairs, Said Pasha, has promised to give the ambassadors of the powers a definite reply within two days as to what steps the porte intends to take for the restoration of order in Armenia and to provide for the protection of the Christians in that part of the Turkish empire.

Each day adds to the difficulty of the task before the porte, and possibly before the European powers, who are endeavoring to bring about a settlement of the Turkish army and navy, and the palace officials are in a state of the greatest alarm.

Possible the most grave turn of recent events lies in the fact established, beyond any doubt, that the dissatisfaction against the rule of the sultan has extended to the Turkish army and navy, and the palace officials are in a state of the greatest alarm. Advice from Aleppo says that the Kurds, belonging to Hamidid cavalry regiment, have plundered a caravan near that place. It is further stated that the Kurds in the eastern provinces have joined in the anti-Armenian movement and that American missionaries have been advised not to expose themselves to dangers while the present excitement lasts.

Depositors Will Probably Be Paid.

Leadville, Colo., Nov. 7.—The deposits of the Leadville Savings and Deposit bank, which made an assignment yesterday, amount to \$95,000, including \$70,000 of county funds. It is believed that the deposits can be paid in full when the assets are converted into cash.

DEVELOPMENTS. A special investigation from Leadville says: There are no new developments in the bank failure of yesterday. But it is stated by the assignee, J. A. Lamping, that he believes, if a little time is given the bank, it will be able to pay every dollar. Cashier Morgan says that P. W. Brenne owes the bank over \$50,000 of borrowed money. However, Brenne has turned over all his property. In addition to \$70,000 of county funds in the bank, City Collector Little has about \$2,000 tied up.

THE DETROIT HORROR.

Twenty-six Bodies Have Been Recovered from the Ruins of the Journal Building—Twenty Persons Still Missing.

Detroit, Nov. 7.—Twenty-six bodies have already been taken from the ruins of the Journal building. In addition to the list sent last night the following names have been added: John Gordon. Kittle Leonard. Ross Gordon. John Brittenbecher. Unknown man. Jennie Niehan, 16 years old. Bertha Weidbach, 19 years old. Ernest Perkins, assistant mailing clerk of the Journal, body recovered at 10:30 a. m.

There are twenty still missing, swelling the probable list of the dead to forty or forty-five. Besides these nineteen persons were injured, two fatally. The cause of the boiler explosion is still a mystery.

Heavy Snow Storm in Northwest.

St. Paul, Nov. 7.—Specials from South Dakota, northern Iowa, southern Minnesota and western Wisconsin, report the first real snow of the season. In some places over a foot of snow has fallen. The forest fires are quenched.

NEW MEXICO NEWS.

Mrs. H. H. Betts has returned to her home in Silver City from Boston.

The United States grand jury has made final report and been discharged at Albuquerque.

Johnny Riley arrived in Deming last Friday to complete the purchase of 800 head of cattle from the Lindauer Cattle company. While in Mexico he bought 1,500 head from Lord Beresford and others.

The carpenter shops recently burned in Rincon will not be rebuilt. The headquarters of Mr. J. A. Harlan are to be moved to San Marcial on the 15th of November and a large carpenter shop will be erected there immediately.

The Yondorf case occupied the attention of the territorial grand jury at Albuquerque on Tuesday. It is understood that the charge of compounding a felony in the matter under investigation, and that this case was specially referred to in the court's instructions to the jury. Chas. Yondorf went to Trinidad, and is supposed to be in Illinois at present.

W. Lee Thompson, of San Lorenzo, Grant county, estimated his crop this year at 250,000 pounds. He now has twenty men employed gathering the fruit. It is only a question of time before the large fruit raisers of that section will be forced to erect evaporators and canneries as a means of saving their abundant harvest.

At the Hillsboro court two cases from Grant county were disposed of. The charge of attempted rape against Nestor Gomez was not sustained, but he got six months in the penitentiary for assault while armed. The jury found a verdict of not guilty against Esperidion Morillo, charged with horse stealing, but he, too, goes to the pen for one year for assault with a deadly weapon.

The marshalship of Silver City was wisely settled last night by the council through the election of William Kilburn to succeed C. L. Cantley, deceased. Mr. Kilburn served this city in a like capacity a few years ago and made a competent, faithful officer. The city council is to be congratulated upon its selection. The retiring temporary marshal, D. P. Carr, was officially commended by the council for the efficient manner in which he discharged the duties of his office. The salary of the office has been reduced from \$95 to \$75 per month.—Silver City Sentinel.

Recently there was discovered, at a depth of 328 feet, in the Peto Roth well, one and one-half miles north of East Las Vegas, a mineral water which bids fair to bring fame and fortune to the lucky man who owns it. This water for the last month or six weeks has been attracting considerable attention because of its medicinal virtues; so much so, in fact, that Mr. Roth kept a supply at his shop for free distribution. From ten to twenty gallons were thus distributed daily until the crowds began to assume inconvenient proportions. Several hundred people have been using the water for quite a number of ailments, and all have praised its virtues, until so fully has its medicinal value been established, that Mr. Roth has made arrangements to put the water on sale in Colorado, Nebraska, Kansas and Missouri. An analysis shows the water to be a rich sodium solution and that it is free from alkalies, lime and magnesia.

New Fast California Train.

On October 29 the Santa Fe Route will inaugurate new and strictly limited first-class service to Southern California. The California Limited will leave Chicago at 6:00 p. m. daily, reaching Los Angeles in three days and San Francisco in three and one-half days, a saving of half a day. Time from this station correspondingly reduced.

Equipment will consist of superb new vestibuled Pullman palace and compartment sleepers, chair car and dining car, through to Los Angeles without change. This will be the fastest and most luxurious service via any line to California. Another daily train will carry through palace sleeper and tourist sleeper to San Francisco and tourist sleeper to Los Angeles, as at present.

Blood Will Tell

Most surely upon the condition of the physical system. If the blood is pure and full of vitality it will carry health to all the organs of the body; it will expel the germs of disease and the result will be a condition of perfect health. If it is impure and impoverished, such a condition will be impossible. The best way to

THURSDAY, NOVEMBER 7.

Excuse us for cursing a few.

The New Yorkers will have their beer even if they have to fight for it.

HENRY WATERBORN ought to be proud of his work against straight Democracy in Kentucky.

Democratic factional fighting has again shown how victories are given to our political antagonists.

The Santa Fe lawyer-politicians are overworking the San Marcial Bee. Their ear-marks were plainly visible in that sheet last week.

REPUBLICANS combined with the A. P. A. to carry Louisville, Ky., and Omaha, and a deal with the Mormon church carried the day for them in Utah.

In Pennsylvania, the hot-bed of McKinleyism, the old time Republican majority has been cut from 63,000 to 15,000. Rather a gratifying gain that for Democratic tariff reform.

The solid south had a big hole made in it on Tuesday. Steve Elkins was the first to open it and hereafter we may hear a great deal more about Steve as a presidential possibility.

TAMMANY's ascendancy puts the kibosh on Morton's presidential boom and the loss of the state injures Hill. New York will hardly cut much of a figure in making presidents next year.

It looks very much as though the trusts and combines had the pins all set for capturing the senate in 1897. Too bad that Senator Bruce will not be in it, but Forsker will suit the trusts and combines just as well.

AND all this Republican rejoicing, we would exceedingly like to hear the honest sentiments of Senator Henry M. Teller, of Colorado, regarding the Republican triumph over the brave silver champions, Senator Blackburn and Gen. Hardin, in Kentucky.

SENATOR BLACKBURN may pull through in Kentucky to help out for silver in the next congress, but with such Republicans as Tom Platt and Fire Alarm Forsker to pit against him the gold bugs can well afford to smile.

At last Bluff Corbett has broken the monotony of meaningless and lying gabble long enough to utter a few words of truth. He frankly says that he has fought his last battle in the ring. This is precisely what we supposed all the time.

A GLEAM of satisfaction is to be had in the fact that the Democrats have largely cut down the Republican majorities. One year ago the Republicans carried Ohio by 137,087. This has now been cut to 75,000. In Iowa the old time majority of 100,000 has been reduced to 40,000.

In their mad frenzy over their inability to obtain at the hands of the courts complete "vindication," those precious persons of Catronism have lost their reckoning. We shall now look for the supreme court opinions in the cause celebre with a livelier interest than ever.

THE recent elections settle at least one thing. Bosses Platt, of New York, and Quay, of Pennsylvania, will dominate the Republican national convention next year and Czar Reed, of Maine, will be their nominee for president. McKinley and Harrison are politically the deadest pair of ducks extant.

BOSSISM REBUKED.

In the face of the bankers' panic, inaugurated to force down the last support of silver as money, and following the terrible depression in all lines of industry brought on by the McKinley tariff law, nobody had reason to believe that the Democratic party would score much of a triumph at the elections on Tuesday. Then there were developed later on most potent factors in the critical situation which made far seeing Democrats doubtful of even holding their own in such states as Maryland and Kentucky, and hence even the overwhelming defeat in those states surprises few people who have kept in touch with the progress of events.

That the result is a just merited rebuke to Democratic party bossism and outside interference in state party affairs almost goes without saying. That is plain on the face of the returns so far received. Gorman, Bruce and Hill, are the three statesmen who, while posing as Democratic senators, did their utmost to perpetuate McKinleyism and defeat Dem-

ocratic tariff reform. Few true Democrats will waste sympathy upon this precious trio. Their constituencies have, evidently, tired of their methods and have notified them of the fact in thunder tones. As for the free coinage proposition we must frankly admit that the result is a surprise and a disappointment. A combination of goldite Democrats and Republicans carried the day in Kentucky, where free coinage was the clear-cut issue, and in Illinois, Nebraska and Utah, the silver Democrats seem to have lost prestige. What the south will do toward supporting the movement for the rehabilitation of silver yet remains to be seen.

PRESS COMMENT.

If Their Confession Counts They Will.
The decision of the supreme court in the case of Vialpando and Chavez, Santa Fe county murderers, will not tend to reassure the Borregos and their partners in crime. These fellows are more than likely to stretch hemp before the close of another summer.—Silver City Eagle.

Health in New Mexico.
In New Mexico the destructive types of malaria fever are never seen. No case of the pernicious, congestive, cerebral or hemorrhagic type, so common and so fatal in the lower altitudes, have ever been observed in New Mexico. Health statistics will readily prove the above statement, and thousands throughout the United States will be very willing to testify to the health of our climate. So why look elsewhere for a restoration of health, which is above all in life's happiness.—Springer Stockman.

Helps Monopoly Only.
Let those who are howling for McKinleyism high tariff explain why and how it protects the laboring class. When the high tariff is on the laborer gets no more for his work than he does under free trade, still he pays higher prices for everything he buys. In many things manufactured the raw material is bought in this country, the article made in this country and the United States government gets nothing as a tariff; these things made by low priced labor. Where now does that revenue go to? into the pockets of the people or into the pockets of the manufacturer? This thing of saying that protection protects the man who works is all a humbug; it does not raise the price of his labor one cent, while it raises the price of what he produces by his labor and the difference is pocketed by monopoly.—Roswell Irrigator.

"Liberty of the Press."
The Albuquerque Citizen of the 24th inst. complains that in a few years there will be no such thing as freedom of speech amongst us. "Already," says the Citizen, "men are forced to be careful about expressing their opinions and there is a marked tendency in the courts toward restricting the freedom of the press." etc. It really is a pity, and all law-abiding citizens sympathize with the Citizen. It is strictly within the rights of the paper to print an article accusing the chief justice of conduct unbecoming in the highest degree to a judge and an honorable citizen. And these vindictive aspersions appear on the eve of the important case to which they allude. The freedom of the press should include the right to insult the judiciary, accuse a judge of corrupt morals, the right to rouse an erroneous opinion adverse to a court about to assume the conduct of a great trial. All this is inferred in the article we comment on. We are afraid that the Citizen can not bring the press to its way of thinking. We are of the opinion that the territorial press, even if in its enthusiasm it approaches sometimes the verge of hyperbole, if sometimes its remarks savor of the extreme, will endeavor to uphold the dignity of the law and strive to the utmost to support those officials who have been chosen to represent justice in the territory as long as they do their duty. A special act of the legislature must be passed to enable the Albuquerque Citizen to promulgate its own advanced and exclusive theories.—San Juan Times.

The Pecos Valley of NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world. Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation. The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit. The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value. The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Pecos section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold. SUNBEAMS.
Acquaintance—Got that top-coat in London, did you? Have it made by a tailor?
Returned Tourist—Certainly. You didn't suppose I could buy an ill-fitting thing as this ready-made, did you?
A good recommendation for Simmons Liver Regulator is, that it is purely vegetable and strongly tonic. Thee, too, it is better than Pills, because easier to take in liquid or powder and with no griping, while the relief from Constipation, Biliousness, Sick Headache and Dyspepsia is quick and sure. "I find Simmons Liver Regulator a very safe and valuable family medicine."—Rev. J. M. Rollins, Fairfield, Va.
Did ye get a tip from that bloke? I did that.
What was it?
He told me O! ought to be carryin' the hod, instead of waitin' on the table.

Mrs. W. B. Meek, who resides at Camp-tonville, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhoea Remedy she concluded to try it. She found that it always gave prompt relief. It was seldom necessary to give the second dose. "I had not only saved us lots of worry and time," she says, "but also doctor bill. It is my opinion that every family should have a bottle of this remedy in the house." For sale by Ireland's Pharmacy.

Mrs. Gaxam—I believe that you and Mrs. Taddells are great friends.
Mrs. Cawker—Well, we used to be; but my 6-year-old daughter spent yesterday afternoon at her house and I don't know what the little girl may have told her.
It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine, better results; better try it. Newton's drug store.

She—How ever could I lose dose di- amant? Vot shall we do?
He—I suppose we better advertise undt offer a suitable reward.
She—Oh, yes!—undt say day vos of no use to anybody but der owner!
Say, why don't you try De Witt's Little Early Risers? These little pills cure head-ache, indigestion and constipation. They are small, but do the work. Newton's drug store.

Mrs. Owington—That is one of my best cups and saucers you have broken, Julia! I shall take it out of your wages!
Julia—Will you take it out of the last month's wages, Mum, or the month before that, or the month, Mum?

Nothing so distressing as a hacking cough. Nothing so foolish as to suffer from it. Nothing so dangerous if allowed to continue. One Minute Cough Cure gives immediate relief. Newton's drug store.

Razlin—What did you think of the big parade the other day?
Lazley—I was in the crowd trying to get a look at it, and I think I can truthfully say that it was by far the biggest parade I never saw.

It is a truth in medicine that the small- est dose that performs a cure is the best. De Witt's Little Early Risers are the smallest pills, will perform a cure, and are the best. Newton's drug store.

Why don't you take your music lessons of Mr. L?
I don't think he knows anything about music!
He doesn't, but just think what a lovely moustache he has!

Acts at once, never fails. One Minute Cough Cure. A remedy for asthma, and that feverish condition which accompa- nies a severe cold. The only harmless remedy that produces immediate results. Newton's drug store.

He asked her if she'd have ice cream. In accents soft and low;
The wind was high, the night was cold—
He thought that she'd say no.
But he was wrong; she said, I will,
With face supremely glad;
And what she ate that night, alas!
Took every cent he had.

Mendicant—I was not always as I am now, sir!
Grimshaw—That's a fact! This morn- ing you were deaf and dumb instead of being blind, and had only three starving children instead of five.

IN THE YEAR 3000.

It is now the forty-second day of the spring season, in the year 3000 A. D. My name—C-234-M. G.—tells the reader my residence, family and the philosophical classification, and when I state that I have reached the mature age of 10, any one must realize that I have something worth telling, or I would never risk the penalty imposed by law upon the purposeless author.

I am a clerk in the bureau of carpet tacks, department of house furnishing of D continent (formerly North America). Although my labor is credited to Guthrie (the governmental center of D continent), I prefer to reside on C continent (formerly Africa) by reason of its superior climatic advantages, as well as the greater selectness of its single tax areas. I have the reputation of being honest and industrious, and although it takes me nine minutes to reach my office from my home via the Electric Flash system of governmental transit, yet I am as regular in my hours of attendance as those living within a few hundred miles.

Having recently finished my proportion of individual labor for the common good during the current year and received govern- ment tickets for the same, I determined to devote my vacation to making a slow journey throughout the world.

My first destination I had determined should be the newest continent of all—continent H (formerly Antarctica)—and the slow passage thither on an airship freighter was a novel sensation indeed. Under the most favorable conditions a speed of over 100 miles an hour was impos- sible, and the voyage, although enlivened by numerous well told legends of ships that sailed upon the water, seemed interminable. When we flew over the gigantic system of mirrors that by deflecting the rays of the sun have made a semitropi- cal country out of this erstwhile icebound coast, the air became rather oppressive, but in a very few minutes we had reached the elevated landings. Rapidly spreading my wing planes, I jumped outward from the deck and soon reached the ground in safety.

The moving sidewalk carried me rapidly to a place of amusement, where a man in- formed me that a company would give a faithful reproduction of the wonderful American allegory entitled "Uncle Tom's Cabin." He then stated that in the days of Mark Antony (or Mark Twain, as he was sometimes erroneously called) and McKinley Bill immense audiences gathered to witness this pagan spectacle, and that thousands of negroes were torn to pieces by savage bloodhounds for the de- lation of the assembled populace. In accordance with the rudely drawn pictures to be found in the extant copies of a curi- ous publication called a comic or comic weekly the part of Little Eva was played by a woman of advanced years and the slaves of ice were represented by specially constructed and labeled soapboxes.

On leaving the public theater I kept on the moving sidewalk for a few miles and then stepped off and walked for fully 30 minutes on the roadway. This unaccus- tomed exertion was rather fatiguing, and as night was drawing near I made haste to find a place of shelter.

On my right hand I noticed what looked like a human habitation, although it was not constructed of cut glass with inside shades, as is our universal custom. The house, if such it could be called, was seemingly built of painted wood, with square holes in which a few small pieces of glass were set. Attracted by the possi- bility of an adventure, which of course is very rare nowadays, I walked at once to the door and entered. Almost at the thresh- old I met the owner, and greeting him cheerfully I announced my intention of making a brief stay with him. Much to my surprise, he seemed to demur, but soon recovering his self possession ushered me into a room and introduced me to his daughter. I was rather embarrassed to perceive that she was dressed in the pic- tured costume of antiquity, but presumed that it was only done in sportive mood. Yet, truly, she looked a vision of loveli- ness. There was something almost pic- turesque in the braided hair, full skirt and jaunty, huge sleeved waist with czarina collar, and although for practical purposes out- present universal dress is much better adapted for both sexes I cannot but wish that, in the bosoms of their families at least, women might deign to wear the beautiful costume that historians ascribe to the Parkhurstian period.

On engaging the young person in con- versation I was astounded to find that her name was Gladys. Who could believe that this name of the past was worn by a na- tive of the thirtieth century?

But my wonder was further increased when, still wearing the ancient garb, she spread a white cloth upon a table and placed thereon several vessels of the chim- ereous similar to that now in our school museums. Instead of receiving their por- tions of the condensed food in gluten cap- sules from the public food factories, this family had evidently returned to the old time custom of preparing their food them- selves in primitive style.

Much as I marveled at this, I took my place at the table with the twain and joined in their unique repast. Strange as it may sound, the roast slices of meat and vegetables boiled in water tasted extreme- ly well, but the trouble and time required to prepare and eat them must become ex- ceedingly monotonous.

After the strange meal was over Gladys' father left us, and I engaged the maiden in conversation.

GETTING EVEN.

An Impressive Account of Two Evenings With the McSwats.
"A cigar that costs a quarter is always a good one, isn't it, Billiger?" asked Mrs. McSwat.
"Not always, Lobelia," replied Mr. McSwat.
"Not always?"
"If it costs a quarter and is put up in a glass case with a stopper at one end, it's generally a good one, isn't it?"
"Generally," he admitted, eying her with some suspicion. "Why?"
"Because I bought one for you this morning at a tobacconist's and he paid 25 cents for it. If you would like to smoke it now, here it is."

Dinner was over, and they were sitting on the veranda. It had begun to grow dark.
With another sidelong glance at his wife Mr. McSwat took the glass incased cigar. Removing it from its case, he was about to light it, when he felt something soft pro- jecting from one end.
"If you will increase my obligation to you, Lobelia," he said, "to the extent of providing me with a match, I will proceed to smoke this cigar, which," he added, smelling it critically, "seems to be a very fine one."

Lobelia went after the match, and Mr. McSwat lost no time in examining the gift. Grasping the soft projectile he had felt, he pulled it carefully out.

It was a rubber band, long and slender, that appeared to have been pulled into the cigar by means of a darning needle or some similar implement. It was long enough to reach from one end to the other.

He examined it as well as he could in the fading light and placed it in his pocket just as Mrs. McSwat returned with a handful of matches.

"Thank you, my dear," he said gravely, striking one of them and lighting the cigar.

For some moments he smoked in silence. Mrs. McSwat watched him with the corner of her eye, but appearing to be absorbed in contemplating the pale moon.

"Is it a good cigar, Billiger?" she presently asked.

"Splendid, Lobelia, splendid," he re- joined with great heartiness. "I don't think I ever (puff, puff) smoked a finer one."

"Has a good flavor, hasn't it?"
"Admirable, Lobelia, admirable. A woman's inability (puff) to buy a good cigar (puff, puff) is a standing joke, but you certainly (puff) have bought a good one. Paid a quarter for it, did you?"
"Yes, yes."
"Well, it's worth it."
And he smoked on.

A week had vanished into the dim, silent past. They sat on the veranda again in the gloaming.

"Lobelia," said Mr. McSwat, carefully toasting a small portion of the cigar, "you will retain your old appetite for cho- colate creams—and I have reason to believe you do—I think you will like those. They are fresh from the confectioner's."

He lighted a cigar and smoked in silence, while Mrs. McSwat proceeded to minister to the gratification of her sweet tooth.

One of the chocolate bonbons did not seem to dissolve readily. It tasted unlike the others and had a flexible core.

She took it out and dissected it. Its principal ingredients she found to be a long, slender rubber band, about an inch long, and a mild Cuban flavor.

She looked at Mr. McSwat. He was gazing contemplatively at the stars.

She silently threw the rest of the candy away.

And Billiger smoked on.—Chicago Tribune.

Discovered Too Late.

Old time local stablemen do not tire of Amherst and Elmback streets something over 25 years ago. The old stable was particularly a handsome black mare of Canadian pedigree and a stylish carriage. The stableman inquired which way his prospective customer was going, and the price agreed upon was \$3 a day. But the stableman hesitated.

"I don't know you," he said. "You may be all right or you may not. I don't know where you're from or anything about you."

"Well, I'll pay you in advance, if that's what you want," said the stranger.

But the stableman was not worrying so much about the pay as he was the sure and safe return of the team.

"I'll tell you what I'll do," said the stranger. "I'll buy the team outright. What'll you take?"

"Three hundred dollars," said the sta- bleman, "for the whole rig, mare and all."

are due solely to her own fault seldom occurs to her, but often it is so. Health, strength and vigorous vitality are hers if she will but ask and reach for them.
Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the ill distinctly feminine, the other for her general system. Together they supply a scientific and successful course of treatment. The "Favorite Pre- scription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, always irritating inflammation. The "Gold- en Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and neck with good solid flesh and brings back the radiant glow of girlhood. Best of all with these remedies there is no need of de- tected "examinations" and "local treat- ment" so abhorrent to every modest woman.

Thousands of grateful women have written letters like this:

Mrs. SAMANTHA M. CHAMBER, of Box 34, Le Roy, Bradford Co., Pa., writes: "It is with pleas- ure that I write these few lines in favor of Dr. Pierce's Golden Medical Discovery and 'Fa- vorite Prescription'—the medicines which have done me so much good. I was completely run down so that I could scarcely drag myself around the house, had been getting weaker and worse for several years until I lost all hope of ever get- ting any better. I took four bottles of each of your medicines and am now perfectly well. Respectfully yours,

Samantha M. Chamber.
