VOL. 32.

SANTA FE, N. M., MONDAY, NOVEMBER 25, 1895

NO. 234

Smooth talk is their specialty. A good iron is indispensable when the laundry work is to be done. That means a genuine steel article such as we carry in our stock. There are no better irons than these in this country, and none sold at a better price for buyers. Always come to us for genuine goods at hard pan prices. Cheap articles of hardware are not cheap at all; on the contrary, they're dear, so dear that buying them is wasting money. You can't get the worth of your money out of them. We don't carry shoddy cheap goods, but real cheap goods.

## NATIONAL CAPITAL BUDGET

Washington Rapidly Filling Up with Senators, Representatives and Other Statesmen.

### WILL THE SENATE BE REORGANIZED?

Populists, Under Leadership of Senator Peffer, Threaten to Act Independently—Nothing Contraband on Board Detained Schooner.

Washington, Nov. 25.—The arrival of a number of senators and members last night and to-day, including ex-Speaker Reed, has served to increase the discussion over the reorganization of the two houses of congress.

The speaker is universally conceded to lead.

Mr. Henderson and Mr. McDowell are still the only two candidates for the house clerkship, and it is not believed that any dark horse will develop.

Senator Peffer, who is generally regarded as the leader of the third party, advocates the maintenance of an independent position and it is considered probable that this advice will be followed to the extent of putting a ticket in the field at the beginning of the contest if the Republicans attempt a reorganization of the senate.

The Republicans claim, however, that they will secure Senator Stewart's vote and that Senator Jones will also probably stand with them. These acquisitions would be sufficient to enable the Republicans to take the organization.

It appears altogether probable that the question will be postponed until after the seating of the Utah senators, which can not happen until some time in January or February, depending upon the expedition displayed in their election by the Utah legislature.

There will be an effort on the part of some senators to compromise the claims of the silver and anti-silver Republicans in connection with the committee on finance by enlarging the committee to eleven and giving the silver men one of the new places and the gold men the other.

ASSURANCES FROM MINISTER TERRELL.

The latest dispatches to the state department from U. S. Minister Terrell states that he is officially assured of the protection of the three ladies at Hadjin. That the provinces have been quiet during the last three days and that the outlook is better. He adds that telegrams from Aintab and Maras report that missionaries there are safe and that all of our 172 missionaries in Turkey are now protected. The porte, he says, gives assurances that tranquility will soon be restored.

NOTHING CONTRABAND ON BOARD.

In view of the statement of the deputy collector of customs at Lewis, Del., that thorough search had failed to discover arms, ammunition or men on board the Joseph W. Foster, the secretary of the treasury to-day ordered the vessels released.

Another Mining Exchange.

Colorado Springs, Nov. 25.—Another mining stock exchange, the fourth in this city and the tenth in the state, is about to be opened here. It will hold calls from 7:30 a. m. to 9 p. m.

## COMMERCIAL CONGRESS.

Trans-Mississippi Congress Organized at Omaha To-day—Three Hundred Delegates Present—Ex-Gov. Prince Responds to Address of Welcome.

Omaha, Nov. 25.—The eighth annual convention of the trans-Mississippi congress convened at 11 o'clock to-day. President George Q. Cannon, of Salt Lake presided.

Through the terrific storm throughout the west delayed many delegates, 300 faced the presiding officer when the convention opened.

After prayer by Rev. Frank Crane, President Cannon introduced Mr. I. W. Carpenter, of Omaha, who welcomed the convention in behalf of the business men of the city.

Gov. Silas A. Holcomb performed a similar duty for the state. The band played "America."

Then ex-Gov. Prince, of New Mexico, responded to the welcome addresses.

The convention adjourned two hours for lunch.

At the afternoon session, the committees were appointed, credentials examined and the convention regularly organized.

Pleaded Guilty and Sentenced.

Leadville, Colo., Nov. 25.—M. H. Mayor, brought back from Los Angeles, Cal., charged with embezzlement by the Jacob Dold Packing company, pleaded guilty to-day and was sentenced to the penitentiary for one year.

WANT TERRELL REMOVED.

A Baptist preacher in Kansas City. Fresh from Turkey, bravely attacking American Minister at Constantinople.

Jefferson, Mo., Nov. 25.—Rev. J. T. Johnson, D. D., pastor of the first Baptist church of this city, just returned from a three months tour in Turkey and the Holy Land, last night, in a sermon on the Armenian troubles made the statement that American Minister Terrell, ought to be hanged. He declared that the minister to Turkey has joined the Mohammedan church and is thus aiding the persecution and killing of Christians instead of protecting them. He said that the situation was far worse than reported to the papers, and that Terrell sends out false reports.

Rev. Johnson and a party of thirty-four members of his church have signed a petition to President Cleveland to remove Terrell.

High Class Minstrels.

Bowman & Young's high class minstrels are scheduled to give one of their rare entertainments at the court house in Santa Fe on Thanksgiving night. The songs of this popular company are all new and catchy and the jokes of the end and middlemen are fresh and original. These combined with several novel features render the program particularly attractive. Do not on any account miss this mirth producing performance on Thursday evening.

## Killed His Two Children.

New York, Nov. 26.—Hymen Hettner, host, the well known pugilist and trainer, of Brooklyn, shot and killed his two children and himself last night.

## The Younger Dumas Dying.

Paris, Nov. 26.—The Petit Parisien says that M. Dumas, the younger, was seized on Saturday with cerebral congestion, which Dr. Pozzi diagnosed as a cerebral abscess. The patient was in a comatose condition last night and is now regarded as in a very grave state.

## ABOUT THE BIG BRUISERS.

Announcement that Fitzsimmons will Certainly Fight Either Corbett or Maher on January 10 Near El Paso.

Houston, Tex., Nov. 25.—Martin Julian, Robert Fitzsimmons and party are here. In an interview Julian says Corbett must crawl or accept Stuart's proposition. Fitzsimmons has signed the articles in blank and concedes to Corbett the privilege of dictating every detail, only reserving the demand that the fight must be to a finish with small gloves. He will also agree that Corbett and Brady shall select the referee. "There are only two in the present negotiations with Stuart as the middle man," said Julian. "All the fakirs except Corbett and Brady have been discarded, and if there is no fight the people will know who is the coward. Stuart's proposition could be no better, and Corbett must accept or run up his white feather, and I think he has one. We will remain in Texas."

THERE WILL BE A FIGHT JANUARY 10.

Galveston, Texas.—Martin Julian said last night: "There will be a fight on January 10, either between Corbett and Fitzsimmons or Maher and Fitzsimmons, and it will take place three and a half miles from El Paso. Stuart leaves Dallas to-night for New York to sign with Corbett or Maher."

## GLOVE CONTEST IN MEXICO.

City of Mexico.—Great crowds went to Foch to witness the glove fight between Smith and Clark, champion of Texas, and Clark, a negro. Smith whipped Clark in four well fought rounds.

There was an exciting disturbance at the ball fight here yesterday afternoon, the audience being enraged at the bad character of the performance. Planks were hurled, the ring, smashed and many people injured. The mob insulted the police, but was finally quelled by the troops threatening to fire.

## NICARAGUA CANAL SCHEME.

The Commission Sent to Investigate Makes an Adverse Report, Estimating Cost at \$133,473,493.

New York, Nov. 25.—A special to the Herald from Washington says: A serious blow has been dealt the Nicaraguan Canal company project by the report of Nicaragua canal commission. The report points out that it is neither practicable nor advisable to attempt the construction of the canal upon the data at present available. The commission makes a provisional estimate of the cost at \$133,473,493, or nearly double the Maritime Canal company's unconditional estimate of \$69,893,860.

## RICH GOLD DISCOVERY.

A Mammoth Ledge of Gold Bearing Quartz Discovered at Vancouver, Victoria.

San Francisco, Nov. 25.—A special from Victoria says that Vancouver, the terminus of the Canadian Pacific, has come to the front as a rich gold field. One quartz vein is said to be eighty feet wide. This giant ledge shows on the face of the bluff, where nature has cut the vein right across, exposing a huge body of ore. It can be traced fully 3,000 feet.

## Married in London.

London, Nov. 25.—The marriage of Lieut. Commander W. S. Cowles, a naval attaché, to Miss Roosevelt, sister of James S. Roosevelt, secretary of the U. S. embassy, took place at St. Andrew's church, Westminster, at 2:30 this afternoon.

## Earthquake Shock in Colorado.

Greeley, Colo., Nov. 25.—An earthquake shock lasting fifteen minutes was felt here at 5 a. m. to-day. No damage was done.

## Houses of Socialists Ralied.

Berlin, Nov. 25.—The police raided the houses of the socialist members of the Reichstag and other leaders of the socialist party to-day. All their letters and papers were impounded. It is reported that this action of the authorities is based on an infringement of the Prussian law governing the right of association.

## EFFORTS TO RESTORE ORDER

Condition of Affairs at Constantinople Reported More Hopeful than for Days.

### DISCUSSING DEMAND OF THE POWERS

Porte Afraid to Permit More Foreign Warships in Turkish Waters Lest a Naval Demonstration May Be Made—Missionaries Are Safe.

Copyrighted 1895 by Associated Press.

Constantinople, via Sofia Bulgaria, Nov. 25.—There is no doubt that efforts are being made to maintain order in the districts where disturbances are threatened and to suppress disorders where outbreaks have occurred.

The governor of Hadjin, who threatened to burn the convent there and set fire to the barley fields, has, owing to strong representations made to the porte on the subject by Mr. Terrell, been recalled and his conduct will be inquired into.

### DISCUSSING THE DEMAND OF THE POWERS.

The main question now being discussed between the porte and the representatives of the powers is the demand of Great Britain, Italy, Russia and Austria for armaments for the passage through the Dardanelles of extra gun-boats to be attached to their respective embassies.

While admitting that the powers possess the right to have two guard-ships each in the Bosphorus, the porte considers that the proposed increase of the number of foreign war vessels there, under present conditions, might excite the Musselmans and produce an effect far from the one desired by the powers.

In addition, the porte points out, in view of the measures taken to preserve order there, that an increase in the number of guard-ships attached to the embassies is not required. It can be said upon authority that this is the substance of the note the porte has sent to the representatives of the powers.

### THE FEARS OF THE SULTAN.

In political circles, the repugnance of the porte to grant armaments is attributed to the belief, said to exist among the Turkish ministers and Abdul Hamid's entourage, that it would be a sad blow to the dignity of the sultan and a direct proof of a lack of confidence upon the part of the powers in his ability to govern and maintain order.

Said this, it is claimed, that the Turks fear that the demanded increase in the number of the foreign guard-ships in the Bosphorus is really only a cloak for an intention of the powers to make a naval demonstration in Turkish waters in case of a renewed disturbance in Asiatic Turkey.

### AMERICAN MISSIONARIES SAFE.

U. S. Minister Terrell has received a dispatch from Aintab announcing the safe arrival there of the American missionaries belonging to the central Turkey mission. Full protection was afforded them by the Turkish authorities when demanded from the porte by Terrell.

Definite information has been received here that the missionaries attached to the state at Kahraman have left that point under an escort for Constantinople.

## PAPERS CONSOLIDATED.

Press and Journal of Chicago Merged Under One Management with Associated Press Service.

Chicago, Nov. 25.—When the Evening Press company was organized by George G. Booth, who purchased the Evening Mail and started the Evening Press, began in Chicago a new era in newspaperdom, for, after enjoying usual prosperity, the Press company capitalized at \$500,000, purchased the Journal a week ago.

John R. Wilson, the Journal's proprietor, and James G. Scripps, of Detroit, becoming stockholders with Booth. The consolidated paper will be issued this afternoon.

The Journal used the Associated Press text and the Press that of the United Press. In other words Mr. Booth's "consolidated paper will utilize to the fullest extent the matchless service of the Associated Press, supplemented with a comprehensive special service." So the United Press loses another paper in Chicago.

### Plenty of Snow in Nebraska.

Omaha, Nov. 25.—From five to ten inches of snow cover Nebraska to-day. Snow fell all night. While the snow comes quite late for much benefit to fall wheat and rye, it will undoubtedly save some of these crops and goes far to insure good crop conditions for the early spring.

## NEW MEXICO NEWS.

Likam Brothers threshed 12,000 bushels of oats in Colfax county this fall.

Mayor J. W. Fleming, of Silver City, following the example of President Cleveland and Gov. Thornton, has also issued a Thanksgiving day proclamation.

How about that clue to the murderer or murderers of Dan E. Young in Union county? We are inclined to think it's all a clue without any foundation.—Springer Stockman.

H. M. Porter was in Springer on Monday and reported the cattle business booming. He informed the Stockman that he has shipped and sold 17,000 head within the last two weeks.

In the matter of the assignment of H. Goldberg up at Raton, a court order has been issued to Geo. B. Beringer, the assignee, empowering him to dispose of the stock of goods at retail, for cash.—Las Vegas Optic.

The Optic reports another case of a school director appointing himself a teacher has occurred out at San Ignacio, Celso Jaramillo being the individual so accused, he having resigned as director to hold the place that pays.

Several wagons, each propelled by four burros abreast, came in Friday from Las Vegas, having been out eleven days. Each wagon was loaded with from 2,000 to 3,000 pounds of freight. They landed with wool for the return trip.—White Oaks Eagle.

Late yesterday afternoon E. W. Dobson, master in the case, made final report in the case of John W. Schofield, receiver, against S. M. Folsom, showing that after deducting the proceeds of the sale of property there is a deficit of \$27,413, for which judgment was rendered.—Albuquerque Citizen.

Angus McGillivray, partner of Wm. McIntosh in the sheep industry, has returned to Albuquerque from a five months' visit to his old home in Scotland. John McIntosh, brother of Wm. McIntosh, who accompanied Mr. McGillivray to Scotland, came back with the latter as far as La Junta, Colo., and from there continued on to Denver.

A gang of Brazilian gypsies, as dirty a looking mob as one could find in the slums of London, are camped near Las Cruces. They are begging, stealing, horse trading, or any other means of subsisting outside of work. If they don't vamoose poco tiempo of their own accord a committee may request them to do so.—Las Cruces correspondent.

This is the same outfit recently encamped at Santa Fe.

The Enterprise says that the masquerade ball given Friday evening under the auspices of the Daughters of Rebecca, I. O. O. F., was the greatest success ever made in Silver City at a masquerade.

Fifty 400 people were in attendance as participants and spectators, and all present had a hugely enjoyable time. Many of the costumes were exceedingly elegant and attractive.

Hon. Wm. Burns, deputy internal revenue collector, who recently fell air to six hundred thousand \$ ? ? ? ? by the convenient collapse of his old grandfather, in the old dart, was in the city this week. We applied for a quarter million loan, which was promised as soon as rates of exchange come down. The stuff is still in Ireland. William will not pay exorbitant exchange to bring it over.—Silver City Enterprise.

Andrew Wilson, of Mesquero, was in town Saturday with a load of the finest apples he has ever seen this season. They are of the Bell Flower and Green Pippin varieties and met with a ready sale. He now has several tons yet undisposed of. He has one of the most productive apple orchards and vineyards in the territory. The apples brought here averaged about twelve inches in circumference and weighed twelve ounces each. The success in apple culture attained by Mr. Wilson at an altitude of close to 7,000 feet shows what the mountain regions of New Mexico are capable of doing in the production of this fruit.—White Oaks Eagle.

## PICK, SHOVEL AND DRILL

Active Operations in the Hillsboro Gold District—Strikes and Milling Sales in Grant County.

The output of the Hillsboro gold mines for the week ended November 21 was 565; total output since January 1, 1895, 23,365 tons.

Several big mining strikes are reported in Grant county, some of which, the Enterprise says, it is not at liberty to publish.

Col. C. G. Lott, of Albuquerque, has gone to the Cochiti mining district prepared to remain the winter developing the Hazel mine. There is a 140 foot tunnel on the property now and an encouraging show of mineral is made.

The excellent Hillsboro Advocate announces that it will begin the year 1896 with a special issue descriptive of our mining resources and presenting, as heretofore, the result of the previous year's operations.

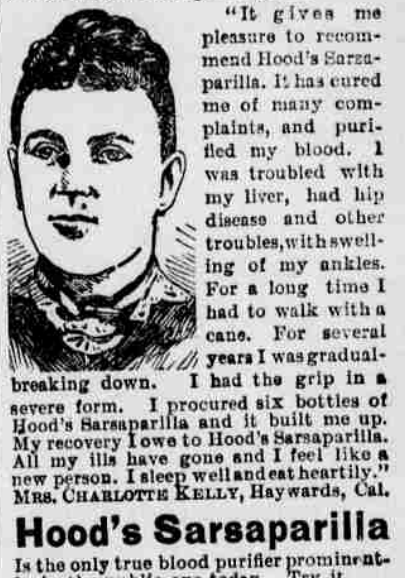

The Summit group of mines, the Davenport mines of East Camp and the Jim Crow mines, of Carlisle district, Grant county, changed hands this week. The purchasers are Pacific and London capitalists, represented by H. W. Child. The price paid runs up into the hundred thousand dollar mark.

Steve Macy is opening up an immense body of lead carbonate ore in the Silver Spoons claim near the Opportunity hill at Hillsboro. The outcrop of this was found many years ago, but in following it down the miners left the ore and worked into the barren underlying lime. Since then the claim has been neglected and underestimated, but it is now expected that Hillsboro will soon appear as a shipper of lead ores in quantity.

The Hillsboro Advocate reports that Wm. L. O'Kelley, who has a lease on the Bonanza mine in Wicks gulch, has struck an eighteen inch streak of \$300 ore in the drift, at a depth from the surface of about seventy feet; that Laramy & Dickey are again working the Susan mine in Wicks gulch, and are reported to be doing well; that Scott & Sanders are making another shipment of five ounce gold ore from the Garfield; that Jeff Owens is cross-cutting the Mountain King vein from the end of his tunnel; that within a few days Supt. Hall, of the Opportunity and Snake mines, will commence some important and extensive work for the repairing and re-opening of those great properties; that the Home-stake mill is making a trial run of fifty tons of Wicks ore. If the saving effected is satisfactory to Supt. Williams, the whole milling product of the mine will be treated there in the future.

## Pure Blood

Is the secret of the restoration to health which Hood's Sarsaparilla gives.

"It gives me pleasure to recommend Hood's Sarsaparilla. It has cured me of many complaints, and purified my blood. I was troubled with my liver, had hip disease and troubles, with swelling of my ankles. For a long time I had to walk with a cane. For several years I was gradually breaking down. I had the grip in a severe form. I procured six bottles of Hood's Sarsaparilla and it built me up. My recovery I owe to Hood's Sarsaparilla. All my ills have gone and I feel like a new person. I sleep well and eat heartily." Mrs. CHARLOTTE KELLY, Hayward, Cal.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

MONDAY, NOVEMBER 25.

Eddy county again bobs up as a hater for business. Eddy county's broad acres in alfalfa will turn off and ship 10,000 fat hogs during the next six months. What are other counties doing toward building up this home industry? Why should New Mexico continue to pay tribute to Illinois and Missouri by the importation of pork products? The alfalfa raisers may answer this.

Speaking of the agreement signed in New York Tuesday by the officers of the joint traffic association, Senator Chandler said that the agreement, as it stands, is a restriction on trade and therefore a violation of the law, and it can easily be defeated by the attorney general procuring the indictment of all the signers. Western people who have a horror of the trusts, and railroad pools as well, will watch with anxiety the behavior of public officials in this matter.

It is cheering, not to say refreshing, to note the view that some of the eastern journals are taking of New York City's endeavor to gobble the National Democratic convention. The Boston Herald speaks out and to the point in this wise: It is to be hoped that the New York papers do not take themselves seriously while they are urging the claims of that city to consideration when the time comes for selecting the location of the next Democratic National convention. The influence which the dominant Democratic organization of New York City has exerted, or undertaken to exert, in the recent national conventions of the party, has not been of a character to commend it to the favorable consideration of the Democracy at large. The chief and insuperable obstacle to the selection of New York as the National Democratic convention city is that it is altogether too near to Tammany hall.

## HOW ABOUT STATEHOOD?

The Republican caucus meets in the hall of the house of representatives in Washington City on Saturday evening, November 30, at 7:30 o'clock. Delegate T. B. Catron, of New Mexico, has been notified to attend and will be there, with his brains and energy. He and his stenographer, W. E. Gortner, will also be present at the national wool growers' convention, which convenes in that city on December 4.—Las Vegas Optic. Yes; that's all right, but we trust that the boss' sudden and lively interest in those anti-McKinley wool resolutions will not wear too heavily on his "brains and energy." He'll need some of 'em to handle the statehood proposition.

## REASONING FROM FALSE PREMISES.

Some time ago the Rocky Mountain News, presumably expressing the opinion of its brilliant lawyer-editor, Hon. T. M. Patterson, affirmed that Col. Hughes, of the Albuquerque Citizen, was wrongfully ordered locked up by the New Mexico supreme court for contempt, because, it alleged, contempt of court must be committed within 100 miles of the court room to be punishable as such. Recently the News has reiterated this proposition, adding that Hughes' offense was merely libel. It says:

The right of courts to punish for contempt is not denied, and is a necessary power lodged in all courts to maintain their dignity and uphold their prerogatives, but Mr. Hughes' offense did not come within 100 miles of contempt of court.

Assuming that the major premise of the News, that contempt of court must be committed within 100 miles of the court room, is correct, its conclusion is necessarily incorrect for the reason that its minor premise is false.

Albuquerque, where the Citizen is published, is not 100 miles from Santa Fe, where the supreme court was sitting at the time the offensive article was printed. As the crow flies it is less than sixty miles from Santa Fe to Albuquerque, and by the Atchison, Topeka & Santa Fe railroad, the usual traveled route, the distance between the two cities is only eighty miles. Besides the News is also reminded that the Citizen circulates daily in Santa Fe, arriving here the morning after publication, and thus virtually offending in the very face of the court.

We make this explanation for the sake of placing the editor of the News in possession of essential facts and doubt not that he will candidly concede that false premises led him to arrive at a false conclusion.

## A CASE FOR SCIENTIFIC INQUIRY.

It would seem to be in order for science to explain, or at least to attempt to explain, the alleged miracles that are attributed to the alleged phenomenon,

Schlader. There are thousands—probably millions—of men and women in the west, and not a few in the east, who honestly believe that diseases, pronounced incurable by the ablest medical practitioners, have been cured by the touch of Schlader's hand. Various newspapers of good standing credit this man with a healing power that is utterly inexplicable without drawing on the supernatural. That he is not an ordinary fraud is shown by his refusal to accept money from any source. When, a few days ago, he suddenly disappeared from Denver, great disappointment was occasioned to thousands of invalids who had gone to that city to be healed by his touch. Other thousands were on their way. Says the Washington Post:

One of the newspapers that profess a belief in the reports concerning this man and his works is the Detroit Journal. It says that Schlader's power to heal is too well authenticated to admit of caviling dispute; that hundreds of persons have felt the magic of his curing touch; that sufferers from chronic ailments, cripples who could scarcely move, the deaf, the blind and the hopelessly ill have been restored to health and strength by the strange healer from New Mexico, and concludes that nobody may reasonably doubt the verity of his being or the certainty that he heals by the subtle power of which no other known mortal is possessed.

We submit that this is a case that calls for scientific inquiry. We do not know, adds the Post, of our own knowledge, that any of the allegations we have mentioned are true, nor can we prove them false. Intelligent minds are disinclined to believe statements that are not, in their opinion, in harmony with human experience. But many thousands of intelligent minds are, as we have shown, impressed with the belief that this man performs acts that have always been deemed impossible of performance by human agencies. Science should be able to give these alleged acts their right names.

These are our sentiments—the Eddy Current says: When a newspaper daily accuses a person of crime it should be prepared to prove its assertion, and the law should be made so plain, explicit and severe, that for a newspaper to accuse a person of crime, would carry with it conviction to the mind of its readers that the accused is truly guilty. With prison staring him in the face an editor is not apt to publish a statement accusing of crime unless he has excellent proof. That criminal libel should be punished goes without saying in all civilized countries. Every pound of type in use and all presses and material should be held for damages by libel, and such judgment for damage should come in ahead of a chattel mortgage. There are too many irresponsible newspapers and a weeding out would be of immense benefit to those conducted on a legitimate and square basis, with justice to all as a motto.

## science

Science is "knowing how." The only secret about Scott's Emulsion is years of science. When made in large quantities and by improving methods, an emulsion must be more perfect than when made in the old-time way with mortar and pestle a few ounces at a time. This is why Scott's Emulsion of cod-liver oil never separates, keeps sweet for years, and why every spoonful is equal to every other spoonful. An even product throughout.

In other emulsions you are liable to get an uneven benefit—either an over or under dose. Get Scott's. Genuine has a salmon-colored wrapper.

# The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world. Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation. The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit. The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value. The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold. Sore throat. Any ordinary case may be cured in one night by applying Chamberlain's Pain Balm as directed with each bottle. This medicine is also famous for its cures of rheumatism, lame back and deep-seated and muscular pains. For sale by Ireland's Pharmacy.

Whenever I washed dishes,  
With common soap, she said,  
It always used to chafe my hands  
Till they were rough and red.  
How is it, then, I asked her,  
That now your hands don't show  
A sign of toil, for they seem soft,  
And look as white as snow?  
Well, this replied the housewife,  
Is how the matter stands;  
My husband finds that soapdishes  
Are good for gouty hands.

Messrs. C. F. Moore & Co., Newberg, Ore., say: "We sell more of Chamberlain's Cough Remedy than all others put together, and it always gives satisfaction." Mr. J. F. Allen, Fox, Ore., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hitchcock, Columbus, Wash., says: "Chamberlain's Cough Remedy sells well and is highly praised by all who use it." For sale by Ireland's Pharmacy.

Mrs. W. B. Meek, who resides at Camp-tonville, Cal., says her daughter was for several years troubled at times with severe cramps in the stomach, and would be in such agony that it was necessary to call in a physician. Having read about Chamberlain's Colic, Cholera and Diarrhoea Remedy she concluded to try it. She found that it always gave prompt relief. It was seldom necessary to give the second dose. "It has not only saved us lots of worry and time," she says, "but also doctor bills. It is my opinion that every family should have a bottle of this remedy in the house." For sale by Ireland's Pharmacy.

## HE SLEPT.

And Yet He Was Wiser Awake Than the Conductor Supposed.

"What station was that?" demanded the passenger in the rear seat, suddenly rousing himself, straightening up and projecting his voice through the dimly lighted car.

The conductor, who was coming down the aisle, stopped and held his lantern close to the speaker's face.

"It was Bragdon," he replied. "Ain't you the man that wanted to get off at Smallville?"

"I am," rejoined the passenger. "I asked you to wake me up when we got there, and you said you would."

"I did wake you up,"

"Oh, you did, did you? How far have we gone past Smallville?"

"Fifty-five miles."

"And you waked me up? Strange I didn't know anything about it!"

"I shook you, called out the name of the station and you said 'All right' and reached for your hat. I supposed you were wide awake. Several passengers got off there, and I took it for granted you were one of them."

"Well, I wasn't. I'm pretty hard to wake up. You ought to have been sure about it. I had friends waiting for me at the station. It'll make an awful muss. I wouldn't have had this happen for \$1,000!"

"You can telegraph them, can't you?"

"I suppose I can. What's the next station?"

"Flaxwood."

"Does the next train back stop there?"

"Yes."

"Well, you give me a note to the conductor, can't you, telling him to pass me back to Smallville? It's as little as you can do. It wasn't my fault that I got carried past."

The conductor scribbled a few lines on a piece of paper and handed it to him.

"We're coming to Flaxwood now," he said, looking at him sharply. "Are you sure you're awake?"

"I'll get off here, anyhow," responded the passenger, grabbing his valise and starting for the door, "whether I'm awake or not."

As the train pulled out of Flaxwood the brakeman standing on the rear platform of the last coach heard a voice calling out in the darkness:

"Hello, old fellow! I was afraid you wouldn't be here to meet me. I came all the way on a 60 cent ticket. There's more than one way to beat a railroad, b'gosh!"

—Chicago Tribune.

## To Steer With.

A fellow was having his hair cut the other day in a Sixth avenue barber shop.

He gave the barber particular instructions not to remove a long lock that projected in a somewhat unsightly way from the front of his head.

"It doesn't become your style of beauty," said the barber.

"Can't help that," said the customer.

"Better let me clip it off," said the barber, getting his shears ready.

"Just you leave it as it is," said the man.

"But," persisted the barber, "I can't give you a smooth, decent cut if I leave the hair so long in front. I can't see what you want it left there for."

"That's because you don't understand the use of it."

"I know it's a bunch of hair, and that it is devilish unbecoming where it is."

"Yes, it's a bunch of hair, but it is something more. It is the family ruler."

"The family what?"

"The family ruler. When affairs don't go right at home, my wife always grabs that lock of hair. She would feel lost without it. When she gets hold of that, she can handle me—steer me in the right course, so to speak—and when I go in the right course all the family go in the right course, and all is well. I've got used to it. Should I lose my hair and become bald, or should you give me a fighting cut all over, it would be all over with me—there would be no way of steering me. I should become unmanageable and sooner or later a total wreck. Woodman—I mean barber—spare that lock."—Texas Siftings.

## His Idea.

A trio were sitting on the postoffice guard rails last night telling stories. One of them related this: "I know of a fellow who had spent a very quiet life in the country and had never been to the city."

"Coming into a little money, he suddenly developed a desire to be a sport and immediately departed for the city."

"It was his habit after arriving to lounge around the corners in the central part of the city, and he naturally heard the gilded youth talking about the amount of money they spent."

"So, I had a great dinner last night, he heard one say, 'and it cost me \$30.'"

"Many other remarks like this he heard, and the rustic decided to get into the swim too. He made up his mind at once to get an expensive dinner, not realizing that the most of the money spent by the boasters he had overheard had been for wine."

"Walking into a swell restaurant, he called the waiter over."

"Say, look here," said he, "I want an expensive dinner like the rest of the boys. Bring me \$30 worth of ham and eggs."—Philadelphia Call.

## He Understood.

The young man had asked for a horse that was gentle and safe.

As he drove out of the stable the liveryman said, "The spring on the right side of the buggy is the stronger," and the young man blushed until his ears looked like a sunset in a chromo.—Truth.

## He Knew.

"The company" was asked to take an other roll.

"I cannot," she replied. "Really, I don't know how many I've eaten already."

Little Johnnie (cagily)—I do. You've ate seven. I've been counting.—Boston Transcript.

## The Real Millionaire.

"Ah, Mrs. Ray, delighted to see you. How are you spending the summer?"

"Oh, delightfully, thanks. We rented our Lakeside avenue mansion, you know, to our 'Buttons,' who is spending his honeymoon there."

"Ah, really? And will you take some extended tour?"

"Oh, no. We have so many obligations this summer that we couldn't possibly think of wandering far. You see, our cook has saved so much in our five years' service that she was able to buy a position in the sweet Four Hundred of New York, and we are just back from spending a month with her at her Newport cottage."

"Really? And now where?"

"Well, for July we were the guests of our butler, who has a magnificent mansion at Saratoga. For August we intend to accept our chambermaid's hospitality over in Paris."

"Your chambermaid in Paris?"

"Oh, yes. You see, she saved enough while in our service so that a French count married her for her money."

"How wonderful! And then?"

"Well, September will be divided up between our coachman, who has a villa at Narragansett, and our head groom, who has a country house at Richfield. I tell you, it's a great privilege to know the swells and be on good terms with the leaders of fashion and form."

"Yes. And what a delight it must be to you to know that you have made so many millionaires in your lifetime, although you yourselves can never hope to be rich. It somehow compensates after all for the everlasting problem of the servant question."—New York World.

## It Went.

AVE

Driver (to colored lady with large watermelon)—We don't carry freight.

Colored Lady—Said he don't carry freight.

World.

Surprised the Waiter.

A Boston man traveling through the south was obliged to stop over in a small town where there was but one hotel, at which the accommodations were hardly to be called elaborate.

When the colored waiter brought his dinner, Mr. C. found that he was to have roast beef, stewed tomatoes, corn, peas, potatoes and coffee, the vegetables served in the usual stone china cans.

Presently he said to the waiter, "Dick, pass the spoons!"

The waiter rolled his eyes in genuine amazement.

"Spoons, sah! What yo' want with the spoons? There's yo' spoon in yo' corn."

—Youth's Companion.

## That Was What He Meant.

Mr. Snaggs—Miss Bellverne is short in her accounts—that is short for a woman.

Mrs. Snaggs—I'd like to know why a woman is less fitted than a man to occupy a position of trust, or why she should be more likely than a man to be short in her accounts?

Mr. Snaggs—I didn't mean that there was anything wrong with her bookkeeping, but that she was not as verbose as most women in telling a story or narrating an anecdote.—Pittsburgh Chronicle-Telegraph.

## Excessive Flattery.

A prince went to inspect a rare collection of books in a little town. The mayor accompanied him. To his great amazement the prince discovered that all the books were placed on the shelves in the wrong way about.

"What made you arrange them in that fashion?"

"I could not permit the volumes to turn their backs on your highness."—La Tri-buna.

## The Cheerful Idiot.

"Why," asked the new boarder, "why do you say that there is a resemblance between riding a bicycle and sailing a boat?"

"Because," said the cheerful idiot, "because you lose the wind when you get on the wrong tack."

Every one with the exception of the boarder who wore bloomers looked sad.—Indianapolis Journal.

## Retrospection.

Nuwed—According to you, I never told you a single truth before we were married.

Mrs. Nuwed—Oh, George, you weren't quite so bad as all that. Don't you remember you always used to say you were unworthy of me?—Life.

## The World's Fair Tests

showed no baking powder so pure or so great in leavening power as the Royal.

The healing properties of De Witt's Witch Hazel Salve are well known. It cures eczema, skin affections and is simply a perfect remedy for piles. Newton's drug store.

Healthy, happy children are those whose mothers have been, and are, healthy. The best intentioned woman in the world will fall short of her duty to her children if she is worried and wearied with weakness and sickness. Most all irritable and nervous women are sick women. Most all melancholy, listless, languid women are sick women. Every woman who will take the trouble to notice, will find that at certain fixed periods she is nervous, cross, irritable and despondent. Any irregularity makes the conditions worse. Even a well woman is less amiable than usual at these times. What can be expected from a sick woman?

When every movement is a dreary drag, when the nerves are all on edge in sympathy with the particular ones affected—when it seems that death were very much preferable to living—what can a woman do for her children then?

It is every woman's duty to be well and healthy. There is no reason why she should be otherwise if only she will take proper care of herself and take Dr. Pierce's Favorite Prescription when she needs it.

This celebrated remedy has been used in the Invalids' Hotel and Surgical Institute at Buffalo, N. Y., of which Dr. Pierce is Chief Consulting Physician and specialist for over 30 years. Thousands of women have been cured by it and hundreds have written grateful letters.

Some of these letters are embodied in a 1000 page book, profusely illustrated, called "The People's Medical Adviser," which will be sent on receipt of 21 cents in one-cent stamps, to cover postage and packing only, by World Dispensary Medical Association, 663 Main St., Buffalo, N. Y.

Nothing so distressing as a hacking cough. Nothing so foolish as to suffer from it. Nothing so dangerous if allowed to continue. One Minute Cough Cure gives immediate relief. Newton's drug store.

Her cheeks are red, her eyes aflame

She's hanging her head as though with shame,  
And I think that she's been kissed.

One big puffed sleeve is pressed quite flat,  
There's a small red mark on her wrist,  
There's a singular tilt to her turban hat,  
And I think that she's been kissed.

So, Cupid, get your ledger and pen  
And put one more on the list.  
It's the proper thing to do, sir, when  
Another girl's been kissed.

Acts at once, never fails, One Minute Cough Cure. A remedy for asthma, and that feverish condition which accompanies a severe cold. The only harmless remedy that produces immediate results. Newton's drug store.

## GOOD FOR EVERYBODY

and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the Liver active. You must help the Liver a bit, and the best helper is the Old Friend, SIMMONS' LIVER REGULATOR, the RED Z.

Mr. C. Himrod, of Lancaster, Ohio, says: "SIMMONS' LIVER REGULATOR broke a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need, and recommend it." Be sure that you get it. Always look for the RED Z on the package. And don't forget the word REGULATOR. It is SIMMONS' LIVER REGULATOR, and there is only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE REMEDY. Take it also for Biliousness and Sick Headache; both are caused by a sluggish Liver.

## STRUCK IT RICH.

Mat. Breeden's Monument Rock Prospect at Last Yields Free Gold—Rare Specimens.

For ten years Mat Breeden has been at work, off and on, developing his "Montezuma" claim near the base of Monument rock, in the Santa Fe cañon. He has several thousand feet of tunnel, drifts and shafts, and despite many discouragements has kept going into the mountain. Yesterday Mr. Breeden had the extreme pleasure of putting in a blast that may mean much for Santa Fe besides giving the lucky owners of the mine a fortune. Dr. Sloan is interested in this claim and today he exhibits several superb samples of quartz sent down by Mr. Breeden. In these samples the free gold is seen, with the naked eye to impregnate the quartz thoroughly, and by placing a miner's glass on it the most beautiful masses of the yellow stuff are revealed. It is said the claim shows a vein of this class of matter fully three feet thick.

## Death of Mrs. E. J. Browne.

Mrs. Emiline J. Browne, superintendent of Ramona Indian school, died of pneumonia at 12:05 o'clock yesterday morning. She was taken ill on Wednesday with a severe chill. Dr. Sloan was called and despite the best of medical attention and the tender and constant ministrations of her assistants and friends death came.

Mrs. Browne was a widow, aged 63 years. Her home for years was at Washington, D. C. Last year she became interested in Indian educational work and was sent to assist at the Pierre, S. D. school. Her conscientious devotion to duty and her ability for executive work prompted the Indian bureau to select her for the purpose of opening and establishing Ramona school. She arrived here on August 5, and had but just succeeded in thoroughly organizing and equipping her school when called away by death's summons. She was a member of the Episcopal church, and a true and noble woman. Although a comparative stranger here she was greatly beloved and esteemed by those who knew her. She leaves four children. A son is an electrician at Indianapolis. Her eldest daughter will arrive from Washington tonight. The body has been embalmed and will probably be taken east for burial.

## ROUND ABOUT TOWN.

Ladies' fur and cloth wraps at Miss Mugler's.

The city school board holds an important special meeting to-night—will ex-Treasurer Mondragon's bondsmen be there?

There must be something like four feet of snow over on the upper Santa Cruz, where Messrs. Coleman, Coombs and W. E. Griffin are in camp for a deer hunt.

There was a rush at the wagon shops to get sleighs rigged out early this morning, but the sun put a stop to it before 11 o'clock. Sunshine and sleigh rides are two things that don't dove-tail at this altitude.

Miss Mugler has a fine display of oil paintings in her attractive show window. They make a beautiful Christmas gift. Call and secure one.

These days of snow and slush the merchant who is wise will sprinkle cinders on his walk and thereby advertise—that he has some consideration for the marrow bones of his patrons. See the point?

Judge Hamilton left Las Vegas for Silver City last night to continue the term of the district court there. Chief Justice Smith is expected in Las Vegas to-day, so that the term there will probably not lapse.

Joseph Fields died at St. Vincent on Saturday night. He is a Canadian and has a small ranch near the race track. T. P. Gable was to-day appointed administrator and Dr. Sloan and Atanacio Romero appraisers of his estate. The latter are this afternoon engaged in examination of his trunk in hopes of learning something of deceased's relatives, so that they may be notified.

The Santa Fe New Mexican's edition of Tuesday, giving a full detailed account of the hanging of Vialpando and Chavez, would indeed have been a credit to an eastern daily. It was well written in every particular. Well, the New Mexican has the name of doing things up right.—Springer Stockman.

Director Hersey, of the weather bureau, returned from the upper Pecos via Gloria yesterday. He went over the Baldy trail ten days ago to hunt deer with Henry Winsor, but found the snow too deep. On the trail he was seven hours traveling one and a half miles, and it required eighteen hours of difficult travel to reach the Winsor ranch.

Hon. C. W. Dadrow returned from the San Luis valley on Saturday, bringing three splendid horses, and also Johnny Wilkes, Dr. Andrews' brother that has been in training on the La Jara race track. Two of Mr. Dadrow's purchases are matched greys, half-brothers, 7 years old, and weigh 2,800 pounds. The other is a well bred saddle and buggy horse possessing many fine points.

formis. Mr. C. J. Ball, of Ball's Ferry, Shasta county, California, writes that, in response to advice by his physician, he will leave there for Santa Fe this week. Letters of inquiry are coming to the sanitarium in every mail, thus showing that the systematic advertising the promoters have been doing is beginning to bear fruit.

The Dewey-Heywood Concert company, which appears at the court house on Friday night under the auspices of the Aztec club, is composed of five highly finished artists of national reputation. The program consists of vocal and instrumental solos, duets, trios and quartets, embracing the classic as well as the popular and pleasing selections of the day, together with delightful readings and impersonations. The artists comprising this company are Miss Flora Drecher, violinist; W. Scott Heywood, cornetist; Marie McKenzie, soprano; Frank M. Fuller, pianist; and Clara Mae Bryant, reader and impersonator. Several of these performers, including Mr. Heywood, have appeared here before and enjoy a good reputation. The public should assist the Aztec club in packing the house. Tickets on sale at Newton's drug store.

## MURDERERS GALORE.

The Administration of Justice Raging Big Game in New Mexico—A Fine Record for Law and Order.

In the district court for Rio Arriba county, in the case of the Territory vs. Rosario Ring and Celestino Romero, for killing Carlos Ulbricht on the night of September 16 last, a verdict was returned on Thursday last of guilty as against Ring and not guilty as against Romero. The territory showed that the death was the result of a drunken brawl. W. R. Garrison represented Ring and W. H. Pope and Alex. Reid represented Romero. District Attorney Crist prosecuted with much ability. Ring will be sentenced this week as will also Perfecto Padilla, of Nacimiento, the murderer of John Viopond. Thus it is probable that Tierra Amarilla will have a double execution before many weeks.

A WAY OF JUSTICE.

Speaking of the prompt and efficient execution of law and order in New Mexico at this time the Lordsburg Liberal says:

Last Tuesday the Sheriff of Santa Fe county executed two murderers, and holds in confinement four more who are under sentence of death. In Chavez county two more were executed, and in waiting the day of execution. In Lincoln county is another murderer who will soon meet a legal death. Last week in Rio Arriba a man was convicted of murder and sentenced to be hanged. This is a bloody list. At no time in the history of the territory has there been so much of capital justice. There are murderers awaiting trial in other counties of the territory and the people are watching with interest to see if justice will be meted out to them. Grant is one of the most progressive counties of the territory. It is one of the few counties in which the law is enforced. The people of the county are anxious, looking forward to see if a Grant jury will be as honest as the Chavez jury, as brave as the Rio Arriba jury, have the same stern sense of justice as the Lincoln jury, and be as able and willing to do their duty as the Santa Fe jury. If this Grant county jury will average up with the juries in other counties human life will be safer here than it has been for many years. An object lesson is sadly needed in Grant county.

## ANOTHER ONE IN EDDY.

The trial of Agostino Lerma, for the murder of two Arab peddlers a year ago last April, near the Delaware, thirty-five miles south of Eddy, close to the Texas line, occupied the attention of the Eddy district court Monday and Tuesday. Tuesday evening Judge Bantz instructed the jury to bring in a verdict of murder in either the first or second degree, or acquittal. At 2 o'clock Wednesday morning the jury returned a verdict of guilty of murder in the first degree. The verdict was based on circumstantial evidence. Lerma had in his possession jewelry which belonged to the peddlers. He claimed to have purchased it from some one, but on the trial failed to produce the party whom he claimed sold him the jewelry. A motion for a new trial was taken under advisement by Judge Bantz.

## STILL ANOTHER SHOOTING.

On Wednesday last Tom Rice, a resident of the Mogollon region, started out with the open avowal to have M. C. Logan's blood, saying that he had a 45 gun to get it with. Toward evening he rode by Mr. Logan's place and saw Logan standing out doors. After going down the gulch a couple of hundred yards he returned and dismounted following Logan into the house. Logan got the first shot, hitting his opponent in the neck. The wound was not considered fatal. From what the Silver City Enterprise could learn by telephone communication with prominent and reliable citizens of Mogollon, Mr. Logan was fully justifiable. Logan is under arrest but is in confinement. The preliminary hearing is postponed to await the result of Rice's injuries.

## SAM DITTENHOFFER'S SLAYER.

It is with no little satisfaction that Santa Feans learn that the murderer of Sam Dittenhofer is to be brought to justice in Arizona. "Nevado Sam," as Dittenhofer was known, made Santa Fe his home for years. He has a family here, one of his sons is a newsboy for the New Mexican and a bright lad. Dittenhofer belongs to the wealthy New York family of that name. On Christmas day, 1892, one Thomas Collins shot and killed Dittenhofer at his trading post, 125 miles northeast of Flagstaff and near the Navajo reservation. Collins made his escape to Mojave county, A. T., where he changed his name to William Arnett. He had been there about a month when he shot and killed a fellow workman at a mill. He was arrested, tried and found guilty of manslaughter and sentenced to Yuma for five years.

It was not until after Arnett was in Yuma several months that it was discovered that he was not Arnett, but Thomas Collins, the slayer of Sam Dittenhofer. A few days ago Gov. Hughes pardoned Arnett to restore him to citizenship, as his time would expire in a few days. A grand jury at Flagstaff had in March, 1893, found an indictment against Collins, and when he stepped out of the penitentiary a few days ago he was immediately arrested and taken to Flagstaff, where he will in December be tried for the murder of poor Sam Dittenhofer.

## SMALL LAND HOLDINGS.

Important Recommendations of the Surveyor General on the Subject—Time for Filing Should Be Extended.

Surveyor General Easley recently prepared and forwarded to the commissioner of the general land office an important letter on the subject of small land holdings. He informs the honorable commissioner that, since the expiration of the time provided in the act of congress for the filing of this class of claims, December 1, 1894, the fact has come to his knowledge that a great many claimants have failed to initiate title to their lands as required, some because they have not understood the provisions of the law or how to proceed thereunder, and others because their claims were within the limits of unconfirmed private land claims as established by preliminary surveys and who are awaiting the action of the court of private land claims in the premises.

In some of these instances the grants have already been rejected and doubtless others will be rejected. These settlers and all others who occupy small holdings can not obtain title to the land so used under the homestead law because they are so irregular that they can not be described by legal subdivisions, and the only manner in which this class of settlers can ever hope to secure title to their possessions is by the extension of the provisions of the small holdings act. Accordingly the surveyor general recommends that the time for filing small holding claims be extended three years.

The surveyor general also recommends that the act be amended by congress so as to permit all small holding claimants, who have been in continuous occupation of said claims for twenty years next preceding the survey of said holdings, to file and prove up on claims. At present the law unjustly discriminates between settlers in surveyed and unsurveyed townships, requiring the former to establish twenty year possession prior to the survey which may have been made ten or twenty years ago, while the latter are only required to prove twenty years' possession next preceding survey, that have not yet been made. The injustice of these requirements is obvious and was clearly unimportant.

## A Happy Occasion.

To the Editor of the New Mexican.

Tierra Amarilla, N. M., Nov. 20.—Last evening Hon. Thomas D. Burns gave a dinner to the members of the court party now here at which covers for eleven were laid. The banquet was a most enjoyable affair. Good cheer was the order of the night. At the close Mr. Burns arose and proposed the following toast: "Here is to the Hon. N. B. Laughlin, judge, and J. H. Crist, prosecuting attorney, the best we have ever known for what the latter sometimes draws indictments against dead men, he only prosecutes live ones." The latter remark is a reference to an indictment which charged a man, sometime dead, with murder. The return of the sheriff on the warrant issued upon the indictment showed that the sheriff could only discover the tombstone of the accused.

Those who sat down were Hon. T. D. Burns, N. B. Laughlin, J. H. Crist, Rafael Romero and Messrs. Geo. L. Wyllys, W. H. Pope, A. B. Reshman, Dr. Feschel Craig, W. L. Garrison, J. H. Keyes and Wm. Kindermann. After the dinner the guests adjourned to the spacious parlors of the host, where Mrs. Burns, Miss Burns and Miss Emma Burns lent their presence. From then the night passed with song and music and pleasant chat.

Mrs. Bush has fitted up the Lehman Spiegelberg house with comfortable sitting and dining rooms and resumed keeping boarders. She will give single meals or take boarders by the day, week or month. For terms apply to Mrs. M. Bush, Santa Fe, N. M.

Well shod gives the idea of comfort on foot, and that is just where you want comfort at all times. If there is not comfort in our footwear, then there is no position anywhere, and the knack of knowing how to be comfortable is a lost art. In shoes, comfort and high quality are apt to go together. As a rule, the best is the most comfortable shoe. We are giving ourselves no more than our due in claiming that we sell quality and comfort at reasonable prices, as in the past, so in the present. Confidently inviting the attention of our neighbors to the style, quality and ease represented in our stock, we at the same time quote such prices as you desire.

New Arrivals at the Pen.

Sheriff John D. Walker and deputies, of Eddy county, arrived on yesterday morning's train and turned over to the penitentiary officials the following convicts, sentenced by Judge Bantz at the recent term of court, held at Eddy: Vidal Flores, one year for forgery; J. J. Holland and G. M. Monroe, one year each for horse stealing; Frank Sherlock, four years for horse stealing; Jerry Foote and Henry Weiden, three years each for burglary.

There also arrived on the same train Eugene Tyler, sentenced by Judge Collier, at Albuquerque, to nine months for assault with a deadly weapon.

Antonio Zamora, sentenced at Las Vegas to a term of imprisonment of three years for the crime of incest, was brought to the penitentiary this morning by Chief Deputy Marshal Loomis.

These accessions swell the number of convicts now in the penitentiary to 203 with eleven more counties to hear from in the near future.

The Snow Storm.

Three inches of rapidly melting snow cover the ground in Santa Fe. In the adjacent mountains, in fact, throughout the Rocky mountain region, and as far south as Socorro the present snow storm prevails. Out at Gallup and along the A. & P. road, over the divide, about three feet of snow have fallen. At Albuquerque six inches of snow have brought out scores of sleighs. At Las Vegas eight or ten inches of snow cover the ground, and throughout northern New Mexico in general the fall amounts to the heaviest deposited by a single storm in years. In the Santa Fe range, and to the north, in southern Colorado, it has been snowing continuously for five days, and the white blanket on the level can not be much less than four feet deep. At Creede, on Saturday afternoon, the snowfall measured three feet. Doubtless trains north and west will be much delayed for a few days.
