## STIRRING AND SENSATIONAL

Report That Spain Will Undertake to Turn Cuba Over to Great Britain.

## UNCLE SAM WOULD NOT TOLERATE THIS

Possible Explanation of Assembling of Flying Squadron—United States will Recognize Cuban Patriots—Belligerent Talk.

St. Louis, Jan. 20.—The Republic this morning, summarizing the dispatches from Florida, New York and Washington says:

A crisis has been reached in the Cuban war. The recognition of the belligerency of the patriotic army by the United States is imminent.

President Cleveland is said to have prepared a proclamation, which may be issued to-day, or in the immediate future. Within forty-eight hours the president is said to have learned that Spain, despairing of a successful termination of the war, had offered to sell Cuba to Great Britain.

Governors of southern states have been requested by the war department to prepare the state militiamen for immediate service. Troops are already beginning to move in Florida.

The belief is held in some quarters that the flying squadron of Great Britain is destined for service in American waters. If this is so, war will result.

The cession of Cuba to Great Britain would be resisted by the United States to the last.

Senor Palma, head of the Cuban party in the United States, wires from Washington: "Our case is complete. The president and congress will recognize insurgent cause."

THREATENING AND BELLIGERENT. London.—The Globe, this afternoon, in an article condemning the attitude of the United States senate committee on foreign affairs, says:

"The English people will not stand much more flooding from any body, and these gentlemen, whom we credit with no more exalted sentiment than a wish to stand well with their Irish constituents, may very easily find themselves face to face with a situation that could be called appalling."

## PARIS NEWSPAPER SLURSTERS.

Paris.—The Eclair to-day, commenting upon the suggested additions to the Monroe doctrine, remarks: "Does the American government think it is strong enough to appropriate in its own interest one of the two hemispheres and forbid Europe to have access to at least half of the world? If it pushes its extravagant pretensions to this point, the only thing that can happen will be that all Europe will arrive at an understanding by which they will close their ports to American ships, a measure which will make America ask for money within a week. Why does America assume an attitude she can not maintain?"

## BRITISH ADMIRALTY INNOCENTLY IGNORANT.

London.—In spite of the assertion of a sensational news gatherer to the contrary, the Associated Press is in a position to repeat its assertion of Saturday last that it has been informed by the British admiralty that the destination of the flying squadron, now at Spithead, is not yet determined upon, even by the admiralty, and certainly it will not go to Bermuda or anywhere in American waters for the present.

## MONROE DOCTRINE REAFFIRMED.

Washington.—Senator Davis, of the senate committee on foreign relations, to-day reported favorably a resolution enunciating the Monroe doctrine.

The resolution after the preamble is as follows: Resolved, That the United States of America reaffirms and confirms the doctrine and principles promulgated by President Monroe in his message of December 2, 1823, and declares that it will assert and maintain that doctrine and those principles, and will regard any infringement thereof and particularly any attempt by any European power to take or acquire any new territory on the American continent or any islands adjacent thereto, for any right of sovereignty or dominion in the same, in any case or instance, as to which the United States shall deem such an attempt to be dangerous to its peace or safety, by or through force, purchase, coercion, occupation, pledge, colonization, protectorate or by control of establishments in canals or other

means of transit across the American isthmus, whether on unfounded pretension or right in cases of alleged boundary disputes, or under other unfounded pretensions, as a manifestation of an unfriendly disposition toward the United States and as an interference which it would be impossible in any form for the United States to regard with indifference. The report went to the calendar. Senator Gray announced that the report was not unanimous.

## OPINIONS DIFFER.

London.—The French newspaper La Liberte prints an interview with M. Berthou, the French minister of foreign affairs, in which he is quoted as saying: "The (Mekong) Siam convention does not modify our external policy. The English newspapers are willfully mistaken in declaring that England has obtained France's co-operation in the settlement of English foreign difficulties."

Yet, in the face of this, the newspapers here look upon the Mekong agreement as being a triumph of British diplomacy and a slap over the shoulder of France at Emperor William.

The relation at Great Britain's apparent success in a conflict with France in Siam, combined with the confidence aroused by the promptness with which the naval preparations were carried out, has given a tone of cocksureness to a portion of the press and a majority of the people.

The Standard is so elated that it talks about Great Britain's holding her own against any five or six of the great powers, and thinks it a matter of supreme importance as to how the powers may group themselves.

GETTING TOO GAY. The St. James Gazette, however, strongly reproves Englishmen for uttering such an opinion, and describes the Standard's remarks as "swagger and airs perfectly if Great Britain is prepared to take on France, Russia, Germany, Austria and the United States, and says: "Surely this is making a great deal too much of the fact that we built a few ironclads and cruisers rapidly during the last few years."

Continuing, the St. James Gazette proceeds to enumerate the vulnerable points of Great Britain's armor, namely, insufficient number of cruisers, lack of trained sailors and officers to man the fleet, a tiny army, etc.

## SOME WAR TALK.

In connection with the possibility of war between Great Britain and one or more of the powers, the newspapers give much prominence to an article from the pen of a distinguished military strategist, Capt. Baron von Lutwitz of the Prussian general staff, which has appeared in the Militar Wochenblatt.

Discussing the chances of an invasion of Great Britain, Capt. von Lutwitz concludes with the remark that an invasion of this country would be dangerous, but is in no way impossible. The English newspapers retort by recalling the remark, attributed to Field Marshal von Moltke, namely, that he had nine plans for getting into England, but none for getting out again.

## FLORIDA TROOPS NOT CALLED OUT.

Washington.—A flat denial is given at the war department to-day of the report from Florida that the secretary has requested of the governor of the state to put the Florida troops in readiness to take the field at a moment's notice. It is said that the president has no constitutional or legal authority to make such a request and there is no emergency that would justify the calling out of the Florida militia.

## HAMMOND, THE HEALER.

Belvidere, Ill., Jan. 20.—Wilbur F. Hammond, or "Hammond, the healer," spent Sunday in Belvidere. He was besieged through the day by lame and blind and cured all he could.

Hammond is about 28 years old with nothing strange in his appearance unless it be his long, curly hair. He is under the direction of a long since dead German physician.

Hammond is almost continually in a trance-like state and the strain is beginning to tell upon his nervous system.

## Mortuary Record.

Boston, Jan. 20.—John B. Alley, of Lynn, Mass., died last night of paralysis. He was 73 years old. He was ex-director of the Union Pacific railway and a pioneer of the old Free Soil party. He began life as an apprentice in a shoe factory, but was worth several million dollars when he died.

## Tours, France.—Cardinal Guillaume Rene Meignan, archbishop of Tours, was found dead in bed this morning. Meignan was born in 1817 and created a cardinal in 1893.

## REPUBLICANS IN ST. LOUIS.

Sub-Committee of Republican National Committee Has Appointed a Sergeant-at-Arms.

St. Louis, Jan. 20.—The sub-committee of the Republican national committee, appointed to attend to the details of the coming convention at St. Louis, met at the Southern hotel this forenoon to confer with the special committee appointed by the business men's league.

Timothy E. Byrne, of Minneapolis, was elected sergeant-at-arms of the national Republican convention by the sub-committee of the national committee to-day.

## NATIONAL CAPITAL BUDGET

Rich Gold Lands on Forty Mile Creek Are in Alaska and Belong to Uncle Sam.

## CLEARLY SHOWN BY DUFFIELD'S SURVEY

Pacific Railroad Funding Bill in House Committee—Effort to Advance Bannock Case in Supreme Court—Bayard's Speeches.

Washington, Jan. 20.—The rich gold discoveries in the Forty Mile district, Alaska, belong to the United States, not to Great Britain. The 141st meridian of longitude has been accurately determined by an employee of the British government and properly marked at certain places.

Gen. Duffield, chief of the coast survey, says that it shows that but fifteen miles of the creek, as the bird flies and twenty-three miles as the water flows, is in British territory, and in this portion no gold has been discovered.

All the remaining portion of the creek and that on which gold has been discovered is in Alaska and belongs therefore to the United States.

## PACIFIC ROAD FUNDING BILL.

The house committee on Pacific railroads to-day decided to begin the hearing on next Monday preparatory to framing a plan for the adjustment of the debts of the Union and Central Pacific roads to the government. Invitations will be sent to representatives of the Union Pacific and Central Pacific railroads. California people will oppose the funding bill.

## BANNOCK AND WYOMING.

Attorney General Harmon entered a motion for the advancement of the case of the Bannock Indian, Race Horse, involving the right of the Bannocks to kill game in Wyoming contrary to the laws of that state. The court took the motion under advisement.

## AMBASSADOR BAYARD'S SPEECHES.

The president has sent to the house his reply to the resolution calling for information as to what he has done about the speeches delivered by Ambassador Bayard. He transmits copies of the two speeches in full and also copies of letters from Bayard, explaining them. No action was taken by the president on the speeches except to notify Bayard of the action of the house.

## THE MARKETS.

## Popular Low Price California Excursions.

The Santa Fe Railway personally conducted weekly excursions to California are desirably popular with travelers who seek a wise economy in cost of railroad and sleeper tickets without sacrifice of any essential comfort. About one-third saved as compared with first-class passage. The Pullmans occupied by these parties are of latest pattern and afford every necessary.

Convenience. A porter goes with each car, and an experienced agent of the company is in charge.

Ladies, invalids, elderly people, etc., will appreciate this personal care.

The Santa Fe California line passes south of the region of severe snow storms and is remarkably picturesque. The daily service is same as above, except as regards agents in charge. For descriptive literature and other information, address local agents A. T. & S. F. R. R.

## SILVER MISSIONARIES.

Leading Senators Are Making Silver Converts in Wall Street—Price of White Metal Likely to Advance.

Denver, Jan. 20.—A special to the Times from New York says: The missionary work which some leading senators have recently begun in Wall street is at last bearing fruit in the conversion of several heads of houses, who now say that they are heartily in favor of greater use of silver.

They hold strong to the view that there should be measures taken at once to substitute silver certificates for currency now circulated at and below \$10. This would require so much silver for use as would raise the price at once.

## Dunraven's Charges Exploded.

New York, Jan. 20.—The Herald this morning publishes what claims to be the testimony taken before the committee investigating the charge made by Lord Dunraven against the members of the New York Yacht club, who had charge of the yacht Defender. The Herald claims that the evidence acquits Leelin and all connected with the Defender from the charges.

## DEAD IN HIS WIFE'S ARMS.

A Georgia Farmer Assassinated in His Own Door—Frodoched on Marital Infidelities.

Toombsboro, Ga., Jan. 20.—Rev. Warren Powers, a well known country preacher, near Hall's station, this county, was called to his door at night and shot, falling dead in the arms of his wife. Last Sunday Powers preached a strong sermon against the marital infidelities of some of the community. This is believed to have led to the murder.

## Poor Indeed!

There are degrees and kinds of poverty, just as there are differences of opinion among those who compute and measure poverty and riches by different standards. Some men deem themselves poor because they are less rich than others, again they are comparatively poor people who are satisfied with a competence. There is a kind of poverty for which no amount of wealth can compensate, namely, a poverty of bodily stamina, evinced by nervousness and derangement of the functions of digestion, bilious secretion and the bowels. To restore vigor upon a permanent basis there is one remedy that fully covers the requirements, "fills the bill," and this is Hostetter's Stomach Bitters. By restoring digestion, giving a healthy impulse to the action of the bowels and liver and tranquillizing the nerves, it fulfills the condition necessary to a resumption of strength by the system. It also overcomes malaria and rheumatism.

Googling irritates the delicate organs and aggravates the disease. Instead of waiting, try One Minute Cough Cure. It helps at once, makes expectation easy, reduces the soreness and inflammation. Every one likes it. Newton's drug store.

## CRYSTAL CARNIVAL AT LEADVILLE, COLO., DECEMBER 23, 1895 TO MARCH 4, 1896.

For the above season the Santa Fe Route will place on sale tickets to Leadville and return at a rate of \$9.25.

Dates of sale December 31, 1895 and January 3, 1896, final return limit January 9, 1896, also February 1, 2, and 3, 1896, for return passage February 5, 1896. During the month of January tickets will be sold on Saturdays, good until the following Monday at a rate of \$16.65. Tickets will also be sold at this rate on Wednesday, January 15, good to return January 18. These tickets will be good going and returning via the same or going via one and returning via another line. Opening exercises will take place January 4, 1896 and the above rates will include admission tickets to the Ice Palace.

## A Remarkable Cure of Rheumatism.

While driving one day last winter, Mr. J. M. Thompson, of Decker's Point, Pa., was caught out in a cold rain. The next morning he was unable to move his head or arms owing to an attack of inflammatory rheumatism. His clerk telephoned for a physician, but before the doctor came, suggested that he use Chamberlain's Pain Balm, there being a bottle open on the counter. After being rubbed thoroughly with Pain Balm, over the affected parts, Mr. Thompson dozed off to sleep and when he awoke a half hour later, the pain was gone entirely and he has not since been troubled. He says: "People come here from many miles around to buy this liniment." For sale by Ireland's Pharmacy.

## SANTA FE RAILROAD CASES

An Important Opinion Regarding Alleged Violation of Inter-State Commerce Law.

## REINHART-HANLEY INDICTMENTS STAND

Beneficiaries of Rebates and Drawbacks Not Guilty of Indictable Offenses—Reinhart and Henley Will Appeal.

Chicago, Jan. 20.—In the United States district court to-day Judge Grosscup handed down an opinion on the motion to quash the indictments in re the Santa Fe railroad's alleged violations of the interstate-commerce act.

The indictments were upheld in part and quashed in part. John A. Hanley, general traffic manager of the Santa Fe, and ex-President Reinhart were adjudged to have been properly indicted on two counts.

Both counts set forth that from April to November, 1892, these two officials violated the act by giving a rebate and drawbacks.

The rebate was paid to Nelson Morris, but indictment as to Morris was quashed on the grounds that the rate was a discrimination. The rate made him in no wise guilty of the discrimination.

The indictments against Isaac Thompson, the Kansas City shipper, and Manager Jenkins, of the Hammond Packing House company, were quashed.

These decisions are in effect that shippers could not be held for a violation in accepting a rebate.

Hanley and Reinhart will probably take an appeal to a higher court.

## Makes the Blood Pure

This is the secret of the cures by Hood's Sarsaparilla. Read this: "I am so glad to write that I am now in perfect health and it is all because Hood's Sarsaparilla made my blood pure. My health broke down with troubles peculiar to women, my nervous system was shattered and I had to take my bed. The physician said there was little hope for me. A neighbor told of wonderful cures by Hood's Sarsaparilla and I decided to try it. When I had taken 3 bottles, I could sit up and now I am perfectly well and strong."

As a letter writer Col. Hudson is a success—in proving up the other side of the case.

It now turns out that Gen. Harrison has been suffering chiefly with an affair of the heart.

There are signs of an Allison boom breaking out in New Mexico at an early day. Reed has forfeited all claims on New Mexico and the McKinley boomers lack nerve and cohesion. Ex-Judge E. P. Seeds' friends haven't forgotten that he is pretty close to the Iowa statesman.

Tax farmer and all who are interested in fostering agriculture will please take notice of the market reports these days. When silver's price goes up wheat, corn and oats also advance. It is now in order for the Wall street fellows to again assure the country at large that there is no commercial affinity between silver as money and farm products.

The El Paso ministers are unitedly praying that the prize fight may be stopped. These innocents are less human than a young woman who was recently in trouble in New York. She was deluged with letters of advice from the "ancho guide," in reply to which she announced through the public press that hereafter when trouble blocked her path she "would call a good lawyer first and see God about it afterwards." Here's a pointer for the El Paso anti-prize fighting association.

## WORK FOR STATEHOOD.

So John Sherman and Czar Reed give it out cold that New Mexico can't be admitted as a state. Well, Delegate Catron, if your party leaders are going to talk that way you may as well meet Democratic leaders half way at once and see what unity of action will bring forth. Had Delegate Catron started right the statehood bill might have been passed by both branches of congress ere this.

## COL. HUDSON'S CASE.

The tenor of Col. Hudson's letter to the governor is proof positive that the executive did well in barring Col. Hudson's paw from the public crib. Col. Hudson says he won't let go. Tax-payers no doubt will be glad to know just how far the law and the courts will sustain an executive in his acts to maintain law and order and the honest expenditure of the public funds. We hope Col. Hudson will call to his assistance all the "best lawyers in the territory" (who have personal political axes to grind) and will make this a test case. It is a matter the New Mexican, for one, will welcome as an educational enterprise of paramount importance.

## YOUNG MEN IN THE SENATE.

The membership of the United States senate never before included so many

young men. Twenty-five of its members are under 50 years old, nine of these have not yet reached the age of 46 years, and four of them were born in 1851. The youngest men in the body are Senators Chilton, of Texas; Pritchard, of North Carolina; Carter, of Montana; Irby, of South Carolina, and Butler, of North Carolina. The two first named were born in 1853, the next two were born in 1854 and the gentleman last named first saw the light in 1863. Seven senators, Messrs. Hawley, of Connecticut; Gear, of Iowa; Morgan, of Alabama; Sherman, of Ohio; Harris, of Tennessee; Palmer, of Illinois, and Morrill, of Vermont, have attained the age of 70 years or more. The last four mentioned are the oldest, being respectively 73, 78, 79 and 86 years old. The "boys" in the senate will doubtless show due deference to these venerable solons, but manifest no willingness to be trampled under foot by age.

## THE ARMENIAN QUESTION.

The people of Chicago have adopted the most practical way of disposing of the Armenian question by bringing them to the United States and colonizing them in the western irrigation districts. This movement, however, need not and should not be a charitable affair. A syndicate should be formed with sufficient means to bring those people over and to locate them in their new homes and give them a start. Then build reservoirs for them and allow them time in which to refund all moneys that may be advanced for their benefit. This they can do in a very few years. There are in New Mexico several million acres of land that can be utilized for colonies of farmers and stock raisers. Land that at present is quite worthless will become valuable the moment water is put on it. It will at once be worth from \$25 an acre upwards. Besides locating the Armenians on good lands they should be supplied with sheep, goats and cattle on shares. During the last few years immense numbers of sheep and cattle have been taken out of the territory and there never was a more propitious time in which to commence to restock the country than the present. Owing to the copious rains of last year there is pasture all over the country for several years even if there should be but very little rain during the next two years. This territory is peculiarly fitted for sheep raising and there is now room for many millions of them. The Armenians could be supplied with sheep on shares as per the old custom in New Mexico. The syndicate would have to buy the sheep for about \$1.50 per head and the Armenians would hold them for a number of years taking care of them and giving to the syndicate two pounds of wool for each sheep per year. In a few years many woolen mills would be started in different parts of the territory and employment would be found for all the new comers. This is the way in which the old settlers of New Mexico made their fortunes at a time when they were surrounded on all sides by numerous tribes of savage Indians. At this time of profound peace there are no risks to be run. The business is a paying one from the very start. An increase of 75 per cent can be relied upon. The sheep will yield from five to seven pounds of wool each year. If this plan is adopted, in a very few years the poor people who are now being so mercilessly persecuted will be happy and prosperous citizens of the United States. In a movement of this magnitude it is well to move slowly. Bring only enough people at a time as there is land ready to receive them and by careful selection they will soon be self supporting.

# The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation. The cultivation of cannage—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

### That Bond Issue.

Postmaster Gable has received and posted conspicuously in the Santa Fe postoffice Secretary Carlie's circular of January 6, asking for proposals for the new bonds. The issue will be \$100,000 in bonds in denominations of \$50 each. The bonds are to be issued in small denominations in order to place them within the reach of the industrious and provident laboring people of the country, who are looking for safe investment for their earnings.

The secretary of the treasury has prepared and given out for publication a table showing the amount which should be bid for the new 4 per cent bonds, maturing February 1, 1925, in order that the investor may realize any rate of interest between 2 1/2 per cent and 4 per cent per annum.

Every young man in the country who has some money lying idle would do well to invest in these bonds. Investments in these bonds not only serve a patriotic purpose, but place investors in the possession of interest bearing collateral that can always be turned into cash.

If the masses—the people in moderate circumstances—will invest their idle cash in these bonds it will not be necessary to send one of them out of this country. It would be an eye-opener for Europe to see this government placing \$100,000,000 worth of its bonds with its working citizens.

### Mr. Catron's Photograph.

"Bob" Gortner, formerly of Goshen, is located in Washington for several weeks. Mr. Gortner is a bright young gentleman who holds a position in the law office of a Mr. Catheart, of New Mexico. Mr. Catheart represents his territory in congress and is a Republican. Mr. Gortner, who comes from a strong Democratic family, is an enthusiastic Republican.

"Eight years ago," says Mr. Gortner, "when I went to Mexico, I found the best elements of society Republican, and the worst people, such as the Mexicans, Spaniards, half-breeds, etc., were Democrats. My associates were and are now Republicans, and I drifted into that party. I am a firm believer in Republican principles and expect to stay by them."

The above appeared in a newspaper at Goshen, Ind., the other day, where Mr. Catron's clerk, Mr. Gortner, was visiting. Commenting on this Mrs. Olive Ennis Hite writes from Washington to the Albuquerque Democrat as follows:

"And yet Mr. Gortner has returned to that awful conglomeration of 'half-breeds, Mexicans, Spaniards, etc.'—some of whom must have voted for Mr. Catheart (sic) in 4,000 majority he is credited with having piled up in the election that made Mr. Gortner a private secretary. Mr. Gortner not only resigned his very 'plum' as Mr. Catron's clerk, but at this writing is reaching out long hands and casting wistful eyes at the still platter late of clerk to the land court. The heaven of righteousness in the Goshen clipping is that 'Bob' was, most likely, misquoted, for he is anything but an idiot, and he comes of a family strong in the faith he has abjured. The blood is in his veins and he may decide not 'to stay by them.' But these two secrets show how folks get mixed up in their declaration of opinions according to locality."

In the U. S. district court the hearing of the case against S. L. Becheider, charged with timber trespass, is still in progress. The grand jury continues at work, but has reported no more indictments.

The road to the Washington mine, Cochiti district, is so far completed that W. L. Trimble & Co.'s teams began hauling lumber up there to-day. The lumber is for the roofing and partitions of the new lodging and cooking house, which is otherwise completed.

Mr. Wynkoop, of Denver, arrived at Bland a few days ago with a party of Boston capitalists to inspect the Iron King mine. It is currently reported that the eastern gentlemen were much pleased with this fine property, and that an important deal will shortly be consummated, which will bring considerable money to Bland for the further development of the Cochiti district.

Hon. W. J. Bryan, the eloquent Nebraska silver champion, arrived in Santa Fe from Denver on Saturday evening, and remained in the city over Sunday. Many residents and visitors in the city availed themselves of the opportunity to pay their respects to the distinguished gentleman at the residence of Gov. Thornton night before last. He made a most favorable impression upon all who met him. Mr. Bryan left for Roswell last night to fill a lecture engagement.

Col. F. W. Bliss, in charge of the military school at Macon, Mo., accompanied by a trio of handsome ladies and several friends arrived from the east in the private car "Cleopatra" Saturday night, and have spent two days here sight seeing. In the party are Dr. E. B. Clements and wife; Mrs. E. McKee, Miss Jennie Barclay and Messrs. Lloyd McKee and Raymond Frey. They are bound west for a tour of California.

There must have been a war scare at the national capital yesterday. This morning the local representative of the Denver News received a wire asking if Gov. Thornton had received any communication from the war department or from the president in reference to the number of militia New Mexico could place in the field in the event of war. No inquiry of this nature had reached the governor up to 2 p. m.

At Miss A. Magler's, winter millinery and wraps at cost.

Ladies who desire to learn more about Vinvi, and how by its aid you can cure yourselves, will find me at home, near Santa Fe depot, on Wednesdays and Thursdays. Mrs. W. B. Sloan, local agent.
