NATIONAL CAPITAL BUDGET

Senate Committee on Privileges and Elections will Report in Favor of Seating Powder King Dupont.

VILAS VIOLENTLY ASSAILS THE ROCKIES

So-Called Silver Bond Bill will Be Voted on in the Senate To-morrow—Hill's Fight on the Measure—Receipts and Expenditures.

Washington, Jan. 31.—The senate committee on privilege and elections to-day decided to report in favor of seating Dupont, Republican, as senator from Delaware. The committee divided on strict party lines, being five for and four against.

THE HOUSE TO-DAY.
The house adopted the election committee's report on the contest of Roosevelt, Republican, vs. Crowley, from the 10th Texas district, seating Crowley.

Representative Bartlett, of New York, has introduced a joint resolution authorizing the construction of six new battleships to cost not more than \$3,800,000 each exclusive of armament for which \$5,000,000 is appropriated.

Argument in the Stanford case, involving the liability of the Stanford estate for Central Pacific bonds, was concluded in the United States supreme court yesterday and the case taken under advisement. There is no probability of a decision before the beginning of the March term of court.

Senator Baker has introduced an amendment to the silver bill before the senate providing that any person who takes gold or silver to the mint to be coined shall take an equally valuable amount of the other metal and have both coined. The amendment sets forth that the purpose is to secure the parity of the two metals.

AN AMERICAN MISER.

Lived and Died Like a Pauper in Paris—Quantities of Money, Checks and Securities Found Among His Effects.

Paris, Jan. 31.—An American miser, who fell to a fit recently while walking along the Boulevard de Capines and was taken to his lodging, where he died, was, it now appears, named Peters.

Peters, a miser, lived in a poor apartment for twelve years. In a pocket of his coat was found an envelope containing papers, among which was a check for \$20,000.

In the miser's domicile French bank notes and American securities were found valued at \$800,000 francs.

AMERICANS IN SOUTH AFRICA

Senator Jones Asked to Help His Countrymen in Jail at Pretoria Out of Trouble.

TRANSVAAL GOVERNMENT DENOUNCED

Foreigners Imprisoned, Their Property Confiscated without Cause—Alarming Stories Afloat Regarding Affairs at Johannesburg.

Chicago, Jan. 31.—A dispatch from Washington says: Senator John P. Jones has received a message from John Hays Hammond, in jail at Pretoria, South Africa, explaining the unjust treatment of foreigners in that country, and continuing: "In December, leading citizens of Johannesburg, including all the prominent Americans, constituted a reform committee to obtain constitutional redress and issued a manifesto of their demands, having first hunted the Transvaal flag and sworn to maintain the integrity of the republic. While the agitation of these questions of constitutional reform was in progress, the Jameson incident occurred. It was quite disassociated from the reform movement.

"The demands of the government were carried out without any demonstration of violence on our part. Nevertheless many prominent Americans and others, numbering sixty, were arrested and prosecuted for sedition and treason under penalties involving imprisonment and confiscation of property, valued at a million sterling.

"The detention of all the prisoners is unjustifiable and the confiscation of property monstrous oppression. Ask our government to urge on the Transvaal government that the demands of the reform government committee were reasonable and based on the primary principles of the republic.

"Protest against the treatment of all Americans in particular. If the Transvaal government persists in its present course, our government can only invoke the aid of Great Britain as paramount in South Africa to coerce Transvaal, which then forfeits the moral right of a sister republic. This course Transvaal would fear.

"First, urge the reasonableness of our claims; then warn the Transvaal government of the consequences of the loss of support and invoking the aid of Great Britain, which is much disliked by Transvaal government."

SITUATION IN TRANSVAAL.
London, Jan. 31.—In view of the alarming stories afloat regarding the situation at Johannesburg, the secretary of state for the colonies, Joseph Chamberlain, has ordered the British agent at Pretoria to go to Johannesburg and report the true situation of affairs to the colonial office.

Important Venezuelan Documents.
New York, Jan. 31.—A dispatch to the Herald from Caracas says: Antonio Fernandez, president of the state of Falcon, has telegraphed that in the archives of Coro, the capital and the oldest city of Venezuela, has been found a map published in London in 1794, in which the limits of British Guiana are given about as Venezuela asserts it is right.

An Educated Monkey.
New York, Jan. 30.—Before several persons at the Arsenal, in Central park, yesterday afternoon, Johannes, the educated chimpanzee, gave an exhibition of drawing and letter writing. The entertainment was under the direction of Keeper McKay and Assistant Director George R. Burns.

SUICIDE OF A BANKER.

Rome, N. Y., Jan. 31.—Hon. George Barnard, cashier of the Fort Stanwix National bank of this city, committed suicide to-day. The bank has been closed pending an investigation.

A FORGER SENTENCED.

New York, Jan. 31.—Paul Brigham, who pleaded guilty to forging a certified check on the Columbia National bank, of Washington, by which the Lincoln National bank, of this city, was swindled out of \$6,500, was to-day sentenced to five years in the penitentiary.

OVERDOSE OF CHLORAL.

Third Son of Gen. Newton Takes the Drug for Nervousness with Fatal Results.

New York, Jan. 31.—August M. Newton, third son of late Major General John Newton, one of the most distinguished engineers of the age, died last night from an overdose of chloral.

Newton was one of the engineers who built the Harlem river speedway. After thousands of dollars had been spent, it was discovered that the railway was sliding into the river.

He preyed a great deal upon Newton's mind and made him nervous, for which he took chloral.

Mullivan Reported Better.
Springfield, Ill., Jan. 31.—John L. Sullivan rested well last night. The doctor hopes to have him out of bed in a week.

NEW MEXICO NEWS.

Prof. Cookrell says that the San Jose seal is spreading in the vicinity of San Marcial.

Messrs. Neill B. Field and W. B. Childers, the Albuquerque attorneys engaged in the litigation over the management of the Atlantic & Pacific, have returned home from California.

Work started in earnest this morning on the Ulysses mine in the Prairie camp. The injunction suit against the Delgado party working the property has been compromised, he taking an interest and having charge of the developing force.

Several San Pedro teams are hauling ore for the Guadalupe Gold and Copper company from the San Rafael mine to the Cordero smelter at Golden.

The furnace will probably be blown in to-day. There are several tons of coal and about thirty-five tons of ore on the ground now.

Edward Dodd and John S. Trimble, who left a few days ago for the Cripple Creek mining district, Colorado, returned to the city last night. They speak in glowing terms of the above district, but state that the camp is overcrowded with people and some of them are in bad condition, financially—Albuquerque Citizen.

The Las Cruces Independent Democrat reports: About two weeks ago Adam Besset's children, at the Molano mine, were playing a rough-and-tumble game, and one of them, a boy 6 or 8 years old, fell or was thrown against a piece of furniture with considerable force.

A week ago last Monday, the little fellow died, and it is supposed that the cause of death was internal injury resulting from the fall.

James H. Wroth, grand master Mason of the territory, came down from Roswell Thursday, where he had been on lodge business, and met with the local lodge of this place. The officers recently elected were installed, followed by a banquet in the lodge rooms.

WHITE METAL'S CHAMPION

Ex-Congressman Bryan, of Nebraska. Eloquently Discusses Bimetallism Before a Santa Fe Audience.

A CAPTIVATING AND CONVINCING EFFORT

Widespread Ruin and Misery Among the Inevitable Results of Gold Monometallism—Free and Unlimited Coinage Must be Restored.

Ex-Congressman W. J. Bryan, of Nebraska, was greeted by one of the finest audiences at the court house last night that ever assembled in the capital city of New Mexico. Every seat was occupied by an attentive and eager listener and many persons were glad to occupy standing room during the nearly two hours and a half that the distinguished and eloquent champion of the shining white metal occupied in flooding his momentous subject with the three-fold light of truth, reason and common sense.

At the outset it may truthfully be remarked that Mr. Bryan's wide reputation as one of the most captivating, convincing and powerful orators in the nation is substantially founded. He proved this to the satisfaction of all who had the good fortune to be among his hearers last night.

From the moment the speaker was introduced, in glowing and appreciative language by Mr. E. T. Webber, president of the local Board of Trade, until he concluded his grand peroration, he held his audience spell-bound, and many went away expressing surprise that they had listened so long and declaring that they could have sat under the charm of his musical voice and masterly art in the management of an intricate argument for hours longer without weariness.

His highest tribute can possibly be paid to a public speaker who has so thoroughly studied the subject and gained many fresh ideas touching the same. The specious fallacies of the gold-bugs were held up in their true light and their utter selfishness exposed with as little mercy as the "idle owners of idle capital" exhibit in exacting interest from their unfortunate debtors.

The speaker's efforts have been made to cloud the subject with mystery by fallacious and impossible definitions of the word "bi-metallicism" were referred to with telling effect as illustrating all the methods adopted by the gold standard advocates to mislead the public mind.

He said that the world is perfectly plain. It simply means the free coinage and free use of two kinds of metal money in all business transactions without discrimination in favor of one or the other.

Since the beginning of the world gold and silver had been set apart for the purposes of use and exchange, and the standard money of the United States constitution; they were the standard money metals recognized in all the party platforms, and no one in this country had dreamed of disputing their legitimate place as such until after the stealthy demonization of silver by congress in 1873, when a silver dollar was really worth more than a gold dollar.

Since then the creditor class had been engaged in a gigantic and conscienceless conspiracy to drive silver out of the monetary system of the world, and to make gold the sole measure of all values, well knowing that the success of this conspiracy would deprive the people of the use of half their measure supply of primary money, would make money just that much more difficult to obtain and hence largely increase its value, would immensely enhance the bonds, mortgages and other obligations held by the creditor class, would make interest and taxes (unchangeable quantities in the problem) just that much harder to pay, and at the same time would correspondingly decrease the money value of all the products of the farm, the orchard, the dairy and the mine.

Highest of all in Leavening Power.—Latest U.S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

VICTOR OCHOA INSANE.

A Noted Character Now in an Asylum—Gene Daft on Aerial Navigation.

Victor L. Ochoa, formerly well known in these parts, and who was sent to the Kings county penitentiary for a violation of the neutrality laws of this country, has invented a swift aerial warship. A Washington dispatch says:

"President Cleveland and Secretary Hoke Smith have received an interesting communication from Victor L. Ochoa, a federal convict in the Kings county, N. Y., penitentiary. He has an aerial machine which he wishes to dispose of, and to give this government the first chance to secure it. His letter to the president did not reach that official, but was referred to the commissioner of patents, who did not pass favorably upon it because its practicability had never been proved.

Ochoa stated that, as he is serving a three years' term in the penitentiary, he has no opportunity of testing his machine, but if given a chance he will show that it will work successfully, in which event, he thinks, he should be given his liberty.

He makes known his idea at this time, because of the belligerent attitude of the United States toward Great Britain. He wants the attention of congress called to his invention, and states that it will do away with battleships. He asserts that his machine will go from 100 to 300 miles per hour and carry more than double its weight.

"He wants \$25,000,000 for it, and thinks this an insufficient sum, but says half a loaf is better than no bread."

"Ochoa was received at the Kings county penitentiary a week ago, having been sent on from the west to serve a three years' sentence. He was found to be insane and early in the week was transferred to the asylum at Arlington Heights, where the government keeps insane convicts."

"Ochoa has no model of his air ship and his designs, which he completed during his short stay in the Kings county prison, were crude."

The Pugs.
Dan Stuart sticks to it. "I have no idea of trying to pull off any fights on New Mexico soil," said he to the El Paso Times.

It is said that 200 Pullman sleepers have already been engaged to carry people to El Paso for the cattle arrival.

Combination cards from which to select the winners in the first four fights are circulating about town. No. 10 is the popular call, Fitzsimmons, Wolcott, Leeds and Dixon.

The impression prevails here that the fights will take place in the bull ring at Juarez. However, if the managers should be barred out there they can, according to the opinion of their legal advisers, fight in New Mexico unmolested by either the U.S. or territorial authorities.

But the Dona Ana county authorities are on the alert and have taken steps to make it an interesting test case should they invade this territory.

At Miss A. Mugler's, winter millinery and wraps at cost.

Mother Francisca Lamy, Superior.

GOOD FOR EVERYBODY

and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the Liver active. You must help the Liver a bit, and the best helper is the Old Friend, SIMMONS' LIVER REGULATOR, the RED Z.

Mr. C. Himrod, of Lancaster, Ohio, says: "SIMMONS' LIVER REGULATOR broke a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need, and recommend it."

Be sure that you get it. Always look for the RED Z on the package. And don't forget the word REGULATOR. It is SIMMONS' LIVER REGULATOR, and there is only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE REMEDY. Take it also for Biliousness and Sick Headache; both are caused by a sluggish Liver.

No display advertisements accepted for less than \$1 net, per month.
No reduction in price made for "every other day" advertisements.

FRIDAY, JANUARY 31.

Democratic Call.

HEADQUARTERS DEMOCRATIC Territorial Committee.
Santa Fe, N. M., Jan. 22, 1896.

Whereas, A written request has been filed with us, signed by several members of the committee, for a meeting of the whole committee in the near future; and
Whereas, There are several important matters which the interests of the party demand should have speedy and careful consideration by the committee; and
Whereas, The time is rapidly approaching when in the near course of party practice a meeting of the committee would be necessary to authorize a call for a territorial convention, and to apportion the county representation thereof, for the election of six delegates to the national Democratic convention, to be held at Chicago on July 7, next;

Therefore, by virtue of the authority in us vested by the rules and regulations of the committee, a meeting of the Democratic territorial central committee of New Mexico is hereby called to be held, at its headquarters in the city of Santa Fe on Wednesday, the 5th day of February, at 11 o'clock a. m., then and there to provide for the holding of a territorial convention of the party for the above named purpose, as well as to consider all other business which may come before it within the purpose of its existence and scope of its authority.

J. H. CHERRY,
Chairman.

RAFAEL ROMERO,
Secretary.

RECEIVER SCHOFIELD'S success in settling up the accounts of the defunct Folson bank ought to make the receiver of the Dane banks turn green with envy, but it won't!

We trust that matters will be amicably arranged before hand so as to avoid any outbreak of hostilities when Col. Hughes, of the Citizen, and Col. Kistler, of the Optic, meet in Santa Fe on February 22.

If the Albuquerque Citizen really has "trustworthy information" to the effect that Speaker Reed did not denounce the aspiring new states, it should not withhold the same from an anxious public. Produce your authority, Col. Hughes.

GEN. WYLLER will show no mercy to the Cuban insurgents. The Cubans, by the way, are great believers in reciprocity, and so there will be some interesting developments down there. The Cubans reciprocate after a fashion of their own—largely with machetes.

We have been fearful all along that Venezuela would do something rash. What does she mean now by this boycott of English goods? Does she not know that John Bull will not endure an attack upon his pocket? That is a twist nobody can put in the lion's tail.

A GREAT many delinquents are now being carried on the New Mexican's account books. All such are earnestly requested to make a settlement. This is business. Your attention, dear reader, is called to this fact now in hopes that you may find it convenient to act before such accounts have been handed to an attorney.

THINGS must be looking all right in Missouri. That rank goldite organ, the Kansas City Star, observes: "The time was when a Democratic state convention in Missouri amounted to something and was worth striving for. But that day has gone by. Under the circumstances, there is nothing for Sedalia to jubilate over or for Jefferson City to cry about."

The Philadelphia American, a strong advocate of the protective tariff principle, strikes from the shoulder in dealing with those who now pose as national leaders in the Republican party. We quote from the American elsewhere. The article will repay perusal as indicating that decided spirit of unrest which now prevails in one of the Republican strongholds.

Tax continued discoveries of gold are, according to a gold paper, solving the silver problem. The output of gold has really nothing to do with the silver problem. The product of the two metals varies during periods, but is the long run maintains about the same relation to each

other. There is no such excess of gold now as was shown between 1850 and 1870.

So it seems the weary pugilist has no where to rest his jaw. The Texas rangers have lined up on the east side of the Rio Grande and Diaz has ordered 500 Mexican soldiers to bar the fighters out of Mexico. It is significant that all this should so soon happen after the El Paso Preachers' union had given away the snap that New Mexico has no statute that classes prize fighting a crime. The Hon. D. P. Carr called attention to this fact at the last legislative session, but most of the members were too busy putting up jobs on their betters to heed Corporal Carr's appeal.

When the late Senator Hearst, of California, made his son, W. R. Hearst, a present of the San Francisco Examiner, he probably did not dream that he was doing something that would ultimately revolutionize the journalism of New York as well as that of the California metropolis. But such has been the result of directing the superb talents, energy and enterprise of young Hearst into the journalistic field. Besides conducting the Examiner in such a way as to gain it wide celebrity as easily the greatest newspaper of the Pacific coast, Mr. Hearst has rescued the New York Journal from comparative obscurity and in a few months gained it recognition as the peerless newspaper of the American metropolis. Money and brains were never better employed than in the production of this wonderful newspaper, which makes no idle boast when it affirms that it prints all the news at half the cost of any other paper claiming to print all the news.

PRESS COMMENT.

Political Cowardice.

Within six months both Republican and Democratic parties will be called upon to name their candidates for president, yet neither party has any definite policy. The assumed leaders of the Republican party announce no policy. In congress, Messrs. Reed and Allison have assumed a roll of inaction; outside of congress Messrs. McKinley and Harrison give no expression of their views and shrink the responsibility of leadership. As to the position of the aspirants for the Republican presidential nomination on the great question before the American people, the question to which all others are subordinate, the country is in the dark. Those who are making the greatest efforts to secure what they seem to regard in the light of a prize only, ignore the question, avoid, when possible, giving any expression of their views, if indeed they have any, when confronted with the question take an equivocal position or give a meaningless answer capable of any interpretation which in the future they may think wise to give it, and in all things, subordinate principle to what they consider to be political expediency. To lead they make no effort. The responsibility entailed with leadership, of proposing or advocating a definite policy such as will lead to a restoration of prosperity they shun. Their one aim seems to be to do nothing that can alleviate any section of voters in the party. Looked on purely as a game of politics they are pursuing a mistaken policy. Inaction, vacillation, cowardice, does not win popularity and gives anything but strength to a candidate. The candidate who takes an equivocal position on any great question, runs the risk of alienating his friends, and he can not hope to win thereby the support of his enemies. Such a candidate may thereby, and by promise of political preferment in the event of success, win the nomination from a convention of politicians, but such a candidate can not have strength before the people.

When the opportunity was presented to the Republicans in congress by the president's financial message to announce a definite financial policy, a policy around which the suffering masses of the people would have rallied, and made Republican victory in the coming campaign assured, Republicans in the house, under the lead of Mr. Reed, failed to take advantage of the opportunity. On the contrary, they avoided the issue, they shunned the responsibility, they announced no policy and took an equivocal position. They expressed their opposition to a contraction of the currency by the retirement of the greenbacks and treasury notes, yet they gave their approval to legislation that contemplates their virtual retirement by hoarding in the treasury. They avoid any expression in favor of the gold standard, they insisted on making the bonds, the issue of which they unwisely approved, payable in coin, but they gave no indication of taking, as a party, positive and independent action looking to the restoration of silver. Finally they passed a tariff measure by which they repudiated pledges given before election, and, under the guise of expediency temporarily abandoned the principle of protection and gave their support to a revenue measure. It is true the house but carried out the program of Mr. Reed, but the house must bear with him the responsibility. As evidenced by Republicans in congress, the party lacks a policy, lacks principle, lacks the courage necessary to lead. The cowardice of the assumed leaders, a leadership that the majority of Republicans have not the courage, if they have the inclination, to repudiate, is disrupting the Republican party.—Philadelphia American.

When you write to your friends

who are coming west to visit you just add a postscript like this: Be sure to take the Burlington Route.

G. W. VALLEY, General Agent, Denver.

Athletic Contests—El Paso, Texas, February 14-20, 1896.

For the above occasion the Santa Fe Route will place on sale tickets to El Paso and return at one fare for the round trip, (\$18.40). Dates of sale February 12, 13, 14 and 15, 1896. Final return limit February 22, 1896. Low rates to the City of Mexico and other points in Old Mexico after the contest is over. Call on agents of the Santa Fe Route for particulars.

Santa Fe, N. M.

G. T. NICHOLSON, G. P. A., Chicago, Ill.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.
The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.
Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.
The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.
The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.
Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.
The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Fells section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

Choice Mountain and Valley Lands near the Foot H.Ms

FOR SALE.

For the Irrigation of the Prairies and Valleys between Raton and Springer One Hundred miles of large irrigating Canals have been built. These lands with perpetual water rights are sold cheap and on the easy terms of ten annual payments, with 7 per cent interest.

In addition to the above there are 1,400,000 acres of land for sale, consisting mainly of Agricultural, Coal and Timber Lands. The climate is unsurpassed, and alfalfa, grain and fruit of all kinds grow to perfection and in abundance.

Those wishing to view the lands can secure special rates on the railroads, and will have a rebate also on the same, if they should buy 100 acres or more.

The famous Cold Mining Camps near Elizabethtown and Baldy are thrown open to prospectors on more favorable terms than locations on Government land. Mining regulations sent on application.

Daily, four-horse, covered coaches leave Springer at 7 a. m., except Sundays, for Cimarron, Baldy and Elizabethtown, and leave these points every morning, Sundays excepted, for Springer.

The A. T. & S. F. and U. P. D. & G. railroads cross this property. WARRANTY DEEDS GIVEN. For full particulars apply to

BUSINESS

Men who are shrewd nowadays all use a typewriter for general correspondence and an Edison Mimeograph for reduplication. There are many makes of typewriters, but all the demand is now for those which have the writing

IN SIGHT.

Of these the only machines which have attained prominence are the Bar-Log and Hammond. Both are perfect Mimeograph machines. Price \$100 each. Sent free on one week's trial anywhere in Arizona and New Mexico to any responsible firms.

PINNEY & ROBINSON,

JOBBER OF BICYCLES, TYPEWRITERS AND PHOTO STOCK,

ESTABLISHED 1897.

IN OFFICIAL CIRCLES.

Serious Charges Preferred Against Collectors of Lincoln and Taos Counties—Official Notes.

The board of county commissioners of Lincoln county yesterday formally notified Gov. Thornton that George Sena, sheriff and collector, had not made any settlement of his official accounts since July last and has refused to account for public moneys known to have been collected by him. Also of the fact that his bondsmen had asked to be relieved from future liability, and they ask that said sheriff and collector be removed from office.

The Taos county commissioners have also reported to the governor that the county tax collector there, Bonifacio Barron, is in default since July last; has made no settlement with the territorial treasurer since that date; has collected large sums of money, and refuses to account therefor. They therefore ask his removal from office.

Gov. Thornton has fixed February 6 as the date for hearing both cases, and has notified all parties interested to be present. Upon the showing then made will depend future action.

OFFICIAL NOTES.

The U. S. court of private land claims will open a session at Tucson, A. T., on February 17, and will hold another session at Santa Fe in March.

The governor has appointed William Crane, of Coolidge, Valencia county; Arthur W. Hand, of Carlisle, Grant county; Cristoval Sanchez, of Ocate, Mora county; George D. Allen, of Las Vegas, San Miguel county, and J. R. Hudson, of Santa Fe, as notaries public.

The Co-operating Exchange & Manufacturing Association has filed articles with the territorial secretary reciting the following particulars: Incorporators, E. E. Park, W. J. McConnell, T. A. Stone, and W. H. Stephens; objects, establishing a community business for mutual benefit; capital stock, \$500,000; life, fifty years; directors, E. E. Park, W. J. McConnell, J. A. Buchanan, T. A. Stone, of Dallas, P. G. Bradford and F. P. Gayle, of Roswell; principal place of business, Dallas, Texas.

ROUND ABOUT TOWN.

Cartwright & Bro. are loading several teams to-day with provisions for J. G. Creager, merchant at Bland.

U. S. weather bureau forecast for tomorrow for New Mexico: Generally fair, cooler to-night and Saturday.

Free coinage is the chief topic of carstone discussions to-day. Mr. Bryan made many converts last night to the free coinage idea.

The prospect now is that the trial of the Biggs timber trespass case in the U. S. district court will not be concluded before the middle of next week.

Mr. Geo. H. Marshall, of the U. S. marshal's office, who suffered a stroke of paralysis on Wednesday, is reported somewhat better than yesterday. He is still at the St. Vincent.

A visitor from Las Vegas says another strike of gold bearing rock has been made five miles east of town and much interest is manifested therein. The vein, it is said, can be traced for five or six miles, and many citizens have gone out and located claims.

J. W. Akers, who returned yesterday from a trip to Dona Ana county, says C. B. Eddy's new railroad will open up a magnificent section of mining country. He will shortly again visit the west slope of the Organ mountains to examine a number of claims with a view to purchase. Judge A. B. Fall and his associates are largely interested in mines in that locality.

Parents whose children have whooping cough should see to it that their little ones are kept out of school until well over it, and if they fail to do this the teachers should act, otherwise the city

board of health may be called upon to exercise its proper authority. Already the mothers are on the verge of a panic and many will be forced to take their children out of school unless those known to be afflicted with the cough are not kept at home, where they most certainly belong under such circumstances.

The entertainment at St. Francis hall to-morrow night will consist of a beautiful comedy, a musical selection played on bottles by Mr. Nocco (a) Tuche, a vocal selection from "The Mascot," entitled, "El Duo de Los Pavos," by Mr. and Mrs. Nocco, and a dance for all who attend. It should be well attended. These entertainments are for the purpose of raising funds to pay for the uniforms, which have already been ordered, and are expected to arrive here in a few days.

The one seventy-sixth interest in the Mora grant, recently conveyed by C. H. Gildersleeve and wife to A. L. Richardson, of Boston, was sold by A. B. Renehan, special master, yesterday at Las Vegas under a decree obtained in the San Miguel county court by J. G. Schumann and J. B. Lamy, of this city, upon a mortgage held by them upon that property of date prior to the conveyance to Richardson; and, at such sale, the property was purchased by Mr. L. Spiegelberg, of New York.

Eruptions on the Skin.

Fort Wingate, N. M., Dec. 20, 1895.—"My little daughter who had eruptions on the skin and body looked as though it was blistered. I have been giving her Hood's Sarsaparilla and she has taken several bottles and is now almost entirely cured. The doctors said she would need a change of climate, but Hood's Sarsaparilla has made this unnecessary." J. T. Freeman.

Hood's Pills cure all liver ills.

AMONG THE RAILWAYS.

Retrenchment on the Santa Fe—A. & P. Reciprocity—New Train Schedule—Rail Notes.

A change of train schedules takes effect on the A. T. & S. F. on Sunday, making slight changes in and out of Santa Fe. The morning train for the west to connect with the California flyer will leave here at 8:30 instead of 8:15, returning to bring the eastern and northern mail at 10:55, instead of 10:20. The train going east to connect with the Chicago limited will leave here at 10:05, five minutes later than at present, returning here as now at 1:20. No change occurs in the movement of night trains.

By the A. T. & S. F. order, referred to in these columns yesterday, four offices were abolished and the jurisdiction of other officials changed to meet the demand of the directors that expenses be curtailed. This change extends the jurisdiction of Gen. Supt. H. U. Dodge from Dodge City to Denver and south to Albuquerque and to El Paso and over the Silver City branch. The offices of western grand division superintendent, assistant superintendent of the Chicago division, general road master of the Chicago division and general road master of the eastern division are all abolished. Charles Dyer, who has been superintendent of the western grand division, will now be superintendent of the western division from Dodge City to Denver. C. B. Stroh, who has been assistant superintendent of the Chicago division, will now be train master at Chillicothe, Mo., the present train master being reduced to chief dispatcher.

The A. T. & S. F. advises Agent Lutz that its new pamphlet on health resorts in New Mexico is in press and will be issued at an early day. The circulation of this publication at the east ought to result in attracting a large share of western tourist travel to New Mexico this summer.

It is again reported that J. W. Hanna, of Colorado, has sold the bonds necessary to construct the Albuquerque & Durango railroad. It is singular, however, that Hon. H. B. Ferguson, who is one of the promoters of this enterprise, is not interviewed on the subject by the Albuquerque press. As for Mr. Hanna he has yelled "wo!" too often to be entirely reliable.

Messrs. Z. T. White, S. H. Buchanan, J. P. Dieter and A. P. Coles, of the White Oaks railroad subsidy committee, were out yesterday doing good work. During the day they secured subscriptions amounting in the aggregate to about \$15,000.—El Paso Times.

Mr. C. W. Smith, the new receiver for the Atlantic & Pacific road, will assume control of the property to-morrow. It is now admitted on all sides that the A. & P. as well as the St. Louis & San Francisco are to follow in the foot steps of the Colorado Midland and be severed entirely from the A. T. & S. F. management.

Speaking to this text a New York press dispatch says: "The point now is to determine how far the A. T. & S. F. will be hurt by being left alone. The capitalization will, of course, be reduced, but its mileage will also be reduced. It has excellent territory and advantageous lines. Skillful management will give it a place among the best systems, in spite of drawbacks, if applied at once, some financial experts say."

This forebodes many changes on the Santa Fe. Economy will be the watchword of President Ripley.

C. W. Kennedy, a member of the territorial board of equalization, was stricken with paralysis at Gallup the other day and soon after taken to his home in Albuquerque, where he seems to be steadily regaining his health and strength.

On and after February 1, I will sell milk at 14 quarts for \$1; 26 pints for \$1; in quantities of 1 gallon or more, 26c per gallon; cream, 60c a quart.

OJO CALIENTE
(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 95 to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 100.34 grains of alkaline salts to the gallon; being the richest Alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. For further particulars address—
