FOUR THOUSAND PERISHED

News of Another Dreadful Tidal Wave in the Orient Has Reached Shanghai.

VILLAGES AND RICE FIELDS SUBMERGED

Fearful That a Famine Will Follow—Report Rife in Madrid That Spanish Troops Won a Decisive Victory Over Cuban Insurgents.

Shanghai, Aug. 1.—News of a terrible disaster has just reached here. A tidal wave estimated to have been about five miles in length, swept in from the sea on Sunday last and inundated the coast of Hayehon, province of Kiang Su. Many villages were destroyed and it is estimated that at least 4,000 people were drowned. An immense number of cattle perished and the rice fields were submerged. A famine is feared in the district the coming autumn.

Spanish Victory Reported in Spain.

Madrid, Aug. 1.—A column of Spanish troops under Rodriguez, it is announced, defeated the Cuban insurgents under Arvelo in the Cienfuegos district, province of Santa Clara. Arvelo and forty-seven of his followers were killed.

A LOSS TO THE INSURGENTS.

Havana.—The death in battle of Juan Bruno Zayas, the well known insurgent leader, is said to have been a great blow to the insurgents' cause, as it is regarded in some quarters as impossible to fill his place. It was he who raised the insurrection in the province of Santa Clara.

Daring Swedish Navigators.

London, Aug. 1.—The row boat Frank Harbo and George Samuelson, who started from New York on June 6, with the intention of rowing to Havre, France, arrived off the Sicily islands to-day. Both occupants of the small craft were in good health.

INTERNATIONAL LABOR CONGRESS.

London.—The international socialist labor and trade congress to-day adopted the report of the economical industrial commission reaffirming the resolutions of the Paris congress of 1889, including those in support of eight hours for a day's work, abolition of child labor up to the age of 16, prohibition of night work in all trades where there is no necessity for it and the abolition of a tariff on articles of consumption.

Death Sentences for Cattle Stealing.

South Mead, I. T., Aug. 1.—The Indian court, sitting at Wetumka, has sentenced two men to death for cattle stealing and others to undergo the whipping post for similar offenses.

Murdered a Choctaw.

Atoka, I. T., Aug. 1.—Deputy U. S. Marshal James H. Thompson has left for Paris, Texas, with fifteen prisoners, all Frenchmen from Lehigh, charged with the murder of Bud James, a Choctaw Indian, at Phillips, I. T., on Saturday night.

Storms in Iowa and Ohio.

Ottumwa, Iowa, Aug. 1.—Two and sixty-six hundredths inches of rain fell here last night, accompanied by wind and hail. Much damage to crops is reported. At Ainsworth, Keosauqua and other points in Keokuk county houses and crops were blown down and stock killed by lightning. Cincinnati.—A heavy rain storm with some hail struck that city about 12:30. Several buildings were unroofed.

THE GRIM DESTROYER.

Sudden Death of a Prominent Philadelphia Woman—An Ex-Department Commander, G. A. R., Passes Over.

Bar Harbor, Me., Aug. 1.—Mrs. Josephine Widener, wife of P. B. Widener, who with a party arrived here yesterday on the big steam yacht Josephine from Philadelphia, was found dead in her state-room this morning. Mrs. Widener, who was 60 years old, complained of sickness on the trip and yesterday was attended twice by a physician, but was in a comfortable condition when she retired last night. Dr. J. M. Taylor says death was due to heart disease.

GRAND ARMY MAN DEAD.

Cedar Rapids, Iowa.—Mason P. Mills, ex-commander of the department of Iowa, G. A. R., one of the most prominent lawyers in the state, is dead, aged 53.

DIED OF PARALYSIS.

Rochester, N. Y.—W. P. Bolden, D. D., secretary of the International Missionary union, died of paralysis at Olifton Springs to-day.

DEATH OF A FORTY-NINER.

Block Island, R. I.—Nicholas Bell, proprietor of the Ocean View hotel, is dead, aged 68. He went to California in 1849, acquired considerable wealth, traveled extensively and was the author of several books.

Doubtless Time Will Tell.

New York, Aug. 1.—No one at R. T. Wilson's residence would say this morning whether the wedding of Miss Grace Wilson to Cornelius Vanderbilt, Jr., would take place to-day or not.

RIOTING AT CLEVELAND.

Brown Hoisting Company Fails to Keep Faith with Its Employees and More Bloodshed Results.

Cleveland, Aug. 1.—Another riot occurred at the Brown hoisting works at noon to-day. One man was fatally shot. The strike there was declared in force again to-day. All the union men employed at the Brown hoisting and conveying works again struck this morning and a boycott against the company was declared. It is claimed that the Brown company failed to keep its agreement and reinstate strikers and that a number of new hands have been employed since the strike was declared off.

At noon to-day, while the union men were being escorted from the works by the police, a tremendous crowd gathered, hooted and threw stones. The police resolutely charged the crowd and made numerous arrests, but were unable to disperse the mob.

John Prince, a union man, employed in the Forest City foundry, was shot by an unknown non-unionist and will probably die.

NATIONAL POLITICS.

FALLING INTO LINE.

Washington, Aug. 1.—There are some evidences that the "gold craze" is abating in the east. The eastern "gold lunatics" are still noisy and aggressive, but they are not as numerous as they thought they were. The Democratic bolters seem to be confined exclusively to the kind of gentlemen whom Bourke Cochran described in his great speech at the Chicago convention in '92 as men who always insist on having a seat on the platform. There are several of them in Boston, Baltimore, Philadelphia and New York. They are not numerous in the country regions, according to all accounts. Many old Democrats who were angry on the spur of the moment with the action at Chicago are falling into line.

Senator Faulkner, of West Virginia, the chairman of the Democratic national congressional committee, whose hand is at the present time on the pulse of the public sentiment of the country, is sanguine that there will be a Democratic tidal wave. Conversing with a correspondent on the trend of the contest, Senator Faulkner said:

"Many Democrats observe with gratification the fact that eastern bankers are restoring the gold reserve and obviating the necessity of a bond issue, but at the same time they are asking the question why such action was not taken upon former occasions when a crisis occurred and past issues thus prevented. They realize the fact that the eastern bankers are coming nobly to the rescue of the treasury, but it is from a consciousness that if they did not, and another bond issue should be necessary, Mr. Bryan would be placed in the White house without the slightest effort and by a crushing majority. They also ask the question, will these bankers come to the rescue of the treasury again if Mr. Bryan is not elected? The answer that suggests itself is that they probably will not.

"The fact is, the question of bond issues by the government in time of peace is having more force in this campaign than anything else. The people are aroused upon that subject. The financial question is to be the issue between the two parties. It is no use to try to dodge this fact, and any man proposing to talk in the campaign, whether upon the stump or in committee work, who takes the tariff as his subject will not receive an audience. The people want to talk about money; they want to hear about it, and those who have not already made up their minds desire to be instructed.

"Ex-President Harrison realized this when he said a few days ago that the tariff was on the side track. The Democratic party has not made the issue between aggregate wealth, corporate influence and the masses of the people. That issue has been made by thirty years of legislation in the interests of capital and wealth and corporate influence, which is controlled by wealth. Neither should it be said that the Democratic party is arrayed against wealth and capital. It only takes the position that wealth and capital should be placed upon the same plane as the interests of the people, and should share with them without advantage or without prejudice the benefits of legislation."

Senator Faulkner continues to receive great quantities of applications from the eastern states for free silver literature. He says that the free silver sentiment is sweeping through the laboring classes in the east. Up to this time the congressional committee has confined itself to sending out documents and campaign literature to individual applicants. In a few days the committee will take up the task of supplying the state central committees with literature in bulk. Orders are now being placed with the printers for this class of matter and the committee will commence in a short time distribution.

Senator Faulkner is confident that Delaware will support the Democratic ticket and platform. He says that two out of three counties in that state are permeated with silver. Moreover, it is likely that the factional fight among the Republicans in Delaware, the contest between the Higgins and Addicks factions, will put the finishing blow to Republican prospect of success.

Senator Faulkner has advice from reliable sources in Michigan which lead him to believe that the state will be carried by the Democrats by an overwhelming majority in November. He will not be surprised if every congressional district in Michigan is represented by a Democrat in the next congress. The Republicans are badly split over the money question, about half of them being in favor of free coinage. There is a gold sentiment among the Democrats of Michigan, but there is no hint of a bolt.

CONSTRUCTION WORK.

The Rio Grande, Sierra Madre & Pacific Railroad to Be Built.

El Paso, Texas, Aug. 1.—About a hundred head of horses and the paraphernalia of a large grading outfit were sent across the river from this city yesterday by the Sierra Madre Construction company to begin work on the Rio Grande, Sierra Madre & Pacific railroad, to run from Juarez, Mex., to Maritzan, on the Pacific, via Corralitos and Guerrero. The Sierra Madre Construction company has put up the money to build the road from Juarez through the rich Corralitos mining country to Guerrero, a distance of about four hundred miles.

ELIZABETHTOWN MINES.

The Lynch Placers Held for \$155,000—A Gold Brick from the Big Ajax Property.

W. H. Ferris, of Elizabethtown, N. M., brought up a gold brick yesterday, weighing 59 ounces, and valued at about \$1,250, the result of two weeks' run on the Golden Ajax mine, located on Old Baldy mountain, near the new mining district of La Belle, about fifty-five miles west of Springer. "We have seventy-six feet of tunnel," said he, "and have not yet reached the hanging wall. We are just quarrying the mineral out. We have a 10-stamp mill in operation, the ore running \$2 to \$45 per ton, much of it magmatic iron. The ore is mainly quartzite and sulphide for concentration. No development has been made below the water level and we are not able to tell what is the condition of the property, but we do know that we have a vein which is not less than 450 and perhaps 500 feet wide. There is no difficulty about fixing the value of the district on a conservative basis. Every body that has examined it is satisfied that it is one of the best ever discovered either in New Mexico or Colorado, and if the ore holds out as at present there is no doubt of it. The Lynch placers were purchased by a New York syndicate recently for \$55,000."—Denver Republican.

FORTY-FOUR WERE KILLED

These Four Fateful Words Sum Up the Story of the Jersey Rail Disaster.

RESPONSIBILITY FOR THE ACCIDENT

The Dead Reading Engineer Disregarded the Danger Signal—Such is the Tale Told by the Automatic Arrangement.

Atlantic City, N. J., Aug. 1.—The number of persons killed in the accident on Thursday night was forty-four. Forty bodies have been identified; four are unidentified.

The body of Thos. Kelley, of Elmer, N. J., was identified to-day. Several of the injured are still in a critical condition.

Mrs. Frances Fralinger, of Philadelphia, whose right leg was amputated yesterday, is very low and there is no hope of her recovery.

There is much perplexity here over a dispatch from Melville to the effect that S. P. Murphy, who has been numbered among the dead from the time of the accident, is alive and well. The body supposed to be his was identified as such by fifteen people.

The impression prevails that the responsibility for the accident rests upon the dead engineer, Edward Farr. There is no dispute that the signal, "Go ahead," was given to the West Jersey excursion train, and if so, the danger signal must necessarily have been given to the Reading train by the automatic arrangement.

The theory is that Farr did not allow up and could not stop in time when he saw the West Jersey train approaching. It is said that he had been laid off two weeks, not long ago, for not making good time and it is supposed that he was trying to make up for this by running at high speed.

Gold Standard Object Lesson.

Cincinnati, Ohio, Aug. 1.—The Emerson & Fisher company, manufacturers of buggies and carriages, assigned to-day to Edward Richie and Lowe Emerson. Liabilities, \$390,000; assets, \$450,000. The failure is attributed to the weakness of firms in other cities with which they had large dealings.

THE NATIONAL CAPITAL.

Paymaster-General Stanton Off on a Western Tour of Inspection—New Envoy to Guatemala.

Washington, Aug. 1.—Gen. T. H. Stanton, paymaster-general of the army, left to-day for an inspection of the paying posts in the west. He is especially anxious to obtain definite information as to the workings of the new method of paying troops. Paymasters are not now sent to different posts, but the money is sent to the post commanders and paid to the troops by the company commanders. The army officers, compelled to handle the money, object to the additional duty.

ENVOY TO GUATEMALA.

The president has appointed Mac Crane, of New York, envoy extraordinary and minister plenipotentiary to Guatemala and Honduras, vice Pierce M. B. Young, who died in New York recently, while on leave of absence.

JULY TREASURY STATEMENT.

A comparative statement of the government receipts and expenditures, issued by the treasury department, shows total receipts of \$29,029,209 in July, and expenditures \$42,088,458, leaving a deficiency for the month and fiscal year thus far of \$13,059,240.

Notice, Bicycle Riders.

Albuquerque, July 27, 1896.

To Wheelmen Everywhere: Gentlemen.—The Cocooning Cycling club, of Flagstaff, Arizona, will conduct its annual run from Flagstaff to the Grand canon of the Colorado river on August 19, 20, 21 and 22, 1896, making the start at 6 a. m. August 19. Two days will be spent at the canon and the return trip made on the 22d.

The distance to the Canon hotel is about seventy miles, and can be made in eight or ten hours. The route is via the Grand Canon stage road, which circles the base of the San Francisco mountains and passes through the great pine forests of northern Arizona.

Owing to the elevation, Flagstaff being 7,000 feet above the sea, the temperature even in summer is low, while the scenery is unsurpassed anywhere on earth.

The Cocooning club has made arrangements to furnish all the necessities, such as board, lodging, etc., at the remarkably low rate of \$10 for each wheelman. The Atlantic & Pacific railroad will place the lowest possible rate effect, and every thing points not only to a pleasant trip but to a triumph of bicycle enthusiasts.

Be a pioneer and join this run, and the impressions gained from a view of the Grand canon will remain until you ride your wheel up the golden stairs. You are invited to correspond with Mr. S. T. Elliott, secretary, Cocooning Cycling club, Flagstaff, Arizona, about other details of the run, and with the nearest agent of the Atlantic & Pacific railroad regarding rates, etc.

By sending your name and address to the undersigned a beautiful illustrated book of the Grand canon will be sent free. Yours truly,

DON A. SWERTZ, General Passenger Agent, Atlantic & Pacific.

A DESPERATE BATTLE.

Conflict Between Sheep Men and Cattle Men in Oregon Results in the Killing of Five Men.

Fossil, Oregon, Aug. 1.—J. M. South brings news of a desperate battle between sheep men and cattle men on Snow mountain, southwest of Canyon City, in Grant county, about a week ago. Three sheepmen and two cattle men were killed. One of the sheep men killed was Ernest Shearer, a nephew of Joseph Shearer. He was driving a band of sheep across the country to the railroad for shipment when attacked by the cattlemen.

New Governor-General. Toronto Aug. 1.—A dispatch to the World from Montreal states that Sir Charles Tupper will succeed Lord Aberdeen as governor general of Canada.

FEES OF FIELD DEPUTIES.

A Decision of the Comptroller of the Treasury that Cripples the U. S. Marshal's Office in New Mexico.

The comptroller of the treasury has recently rendered a decision in regard to the fees of field deputies of the United States marshal, which will interest all at that service, and also the various sheriffs and other peace officers of this territory who are sometimes called upon to render service for the United States marshal. By act of congress of August 7, 1882, the marshal of the territory was authorized to charge double fees and mileage, owing to the great expense of travel and of subsistence here, but the decision now rendered holds that the act of May 28, 1896, repeals the act of 1882, and that on and after July 1, 1896, only single fees can be charged.

That will allow the following fees: Mileage, going only, to serve process, 6c; service of warrant or summons, \$2.00; service of subpoena, 50c; mileage, returning with prisoners, 10c; committing and discharging, each, 50c; attending before United States commissioners, per day, \$2.00, of which fees only three-fourths is allowed to a deputy.

As the railroad fare in this territory is from 4 to 6 cents per mile, which of course must be paid by the deputy both ways, going and coming, while a mileage of 6 cents only one way is allowed, this decision will make service almost an impossibility. Overland trips are much worse, as stage fare varies from 10 to 20 cents per mile, and the employment of private conveyance is usually even more expensive.

There is a provision, of course, which permits a deputy to render an actual sworn expense account, instead of charging mileage, but that simply permits the deputy to advance for the use of the government the necessary money for him to travel on and give his time for nothing and get a small fee for the day in which the service was made. His expense account must be rendered every three months and he must carry the government in the meantime and finally run the risk of losing much of the actual expenses by disallowance in the treasury department.

This provision for the rendering of actual expense accounts will not, however, reimburse a deputy for his outlay, for the regulation reads as follows: "For any travel for which a field deputy is entitled to charge mileage, actual expenses, in lieu of such mileage, may be charged if he so elects."

Now take the following case: A deputy is given a subpoena from the U. S. court at Santa Fe to serve at Tres Piedras; he can go and return in two days. He may charge as follows:

Ninety miles at 6 cents.....\$ 5.40

Service of writ.....50

Total.....\$ 5.90

Of this total the law allows him three-fourths, or \$4.42½.

Now his expense is as follows, supposing he walks to and from the depot, and is as economical as possible:

Railroad fare, each way \$3.40.....\$ 6.80

Dinner at Embudo, each way.....1.00

Supper, lodging and breakfast at Tres Piedras.....1.50

Total actual and unavoidable expense.....\$ 9.30

So it is apparent that a deputy can not make the service and charge the legal mileage.

Now, suppose he elects to charge actual expenses. The provision, which allows him to charge actual expenses in lieu of "any travel for which a field deputy is allowed to charge mileage," will of course only permit him to render such account if the expenses going to and from the place of service are going to be the only travel for which he is allowed to charge in the service of a subpoena. After service he gets no mileage and so of course can not charge actual expenses in lieu of a mileage which does not exist.

That, in this case, would leave the deputy stranded at Tres Piedras, having no means of getting home, and so he would some time be allowed back to him, and the ½ of 50 cents, for the service of the writ would be paid him, at the end of the quarter, to recompense him for his valuable services. He could then either remain in the beautiful little city of Tres Piedras or he could walk back to the metropolis. If, however, the party for whom he holds the subpoena chances to be away and cannot be found then there is no provision for either mileage or fees, nor for actual expenses, and the deputy is entirely in the lurch.

In the service of warrants the matter is little if any better, as a deputy may endanger life, spend his money for transportation and board in pursuit of a criminal, and, if he fails to catch him, can get back only \$2.00 per day for the time necessarily spent, whether he paid \$10 per day for team and board, or whatever amount he may have been forced to pay in serving the government.

If he should be successful, however, a close economy might result in his getting fair wages for this service, at the end of the quarter. Accounts for expenses must be supported by vouchers for nearly every item, as the government does not presume that a deputy eats and pays for what he eats, when engaged in his labors, unless he produces a document to prove it. That is, the slip of paper bearing the name of some individual who keeps a restaurant somewhere is considered by the department better evidence than the sworn statement of a United States officer. And, if such officer is unable to procure such vouchers, as is often the case, he pays his own expenses.

Under this decision it is very doubtful if anyone can be found who will accept the position of deputy in the various counties of New Mexico, and that will throw the service of all processes upon the marshal himself and his chief deputy, who are now on salaries, and they can serve papers and advance their own expense money to do so, and receive for their services a monthly salary and sometime be given back their actual expenses if allowed by the department when the accounts are audited.

They, however, can not possibly serve all the processes of the courts in this territory and attend court and perform the labors there required, disburse witness money and keep the various and complicated accounts.

It would thus seem that congress has left us in bad shape as to the running of the U. S. courts here.

The best place to board in the city is at the Bon-Ton, 26-cent meals a specialty.

POPULIST PEEK'S ANGUISH

Ridiculous Representation That Democrats Agreed to Withdraw Sewall in Favor of Watson.

WHERE BRYAN'S VOICE WILL BE HEARD

Silver Champion Will Speak in Nearly Every State in the Union—Wall Street "Democratic Leaders" Will Hold a Convention.

Atlanta, Ga., Aug. 1.—W. L. Peek, who ran for governor on the Populist ticket in 1892 and headed the Georgia delegation at St. Louis, made the following statement to the Atlanta Journal to-day: "Congress, Ga., Aug. 1, 1896.—It was understood with the Democrats that, if the Populists would nominate Bryan for president and a southern Populist for vice-president, Sewall would retire from the race, or in other words he (Sewall) would be taken down and our candidate for vice-president would be placed on the ticket with Bryan."

"With this understanding, Watson was unanimously nominated. Every state in the Union supported him except South Carolina and it was not represented. This was the broad ground on which Democrats and Populists met. Having been deceived by promises, we made it a certainty on our part and reversed the order of business and nominated the vice-president first."

"Senator Jones, chairman of the national Democratic committee, was there, together with many prominent Democrats from different parts of the United States, urging this course for the success of financial reform. We did not endorse Bryan, but made our platform and nominated him for president by over a two-thirds vote."

"Watson's nomination was greeted with as long and loud outbursts of enthusiasm as was Bryan's, and I beg leave to say now that there is but one course to pursue, if good faith is to govern this side of the silver forces, viz: Watson electors must be put up by the Democratic party from Maine to California. It would be a lack of fidelity to ask or do otherwise. In the south, yes, in Georgia, it would be an unpardonable sin and unfaithfulness on the part of the Democratic party, and the people will hold them responsible for the result."

[Signed] WILLIAM L. PEEK.

Where Bryan's Voice Will Be Heard.

Trocas, Wash., Aug. 1.—Shortly after his nomination, Mr. Bryan told Secretary Thomas Malony, of the Washington state committee, that he intended making a campaign tour that would include every state of the United States. It was his desire, he said, after visiting New York and New England, to come through the southern states to the coast, speaking at Los Angeles, San Francisco, Portland, Seattle, Tacoma and Spokane.

Wall Street Convention Agreed On.

Chicago, Aug. 1.—The gold standard Democratic leaders have decided definitely upon a new convention to be held about September 1 in this city. The arrangements are already well under way. The New York leaders particularly, regarding matters settled as to the location and date of the convention are concerned, are inclined to busy themselves now chiefly with the discussion of candidates.

GOLD DEMOCRATS IN KANSAS.

Topeka, Kas.—The gold standard Democrats of Kansas have effected an organization, elected a member of the gold standard national committee, and issued an address in which they repudiate the nominee and platform of the Chicago convention.

SATURDAY, AUGUST 1.

DEMOCRATIC TICKET

FOR PRESIDENT,

WILLIAM J. BRYAN,
OF NEBRASKA.

FOR VICE-PRESIDENT,

ARTHUR SEWALL,
OF MAINE.

SIXTEEN TO ONE.

Sixteen to one simply means the basis of valuation fixed by law between gold and silver, sixteen ounces of silver equalling in value one ounce of gold.

Previous to 1873 silver was received by the United States mints and coined on the 16 to 1 basis and the nation was prosperous. During that year silver was demonetized by a bill which simply dropped the words "silver dollar" from the coinage law. It was some time after the bill was signed before it was known that it had killed the coinage of silver. President Grant claimed that he signed the measure without noticing the omission of the "Silver Dollar." Afterward Congressman Bland introduced a bill to re-monetize silver but it was vetoed by President Hayes. Finally in 1890 the Sherman act directing the government to purchase 4,500,000 ounces per month was passed. This act was repealed in 1893 and silver again demonetized. Previous to this silver was also killed in India. Now the friends of the white metal simply ask that silver be restored to its old place.

Every time a goldbug Democrat goes to McKinley in New York he paves the way for two silver Republicans to go to Bryan in the west.

PATRONS of the New Mexican are again reminded that accounts with this journal must be settled. A word to the wise, gentlemen. It takes money to run a newspaper.

The organization of Bryan and Sewall clubs goes bravely on all over the territory. True, the Democratic nominees on the presidential ticket are not running in New Mexico—but their principles are!

SINCE Transito L. Matta's elucidation of the financial issue in the Albuquerque Citizen, both B. S. Rodey and A. M. Swan have declared their allegiance to the principles set forth in the Democratic platform.

THE New York goldbug papers are practically impotent. Their efforts to injure silver in New York make votes for silver in doubtful states. If New York goldbug Democrats can abandon party lines to injure silver, then certainly western silver Republicans can leave the party to help silver. It so happens that we need votes in some western states and their loss in New York will do us no harm. Let the heathen rage, says Bryan's paper, the Omaha World-Herald.

QUEEN VICTORIA MAY ABDICATE.

An intimation came over the wires yesterday afternoon that, burdened with the weight of years and bereavements, Queen Victoria seriously contemplated abdicating in favor of her eldest son, the Prince of Wales. Victoria-Alexandrina, queen of Great Britain and Ireland and empress of India, was born at Kensington palace, London, on May 24, 1819, and succeeded to the English crown as Victoria on June 20, 1837. Albert Edward, Prince of Wales, was born at Buckingham palace on November 9, 1841, and was married to the Princess Alexandra of Denmark on March 10, 1853. His title as king, if he

he ever attains that dignity, will be Albert Edward I.

It is beginning to dawn upon Marons Aurelius Hanna and the other gold standard managers that it will not do to roll all their bar's into Indiana, Michigan and Illinois. The "silver craze" is now admitted to be dangerously in evidence even in New York.

MATTERS IN MAINE.

Matters political are working around nicely "away up in Maine." Tom Reed has opened the campaign with a speech that dodges all around the great issue of the day—honest finance—and the friends of the money of the constitution are jubilant thereat. He has let down the bars and Democrats are disposed to make the most of it. By an amicable understanding among party leaders Hon. E. B. Winslow, the Democratic nominee for governor on a gold platform, has withdrawn. A free silver man will now be substituted in his stead and the short campaign from now until election day, August 14, will be contested on the national issue of free coinage of both gold and silver. This action was brought about through deference to Arthur Sewall, the vice-presidential nominee. The free coinage sentiment is abroad throughout the state and Democracy's prospects are most flattering.

NEW MEXICO LEFT AGAIN.

An article in this issue in regard to the pay of the U. S. marshals calls attention to another instance of the character of representation, or rather lack of representation, which this territory and its interests have at the hands of our present delegates in congress. The service of the processes of the U. S. court, which has heretofore given employment to a number of people, has been crippled to such an extent by legislation that not only is their means of livelihood removed, but the public service must greatly suffer thereby and the transaction of court business be impeded.

The following named divisions which lie in the mountain belt, where travel and service are difficult, dangerous and expensive, are under the double fee system, viz: California, Colorado, Washington, Montana, North Dakota, South Dakota, Nevada, Oregon, Wyoming and Idaho; but it seems that this territory, having no one to plead its cause, was omitted from the list.

A simple suggestion by its representative would certainly have resulted in its being included, as here, most of all, does the reason exist for such allowance being made to insure the execution of U. S. court writs.

PRESS COMMENT.

Well, Maybe!

The logical candidate to congress from New Mexico on the Democratic ticket is A. A. Jones, of Las Vegas.—Las Cruces Republican.

Perhaps it is "Windy."

Then who the devil did the Optic mean? Let's have the whole story.—New Mexican.

Hereby hangs a tale which may be told before the campaign in New Mexico reaches the white heat stage. Suffice it to say for the present, though, that the bay-windowed political satellite doesn't reside in Santa Fe, Albuquerque or Las Vegas.—Las Vegas Optic.

A Suggestion of Hoedie.

The Citizen is still sure it's right, and it's going to go ahead according to its own statement. What if it should meet a bundle of larger proportions than the one encountered some two months ago. Golden silence is not in order on the point of such a radical change of heart as that paper experienced.—Gallup Gleaner.

Who Pays the Debt?

It is enough to make a mule smile to hear the goldbugs call the farmers, the mechanics, the miners and laborers, repudiators. Answer the question for yourself. Who pays the debts of the country, the perfumed goldbug who sits in his luxurious office and considers it debasement to soil his hands with any kind of labor or the farmers, mechanics, miners and laborers?—Baton Reporter.

Where Doctors Disagree.

The editor of the Las Vegas Daily Optic and the writer of editorials for the columns of the Albuquerque evening Citizen evidently did not graduate from the same Republican school. From an editorial in Tuesday's Optic we clip the following: "Let everybody understand that the Republican party of New Mexico stands for protection, free coinage and statehood * * *." From a recent issue of the Citizen: "If the free coinage proposition carries, the United States will be placed on exactly the same monetary basis as Mexico, and with a de-based money laboring men will be the first and principal sufferers. * * *."—Gallup Gleaner.

BEFORE I could get relief from a most horrible blood disease I had spent hundreds of dollars trying various remedies and physicians, none of which did me any good. My finger nails came off and my hair came out, leaving me perfectly bald. I then went to

The best reason in the world why some things sell so well is because they are good. That is one reason for the great sales of "BATTLE AX."

NEW MEXICAN PRINTING COMPANY.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of sisal—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

What Constitutes a Family Medicine? A preparation which is adapted to the relief and cure of ailments to which members of a household are most subject, and which is not only alleged to this, but has long and unflinchingly proved its ability to do it, assuredly deserves the title of a reliable Family Medicine.

Among time-honored preparations which experience and the sanction of the medical profession indicate as deserving of popular regard and confidence, is Chamberlain's Stomach Bitters, a medicine adapted to the eradication of dyspepsia, constipation and biliousness, the three most frequently occurring ailments that vex mankind. Derived from a botanic parentage, it is efficient as well as pure and wholesome. It relieves nervous disquietude and inactivity of the kidneys, and counteracts a tendency to rheumatism. For renewing flagging strength and imparting appetite it can be implicitly relied upon. Fever and ague, rheumatism and debility are remedied by it.

Boggins. What I don't like about the Rainer bill is that it changes the name of Sunday. Boggins. How is that? Boggins. Changes it to Thursday.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages; this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. For sale by Ireland's Pharmacy.

The landlord had just dropped in on Mrs. Maloney and informed her gently but firmly that he had decided to raise her rent. "It's the darlin' ye are, sir," she replied. "I wor wonderin' how I could raise it meself."

Six weeks ago I suffered with a very severe cold; was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Volks Zeitung I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Kutz, 678 Selby Ave., St. Paul, Minn. For sale by Ireland's Pharmacy.

"When I'm a man—" began Bobbie. "What will you do?" asked his mother. "I'll name my boy after popper, and my girl I'll name him!"

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and took it procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the Remedy half its worth. I am sorry every one in the world does not know how good it is, as I do. —Mrs. Lina S. Hinton, Grahamville, Marion Co., Florida. For sale by Ireland's Pharmacy.

Don't trifle away time when you have cholera morbus or diarrhoea. Fight them in the beginning with DeWitt's Colic & Cholera Cure. You don't have to wait for results, they are instantaneous, and it leaves the bowels in healthy condition. Newton's drug store.

He.—What is the name of your wheel? She.—Do you mean the name the maker gives it, or the names papa called it when he fell over it in the hall eight before last?

For your Protection.—Catarrh "Cures" or Tonics for Catarrh in liquid form to be taken internally, usually contain either Mercury or Iodine or Potassa, or both, which are injurious if too long taken. Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow: severe pain in the head, a roaring sound in the ears, bad breath, and sometimes an offensive discharge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.

PUFZHEIMER'S PHILOSOPHY.

The Sage Lets Fall a Few Remarks Loaded Down With Wisdom.

Eternal vigilance is der way not to get run over by a safety. Self conceit is a pleasing disguise in, for dot is not makes us der fool killer next door ven he comes to see us, ain't it? Ven you see a married man voring dot suit vot he bought a long time ago alrety yust make up your mind py swell tings—elder dare is a new baby py his house in or his wife has bought a bisocole.

Ven you read py dem newshabers dot a man he is a shvinder, und a chief, und a harrunscrums, und a lot of tings yust like dot, it is plennigs to pretzels dot man vos a candidates for some politics jobs alrety once.

It is a short lane vot doan't got no bi-socole riders on him dese days. Ven dare a road dare a way. If some peobles doan't had no neighbors liding py dem next door, dey doan't nefer clean house in her spring times, chentle Annie, ain't it?

Honesty is der best politics—aid. Ven a man is running a race for an office, he chentally is satisfied if he gets a place, ain't it?

Around der vorse bisocole face to be seed dese days is dot vich your leedle boy vares ven you told him he can't haf no veel yust yet.

Sometimes dot ostrich dakes his head py dot sand und yust long enough to haf at dem udder ostrich vot haf his head in alrety yet.

I haf noticed dot der difference between a leedle boy und a big man is dot each tinks do udder is hafing al der fun.

If der mountain doan't come py Mohammed vot's der matter mit going py der seashores.

It is a long head vot doan't got turned py a purty voms. Men vot dey are always anxious to die for der country chentally luf py a ripe old age, ain't it?

Truth is stranger den fictions, und dot is vy so many peobles doan't speak to him as dey pass by.

Shakespears say dot ein touch of nature makes dot whole world kin, but it is different ven somebody else vos touching you, ain't it?

It is a vise child vot knows his own fader on a bisocole. Men vot dey vote to boasts of his leedle fader doan't need to say vot a small head he haf alrety.

If we could see ourselfs yust like udders see us, all dem looking glass mirrors would be smashed py smitherens in, doan't it? To err is human, und to blame it on somebody else, dot is human likewise, too, alrety.

Efery man haf his price, but mit some mens it is bargain day all der vile, fersay? Dot veelmans he doan't like a tax on his bisocole, und he doan't like a tacks under his leedle und der you are, ain't it?

In the Track of the Storm. The terrible whirlwind had done its worst. The stately monarchs of the forest lay prostrate. Ruin and desolation marked the path of the funnel shaped monster that had swept with resistless fury over the land, destroying everything that stood in its way.

Here and there were the scattered fragments of many a dwelling that had been the abode of peace, happiness and prosperity. Desolate, despairing men and women wandered among the ruins. Now and then there was one who bemoaned his fate with loud lamentation or bitter curse, but for the most part the victims bore their sorrow in sullen silence, and there were not wanting those who found consolation and even cause for gratitude in the fact that their lives had been spared.

In an upper room of a house that had escaped the storm lay one of the injured. "How long has she been unconscious?" inquired the physician.

"Ever since she was picked up and brought here," replied one of the watchers. "There seem to be no bones broken," he rejoined, "but the shock has been severe. We can only hope for the best. I have witnessed the effects of many a cyclone, but this one!"

The young woman on the couch opened her eyes. "A cyclone," she muttered feebly. "Is a rotary motion of widely extended limits, its center frequently being many miles from its outer limit or circumference. This was a tornado. It was not a cyclone. This misnomer of the term is, however, almost universal, except among educated persons."

"Yes, Boston!" said the doctor in a low tone. And the watchers silently nodded.—Chicago Tribune.

RUIN AND MISERY

WHAT WILL BECOME OF THE YOUNG MEN OF THE DAY?

Cigarette smoking is one of the evils which is fast increasing among the young men of the period. It is an age of nervousness, nervous excitement, nervous weakness and debility is the growing malady of the day. Minds are over-burdened in school, the pleasures of social life follow business worry, intemperance, sexual excesses or abuses excite the already enfeebled nerves and result in exhausting diseases or drains upon the nervous system.

It's a drag and a handicap to every young man to be a sufferer from nervous debility or weakness, low spirits, irritable temper, impaired memory, loss of will-power, and the thousand and one derangements of mind and body that result from pernicious habits often contracted through ignorance of nature's laws. The wreck of constitution, weakened brain and mainly power, following such habits would be a sorry ending to life in this splendid age of learning and labor. It will fast become an age of unsettled brains and shattered nerves unless our young men know themselves.

To reach, re-claim and restore such unfortunate to health and happiness, is the aim of the publishers of a book of 1000 pages, profusely illustrated, written in plain language, on the nature, symptoms and curability, by home treatment, of such diseases. This book will be sent free on receipt of twenty-one (21) cents in stamps, for postage and wrapping only. Address, World's Dispensary Medical Association, No. 653 Main Street, Buffalo, N. Y.

For more than a quarter of a century physicians connected with this widely celebrated institution have made the treatment of the diseases hinted at above their specialty. Thousands have consulted them by letter and received advice and medicines which have resulted in permanent cures.

Sufferers from premature old age, or loss of power, will find much of interest in the book above mentioned.

Young Medical Student (to charity patient)—I think you must have a—some kind of a—fever; but our class has only gone as far as convulsions. I'll come in again in a week, when we get to fevers.

If dull, spiritless and stupid; if your blood is thick and sluggish; if your appetite is capricious and uncertain. You need a sarsaparilla. For best results take DeWitt's. It recommends itself. Newton's drug store.

BRYAN DEMOCRATIC CLUB.

Above is the Name of an Organization Effected in Santa Fe Last Evening Under Most Auspicious Circumstances.

A largely attended meeting of Democrats and supporters of the popular principle of American binationalism was held last night at the spacious and pleasant Oxford club rooms for the purpose of organizing the Bryan Democratic club of Santa Fe county. Fully seventy-five representative Democrats were in attendance and all seemed to be inspired by the lofty and patriotic purpose to lay aside all personal and factional differences and labor together as one man to promote the grand cause of the people in the pending struggle.

A temporary organization was effected by the choice of Mr. W. B. Pope as chairman, J. L. Zimmerman, secretary, and J. P. Delgado, interpreter.

Upon assuming the duties of the chair, Mr. Pope briefly stated that the meeting had been called by the seventy odd signers of a petition to the secretary of the National League of Democratic clubs, Washington, for a charter authorizing the organization of a Bryan Democratic club in the city of Santa Fe, that the application for a charter had already been forwarded to Washington and that a favorable response had been received.

After some preliminary discussion permanent officers of the club were elected by acclamation as follows: George P. Money, president; Pedro Delgado, vice president; John L. Zimmerman, secretary; Marcelino Garcia, treasurer; Camilo Padilla, interpreter.

Upon being escorted to the chair, Mr. Money expressed his thanks for the high honor conferred upon him with much feeling and pledged his best efforts to promote the harmony and usefulness of the club as an active factor in promoting the cause of Democracy and silver in New Mexico.

A motion was then adopted clothing the president with authority to appoint an executive committee of fifteen members of the club, the membership thereof to be announced at the next meeting.

Messrs. Charles E. Easley, A. J. Lewis and W. H. Pope were appointed as a committee on constitution and by-laws.

Messrs. E. T. Webber, Charles M. Creamer, Camilo Padilla, P. M. Dolan and J. L. Zimmerman were entrusted with the duty of securing permanent headquarters for the club.

Messrs. M. P. Moore, H. S. Lutz and George W. Knebel were appointed as a temporary committee on finance.

In response to loud calls, Hon. A. B. Fall, of Las Cruces, then addressed the club in his happiest vein. After congratulating the Democrats of Santa Fe upon the successful organization of the first Bryan club in the territory, and expressing the earnest hope that the new club and the Frank Chavez club and all other Democrats at the capital would earnestly work together for the common cause, he proceeded to make several telling points in favor of the free and unlimited coinage of both silver and gold at the legal ratio of 16 to 1. Among other good things, he said that he had never been able to comprehend the significance of the goldbug argument, advanced even by such an authority as Secretary Carlisle, wherein it was contended in one breath that the silver movement was in the interest of the silver barons, who sought by free coinage to double the value of their silver product, while in the next breath it was seriously maintained that free silver coinage would result in a 50 cent dollar, contentions that increased him as being absurdly conflicting. Touching the oft repeated claim that the United States could not maintain the proposed parity without the aid of the nations of Europe, he called attention to the fact that the price of silver fell 22 cents in one day as a result of the closing of the India mints to its coinage. If the closing of the India mints had such a marked effect upon the silver market, he thought it not unreasonable to suppose that the opening of the mints of such a great and powerful nation as the United States would immediately add 50 cents an ounce to the value of silver.

Hon. Felix Martinez, of Las Vegas, in response to urgent calls, then favored the club with an eloquent, timely and fitting address. He was glad that a Bryan club had been organized at the capital and urged united action with the Frank Chavez Democratic club. He predicted a grand triumph for the national Democratic ticket and said there was no earthly reason why the Democrats of New Mexico should not share in the glory of that triumph. If, under existing circumstances, they failed to elect their candidate for delegate in November, it would be their own fault. All internal dissensions must be suppressed, the factional spirit must be stamped out, and each individual must make up his mind to yield something to the opinions of others in the party for the sake of the common cause. It was especially important that the Democrats of the capital city should set a good example in this respect and he earnestly hoped that this would be realized in time to avoid mischievous results in the pending campaign. He had no doubt that Mr. Bryan would be elected president of the United States. He stood for a great principle—the free coinage of silver—that intimately concerned the masses of the people and they would take care that the right man was placed in the White house to guard and advance that principle.

In closing, he said that, while the people of New Mexico unfortunately could not vote for Mr. Bryan, they were deeply interested in his election and the success of the principle for which he stood, for the practical reason that the demonization of silver had depreciated all property values in the territory fully 35 per cent, money was not procurable for any purpose, and the present distress among the people would continue and increase as long as the gold standard was maintained.

At the conclusion of the address of Mr. Martinez, President Money announced that an earnest invitation was extended to all Democrats to enroll themselves as

members of the club, and a good many immediately availed themselves of the opportunity.

After passing a vote of thanks to Mr. Lacombe for the use of his club rooms, the club adjourned subject to the call of the president and secretary.

The lawyers of Albuquerque are engaged in a perspiring effort to play baseball this afternoon for sweet charity's sake. Judge Fall and Mr. Childers went south last night and may take a hand. Mr. Twitchell received a formal warning that he was needed as coach, but he was detained here by court duty.

Hon. H. B. Ferguson states that a most successful ratification meeting was held at Gallup on Wednesday night. The town hall was packed, probably 600 people being present. The coal miners and railroad employees were present in mass and cheered Bryan and Sewall to the echo. Mr. Ferguson and others made addresses and a strong Democratic club was organized.

The annual corn dance of the Pueblo Indians at Santo Domingo will occur on Tuesday, August 4, and as usual will attract a large number of visitors to witness the ceremonies, which are a never failing source of entertainment, and among the more serious-minded a topic of studios interest. No arrangements have been made by the railroad company this year for special trains or reduced rates, so that it will be necessary for those who go by rail to provide accordingly. Good hotel accommodations may be had at Thornton, however, which is only three miles from the pueblo.

Las Vegas in It.

Las Vegas is waking up. A public meeting has been called at Judge Wooster's office this evening of all who are "in favor of the free coinage of silver at a ratio of 16 to 1, and in favor of the election of William J. Bryan as president of the United States," for the purpose of organizing a club. The call is signed by Mayor Olney, B. F. Forsythe, Edward Henry, H. S. Wooster, W. G. Koogler, A. A. Wise, W. E. Newman and W. G. Hayden, Republicans, and Morris J. Crowley, E. V. Long, T. G. Martin, P. O. Hogsett, J. J. Cluxton, Chris. Sellman, W. G. Benjamin, L. J. Marcus, H. P. Brown, John G. Wagner, S. H. Wells, J. B. Allen, John Shank, J. K. Martin, B. B. Sprieder, Democrats.

Claimed by Death.

At 5:30 this morning death darkened the home of Mr. and Mrs. Luciano Baez, in taking away their bright and promising adopted son, Alejandro, 12 years old. Several days ago he was taken down with pains in the stomach, resulting from eating fruit a fever set in and up to the time of his death he was in continual pain. The funeral will take place to-morrow (Sunday) morning at 8 o'clock from the cathedral to Rosario cemetery, H. Schoenmaecher, of Chicago, who has been a sufferer at St. Vincent hospital for many weeks, died of consumption day before yesterday and was buried yesterday afternoon. Rev. G. A. Neff held brief religious services at Gable's undertaking rooms.

A telegram from Sacramento, Cal., brings the announcement that Mrs. Stuart F. Longborough died suddenly there yesterday. She was afflicted with heart trouble.

Col. J. B. Brady is in receipt of news from Platt City, Mo., his old home. His mother, Mrs. Mildred Brady, departed this life there yesterday, aged 82 years.

Is It Politics?

Traveling Engineer Ross, of the A. T. & S. F., recently promoted to that position, is organizing a "sound"—gold—money club among the railroad employees. His headquarters are at Las Vegas. In this connection the following is interesting:

A few days ago an order was issued by President E. F. Ripley, of the Santa Fe system, to the effect that a complete roster of employees in the service of the company and their postoffice addresses be compiled and sent him. It is not in the least surprising that President Ripley would want a roster of his employees, but the fact that the order also asks for their addresses arouses comment. It is rumored among the office men that the roster is for the purpose of sending each employee a stock of campaign literature.
