SANTA FE, N. M., THURSDAY, AUGUST 20, 1896.

NO. 155

WATSON WILL BE WITHDRAWN

This is Plainly Indicated by the Tenor of Dispatches from Populist Headquarters.

NEW YORK DEMOCRATS FALLING IN LINE

Mr. Bryan Receives and Accepts a Significant Invitation to Visit Oklahoma—Perfect Fusion in Colorado—Tribute to Teller.

Washington, Aug. 20.—The executive committee of the Populist convention has adjourned subject to the call of the chairman.

It was decided that G. R. Soverign should be assigned to the Chicago headquarters which will be under the management of Mr. Washburn, of Massachusetts. Chairman Butler will be in charge here, assisted by Secretary Edgerton.

Butler said this morning that the committee was embarrassed for want of funds. "We have chipped in," said Butler, "to pay our expenses thus far. I expect we will have to make the campaign like the others we have made in the south, where we managed with very little money."

Butler will enter into correspondence with the Populist and free silver leaders in various parts of the country to effect an adjustment of all existing differences, which will bring the supporters of silver and Bryan into harmonious action.

The Silver party and Populist party are to-day moving into headquarters with the Democratic party in the Wormley building.

Vice-Chairman Stevens, of the Silver party, said to-day that the headquarters in Chicago would have charge of the campaign in the western states.

Bryan and the New York Democrats.

Upper Red Hook, N. Y., Aug. 20.—It is apparent here that Candidate Bryan's plan to spend some time in New York state campaigning is not objectionable to the leaders of the Democratic state politics, but on the contrary he has their cooperation.

Mr. Bryan said to-day: "I am not bothering about New York Democrats. Everything will be all right."

Last night when Elliot Danforth, of New York, called to see Mr. Bryan and waited two hours for him to return from a day's outing, he said it was a friendly call.

Mr. Bryan reiterated the remark, but, as Upper Red Hook is some eight miles from a small station where there are few trains, and as Mr. Danforth saw Mr. Bryan in New York six days ago, the conclusion is rather inevitable that the visit had a political significance.

Mr. Danforth said: "The Democrats of New York will support Mr. Bryan. I have no doubt, but active work will not begin until our convention meets in Buffalo."

This morning a son of Chairman Hinkle came here with an urgent personal letter from his father, inviting Mr. Bryan to visit his camp in the Catskills, where are gathered prominent Democrats. Mr. Bryan decided to accept.

Splendid Tribute to Teller.

Pueblo, Colo., Aug. 20.—The Democratic convention to-day adopted resolutions looking toward fusion with the Populist and silver Republicans on a state ticket. The resolutions provide for the selection of electors and a full state ticket and the appointment of a committee on fusion with power to remove any candidate and substitute others.

C. S. Thomas, who would have been the choice of the convention for governor had he not declined the honor, made a strong speech in favor of fusion. The action of Senator Teller in leaving the Republican party, he said, was "the grandest exhibition of moral courage of modern times."

Conference of Golding Democrats.

Omaha, Aug. 20.—A conference of gold standard Democrats will be held here within a few days to consider the advisability of presenting the name of Secretary Morton, of Indianapolis, for president. Nebraska will not send delegates to the Indianapolis convention at all. This will also be decided at the coming conference.

Undertaking a Big Contract.

Chicago, Aug. 20.—The Republican managers will endeavor to find out every Republican who intends to vote for Bryan and every Democrat who intends to vote for McKinley. This immense task will be undertaken by 20,000 organizations of the National League of Republican clubs.

Silver Democrats in Connecticut.

New Haven, Conn., Aug. 20.—One hundred silver standard Democrats of Connecticut assembled here to-day for the purpose of organizing to carry on the work for Bryan and Sewall. Littlefield was the only county unrepresented. The meeting organized into the Bryan and Sewall Democratic club of the state.

Democratic Headquarters in Chicago.

Chicago, Aug. 20.—Senator Jones, chairman of the national committee, arrived to-day and closed a deal by which the national headquarters will be established at the Sherman house.

THE MARKETS.

New York, Aug. 20.—Money on call nominally at 3 @ 4 per cent. Prime mercantile paper, 7 @ 8; silver, 6 1/2 @ 7; lead, \$2.60.

Chicago.—Cattle, beefs, \$3.00 @ \$4.05; cows and heifers, \$1.20 @ \$3.85; Texas steers, \$2.40 @ \$3.25; westerners, \$2.85 @ \$3.85; stockers and feeders, \$2.50 @ \$3.50; hogs, \$4.00 @ \$4.40; muttons, \$2.25 @ \$3.00.

Kansas City.—Cattle, Texas steers, \$2.05 @ \$2.85; Texas cows, \$1.25 @ \$2.10; beef steers, \$3.40 @ \$4.40; native cows, \$1.25 @ \$3.25; stockers and feeders, \$2.40 @ \$3.75; hogs, \$4.00 @ \$4.40; sheep, \$2.50 @ \$3.00.

Chicago.—Wheat, August, 54 1/2; September, 55 1/2; Oats, August, 17 1/2; September, 17 1/2; Corn, August, 22 1/2; September, 23.

London Silver Wisdom.

London, Aug. 20.—The Westminster Gazette attributes the fall in silver to the inability of speculators in the United States to carry the silver purchased with borrowed money and to a scarcity of buyers.

Trouble on the Congo.

Brussels, Aug. 20.—The Soireux says that Baron Debanis, commanding a strong force, has taken the offensive against the Mahdists on the upper Congo. The situation causes the gravest anxiety.

THE CRIMINAL CALENDAR.

A Half-Breed Indian Lynched in Idaho—Notorious Desperado Killed—An Editor Shot.

Lewiston, Idaho, Aug. 20.—Frank Biles, a half-breed from the Nes Peck reservation, was taken from the Asotin jail last night and hanged by a mob. His crime was a criminal outrage upon Miss Mary Richardson, 17 years of age.

NOTORIOUS DESPERADO KILLED.

Laredo, Texas.—The notorious Aalee was killed in a saloon last night by City Marshal Bathelew. Aalee has been before the courts for many years. He was charged with murdering three men, one being Editor Bowen, on a crowded coach on the International railroad near here. Last night he resisted and was shot.

TRAMP IN MINNESOTA.

Wilmar, Minn.—Tramps robbed eighteen prominent men here last night. They also shot a lad named J. Tilden, who may die. A posse is in pursuit.

KILLED BY BURGLARS IN NEW YORK.

Bedford Station, N. Y.—Walker B. Adams is lying at the point of death as a result of an encounter with four burglars. Two of the burglars were captured, having first been mortally wounded by Adams' son, William, who was himself struck by a pistol ball, which, however, glanced off a suspender buckle.

AN EDITOR KILLED.

Curtis, Neb.—Hon. S. D. Rasee, editor of the Curtis Courier, was shot and fatally injured last night by J. J. Carry, a farmer, with whom he had a dispute over a trivial matter.

LORD RUSSELL SPEAKS.

Lord Chief Justice of England Discusses International Arbitration Before American Bar Association.

Saratoga, N. Y., Aug. 20.—Over 4,500 people assembled to-day to listen to the address of Lord Russell of Killowen, lord chief justice of England, on "International Arbitration," before the American Bar Association.

Lord Russell was greeted with hearty applause. Moorfield Story, of Boston, on presenting Lord Russell, said: "I have now the very great pleasure, not of introducing, for he needs no introduction to any English-speaking lawyer, but of presenting to you, Lord Russell, of Killowen, lord chief justice of England."

Lord Russell's address was an exhaustive review of all that had been done to secure the settlement of international difficulties by means of arbitration. He expressed the earnest hope that the peaceful relations existing between Great Britain and the United States might never be broken.

Explosion of Molten Metal.

Pittsburg, Aug. 20.—By an explosion of molten metal in furnace No. 1 of the Edgar Thompson steel works this morning ten men were burned. Three were seriously injured.

THE LAST OF EARTH.

Impressive Services Connected with Funeral of Late President of Royal Academy.

London, Aug. 20.—The funeral of Sir John Lubbock, late president of the Royal Academy, who died on August 13, took place to-day at St. Paul's cathedral.

The route from the residence to the cathedral was lined by an immense crowd. The cortege was preceded by an open car bearing the coffin and another piled high with floral wreaths. The floral tributes included a beautiful wreath from Queen Victoria.

Upon the arrival at the cathedral, the military band played the dead march, and the pall-bearers placed the coffin on purple-draped stretchers close to the grave, which is beneath the dome. The services were fully choral.

Manipulators of Money.

New York, Aug. 20.—The conference of bankers, headed by Edward Simmons and Edward D. Tappan, to facilitate gold imports, was concluded to-day and the statement was made that the financial situation did not justify concerted action of the banks at present.

EXPLORING SHIP FRAM.

Nansen's Ship That He Left in the Ice of the Arctic Regions Has Reported.

Christiana, Aug. 20.—Nansen's Arctic exploring ship Fram, which he left behind in the ice early in January, 1895, in order to explore the sea north of the Arctic circle, has been reported to have arrived at Skjervoy, province of Tromsø, yesterday evening.

The Fram called at Dane's island on August 14. Prof. Andrée was still waiting for a favorable wind in order to enable him to attempt his balloon trip across the Arctic regions.

Capt. Sverdrup sent the following telegram to Nansen: "The Fram arrived safely. All well on board. Leave at once for Tromsø." Nansen replied: "A thousand times welcome to you all. Hurrah for the Fram."

The Fram left Skjervoy this morning for Tromsø where Nansen will meet her.

Four Persons Cremated.

Watertown, S. D., Aug. 20.—A fire in the residence of John Felbach last night burned to death Mr. Felbach and three daughters.

Irish Prisoner Released.

London, Aug. 20.—John Daly, an Irish political prisoner, was released from the Portland prison this afternoon.

If you have ever seen a little child in the agony of summer complaint, you can realize the danger of the trouble and appreciate the value of instantaneous relief afforded by Dr. Williams' Little Early Remedy. For dysentery and diarrhoea it is a reliable remedy. We could not afford to recommend this as a cure unless it were a cure. Newton's drug store.

SAD DISASTER AT MOGOLLON

Prosperous Mining Camp in Socorro County Visited by a Destructive Cloud-Burst.

TWO BODIES FOUND—TWENTY MISSING

Colonial, Deep Down and Helen Mining Companies Are Sufferers to Amount of Thousands of Dollars—New Machinery Ruined.

Denver, Aug. 20.—A special to the Times from Mogollon, N. M., received to-day says: A terrible cloud-burst occurred about 4 o'clock yesterday afternoon.

John Knight, a miner, of Georgetown, was drowned.

Twenty others are reported missing, but so far only two bodies, Thomas Knight and an unknown Mexican, have been recovered.

About 100 families have been rendered homeless. Thirty houses were washed away.

The property of the Colonial Mining company, of Boston, Mass., has suffered to a large extent, the assay office, mill house, powder house and blacksmith shop being washed away.

It is feared that the mine is filled with mud and water.

The manager and assayer had a narrow escape, being assisted to the bank by means of ropes.

The Deep Down Mining company, of Kansas City, lost its main office and assay office.

The place is situated in a deep canon between high mountains. The water in the streets was eight feet deep.

The storm was general in this section of the territory.

Advices from Graham, state that about 4 o'clock yesterday a cloud-burst on the mountain side caused a flood at the Confidence mine belonging to the Helen Mining company, of Denver. The flood carried away the shop and supplies of the mine.

The mine horses, loaded with ore for the mill, were washed over a steep precipice and killed. The men who were working at the mouth of the tunnel barely escaped with their lives.

It is feared that great damage was done on the other side of the Mogollon district. Nothing definite can be learned on account of the telephone communication being broken.

There were at least twenty persons, mostly miners, living right in the track of the great wall of water. They occupied, for most part, adobe dwellings. These have been washed away and the occupants have not been heard from. Some may have been warned in time to get out of the way.

The loss to the mining companies will amount to thousands of dollars. Expensive machinery has lately been put in and much of this is wrecked.

RENOUNCED HER CLAIM.

Miss Snell Has Discovered That She Was Mistaken About Having Been Married to Butte Millionaire.

San Francisco, Aug. 20.—Miss Hulda Snell has renounced her claim to the millions of the late Andrew J. Davis, of Butte, Mont.

Miss Snell claimed to be the wife of the millionaire and that he deserted her.

Detective Stillwell, working in Miss Snell's interest, proved that there were two men named A. J. Davis. Both were miners and they strongly resembled each other. He found that the A. J. Davis, who was Miss Snell's husband, was not the Butte millionaire and died twenty-one years ago.

DON DICKINSON MAD.

Forced a Dissolution of His Law Firm Because His Partner Supported Bryan.

Detroit, Aug. 12.—A dissolution of the legal partnership of Don M. Dickinson, H. T. Thurber and Elliott G. Stevenson is announced to take place on September 1. Dickinson is said to have held that Stevenson had to some extent compromised the firm by accepting the chairmanship of the state central committee and becoming responsible for Bryan's campaign in Michigan. Stevenson afterward resigned the chairmanship, but the friction continued and Stevenson decided to withdraw from the firm.

St. Michael's College.

Brother Bololph, the popular director of St. Michael's college, is receiving a great many inquiries just now as to rates, etc., for the school year which begins September 1. He thinks the attendance at the college promises to be greater for the coming year than for several years past. And it is a good sign that this is so, for it shows that our people are thoroughly alive to the advantages of an education for the youth of the territory. No institution west of the Mississippi has turned out more good citizens than St. Michael's in its nearly forty years of existence, and it is held in high esteem by the people generally of New Mexico. It also draws largely from Arizona, and many prominent families in Mexico who desire to give their sons an English education also patronize this worthy college.

METEOROLOGICAL.

NATIONAL POLITICS.

SECRETARY ROKE SMITH'S STAND.

Atlanta, Ga.—It is now admitted by members of Hoke Smith's newspaper staff that the secretary sent in his resignation to Mr. Cleveland fully three weeks ago. It is equally certain that Mr. Cleveland is using all of his argumentative ability to induce Mr. Smith to withdraw from his hostile position. Mr. Smith consistently refuses to give out any information, but in the meantime he has taken up a cudgel that is likely to be felt even in Buzzard's Bay. In his paper yesterday afternoon Mr. Smith has the following editorial:

"In political emergencies, as in other affairs of life, men are sometimes constrained to make a choice between two evils or unenviable situations. Being unable after their best efforts to order things just as they would have them, both sound reason and policy suggest that they should take this course. Such an emergency now confronts many Democrats in all parts of the country. They are urged to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy. The restoration of the party to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy. The restoration of the party to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy."

"All of us took part in the choice of delegates to the Chicago convention, with the implied agreement that the restoration of the party to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy. The restoration of the party to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy."

"Let southern Democrats who contemplate the support of McKinley, the holding of Democratic ticket, which could only help McKinley without a chance of its success in a single state, seriously consider the probable effect of their action. They would help to restore to full power, and perhaps to perpetuate in power, a party agreeing with them only on one question, and that one attributable to a condition caused by Republican legislation and to disrupt and consign to lasting defeat a party agreeing with them on every other issue."

"Ought the venerable Democratic party to be destroyed because of its disunion or its error in regard to a single question of transient importance? Shall we abandon the vital principles and essential policies for which it has long contended simply because of disagreement on this question? Those principles and policies are the basis of the nation's life, and the rights of the states and the people's rights are not to be sacrificed to the selfish interests of a few. The restoration of the party to accept of the restoration of the party, and, having failed in the effort, they have now presented to them the political party with which they have long associated and whose maintenance they believe will preserve the people from the impasse of anarchy."

"The subject of irrigation is of growing importance all over the United States, and in my own state, Nebraska. When there was plenty of land which could be taken up and cultivated by natural rainfall, irrigation was little thought of, but now when the desirable land is about all gone, the reclamation of arid land is becoming a matter of much importance. The subject of irrigation is of growing importance all over the United States, and in my own state, Nebraska. When there was plenty of land which could be taken up and cultivated by natural rainfall, irrigation was little thought of, but now when the desirable land is about all gone, the reclamation of arid land is becoming a matter of much importance."

BRYAN ON THE PECOS.

Silver's National Champion and Democratic Presidential Candidate Impressed with the Great Southwest.

William Jennings Bryan.

Hon. W. J. Bryan, ex-congressman of Nebraska, and aggressive champion of the silver cause, who visited Eddy and Roswell in the month of January, this year, where he eloquently and convincingly expounded the doctrine of bimetalism, was especially attracted by the grand work accomplished here, evidences of which were to be seen on every hand. He welcomed every opportunity for inspection and was very warm in his expressions of commendation. The opinion of Mr. Bryan is especially desirable and authentic, emanating, as it does, from a personage made competent by exhaustive travel and close observation.

He willingly made the following statement just before he left the valley: "I am very glad, indeed, to have seen the Pecos valley. I had heard of the development of the resources of the valley before entering New Mexico, and at all the places visited after coming into the territory. You certainly have great possibilities. I have seen more of the country about Eddy than about Roswell, owing to the fact that my stay in Roswell was very brief. I was very much surprised at the magnitude of the plans of the irrigation company. They surpass in scope anything that I have ever heard of or read of, and as far as I can judge they are perfect in every detail. One must admire the genius which has conceived and the energy which has carried out these plans."

"The land about Roswell has been longer in cultivation and shows what can be accomplished, with time and experience all along the valley. The display of fruits and vegetables, together with other products of the valley, has to be seen to be appreciated. They are not to be described to a person who has not actually seen what has been grown here. The subject of irrigation is of growing importance all over the United States, and in my own state, Nebraska. When there was plenty of land which could be taken up and cultivated by natural rainfall, irrigation was little thought of, but now when the desirable land is about all gone, the reclamation of arid land is becoming a matter of much importance."

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted. Prices vary according to amount of matter, length of time run, position, number of changes, etc. One copy only of each paper in which an ad. appears will be sent free. Wood base electro not accepted. No display advertisements accepted for less than \$1 net, per month. No reduction in price made for "every other day" advertisements.

THURSDAY, AUGUST 20.

DEMOCRATIC TICKET

FOR PRESIDENT,
WILLIAM J. BRYAN,
OF NEBRASKA.

FOR VICE-PRESIDENT,
ARTHUR SEWALL,
OF MAINE.

SIXTEEN TO ONE.

Sixteen to one simply means the basis of valuation fixed by law between gold and silver, sixteen ounces of silver equaling in value one ounce of gold.

Previous to 1873 silver was received by the United States mints and coined on the 16 to 1 basis and the nation was prosperous. During that year silver was demonetized by a bill which simply dropped the words "Silver Dollar" from the volume law. It was some time after the bill was signed before it was known that it had killed the coinage of silver. President Grant claimed that he signed the measure without knowing the omission of the "Silver Dollar." Afterward Congressmen Bland introduced a bill to redenominate silver but it was vetoed by President Hayes. Finally in 1890 the Sherman act directing the government to purchase \$500,000 ounces per month was passed. This act was repealed in 1893 and silver again demonetized. Previous to this silver was also killed in India. Now the friends of the white metal simply ask that silver be restored to its old place.

The Andree balloon has been sighted near Victoria, B. C. It was going northward. Hurrah! the balloonists now know enough to go north for the north pole anyway!

It is in order now to boast of the magnificence of our new American line ships. The St. Louis and St. Paul hold the record for their class, with but two faster vessels afloat.

If the fool-killer is not too busily engaged down in Tom Watson's community, he can find a rare field for his labors just now over at Fort Worth where the Texas Democrats are in session.

Any man who prates about a 50 cent dollar in this country must have a very poor opinion of the American flag and the 72,000,000 sturdy Americans who stand ready to back its integrity before the world—"for money, marbles or chalk."

Partly nearly all New York seems to be wanting to hear what Senator Hill has to say about the Bryan-Sewall ticket. David ought to speak up or the first thing he knows somebody will be transposing his famous expression and make it read: "Am I a Democrat?"

Col. J. SHERIDAN's policy is almost inconsistent enough to guarantee him the nomination for county commissioner at the hands of Grant county Republicans this fall. He carries a 16 to 1 motto at the mast-head of the Silver City Enterprise, advocates McKinley's election and editorially argues that 16 to 1 won't do!

While the New York Journal, Financial News and other eastern papers are printing figures to show that Bryan can't be beaten for the presidency, McKinley's self-constituted statistician, Gen. Grovernor, of Ohio, is painfully silent these days. Isn't it about time that he was sharpening up his saber?

It would be interesting and instructive to know just how many gold dollars per hour Mark Hanna has contracted to pay

Bourke Cockran for delivering so-called Democratic goldbug speeches. If the contract approximates Cockran's estimate of his own importance and power it does not read less than three golden eagles per hour or a gold dollar per minute. Before the campaign closes Hanna will plentifully realize that talent, attached to such a gifted rooster as Cockran possesses, comes uncommonly high.

A WORTHY APPOINTMENT.

A worthy and popular officer of the army was deservedly honored yesterday when Col. Charles G. Sawtelle was named by the president as quartermaster-general of the army to succeed to the vacancy caused by Gen. Batchelder's retirement. Gen. Sawtelle was the ranking colonel in the quartermaster's department. He has long stood at the top of the list as one of the ablest and most efficient in the service, and high tributes have been repeatedly paid him by such men as Gen. Grant, Sheridan, Meigs, Canby and Hancock.

AFFAIRS IN DONA ANA.

The good people of Dona Ana county quite understand by this time that Gov. Thornton has the courage to go to the full limit of his lawful authority in order to put down crime and preserve law and order in that county. The commissioners recently named by the executive in lieu of those who had ignored the law and failed, after eighteen months, to assume full responsibility for their acts by filing the necessary official bonds, have recently appointed P. F. Garrett sheriff, and this fact means that good order will continue to be the rule down that way. There is no politics in this, however much the puny Republican organs along the Rio Grande may howl about it. There is no doubt but that those citizens who constitute the bone and sinew of public sentiment in Dona Ana county are satisfied with the action of the governor and the county commissioners, and as long as this is so the partisan organs can snarl and show their teeth as much as they like.

JOHN SHERMAN'S POLICY.

The squeezing process still goes on. The Wall street gang, who, under the operation of John Sherman's thirty years' manipulation of Republican congresses, absolutely control all money in the United States, have now directed their attention to hammering down the price of silver. They are succeeding admirably. Of course it would not do to permit silver to remain stationary or advance at this stage of the campaign, for that might be construed as indicating Bryan's election. Nine chances to one the same crowd of money sharks who are hammering the price down have agents at work quietly buying all the silver in sight in anticipation of a big advance this fall when a free coinage victory shall have been recorded by the voters of the nation. This manipulation of the people's money by a favored few is one of the reforms which must first be attended to in order that the great mass of our countrymen shall not serve as slaves to the classes. And Mr. Bryan will attend to it.

PRESS COMMENT.

The Optic persists in supporting the Republican candidate for president, while repudiating his platform. McKinley is no better than his platform, and it is a very weak proposition to support one and throw down the other.—Socorro Advertiser.

A 16 TO 1 PROPOSITION.

Delegate Catron's record in the last congress is said to have been 16 to 0. And his Republican friends, it is claimed, want to send him there for another term to accomplish something, they do not care what. We have no objections to his being a candidate this fall. No matter who our Republican friends nominate for congress he will be gloriously buried beneath an avalanche of silver votes on the 3rd day of next November.—Gallup Gleaner.

Who'll Eat Crow?

Judging by press expressions the Republicans of New Mexico intend to repudiate the financial plank in the national platform and insert a straddle or a free silver plank in their territorial declarations. While we would not be greatly surprised at anything that might be done by the Republicans in general and those of New Mexico in particular, this would surprise us some. We thought, after reading the St. Louis platform, that the limit of impertinent pretense had been reached and the acme of "gall" had been displayed. That the St. Louis platform, however, puts the American voter on notice. Its sophistry, thorough adroitness, is apparent to those who stop and reflect. Its deception lies in the promised results, not in the means used in reaching them. It fixes the status of the party and the course to be pursued. If the Republicans of the territory shall, in the face of the unequivocal gold declaration in the national platform, attempt any straddling or free silver cojology in their territorial platform, they will be guilty of perjury to their national organization and guilty of attempted fraud upon the voters of New Mexico. Such action would be equivalent to a declaration that they are willing to sacrifice principle and self-respect to secure votes. We think the party will ignore the press contentions for a repudiatory money plank and our opinion is based more on the fact that the Republicans fear it would not be successful at the polls than for any compunctions.—Roswell Record.

Mr. A. H. Cranbury, of No. 158 Kerr St., Memphis, Tenn., writes that his wife had cancer which had eaten large holes in her breast, and which the best physicians of the surrounding country treated, and pronounced incurable. Her grandmother and aunt had died of

Cancer
and when told this, the most eminent specialists of New York, under whose treatment she was placed, declared her case was hopeless. All treatment having failed, she was given up to die. S. S. S. was recommended, and astonishing as it may seem, a few bottles cured her sound and well. Our treatise on this disease will be sent free to any address. SWIFT SPECIFIC CO., Atlanta, Ga.

We are the Sole Makers

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of esauigre—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Land with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Pecos section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planned to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchaser. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

SEN. MONEY TALKS SILVER

Distinguished Mississippi Statesman
Greeted by a Fine Audience at the
Court House Last Night.

ELOQUENT CHAMPION OF BIMETALLISM

A Clear, Logical and Convincing Argument in Favor of Restoration of Silver to its Former Place as American Money Metal.

The first public meeting of the Bryan Democratic club of Santa Fe county was held at the court house in this city last evening and was in all respects a most gratifying success. The audience was one of the largest, most intelligent and appreciative gatherings of ladies and gentlemen ever assembled in the territory. Every seat in the spacious and beautiful court room was occupied and many people were glad to occupy standing room. It was a good deal like the audience that greeted Mr. Bryan when he delivered his masterly address on American bimetallicism in the same room last January and waves of the same enthusiasm that the magnetic and fascinating Nebraska orator kindled repeatedly swept over the meeting.

The gathering was called to order by Hon. George F. Money, president of the Bryan club and host of Senator Money, who said that he had known the speaker of the evening ever since he could recollect and intimated that he would like first rate for once to preside over him; but, yielding to the expressed wishes of many people and foregoing privilege in the interest of manifest propriety, he took great pleasure in calling Gov. Thornton to the chair.

Upon assuming the duties of president of the evening, Gov. Thornton was greeted with sincere applause from all parts of the hall. In a brief and fitting opening address, Gov. Thornton emphasized the vital importance to every one of the issue between the people and plutocracy pending in the campaign now in progress and congratulated the hearers upon the fact that he was privileged to present to them a distinguished orator and statesman who was thoroughly familiar with the great money metal problem and would illuminate it from the twofold standpoint of a profound student of the subject and a zealous patriot and friend of humanity. Then, amid a spontaneous burst of applause, he introduced Hon. H. D. Money, who has ably represented a Mississippi district in the lower house of congress for nearly fourteen years and who holds a commission as United States senator from his state for the six years ensuing the 4th of March, 1899.

Senator Money then began a plain, clear, candid, logical, satisfying, convincing exposition of the money metal problem that riveted the attention of his audience for two hours; removed doubt from many minds; conclusively answered a multiplicity of questions that arise every day, and armored hundreds of bimetallicists with fresh facts and arguments with which to combat the poisonous heresy of gold monometallism. The speaker made no effort to dazzle his auditors with brilliant flights of eloquence; studiously avoided appeals to the passions and prejudices of partisan politics; treated with fitting respect the honest opinions of persons whose views were not in harmony with those he entertained; addressed himself to the intellect and reason of his audience rather than to feeling and sentiment, and impressed all who heard the good fortune to hear him with his thorough mastery of his subject and the depth and honesty of his convictions.

He said that when he entered public life he was comparatively a young man and that the great economic question at present before the country was one of the first subjects that attracted his attention. He then and there registered a solemn vow dispassionately to investigate the subject, reach the truth, and guide his congressional action thereby without regard to any other consideration. After the most painstaking study of all the facts he arrived at the conclusion that silver was dropped from the coinage of the United States in 1873 as the result of a deliberate and carefully matured conspiracy of foreign and domestic bondholders; that this action was stealthily taken at a time when the silver dollar was actually worth more than a gold dollar and for this reason it was not noticed by the people for some time afterward; that the object of this conspiracy was to make the United States a party to the permanent destruction of bimetallicism in the world for the purpose of rendering dollars dearer and all forms of property and labor cheaper; that the accomplishment of this design would inevitably result in greatly enhancing the money and money demand holdings of the creditor class at the expense of the productive debtor classes; that, having arrived at these deliberate conclusions, one of his first votes in congress was cast in favor of the restoration of silver to its former place in our coinage system, and subsequent study and subsequent disbursements steadily served to strengthen him in the silver faith.

He then proceeded to an able amplification of the reasons that influenced his first and all his subsequent votes in congress on the silver question, supporting his propositions with a wealth of facts drawn from the records and from the practical experiences of the country during the twenty-three years that have elapsed since the silver dollar was stricken down and the sequestering processes of the gold standard conspirators have been in operation.

The stock arguments of the gold standard advocates, including the ridiculous rubbish about the effort to force upon the country a 50 cent dollar, the danger of enriching the "silver barons," the prospect of the United States being made the "dumping ground" for the world's silver and the awful danger of depriving foreign bondholders of the privilege of receiving payment in constantly rising dollars, were treated at length and in a manner

RAW
NO REST
NO SLEEP
DAY OR NIGHT

My hands were completely covered with Eczema, and between my fingers the skin was perfectly raw. I had to sit with both hands held up, and away from the fire. My husband had to dress and undress me like a baby. I tried the best physicians, but their medicines gave me no relief, and drove me almost crazy. I was advised to try CUTICURA REMEDIES, and did so, although my husband had to go twenty miles to get them. As soon as he got back, I used the CUTICURA, and in five minutes after the first application I was perfectly easy, and slept soundly all that night. Before I commenced using the CUTICURA REMEDIES I could get no ease night or day. I could not bear to get warm, I would put me in a rage of itching. I always keep the CUTICURA REMEDIES in my house now, and recommend them to everybody, because of their wonderful effect. Yours gratefully, AGNES M. HARRIS, Poughkeepsie, N. Y.

Sole and only agents for Santa Fe, N. M., and all the territory south of the Colorado River.

that vividly displayed their falsity and absurdity.

In conclusion the eloquent speaker paid a growing tribute to the ability, courage, honesty and patriotism of Mr. Bryan and predicted his election by an overwhelming popular vote. Then, he said, the country would enter upon an era of unexampled prosperity in which the parity between money and property and the fruits of human labor would be restored and ruinous money hoarding would cease.

ROUND ABOUT TOWN.

Cyclers meet to-night at Fireman's hall.

U. S. weather bureau forecast for New Mexico: Fair.

There will be a regular meeting of the guild at 2:30 to-morrow at the home of Mrs. Thornton.

There will be a meeting of Myrtle Rebekah lodge No. 9 at 7 o'clock this evening at Azatlan hall, lower 'Frisco street.

Fish stories galore are related in the plaza these days, and the fellows who sit around with their summer girls also have their yarns to spin—truly the plaza is a jolly spot for the territorial visitor.

There will be a meeting of Paradise lodge No. 2, I. O. O. F., this evening at 8 o'clock. All the local and visiting Odd Fellows are invited to attend as Grand Master N. E. Stevens, of Albuquerque, will be present.

Dan Creamer has been appointed agent at Lamy junction and will leave with his family next week for his new station. Though congratulating Mr. Creamer on the deserved recognition of his services, his many friends in Rincon very much regret to lose such a good citizen. The well wishes of all go with him.—Rincon Weekly.

As announced in the New Mexican thirty days ago a new train schedule will go into effect on the A. T. & S. F. about September 1. The most important change looked for is the re-establishment of the limited train service between Chicago and Los Angeles. The equipment of trains 3 and 4 will consist only of first-class Pullman sleepers, dining car and one baggage car, with a compartment car once a week. The extra baggage and express will be made a part of trains 1 and 2, which will then cease to carry first-class sleepers, and carry only tourist sleepers and coaches. As before, no free transportation will be honored on the limited trains.

A visit to the extensive reservoir of the Santa Fe Water company is a treat indeed. The water is very clear and clean and the reservoir and the large and gleaming sheet of water presents a beautiful appearance. Santa Fe may well be proud of its water supply. Major Kimball, surgeon U. S. Army, now stationed at Fort Wingate, after careful chemical analysis, declares the water in the Rio Santa Fe from which the reservoir is filled the finest and most healthful he has found in all his thirty years' experience as a surgeon in the army. He came to Santa Fe from Texas very much indispensed and ascribes his permanent cure to the use of this water. Two things here at least are first-class—the climate and the water.

Harry Viles, of the upper Pecos, is in town. He and Jake Gable, the champion bear killer of that region, rescued a couple of prospectors from starvation a few days since. August Brun and a man named Sullivan have been prospecting for copper in the Truchas peaks region and their supplies are furnished by a Las Vegas firm, delivered at Bullock's ranch. The other day they left camp, in the vicinity of Beatty's cabin, on the Mora fork, and started for Bullock's, but lost their way. Finally they became separated. Sullivan made his way to Mrs. Viles' ranch and reported Brun as lost. The boys started out immediately on horse-back and found Brun in the Panchoyella canon almost dead. He had had no food for two days.

PERSONAL.

Hon. A. A. Freeman, of Eddy, is a visitor here to-day.

At the Exchange: E. W. Eaton, Socorro; J. J. Eaton, El Paso; E. G. Ross, Albuquerque.

Senator Money left to-day for a visit at Albuquerque. Mr. George F. Money follows to-night.

Mr. H. A. Purdy, son of Major Purdy, returned this morning from a visit to friends in Albuquerque.

Sheriff H. O. Bursam is in town from Socorro. He admits that he will be a candidate for re-election this fall.

Messrs. P. B. Otero, L. F. Parker and a party of friends left this morning to spend two weeks at the Hot Sulphur springs.

Don Pascual Baos, of Anton Chico, is here on land court business, and reports range grass, cattle, sheep and crops all O. K. in Guadalupe county.

Major E. G. Ross returned this morning from the south where he has been gathering data for the bureau of immigration irrigation pamphlet.

Mr. O. N. Marron, clerk of Judge Collier's court and one of the prime movers in the Albuquerque goldite convention, came up from the south this morning.

Ex-Sheriff Frank C. Chavez, of Rio Arriba county, and Mr. Anastacio Baos, of Barranca, are here on business before the land court in connection with the Barranca grant.

Mr. N. E. Stevens, of Albuquerque, grand master of the I. O. O. F., of New Mexico, is here to-day on a visit. He will be formally greeted at the meeting of the local lodge to-night.

Arrivals at the Bon Ton: R. Richardson, Antonio; C. A. Carruth, Denver; Hank Easton, Abiquia; M. A. Ortiz, Las Vegas; Jose O. Lujan, Taos; Andrew Comstock, Trinidad; Robert Cassidy, Jerome.

Dr. Connelly, of Decatur, Texas, interested in placer mines near Embudo, has arrived here with his family for a long sojourn. They are comfortably domiciled in the Glendene house.

At the Palace: C. W. Smith, Albuquerque; E. S. Waddles, St. Joseph; J. Law, P. Stimmel, C. Van Dyne, Antonio; R.

O. Leary, Kenesburg; H. O. Bursam, Socorro; Rev. A. Brueher, Denver; E. Wilder, Topeka; E. T. Wilder, Chicago.

Col. E. W. Eaton, of Socorro, a staunch Republican who believes in the principles represented by Bryan and Sewall, is here on a visit to-day. He is accompanied by his son, Mr. Joseph Eaton, who has long been operating mines in Mexico.

Mr. E. Wilder, of Topeka, for a generation the faithful and painstaking treasurer of the A. T. & S. F. system and all its sub-corporations, is a visitor in Santa Fe to-day. He is accompanied by his promising son, Mr. E. T. Wilder, of Chicago, also connected with the A. T. & S. F.

Capt. C. N. Sterry, general solicitor for the Atlantic & Pacific railroad, not only a genial gentleman but one of the west's ablest attorneys, is a visitor in the capital city. Few men on earth to-day can combine more fun with serious business than Capt. Sterry. He's one of the men that should never die. The world needs more of 'em.

THE COURTS TO-DAY.

Cases Argued and Submitted in the Supreme Court—Transactions in U. S. Land Court.

In the New Mexico supreme court yesterday afternoon the case of Solpio Aguilar, plaintiff in error, vs. The Territory of New Mexico, was argued and submitted.

The case of The Territory of New Mexico, appellee, vs. Jose Chavez y Chavez, was argued and submitted this forenoon. Solicitor-General Victory represented the territory, and Veedler & Veedler appeared for the appellant.

Capt. C. N. Sterry, general solicitor of the Atlantic & Pacific railroad, was admitted to practice before the court.

Argument of the following appeal from Bernalillo county began at 2 o'clock this afternoon:

The United States Trust company of New York, vs. Atlantic & Pacific R. R. Co., et al., in the matter of the intervening petition of the Territory of New Mexico, appellee.

The United States Trust Co., of New York, and C. W. Smith receiver of the property of the Atlantic & Pacific R. R. Co., appellants.

U. S. LAND COURT.
The San Ignacio de la Canoa grant case, involving 47,000 acres, and Buena Vista grant case, involving 18,648 acres, both grants in Arizona, were re-argued in the United States court of private land claims this forenoon. Rochester Ford, of Tucson, and Robert B. Lyons, of Milwaukee, represented the grant claimants and Assistant Attorney Pope appeared for the government.

In the San Clemente grant case, Mr. F. W. Chaney filed a petition of Solomon Luna, of Los Lunas, asking to be made a co-petitioner with J. Francisco Chavez in the case.

Argument of Sierra Mesa or J. L. Ortiz grant case was resumed this afternoon.

Private Sale.
Household furniture for sale. Inquire at the residence next to the cathedral. E. J. Newton.

OJO CALIENTE

(HOT SPRINGS.)

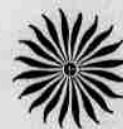

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 123°. The gases are carbonic. Altitude 5,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1886.34 grains of alkaline salts to the gallon; being the richest Alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$3.50 per day. Reduced rates given by the month. For further particulars address—

ANTONIO JOSEPH, Prop.,

Ojo Caliente, Taos County, New Mexico.

Passengers for Ojo Caliente can leave Santa Fe at 11:40 a. m. and reach Ojo Caliente at 6 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7.
