## BRYAN IN THE EMPIRE STATE

Greeted by Enthusiastic Thousands at Utica, Syracuse and Other Central New York Cities.

## HANNA HEDGING ON MONEY QUESTION

Silver's Cause Steadily Gaining Supporters Throughout the Country—Perfect Fusion Effected in Michigan.

Syracuse, N. Y., Aug. 26.—W. J. Bryan took up campaigning to-day almost before the sun was up. After a few hours of rest, following the Utica meeting, which did not end until half past 12 o'clock, he and his wife, Mrs. Bryan, boarded the local passenger train, which left Utica at 7:15 a. m. There was no parlor car and they took seats in the common coach, where the passengers crowded about them for handshakes and autographs. Mr. Bryan had little to say about the dinner with Senator Hill, undoubtedly one of the most important events of his New York tour. "It was purely a social affair," he said.

Although the absence of Hill from the political meeting, which followed the dinner, was commented upon, a remark made by Mr. Bryan in his Albany speech, that the support of those Democrats who did not endorse every plank in the platform was expected, was commented upon as significant.

There is a general impression among those with the campaign, that he received assurances that Hill will declare for the ticket. At Rome there assembled 300 people to whom Mr. Bryan said: "I do not suppose the train will stop long enough for me to say anything to you, but I imagine from what I can see that you are not afraid of being overwhelmed with a flood of money. Some of our opponents tell us that if we have free coinage of silver we will have so much money we won't know what to do with it. Then again they tell us that the gold of the country would go out of circulation and we would not be able to coin enough silver for our use. It rather amuses me that they expect people to believe this, because there are lots of towns in this country that would not object to the looting of mints in their midst. We do not believe that the free coinage of silver will do it. We believe that the free coinage of silver would bring gold to this country and that, too, without the aid of syndicates."

Syracuse.—In Hanover Square, Syracuse, 5,000 people gathered to hear Bryan. Hanna's Hedging.—Mark A. Hanna, speaking of an interview with him in Boston, said: "If I was quoted correctly, what I said was that many Republicans out west are regarded as friends of free silver because they are bimetalists. These men will vote for McKinley because they are good Republicans. The party favors bimetalism but only by international agreement. The silver people are claiming every one as a convert to free silver who is friendly to the white metal. This is incorrect."

Silver's Cause Gaining Strength. Washington, Aug. 26.—The executive committee of the national silver party has decided that headquarters be established in Washington and Chicago, both to be of equal importance. The report of the national committee of silver clubs, Geo. P. Keeny, with reference to the number of Republicans placed on the rolls, is most encouraging. In the Mississippi valley states clubs are being organized by hundreds.

Fusion in Minnesota. St. Cloud, Minn., Aug. 26.—The populist congressional convention in the 6th district unanimously endorsed Chas. A. Towne, the Duluth free silver Republican congressman.

Merely a Technical Trick. San Francisco, Aug. 26.—The call says: "Secretary of State Brown says that he will refuse to place upon the ticket the names of the fusion Democratic and Populist presidential electors on the ground that the election law of California requiring the names of the electors to be arranged alphabetically in groups and the party designations. He says that as soon as the fusionists present the names to him he will ask the attorney general for an opinion in the matter."

Hanna Democrats in Iowa. Des Moines, Iowa, Aug. 26.—Henry Vollmer, chairman of the gold Democratic committee, called the state convention of national Democrats to order at 11 o'clock to-day. The Grand opera house was packed when J. E. E. Markley rose to make his address as chairman.

Fusion Effected in Michigan. Bay City, Mich., Aug. 26.—Conferees appointed by the conventions yesterday reached an agreement at 11 o'clock to-morrow. They decided that the name at the head of the ticket should be "Democratic-Union-Silver Party."

The Populists are accorded three electors and the nomination for auditor-general. The three conventions will meet in joint convention to nominate a state ticket and the Populists and Silver men together are to have representation equal to that of the Democrats.

New York Republicans. Saratoga, Aug. 26.—The Republican convention was called to order at 11:45. Mr. Sheard, of Herkimer, answered Warner Miller's speech of last evening. He denied that there had been any fraud at the primaries.

Balloting for governor was resumed. Congressman Frank B. Black, of Troy, was nominated for governor on to-day's second ballot. Timothy L. Woodruff, of Brooklyn, was nominated for lieutenant-governor on the first ballot. The secretary was directed to cast the vote of the convention for Irving G. Vane, of Syracuse, for associate judge of the court of appeals. Adjourned.

## Powder Works Blown Up.

Xenia, Ohio, Aug. 26.—The dry house of the Miami powder works, five miles north of Xenia, blew up this morning, shaking the country miles around and killing Frank Eick, powder boss, and Elias Figgins, engineer.

## Good Sales of Silver.

New York, Aug. 24.—One of the large foreign houses here dealing in silver says: Our advices are that India last week bought a good deal of silver, and that there is likely to be enough buying for coinage purposes by eastern countries for the balance of this month to keep the price steady around 67. Under the present conditions of supply here, high quotations the latter part of last week on the stock exchange were rather for effect upon the market over the country.

## NATIONAL POLITICS.

### A M'ANNATTE CALLED DOWN.

Magnolia, Ark.—Congressman McKee takes exception to a statement recently made by Senator-elect Foraker. Mr. McKee says: "Governor Foraker, in a speech at Columbus, Ohio, last Saturday, which he says he prepared for the press in advance, made the remarkable statement that 'the reason silver dollars are maintained at par with gold is because silver dollars and every other form of United States money are redeemable in gold.'"

"A statement made by an ex-governor and senator-elect ought to be accurate, but in this case it is wanting in all the elements of truth. Not a standard silver dollar, nor a silver certificate, has ever been redeemable in gold. They are receivable for all public and private debts—this and nothing more, has the government done, or promised to do, for silver."

"It has been denounced and boycotted by the treasury officials and the most of the national banks since the passage of the Bland act of 1876, and yet is as good as gold here or elsewhere. I put against the statement of Gov. Foraker the following official letter from the treasury department:—"

"Washington, D. C., Aug. 9, 1895.—Hon. Chas. C. McKee, Prescott, Ark.: Sir—In reply to your letter of the 6th inst., I have the honor to inform you that this department does not redeem either standard silver dollars or silver certificates in gold. Both are receivable for all debts due to the United States, but silver certificates are redeemable only in standard silver dollars, and the latter, being standard coins of the United States, are not redeemable in any other form of money. Respectfully yours,

"A. T. Stewart, Secretary."

"The present silver dollar is redemption money to the extent that they do not require redemption themselves. The complaint of the people against the secretary of the treasury is that they are not used to redeem the paper obligations of the government, all of which are payable in coin—gold or silver."

RAILROAD MAN TALKS. Editor El Paso Times.—I am an employee of a corporation, one of the dear workmen that Mark Hanna and the Wall street goldbugs so deeply interested in, and for whose sake they propose to spend millions of dollars. Now the corporation of which I am an employee is sending its literature in favor of the gold standard, and is trying to use its influence with its employees to the end that they vote for the (English) gold standard. I am told that the dollar will to-day buy twice as much as formerly, therefore it is for my interest to see that this high price of the dollar is continued in existence and the more it appreciates in value the better it is for me.

Now the question that arises in my mind is this: If this dollar buys twice as much as formerly is it not buying twice as much of the product of the soil as the farmer's labor? And if this is true does it not reduce his limit of consumption one-half? Consequently he can only consume one-half of the product of my labor, and I must be idle one-half of my time, therefore only earn one-half the dollar I should otherwise earn, or if I am employed all the time, some other workman is idle all the time. Such being the case I am convinced that this dollar, that buys twice as much as formerly, is the cause of the enforced idleness of the 2,500,000 idle men who are tramping around our country, and being so concerned in my duty to my fellow workman who is in enforced idleness, to work and vote for the reduction of this 200 cent dollar, and work for all workmen all the time, regardless of the possibility of a reduction in the purchasing power of this dishonest 200 cent dollar.

Now I am wrong in the position I have taken, will some gold advocate show me where I am wrong? I dare not sign my name for fear of becoming one of those who are idle all the time. I will sign for Bryan and free silver as a WORKMAN.

## SILVER IN OHIO.

Pueblo, Colo.—C. P. Sweetman is major-general of the Ohio division of the Royal Foresters and is the proprietor of the largest paper and printing house in Dayton and has always been a Republican. He writes to S. J. Burnes, a fellow Forester of this city: "About this time a year ago we were on the verge of deep and serious discussion of the silver question, or rather you were trying to teach the philosophy of the same to a lot of ignoramuses—myself possibly the biggest one in the group. Well, old man, I have been converted to your side of the question, and am now trying to make converts of my past short-comings. The fact of the matter is, everybody is for silver and the more we know of it the better we like it. Keep your eyes on Ohio! If Mr. McKinley don't get a drubbing in his own state all signs fail."

From a prominent wholesale man in Dayton to a brother in Pueblo comes the following letter. The writer has always been a strong Republican, but is now a silver man. His views are those of a conservative man of affairs: "As regards to silver, you are well aware of the ovation that Bryan received in Ohio and the east. — was up in northern Ohio this week when Bryan went through and he said everybody was wild for silver, the leading Republican was out for Bryan. The silver element is growing stronger here every day. The farmers are almost unanimous for Bryan. The Republicans are nevertheless working hard, forming clubs and using all kinds of tactics to secure men to vote for McKinley. The Republicans are very badly scared and I would not be afraid to stake my life on Bryan carrying Ohio if election were next week. Wall street has lost loads of money, but I do not think it will do any good. We organized a special Bryan and Sewall drill club and expect about 300 young men."

## Army Medals.

Medals of honor have been awarded by the war department to Capt. E. W. Wilder, 4th cavalry, and John Schmitter, private of company, for most distinguished gallantry in action against hostile Indians at Horsehoe canon, N. M., in April 1895, in assisting to rescue under heavy fire Private Leonard, who was wounded.

## A BIG FAILURE IN NEW YORK

The Immense Dry Goods House of Hilton, Hughes & Co. Collapsed This Morning.

## STRINGENCY OF MONEY MARKET DID IT

Assignee Wright Makes a Plausible Showing, But Practical People will Generally Discount His Statement.

New York, Aug. 26.—The dry goods firm of Hilton, Hughes & Co., once A. T. Stewart & Co., made an assignment to-day to G. M. Wright, without preference. Elihu Root is attorney for the assignee. Among the banks of Wall street the failure is believed to be due to the great decline in business. The firm's credit during the last five years has been badly impaired.

It is understood that little of the firm's single name paper is out. The firm has been taking stock for several weeks and recently understood that the great decline in business. The firm's credit during the last five years has been badly impaired.

It is reported that Siegel, Cooper & Co. will take over the stock of Hilton, Hughes & Co. The assignment was made by Albert G. Elton, who composed the firm. No statement has yet been made as to the amount of liabilities and assets.

All the windows show drawn blinds in the big building, taking in the whole block surrounded by Ninth and Tenth streets, Fourth avenue and Broadway.

After close of business last night, there was a conference between Hilton and the managers of the various departments. The books were gone over carefully. The conference lasted late, and early this morning came the decision that the house must close its doors.

According to what employees hurried up to the building this morning, they found on each door the following notice: "All employees are notified that their services are no longer required and that they will be paid in full to and including this day. The store will be closed until further notice."

[Signed] "HILTON, HUGHES, & CO. 'GEO. M. WRIGHT, Assignee.'" There were many grave faces among the former employees. Many said it was no surprise to them. Wright was not at the office when the reporters called. His clerk said that the trouble was caused by the stringency in the money market.

The following statement, prepared by Assignee George M. Wright, was given out later: "Parties in interest became satisfied that the business was not making a profit. It was therefore determined to close it. It was supposed that this could be done by a closing out sale without any general assignment. With this end in view Judge Hilton, within the last month, advanced \$250,000 to the firm to pay on account of merchandise claims. He has during the last few years advanced money enough to pay all secured claims, but in the present stringency it was more than inconvenient to raise that amount at once though the amount is not more than \$800,000. The difficulties every merchant and banker knows. As the claims were pressing, there seemed no other way to close the business with equal justice to all the creditors, and preserve the property from sacrifices but by a general assignment without preference. It is believed that all merchandise and general debts can be paid in full out of the sale of the stock and the collection of outstanding accounts. The bank paper is secured and will of course all be paid. Negotiations are pending for the sale of the whole stock, which, if carried through, will result in a settlement of all debts in a very short time."

## GOODYEAR FAILURE IN PHILADELPHIA.

Philadelphia.—Paul Brown, trading as J. W. Brown & Co., who had been assigned an assignment for the benefit of creditors. Liabilities, \$100,000; assets, \$50,000.

## Quite English, You Know.

Washington, Aug. 26.—The civil service commission has issued an order to federal office holders warning all employees against seeking or making contributions for campaign purposes. Violators will be prosecuted.

## ROW IN LOUISVILLE.

The Pesticiferous A. P. A. People Pre-empted Trouble in the Municipal Government of the Kentucky Metropolis.

Louisville, August, 26.—The expected crisis in the fight of the A. P. A. board of aldermen and the Republican mayor against the Democratic board of public safety, which controls the police, fire, charitable and penal institutions, came last night.

At a late hour, the city hall was surrounded by thousands of A. P. A. sympathizers. Mayor Thompson has been trying to oust the board of safety, but the aldermen, who confirm the appointments, demanded A. P. A's.

Todd consented to appoint a majority of the A. P. A's and impeachment of the board was begun. The board safely secured an injunction. When the sheriff's deputy sought to serve the writs the doors were locked.

The aldermen made three removals. Mayor Todd made like number of recommendations which were confirmed. The aldermen then adjourned and writ of contempt returnable to day were served upon Mayor Todd and twelve aldermen.

## Cleveland Strike Ended.

Cleveland, Ohio, Aug. 26.—The locked out men of the Brown Hoisting & Conveying company's hoisting works voted to-day to return to work and the famous strike, productive of several riots, was broken.

## Yacht Racing on Lake Erie.

Toledo, Ohio, Aug. 26.—The decided defeat of the American cup challenger by the Canadian yacht yesterday has not crushed the hopes of Vencador's friends. They admit that the Canada can out sail the Vencador in anything less than an eight-mile an hour breeze. The judges decided this morning that the course to-day shall be five miles windward and return, to be sailed twice, thus making a twenty mile sail. The wind is directly from the north, blowing fifteen or sixteen miles an hour.

## WEEKLY CROP BULLETIN.

Another Warm and Dry Week Followed by Falling Temperature and Light Showers—Crops and Ranges in Fair Condition.

U. S. DEPARTMENT OF AGRICULTURE, Weather Bureau, Santa Fe, N. M., August 25, 1896.

The week ending August 24 was very warm and generally dry up to the 22d when light rains occurred and the temperature took a decided fall.

In many localities the crops and stock ranges were suffering for rain, but in others the conditions were favorable. Southwestern Socongo and western Grand counties were favored with good rainfall and the stock ranges are reported to be in good condition.

The Mogollon district in southwestern Socongo county was visited with floods, doing a great deal of damage and causing loss of some lives.

Mora and Colfax counties are reported to be very dry and the stock ranges in poor condition in most localities there.

Thus far there has been no general lack of water for irrigation and crops are generally in good condition throughout the territory.

The following extracts from a few of the reports received at this office will be found of interest: Albuquerque.—A. Montoya, Jr.—On the whole dry and warm weather has prevailed during the past week except one light shower on Friday afternoon. Third crop of alfalfa being cut. Grapes and melons in the market. Ranges are in very good condition and stock gaining flesh rapidly. River is dry and if rains do not come soon all crops will suffer. Some kinds of vegetables are drying up now.

Alma.—Wm. French.—This month has been a great improvement on July and places. There has been very heavy rain in places. The town of Mogollon was badly damaged by flood on the 18th and 19th. Some of the crops are good, corn especially so.

Atasco.—Prof. H. H. Griffin.—Very hot and quite oppressive with only a trace of rain. Vegetables of all sorts are going to market in quantity.

Bernalillo.—Brother Gabriel.—Weather continued dry during the past week with the exception of a fine shower on Saturday. Crops in general fair enough. Corn and grapes beginning to ripen. Alfalfa growing rapidly and promises a good third crop. Vegetable gardens pretty fair in most localities where irrigation is convenient. River continues low and ditches are supplied with difficulty. Ranges pretty fair and cattle in general in fairly good condition. Days quite warm and nights cool.

Bluewater.—Col. J. B. Van Doren.—A hot, dry, clear day. Clouds would come up for an hour every afternoon with precipitation at a distance. Pasture good, many cattle being driven in for the grazing. Yield of hay and grain light. Root crops, corn, sorghum and Egyptian corn and potatoes extra good. No sickness in the stock.

Cirela.—A. M. Hollenbeck.—Still hot and dry, no rain to speak of in the last three weeks. Everything needs rain badly, especially for stock. The outlook for hay, except in some meadows very poor.

Las Cruces.—J. G. Willett.—Hot and dry, no grass or ranges, but crops are fine, never better. Plenty of water for irrigation. Finest corn I ever saw in New Mexico. Third crop of alfalfa coming on rapidly and will soon be out and will be an extra crop.

Salinas Springs.—J. E. Whitmore.—The past week was about the same temperature and no rain to amount to anything. The crops in this vicinity are nearly gone up as most of them are "temperatures" and when they have had rain it only kept them alive.

Las Cruces.—Fabian Garcia.—Weather has been clear and warm and with the exception of a light shower on the 22nd, no rain. As we have had no rain and no water in the ditches crops and trees are beginning to need rain again. Fourth crop of alfalfa will be very light unless crop of alfalfa will be very light unless we have more rain soon. Grapes and melons are abundant.

Las Vegas.—Dr. F. H. Atkins.—Six days hot and dry, and a cool all-day rain on Saturday; still the rain is hardly sufficient for the alfalfa grass which is much behind past three years' state. Much head and all crops are behind hand and inferior.

## COFFEE FIELDS DESTROYED

Reported That Insurgents Have Recently Burned Thirty Plantations in Santiago de Cuba.

## WEYLER'S DECREE AGAINST PLANTERS

Landing of a Formidable Filibustering Expedition from Philadelphia in Cuba—Ecuador Revolution Ended—Turkey's Answer.

Havana, August 26.—It is reported that the insurgents burned over thirty coffee and coconut plantations in the province of Santiago de Cuba. It is estimated that over \$1,000,000 worth of property was destroyed. The estates were owned by French citizens who remained neutral. At a meeting of the board of trade it was announced that Weyler's decree, prohibiting the planting, cultivating and harvesting of sugar and coffee crops be fully enforced.

## Ecuador Revolution Ended.

Panama, Colombia, Aug. 26.—A correspondent in Ecuador sends word that the rebel stronghold in the mountainous district of Cuenca has fallen, practically putting an end to the revolution in Ecuador against Alfaro, headed by one Vega, openly supported with money, men and arms by the clergy.

## Answer Unsatisfactory.

Constantinople, Aug. 26.—U. S. Minister Terrell has notified the Turkish government that the latter's answer to the demands of the United States for indemnity for the burning of the American missions at Kharput and Marash is not satisfactory.

## Formidable Filibustering Expedition.

Philadelphia, Aug. 26.—According to cablegrams received in this city, the steamer Laurada, which sailed from this port for Cuba on August 6, landed one of the most formidable filibustering expeditions yet shipped to Cuba, consisting of 50,000 pounds of dynamite, eleven field guns, four cannons, seven Gatlings, a quantity of ammunition and nearly 200 men.

## ONTONAGON BURNED.

A Flourishing Manufacturing City in Northern Michigan Wiped Out the Earth by Fire.

Houghton, Mich., Aug. 26.—The fire, which destroyed Ontonagon yesterday, originated in a swamp just south of the Diamond Match Co's mills. A forty-mile gale swept the flames before it and the planing mills, box factory and immense dry kilns were soon a mass of ashes.

Flames then descended on the business and residence quarters of the city and finally lodged in 65,000,000 feet of sawed lumber on the dock.

The destruction of the village was complete, barely a dozen houses in the suburbs remaining. The onslaught of the flames was so sudden that barely one in twenty succeeded in saving any effects.

The heat was so intense that the people were compelled to seek shelter under the trees and drifted wood along the lake shore. Many walked to Rockland, fifteen miles. There are about 1,800 men, women and children without food or shelter. Many are insufficiently clad and suffered severely last night.

The Diamond Match company lost nearly \$2,000,000 and lumber worth nearly \$1,000,000. The insurance was \$75,000.

The loss on the village will foot up to about \$2,000,000 with \$200,000 insurance. Houghton and Hancock are raising provisions and clothing. Money is needed.

London, Aug. 26.—The Westminster Gazette this afternoon publishes a long article calling attention to the political campaign in the United States as being not only a battle of the east and west but between the American debtor and the British creditor, and advises Englishmen desiring the defeat of free silver to restrain their shouting for McKinley.

## MENACED BY ENGLAND.

British War Ships Have Landed Many Marines at Zanzibar and Threaten to Depose the New Sultan.

Zanzibar, August 26.—The night passed quietly. Said Khalid is still in possession of the palace square, the guns of which are trained on the British war ships Philomel, Brush and Sparrow, which landed sailors to protect the British consulate where the ladies are lodged.

## DEMOCRATIC TICKET

FOR PRESIDENT,  
**WILLIAM J. BRYAN,**  
OF NEBRASKA.

FOR VICE-PRESIDENT,  
**ARTHUR SEWALL,**  
OF MAINE.

THOMAS C. PLATT's positive refusal to become the McHanna standard bearer in New York this fall means something.

The harmonious union which has been developed among the Democrats of Eddy, Chaves and Lincoln counties is a happy augury of the result in this fall's campaign.

DON KEDZIE's explanation as to how D. C. Hobart, of Silver City, gets his railroad passes is timely and plausible. However, the Raton Reporter and the Clayton Enterprise will no doubt take issue with Kedzie on this proposition.

AGAIN! 'Kah for Missouri. Grand old state that. Here we find her safe for 40,000 majority for true Democracy and free coinage, and yet one of her most brilliant sons is called to a seat in Mr. Cleveland's cabinet. Well, the president has to go somewhere to get good men, and there are as many of them in Missouri to the square foot as any place on earth.

This is about the proper time of the year for the biennial Thomasburns item. Here it is: "The friends of Hon. Thos. D. Burns, of Rio Arriba county, have urged him to become a candidate for delegate to congress, believing him to be the best man in the territory for the position. The Citizen is authorized to state that Mr. Burns will not be a candidate, his extensive business occupying all his time." This sort of a paragraph has appeared in the organs every two years for the past decade. Some men never catch on. Mr. Burns appears to be one of them.

It is openly admitted that the New England manufacturers have shut down their works and thrown thousands of workmen out of employment for the sole purpose of coercing them into voting for McKinley and Hanna's gold standard idea. Western workmen everywhere will resent this by all the more zealously supporting Bryan and Sewall and free coinage, and in the west, the real battle ground, these votes will count for double their ordinary value this year, for even should the scheme succeed in New England, which is conceded to the gold standard, the western workmen will make the pivotal states just so much surer for the Democratic ticket. Hanna has thus been fully checked again.

### A TENDER BUD.

The Las Vegas Optic seems to think that the Las Cruces Republican's advocacy of ex-Gov. Prince for delegate; Perea for governor and T. Adonis Finafor secretary is really serious. Perea will sell out the whole state at Las Vegas to make Catron the nominee for delegate

and nip Gillie Otero's prospects for the U. S. marshalship. See if he doesn't. Then where will Judge McFie be in his race for U. S. attorney with Catron's law partner, Spiess booked for that job by the real bosses? Truly, the Optic is as yet a tender political bud.

### THE PRACTICAL SIDE OF IT.

There are said to be just twenty-four goldite Democrats in Albuquerque—an even two dozen. In the whole territory there are probably not 150 voters of this class, and, when we come to consider that fully 2,500 citizens who formerly voted the Republican ticket will this year support the Bryan and Sewall platform, we may justly conclude that true Democracy has nothing whatever to fear as a result of the so-called Democratic gold movement. In fact, to be extremely candid, it looks as if the leaders in this movement had set about the thankless task of butting their heads against a stone wall. We do not in the least question the sincerity of these gentlemen, but the above is the practical side of the question, and in contemplating it it is not difficult to see where they will land. They are making their own political bed; let them lie in it.

### THE INTERIOR PORTFOLIO.

The resignation of Secretary Hoke Smith from Mr. Cleveland's cabinet is a very serious blow to goldbugism and equally an important acquisition for Bryan and Sewall and the cause they represent. Mr. Smith has long stood before the public as the broadest and most sincere statesman connected with the administration. He is a Democrat who believes in abiding by the voice of the majority, and while he may not accept all that the national Democratic platform sets forth, still there is in it so much of timely moment to the country that he can not forego the duty of supporting it even at the expense of relinquishing a seat in the cabinet. Mr. Smith has made an admirable public official in all respects. He retires from office with the consciousness of having performed well and faithfully his duties, and he carries with him the respect and esteem of the masses of the American people. His successor, ex-Gov. David R. Francis, of Missouri, is a man in every sense worthy of occupying his official seat at the cabinet table, and the west is to be congratulated upon his selection for the place. Indeed, his appointment by the president comes to the west in the nature of an agreeable surprise. Gov. Francis is able, popular throughout the whole country, and, above all, is thoroughly practical, and although he has but little over six months to serve as secretary of the interior under Mr. Cleveland, we are satisfied that he will make a shining record for himself and do honor to Missouri and to the national administration.

### PRESS COMMENT.

**Tariff Bills Compared.**  
Revenue last year of McKinley law, \$109,784,991  
Revenue first year of Gorman-Wilson law, \$109,784,991  
The difference between the two systems, \$30,484,991  
Per capita difference between them, 30 1/2 cents.  
And still our Republican protectionist friends insist that a paltry difference of 30 cents to each person in this republic is great enough to make an issue in this campaign.—Denver Post.

### Legislative Members.

Special attention should be given to the nomination of capable men who have the interests of the territory at heart for members of the assembly and council. New Mexico has a long list of laws which are no honor to the men who made them, and it is also badly in need of measures for the financial and general welfare which are too numerous to enumerate.—La Belle Cresset.

**Just the Name in All the States.**  
A private letter received by a citizen of Raton, from near Buffalo, N. Y., states that the farmers of that section are thoroughly aroused over the financial situation and that they will vote solidly for Bryan. The writer of the latter states that never in the history of the state has political sentiment been so unanimous.—Raton Reporter.

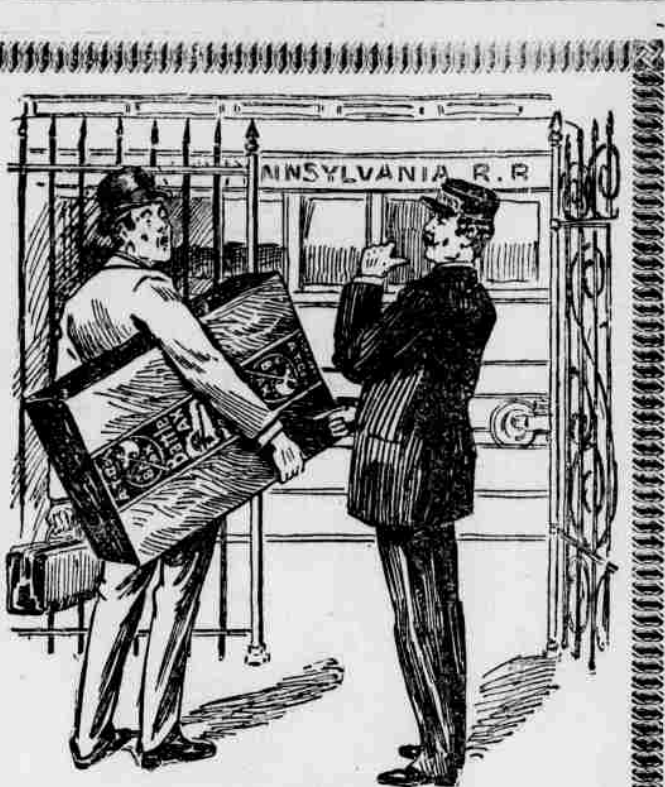

### The Logical Candidate.

Some of the Democrats in New Mexico seem to think that Catron will not be the Republican candidate for delegate this fall. In this case the fear is rather to the thought. Brace up gentlemen. Catron is the logical candidate of that party of greed and selfishness. In fact, he is the typical Republican of New Mexico. Besides that, he is the party boss, and wants a vindication of his course in congress, and then he has more boys to provide for. Catron is entitled to re-nomination at the hands of his party.—Roswell Record.

### Bryan and Cookran.

Oh, Bryan, go hide yourself and waste your wretched life away in penitence and shame! Bourke Cookran has breathed upon you.  
So it is all over. The New York newspapers have defeated Bryan and triumphantly elected McKinley. Bryan made a speech which some 30,000 miserable vagabonds went to hear, and Cookran made a speech which some "clear-eyed thinkers" did hear, and thus the rule of the nation has been settled happily. When we think of what might have happened if Cookran had remained in his native land beyond the sea instead of coming back here to teach native Americans the meaning of such words as honor, patriotism and duty, we shudder with a mighty shudder.—Washington Post.

NEW MEXICAN PRINTING COMPANY.

# The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.  
The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.  
Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.  
The cultivation of sawlogs—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.  
The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.  
Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.  
The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Fells section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

Every Meal is a Trial

To the dyspeptic. Flatulence, heartburn, oppressive fullness of the stomach, are the inevitable sequences of his use of the knife and fork. To say of him that he gratifies the cravings of appetite would be genuine satire. Ah, love is great! It came not from the fall, but after, just to shame Life's littleness with something high and true. And strong, and beautiful and void of blame. This gift divine to man—his all in all.

—Maude Andrews in St. Louis Republic.

Papa, cried Kate, upon my soul! Burn bills, and let it pass—What Jack and I have met in coal We've more than saved in gas!

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages; this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. For sale by all druggists.

Now between you and me, darling, he began as he sat with his arm enfolding her waist.

"George," she interrupted, "I wish that you would be a little more precise in your words. How can there be anything between you and me? There isn't room, and she snuggled up still closer.

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily procured a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the Remedy half its worth. I am sorry every one in the world does not know how good it is, as I do.—Mrs. Lina S. Hinton, Grahamsville, Marion Co., Florida. For sale by all druggists.

Louey—Mamma, may I go over there to the bridge? Mamma—Why do you want to go over there, dear? Louey—Oh, I just want to goggle my feet in the brook.

Six weeks ago I suffered with a very severe cold; was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in the St. Paul Volks Zeitung I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Knitz, 678 Selby Ave., St. Paul, Minn. For sale by all druggists.

Shade of Dante—I am sorry to see you here, my great and good friend. But, since you are here, may I ask what is your greatest cause of regret? Shade of Washington—That I didn't bring my letters here with me.

This Is Your Opportunity. On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate the great merits of the remedy. ELY BROTHERS, 56 Warren St., New York City.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no mercury nor any injurious drug. Price, 50 cents.

If dull, spiritless and stupid; if your blood is thick and sluggish; if your appetite is capricious and uncertain. You need catarrh. For best results take DeWitt's. It recommends itself, Newton's drug store.

### LOVE'S REALITY.

Who laughs at love and calls it foolish knows Not life's real value in great things or small. Love is true faith, the sliver of woe. The everyday delight, the little all Of poverty, a gift so great to those Of wealth that other treasures, poor and small. Seem by the glory of its holy flame That flashes up to heaven, white and tall. To kiss the stars. Ah, love is great! It came Not from the fall, but after, just to shame Life's littleness with something high and true. And strong, and beautiful and void of blame. This gift divine to man—his all in all.

### A TIGER OF THE LAW.

Never had Chi Hung Lang sat down to his cup of tea in a more sorrowful frame of mind. A something wrapped in yellow silk lay before him, which bid fair to give the brave mandarin a headache. It was an official letter.

A weighty matter it was for Chi Hung Lang—to be or not to be, in fact. In case he succeeded in doing what was asked of him he would receive the second peacock feather and the red button for his cap, but if he failed the soles of his feet would certainly become intimately acquainted with the bamboo. And there were such beautiful, strong, elastic bamboos in the town hall for such purposes. He had tried every stick with his own hands on one of his inferiors in office.

For Chi Hung Lang was the highest judge of the province and bore the title of honor, "tiger of the lawbook."

In criminal circles and among those learned in the law his name was greatly respected. He understood the law so well and could expound it so minutely that he once succeeded by a brilliant plea in having a 2-hour-old infant sentenced to 18 years' imprisonment.

There was no one in all the land with a clear conscience, at least no one who felt secure, for Chi Hung Lang had once declared that in his opinion every respectable citizen ought to sit on the criminal's bench at least once during his lifetime, and he was just the man to put his theory into practice.

It cannot be denied that Chi Hung Lang, with his method of administering justice, accomplished great results. If any one had the least reason to fear the law, he moved into another province. This solved the tramp question at least.

If the tiger of the lawbook had not occasionally instituted a practice lawsuit, the judges of the land would have had nothing to do but smoke their opium in undisturbed leisure.

At this time the prison of the province of Yen-si-ling, over which Chi Hung Lang ruled, had been without an inmate for eight days. It was absolutely impossible to find a wrongdoer.

The beautiful prison, with its 832 cells, electric lights, flogging machines and torture chambers, equipped with all the modern improvements, was empty—empty as a Chinese lieutenant's purse on the 29th of the month.

This is the reason that Chi Hung Lang's heart quaked and his feet tingled with misgivings.

Five years before this the above mentioned model prison had been built by the son of heaven at an enormous cost, and it had been as large as the express wish of Chi Hung Lang. The victory now announced that he would inspect the prison in three days and hoped to find it comfortably well filled.

The writing ended with the ominous figures "25." Oh, how poor Chi Hung Lang's feet burned! It was just like the Mikado. But where was he to get 832 Nanki Poos without stealing them? It was hardly to be expected that any one would volunteer. But the viceroys wanted to see the flogging machine and the hydraulic gallows in actual operation during his inspection. Here the terrible number 25 appeared again. Oh, how the feet of the tiger of the lawbook burned! There was no escape. An unlawful act he would not have committed, and at any rate there was no time to manufacture several hundred complaints and try the cases in the usual way. Oh, if only he had more time! And Chi Hung Lang rubbed his head doubtfully. He had a very long head, had Chi Hung Lang, tiger of the lawbook.

At this moment his pupil and favorite practitioner, Ka-chia-lo, entered the room with a newspaper in his hand and horror in his face.

"Read, master," he said.

It was a copy of a comic paper, The Dragon Claw, which contained a malicious item ridiculing the large feet of Chi Hung Lang's wife.

Ka-chia-lo had expected his master to fly into a passion and at least break out fire and smoke or some exhibition of the kind.

Nothing of the sort took place. The mighty man of law danced around the room in his glee until his one upset all the candles, crying: "I am saved! I shall fill my prison! I shall get my 832 prisoners!" Ka-chia-lo said in astonishment, "Only one, I think—the responsible editor of The Dragon Claw."

"Young man," replied Chi Hung Lang, "what do you know about law? How about his accomplices?"

"But do you think he has 832 of them?" ventured Ka-chia-lo.

"He has as many as I need," was the wise answer.

Ka-chia-lo, more astonished than ever, left the room, saying, "What a man!"

Two days afterward proceedings were begun.

Eight hundred and thirty-two persons had been accused of being parties to the offense of spreading abroad the contents of the libelous sheet. As a matter of course the editor was first indicted, then the assistant editors, the publishers, the printers, the folders, the compositors and the proofreaders, the janitors; also his wife, who had brought him his breakfast and so refreshed him that he was able to take part in such scandalous doings. The porter of the building did not escape, for he had not allowed the bundles of papers to be carried out without a protest? Neither were the

women who carried the papers overlooked, nor the postal authorities who forwarded them by mail, nor the railway officials down to the engineer, for they all had assisted in bringing it before the public.

This, however, made only 180 accused persons, and more were needed. But Chi Hung Lang, with long, long head, was a man of resources. He then indicted the cheese and sausage merchants who had wrapped their wares in this number of the paper, the manufacturer of the paper on which the edition was printed and all his establishment, including his traveling salesmen, the man who delivered the ink; also his mother-in-law, for it was plain that these all had had a hand in the affair.

Next on the list were the waiters at the restaurants who had handed this copy of The Dragon Claw to the guests, a street car conductor in whose car a passenger had read the paper, an optician who had sold eyeglasses, to a near-sighted man and so helped him to read the wicked article, the family of the physician of the editor who had cured the latter of influenza three days before and made it possible for him to return to his work and break the law as he had done. Fifty-seven men who had read the article to their wives were quite a respectable addition to the list, and in natural order followed 57 wives who, with malicious giggling, had heard the news thus read.

Finally the parents of the editor were indicted for bringing such a monster into the world and the editor's brother for not having exercised a better influence over him.

This brother, however, was released. He was deaf, dumb and blind.

Eight hundred and thirty-two persons were sentenced to various terms of imprisonment and to more or less severe flogging with the bamboo. The fine new prison was now filled to the roof with the exception of a single cell. In this one the writer of the scandalous article very properly belonged, but, unfortunately, after all these legal proceedings he could not be found.

The viceroys came. The inhabitants of the town, as many as were out of prison, crowded the streets and cried as they passed: "Hurrah! Hurrah!" for it had been announced that those who did not shout and those that remained in their houses would be properly punished.

The viceroys inspected the prison, saw a man or woman sitting in each cell and was highly pleased. The automatic flogging machine worked without a single hitch, and the hydraulic gallows exceeded the highest expectations of the illustrious inspectors. He had heard of the wholesale conviction, and, delighted with Chi Hung Lang's sagacity, he handed him the second peacock feather and the red button. Then he said:

"But tell me, tiger of the lawbook, why is this cell empty? One more would have made very little difference."

Chi Hung Lang was not only a lawyer of the shrewdest kind, but also a diplomat, so he answered: "We know no one else that could be indicted without the appearance of slight injustice. Perhaps your wisdom, O most noble one, is able to name still another who deserves punishment."

The most noble one slowly closed his left eye, and with a very cunning look he said:

"Tell me, Chi Hung Lang, tiger of the lawbook, lion of the paragraph, how does this atrocious article read?"

Chi Hung Lang carried the paper in his pocket and made haste to read it to his noble master. As he finished reading the viceroys said with a smile:

"That is not so bad, for between you and me, you know your wife wears No. 9. But here we have another who has helped spread abroad this wicked article, and he must be imprisoned."

"And who is it, O most high one?" asked Chi Hung Lang, as he bowed in amazement at the wisdom of the viceroys until his eye curled on the ground between his feet.

"You yourself, tiger of the lawbook, for you have just read the paper to me. About 13 days and 12 blows on your feet, I think, eh?" said the imperial inspector jovially.

"You are the wisest of all wise ones; your wisdom has no bounds," replied Chi Hung Lang, a trifle disconcerted. Then he bowed again to the earth, took hold of his cue, led himself into the only vacant cell and with his own hands took off his shoes.—From the German in Short Stories.

### Bogus Money Lenders in Paris.

From a Frenchman's point of view, everybody who lives well and dresses better than a bank clerk is put down as a spy in the employ of Bismarck, unless he is known to have any other occupation. But among these busy people without distinct profession there are those who lend their names and imposing appearance to enterprises which could exist only in the country where the "gogo" is always on the lookout for a rapid road to fortune. For example, the money lending agencies. Notwithstanding article upon article which has been written in the respectable portion of the French press warning people against them, they still go on and prosper. One has only to consult any day the smallest French paper which pretends to be the largest circulation to see half a dozen persons or societies advertising to lend money on simple signatures. The simpleton replies to the advertisement, states his requirements, is informed that the director will be able to obtain what he desires, that he must agree to pay so much per cent commission (generally very low) and deposit 25 francs for sundry preliminary expenses. This he does and hears no more of the matter. Or, if he becomes anxious and worried, he writes the "board of directors," having taken the matter into their serious consideration, regret that the securities offered are not such as to justify them in making the advance. His 25 francs have been expended for the postage on one letter and the inquiries, which have probably never been made.—Lippincott's.

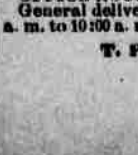

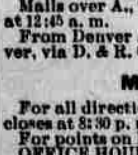

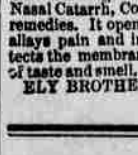

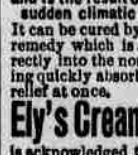

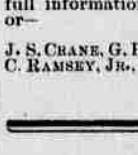

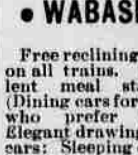

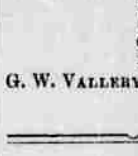

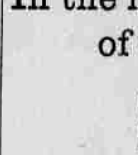

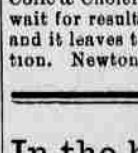

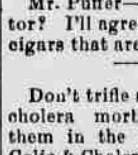

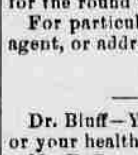

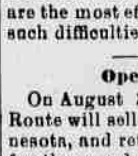

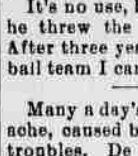

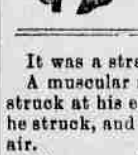

### Notice for Publication.

[Homestead Entry No. 3846.]  
Land Office at Santa Fe, N. M., August 8, 1896.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register or receiver, at Santa Fe, N. M., on September 15, 1896, viz: William Sparks, of Gila, N. M., for the s. w. 1/4 of section 17, T. 15 N., R. 14 E., S. 10.

He names the following witnesses to prove his continuous residence upon, and cultivation of said land, viz: Clarence H. Sparks, of Rosita, N. M.; Henry Winsor, Martin Winsor, Alfred Viles, of Gila, N. M.

JAMES H. WALKER, Register.

Look at the people you pass on the street. Their faces tell the story of their lives. They tell the story of poverty or plenty, of refinement or coarseness, of health or disease.

Three-fourths of these people are not "exactly well." They are not all "sick," perhaps, but many of them are, and few are quite hale and hearty. Consumption has set its stamp of pallor and emaciation on many of them. Dyspepsia has drawn lines of fretfulness and worry about their eyes, and months. Impure blood is showing itself in blotches and pimples. One man has "a little trouble" with his kidneys. Some of the women have chronic constipation, and the other ills that constipation brings.

The most pitiful of all faces is the consumptive one. Very likely it has been through the earlier stages and has at previous times shown dyspepsia, sallowness and bad blood. Consumption comes all at once. It is a creeping disease. It comes on gradually under cover of a hundred differing symptoms. It is the most dreadful of all diseases, but it can be cured if you begin in time. Dr. H. S. Lutz's Golden Medical Discovery will cure it. It will cure all the things that lead to consumption. It is not guaranteed to cure consumption of long standing. There is a stage at which consumption is incurable.

If you send 25 cts. to cover postage and wrapping only, we will send free a book of 1000 pages that tells exactly what "Golden Medical Discovery" will do—what it has done in hundreds of cases. World's Dispensary Medical Association, Buffalo, N. Y.

It was a street brawl. A muscular man picked up a club and struck at his enemy's head. Three times he struck, and three times he fanned the air.

It's no use, he wailed despairingly, as he threw the club into a vacant lot. After three years on the New York base ball team I can't hit anything!

Many a day's work is lost by sick headache, caused by indigestion and stomach troubles. DeWitt's Little Early Risers are the most effective pills for overcoming such difficulties. Newton's drug store.

You say your horse is the fastest in the State? Yes, sir. Did I ever tell you my experience with him on the track down at Mudcock?

No. What was it? Go around the track so fast that you could feel his breath striking against the back of your head? Well, I didn't notice that, but the fact is, and every body observed it, that his shadow had to cut across the middle of the circle to catch up with us in the last heat.

Poison ivy, insect bites, bruises, scalds, burns, are quickly cured by DeWitt's Witch Hazel Salve, the great pile cure. Newton's drug store.

She tried them on with just a trace Of fear, let no one mock it; And then a smile lit up her face— At last she had a pocket.

It doesn't matter much whether sick headache, biliousness, indigestion and constipation are caused by neglect or by unavoidable circumstances; DeWitt's Little Early Risers will speedily cure them all. Newton's drug store.

Flipp—I tell you McKinley's a dead sure winner. He's bound to show his opponent his heels. Quipp—Yes, I've no doubt a good many will be willing to take his dust.

DeWitt's Sarsaparilla is prepared for cleansing the blood from impurities and disease. It does this and more. It builds up and strengthens constitutions impaired by disease. It recommends itself. Newton's drug store.

Did you find it cool in Chicago? Oh yes. My room was above the saw line.

Theories of cure may be discussed at length by physicians but the sufferers want quick relief; and One Minute Cough Cure will give it to them. A safe cure for children. "It is the only harmless remedy that produces immediate results." Newton's drug store.

#### THE COURTS TO-DAY.

**Nuestra Señora de los Dolores Mine Case Argued and Submitted in U. S. Land Court—Matters in the Supreme Court.**

In the United States court of private land claims yesterday afternoon the trial of the Nuestra Señora de los Dolores mine grant case, Mariano S. Otero claimant, was concluded and the cause taken under advisement.

This grant is founded on a title alleged to have been derived from a constitutional alcaide prior to the annexation of New Mexico to the United States, and the chief question in dispute is whether the alcaide was clothed with authority to confer such a title. It involves the valuable group of mines formerly owned by the Santa Fe Copper company and now owned by Leonard Lewisohn, of New York, who sought to patent the same a year and a half ago and was advised by Catron, O'Brien et al., and pending the hearing of this grant case, the effort to patent has been hung up. As the grant claimant showed no disposition to press his claim in the customary way, Lewisohn joined the United States in forcing the matter before the court. T. B. Catron represented Otero, Francis Downs represented Lewisohn and Assistant U. S. Attorney Pope represented the government.

It may be added that a careful examination of the testimony of Antonio Jaquez and others, upon which the claimant relied, the Nuestra Señora de los Dolores mine grant was formally rejected by Surveyor-General Julian. Essentially the same testimony was presented to the land court.

The trial of the San Jose del Encinal tract case, involving from 15,000 to 30,000 acres of land in Valencia county, was concluded this forenoon and argument was in progress when this report closed. B. S. Rodey represents the claimant and W. H. Pope appears for the government.

**SUPREME COURT.**  
In the New Mexico supreme court this morning, Chief Justice Smith presiding and all the justices being present, the motion that the judgment of the court below be affirmed in the case of Charles Probst vs. The Trustees of the Board of Domestic Missions of the Presbyterian church, on the ground that the record had not been filed by Probst within the prescribed time, was dismissed and the parties were directed at once to file their briefs and notified that they would be permitted to argue the case at the adjourned term.

In re Ulysses T. Curran, plaintiff in error, vs. Wm. W. Kendall Boot & Shoe company, defendant in error, Judge Collier handed down an opinion affirming the judgment of the court below in favor of the defendant in error. Judge Smith, Hamilton and Bantz concurred. E. L. Bartlett, Max Frost and Geo. W. Knebel represented Curran and E. A. Fiske appeared for the shoe company.

The court soon after adjourned until tomorrow morning at 10 o'clock, when the case of The Territory of New Mexico, appellee, vs. Augustino Lermo, appellant, will be taken up.

#### ROUND ABOUT TOWN.

Remember the meeting of the Frank Chavez Democratic silver club at the court house to-night.

The city council's attention is again called to the condition of the ditch culverts on Gaspar avenue.

The city marshal has somebody's eyeglasses and gold chain which he will be pleased to return to the owner.

U. S. weather bureau forecast for New Mexico: Local thunder storms this afternoon; probably fair Thursday; warmer Thursday.

Count Juan Miguel de Lacerda passed through Albuquerque day before yesterday morning for Los Lunas, accompanied by his bondsman, Lorenzo Lopez.

One of Dr. Diaz' buggy horses ran away this morning, plowing up Palace avenue and around the plaza at a desperate rate, and pretty thoroughly demolishing the buggy.

Pay checks to the amount of \$1,500, issued by Fort Worth & Denver City Railroad company and payable to John Hallorin, were stolen yesterday at Texline, about 200 miles south of Trinidad. Merchants and bankers are warned to watch for them.

A bicycle race is being talked of between two Cerrillos riders, Messrs. Ed. McNulty and Randolph, from Cerrillos to Santa Fe around the park once and return to Cerrillos, a distance of about forty-five miles. Should they come to an agreement the race will take place at an early date.

Mr. Frank de Thoma's Spanish history of New Mexico has been adopted as a text book by the territorial board of education and will be henceforth used in all the public schools of the territory. It is an excellent work and should be immensely popular with the native youth of the territory.

Why can't the county repair that Galisteo bridge? What becomes of the county money anyway? Does it all go into salaries and judgments? The county commissioners are earnestly invited to get a handle on themselves. Whose fault is it that this important bridge must forever remain barricaded?

Col. Walter G. Marmon has appointed J. E. Elder, of Albuquerque, sergeant-major in regiment New Mexico militia, vice Emerson, promoted to adjutant.

Engineer Follett, of Denver, and Engineer A. Flores, of the City of Mexico, identified with the international dam project near El Paso, arrived from Juarez last night, en route to southern Colorado, where they will make an investigation as to the quantity of water taken from the Rio Grande for irrigation purposes.

United States District Attorney W. B. Childers came up from Albuquerque this morning. He says the goldites will meet in territorial convention on Saturday next and designate six delegates to represent New Mexico in the national convention at Indianapolis September 2.

#### PERSONAL.

Mrs. Lentz, wife of a wool buyer from Alamosa, is visiting Mrs. Bush. Sheriff Baylor Shannon and bride, of

**LA BELLE GOLD DISTRICT.**

**Development Work Steadily Progressing as Depth is Attained.**

Air pipes are being put in the What Is It shaft this week. It was eighty-three feet deep yesterday noon and is being worked steadily. The ore is improving. The pay streak holds its width of two and one half feet of pure sulphides and about four feet of silicious vein matter in addition, all of which carries some values.

A contract has been let by the Boston Gold Mining Co. to sink the shaft known as the Old Hamilton fifty feet. Work will begin Monday. It is understood that this work is only preliminary, and a contract for greater development is pending.

Plans for more extensive development work are being laid and large sales are being consummated all the way from La Belle on the north to Amistad on the south and Ute creek on the east to Cabresto canon on the west, than ever before since the first discovery of gold in this vast mineral district. Every hill is being prospected and the gravel in every canon is being washed by a horde of widely scattered prospectors, with headquarters in a dozen different camps. Every prospector who has studied the country is well satisfied with what he has and considers it the "best in the district."

The Louisa vein, which the La Belle tunnel was run to cut, was struck Tuesday afternoon. Some of the ore was sent out the same evening for tests. It carries gold, silver, lead and copper and has the appearance of being high grade. This tunnel is in 380 feet and cuts the vein at a perpendicular depth of 300 feet. It was begun the 1st of January and up to the present time has never ceased. Two shifts and the greater part of the time three have worked continuously. The rock passed through was the hardest yet found in the district; for weeks at a time three shifts of the best miners to be found could only average seven feet a week.—La Belle Cresset.

#### TO RODEY'S RESCUE.

Hon. B. S. Rodey, of Albuquerque, who believes that the territorial Republican convention should repudiate McKinley and Hanna and stand upon the platform of four years ago, is in the capital on legal business.—New Mexican.

This does injustice to our friend, the Hon. B. S. Rodey, in that it indicates that Mr. Rodey advocates a repudiation of Major Wm. McKinley. Mr. Rodey is an ardent protectionist from conviction, and though a believer in bimetallicism, assures me that were he in a state he would vote for McKinley in the coming election. A. W. Hanna.

#### AWAITING REDUCTION.

Thousands of tons of comparatively low grade chert ore on the Coehiti dumps—Thousands More in Sight—Need of the District.

Seven thousand tons of millable gold ore now lying on the dumps of the Coehiti mines of northern New Mexico awaiting treatment; 3,000 tons at a single mine, worth \$20 a ton. It is absolutely astonishing that capital is so slow to take hold of such plain certainties of profits as the Coehiti mines present. It is another proof that investment is a fad and that human beings are like sheep. At one period they are all anxious to invest, in no matter what. At another period, when the craze is the other way, nobody would invest in coined gold eagles offered at \$9 apiece at auction.—Pueblo Chieftain.

The foregoing statements probably fall short of the facts. The New Mexican has reason to believe that there are 7,000 tons of millable ore on the dumps of the Lone Star, the Crown Point and the Washington mines alone and doubtless there are 1,000 tons more of similar ore on the many other dumps in the district. This ore has been accumulated in the ordinary development work of the past three years, only mineral running \$30 and upwards in the precious metals being profitable to ship to distant smelters, and does not include the thousands upon thousands of tons of comparatively low grade ore actually in sight in the numerous mammoth ledges. The golden Coehiti will boom when facilities for treating \$30 ore are on the ground.

#### SENATOR MONEY'S RETURN.

**Greatly Pleased Over His Reception in Both Albuquerque and Las Vegas.**

U. S. Senator Money returned yesterday afternoon from a visit to Albuquerque and Las Vegas where in response to invitations from the Bryan silver clubs he made speeches. Senator Money expresses much gratification over the intense interest displayed by the people in these cities over the cause of Democracy and free coinage. In both places he was complimented by packed houses. He is specially pleased over the patriotic stand taken by such Republicans as ex-Mayor Saint, of Albuquerque, Mayor Olney, ex-Mayor Edward Henry, Judge Wooster, of Las Vegas, and ex-Gov. Hadley, of Watrous, with whom he had the pleasure of conversing during his absence. He says the most independent thinking on earth is the western man, and he regards the sentiments he heard expressed by the above named and others as a happy augury of the future of New Mexico. Mr. Money also had a conference with Mr. M. P. Stamm, the Populist leader, and found him to be a man of superb common sense whose heart and head are enlisted in the cause of financial reform. Mr. Stamm said the Populists of the territory were in full accord with the new Democracy and would shape their course accordingly in the fall campaign.

**Death of Sister Stella.**  
Sister Stella, who established Hotel Diez, the Sisters of Charity sanitarium at El Paso, met with a fatal accident at Dallas a few days ago. A month ago she left El Paso to go to Dallas to superintend the building in that city of a hospital similar to Hotel Diez, and a few days ago she fell down a flight of stairs, breaking her arm and receiving a shock which proved to be more than her system could stand and death soon followed. She was the friend of all humanity and her life was a long list of deeds of charity and loving kindness to those in distress. Her age was 60 years.

#### ADVERSES FILED.

Ten days ago the Lincoln, Lucky & Lee Mining company gave notice by publication that it would make application at the United States land office in Santa Fe to patent ten mining claims in south Santa Fe county.

But between the 21st and 25th days of August, the latter being the last day upon which objections could be filed, nine adverse claims were filed in the local office as follows: Silver Belt Mining company, filed by Summers Burkhardt; James Caruthers, three addresses, by Nell E. Field; J. P. O'Brien and E. A. Fiske; Lizzie F. O'Brien and E. A. Fiske; D. W. Manley; T. B. Catron, W. E. Gortner, J. P. O'Brien, E. A. Fiske and W. J. Mills; T. B. Catron.

The persons filing these adverse claims will at once be notified that they will be given thirty days in which to present and prosecute their claims.
