BRYAN ON GOOD GOVERNMENT

Those Making Money Out of Abuse of Government Generally Find Fault With the People.

THE GREAT COMMONER IN WISCONSIN

Tammany's Leader Rides the Goldbugs—Monopolists Stealing Legislation That Enriches Them.

Milwaukee, Sept. 5.—Three five minute speeches and thousands of handclaps with much enthusiasm constituted the incidents of the trip of W. J. Bryan from Chicago to this city. There were short stops at Waukegan and Kenosha and the nominee spoke to hundreds at each place. The party left Chicago at 8:45 and arrived here at 11:15. On the train were E. J. Wall, Julius Schniedel, F. W. von Kotschhausen and P. J. Sommer. At Kenosha the reception committee consisting of twenty-five from this city, headed by W. H. Rogers, boarded the train, and at Waukegan there was a loud cheer for the nominee. When Mr. Bryan had finished speaking some one proposed "three cheers for McKinley." About half the crowd gave them with a will. These were followed by a return cheering for Bryan, which continued until the train pulled out. A conservative estimate of the crowd at Kenosha to meet Mr. Bryan would be about 15,000 people and it seemed as if every one was trying to outdo the other in the applauding. Mr. Bryan said: "There is a great difference between being against a government and against those who misuse a government. Andrew Jackson said there was no necessary evil in a government. That its evils grew out of its abuse. Some people do not draw any lines between a government and the abuse of a government, those making money out of this abuse generally find fault with the people and complain, and try to put them in an attitude as opponents of the government. I want to assure you that the most loyal supporters of our government are not to be found in the great trusts, which they think are greater than the government itself. They are found among the masses who want to secure for the government the love of every citizen by making it so good that it will deserve their love." (Applause.)

How It Works.

Chicago, Sept. 5.—A New York special to the Record says: "John C. Sheehan, the leader of Tammany hall, came out positively last night for the endorsement of Bryan and Sewall and the Chicago platform. What determined him finally, he said, was the action of the Indianapolis convention declaring for the single gold standard." "Even the Republican convention," he said, "did not go to that extreme. This country has been prosperous under the double standard since the war of independence, but the monopolists and advocates of the gold have been gradually stealing from us the legislation which enriches them and makes the working classes poorer. We must get back to that beneficent legislation of which they robbed us, and we can only get it by electing Bryan and Sewall and enforcing the principles enunciated at Chicago."

A Seared Goldbug.

Chicago, Sept. 5.—Chairman Hanna, of the Republican national committee, arrived in Chicago rather unexpectedly to-day and went immediately to headquarters in the Auditorium. Many Republican leaders were there to confer with him. He will remain here two weeks.

McNana's Helpers.

Indianapolis, Sept. 5.—Vey Holman, of Maine, has been added to the executive committee of the national gold party. Holman will have charge of the party bureau. Senator Caffery of Louisiana will deliver the notification speech to General Palmer at Louisville on September 12. On the same day in the same city John R. Fellows will notify General Backus of his nomination for the vice-presidency. After the notification all arrangements are agreeable to the candidates the party will go to Nashville, September 14, thence to Memphis, September 15. Fellows will be in the party.

CONDENSED NEWS.

Antonio Maceo, the Cuban warrior, is again dead.
The czar and empress reached Breslau to-day. The emperor made much ado over them.
Spanish gunboats will attack the insurgents in Philippine islands next Monday.
A Beaver county, Pa., delegation of 2,500 reached Canton to-day and called on McKinley.
It is reported among the delegates to the trades union congress, which opens at Edinburgh on Monday, that all plans for a gigantic strike of dock laborers over the world at large has been perfected. It excites much attention.
A PUEBLO HOLD-UP.

Neat Job By Two Masked Men—Forty Persons Throw Up Their Hands.

Pueblo, Sept. 4.—One of the most daring and successful hold-ups and robberies in the history of this city occurred at 11:20 last night when two masked men held up the fare and crap tables of the Green Light gambling house for \$400. The two men came up the back stairs and entered the gambling hall, which is on the second floor. One of them stepped to the center of the room and ordered all hands up. He backed to the front of the room and covered the crowd, consisting of about forty men, with two shotguns. The other and smaller of the two then drove all the people to the front of the room and going to the fare table took \$250 in currency and \$50 in silver and turning to the crap table secured \$136, all in silver and mostly \$1 pieces. At this juncture the second man remarked to his partner to "look out for Bowen." T. J. Bowen is night manager of the house.
The hold-ups walked to the rear door and backed out and escaped down the back stairs. One of the men was masked with a red handkerchief and wore a red sweater, while the other wore his face a black or dark blue handkerchief and wore a black negligee shirt; neither of them wore a coat and both had on black slouch hats.

NATIONAL POLITICS.

A GOLD MAN'S ESTIMATE.

Washington, Col. John Byrne, the chairman of the New York Sound Money league, the institution under the auspices of which Bourke Cockran delivered his Madison Square Garden speech, returned to New York City yesterday from a tour of the state. He set the Republicans and the goldbugs Democrats a flurry by declaring that if the election came off now Bryan would carry New York by 100,000 majority. Testimony of this kind from an ardent McKinley man and a bitter opponent of Bryan, may be worth considering. Mr. Byrne said that nearly all the farmers of northern and central New York, irrespective of past party affiliations, were going to vote for Bryan.

There is no serious danger of any southern state. The south will remain solid, according to all reports, including Kentucky, North Carolina and Maryland. The Democratic managers here still are of the opinion that the McKinley aid society at Indianapolis will benefit Bryan more than McKinley. They claim that all who would support the third ticket would vote for McKinley anyhow, and that it was so many votes diverted from him.

CORPORATE INFLUENCES.

Washington.—The news from the Vermont election is giving the gentlemen in charge of Republican headquarters here exceeding great joy. The Democratic managers claim that they are not disappointed, and are, seemingly, indifferent.

HARMONY IN DEMOCRATIC RANKS.

Chicago.—Chairman Jones, of the Democratic national committee, has made public a letter to William J. Bryan from Arthur Sewall, apparently dated July 25, at which time the Populist convention was in session. The letter, which is exciting a great deal of comment, reads as follows:

My Dear Mr. Bryan: In view of the action of the St. Louis convention to-day I can not refrain from giving you my thoughts on the situation. My advice is that you have been nominated as candidate for president and Mr. Watson for vice-president. I also learn through the press dispatches that you are somewhat undecided whether you ought to accept or decline. Now, I desire to say to you, with the most fraternal and good feeling that you must not allow any personal consideration for me to influence you in your action. I desire you to do just what you believe to be the best for the success of the head of our ticket. The principles we are fighting for are so paramount to any personal consideration that the latter should not have any weight or influence whatever with you.

I can not for a moment allow myself to be a factor in any action on your part that would in the slightest degree hazard an electoral vote for you.

With kind regards to Mrs. Bryan, believe me, your sincere friend.

ARTHUR SEWALL.

Bath, Maine, July 25.—The Democratic managers at the headquarters insisted that the letter had no further significance than that Mr. Bryan would consent to receive a formal notification from the Populist party in the near future, and the publication was to forestall false rumors as to the attitude of Mr. Sewall toward such a ceremony.

Accompanying the letter is an official statement to the effect that several days ago Chairman Jones wrote a letter to Mr. Sewall, stating that many Democrats throughout the country and especially the west were objecting to fusion with certain voters for the silver cause. It is a complete answer to efforts of the gold Democrats to create the impression that Mr. Sewall will retire under any circumstances, and shows that the Democratic party and its national organization are as loyal to Mr. Sewall as he himself is to Mr. Bryan and the great cause of the common people."

THE MARKETS.

Nebraska Corn Crop.

Omaha, Sept. 5.—The largest corn crop in Nebraska's history is now safe and the fall seedling to an extensive scale is now in progress.

Preacher in Disgrace.

Hannibal, Mo., Sept. 5.—The committee appointed by Bishop Galloway to try the case against Rev. Thomas Cooper, the deposed pastor of the St. Joseph church, to-day found him guilty of gross immorality, slander and profanity, and his expulsion from the church was recommended. The conference adopted the report and the Rev. Cooper was expelled. The sinners of Dr. McDonald this week said to have been due to threats made by Cooper. McDonald had charged Cooper with immoral intimacy with a young woman of the church.

Weekly Bank Statement.

New York, Sept. 5.—The weekly bank statement is as follows: Reserve, decrease, \$607,650; loans, decrease, \$2,720,100; specie, increase, \$1,851,200; legal tenders, decrease, \$3,574,600; deposits, decrease, \$4,833,000. Total circulation, increase, \$924,000. The banks hold \$5,228,550 in excess of legal requirements.

VICTORY FOR THE CUBANS.

Terrible Fate Which Befell a Spanish Convoy—The U. S. Consul and the Cuban Affairs.

New York, Sept. 5.—A dispatch to the Herald from Havana says: The Herald's correspondent on Meron Juan's Trocha sends word that the insurgents seized the Spanish convoy which left Ciego de Avila for Los Pinaros on August 23, killing, wounding and capturing the entire government force, consisting of 300 men. The Spanish commander with eight members of his staff was released after being disarmed.

INVESTIGATION OF THE DEATH OF GOVIN.

Key West, Sept. 5.—Private information received by the last Havana mail says it is understood there that Consul-General Lee has submitted a full report to the state department at Washington in reference to the murder of Charles Govin, an American newspaper correspondent at Cuba. It is said the information relative to the killing of Govin was obtained by the consul-general direct from a man hiding with him on the night of July 9. The following morning Govin was taken to two men and his settlement at San Mateo by a company of Spanish infantry. This was the last seen or heard of him, except that on the night of July 10 Spanish soldiers said that Govin had been killed that day with machetes. The consul-general informed Consul-General Lee that Govin had been captured while being wounded and had died the following day. Consul-General Lee was not satisfied with the answer and renewed his demand for the full information.

Fastest on Record.

New York, Sept. 5.—In the presence of 8,000 spectators at Fleetwood Park yesterday William Simpson's pacing stallion, John R. Gentry, defeated Robert J. Frank and Star Polstar in the fastest horse race on record, the gallant little son of Ashland Wilkes stepping the first heat in 2:03 1/4, the second in 2:03 1/4 and the third in 2:03 1/4. All of the finishes were very close and exciting and the contest was from every point of view a great one, surpassing in interest and importance any harness race of the present campaign. John R. Gentry is owned in New York and his victory was as popular as it was unexpected.

HONEST DOLLARS, EH?

Mint of Philadelphia Busy Stamping Silver Dollars—A View of What Might Have Been.

Washington, Sept. 5.—Since August 1, the mint at Philadelphia has been working to its full capacity and will continue indefinitely coining standard silver dollars from the bullion purchased under the act of July 14, 1890. This means the coining of \$25,000,000 every month and the turning into the treasury monthly of \$712,500 in seigniorage.

In the first six months of 1896, there were coined 7,505,412 silver dollars, of which \$1,727,798 represented the cost of silver bullion and \$2,377,514 profit to the government. The treasury now holds about \$10,000,000 in silver, coined from the bullion purchased under the Sherman act, which it uses to redeem and retire the Sherman notes. It has since August 1, 1893, redeemed and canceled \$27,178,000 in Sherman notes, replacing them with either silver dollars or silver certificates.

It was the undoubted intention and expectation of congress that the treasury would retire the Sherman notes and replace them with either coined silver or silver certificates as rapidly as possible. Finding that this policy was being defeated by the provision for the coining of the seigniorage was passed, only to be vetoed by Mr. Cleveland. Had that bill been allowed to become a law, or had Secretary Foster and Carlisle been anxious to find means for carrying out the purposes of the Sherman act, as for fastening it all the Sherman notes would have long since disappeared and the banks of New York would have been short of their most formidable weapons with which to raid the treasury gold and make excuse for the last two bond issues which have made this administration so unpopular.

Since the passage of the Sherman act, July 14, 1890, the whole body of Sherman notes have passed through the treasury, not once, but several times. Had the present administration's hostility to silver been tempered a little, the Sherman notes would have practically disappeared from circulation more than a year ago. The total body of Sherman notes, \$155,931,000, would have been replaced by \$200,729,872 silver dollars or silver certificates, of which amount \$55,303,865 would have been put in the treasury as profit, or seigniorage.

Had this easy transaction been accomplished by January 1, 1895, two important results would have followed—the treasury would not have been short of cash and the banks would have been deprived of the Sherman notes, and thus would have been unable to withdraw gold to the extent they did. Following, as a natural sequence, there would have been neither necessity nor excuse for the bond contract of February, 1895, nor the bond issue of January, 1896. The treasury would to-day have about \$120,000,000 in cash, instead of being congested with \$246,000,000, and the balance, moving freely in the market, would have been in the position of reviving business. As it is, business is choked for want of money; interest is high, and the country is saddled with two issues of thirty-year bonds.

Mr. Jacob Ebenesen, who is in the employ of the Chicago Lumber Co., at Des Moines, Iowa, says: "I have just sent some medicine back to my mother in the old country, that I know from personal use to be the best medicine in the world for rheumatism, having used it in my family for several years. It is called Chamberlain's Pain Balm. It always does the work." 50 cent bottles for sale by all druggists.

Li Hung Chang in Washington.

Washington, Sept. 5.—Li Hung Chang visited the U. S. treasury to-day and Secretary Carlisle showed him the gold, silver and bond vaults and explained the contents of each. The party also visited the issue and redemption divisions where the secretary explained the processes by which the money for the nation passed from the bureau of engraving and printing and the mints into circulation. The viceroy seemed delighted with everything he saw and on leaving the building thanked the officials.

SOME SWEEPING DECISIONS

The Petaca Grant Cut Down More Than One-Fourth—Numerous Land Court Opinions.

AN IMPORTANT DECISION FOR SANTA FE

The San Clemente Grant Confirmed to Solomon Luna—A Big Day's Work and Its Results.

The court of private land claims this morning handed down some very important decisions. One of these was a decision on the Petaca grant in Rio Arriba county, a case which the court has had under advisement for some months. The boundaries in controversy in the case were those on the north and east. The majority of the court in an opinion by Justice Sloss held that the grant was a valid one; that the north boundary was the Rio Ortiz hill at a place called Las Tuas, below the former site of Buckman's mill, and that the south boundary was the mesa de la Setilla. The acreage in the grant as confirmed is about 30,000. The grant as claimed contained about 187,000 acres, so that the decision is quite a sweeping victory for the government.

Justice Murray dissented on the ground that there was, in his opinion, no valid grant and that the claim should be rejected entirely.

Chief Justice Reed concurred with the majority of the court in its conclusion as to the validity of the grant, but dissented from the boundaries fixed by the decree. Judge Sloss also handed down the unanimous opinion of the court rejecting the claim of Mariano S. Osorio to the Nuestra Señora de Los Dolores mine grant in south Santa Fe county. It will be remembered that this grant as claimed covered the Santa Fe Copper company group of mines owned by Leonard Lewishorn. The decision is an important one not only on account of the value of the property involved but it decides that an alcalde or a judge of the first instance had no authority at the date of this grant in April, 1846, to confer title to mines. It is decisive of quite a number of other cases pending in the land court.

Judge Sloss handed down an opinion of the court confirming the Gebolla grant in Taos county, for the extent included within the north and south boundaries contained for by the government, being the ridges respectively north and south of the Gebolla grant.

The decision above referred to and in the latter case he has filed an elaborate and readable opinion.

On motion of Assistant U. S. Attorney Pope orders were made this morning in twenty or more cases requiring grant claimants to bring into court adverse possessors and claimants. In so many of these cases have the grant claimants failed to comply with the law that the court has decided to take an adjournment until November 9, in order that these parties may be brought in. At the time the trial of cases on the docket for the present term will be resumed. It is anticipated that an adjournment will be reached this afternoon or Monday.

In addition to the foregoing proceedings, the court has entered a decree confirming the Gebolla grant in Taos county for about 35,000 acres. It will be remembered that this suit was dismissed by the court during the present term on the ground that the claimant, Col. Frank Chavez, had failed to connect himself with the original grant. Subsequently an amendment was filed by Mr. Solomon Luna a party and the confirmation is for the benefit of himself and of those who like him hold under the original grants. An interesting question in this case was as to the location of the north boundary of the grant, which was a "little above the old pueblo of San Clemente." The claimant contended that this old pueblo was about two miles and a half south of Isleta, while the government contended that it was some distance farther south, near the settlement of Los Lentos. The government's contention, which was supported by the traditions of the Isleta Indians, was sustained by the court, the north boundary fixed being about three quarters of a mile north of Los Lentos.

This claim involves some of the land on the Rio Grande and was perhaps the most closely contested of any of the cases tried at the present term of the land court.

A motion for rehearing in the Glenside grant case has been filed by Mr. Fiske as attorney for the claimants, Messrs. Lehman Spiegelberg and Antonio Joseph. It will be recalled that this grant was rejected by the court about two weeks ago.

ARTHUR SEWALL,
OF MAINE.

CHAS. F. LUMMIS "Land of Sunshine" magazine for September is a gem. Citizens of the southwest can well afford to foster this excellent publication.

Oh, no, there is no enthusiasm among the voters over Bryan and the Chicago platform! Well, just wait till the working men of Chicago and vicinity get a chance to yell on Labor day, Monday next.

Ex-CONGRESSMAN BRECKENRIDGE, of Kentucky, advocates the gold standard, perhaps, with the full knowledge that as long as it remains in vogue poor men can never pay their just debts. Col. Breckenridge is a poor man and Madeline Pollard holds a judgment of \$15,000 against him.

As far as we have discovered none of the great metropolitan dailies have printed in double-headed black faced type. Col. J. W. Schofield's statehood plank as adopted by the Indianapolis goldbug convention. We have sought in vain for this plank, and the suspense is becoming quite unbearable!

Ex-Gov. STOVEN's letters on bimetalism and protection appear to rattle the feathers of such good Republicans as D. P. Carr and A. M. Swan, and even Pete Perea and Ralph Twitchell—the wage earner's friend—do not appear to be entirely satisfied with them. Perhaps the Citizen had better chop and permanently withdraw its advertised declaration to "give both sides of the controversy."

It looks at this time very much as if the Democrats of New Mexico would get a harmonious move on themselves at an early day, and so shape their course as to bring every Democrat, and a great many Republicans and Populists who are friendly to the Chicago platform, into line for the nominee of the convention which meets in Santa Fe about the 28th inst. So mote it be.

The New York Herald admits that Mark Hanna is badly scared. Of course he is, otherwise he would never have openly censured Speaker Reed. The speaker has made several very interesting speeches, but in none of them has he paid any compliments to the Republican candidate for president. This the McKinley people call "throwing cold water on the ticket."

The Republican organs are overlooking a few bits. They don't say much about the crowds that turn out to hear Bryan's speeches, nor are they enthused over the amount of "fusion" that is just now going on in former Republican states. Come, gentlemen, give the dear people the news, though the heavens fall.

THE NEW MEXICAN has a straight tip for the Optic. The Republican party bosses of Valencia, Bernalillo, Colfax and Socorro counties have resolved that a solid gold delegation shall be sent to the Las Vegas convention from each of these counties. This insures absolute control of the convention by those bosses who desire an unequivocal endorsement of McHanna and his gold plank. Who'll eat that crow?

A CALL FOR HELP.

Chairman Jones has asked all weekly and daily papers in the United States that are favorable to the election of Mr. Bryan and free silver to start popular subscriptions in their respective publications. Such editors are authorized by the Democratic national committee to act as collecting agents for the campaign fund, and are urged to publish from week to week the names of contributors and the amounts subscribed. In response to this call the New Mexican hereby announces that it will be responsible for the safe delivery to the national Democratic treasury of any and all funds which readers may see fit to contribute to this fund. Subscriptions, however small, are solicited from all citizens who are supporters of the principle that "the American people shall exercise the rights of free men and create a financial system of their own."

THE D. & R. G. ANNUAL REPORT.

In the course of an editorial comment on the admirable showing made by the annual report of the management of the Denver & Rio Grande railroad, which has just been issued, the Denver Republican says:

It reveals a condition of moderate prosperity which could hardly be expected under the existing financial and commercial condition of the country were it not for the excellent management of the company's affairs, coupled with the recuperative power of Colorado.

The company is practically free of floating debt, and it was able to pay both its interest charge and two semi-annual dividends of 1 per cent each. When it is also considered that the business of the company has shown a steady increase since the first recovery from the terrible panic of 1893 the record of the road is remarkable. The Rio Grande has escaped the hands of a receiver, notwithstanding the great depression in business due to the maintenance of a gold standard and the intense stupidity which has characterized the financial policy of the national government. It is a record of wise management, and at the same time it testifies to the strength of Colorado's resources.

The report speaks of the purchase of the road from Espanola to Santa Fe, N. M. This purchase was made upon terms advantageous to the Denver & Rio Grande, and the new branch will doubtless in time become an important part of the general system. It does not appear what the policy of the company in regard to the future of the Santa Fe connection is, but it is probable that it will not be allowed to remain what it is now, a mere connection with Santa Fe. It would be natural for the company to extend it to other points in New Mexico. But it is improbable that that will be done before a general revival of business takes place.

PRESS COMMENT.

Over Conscience.

The Optic, of Las Vegas, still continues to hold for bimetalism, protection and the Republican party. Had the Democratic party announced in its platform for monometallism the Optic would be the first to censure a Democratic paper for advocating bimetalism. Be consistent above all things, and do not claim to be a Republican while advocating bimetalism. Mr. Optic! None of the rest of your party is trying to hold on that way. Many have left the party of robber tariff and goldbuggery, while others like the Citizen, of Albuquerque, have simply flopped and acknowledged the domination of the party over conscience.—Eddy Current.

Catron's Spokesman.

Just listen:
Editor New York Dispatch:
We would like to exchange, provided you are not a bit to outfit. We have fully enough of that like outfit, without burdening ourselves with eastern stuff. I say this because we have fight on hand here in New Mexico, and we will win it, but we do not wish our time taken up with eastern stuff on that subject. Yours truly,
W. S. WILLIAMS, Editor,
Socorro, N. M., Aug. 18, 1896.

Now Messrs. Las Vegas Optic, Silver City Enterprise & Co., draw in your horns!

The cuckoo statesman from the silver sierras of Socorro has sounded his echo of the boss' trumpet.

The gentle zephyr waxes in a cyclone such as flattened out Alexander, and "No more we'll hear the silver strain of Billy Martin and Llewellyn."

Come off the perch, Elder! Get in your work! Now's your chance to immortalize yourself and knock Fiske out for the district attorneyship—with your double back action, rebounding lock, choke bore "American product" compromise.—Las Cruces Independent Democrat.

Mr. A. H. Cranby, of No. 128 Kerr St., Memphis, Tenn., writes that his wife had cancer which had eaten two large holes in her breast, and which the best physicians of the surrounding country treated, and pronounced incurable. Her grandmother and aunt had died of

Cancer

and when told this, the most eminent specialists of New York, under whose treatment she was placed, declared her case was hopeless. All treatment having failed, she was given up to die. S. S. S. was recommended, and astonishing as it may seem, a few bottles cured her sound and well.

Our treatise on this disease will be sent free to any address.

NEW MEXICAN PRINTING COMPANY.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.
The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, apricot, acerola, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.
Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.
The cultivation of sisal—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.
The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.
Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.
The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Fells section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.
