DEATH OF FRANK P. ARBUCKLE

Found Unconscious in the Suburbs of New York Early This Morning.

DIED IN PATROL WAGON SOON AFTER

Probably Sand-Bagged and Robbed—Heart Failure Naturally Ensued—One of Denver's Most Enterprising Citizens.

New York, Nov. 19.—Frank P. Arbuckle, of Denver, Colo., was found unconscious just off the side-walk in a lot of weeds on the west side of Eighth avenue, between 152nd and 153rd street, at 2:45 o'clock this morning. He died in the patrol wagon without regaining consciousness.

The ambulance surgeon gave the opinion that he was suffering from heart disease. The police, however, are of the opinion that the man came to his death at the hands of the patrolmen.

Ten minutes before Arbuckle was found, a policeman passed on his beat, and asserts positively that there was no one there.

Arbuckle was five feet nine inches and weighed 220 pounds.

The police surgeon, after a thorough examination of the body of Arbuckle, declared that, in his opinion, death was due to heart failure, brought on by an attempt to ascend the steps of the elevated station.

SUPPOSED TO HAVE BEEN DRINKING. Charles Holstman, bartender at the Santa Casino, near where Arbuckle was found, said that a man answering his description came into the saloon about an hour before the time he was found unconscious and called for whiskey. He appeared to be partly under the influence of liquor.

In paying for the drink he displayed a large roll of bills and then pulled from his pocket a heavy gold watch attached to a large gold chain.

After taking the drink the man left. No money, except \$1.05 in change, was found in his pockets and he had no watch on his chain. It is surmised that he got on the elevated train down town and falling asleep rode to the end of the line and then went into the Casino saloon at the foot of the elevated stairway.

It is believed that, after leaving the Casino, he was knocked down and robbed. No marks of violence were found on the body except a slight abrasion on the head. This might have been caused by a blow from a sand-bag or received in a fall.

According to Mr. Seigel, Mr. Arbuckle was instrumental in raising \$150,000 for the recent Democratic national campaign, which was about one-third of the whole sum disbursed by the national committee.

HE WAS PROBABLY MURDERED. Denver, Colo.—Frank P. Arbuckle, who is believed to have been murdered in New York City, where he was found unconscious on the street, dying soon afterward, was chairman of the Democratic state central committee of Colorado.

He was born in Erie, Pa., in 1852. In 1870, he became connected with the telegraph service of the Kansas Pacific railroad, whose railroad had been completed to Denver. Some time afterward he organized the American district telegraph of this city and was its superintendent for a number of years.

The other organizations perfected and successfully operated by Mr. Arbuckle were the Beaver Brook Water company and the Mountain Water company, which for many years supplied the citizens of the Highlands until consolidated with the Denver Union Water company.

The Denver Highlands Electric company is another of his prosperous business ventures.

He was receiver of the U. S. land office at Lamar, Colo., during Cleveland's first administration and was appointed to the same position in the Denver office under the second administration. He went east just after election to close a mining deal. He leaves a widow and two sons in this city.

Mr. Arbuckle also had a daughter, Mrs. I. N. Darrow, of this city.

Mrs. Arbuckle left Denver last evening via Union Pacific to join her husband in New York for a month.

MURDERED FOR MONEY. Dallas, Texas.—The dead body of L. A. Patrick, a prominent cotton planter of Lancaster, was found to-day a mile from Lancaster. He had been to Bristol, and sold a large quantity of cotton and was driving homeward with two strange men in his wagon. It is believed that these men murdered and robbed him, as no money or jewelry were found on his body.

ON TRIAL FOR MURDER. Austin, Texas.—The jury to try Burt, for the murder of his wife and two children, was completed this morning and the examination of witnesses began this afternoon.

ACQUITTED OF MURDER. Richmond, Va.—James E. Wimmer, who stabbed and killed Samuel Thalheimer who, he alleged, had caused the ruin of his daughter, was acquitted to-day.

JUMPED FROM A TRAIN. Warden of Pennsylvania Penitentiary Jumped from a Fast Moving Train After a Prisoner and Broke His Neck.

Pittsburg, Pa., Nov. 19.—While Warden McCas, of Erie, Pa., was en route to the Riverside penitentiary with twenty-three prisoners, Thomas Cronin, under a five years sentence for robbery, jumped from the fast moving train. McCas followed, but, alighting on his head, broke his neck. Cronin was seriously injured. He was later removed to the penitentiary to serve out his sentence.

In the heart of Chicago.

The Union Passenger Station in Chicago, into which all Burlington Route trains run, is located in the very heart of the city.

The principal hotels, the largest stores, the best theaters, the biggest business establishments are only a few blocks distant. To reach them it isn't even necessary to take a street car.

To reach Chicago, it is necessary to take the Burlington Route. It is the only line that runs from all points in Colorado and Utah.

G. W. VALLEY, General Agent, Denver.

A Queer Case.

London, Nov. 17.—A wealthy lady, supposed to be an American, who has been staying with her husband at the Hotel Cecil, committed suicide yesterday. The matter is being investigated.

CALLED ON MRS. DAVIS.

Col. Grant Paid His Respects to the Widow and Daughter of the President of the Confederacy.

St. Louis, Nov. 19.—Col. Fred D. Grant, of New York, a son of Gen. Grant, who is here attending the convention of the Society of the Army of the Tennessee, called on Mrs. Jefferson Davis and Miss Winnie Davis at their hotel, accompanied by Gen. Gus V. Henry, of Jefferson barracks. He held an informal interview with them which lasted about fifteen minutes. The widow of the confederate president expressed herself greatly pleased to meet Col. Grant.

Dutch Steamer Aground. Rotterdam, Nov. 17.—The Netherlands American line steamer Spaarndam, from New York for this port, grounded in a fog to-day near the small fishing town of Wassenaar on New Mer, about ten miles from here. The passengers have been landed. The steamer will probably be floated at the next high tide.

Prosperous Steamship Company. New York, Nov. 19.—The directors of the Pacific Mail Steamship company have ordered the building of a new steamer. The ship will fly the American flag and be available for use as a government transport. The directors have authorized a semi-annual dividend of 1 percent on the capital stock of \$20,000,000. The report of the treasurer shows that the company has in the treasury \$1,000,000.

BUSINESS DISASTERS.

Failure of One of the Largest Construction Companies in the Country—Bank Collapse in Iowa.

Chicago, Nov. 19.—The Probst Construction company made an assignment in the county court to-day to Gustave Wilke. The company is one of the largest contracting concerns in the country. Its headquarters are in New York. No statement was filed showing the amount of liabilities or assets.

New York.—B. Lieber, member of the Probst Construction company, with headquarters in this city, was questioned to-day with reference to the report from Chicago that the company had made an assignment. He said: "I have heard nothing of the assignment, though naturally I should have been advised of it. I know no cause for such a proceeding."

BANK FAILURE IN ST. LOUIS. St. Louis, Mo.—The First National bank closed its doors to-day. The failure is due to heavy withdrawals. The bank is one of the oldest institutions in the city and was considered one of the soundest. Its capital was \$1,000,000. The liabilities to depositors at date of last report were \$407,000; loans and discounts, \$492,000. Bank Examiner B. Landing has been placed in charge.

Silver Coinage. Washington, Nov. 19.—The records of the treasury department show that from February 1, 1896, to November 1, there were coined at the mints of the United States 15,323,922 standard silver dollars from the balance of silver bullion on hand purchased under the act of July 14, 1890. The seigniorage upon this amount was \$6,051,430, which has been turned into the treasury. The balance of the silver bullion purchased under the act of 1890, on hand November 1, 1896, was 125,061,163 fine ounces, which cost the government \$112,805,823. The coinage value of this amount is \$161,693,000.

Closed on Account of Small Profits. St. Louis, Nov. 19.—The East St. Louis Packing company, which has a plant valued at from \$300,000 to \$400,000 in East St. Louis, and maintained a large establishment in this city, has closed up owing to the small profits of the business.

Good advice: Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all druggists.

MOB VIOLENCE IN KENTUCKY. Lexington, Ky., Nov. 19.—A Leader special from Versailles says that all the toll-gates of Woodford county were destroyed by a mob at midnight. Similar depredations have been committed recently in Franklin, Owen, Anderson and Washington counties. The mobs are composed of men who demand free turnpikes.

BALD HEADS, see Danderine, the most wonderful discovery of modern times. For sale at Fischer & Co's Pharmacy.

ARMY OF THE TENNESSEE. St. Louis, Nov. 19.—The Society of the Army of the Tennessee to-day re-elected the old officers, Gen. Granville M. Dodge being president. The report of the Sherman statue committee was read. The contract with Carl Royal-Smith, of Chicago, for a work to cost \$80,000 was approved. The constitution was amended so that the children of all officers of the Army of the Tennessee would be eligible to membership.

HOW TO PREVENT CROUP. SOME READING THAT WILL PROVE INTERESTING TO YOUNG MOTHERS. HOW TO GUARD AGAINST THE DISEASE.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by all druggists.

BOUND BY IRON-CLAD ORDERS

Both Sides to Santa Fe Receivership Restrained from Action by the Courts.

STATE AND FEDERAL COURTS IN CONFLICT

Question of Jurisdiction Must Be First Disposed Of—If Federal Court Assumes Jurisdiction, Case Will Go to Supreme Court.

Topeka, Kas., Nov. 19.—Bound by iron-clad restraining orders from both the federal and state courts, both sides to the controversy over the Santa Fe receivership case are powerless to move. It is thought that there will not be any new developments until the case comes up for hearing before Judge Foster on next Monday.

Attorneys Keeler and Hite were to-day served with the restraining orders issued yesterday by U. S. Judge Foster. They say they will obey the injunction and will take no further steps until Judge Foster decides upon the question of jurisdiction. If he decides that the state court has jurisdiction, they will at once, it is stated, carry the case to the U. S. supreme court on this point alone.

Prussian Minister. Paris, Nov. 19.—A dispatch from St. Petersburg says that M. Shinkine, acting minister of foreign affairs, has been appointed minister of foreign affairs in succession to the late Prince Lobanoff-Rostovsky.

Victory Won on Paper.

Madrid, Nov. 19.—An official dispatch from Manila says that the insurgents have been defeated in engagements with the Spanish troops at Santa Cruz and Angarat, losing 500 men, the government loss being eight.

CONTEST IN KENTUCKY.

Democrats Dispute the Election of Eleven McKinley Electors—Both Sides Charge Frauds.

Louisville, Ky., Nov. 19.—Secretary Richardson, of the state Democratic committee, announces that the party has definitely decided to contest the election of eleven McKinley electors in Kentucky.

The Democrats concede the election of the foremost McKinley elector, S. H. Nash, who ran 224 votes ahead of W. H. Smith, the leading Bryan elector.

The grounds of the contest are irregularities and frauds in a large number of counties. The Republicans make as many charges of irregularity and fraud as the Democrats. The state contest board is composed entirely of Republicans.

ADMIRAL BUNCE'S FLEET.

Will Not Appear in Cuban Waters During the Winter—Mexican Tobacco May Supplant Cuban Product.

Washington, Nov. 19.—Admiral Bunce's fleet of war vessels will be kept this winter, as last, away from Cuban waters. The fleet will not go south, stopping at Venezuelan ports, as at one time talked of, but will rendezvous at Hampton Roads and enter upon the winter's program of practice and drills and open sea evolutions.

MEXICAN MAY SUPPLANT CUBAN TOBACCO. Consul-General Crittenden reports from Mexico to the state department that Mexican tobacco promises to take the place of the fine grades of Cuban tobacco in the markets of the world.

The wife of Mr. Leonard Wells, of East Brimfield, Mass., had been suffering from neuralgia for two days, not being able to sleep or hardly keep still, when Mr. Holden, the merchant there, sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5 if it could not be had for less. For sale at 50 cents per bottle by all druggists.

MOGOLLON DISTRICT. Change of Management in the Confidence Mine and Mill That Please the Miners.

An entire change of administration has taken place in the Confidence property, and, if the general opinion of good mining men, who are altogether disinterested, can be taken as evidence, it is certainly a great change for the better.

Under the regime just past, good miners avoided the Confidence as they would a pesthouse. They claimed the foreman and bosses did not know anything about what a day's work was in a mine and the continued fault finding and peon-driving system drove all good miners away from the Confidence camp.

William Antrim, a miner of many years' experience, who has seen sixteen years constant service in the best mines of this camp alone, is now in charge of the mine and will give employment to several first-class miners if they will accept of the offer.

The reasons herebefore mentioned have caused a death of good miners and such men can now find employment at the Confidence.

The ore teams are hauling steadily to the mill on Whitewater. The mill will be started as soon as the ore line, which held 1,000 tons, are filled so as to have a reserve for a few weeks in case of stormy weather delaying the teams. The mill will be probably started next week. The mine is in good shape with numerous large ore bodies in sight. Development work will be kept ahead of the stopes and ore reserves opened up equal to the amount extracted.

While the mine has paid well since the reduction of ore was commenced, still it seems to have a much brighter future in store. Mr. John T. Graham, one of the principal owners, is in charge as general manager, and under his careful supervision everything about the mine and mill is running as smooth as clock-work. Silver City Enterprise.

Colliery Explosion in Germany.

Berlin, Nov. 19.—A fire damp explosion occurred to-day at the colliery of R. E. Tickenhausen, Westphalia. Twenty-five bodies have been recovered. Forty or fifty men are known to be still entombed. Eventually but five men were rescued. The total number killed is about thirty.

JEWISH WOMEN CONFEE.

Continuation of Council of Jewish Women in New York—Election of Officers—Armenian Resolution Tabled.

New York, Nov. 19.—The council of the Jewish women to-day elected officers for three years as follows: President, Mrs. Hannah G. Solomon, of Chicago; first vice president, Mrs. Sophia Beer, of New York; second vice president, Mrs. E. Manuel, of Chicago; corresponding secretary, Miss Sadie American, of Chicago; recording secretary, Miss Gertrude Berg, of Philadelphia; treasurer, Miss Carrie Wolf, of Chicago.

A resolution sympathizing with the Armenians, who suffer from religious persecution, provoked a great deal of discussion. Mrs. Frederick Nathan said: "A great many people are of the opinion that the Armenians brought all their trouble on themselves through political intrigues, and I don't believe it is our province to decide who is to blame."

The resolution was tabled.

Barkis is Willin'. Cleveland, Nov. 19.—M. A. Hanna stated to an Associated Press reporter to-day that the alleged interview with him sent from this city by the United Press, making him say that he was ineligible to the portfolio of secretary of the treasury, "is a pure fake."

Labor's Struggle.

New York, Nov. 19.—It was announced in the tapestry mills of the Alexander Smith's Sons Carpet company, in Yonkers, last night, that the concern would shut down until January or later. About 7,000 hands will be thrown out of work. It is said that there is no market for carpets.

Detroit, Mich.—Employees of the Michigan Car company state that 1,500 of them employed by the company six weeks ago have been laid off. The men had anticipated plenty of work in the near future. The officers of the company decline to talk about the matter.

JUAREZ A MONTE CARLO.

Dan Stuart at Work on His Great Southwestern Sporting Great Enterprise.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Says the El Paso Times: Dan A. Stuart is expected in El Paso next week. It is generally known that Mr. Stuart is working to secure a concession from the Mexican government for sports in Juarez.

If Mr. Stuart succeeds, and it is most likely that he will, sporting headquarters in the United States will be transferred from New York to El Paso. The concession will call for horse racing, pugilistic contests and gaming of all kinds. The fact that New York, the empire state of the United States, has passed a law permitting boxing contests will no doubt influence the Mexican government to look with kindness on Mr. Stuart's scheme.

"The people of El Paso," said Mr. Stuart, to a Times reporter recently, "have no idea what it will mean for El Paso to transform Juarez into a Monte Carlo. The money for \$300,000 worth of buildings and race tracks has already been subscribed and if I am successful in my negotiations double that amount of money will be spent in El Paso by our company during the next six months. We are going to have this Monte Carlo somewhere in the United States and I prefer this point because El Paso has railroads reaching out in every direction and in course of time they could be induced to help El Paso in order to help themselves."

A. Hollenbeck, United States mail contractor from San Antonio, reached the city last night and returned again this morning. He says it is only a question of time before the stage and postoffice robbers will be captured. He was at Silver City on Sunday and they were within nine miles of that place on Saturday last and were heading for White Signal. Book Harden recognized one of the party as Black Jack. United States Marshal Hall started a posse after them on Sunday morning. Hollenbeck says he has just recovered four of the horses stolen from his stage line. He found them at Cow Springs, thirty miles below Deming at the Diamond A ranch, where the robbers had exchanged them for fresh horses. Albuquerque Democrat.

THURSDAY, NOVEMBER 19.

GOVERNOR THORNTON'S REPORT.

Gov. Thornton's third annual report to the secretary of the interior, an epitome of which was printed in these columns yesterday, is a most valuable contribution to the literature of New Mexico. It presents a clear, candid and comprehensive statement of the condition and needs of this territory that merits the prompt and thoughtful attention of congress to the end that the just legislation so long sought by our people may no longer be withheld. We are especially impressed by the governor's earnest and timely recommendation that congress provide adequate means whereby the minerals on confirmed land grants, expressly reserved to the United States in accordance with the intention of the governments originally making the grants, may be thrown open to prospectors and miners without liability for trespass on the sacred surface grounds. This reasonable relief has long been urgently petitioned for, but, through the machinations of the unscrupulous land grant manipulators it has so far been denied. This dog-in-the-manger policy not only works a serious hardship upon the people of New Mexico, but it is depriving the government of the handsome revenues that it would annually derive from the sale of the minerals on confirmed grants. Surely congress ought to give prompt heed to Gov. Thornton's conservative recommendations in the premises.

REVISED VOTE FOR PRESIDENT.

Chicago Record: With the exception of the electoral vote of Wyoming, which is still in doubt, the result of the presidential election of November 3 seems to be definitely settled. Kentucky gives 12 votes to McKinley and 1 vote to Bryan, the elector on the Democratic ticket who got the highest number of votes having received a few more than the elector on the McKinley ticket who stood the lowest in the poll. Delaware's three votes go to McKinley notwithstanding the error in the ballot by which one elector appeared both as James Shaw and James Shaw, sr. In the following table Wyoming's votes are given to Bryan, who seems to have the best claim on them at present:

McKinley's electoral vote has been surpassed at two previous presidential elections. In 1872 Grant secured 292 electoral votes, and in 1892 Cleveland got 277 electoral votes.

EFFECT OF A TARIFF ON LEAD ORES.

After speaking of the bright outlook of the gold mining industry in New Mexico, the Albuquerque Democrat editorially says:

"We have also scores and hundreds of silver-lead properties which became unprofitable with the depreciation of silver, but which will yield a good working profit on their lead if the McKinley administration carries out its promise to put a big tariff on lead ores. We can not quite appreciate the wisdom or beauty of a policy which forces down the price of a valuable metal which the world has to buy from us, and forces up the price of a cheap metal which we can buy from the world—but fortunately we are so situated that we can take advantage of the policy without stopping to discuss its wisdom or its folly, and if Mr. McKinley and his congress will put a good round tax on foreign lead ores, we can manage to make fair profits in lead mining and let the silver mines remain closed."

While we admire the philosophical spirit that animates our esteemed Democrat contemporary in attempting to make the best of a bad mess, we can not refrain from expressing a doubt whether there is any basis for even the wee morsel of comfort it extracts from the situation. We are unable to see how "a good round tax on foreign lead ores" would promote the mining industry of the Rocky mountains. On the contrary, judging from the practical workings of the McKinley tariff on lead ores, we believe that such a tariff now would so enhance the cost of smelting in this country, which is largely dependent upon the wet ores of Mexico for fluxing purposes, as to complete the ruin of the mining industry in the United States.

Prior to the recent election, we contended in perfect good faith that the McKinley tariff on lead ores immensely stimulated the mining and smelting industries in the republic of Mexico to the great disadvantage of those kindred industries in this country. We believed that then, and further investigation has simply served to strengthen our antiselection opinion.

Cancer

Mrs. A. H. Crausby, of 158 Kerr St., Memphis, Tenn., paid no attention to a small lump in her breast, but it soon developed into a cancer of the most malignant type. The best physicians in New York treated her, and finally declared her case hopeless. As a last resort, S. S. S. was given, and an immediate improvement resulted; a few bottles cured her completely, and no sign of the disease has returned for ten years.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portion in particular the finest apple country in the world. Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation. The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water-supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times, rapid increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Fajal section. This company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

HOW TO PREVENT CROUP.

SOME READING THAT WILL PROVE INTERESTING TO YOUNG MOTHERS. HOW TO GUARD AGAINST THE DISEASE.

Croup is a terror to young mothers and to parents concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given all tendency to croup will soon disappear. Even after the croupy cough has developed it will prevent the attack. There is no danger in giving this remedy for it contains nothing injurious. For sale by all druggists.

One of the mysteries of nature is that a cigar that will not keep lit 10 seconds on the street will smoke like a kitchen range for half an hour if you happen to take it into a street car.

Usher—Any call?
Sexton—Yes. The party in pew 128 wants to be waked promptly at 11:30.

The wife of Mr. Leonard Wells, of East Brimfield, Mass., had been suffering from neuritis for two days, not being able to sleep or hardly keep still, when Mr. Holden, the merchant there, sent her a bottle of Chamberlain's Pain Balm, and asked that she give it a thorough trial. On meeting Mr. Wells the next day he was told that she was all right, the pain had left her within two hours, and that the bottle of Pain Balm was worth \$5 if it could not be had for less. For sale at 50 cents per bottle by all druggists.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement. "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Presb. Church, Helena, Mont.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no mercury nor any injurious drug. Price, 50 cents.

CATARRH

LOCAL DISEASE
It is the result of cold and sudden change of temperature. It can be cured by a pleasant remedy which is applied directly into the nose. It is quickly absorbed and gives relief at once.

It is acknowledged to be the most thorough cure for Nasal Catarrh, Cold in Head and Hay Fever of all remedies. It opens and cleanses the nasal passages, relieves pain and inflammation, kills the germs, prevents the membrane from swelling, restores the normal condition of the nose, and gives relief at once.

GEMS IN VERSE.

The Touchstone.
I told mine enemy the truth. His brow
At first grew stern, and from his angry eyes
The lightning flashed. But soon he spoke:
"The now
I see I judged you falsely. Wrong was I
Forgive me for the past and let us forth
To roam through peaceful meads, all strife
at end."
So arm in arm we went, no longer wroth.
The truth had made mine enemy a friend!
I told my friend the truth. He bravely smiled,
And with a gracious courtesy averred,
"Your candor pleases me!" Yet 'neath his
kind
And glad exterior a something stirred.
Which plain said than words: "We are estranged."
Forevermore, your lance hath wounded me
Past all redress! Love had to hatred changed.
The truth had made my friend an enemy!
—Eleanor C. Donnelly.

The Other World.
It lies around us like a cloud,
The world we do not see.
Yet the sweet closing of an eye
May bring us there to be.
Its gentle breezes fan our cheek
Amid our worldly cares.
Its gentle voices whisper love
And mingle with our prayers.

Sweet hearts around us thro' and beat,
Sweet helping hands are stirred,
And palpitates the veil between
With breathings almost heard.

The silence, awful, sweet and calm,
They have no power to break.
For mortal words are not for them
To utter or partake.

So this, so soft, so sweet they glide,
So near to press they seem,
They tell us gently to our rest,
They melt into our dream.

And in the hush of rest they bring
"The easy now to see
How lovely and how sweet a pass
The hour of death may be—"

To close the eye and close the ear,
Wrapped in a trance of bliss,
And gently drawn in loving arms,
To swoon from that to this.

Scarcely knowing if we wake or sleep,
Scarcely asking where we are,
To feel all evil sink away,
All sorrow and all care!

Sweet souls around us watch us still,
Press nearer to our side,
Into our thought, into our prayers,
With gentle helping glide.

Let death between us be as naught,
A dried and vanished stream,
Your joy be the reality,
Our suffering life the dream.

—Harriet Beecher Stowe.

Write Her Every Day.
Comrade, have you got a wife?
Write her every day.
Half the joy is out her life
When you are away.
Write her from the speeding car.
Never mind the thump and jar
Which your loving letters mar.
Write her every day.

You are in the stirring world.
She at home must stay.
Conscious you are being whirled
Farther yet away.
There she's watching, waiting, listening.
With heart beating, with eyes glistening.
Quick to catch the postman's whistling.
Write her every day.

Would you some kind service render,
Sweet attention pay?
Then a loving letter send her
When you are away.
Would you all her home life brighten?
Would you all her sorrows lighten?
Bonds of sweet affection tighten?
Write her every day.

And, however far you wander,
I am sure I would pay.
Could you see her rest and ponder
Over what you say.
Have your tablet in your grip,
Pountain pen charged to the tip,
Then don't let the chance slip.
Write her every day.

If you chance to gush a little—
And perhaps you may—
She will grant you full acquittal,
It is safe to say.
Write her genuine love letters,
Riveting anew love's fetters.
These are Cupid's best abettors.
Write her every day.

Life Everywhere.
Whether we look or whether we listen,
We hear life murmur or see it gladden,
Every clod feels a stir of might,
An instant within it that reaches and towers,
And, groping blindly above it for light,
Climbs to a soul in grass and flowers.

The flunk of life may well be seen
Thrilling back over hills and valleys.
The cowslip starts in meadows green,
And there's a never a leaf or a blade too mean
To be some happy creature's palace.

The little bird sits at his door in the sun,
And tells his hummed being o'er
With the deluge of summer it receives.
His mate feels the eggs beneath her wings,
And the heart in her dumb breast flutters and sings.

He sings to the wide world, and she to her nest.
In the nice ear of nature, which song is the best?

And scents the weeds grow.

And to the soul that mourns its dear and dead
Sweet comfort gives.

Many people walk on the very edge of danger all unconsciously. They do not wake up to the truth that the slight symptoms of weakness which they feel may, at any instant, take a plunge into serious or fatal illness.

Once the "running-down" process begins it is speedy and there's no telling how it will end. To stop the loss of vitality and build up your strength and weight to the normal, healthy standard, there is matter what any drug may say. They regulate and invigorate the Stomach, Liver and Bowels.

It was taken ill in February, 1892, with a headache and pain in my back," writes A. H. Gaddis, Reg. of No. 313 S. J. street, Tacoma, Wash. "I called in a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a cough so that I could not sleep only by being propped in bed. My lungs hurt and I got so poor that I was just skin and bone. I thought I was going to die, till one day I saw the 'Golden Medical Discovery' recommended for a cough. I tried a bottle of it and it did me so much good that I tried another one, and it made me sound and well, so I can recommend it to everybody. It saved my life."

It has been recognized as the only perfect cure and radical cure for all bronchial complaints, throat and lung affections and diseases resulting from impoverished blood.

FOR CONSTIPATION.
no remedy in the world is equal to Dr. Pierce's Pleasant Pellets, which act naturally and mildly, but never fail to effect a complete and permanent cure. There is no substitute for these "Pellets," no matter what any drug may say. They regulate and invigorate the Stomach, Liver and Bowels.

In the heart of Chicago.

The Union Passenger Station in Chicago, into which all Burlington Route trains run, is located in the very heart of the city.

The principal hotels, the latest stores, the best theaters, the biggest business establishments are only a few blocks distant. To reach them it isn't even necessary to take a street car.

It is necessary to take the Burlington "Westland Flyer," that is, it is if you want the best there is. Leave Denver at 9:30 p. m. and arrive at Chicago at 10:30 a. m. and Utah.

SOLVING WATER PROBLEM.

Excellent Condition of Santa Fe's Water Plant—Hydraulic Work on the New Dam Progressing.

A NEW MEXICAN scribe had a pleasant and interesting chat with Capt. S. H. Day, superintendent of the Santa Fe Water & Improvement company, this morning.

Capt. Day says that the plant of his company is in better condition than ever before at this season of the year. The large reservoir or lake in the mouth of Santa Fe canon is even full of pure water, while a year ago at this time the water in the reservoir was eight feet below the top of the dam or the present level. The small reservoir on the hill, used to supply power for the electric plant of the company, has also been raised and dressed up and other improvements made preparatory to the closing in of winter.

Capt. Day also says that the surplus water in the reservoir is being utilized in hydraulic work on the new dam north of the federal building. This will be continued until the ground freezes and renders it impracticable. Then in the early spring the work will be pushed by both the hydraulic method and by teams, and he anticipates having the dam completed in time to save the flood waters in July and August. The new reservoir will be used exclusively for irrigating purposes.

Fresh oysters, extra select counts, 50c per can. Fancy full cream cheese 2 pounds 35c. Ham, 1lb per pound. Tripe, 2 pounds 25c. Pig's feet 5c each. Dry salt shoulders, 10c per pound. Smoked bacon, 11c per pound.

Funeral of Miss Gay.
The funeral of Miss Beatie Gay, sister of Mrs. D. C. Fletcher, teacher of the local kindergarten, took place at the church of the Holy Faith this afternoon at 2 o'clock. As a token of respect the public schools of the city were dismissed for the afternoon and most of the teachers and many friends of the bereaved family attended. The floral tributes were as fragrant and beautiful as the life that has gone.

Rev. J. L. Gay, the aged father of the deceased, arrived from Beaver, Mo., last night. Mr. Gay is 85 years old and is the oldest Episcopal clergyman connected with the diocese of Missouri.

The appended resolution of sympathy was this morning handed to Mrs. Fletcher: Dear Mrs. Fletcher: We, the teachers of the public schools of Santa Fe, wish to extend to you, our esteemed associate, and to your family our heartfelt sympathy in this your hour of deepest sorrow. May God bless you and help you bear the burden He has laid upon you. Sincerely, Mrs. L. L. Brown, Lucy E. Dickson, Sister Anna Mary, Sister M. Constanza, Tilton Jenkins, M. Tessa, Cali, Endora Cowperthwaite, B. P. Yrisari.

ROUND ABOUT TOWN.

There will be the regular meeting of Paradise lodge No. 2, I. O. O. F., this evening at 7:30.

U. S. weather bureau forecast for New Mexico: To-night and Friday fair; warmer Friday.

In response to an inquiry, the New Mexican begs leave to say that an adjourned session of the July term of the New Mexico supreme court will open in Santa Fe on December 14.

There will be a special meeting of the Santa Fe fire department at Firemen's hall to-night at 7 o'clock. All members are requested to be present, as business of importance will be transacted.

The Guild will hold an important meeting at the home of Mrs. Thornton tomorrow afternoon at 2:30 o'clock. All members are earnestly requested to be present.

Capt. M. M. Murdock, the noted editor of the Wichita Eagle, famed the world over as the originator of western town booms, is an interesting character now domiciled at the Palace. He is a genial and entertaining gentleman and has already made a host of friends among Santa Feans. Capt. Murdock will remain here some time enjoying a well-earned rest.

Messrs. Muller & Walker, the popular and ever progressive grocers, yesterday moved into new, large and much more commodious quarters in the Berardinelli block. They are always ready for business, but in a few days, as soon as they can get settled, they will be in shape to greet their friends in one of the best regulated business establishments in the west.

Pablo Perez, an aged Indian, sentenced to twenty-one years from Bernalillo county for murder and serving since June 18, 1890, died at the penitentiary at 11 o'clock last night. He was demented and actually died of old age, being nearly 80 years old. Pablo was the late Leandro Perez's wagon boss in the early days and was in his prime a good deal of a man. The body was buried this afternoon with the usual ceremonies. This is the third death at the institution in two years.

M. L. Chase, late of Bland, informs the Citizen that he will probably make Albuquerque his future home. Mr. Chase was interested in the development of the Coehiti mining district, with headquarters at Bland, and says now that the district will "blossom as a rose" should the Denver people, who are negotiating for the erection of a big mill, with a capacity of from fifty to 100 tons per day, carry out their plans. He believes that the best paying mines in New Mexico are located in the Coehiti district.

Police Magistrate Crawford collected \$286 in fines during October. Marshal Fornoff in the same month made ninety arrests; twenty dogs were killed under his direction and 579 meals served in the city jail.—Albuquerque Democrat. In this connection it may be mentioned that \$5 cover the fines collected in Santa Fe during October. Either the people of Santa Fe are growing remarkably virtuous or the ordinances here are not being properly enforced.

Colorado Springs, not its existence in 1870, had grown to 11,140 inhabitants in 1890, supported by its reputation as a health resort. Advertising does these

things. To-day Santa Fe would be away ahead in popular esteem as a health resort if judicious advertising had been attended to. Not a day passes now but the postoffice or the New Mexican receives inquiries for information as to Santa Fe's climatic and other attractions. A pamphlet on the subject is sadly needed.

Messrs. W. H. Kennedy and B. M. Donaldson are here from Cerrillos to-day disposing of the McFadyen furniture and fixtures. They confirm the reports of that rich gold strike at Golden, but are unable to give details beyond those already printed in the New Mexican.

Fischer & Co. have received fresh Plow's candies. They will receive fresh shipments every week.

Colored Folks in Debate.

Quite an interesting entertainment was given at the A. M. E. church on last evening, the occasion being the weekly meeting of the literary society of that church. An interesting debate was one of the features of the evening's entertainment, the subject being "Which is the Happiest Period of Man's Life, Childhood or Manhood?" The "Childhood" period was ably advocated by Messrs. W. H. Kerr and George Parsons and Mrs. Hall, while the opposite side was ably presented by Messrs. Chas. Parsons, Dunlap and Dudley. After a somewhat animated discussion between the judges, who were the pastor of the church, Thos. F. Gable and Mr. Payne, their verdict was rendered in favor of the debaters who espoused the cause of "Manhood." Music and recitations closed a very enjoyable evening.

PERSONAL.

Mr. M. C. de Baca is over from Las Vegas.

Hon. N. B. Field came up from Albuquerque this morning.

Judge Edward Henry left last night for his home at Las Vegas.

Steve Lacassaigne is home from San Juan, where he has been at work for some weeks.

At last accounts Major E. G. Ross, secretary of the bureau of immigration, was at Deming.

At the Exchange: John Roper, Pat Hanley, Alamosa; J. Johnson, Cerrillos; M. C. de Baca, Las Vegas.

At the Palace: W. H. Kennedy, Cerrillos; N. B. Field, Albuquerque; C. E. Edwards and wife, New York.

The Optic reports that Felix Martinez, clerk of Judge Smith's court, is in El Paso to remain until December 1.

Hon. Eugene A. Fiske returned to his Santa Fe home from a professional visit to Tierra Amarilla yesterday afternoon.

Miss Jane Burton, of Washington City, former school-mate of Mrs. W. R. Price, arrived last night and will spend the winter here.

James McCarthy, a journalist from Denver, better known by his nom de plume of "Fitz Mac," is in El Paso on his way to the mining camps of southern New Mexico.

An elegant line of writing tablets and papereries just received at Fischer's. Call and see them.

POLITICAL GOSSIP.

Socorro will put an army of politicians in the field for federal positions. In this particular industry that town is up to date.—San Marcial Bee.

It is rumored in local political circles that Judge E. C. Foster, of Farmington, is numbered among the candidates for governor of New Mexico.—Aztec Index.

Col. Phillip Mothersill, of Engle, manager of the cattle company in which Gen. Alger is largely interested, is said to be an applicant for the office of U. S. collector at El Paso.

It seems to be the general opinion that Col. A. L. Morrison will dispose of most of the federal patronage in this territory. At least applicants for positions will count themselves fortunate who secure his signature to further their pleas.—Las Vegas Examiner.

Messrs. Childers and Dame and other members of the Goldite party had a conference at Albuquerque yesterday. Mr. Dame denies it, but nevertheless it comes pretty straight, that he is being pushed by certain influential Republicans and Goldite Democrats for appointment as territorial secretary.

The Hillsboro Advocate says Mr. Ferguson has written Hon. W. S. Hopewell thus: "I shall always be proud of the splendid majority given me by Sierra county, and I want to return my thanks to you and through you to my other good friends in Sierra county for their loyal and effective support. I trust I may be always worthy to have received such generous treatment."

Report comes down from Rio Arriba county that Sixto Chavez, Democratic candidate for representative, will contest Jaramillo's election on the ground of numerous frauds in strong Republican precincts of the county and also because of the fact that Jaramillo is not of lawful age to qualify for the office he seeks.

U. S. LAND COURT.

Salvador Grant Case Argued and Submitted—Canon del Colorado Grant Case on Trial.

In the United States land court this forenoon, all the judges being present, the trial of the Salvador Gonzales grant case was concluded and the case taken under advisement.

The trial of the Canon del Rio Colorado grant case, involving the Red River mining district in Taos county, began this afternoon. Mr. Reilly and Gen. Bartlett represent the miners, Mr. Catron represents the petitioners, Elder, and Mr. Pope appears for the government.

The Roswell Extension.

It is expected that money will soon be raised for the extension of the Pecon Valley railway from Roswell, N. M., to connect with the Atchison, Topeka & Santa Fe at a point called Washburn in Texas. The proposed extension would give the Pecon valley close connection with the east, but it would bring it very little nearer than it is now to this part of the Rocky mountains. It is hoped that the line is not far distant when this road will be extended northward to connect with the Atchison, Topeka & Santa Fe at Las Vegas or some other point in that part of New Mexico.—Denver Republican.
