NATIONAL CAPITAL BUDGET

President Cleveland, Feeling the Need of Rest, Has Arranged to Take an Outing.

THE SALE OF WHISKY IN THE CAPITOL

Blind Chaplain Thanks God That the House is No Longer Responsible for the Traffic—Prayer Applauded—Private Calendar Taken Up.

Washington, Dec. 11.—President Cleveland, feeling the need of rest, has arranged for an outing accompanied by Capt. R. D. Evans, of the navy; Capt. Lambertson, of the light house district, and Dr. O'Reilly, the president's physician. He will leave here late on Saturday night or Sunday morning by rail for Georgetown, S. C., where they will be met by a light-house tender and taken down the Winyah bay to the club house, where the party will be the guests of Gen. Alexander. The same club entertained the president about two years ago.

SESSION OF THE HOUSE TO DAY.

The house yesterday passed a bill to prohibit the sale of liquor in the capitol. To-day the blind chaplain, in his prayer, said: "We thank thee, O Lord, that this house is no longer responsible for the liquor traffic within the halls of the national capitol. Grant, we pray thee, that the bill passed here yesterday go through the regular channels and speedily become a law, never again to be repealed in the history of our nation."

At the conclusion of the prayer a half dozen members applauded vigorously. Speaker Reed promptly suppressed the outburst. On motion of Mr. Dingley, the floor leader, it was agreed that when the house adjourned to-day it be to meet on Monday.

A joint resolution extending until the close of this session the time for the joint committee to investigate the question of the alcohol tax, used in manufacture of arts, was adopted.

This being Friday, the house then, on motion of Mr. McMillin, of Tennessee, went into committee of the whole for the consideration of bills on the private calendar.

HANNA LEAVES FOR HOME.

Chairman Hanna left the city to-day for Cleveland, via Philadelphia, where he will stop till to-morrow.

TO-DAY'S CONDENSATION.

Gen. J. S. Coxey has quit the People's party.

The founding of the steamer Sallier off the Spanish coast entailed the loss of 400 to 500 lives.

At Hedges, near San Diego, a cave-in occurred in the Queen mine last night. Four miners are entombed with no chance of escape. Five men were injured.

Frederick East, one of the three male defendants in the suit for criminal libel, brought by Earl Russell in London against his mother-in-law, Lady South, is dead.

Near Columbia, Mo., to-day an unknown man jumped from the east bound train on the Missouri, Kansas & Texas road, while going at forty miles an hour and was instantly killed. He had \$3,000 on his person but nothing tending to show his identification, except a ticket reading from Denison, Tex., to St. Louis.

New Stocks Listed.

New York, Dec. 11.—The New York stock exchange has listed \$79,800,000 common and \$74,000,000 preferred stock of the Northern Pacific railroad, \$176,000 6 per cent bonds of the Fort Worth & Denver City railroad and trust receipts for \$3,065,000 Oregon Improvement first mortgage bonds.

Another Version.

Washington, Dec. 10.—At a meeting of the house committee on territories this morning, Mr. Catron, delegate from New Mexico, endeavored to secure the consent of the committee to amend the New Mexican statehood bill so as to provide for its admission two years hence. The committee, however, so obviously opposed considering any statehood bill, that the matter went over without discussion.—United Press report to the Optic.

Taken in By Creditors.

Denver, Colo., Dec. 12.—The clothing store of H. Schradsky, one of the largest in the city, has been taken possession of by L. H. Bouldman and Samuel Butler, mortgagees. No statement of assets and liabilities has been made.

Pueblo, Dec. 12.—The Andrews Packing company, one of the oldest and most successful slaughterers and jobbers of fresh and cured meats in this section, filed a general deed of assignment for the benefit of all creditors. Just before filing the assignment warranty deeds were put on record for the company's realty to protect the Western National bank for \$3,000 and the Pueblo National bank for \$1,200. Slow collections throughout Colorado, New Mexico, Utah, Kansas and Texas are stated to be the cause of the assignment.

REVIVAL OF BUSINESS.

Notable Bank Failures in New York and Wisconsin—Fletcher of Money Exemplified.

Niagara Falls, N. Y., Dec. 11.—At the first National bank this morning a notice was posted that the directors had last night decided to close the institution. It is said that the depositors will get their money. A few days ago the Niagara Paper company failed. Several bank directors were hard hit. This was generally known and there was a run on the bank for a few days past. These facts and the fall of the newly elected president to qualify caused the suspension.

The bank's capital was \$100,000; individual deposits, \$118,267; demand certificates outstanding, \$16,639; notes and bills re-discounted, \$29,678.

WISCONSIN BANK FAILURE.

West Superior.—The National Bank of Commerce, of Duluth, failed to open this morning. The notice posted stated that, owing to inability to make money, the directors had decided to suspend and expected to pay the depositors at an early date. The bank is capitalized at \$200,000; has \$30,000 surplus; deposits, \$90,000.

Decided Not to Indict.

Denver, Dec. 11.—The grand jury voted unanimously not to indict Andrew J. Spate, charged with the murder of his wife and four children, drowned when boating several weeks ago.

MACEO STILL LIVES.

Such is the News Cabled from Paris—Strengthening the Fortifications About Havana.

Paris, Dec. 11.—Senator Botanos, representative of the Cuban insurgents in this city, states that he learns from an authoritative source that Antonio Maceo still lives.

PREPARING FOR A FIGHT.

New York.—The World's Havana cable says: "The works of strengthening the fortifications about Havana is being pushed with noticeable energy. Guns are being placed on the heights around the city, all pointing toward the sea. The fortifications of Port Matanzas also are being strengthened."

Bimetallism the Remedy.

Paris, Dec. 11.—The agricultural budget was discussed in the chamber of deputies. Premier M. Meunier admitted the farmers were suffering from a continual fall in prices and that import duties had partly lost their efficacy, owing to the fall in value in foreign coin and fall in exchange. The remedy, he explained, was in bimetallism, but, he added, the question needed international settlement. The government, he further stated, intended to study the effects of speculation in wheat and farmers' insurance.

A New Comet Nighted.

Lick Observatory, Cal., Dec. 10.—A new comet was discovered soon after midnight yesterday morning in the constellation of Pisces by C. D. Perrine. Its position is as follows: Right ascension, 10 hours and 44 minutes; declination, 6 degrees and 20 minutes north.

It is as bright as a star of the eighth magnitude and can be seen with a telescope of moderate power. It has a sharp stellar nucleus of magnitude 10½ or 11, and a long, diffuse tail of an arc in diameter, with indications of a short fan-shaped tail. It is moving rapidly to the east and more slowly to the south.

ELOPING ELVIRA.

Daughter of a Pretender to the Spanish Throne Skips with Her Lover—Dead to Her Daddy.

New York, Dec. 11.—The World says: Princess Elvira, the eloping daughter of Don Carlos, the legitimist pretender to the throne of Spain, unless she has already set sail for the United States, is still in Barcelona. The princess has addressed a letter to her father, imploring pardon, but declaring that, since his second marriage with the Princess Bertha, of Rhon, her home life had become intolerable. This letter was written as a response to a communication from Don Carlos, addressed to his followers and adherents, informing them that his daughter Elvira was dead to him and requesting their prayers for her miserable soul. Meanwhile, the princess' brother, Don Jaime, really the active head of the Carlist party since his father's second marriage, obtained leave of absence from a Russian cavalry regiment to which he is attached, and is watching the French side of the Spanish frontier with the avowed determination of shooting Volohi, the companion of Dona Elvira's flight, if he dares appear in French territory.

A Banquet to Bernhardt.

Paris, Dec. 11.—There were 600 people present at the banquet given at the Grand hotel to Mme. Sara Bernhardt by her admirers. They included the leading artists, literary and society people of the capital. The great French actress, who wore a cream satin dress and a green plush opera cloak, arrived at the hotel soon after noon, accompanied by Sardou, the dramatist, and entered amid the rapturous cheers of the crowd about the building.

After the Trusts.

Washington, Dec. 11.—Senator Shoup, of Dakota, presented a bill to the senate prohibiting the formation of trusts to protect imported articles by providing for the placing of such articles on the free list, and also a bill to suspend the further issuance of paper currency of less denomination than \$10.

Chicago.—At the instance of the interstate commerce commission a warrant has been issued for the arrest of A. J. O'Reilly, commercial agent of the Louisville, New Albany & Chicago railroad company at Indianapolis, the charge being violation of the interstate law by discriminating in rates.

Allen's Clever Move.

Washington, Dec. 12.—When asked to explain the motive of his motion in the senate to take up the Digley tariff bill, Senator Allen replied:

"I have no motive except that we used to say in the army, to feel the enemy. I want to satisfy myself and the country as to the attitude of the Republicans toward this measure, which they have professed to be anxious to have become law and I think I have at least succeeded in demonstrating that they have no intention of trying to do anything."

Bicycle Tournament.

New York, Dec. 11.—When Haie, the Irish rider, completed the hundredth hour of the six-day bicycle race in Madison Square Garden, he had exactly 1,400 miles to his credit. That was 4 o'clock this morning. His closest rivals, Rice and Foster, were four hours later in making the same number of miles. Scores at 10 a. m.: Haie, 1,466; Rice, 1,416; Foster, 1,428; Reading, 1,407; Schock, 1,376; Taylor, 1,362; Smith, 1,350; Moore, 1,308; Flores, 1,314; Ashinger, 1,287; Maddox, 1,264; Cassidy, 1,247; Jamison, 1,100; Glyck, 974; McLeod, 966.

Mrs. McKinley in Chicago.

Chicago, Dec. 11.—Mrs. William McKinley arrived in Chicago to-day, accompanied from Canton by Mr. and Mrs. Moore, of San Francisco, and Mr. and Mrs. Lafayette McWilliams, of Chicago. Her visit is for the purpose of securing rest. While here, Mrs. McKinley will do her Christmas shopping and buy her seasonal gowns. There is a probability of President McKinley coming to Chicago in about a week and accompanying his wife back to Canton.

Mrs. Cooper and Her Daughter Took the Suicide Route Out of a Church Scandal.

Kindergarten Teachers and Philanthropists—Brooded Over Snubs from Former Friends Because of Church Troubles.

San Francisco, Dec. 21.—Mrs. Sarah B. Cooper and daughter, Harriett, were found dead in their home this morning with the gas turned on. Mrs. Cooper was president of the kindergarten association and her daughter was deputy superintendent.

Mrs. Cooper had lived here for thirty years and was widely known as an educator, philanthropist and writer. For many years she had taught the largest Bible class in the city in the First Congregational church. She was also assistant pastor of the church under Dr. C. O. Brown.

When the scandal concerning Dr. Brown was first spoken of, Mrs. Cooper stood by her pastor and expressed her confidence in him. Later developments caused her to change her mind and she and her daughter became the most prominent opponents and accusers.

This estranged many friends and the suicide of the mother and daughter is ascribed to brooding over snubs from former friends.

The daughter has been suffering from nervous prostration caused by the outcome of the church troubles.

In her will, written yesterday, Mrs. Cooper says that her stated intention to commit suicide would afford sufficient proof to render unnecessary a coroner's investigation and therefore requested that the bodies be not taken to the morgue.

Coroner Hawkins refused to grant the request and ordered the bodies taken to the morgue.

BIG STRIKE PENDING.

Serious Trouble Between the Coal Miners and Operators in Pennsylvania.

Pittsburg, Dec. 11.—The joint committee of the railway coal miners and operators reported to the convention to-day that they were unable to agree upon a rate and were discharged. A strike will probably follow.

The miners' ultimatum was 74 cents per ton from January 1 to March 1 and 79 cents for the following ten months. The operators offered 60 cents and 75 cents for the balance of the year. An exciting discussion followed. The committee was discharged. The convention is now trying to patch up a temporary agreement until a conference is made with Ohio operators to fix the differential. If a settlement is not effected there will be a general strike, involving 6,000 miners in this district.

Ex-Senator Dorsey.

Hon. Stephen W. Dorsey, ex-United States senator from Arkansas, and one of the most conspicuous political figures a few years ago in this country, came in from the south last night, and after eating a rattling good supper at Harvey's local house continued on north to Denver. The Citizen reporter says: "Mr. Dorsey introduced to Mr. Dorsey a few years ago, met the gentleman at the depot and he inquired after the welfare of half a dozen New Mexicans, whom he knew years ago, and among them were Gov. Stover, Pedro Perea, Neil B. Field and Judge H. L. Warren. The ex-senator said: 'I am just from my gold mine, Pichaco, near Yuma, A. T., and the property, to my way of thinking, is the richest proposition in Arizona. I recently returned from Europe where I interested a syndicate of wealthy English gentlemen in the development of several first-class mines down in Arizona.'—Albuquerque Citizen.

The Raton Shops.

The oft recurring statement, periodically sent out from Trinidad that the railway shops are to be moved from Raton to that town, can not possibly help Trinidad, but each year it injures Raton with people who are not familiar with the situation. Trinidad well knows that there is not the slightest foundation for the report. The people who formulate and circulate the statement have been authoritatively informed that if the shops were to be moved from Raton, (and that proposition has never yet been considered) they would not be taken to Trinidad.—Range.

FRIDAY, DECEMBER 11.

The beet sugar boom is on in New Mexico with a rush.

DELEGATE CATRON gave New Mexico another black-eye at Washington yesterday.

The people of Santa Fe and Grant counties had best be up and doing if they would save their homes from confiscation by Wall street shysters.

SUPPRESSING the news is a crime against the republic akin to trifling with the liberties of the people. It is always resented by right-minded people.

So DELEGATE CATRON proposes to postpone statehood for the unhappy territory that he misrepresents in congress for two years. This will prove the last nail in the great man's political coffin.

In the Western Union Telegraph battery at Santa Fe is in that shape that it "falls down" at such critical junctures, probably it would be well to petition the company for a new set of instruments from top to bottom.

It is quite evident that a large sized scrap is brewing among the dozen or so gentlemen who seek the gubernatorial office. At present the indications are that the May blossoms will be out here before the new governor arrives.

The state department under Mr. McKinley will furnish very little pie as there will only be fifty-three consulates of the first-class to dispose of and thirty-five diplomatic missions. All other consulates and commercial agencies come under the civil service ruling. This is tough on some New Mexico aspirants.

CHARACTERISTIC OF CATRON.

Delegate Catron revealed his true position as to statehood when he gave notice in the house yesterday that he would shortly move that consideration of the bill providing for the admission of New Mexico be postponed two years. This surprises no one. Catron has all along been known to be acting the traitor in the premises. He took the subject up originally solely for the purpose of manipulating his own selfish political deals, and now, when he finds that the people have discovered his tricks and repudiated them by an overwhelming vote, he goes on to the national capital to vent his spite by giving the territory and its people a public drubbing. Its rule or ruin with Catron always. Thank heaven his race is well nigh run.

THE FINAL FIGURES.

As the official counts came in and as the unofficial counts are revised and corrected in anticipation of the authoritative verdict, it is borne in upon us more and more that Bryan's defeat was achieved upon a very narrow margin, and that the "land-slide" spoken of so loudly was but a thing in buckram. The New Orleans Times-Democrat, one of the best informed journals in the country and without a superior in the collation and analysis of statistics, has just completed a careful examination of the figures, and says:

"All the counties of Texas have been heard from, and we are at last able to give the total vote cast at the late election. There were cast 13,732,498 votes, or 1,582,224 more than in the previous election, an increase of over 13 per cent. The plurality of McKinley over Bryan was not the 1,000,000 predicted, but barely half that much, or 592,866 in all. It is not the largest plurality ever received by a candidate for the presidency, but is below Grant's in 1872, and but little over his in 1868. Lincoln's in 1860, and Buchanan's in 1856."

The totals are thus given:

Total McKinley	7,044,584
Bryan	6,451,718
Palmer	118,596
Leavelle	104,427
McKibben	92,878
McKinley's plurality	592,866
Total vote	13,732,498

Our contemporary concludes as follows: "The table going the rounds of the press purporting to be the popular vote, and originally published in the New York World, is an arrant fake. It gives South Carolina to McKinley; it credits votes to Palmer in South Dakota, where there was no Palmer ticket, and its returns for most of the states, and particularly the southern states—among them Alabama, Louisiana and Texas—are incorrect, and, in many cases, evidently invented, as votes are credited to candidates, particularly Palmer, where not a single vote was received by them."

"It will be January before the official votes in all the states are proclaimed, but there will be practically no change from the table given above."

It is quite safe to assume that these figures are practically correct. The Times-Democrat is a specialist and a high authority in matters of this kind. We venture to say that the returns, when at last they shall have been officially promulgated, will not affect our contemporary's statement to the extent of one-half of 1 per cent as regards any of the totals above given.

Senator Chandler, therefore, makes no mistake in his very forcible letter to the London National Review when he says: "That the United States is opposed to the single gold standard, and is in favor of retreating in due course and with careful regard to the national honor the steps taken in the demonetization of silver, until both gold and silver shall be admitted to free coinage at the ratio of 16 to 1, and made the standard money of the world, and the measure of the values of the world—is a proposition which would receive the suffrages of four-fifths of our voters, if this proposition alone could be fairly presented to them, even without debate. They have sufficiently informed themselves to believe that the quantity of real money and not the money which must be redeemed in some other money, determines the prices of world's commodities, that the demonetization of half of the world's real money is slowly reducing prices and crushing debtors, and that the use of only gold as non-redeemable money is placing the great instrument of exchange in commerce upon such a narrow basis that the present depression in production and trade will continue with occasional and temporary reactions for an indefinite period, and with manifold evils to the human race the world over."

If the wild project embodied in the Chicago platform commanded nearly 6,500,000 votes, out of less than 14,000,000 cast by the entire nation, what would be the popular majority upon an issue of rational, intelligent and conservative bimetalism?—Washington Post.

PRESS COMMENT.

Looks Bright for New Mexico.

With the possibility of two dams on the Rio Grande of stupendous magnitude, with the new life infused into the Pecos valley by the starting of the sugar factory and with the White Oaks railroad almost an assured fact, southern New Mexico seems to lead the northern portion, in enterprise, by quite a distance.—Las Vegas Optic.

The Railroad Outlook.

"The railroad situation for New Mexico and Arizona," remarked a well-known railroad gentleman to the Citizen representative last night, "is growing brighter and brighter daily, and I would not be surprised to learn something in a few days that would cheer up every person now located or who contemplates locating in either of the two territories, and especially in the Rio Grande valley." "The big railroad magnates of the east," continued the gentleman, "who have been holding back their capital, have come to the conclusion to seek the west and southwest for further investments, and if the signs are not all deceiving New Mexico will get her share of these investments.—Albuquerque Citizen.

NEW MEXICAN PRINTING COMPANY.

The PECOS VALLEY of NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grains, vegetables and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portion in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and timothy are produced. The cultivation of canebrake—a tanning material of great value in the Pecos Valley, a home market having been afforded for all handsome profit.

The climate of the Pecos Valley has no superior in the United States for health restoring. Lands with perpetual water-rights are for sale at low prices as the Pecos Valley has no equal in all the arid region for constant superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times, rapid increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

MATTERS OF INTEREST.

Board of Trade Takes Action on Effort to Validate Fraudulent County Bonds—Suppression of News Condemned.

The Santa Fe board of trade held an animated meeting last evening with Vice-President Webber in the chair, Secretary Knebel at the desk and a large attendance of active members. The news that Delegate Catron was apparently attempting to secure the immediate passage of his bill approving the issuance of certain territorial bonds for the rebuilding of the capitol and other kindred purposes, and at the same time validating the fraudulent Brice-Cole railroad aid bonds issued years ago by Santa Fe and Grant counties, was the first subject taken up.

After a serious discussion, in which Messrs. Seligman, Fiske, Boyle, Webber, and others took part, the following dispatch was ordered sent over the Postal-Cable line without delay:

To Hon. S. W. Cooper, Chairman Committee on Territories, House of Representatives, Washington, D. C.

Santa Fe, N. M., Dec. 10, '96.—Has congress or either house recently passed act validating Santa Fe county railroad aid bonds, or is such act pending? If so oppose it.

E. T. WALKER, Vice-President Santa Fe Board of Trade.

Messrs. Webber, Knebel, Seligman and Fiske were appointed as a committee with full power to act for the board in replying to any message received from Congressman Cooper.

The alleged intentional suppression by Manager Lewis, of the local Western Union office, of the news of Mr. Catron's attempted snap judgment as to the validation of the Brice-Cole bonds, sent out by the Associated Press on Wednesday afternoon and printed in the Albuquerque Citizen, Denver Times and other afternoon papers but omitted from the report sent to the New Mexican, next came up.

Mr. Boyle offered a resolution reciting the representation that this news item of grave moment to the people of Santa Fe had been willfully suppressed by Manager Lewis, of the Western Union office, for ulterior purposes, and demanding that this serious charge be carefully investigated by the board with a view to the application of a suitable and adequate remedy.

Col. Knebel suggested that both Mr. Lewis and Mr. Goss, managing editor of the New Mexican, should be present when this matter was discussed.

Mr. Marsh, representing the New Mexican being present, was called on for such explanation as he saw fit to make, pending the appearance of Mr. Lewis. Mr. Marsh said that among his usual daily duties as an attaché of the New Mexican was the editing and handling of the Associated Press report received by that paper; that after the regular report had apparently closed on Wednesday afternoon, about 3:15 p. m., an undated message was handed to him from the Western Union telegraph office, announcing an effort of Mr. Catron in the house to change the method of swearing in members of the New Mexican legislature; that said message was signed Herbert, meaning that it was filed for transmission at 1:30 p. m., and was not marked "bulletin"; that it then occurred to him as strange that such a message, filed so early in the afternoon, was all the news of the day concerning the transactions of the house, and that such an important message should come without a date; that the next morning he was amazed to notice in the Albuquerque Citizen, receiving simultaneously the same press report as the New Mexican, that a similar omission had been made from the body of the message relative to the effort to validate the bonds aforesaid; that he was naturally anxious lest blame might be attached to him in the premises, well knowing that a large sum of money was involved and that the suppression of the news mentioned for twelve hours might result in great harm to the people of Santa Fe county, and was greatly relieved when he ascertained that the Western Union office in this city did not profess to have sent such news to his desk.

At this juncture Manager Lewis appeared. In reply to questions he explained that, when he supposed the report had closed, he went into his local battery room to restore some of the messages that he heard the call, "bulletin," and answered as soon as possible; that he heard the beginning of a message and attempted to retain it in his memory; that, owing to his local battery not working properly, he lost several of the messages, that, as the message made sense with the words omitted, he sent it to the New Mexican without asking to have it repeated; that he knew nothing whatever about the bonds in question, heard nothing about them over the wire that day and regarded the whole matter as "small."

Pending an inquiry into the facts by a board of trade committee, consisting of Messrs. Webber, Knebel and Seligman, the New Mexican will make no further comment than to suggest that Mr. Lewis had to do, when he discovered his instruments were not properly working and that he had lost part of a possibly important press message, was to turn off his key, stop the further transmission thereof and ask that the message be repeated. This is the method he ordinarily adopts. Why did he not do so on Wednesday afternoon?

Again, Mr. Lewis represented to the board of trade that the garbled message was a "bulletin" and not a part of the regular report. This statement is not supported by the original in the possession of the New Mexican, which is positively not marked "bulletin" and is regularly signed "Herbert," signifying that it was filed in Denver at 1:30 p. m., as part of the regular Associated Press report, while it was actually received in this office at 3:15 p. m.

Messrs. Victory, Boyle and Fiske intimated that they regarded the explanation of Mr. Lewis as very lame and supported the motion to refer the matter to the competent committee of inquiry already mentioned.

Supt. Cole Lydon of the D. & R. G. line was in town yesterday and said he came down chiefly to enjoy Santa Fe's incomparable climate. Speaking of business he remarked that San Luis valley farmers were this season receiving about double the prices of last year for their merchandise.

Judge L. Bradford Prince, late of Santa Fe, and who recently completed a new residence over near Espanola, is put down in the Denver directory as a resident of that city, he residing on the Berkeley Heights. Judge Prince should succeed in locating himself definitely, in more particular than one, before another political campaign rolls around on the earth's axis.—R. A. Kistler in Las Vegas Optic.

Regardless of what the Denver directory says, Judge Prince has declared his intention to continue his residence in New Mexico, and in conformity with such declaration he has established his permanent home on his fruit ranch near Espanola in Rio Arriba county.

New District Attorney.

By the removal of District Attorney George McCormick from the territory, the duty of appointing an attorney for the district composing the counties of Colfax and Taos rested upon the governor, whereupon A. J. Mitchell, of Taos, was duly appointed as his successor. Mr. Mitchell is a young man of sterling qualities and bright legal understanding, having resided in Colfax county, practicing his profession of a natural calling, for a number of years. He is a Democrat through and through, having been thoroughly dyed with Jeffersonian principles in the old historic state of Virginia, his native home. The good citizens of Colfax county will almost unanimously second the governor's choice for district attorney.—Springer Stockman.

Petty Thieves at Work.

A number of sneak thieves are working their crooked tricks on Santa Feans. Of late there have been several petty robberies, but night before last a raid was made on the stable and tool house at the National military cemetery. The robbers removed the hinges from the doors and got away with \$50 worth of carpenter tools, shovels, spades, forks, etc. Supt. Joseph has notified all second-hand dealers to be on the look out for parties offering such effects for sale. The police, also, might take a hand in trying to ferret out these crooks.
