The president has been informed of the purpose of the committee and it is again reported to-day that he is ready to issue a proclamation directing the foreclosure should the funding bills meet with defeat when the vote is taken next Monday."

PACIFIC RAILROADS IN THE HOUSE

Lively Debate on the Pending Pacific Railroad Funding Bill—Important Facts May Be Brought to Surface—Sensational Charges.

Washington, Jan. 8.—The schedule of the proposed tariff bill, including earthenware, glass ware, marble and stone, brought fewer business men to the ways and means committee than had the other schedules considered this week.

H. W. Parker, of Beaver Falls, spoke of tiles, asking for a rectification and specific duties. On tiles now paying 25 percent ad valorem he recommended 10 percent a square foot or 4 cents a pound; on those now paying 40 percent, 20 cents a square foot or 6 cents a pound.

PRIMATE OF ALL ENGLAND.

Dr. Temple Formally Installed To-day as Archbishop of Canterbury—A Disturbance.

Canterbury, Jan. 8.—The Right Honorable and Most Reverend Frederick Temple, D. D., was enthroned to-day at the cathedral here as archbishop of Canterbury and primate of all England.

The edifice was filled soon after the doors were opened. The order of installation was read in Latin and the archbishop was conducted to the marble chair accompanied by the archdeacons of Canterbury.

As the archbishop was traversing the nave at the end of the procession, a voice shouted loudly: "The whole proceedings are a fraud." The interrupter was speedily ejected. The spectators at first thought that the disturber was the Rev. Mr. Brown John, the clergyman who protested against the confirmation of the archbishop in the church of St. Mary-le-Bow, in London, on December 22, claiming ineffectually that the archbishop should not be confirmed, as he was a believer in Darwin's theory of evolution. But it developed that the name of the interrupter was Greenwood and that he was not a clergyman.

Millionaire Discovers of Creede, Like Taber and Swickelmeier, Concluded to Get Rid of the Wife of His Poverty.

Los Angeles, Jan. 8.—N. C. Creede, the millionaire miner, after whom the town of Creede, Colo., is named, and his wife have separated. A stipulation was drawn up and signed several days ago by which Mrs. Creede accepted \$20,000 in cash in hand and surrendered all further claim upon her husband.

Controversy Over a Cow.

A case that has greatly interested the general public for some weeks is now being heard by Judge Crawford at Albuquerque, says the Citizen. Mrs. Lookhart is the plaintiff and Mr. and Mrs. G. Scottie are the defendants. The cause of the trouble is a black and white cow, both parties to the legal proceedings claiming that they have a bill of sale from one Geo. Costello, who, it will be remembered, was several times in trouble because he distributed the public peace by crying "Oranges!" The bill of sale or receipt to Mrs. Lookhart is signed by Costello's mark, witnessed by Mariano Armijo and Harry Lookhart, while the bill of sale to Mrs. Scottie is signed by the signature of Costello. What the outcome will be remains to be seen.

A CHANGE DEMANDED.

Bankruptcy Staring Several Large Counties of New Mexico in the Face—Expenses Double the Income—Reforms Suggested.

The following article on a timely and important topic is from the Albuquerque Democrat:

It is a startling fact, not fully realized by many citizens, that this county is going into bankruptcy at break-neck speed, and the conditions of things in the other big concerns of the territory is not materially different from that which prevails here.

The rate of taxation is as high as the people can bear—so high that some of our most progressive people think seriously of selling out and going to other places—so high that it frightens away everyone who comes here from abroad with a view to investing among us—and yet the hard, cold figures show that we are only taking in year by year, a little more than half enough to meet our current expenses, and the balance has to be made up by leasing evidence of indebtedness which become liens upon our property, and which will have to be met, sooner or later, by levying still higher taxes, to pay not only principal but interest too.

Any individual or firm in the country that should attempt to do business in that way would go into bankruptcy in less than a year, and it is only a question of time when this county and several others in the territory will bring up at the same destination if we keep on as we are going at present.

This condition of things is brought about chiefly by the enormous salaries which we are paying to county officers—salaries out of all proportion to the service rendered or the talent required—and the very first act of the new legislature should be the passage of an act providing for a thorough and radical reform along this line. Such action is not merely desirable, it is absolutely necessary; either this or bankruptcy must come and that at once.

The whole fee system should be wiped out entirely; every fee of any kind collected by a county officer should be turned into the treasury, and every officer should be paid a salary proportioned to the duties required of him. And of the officers that now carry salaries, some should be abolished altogether and their duties combined with those of others, while all of the present salaries should be reduced 50 percent, and some of them 75 percent.

The assessor, for instance, who now gets \$4,000 or over a year, for work that any competent man could do in sixty days, would be well paid with a salary of \$1,000.

Resolved by this board, That the tax collector for the past two years, Mr. Solomon Spiegelberg be called upon by the new collector for the turning over of the tax books and other records of the tax collector's office of this county forthwith and that after receiving the said public records the new tax collector, Mr. Fred Muller, be and he hereby is authorized and directed to employ a competent person to examine said books and records thoroughly and to prepare for the use of this board and for the sum of \$75 to be paid out on proper vouchers to the person so employed by the said collector Fred Muller for the purpose above set forth. FRIDAY, JANUARY 8.

Well! the goldites up in Michigan caught a tartar this time, surely. Gov. Fingree's inaugural address must have made the galled jades wince, and wince hard.

The Central Lumber company, of California, the most stupendous trust ever organized on the Pacific coast, is a thing of the past. For this much let us be thankful, for when "thieves fall out," etc. plain people have a show for their white alleys.

In the light of the facts as to the financial condition of the several big counties of the territory at this time, we should like to go on record with a rough guess that the new county projects will all come pretty near "die a bornin'".

If the railroads will just keep the promises their representatives made before the territorial board of equalization there will be several important extensions constructed in New Mexico during the year 1907. Here's hoping!

Again it comes pretty straight that Senator Allison is to occupy a position in McKinley's cabinet. That means that the Hon. E. P. Seeds can come pretty near getting the chief justiceship if he wants it—and wouldn't there then be a rattling among the political dry bones down this way!

We quote on another page of the New Mexican to-day an article from the Albuquerque Democrat which we commend to the thoughtful consideration of every taxpayer. It refers to the management of county affairs, a subject in which property owners, whether they like it or not, are now forced to take an interest.

How the new governor of Maine did tear his linen yesterday over the growth of the west. Somebody must be scared. New York, too, we note, is all chopped up over the fact that the southern ports, Galveston, New Orleans and such, are shipping out the products of the west's great grain fields. The heaven is working.

From a careful perusal of the metropolitan press of the country prior to the election we were led to believe that every man who spoke of the defects of our governmental institutions was either an anarchist or a free coinage Democrat—six of one and half a dozen of the other in the estimation of the metropolitan press—but now that the several newly elected governors have pronounced their inaugural speeches we are half inclined to think that the metropolitan press must have been mistaken. It thus early becomes evident that the goldite press and their official peons are going to have a hard time making their stories dovetail during the next four years.

MAINE'S DELUDED GOVERNOR.

In his inaugural address to the Maine legislature, at Augusta, yesterday, Gov. Powers felicitated his credulous auditors upon the fact that "our young men have ceased immigrating to the far west as soon as they are able to commence life for themselves," adding, as a sort of rationale, that "our people" have heretofore been duped into making many "wild" investments in "visionary western schemes" and have made up their minds to do so no more.

This is really so good that it merits immediate reproduction in one of the popular "comic weeklies." For many years the best blood of poor old Maine has been steadily flowing westward until it dwindles to a mere trickle. It is only to produce 75,000 bushels of wheat annually and its ancient sobriquet of "the Pine Tree state" manifestly should be changed to the "Buckled Orange state." Very likely the bread Gov. Powers nourished himself with on the day he penned his message was raised by hardy sons of Maine in the "far west" and it is certain

that there are many Maine men in the Rocky mountains who could buy entire counties in their native state with less financial embarrassment than the purchase of a postage stamp would entail upon many of Gov. Powers' hapless constituents.

We have an exceedingly patient, submissive and uncomplaining animal out here in New Mexico that is alleged to thrive on a daily diet of tin cans and waxes fat on such dainties as clothes line and discarded straw ticks. He is known to fame as the burro (Castilian Spanish for donkey), and if he had ever done us any harm, we should certainly recommend him to go to Maine and seek employment as lieutenant-governor under Gov. Powers.

PRESIDENT-ELECT MCKINLEY has frankly assured Senator Wolcott, of Colorado, that he is sincerely in favor of international bimetalism as well as a protective tariff system. In other words the "advance agent of prosperity" favors an American system of tariff taxation and a monetary system by and with the consent of Great Britain and Germany.

PRESS COMMENT.

A Mining Boom Coming.

Students and observers of nature can sometimes see signs of approaching changes to which untrained eyes are blind. The hunter or herdsman may discern in the movements of the clouds or hear in the moaning of the wind the coming of a storm, and the signs of the sea are clear as an open book to the experienced eye of one whose life has been spent upon the ocean. So the man who has studied trade movements may see evidence of coming changes that are not disclosed to those of less experience. It is so now. Men who are watching the signs of the times perceive evidence of coming changes which others profess not to be able to see. This time the drift is toward a mining boom or a period of great activity in the development of the mineral resources of the far west. In the east men are giving more attention to this subject than they did six months ago, or immediately after the election. There is better inquiry for investments. Much of the work of this kind is being done quietly, but it is growing in volume. Investors are very careful. They want to be sure of what they are doing, and that makes the movement slow. But changes of this kind, like those in the physical world, gather strength as they advance. This is their momentum. It will not be long until evidence of the approaching boom will be so clear that every one will see it. Then the boom will be well nigh here. The world is hungry for gold.—Denver Republican.

It matters not how deep-seated or obstinate, which other so-called blood remedies fail to reach. It is a real blood remedy for real blood diseases. Mr. Asa Smith, of Greencastle, Ind., writes: "I had such a bad case of Scabetic Rheumatism that I became absolutely helpless—unable to take my food or handle myself in any way. The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally. The soil of the Pecos Valley is of high average fertility, and under irrigation produces beautiful crops of most of the grasses, grains, vegetables and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portion in particular the finest apple country in the world. Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation. The cultivation of sugarcane—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit. The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring. Lands with perpetual water-rights are for sale at low prices and on easy terms. The water-supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times, rapid increase in value. The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Felix section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acre tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold. LEGISLATION RECOMMENDED.

At the meeting of the territorial educational association held in Socorro the following resolutions were adopted:

We believe that the territorial board of education should consist of the presidents of the Agricultural college, the University, St. Michael's college, the principals of the normal schools and one county and one city superintendent in office in the territory. This board should have large and increased powers, should be able to adopt uniform text books, provide for uniform examinations, a uniform course of study, and have general supervision of the public schools.

Second—We urge the election of one member to the district school board each year for a term of three years, and that the school election be held at a time different from other elections.

Third—We urge the application of the principles of the civil service as far as possible to the public schools and educational institutions of the territory.

CAPT. JAMES' ARRIVAL.

Capt. W. H. W. James, 24th infantry, arrived in Santa Fe last night and reported to Acting Governor Miller this morning for duty in connection with the New Mexico national guard as per orders issued from army headquarters some ten days ago. Capt. James was in Tennessee, his old home, on leave of absence when the order reached him. He is delighted over his transfer to Santa Fe and he has been given a very cordial welcome by our citizens.

OFFICIAL NOTES.

The official reports of Territorial Treasurer Samuel Eldred and Auditor Marcelino Garcia have just been issued in pamphlet form for presentation to the governor and legislature.

The annual report of Hon. Amado Chaves, superintendent of public instruction, has just been issued. It is exhaustive in its statistical details and makes a pamphlet of 60 pages.

Our own Col. A. W. Harris and Col. John S. Crawford, of Kingston, reached the city yesterday evening on No. 2. Col. Harris says he is not an applicant for the governorship of the territory.—Albuquerque Democrat.

The biennial reports of the penitentiary commissioners and Supt. Bergmann are in the hands of the printers. They will be printed together and will fully exhibit all the information of interest concerning the penitentiary.

Hon. Frank A. Manzanarez et al, of Las Vegas, have filed with the surveyor-general a protest against the survey of allotments within the Las Vegas grant, made by Deputy Surveyor R. B. Rice. The protest was promptly transmitted to the general land office.

Hon. Matt G. Reynolds, attorney for the United States, in Washington with his stenographer looking after land court appeals pending before the supreme court. It is expected that the Algodones case will come up for argument to-day or tomorrow.

At the congressional tariff hearing on Wednesday, Delegate Catron stated that the value of wool produced by the 3,000,000 sheep in New Mexico had decreased on an average of 11c a pound since the enactment of the Wilson law. He suggested specific duties on third-class wools.

Acting Gov. Miller has appointed the following notaries public: Ludwig William Hilfeld, of Las Vegas, San Miguel county; Julian Aragon y Perez, of Anton Chico, Guadalupe county; W. H. Berens, of Socorro, Socorro county; Martin Terreno, of Guadalupe county; John R. Strong, of Mora county; Samuel Eldred, of Chama, Rio Arriba county.

So far the only members-elect of the 22d legislative assembly, which will convene in Santa Fe on January 18, who have filed certificates of election with the territorial secretary, are Antonio Joseph, A. B. Fall and Francisco Miera, members of the council from the Taos, Dona Ana and Colfax county districts, and Juan N. Jaques, member of the house from San Juan county. All of the gentlemen named are staunch Democrats.

Surveyor-General Esley has just received from the general land office a strictly up to date map of the United States. It shows the territory acquired by Uncle Sam from John Bull, known as the original thirteen states, at the end of a little difference of opinion in 1783; the province of Louisiana ceded to the United States by France in 1803; the Republic of Texas, ceded to this country in 1845; the region ceded by Mexico in 1848; the Gadsden purchase of 1853; and the vast domain in the far northwest, known as Alaska, ceded to the United States by Russia. It is a map that ought to be in every school room in America.

THE DISTRICT COURTS.

Territorial Grand Jury Reported Two More Indictments and Was Discharged—D. & R. G. Timber Trespass Case on Trial.

In the territorial district court, Judge Laughlin presiding, the grand jury last evening reported two additional indictments as follows: Antonio S. y Salazar, assault with intent to kill; Celestino Sena, wife beating. Both of the defendants have been arrested and jailed.

The territorial grand jury was thereupon discharged without having reported the fake indictments against Eustaquio Padilla and Leandro Sena for the shooting of Anocheta several years ago, reported by “special” grapevine to the Opie of yesterday.

In the United States district court, the case of the United States vs. The Denver & Rio Grande Railroad company, timber trespass, is still on trial.

A. A. Jones, special United States attorney, is prosecuting and J. F. Valle represents the defendant company.

The United States grand jury is at work, but has so far made no report.

Beginning to-day I will sell balance of my stock in ladies' and misses' wraps at cost. Also many other articles in the notion line, stamped tray and dresser scarfs, etc., at cost. Miss A. Mugler.

DEMOCRACY WIDE AWAKE.

Friends in Congress Asked to Checkmate Catron's Efforts to Control the Legislative Assembly.

A special dispatch from Washington, dated January 5, appears in the Denver Times as follows:

The Democratic members of the senate are besieged with petitions from New Mexico in opposition to a bill introduced by Delegate Catron, of New Mexico, changing the method of swearing in members of the legislature. Among other documents received by them is the following, from the territorial committee at Santa Fe:

“Dear Sir: The New Mexico Democrats and themselves again obliged to call on friends in the United States senate for protection against the wily machinations of T. B. Catron, at present delegate from this territory.

“He has passed a bill in the lower house, which, if it becomes a law, would take the duties of administering the oath of office to the members-elect of the legislature from the secretary of the territory, and the methods suggested by Mr. Catron's bill—to have one member swear in another, and so on—would cause a strife and scramble at every organization of the legislature. This scramble is perhaps what is sought among other objects, the approaching session of the legislature appears Democratic, and a scramble might afford some questionable means of securing control for the Republicans. The present method of organizing legislatures in New Mexico is the only one that can be made practicable under our present election laws, as registration and poll books and statements of the board of canvassers and other evidences of the results of elections are required to be delivered to the secretary of the territory, who is made custodian of such returns. How the members assembling can determine who is entitled to a seat in the legislature without having the knowledge of the result of the election from this proper authority, under the present law, is hard to conceive. The bill is simply a scheme to ignore and override the result of the election when it does not come Mr. Catron's way.

“Mr. Catron was satisfied with the present method of administering oaths for the many years that he ruled New Mexico for his selfish purposes, but having now an administration that he can not control he is desirous of arranging matters in this regard so that he can by fraud or force gain control. His pretense, that the present secretary will not act fairly. This is not true, as he knows Secretary Miller will be guided by the law and not be influenced by him. The last legislature was legally organized, and subsequent investigation has shown it to have been legal. The organization of the territory taking the latest and corrected certificates of election in every case, or an order of the court with one exception, and that was where a member-elect was proved to be under indictment for embezzling money while clerk of the court from the territory; and as secretary of chapter 1, of the laws of 1892, made him ineligible to office. In this case the secretary referred his case to the body as organized, who are the judges of qualifications of its members, and did not seat his opponent. It was on the secretary's refusal to administer the oath of office to this member, (A. Christy, now deceased) that the eleven Republican members, at the solicitation and invitation of T. B. Catron, now a delegate from this territory to congress, retired from the legislative hall to the law office of the said T. B. Catron, and for four days endeavored to block legislation and prevent harmonious work, unless the said Catron's ideas and plans could be carried out. Shot-guns and rifles were produced by these disruptionists, and sergeants-at-arms were viciously expelled by them from said office when acting in pursuance of the lawful duties.

“Mr. Catron has on one occasion previously to this organized a legislature with shot-guns, and failing at the last session, he stealthily and under false cover, appeals to congress to assist him in his bad work. A study of Mr. Catron's bill reveals nothing but partisanship of a debased kind, and is sure to have a damaging effect.

“Mr. Catron's statement that the boards of county commissioners, acting ex-officio as boards of canvassers, were fanatics of the kind who issued the second certificate, is in some instances false. The courts frequently have compelled these boards to again canvass and correct and amend their proceedings. In the 55d United States supreme court report, in the case of Lyon vs. Woods, the question of the legality of the organization of the legislature is raised—one of the points being that one T. B. Catron, now delegate to congress from this territory, has been given a seat in the council on a second certificate. In writing the opinion in this case, Chief Justice Fuller did not say that the second certificate was illegal.

“All friends of Democracy and good government at this juncture should support the bill offered by Delegate Catron, and the Democrats will feel grateful to their friends in the senate for their good work in being on guard and ready to defeat Mr. Catron's tricky and selfish schemes.

Respectfully,
“Antonio Joseph,
“Chairman Democratic Central Committee.

HOPEFUL MR. CATRON.

The Delegate Writes About the Military and Sanitarium Prospects at Santa Fe.

In a letter received to-day by Dr. Crosson from Delegate Catron he says: “I have no information whatever that there is any possibility of retaining the post of Fort Marcy. I will make inquiry into the matter, and if I find it can be done, I will, of course, stop the act in regard to the invalid association. But, if the fort can not be retained, it seems to me that there is nothing that will benefit Santa Fe as much as putting that hospital there, so that people who possess money will come there to regain their health. They will spend money; they will also bring their friends, and, if they regain their health, will probably stay there. I am sure that the hospital will spend more money. In addition, I am confident that we will some day have Santa Fe restored as a military post.”

ROUND ABOUT TOWN.

To-day is the 82d anniversary of the battle of New Orleans.

U. S. weather bureau forecast for New Mexico: Fair to-night and Saturday; stationary temperature.
