MONDAY, JANUARY 18.

Welcome to the assemblymen.

This is going to be a business session. Mark the prophecy.

The big ship of state moves off beautifully. New Mexico is all right.

MARK HANNA and John Sherman seem to have given the sound money conventions the key hand of late.

SEWATER WOLOOT went abroad to feel the English pulse on the financial question, and his first act was to call on Mr. Hayard. Mr. Woloot understands his business, observes the Washington Post.

THE NEW MEXICAN has no hesitation in predicting sensational developments in the Cochet mining district during the next ninety days. The business men of Santa Fe are recommended to be on the alert.

The territorial press has taken a deep interest in promoting needed legislation by the assembly which convened to-day and has given out many valuable suggestions that, if followed, will lead to a very general betterment of present conditions.

SOMEONE is using the editorial columns of the Optic to make an ugly and unfair fight on Colfax county's candidate for the governorship. It is common talk that these editorials, like the nasty screeds appearing from time to time in such cattle-fish Catronist organs as the Rincon Weekly, emanate from the office of one or two Santa Fe lawyers.

THE press has won another victory. President Cleveland has made a hard fight to try and get along without the good will of the press—which as a rule comes chiefly through the civil treatment of reporters—but he has had to give it up and try a new plan of procedure. The other day the president took away the breath of all the Washington correspondents by emphatically announcing to one of them that he was "always glad to see the newspaper men." Truly, the world do move!

In speaking of what promises to be a highly important industry in New Mexico in the coming few years the Industrial Reporter of Denver says: "The seventh factory in the United States for the production of sugar from beets was completed and put in operation November 26, 1896, at Eddy, N. M. in the Pecos valley. The factory has a capacity of 225 tons of beets per day, producing thirty tons of sugar. The year's crop of beets amount to about 18,000 tons of exceptional high grade, some brands averaging 19 per cent sugar. The establishment and actual operation of this plant means much for New Mexico.

THE Las Vegas Examiner Publishing Company, the Stock Grower and Farmer and the Carreth printing establishment have been consolidated and are now owned by a corporation in which J. A. Carruth, L. R. Allen and John O. Bromagen, late of the Optic, are principal stock holders. The Examiner will be continued as an afternoon paper, and its policy, it is understood, will be straight Republican in character with no taint of Catronism. It is said the Examiner will so shape its course that it will be able to crow in the event that either Hon. Geo. H. Wallace or Hon. T. W. Collier succeed to the gubernatorial chair.

A GOOD BEGINNING.

All honor and praise to the level headed men who have been instrumental in making it possible to start off the work of the 32nd legislative assembly under such auspicious conditions. The agreement whereby all partisan friction was removed and organization perfected along harmonious lines meets with the heartiest commendation of the press and people and indicates that this is to be a business session rather than one of political strife. Sessions of the latter class have been the rule rather than the exception

heretofore, much to the injury of New Mexico both at home and abroad. Now, however, it is evident that the motto is to be business, and not petty politics, from start to finish. We congratulate all concerned. The assemblymen have thus early earned a debt of gratitude from the voters of New Mexico.

COL. MONEY'S LETTERS

The inside facts which Representative Money is giving the New York Journal on the insurrection in Cuba constitute a valuable contribution to the history of the times. Col. Money has made a careful and conscientious study of the situation as it actually exists on the island to-day, and he presents the facts in such an attractive and concise manner as to enlist world wide attention. It would not be at all surprising if such presentation should not prove a boon to suffering humanity in forcing the Christian people of every clime to join with 90 per cent of the population of the United States in forcing Spain to put an end to this bloody and shameless conflict against the rights of a liberty-loving people.

McKINLEY'S CONSERVATISM.

A gentleman who has recently had a talk with Major McKinley tells the New Mexican that he gathered from the conversation of the president elect that there would be few if any changes made in federal officials down this way until the present incumbents have served out their terms. He says McKinley is going to adopt a very conservative course and proposes to provide New Mexico with a clean and conscientious set of officials even if he has to go outside of the territory to make appointments. This is not, it is admitted, a case of "Oh, be joyful" for the hungry horde of politicians who are now struggling to get in on the ground floor of the official pie-counter, but it's mighty good news for the plain people, aye, even for those 3,206 who voted at the late election to wipe out Catronist methods, and we are rather inclined to believe that it is based on truth. Time will tell.

PRESS COMMENT.

As to the Laws.

If the legislature will provide for a commission to revise the entire body of the law of New Mexico, it will be the strongest statehood document that could be written.—Roswell Register.

Reduce It to a Science.

The wool interests of New Mexico are at the present foremost of all industries. The care of sheep requires the least labor and necessitates the least investment of any of the live-stock industries. It has been recorded that sheep in this territory are poorly kept and that much better profits might be realized from the wool industry here if flocks were smaller and more attention was given to the feeding and protection of the sheep, and the proper preparation of the wool for market. Every branch of industry is now being reduced to a science, and labor is now being expended to produce a better quality instead of a greater quantity. The sheep interests are no exception, and the demand is for better sheep and better wool.—Las Vegas Examiner.

A Sensible Thing in Grant.

The last board of county commissioners did a very sensible thing just before they went out of office. There have been on the rolls for several years a large amount of unpaid taxes. Some of these taxes were assessed against personal property which is now out of the county or out of existence. Others were assessed against property which was not in existence at the time the assessment had been made, but had been put on the rolls simply because the assessor had found them on the rolls for the previous year and was too lazy to see if the property was yet in the county. The commissioners went over the list carefully and cut out all the delinquents of this class. This action reduced the delinquent list some \$50,000 or \$60,000, but what is left is considered a good asset.—Lordsburg Liberal.

ITCHING

"For fifteen years my daughter suffered terribly with inherited Eczema. She received the best medical attention, was given many patent medicines, and used various external applications, but they had no effect whatever. S. S. S. was finally given, and it promptly cured the disease, so that she is cured sound and well, her skin is perfectly clear and pure, and she has been saved from what threatened to blight her life forever." E. D. Jenkins, Lithonia, Ga.

S. S. S. is guaranteed purely vegetable, and is the only cure for deep seated blood diseases.

Subscribing for Metropolitan Papers.

The coming year will be crowded with big news events and happenings, the details of which everyone interested in national and foreign affairs will want to read. The best western newspaper published is the Semi-Weekly Republic of St. Louis. It is only \$1 a year, and for that amount it will send two papers a week to any address for one year.

The Republic daily is \$2 a year, \$3 for six months at \$1.50 for three months.

The PECOS VALLEY of . . . NEW MEXICO

OFFERS unequalled advantages to the farmer, fruit grower, live stock raiser, dairyman, bee-keeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portion in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canebrake—a tanning material of great value—is becoming an important industry in the Pecos Valley, a home market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and health restoring.

Lands with perpetual water-rights are for sale at low prices and on easy terms. The water-supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climate, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times, rapid increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Frijoles section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several places of land have been divided into five and ten acre tracts, suitable for orchards and track farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

SEEKERS AFTER THE TRUTH

Many More Home-Seekers Who Ask the New Mexican for Facts on the Territory.

And still the New Mexican is flooded with letters of inquiry from home-seekers who desire to locate in our fair territory. Here are a few more samples showing the nature of these queries:

To the Editor of the New Mexican:
Larned, Kas., Jan. 14, '97.—Dear Sir: Thinking of changing my residence to some place in New Mexico soon I would be greatly obliged to you for a copy of your recent "Special Edition of the New Mexican" or a sample copy. Yours,
D. V. GORE.

To the Editor of the New Mexican:
Alta, Peoria Co., Ill., Jan. 9, '97.—Dear Sir: I understand by the Denver News, that you have just issued an "Immigration Special" of thirty-two pages. As I am thinking of coming west to invest, I would be very thankful if you would send me a copy, and if you have any other books at hand which would be of use to me whereby I could get an understanding of your mineral deposits and agricultural resources, please send them along and if there is any charges I will remit the same. Yours, A. M. CLARK.

To the Editor of the New Mexican:
New Orleans, La., Jan. 14, '97.—Sir: During the war I was a resident of Fort Marcy and took a great interest in your city and was a subscriber of your local paper, the Gazette. I was thinking of again becoming a subscriber with a view to locating out your way. Please send a sample copy. Very respectfully,
THOS. W. SMITH.

To the Editor of the New Mexican:
West Union, Jan. 10, '97.—Please send a sample of your paper. We are interested in your country, its present conditions and future prospects. Yours,
RUFUS COOK.

To the Editor of the New Mexican:
Durango, Colo., Jan. 14, '97.—Please send me a copy of the "Special Immigration Supplement." And oblige,
DICK ECKELMAN.

To the Editor of the New Mexican:
Salem, Colo., Jan. 14.—Dear Sir: I see your "Extra" noticed in the Rocky Mountain News, and would like to have you send to my address a copy of the immigration special. Some of us are thinking of going down into New Mexico to locate permanently, and would like to know more about its different sections, resources and so on.
THOMAS ISSETT JAMES.

To the Editor of the New Mexican:
Canon City, Colo., Jan. 13.—Dear Sir: Please mail me a copy of your "Special Immigration Supplement" issued sometime in December. Inclosed please find stamps in payment. Respectfully,
H. H. SNYDER.

To the Editor of the New Mexican:
Woodburn, Iowa, Jan. 14.—Dear Sir: I have been thinking some of going west and would like to learn something of your country. Would you please send me a copy of your paper and oblige,
J. M. SHINLEY.

ROUND ABOUT TOWN.

The Arcade company has opened its new billiard hall.

U. S. weather bureau forecast for New Mexico: Generally fair; warmer Tuesday.

Typical winter weather greets Santa Fe's visitors to-day. It's mostly made up of sunshine.

The Denver and Albuquerque newspapers have finally ascertained it to be a fact that the McIntire-Rasmussen marriage really took place in Santa Fe on Monday last. When you see it in the New Mexican, gentlemen, it's so.

A private letter from Mr. T. H. Lowthian, now in Denver, one of the owners of the Lone Star, Albermarle and other valuable mines in the Cochiti district, conveys the gratifying information that the gentleman's health is so much improved that he hopes soon to visit Santa Fe.

The Democrat is now delivered by carrier in Santa Fe on the day of publication. The Santa Fe people will no doubt appreciate this arrangement, which we have been able to make through the courtesy of the A. T. & S. F. Railway company. Orders may be left at Fischer's drug store.—Albuquerque Democrat.

Among the newspaper men who are in the capital to-day are Mr. W. C. Reid, representing the Las Vegas Optic; Mr. Geo. F. Albright, of the Albuquerque Democrat; Mr. Geo. Beringer, of the Raton Reporter; Mr. L. R. Allen, of the Las Vegas Examiner; Mr. F. M. Wynkoop, of the Cochiti Herald, and Hon. Felix

Martinez, of the Voz del Pueblo, Las Vegas.

Dr. Crosson received another letter to-day from Delegate Catron respecting the conversion of Fort Marcy into a national sanitarium. Mr. Catron says he has little faith in this post being ever again utilized for military purposes but feels confident of getting through congress the sanitarium act, which, he regards of very great importance to the business interests of Santa Fe and the whole territory.

Mr. Jas. K. Livingston is up from Mesilla valley to attend a meeting of the bureau of immigration. His Alameda sanitarium is now in its fifth year and some twenty-five guests are spending the winter there. They come from Canada, Philadelphia, Boston and New England points, and nearly every one of them has a pony on which daily exercise is taken. Since opening this resort Mr. Livingston has had over 350 health-seeking guests. He thinks it passing strange that Santa Fe with its superior climatic advantages has no sanitarium.

Among those who were present when the legislature opened to-day were District Attorney Wilkerson, of Albuquerque; Capt. J. H. Riley, of Denver; ex-Gov. Stover, of Albuquerque; Col. A. W. Harris, of Kingston; Judge J. R. McFie, of Las Cruces; E. Bass, of Socorro; H. P. Brown, Eddy; Sheriff P. F. Garrett, Thos. Brannigan, J. A. Baird and ex-Representative Pinto Pino, of Las Cruces.

Mrs. McCuen, mother of Mrs. John Walker, received a telegram from Gainesville, Fla., yesterday bringing the sad news that her nephew, Steel Matthews, aged 16 years had been accidentally shot and fatally wounded while out hunting on Saturday. Some six or eight members of this family have met with death by accident and it is a peculiar fact that the young man's mother has for years watched her boy in dread of some such fatality befalling him.

The directors of the Cerrillos Coal Railroad company held a meeting at the First National bank this forenoon. There were present: C. M. Higginson, of Chicago; J. E. Hurley and R. E. Twitshell, of Las Vegas; Major R. J. Falen, of Santa Fe. Routine matters were given attention. Among other things Mr. Higginson was made trustee in place of S. B. Elkins, resigned. For three days past Mr. Higginson has been in south Santa Fe county inspecting the company's properties.

THEY ALL COME BACK.

New Mexico As a Business Region As Compared with South Africa and Other Countries.

Some eighteen months since Mr. Chas. Berry, a long-time resident of Bonito, left for the new gold fields of South Africa. He arrived in Johannesburg in time to witness the disturbances in that country caused by the filibuster, Dr. Jameson. He says, according to the White Oaks Eagle, that there are few good mines in that country, with about 200 mills and other reduction plants operating about 10,000 stamps. The ore is refractory, the cyanide process being largely used in extracting the gold. He reports the country generally there as sickly, practically barren of vegetation of any value, except in now and then a small area where crops can be raised with success. The whole country there is overestimated and, like other booming camps, there are several applicants for each job, and living is high, so that a poor man looking for employment had better keep away from South Africa. Mr. Berry returned by way of Matabele, Mozambique, and touched many points in continental Europe.

The Eagle also announces the return to Lincoln county of Mr. Ben B. Burgess, an old timer in White Oaks, but who for a few years past has been wandering in search of pastures green and a better country. Mr. Burgess left New Mexico in the latter part of 1890 and has been in Costa Rica, Oregon, California, South America and Mexico since that time, much of the time engaged in the operation of mines and mills, at which he has had large experience. He returns believing that White Oaks and that portion of New Mexico is about as good as any of them.

It is astonishing

how many people who go east over the Burlington return the same way. It is even more astonishing how many people who go east over other lines return via the Burlington.

Undoubtedly the reason is the fact that the Burlington pays so much more attention to making its patrons comfortable. One thing sure is that it has a shorter and better track than any other railroad between Denver and Omaha or between Denver and Chicago. Lincoln—Omaha—Chicago—St. Joe—Kansas City—St. Louis are six of the 1,210 stations on the Burlington. Write for information. Or, better still, call on the local ticket agent.

A DOUBLE KILLING.

A Notorious Thief Bites the Dust After Killing a Don Ana County Deputy Sheriff.

A double killing took place at Loma Pardo, Dona Ana county, on Friday afternoon last. One of Sheriff Garrett's deputy deputies, John McLeod, was sent at the head of a posse to capture Domingo Baca, who had stolen a saddle. Upon seeing the posse approach his home Baca armed himself and opened fire upon them. His first shot penetrated McLeod's body through the loins, inflicting a fatal wound. The officers returned the fire and Baca fell dead in his tracks. McLeod was given every attention possible, but died at 7 o'clock Saturday morning. He was about 25 years of age and his former home was Kansas. His body was shipped to that state for burial according to his request. Sheriff Garrett says he was a brave and fearless officer.

Domingo Baca was a notorious thief and ex-convict, having served a term in the territorial penitentiary for stealing cattle.
