THE TARIFF BILL PRESENTED

The Senate Changes the Time at Which This Bill Shall Take Effect, from May 1, As Provided in the House, to July 1.

THE RETROACTIVE CLAUSE IS KILLED

The Duty on Uncured Hides, Whether Dry Salted or Pickled, Is Fixed at 1 1/2 Cents Per Pound—Lead Ore Increased from a Cent to a Cent and a Half.

Washington, May 4.—Senator Aldrich presented the tariff bill in the senate today, and gave notice that it would be called up on Tuesday the 18th inst. The time for the bill to take effect is made July 1, 1897, instead of May 1, as provided in the house bill. The sugar schedule taxes sugar not above No. 16, Dutch standard color, syrups, cane juice, and beet juice, etc., seventy-nine hundredths of a cent a pound, and for every additional degree shown by the polariscope test, two hundredths of a cent a pound, and fractions of a degree in proportion. Sugar above No. 16 Dutch standard color, and sugar that has gone through a process of refining, one and sixteen hundredths of a cent a pound, and in addition of all the foregoing 35 per cent ad valorem. Machinery purchased abroad imported and erected in any best sugar factory, and actually used in the production of sugar in the United States from beets produced therein, within one year from July 1897, shall be admitted free of duty.

A duty is levied on tea at the rate of ten cents a pound until January 1, 1900; after that time it is free of duty. Following is the provision on hides, transferred from the list: Hides of cattle, raw and uncured, whether dry, salted or pickled, one and a half cents per pound, provided that upon all leather exported made from imported hides there shall be allowed a drawback equal to the amount of duty paid on such hides. All coal is made dutiable at 75 cents per ton, with a proviso that the duty shall be 60 cents for any country that does not impose a higher rate of duty. The senate has increased the internal revenue duty on beer to \$1.50 per barrel until January 1, 1900, after that it is placed at \$1, the present rate.

The retroactive clause of the measure is stricken from the senate bill. The entire house provision relating to reciprocity has been stricken out, and sections substituted providing that whenever the country shall pay a bounty upon the importation of any article of merchandise, dutiable under this act, then upon the importation of such articles to the United States, there shall be levied upon it an additional duty equal to the net amount of such bounty. The house provision for keeping in force the Hawaiian reciprocity treaty is stricken out, the effect being to impose the same duty on Hawaiian sugars as from other countries. Lead ore is increased from a cent to a cent and a half a pound.

Woolen Schedules. Many important changes were made on wool and the woolen schedule. First class wools were reduced from 11 cents a pound to 9 cents; second class wools, from 12 to 9, whereas duties on wools of the third class were raised. The dividing line class was placed at 10 cents value, and wools under that value were made dutiable at the rate of 4 cents a pound, instead of 32 per cent ad valorem, as in the house bill. Wools valued at more than 10 cents a pound were placed at 7 cents a pound instead of 50 per cent ad valorem. The wool growers failed to secure all the changes which they desired in classification, but it is understood that the rates fixed on wools themselves are satisfactory to them. Skirted wools of the first class, as imported during 1896 and prior thereto, are required to pay 1 cent a pound, in addition to the rates imposed on unwashed wools of class one.

There is a reduction on nails from 30 to 20 cents a pound.

FREE HOMESTEAD BILL. The senate has passed a bill to provide free homes on public lands for actual and bona fide settlers, known as the "free homestead" bill. Yeas 44, nays 11.

SUNDAY CIVIL BILL. The senate took up the sundry civil appropriation bill today. When the item appropriating \$2,333,333 for continuing the improvement of the Mississippi river was reached, it was amended so as to make the appropriation immediately available.

PRESIDENTIAL NOMINATIONS. The president today sent to the senate the following nominations: Interior—Webster Davis of Missouri, assistant secretary of the interior. War—Lieutenant Colonel Wm. H. Forewood, deputy surgeon-general, to be colonel and assistant surgeon-general.

An Actor Dead. New York, May 4.—Edwin F. Thorne, the actor, died today after a long illness.

Poisoned Lemonade. Walnut Creek, Cal., May 4.—Eight year old Emma Kieselring drank lemonade which was kept in a tin bucket over night, and died at Danville today. Eighteen school children who also drank the stuff are very sick. The ladies of Rebecca lodge, and the remainder of the lemonade at a social, and the rest was presented to the school children.

MARKET REPORTS.

New York, May 4.—Money on call easy at 1 1/2 @ 2 per cent; prime mercantile paper, 8 1/2 @ 4 per cent. Lead \$3.12 1/2; silver, 60 1/2; copper casting, 10 1/2. St. Louis—Lead, steady at \$3.02 @ \$3.05. Spelter, firm, \$3.97 1/2 bid \$4 asked. Chicago.—Wheat, May, 69 1/4; July, 69. Corn, May, 25 1/2; July, 24 1/2. Oats, May, 16 1/2; July, 17 1/2. Chicago.—Cattle, receipts, 2,000; market today for good grades steady; other grades weak; beefs, \$5.75 @ \$5.15; cows and heifers, \$1.90 @ \$4.25; Texas steers, \$3.20 @ \$4.80; stockers and feeders, \$3.45 @ \$4.45. Sheep, receipts, 14,000; weak, generally 10 cents lower; native sheep, \$2.75 @ \$4.75; westerns, \$3.50 @ \$4.70; lambs, \$3.50 @ \$5.40. Kansas City.—Cattle, receipts, 9,000; best natives steady; others weak to 5 and 10 cents lower. Texas steers, \$3.85 @ \$4.05; Texas cows, \$3.00 @ \$3.25; native steers, \$3.00 @ \$4.00; native cows and heifers, \$2.25 @ \$4.00; stockers and feeders, \$3.25 @ \$4.50; bulls, \$3.20 @ \$3.40. Sheep receipts, 4,000; market steady; lambs, \$3.65 @ \$4.15; muttons, \$2.55 @ \$4.15.

French Senator Dead. Paris, May 4.—Henri Louis Tonlain, senator from the Seine, is dead.

STARVATION IN CUBA.

U. S. Consul A. C. Bryce Reports to the State Department That People in His District Are Dying of Starvation.

Washington, May 4.—An official report of the most serious character has recently come to the state department, regarding the starvation and misery of the Cubans. In this report from Matanzas, Consul Alexander C. Bryce said: "Over 7,000 persons have been concentrated in this place, three quarters of whom are entirely without means of support. Women and children are dying on the streets from starvation. Among these people are several Americans. Yellow fever, small-pox and other diseases, are prevalent. All this is the result of General Weyler's inhuman policy. Aid for these sufferers should promptly come from the United States."

Off for Europe. Bloomington, Ill., May 4.—Ex-Vice President Adlai E. Stevenson will sail from New York for Havre next Saturday, in company with Messrs. Wolcott and Faine, the other members of the bimillennial commission. He will be accompanied by his daughter Letitia.

SPANISH DEFEAT.

Cuban Troops Under the Command of Gen. Jesus Robi, Put a Spanish Column to Route—Dynamite Gun Effective.

New York, May 4.—A dispatch to the Journal from Havana says: The Cuban troops led by General Jesus Robi recently defeated the Spanish column of General Roy at Bayamo. The Spaniards numbered 1,300, over twice as many as the insurgents. The insurgents' dynamite gun was very effective. Roy's route was so complete that he has been removed from command by Weyler, and will be sent to Spain to answer charges of cowardice before the military tribunal.

Stricken With Paralysis. Waco, Tex., May 4.—Ex-U. S. Senator Richard Coke has been stricken with paralysis. His condition is critical.

DEFAMATORY STATEMENTS.

Helena, Mont., May 4.—Judge Walter M. Bickford and C. K. Cole, members of the state capital building committee have determined to bring suit against Representative Fred Whitesides for damages, for alleged defamatory statements made by him in a report to the legislature, as a minority committee, appointed to investigate the affairs of the capital building committee, in which he represented that said commissioners had been guilty of collusion in selecting plans and letting contracts.

STEAMER COLLISION.

Aberdeen, Scotland, May 4.—A collision occurred off Girdleness light house between the British steamers Coldyde, and Gringoe. The Coldyde sank, eleven of her crew being drowned.

GRECIAN AFFAIRS.

Charges That King George Used the War Crisis to His Own Advantage.

Athens, May 4.—A dispatch from Pharsalos says: The Turks have avoided making any further attacks on Valentine, contenting themselves with reconnoitering the neighborhood. The Greeks occupy strong positions, which enable them to repulse superior forces.

THE KING AT SPECULATION.

Paris.—Gil Blas says the king of Greece used the crisis of affairs in that country to speculate in bonds of Greece and Turkey, and that he cleared 30,000,000 to 35,000,000 francs.

TURKISH VICTORY.

Athens.—The Turkish position before Valentine Thessaly, Friday, April 30.—Fighting has been in progress here since 5 o'clock this morning. The mountains form a semi-circle of which Valentine is the center. The Greeks occupy a strong position on the hills, in two wings. The Turks commenced the attack under cover of a sustained artillery fire. The Greeks responded feebly. Our troops gradually gained ground, and a battery was planted on our right, where the ground was not so steep, covering the advance. Although the Turks were met with a furious fusillade, they pushed forward, gained the summit, and after a struggle at the present moment, are occupying strong positions, while awaiting the coming of reinforcements.

CHARGED BY TURKS.

London.—A dispatch from Arta says that 5,000 men commanded by Col. Bairacharia, while advancing on Penteplagiade have been charged by Turks. A battle is in progress.

FIRE IN A BAZAAR.

Terrible Accident at a Charity Fair Presided Over by the Society Women of Paris—Thirty Bodies Recovered.

Paris, May 4.—Fire broke out at 4 p. m. in a crowded charitable bazaar in Rue Jean Goujon, at which the Duchess d'Uzes and other well known patronesses were present. Many people were burned to death. There was a terrible panic. Thirty bodies have been recovered. Thirty-five of the injured people are being cared for by physicians, and many are reported missing. The building in which the fire broke out, was a temporary structure of wood. The flames were first discovered above a stall, occupied by the Duchess d'Uzes, while the place was densely crowded. The bazaar is an annual function, presided over by the leaders of the Parisian society. There was a wild rush for exits, and the weaker persons were borne out, and trampled upon. The inflammable nature of the building and its contents, caused the flames to spread with great rapidity, and in a short time the bazaar was a mass of flames. The bodies of thirty victims of the conflagration, mostly women, were recovered, and laid out on the sidewalk, where the corpses formed a ghastly spectacle. Many people are still missing, and it is feared they are buried in the ruins.

CROP REPORTS.

Condition of Crops in Various Sections of New Mexico as Gathered by the Weather Bureau Service.

The week ending May 3d was an excellent growing week. The temperature averaged about normal, and the rainfall considerably above the normal. There was but little wind and the humidity was fairly high. As the rain was mostly in showers some localities were not favored with it, but a large part of the territory received sufficient rain to start the grass on the stock ranges and to do a great deal of good in general to growing crops and fruit. The outlook to present for a good year is very encouraging. Crops of all kinds are in good condition.

The fruit crop for the whole territory is very promising. The first cutting of alfalfa will be commenced in the southern part during the coming week. The lambing season is just on, and as feed and water are plentiful and sheep in condition, a good increase is confidently expected. The first planting of sugar beets in the lower Pecos valley are showing a good stand and a large acreage is being planted there.

Sugar beets are being planted for experimental purposes in several different localities.

Stock on the ranges are improving rapidly in most localities. The following extracts from a few of the reports received at this office will be found of interest:

Albuquerque.—A. Montoya, jr.—Good shower on the 26th; cloudy greater part of the week with very little wind. All crops making good progress. Corn planting going on. Prospects for an abundant fruit crop very good. River getting higher.

Wm. French.—Some good showers around the mountains on the 26th and 27th, will help grass on the ranges very much; stock is picking up; prospects for a splendid fruit crop; alfalfa growing fast. Bernalillo.—Brother Gabriel.—This week has been quite an improvement on the previous week in regard to progress in fruit, alfalfa, ranges and vegetable gardens. From the far enough advanced to begin spraying and this is not sufficiently practiced by the generality of fruit growers in this section. It appears to be absolutely necessary, especially on the grafted trees more than on the native trees. London purple is considered the best mixture that can be used. Two good sprays given at the proper time will give satisfactory results. Hail and rain on the 26th and 27th. Total rainfall during the week 0.58 of an inch.

Bluewater.—Col. J. S. Van Doren.—A week of showers, each day giving its quota. Warm growing weather. On the 26th and 27th were favored with heavy thunder and lightning. Grain shows a good growth; alfalfa bright and growing rapidly. Planting of root crops commencing. Total rainfall 0.65 of an inch. Eddy.—L. O. Fuller.—Rain during the past week have had a most beneficial effect upon all vegetation; beets planted before the rains are growing nicely. Farmers are continuing to plant and a large acreage of the sugar tuber will be grown in the vicinity this season. Alfalfa fields are green and approaching time for the first cutting. General crops are in good condition. The state of the weather is excellent.

Esplanade.—Jim Curry.—A good growing week; crops are all looking fine; fruit prospects are good. The Rio Grande is booming higher than for several years. Farmington.—J. G. Willett.—Peaches are mostly in bloom. No frost to damage fruit. Fine prospect for all kinds of fruit. River not high; growing nicely. Showers of rain with thunder nearly every day. Grass on range growing nicely and stock doing well. Ground in good condition. Not as much wind as usual.

Fort Stanton.—John S. Taylor.—An excellent week for growing crops. The amount of rainfall, however, in most localities was somewhat disappointing as there was very promise of heavy rains which would have started grass to growing. The total rainfall for the week was .50 of an inch.

Fort Union.—M. C. Needham.—A good growing week. Had nice showers on the 26th, 29th and 30th. There was a light frost on the 28th but did no damage. Crops of all kinds doing well. Partly cloudy during the past week.

Gallinas Spring.—J. E. Whitmore.—Has showered in almost all directions. Strong wind on the 27th. The range is in need of rain, also alfalfa and garden truck. The season for lambing has been good thus far. There will be very large per cent of lambs if we get no cold rains.

Las Cruces.—Chas. E. Mead.—The past week has been very clear and calm and quite uniform in temperature. The highest temperature was 84 on the 30th and lowest 36 on the 25th. Crops are all gaining ground, and most fruit trees are heavy with fruit. There was a shower amounting to 0.23 of an inch on the 26th which greatly refreshed vegetation. Las Vegas.—Dr. F. H. Atkins.—Fairly warm growing weather. Light rains at the end of week. Every fruit tree in full bloom. Not enough rain for grass on the main prairies. Crops wholly satisfactory so far.

Los Alamos.—Wm. Frank.—Since last report the weather has been changeable. Light rain on the 26th and 29th accompanied by thunder and lightning. The lambing season has commenced. The prospect is very flattering as there is plenty of water and grass. Corn is being planted and growing crops look very promising. Crab apple, peach, pear, cherry and plum trees are beginning to bloom. There should be a good crop as danger of frost is about over. Cattle are doing well and bring good prices. Ocate.—E. M. Cosner.—The showers of rain necessary to make things "just right" have come. Everything progressing nicely. The lambing season will begin on the 6th, with good prospect. Raton.—A. J. Joas.—A good shower on the 26th and a light one on the 1st. Hay harvest will commence next week. Roswell.—W. M. Reed.—The rain came in such a manner as to do much good. The whole country, farms and ranges are looking fresh and in growing condition. So far everything points to a prosperous year in agricultural pursuits. Valley Ranch.—H. M. Strong.—All crops growing nicely. Light showers during the week. Corn planting commenced. Fruit trees in bloom.

ADMIRAL MEADE DEAD.

The Retired Naval Veteran Succumbs to An Operation for Appendicitis.

Washington, May 4.—Admiral Meade (retired) U. S. N., who has been ill three weeks, died today at Dr. Johnston's private sanitarium. Admiral Meade was taken ill with the grip, which was afterward aggravated by appendicitis. An operation had to be performed, and the admiral failed to rally. Meade saw hard service before, during, and after the civil war in many parts of the world on important naval and diplomatic missions. During the last administration the president had a disagreement, resulting from the admiral's criticism in an interview, of the policy of the administration.

THE RICH MANZANO COUNTRY.

Col. J. Frank Chaves, member of the board of penitentiary commissioners, arrived in this city yesterday to attend a meeting of the board and to look after some legal business before the court of private land claims. Col. Chaves drove across the country accompanied by his family from his ranch at Progreso, a distance of 140 miles from this city. He reports the country in splendid condition. Extensive rains have fallen and large crops will be raised. The Manzano mountain valleys look specially fine. There are several populous towns in that section, as Chilli, Talique, Torreon, Manzano, Punta del Agua, and Cienega and the stretch of country he passed through contains between 4,000 and 4,500 people, engaged in sheep and cattle raising and farming. Big crops of wheat, corn, oats, beans, peas, alfalfa and hay are raised and people are also going into fruit raising and many fruit trees are being planted. Some of the best and most extensive timber in the southwest is to be found in the Manzano mountains and there is but one small saw mill located in the entire section of about 100 miles long and from 40 to 50 miles wide. Col. Chaves says that in all his experience, and he has known that section since childhood and for over 30 years, it has not looked any better or fairer than this season and that the best crops for many years will be raised there this year.

PROBATE COURT MATTERS.

At the session of the probate court on yesterday, the hearing of the protest against the probate of the will of the late V. S. Shelby was postponed until the 12th inst. On this account of the absence of Gen. Bartlett, who is the attorney for the heirs under the will, Candidario Martinez is the attorney for the persons, who claim to be natural heirs.

Mrs. Augusta Probst, by her attorney, Geo. W. Kuebel, presented her report as guardian of the minor heirs of A. Kopp for the years 1894, 1895 and 1896. Same was examined and approved by court. Francis Thomas, an attorney, filed a protest against the approval of the accounts of T. P. Gable as administrator of the estate of the late Joseph Field. The estate foots up several thousands dollars. The protest was received and the matter will be considered later.

THE WEATHER.

Cooler, cloudy weather prevailed yesterday the highest temperature being only 56 degrees. Rain began during the night and continued at intervals until noon today when the amount of rainfall measured .85 of an inch. The lowest temperature that occurred this morning was 40. Showery weather is indicated for tonight followed by warmer and fair weather tomorrow.

TO HORSE AND CHICKEN BREEDERS.

Rowdy Pilot, a deep blood-red sorrel stallion, three years old, and bred "in the purple." Sire, Pilot Knox; dam, Lula Edison; will be served to only a few mares; fee, \$10; at SUNNY SLOPE GARDENS, one and one-half miles south of penitentiary. Also eggs for hatching from fine blooded White Wyandotte fowls; price, \$2 per setting of 14, or two settings for \$3. W. R. CUNNINGHAM, Foreman, P. O. Box 25.

Tents, tools, camp and cooking utensils at the Cash store.

NEW MEXICO'S EXHIBIT.

The Mineral Exhibit of This Territory at the Tennessee Exposition is Attracting a Great Deal of Attention.

To the Editor of the New Mexican: Nashville, Tenn., April 29, '97.—Sir: New Mexico with her display of minerals is attracting the attention of capitalists, not only of Tennessee and the sunny south, but of eastern and northern men who are visiting the great Tennessee Centennial exposition, now conceded to be the greatest ever held on the American continent, outside of the World's Fair at Chicago. New Mexico's exhibit, from a mineral point of view, is far ahead of anything so far seen, and now that the A. T. & S. F. company has so generously granted free transportation on all exhibits, the miners should take advantage of this and ship specimens of their ore. Santa Fe county has some fine ores, especially at Golden, which would help to advertise that county, and, in addition to our mineral resources, our people should also make an exhibit of their agricultural and fruit products, and show to the world what we do possess. I hope that you will assist in this matter, and also contribute your valuable paper to the exhibit during the exposition, as it will assist in advertising New Mexico. I shall keep it on file where it can be read, not only by visitors, but by all New Mexicans who visit the centennial during its duration. A great many inquiries have been made regarding the price of lands and the climate of New Mexico. The fruits and grapes of New Mexico have been spoken of and written of so much since I arrived here, that I hope our people will send a lot of samples during the season, so as to support all that has been said of them. I am satisfied that New Mexico will reap a great benefit financially from it. Respectfully yours, J. J. LEXSON, Manager New Mexico Exhibit, Nashville, Tenn.

Just received a new supply of Dry Plates and other photographic material at Fischer & Co's.

Wood base electrodes not accepted.  
No display advertisements accepted for less than \$5 net, per month.  
No reduction in price made for "every other day" advertisements.

TUESDAY, MAY 4.

THEODORE HAVEMEYER died a rich man; his estate foots up over \$4,000,000. It evidently pays to be a member of the sugar trust.

The Tom B. Reed collar may not suit the Democrats in the house of representatives in Washington, but it suits the people right well.

The old-fashioned banker who can say "no" to an applicant for a loan is in demand these days. The other kind break too many banks.

When law suits out of the way, south Santa Fe county would be a great place for gold mining and would team with busy and prosperous people.

GREEK may have the moral support of Christendom, but it does not seem to do her much good in her present fight with the unspokeable Turk.

The people of New Mexico would be under obligations to Secretary Bliss, if he would give them bias by making a few changes in federal officials out this way.

There are only 90 applicants for the position of consul-general to the City of Mexico. Most of them are Ohio men; no wonder Mr. McKinley will take his time about filling offices.

This promises to be a good year for the New Mexico farmer. The territory could stand with great equanimity several good years for its farmers, its cattle-growers, its sheep raisers and its miners.

A NATIONAL bank in Massachusetts has wound up its business because its stockholders are growing old. That is a very good reason and much better, than have a bank close up, because the stockholders are tired and the cashier missing.

Mr. McKinley seems greatly perplexed when he considers New Mexico appointments. Cannot blame him very much. New Mexico applicants for federal office have been plastered over with charges to such an extent that it is hard to recognize them.

Hon. J. E. Sheridan, editor of the Silver City Enterprise, is an applicant for the position of territorial mine inspector. The New Mexican heartily indorses Mr. Sheridan's candidacy, and takes pleasure in calling attention to the eminent qualifications of this gentleman for the position which he seeks. His appointment would give almost universal satisfaction among the people of this territory generally, where he is highly esteemed for a combination of those qualities which go to make the model citizen.

## IMPROVED CONDITIONS.

Those who are howling about a long deferred return of prosperity, due as the result of Republican success in the last election will do well to consult the comparative statement of government receipts and expenditures for April. If indications of improved conditions are here wanting, the pessimists might with profit consult the conditions surrounding investment in the great money centers. But it will be impossible to convince those who are determined to look at the dark side of things, and despite the ample evidence to the contrary, there are many found ready to strenuously deny that there has been no change for the better since the inauguration of Mr. McKinley. The statement referred to above shows the total government receipts for April to have been \$37,812,135 and the expenditures for the same time to have been \$32,072,097, leaving a surplus of \$5,740,038. In place of his surplus for April, 1896, there was a deficit of \$4,704,408. For the past ten months, there has been a deficit of \$33,166,698. For April of this year the receipts from customs amounted to \$24,454,351, and from internal revenue, \$11,440,713. As compared with April of 1896, these figures show a gain in receipts from customs of \$12,638,610, or over 100 per cent.

## A GENEROUS RESPONSE.

Mr. T. J. Helm, general agent of the D. & R. G. railroad in this city, has hit upon

a novel plan for procuring experiments in sugar beet culture among the farmers of Espanola valley. Noting the growth of general interest on this subject among the agriculturists of the territory, and having a mind to assist in the promotion of an industry that will ultimately be of great benefit to New Mexico, he asked permission of his traffic manager, Mr. A. S. Hughes, to furnish at the expense of the road, a limited quantity of sugar beet seed for distribution among the farmers of Espanola valley, also that he be allowed to transport free of charge a reasonable amount of the product from the point of experiment to the sugar beet factory in Utah on the line of the Rio Grande western.

The matter was referred to Mr. E. T. Jeffrey, president of the road, who heartily concurs in the project, as far as his road is concerned, and as for the part that the Rio Grande Western is to play in the matter of transporting the beets for manufacture, in the experiment, Mr. Jeffrey writes that Col. Dodge of that line is quite ready to join the Denver & Rio Grande in the proposition. Mr. Jeffrey authorizes Mr. Helm to go ahead with his purchase of seed, and forward the bill to headquarters.

This is certainly a most generous response to a proposition that will ultimately result in profit to all the interests involved. The railroad may not get rich out of it the first year, but the raising of large quantities of beets along its route would in time figure quite extensively in its freight accounts. But that is a future consideration. The efforts of these gentlemen, who have so generously given the farmers of Espanola valley an opportunity to experiment in this matter, are surely to be commended, and there are doubtless many who will hasten to take advantage of this most unusual offer. The Denver & Rio Grande and the Rio Grande Western have not, as far as we know, industrial departments, like that recently established by the Santa Fe, but whether or not they have such a department, these roads have put in operation a plan that will result in good all around, and especially to those who are anxious to experiment along the very lines proposed by Mr. Helm.

We have heard a good many farmers in this county express a desire for just such an opportunity as is now offered free of charge by the gentlemen whose names are mentioned above. There is a general desire among all classes in this section of the territory, to know how the beet will thrive here, as a basis for future operations. Seed of course is a small item, but who was to pay for transporting the beets to a factory several hundred miles distant for the dual test in the experiment? This was a question, which would in all probability have been settled by not raising any beets at all, had not Mr. Helm conceived the idea which has been so promptly ratified by the high officials of his line, and which is sure to meet with the hearty co-operation of the farmers of that fertile section, which is to be the scene of this most interesting, worthy, and profitable experiment.

## A NOVEL EXPERIMENT.

The difficulty which show men experience in getting wild animals, and the prevailing high prices, has induced five Chicago business men to organize a company for the purpose of breeding rare animals in the Everglades of Florida. Beasts of all kinds suitable for circuses menageries and "zoos," cost 60 per cent more than they did 15 years ago, and it is simply impossible to get certain varieties even when a no limit order is given. A few years ago \$1,500 would purchase a very fine giraffe, but \$5,000 and as high as \$9,000 has been offered during the past season without securing the desired animal.

In southern Florida, north of Lake Okechobee and lying between the St. John's and Kissimmee rivers, is a wild and wide expanse of swamp and jungle known as the Everglades where the conditions are especially favorable to all kinds of undomesticated animal life. It is the natural home of the venomous reptiles like the moccasin and rattlesnake. In climate and surroundings it closely resembles the foreign regions from which the most valuable wild animals are secured. Few white men have ever penetrated the dense forests where for years the Seminoles Indians held out against the efforts of the government to dislodge them, and to all practical purposes the country is the same today as it was when Ponce de Leon explored it in his hunt for the fountain of perpetual youth. It is in this part of Florida that the company mentioned above is to establish its novel farm. Here the lions, tigers, elephants, tapirs, hippopotamii and similar forms of mammalia will be colonized and left to live on their lives unmolested so long as they behave themselves.

Under the natural conditions of large liberty in a warm country, freed from the irksome restraints of cages and the close personal supervision of keepers, it is expected the animals will flourish and increase rapidly. If the hopes of the owners in this respect are realized the trade with Hamburg will be cut off and there will be a home supply of wild animals easy to obtain and cheap of price. Instead of sending expensive expeditions to Asia or Africa, the man who wants a few lions or elephants will merely have to wire his order to Florida and it will be speedily filled.

John Lavake, the only white man in that part of Florida who had title to anything like a tract of decently high, sandy land, has sold his holdings to the new company. The deed transfers 200 acres adjoining a branch of the St. Louis river and commanding access to a limitless range of swamp and jungle. On the Lavake tract men are now at work erecting homes for the superintendent and his assistants and barns for the horses, cows and other domestic animals which may be required. This done, a chunk of about 2,000 acres of the best of the forest and swamp is to be inclosed with a strong

fence built of young trees. This fence will be 12 feet high, and from the top a heavy iron grating will project inward to prevent the wild animals of the cat species from climbing over it.

William H. Winder, a handler of wild animals known all over the world by reason of his long connection with circuses and his many exciting adventures, will be the superintendent of the farm.

Antonio Mora, who was awarded nearly \$1,000,000 from Spain after twenty-five years' litigation, died a few days ago. It is another instance of the dangers of changing old habits too suddenly.—St. Louis Globe Democrat.

## FOR THE LADIES.

### A LACE BOLERO.

The daintiness of the lace bolero is extremely effective in combination with chiffon. Our design shows a gown of grey poplin. The skirt and sleeves are

of the fabric. The blouse bodice is of chiffon of the same shade which is laid in tucks at the top, each tuck being gathered to form a tiny frill. The standing collar is made entirely of shirred tucks. The front is decorated with a ruffle of the chiffon, which is gathered in four bunches, each bunch of gathers being decorated with a steel button—the fullness being spread to resemble a rosette. A belt of the new crease velvet gives the needed touch of color. The bolero is of equal length both back and front and has epaulettes shaped pieces at the shoulders. The sleeves are laid in folds at the top at the inner seam. White lace finishes the sleeves and forms a frill at the back of the collar. A hat of grey straw with grey plumes and crease velvet is worn.

# HOBBS

## MISSION IN SANTA FE FULFILLED.

There is no Longer Any Reason Why People Should Suffer with Kidney Disease.

THERE IS A REMEDY IN YOUR MIDST THAT WILL CURE YOU.

And That Remedy is Dr. Hobbs Sparagus Kidney Pills.

The predication made by Dr. Hobbs in the papers of this city some weeks ago, that by the use of Dr. Hobbs Sparagus Kidney Pills, the total number of those suffering from kidney trouble in Santa Fe would be reduced at least twenty-five per cent during that time has been fully verified.

Could the public but read all of the tender and grateful letters which are daily received by the owners of this grand remedy from cured patients, letters full of overflowing from joyful hearts once more restored to health after years of suffering and misery—the good this grand medicine has accomplished, and is accomplishing today, would be more than ever realized by the public.

There is nothing that can cause any honest physician greater satisfaction and pleasure than to feel that he has been the means of restoring lost health to some fellow creatures.

## ELEVEN YEARS OF PAIN.

Office Danks and His Kidney Troubles—Nothing Gave Any Relief For Years—A Physician Finally Recommended Dr. Hobbs Sparagus Kidney Pills. Which Cured Him.

Chicago, Sept. 15th, '95.

## HOBBS REMEDY CO.

Gentlemen:—For years I have been suffering from a weak back and severe pains in the region of my kidneys, my first serious troubles being at the age of 24 years. At that time the muscles of my back near my kidneys seemed to become paralyzed. I was carried to my home in terrible agony, and for days had to be turned in my bed, having lost all use of the muscles of my back. Since that time I have been a constant sufferer from kidney trouble. At the age of 27, I became a patrolman in the police department of Chicago, and have since that time served as a crossing officer in the busiest district, being constantly on my feet for nine hours per day in all weathers. I have been a constant sufferer from pains in my back and sides, shortness of wind, swelling in feet and ankles, and I feared I had Bright's Disease of the kidneys. I had tried a great many so-called remedies, including plasters, electrical appliances, etc., and took medicine enough to disorder my stomach, but found no permanent relief. I was finally advised by a friend, a physician, to try Dr. Hobbs Sparagus Kidney Pills and I did, but I hadn't much faith in them, because I had tried so many medicines, without getting relief. I had lost faith. After a few doses, however, I thought I noticed a change for the better so I continued till I had taken four boxes. I was cured. Four boxes of Dr. Hobbs Sparagus Kidney Pills had done for me what \$40 worth of drugs had been unable to do. I am now in perfect health. I am 35 years of age, measure six feet two, and weigh 220 pounds. I have a good appetite, my back aches no more, and I feel as strong as ever before, and although I am still standing on the paving stones for nine hours each day, I feel no fatigue in my back. Dr. Hobbs Sparagus Kidney Pills have been to me a friend indeed, and I still take them at intervals as a preventive, and to strengthen my back and muscles. Yours respectfully,

OFFICER O. E. DANKS,  
1st Precinct Police.  
Dr. Hobbs Sparagus Kidney Pills, 50 cents a box. Six for \$2.50.

ALL KINDS OF MINERAL WATER  
The trade supplied from one bottle to a carload. Mail orders promptly filled. . . . .  
QUADALUPE ST. . . . . SANTA FE

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign," beginning November 15th, 1896, and closing February 15th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Pecos Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is supplied to the crop WHEN NEEDED.

THE SUN SHINES more hours in the day and more days in the year in Eddy and Chaves counties, New Mexico, than in any other section of the west.

124 separate analysis, chiefly carload lots, showed AN AVERAGE of 17.01 per cent sugar in beet; 84.1 per cent purity.

THIS REMARKABLE RESULT was accomplished by raw farmers, unacquainted with the culture of beet root, on new land and under very trying circumstances, as the factory was not assured until May, and a majority of the acreage was planted between JUNE 1st AND AUGUST 10th.

## THE SUGAR BOWL OF THE GREAT SOUTHWEST

Is the Rich Valley of the Rio Pecos.

IN THE COUNTIES OF

EDDY AND CHAVES OF NEW MEXICO.

GOOD SOIL makes the seed germinate.

WATER makes the plant grow

SUNLIGHT puts the sugar in the BEET.

THE ONLY THING left to be desired that the Pecos Valley has not on hand in abundance is PEOPLE. We need thrifty farmers; 500 heads of families each on a 40-acre farm.

NO FAIRER terms or conditions of sale of beet and fruit lands were ever made.

WRITE for particulars.

### NEW SCHOOL BOARD.

The Old and New Boards Met Last  
Evening, the Former for a Final  
Adjournment and the Latter  
for Organization.

The old and new school board met last evening, to dissolve the former and organize the latter. Of the old board all members were present, excepting Martinez and Gorman. After a final adjournment of this body the roll of the new board was called, the following named members answering to their names: A. B. Renahan, Adolph Fischer, Fred Muller, James M. Anaya, Manuel Delgado, S. Baez, C. Padilla. Absent: Pablo Martinez.

The new board at once proceeded to organize by the election of the following named officers: President, James M. Anaya, vice president, Adolph Fischer; secretary, Manuel Delgado.

The first official act of the new board after organization, was to approve the bond of City Treasurer Cartwright, in the sum of \$10,000.

The matter of issuing bonds for the floating indebtedness of the school board was taken up and discussed at length, but no definite conclusions were reached.

The Sisters of Loretto, and Prof. Jenkins presented bills for services rendered, the same being accompanied by statements to the effect that they declined to accept bonds for the warrants held against the board, and requesting that they be paid according to agreement in the usual form. These requests were discussed by the board, without coming to any decision in the matter, and the subject went over until the next meeting. Adjourned to the call of the chairman.

### The City Council.

The city council met last evening at 8 o'clock at Fireman's hall; Mayor Spies in the chair and the eight councilmen all present in their own proper person. There was a good deal of wrangling, because Alderman Soligues, chairman of a select committee, as to the question of the right of Alderman Lacombe to hold the seat representing the Fourth ward, was not ready to report. The four Democratic aldermen wanted an immediate report and Alderman Nolan voted with them. After several motions and rulings of the chair, the select committee was ordered to report at the next meeting.

Accounts of F. McPherson for stable for use of city team and of Sheriff H. C. Kinell for feeding prisoners for April was allowed. This latter item cost the taxpayers only \$52, which considering the fact that the amount might have been greater, is very satisfactory.

All outstanding accounts to be presented under the Bateman refunding law, were referred to the finance committee.

The subject of repairing side walks or lighting the city better was not brought up.

### CITY NEWS ITEMS.

Harmony in the meetings of the city council is so thick, that you can cut it with a knife.

The board of penitentiary commissioners is in session today, examining bids and samples.

The sidewalk in front of the Sena building on Palace avenue, needs repaving and that very much.

The board of county commissioners is in session today and will also be in session tomorrow.

The funeral of the remains of Edward Fenstermacher will take place tomorrow at 2 p. m. from the Exchange hotel.

U. S. weather bureau forecast for New Mexico: Fair in south and showers in north portion tonight; Wednesday fair; warmer Wednesday.

Among the bidders for penitentiary supplies are Arthur Seligman of Santa Fe, Hon. F. A. Manzanarez of Las Vegas, Sam Neustadt for Grunsfeld Brothers of Albuquerque, Gusdorf & Dolan of Santa Fe, J. L. Laub of Rowe, A. Stab of Santa Fe, Wm. Kieck of Albuquerque.

J. B. Chapin was tried before Police Justice Fernando Nolan this afternoon on a charge of carrying deadly weapons. City Attorney Gortner appeared for the prosecution and Major J. H. Purdy for the defense. Defendant was found guilty and fined \$25 and costs.

The statement in yesterday's issue of the New Mexican, referring to the reported promotion of Mr. J. M. Powers, formerly agent of Wells Fargo & Co. in this city, was based upon erroneous information. The facts in the case are these: Mr. W. F. Powers, until recently superintendent of the Wells Fargo & Co. at Denver, has been reduced to route agent with headquarters at Albuquerque.

Mr. C. H. Young, formerly assistant superintendent at Albuquerque, has been promoted to superintendent with headquarters at Denver, vice Powers, reduced. J. M. Powers, the former agent in this city, is clerking for the Wells Fargo people at Pueblo.

The funeral will be held tomorrow at 2 o'clock from the Exchange hotel.

**LETTERS FROM THE PEOPLE**

**Santa Feans Should Hang Together.**

To the Editor of the New Mexican.

Santa Fe, N. M., May 3.—Before at- taching his signature to the Declaration of Independence, history relates, that Benjamin Franklin, John Hancock or some other smart man turned to his colleagues and remarked, "gentlemen we must hang together now, or we are apt to hang separately." This philosophy remark is respectfully cited for the attention of all alive and enterprising Santa Feans. Hang together gentlemen, and much can be accomplished. Kill with a leaden club the croaker, who stands about all the day idle, wondering why the devil the country perishes in running to the "demonstration bow-wow" and who like Mowbray is always waiting for something to "turn up." Such croakers should "turn up" something themselves, preferably their toes. The world would not be a great loser should they do so.

Its optimism, and not pessimism that constitutes the kernel of true philosophy, and in spite of many declarations to the contrary we should be willing to believe that the darkest cloud may be bright on its upper side. In spite of the many disagreeable experiences of daily life this is the most pleasant world of which we have any knowledge, and to exist in New Mexico is to be happy.

With the weather is fine) should prove sufficient compensation for many other short comings. It must have been a bright sunny day when that dear old American poet gave us—

"Let us then be up and doing  
With a heart for any fate  
Still achieving, still pursuing,  
Learn to labor and to wait."

C. O.

**BABY HUMORS**

Instant relief for skin-formation troubles and rest for tired mothers in a warm bath with CUTICURA SOAP, and a single application of CUTICURA (ointment), the great skin cure. The only speedy and economical treatment for itching, burning, bleeding, scaly, and pimply humors of the skin, scalp, and blood.

**Cuticura**

BABY BLEMISHES Prevented and Cured by CUTICURA SOAP.

### PERSONAL MENTION.

J. L. Laub of Rowe, dealer in lumber, is in the city.

C. M. Garver of Des Moines, is a guest at the Palace.

Mrs. R. J. Palen and daughter, Miss Cary, will leave Los Angeles for Santa Fe on the 6th inst.

J. K. Livingston left Las Cruces today for a lengthy visit through the Republic of Mexico.

Mrs. M. A. Otero of Denver, is in Las Vegas on a visit to her niece, Mrs. E. O. de Henriquez.

A. M. Blackwell, of Gross, Blackwell & Co., East Las Vegas, has gone to St. Louis on a business trip.

Mrs. H. W. Phillips of Espanola was a passenger to Sioux City, Iowa, on today's Denver & Rio Grande train.

Vernon Biggs, stenographer to Hon. M. G. Reynolds, attorney court of private land claims, arrives from St. Louis to night.

Ensenio Chacon, interpreter for the U. S. court of private land claims, is in the city. He is accompanied by his wife and child.

Philip Mihizer, who has been in Las Vegas for several weeks, has gone to Roswell, near which place he has a fine ranch property.

Mr. Black, assistant observer in the local weather bureau service, is confined to his room with a severe attack of spring fever.

R. E. Twitchell, assistant attorney of the Santa Fe railroad, is in the city from Las Vegas, stopping at the Palace. He is here on legal business.

Don Nicholas Quintana, merchant at Pojanque, and Don Camilo Martinez, farmer at the same place, were in the city yesterday buying supplies.

A. A. Keen, the popular cashier of the First National bank at Albuquerque, has returned from a well deserved vacation at his old home in Boston, Mass. He was accompanied by Mrs. Keen.

Governor O. A. Hadley of Watrous, chairman of the board of penitentiary commissioners, is in the city to attend the meeting of the board of penitentiary commissioners. He registers at the Palace.

G. B. Swift and wife were passengers over the narrow gauge to Durango today. Mr. Swift is canvassing for Scribner's Magazine and the publications of the Scribner publishing house.

Mrs. J. F. Hinkle and son returned last Friday from a trip to California where she went some three weeks since as a healthseeker. She was somewhat improved, but not more than she would have been had she remained in New Mexico.—Roswell Record.

Joe E. Sheridan, editor of the Silver City Enterprise, and A. C. Voorhees, attorney at Raton, met yesterday in Albuquerque, where a meeting of friends of Captain Collier was held; the situation was discussed and some telegrams sent to Washington, also letters were formulated, signed and sent on.

**A SUDDEN DEATH.**

**Edward Fenstermacher Expires at 2:30 This Morning of Heart Disease.**

Edward Fenstermacher died at 2:30 o'clock this morning at the Exchange hotel of heart disease. He was a native of Pennsylvania, where he is supposed to have relatives, but he has been a resident of the territory for the past ten or fifteen years, the greater part of this time having been passed in this city. He has followed several different trades and occupations since coming to the territory, his last work being in the capacity of bartender in Billy Price's saloon. He has been employed at this resort since last July, and was considered a good man at his trade. Last Sunday night he was taken quite ill, and decided to quit his place. Since that time he has been attended by Dr. Diaz, who found him suffering from acute heart troubles, to which he succumbed at 2:30 this morning, after a night of terrible suffering. Nothing is known of his relatives, and he does not seem to have had any intimate friends.

The funeral will be held tomorrow at 2 o'clock from the Exchange hotel.

**LETTERS FROM THE PEOPLE**

**Santa Feans Should Hang Together.**

To the Editor of the New Mexican.

Santa Fe, N. M., May 3.—Before at- taching his signature to the Declaration of Independence, history relates, that Benjamin Franklin, John Hancock or some other smart man turned to his colleagues and remarked, "gentlemen we must hang together now, or we are apt to hang separately." This philosophy remark is respectfully cited for the attention of all alive and enterprising Santa Feans. Hang together gentlemen, and much can be accomplished. Kill with a leaden club the croaker, who stands about all the day idle, wondering why the devil the country perishes in running to the "demonstration bow-wow" and who like Mowbray is always waiting for something to "turn up." Such croakers should "turn up" something themselves, preferably their toes. The world would not be a great loser should they do so.

Its optimism, and not pessimism that constitutes the kernel of true philosophy, and in spite of many declarations to the contrary we should be willing to believe that the darkest cloud may be bright on its upper side. In spite of the many disagreeable experiences of daily life this is the most pleasant world of which we have any knowledge, and to exist in New Mexico is to be happy.

With the weather is fine) should prove sufficient compensation for many other short comings. It must have been a bright sunny day when that dear old American poet gave us—

"Let us then be up and doing  
With a heart for any fate  
Still achieving, still pursuing,  
Learn to labor and to wait."

C. O.

**OJO CALIENTE**

(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90° to 122°. The gases are carbonic. Altitude 5,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 168.34 grains of alkaline salts to the gallon; being the richest Alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures effected in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. For further particulars address—
