ADVANCING UPON ATHENS

Edhem Pasha, Turkish Commander-in-Chief, Has Received Orders to March Upon the Capital of Greece.

THE ALLEGED CONCESSIONS OF RUSSIA

The Ambassadors Meet at Constantinople for An Exchange of Views on the Much Discussed Subject of Mediation.

Constantinople, May 12.—The ambassadors met this morning for an exchange of views on the subject of mediation. Meanwhile the Turks are advancing on Greece. Edhem Pasha's original orders being to march upon Athens. It is feared here that the peace conditions as reported, will render an agreement difficult, and cause further complications. It is expected that Russia may propose concessions to the Macedonians.

A director of the Deutsche bank of Berlin is expected here shortly, with a proposition to reorganize Turkish finances, conclude a loan, and secure railway concessions.

SHARP FIGHTING.

Pharalos.—Important fighting is expected here unless an armistice is immediately agreed upon at Constantinople.

RAIDING IRREGULARS.

Pharalos.—Edhem Pasha, the Turkish commander-in-chief, has established his headquarters on the hill opposite Pharalos. The Greek irregulars are raiding parts of Thessaly and have attempted to cut the Turkish line of communication with Ellassos.

AN IMPORTANT CAPTURE.

Athens.—Advices from the island of Skiathos, off the coast of Volos peninsula, says that the Greek gun boat Venus, and a Greek torpedo boat, No. 14, captured yesterday off the island of Teodosio, on the west coast of Asia Minor, a Turkish steamer, having on board 100 Turkish soldiers, six officers, 300 Martini rifles, several thousand cartridges, six quick firing guns, various military stores and 4,000 pounds in cash. The Greek warships took the prize to the island of Skiathos.

NEGOTIATIONS FOR PEACE.

Constantinople.—The ambassadors held another meeting after which they presented to the Turkish government a collective note proposing an armistice pending negotiations for peace between Turkey and Greece, now in progress. The admirals in command of the foreign fleets in Cretan waters have been notified of the mediation of the powers, and have been instructed to permit the departure of Greek troops from Crete.

THE STREET RAILROAD FRANCHISE.

Springfield, Ill., May 12.—The enabling clause was stricken out of the Humphrey bill, extending a franchise to street railroads, by a vote of 123 to 29.

A DOUBLE LYNCHING.

Two Women Hanged by a Mob in Tennessee for Poisoning a Family by Whom They Were Employed.

Nashville, Tenn., May 12.—A Huntsville, Ala., special to the Banner says that at daybreak today the bodies of Mollie Smith and Mandy Franks, colored, were found swinging from ropes from trees on the side of a road leading from Jeffersonville, Ala., to Huntsville. The lynching was done by a mob of 20 persons.

The girls were suspected of poisoning the family of Joseph Kelly at Jeffersonville. Mollie Smith was arrested last night while making her way across the Tennessee line. Mandy Franks was captured at home. The latter is said to have made a confession. Kelly died of poisoning two months ago. Two days ago several other members of his family were poisoned, but all are recovering.

THE RECORD BROKEN.

Chicago, May 12.—The world's record for 300 yards hurdle, was broke twice today in trial heats at the military and athletic carnival at the Coliseum. P. Olsen of the Chicago Athletic association, went the distance in 38.5 seconds, Krazinsky of the Chicago Athletic association, in 37.2 seconds. The former record was 38.4 seconds.

TYPHOON WINS.

Louisville, Ky., May 12.—Typhoon wins the Derby; Oranmont, second; D. Cattlett, third. Time 2:12½.

WON THE CHESTER CUP.

London, May 12.—Lebandy's chestnut horse "Count Bohomberg," 5 years old, won the race for the Chester cup, at the Chester meeting today.

CHIEFS OF POLICE MEET.

The Bertillon System of Measurements Discussed at Length, and Indorsed as Worthy of General Acceptance.

Pittsburg, May 12.—A consideration of the Bertillon system of measurements, occupied nearly the entire session of the convention of chiefs of police of the United States and Canada today. It was finally decided not to petition congress on the matter, until the system had been thoroughly tested. All delegates pledged themselves to use their best endeavors to have the police commissioners of their respective cities, make special appropriations for the purpose of making the Bertillon system a national affair, with general headquarters in one of the larger cities.

A Serious Engagement.

London, May 12.—News from Cape Town announces that a serious engagement has taken place in Bechuanaland. Chief Tolo has been captured, and six volunteers killed.

HOT ON THE TRAIL.

The Pursuit of Parker, Arizona Train Robber, Murderer and Jail Breaker, Continued with Vigor—A Fight to the Death Expected.

Prescott, Ariz., May 12.—Late last night a message was received from Sheriff Ruffner, which locates his posse 25 miles north of the town and on a fresh

trail of Parker, the train robber and murderer. They were camped for the night awaiting the arrival of Indian trail riders. The other jail breakers cut loose from Parker, and have gone in an opposite direction. A big posse has gone out with fresh animals. Parker, since Sunday, has been without food, and he is evidently so closely pursued that he has become bewildered. A fight to the death is expected, however, before he is captured. There are over 50 officers out from this city, and the country is thoroughly aroused. Ruffner has telegraphed that he will have Parker before sundown on Wednesday.

Residence Burned.
Emporia, Kas., May 12.—The suburban residence of C. N. Sterry, general attorney of the Atlantic & Pacific railroad, was burned last night. Lost \$20,000, insurance \$4,000.

WASHINGTON NEWS BUDGET

Allen of Nebraska Introduces a Resolution Requiring E. R. Chapman to Purge Himself of Contempt at the Bar of the Senate.

BRIGADIER-GENERAL FORSYTH PROMOTED

General Forsyth Will Soon Retire, and it is Probable That Brigadier-General Brooke Will Be the Next Major-General.

Washington, May 12.—Senator Allen of Nebraska, presented a resolution requiring E. R. Chapman to put himself at the bar of the senate, and purge himself of contempt, before clemency could be extended. It went over until tomorrow. Morgan's Cuban resolution also went over, to permit the committee on foreign relations to present a statement.

AN ARMY PROMOTION.

The president today sent the following nomination to the senate:
War.—Brigadier-General James W. Forsyth, to be major-general. General Forsyth is in command of the Department of California. It is expected that he will retire within a few days after confirmation, leaving the way open, for the promotion to major-general, of some other brigadier-general, whose movement will probably and with General Brooke permanently in place as major-general.

MR. MCKINLEY DECLINES.

The president has practically decided to decline all invitations extended him, to attend Decoration day exercises on May 31.

LATE APPROPRIATIONS.

The senate today passed bills appropriating \$1,500,000 for a public building at Indianapolis, \$200,000 for one at Deadwood, S. D., and a bill granting Montana 50,000 acres of land in aid of an asylum for the blind.

A DISORDERED REPORT.

The state department has received no information whatever regarding the reported killing of United States Consul Alger at Port Cruz Honduras, during a fight between the government forces and revolutionists, nor of the alleged insult to the American flag, by the Nicaraguan steam tug, Lucy B. The report is discredited.

SUBJECT ALREADY COVERED.

The senate committee on foreign relations, today decided upon an adverse report, on Senator Allen's resolution, expressing sympathy with the Greeks in their war with Turkey, on the ground that the subject had been covered in the Cameron resolution adopted February 20. The committee decided to ask the secretary of state to supply the fullest possible information regarding the situation in Cuba.

THE TARIFF BILL.

Senator Aldrich returned today and said that nothing had occurred to change his determination to call up the tariff bill on May 18.

ASKS INFORMATION.

Senator Butler today introduced a resolution requesting the president to inform the senate "under what authority the proposed sale of the Union Pacific railroad had been agreed upon, between the executive and any combination of purchasers."

ALBUQUERQUE NEWS NOTES

The New Mexican's Correspondent Writes of Recent Happenings of Interest in the Duke City.

ABOUT GUBERNATORIAL POSSIBILITIES

Bernalillo County Has Only Two Aspirants for the Governorship As Far As is Known, Hon. Pedro Perea and Gen. E. A. Carr.

Special Correspondence New Mexican.

Albuquerque, May 11, 1897.—Yesterday and today have been prolific of news, some of which may be of interest to the readers of the NEW MEXICAN. The past week offered the Butler and Lockhart-Emery cases in continuance and the curtain will rise on other acts, in which the above parties will perform the principal parts.

For six months past the papers have published item after item about the Hellerson mining interest in the San Miguel, the Milagros company's operations affording the major portion of the material. The news gatherers had the best intentions, but frequent unfortunate breaks in the machinery, denied them good mining news notes.

James Elspass, inventor of the crusher that the Milagros company put up, says the district is a good proposition, but that it needs men of experience to develop it. Saunders, who represents the company, is waiting for Allen and Dr. Grasse, of Trinidad and Pueblo, who own the principal interest in the San Miguel, and upon their investigation it is expected operations will begin in earnest. Rapid and successful work of development means fine financial results.

Hundreds of people were anxious to meet friends among the conductors who were expected to show up at 6 o'clock on Sunday evening. The two sections came in at 2:30 this morning and only a few owls wearing badges managed to get out and shake themselves. Conductors Oeder and Stevens brought in the trains, one carrying the legend: "D. & R. Division."

Conductors Somerville and McGowan, freightmen, took out the trains, Charles Ross and Harry McCarty at the throttle. Joe Walker, Superintendent Wells' best man, was as usual on deck, though late, to see that everything was O. K. for the week end.

W. H. Matson, another tireless worker, Walker's successor as joint agent, failed not and was on the platform to see to the Santa Fe's interest.

A Navajo Indian who was in jail for wrecking a freight train beyond Gallup, took the train for the city on Saturday morning. The matter was kept out of hearing, even Fortnoff and his aids being neglected until Sunday evening. It is supposed the red man will make for the reservation. Jones said this evening that he had not been heard of yet.

The proposition is abroad that the Girard house was burned out a few months ago and as a result Mrs. Anderson is lodging with two roomers. She is faithfully waiting for the insurance on her effects. The house was not even singed at the fire.

From authoritative sources it is learned that Frank M. Jones at a recent sitting with Swede John, cleared up \$800. The game was "pitch," a favorite pastime of the Swede. A year ago, almost to a day, it will be remembered that George Neher and Mr. Wikstrom fell into a game, perhaps it was "pitch," and John dropped on a promise to make it good \$10,000. Neher has no recollection of gathering in any part of the dinner promised by John.

James Grunfeld left last night for Chicago on a business trip.

Eddie Grunfeld, a competent young pianist and organist, will go north this week on insurance business. The young man expects to go to Europe to complete his musical studies, in a few days.

Judge H. L. Warren has returned from Lincoln, where he was engaged in the defense of Lily and A. A. Klesner and R. A. Casey, who were charged with the murder of Deputy U. S. Marshal W. H. Gulse, at Pioche, Lincoln county, a year ago. The prosecution was conducted by Solicitor General A. B. Fall, John Franklin, district attorney, of Eddy, and Attorney Keith of Roswell. Judge Warren was assisted by Attorney Gage of Pecos City, Texas. B. Gillette, junior member of Warren, Ferguson & Gillette, opened the case for the defense, Warren succeeding him. The Klesners were acquitted and Casey was sentenced by Judge Langhlin to 15 years in the penitentiary. The affair was the outcome of a factional fight.

Company G will meet on Wednesday evening to adopt a new constitution and by-laws. Some 35 men will re-enlist for two years under the new law and several new members will be sworn in. The company is composed of excellent material, and Albuquerque is proud of her militia boys who will be heard from often.

News has reached here of the death of Mollie Phelps, at Los Angeles. Reddy Gallagher and Theodore Oantwell are held for murder, they being suspected of killing the woman. While here she lived a life of shame. She is a daughter of Ed, Lavell, an old resident. Centwell and Gallagher are known in eastern Arizona and western New Mexico, especially among the sports.

The weather has been exceptionally fine for three days past.

Colonel Grunfeld forgot to show up in Justice Riddle's court today. Since the colonel appeared as a principal in a dog case, a very costly affair by the way to the colonel, the attorneys fees alone being \$750, we learn he has moved in court circles with frequency. The above omission was merely an oversight of the colonel.

General A. E. Carr was pointed out yesterday as a gubernatorial possibility. A goodly portion of the native element favors Hon. Pedro Perea. For the all important office it is believed there are no other aspirants who reside in Bernalillo county. Of candidates for other plumes, a later letter will divulge some names in whom this locality takes an interest, more or less.

Gordon D. Pearce has taken charge of the local department of The Democrat, and health permitting, he may be expected to stay at libitum. Gordon is near to Geo. Albright and that settles it. The course of the paper has been in the line of caution, all possible chance for libel being considered in the make up of stuff sent out to the types, who are now manipulators of the type setting machines. W. R. Beumer takes the road until a better opening is presented.

Saturday evening Daniel E. Phillips, deputy supreme guardian, instituted a Woodman circle, an auxiliary to the Woodmen of the World. The charter membership is 28. Following are the officers: Mrs. H. J. Eddings, W. G. Mrs. Anna Shoup, E. A.; Miss Mamie Shoup, clerk; Mrs. Mattie Cummings, banker. The order pays \$500 to \$2,000 insurance.

D. T. White, the Las Vegas commercial broker, was in the city today, remaining over a day or two.

Miss Grace Hawks, a popular young lady, who in her composition the elements of success as a soubrette, has joined the Buckman Comedy Co., at Prescott. This company recently played a successful date here of four nights and matinee, the Mitascope being a strong attraction.

Land Office Business.

The following homestead entries have been made in the United States land office in this city since May 1:
Mora county—Manuel Pattenghe, 160 acres; Andrew W. Wiert, 160 acres.
San Juan county—Walter L. Kennedy, 160 acres.
San Miguel county—William M. Allison, 160 acres; David L. Williams, 160 acres.
Colfax county—Desiderio Lopez, 160 acres.
Santa Fe county—Jose Abel Anaya, 160 acres.
Edmund Thurland has filed a coal declaratory statement on land in San Juan county.

BICYCLE ROAD MILEAGE.

Of Great Interest to Local Wheelmen. There Being Many Among the Readers of the New Mexican.

An interesting study of the prevalence of long distance road riding by wheelmen, who in various cities and sections of the United States is disclosed by a table of mileage, as reported by the successful winners of 3,000-mile gold souvenirs, which were offered and awarded to riders of Rambler Bicycles and G. & J. tires, during 1896, by the Gormully & Jeffery Manufacturing Company, of Chicago. While the totals by states form some estimate of the comparative road riding activity within said districts, it must be born in mind that the mileage listed is that only which was reported by riders of the make of wheels and tires, i. e., the Rambler and G. & J. tires. Furthermore, an immense aggregate of mileage was not reported because the individual totals did not reach another full 3,000, which was necessary to entitle the contestant to another gold souvenir, to say nothing about the great number of riders who were not contestants, who almost, but not quite, covered 3,000 miles.

There were awarded in all, to applicants in 33 states, 867 of the souvenirs referred to, the total mileage of the winners aggregating 2,874,342 miles. The greatest mileage (Rambler) in any bicycle club was that of the "Detroit Rambler Bicycle club," the winner of the "400 in Gold" prize, whose total mileage was 403,894. The greatest individual mileage for the "400 in Gold" prize, was upward of 15,000 miles.

It will be seen by reference to the subjoined table that the total mileage of the winners in fourteen cities was 1,290,678. Detroit leading with 403,894, Denver, Philadelphia, Chicago, New York and Los Angeles, Cal., following in the order named, with totals, each between 200,000 and 100,000 miles. Syracuse and Baltimore follow in the order named, with totals of 50,000, Buffalo, Indianapolis, Washington, Portland, San Francisco and Pittsburg, in the order named, with less than 50,000 and over 12,000.

It is further noted that the state of Michigan leads with a total mileage of 470,740, followed by New York and Pennsylvania with over 300,000 miles each; Illinois and Colorado, with more than 200,000 miles each; Massachusetts, California and New Jersey each with totals greater than 100,000 miles, and Ohio, Indiana, Minnesota, Maryland, Wisconsin, Oregon and Connecticut with more than 50,000 each, the states above mentioned ranking in the order named.

It is expected that the new series of souvenir offers, announcements of which have been published by the Gormully & Jeffery Manufacturing Company, will bring on further interesting features, tending to prove that this country is rapidly working its way to the front in long distance road riding, just as she has done in track racing and record performances, notwithstanding the disadvantages of poor roads, which drawbacks, happily, seem destined to be removed in the near future.

NEW MEXICO PRODUCTS.

Secretary Miller's Plan for Establishing Agencies for the Sale of New Mexico Fruits and Vegetables.

Secretary Miller's plan for establishing agencies for the sale of New Mexico fruits and vegetables in the large cities of the north and east, which has been outlined to some length in the public press, is attracting much attention from fruit men. Mr. Miller is receiving letters from fruit brokers in the very cities agents are wanted, inquiring into the matter, and asking for the business. The bureau of immigration has already done efficient work in advertising New Mexico's resources, and if this effort to establish regular markets for New Mexico's products succeeds, and there is no reason why it should not, the benefits of concerted action will be fully realized in dollars and cents by the people.

Special Term at Mora.

A special term for the district court for the Fourth judicial district for Mora county has been called for tomorrow by Judge Smith at the county seat.

The first case set is that of Soledad Lucero, for the murder of the Indian, Juan Antonio Rael, the accused at present being in jail, awaiting trial. The trial immediately following will be that of Juan B. Romero, who was sentenced to life imprisonment for being an accessory in the murder of ex-Sheriff John Dougherty, but who was granted a new trial by the Supreme court of the territory.

Prohibition in Kansas does not seem to prohibit these days. Saloons are wide open in Topeka.

The civil service commission is looking for an interpreter at the Navajo Agency at Fort Defiance, but strange to say, there is not a single Ohio patriot an applicant for the place.

It is said that the new senator from Kentucky, Mr. Deboe, is not a man who talks much. What a magnificent chance he has in the United States senate to make a name for himself.

The Honorable Theodore Roosevelt has been assistant secretary of the navy for two weeks and there are no more rows in the navy department, than there were before he assumed office. Strange, but true.

The capital rebuilding commission will meet on the 20th of this month for the purpose of making arrangements to commence active work for the rebuilding of the capital. This is well and the work should be pushed with vigor and energy.

Great Britain may believe in arbitration treaties with this country, but in other climes it takes different methods of settling disputes. Take the Transvaal question for instance, England has a powerful fleet in Delagoa bay and is sending 35,000 soldiers to South Africa. There is arbitration for you.

Mr. Cleveland had two trials at the presidency, and does not seem to have helped his party much. Indeed he was never fairly and honestly elected. First, he was counted in by the terrorism of mobs and the use of corrupt agencies; and, second, he was chosen on a platform that was an elaborate double-headed fraud.

The internal condition of Spain is as bad as could well be. The country is financially strangled, the queen regent is ill of nervous prostration, and worn out by cares and fears. Twenty-six additional anarchists are to be executed soon and in Andalusia there is famine. The masses are discontented and grumbling over heavy taxation and the whole country seems to be on the very verge of revolution.

Under chapter 60 of the session laws of 1897, the county commissioners of San Miguel county have just discharged the police force at the town of West Las Vegas, saving the county thereby a neat little sum annually. This has been done in all other counties where a police force was kept at the county seat, resulting in a corresponding saving. At all county seats, not incorporated towns or cities, the sheriff of the county must preserve the peace. This is as it should be. The Thirty-second legislative assembly passed some right good laws indeed.

The Roswell Record states the case in the following very correctly and succinctly, and it were well, were these remarks duly considered by New Mexico Republicans:

The deliberation of President McKinley in making appointments in New Mexico is giving the Republicans a good deal of worry. The claim that the president is waiting until after the final passage of the tariff bill is a little thin, as the one can have no possible connection with the other. The New Mexican very pointedly hints the real cause of the delays, and this is: There are too many aspirants for each and every office, and they are into a fight among themselves. The president is not supposed to know who the Republicans of the territory desire to have the offices, and with the aspirants for the various places placing charges and counter charges against each other, he has a poor chance to find out.

Serious trouble is brewing in South Africa, by all indications. In Natal the army reserves have been notified to hold themselves in readiness. England is shipping great quantities of ammunition and shell, and 35,000 British troops are expected to follow the ammunition within a few months. The Transvaal authorities are watching the Natal border, and have appealed to all Afrikaners (persons of Dutch lineage born in Africa) to come over and "give their moral support" to the South African republic. These growing complications may account for England's lack of active interest in the Greco-Turkish troubles—in part, at least.

The peace measures of William of Germany in South Africa, are so exquisite in their nature, that Chamberlain has concluded to take a few measures to aid in keeping the peace, and therefore he has secured Delagoa bay as a basis for peaceable operations, and evidently proposes to send across the Indian ocean a few divisions of the British army in India, just to make peaceable overtures, of course. William of Germany is not going to have all the peace in the world in his own hands for his loneliness.

AN HISTORIC SPOT.

A very interesting historical event is about to be celebrated. This is the settlement of the first English colony in this country, at Jamestown Island, Va., on May 13, 1607. This is a long look backward. Verily we are growing very ancient. There is a movement on foot to secure the purchase of Jamestown Island by the United States government, for the purpose of making a park of it. The site of this first settlement where heroic Pocahontas was born to fame, and where the autoerotic Captain John Smith lived and labored, might well be preserved. The growing interest in historical events and places should be sufficient to secure the setting aside of this island as a reservation, by public enterprise, if it cannot be done by public appropriation. The spirit which shows due reverence for these old land marks of history is worth cultivating.

WALL STREET REPORT.

The Weekly Financial Review issued by the Banking house of Henry Clews & Co., 35 Wall street New York City, says that Wall street deeply regretted the senate's rejection of the Anglo-American arbitration treaty, as the loss of an opportunity for cementing friendly relations between the two countries, and for encouraging a more unreserved confidence in American enterprises among the investing community of Great Britain. "The Greco-Turkish war" continues the Review, "has scarcely been an appreciable element in the market for securities. There is still a general feeling of assurance that the powers retain control of the situation and are only awaiting a favorable opportunity for exercising it. The export movement in gold has reacted to more moderate dimensions. The shipments for the week have amounted to only \$2,600,000. Rates for foreign exchange are easier. For last week the total arrivals of goods were valued at \$14,700,000, against \$8,200,000 for the corresponding period last year."

MINERALS ON LAND GRANTS.

The land grant court was organized for the purpose of determining the validity of Mexican and Spanish land grants in the territory acquired from Mexico, says the Denver Republican. It has done well in reserving to the government all minerals contained within the limits of such a grant, although title to the surface may be confirmed in the grantee or persons holding under him.

When these grants were made the mineral was reserved to the government or the crown. It did not pass to the grantee. The United States recognizes all grants that were valid at the time the country was acquired from Mexico. Persons holding under a valid grant are entitled to everything to which the original grantee was entitled. But they have no right to anything more. They have no right to claim minerals if he had no right to claim them.

There is no kind of process by which such a grantee has become entitled under the United States to the mineral found within the limits of a grant if he could have claimed no such title under the Mexican or Spanish governments. No injustice is done by prohibiting him from extracting the mineral, for the simple reason that it does not belong to him. Grantees may make a complaint at a ruling which prohibits their taking away gold and silver found beneath the surface of their grants, but when they do so they assert a baseless claim.

It is true that if the grantee cannot extract the mineral found on his grant, neither can any one else. In the present state of the law the effect of this is to prohibit mining within the limits of a grant—except in two or three cases like the Maxwell grant, where title to the mineral was confirmed in the owners of the grant by congress. Mining is prohibited for the reason that the law pertaining to mining locations applies only to public land. A mining claim cannot be located on private land. It must be located on the public domain. Before mining within the limits of a grant can be permitted, a law must be enacted applying the mining laws to such grants.

There has been talk about enacting such a law, but nothing has thus far come of it. It should authorize anyone to enter upon a grant for the purpose of prospecting. If it be said that this would be an invasion of private right, the answer is that the owner of the surface would be compensated by the fact that the law which permitted people in general to prospect within the limits of the grant would permit him to acquire by the same means title to mineral which he might find. In the event of the location of a mining claim, the locator should have a right to institute condemnation proceedings to acquire title to so much of the surface as he might need for mining purposes, if the holder of the grant refused to dispose of that much of the surface at a reasonable price.

An ample solution of the existing complications would be provided in this way: Congress should enact some such law so as to facilitate mining within the limits of land grants, especially in territories like New Mexico and Arizona, where they conflict to some extent with the mineral development of the country.

In addition to procuring funds for the building and extension of necessary public institutions, the recent sale of bonds is also getting the territory some good advertising. For the past three or four years the advertising the territory has received from the press of the country has been of

the wrong and detrimental kind. Things in that direction are changing for the better. Concerning the recent sale of territorial bonds, the Pueblo Chieftain remarks:

New Mexico has just made a good sale of bonds in Chicago at par, and to bear 5 per cent. The proceeds are to be used for the benefit of the public institutions of the territory. Instead of putting two and a half million dollars into a granite capital the territory limits the capital money to \$5,000, and devotes \$80,000 to the insane asylum and \$100,000 to the normal school. But the \$10,000 for a military school at Roswell is a little ahead of us. Is New Mexico going to ruin a competition against West Point?

A NEST OF CORRUPTION.

The civil service investigation opened some days since under the auspices of the senate committee, is likely to be the product of sensational developments, and the country, it is hoped will be given an opportunity to see how this important department of the public service has been mismanaged and abused. At a recent meeting of the committee above referred to it was shown that there had been for some time a collusion between the post-office department and the civil service commission to violate the law during 1894 and 1895 by the employment of some 60 spies. These men were assigned to duty that has never been authorized by law, and their services were illegally contracted for. These men were termed inspectors, and the evidence showed that two of them were brothers of a Mr. McEachen, superintendent of the free delivery mail service. One of them had been under charges of embezzlement at Toledo, O., when appointed, and the other had been dismissed from the Washington postoffice for embezzling funds of the Letter Carriers' association.

The inspectors held a meeting in Chicago upon one occasion to discuss the matter of an assessment for campaign purposes. The meeting was addressed by Superintendent McEachen and he kindly raised the pay of the inspectors from \$4 to \$5 a day, in order that they might be better able to meet the assessment.

This is a sample of the methods in vogue under the cover of civil service. It has turned out to be a veritable nest of corruption, and a probe that will reach to the bottom of the thing will no doubt reveal complicity on the part of several high officials. There should be a general overhauling of this service, let the results be what they may.

FOR THE LADIES.

A CHARMING COSTUME.

A deep blue cashmere of a sapphire tint is simply made in exquisite taste with a rather scant skirt which was finished at

the foot with three two-inch tucks set close together. At the top seven tiny tucks which have the effect of cording are placed over each hip.

The waist of this extremely stylish blouse shape is seamless in the back and bulges over the deep belt. At the top it is cut out like the front to show a yoke of black flannel over sage green silk. The top of the front is laid in five tucks on either shoulder. At the fastening on the left side are two designs in black braid simulating frogs. The belt is of the flannel over green silk.

Note the sleeves especially. They are of the bishop shape rather short, the fullness at the wrist being laid in tucks, the depth of a cuff.

This shape is a boon for summer dresses and will be seen in cotton, thin silk and soft, easily draped fabrics of all kinds. The hat is of green straw, black flannel and a bow of green and black striped ribbon.

Santa Fe Route Reduced Rates.

Reduced rates have been authorized for the following national meetings which will take place during the summer:

The National Educational association at Milwaukee, Wis., July 6 to 9.

The Epworth league at Toronto, Ont., July 15 to 18.

The National encampment of the Grand Army of the Republic at Buffalo, N. Y., August 24 to 27.

And the Christian Endeavor convention at San Francisco in July.

The rate for the convention at San Francisco will probably be \$15 from Santa Fe, one way, returning the same, making a round trip rate to San Francisco of \$30.

Torturing Rheumatism.

The busiest and most useful men are not always exempt from sickness. Especially are they liable to be attacked and completely disabled by that most annoying and painful ailment—Rheumatism. Men in all walks of life are subject at any time to be seized with this disease, and besides the great bodily pain, there is almost unbearable mental anguish at the thought of having one's strength and vigor gradually supplanted by a condition of utter helplessness. Under the effects of Rheumatism, the strongest men become the weakest, and the most useful are robbed of their usefulness.

Mr. J. A. LeSeur.

But like many other busy men, Mr. LeSeur was overtaken by Rheumatism, and soon his strength gave way to a condition of helplessness. This dread disease produces more agony, he says, than can well be described. "For years I have suffered with Sciatic Rheumatism and often felt as if a small piece of my spine had been taken out, also as if a fragment of bombshell had passed through my left hip. When I would sit down, I could not straighten up for several minutes, and then only at the expense of great pain. I could get absolutely no relief, though many remedies were tried. Someone recommended S. S. S., and I was almost in despair when I began its use. In three days, however, I was so greatly relieved that I felt very little inconvenience from the rheumatism. The disease grew less painful as I continued the S. S. S., and very soon disappeared entirely. S. S. S. also proved to be a fine tonic, as I now have more appetite, and feel better than ever before, in my life. I cannot say too much in praise of S. S. S."

Rheumatism is a condition of the blood which has always baffled the doctors, and it is a peculiarity that those who once have it are sure to always be subject to its attacks from time to time. The reason of this is that the doctors are only able to give temporary relief, but cannot rid the system of the disease permanently. S. S. S. (guaranteed purely vegetable) is the only real blood remedy for real blood troubles, such as Rheumatism, Scrofula, Cancer, Eczema, Catarrh, Tetters, Contagious Blood Poison, etc. When S. S. S. once forces a disease from the system it never returns. Our valuable books will be mailed free to any address. Swift Specific Co., Atlanta, Georgia.

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign," beginning November 15th, 1896, and closing February 15th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Pecos Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is applied to the crop **WHEN NEEDED**.

THE SUN SHINES more hours in the day and more days in the year in Eddy and Chaves counties, New Mexico, than in any other section of the west.

124 separate analysis, chiefly carload lots, showed **AN AVERAGE** of 17.01 per cent sugar in beet; 84.1 per cent purity.

THIS REMARKABLE RESULT was accomplished by raw farmers, unacquainted with the culture of beet root, on new land and under very trying circumstances, as the factory was not assured until May, and a majority of the acreage was planted between JUNE 1st AND AUGUST 10th.

THE SUGAR BOWL OF THE GREAT Southwest Is the Rich Valley of the Rio Pecos.

IN THE COUNTIES OF EDDY AND CHAVES OF NEW MEXICO.

GOOD SOIL makes the seed germinate.

WATER makes the plant grow

SUNLIGHT puts the sugar in the BEET.

THE ONLY THING left to be desired that the Pecos Valley has not on hand in abundance is **PEOPLE**. We need thrifty farmers; 500 heads of families each on a 40-acre farm.

NO FAIRER terms or conditions of sale of beet and fruit lands were ever made.

To what do you refer?

The Greek Turkish war. It seems to be the same old question of which it is to be, a skirt or a bloomer.

Stimulate the Stagnant Kidneys

In addition to its tonic and cathartic properties, Hostetter's Stomach Bitters exercises a beneficial influence upon the kidneys and bladder, when they are inactive, by stimulating them to renewed exertion, thus reopening, as it were, a sluice for the escape of impurities whose regular channel of exit is the organs of urination. Among these are certain abnormal and inflammatory elements, productive of irreparable injury to the system if not entirely expelled. The kidneys and bladder themselves are also benefited by this stimulus, as their inactivity is usually a preliminary to their disease and disorganization. They also experience, in common with other portions of the system, the potent invigorating effects of the Bitters, which further more corrects disordered conditions of the stomach, bowels and liver.

Its Worst.

What the savage Turk particularly resented was the intrusion into his people's privacy of polygamy in its worst form.

THE OBLONG BOX.

"Thrilling!" said the major. "Well, I should say so. It was the most exciting thing that ever occurred to me. At the time I was a telegraph operator and dispatcher for the Mountain Valley railroad company in a western mining country. It was a wild and lawless country, and I was not much in love with my place."

"Goldenrod, where I was located, was really nothing more than a railroad station. It was not on the line of the Mountain Valley railroad, but on a spur which ran to the Ingot mines. Travel was not very extensive. In fact, but one train a day passed my lonely station."

"On the 15th day of every month I received by express from the superintendent of the Ingot Mining company the money with which the miners were paid off. The amount averaged between \$15,000 and \$18,000. On June 14, that year, the superintendent of the mines came to me and said:

"Perkins, the pay money will be here tomorrow, as usual, but I want you to exercise more than ordinary vigilance in guarding it, as I understand Grizzly Bill is operating in the mountains again."

"Grizzly Bill was a name to inspire terror. The individual who bore that unimpeachable sobriquet was an outlaw of great daring and resolution. He stopped at nothing."

"During the night which followed a violent rainstorm swept through the mountains. Shortly before 10 o'clock the next morning I received word over the wire that the train from Pikeville could not get to Goldenrod owing to a washout below Summit Rock. It was thought that the track could be made passable by afternoon, and that the train would reach my station about 6 o'clock."

"At 5 o'clock that evening I received a message saying that it would be impossible for the train to get through before 9 or 10 o'clock the next morning. I sent word to this effect to the mine superintendent, who in turn communicated it to the men. Feeling rather tired, I turned in early that night. Sleep, however, was out of the question."

"The baggage, freight, express and telegraph offices were all under one roof. One corner of the big warehouse (it was hardly anything else) was partitioned off so as to make a private inclosure. The sender and receiver were affixed to a table conveniently near my bed, and if necessary it was possible to transmit or take a message without ever arising."

"Along toward midnight the telegraph instrument began to click. I heard my call, opened the key and asked what was wanted. The operator at Pikeville wired back that the train, which had been delayed on account of the washout, had started for Goldenrod and would reach there between 3 and 4 o'clock in the morning. At precisely 2:45 o'clock the train steamed into Goldenrod."

"The express messenger alighted and handed me a huge and many sealed package. It contained \$17,000."

"Oh, that," said the messenger, with a laugh. "I have a box in the car that's as heavy as lead. We're been wondering all the way up the mountain what it contained."

"The box was lifted from the car and placed on end in the freight department of the station. It was 1 foot long and 1 foot wide—horribly suggestive of the rough box in which a coffin is inclosed."

"I put the pay money in the safe, turned the combination lock and retired. I fell into a doze, from which I was aroused with a start by what seemed to be the ticking of the sounder. It said as clear as if some one had spoken: 'Beware! Danger threatens.'"

"I sat up in bed. The moon was shining brightly through the window. I gazed intently at the sounder. It made not the slightest motion, yet the message came again, even more startlingly clear than before."

"Upon hearing the third message my mind instantly reverted to the huge box in the freight car. The partitioning of my little apartment did not extend as high as the roof, but merely to a distance of about five feet above the level of my bed, and by standing on the bed I could peer over the top and see all parts of the interior of the station."

"I rose stealthily to an erect position and looked over the edge of the partition. The first thing I saw was the box, standing on end near a window in the extreme end of the station, and as I looked I saw it slowly rise and a man's head protrude itself."

"It was a thick, brutalized face, with grizzled whiskers. Instantly it flashed across my mind that it belonged to Grizzly Bill."

"I got out of bed, picked up the coal shovel and scuttled and made as much noise as possible. As the night had been an unusually cool one a fire was burning, and as I passed the stove I grabbed my revolver and thrust it into my right coat pocket. Into my left pocket I thrust some nails and a hammer."

"Then, whistling as loudly as possible to mislead the desperado in the box, I left the little office and walked across the floor of the freight part of the station. When immediately in front of the box, I sprang at it with the fury of a man fighting for his life and overturned it. It fell to the floor, and with a resounding crash. Instantly I was astride the box driving nails into the lid as hard and fast as a man in terror for his life could do."

"And all that while I was yelling at the imprisoned outlaw at the top of my voice, telling him that if he so much as breathed I would instantly kill him."

"But my throat did not appear to frighten him much. From the interior of the box came a volley of muffled shots that would have astonished a Digger Indian. I fired my pistol twice in the air to let him know that I meant business. After awhile he became quiet. I carefully examined the box and found that there was no danger of suffocation, for at the upper end there were a number of tiny perforations which freely admitted air."

"I sat astride that box until my assistant arrived at 7 o'clock. It was a long and trying vigil, but the magnitude of my victory buoyed me up. My assistant quickly went to the mines and told the superintendent to hasten at once with a sufficient guard of men to the station and take Grizzly Bill into custody."

"It didn't take long to do this, and when Bill was hauled by no gentle hands round the corner he was the angriest outlaw ever captured. He fought like a tiger, but it was of no use. He was securely bound, and later in the day taken to Pikeville, where he was subsequently sentenced to a long term of imprisonment."—Exchange.

THE ARIZONA KICKER.

SLINGING METAPHOR NEARLY COSTS THE EDITOR HIS NECK.

Blue Hillers on the Warpath With a Rope—Saved by a Good Mule—A Cheerful Correction That Proves Advertising—Trouble at the Postoffice.

In a late number of The Kicker we referred to the inhabitants of Blue Hill City as a "congregation of lopsided, slab-sided, cross-eyed absconders from the laws of other states," and to the town itself as a "sinkhole of iniquity founded by robbers."

We didn't mean anything serious by this. We were just slinging metaphor that day on our editorial page, and it struck us that a little metaphor wouldn't be a bad thing for Blue Hill. We had no idea that any one was displeased until we rode over to that town the other day to make up a list of subscribers. We felt that our welcome was rather chilly, but instructed nothing until we saw a man with a rope. Then we climbed back to the saddle, and just as we got there a crowd of about 400 people made a rush for us. Our mule put his ears back and lay down to it, and, though a portion of the mob was for five miles, we got safely away. There is no question in our mind that we just missed being strung up, and we can't exactly make out why the Blue Hillers wanted to do it. Ever since the days of Adam one has had a right to use metaphor, and even in this country the man whom you call a liar always gets a chance to explain in plain sense you use the term. When Mayor Harding has a day to spare, we hope he'll come over and explain.

A Cheerful Correction.

Mr. Thomas Dorland, proprietor of the Big Elk saloon and poker parlors, called at The Kicker office the other day and convinced us that we were in error in publishing the statement that he had murdered three men in Wyoming and had the heart of a butcher. He killed a Chinaman in California for attempting robbery and a half breed in Utah for calling him a liar. In neither of these cases was he actuated by malice or did he exceed his rights. As to his having the heart of a butcher, he soon satisfied us that he was naturally tender hearted and full of sympathy and pity, and we cheerfully make this correction in justice to a good man and an enterprising citizen. Up to the present time Mr. Dorland has strongly objected to advertising in The Kicker, having no faith in it as a medium, but he has changed his mind and will run a quarter of a column with us during the next year.

He Got Something.

Wednesday afternoon last, while the mayor of this town (who is myself) was in his office in the city hall, word was brought to him that there was trouble at the postoffice. The postmaster (who is also myself) at once left his desk and went for the scene. On arriving there he found a stranger standing at the general delivery window with a gun in either hand. He had come in an hour before and asked for mail for Joe Barnes. There was none, but he had declared his intention to wait until some arrived. While he waited he shot away two lamp chimneys and sent half a dozen bullets into as many mail boxes. At every shot he would utter a warwhoop, and at every whoop more of a crowd gathered. The stranger was having lots of fun when Mr. Jim Hells (who is myself) arrived on the scene. Although we have a postal guard at the postoffice for the reception of just such critters and have already planted two in it, our instructions from Washington are not to shoot until pacific measures have been exhausted. We therefore went to Mr. Barnes in a pacific way. He got one shot at us, but it went wild. Then we had him by the neck, and when we got through mopping him around he had two broken ribs and his kneecaps were a long way out of plumb. When he came to and had time to think the matter over, he said he didn't blame us a bit. The game he played used to be a favorite one among the players, and he always had lots of fun. But things have changed. There are certain rules governing this postoffice, and the critter who attempts to walk on them is certain to feel something drop.

His Choice.

The cannibal chief regarded the fairest of the concertos which he had upon his shelves. "And so your name is Olive?" he inquired.

"Yes sir," she replied timidly.

"And you can entertain me with the popular operatic roles?"

"Yes, indeed," she exclaimed eagerly.

"What would you play for me to-night?"

The savage chieftain smiled suavely. "I think," he observed, "that I will wait till dinner time, and then we will see Olive."

GEMS IN VERSE.

Our Flag.

"Give us a bugle call," the trooper said,
"Or else unfurl Old Glory in my sight."
They laid the flag upon his dying bed,
And then he smiled and bade them all good night.

I saw it flutter up the rugged steep
When Sinai came again on Lookout's crest.
I saw the clouds of blue right upward sweep
As if the sun would seek the eagle's nest.
It was not life or death or wrath or scorn,
Or thirst for blood that took these men abroad.

To brave the tempest and to surmount the blast,
The flag inspired them like a tempest's blast.
It made them heroes first and shrouded them at last.

If men shall keep the faith and God shall will,
Baptized in blood and Declaration born,
This flag shall fly till resurrection morn,
An inspiration and a glory still.
Unroll as now its grand commission then,
And ages read in every fold unfurled.

Write out in lightning, uttered in the thunder
(Behold the new commandment unto men!)
"What God has joined let no man put asunder!"
—Benjamin F. Taylor

Awheeling.

Have you never felt the fever of the twirling,
Whirling wheel,
Of the guiding and resisting of the shining
Cranks of steel?
Never felt your senses reel
In the glamour and the gladness of the misty
Morning sky
As the white road rushes toward you, as the
dew bathed banks slip by
And the larks are soaring high?

Never known the boundless buoyance of the
billyow, breezy hills,
Of the pine scents all around you and the
running, rippling rills,
Changeful of the sun's smile,
Dashing, flashing through the sunshine, by
the windy wood and plain,
The distant blue heights lurking onward, up
with the sun's main.

Of the whirling wheels' refrain?
Fled from prison, like a prisoner, sped the
turning, spinning wheel,
Changed the city's stir and struggling, jar
and vexing noise for peace,
For the peace the fields reveal.
And, with spirit separate, straining above the
town's low reach,
Found a tender satisfaction, which the steadfast
summits teach.

In their silence, sweetest speech?
Never known the wishful wand'ring back in
the moon's gleam,
Met the knee, from milking, sauntering to pastures
sweet again,
Straggling up the wide margined lane?
You have never felt the gladness or the glory
of the dream
That exalts as tired eyes linger still on sunset,
mead and stream?

Haste, then! Taste that bliss supreme.
—Skotch.

The Birth of Song.

"Give me a theme," the youthful poet cried,
"And I will make the mighty universe
Tremble at the power of my rose-crowned verse!
Give me a theme as heroic that has died
His nation's flag to save; gods, dim deserted,
Through the long aisles of time; a witch's
Upon a maid betrothed! In numbers terse
I then will sing my country's hope and pride!"

And splendid forms marched past his mental
eye.
Women and men renowned in deathless story,
Dumb as the sphinx he stood among this
thrang.
But on the sufferings of humanity
Clear on his vision flashed, in princely glory
His voiceless soul burst in immortal song.
—Isador H. Coriat.

Always Some One Below.

On the lowest round of the ladder
I firmly planted my foot,
And looked up at the dim, vast distance
That made my future so sweet.

I climbed till my vision grew weary,
I climbed till my brain was on fire.
I planted each footstep with wisdom,
Yet I never seemed to get higher.

For this round was glazed with indifference
And I was contented with what I saw.
And when I grasped firmly another
I found under velvet a thorn.

Till my brain grew weary of planning,
And my heart strength began to fail,
And the flush of the morning's excitement
Ere evening commenced to pale.

But just as my hands were unclasping
Their hold on the last gabled ground,
When my hopes, coming back from the future,
Were sinking again to the ground.

One who had climbed near the summit
Reached backward a helping hand,
And, refreshed, encouraged and strengthened,
I took once again my stand.

And I wish—oh, I wish—that the climbers
Would never forget as they go
That, though weary of their own climbing,
There is always some one below.

When death's hand is on your shoulder,
don't stop!—don't hesitate! Shake it off!
When you begin to lose flesh and vitality—
when you feel the ghastly fingers dragging
away your health and vigor, do not waste
time. Take prompt measures to regain your
life. Take Dr. Pierce's Golden Medical
Discovery—this most marvelously efficient
tonic and blood builder ever discovered.
It's effect is almost immediate. Renewed
strength follows it just as surely as sunrise
follows night. It makes sound, healthy,
solid flesh, and not flabby fat like cod liver
oil. It goes right to the root of the trouble
and cures the cause. It makes the digestive
organs do their proper work. Helps to digest
stale food, and adds to it the purifying,
strengthening, vitalizing properties needed
by the impoverished blood and the over-
worked nerves. Do not let an unscrupulous
druggist impose on you with "something
just as good." It's a matter of life and
death with you. Get what you ask for.

"I have been afflicted with rheumatism and
kidney trouble which bothered me so that I
suffered untold pain," writes Mr. C. B. White,
of Grove, Georgia, Ohio. "I was afraid I would
lose my mind. At times was almost entirely help-
less. There had not been a night for three years
that I could rest in any position. Had tried al-
most everything but obtained no relief until I
tried the 'Golden Medical Discovery.' I have
used three bottles of it and think I am well of
both diseases. I feel today as well as I ever did
in all my life. I cannot say too much for Dr.
Pierce's Golden Medical Discovery."

Neglected constipation means headache, heart-
burn, sour stomach, foul taste in the mouth, bil-
iousness, pimples, and palpitation of the heart.
All or any of these are good things and bad.
Constipation is promptly cured by Dr. Pierce's
Pleasant Pellets. One for mild cases, otherwise
two. Druggists sell them.

A Gloomy Climax.

Did you finish the story you were at
work on?

Yes, replied the litterateur.

You were in doubt as to its conclusion.
Did it have a happy or unhappy ending?
Unhappy. The editor refused to print
it.

**Two Cases Argued Before Judge
Laughlin Yesterday—One Involves
the Ownership of a Tract of Land
and the Other Was a Contention
Over the Estate of
Jose L. Perez, Deceased.**

Judge Laughlin heard arguments in two cases yesterday. The first was the case of Thomas B. Catron et al. vs. Saron N. Laughlin, the suit involving the question of title to a portion of the Eaton land grant located in Santa Fe county, New Mexico.

The suit was originally brought some six years ago, and has been hanging ever since, owing to the absence of Mr. Catron in Washington.

The proofs were all taken over a year ago and the case has been set for a hearing several times since then. Mr. W. B. Childers, of Albuquerque, represents Mr. Laughlin, and Mr. Catron represents himself.

Counsel appeared yesterday pursuant to a previous understanding between them, expecting to argue the case in full before Judge Laughlin. When Mr. Catron made an affidavit that Mr. Childers, clerk of the court, was an interested party, accompanied by a motion for a change of venue.

After hearing the arguments of counsel, the court decided to sustain the motion, and therefore ordered a change of venue to Bernalillo county.

The case will probably be argued before Judge Collier at Albuquerque the latter part of the present month.

The other case was that of George W. Harrison vs. Pedro Perez et al. This is a suit to compel an accounting and settlement of the estate of the late Jose L. Perez, who died in 1933, leaving property valued at about \$1,000,000. Dr. Harrison married the widow of Perez, and after her death was appointed executor. The administration of the estate of Perez deceased, was left in the hands of his three sons, against whom this action is brought by Dr. Harrison to obtain an accounting. T. B. Catron represents Pedro Perez et al., while Mr. Harrison's interests in the case have been entrusted to Mr. W. B. Childers.

The argument yesterday was on a demurrer filed by Attorney Catron to the complaint of Harrison's attorney. The court took the matter under advisement, and the case will be further argued on briefs to be submitted by the respective attorneys within three or four days.

The Weather.

Cooler, partly cloudy weather prevailed yesterday, the highest temperature being 63 degrees and the lowest 46 degrees. A little dash of rain occurred about 3:30 p. m., amounting to 0.02 of an inch. Distant thunder was heard at intervals from 2 to 4 p. m. The lowest temperature this morning was 43 degrees. Fair weather with stationary temperature is predicted for tomorrow.

A Pardon Denied.

Applications have been made for the pardon of Abram Miller, sentenced November 26, 1894, to ten years imprisonment in the penitentiary on the ground that he was induced by another person to commit larceny of a cow, from Chavez county. The application for the pardon of said Miller is endorsed and recommended by the judge who presided at the trial and Prosecuting Attorney Geo. Barber, and therefore comes under the rule of the executive office, saying that applications for pardon shall be granted by the governor when recommended by the judge and district attorney, but in examining the records of the penitentiary, Acting Governor Miller found that Miller served a term in that institution in 1890 and 1891 for larceny of a mule in Lincoln county. This being the second offense, hence the pardon has been denied by Acting Governor Lorion Miller.

Perez-Otero.

At 7 o'clock this evening at the Cathedral will be celebrated the marriage of Miss Carlotta Perez to Mr. Page B. Otero. The ceremony will be private, none but members of the immediate families will be present, and immediately thereafter the happy couple will start for Los Angeles on a short wedding tour, thereafter taking up their residence in this city. The bride is a very pretty and accomplished young lady, and a daughter of the late Julian Perez, a well known and highly respected citizen of Bernalillo county in his lifetime, and the groom, the son of the late M. A. Otero, who was during his lifetime one of New Mexico's leading citizens and who represented the territory twice as a delegate to congress. Mrs. M. A. Otero, the mother of the groom, is in the city from Denver to attend the wedding.

The bride and groom are well known and greatly liked in Santa Fe and the New Mexican adds its congratulations and best wishes for their future to the many of their friends and acquaintances in Santa Fe and throughout the territory.

A meeting of the capital rebuilding board has been called for Thursday morning, May 20, at 10 o'clock, at its office in this city. The bonds having been sold, work on the new structure will begin so soon as arrangements can be fully made. Rafael Apodaca and Jesus Chavez were fined \$5 each this morning in Justice Nolan's court for the offense of being drunk. In default of payment they were sent to the city jail for 30 days. As the streets are dirty these two men should do the city some service by doing work cleaning streets.

By the last legislature in making up appointments for board of dental examiners, a mistake was made in the name of one of the members, the name of Edward S. Olney of Las Vegas, being sent to the council. The name should have been Dr. F. E. Olney, and Acting Governor Miller today corrected the error by appointing Dr. F. E. Olney a member of the board of dental examiners today.

Mr. Francis Downs, department commander of the G. A. R., has just issued special order No. 2, in which he calls attention to the observance of Memorial day. May 30 this year falling upon Sunday, the following Monday will be observed as Memorial day. Comrades are reminded that the proper observance of this day is an imperative and sacred duty. Post chaplains are directed to report to the department chaplain as to the manner in which their respective posts observe Memorial day.

Remember the "Lilac" to be given at the library rooms Saturday afternoon. Now is your opportunity, good ladies and gentlemen, to help the Woman's board of trade in their efforts to beautify the town, to take care of the needy and to enlarge the public library, which latter is a source of great pleasure to citizens and strangers alike.

The regular meeting of the Santa Fe fire department will be held tomorrow evening at 7:30. All tax payers are respectfully invited to attend, as questions of importance will be discussed.

PROBATE COURT MATTERS.

A Busy Session—The Joseph Field Estate.

The probate court met this forenoon at 10 o'clock with Probate Judge Ribera presiding, and Atanasio Romero, clerk. On account of the absence of General Bartlett, the hearing in the protest of the probate of the will of the late V. S. Shelby, was postponed until the 1st day of June, 1897.

The bond for \$100 of John Forsha as administrator of the estate of the late Edward Fenstermacher was approved. H. C. Kinsell made application for letters of administration in the case of James Lemons, deceased, there being a pension of \$36 due the estate from the United States. Application granted and Kinsell granted letters of administration. The first semi-annual report of Mrs. Emma G. Hemingway as administratrix of the estate of the late J. B. H. Hemingway was presented, examined and approved.

Frank S. Davis, administrator of the estate of the late W. E. Coona, presented a final report and asked for his discharge as such administrator. Taken under advisement.

In the matter of the estate of Joseph Field, deceased, T. P. Gable, administrator, the exceptions to the approval of the accounts and reports of T. P. Gable, filed by Francis Downs, as attorney for Eliza J. Pearson, sister of the deceased, then came up, C. A. Spiess appearing for Gable.

After hearing full arguments by counsel and the court being fully advised in the premises, the court made the following order:

In the matter of the estate of James Field, deceased. This matter coming before the court on objections to the approval of the report filed by T. P. Gable, administrator, it is hereby ordered and decreed that said administrator make and submit to this court a full and complete report of all matters connected with said administration and all his doings thereunder, showing all property and funds received, all funds expended with receipted bills attached, properly sworn to as to bills and report and also what property and funds are still in the hands of said administrator, how deposited and where situated, said report to be filed in this court by June 1, 1897.

The court then took a recess until 4 p. m., to act upon the question of admitting the will of the late Robert Harvey to probate.

INSANE AT WASHINGTON.

The Insane Woman Who Gave the Name to the Washington Authorities as Bridget Walsh, Turns Out to Be Mrs. Joseph Elster of This City.

In yesterday's issue of the NEW MEXICAN, there appeared a brief item copied from the Washington Post, stating that a woman giving the name of Bridget Walsh, who asserted that she lived in Santa Fe, New Mexico, had gone insane in that city. Investigation today, in this city, leaves no room for doubt, that the woman referred to in this item, is Mrs. Joseph Elster, who with her husband has resided in Santa Fe for over 20 years. Mrs. Elster's maiden name was Bridget Walsh, and as Mrs. Joseph Elster, she arrived in this city something over 20 years ago in the same stage with Lehman Spiegelberg. Since that time the couple have lived here, Mr. Elster following the occupation of gardening. As far as can be learned, Mrs. Elster has never shown any indications of insanity before. She has always enjoyed the best of health, according to current report, and her domestic life was one of uninterrupted felicity.

A week ago last Sunday evening she left this city, intending to visit her sister in Astoria, N. Y. She was well supplied with money, and had a ticket reading through to Washington, D. C. From that point the fare to Astoria, is only \$6.80. Mr. Elster has been informed of his wife's condition, it is said, but he could not be found today, when sought by a representative of this journal, for the purpose of throwing some further light upon what is, to say the least, a rather peculiar case.
