WASHINGTON NEWS BUDGET

Senator Wellington of Maryland. Rides the Hobby Horse of Personal Privilege to a Standstill. While Shouting Anathemas Against Unauthorized Publications.

WHITE ASKS ALLISON A FEW QUESTIONS

Provision for a Tax on Stock and Bond Transactions Agreed to in a Caucus of Republican Senators Led by Lodge of Massachusetts.

Washington, June 2.—Senator Wellington of Maryland, rose to a question of personal privilege in the senate today, and in a vehement voice referred to a publication concerning a conflict said to have taken place yesterday before the committee on commerce, in relation to the appointment of B. H. Warner, jr., as consul to Leipzig. The senator declared that the publication was unjust, and sought to embroil him in a conflict with the president. Wellington said he understood that the committee meetings relative to such appointments were secret, and sacred, and he could not believe any member of the committee gave out any information. Under the circumstances who, he said, could have inspired this report, but that "creature present in the committee room yesterday." It was alleged that he had attacked President McKinley, but this was denied, and he reserved to himself the privilege to criticize any appointment. "If the price of patronage is to be servile obedience, then I refuse to give it," exclaimed Wellington. "I will remain right here," he exclaimed, striking his desk a resounding blow. "No man ever struck me a blow that I did not return with a better one, and they will find me on deck if the struggle begins." After this incident the tariff bill was taken up. Senator White of California, in behalf of the minority finance committee, asked Senator Allison as to the program for tea and beer, also as to the anti-trust amendment, and other important questions. Senator Allison responded that the amendment relating to an increase of revenue was to be derived from a bill to be brought in later in the day. As to the other questions a little more time was desired.

TAKING STOCKS AND BONDS.

The provision for a tax on stock and bond transactions, in connection with the tariff bill, which was agreed upon in a caucus of Republican senators, was suggested by Senator Lodge of Massachusetts, and grew out of a statement, that with the tea and beer provisions withdrawn, the tariff bill was likely to fall short to the extent of \$15,000,000 in providing sufficient revenue to meet the demands of the government. The suggestion made by Lodge was that a tax of 2 cents a share, should be levied upon every share of stock sold at a stock exchange, or any other place, and that a similar tax of 2 cents should be collected upon all bonds sold on a stock exchange or elsewhere. The caucus accepted the suggestion, but decided to refer the formulation of the amendment, with possibly a change of rate, to the finance committee. The finance committee took the matter up today, but did not reach a definite conclusion. A rough estimate, places the amount of revenue which the provisions will furnish at \$7,000,000.

The caucus met and not only decided not to impose an extra tax on beer, but also at the suggestion of Senator Pritchard, receded from the proposed changes in manufactured tobacco, including smoking tobacco, and leaving the provisions regarding cigars and cigarettes in the internal revenue features of the bill. A decision was reached to make the rate on cigars, double the proposed rate by the finance committee. Senator Elkins seconded Senator Lodge's efforts in behalf of the tax, making a vigorous speech. It is understood that the amendment will also provide for a stamp tax on all leases of stock, when a company is originally formed, or subsequently enlarges its issue. The rate suggested is 50 cents per 100 shares.

WILD GAME SHIPMENTS.

Senator Teller today introduced a bill, prohibiting the shipment of game out of Colorado, Wyoming and Utah, contrary to the laws of those states.

A FINAL VOTE.

The managers of the tariff bill in the senate, now look for a final vote next Tuesday or Wednesday. The senate will be in session on Monday.

RETALIATORY SECTION.

The senate has agreed to the retaliatory section of the tariff bill by a vote of 33 to 19.

OFF FOR CANTON.

President McKinley will leave tonight for a brief visit to Canton, O.

MUST LEAVE CUBA.

U. S. Consul-General Lee reports at the State department from Cuba, that the Spanish authorities have released Augustin O. Betancourt, an American citizen, on condition that he leave Cuba at once.

LATE NOMINATIONS.

The president today sent the following nominations to the senate: State—Wm. Woodville, Rock Hill, District of Columbia, to be envoy extraordinary to minister plenipotentiary; and consul general in Greece, Romania and Serbia; Arthur S. Hardy of New Hampshire, resident minister and consul general of the United States to Persia; Abraham E. Smith of Illinois, consul at Victoria, B. C.

Senators—Asa W. Tanney, U. S. district judge for the eastern district of New York.

The situation serious. Chattanooga, Tenn., July 2.—The situation in the east Tennessee and south Kentucky coal mining country is becoming serious. There are over 300,000 idle men in the Jellico district, and nearly the same number along the line of the Cincinnati Southern railroad. These men struck on May 1, and have done no work since. Only a few men had any money saved up, and the majority are now suffering for the necessities of life.

Shot in California.

Calcutta, July 2.—In a fight yesterday in the suburb of Chilproo, between police and soldiers, many policemen were injured. Twenty-four native police were surrounded by a mob, and so roughly handled that all of them are expected to die of injuries received. The rioters also suffered heavily, but carried off their dead and wounded.

The Pacific Squadron.

New York, July 2.—A dispatch to the Herald from Washington says: Rear Admiral J. N. Miller will be the next commander-in-chief of the Pacific squadron. He will leave London on the Brooklyn at once for New York.

CHASED BY A MOB.

Professors Reitz and House of Montana, Severely Handled by a Mob, for Waging a Campaign Against Variety Theaters.

Missoula, Mont., July 2.—Professor S. C. Reitz, proprietor of the Garden City Commercial college, and Associate Professor House, were severely dealt with by a mob. Reitz and others, have during the past six months, figured conspicuously in a reform movement with a ministerial association, causing the arrest of variety show people, and closing several variety theaters. The night before the state law prohibiting gambling went into effect, Reitz and House were attacked in the Florence hotel by a mob. Being evicted by the proprietor the mob chased them a block or so, throwing eggs at them. They were then protected at the Rankin house until the chief of police came, and the mob was dispersed. The professors were taken home by officers.

Mills Closed.

Birmingham, Ala., July 2.—The rolling mills here and at Gate City have closed, pending the signing of the scale of wages of the Amalgamated Association of Iron and Steel Workers.

ARIZONA GOVERNORSHIP.

Recommendations Made by Arizona Republicans in the Event of McCord's Failure to Get the Office.

Phoenix, A. T., July 2.—At a meeting of the Republican territorial central committee, called by the interests antagonistic to M. H. McCord in his aspirations for the governorship of Arizona, ten of the 12 members were represented. Resolutions were passed requesting that "in the event of the failure of the senate to endorse McCord, the president is recommended to appoint the best equipped and most acceptable candidate for the position, as appears by the endorsements now on file at Washington."

PLANS OF GOLD DEMOCRATS

Chairman Bynum, of the Gold Democratic Committee, Says That the Prospects Are Good in Ohio and Iowa for Heavy Gains in the Sound Money Banks.

New York, July 2.—William D. Bynum, chairman of the gold Democratic committee, hopes to be able to take the field when the campaign opens in the middle western states. Bynum says that a vigorous effort will be made to strengthen the party in all of these states, especially in Kentucky, Iowa and Ohio. "In Kentucky," says Bynum "the sound money Democrats will hold a convention on July 14. Former Secretary of the Treasury, Carlisle will preside, and General Buckner and Mr. Breckenridge will be delegates. The Republicans have already appointed a committee to confer with the national Democratic convention, and that party will endorse our nominee. This will include election in Ohio and Iowa and the prospects are good for large gains in the ranks of sound money Democrats. Boies has practically left the Bryan Democrats, because he does not want free coinage at 16 to 1. It is the desire of the committee of national Democrats that these states shall put behind and elect a president, and that vigorous campaign in behalf of sound money shall be made in each."

GENERAL STRIKE ORDERED.

The National Executive Board of the United Mine Workers of America Orders a General Strike for July 4—The Official Order.

Columbus, O., July 2.—A general strike of the United Mine Workers of America has been ordered for July 4, by the national executive board and the district presidents. The official documents say: "At the last annual convention of the United Mine Workers of America, held at Columbus, O., on January 12, 1897, it was determined that the scale of prices should be advanced to the following rates: Pennsylvania, Pittsburgh district, pick mining, 69 cents a ton; Ohio, 60 cents a ton; Indiana, (bituminous) 60 cents a ton; Illinois (Coke Creek), 55 cents a ton. Machine mining to be paid at three-fifths of the price of pick mining, except in Indiana bituminous, where the price shall be four-fifths of the price of pick mining; for other mining sections a corresponding increase in price, that will place them on a relative basis. It was further agreed that the time for enforcement of this scale should be left with the national executive board and tickets in president, to determine when it would be the most opportune time to put this scale into effect.

"In industrial improvement which is earnestly proclaimed, we ought to share, and if we do not attempt to share it we shall rob ourselves and those dependent upon us. Let the watchword be that the mine workers are entitled to a fair day's pay for a fair day's work. Local committees are directed to be formed, and to see that action is taken at once. To insure success, great care should be exercised by all, that no breach of the peace occurs at any time or place, or under any circumstances."

Association officers here say that 375,000 men are involved in the proposed strike. President Rathford says this is the best time to settle the question of wages, as during the summer the men can make use of their little garden patches to obtain subsistence.

A REDUCTION IN WAGES.

The Goodyear Shoe Company of Brockton, Mass., Orders a Cut in the Wages of Lasters.

Brockton, Mass., July 2.—The initial step toward a general reduction of prices paid for Goodyear lasting throughout the city, was disclosed today, when it became known that on their return to work, after the usual summer suspension, the lasters of the Goodyear Shoe company would be asked to accept a reduction, which means an average loss of 50 cents a day. The new price list will be accepted under protest.

BEAUTIFUL ESPANOLA VALLEY

A Section of New Mexico That is Wonderfully Well Adapted to the Pursuits of Agriculture and Horticulture.

EXCELLENT MARKET ADVANTAGES

Products from Espanola Valley Reach the Market in Much Better Condition Than Those from the Middle Western States and California.

Plaza del Alameda, N. M., June 29.—One of the most interesting rides a traveler will find in New Mexico, is from Santa Fe to Embudo canon, where the Rio Grande river forces its way through the Mesa Negra into the San Juan valley. The distance is not far, a little over 40 miles, but in that short way a wonderful variety of scenery has been stacked up by mother nature. From Santa Fe to the river the Denver & Rio Grande railroad crosses a stretch of country resembling a frog pond in a heavy wind storm, loses itself in the hollows, doubles back to find the trail, dodges mountains, crosses and recrosses canyons, ravines and gulches, and finally in sheer desperation slides down hill to the stream, which can be seen from the car window long before it is reached. There are many places in the territory where the mountains are higher, but none where they assume more fantastic shapes, neither are there another road that takes the sightseer all around a hill before hunting up another.

A BEAUTIFUL VIEW.

From the point where the river is reached north to Embudo canon, the interest never lags, but the one particular spot (and it is large) is an in spot that interests every one who visits this section of New Mexico is the Espanola valley. Much has been written concerning the valley, but it has not all been told yet. Along the western side runs the Rio Grande river, furnishing a never failing supply of water for irrigation; east of the stream are the fields, gardens and orchards, and this season of the year green and inviting. From the mesa on the west may be seen the towns of Santa Cruz, Espanola, Chamita, San Juan, Plaza del Alameda and Velarde, with the church spires pointing the way all good people love to travel. From Santa Cruz to Embudo canon the distance is 17 miles, the average width of the valley being about two miles. But it is not my intention to attempt a description of any one of the many beautiful farms and orchards in the valley in this letter, that is another story, as Kipling says.

A GREAT AGRICULTURAL VALLEY.

The entire valley is devoted to agriculture, and is remarkably adapted to that purpose. The soil is fertile, and with the aid of water from the ditches which radiate from the river, produces bountifully, wheat, oats, corn, alfalfa, apples, peaches—but what is the use of enumerating, anything that will grow, aside from tropical products, will grow in this valley and produce profitably. The first crop of alfalfa has been cut, and the second, which will be followed by a third and fourth, will soon be ready for the mower. The wheat, which will equal that grown in any of the northern states, is fast ripening, and will be ready for harvest next week; the grain promises to be very heavy, the yield enormous. The orchards are not large, but quite numerous, and well cared for. The apple, peach, pear and plum trees are bending to the ground under the weight of the fruit, and much of it will have to be taken off or serious damage will result to the trees.

A FINE FRUIT SECTION.

The altitude of the Espanola or San Juan valley, 5,400 feet, seems to be particularly favorable to the growing of fruits of all kinds, and it seems strange that the advantages of altitude, climate, soil and plenty of water have not been taken into consideration by people looking for fruit lands, and large orchards set out years ago. The markets to the north are easily reached, and the fruit from the valley reaches the market in a much more perfect state than that shipped from the middle western states and California. The territorial bureau of immigration will make no mistake in calling the attention of farmers and fruit raisers to this valley, since it offers many advantages to the intelligent, industrious eastern homeseeker. Let no one imagine that all the tillable land in the valley is under cultivation. It does not require an expert to see the possibilities of the "second bench," which lies above the level of the present system of ditches. On this upper level, from the main reach, eastward, later styles about 25,000 acres of rich soil, which when placed under irrigation will produce sugar beets, fruits or grains equally as well as the lower land, and the water for that purpose is ready to hand. All that is required is a little capital and labor to make a veritable garden of a hot tract of land now lying idle. But I forgot, the people of El Paso declare that the Rio Grande is a navigable stream from the Gulf to Alaska. However, we will suppose that steamboats do not race up and down the river, and carry out the new irrigation scheme for this beautiful valley.

PLENTY OF LAND AND WATER.

At the mouth of Embudo canon a diverting dam could easily be constructed and a canal skirting the base of the foothills would convey the water along the upper side of the 25,000 acres, which slope gently to the west, and water the entire tract. Twenty-five thousand acres of cultivated land added to this already prosperous valley would make of it one of the foremost agricultural districts of the southwest. I may be somewhat visionary in regard to the feasibility of this scheme, but all the same the day of its accomplishment is not far distant.

A FINE HEALTH RESORT.

Plaza del Alameda, under the energetic efforts of Mr. Elias Clark, is beginning to attract considerable attention as a health resort, a number of people having already spent some time here in search of health with beneficial results, and inquiries concerning the altitude and climate are received daily. There is no reason why persons looking for pure, dry air with a medium elevation should not find them here, for nature has laid out a beautiful addition to climate and elevation there is good hunting and fishing, pleasant drives and splendid accommodations, what more could be asked? O. L. R.

ALBUQUERQUE NEWS NOTES

Late Happenings in the Duke City As Gathered by the New Mexican's Correspondent.

Correspondence New Mexican.

Albuquerque, N. M., July 1, 1897.—Morning and afternoon of today was taken up in an effort to reopen the case of the New Mexico board of health vs. Dr. Roe Chong, a civil suit entered to recover \$100 for the infraction of a legislative act making it a penalty in that sum for practicing medicine without a certificate. The effort to secure a jury resulted in considerable sparring between opposing counsels, the judge deciding adversely upon the adoption of a talisman from whom the defense desired to serve upon the jury, led the attorneys of Roe Chong to file an affidavit asking for a change of venue. To this the judge finally acceded, saying that the disposition of the counsel for the defense towards him was mutual or words to that effect. The matter will be taken up on Saturday in Justice Crawford's court. Since the suit was entered Roe Chong's list of patrons has doubled.

The ladies remain steadfast in their support of the good looking Mongolian who seems to have no fears of the outcome. One thing certain, his attorneys have a fat job which promises to be of prolonged duration. It is said that Roe Chong's bank account is fast growing above the \$2,000 mark.

Rev. D. Y. Bagby's book entitled, "Jesus of Nazareth is Certainly the Messiah of Jewish Prophecy," is on the market. Rev. Bagby is in charge of the Baptist church on Broadway, this city.

Floyd Whitson stated today that the production of "Peck's Bad Boys" will be delayed some time, though the east has been made up, which includes Mr. and Mrs. Whitson as "Peck's Bad Boys."

According to Colonel (governor, as Major Meyers is in the habit of calling the ex-publisher) Albright, Miss Claude will arrive here on Sunday morning from Paris. The young lady, who has gained an enviable reputation as a soprano, may be heard in public shortly.

Tomorrow afternoon the council will meet to inquire into a charge made by ex-County Treasurer E. B. Myers, who has complained that one Romero of Valencia county was allowed to depart from the city after it becoming known to Marshal Cobert and Police Magistrate Crawford that Romero carried a gun in his hip pocket while in the city, after he had made a play on city Editor McCreight. MacCreight, who is in charge, though the fact was known to the above officials.

With the change in the ownership of the Atlantic & Pacific comes a cut in the wages of shippers to the extent of 10 per cent. A circular to that effect has been posted at the shops.

The wool market last month, today and for several days to come has shown remarkable activity. Some 60,000 pounds came in from the New Mexican country this week. Local buyers, Gross, Blackwell & Kelly among the number, have stored large quantities for early shipment. Prices paid in June and July range from 11 to 12 cents.

In this connection it may be said that the scouring mill, recently re-established here, does not receive the amount of heavy wools that was promised before the mill was reopened. There are other complaints, it is rumored, that, if not remedied, will injure the prospects of the institution. It is hoped the mill will be run successfully.

A club, wherein an initiation fee of \$10 and \$1 monthly dues will prevail, is talked of. The prospects of such a club appear flattering, judging by what the prospectors say of it.

The sensation promised for publication early this week seems to have "fallen off by the way side." In conversation today with a party, who is in close touch with a matter that will "shake up the entire territory," if it is made public, your correspondent is promised details tomorrow, in which case the New Mexican's readers will be advised through its telegraphic columns.

Times are dull down here in finance and business circles, but the summer element is apt to be kept busy in rolling off some sweet morsel. To use a term of the trade journal "social sensations active recently with a rising market. Prospect of a large crop.

G. W. P.

SELIGMAN BROS.

Crash Suits. Crash Suits. SELIGMAN BROS. desire to inform their patrons that they have secured agents for C. G. Leopold, the fine merchant tailor, of Chicago. A first-class fit guaranteed and goods warranted to be good value. Any and all styles can be had. Inspect this beautiful line of samples. HO, FOR THE SULPHURS!

A good wagon road 44 miles long between Espanola and the famous Sulphurs has just been completed by G. W. BOND & BRO AT ESPANOLA

and teams for passengers, tourists and healthseekers, from Espanola to the Sulphurs can be furnished by the same firm. The road runs through a magnificent country covered with extensive spruce and pine forests. Fishing along the road is excellent.

G. W. BOND & BRO desire to announce that at their establishment at Espanola in Santa Fe county on the Denver & Rio Grande railroad, they carry a full line of staple and fancy groceries and are prepared to outfit camping parties and tourists with all camp supplies with dispatch, satisfaction and cheapness. Correspondence solicited.

G. W. BOND & BRO Dealers in general merchandise, cattle, sheep, wool, hides and pelts. Espanola and Wagon Mound, N. M.

ROYAL BAKING POWDER Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against all forms of adulteration common to cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

STOCK TAX OPPOSED.

The Contemplated Tax on Stock and Bond Transactions Has Created Considerable Excitement in Wall Street.

New York, July 2.—The news from Washington, that a tax on all stock and bond transactions was contemplated by the government, was discussed generally in Wall street today. The more conservative houses, especially those dealing in investment securities, look with disfavor on the scheme. President Eames of the stock exchange, said that the proposition was ill advised. John T. Torrey, director of the Western Union Telegraph and Manhattan Railway companies, who has been a steadfast Republican since the formation of the party, said it seemed to him that the party was rushing headlong to ruin, when it advocated such legislation as this.

Hot in Chicago.

Chicago, July 2.—The government thermometer today at noon registered 89 degrees. Private thermometers were from 2 to 5 degrees higher. James Williams, a sailor, was found dead from the heat, on board the steamer Sioux City. Business on the board of trade and the stock exchange, was almost suspended.

Sudden Death.

Peoria, Ill., July 2.—A. Gerdes, city treasurer, and lately president of the board of commissioners of the Illinois and Michigan canal, died suddenly this morning of heart disease.

MARKET REPORTS.

New York, July 2.—Money on call nominally at 1½ @ 1½ per cent; prime mercantile paper, 3 @ 4 per cent. Silver, 60; lead, \$2.35; copper, 10½.

St. Louis.—Lead strong at \$3.50 bid; spelter, firm, \$4.00 asked.

Chicago.—Wheat, July, 68½; Sept, 64½ @ 64½. Corn, July, 24½; Sept, 23½ @ 26. Oats, July, 17½ @ 17½; Sept, 17½. Chicago.—Cattle, receipts, 3,000; market steady; strong; beefs, \$3.85 @ \$3.15; cows and heifers, \$1.75 @ \$1.35; Texas steers, \$2.80 @ \$1.15; stockers and feeders, \$3.30 @ \$4.30. Sheep receipts, 6,000; market steady to low; native sheep \$2.25 @ \$4.00; westerns, \$3.00 @ \$3.90; lambs, \$3.00 @ \$5.35.

Kansas City.—Cattle, receipts, 5,000; market steady, Texas steers \$3.00 @ \$3.85; Texas cows, \$1.50 @ \$1.30; native steers, \$2.30 @ \$5.00; stockers and feeders, \$1.90 @ \$4.00; stockers and feeders, \$1.00 @ \$4.35; bulls, \$2.65 @ \$3.55. Sheep, receipts, 3,300; market strong. Lambs, \$2.75 @ \$5.00; muttons, \$2.50 @ \$3.75.

BUILDING & LOAN SOCIETIES

It is the Opinion of Financiers That This Kind of Business Has Been Given Its Death Blow in Kentucky.

Louisville, Ky., July 2.—Within 72 hours four building and loan associations whose estimated assets and liabilities foot up over a million and a quarter of dollars, have gone to the wall in this city, finding it impossible to conduct business under the recent decision of the court of appeals, in regard to legal rates of interest. The Kentucky Citizens Building & Loan association went under this morning, with assets and liabilities at \$312,000 from the same cause. It is the general opinion of financiers, that the building and loan business has suffered its death blow in Kentucky.

Bank Wreckers Sentenced.

New Orleans, July 2.—Judge Parlange in the United States circuit court today sentenced ex-President Henry Gardes and ex-Cashier Walter W. Girault each to eight years in the penitentiary. They were recently convicted of wrecking the American National bank.

Notice.

Weekly, per quarter, by mail	7.50
Weekly, per six months, by mail	1.00
Weekly, per year, by mail	2.00

All contracts and bills for advertising payable monthly.

All communications intended for publication must be accompanied by the writer's name and address—not for publication—but as evidence of good faith, and should be addressed to the Editor. Letters pertaining to business should be addressed to the New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

Notices hereby given that orders given by employees upon the New Mexican Printing Co. will not be honored unless previously endorsed by the business manager.

Advertising Rates.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in full. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted. Prices vary according to amount of matter. Length of time to run, position, number of changes, etc. One copy only of each paper in which an advertisement will be sent free. Wood case electrodes not accepted. No display advertisements accepted for less than \$1 net, per month. No reduction in price made for "every other day" advertisements.

FRIDAY, JULY 2.

DEMOCRATIC candidates for governor in Ohio this year were almost as plentiful as blackberries.

The people of northern New Mexico especially should help Santa Fe to make the horticultural fair a success.

Our esteemed contemporary, the Raton Range, has started on a mission to reform New Mexico politics. Success to it.

The Rio Grande may be a navigable stream above El Paso, but no one seems to know it and certainly no one believes it.

The question of statehood for New Mexico must be kept before the people. It is about the most important question of the times.

A GERMAN horse by the name of Flunkornickel won the German derby at Humberg the other day. Handicapped by such a name it was really a great feat.

From every section of New Mexico come cheering reports as to the condition of the mining, the stock and the agricultural interests of the territory. That is right.

SENATORS MORGAN and MARON will experience no difficulty in interpreting the failure of the Harvard University crew as a direct judgment of providence for employing a British coach.

The elk hunters that have been sent from Colorado Springs to the Kaiser are believed to be the largest in the world. It is even doubtful whether they would go inside the emperors hat.

If Spain and Japan should form an alliance to lick the everlasting daylight out of poor Uncle Sam what a time there would be. Of course we shouldn't be doing a thing while the job was going on.

A CINCINNATI paper says that the Ohio Democratic platform adopted at the convention just held, is "short and honest." If that is the case the Ohio Democrats have gone clear back on the unbroken record.

Even if Jerry Simpson should take a hand in that congressional ball game, he snooks so much wind that he would never make a home run, though he should succeed in batting the ball clean over the gas works.

The president has appointed Colonel Henry C. Merriam of the Seventh Infantry, stationed in command of Fort Logan at Denver, to be a brigadier-general in the army. This is a most excellent appointment and one that gives great satisfaction to the people of Colorado and New Mexico. The New Mexican's congratulations to the new brigadier-general.

When United States Minister McDonald interfered in behalf of the Hebrews in Teheran, Persia, who had been attacked and ill-treated by the Mohammedan population, the shah's prime minister promised to protect the Hebrews, but did not do so. The word of any and every Mohammedan potentate on earth, including the sultan of Turkey, is worthless, unless there is force at hand to compel compliance.

The clouds of depression are slowly passing and the light of renewed prosperity is breaking upon a lately disheartened county. You see it everywhere, you feel it in the air, you read it in signs upon the wall. The money kings declare that it is so, that there is a better feeling in the money market. The merchant attests its truthfulness—he says that his trade is picking up. Secretary Gage goes into details and shows why it must be so, and why this improvement must continue with the new tariff in force. It will take time though. Good times will not come again in a few weeks or months. But that there has been a decided change for the better, no one who is at all in touch with the big centers of population—and here is where the changing conditions first manifest themselves—can reasonably doubt.

Important ministerial changes are reported to be impending in Germany accompanied by the announcement that his majesty, the emperor, seems more

and more disposed to take the reins of management into his own hands. This would indicate that the mental malady which has for some time been reported as afflicting his majesty is making progress. No emperor in his sound senses, in such a country as Germany, would now take steps toward absolutism. If Frederick, called the Great, were now emperor of Germany, as he was once king of Prussia, he would know better than to attempt personal and despotic rule, and it is sheer madness on the part of this little William.

Keep up the agitation for statehood and success will surely crown the well directed efforts of the citizens of this territory. There is no question about it, statehood for New Mexico must be accomplished during the present administration. Conditions will never be more favorable for its admission than at present. The proposition has an ardent supporter in both President McKinley and Governor Otero. Of course Delegate Ferguson will work to this end, and he can do a great deal. He should be impressed by citizens from all parts of the territory with the necessity of strong action by frequent correspondence on this subject. It all helps. Let our delegate in congress understand by frequent letters that there is a strong and growing sentiment in favor of statehood which must be heeded.

HER LAST APPEARANCE.

While Queen Victoria will, if she has her way, die a queen, she has decided to retire from the exercises of all public functions. Queen Victoria has never been much of a believer in that "divinity which doth hedge about a king"—or a queen—and has freely moved about among all classes and conditions. The queen's "positively last appearance" was a great success. At the close of it she rode around through Kensington—where she was born—and then journeyed back to Windsor, where it is announced that she will hereafter remain, with occasional sojourns at Balmoral, in Scotland, and Osborne, in the Isle of Wight. This is the queen's own program for her remaining years, but it does not imply a sad retirement or gloomy seclusion. The Prince and Princess of Wales, who have, indeed, performed much of this work in the past, will appear for the queen on public and ceremonial occasions, and the old Queen of England, with her three residences in the extremities and the center of the British kingdom, will continue to sign her name Victoria, Queen and Empress, up to the "inevitable hour."

THE WORD "ONLY."

Referring to the word "only" as used by the Democracy in its quibbling with the tariff, we are reminded of an incident which took place in Illinois some years ago. Some difficulty was felt in procuring anyone who was willing to sacrifice himself by accepting a nomination as candidate for governor on the Democratic ticket. At length, however, the late Carter Harrison "brought his courage to the sticking place" and resolved to make the run, with this condition, however, that the words "a tariff for revenue only" should not be used in the platform. Here was a snag. The Democracy had juggled with the language in every possible way to conceal its real ideas and the above sentence said as little and as much as could be expressed in one phrase. Carter was resolute in his demand and would not yield, so after a long session of careful and prayerful effort a brilliant idea struck the committee on platform and it gravely reported that "we, the Democracy of Illinois, declare that we favor 'a tariff only for revenue.'" Carter expressed himself as perfectly satisfied and stripped for the race. The able Democratic organs spent the entire campaign in explaining the difference between "a tariff for revenue only" and "a tariff only for revenue," then the people took a hand in it and buried Carter and his platform under an avalanche of votes.

A TIMELY RECOMMENDATION.

The prompt reply of Delegate Ferguson to the New Mexican regarding the National cemetery, and the tone of this reply, would indicate that the desired end may be accomplished at no distant day. The appropriation desired for the work as outlined in the article which appeared in the New Mexican some days since is really a very small affair and the government ought not to refuse. There is some grass seed to purchase and the present allowance to the water company would have to be doubled. This is all, and the results which would speedily follow this small outlay on the part of the government would more than justify the expenditure. Then there is another point which has not been mentioned that would undoubtedly induce the officials at Washington to act at once, could it be put before them in a favorable manner. At the present time the government is paying two or three men to take care of the ground. The labor is great because not a weed or blade of grass is allowed to appear above the surface. Could this broad expanse, which looks like a big garden bed just raked over and put to seed, be covered with a fine lawn, the expense of caring for it would be reduced about two-thirds. One man with a lawn mower could easily keep the place in fine condition, whereas three are now employed in keeping down weeds and grass. So as a matter of economy it behooves the government to take immediate cognizance of the New Mexican's recommendation.

FOR THE LADIES.

A NOVEL WAIST. Fabrics of subdued tone are preferred to the rainbow tints for city wear by women of quiet tastes. They are enlivened by a touch of gay color which may appear in the belt, stock collar or vest. The stylish waist depicted has an original trimming which is a combination of revers and shawl. These are of grey pique de sole embroidered and cut to show a lining of white tulle. These revers begin at the shoulder seam, and overlap at the bust and end at the center

of the back where they are joined by a buckle. The body of the waist is of grey crepe de chine over a fitted lining. Mousetraps sleeves have a frill on the outside of the arm. The skirts of the pique de sole embroidered at the foot of the

front gore and cut out like the revers to show the white. The one note of bright color appears in a belt at the front, which is run through a steel buckle. A short bon of grey ostrich feathers which is the novelty of the moment, is worn. The hat is of grey straw with grey plumes.

NEWS FROM HOPEWELL.

The Latest Improved Platan-Clerici Electro-cyanide Plant Pleases the Hopewell Miners.

Hopewell, New Mexico, June 29.—Harold Martin, an expert from Denver, came in today to take charge of the electro-cyanide plant.

Mrs. J. J. Davis of Santa Fe, is here visiting her daughter, Mrs. E. B. Seward.

Edward Henry of Las Vegas, spent several days here last week, visiting with George H. Hutchinson, and looking after his property interests. He was very much pleased with the camp and predicts a bright future for it. Messrs. Henry and Hutchinson have some very promising claims here and are developing them in a systematic manner.

E. C. Sterling of Cleveland, O., is here visiting his brother, Edward C., the assayer.

D. M. Basham killed a large Cinnamon bear the other day. He caught it in a trap and despatched it with a Winchester. The Iron Mountain tunnel is now 290 in the hill and two shifts are driving away to cut the main vein. A fragment of rock blew out of the tunnel yesterday, striking J. T. McKinley on the head and incapacitating him from labor. This shows that Manager Pace ran a straight tunnel and is onto his job.

William Peet of Tres Piedras, was here yesterday looking after the prospects in the Buckhorn mine. Messrs. Sterling, Hutchinson and Roy, lessees, have struck some very rich ore and that property is now away up.

Reasoner Smith's new restaurant building is nearly completed—J. F. Brinker's residence is nearly completed—J. J. Pace and family have moved to town and Hopewell is blessed with a first-class hotel as far as table service is concerned. Prospects are coming in every day and the camp is on the eve of a genuine boom.

The Platan-Clerici electro-cyanide plant came in Saturday evening. The miners burned much powder and rejoiced otherwise at its arrival. Men are busy putting it in place, and both the stamp mill and cyanide plant will be grinding away next week.

The Platan-Clerici process precipitates the gold on copper plates within nine hours after pulp is placed in the vats. Other cyanide processes require eight or nine days to bring about the same result. Several miners will furnish ore for treatment and the new mill will give employment to 40 or 50 mill hands, teamsters and miners. It is a very valuable acquisition to the camp.

The Cinnabar shaft is down 150 feet. In cross-cutting at 23 feet they cut through a rich, free gold vein of 26 inches. The owners, who live at La Jara, Colo., are now considering whether it is best to drift with this vein or sink another 50 feet and then drift. They were to hold a meeting of stockholders last Saturday, but it is not yet learned what they concluded to do.

There are other properties which have shown up well the last week or two and they will be noticed in another letter. "HOPWELL."

It seems to you that that tickling, hacking cough is all in the throat. But your doctor will tell you that this sensation is often deceiving. The cough is often the signal of deeper trouble in the bronchial tubes or in the lung tissue itself. These inflamed membranes can only be healed by treating the system. For all lung troubles, especially in the earlier stages, no remedy equals Scott's Emulsion of Cod-liver Oil. Its special power is in healing the inflamed tissues of the lungs.

Geo. W. VALLERY, General Agent, 1039 Seventeenth St., Denver, Colo.

Talks With Travelers.

Yes sir! The most enjoyable trip I ever took to New York was over the Wabash. Only one change of cars in St. Louis; the finest passenger station in the world. Fine restaurant and cafe. Got an elegant supper for 50 cents.

We arrived in St. Louis at 6:00 p. m., and left on the Wabash New York Limited at 7:00 p. m., in the elegant through sleeper, reaching Detroit at 9:15 the following morning. Niagara Falls at 4:37 that afternoon, and arrived at New York, Grand Central Depot at 7:30 a. m., just the right time to get breakfast and attend to business.

Oh! the Wabash is the route for New York.

By the way just write C. C. M. Hampton, Commercial Agent, Denver, for particulars. I may have forgotten something.

Are You Going East?

If so, have a talk with the ticket agent at your station, who is the one most interested in seeing that you get a first-class route.

Ask him about the Wabash. Ask him to tell about the new line from Kansas City, St. Louis and Chicago to Buffalo, and our through car service to New York and Boston.

Ask him to figure the distance and he will tell you that it is the shortest line—just 1,000 miles from Kansas City to Buffalo.

Ask him about the round trip rates to all eastern points.

All meals served in dining cars; you pay only for what you get.

Write to me for beautiful descriptive books, fully illustrated.

C. H. HAMPTON, Commercial agent, 1035 17th Street, Denver, Colo.

Annual Stockholders Meeting. The annual meeting of the stockholders of the New Mexican Printing Company will be held in the city of Santa Fe at the office of the Company, July 12, 1897, for the election of directors and such other business as may come before the meeting. Stockholders will please take due notice.

J. D. HUGHES, Secretary. Santa Fe, N. M. June 22, 1897.

EVERY LAWYER NEEDS THE

The New Mexican Printing Company has it for sale. Bound in pamphlet form, in tough leatherette paper, so as to be carried in the pocket. Bound in law sheep for the office desk or library shelf. Bound in flexible morocco leather covers, with name on cover in gilt—a handsome volume—that can be carried in the pocket or valise and not injured. The pamphlet is thoroughly and comprehensively indexed, has ruled sheets of linen paper placed between each of the pages for reference notes, corrections or additions. It is just in proper shape for lawyers to use as a ready reference book. Place your orders at once, as a limited supply only has been printed.

CODE

THE SEVENTH Beet Sugar factory in the United States was erected at Eddy, New Mexico, in 1896, and made its first "campaign," beginning November 15th, 1896, and closing February 15th, 1897.

THE CONTENT OF "SUGAR in the beet" of the crop grown in the Eddy and Roswell sections of the valley has proven to be more uniformly high than any other part of the United States.

FORTUNATELY the land is blessed with just the fertility to produce high grade beets, and

MORE FORTUNATELY the Pecos

Irrigation and Improvement Co. and the Roswell Land and Water Co. have an irrigation system of great magnitude, covering a vast body of the BEST SUGAR BEET lands on earth. The water is applied to the crop WHEN NEEDED.

THE SUN SHINES more hours in

the day and more days in the year in Eddy and Chaves counties, New Mexico, than in any other section of the west.

Illustrated

Special Edition

New Mexican.

Can be had by applying at this office. It is full of matter describing the mineral, agricultural, horticultural and all the varied resources of New Mexico. Just the thing to send to any one intending to visit or invest in the territory. Price 10 cents, wrapped and mailed for 11 cents.

124 separate analysis, chiefly carload lots, showed AN AVERAGE of 17.01 per cent sugar in beet; 84.1 per cent purity.

THIS REMARKABLE RESULT was accomplished by raw farmers, unacquainted with the culture of beet root, on new land and under very trying circumstances, as the factory was not assured until JUNE a majority of the acreage was planted between MAY 1st AND AUGUST 10th.

GOOD SOIL makes the seed germinate.

WATER makes the plant grow

SUNLIGHT puts the sugar in the BEET.

THE ONLY THING left to be desired that the Pecos Valley has not on hand in abundance is PEOPLE. We need thrifty farmers; 500 heads of families each on a 40-acre farm.

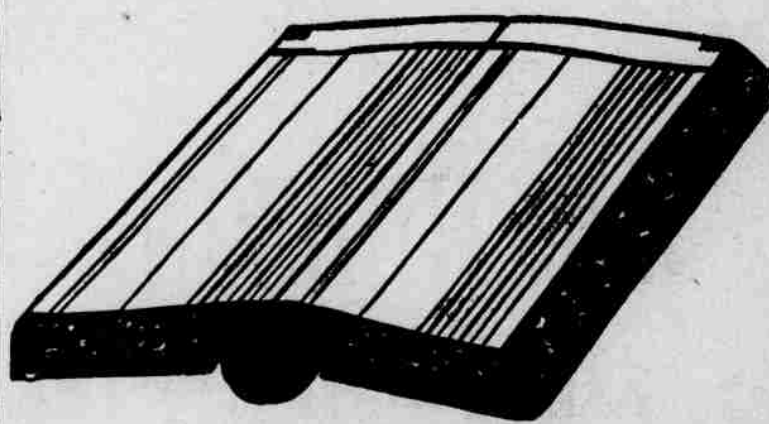

NO FAIRER terms or conditions of sale of beet and fruit lands were ever made.

WRITE for particulars.

THE SUGAR BOWL OF THE GREAT Southwest Is the Rich Valley of the Rio Pecos. IN THE COUNTIES OF EDDY AND CHAVES OF NEW MEXICO.

Announcement!

The New Mexican Printing Company desire to state that it is now making a specialty of our celebrated FREY'S PATENT FLAT OPENING BLANK BOOK. Ruled them to order. Can give you the finest kind of binding, both for durability and finish, and they are the sole makers.

JOB WORK

Of all kinds done with neatness and despatch. Carry a large and complete line of commercial stationery consisting of wedding cards, business cards, programs, etc.

BOOK WORK

This is the best equipped establishment in the whole southwest for this line of work, and our unequalled facilities enable us to turn out work at the lowest possible figures.
