NATIONAL CAPITAL BUDGET

Government Officials Surprised at Ex-
hibition of Feeling Over Last Di-
plomatic Note to Spain.

FORMATION OF NEW CUBAN CABINET

Claims for Increase of Pensions Will
Not Be Considered Within Twelve
Months After Last Action—
Items from Departments.

Washington, Dec. 27.—Officials are sur-
prised at the exhibition of feeling at
Madrid over the latest note Minister
Woodford delivered at the Spanish
foreign office the day before Christmas.
While the note itself will not be made pub-
lic at present, it is said there is no reason
whatever why it should be withheld save
the fact that preceding steps in the ne-
gotiations have not yet seen the light in
the newspapers, and it is desirable, when
publication is made, to preserve a com-
plete chain of events in their natural
order. Possibly the correspondence will
be shortly called for by congress, in
which case it is not likely to be withheld
on the ground of public policy.

The last note presented by Mr. Wood-
ford was in answer to the Spanish note
called for by Mr. Woodford's first note,
after his arrival at Madrid. It is said to
be a purely argumentative statement of
the position held by the United States,
and the facts set out are substantially
those so strongly drawn in the president's
message to congress, of which it was as-
sumed the Spanish public had been fully
advised through the newspapers. The
most forcible statement in the note is
based upon facts collected and published
recently by the United States treasury
department exhibiting the great expense
to which the United States has been put
by reason of the efforts to patrol the
enormous coast line in the pursuit of a
few filibusters, and the remarkable
success of the government officials in
stopping these expeditions, as compared
with the feeble efforts of the Spanish au-
thorities to maintain a patrol around
Cuba.

NEW CUBAN CABINET.

Washington, Dec. 27.—The new Cuban
cabinet, which, with the captain gen-
eral of Cuba, will form the executive or-
ganization under the new autonomous
regime, will be announced during the
week, according to the expectations of
Spanish officials here. There is no doubt
that Senor Galvez will be the Cuban
premier. He has been prominent as a
leader of autonomy and is described as a
man of great influence among the sub-
stantial Cuban elements, and popular
with the people at large. Senor Amador
will be a member of the cabinet if he will
consent to take a place.

RECENT PENSION ORDER.

Washington, Dec. 27.—A new order, the
enforcement of which, it is believed, will
expedite the disposition of all pension
claims now pending, has been issued by
Commissioner Evans. It is as follows:
"Hereafter all claims for the increase of
pensions will not be considered within 12
months from the last action—allowance
or rejection."

"The necessity for the order," said an
official of the pension bureau today,
"grows largely out of calls made on the
office for a statement of the status of
pending cases by member of congress."

MEMBER OF INTERSTATE COMMERCE COM-
MISSION.

Washington, Dec. 27.—Senators Cullom
and Mason, of Illinois, called upon the
president this morning to urge the ap-
pointment of State Senator David T.
Littler, of Illinois, as a successor of Judge
Morrison on the interstate commerce
commission. While it is known the presi-
dent had Judge Paxson, of Pennsylvania,
particularly in mind for the place, the
Illinois senators believe the president
has not yet definitely decided to appoint
Mr. Paxson.

DIRECTOR OF TWELFTH CENSUS.

Washington, Dec. 27.—The president is
considering the qualifications of several
men for the position of director of the
twelfth census, but as yet has not indi-
cated whom he may appoint. E. J.
North, of Boston, secretary of the Na-
tional Association of Wool Manufacturers,
who was identified with the eleventh cen-
sus, and is a statistician of great ability,
is one of those under earnest considera-
tion.

COMPTROLLER OF THE CURRENCY.

Washington, Dec. 27.—Mr. Dawes, re-
cently appointed comptroller of the cur-
rency, is expected to arrive here next
Thursday, and to assume his new duties on
January 1. Mr. Eekis, the retiring
comptroller, will take charge of the Com-
mercial National bank of Chicago, as
president.

PRESIDENT WILL MAKE WESTERN TOUR.

Washington, Dec. 27.—Representative
Prince, of Illinois, today extended to the
president an invitation to attend the an-
nual encampment of the Union Veterans
at Rock Island next August. It is ex-
pected the president will make a tour of
the west about that time, visiting the
Omaha exposition.

onel Alfred E. Bates, of the paymaster's
department of the navy, has been de-

A Matter for Arbitration.

Boston, Dec. 27.—It is expected by
those interested in the cotton manufac-
turing situation that the state board of
arbitration and conciliation will be called
upon to take action upon the ent in
wages which goes into effect the first of
the year in many places, but no intima-
tion that the services of those officials are
desired to have been received from either
the manufacturers or operatives.

ROBBERS AT WORK.

Two Persons Wounded and Robbed
by Desperadoes.

Des Moines, Ia., Dec. 27.—Robbers on
last night broke into the house of aged
Mrs. Kimball, at Mitchell, ten miles east
of Des Moines. She is unconscious and
will probably die. The doors and walls
are covered with blood showing that a
terrible struggle took place. It is not
known whether the robbers secured any
booty or not.

SHOT AND ROBBED.

Emporia, Kas., Dec. 27.—John Howard,
who says he is from Iowa, was held up by
highwaymen, 12 miles south of here, this
morning, shot in the head and fatally
wounded. The robbers took a gold watch
and \$10 in money.

CHICAGO COLISEUM BURNED

Fire Which Destroyed Nearly \$500,000
in Property Caused by a
Pet Dog.

Chicago, Dec. 27.—The Coliseum build-
ing, in which the Democratic national
convention was held, was destroyed by
fire on Christmas eve. Several lives
were lost.

The total loss on the building and con-
tents is said to be \$478,000. Of this
amount, \$350,000 was the value of the
building, and \$128,000 the estimated cost
of the exhibits and material in the ex-
position in progress in the building. In-
surance to the amount of \$120,000 was
carried on the Coliseum, but of this
amount \$100,000 will go to the holders
of outstanding bonds to pay these obli-
gations in full. The balance of the build-
ing will get \$20,000 out of their insurance.
Colonel John T. Dickinson, president of
the Coliseum company, said tonight that
no effort would be made to restore the
building.

HOW THE FIRE WAS CAUSED.

Chicago, Dec. 27.—The Coliseum, which
burned on Christmas eve, was set fire by
a pet dog. Lollita, a dancer in the Cuban
revue, says that Frank Murphy, an em-
ployee in the X-ray booth, confessed to
her that he caused an explosion when
pouring gasoline into a tank near a lamp.
The dog was covered with burning oil
and rushed around in terror and set fire
to the drapery of the booth, which hung
to the floor. Murphy denies this story.

New York, Dec. 27.—Mayor Van Wyke
has selected John W. Keller for commis-

The place is worth \$7,500 a year. Keller
was the editor of the "Truth" at the time
of the appearance of the famous Morey
letters in the Garfield campaign. Later
he became the managing editor of the
Recorder and when that paper suspended
he went on the staff of the Journal and
Advertiser.

U. S. INTEREST IN CHINA.

Senator Morgan Says United States
Cannot Remain Neutral on the
Chinese Question.

New York, Dec. 27.—According to a
Washington correspondent of the Herald
Senator Morgan, of Alabama, of the com-
mittee on foreign relations, said it would
be impossible for the United States to re-
main complacent, should the European
powers undertake the dismemberment of
China. Mr. Morgan said:
"The cord is being strengthened to
contract the trade of 600,000,000 people
who have the direct trade and intercourse
with the Pacific ocean. There is a great
deal in the Chinese problem that is of
national interest to America, and which
seems to demand immediate considera-
tion from the state department and con-
gress."

THE GREAT HUXLEY.

What Huxley, the Great English
Scientist, Considered the Best
Start in Life.

The great English scientist, Huxley,
said the best start in life is a sound
stomach. Weak stomachs fail to digest
food properly because they lack the
proper quantity of digestive acids (lactic
and hydrochloric) and peptogenic pro-
ducts; the most sensible remedy in all cases
of indigestion, is to take after each meal
one or two of Stuart's Dyspepsia Tablets
because they supply in a pleasant, harm-
less form all the elements that weak
stomachs lack.

The regular use of Stuart's Dyspepsia
Tablets will cure every form of stomach
trouble except cancer of the stomach.
They increase flesh, insure pure blood,
strong nerves, a bright eye and clear com-
plexion, because all these results only from
wholesome food well digested.

Nearly all druggists sell Stuart's Dys-
pepsia Tablets at 50 cents full sized
package.

GOLDEN COCHITI BOOMING

Introduction of Unlimited Denver,
Chicago, Boston and Los Angeles
Capital Bearing Fruit.

ANOTHER CRIPPLE CREEK ASSURED

Immense Cochiti Ledges Will Be Made
to Yield Their Yellow Treasures by
Means of Men, Money and
Machinery.

The New Mexican of last Friday had
the satisfaction of placing before the
public tangible and trustworthy infor-
mation concerning the new and vigorous
life that has been infused into the Cochiti
mining district by the introduction of
unlimited Denver, Chicago, Boston and
Los Angeles capital in connection with
the recent Albenmarie, Lone Star and Iron
King deals and the materially improved
showing that even assessment work has
made in nearly every claim in the dis-
trict during the year. Now comes the en-
terprising and vigilant Bland Herald with
the appended details fully confirming the
statements previously made in these col-
umns:

The party of Colorado mining men and
eastern capitalists, consisting of O. P.
Posey and W. J. Cartan, of Denver, I. L.
Merrill, of Butte, Mont., J. A. Coram,
of Lowell, Captain Palmer, of Salem, Mass.,
and a number of other men of great
wealth, who are pushing the extensive
operations in the development of the
famous Albenmarie group of mines, is a
concern that any practically undeveloped
mining district may well consider itself
fortunate in procuring to carry on the
operations now underway.

These gentlemen have taken hold with
a will and mean to carry out the most ex-
tensive mining enterprise ever inaugu-
rated in New Mexico. The initial work
has been booming for the past week
and continues to grow in magnitude un-
der the seeming magic touch of the
managers, who are all experienced and
thoroughly practical mining men of re-
pute, who have met with remarkable suc-
cess in other parts of the great Rocky
mountain gold region.

One hundred and fifty men are moving
ground and blasting rock on the wagon
road that will connect Bland with the Al-
benmarie and many other Cochiti canon
properties, yet undeveloped, but equally
as large and valuable as the group of four
mines whose importance is proving to be
the entering wedge to the greatest min-
ing prosperity ever witnessed in any
single mining district in New Mexico. It
is required that this road shall be finished
before the end of January in order that
the machinery needed in the operation of
the mines can be hauled over it and
started up as soon as possible. Thus far,
under the capable and practical super-
vision of George Hoffmann, the superin-
tendent of construction, the road has
been finished for a distance of something
over a mile, beginning at the main mine
of the group, and will doubtless be com-
pleted before the 20th of January.

Immediately upon the completion of
the road a sawmill of a daily capacity of
10,000 feet will be moved over to the Al-
benmarie, where there are large quantities
of fine timber, and set to work to pro-
duce the lumber needed to construct a
100 ton Pelatan-Clerici mill to cost about
\$85,000, and which will treat the ore pro-
duced from the immense vein extending
for a length of 6,000 feet along the four
valuable claims of the group.

The sites for the two mills mentioned
have already been laid out and the work
of excavating begun. A hoisting whim
received the early part of the week is in
course of erection over the main shaft of
the Albenmarie and will be used in the
mining operations to be carried on there;
until the road is finished and the large
steam hoist, now en route from Denver,
can be transported to the mine and
placed in position.

It is an undoubted fact that when the
four large properties constituting the Al-
benmarie group of mines are working
steadily it will create a good sized camp
in itself in that neighborhood. Six hun-
dred men by March is the expected num-
ber that will be employed on these prop-
erties, in the mill treating their ores
and in other capacities connected there-
with.

It is claimed that in testing the 20 tons
of Albenmarie ore taken to Denver for
that purpose in five different mills, it
was proved that 90 per cent of the values
could be saved. The Pelatan-Clerici pro-
cess has been adopted owing to its cheap-
ness and general utility in the treatment
of these ores.

O. P. Posey, general manager, and one
of the directors of the Albenmarie com-
pany, after attending to certain business
connected with the mine, departed on
Monday for Los Angeles, where he will

remain until after the holidays, and then
return to Bland. During Mr. Posey's
absence the management of the property
is in the efficient charge of Mr. Merrill,
the superintendent. Departing with Mr.
Posey were Colonel Johnson, a well
known Colorado millman, who has gone
to Denver to draft plans and speci-
fications for the 100-ton mill to be built
at the Albenmarie, and Captain Palmer,
who goes to his Salem, Mass., home
until after the holidays, when he expects
to return on a visit in company with his
wife.

LONE STAR OPERATIONS.

Respecting the great Lone Star group,
the Herald says: A force of men was put
to work on the Lone Star mine this morn-
ing and hereafter extensive operations
will continue in connection with the
Bland mill, which will treat the rich out-
put of the Lone Star and other mines.

H. McFarland, the gentleman who has
purchased the Lone Star group of mines,
and H. R. Smoot, of Chicago, recently
returned from that city to Thornton and
Albuquerque, where, with Chester Green-
wood, general manager and part owner
of the Lone Star and W. B. McPherson,
manager of the Bland mill, these gentle-
men settled upon definite plans for the
steady operation of the Lone Star group
of mines and the mill. During this meet-
ing the negotiations were closed whereby
Mr. McFarland becomes the principal
owner of the Bland mill, which is to have
30 tons capacity added and treat the Lone
Star and a limited amount of custom ore.
The present mill, which has been under-
going changes and improvements, is ex-
pected to resume operations about the
first of the year, and will thereafter be
run without stoppages, as the enlarge-
ment of the plant can be accomplished
without delaying the machinery that will
then be in motion.

NO NAME GROUP BONDED.

It transpires that before W. J. Cartan,
who is connected with the Cochiti Gold
Mining company, left Bland for Denver
he closed negotiations with the owners of
the purchase, subject to option, of the
No Name group of mines, continues the
Herald. The exact terms of the bond
cannot be obtained at present owing to
the absence of the principal in the mat-
ter, but the Herald is in a position to say
that the period before the expiration of
the bond, which is for thousands of dol-
lars, is short, and that during the time
some \$10,000 must be spent in develop-
ment. A deep shaft will be sunk at an
early date on the No Name and other de-
velopment be done on the other prop-
erties of the group.

The No Name group, which lies south-
east of the Washington mine, consists of
five claims, which are the No Name,
Smuggler, South Side, Erie and Gift, a
collection of the most promising prop-
erties in the district. The owners are Nor-
man L. Fletcher, Chester Greenwood,
Henry Woods, and Thomas H. Lowthian.
Beside Mr. Cartan, the prospective pur-
chaser of the property are said to be a
party of eastern gentlemen forming an
entirely different company than that at
present pushing operations on the Alben-
marie mines and incidental work.
