## OJO CALIENTE

(HOT SPRINGS)

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barrancas Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 5,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 100,000 grains of alkaline salts to the gallon; being the richest alkaline hot springs in the world. The efficacy of these waters has been thoroughly tested by the medicinal cures effected to the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. For further particulars address:

ANTONIO JOSEPH, Prop.,

Ojo Caliente, Taos County, New Mexico

This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 11:15 a. m. and reach Ojo Caliente at 6 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7.

PROPRIETOR.

## THE OHIO CONFLICT

Columbus Continues to Be the Political Storm Center of the United States.

### MANY CONFLICTING RUMORS

Supporters of Hanna Have By No Means Given Up the Fight—Righteous Indignation of Republicans at Apoptosis.

Columbus, O., Jan. 5.—The senatorial contest broke more bitter today than ever. After the sensational developments of last night in connection with the repeated changes of Representative Griffith and other doubtful members, the skirmishing proceeded more clandestinely on both sides.

No claims of changes were made by either side. It was the purpose of the managers in not holding the caucus to be able to keep their own secrets till the balloting begins a week hence. It is believed that secret contacts are being made that will not become known until the votes of the members are recorded.

The situation is the same as after the organization of the legislature on Monday. All those who changed their preference yesterday were brought back during the night to their original places.

Departure of General Grosvenor. There was much comment today on the departure of Congressman Grosvenor for Washington after Secretary Ryan and others who have recently been there in the interest of Senator Hanna. The Hanna men insisted that there would be no legation, while the opposition insisted that they had Hanna beaten now and would defeat Secretary Sherman, Assistant Secretary Day or any other friend of the national administration brought out in the place of Hanna.

The feature of the day was the passage in the house, by a unanimous vote, of a bill repealing the law for 50 years franchises to street railways. This repealing bill was introduced by Representative Bramley, of Cleveland, one of the Republicans opposing Hanna.

Mr. Boxwell charged Mr. Bramley with using this bill for defense and buncombe.

It was freely charged by members that Senator Hanna was at the state house two years ago, as well as Senator Foraker, lobbying for the 50 year street railway franchise law.

In the senate there were no developments. Burke continuing to co-operate with the Democrats.

Legislature Adjourns Until Monday.

Columbus, O., Jan. 5.—It is announced that Senator Burke, the only dissenting Republican senator, is dissatisfied with the senate organization and will vote for reorganization. Both houses have adjourned until Monday.

Scorn for Renegade Griffith.

Marysville, O., Jan. 5.—The people here are wild, and threats of violence are made against Representative Griffith. Two Kirtz men from Columbus, while here, narrowly escaped violence at the hands of angry Republicans. A mass meeting of Mr. Griffith's constituents has been called for tonight.

Durrant Refused Further Delay.

San Francisco, Jan. 5.—In the United States circuit court today, Judges Morrow and Doernan denied the application for a writ of habeas corpus for Durrant, and refused to grant Durrant's attorneys leave to appeal for this decision.

BOLD BANDITS ON THE KAW.

An Express Train Held Up Last Night in Kansas City by Two Men—No Money or Valuables Secured.

Kansas City, Jan. 5.—A train on the Kansas City, Pittsburg & Gulf railroad was held up last night within the city limits.

The Wells-Fargo express messenger, M. E. Hayden, who was bound and covered by one of the robbers while the other rifled the express, sent the company a message this morning, saying the effect that the robbers took nothing of value.

Local officials of the express and railway companies assert that only a few packages of jewelry of no particular value and no money were secured.

The robbers are described as being about 35 years old and clean shaven. They have apparently made good their escape.

Body of a Murderer Found.

Asbury, Neb., Jan. 5.—The body of William Baker, supposed to have been the murderer of George Baker and wife, who were shot yesterday by an unknown assassin, has been found. Bloodhounds were put on the track, and, about four miles from the scene of the murder, Baker's body was found. The top of his head had been blown off by the same shotgun used in murdering the Bakers.

MARKET REPORTS.

New York, Jan. 4.—Money on call nominally 4 per cent; prime mercantile paper, 3½; silver, 50½; lead, \$3.55; casting copper, 10½.

Chicago.—Wheat, January, 89½; May, 80½. Corn, January, 28½; May, 28½. Oats, January, 21; May, 23½.

Kansas City.—Cattle, receipts, 16,500; market, steady, to 10 cents lower; beefs, \$3.40 @ \$3.50; cows and heifers, \$2.00 @ \$2.45; Texas steers, \$3.30 @ \$4.30; sheep, receipts, 15,000; market, for good sheep, steady; others, 5 @ 10 cents lower; natives, \$2.90 @ \$4.70; westerns, \$3.60 @ \$4.60; lambs, \$4.00 @ \$5.80.

Kansas City.—Cattle, receipts, 6,500; market today, for best, steady; Texas steers, \$3.30 @ \$4.40; Texas cows, \$2.10 @ \$3.40; native steers, \$3.00 @ \$5.05; native cows and heifers, \$1.50 @ \$4.50; stockers and feeders, \$3.40 @ \$4.40; bulls, \$3.30 @ \$4.00. Sheep, receipts, 3,000; market, steady; lambs, \$3.75 @ \$5.65; muttons, \$3.75 @ \$4.50.

Strictly First Class.

Housekeepers and restaurant managers can save money by purchasing meats, fish and oysters from Biechler & Muller. Only strictly first-class meats sold.

## Ottawa University Burned.

Ottawa, Ont., Jan. 5.—The east wing of the Ottawa university (Catholic) burned today. The loss is \$70,000.

## NEW YORK LEGISLATURE.

Senate Republican by 20 Majority; Assembly by 8—Caucuses Nominees Elected Without Unusual Incident.

Albany, N. Y., Jan. 5.—In his message to the legislature today, the governor recommends that a commission be created to examine into the commerce of New York and the cause of its decline, the means of its revival, and to report its conclusions. In dealing with the labor problem, the governor made three suggestions, as follows: First, that immigration be checked; second, that fair rate wages be paid to laborers; third, that in opposing strikes by armament a method should be adopted which would not at first discharge firearms to prevent tragedies such as caused the recent event to be universally deplored. The legislature was organized today. The senate, with a membership of 50, has a Republican majority of 30; the assembly, with 150 members on the roll, is Republican by eight majority. All Republican caucus nominees were elected without any unusual incident. The speaker of the assembly is J. M. E. O'Grady, who presided during the session of 1897.

## New Mexico National Banks.

Washington, Jan. 4.—Comptroller of the Currency Dawes has made an abstract of reports of the condition December 15 of the six national banks in New Mexico. It shows that since the date of the last report, October 5, the average reserve held has decreased from 33.57 per cent to 30.53 per cent. The loans and discounts have increased from \$1,551,071 to \$1,584,838, the reserve held decreased from \$958,415 to \$853,050, of which the gold holdings increased from \$109,915 to \$126,030, total resources increased from \$4,188,998 to \$4,224,023. The deposits decreased from \$2,944,556 to \$2,916,704.

## LETTERS RUN CORNER ON WHEAT.

All Wheat on Hand Will Be Held for Advance in Price, and More Bought—Refuse to Sell for Cash.

Chicago, Jan. 5.—Private advices from the east indicate that behind the Letters is \$30,000,000 that will eventually own and control over 30,000,000 bushels of cash wheat for better prices. If this be true, the refusal to sell cash wheat today would indicate that they propose to hold the wheat they have, and to increase their holdings very largely, or enough to discourage to a great extent short selling as a business.

## Head End Rail Collision.

Kansas City, Jan. 5.—At Rock Island Junction, Kas., this morning, a west bound Union Pacific work train and an east bound Rock Island stock train collided head on. The engineers and firemen were injured but not seriously. The collision is attributed to a dense fog. The injured are: Peter Reisecker, Albert Lewis, W. J. Trent, Frederick Fletcher, all of Kansas City, Kas.

## Book of Forms.

Lawyers will find the Book of Forms for pleadings, adapted to the new code, one of the most convenient and useful works in their practice. The New Mexico has this work on sale at the publishers' price, \$5.

## ALBUQUERQUE NOTES.

John T. Baracough, the head of the hardware firm of E. J. Post & Co., and the president of the Crystal Ice company, is here from Oakland, Calif., and expects to remain for several weeks.

Hon. Alejandro Sandoval, the popular county collector, was here yesterday, and was a familiar figure in and around the court house. He looked over the records of his excellent deputy, Jose L. Perea, and found everything in his office moving along nicely, says the Citizen.

El Nuevo Mundo, the bright Spanish paper published in Old Albuquerque, was recently sold by Josus S. Garcia to Mariano Armijo, the terms being private. No details of the plans of the new management could be learned, but it is understood that the management of the paper will remain practically the same as it has recently been.

C. L. Thayer and wife, recently of Fort Defiance, spent Sunday and Monday in the city, going on to Santa Fe to pay a short visit to relatives and friends. Mr. and Mrs. Thayer were married in this city last fall. Mr. Thayer has resigned his position as disciplinarian at the Fort Defiance Indian school and thinks of going to California in the near future.

The directors of the Albuquerque Land and Irrigation company—the low-line ditch project—met on Monday afternoon for the purpose of arranging details to start Chief Engineer Harroun and his corps of assistants at work. The directors discussed other matters pertaining to the company, and it is safe to say that they intend to push work from now on.

Something like nine months ago a suit was commenced in the District court of this county to quiet title in the matter of the Cebollita land grant. Judge W. D. Lee was appointed master and has since been taking testimony as rapidly as it has been offered. Mr. Richardson, of New York, claims the controlling interest in the grant and has thus far presented the evidence of two witnesses to prove his claim. If the testimony continues to come in so rapidly it will not be many years till the title to this valuable property is settled, says the Democrat.

## Code of Civil Procedure.

Every practicing attorney in the territory should have a copy of the New Mexico Code of Civil Procedure, bound in separate form with alternate blank pages for annotations. The New Mexico Printing company has such an edition on sale at the following prices: Leatherette binding, \$1.25; full law sheep, \$2; flexible morocco, \$2.50.

## WASHINGTON BUDGET

President Sent Long List of Nominations to Senate Today, But Overlooked New Mexico.

### CONGRESS RESUMES WORK

Outlook for Ratification of Hawaiian Annexation Treaty Now Considered Very Bright—Will Be Pressed by Senate Davis.

Washington, Jan. 5.—The president today sent the following nominations to the senate:

Francis C. Lowell, U. S. district judge for Massachusetts; Edgar M. Stearns, marshal for the district of Kansas; Geo. L. Siebriant, marshal for western Texas; Owen L. W. Smith, of North Carolina, minister resident and consul general to Liberia; James C. Snow, of Missouri, consul general at Cape Town; Herbert S. Squires, of New York, secretary of legation at Peking, China.

Consuls—Adolph L. Frankenthal, of Mississippi, at Bern; Neal McMillan, of Michigan, at Port Santos, Ont.; Jas. Mayers, of Ohio, at Rosario, Argentine Republic; John H. Grant, Jr., of Massachusetts, at Malta; Edmund Z. Brodowski, of Illinois, now consul at Breslau, Germany, at Furth, Bavaria; Charles W. Erdmann, of Kentucky, now consul at Furth, Bavaria, at Breslau, Germany.

Leander P. McWhell, of Indiana, assistant controller of the treasury. Pension agents—Charles A. Orr, at Buffalo; Jonathan Merriam, at Chicago; Sydney L. Wilson, at Washington.

Frank A. Morris, surveyor general of South Dakota. Arthur L. Thomas, postmaster, Salt Lake City.

Washington, Jan. 5.—Comptroller of the Treasury has appointed William C. Oakley, of Chicago, national bank examiner to succeed Joseph T. Talbert, resigned.

Outlook for Hawaiian Annexation.

Washington, D. C., Jan. 5.—The outlook for the ratification of the Hawaiian annexation treaty is now considered bright. The friends of the measure believe that they can secure for it 62 votes, three more than needed. The feeling is very strong that, unless the United States takes in Hawaii, the islands are likely to cause trouble in the future, when one or more European nations attempt to acquire them or give them to Japan as compensation for their grants in China.

Session of Senate Today.

Washington, Jan. 5.—Senator Davis, chairman of the senate committee on foreign relations, gave notice in the senate today that he would call up the Hawaiian annexation treaty in executive session, on Monday next, and ask the senate to consider it each day thereafter until the treaty be disposed of.

Washington, Jan. 5.—Senator Teller, of Colorado, introduced a concurrent resolution today declaring that the bonds of the United States, principal and interest, should at the option of the government be paid in standard silver dollars and that such payment is not in violation of the public faith or in derogation of the public credit. The resolution was referred to the finance committee.

There was only a small attendance in the senate today. Senator Allen, of Nebraska, spoke in the immigration bill, and declared in favor of consular inspection of immigrants.

Senator Carter, of Montana, called up the bill to provide for taking the next census and argued against making any appointments for that service through the civil service commission, saying that it was a preliminary measure and provided only for 32 places.

Senator Cockrell, of Missouri, replied, declaring that the Republican party was backing squarely down from its position on the civil service question.

The report by Secretary Sherman on civil service was read. Senator Cockrell, of Missouri, said it was a remarkable document, being a request on congress for legislative action which was in the power of his chief by executive order.

Senator Teller declared that the civil service bureau should not be a partisan institution, but under the classified service. He asserted that in the last census the silver production had been fraudulently overstated by \$10,000,000.

At 3:10 the senate went into executive session.

Session of the House Today.

Washington, Jan. 5.—There was not a very large attendance in the house of representatives today. With one or two exceptions, the members of the Ohio delegation, both Democrats and Republicans, were absent.

The house went into committee of the whole to resume the consideration of the legislative, executive and judicial appropriations bill. All the features of the bill had been disposed of except the appropriation for the civil service commission, upon which, by previous arrangement, there was to be an indefinite general debate.

It was proposed that Mr. Moody, Republican, of Massachusetts, and Mr. Dockery, Democrat, of Missouri, control the time for and against.

Mr. Hepburn, Republican, of Iowa, suggested that there was a three-cornered contest. "The Democrats," said he, "desire the entire repeal of the law. Some of those on this side desire it to stand as it is, while a large body of us desire wholesome modifications of its provisions."

"Why does the gentleman aver that all the Democrats desire the repeal of the law?" inquired Mr. Clark, Democrat, of Missouri.

"Simply because that would be wrong and your side is always wrong," retorted Mr. Hepburn amid great laughter.

All suggestions as to the control of time failed at last, and the chair recognized Mr. Grow, Republican, of Pennsylvania, who spoke 20 minutes in support of the general principle of the civil service law.

Mr. Moody, of Massachusetts, made an elaborate defense of the civil service system.

Mr. Dockery, Democrat, of Missouri, opened the opposition to civil service law in the house. He made a warm speech in which he declared the law odious to the American people and that it should be repealed.

were severe. They were, he said, narrow, bigoted, selfish, dangerous. Mr. Pearson, Republican, of North Carolina, attacked the law and said that a bill for its repeal will be brought in by a majority of the civil service committee.

Freezing Weather in Florida.

Washington, Jan. 5.—The reports received from the weather bureau officials in Florida indicate that the freeze on January 2 and 3, while doing considerable damage, did not approach in severity or destructiveness the freezes in the winters of 1884 and 1885.

## HILLSBORO GOLD MINES.

Ore Output of the District During 1897 Reaches Nearly 10,000 Tons—Future of District Bright.

The total ore output of the Hillsboro gold mines during 1897 was 9,304 tons.

The Dry Concentrating Works in Ready Pay which are making rapid progress.

Max. Kahler is at work on a lead silver bonanza in the San Andres mountains.

Linder & Crumline, Snake mine lessees, are again occupying the Porter mill with a lot of 150 tons of \$35 ore.

The Richmond mine is increasing its list of lessees and is making an output of ore that will encourage many men to try their luck among its bonanzas.

Superintendent Hughes, of the Snake group, has just returned from Silver City, where he has been looking after the sampling and settlement of three carloads of lessee ore.

John Buttecke is sinking on a five foot chimney of gold ore in the Freiberg mine and intends to get out at least 500 tons in time for the completion of the cyanide works.

Spencer, Scanlon & Co., are still in good ore on the Snake 280 foot level. It was from this level that the then Superintendent Hall, in 1896, got a carload of ore that brought returns of 11 ounces gold per ton.

A variety of crystallized lead ore has recently been found in the Rex mine here which is new to the scientists. It is a silicate of lead with iron and iron, being named after Robin, one of the owners of the mine.

The Lake Valley depot platforms are pretty well covered with machinery billed to the Llewellyn Cyanide works, of Dutch gulch. It will take time and money to put all these things together, but there is no doubt now that we are going to have cyanide works of the very latest improved model and of large capacity, says the Advocate.

## LAS VEGAS NOTES.

Felix Martinez, Jr., is in the city from El Paso for a few days.

Will Coleman, who has been braking on the Waldo branch for three or four years, has reached the city to take a position on the main line.

Mrs. Harry C. Fox was the fortunate winner of the handsome French doll, displayed in the Winters drug company's window. She guessed the exact number of beans, 1,035.

Colonel R. B. Willison, of Santa Fe, is in the city, having business with Judge J. N. Scott, special U. S. attorney, but the latter is confined to his room with a threatened attack of pneumonia.

Severiano Baca and Virginia Aragon, two residents of that portion of East Las Vegas usually called "Chihuahua," were married Monday morning at the church of the Immaculate Conception. Father T. P. O'Keefe officiating. Demetrio Rivera and Miss Anita Chacon were wedded at the west side parish church also Monday morning, reports the Optic.

## BARGAINS IN TAOS COUNTY

For information regarding Taos county mines, placer or lode, write me. I have for sale, cheap, especially adapted to colonization, A No. 1 farming lands with perpetual water right; 3,000 acres unsurveyed government land.

W. GILLIS, TAOS.

## THE

## First National Bank

OF

Santa Fe, N. M.

UNITED STATES DESIGNATED DEPOSITARY

R. J. PALEN - President.

J. H. VAUGHN Cashier

Royal makes the food pure, wholesome and delicious.

Last Saturday the passengers on the springs train were treated to a sight of unusual interest between the Bridge street station and the springs, in the way of a race between the train and Robert Mitchell on a bicycle. Mitchell started with the train from the old town and in spite of the up-hill road along the route, he succeeded in reaching the springs ahead of the train. According to time taken by one of the passengers, the run was made in less than 15 minutes.

A stag party was given to Isaac Bacharach Saturday evening at the rooms of Chas. Nathan, in view of Mr. Bacharach's departure next Wednesday for Philadelphia. Those present were Benny Lewis, Ike and Bernard Appel, Herman Perstein, Simon Bacharach, B. Bacharach, Henry Goldstein, Saul Kaufman, Jake Graf, Chas. Nathan, the host, and Ike Bacharach, the guest of honor. After a sumptuous repast, Messrs. Lewis and Nathan took a flashlight picture of the party.

Kansas City Meats. Bischoff & Muller handle a full line of Kansas City meats, including sausage. Give them a trial.

## KIAO-CHOU DIFFICULTY SETTLED.

Chinese Foreign Office Has Made All Necessary Concessions to Germany—Large Order for Arms Received from Russia.

Peking, Jan. 5.—The Kiao-Chou difficulty was settled yesterday at a conference. The Chinese foreign office made the necessary concessions.

Lensed for an Indefinite Time.

Berlin, Jan. 5.—The Reichsanzeiger, this evening, announces that according to a telegram from Peking, an understanding has been reached between Germany and China regarding the cession of Kiao-Chou bay to the former. The arrangement is substantially as follows: It is intended by the cession to render it possible for Germany to fulfill her wish for possession, in the same way as other powers, as a base of trade and navigation in Chinese waters. The cession of Kiao-Chou bay to Germany takes the form of a lease for an indefinite time. Germany is at liberty to erect or deduct territory all necessary buildings and establishments, and to take a necessary measures required for protection.

Russia Has Ordered Rifles.

New Haven, Conn., Jan. 5.—A for 10,000 of the latest pattern rifle and 5,000,000 rounds of ammunition has been placed by the Russian government at the disposal of the Russian army.

# The Daily New Mexican

THE NEW MEXICAN PRINTING CO.

Entered as Second-Class matter at the Santa Fe Post Office.

RATES OF SUBSCRIPTIONS.	
Daily, per week, by carrier	\$ 25
Daily, per month, by carrier	1 00
Daily, per month, by mail	1 00
Daily, three months, by mail	2 50
Daily, six months, by mail	4 50
Daily, one year, by mail	7 50
Weekly, per month	75
Weekly, per quarter	2 00
Weekly, per six months	3 50
Weekly, per year	6 00

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

## ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted.

WEDNESDAY, JANUARY 5.

It is not yet apparent that Secretary Gage's views on national finances are exactly the views of the Republican party.

It is not desirable to have any more European neighbors close to this country. Hence the annexation of Hawaii should be accomplished and that at once.

The Denver Republican asks, "where is the next Cripple Creek?" That's easy. It is in New Mexico, and the coming summer will see a half dozen Cripple Creeks opened up in the Territory.

This territory ought to have a dozen beet sugar factories in active operation. There is plenty of room for that number here. One is already in operation in Eddy and the second should be erected in this, the Santa Fe valley.

What is going to happen? Emperor William, of Germany, war lord of Europe, painter, poet and sailor, paid a personal visit to Ambassador White's home in Berlin on Saturday. Uncle Sam is getting mighty popular in European circles lately, but there is no doubt an axe somewhere on the continent that needs grinding.

Renegade Republicans in Ohio are hard at work to bring about the defeat of Senator Hanna. This is a pointer for New Mexico. Renegade Republicans should not be recognized in appointments, either federal or territorial. And from our knowledge of the situation, we conclude that they will not be.

It is said, should Governor Otero make an attempt to remove the present superintendent of the territorial penitentiary from office, that there will be a bath of red fire, martial music, a sea of brimstone and the like. That may be. But the chances nevertheless favor the governor. Should he make the removal, it will stick and no mistake about this.

The situation in the far east has resulted in added strength to the annexation sentiment among the members of the senate, and favorable action on the treaty pending in the senate at an early day. The possibility of the great European powers' entry and stations in China eyes of the people of this

due of Hawaii as an on to the Pacific sign neighbors all, away desir-

as that goes 50 hours before he to know why the government does business in that manner.—Las Vegas Examiner.

The government does business in that way, because the postoffice inspectors in this section of the country and the superintendent of the railway mail service for this division pay no attention to their business. There is no earthly reason or good cause why registered mail matter from Santa Fe for the east, for instance, should be sent to Albuquerque and then go east again. But then these well paid government officials, like postoffice inspectors and superintendents of the railway mail service, do not care to do much work for the fat salaries they receive, that's all there is to it. A change in the personnel of these offices would be a grand thing all around. Under the present Chinese system of the civil service these officials know they have a soft thing and act as if the people, who pay the freight, have no rights that need be respected.

## Enforce the Tax Law.

The attention of the tax collector of this county is called to the law concerning the sale of property, upon which taxes are delinquent. The law is good enough and strong enough and should be enforced. It reads as follows: Section 4073 of the Compiled laws of 1897: "All real estate and all interest and title, which any person may have here in, upon which the taxes shall not have been paid before the 1st day of January of each year, shall be subject to sale as hereinafter provided for the sale of lands for taxes."

Section 4074: "On or before the first Monday of March of each year, the county collector is required to offer at public sale at the court house door of his county all real estate, on which taxes of any description are due for the preceding year, or years, shall remain due and unpaid and sell the same for and in payment of the total amount of taxes, interests and costs due and unpaid on such real estate."

These sections give the collector no alternative. The law is exact and should be enforced.

## Business Outlook for 1898.

The prospects for a prosperous year in the United States have engaged the attention of many of the financial publications the past two months. Many of them can see nothing particularly bright ahead for the industries of the land, but these have been biased in their views by their free trade proclivities. Others have professed to see some improvement promised, and the best of these forecasts is published by the banking house of Henry Clews & Co., of New York.

During the five years that our material interests have been in a condition of collapse, says their circular issued last week, we have made an addition of 8,000,000 to our population, most of which must be regarded as going to the increase of our productive capacity—to swell the production of our manufactures rather than of agricultural produce. Within this period, we have been subjected to a necessity for diminishing the costs of production which, together with the new productive inventions, has enabled us to adapt ourselves to the constantly declining tendency of prices; and conspicuous facts clearly demonstrate that, in certain important industries, we have already reached a position where we can compete successfully in the foreign markets with the foremost industrial nations of the world. This is no transient accident of extraordinary time, no outcome of a necessity to unload surplus stocks regardless of price; it is the consequence of our having gained a position in advance of other nations in those conditions which conduce to cheapness and excellence of production. This is an achievement of stupendous importance. For, as already said, we have reached a point in our national development at which nearly our entire large increase of population must go into industries other than agriculture; and that makes it imperative that we be able to compete with other countries in the all-controlling factor of price. It is in the highest degree gratifying that we seem to be reaching that position without the intervention of a great industrial crash, which too easily might have proved an inevitable step in the transition. It now only remains that we find a breadth of new markets sufficient for our enlarging surplus of manufactures. Most opportunely, the drift of political events is placing that essential desideratum within our reach. The events of each successive day are making it more certain that the 400,000,000 of Chinese population are to be placed within reach of the industrial nations. This fact means that 1898 is to be a year distinguished in history as the opening of a great new commercial era. For us, it remains that we see to it that no opportunities are lost through our supineness for gaining our due share in this prospective new commerce.

Apart from these new prospects, the outlook for 1898 is full of promise. It may be safely expected to turn out to be a realization of an expansion of business for which the recovery of 1897 has but served to prepare the way. A document just issued by the Merchants' association of New York, which includes many of the foremost merchants of this city, states that "1898 promises to be one of the most active business years in the history of this city," which expresses the general expectation of men of business at this center.

## New Mexico and Arizona.

It is a pleasure to a man who knows the southwest to see the evidence of reviving prosperity in Arizona and New Mexico. They are the two great southwestern territories, and in respect of their natural resources they are much alike. The conditions which favor the development of one may be expected to have a good effect upon the other. Both are asking to be admitted as states, and in each case the request should be granted. But unfortunately they suffer from opposition in the east to the admission of any more states that would probably cast their influence with the silver cause.

The most marked mineral development in Arizona in recent years has been in connection with copper mining. In New Mexico attention has rather been given to prospecting for gold. The success of the gold hunters in New Mexico has thus far been very good, and this may be said of many of those who in Arizona searched for the same mineral. The gold discoveries in New Mexico have been chiefly near the Colorado line. In Arizona they have been toward the southwestern corner of the territory.

Whether we speak of agriculture, or horticulture, cattle raising or the production of wool, it is true of both these territories that nature has made it practicable to pursue these industries within their limits with profit and at a low cost. The climate is in the highest sense of the word favorable to the production of temperate zone fruits; and in addition it must be said, regarding Arizona, that in the Salt River valley and other localities the production of certain kinds of tropical fruits has become an extensive and lucrative industry.

Everybody who knows anything about them is assured of the greatness of the future which awaits these territories. But the people who live there are anxious to see the coming of this bright future hastened in every practicable way. What will most aid them in the realization of this desire is the adoption of means whereby capital would be invested in the development of natural resources and the way opened for the settlement of a large population of homeseekers from the north and east. There should be a systematic effort to bring capital into their part of the southwest, and doubtless it would be wise in this connection to secure as far as practicable the co-operation of the A. T. & S. F. and other railroads that are interested in the growth and prosperity of these two promising communities.—Denver Republican.

## Code of Civil Procedure.

Every practicing attorney in the territory should have a copy of the New Mexico Code of Civil Procedure, bound in separate form with alternate blank pages for annotations. The New Mexican Printing company has such an edition on sale at the following prices: Leatherette binding, \$1.25; full law sheep, \$2; flexible morocco, \$2.50.

## THE TALK OF EUROPE.

Brief Recollections Upon Events of Current Interest Across the Ocean. It is to be hoped that Sir Arthur Chamell, who has recently been promoted to be one of the justices of the high court in London, will be a little more certain about his aspirations than was his father, who was one of the most distinguished judges that ever occupied the bench, as far as legal ability was concerned. For many years he presided over the admiralty court. One day a case was being tried before him in connection with the collision of two vessels between Dover and Calais. The name of one of the vessels concerned was the Helen, which the presiding judge insisted on pronouncing as if it were Ellen. At length the counsel for the defense, who was a bit of a humorist, arose and gravely asked his learned brother who was conducting the case for the plaintiff to give the real name of the vessel that had been run down, saying that half the time it was being called the Helen and the rest of the time the Ellen. The learned brother was not slow to respond and replied with equal seriousness that the real name of the vessel was the Helen, but that the H had been lost in the "chops of the Channel."

The Russian government has decided to withdraw the restrictions to which foreign Hebrews who desire to trade in Russia are subjected. Until now every kind of obstacle has been placed in the way of foreign commercial travelers if they happened to belong to the Jewish race, and in nine cases out of every ten they were not allowed to remain in any place, but were expelled by the police as soon as ever they presented their passports. This has had a most injurious effect on industry and commerce, and the grain trade in particular has suffered severely. By the czar's orders foreign Jewish commercial travelers are henceforth to be permitted to travel anywhere in Russia and to remain in the various cities and towns as long as their business requires without any restraint on the part of the police.

The sparrow has found an unexpected champion in the prime minister of France. The farmers have recently been agitating in favor of the extermination of the little bird and succeeded so far that a decree was submitted to Premier Melne for signature, giving orders for the destruction of the bird throughout the country by all available means. Before giving his sanction to the measure the prime minister determined to make an investigation in the course of which he has received so much information in favor of the birds, especially from the forestry department, that he has not only refused to sign the decree, but has announced that he is about to take steps to promote the increase of the species in consequence of its usefulness. It seems that the harm that it does to the crops is more than counterbalanced by the benefits which it confers in destroying the caterpillars, worms and other insects that are so detrimental to trees.

The situation at Lisbon continues so critical that the royal yacht is lying, provisioned and with banked fires, in the Tagus, a short distance from the shore, ready for any emergency that may arise. That shows how serious are the apprehensions of the king and queen of some revolutionary outrage which may compel them to seek refuge with their children on board the yacht. It is likewise asserted in court circles that the majority of the royal valuables, such as plate and jewels, are kept on board this yacht, which is manned by officers and sailors on whom the king can rely absolutely. The precaution is wise, since the first thing that a revolutionary mob is in the habit of doing is to sack the royal palaces.

In Vienna the management of the Imperial Opera House, which is a crowd and not a joint stock enterprise, has introduced some new rules of a rather exceptional and drastic character. Henceforth no person is to be allowed to enter the house after the overture is finished until the close of the first act. When a piece of Wagner's is played, this restriction is to take effect at the beginning of the overture. The clause, too, has been entirely suppressed.—New York Tribune.

## Sight and Smell Shot Away.

Herbert J. Fish of Valparaiso, Ind., recently put a 38 caliber bullet through his brain in a fit of insanity and is still alive and getting well. The bullet passed through the right and left anterior hemispheres of the brain, lodging finally in the posterior bone wall of the left eye socket. In its course the ball destroyed a large amount of brain matter, destroyed the sense of smell and cut the optic nerve of each eye. The physicians think his mental condition will be weakened, but aside from that he will be all right. At times he is rational, but does not believe that he shot himself.—Cincinnati Commercial Tribune.

If you cannot get beef, mutton will answer.

You may choose between milk, water, coffee or tea. But there is no second choice for Scott's Emulsion.

It is Scott's Emulsion or nothing.

When you need the best cod-liver oil, the best hypophosphites, and the best glycerine, all combined in the best possible manner, you have only one choice.

It brings prompt results in all cases of wasting, or loss in weight.

All druggists; 50c and \$1.00. SCOTT & BOWNE, Chemists, New York.

## Book of Forms.

Lawyers will find the Book of Forms for pleadings, adapted to the new code, one of the most convenient and useful works in their practice. The New Mexican has this work on sale at the publishers' price, 85c.

## WINTER STYLES.

Velvet gowns are in style—skirts and boleros. Velvet plays a conspicuous part in winter costumes, forming entire gowns often, as well as trimmings. Applications of costly lace on velvet are among the approved decorations. Toilets made completely of velvet require very little ornamentation, the beauty of the material being concealed by much trimming. The foot of skirts is often cut into square tabs, scallops or points, a plaiting or ruffle being placed beneath. The edge of the slashings is sometimes plain, sometimes bordered with a narrow band of fur or galloon. The bolero has by no means disappeared. It is seen in one form or another upon many winter costumes of the most exclusively fashionable kind. It is usually open, showing a full blouse of some sort. Costumes entirely of fur are occasionally seen, but these are, of course, solely for out of door wear upon very cold days. A

PRINCESS GOWN.

recent example is of caracul, trimmed around the foot of the skirt with a band of chinchilla, the tubular being decorated with buttons of turquoise and pearl. The blouse bodice is trimmed with revers of chinchilla and opens over a plastron of cream satin, bordered with chinchilla. The belt is of white satin, embroidered with turquoise and pearls. Today's illustration depicts a charming princess costume of heliotrope crepe de chine. It is draped and fastens at the left side with three buttons. The foot of the skirt is cut in large points, beneath which appears a plaited blouse of mouseline de sole, with alternate fans of black and white. The large, full revers is of purple silk covered with black mouseline de sole, embroidered with white. The close sleeves have small, shirred puffs at the shoulder. The plastron and collar are of black velvet.

JUDITH CHOLLET.

## THE MODE.

Points For Those Who Wish to Follow the Latest Styles. Close sleeves with a very slight bouffancy at the top and flat trimmings arranged crosswise of the arm and near together are the correct style.

Many velvet gowns are seen among the new fashions, and also cloth gowns adorned with applications of velvet. Gray, beige and intermediate shades are favorites. Bluish lavender and violet are fashionable colors, but in opposition to the prevailing tendency toward bright, frank tints some very elegant women are ordering black costumes. With a bunch of violets, nothing is more refined and exclusive looking than black.

Covert cloth, neatest and most serviceable of materials, is largely employed for tailor made gowns and coats. Beige, grays and browns are the usual colors. A new and attractive satin for theater or evening bodies has a white ground,

BLOUSE JACKET.

on which is a broche design in mauve, blue, yellow, white, pink or green, the figures being outlined with threads of gold or silver, which are guaranteed not to tarnish.

Plaids, so popular this season, are largely employed for separate bodices, flannel shirt waists and indeed entire costumes for morning wear. It is in the children's wardrobe, however, that plaids are most adaptable and pleasing. For school dresses nothing can be more serviceable or suitable.

An illustration is given which shows a blouse of dark blue velvet. It has a yoke of jet passementerie and a large, flaring collar lined with astrakhan. Three rows of jet fringe form a jabot in front. There is a short tunic, and the belt is of grosgrain, fastened by two decorative buttons. The blouse is lined with satin, and a satin bow is placed at the back of the collar. The hat of gray felt is trimmed with dark blue velvet, a paste buckle and a group of gray quills.

JUDITH CHOLLET.

Depends on the Kind. "Is it true that Mr. Jones talks like a book?" she asked. "Yes," he replied; "like one of those ungrammatical dialect novels."—Chicago Post.

## Farmer Long's Sign.

## GRAND JURY REPORT.

The Erection of a New Jail Recommended and County Officers Found in Good Condition—Also a Little Political Dynamite.

The report of the territorial grand jury submitted on yesterday in the District court by Cosme Herrera, the foreman of the body, says in part, as follows:

"In the District court, county of Santa Fe, December term, 1897.—To the Honorable N. B. Laughlin, judge of said court:

"The grand jury impeached and charged at said term, having concluded their labors, beg leave to report to the court:

"That we have been in session on 17 days in all, investigating whatever charges and violations of the criminal law of the territory that have come before us.

"We have examined during that time 55 cases, finding true bills and returning them into court in 37 cases, and failing to find true bills in 18 cases.

"We visited in a body and examined into the condition and methods of conducting the public business of the county jail; the office of the clerk of the court; the office of probate clerk and recorder of the county; the office of the county assessor; the office of the county collector and the office of the county sheriff. We are pleased to be able to report that the condition of the county jail and the care of prisoners confined therein are as good as it seems to us possible to find in such a delapidated prison. The jail is clean and the food served to the prisoners is abundant and wholesome. The places of confinement of the inmates are not as comfortable as they ought to be in accordance with humane prison discipline, but they are as good as they can well be made in the condition of the building. Santa Fe county needs a new jail building, and we earnestly recommend that the board of county commissioners give the subject their attention as soon as the financial condition of the county will warrant any moderate expenditure for that purpose.

"We are pleased to be able to report that the offices of the clerk of the court, the probate clerk, and recorder of the county assessor are conducted in a business like manner, and the books of the officers are kept neatly, legibly and up to date. We are especially pleased with the office and books of the county assessor, and we congratulate the people of the county on the businesslike administration of the public business of the county as far as we were able to observe in our brief examination.

"As far as the remainder of the report is concerned, the least said about it, the better. It is a political attack, no more and no less. It is not worth the paper it is written on and is not based upon trustworthy testimony. In fact, it is charged that a good deal of political animus was shown by some members of the grand jury, which, of course in the deliberations of such bodies, should have no place whatsoever.

## To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents. The genuine has L. B. Q. on each tablet.

## MINOR CITY TOPICS.

U. S. weather bureau forecast for New Mexico: Partly cloudy tonight and Thursday.

Regular meeting of Carleton post, G. A. R., at 7:30 p. m. sharp. Installation of officers. Visiting comrades cordially invited.

J. F. Ortiz, of Chantita, who is a surveyor, has been here for a week or more expecting to be examined for appointment as a U. S. deputy surveyor.

"The city authorities and Mayor Spiess should make an effort to have the streets cleaned and the sidewalks repaired. Give the city marshal something to do.

The work of putting in a new front on the business block, occupied by Conway's Bon-Ton restaurant and Lacombe's Oxford saloon, was commenced this morning.

It is reported that District Attorney Crist is about to compromise several tax suits for 75 cents on the dollar of taxes assessed. Such action puts a premium on non-taxpaying and is very detrimental to the public interests, besides being unjust and unfair to the taxpayer who pays promptly every six months as the law requires.

The trees are being removed preparatory to the opening of Manderfield street along the north end of the capitol grounds. So soon as the trees have been transplanted the walls and fence will be placed on the new line and the new thoroughfare will be ready for use, which will be some time next week.

A good many taxpayers and citizens perfectly able to pay their taxes are holding back tax payments in order to get rebates and abatements. This is not as it should be. The law should be enforced and taxes should be collected. The collector should publish the delinquent tax roll, comply with the law and bring taxpayers and property owners to time.

## BABy'S SKIN

In all the world there is no other treatment so pure, so sweet, so safe, so speedy, for preserving, purifying and beautifying the skin, scalp, and hair, and eradicating every humor, as warm baths with CUTICURA SOAP, and gentle anointings with CUTICURA Ointment, the great skin cure.

## MATTERS OF OFFICIAL RECORD.

Notary Public Appointed—National Guard Officers Commissioned—The Las Vegas, Mora & Taos Railroad Company Incorporated.

Governor Otero has appointed M. B. Buchanan, of Socorro, a notary public in and for Socorro county.

National Guard Officers. Governor Otero has commissioned the following National Guards officers: Gregorio Garcia, captain; Salomon Garcia, first lieutenant; and Francisco Rivera, second lieutenant, of company D, First infantry, stationed at Las Cruces, Las Vegas, Mora & Taos Railroad.

Edward B. Wheeler, of East Milton, Mass., Richard Dunn, of Gascon Mills, N. M., Francisco A. Manzanarez, John Hill and Robert L. M. Ross, of Las Vegas, N. M.; have organized the Las Vegas, Mora & Taos Railroad company, and filed articles of incorporation in the secretary's office.

The purposes for which said corporation is formed are as follows: To locate, construct, purchase, maintain, own and operate a railroad by steam, electric or other motive power, and telegraph lines, and all necessary poles, posts, wires, contrivances or things in connection with any and all of said objects; commencing at or near to the city of Las Vegas, in the county of San Miguel, in the territory of New Mexico; thence running in a northwesterly direction by the most suitable and practical route to be adopted by the company, through the counties of San Miguel and Taos, to a point at or near to the town of Taos, which said line is to be known as the main line. Also to purchase, lease or otherwise obtain and use the right-of-way or trackage on any railroad or telegraph line now or hereafter constructed upon or along any part of the said proposed line, and to complete, equip, maintain and operate the same; also to purchase, improve, develop, maintain and operate coal lands, coal mines, stone quarries, timber lands, warehouses, real estate and other properties, machinery of all sorts or things necessary for the construction, completion, maintenance, equipment or operation of such railroad, or telegraph line or suitable to be operated in connection therewith, as well as for furnishing and selling electricity for power, light or other purposes; and for the improvement of lands and townships; also to have and exercise all and singular the powers and privileges and immunities granted to railroad corporations by the laws of the territory of New Mexico.

The corporation is capitalized at \$1,500,000, principal place of business located at Las Vegas, and estimated length of the main line of the railroad is 85 miles.

Corporation Receipts. Secretary Wallace has paid into the territorial treasury the sum of \$769, the amount received for filings of corporation papers during the last quarter of 1897, making a total of \$1,834 paid into the general territorial fund since May 7, last, under the operation of the new corporation law.

Oysters and Fish. Fresh oysters and fish received every Friday by Bischoff & Muller. Prices at the lowest possible notch.

## PERSONAL MENTION.

Hon. T. B. Catron is confined to his residence by temporary illness.

Register M. R. Otero has returned from a short visit to Albuquerque.

Hon. J. Anado Lucero was a passenger north this morning to Espanola.

Mr. J. B. Patton, of New York, is a Santa Fe visitor registered at the Palace.

Colonel Walter G. Marmon, of Laguna, is in the city, stopping at the Exchange.

Captain Chas. E. Nordstrom is very ill at his residence at the Pueblo Indian agency.

Judge H. L. Waldo is expected to arrive here here from Kansas City tomorrow evening.

Mr. Jas. Duggan, superintendent of the Madrid coal mines, is registered at the Palace hotel.

Hon. Francisco Miera, of Union county, is in the city on official business, and registers at the Exchange.

County Commissioner J. T. McLaughlin returned last night to his home at San Pedro in southern Santa Fe county.

Antonio Miera and Tomas Gutierrez are in the city from Mora, on business before the U. S. land office. They stop at the Bon Ton.

Mr. H. Essinger, of Las Vegas, spent last night in the city, registering at the Palace hotel. He went north on the D. & R. G. this morning.

George Crawford, well known in local baseball circles, has returned from Albuquerque to his duties at the United States Indian school in Santa Fe.

Hon. Solomon Luna, one of New Mexico's leading citizens and a very successful sheep raiser, was in the city from Valencia county, registered at the Palace. He returned south this morning.

Chas. McIlvann and Gus Johnson, sheep men of El Paso, are in the city on their way back home from Colorado, where they have been contracting for sheep. They stop at the Bon Ton.

Lumber Contracts at Bland. Joseph Routledge, the well known sawmill man, who is now operating mills in the Cochiti mining district, is at the capital on business before the United States District court.

In conversation with a New Mexican representative this morning, Mr. Routledge said that O. P. Posey, manager of the company that has bought the Albemarle group and other properties in the district named, is expected back in Bland from California in a few days, when contracts for cutting the timber for the Albemarle mill will be immediately let. From 500,000 to 1,000,000 feet will be required.

Mr. Routledge says that business is booming at Bland and throughout the district.

Monogram Note Paper. Monogram note paper is the correct thing for private correspondence. The New Mexican Printing company can furnish the latest styles of this paper and at very low prices. Call and see samples.

If you want the fattest and choicest beef, veal, mutton, lamb and pork, go to the market of Bischoff & Muller.

## PENITENTIARY COMMISSIONERS.

All the Members of the Board Were in Attendance at the Meeting Yesterday—Reports Submitted and Accounts Approved.

The board of penitentiary commissioners met in regular session at the penitentiary yesterday, with O. A. Hadley presiding. C. F. Easley officiating as clerk, and Commissioners J. Franco Chavez, Saturnino Baca, H. J. Young and Francisco Miera present.

The regular monthly accounts were approved and other routine business was disposed of.

The accounts of the penitentiary against the following counties for the safe keeping of prisoners were referred to the solicitor general:

Santa Fe county, \$760.70; San Miguel county, \$409.75; Mora county, \$1,637.50; Colfax county, \$473. total, \$3,351.51.

The report of the assistant superintendent and stenographer showed that the cost of feeding prisoners in November was 13.30 cents per day per man and in December it was 11.6 cents per day per man.

The superintendent reported that the foundations for the new cell house south of the main penitentiary building were nearly completed; that the 104 iron doors and the doors of the new key room had been completed by convict labor; that part of the iron scaffolding for the stairs had been finished, and that many of the 110 locks needed for the cell house doors had been made of brass by convict labor at a cost of about \$2.75 each for material as against \$11, the price of new locks in the east.

The superintendent was authorized to contract for the purchase of state roofing and such other materials as were needed for the new cell house, about \$3,000 of the \$10,000 appropriated being now available for that purpose.

W. M. Berger made a proposition to the commissioners to place in the penitentiary yard a new patent machine for the manufacture of patent electric brick, but there being no funds available for the purpose, the proposition was not favorably considered.

## To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25 cents. The genuine has L. B. Q. on each tablet.

## County Commissioners' Meeting.

The county commissioners, all the members being present, held another meeting yesterday afternoon and disposed of the routine business for the past month.

H. B. Cartwright, county treasurer, submitted his annual report, showing the receipts and disbursements of the county during the past year and the balances on hand. The various items thereon were checked up and found correct. As soon as the report of the county clerk is completed, both it and the report of the county treasurer will be printed in these columns.

The old refunded bonds and coupons were destroyed.

The time for the payment of taxes delinquent January 1, 1898 without the addition of the 25 per cent penalty was extended until February 1, 1898.

The commissioners thereupon adjourned subject to the call of the chairman.

## NO FAITH CURE

ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway, Whether You Have Faith in Them or Not.

All physicians agree that the element of faith has a great deal to do in the cure of disease.

Firm belief and confidence in a family physician or the same confidence and faith in a patent medicine have produced remarkable cures in all ages.

This is especially true in nervous troubles and no field offers so prolific a harvest for the quack and charlatan, as the diseases arising from a weak or run down nervous system.

Nevertheless, the most common of all diseases, indigestion and stomach troubles, which in turn cause nervous diseases, heart troubles, consumption and loss of flesh, requires something besides faith to cure.

More faith will not digest your food for you, you will not give you an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and peptones necessary to the digestion and assimilation of all wholesome food.

Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, from plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

Stuart's Dyspepsia Tablets are sold by druggists at 50 cents for full sized package.

Little book on cause and cure of stomach troubles mailed free by addressing Stuart Co., Marshall Mich.

CHARLES W. DUGROW, FRANK S. DAVIS, Santa Fe, N. M., December 28, 1897.

## TERRITORIAL INSURANCE LAW.

Deeds to Land in New Mexico May Be Deposited with Treasurer of Territory.

Hon. Miguel A. Otero, Governor of New Mexico, Santa Fe, N. M.

Santa Fe, N. M., Jan. 3, 1898.—Dear Sir: I am in receipt of your inquiry of this date as to whether it would be permissible for insurance companies to deposit mortgages on real estate within the territory in satisfaction of the requirements of chapter 49 of the laws of 1897.

Replying thereto, I beg to say that I have in the past had occasion to examine this feature of the act referred to, on the application of the territorial auditor, I enclose herewith a copy of a letter written him on April 28, 1897, which I believe covers the points as to which you make inquiry.

Hon. Marcelino Garcia, Territorial Auditor, Santa Fe, N. M.

Santa Fe, N. M., April 28, 1897.—Dear Sir: I am in receipt of your letter of April 27, enclosing a letter of A. J. Harding, manager, asking for a construction of the insurance law, approved March 17, 1897, and found on page 90 of the laws of 1897.

Replying I beg to say that the act in question is to some extent subject to the charge of incoherence (as Mr. Harding suggests), but I do not think its meaning is obscure when the act is carefully read. Of course it is not contemplated that real estate to the value of \$10,000 shall be deposited with the treasurer of the territory, as a literal compliance with the act would necessitate, but that evidence of ownership of the same, or interest in the same, to the amount named, shall be deposited. I am of the opinion that the law would be complied with by insurance companies depositing with the territorial treasurer deeds to real estate in New Mexico to the value of \$10,000, properly executed and recorded, or by the deposit with the territorial treasurer of real estate mortgage bonds to the amount named, the real estate securing the same to be situated in the territory of New Mexico, and to be of a value sufficient to make said bonds worth their face.

The concluding paragraph of section 1, which reads as follows: "That they shall not charge any higher rates than those charged on the 1st day of January, 1897," means, that if insurance companies shall not charge any higher rates of premiums than those charged on the 1st day of January, 1897, it was apparently anticipated by the legislature that such companies would attempt to offset the expense of this required deposit by increasing the rates charged on policies taken out by them. Whether this anticipation was justified in fact, I do not know, but it was evidently to guard against any such retaliation on the part of the companies that this paragraph was attached to section 1, as above stated. Very truly yours,

ALBERT B. FALL, Solicitor General of New Mexico.

Fresh vaccine, points and tubes just received at Fischer & Co.

## IN DISTRICT COURT CIRCLES.

An Assault and Battery Trial in Progress in Territorial District Court—Cases Set in U. S. District Court.

In the Territorial District court, Judge Laughlin presiding, the trial of the Territory vs. Luis Gonzales, indicted for assault and battery, is on trial before a jury. The specific charge against the defendant is that he brutally beat and destroyed the home of a woman.

United States District Court. Beyond impeaching and charging the grand jury and setting a number of cases for trial, nothing has so far been done in the United States District court. Among the cases set for trial is that of the United States vs. Joseph Routledge, for unlawfully cutting timber on government land, which was tried two years ago, wherein defendant was convicted, but upon appeal was granted a new trial. The case is set for the 11th of this month. General E. L. Bartlett is for defendant and U. S. Attorney Childers for the government.

Church Announcement. The Church of the Holy Faith: The usual services of the festival of the Epiphany tomorrow at 11 o'clock sharp. J. L. Gay, Priest in Charge.

## Table Board.

For best table board at \$5 per week apply to Mr. Bush, first house south of Palace hotel.

The best Kansas City meats and all kinds of game in season at the Bon Ton.

## Civil Service Examination.

The United States civil service commission announces that, on February 7, 1898, an examination will be held at Phoenix, Fort Huachuca, Albuquerque and Nogales, Ariz., and Santa Fe, N. M., for the position of transportation agent in the quartermaster's department at Fort Huachuca, at a salary of \$600 per annum.

A very light educational test will be given. The principal duties of this position are the checking way-bills and keeping records of supplies received and shipped.

Persons desiring to compete in this examination should at once write to the secretary of the board of civil service examiners at Phoenix, Albuquerque, Nogales, or Santa Fe, or to Lieutenant E. E. Brewer, at Fort Huachuca, for application blanks, Form 361, which should be properly executed and promptly forwarded to the commission at Washington, D. C.

No application will be accepted after the hour of closing business on January 28, 1898, & Co.

Kokaks and kodak supplies at Fischer & Co.

## Seligman Bros. . .

The pioneer dry goods and clothing merchants of Santa Fe, always lead all competitors in their line of business.
