OJO CALIENTE

(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barrenas Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year around. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1682.34 grains of alkaline salts to the gallon, being the richest alkaline hot springs in the world. The efficacy of these waters has been thoroughly tested by the numerous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis, Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:48 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. Attack on Santiago By Land and Sea.

Furious Fighting Continued all Day--Sampson's Fleet Engaged The Forts--General Shafter's Forces Advanced on the City--Only Meager Details Obtainable.

Washington, July 1, 4:30 p. m.—The signal office has received the following from one of its officers at the front: "The American troops are driving the Spanish back. The wounded are being brought in right along."

Washington, July 1.—General Shafter has reported to the president that he began an attack on Santiago this morning, and that battle is now going on, beginning with active skirmishes. The dispatch was received by the members of the cabinet with much enthusiasm. No doubt was expressed of our forces winning the day.

General Shafter's Dispatch to Secretary Alger.
Secretary Alger received the following dispatch from General Shafter dated at 9:45 a. m. today: "Camp at Sevilla, Cuba, July 1.—Action now going on, but firing is light and desultory. Begin on the right near Caney by General Lawton's division. He will move on the northeast part of the town of Santiago. Will keep you continuously advised of our progress."

PUERTO RICO COMES NEXT.

Major General Brooke Ordered to Have First Army Corps Ready to Move Within Ten Days.

New York, July 1.—A special to the Times from Washington says: The Puerto Rican expedition, the next number on the program after the surrender of Santiago, is to be led by Major General John R. Brooke, now commanding the first army corps at Chickamauga, who will be made military governor of the island after its capture. General Brooke has been ordered to get his corps, composed of 27 regiments of volunteers, ready to move to Tampa within a week or ten days. From there they will be sent to Santiago preparatory to the movement on San Juan, which will be made from Southeastern Cuba, as a base.

By the time General Brooke's force arrives at Santiago, General Shafter has not succeeded in taking that town, as many men as are needed will be landed to re-enforce him. If, however, as is more likely, General Shafter has practically, if not actually completed his task, when General Brooke arrives, the plan is to land a portion only of the volunteers to help form an army of occupation for the province of Santiago, and take on board the bulk of regulars now in General Shafter's command and proceed to Puerto Rico, it will remain for the other ranking major general in the regular army, General Miles, to lead the main expedition against Havana, when the time comes for the final movement to drive the Spaniards out of Cuba.

Were Slowly Poisoning the Carina.

London, July 1.—A special from Bucharest, the capital of Roumania, referring to the report from Vienna on June 25, that the Count and Countess Zinaff, said to have been respectively the chamberlain of the czar and the lady in waiting to the czarina, had been arrested on the charge of attempting to poison their majesties, says: "The czarina showed signs of slow poisoning from arsenic, which had been administered daily to her in cups of coffee by the lady in waiting." "The czarina," the dispatch adds, "is very unpopular and is frequently dubbed the German."

WAITING FOR AMERICAN TROOPS.

General Aguinaldo Under Promise Not to Enter Manila Until Americans Arrive—Germany's Position Regarding Philippines.

London, July 1.—A representative of General Aguinaldo, the leader of the Philippine insurgents, now in London, is quoted as saying that before General Aguinaldo left Hongkong he promised Rear Admiral Dewey not to enter Manila until the arrival of the American troops. General Aguinaldo's representative adds that he has just received a dispatch from Cavite saying that a republic had been proclaimed there by the general under the protection of the United States, and approved by Great Britain and Japan. The Philippine leader asserts that he has been to Berlin, where he saw the under secretary of the foreign office, who declared that all Germany wanted was that the existing import tariff would not be altered by a republic being established in the Philippine Islands, or at least that preference should not be given any other nation.

PEACE RUMORS IN SPAIN.

Premier Sagasta Says They Are Absurd—Bishop of Segovia Declared for a Holy War—Working People Desire Peace.

Madrid, July 1.—Premier Sagasta, in an interview today in regard to peace rumors said: "They are absurd. I am astonished that any attention is paid to them. There will not be and cannot be any discussion in regard to that matter. I affirm this absolutely. The government cannot treat for peace now. That action depends on developments, and the government will not act until the proper time." While the bishop of Segovia has declared in favor of peace, the bishop of Barcelona has issued a pastoral letter in favor of a holy war.

The chamber of agriculture of Barcelona has again petitioned the government in favor of peace. The central committee of the Socialist party has issued a circular pointing out the folly of continuing the war in view of the

Eight Americans and Nine Cubans Wounded
Signal Officer Allen sent a dispatch saying that the fighting was growing furiously at Santiago. Eight Americans and nine Cubans had been wounded. Admiral Sampson's fleet is hotly engaging the forts.

General Attack By Land and Sea.
Pelaya del Este, July 1, 11:20 a. m.—A general assault on Santiago by land and sea by the forces of the United States began this morning. The Vespers used her dynamite guns with good effect. Hard fighting was in progress along the line at 11 o'clock.

General Lawton advanced and took possession of Cabana, a suburb of Santiago. Morro castle and the other forts at the entrance of the harbor were bombarded by our fleet. The Spanish fleet in the harbor fired on the American troops, who were very close to the city. Nine wounded Cubans have been brought in.

Rumor That Santiago Has Fallen.
Washington, July 1.—A rumor was in circulation here this afternoon that Santiago had been captured, but at 2:45 p. m. Adjutant General Corbin said there was no dispatches here to confirm the rumor.

SITUATION AT MANILA UNCHANGED.

Spaniards Erecting Defenses—Insurgents Within 2,000 Yards of the City—Foreign Men-of-War in Harbor.

Hongkong, July 1.—The Japanese cruiser Matsushima arrived today from Manila, which port she left on June 27. She reports that the American transports had not then arrived. The situation was unchanged, the Spaniards continuing to erect defenses, with the insurgents occupying positions within about 2,000 yards of the city. There were five German and four British warships in the harbor.

TERRITORIAL LAWS FOR ALASKA.

Ex-Secretary Sherman Has Returned from the Northwest—His Ideas Concerning the Government of Alaska.

Seattle, Wash., July 1.—Ex-Secretary John Sherman arrived last night from Alaska. He said: "Alaska would be better governed had she regular territorial laws. I believe it will be only a very short time until congress gives her these. It may be years before statehood can be given. That prohibition law to which the Alaskans object so strongly does not seem to prohibit entirely, as I noticed a great many saloons. If the law cannot be enforced it would be better were it taken off the statute books."

EVIDENTLY A COWARDLY ACT.

Red Cross Flags Displayed in Front of Spanish Entrenchments to Prevent Americans Firing on Them.

Copyright by Associated Press—Gen. Kent's headquarters, near Aguadores, June 30, 3 p. m. via Port Antonio Jamaica July 1.—The Spaniards in front of General Kent's line adopted a new method of preventing him firing on their works. They have a string of frequent intervals, red cross flags, the line being directly in view of their entrenchments. It is thought at General Kent's headquarters, is to prevent the Americans from firing in the direction, or if the red cross is ignored will spread the report that American soldiers are violating the rules of civilized warfare in firing upon hospitals.

CONGRESSIONAL.

Senate.
Washington, July 1.—In the senate the Hawaiian annexation resolutions were taken up. Mr. Pettus (Ala.) made the first formal speech delivered since the opening of the present session in favor of the resolutions. At the beginning he said he proposed to particularly address himself to those with whom, during his life, he has been associated politically.

Assistant Secretary to the President.
President McKinley today appointed George Bruce Cortelyou, of New York, assistant secretary to the president to fill the additional position recently created by congress. For nearly three years Mr. Cortelyou has been the executive clerk of the president. He was born in New York City July 26, 1862, and belongs to one of its oldest families. Bankruptcy Bill Passed.
The president signed the bankruptcy bill this afternoon.

PLAN OF THE BATTLE

Disposition of Troops Made for Today's Attack on Santiago—Lawton's Division Lead.

SUFFICIENT SUPPLY OF FOOD

American Scouting Parties in Front of Caney Have Not Been Attacked—Cubans Holding Mountain Passes Against Re-enforcements.

Copyright by Associated Press—Off Juraguá, June 30, via Port Antonio, Jamaica, July 1.—Over 15,000 American soldiers, including all the regular troops now operating in Cuba and those of the volunteer regiments, supported by 4,000 Cubans under General Garcia, lie tonight within view of the Spanish entrenchments at the east of Santiago, ready for a forward movement in the morning, which may lead immediately to a general assault on the city. The advance will be made by General Lawton's division, forming the right wing, and if the Spaniards show signs of retreating, or if circumstances otherwise warrant it, General Wheeler's division and General Kent's division doubtless will join in the advance and endeavor to drive the Spaniards before them and enter the city.

While the movement may not reach this extent tomorrow, its purpose is to force the 5,000 men of General Lawton's command two miles further forward than they are now, to the little village of Caney and to occupy the ridge overlooking the city and harbor, from which our artillery fire can be raised upon the Spanish entrenchments in front of the city and upon the large body of Spanish soldiers holding them. The Americans may be enabled to accomplish this movement in one day, and postpone further advance until the light artillery and siege guns can be placed in position on the ridge, and preparations be made to pour a deadly fire of shell and shrapnel into the entrenchments, dislodging the Spaniards and enabling the main body of the American forces to carry the city by storm. It is believed at the same time General Lawton advances, General Kent's division on the left will attack Aguadores on the coast, four miles east of Morro castle, which will give our army a base much nearer Santiago than the present one near Juraguá.

Until today our men at the front have been subsisting on half rations, but owing to the excellent work of Colonel John Weston, chief of the commissary department, supplies have been sent to the front by rail from the city with dispatch, all day and night, and our soldiers are no longer in want of food. Though they have been drenched with rain several days and suffer from a lack of sufficient food, the spirit of our soldiers is all that could be desired, and they are eager for a general attack on the enemy's stronghold. The 3d and 20th infantry, the last regulars to remain at Juraguá, went to the front today and the 23d Michigan will break camp early in the morning to join General Kent's division on the coast, carrying nothing at Juraguá except the supplies and the large field hospital in charge of the chief surgeon's corps prepared to attend to the wounded who may be sent there from the field hospitals at the front. With our troops lying almost at the gates of Santiago, supported by the great fleet of warships, lying just outside the entrance of the harbor prepared to demolish the Spanish shore batteries if they attempt to stop the progress of our army, the fall of the City of Santiago seems near at hand, and the majority of our soldiers sleeping tonight on the eve of events which are to occur tomorrow, believe the American flag will float over Santiago on the nation's birthday, Monday next.

Investment of Santiago Will Follow Capture of Caney.

Copyright by Associated Press—With the United States army, five miles east of Santiago, June 30, via Playa del Este, July 1.—The American forces, now numbering nearly 17,000 men, still occupy a position in a long line five miles east of Santiago, but no forward movement has been made during the past 24 hours, owing to the difficulty experienced in forwarding sufficient supplies from the base at Juraguá, and the fact that it has not been possible up to the present to send the light artillery and siege guns to the front from Balquer. Major General Shafter is at the front conducting a reconnaissance in person. The American troops have made no contact as yet with the Spaniards, upon the coast near the left wing of the invading army, where the new base may be established later. Caney, which commands the land entrance to Santiago, lies close to the Americans' right wing and probably can be taken without difficulty soon, as it is held by only a small guard of Spanish troops.

American scouting parties have been within 100 yards of Caney without being attacked, and the roads in that vicinity have been repaired and improved by our troops, indicating that the artillery will be moved in that direction. It is believed the investment of Santiago will follow the capture of Caney. There are about 5,000 Cubans operating with the American army at the front, and the Spanish force defending Santiago is estimated at from 12,000 to 20,000 men. In addition General Pando, the Spanish military commander in the field, is marching from Manzanillo, some 127 miles to the west, with 8,000 men, and unless checked by the small force of Cubans now holding the mountain passes, ought to reach Santiago in his efforts to support General Linarez in a few days.

Reported Capture of the St. Paul.

New York, July 1.—The Journal prints a dispatch this afternoon saying that a cablegram received at Cape Haytien from Mole St. Nicholas, reports the capture of the U. S. auxiliary cruiser St. Paul, Captain Sigbee commanding, on Tuesday last. The Journal discredits the statement.

Journal Dispatch a Fake.

New York, 4:30 p. m.—The United States cruiser St. Paul passed into Sandy Hook at 4:25 p. m. The previous report that the St. Louis had been sighted was an error.

MANZANILLO BOMBARDED.

Defenses Badly Damaged by Four Warships—Balloon Sent Up from American Camp.

New York, July 1.—A correspondent in Santiago telegraphs to the Journal that four United States warships bombarded Manzanillo, on the gulf of Guacanayabo last Thursday, inflicting much damage to the defenses. The Spanish gunboats, according to this dispatch, opened fire upon the American warships, and then moved out of range. The same dispatch reports that a balloon sent up from the American camp was seen from Santiago on Thursday. In the balloon were two men, seemingly taking observations of the Spanish fortifications.

Cruiser Topeka Put to Sea.

New York, July 1.—The United States cruiser Topeka went to sea early today, after having undergone a thorough overhauling at the navy yard. The Topeka was built in Germany ten years ago for the Brazilian government, but was never delivered. Subsequently the cruiser, then known as the Diogness, was reconstructed on the Thames river, where she was purchased for this government just before the breaking out of the war with Spain.

SPANISH REPORT OF BOMBARDMENT.

Claims That Attack on Manzanillo Resulted Disastrously to American Warships—Soldiers in an Ambush.

Madrid, July 1.—A dispatch to El Imparcial, from Santiago, says that four American warships bombarded Manzanillo, at 4 o'clock this morning, and that with one vessel seriously injured. The dispatch asserts that only one Spanish peasant was wounded during the bombardment. The dispatch says that a firing party of Americans fell into an ambush yesterday, and one was killed and two others captured.

SOLDIERS IN HIGH SPIRITS.

Army Near Santiago Eager for Action—Military Balloon of Incalculable Value to the Troops.

Washington, July 1.—General Miles this morning received a dispatch from General Breckenridge, inspector general of the army, stating that the spirit of the troops was high, and that they were eager and expectant of action. General Miles also received another dispatch, sent quite early this morning, from General Shafter's headquarters, saying that a military balloon was high in the air, and giving an opportunity for observation over a great sweep of country. This in itself was of incalculable value to our troops.

WITHIN TWO MILES OF SANTIAGO.

Telegraph and Telephone Station Located Close to the Scene of Action—American Lines Still Advancing.

Washington, July 1.—General A. W. Greely, chief signal officer, has received a dispatch from Lieutenant Colonel Allen, chief signal corps officer in Cuba, announcing that a telegraph and telephone station has been established within two miles of the city of Santiago. This information is of the highest importance to the officials of the War department, as it insures to them direct communication with General Shafter. The telegraph station being of course, within the American lines, its location conclusively indicates that the forces under General Shafter have established themselves in advance of telegraph communication.

Plenty of Money in United States.

Washington, July 1.—Inquiries at the Treasury department elicit the information that the total subscriptions for the bond issue of \$200,000,000 aggregated \$790,000,000; of this amount there have been received and absolutely accepted subscriptions in amounts of \$500 and less, for \$40,000,000.

Double Hanging in Indian Territory.

Muscogee, I. T., July 1.—Henry Whitfield, alias Perkins, and K. B. Brooks, both colored, were hanged within the stockade of the United States jail today. It was the first execution in the history of the federal courts in the Indian Territory.

"I DO MY OWN WORK."

So Says Mrs. Mary Roehleth of Linden, New Jersey, in this Letter to Mrs. Pinkham.

"I was bothered with a flow which would be quite annoying at times, and at others would almost stop. I used prescriptions given me by my physician, but the same state of affairs continued. After a time I was taken with a flooding, that I was obliged to keep my bed. Finally, in despair, I gave up my doctor, and began taking your medicine, and have certainly been greatly benefited by its use. Lydia E. Pinkham's Vegetable Compound has indeed been a friend to me. I was as near death I believe as I could be, so weak that my pulse scarcely beat and my heart had almost given out. I could not have stood it one week more, I am sure. I never thought I would be so grateful to any medicine. I shall use my influence with any one suffering as I did, to have them use Lydia E. Pinkham's Vegetable Compound."

Every woman that is puzzled about her condition should secure the sympathetic advice of a woman who understands. Write to Mrs. Pinkham at Lynn, Mass., and tell her your ills.

WHERE IS CAMARA'S FLEET?

Madrid Announces That Ships Have Passed Through Suez Canal—Report Discredited in London.

Madrid, July 1.—According to a dispatch received today at the Spanish ministry of marine, Admiral Camara, in command of the Spanish fleet, recently at Port Said, Egypt, has passed through the Suez canal, apparently on his way to the Philippines.

Report Discredited.

London, July 1.—Officials at the United States embassy discredit the Madrid dispatch saying that Admiral Camara has passed through the Suez canal. They say he had not entered the canal this morning.

Entered the Canal.

Port Said, July 1.—Two Spanish colliers have entered the Suez canal.

German Admiral Refused to Interfere.

Berlin, July 1.—The following dispatch has been received from Hongkong: "According to trustworthy intelligence from Manila the Spanish governor general had, a few days ago at his own request, a meeting with Admiral Dietrichs, commander of the German naval forces in the far east, in order to propose in behalf of the Spanish government, that Manila should be handed into the provisional charge of a neutral commander. The proposal was rejected by Admiral Dietrichs in view of the American blockade."

DON'T SPEAK IN PASSING.

Because Admiral Cervera Could Not Leave Santiago Harbor, General Blanco Feels Chilly.

London, July 1.—The Pall Mall Gazette correspondent at Madrid telegraphs that a coldness exists between Captain General Blanco and Admiral Cervera. General Blanco ordered Admiral Cervera to leave Santiago. The admiral replied that he would be glad to leave, but his guns were dismounted, he was without coal, and the American admiral was waiting outside.

Orders to Move Countermanded.

Chattanooga, Tenn., July 1.—In the midst of preparations for the 1st Ohio cavalry to go to Lakeland, Fla., this morning, the moving orders were countermanded by the War department. It is not known when the regiment will leave. It is said the government is awaiting the issue of today's battle before sending any more troops south.

FRIDAY, JULY 1.

The brand of Cubans, fighting with General Shafter, is all right.

General Shafter weighs nearly 300 pounds. When he does come down on the Spaniards, he will come down on them heavily, you may rest assured.

If this country is compelled to keep the Philippine islands, there will be room for a good many office seekers and surely our friends from Ohio will not be found lagging behind.

New Mexico is furnishing a good many volunteers, considering the ratio of its population to the calls for troops. New Mexico does not propose to be behind in the procession and gets there somehow or another.

Admiral Camara's fleet is still floundering about the entrance to the Suez canal. The Mediterranean is not dangerous to Spanish men-of-war for the present and a good place to flounder about in.

Collectors of taxes should bear in mind that the funds collected from tax levies are absolutely necessary for the maintenance and support of the territorial and county governments and should therefore perform the duties of their offices promptly and energetically.

The people of small means, who bought up the recent war loan bonds, are not at all dissatisfied with the conduct of the war. They know that the government is doing all that can be done and have no fear either for the government or for the bonds they bought.

The Ohio campaign is progressing nicely this year, although without the aid of Governor Bushnell and Mr. Kurtz. This is about as good a year for the measuring of swords by the Republican factions in that state, as can well be had; the result of the election will clear up the political situation there mightily.

The shon pure Democratic newspapers of Kansas do not approve of the Populist-Democratic fusion ticket now in the field. So far eight of them have repudiated the combination and are fighting it. The Democratic newspapers of the Sunflower state are awakening to the fact, that fusion means all for the Pops and nothing for the Democrats.

The right kind of men seem to have hold of the affairs of the Santa Fe Fruit company. The people of this city and especially the property owners should aid this enterprise with every means in their power, as it promises to prove of great benefit and utility to this section and to this city. Public spirited and good citizens should give this company all possible support. The citizen, who subscribes for its stock, will help this city and help himself.

Hundreds of farmers who, two years ago, were strong Populists and voted and worked for Mr. Bryan's election, are found to be purchasers of bonds under the recent war loan. It is gratifying to see how the sunshine of prosperity is dispelling the gloomy clouds of Populism and fiat money in this country. The farmer who buys a bond that will be paid principal and interest, in the best money the world knows, will not vote the Populist ticket hereafter. That can be depended upon.

The Silver City Independent remarks: "B. T. Link, who made such an efficient superintendent of public instruction three years ago, will be a candidate for the same nomination on the Democratic ticket, and will be strongly backed by the Central delegation. H. H. Betts will more than likely be the Republican nominee."

Mr. Betts is well known in this city and county and his many friends here hope he will be nominated and elected. He certainly has all necessary qualifications for the office named and would fill it acceptably and well.

There is a goodly lot of people in this country, hard at work trying to find something in the constitution forbidding the acquisition of new territory by the United States. They have read the document and its amendments through and through and read it over and over again but so far have in reality found nothing to suit them. The fact is, that the constitution contains nothing that can be construed as against the powers of the government to acquire new territory. That instrument makes provision for the disposition of new territory, which is a plain admission that it can be acquired; but it is silent as to the right, for the reason that such a right was of the very essence of government or sovereignty, and it would have been

ridiculous to define it. Every state on earth, from the time of the Pharaohs to the present, has claimed and exercised that right as a part of its sovereignty and necessary to its being.

The men who made the constitution were great-minded. They did not deem it necessary to include in the instrument what was universally conceded, but they made express provision for the territory that would be acquired by the exercise of this inherent exercise of sovereignty.

The concert of European powers may not regard it as a serious matter and it may not look very plausible, but still the question of an Anglo-American alliance is being pushed to the front by the inexorable trend of events. A sinister suggestion of German interference in the Philippines, coupled with Austria's open and France's secret support upon his haunches in solemn and somber silence, are not necessarily signs and omens, but to the excited imagination of an awakened public they have a suggestive significance. England's attitude of friendship so far is in sharp comparison.

The Hawaiian Debate.

The debate on the Hawaiian annexation resolution in the senate is assuming a most ridiculous aspect, and the anti-annexationists are furnishing the country with a whole lot of amusement. For a time, at the beginning of the jaw show, the friends of the resolutions displayed some little exasperation over the delay caused by so much talk, but when a test vote determined that a majority of the senators were in favor of annexation they settled down to enjoy the burlesque.

Yesterday, Mr. Bate, of Tennessee, lost his temper and declared that the people had a fever and were forcing the senate into an act of madness. Mr. Tillman, the famous, was somewhat out of humor himself, and accused the majority of the senate of being up to "devilment," and said "something was rotten in Denmark." These things are amusing and also indicate that the opposition is fast nearing the end of its string. According to an understanding among any talking, and that of itself is very discouraging to the few men who have undertaken to talk the resolution to death.

One of the dignified senators, a few days ago, made the assertion, in a harangue against the resolutions, that the sugar trust was responsible for the annexation sentiment in congress, and that a mighty trust was leading a republican form of government to destruction. The general supposition over the country is, and some fairly good reasons exist for that supposition, that the sugar trust is using every art known to lobbyists to defeat a measure which promises to break the hold that corporation has on the people at present in the price of sugar.

But then the sugar trust is not held in very deep affection by the masses, and while annexation of the Hawaiian islands may cause Mr. Bate, Mr. Tillman, and their friends great sorrow, the greater part of the people will be highly pleased when the talking match has been declared off and a vote taken.

Protection and Markets of the World.

Another of the pet theories of the free traders has been sent glimmering into the region where fallacies usually bring up an utter wreck, smashed beyond all hope of repair. For years the free trade argument has been that in order for the United States to sell goods in the markets of the world, the home markets must be thrown wide open to foreign competition, but a report just issued by the treasury department on exports for the year 1895, completely disproves this theory.

According to that report the exports from this country to Japan in 1895 amounted to \$13,250,000, which is over 75 per cent more than the exports in 1890 and almost three times more than those in 1885. While this vast increase in exports has been going on there has been an actual falling off in the imports from Japan. In 1897 that country shipped to the United States goods valued at \$24,000,000; in 1895 the imports were \$25,500,000. It is evident, therefore, that this increase is not due to any free trade legislation on the part of this country. In 1895, when imports were the largest and the exports the smallest, the Wilson-Gorman bill, that paragon of Democratic legislation, was in effect. The increase is the direct result of the ability of this country to sell certain commodities abroad cheaper than any other nation can sell them. It is purely a matter of competition, in which the manufacturers and merchants of the United States have proved themselves able to underbid those European countries which, until recently, have practically had things their own way.

The success of this country, under such circumstances and conditions, is indisputable evidence that many of the industries of the United States have arrived at a stage of development where they can command the trade of the world with a little effort put forth in ascertaining the requirements of foreign markets and filling them. Without protection such a result could never have been attained. The immense advantages of this country as a producer in certain lines are set forth by a recent consular report to the British government from its agent in Japan. This statement cites a recent case in which bids were asked on some locomotives. The English manufacturers offered them at \$12,000 and to deliver them in 12 months. The American builders agreed to make them for \$8,000 and ship them in 14 weeks. It is not necessary to state who got the contract.

The trade records show a great increase, not only in iron and steel exports from America, but also in chemicals, leather, oils, tobacco, wooden

manufacture, and many miscellaneous items not especially enumerated. It is plainly demonstrated that this country's ability to compete for the trade of Japan has developed much more rapidly than that of any other country. Nor does this condition apply to Japan alone. American manufacturers have bid on contracts in England within the past year and secured them, while factories in some parts of that country have been compelled to stand idle for the lack of work of the same kind. American goods are finding their way into the markets of France, Germany and Russia in greater quantities than ever before known, and that while the iniquitous Dingley law is ruining the country, according to free traders, the Democrats and Populists. It is plainly to be seen that the Cobdenites will have to trump up some other argument with which to support their pet theory.

An Asinine Proposal.

(New York Evening Sun.)

Of all the assinine proposals made during the present war, that of the New York Herald in favor of a joint American and Spanish protectorate over the Philippines is the worst. We warn Spain that she will never get the value of her representative for this country. Gordon Bennett to his own intellectual resources. She must see that someone else edits the paper.

A Colfax County Candidate for the Legislature.

(Raton Range.)

Colfax county desires an honest and capable legislature. With that end in view strong pressure is being used to persuade Colonel J. W. Dwyer to make the race on the Republican ticket this fall as representative for this county. The colonel is a man of large experience in public affairs, of conceded ability and possessing the sterling integrity that will place him beyond the attempts of the corruptionists that haunt New Mexico's legislatures. Colonel Dwyer can be nominated and elected if he will consent.

Sensible and Patriotic.

(St. Louis Republic.)

It is gratifying to note that the president will forego the usual vacation during the heated season. His determination to stay by his "war room" indicates that he has no intention of letting up on the campaign work in Cuba, Porto Rico, and the Philippines. This is right. The greater the vigor with which the war is pushed the sooner it will end, and in a short war the loss of life and property will be relatively small. From this it can be seen that one of decisive aggression, even to carrying it to the shores of Spain.

A Pleasing Peculiarity.

(Marat Halstead in Brooklyn Standard Union.)

It is a peculiarity of President McKinley that he likes congressmen. He isn't anxious about the prerogatives of his office; he likes to have congressmen around him and to throw certain responsibilities upon them. After unloading all the blame he can on the representatives of the people and of the several states, he finds a vast abundance of business on hand and sufficient responsibility to command his consistent attention.

The Wood-Roosevelt Regiment.

(Washington News.)

When the regiment which is now generally known as Roosevelt's Rough Riders was organized, there were people disposed to smile at it. In every war there have been regiments which were very pretty on dress parade but not terrible in action. Somehow or other, when the going got rough, they just plain numbers for their names were storming a mountain, against the vigorous protests of the enemy, or fighting desperate guerrilla battles in the woods, the pretty regiment always was badly needed to guard the stores. And, owing to the fact that the Rough Riders were exploited in the columns of newspapers, and the drift of public conversation, there was a dim suspicion in the minds of some people that it might be a sort of hippodrome company.

This reputation was not at all to the taste of either Colonel Wood or Lieutenant Colonel Roosevelt, and, as one might have expected, it was the latter who entered vigorous protest. He said that he did not wish to have his regiment known as "Roosevelt's Rough Riders." It sounded too much like a circus. "What he did wish the regiment called was 'The Rough Riders,' and nothing of that sort—everybody has forgotten what by this time. It did not make any difference. They were "Roosevelt's Rough Riders" till they reached Tampa, and then they became "Teddy's Rough Riders," and by the time they were "Teddy's Rough Riders," the thing of that sort—everybody has forgotten what by this time. Cause of the Trouble.
Jaggs—What's good for insomnia, doctor?
Doctor—How long have you been troubled with it?
Jaggs—Oh, I haven't got it all, but my wife has. Sometimes she doesn't get to sleep until 2 or 3 o'clock in the morning.
Doctor—Well, I'd advise you to try going home earlier.

The Great Battleship Oregon.
The trip of the Oregon around Cape Horn, a distance of 13,000 miles, without doing any particular damage to her machinery, is an achievement in which we all take pride. It is like the man or woman who reaches the ripe old age of 100 years. Very few do it, but a great many could if proper care be taken of the health. At the first sign of disorder in the stomach, liver or blood, help should at once be secured by taking Hostetter's Stomach Bitters. The stomach is the starting point of nearly every disease, and the Bitters correct the ailments of that important organ. With the digestive organs in a healthy state, the length of life is increased.

Before She Capitulated.
What wheel do you ride now, Bearings?
The same as always, only this year's make.
And your wife?
Oh, she is riding some sort of a cheap wheel. I forgot the name.
But you both used to ride and swear by the same make.
Yes, I know, but that was before we were married.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by A. C. Ireland.

Dropped for a Fall.
No, she said, I am sorry but it can never be. I must ask you to release me from my promise.
Why, he cried, what have I done? Who has dared to say aught against me? It is nothing that you have done or that you can help, she gently replied, and I am sorry for you; but I can never bring myself to marry a man who has insanity in his family. I have just heard that an uncle of yours used to give paracheute exhibitions at county fairs.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare, Bros., Cincinnati, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by A. C. Ireland.

A Future Sororician.
Annie—My mamma is going to have a new woman to do the washing.
Etta—Oh, no; you don't mean a new woman; you mean a new washerwoman. New woman and washings are not on good terms.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk, Iowa. For sale by A. C. Ireland.

Innocents Abroad.
Mrs. Lakeside—Garcon, garcon, don—don—don—donnez moi—oh, why don't you waiters understand English?
Waiter politely—Why doesn't madam speak it?

"I have used Chamberlain's Cough Remedy in my family for years and at all times with good results," says Mr. W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by A. C. Ireland.

75 MORE "ROUGH RIDERS" WANTED.

Plenty of Men for the Volunteer Infantry

Ready - Military Notes.

Local physicians report a great number

of cases of Manila fever.

The new Las Vegas company of volunteer infantry will be composed of the pick of the young men of the city.

There will be some native volunteers. "It's not so Bland," after all, when patriotic issues are at stake. Another batch of volunteers came in from there last night.

Here is an item which the Spanish war correspondents should paste in their hats: "Madrid is furnishing the New Mexico volunteer infantry company with a large number of recruits."

One volunteer presented himself for examination for service in the 1st U. S. volunteer cavalry this morning. No business was done by the examining board up to noon.

The new "Rough Rider" volunteers are now provided with a drum. The boys are going to Cuba, even if they are forced to beat their way to the front.

The "Rough Riders" have been provided with a car streamer which reads: "In God's Own Light and in Open Fight We Will Remember THE MAINE."

Captain W. C. Reid's Company B, of the territorial volunteer infantry, will be recruited at Mora, Raton, Springer, Clayton, Watrous, Rociada, La Cueva and Las Vegas.

A "testament fund" has been started for the purpose of providing the new volunteers with testaments. Mrs. Woodruff is receiving contributions at the Historical society rooms.

The enlistment blanks have not arrived yet and it is doubtful if the work of examining volunteers for Company C, 1st battalion U. S. volunteer infantry, will begin before Monday.

Captain Strover is a hustler of the first water and the success of securing volunteers for Company C, is due almost wholly to his efforts. Sufficient men have signified their intention of enlisting to fill the company.

Governor Otero received a telegram today from Major Hersey stating that Colonel Wood had requested that 75 men, in addition to the 100 now in Santa Fe, should be enlisted from New Mexico, for service in the 1st U. S. regiment of volunteer cavalry, better known as the "Rough Riders."

Company C, 1st battalion volunteer infantry, was this morning presented with an eagle, which will be taken to the Philippines as a mascot. It is hoped it will emulate the example of Old Abe, the mascot for the famous 2nd Wisconsin, and lay a few eggs at times when hard tack gets monotonous.

The town of Cerrillos has shown its patriotism in an uncertain manner. "So far that place has furnished 38 men for service in the present war. A part of the men are in the New Mexico battalion of the 1st U. S. volunteer cavalry and the rest are in Santa Fe awaiting examination for enlistment in the territorial volunteer infantry."

Captain William Strover, of Company C, has returned from the southern part of the county, where he was on recruiting duty. He secured about 20 volunteers in that section and has left two men drumming up more recruits. It looks as if Company C would be quickly filled to its maximum as soon as enlistment commences; this will be as soon as the necessary blanks reach here from the adjutant general's office in Washington.

A gentleman who has traveled extensively in foreign countries, gives good advice to soldiers going to Cuba, in the following: "After being in the most malarious jungles on earth, in the midst of swamps, drinking swamp water and often being forced to eat of not cooked food, I never had but one attack of fever and that only laid me out six or seven days. I owe my excellent health to two or three precautions. I never slept on the bare ground or in the rain, and always under shelter. I always wore light flannels next to the skin, and never slept in damp clothes. Whatever else I might have to do with, besides the one I had on, were always at hand. Take from five to six grains of quinine every morning, in a cup of hot coffee if you have it, and if not, then in a cup of hot water. Have your shoes it you. The United States furnishes an excellent marching shoe. With these precautions and a dose of some light laxative once a week, there need be no more fear of fever in Cuba than in New Mexico."

MINOR CITY TOPICS.

Fourth of July celebration promises to be a creditable affair.

J. S. weather bureau forecast for New Mexico: Fair tonight and Saturday.

Florencia B. Walsh, of Pena Blanca, Bernalillo county, has been granted a widow's pension of \$8 per month.

A number of the employees of the New Mexican printing office will take a lay off on Monday, July 4th, and go fishing.

The officials of the internal revenue office and of the First National bank here are very busy these days with war revenue stamp matters.

S. Rosenthal was around today seeking signatures to a petition requesting Governor Otero to grant the organization of a home guard for Santa Fe.

The Associated Press has put up the rates for its news dispatches. These latter come high now, but the New Mexican does get them and gives its readers a first-class afternoon news report.

At the regular meeting of Paradise lodge No. 2, I. O. O. F., last evening, the following officers were elected for the ensuing term: Alex Read, noble grand; S. B. Warner, vice grand; Abe Gold, treasurer; H. W. Stevens, secretary; Lee Muehlenstein, trustee.

A dispatch received here this forenoon from Gallup, announces that J. D. O'Brien, a well known citizen of that town, died suddenly at five this morning. Mr. O'Brien was well known here, two of his children having attended the Loretto Academy here during the past school term.

Under the new revenue war tax act the A. T. & S. F. railroad will pay for all stamps to be placed on drayage tickets and bills of lading unless duplicate receipts are called for in which case the party receiving same will be required to pay for such revenue stamps. The Wells-Fargo Express company will also pay for all revenue stamps placed on their receipt drafts, etc., with the exception of stamps placed on money orders which will have to be paid for by the party purchasing the order.

INTERNAL REVENUE COLLECTIONS.

District of New Mexico and Arizona Made

a Remarkable Showing for Past

Fiscal Year.

Internal Revenue Collector Morrison has closed up the business in his office for the month of June, and also for the fiscal year ending June 30, 1898.

The collections for the past month amounted to \$5,426.20, of which amount \$2,760.45 was for the new proprietary and documentary stamps, issued under the new war revenue law. For the fiscal year just closed the receipts from the New Mexico and Arizona district were \$31,050.

This is a remarkable showing for a district so sparsely settled and proves conclusively that business is rapidly improving. Collector Morrison has kept his office up to the highest standard and naturally feels somewhat satisfied over the returns made to the treasury department for the first nine months he has been in charge of the New Mexico and Arizona internal revenue collection district.

SANTA FE FRUIT COMPANY.

Progressing Satisfactorily - Stockholders Should Pay Up Promptly - Directors Doing Good Work.

The directors of the Santa Fe Fruit company held an interesting meeting last Thursday. President Harroun presiding. They are going on with the work with a happy mixture of energy and prudence, which is the sure harbinger of success. For some time they have been in correspondence with E. J. Gleason, Esq., of Michigan, who is extensively interested in fruit evaporating and preserving in that state with a view to his coming to Santa Fe to give the benefit of his long experience in the arrangement of the works. Mrs. Rivenburg, who is one of the directors, has now made the arrangements with Mr. Gleason in Denver, and he will arrive here very soon. As the fruit crop to be cared for begins with early apricots and plums about July 20, great energy is now necessary to hasten the preparations. Some stockholders have not yet sent in their subscriptions and these should be sent in as soon as possible to facilitate the work, and not place on the directors, who are giving their time freely to the work, the additional burden of having to call for the money.

Everything used in making our soda water and syrups is of the best quality that can be bought. Try it and be convinced. Fischer & Co.

COURT OF PRIVATE LAND CLAIMS.

The Alfonso Rael de Aguilar and Juan de

Mestas Grants, Both Situated in Santa

Fe County, Rejected.

In case No. 234, Vicente Romero and Jesus Maria de Aguilar vs. United States, Alfonso Rael de Aguilar grant, situated in the county of Santa Fe, New Mexico, granted to Alfonso Rael de Aguilar on the 9th day of October, A. D. 1704, by Juan Paez Hurtado, lieutenant governor and captain general, and juridical possession of which is alleged to have been conferred upon said Alfonso Rael de Aguilar on the 10th day of October, A. D. 1704, by Cristobal de Arrellano, alcalde mayor, was rejected.

Attorney for claimant, C. A. Spiess, vs. United States, Juan de Mestas grant, situated in the county of Santa Fe, New Mexico, alleged to have been granted to Juan de Mestas, on the 9th day of December, 1699, by Pedro Rodriguez Cubero, governor and captain general of New Mexico, and juridical possession of which is alleged to have been given on December 10, 1699, to Juan de Mestas by Lieutenant General Roque Madrid, chief alcalde and war captain was, by the court decided to be of no validity, and the grant or concession so claimed is not such a one as the United States is bound to recognize and confirm by virtue of the treaties of cession by Mexico to the United States, by the laws of nations or by the laws and ordinances of Spain and Mexico. Rejected. C. A. Spiess, attorney for claimant.

The court spent yesterday and today in examining documentary evidence in cases set for trial, and in considering matters already before it, but transacted no business which became a matter of record.

A Wonderful Boy.
The entertainment at the court house last evening, given by the boy orator, Leon Dennett, was a great success.

The ladies of the W. B. T., many prominent citizens and the "soldier boys" were present, and Master Leon certainly had an appreciative audience, as his every appearance was greeted with enthusiastic applause.

Leon Dennett is certainly entitled to the title of "boy orator." Although but 6 years of age his manner on the stage is that of a man, while his elocutionary powers are something wonderful for a child. A large number of photographs of the boy were sold to the audience. Mr. and Mrs. Dennett and Master Leon will remain in Santa Fe until next week, and will then go to Colorado.

Globe Tunnel & Mining Company.
Articles of incorporation of the Globe Tunnel & Mining company, incorporated by F. H. Frankenberg, Felix McCarty and R.
