APPEAL TO M'KINLEY

Philippine Islands' Committee in Europe Protests Against Letter Concerning Church Matters.

WANT THE FRIARS EXPELLED

Accused of Acts of Hostility Against Both Americans and Natives—Aid Asked in Suppressing Institutions Fostered by Monks.

London, Aug. 27.—The Philippine Islands' committee in Europe has addressed a letter to President McKinley regarding the appeals made to him by high Roman Catholic ecclesiastics of America to protect the religious orders on the islands. The expulsion of the friars, the committee contends, is a necessary antecedent. The letter names particularly the archbishop of Manila and the bishops of Nueva Segovia, and Nueva Caseres, "whose acts of hostility against both the natives and Americans, and against the Jesuits and other respected religious institutions are condemned by every one."

The committee urges President McKinley "to aid the Filipinos to suppress the inhumanity of the diabolical institutions fostered by those monks," and the letter concludes as follows: "Your name can never be associated with that of the friars; and the sense of right of the noble nation at whose head you are placed; will never permit the ever victorious and humanitarian stars and stripes to protect them."

MAKING IT WARM FOR CHINA.

The British Practically Daring the Yellow Dragon to Nip the Lion's Tail.

London, Aug. 27.—Authoritative confirmation has been received from Peking by the Daily Mail asserting the relations between Taunggyiamen and Sir Claude MacDonald, British minister, are strained to a point of rupture; and Sir Claude has intimated that Great Britain will regard as casus belli the failure of China to observe her wishes.

They say the situation between Great Britain and China is acute, Sir MacDonald strenuously insisting China shall fulfill her engagements with British syndicates, and demanding satisfactory explanation with regard to the Peking-Hankow railway. If necessary the British squadron, now assembled at Wei Hai Wei, will support the British minister's demands. Meanwhile, all foreign office official negotiations conducted by Sir Charles Scott, British ambassador at St. Petersburg, to define respectively the British and Russian influences, are proceeding in a "perfectly friendly spirit."

The Cuban commission consisting of General Wade, Admiral Sampson, and General Butler will sail September 3 on the auxiliary cruiser Resolute now en route from Montauk Point to Portsmouth, Va.

This vessel was assigned to the commission because she was better provided with living accommodations than the cruiser New York originally selected for the purpose. Admiral Schley is in this city. General Gordon telegraphed today that he would be here Monday. The Yucatan had 200 sick men on board. It is alleged the ship left Santiago without a sufficient quantity of proper food or supplies for the sick, and reached here without any food but army rations which sick soldiers were unable to eat. When General Wheeler learned the state of affairs, he sent on board some proper supplies. The sick men are still on board the vessel waiting until there is room for them in the hospitals.

A HOT OLD TIME

Down in Puerto Rico, Where Anarchy Threatens to Hold Full Sway.

BURNING BIG PLANTATIONS

Guerrillas Getting in Their Bold Bad Work—Terrorized People Praying for American Protection—Throat Outing.

New York, Aug. 27.—A dispatch from Ponce, Puerto Rico, says: General Stone has just returned from the vicinity of Arecibo, and reports that a state of anarchy exists in the country districts. The withdrawal of Spanish troops gives guerrillas free play, and irregulars have sacked and burned a large plantation near Adjuntas.

General Stone says the terrorized people are praying for American protection. The Spanish formerly covered the country with mounted police, but our forces have not yet been put in charge, so the natives and Spaniards are busy cutting each others throats to their hearts content.

General Stone made a full report to General Miles last night.

THE LADIES KISSED HIM.

The Hero of Santiago de Cuba Enveloped in the Fond Embraces of Admirer Lady Clerks.

Washington, Aug. 27.—Admiral Schley came to the Navy department today quite early, and after a call upon Secretary Allen, emerged from the main door of the secretary's office. His presence had become known, and as soon as he was seen, cheers rent the air from clerks who had assembled to catch a glimpse of the hero of Santiago. Officers and clerks from the Navy, State and War departments, crowded the corridors leading up to the Navy department until it was impossible to pass through. They crowded around the admiral eagerly reaching forward to shake hands. The lady clerks were even more demonstrative, and the admiral was kissed by old and young without discrimination. It was finally necessary to form a line and pass the crowd around through the large rooms of the secretary's office in order to give all a chance to shake hands with the admiral.

Many prominent army officers took part in the demonstration. The admiral, however, finally escaped into Captain Crowninshield's office. Admiral Schley will leave Washington this afternoon. He expects to sail for Puerto Rico next Wednesday with the military commission.

SICK FROM HUNGER.

Hard Stories Told of Privation by the Members of "The President's Own" Regiment.

New York, Aug. 27.—A number of nurses in the general hospital at Camp Wikoff are suffering from dysentery, and orders were issued today that they be given more time to exercise, bathe and rest. More nurses arrived today. When the 8th Ohio landed, nearly 300 were reported sick and were sent to the hospital; but it developed that 170 "sick" were only suffering from hunger. When these men were fed they were able to leave the hospital. They repeated stories of hardships encountered in coming up from Cuba, and said it was almost impossible to get food. One hundred and fifty men in the general hospital were allowed to go on 60 days' furloughs today, as they had improved.

CRISTOBAL COLON'S CAPTAIN

Promises to Make Things Lively in the Cortes on His Return to Spain—Cervera's Return Denied.

Madrid, Aug. 27.—Commandante Emilio Diaz de Moya, the former captain of the cruiser Cristobal Colon, promises to conduct a lively anti-government campaign in the Cortes on his return to Spain. It is pointed out, however, that he, as well as all other commanders of Admiral Cervera's squadron, will have to appear before the court martial before anything else is done.

Semi-official denial is made of the statement that Admiral Cervera has written a letter published in the American press praising the American navy. El Liberal and El Imparcial think it will be impossible to maintain suspension of constitutional rights and continue the press censorship after the Cortes has assembled.

Harrisburg, Pa., Aug. 27.—President McKinley and party arrived at Harrisburg at 12:35 and were met by Attorney General McCormick and Secretary of the Commonwealth Martin, who had been requested by Governor Hastings to welcome the president. The greeting between the gentlemen was cordial. The Pennsylvanians were then presented to Mrs. McKinley. There was a crowd of over 1,000 people at the station and for ten minutes the president had an impromptu reception. The rush to shake hands with him was so great that some of the people were almost caught by the car wheels. The party left at 12:45 for Camp Meade.

President at Camp Meade.

Camp Meade, Middlesex, Pa., Aug. 27.—President and Mrs. McKinley spent a pleasant hour at Camp Meade, en route to Somerset, Pa. General Graham had ordered a marching review in honor of the distinguished guests, but at their request the order was revoked. The First Delaware regiment was detailed as a guard of honor. After a hurried inspection of the quarters of the general and staff, President and Mrs. McKinley were driven through the camp. The company streets were scrupulously clean and the men looked their best. The president was much pleased with the location of the camp, and the appearance and condition of the men. The various regiments were drawn up in line to receive the party when they arrived at their quarters. President and Mrs. McKinley left the camp at 2 o'clock for Somerset, Pa.

LEAVING CAMP THOMAS.

Not Yet Determined Where Regiments Will Be Sent—Sick Receiving Best of Attention.

Chickamauga, Aug. 27.—Three regiments left Camp Thomas for Knoxville today. They were the 2nd Missouri, the 5th Missouri and the 6th Ohio. Hereafter the regiments will be moved rapidly. General Breckenridge expects to get the whole of the 1st corps out of camp by the next two days. Just where the 3rd corps will go is not yet positively settled. The lack of water facilities at Huntsville, reported by General Frank, caused a rearrangement of plans which may cause some delay. The officials favor Anniston, Ala., but is probable that a more thorough investigation will be made before a definite decision is reached. The sick in the regimental division and general hospitals are now receiving the best of attention. Hundreds of patients have been sent home during the last few days, and the doctors and nurses can well handle those remaining. A number of soldiers of charity arrived today to assist in the hospital work.

The Filipinos are "electioneering" for a licking and may get it.

The riotous Filipinos will do well to remember that in the United States a custom prevails of eating philopines.

Colonel Bryan's candidacy in the year 1900 is not meeting with universal favor among the millions of voters of the country.

The names of those appointed on the various committees for the Horticultural fair are a guarantee for the success of the 2nd annual fair of that society.

Spain is grumbling hard about the cost of the war just closed. Rather late in the day. Should have thought of that before the Maine was blown up in Havana harbor.

This is Republican year and our good friend, Delegate Ferguson, will have to be defeated by a Republican. It will be rather hard on Mr. Ferguson. But it will be all right for the territory.

Advices from Union county are to the effect that the county, on election day in November next, will, without doubt, give a Republican majority for the entire ticket voted for. This is as it should be.

There was another successful naval officer in the recent Spanish-American war although the people of this country give him little credit, and that is Admiral Camara; he managed to save his fleet.

The gubernatorial situation in New York is beginning to assume an interesting aspect. "Teddy" appears to be a sure enough candidate and the old political bosses are asking themselves "where are we at?"

The best interests of this territory demand the election of a Republican legislative assembly this fall. The people of New Mexico will act wisely and well in casting their votes for such an object and such a purpose.

All signs indicate that the Republicans will have a handsome majority in the 56th congress. Therefore it would be but the part of wisdom and prudence for New Mexico voters to elect a Republican delegate to that congress.

The under man in the fight at the present time seems to be Secretary Alger. It is a blessed good thing to be thick skinned sometimes, that is, to the individual who is getting the scorching, but it is a little bit tough on the country.

Ex-Governor and Colonel McCord, of the New Mexico-Arizona frontier regiment of volunteer infantry is about to lose his job as a colonel, having already lost his nice position as governor. It looks as if the ex-governor just over did the thing a little.

A warm time is promised when congress meets. Many serious charges have been made concerning the management of the War department, and an investigation can not be avoided. If one-half the things charged are true, those responsible should be punished as they deserve.

The political situation in New Mexico looks very bright for the Republicans. With good nominations, energetic work and loyal support of the ticket, they will be successful at the polls in the November elections, which will be a mighty good thing for all concerned.

The Madrid papers are of the opinion that under no circumstances will Spain surrender the Philippine islands to the United States. The Madrid papers fail to grasp the situation. Admiral Dewey is already in full possession, and the United States will do pretty much as she pleases with the Philippines, and as matters now appear, she will please to keep the entire group, unless some reason for not doing so is disclosed between this and the time the commission meets in Paris.

With Colonel Roosevelt in the New York gubernatorial chair, there will be a hot old time in the old commonwealth.

General Aguinaldo talks grandly of what he proposes to do. But when it comes to doing, he will do well to consult Admiral Dewey and Major General Merritt first.

The Dave Hill men and the Richard Crocker adherents in New York are none too friendly. In fact there is no friendship lost between them. A peace commission should be appointed by the New York Democracy in this matter.

The School of Mines at Socorro is a very neat, but rather costly, institution, considering the number of scholars there being educated. Too many top heavy territorial educational institutions spoil the educational broth in New Mexico.

The Spanish peace commission so far appointed consists of some very excellent men, although western people are not exactly "gone" on Mr. Whitelaw Reid. And still there is no strong objection to him, although the great west and southwest would have preferred some other man.

The New Mexican has no candidate for the Republican nominee for delegate to congress. It will support the man chosen by the Republican convention and will support him earnestly, loyally and energetically and do all it possibly can for his election, believing such a course will best serve the people of the territory.

The flag presented to the New Mexico squadron of the "Rough Riders" by ladies and citizens of New Mexico through the agency of this paper was the first to wave over the enemies position at the battle of La Quasina, where 1,000 "Rough Riders" and regulars from the 10th and 1st cavalry defeated 4,000 trained Spanish soldiers. The glory of our flag was maintained in splendid style on that memorable day, June 21, 1898, by the New Mexico volunteers.

The people of this city should see to it that Bernalillo county is creditably represented at the New Mexico Horticultural fair to be held in Santa Fe next month. We ask Santa Fe county to aid in making the territorial fair a success. We should do everything in our power to aid the Horticultural fair, which is also a territorial institution. "Turn about is fair play."—Albuquerque Democrat.

As the Democrat very pertinently remarks, turn about is fair. Now let us see what Bernalillo county will do for the New Mexico Horticultural fair to be held in this city in September.

Prepare a Royal Welcome.

The famous regiment of "Rough Riders" will soon be mustered out of the United States service, and the men in its ranks will be returned to their homes in the different states and territories from where they enlisted. In the short war with Spain, in the campaign in Cuba, where disease and Spanish bullets decimated their ranks, no other body of men behaved with greater gallantry and bravery, no others won such renown as the "Rough Riders." The silken banner presented to the New Mexico battalion of the regiment by the ladies of the territory will come home unsullied with a single act of cowardice, and its tattered and torn folds will bear a message to future generations of New Mexico's children of inspiration and love of country, teaching them that no nobler deed than that of serving in the cause of freedom and "Our Country" is known to the people of the United States.

Returning, as they do, bearing the honor of the territory upon their devoted heads, a welcome should be given New Mexico's volunteers which will be remembered by them to their dying days as the proudest moment of their lives. They have honored the territory, now let the territory honor them. Let it be made known to them that their services are appreciated; that their families and friends are glad to have them home again.

New Mexico's battalion will be sent to Santa Fe to be mustered out, and it therefore becomes the duty of this city to extend the welcome to it. Already an organization exists, the Ladies Soldiers' Aid Society, which is in every way fitted to prepare the welcome, and it is suggested that the ladies take hold of the matter at once, and have all arrangements completed against the home coming of the boys. There is but little time for making the necessary preparations and work should begin at once. Let the day "When Johnny Comes Marching Home" be one of rejoicing in Santa Fe.

The Present Supreme Court of New Mexico.

The comment made by attorneys as well as laymen upon the manner in which the present Supreme court has transacted the business coming before it during the term just held, is of a most favorable character. Never in the history of the court have so many cases been argued and submitted in so brief a period, many of which were left over by the outgoing court. It goes without saying that this court will have the confidence of all the people and that no one will even suspect any of its members of dabbling in the politics of the territory, something that cannot be said of its predecessors. It will not be written in the record of the proceedings of the present court that it assisted a lot of political sharks in robbing the territory such as was done a couple of years ago when the court helped out the incompetent employees of a Democratic legislature by compelling the payment of clerks who were never needed to transact the business before the assembly, and were only appointed for the purpose of paying political debts and keeping campaign promises. As is always the case no one would expect anything of that kind from a Republican court, and furthermore no one even permits himself to think that such a course is possible under a Republican

administration. Petty politics and a disgraceful exhibition of personal misconduct were the most prominent features on the part of some of the members of the court, who were the robbers of "royal justice," as characterized by the retiring chief justice. The people are to be congratulated that President McKinley made such able selections for our judiciary. The contrast is so marked with what existed under Mr. Cleveland that every one has noticed it. The time of the court will not be consumed in correcting errors committed by a trial judge when under political or other influences, nor will the majority of the court affirm a death sentence, knowing a great legal wrong is thereby committed and then ask the governor to right the wrong by joining in a recommendation for clemency. This was done by the court which preceded the present in order to save trouble and scandal sure to follow if the bluster and threats of the presiding judge had not prevailed. The marked attention to the arguments of counsel displayed by the learned chief justice and all of his associates upon the bench has produced a confidence in the members of the bar which is well merited. The painstaking and urbane manner in which the present court has heard every case which has been submitted bespeaks for each member a most useful career upon the bench, and the New Mexican voices the sentiment of all fair minded citizens when it says that the present court in its entirety is the most able, dignified, learned and respected which the territory has ever had.

OTERO'S TRIP EAST
Attending the Great Naval Review—
A Visit to the "Rough Riders"
Camp at Montauk.
CAPT. LLEWELLYN IMPROVES
New Mexico Volunteers Anxious to Be Mustered Out—Their Health Improving—
Personal Mention—Governor Otero's Cordial Reception.

Special Correspondence.

Washington, Aug. 20.—Governor M. A. Otero and your correspondent left Washington on Friday to visit the 1st United States volunteer cavalry, "Rough Riders," at Montauk Point, and to see the great naval review. On the train Governor Otero received a special invitation from several members of the cabinet to join the cabinet party on the government naval parade. The honor extended to New Mexico's chief executive was gladly accepted, particularly as it was well known that thousands of applications from prominent men were rigidly denied. Governor Otero left the Waldorf-Astoria early Saturday morning, reporting promptly on time at the boat. Abner McKinley, brother of the president, was elected commander of the boat, which was one of the fastest on the river, went far down toward Tompkinsville and met the grand and victorious fleet steaming up the Hudson river, and then sailed along, sometimes in advance and at other times alongside of the grand flagship with its three masts.

As the fleet steamed slowly up the river there were hundreds of vessels of all sizes by their side or in the rear, and every whistle on boat or near shore, within a mile or more, was blowing at the time, and the brave and victorious officers at their post and the seamen were never so happy in their lives as they stood on the decks of the boats dressed in their best bib and tucker. As the town of General Grant came in view the roar of the salute of the guns on the warships and on land mingled in their greetings on the placid waters of the beautiful and historic Hudson. As the procession reached Grant's tomb, the boat of Commodore McKinley and Governor Otero made the curve at the head of all the fleet, and was closely followed by the New York and the fleet and the hundreds of other boats. The roar of cannons, the noise of whistles, the waving of handkerchiefs and cheer of probably 2,000,000 of people on the New York and New Jersey shores were continuous from their first appearance till they faded from view.

Next morning the governor took the train for Montauk Point, L. I. Upon arrival at the Montauk depot, part of each troop of the New Mexico squadron was in line on horseback, and three rousing cheers were given for Governor Otero as he stepped from the train. The governor and party raised hats in acknowledgment. Taking the hospital ambulance, accompanied by several of the officers, we soon reached the New Mexico battalion headquarters. In front of the tent there was proudly floating in the gentle breeze coming from the salt water of the Atlantic ocean, a couple of hundred yards distant, the new historical battle flag with nine holes from Spanish bullets through it, and though the colors are dim and slightly faded, it will be carefully preserved as long as two shreds of it stay together. There was also near by, fluttering in the breeze, the beautiful banner inscribed: New Mexico squadron, 1st United States volunteer cavalry, war with Spain, presented by citizens of New Mexico.

After partaking of a bounteous lunch with the officers, Governor Otero started to visit the battalion at their tents, about 200 yards distant. The men saw the governor coming, and though many were quite sick, mostly with fever, they quickly formed in line and the governor shook every one by the hand and gave each a kind word. They fully appreciated the favor as shown by the lighted up faces, the flash in their eyes and their many thanks for the visit.

As the cool of the evening wore along the crack band of the 3d United States regulars came up in front of the tent and gave the governor a most enjoyable serenade, the governor and officers and friends taking a seat in front of the tent. The selections played were, Light of Foot March; Concert Medley No. 1, E. Boyer; And Lang Syne; Galop, The Sharpshooters; E. Boyer; Killarney Home Sweet Home, Dixie, Yankee Doodle and The Star Spangled Banner. As the first strain of the last piece began the governor and party arose and removed their hats, which is a custom that Spaniards even respect in Santiago. C. A. Bessey was the leader of the band. He enlisted in Arizona 27 years ago. He talked to your correspondent of Red Camp, Bay Creek, Skull Valley, Wickenburg, and says there were only 11 houses

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for many years. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am cured, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For The Blood

being Purely Vegetable, goes direct to the source of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

In Phoenix when he was first there in 1871. A short time previous to the serenade an artist of the squadron came up and took a picture of the governor and officers as they were present. General Kneeland of Governor Black's staff, your correspondent and a gentleman from Arizona.

The officers of the New Mexico battalion here now are Troop E, Captain Miller, and Lieutenants W. E. Griffin, F. Captain Max Luna, and Lieutenant Dams; G. 1st Lieutenant Green; H. Captain George Curry and Lieutenant Kelly. Major Hersey is the ranking major and may be promoted before he goes out. Colonel Roosevelt is taking a leave to be with his family at Oyster bay, and is in command of a cavalry brigade when present, and Major Brodie commands the regiment.

The officers that we met of the above named and others of the same regiment extended many kind favors to the governor and his party. Compliments were quite numerous during the day between Governor Otero and Brigadier General H. F. Kneeland, judge advocate general for Governor Black's staff, and Governor Otero. Governor Otero stated that he would without hesitation place his judge advocate general (R. E. Twichell) against Governor Black's judge advocate general, or any other, as to holding his own at any work in the road, and an agreement was finally reached that the governor of New York, and the governor of New Mexico were the two best governors in the United States and hostilities ceased and all became the warmest friends. Ralph McFie, Sergeant Garfield Hughes, and all the boys along with the governor, the almost universal wish is that now that the fighting is over all wish to return to their homes as soon as possible. General Wheeler is in command and was at the depot when the New Mexico boys gave Governor Otero three cheers and first thought it was for himself, but soon learned the facts. Captain Luna obtained 25 days' leave and Captain Curry three days' and returned with us. We met Colonel Dick, of Ohio, at the depot, and returned the Waldorf-Astoria in New York about midnight. Next morning Governor Otero, Captain Luna, Captain Curry and your correspondent went to see Captain Llewellyn at the Presbyterian hospital. He was very glad to see us. While he is still weak, he is gradually improving, has a very much better color, and has greatly improved since leaving Santiago. He is receiving the best of attention from the physicians and lady attendants and care and time will bring him out all right, and it is fortunate that he got away from Santiago just when he did. He looked at us and after talking a little while, he said you all look so well and strong and burst into tears. But a few encouraging words soon brought him around all right, and all left Governor Otero with him for some time. Captain Luna left New York last night to meet his wife now with her father, Major Keys, at San Antonio, Tex., and will proceed to Los Lunas, Albuquerque and Santa Fe for 25 days.
