CHARLES P. DOWNS.  
Appointed Clerk of the Court for the Sixth Judicial District.

Charles P. Downs, who has been appointed clerk of the court for the Sixth Judicial District by Judge Edward A. Mann, vice Captain D. J. Leahy, resigned, to take effect on November 1, is a Hoosier by birth, having been born in the picturesque and bustling city of Warsaw, Indiana, thirty-seven years ago. In this city of his birth he received a common school education, and his studies were later continued at Indianapolis and Winona Park. Early in life he entered the office of the Northern Indianan, the leading Republican journal of northern Indiana, as an apprentice. He soon dug out the hidden secrets of the art preservative and then turned his attention to newspaper writing. He served his home paper in every department of the office, and as special writer for the Indianapolis Journal, the Fort Wayne Gazette and Journal and Chicago Tribune he was detailed on many responsible assignments covering the northern district of Indiana. He was ever a consistent and working Republican in his home county, Kosciusko, acting principally with the young men's organization. Although safely Republican by about 1,000 majority, Mr. Downs, together with a half dozen companions, desired to increase the majority in old Kosciusko and make it the banner Republican county of that section. They looked about them and saw many first voters maturing under Democratic influence, and resolved to throw out the life-line to these young men. With a fine, enthusiastic Young Men's Republican Club at Warsaw as the central body, they campaigned throughout the entire county, organizing subordinate clubs, all of which were later combined in an immense county organization, with the result of an added 300 votes to the Republican majority that fall. The good work is still going on, and the young men rescued from the toils of negative Democracy are all still found on the side of progress and prosperity—with the Republican party.

In 1896, Mr. Downs was united in marriage to Miss Florence A. Smith. At the time of this marriage Mrs. Downs was in frail health, having only partially recovered from a long year's suffering from rheumatic fever; and as the days passed there appeared not

that gratifying improvement for which her friends so anxiously waited. In 1899 the Territory of New Mexico was brought to their attention as a great sanitarium through a former schoolmate and staunch friend, Captain W. C. Reid, then of Las Vegas. A short correspondence followed, and Mr. Downs landed in Las Vegas in June, 1900, Mrs. Downs arriving in the following August. A year's residence in sunny New Mexico gave all the evidence necessary that its marvelous climate could do for Mrs. Downs what specialists and medicine could not—give her back her health.

In October, after his arrival in New Mexico, Mr. Downs became associated with J. S. Duncan, J. S. Clark, Frank Springer, Secundino Romero, Fred O. Blood, W. C. Reid and others and the Las Vegas Record, a true-blue and aggressive Republican newspaper was launched. Mr. Downs serving this paper in both its editorial and mechanical departments. After eighteen months' residence in the Meadow City, Mr. Downs removed to Silver City where he had charge of the mechanical department of the Enterprise and from there, in the fall of 1902, he went to Las Cruces. There he took up the management of the Progress, remaining with that paper until it was by G. W. Beard consolidated with the Rio Grande Republican. During Mr. Downs' management of the Progress it was steadfastly Republican and was one of the most frequently quoted of the territorial weeklies. During this time, Mr. Downs was discharging the duties of deputy under James P. Mitchell, then the clerk of the third judicial district, in which position he gave sufficient evidence that, aside from writing newspaper articles in strong and virile English, he was a conscientious, careful and competent court official.

With the organization of the sixth district, Mr. Downs became Captain Leahy's deputy, discharging his duties to the entire satisfaction of all. Upon Mr. Leahy's resignation, Judge Mann, realizing the intricate and important work in this office could not be in more competent hands, promptly announced that he would appoint Mr. Downs to the clerkship, and this announcement has been gratefully received throughout the district and the Territory.

By Civilians in Fight With Detachment of Cavalry at Kharkhoff

## BOTH SIDES SUFFER

Many Wounded Left on Ground When Crowd Dispersed—Strikers Beginning to Arm Themselves.

Kharkhoff, Oct. 24.—A serious conflict between the troops and the people, during which there were many casualties on both sides, occurred here last night. While a meeting of 20,000 citizens, students and workmen was in progress some one raised the cry: "The Cossacks are coming," and a panic followed. Many were injured in the crush. Subsequently, the crowd came in contact with a detachment of cavalry. Revolvers and small bombs were used by civilians and rifles by the soldiers. Both sides suffered severely and many wounded were left on the ground when the crowd dispersed. The strikers have since plundered the gunsmith shops and armed themselves. ## A CHARACTERISTIC LETTER.

Senator Albert J. Beveridge Writes That Joint Statehood is Opposed By All Selfish, Local and Financial Interests.

Mayor A. R. Gibson of Santa Fe, has received from Senator Albert J. Beveridge, under date of Indianapolis, Indiana, October 19, a letter which indicates that the Indiana Senator, whose statehood trip through New Mexico is well remembered and whose defamations of the territories was condemned by every newspaper from the Texas line to the California boundary, has not as yet seen the light that has come to Congressman Tawney and his party, although he no longer contends that joint statehood is inevitable and admits that he has a fight on hand. Senator Beveridge writes, and it will be noticed that he still insists upon questioning the motives of the opponents of the joint statehood scheme:

Indianapolis, Indiana, Oct. 19, 1905.

My Dear Mr. Gibson:— I have your letter of October 16th and congratulate you most heartily upon the stand you have taken. You have endorsed a great cause when you have put yourself down in favor of the creation of the great new State made of New Mexico and Arizona. It is a State of which you will be very proud and of which every man, woman and child in the new State, from the day it is created and as long the Republic endures, will be proud.

When we remember that an attempt was made to divide California into two States and was defeated by the far-seeing wisdom of Henry Clay, we can see how impossible it will be to believe fifty years from now, that anybody ever opposed the re-union of New Mexico and Arizona and their admission as a single magnificent commonwealth.

Texas is much larger than the proposed new state of Arizona and has the right to divide into five smaller States. And yet the public man who would propose the division of the Lone Star State would be driven from its borders. In this great new state taxes will be lower, public institutions better and your importance in the councils of the Nation greater; and this new State will take from the very start front rank among the noblest of American commonwealths.

It is refreshing for us, who are fighting for this great cause for no other consideration in the world but the patriotism and statesmanship involved in the measure, to know that there are those in the territories who are supporting us and holding up our hands. From the very start we have been opposed by all the selfish, local and financial "interests"; and to be made aware that the people themselves are being converted to this great measure, which is devised solely in the interests of the people, is a source of great encouragement to us.

Very sincerely,  
ALBERT J. BEVERIDGE.

This letter is certain to awaken sentiment in the breast of citizens of New Mexico and Arizona, even if not opposed to joint statehood, and it certainly will make no converts from the ranks of those who honestly prefer separate statehood for New Mexico and Arizona.

## LINING UP FOR THE FRAY.

The knights of the green cloth must begin to realize by this time that they stirred up a hornet's nest with their boycott of business men who dared to advocate a higher license on gaming devices. Last week, the Estancia News and the Carlsbad Argus fell in line in the movement against gaming in New Mexico and the Roswell Record prints a strong article against it from the pen of J. J. Hagerman, who among other things says:

"I never heard anyone argue that gambling is not an unmixed evil. When made a business of, it stands alone as black, malignant, cold blooded wickedness. The farmer gives value for his gains; the workingman gives his labor and skill for his pay; the professional gambler gives for his gains nothing but evil; he is a curse to himself, his family if he has one, and most all of the young men in any community which is infested by his presence. From the time when the seamless coat of the Savior of men was gambled for by the Roman soldiers, down to this day, history has not recorded one instance of it being anything but a withering blight both to a man's fortune, his mind, his heart and his soul.

"And yet this Territory of New Mexico makes it a legal business, and this city of Roswell for a paltry sum lets it prey wholesale on the vitals of the community.

"From a purely business point of view these places are a blight to the town. The people of Artesia are wise enough to prohibit gambling. They advertise it to attract strangers who value decency, and they richly deserve all the good they are getting from it, some of it at Roswell's expense.

"For that part of the gamblers' trade called the 'rope' in of strangers, young men, working men, clerks, cowboys and greenhorns, I cannot find the words to express its infernal rapacity. We spray our trees to kill insects which destroy fruit; we dip cattle to kill vermin which injure them; we pay a bounty for the scalps of wolves which kill cattle and sheep, but we license and wink at vices which always demoralize and often kill men."

"New Mexico and Arizona have the distinction of being the only territories or states in the United States where gambling is licensed and authorized by law. Even Old Mexico has repealed its law licensing gambling and has prohibited it under severe penalties. Not a state in Europe authorizes it, excepting the little 5,120 acre principality of Monaco, and it is a stench in the nostrils of all the rest of Europe.

"The gambling law in New Mexico is one of the relics of barbarism which came to us with the country, but which ought to have been repealed years ago by our own legislature, or by federal enactment. But we are still cursed with and disgraced by it. However, no town is bound to have gambling because it is permitted by law."

To this the Carlsbad Argus adds:

"There is a growing sentiment all over the Territory that the gambling evil should be suppressed and it is finding expression through the Territorial press and in resolutions passed by conventions and meetings of various bodies. New Mexico is one of only a few states and territories where gambling is licensed and carried on openly and freely. Up to this time the people seem to have been indifferent to the matter, but the realization seems at last to have come home to them that it is a reflection upon the Territory and a menace to the people and the movement is beginning to crystallize that will finally wipe the evil out of existence so far as its having a legal permission to exist. It would not be surprising if such a showing was made to Congress and such influence brought to bear upon that body that a bill be passed this winter prohibiting gambling in all territories. No one can question the desirability of such a prohibition, and if it is imposed New Mexico will have taken a long step forward in progressive civilization."

The Estancia News says in commenting on the blight that licensed

gambling is to New Mexico communities:

"This should be a word of warning to the company having control of the Estancia townsite. Cutting out the clause from the contracts for deeds, regarding the manufacture and sale of intoxicating liquors, will not aid in bringing in the kind of families who come really for the sake of making homes and developing the country. The majority of the people who have settled in and near Estancia are the kind who ask and care about schools and churches and not about grogshops. Let the company take warning and avoid a wide-open town."

The Red River Prospector is also a new champion in the field this week. It says:

"Gambling is becoming very unpopular and the laws against it are being enforced all over the country. In a number of cities and towns where the laws against gambling are being enforced, the poor people are buying homes and paying for them. They are also living higher and their wives and children are not having that hungry look as in the past. In fact, the money that has been going to the gambling dens is now being placed in useful channels."

The Roswell Record in its editorial columns says:

"Dr. C. E. Lukens, of the Presbyterian Church, says that if a good ticket is put up in opposition to gambling in Roswell, he stands ready to get out and canvass every house in the city for votes, regardless of party."

## NAY, NAY, SENATOR!

Senator Albert J. Beveridge asks New Mexico to sacrifice its birthright for a mess of pottage. For the doubtful honor of being a mere constituent part of a vast state, he believes that the people will give up every tradition, all individuality of this commonwealth, the history it has made for itself during the past few decades and the standing it has achieved as a prosperous, progressive commonwealth. No, no, Senator, thirty pieces of silver will not induce the majority of the people to betray themselves, nor will all the pictures you may paint of the grandeur of the earthly possessions of a joint state induce a desertion of the principles at stake in the proposed merger. Why not join Indiana and Illinois in one glorious state? The constitution permits such a jointure wherever the people and the legislatures of the states concerned sanction it, and surely, Senator Beveridge's glowing arguments for big states would readily convince the people of Indiana and Illinois that a jointure would be a big thing for them, even though the combined state would not be equal to New Mexico in area or in resources and would have ten times the percentage of illiterate foreigners that New Mexico or Arizona have within their bounds.

According to the Tawney Congressional party they saw only one evidence why New Mexico is not quite ready for statehood and that is a coterie of men at Albuquerque, who while professing to prefer single statehood are advocating joint statehood. This is such a manifestation of un-Americanism that it disgusted Congressman Tawney and his companions. It is certainly not the spirit that was manifested by the men of '76 nor by the boys of '61. It is equivalent to a spirit that would have prompted the Republican party after the Grover Cleveland landslide to abandon the protective tariff because free trade was more likely to be ratified by the people at that moment. It is only a craven, who when principle is at stake, will say: "I believe in this principle but I will sacrifice it and take the other thing because I do not believe there is any chance for my principles to win out."

The Raton Range suggests that every New Mexico railroad town should put up a big signboard at the railroad station setting forth the name of the town and whatever claims it has upon public attention for its historical, residential and industrial interests. Travelers often wonder when a train comes to a stop whether the town is worth while a visit and as railroad depots as a rule are situated in the most unattractive part of towns, the man passing through on a railroad car is apt to carry with him an unfavorable impression. Santa Fe should act upon this hint and erect such a signboard not only at the depots here but also at Lamy. It is true, it would have to be more than a mile long to give room for an enumeration of all that is to be seen at and around Santa Fe, yet, the average traveler is given enough time at Lamy to scan at least the principal lines on such a bill board.

The Clayton Enterprise says that there are 50,000 sheep, ewes and lambs around Clayton ready to be dipped and shipped to the feeding grounds of Colorado and Kansas. The average price received is about \$2 per head, which means that \$100,000 will be taken in by sheep men around Clayton within the next few days. This would be fully \$200,000 if the sheep and lambs were fed right around Clayton and there appears to be no good reason why this cannot be done, at least at some future day, when an effort will be made in eastern New Mexico to raise feed by dry farming methods.

There is general complaint from New Mexico towns that school rooms are overcrowded and that therefore teachers cannot properly do the work assigned to them. There is a remedy and that is, more school houses. Scamp public expenditures on everything except for the public schools.

The Estancia News gets back very neatly at the funny man of the Albuquerque Journal who is poking fun at the late Torrance County fair. Here with the passage of pens:

"Shall the Torrance County fair be a permanent organization?"—Estancia News. Brother haven't you trouble enough now?—Albuquerque Journal. "Brother Mac is mistaken in his insinuation that the county fair carries with it the necessity of having trouble. If graft and gambling are precluded, and business men are given the management of affairs, there will be no need of an investigating committee before bills can be paid and affairs wound up."—Estancia News.

"Sunshine," a weekly publication at Albuquerque, says in its last issue regarding the Sunday closing of saloons in the Duke City: "The handle of the front door has gone to the rear. Try that! The business of the saloons did not suffer in the least." Judge John R. McFie in San Juan County last week showed how to fix that and Judge Ira A. Abbott will not be slow to take the hint. Four saloon keepers were indicted by the San Juan County grand jury for just such violations of the Sunday law and Judge McFie imposed a \$100 fine and costs in each case. Those saloons will have no backdoor open after this on Sunday.

Every once in a while a rich man's son demonstrates to the poor man's son that the white shirt sleeve job is not any better than the work of the skilled mechanic or intelligent laborer, in fact, as a rule is inferior to it. The latest son of a rich father to do this is Ben Winchell, Jr., son of the president of the Rock Island Railway. Young Winchell, in order to learn the railroad business from the bottom, has taken a job in the engineering department of the Trinity and Brazos Valley Railroad at Mexia, Texas, at \$60 a month, and is working as hard as if his father was not making \$50,000 a year.

These words uttered by President Roosevelt at San Augustine, Florida, on Saturday evening of last week, deserve to be placed with some of the striking and immortal utterances of Abraham Lincoln: "This republic is not and never shall be a government of a plutocrat. This government is not and never shall be the government of a mob. It shall remain as it was founded in the beginning, a government of justice, through the form of law, a government wherein every man is guaranteed in his own rights and is forbidden to wrong his neighbors."

A Raton property owner is putting up eight modern six roomed brick houses with bath rooms and other modern conveniences. These houses will be rented or sold on easy installments. It is just the kind of work that several moneybags ought to do for this city. They can be sure of twelve per cent on their investment if they go about it the right way, for there is no doubt that there is an increasing and constantly unfilled demand in Santa Fe for modern houses to rent or to buy on easy terms.

The Denver health authorities have sounded a note of warning against whooping cough. Statistics gathered by them show that more persons die annually in the high altitude regions from whooping cough than from scarlet fever, measles and diphtheria combined. This is a hint to the health authorities of Santa Fe that children with whooping cough should not be permitted to attend the public schools or frequent the Plaza and the streets.

An interview in the Albuquerque Journal credits a former Santa Fe citizen with having had a great deal of experience in building up new towns including Santa Fe, Las Vegas, Silver City and Deming and is now doing the same thing for Belen. It makes this ancient capital feel quite spry to be classed with such youngsters as Silver City and Deming and even Las Vegas and Belen.

How those Democrats in the Pecos Valley love politics! One man has already announced himself as a candidate for sheriff of Chaves County at the election to be held in November of next year, and the treasurer and ex-officio collector of Eddy County, announces gravely through the press, that he will not be a candidate for reelection thirteen months hence.

The Carlsbad Sun declares that Eddy County is bankrupt. Considering the high per capita assessment and close collections of taxes, in that part of the Territory, the Democratic county officials must be playing havoc with the county funds. The New Mexican's advice to the tax payers is to put Republican officials in office next fall.

It is to be hoped that the sheepmen and cattle owners of this Territory have learned the lesson of last winter, that it pays to provide shelter and feed for stock on stormy days. The stock industry of the Southwest will not reach its greatest development until this is understood.

The capital stock of \$30,000 has been subscribed for a new national bank at Lake Arthur, Chaves County, and thus there is another monument to the dark blue depression caused by the present territorial administration.

## Mothers! Retain Your Youthful Figures.

To be beautiful is to be loved by all. If there lives the woman who is indifferent to this she is yet to be heard of. Yet from time immemorial society has recognized what they thought to be a detriment in the way of such a realization. The bearing of children has meant to them the marring of physical beauty of figure, without which beauty of face would be of little account. Nothing could be more remote from truth than this; childbirth is purely a natural phenomenon, accompanied by pain, to be sure, but if properly managed no more harmful in its effects upon the human form divine than any other natural function.

## MOTHER'S FRIEND

Is essential in the proper management of every case of labor; it relaxes and softens the abdominal muscles, thereby enabling them to sustain the stretching that they must undergo, and from this very fact it facilitates their return to normal proportions after childbirth, and it is obvious that pain must be greatly lessened from this very reason.

It is a liniment, it is harmless, it is potent, it is priceless in its results, it is Mother's Friend. \$1.00 per bottle at drug stores. Our book of priceless value sent free to all women.

Bradfield Regulator Co., ATLANTA, GA.

The people of Roosevelt County are evidently of the right stuff for they believe in taxing themselves for public school houses. The school district of Portales has just decided by a vote of ten to one, to issue bonds to the amount of \$11,000 to build a new school house.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## SOME SEASONABLE ADVICE.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

## A JUDICIOUS INQUIRY.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

Sick headache is caused by a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

## INSOMNIA AND INDIGESTION CURED

"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tuftonmore, Ontario, Canada. For sale by all druggists.

## MINES AND MINING.

### Lincoln County.

A number of South Bend, Indiana, people interested in mines at Nogal visited that camp last week.

### Sierra County.

Within another two weeks the massive hydraulic plant of the Union-Esperanza Mining Company at Shandon will be in full operation.

### Dona Ana County.

Hill P. Wilson, secretary of the state of Kansas, was at Organ last week. He is interested in the Bennett-Stephenson and Memphis mines and gave orders for extensive work on these two properties.

### Taos County.

A large body of fine looking ore has been opened on the Old Timer near Anchor by John W. Brown and sons.

Dr. William R. Powell, of Philadelphia, Pennsylvania, president of the Independence mine, at Red River looking over the property. The engine house at the mine has just been completed by Superintendent J. A. Zwergel.

Robert Pooler has given orders to widen the tunnel of the Cora Gibson at Red River and for the building of a tramway into the mine tunnel.

### Otero County.

On the Lucky mine at Jarilla, the largest and most important body of ore ever opened in the district was uncovered last week. It is located on the first level in the north drift. This drift has been following the hanging wall and for the past few weeks a change of ground has been noticed. It has resulted in uncovering a body of ore that at the surface is 125 feet in width. The surface of the drift is filled with carbonates, sulphides and covellite, the latter carrying 66 per cent of copper.

R. G. Mullen and a party of eastern investors, visited Jarilla last week and as a result a number have decided to remain in the camp.

### Grant County.

The Silver City Enterprise takes Director of the Mint Roberts, to task for failing to give New Mexico due credit for its gold and silver production. It says:

"Director of the Mint Roberts gives the total production of gold in New Mexico for the year 1904, as \$38,900. The last Chance mine in the Mogollon district, produces not far from that amount in gold and silver bullion every month. The natives of Pinos Altos alone produce nearly a third of that amount every year in gold, washed from the sand in the gulches. The fact of the matter is that New Mexico is cheated out of rightful production every year by Texas and Colorado where most of the ore is sent for treatment."

### Santa Fe County.

The strike made by J. P. Conner and Frank Lopez on their copper property, four miles north of Glorieta, promises to attract the attention of capitalists to the mineral resources of that part of Santa Fe County. Although only fifty feet of development work has been done, yet, enough is shown to indicate a very rich and extensive body of gold-copper ore and a large deposit of malachite carrying a high per cent of copper. There are a number of other very promising copper and iron properties in that section, which together with the coal on the upper Pecos River should eventually result in giving employment to hundreds of men.

At the Boston mining exchange last week, the stock of the Santa Fe Gold and Copper Company was quoted at \$2.25 per share, the par value being \$10.

### JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2x6 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each, or with both civil and criminal bound in on book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal .....\$4.00

Combination civil and criminal, \$5.00

For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address,

NEW MEXICAN PRINTING CO.

### RESULTS TELL.

There Can Be No Doubt About the Results in Santa Fe.

Results tell the tale.

All doubt is removed.

The testimony of a Santa Fe citizen can be easily investigated.

What better proof can be had?

Genovevo Sandoval, surveyor's chairman, of Galisteo Street, says: "If I had not the greatest faith in Doan's Kidney Pills, I would never have gone out of my way to recommend them to more than one of my friends and acquaintances. I had backache for about a year, not continually, but I never knew the moment when a recurrence would take place. I tried more than one medicinal preparation guaranteed to stop such annoyances before I went to Ireland's Pharmacy for Doan's Kidney Pills, but I met with very different success. The treatment with Doan's Kidney Pills positively stopped the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Accent on the Operatic Stage.

No Englishman with daughters could do a rasher thing than permit them to take lessons from eminent professors with a view of going on the stage. The opera stage in England scarcely exists. At Covent Garden a woman who can speak good English can only get in by force of social influence, and abroad a foreigner has very great difficulty because she cannot speak or sing with a perfect accent. The foreign lady or gentleman comes across here and on occasion will venture to sing in English, and their mistakes bring nothing more than a smile to the faces of the audience. But let an English singer go to France or Germany, and something totally different happens.

In 1907 Tamagno sang at Monte Carlo before an audience which was mainly French. He mispronounced a word, and a peal of derisive laughter covered even his stentorian notes. In Brussels I heard an American tenor laughed at because some of his vowels were not quite pure—Brussels, where their French is the most villainous patois I have ever heard. In Germany I have heard both French and English artists laughed at because their accent was not absolutely correct.—London Saturday Review.

No Pill is as pleasant and positive as DeWitt's Little Early Risers. These Famous Little Pills are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Never gripe.

Sold By Ireland's Pharmacy.

### Sand.

"What a sweet complexion!" he exclaimed, fondly contemplating her radiant countenance.

"And yours," she faltered with mild only timidity. "Is so sandy."

That was to say while sand was not precisely sweet it passed for such with many people, as was amply attested before the grocery business became Christianized.—Detroit Journal

### Painful.

"What does Bifkins remind you of?"

"I hate to tell."

"Because it's a reflection on Bifkins?"

"No; on me."

"I don't understand."

"Well, I'll explain. Every time I see Bifkins he reminds me of a little bill I've owed him for over a year."—London Tit-Bits.

### Solitude and the Crowd.

It is easy in the world to live after the world's opinion. It is easy in solitude to live after our own, but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Ralph Waldo Emerson.

### It Would.

"But why won't your husband let us look up the coat of arms of his family?"

"Paw sees a coat of arms would look funny for a man that made his fortune in his shirt sleeves."—Houston Post.

### Absolutely Effective.

Jack Younghusband—I'm only going down to the club, dear, so don't wait up for me if I'm late!

The Little Wife (sweetly)—No, darling. I'll come and fetch you!

The word "measles" formerly meant leprosy.

Awful Suffering of Baby and Sleepless Nights of Mother.

### CURED BY CUTICURA

Skin Fair as a Lily with no Scar to Recall Awful Sore Writes Mother.

"I herewith write out in full the beginning and end of that terrible disease eczema," says Mrs. Wm. Ryer, Elk River, Minn., "which caused my babe untold suffering and myself many sleepless nights. My babe was born seemingly a fair, healthy child, but when she was three weeks old a swelling appeared on the back of her head, and in course of time broke. It did not heal but grew worse, and the sore spread from the size of a dime to that of a dollar. I used all kinds of remedies that I could think of, but nothing seemed to help; in fact, it grew worse. Her hair fell out where the sore was, and I feared it would never grow again. It continued until my aged father came on a visit, and when he saw the baby he told me to get Cuticura Soap and Ointment right away.

"To please him I did so, and to my surprise by their use the sore began to heal over, the hair grew over it, and to-day she has a nice head of hair, her skin is as fair as a lily, and she has no scar left to recall that awful sore, and it is over eight months and no sign of its returning."

### CURE PERMANENT

"Your letter of the 19th inst. received, asking in regard to the cure of my baby some six years ago. Well, the disease has never returned to her head which at that time was a solid sore on top and down the back."

Mrs. Wm. RYER, Elk River, Minn. Feb. 25, 1903.

New Mexico's climate and then insist upon going home instead of making New Mexico their permanent home.

George L. Bradford, George A. Peters and J. A. Dougherty, of Capitán, rangers on the Lincoln Forest Reserve, arrived in the city yesterday to take the examination for supervisor which will be held by Supervisor Leon F. Kneipp, of the Pecos Forest Reserve tomorrow.

John V. Mitchem, of Attica, Indiana, who has been the guest of friends in Monte Vista, Colorado, for some time, was a visitor in the city today. He is on his way to points in the Estancia Valley, where he will look after some sheep which will be shipped to Monte Vista in the near future.

F. T. Clark, of Jefferson City, Missouri, who with George Hill Howard and others is interested in a number of projects in the Lobato Grant, Rio Arriba County, and is a stockholder in the Northern New Mexico & Gulf Railway Company, was among the arrivals last evening from the east. He left this morning for El Rito.

G. O. Voelker and wife, of New York City, who are on their way to California to spend the winter, made the free side trip from Lamy last evening and visited the many points of interest in the Capital City today. They left this evening for Albuquerque where they will remain a day or two before proceeding on their way.

Governor M. A. Otero returned last evening from Washington, D. C., where he spent a very enjoyable week, renewing old acquaintances among the men who shape the destiny of the nation. Governor Otero is much improved in health and will get down to hard work to dispose of the large amount of accumulated executive business that needs his personal attention. His stay in the east included visits to French Lick Springs, Indiana, and large cities of the east, and upon his return a visit with his sister, Mrs. H. J. O'Bryan at Denver.

A. L. Chesher, of Portales, Roosevelt County, arrived last evening. Mr. Chesher is here to take the examination for supervisor of the Portales Reserve, upon which the government will make tree planting experiments, said examination to be held by Supervisor L. F. Kneipp tomorrow. Mr. Chesher is very enthusiastic over the conditions and future prospects of Roosevelt County and is of the opinion that in a few years, after the irrigation projects now talked of, are completed and in working order, that that section of New Mexico will be unexcelled anywhere in the Southwest as an agricultural and fruit district. Water is from 12 to 50 feet beneath the surface and inexhaustible. Several tests have been made on a number of wells there and the level of the water has not been appreciably lowered by 24 hours of continuous pumping throwing from 60 to 100 gallons per minute.

Just received new line of wool: Saxony, Germantown Persian and Shetland Floss. Miss A. Mugler.

### MINOR CITY TOPICS

Oh, the mystery of the mountains! With their caves and moss-rimmed springs Where no trespasser has ventured, Save soft-footed wildwood things: There are heights no man has conquered, And delights no soul has found, Treasure land of joy and menace Is that high enchanted ground.

—E. A. Lente.

Miss Simpson, one of the public school teachers, is confined to her home with illness.

Train No. 7, on the Santa Fe, due this evening at 9:15 o'clock is reported two hours late.

Briefs, loose-leafed ledgers and book work are specialties of the New Mexican Printing Company.

Miss Phelps, teacher in the public schools, who is ill with pneumonia, is reported to be convalescent.

Miss Barney, a public school teacher who has been quite ill, is on duty again, to the delight of her pupils.

On November 1st at Socorro Miss Ruby Berry will be married to John H. Griffith, an attorney of that town.

Now for paving Montezuma Avenue and Upper Palace Avenue. Let action be taken at the next session of the city council.

After the high school building is completed, one or two modern ward buildings will be erected by the board of education.

The best equipped bindery in the Southwest is that of the New Mexican Printing Company. Two skilled binders in charge.

Professor Hiram Hadley, superintendent of public instruction, addressed the Otero County Teachers' Institute at Alamogordo last Saturday.

Good walks are imperative in Santa Fe. The rain of yesterday and today has emphasized this fact to those who are compelled to use the streets that are not so supplied.

Miss Stella Sloan has been employed as substitute teacher at the U. S. Indian Training School in place of Miss Carrie O. Rode who has been transferred from the Indian Service to the Pension Bureau.

The following letters are held at the postoffice for better address: Mrs. Joaquin O. Alire, Hackney, New Mexico; Eusebio Gonzales, Martinez, Colorado; and Daniel Garcia, Carnuel, New Mexico.

There will be a regular session of Santa Fe Lodge No. 460, B. P. O. Elks, at the lodge room tomorrow night at 8 o'clock. A full attendance is desired. Initiation will be the special feature for the evening.

Deals are pending for the sale of several more lots on the Fort Marcy Reservation as well as two of the houses on Lincoln Avenue. It is also reported that a lot has been selected for the site of a Masonic Temple.

Postoffice Inspector Fredericks is expected in Santa Fe within a few days to inspect the proposed rural free delivery route which is to include Tesuque, east Santa Fe outside of the city limits, Sunmount, and Agua Fria.

The Denver & Rio Grande train from Antonio was four and three quarters hours late last evening. Considerable time was lost between Espanola and Santa Fe by the engine dying several times and by freight and stock trains that came into Santa Fe ahead of the passenger train.

The city board of education should take steps to place the walk along the Fort Marcy property on Grant Avenue in better condition. Since it has been moved to widen the street and straighten the property line, it is in a deplorable and dangerous condition and if not repaired, and that immediately, some person will sustain serious injury by stepping into one of the innumerable holes.

H. S. Kaune & Company have a change of advertisement in the New Mexican today, calling attention to the twice-a-week shipments of fresh Baltimore oysters and poultry which are received at their store. They are also selling the celebrated Boss Patent flour at \$1.60 for a fifty-pound sack.

The board of education is desirous of laying sidewalks on the Fort Marcy Reservation but cannot get the work done owing to the fact that local contractors have more work than they can handle. If the skilled labor necessary could be procured, a mile to two miles of brick sidewalks would be laid in Santa Fe during the coming month.

The best job work in New Mexico is being done by the New Mexican Printing Company. Be it a handbill or an edition deluxe, the New Mexican Printing Company has the equipment and employs the skilled printers to turn it out more quickly and in better shape than any other printing house in the Southwest.

The funeral of Mrs. Josefa O. de Salazar of Santa Cruz, which took place this forenoon in this city, was largely attended by relatives and friends. Requiem mass was celebrated by Vicar General Antonio Fourchegu. Interment was made in Rosario Cemetery. Charles Wagner was the funeral director. The pall bearers were: David Lovitzki, F. E. Nuding, J. T. Newhall, Marcelino Garcia, B. M. Read and Celestino Ortiz.

All the winter apples in the Tesuque Valley have been gathered. Strange to say, the quality of the fruit, while superior to that of other sections, is not as good as it was last year, the drouth year. The explanation is that the buds for the apples began to form last year already and suffered from the prevailing dryness. The necessity of spraying, on account of the ravages of the codlin moth, is also very apparent.

Just to give Santa Fe a taste of eastern weather, the man in charge of the clouds permitted it to hail, rain, snow, thunder and lightning and blow yesterday afternoon right after each other in the space of an hour. After that the sky cleared with rapidity but after dark it rained again and the skies were aflame with flashes of lightning. Today, however, Santa Fe weather asserted itself again and the sun is shining and the sky is smiling as usual.

The power pump at the U. S. Indian Training School in this city is not accomplishing what had been expected of it. It is true the pump works smoothly but it exhausts the water in the well after fifteen minutes of slow pumping. The water is pumped from a depth of 390 feet and while it is sufficient to help out the school during an emergency, the quantity is too small for any extensive irrigation scheme. It is

believed that the full flow of water is not obtained on account of sand and gravel.

The forecast for New Mexico is fair and colder weather tonight, with fair weather and rising temperature on Wednesday. For Colorado the forecast is fair and colder weather tonight and Wednesday and warmer weather in the east portion tomorrow. The maximum temperature in Santa Fe yesterday was 60 degrees at 1:55 o'clock in the afternoon, the minimum was 40 at 3:40 o'clock in the morning, the mean was 50 and the relative humidity was 80 per cent. There was .10 of an inch of precipitation. At 6 o'clock this morning the temperature was 36 degrees.

The train from the south on the Santa Fe Railway was over three hours late this afternoon.

Professor Edgar L. Hewett of the Ethnological Bureau, who left Santa Fe a few weeks ago after spending the summer in the Pajarito Cliff Dwellers' Reserve, thirty miles west of Santa Fe, will lecture on October 30, at the American Museum of Natural History at New York City, before the American Ethnological Society on "The Life and Culture of the Tewa Indians in Pre-Spanish Times."

## NEW MEXICO HAPPENINGS

The Ex-Texans Society of the Pecos Valley has been organized at Dayton, Eddy County, with thirty-three members.

The Alamogordo saw mill is working two shifts. A carload of horses was received last week from Colorado for use in the logging camps.

The Dayton, Eddy County, public schools were dismissed last week on account of the appearance of several cases of diphtheria at Hagerman and Artesia.

Samuel G. Hurst is wanted in Albuquerque for forgery. Last Saturday, it is claimed, he cashed three checks for \$20 each, forged with the name of A. W. Hayden, the contractor, by whom he had been employed.

The government has just completed a sheep dipping plant at McCarty's station on the Santa Fe in Valencia County, for the use of the Acoma Indians. Three tanks have been erected, the largest of which will hold 20,000 gallons of dip.

A graduate nurse and expert hygienist, who has lived in Albuquerque for several months, scores the city administration of that city for allowing so many dead horses to remain unburied in the sand hills back of St. Joseph's Sanitarium.

Postmaster F. O. Blood of Las Vegas, has arranged with the weather bureau at Santa Fe and the Las Vegas managers of the Postal Telegraph Company to get a copy of the daily weather report which will be displayed in the postoffice window in the Meadow City.

Two hundred and ninety-eight pupils are now enrolled in the U. S. Indian Training School at Albuquerque. Nine young Navahos arrived there Saturday from the Navaho Reservation, who have never worn the white man's clothes nor had shoes on their feet.

Julian Garcia is confined to his home in Albuquerque from injuries received on a hunting trip to Bear Canon Sunday. Claude Eggleston is confined in the Bernalillo County jail, charged with shooting Garcia in a quarrel which occurred during the trip.

Announcement was made at Deming last week that Miss Celia Harriot and Wright Lawhon had been married last February in El Paso, the marriage having been kept a secret until now. They will live in the Luna County town, where Mr. Lawhon has a position with the Southern Pacific Railway Company.

Navaho blankets will be scarce this year, owing to the fact that the high price of wool has caused the Indians to sell their fleeces and they are not inclined to buy more and make blankets because their crops have been unusually good this year and they have plenty of money in their pockets as a consequence.

John A. Roach and Miss Fannie Bernard were united in marriage last Friday evening at 8 o'clock, at the home of the bride's mother on the west side in Las Vegas. The wedding was a quiet affair, only a few friends and relatives being present. The groom is a member of the surveying corps on the Santa Fe. The bride is a sister of Mrs. Secundino Romero.

The two men who were taken to Globe, Arizona, on the charge of murdering Samuel Plunkett and Edward Kennedy, have been returned to the Otero County jail, it having been shown that they were not the men wanted. They will now be held at Alamogordo until the next term of court when they will be tried on a charge of burglarizing the Mitchell store.

The following marriage licenses have been issued in the San Miguel County probate clerk's office at Las Vegas: Celestino Montoya and Miss Candelaria Flores, both of La Cuesta; Eliseo Padilla, of Casa Colorado, and Miss Rosa Valencia, of San Miguel; Felix Tapia, of La Lluenda, and Miss Guadalupe Quintana, of the same place; Jose Leyba and Miss Francisca Garcia, both of Las Vegas.

Last week at Silver City occurred one of the prettiest weddings that has taken place in that city. The contracting parties were Horace Blinn Hunter and Miss Greta Shoemaker, Rev. H. W. Ruffner, of the Church of the Good Shepherd, officiating. After the ceremony there was a reception at the home of the bride's parents, after which Mr. and Mrs. Hunter left for Douglas, Arizona, to make their future home.

### The Bright Eyed Lad And the Speaker

"NOW, my—ah—dear young friends," sonorously began the Hon. Thomas Root, member of the legislature, addressing the scholars, to whom he had been invited by their loving teacher to say a few well chosen words upon the occasion of his visit to the village school, "ambition, coupled with untiring endeavor, will accomplish great things. The mind that is always hopeful, confident and courageous, that is fully determined on its set purpose and keeps steadily to its purpose, attracts from its surroundings circumstances and opportunities favorable to that purpose. I trust you follow me? To give you a homely little illustration of what ambition will do when properly directed: It was always my ambition to attain eminence. I was born of poor but honest parents and spent my earlier years on a farm, growing up, as you might say, almost between two hills of corn, and now—but, first, is there a child here who would like to ask me a question, a question which perhaps has long lain dormant deep in his heart, now to be aroused by my remarks, an inquiry the answer to which may possibly be of great value to him? Ah, that bright eyed little lad there who is gazing so eagerly up at me! My boy, is there anything you wish to ask?" "Yape!" returned the bright eyed one promptly. "It's your lower jaw that moves most all the time, ain't it?"—Puck.

Mr. Tellus of Detroit. Patrolman Auberlin said the prisoner was a vagrant, and the judge began the examination. "What's your name?" asked the court. "Tellus." "Tell you?" "No, Tell-us." "Oh, I see!" replied the judge, although he looked very much perturbed, and it was plain to see that he did not see at all. "What's your first name?" he ventured. "Tellus." "Oh, I see! What's your last name again?" "Tellus." The judge pulled his mustache very hard and glared. "Say," he sputtered, "why don't you tell us? What's the answer?" "Tellus Tellus, that's my full name," repeated the prisoner. Then he wrote it out as follows: "Tellus Tellus." Tellus explained that he was a deck hand out of work, and the court advised him to get out and hustle for a job.—Chicago Inter Ocean.

Jilted.

Mag-Billy, I regrets ter say dat our engagement has got ter be broke off. Billy—Wot's de trouble now? Mag—Me ma won't leave me wear yer ring no more 'cos it makes me finger black.—Leslie's Weekly.

A Narrow Escape. "Of course," said the conscientious father, "I am about to administer corporal punishment because it is absolutely necessary and unavoidable." "Yes, sir," answered the boy who has ideas of his own. "I suppose that if you had happened to have a boil on your shoulder so that you couldn't hit my entire future would be ruined."

Not to Be Outdone. Little Sara, aged three, looked in at the drawing room door. "Come here, Sara," said her mother. "I want you to speak to Miss Fox." Sara gazed at the visitor steadily for a moment; then she said in the tone of "I go you one better." "How you do? I'm Br'er Rabbit!"—Lippincott's Magazine.

Usually. "Papa, is a philanthropic woman a woman who contributes to all the charities?" "No, son. As a usual thing, the philanthropic woman is a woman who gets her neighbors to contribute to all the charities."—Houston Post.

She Was Provided For. "Want any typewriter supplies?" asked the pedler, sticking his head in the office door. "No," replied the young business man, absently, "I just got her a box of bonbons only an hour or so ago."—Philadelphia Press.

Big Chance For Hypnotists. Abers—You say hypnotism can be used to deaden pain, do you? Scientist—Undoubtedly, sir, undoubtedly. Why, sir, at one of my recent exhibitions I thrust a needle into a man's arm again and again and he positively enjoyed it. "Humph! How much do you make a year on hypnotic exhibitions?" "Well—er—not very much as yet, but then, you know, hypnotism is a new thing, and"— "Yes, I know. Why don't you drop it?" "Eh? Why should I?" "You could make your everlasting fortune as a dancer."—New York Weekly.

Russian Discipline. General Dragomiroff, the Russian military expert, rose from the ranks and always dressed according to the army regulations for the common soldier. One day while driving about St. Petersburg in his carriage he noticed a soldier with hair longer than the regulations called for. He had the horses stopped, alighted and, taking off his hat, ordered the soldier to seize him by the hair. The soldier hesitated. He feared to lay violent hands on his general; besides, the hair was clipped too close to afford a hold for the hands. The general surveyed the soldier sternly for a few moments, then, twining his fingers in the latter's locks, he literally whined up the street with him, the victim not daring to resist. Finally, having impressed the lesson thoroughly, he re-entered his carriage and drove on, ordering the soldier to follow. At the first barber's shop they came to he again alighted and had every vestige of hair shaved from the soldier's head, then turned him loose as a horrible example to his fellows.

King James' Books. Some very fine binding was executed for King James I., who during his entire life was an enthusiastic patron of letters and art. In some of his books the thistle is introduced with heavy corner pieces, and the arms in the center. One fine piece of work, now in the British museum, is in bright brown calf, powdered with flower-de-luce. Another folio in crimson velvet has the arms of England embroidered on both sides with gold thread on a ground-work of yellow silk. The king's initials are worked above. The lettering is in leather, and the boards are tied together by red ribbon, constituting a regal book in every particular. John Gibson, in Scotland, and the Barkers, in England, were appointed to be the king's binders, but there is little trace of their work now extant.

Animal Having the Most Teeth. The animal having the most teeth is the great armadillo of south Central and northern South America. It is a fact well known to most people that the normal or average number of teeth in mammals is thirty-two—sixteen above and the same number below. The great armadillo, however, is an exception, having from 92 to 100. He has from twenty-four to twenty-six in each side of the upper jaw and from twenty-two to twenty-four in each side of the lower jaw. Another peculiarity lies in the fact that they are all molars or grinders. They increase in size from front to back, instead of from the root, and are wholly destitute of enamel.

Jury Subbing. Mexico has an ingenious plan for facilitating verdicts in jury trials. Two supernumerary jurors are drawn to sit near the jury box and listen to the evidence and arguments. If any of the regular jury falls ill or is otherwise disqualified from going on, one of the "subes" takes his place. In this way they avoid what is often seen in American courts—a long trial rendered useless when it is nearly finished by the sudden illness or death of one juror.

AIN'T IT THE TRUTH? Some people in Santa Fe say they serve "coffee like your mother made" but at the Bon Ton Lunch Counter you can get "coffee better than your mother ever made."

Legal blanks of every description, and conforming to the laws of New Mexico, are on hand and for sale by the New Mexican Printing Company.
