CITY OF MOSCOW IS QUIET AT LAST

Business Being Resumed in Different Sections.

REVOLUTIONISTS ARE HUNTED

Ruins and Sorrow in Presna District—Strong Guards Watch Over All.

Moscow, Jan. 2.—Except for the numerous military patrols in the streets and the pillars of smoke lazily floating above the ruins of factories and houses in the Presna district, there is little to recall the nightmare of the past ten days.

As if by magic in twenty-four hours the appearance of the city has improved. The stores everywhere have been re-opened and the streets are filled with holiday shoppers making purchases for the Russian Christmas, which according to the Julian Calendar falls on Sunday.

Guards Doubled.

As early night fell the guards were doubled but the electric street lamps brilliantly lighted the shop windows. The Presna district, however, presented another picture. There people by hundreds, who had been burned out were excitedly searching the ruins or bemoaning the loss of dear ones while the police and troops continued their unceasing hunt for the revolutionists.

The only warlike incident was a rear attack by a body of Druginists upon a detachment of troops stationed at the bridge with instructions to cover the work of the firemen. The soldiers, when attacked, turned right about and fired a volley, killing three students and wounding several others. The list of casualties and losses to property is being compiled at Governor General Doubassoff's headquarters and is promised tomorrow.

Great Damage.

At the Bourse today a prominent manufacturer estimated the damage done in the burned district at \$5,000,000.

The American factories, of which the New York Air Brake Company, Barry Boiler Company and the Singer Manufacturing company are the principals, have not suffered. Most of the undamaged factories have resumed work. Railroads and telegraph lines are resuming work slowly.

SHAW TO HELP.

Secretary of Treasury to Anticipate Interest Due in February on Bonds.

Washington, D. C., Jan. 2.—Secretary Shaw announced today that the treasury department will anticipate the amount of interest due in February, 1906, on the government bonds. The amount anticipated amounts to about \$1,700,000.

Not Relieved.

New York, Jan. 2.—The belief was expressed last week in Wall Street that the stringency in the money market which sent the rates for call money soaring to record heights, would be relieved in a marked degree by the release of the funds which had been gathered for the payment of the year's dividends was not realized today.

The first call of the new year in money was made at 50 per cent per annum. From 50 the rate ran back to thirty.

During the afternoon call money was offered as low as 25 per cent but just before the closing of the market loans were made at 60.

HAZING GASE.

Midshipman Decatur on Stand in Own Behalf at Court Martial Today.

Annapolis, Md., Jan. 2.—The court martial proceedings against Midshipman Stephen Decatur of Portsmouth, New Hampshire, charged with hazing Midshipman Isaac M. McCrary, of Texas, and Gaylord Church of Pennsylvania, both fourth class men, was continued this morning. Decatur going on the stand in his own behalf.

Decatur denied absolutely all the counts which incriminated him. The court is thus left to decide between the testimony under oath of the upper and lower class men. Decatur's case is attracting great attention and a desperate effort is being made to save him.

He is the great-grandson of the famous naval hero of the same name and stands number six in a class which graduates next month. He is also a relative of Admiral Dewey, but little help can be expected from this source if Decatur is convicted.

PRINTERS STRUGGLE.

Strike Declared in Cleveland Where Agreement Was Not Signed—Chicago Situation.

New York, Jan. 2.—One thousand printers went on a strike here today in support of the demand for an eight hour day and sixty-two printing shops declared a lock out against their employees. In 160 shops the Typographical Union gained a victory without a man quitting work, as those shops granted the eight hours and a closed shop.

Iowa Situation.

Des Moines, Iowa, Jan. 2.—Twenty per cent of the printers of Iowa are on a strike today. The eight hour day was granted in every city in the state except Des Moines, Council Bluffs, Cedar Rapids, Keokuk and Creston.

Another Strike.

New York, Jan. 2.—A majority of the 6,000 members of the Housewives and Bridgemen Unions in this city went on a strike today. They demand an increase from \$4.50 to \$5 a day. Work on 200 new office and factory buildings is affected.

Non Union Shops.

Chicago, Ill., Jan. 2.—The national eight hour work day of the printers' union was declared by the organization to be in effect today in this city.

The introduction of the program was not marked in this city by a strike of any magnitude. The bulk of militant employers having anticipated the movement weeks ago by locking out their union men and continuing their shops with non-union men.

Strike Declared.

Cleveland, Ohio, Jan. 2.—Two hundred and forty-five employees of printing houses joined the 175 members of the typographical union in a strike here today. Three-fourths of a master printers have refused to sign an eight hour agreement, the strike was declared. The typographical union is making an effort to obtain non-union men.

KILLS HOUSEHOLD.

Infatuated Dental Student Shoots Sweetheart and Other Members of Her Family.

Caladonia, Minn., Jan. 2.—Infatuated with Pearl Wheaton, the daughter of S. N. Wheaton, one of the richest farmers in southern Minnesota, and rendered desperate by her refusal to marry him, Matt Styer, a dental student at the University of Minnesota, broke into the Wheaton home near here last night and shot Pearl, her sister, Ruth, Mrs. Wheaton and himself.

Pearl is dead and the others are fatally wounded. When he entered he was met by Ruth, who armed with a revolver attempted to protect the remainder of the family.

Styer wrested the revolver from her and shot her twice. He then turned on Mrs. Wheaton, shooting her twice also, and bounded up the stairs to the room of Pearl. Breaking in the door he shot the girl through the heart and then shot himself. When help arrived Styer was found with his head on the girl's breast, she dead and he barely alive. The only other occupant of the house, a child of ten, escaped, by leaping through a window.

AFFIRMS CASE.

United States Supreme Court Upholds Decision of Kentucky Judges About Howard.

Washington, D. C., Jan. 2.—The supreme court today affirmed the decision of the Kentucky court of appeals in the case of James B. Howard versus the state of Kentucky. Howard was tried three times in the circuit court of Franklin County, Kentucky, on the charge of killing Governor Goebel and convicted each time. He is now under a sentence of life imprisonment and brought the case to this court to secure a review of the ruling of the Kentucky court of appeals. The affirming of the decision of the circuit court is against allowing another trial.

NEW ATTORNEYS.

Fight Being Made to Postpone Execution of Lawyer Albert T. Patrick.

New York, Jan. 2.—Albert T. Patrick, who is under sentence of death, has retained new counsel to carry his case to the United States Supreme Court. This was made necessary owing to the illness of David B. Hill. The counsel are Archibald C. Shenstone of Shenstone and Harding, and former Senator Lindsay of Kentucky. The lawyers are to ask the supreme court for a writ of error in order to prepare the case and it is said will ask Governor Higgins to grant a stay of execution. Patrick is sentenced to die next month.

CHARLES HUNING IS DEAD AT HIS HOME IN LOS LUNAS.

Charles Huning of Los Lunas died Sunday morning at that place and the remains were taken yesterday to the crematory in Denver. Mr. Huning has been ill for some time. He has lived all of his life in New Mexico and had many friends in the Territory. He was 35 years of age.

M'CALL'S MONEY SENT TO COMPANY

President of New York Life Pays Big Sum

TO REDEEM HIS PROMISE

Unaccounted Funds Are Made Good—Jerome to Prosecute Officials.

New York, Jan. 2.—John A. McCall, president of the New York Life, has paid to the company the \$235,000 advanced to Andrew Hamilton, and so far not accounted for by Hamilton, Thomas P. Fowler, the chairman of the company's investigating committee appointed by a board of trustees, received today a check from McCall for \$85,000 and a note for \$150,000.

McCall is Poor.

One of the members of the investigating committee said today that the reason all was not paid in cash was because McCall is a poor man. It is said he will go out of office with practically nothing except his life insurance policy for \$500,000 and that in order to pay the note of \$150,000 he may have to get assistance from his wife and friends.

To Prosecute.

The World this morning says: District Attorney Jerome will today begin the serious work of preparing for the prosecution of the officers of the life insurance companies who have abused their trusts.

It was stated yesterday by a man in a position to know what is going on within the various insurance companies that Jerome would undoubtedly receive aid from unexpected sources. He added that before the month was out Jerome would receive overtures from at least one "insider" of each of these companies, the Mutual Life, the Providence Savings Life, the Life Insurance Association of America, and the Mutual Reserve Fund Association.

GAS COMPANY WINS.

Supreme Court Upholds its Effort to Charge Rates Above Those Fixed.

Washington, D. C., Jan. 2.—The supreme court today in an opinion by Justice Brewer decided the case of the Peoria Gas and Electric Company vs. the city of Peoria in favor of the company, reversing the findings of the U. S. circuit court for the northern district of Illinois.

The case involved the constitutionality of the city ordinance fixing the price of gas in Peoria and the action was instituted to enjoin an enforcement of the ordinance.

The company complained that the price was unreasonably low and amounted to a confiscation without due process of law. The city charged that the company had combined with another gas company to fix the rates and thus violated the anti-trust law.

SUPREME COURT.

Business for Last Year Finished Today—This Year's Session Starts Tomorrow Morning.

The supreme court of the Territory met at 10 o'clock this forenoon in the chambers at the Capitol building to close its 1905 session.

There were present: Chief Justice W. J. Mills, Associate Justice John P. McFie, Associate Justice Edward A. Mann.

Jose D. Sena, clerk of the court was at his post. The Territory of New Mexico was represented by Attorney General G. W. Prichard. United States Marshal Creighton M. Foraker was also present. The following business was had:

An order of continuance for the term of 1905 was issued for all cases not yet decided. The court then adjourned sine die.

The first session of the Supreme Court for 1906 will be held tomorrow morning at 10 o'clock in the chambers of the Capitol building.

INAUGURATION.

Committees in Charge of Work Will Meet Tomorrow and This Evening.

The committees recently appointed to take charge of the inaugural ceremonies on the twenty-second of January are now actively at work.

The committee on arrangements will hold a meeting tomorrow evening in the office of Attorney A. B. Renahan.

The committee on printing and publicity will meet this evening at 7 o'clock in the postoffice. All members are asked to be present.

NEW TOWN BEING BUILT AT SUMNER

Big Rush of Settlers Is Now Taking Place.

MANY ACRES OF GOOD LAND

Ready for Those Who Come—Located on Eastern Railway of New Mexico.

A new town which will be known as Sumner after old Fort Sumner, three miles distant from its site, is to be located in the near future, on the line of the Belen cutoff, just across the border of Guadalupe County in Roosevelt County.

This information was furnished by Judge W. R. McGill, of Fort Sumner, a well known attorney, who is a guest at the Palace Hotel, awaiting the session of the Supreme Court which convenes tomorrow.

Judge McGill said that the town was being promoted by the Santa Fe Railway Company, himself and Judge W. E. Lindsey, of Portales, and that it was expected to make the place a division point on the Eastern Railway of New Mexico called by many the Belen cutoff. Judge McGill, who until last March owned one of the finest fruit ranches and cattle outfits in Guadalupe County, is enthusiastic over the prospects for New Mexico and particularly Guadalupe and Roosevelt Counties. To a New Mexican reporter he said last night:

Rush of Settlers.

"I have been in a good many states and territories during my life but I never saw such a rush of settlers as are now making their way into Guadalupe and Roosevelt Counties. Every train brings a bunch of men, eager to secure homesteads or make desert land entries. I never saw people so enthusiastic. But any one who has lived in this country as long as I have—a matter of ten years or so—can readily see why these settlers are coming here. Why last year, some of our corn averaged 30 bushels to the acre. There is any quantity of feed in these counties this winter as a result. Then for fruit raising, it is the equal of any country except that it is not so well developed. Some of the biggest melons I ever saw were raised in Guadalupe County last year, and the apples and other products were in proportion. If every season to follow proves just half as good, the farms down there, will be as valuable as gold mines.

Land Settled.

"When I first went to Fort Sumner, I don't think there were half a dozen homestead entries in that country. Now, for 30 and 40 miles in every direction, there is not a foot of irrigable land to be had. All along the railroad for twelve miles on either side, settlers have filed on the land. The large ranch which I owned there, was sold at a good figure, last March. I also had a large number of cattle but I disposed of them in order to enter this town site business. I saw that nothing could stop the tide of settlers coming to that country and with others I began planning to locate a town. The Santa Fe Railway officials are anxious to have a town at the point where we are locating, and their men are already making a plat for our use. We are going to bring people there from all over the country, and what is more to the point we want in every case possible, men who have money and who will have faith enough in the country to invest there. Thus far, most of the settlers who have come to these counties, are men who have sold out good Iowa, Missouri, Kansas and Nebraska farms for from \$40 to \$60 an acre. All these men have money and will improve the country in every way. They are erecting homes that are not always found on homesteads, and have stocked their farms with choice cattle and horses.

Much Good Land.

"Right above the town site which we have selected, are 100,000 acres of fertile land which the government is planning to irrigate. Plans are now being made for what is known as the Urton Lake Irrigation project, and soon, water will be within the reach of all. Right-of-way for the ditches has already been secured and there is no doubt in my mind that a dam will be built soon.

"The faith I have in the future of this country is best shown in the heavy investments I have made and those I have induced my friends to make. I can see only success for any one who will devote a few years of his life to good honest work in developing the fertile lands to be had by all in Guadalupe and Roosevelt Counties."

From a correspondent, the New Mexican receives the three following

reasons why settlers are coming into these counties.

First. The large area of public land subject to homestead and desert land entries. These counties embrace much level prairie land, bearing a good growth of grasses and having a deep sub-soil of sandy loam, which can be made to produce easily.

Second. The building of the Eastern Railway of New Mexico through the county, west from Texico. The railway took advantage of the free land laws and located twenty acres, every ten miles for switching facilities. This assured settlers that whenever needed, a depot would be erected on these tracts for their convenience.

Third. The most important reason perhaps, is the fact that settlers already located in these counties can show for the year 1905, agricultural products quite as good as those in other areas, where land, rent, and other expenses are much higher. The following other town sites have already been platted along the line of the new railway. Newman, sixteen miles west of Texico, and Brownhorn 35 miles west of Texico.

Sumner which is 63 miles west of Texico, is in every sense, a new town in a new country, but a town in a country which gives every indication of rapid growth and development. It is situated in proximity to the Pecos River upon a beautiful elevation, protected on the north by a range of low mountains. The lands in the vicinity stretch away for miles, level and fertile, veritable invitations to settlers, to establish homes and install improvements of all kinds.

Judge McGill will remain in Santa Fe for several days, while attending to business which comes before this session of the supreme court. He will then return to Sumner.

He is in every way qualified to exploit the possibilities of this country since, the pretty and fertile fruit ranch which he formerly owned in Guadalupe County, was one of the points of interests visited by all settlers and tourists.

McINTOSH HOSPITALITY.

Dr. Norris Talks of the Ranchman's Big Dinner and of Estancia Affairs.

Dr. N. L. Norris, of Estancia, surgeon for the Santa Fe Central Railway Company, who was in town today, attended the big dinner given by William McIntosh, the ranchman of the Estancia Valley, and spoke in glowing terms of the entertainment.

"There were 100 of us at the dinner, on Christmas day, as guests of Mr. McIntosh at his ranch, and some of us drove twenty-five miles to get there. We arrived at 2 o'clock in the afternoon, stayed all night and until noon of the day following. We were hungry as bears after a winter's sleep and thought we would eat Mr. McIntosh out of house and home. However, when we arrived, we were given the surprise of our lives. Our host had the biggest dinner prepared that has been seen in Estancia Valley since the Whitneys owned the well known Antelope Ranch.

"I don't know where to start in, in describing it: Here's what he had on the big table in the bigger dining room. One whole beef, a sack full of hams, six big turkeys, two whole lambs, oranges, candies, cakes, fruits and puddings. For drinkables, there were all sorts of wines, liquors and forty gallons of coffee. In one room, there was a phonograph and in the opposite room, an orchestra, consisting of piano, mandolin, guitar and violin. We began dancing in the dining room after dinner and danced until the next morning. Upon our departure, each woman was presented with a favor, consisting of a pretty handkerchief. It was one of the most enjoyable affairs of my life.

"I shall return to Estancia tonight, to be present at a meeting of the Estancia Board of Trade, composed of representative citizens. The board will take up the question of erecting a telephone exchange, owned by the municipality, and also consider the establishment of a large creamery, at Estancia. I believe that both projects will be favorably passed upon.

"I notice it has snowed here. Well, say, you ought to see Estancia! It snowed there too."

BAR ASSOCIATION.

Special Meeting Will Be Held Tomorrow for Those Who Are Here.

The Bar Association of New Mexico will have a special meeting tomorrow morning to secure the expression of opinion of the members who are in the city and who are not able to remain over to the regular meeting Monday.

The meeting tomorrow morning will be held in the Supreme Court Chambers at 10 o'clock. There will be a number of matters of interest that will come before the association and some of them are so important that the expression of opinion is desired.

Legal blanks of every description, and conforming to the laws of New Mexico, are on hand and for sale by the New Mexican Printing Company.

STILL THEY COME TO PROPER PARTY

Say the Republican Principles Best for Territory.

GAIN AND ADVANCEMENT

Under Present Administration—Twenty-Two of Socorro Citizens Give Views.

The New Mexican is again called upon to publish the announcement of twenty-two citizens, property owners and tax payers of San Acacio precinct, Socorro County, to the effect that they, heretofore Democrats, have left their party to affiliate with the Republican party and will support the latter hereafter with might and main, also that they are unequivocally in favor of separate statehood for New Mexico under its present name and within its present boundaries and that they are not the least bit ashamed of their opinions and their change.

Letter Sent.

The letter reads: "San Acacio, N. M., Dec. 31, 1905. "Hon. H. O. Bursum, Chairman Territorial Republican Central Committee, Santa Fe, New Mexico:

"Dear Sir:—The undersigned desire to announce through you that hereafter they will affiliate with the Republican party, support the principles of that party as announced in the 1904 national and territorial platforms, and will vote for its candidates for office, territorial and county. We have been consistent Democrats and we have taken this step after careful consideration and review of the political situation in the nation and in the Territory. We have become convinced that the principles of the Republican party and its administrations, national and territorial, given New Mexico by that party have been of great benefit and have added materially in the advancement and progress of our people. That Democratic administrations and Democratic party principles have been detrimental to us. We have learned by experience that under Republican administrations the Territory of New Mexico has greatly prospered and has enjoyed peaceful and honest administration of territorial affairs and that competent and efficient men have been chosen for territorial offices. Under a Democratic administration, we also know by experience that the reverse was the case.

Desire Single Statehood. "Furthermore, we desire to announce ourselves in favor of statehood and single statehood, for the Territory of New Mexico under its present name, and within its present boundaries.

"We are opposed to coalition with our sister territory of Arizona, as the state of Arizona. We desire to live in the state of New Mexico as we are proud of the name and of the record the people of this Territory have made for over three hundred years in supporting civilization and religion against savage unrelenting foes, as well as the record our people have made during the Civil War and in the Spanish-American War.

"We are not ashamed of being natives of this Territory, and we hail the name of New Mexico as the name of the future Sunshine State as long as the United States shall exist, which we hope will be until time shall be no more.

"Please give this announcement the fullest publicity.

Respectfully Yours,

Manuel A. Pino, Gabriel S. Pino, Vicente T. Pino, Aciano Bustos, Flavio Chavez, Alfredo Chavez, Estanislao Chavez, David Chavez, Ramon Chavez, Miguel Chavez, Santiago Lopez, Alfonso Peralta y M., Vicente Garcia, Hilario Cordova, Cruz Maes, Andres Garcia, Ascension Costales, David Garcia, Juan Chavez y R., Damas Silva, Adolfo Padia, Libor Baldonado.

REPORTS OF SNOW AND COLD FROM ALL AROUND.

The temperature in Santa Fe at 6 o'clock this morning was 10 degrees above zero but at other points in the Territory, residents were not so fortunate: At Torrance the mercury indicated 12 degrees below zero, with a light snow and a cold wind blowing strong from the northwest. It was 10 degrees below zero at Willard today, with a snow fall of about two inches last night making the white about two feet on the ground.

The snow fall in Albuquerque broke records with yesterday with 3 1/2 inches in one hour. It was slightly warmer there today, but still cloudy. At Las Vegas the weather was clear and cold. Similar conditions prevailed at Lamy and Espanola.

At Antonito the thermometer showed 4 degrees below zero with a clear sky.

At Alamosa it was clear with a temperature of 6 degrees below zero.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

BASED ON WRONG AND MISINFORMATION.

The Washington Post is evidently not much in love with the project of making either a separate state or one joint state out of New Mexico and Arizona. It is of the opinion that both can wait and should wait. The paper looks at the situation through jaundiced eyes. This is rather strange, as generally the paper is fair in its treatment of western questions. The Post does not think that New Mexico and Arizona are fitted for statehood, or have sufficient population and wealth to entitle them to become members of the family of states. In this view it is mistaken, but it evidently will not learn. It puts the statehood situation in a wrong light, although the New Mexican is ready to admit that it may be sincere in what it says, suggesting, however, that its views are based upon ignorance and mis-information concerning the real state of affairs in the two territories. Neither of them wants joint statehood; both want separate statehood, although the people of Arizona would be willing to wait for years rather than come into the joint statehood combination. The people of New Mexico want separate statehood and that immediately. They believe they are fully entitled to it. However, they are willing to await the action of Congress and, should the bill pass, they will vote upon the statehood question when submitted to them, in such manner as, in their opinion, will serve their own interests and those of the country best. That the people of New Mexico may know how the leading paper in the National Capital looks at the situation, the New Mexican re-publishes the editorial, however, without approval. The Post says:

"Senators and the few Republican Congressmen who are independent enough to ask questions should make a few inquiries as to the urgent pressure behind the statehood bill. What public emergency requires Congress to railroad two territories into the Union as a single state, when each is opposed to the plan? Is it because, as Speaker Cannon intimates, Congress is tired of the everlasting agitation and is now disposed to jam antagonistic territories together, willy nilly, for the sake of getting rid of their importunities? Or is it necessary that the statehood bill should pass in order to immortalize the names of the legislators connected with the bill?"

"The suggestion is industriously made that a railroad and mining lobby is behind the opposition to the Arizona-New Mexico portion of the statehood bill. It is asserted that the railroad and mining corporations of Arizona fear that union with New Mexico would result in increased taxation and the purification of politics in the new state. Where is the purification to come from? Is New Mexico, the balliwick of 'Bull' Andrews, of Pennsylvania, to purify Arizona? Is one rotten borough to cleanse the other?"

"It cannot be denied that a majority of the people of Arizona are bitterly opposed to jointure with New Mexico. They insist that they prefer to remain a Territory indefinitely, rather than be forced into joint statehood. What is to prevent Congress from granting the alternative? There is no crying need of a new state in the Southwest. Neither New Mexico nor Arizona is fit for single statehood, and if they are now controlled by corrupt corporations, they would be controlled by the same influences under state government. The bosses in Arizona and their neighbors in New Mexico would merely form a gentlemen's agreement and divide the spoils.

"Benighted all this agitation for statehood in Arizona and New Mexico runs on a undercurrent of eastern selfishness. The west threatens the supremacy of the east in controlling government policies. It would be a bad thing for the east if the west should acquire greater representation in the Senate and House—or the east thinks so, which is the same thing. So, in order to prevent the making of two states, it is proposed to jam through a single state, and head off future increase of representation.

"This scheme is as offensive to the whole people as the machinations of the alleged railroad and mining lobby.

by. A plague on both your Houses! The statehood bill should be chopped in two, and the latter half dropped in the waste basket. Oklahoma and Indian Territory, populous, fertile, and intelligent, should be joined and admitted as a state. Illiterate New Mexico and backward Arizona, both under the suspicion of corruption, are not the stuff that American states should be made of. Let them wait!"

CONCERNING THE CAPITAL LOCATION.

The Albuquerque Citizen, in a column editorial, takes the New Mexican to task for asserting that the people of New Mexico desire the Capital retained in this city, either as a Territory or as a state, and for saying that they will not have it moved, regardless of the machinations or desires of the Albuquerque Joint Statehood League, and that after all the Albuquerque Joint Statehood bill will not be able to wag the New Mexico dog, statehood or no statehood. The New Mexican has nothing to take back and deems the lengthy editorial of the Citizen worthy of no consideration. It has stated a fact and the Citizen and other Albuquerque papers as well as the Albuquerque Joint Statehood boomers can put this in their pipes and smoke it as they will. The New Mexican has made a pretty thorough canvass of the situation and it knows whereof it speaks. The 1,500 or 1,800 voters in the Duke City will not be able to change the will of the people to any alarming extent. They tried it at the last election after the Republicans had nominated W. H. Andrews as their candidate for Delegate to Congress. Although the regular Republican nominee received but 175 votes in the Duke City, he was elected by a handsome majority and by a great plurality. The swelled head of the Albuquerque Joint Statehood Leaguers and their newspapers will not make any votes for anything they may desire. Quite the reverse. This paper understands the situation and knows whereof it speaks. The Citizen and the Joint Statehood combine may express their opinions upon this subject as they choose. It matters not. They cannot change the results which are sure to come. The people will stand no political bunco steering in this or in any other matter hereafter. New Mexico for the New Mexicans as long as New Mexico is a Territory. If it becomes a separate state, the same way; should it become a component part of the state of Arizona, the question will be still more easily settled. Mark the prediction.

GIVE HIM A FAIR SHOW.

A few days ago The New Mexican published a special from Portales, Roosevelt County, concerning a pro joint statehood meeting held in that growing county seat. The correspondent handled the matter from a rather funny standpoint. The Portales Times did not like the special and is of the opinion that A. S. Hornbeck was the correspondent who sent it to this paper. The Times is wrong in its surmise and not at all justified in this belief. A. S. Hornbeck is not a correspondent of the New Mexican, nor had he ought to do with the special in question. He did not write it, it did not come from him, and the New Mexican does not believe that he knew anything about it or is any way connected with it. The New Mexican has two correspondents in Portales, who send it occasional news items. Mr. Hornbeck never has been, nor is he now a correspondent of this paper. This statement is made in simple justice to Mr. Hornbeck, whom the New Mexican does not know personally or in a business way. The Times is a fair paper and The New Mexican hopes it will consider this statement and absolve Mr. Hornbeck from any connection with the dispatch criticized by it.

The second edition of the bulletin, "Ho! To the Land of Sunshine," is issued recently by the Bureau of Immigration, is nearly exhausted. The Atchison Topeka & Santa Fe Railway, the Chicago, Rock Island & Pacific Railway and the Denver & Rio Grande Railroad systems have been furnished with about 2,500 copies, and hundreds and hundreds of copies have been and are being distributed by the members of the Bureau of Immigration, by the secretary of the Bureau and by citizens generally. The Portales Times pays the Bulletin the following compliment:

"The Times is in receipt of the booklet entitled 'Ho! To the Land of Sunshine,' published by the Territorial Immigration Bureau, Colonel Max Frost is the author. This booklet is a wonder in its way and gives a concise and accurate account of the resources of New Mexico. Colonel Frost is the best posted man in the Territory on such matters, and displays a wonderful energy in accumulating data for his publications. He has also just issued a book entitled 'How I Was Cured of Consumption in the Sunshine Territory,' which will be a boon to all who are afflicted and are fortunate enough to receive a copy of it."

The Albuquerque Citizen published a very creditable special edition Saturday last. A number of valuable articles on the growth and advancement of the Duke City appeared therein. The Citizen shows by facts and figures that Albuquerque is growing at a very rapid rate, and that its business is extending profitably in many directions. The Citizen is keeping pace with the improvement of the town it is published in, as the issue alluded to clearly demonstrates.

The Portales Times, published in the land district of which Howard Leland is the register, pays him the following compliment:

"Howard Leland has been re-appointed as register of the land office at Roswell. Mr. Leland relied entirely upon duty well performed for his re-appointment and his success is well merited. There is not, in all probability, in the Territory an official more competent or careful in the conduct of his office than Mr. Leland, and his continuance in this position will be a guarantee of the best possible service in this branch of the government."

The New Mexican today publishes another communication from leading citizens of Socorro stating that they have abandoned the Democratic party and its principles, and have joined the Republican ranks; they will vote for Republican measures and Republican candidates for office hereafter. These citizens also declare themselves for separate statehood for New Mexico. The non-partisan Albuquerque Joint Statehood League evidently has no influence with these citizens.

The Federal and Territorial officials in this bailiwick have enjoyed a very fair year during 1905 and nearly all of them the same sort of years for from four to eight years past. Most of them have been re-appointed to the nice positions which they held for a long time by the grace of the people and of the Republican party. A Happy New Year will surely be theirs unless by their own acts they make it different. "As they sow so shall they reap."

Abe Hummel, the New York criminal lawyer, who was convicted of a misdemeanor committed while acting as an attorney in a divorce case, says he is innocent. No doubt that is what some of the lawyer-politicians in New Mexico, who are a great deal deeper in the mire than Hummel is in the mud, also say. All in good time, however.

The different factions in Russia, autocrats, imperialists, liberals, socialists, revolutionists, the Black Hundred and so on, and so forth are divided upon political questions, but they seem to be united in the desire to kill each other. Why not? Let them go ahead! Civilization and progress would not be jeopardized.

It is reported by some of the modern, up-to-date newspapers, who generally know more than is really going on, that the western railroads have concluded to turn state's evidence and tell the Interstate Commerce Commission all they did in violation of law. This is a real nice New Year's story, but so far and no farther.

President Castro of Venezuela is polite, if nothing else. In addressing a Christmas greeting to the government of the United States he says: "I write with my hat in my hand." Wonder which hand he held his hat in!

Now for the year 1906. Let every citizen work to make it as good a one and for that matter a better one than was 1905, Providence permitting.

The people of New Mexico are ready to vote on the statehood question separately, jointly or any other way.

Russia is getting rid of some bad blood. High time.

How's This?

We Offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Take Hall's Family Pills for constipation. It is an admitted fact that real estate and financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

If it's worth printing, you will find it in the New Mexican.

The Original Laxative Cough Syrup is Kennedy's Laxative Honey and Tar. It expels all cold from the system by acting as a cathartic on the bowels. Kennedy's Laxative Honey and Tar is a certain, safe and harmless cure for colds, croup and whooping cough.

Sold by Ireland's Pharmacy.

MARRIAGE LICENSE LAW.

The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on card board and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately as the law goes into effect on April 14, 1906.

THE FIRST NATIONAL BANK

OF SANTA FE.

The oldest banking institution in New Mexico. Established in 1870.
RUFUS J. PALEN, President. JOHN H. VAUGHN, Cashier.
HENRY L. WALDO, Vice President. ALFRED H. BRODHEAD, Assistant Cashier.

Capital \$150,000.

Surplus and Undivided Profits \$55,000.

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfers of money to all parts of the civilized world on as liberal terms as are given by any money-transmitting agency, public or private. Interest allowed on time deposits at the rate of three per cent per annum, on a six month or year's term. Liberal advances made on consignments of live stock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety Deposit boxes for rent. The patronage of the public is respectfully solicited.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, an about twelve miles from Baranca Station on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Femal Complaints, etc., etc. Board lodging and bathing \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

SAN FRANCISCO STREET, SANTA FE

AN EASY ROAD TO WEALTH,

Is by way of investments in growing new towns with conditions assuring permanent prosperity. Small investments of this kind have earned competencies within the memories of the present generation, and it is a wise man who profits by the experience of others. History will repeat itself at

WILLARD

THE GATEWAY

Which has all the things necessary for the building of a good, substantial town, including water of good quality, abundant in quantity at a depth of 35 feet below the surface, located in and tributary to the finest section of grazing country in the Southwest with agriculture in its infancy, enough having been done in this direction to demonstrate its future success, as fine an all around climate as there is in the world, with a pushing, energetic class of citizens, the kind that make empires, and two railroads one the new A., T. & S. F. short line to the Pacific. Willard has made a most phenomenal growth in the three months of its existence and the price of lots will soon advance. Better come now. The townsite is owned by

ESTANCIA NEWS.

Many Improvements Now Going on—
Heavy Snow Means Good Ranges
Next Year.

Special to the New Mexican.

Willard, Jan. 1.—The first Christmas tree in Willard was given at the school house Saturday night, under the management of Miss Lulu Anderson and Miss Mabel Green and it was a decided success in every way. A real live Santa Claus distributed the presents to the expectant little folks and everybody went away happy. The sum of \$43 was raised to pay the expenses of the tree and what was not needed for this purpose was devoted to charity.

The snow fall here measured 16 inches on the level and private thermometers registered all the way from 25 to 29 below. The storm caught many of the new settlers wholly unprepared but so far as known, no one suffered on that account. With the weeds and grass on the ground to hold the moisture the coming spring, this certainly means early grass and a good season generally.

Alfred L. Means' new store building is about completed and he is opening up a new stock of general merchandise. Willard now has three general merchandise stores with more coming.

Pope Hilson is now doing business in his new meat market building and is congratulating himself that he got his building completed before the arrival of this unexpected storm. M. B. Thorp is running a barber shop in the room adjoining.

Langtry & Sharp camps numbers 20 and 32 are both in Willard now waiting for the track to be laid to the first work east. The track was about a mile and a half east when the storm struck town.

The Santa Fe company is building a neat and substantial tool house on the right of way near the section house. The carpenters lost only one day on account of the storm.

Mrs. Frank L. Walrath has joined her husband in their new home at Willard and just to show his appreciation of home life once more, Mr. Walrath gets up and disturbs the peace and quietude of the neighborhood by chopping wood before day. He is growing a muscle like a hired man and his neighbors fear, unless they stop it pretty soon, they will be unable to handle him.

Mrs. B. S. Jackson entertained Mrs. J. P. Dunlavy and sister, Miss McCoy and Mrs. John W. Corbett and daughter, Miss Gladys Tuesday night on their way to Estancia from Mountainair where they spent Christmas.

H. I. Lutz has a new livery and feed stable about completed and is already doing a big business. He expects to have a nice line of livery rigs and will begin to meet trains in a few days. With the completion of Mr. Hills new hotel, which will be pushed as rapidly as possible, Willard will be in shape to care for the stranger within her gates in an up-to-date style.

Henry Davis who was called over from Belen to help the Becker Company take stock will finish this week and expects to leave for Belen Sunday.

Mrs. B. S. Jackson expects to leave soon on a combined health and pleasure trip to Bryan, Texas.

Mrs. O. L. Williams, who has been very sick for some time, will be taken to a hospital in Houston, Texas, unless her condition improves within a few days.

The new residence of Saturnino Lueros has been delayed on account of the storm, but a few nice days will see it completed and ready for occupancy.

Miss Mabel Green, the efficient Willard school teacher, spent Christmas with her aunt, Mrs. F. D. Carpenter on the ranch.

Dr. W. A. Wilson expects to be at home in his new office building in a short time. He is building on West Sixth Street.

B. L. Hues is getting ready to commence work on his new residence building just as soon as the carpenters finish the Means building.

MINES AND MINING.

All of the houses in Kelly are full and it is a difficult matter to take care of the people that are coming there.

The Magdalena and Kelly mining districts in Socorro County, are now producing a large amount of zinc and other ores. A number of prominent mining men have been in the region recently and they all seem surprised at the richness of the mines. It is said that a party of engineers has been looking over the ground for a firm in California and that they will

report that the mines are even better than represented.

A large amount of ore has been recently shipped from Taos County mining districts to the smelter at Deming. During Christmas week the group of mines known as the last Chance were sold to the Aurora Mines Company of Illinois. This is one of the oldest mines in the Red River district.

The Phelps-Dodge Company has made a big strike on one of their properties in Grant County. This was made on the Hanover mine, one of the oldest mines in the Territory.

The Palomas Chief mine in Sierra County has been at work uncovering a large body of silver ore in the main tunnel.

At Shandon, Sierra County, the Shandon Mining Company is pumping 250 gallons of water a minute which gives power for the hydraulic plant in operations on its placer claims.

It is said that the Santa Fe Gold and Copper Company will start the smelter at San Pedro in the near future. If the copper mine starts there, the Block Coal Mine will also be put into operation.

The Phoenix Prospecting Company operating in Luna County, in the Cook's Peak district, has recently taken a bond on several properties and will push the work on them.

The Luna Lead Company's work at Deming is proving satisfactory to the owners as well as to the surrounding producers.

A CERTAIN CURE FOR CROUP.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail, viz.: Chamberlain's Cough Remedy. Mr. M. F. Compton of Market, Texas, says of it: "I have used Chamberlain's Cough Remedy in severe cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by all druggists.

If you cannot afford to pay for a daily paper, subscribe for the Weekly New Mexican Review and get the cream of the week's doings. It is a good paper to send to your friends.

THE DOOR TO LONG LIVING.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men who live on a slender diet. Be as careful as he will, however, a man past middle age, will occasionally eat too much or of some articles of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by all druggists.

No Pill is as pleasant and positive as DeWitt's Little Early Risers. These Famous Little Pills are so mild and effective that children, delicate ladies and weak people enjoy their cleansing effect, while strong people say they are the best liver pills sold. Never gripe.

Sold by Ireland's Pharmacy.

JUSTICE OF THE PEACE DOCKETS.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2x6 inches. These books are made up in civil and criminal dockets, separate, of 320 pages each, or with both civil and criminal bound in on book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal\$4.00

Combination civil and criminal, \$5.00

For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address,

THE LEGISLATIVE MANUAL.

The Legislative Manual for 1905, or Blue Book for New Mexico, historical and official compendium of value to every business man and officer and of interest to every citizen, 304 pages. Price \$1.50. Address the New Mexican Printing Company, Santa Fe.

GRIP QUICKLY KNOCKED OUT.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Eggleston of Maple Landing, Iowa. "Knees and joints aching, muscles, sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." These Tablets promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.

U. S. Marshal C. M. Foraker, of Albuquerque, arrived from the south last evening, and today was present at the sessions of the Territorial Supreme Court.

L. E. Osborn, of Trinidad, a traveling salesman, spent yesterday talking with the merchants of Santa Fe. The salesmen are now showing their samples of spring goods.

N. S. Torres, who has been at Golden attending to mining interests, returned to his home in this city for New Year's. He will leave soon for Golden to begin work on his claims.

L. M. Williams, road master at Estancia for the Santa Fe Central Railway Company, returned with his wife yesterday from a two weeks' visit at Strong City, Kansas, where he owns a farm.

R. R. Wade, of Oro Grande, a new town being built at Jarilla Junction, about 40 miles south of Alamogordo, Otero County, on the El Paso & Southwestern Railroad line, is registered at the Palace Hotel.

A. A. Welkin and A. H. Kerr, employees of the Denver & Rio Grande Railroad, spent New Year's day in Santa Fe as guests at the Claire. They are employed along the line between Santa Fe and Antonito.

Chief Justice W. J. Mills, of Las Vegas, arrived last evening and is registered at the Palace Hotel. The Judge will preside over the sessions of the Territorial Supreme Court through the January term.

Raymond Hurt, of Harriman, Tennessee, has asked the management of Sunmount to have a cottage ready for occupancy by January 15th. He will come to Santa Fe with the intention of remaining for several winters.

Dr. M. H. Beacon, of Denver, a veterinary surgeon, who cares for the sick horses in the Grant Construction Company's camp at Willard, was a guest at the Palace Hotel, yesterday. He is en route to Willard from Denver where he spent the holidays.

Dr. and Mrs. J. L. Norris, and child, of Estancia, arrived in Santa Fe yesterday. Dr. Norris left today in connection with his work as surgeon for the Santa Fe Central Railway. Mrs. Norris will visit her mother, Mrs. George Marsh here for several weeks.

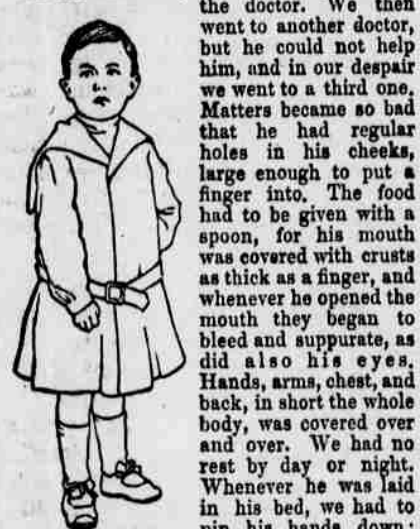

Supreme Court Clerk J. D. Sena, has received a letter from Associate Justice W. H. Pope, dated Irapuato, Mexico, December 29th, last, stating that he and Mrs. Pope will not reach

TERRIBLE ECZEMA ON LITTLE BOY

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

MIRACULOUS CURE BY CUTICURA REMEDIES

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest, and back, in short the whole body, was covered over and over. We had no rest by day or night. Whenever he was laid in his bed, we had to pin his hands down; otherwise he would scratch his face, and make an open sore. I think his face must have itched most fearfully."

ALFONSO HERRATH. "We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as ever before." F. E. HERRATH, President of the C. L. Hohrath Company, Manufacturers of Silk Ribbons, 4 to 20 Rink Alley, June 5, 1905. South Bethlehem, Pa.

this city until Thursday noon and probably not until Friday. The Judge requests Mr. Sena to so inform the Chief Justice. Judge and Mrs. Pope were expected here yesterday noon.

Miss Harney, a public school teacher, of Santa Rosa, well known here, came to Santa Fe yesterday, and attended the New Year's ball at the Palace Hotel last night. She will leave in a few days for a visit at Cerrillos, after which she will return to Santa Rosa. She reported that Miss Catherine A. Tibbets, of Toledo, Ohio, who is well known here, is recovering her health rapidly under the effects of New Mexico's climate at Cerrillos.

Frank Williams, employed in the local office of the Santa Fe Central Railway Company, who has been in Columbus, Ohio, spending the holidays, returned yesterday to this city, but not alone. With him came a bride, who joined her fate with his, December 27. She was formerly Miss Lillian Sullivan of Columbus. They will make their home at 102 Manhattan Avenue. A party of Mr. Williams' friends learned of their coming in time to meet them at the train and to see that they started in life with plenty of rice.

THE COW GAVE NO MILK.
We have a fine cow but she gives no milk. We have to take it from her. The Bon Ton Hotel and Lunch Counter serves the finest milk and cream in the city with all meals.

TO SET YOU RIGHT.
A good many people imagine that malt is an intoxicant. To set you right on this point, we say, most emphatically, that Dr. Lauritzen's Health Table Malt and Malt Tonic are NOT intoxicating at all.

KNOCKERS.

"When buzzing bells were quite unknown,

In good old days of yore, Each sire had a knocker on

The outside of the door, But though the outside knocker's gone,

Swept by improvement's tide, There's many a house along the line

With a knocker right inside."

N. Salmon has valuable information in his change of advertisement in this issue.

Ladies attend the Cash Store clearance sale of millinery this week. See advertisement in this issue.

The housewife's attention is directed to the change of advertisement of the Cartwright-Davis Company. She will be made happy by the announcement.

There is a noticeable lack of rooms in the city. If those who desire rooms or have them to rent will patronize the want column of the New Mexican they will get quick results.

Persons having rooms to rent or desiring rooms should patronize the want column of the New Mexican. Those who have recently done so are more than pleased with the results.

Pablo Salazar, a native of Rio Arriba County, of this Territory, died on the evening of December 27 at Durango, Colorado, after an illness of thirteen

days. He leaves a widow and two children. He was employed in the coal mines near Durango.

Many a Santa Fe woman arose before her husband was awake this morning to examine his tracks in the snow, and many a husband upon awakening was unable to identify his own tracks.

All say that printer's ink is the proper article for securing trade. Read Sellman Brothers Company change of advertisement announcing the great annual clearance sale. It is your chance to save money.

The city council met in regular session at 7:30 o'clock last night, Mayor A. R. Gibson presiding. All councilmen were absent. L. F. Montele, city clerk, present. Adjournment was taken until next Monday night. No business was had.

Herbert Simms, Harry Simms, L. H. Williams and Dr. O. T. Hyde will leave the city Monday for an extended camping and hunting trip. The party will go in wagon and on horseback drifting southward until the members tire of outdoor life. The present plans extend to Silver City.

Under Sheriff Jose L. Lopez, who has been at Golden attending to mining interests, returned yesterday to his home in this city. He reported a foot and a half of snow at Golden and San Pedro and said Santa Fe seemed like "good old summer time" as compared with that country. He expects to begin mining as soon as the weather will permit and will make a test shipment of ore amounting to 100 tons

early in the spring. Under Sheriff Lopez, says that mining operations will be conducted on a large scale near Golden this summer.

The Young Woman's Anti-Horse Thief Association is out in full force. A real poet has been discovered in Santa Fe and an effort is being made to capture him. What will happen then is matter of surmise, as the association has the only tree large enough for lynching purposes in Santa Fe County.

Believing by past experience that the best way to reach the public and get the business is by using this paper, the Fischer Drug Company has a change of advertisement in today's issue. It announces a complete stock but if anything is desired and is not in stock it will be procured for you quickly. The company tries to please you.

The weather forecast for today is fair and cold tonight, with fair and warmer weather Wednesday. The maximum temperature yesterday was 38 at 10:30 a. m. and the minimum was 18 at midnight. The mean for the day was 28 degrees. The relative humidity was 60 per cent and the precipitation was 0.14 of an inch. The temperature at 6 this morning was 8 degrees above zero.

On account of the non-arrival in this city yesterday of Associate Justice and Mrs. W. H. Pope and owing to the fact that they will not be here until Thursday or Friday, the reception in their honor to be tendered them by Associate Justice and Mrs. J. R. McFie, which was to have taken place this evening at the McFie residence, has been postponed. Due notice will be given of the date it will take place; this will probably be Friday evening next.

The following suit has been filed in the First Judicial District Court for San Juan County. The McCord Chapman Greer Mercantile Company of Pueblo, Colorado, vs. the San Juan Stores Company, San Juan County, New Mexico. The petition asks that the Mercantile Company be given judgment against the San Juan Stores Company for \$254.81, which sum it is alleged is due in payment for goods. Charles N. Higgins is attorney for the plaintiff.

The convicts at the penitentiary yesterday were again made happy, when they were allowed to sit down to a big New Year's dinner which closely rivaled the one given on Christmas day. The menu was as follows: Roast pork with brown gravy and jelly; mashed potatoes and stewed tomatoes; coffee with cream and sugar; and a variety of cakes. The New Year's pardon has not yet been decided upon by Governor Miguel A. Otero. It will probably be announced tomorrow.

In speaking of the Bioscope Company that will give an exhibit here in the opera house on Thursday evening and Friday afternoon, the Trinidad Advertiser says among other complimentary things: "It was a highly pleased crowd which last night packed to its utmost capacity the opera house to see the presentation of the pictures by the International Bioscope Company. There have been moving pictures exhibited without number in Trinidad but until last night Trinidad people did not know what real moving pictures were."

During the recent cold snap, which by the way, was milder at this point than probably anywhere in the Territory, the residents at Sunmount, most of whom occupy canvas cottages, reported that they were comfortable at all times and received benefit from the dry cold air. In investigating the advisability of patients remaining in tents during such weather, Mayor A. R. Gibson, received word from Dr. Trudeau, who established the large sanitarium and tent city in the coldest spot in the Adirondack Mountains, to the effect that dry cold air was as beneficial in most cases as warm sunshine, being the opposite condition and producing almost the same results. He so informed the residents at Sunmount.

The New Year's ball given by the local Elks' lodge at the Palace Hotel last night fulfilled all the expectations of those who attended. The affair was most enjoyable and the attendance was just large enough to make the dancing space comfortable. The grand march, led by Exalted Ruler O. C. Watson and Mrs. Watson, started at 9:30 o'clock and lasted until 10 o'clock when it terminated in a short waltz. From that hour until after 2 o'clock this morning, the dancing was general and Santa Fe has seldom seen a gayer set of balladores. At midnight, refreshments, consisting of a variety of sandwiches, coffee, ice cream and assorted cakes, were served to the dancers in the ball room. The heavy fall of snow in the evening made it disagreeable coming and going to the dance. However, it only added to the cheer within.

NEW MEXICO HAPPENINGS

Albert Reaves Quinley died in Las Vegas at the age of fifty-five years. He is survived by a wife and two children.

A force of men has been put to work on the Loma Grande properties at Nogal and good looking ore is reported.

Miss Eunice Frikey and Albert E. Petty were married last week at Roswell, where they will make their future home.

Reverend Father Julliard, of Gallup, has received notice of the death of his father in France. Deceased was in his 79th year.

A large number of new trees have been secured for the improvement of the University of New Mexico grounds at Albuquerque.

Thomas Bell, aged 56 years, died last week in Fort Worth, after a short illness. He was well known in Roswell where he formerly lived.

The McKinley County Medical Association of Gallup, gave Dr. Platt a large farewell supper last week. The banquet was thoroughly enjoyed by all present.

The Indian Pueblo of Laguna, in Bernalillo County is in a bad way. The snow is so deep that it will hardly allow going out and the temperature is 15 degrees below zero.

The condition of the water supply of Gallup is still very bad. The casing for the new well has arrived and drilling has been resumed, but this does not relieve the situation.

The Hermosa Copper Company is vigorously pushing work on a large number of properties owned by it in the central mining district, Grant County, with most encouraging results.

The Luna County Telephone Company has commenced stringing wires for a long distance telephone line to Minibres Hot Springs, Luna County, via Faywood Hot Springs, Grant County.

The Deming Ice and Electric Company of Deming is making improvements in its plant at Deming. When the improvements are completed the plant will have a much larger capacity.

The Pacific Improvement Company is installing a steam laundry at Gallup. New and up-to-date machinery is being used and when completed, the laundry will be one of the best establishments of the kind in the Territory.

According to the Portales Times, the county seat of Roosevelt County is doing very well. Says the Times: "At least six new stone or brick business houses will be erected as soon as spring opens. The contract has been let for a part of them and others have purchased lots with the expressed purpose of building. Portales has passed the experimental stage and is now on the high road to advancement and material prosperity."

DOING THEIR DUTY.

Scores of Santa Fe Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow;

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all.

Santa Fe people endorse our claim.

Juan A. Ortega, ex-policeman, of Loma St., says: "If all troubled with

pain in the back have that annoyance ended as quickly as the use of Doan's

Kidney Pills procured at Ireland's

Pharmacy ended mine, then backache

due to kidney complaint would cease

to have any terrors for users of this

strengthening and curative preparation.

No one in Santa Fe need be in the

least dubious about using Doan's

Kidney Pills if they require a medicine

to strengthen their kidneys."

Prices For Butterflies.

Butterfly collectors are seldom able to estimate with any confidence the value of their collections, since the prices for specimens so constantly vary. A case in point is that of the blue butterfly of Brazil, specimens of which were originally sold for from \$50 to \$75. Afterward some collectors who supplied the London market ran into a perfect swarm of these butterflies and shipped to England such quantities that better specimens than the original insects sold for \$1 each. It not infrequently happens that two or three specimens of a certain family are discovered by collectors, who, encouraged by the high prices received for their finds, are tempted to prosecute their search for this particular variety without result for several years. Suddenly they or some other collector finds the insects grown plentiful, and the cherished varieties of the cabinet become among the commonest specimens.—Chicago Post.

Sociable Spiders.

Spiders have been observed in Madras which live in a sponge-like nest of branching network, penetrated internally by canals of communication and furnished with a number of external apertures. The nests, which may be attached either to the tips of branches or to leaves of the prickly pear, are ashy gray in color and constructed of leaves, with an external covering of the usual sticky threads. The spiders are similar in color to their nests. Their inconspicuous, sheet-like webs radiate in all directions, and as many as five or six nests, connected by intermediate webs, may be found on a single plant. The connecting webs, which are very strong, often form tubular bridges between the nests. From forty to a hundred spiders may be found in a single nest, and males and females inhabit the same nest in the proportion of about seven to one.

How the Bulldog Was Evolved.

In the north hall of the British Natural History museum skulls of domesticated dogs are arranged which illustrate the evolution of the modern bulldog from a breed which, according to old pictures, was more of the mastiff type. Bull baiting was a common sport in the thirteenth century, and there is a later record which draws a distinction between bulldogs and mastiffs. Low, in his "Domesticated Animals of the British Islands," points out that it is essential that a dog should make a frontal attack on a bull should be both underhung and short legged, that it may get a firm grip of its antagonist and avoid its horns. We may therefore be sure that, as the bulldog was gradually evolved from the mastiff, these points were held to be of prime importance.

Doomed the Colonel.

Emperor William I. of Germany was a strict disciplinarian. One day during the maneuvers of the army a cavalry regiment charged at a strongly entrenched and embattled village, of which the garden walls were lined with marksmen. "Look, look!" exclaimed the Russian representative. "That regiment is lost." "No," was the emperor's calm reply, "this regiment isn't, but the colonel certainly is." And, sure enough, at the close of the maneuvers he was placed on the retired list.

Two Kinds of Boys.

"My son got brain fever from studying too hard," said one mother to another, trying to repress a thrill of intellectual pride. "That's bad, but my boy broke his leg and two ribs in his first game of football," replied the other, with motherly gratification.—Baltimore American.

Thinking of the Cook.

Jones—What makes you think Snubbs is absentminded? Freyer—We went into an auction store yesterday. The auctioneer was shouting, "Going, going!" and Snubbs shouts: "Please don't

go! I will give you \$5 a month more and have a girl to help you with the washing!"

Advice to Young Men.

If the average young man would read the want ads, as closely as the baseball news he would find that he had as many "chances" as a first baseman.—Erie (Pa.) Times.

Consideration.

Duke McGlue—Why do you call your dog Feathers? Count Nonaccount—Because I dislike to call him down.

Don't express a positive opinion unless you perfectly understand what you are talking about.

Easy Housekeeping.

Native housewives in the West Indian jungle find housekeeping very easy. Fruit and vegetables grow wild all about the hut, and the river abounds with fish. On washday all she has to do is to pick a few of the berries of the soap berry tree, take her clothes to the river and use the berries as she would use ordinary soap. Even her cooking pots grow on the trees, the calabash cut in halves being used for this purpose. Calabashes are also used for bowls, basins and jugs for carrying water from the river, while the small ones make excellent cups. In the afternoon when she is ready for her cup of tea she picks half a dozen leaves from the lime bush growing at her door, boils them, squeezes the juice from a sugar cane for sweetening, and the coconut supplies the milk. Thus she has a delicious cup of tea without depending on the grocer for it.

Two Apologies.

Colonel L. B. Pease, who was for a long period editor and publisher of the Woonsocket Reporter, was responsible for many quaint sayings and delicious bonmots. Upon one occasion he attended a crowded reception in Harris hall and, staying quite late, was surprised to find his hat had been taken and a very poor substitute left in its stead. The following night he called the attention of his readers to the fact in the following manner: "The gentleman who inadvertently took our new silk tie and left a very inferior article in its place will do us infinite kindness by returning ours. He will receive our warmest thanks and two apologies—an apology for the trouble we have given him and the apology for a hat he has left us."

KILLS HORSES.

Grant Construction Outfit on Belen Cut-Off Loses Many Animals From Pneumonia.

"The climate of New Mexico is undoubtedly the healthiest in the world for invalids but I cannot say the same with regard to horses," said Dr. M. H. Deacon, a veterinary surgeon, at the Claire Hotel last night. Dr. Deacon cares for the sick horses of the Grant Construction Company, working on the Belen cut off, now in camp at Willard. He passed through Santa Fe today en route to Willard from Denver where he spent the holidays.

"Horses suffer more from pneumonia in this climate than anywhere I have ever been, particularly in construction camps. Last month our outfit lost sixteen head from this disease and not a day passes that we do not have from two to three animals suffering from this ailment. You see the horses are worked steadily all day, until they perspire freely. Then at night, they are placed in tent stables which are not the warmest quarters in the world.

"Although every effort is made to shield the animals by blanketing them, yet they catch cold, just like persons. Our stable men soon find them groaning with their agony and their labored breathing can be plainly heard at some distance. The treatment for pneumonia in the case of a horse is much the same as for a person similarly affected. I give them warming fluids, and the men pack them with warm blankets, stones, and hot irons until their circulation becomes better. As soon as we can relieve the lungs, so as to make breathing easier, the danger is past. The main thing is to begin work quickly and keep at it. But in spite of our efforts, many horses die each winter. Mules are hardier and stand the work better but even they succumb to the cold if not cared for carefully."

"Do the horses contract tuberculosis?" he was asked.

The doctor laughed as he replied: "Well, I have never heard of a horse being sent to New Mexico for lung trouble. No, not yet."

COUNTY COMMISSIONERS IN SESSION TODAY.

The Board of County Commissioners was again in session at the court house at 10 o'clock this morning and spent the day in transacting routine business.

Those present were Hon. Arthur Seligman, chairman, Hon. Jose Inez Roybal, commissioner, and Marcus Castillo clerk of the board. A number of property owners appeared and desired to be allowed exemptions and also to ask for reductions in tax assessments.

Accounts for the quarter ending December 31, 1905, were examined, audited and approved.

P. S.—No Trouble to Show Goods.

Now Look Out!

Now look out for watch troubles! The first touch of cold weather is apt to harden the oil—that strains the mainspring and affects the motion. It's the wisest thing you can do to have your watch examined at this time of year. If it is in good order, we'll let it alone; if it needs repairing, we'll do it thoroughly, at a moderate price.

Few watches are cleaned and oiled as they ought to be—once a year. People usually wait until something breaks. The other way is cheapest in the end and saves the watch.
