ANOTHER WAY TO KILL STATEHOOD

Fear That Cannon May Refer Bill to Committee.

MORE FUNDS FOR COUNTIES

Plan to Set Aside Five Per Cent Forest Reserve Grazing Fees.

Washington, March 14.—There are indications that the statehood bill may be referred by Speaker Cannon to the committee on territories. This action, friends of statehood for Indian Territory and Oklahoma fear, will entirely defeat the measure. The committee can retain the bill indefinitely and if it should appear that there are "insurgent" votes enough to concur with the Senate amendments, the bill would not, they say, be brought into the House.

Under the rules of the House a Senate amendment to a House bill which changes the charge on the treasury sends the bill to committee automatically.

The amendment in question is one granting the lands to the new state for school purposes in case of Sections 13 and 33 reserved in each township, proved to be mineral lands.

Although the bill goes to committee without a motion in the House, it is still on the speaker's table. Unless some member insists that the reference be made at once, the plan is to defer the reference until the return of members who have gone south on a river and harbor inspection tour. This delegation will return Saturday. An agreement was made before they left whereby nothing was to be done with the statehood bill until their return.

The news that the bill was to go to the committee on territories, which leaked out today was somewhat disconcerting to the "insurgents," who have been bending their energies to strengthen their numbers in the expectation of a direct vote on the motion to concur in the Senate amendments to the bill. If some way had not been discovered to send the bill to committee this motion to concur would have been in order and would have taken precedence over a motion to disagree and go into conference.

Just how the "insurgents" are to meet the new situation has not yet been decided upon so far as can be ascertained.

Money for Counties.

Special to The New Mexican. Washington, March 14.—There is a report to the effect that a bill is being prepared for presentation to Congress by persons interested in the welfare of New Mexico, providing for the setting aside of 5 per cent of all the grazing fees on the various forest reserves to reimburse the counties in which said reserves are located for any taxes they might lose. The conditions of the bill have not been made public.

Babcock Criticizes House. Washington, March 14.—When the House met today the legislative bill was laid before it, and Babcock of Wisconsin, took the floor for a speech on statehood. He said the House bill was one of the greatest legislative outrages ever enacted; that the Senate had properly amended the bill and he favored the Senate amendment.

He dwelt at length on the reasons why Arizona and New Mexico should be united as one state. Applause from both sides of the chamber greeted Babcock's conclusion.

Crowley on Retired List.

Special to The New Mexican. Washington, D. C., March 14.—Delegate Andrews today introduced a bill placing the name of John Crowley of White Oaks, Lincoln County, on the retired list of the navy in order to receive consideration for thirty-two years of faithful service in the United States navy.

Well Known Legal Case.

Special to The New Mexican. Washington, D. C., March 14.—The case of E. J. McLean & Company, of Santa Fe, vs. the Denver & Rio Grande Railroad involving the validity of the new Mexico hide inspection law, was argued today before the United States Supreme Court by Charles A. Spless, of Las Vegas, for the Denver & Rio Grande Railroad and by W. B. Childers, of Albuquerque, for McLean & Company.

Claims Freight Bill Void.

Special to The New Mexican. Washington, D. C., March 14.—Before the subcommittee of the committee on railroads of the United States Senate, Senator Raynor, of Maryland, made a speech in which he asserted that certain words inserted in the railroad freight bill by railroad attorneys made the provisions of the bill void.

BIG BOUT TONIGHT.

Battling Nelson and Terry McGovern to Meet in the Arena at Philadelphia.

Philadelphia, Pa., March 14.—Trained to the hour and ready for their battle, which is looked upon as one of the most important pugilistic events of the year, Battling Nelson and Terry McGovern await the call to the arena of the National Athletic Club tonight. Never in this city has more interest been taken in a pugilistic encounter than is now manifested in this bout. Sporting men from Boston to Chicago are arriving in the city to witness the go. The attendance promises to exceed 15,000 and so fast have the tickets been sold, notwithstanding the big prices asked, that there is not likely to be an unoccupied seat within view of the ring.

McGovern in Shape. New York, March 14.—Terry McGovern, who will fight "Battling" Nelson at Philadelphia, left for the scene of the encounter today and was cheered by several hundred persons. Before leaving he stepped on the scales and showed a weight of 130 pounds. He feels confident of victory.

RELEASED AND RE-ARRESTED

Vincent St. John of Idaho, Accused of Several Crimes Has Brief Liberty.

Boise City, Idaho, March 14.—Vincent St. John, the president of the Miners' Union at Burke, Idaho, who was arrested February 18, charged with complicity in the murder of Governor Steunenberg, was released today on a writ of habeas corpus, granted by Judge George H. Stewart, of the district court. St. John at once was re-arrested on the charge of murder by Sheriff Nichols and Detective Thiel. Sheriff Rutan, of Telluride, is expected to arrive at Boise this afternoon with a warrant for St. John in connection with a murder in Telluride.

SHAW WILL BE THERE.

Banquet at Milwaukee, Wis., Tonight in Honor of Judge James G. Jenkins.

Milwaukee, Wis., March 14.—Preparations on an elaborate scale have been completed for the banquet to be given at the Plankinton House tonight in honor of Judge James G. Jenkins. The function will mark the close of the annual meeting of the Wisconsin State Bar Association now in session. Judge J. V. Quarles will preside and the scheduled speakers include Secretary of the Treasury Leslie M. Shaw, Chief Justice Cassoday of the Wisconsin Supreme Court, J. Hamilton Lewis of Chicago, and Senator John M. Whitehead of Janesville. Covers will be laid for 300 prominent members of the bench and bar.

WILL LICENSE THEM.

Chicago Street Railway Companies Having No Franchises Aided By City.

Chicago, March 14.—Immediate steps will be taken by Chicago to license the street railway companies on all lines which the United States Supreme Court declares are existing without a franchise. At a conference today between Mayor Dunne and the attorneys of the street car companies, it was decided to issue permits as soon as possible, permitting the companies to maintain the present car lines. It was also decided that the tunnels which extend under the surface of the Chicago River, shall be removed early next month. The tunnels have long embarrassed navigation.

IN HONOR OF PENNYPACKER

Washington, D. C., March 14.—The Pennsylvania Club of this city has issued more than 1,000 invitations for the reception this evening in honor of Governor Pennypacker. Among the invited guests are President Roosevelt, the members of his Cabinet, Vice President Fairbanks, Speaker Cannon, the justices of the Supreme Court, members of Congress and numerous others prominent in the social and official life of the National Capital.

SHOE MAN ARRESTED.

St. Louis Manufacturer Charged with Securing Money Under False Pretenses.

St. Louis, Mo., March 14.—John H. Tennent, Sr., president of the defunct Tennent Shoe Company, was arrested today on a warrant charging him with obtaining money on false pretenses. The warrant does not state any sum of money, but was issued at the request of the grand jury.

RENEWED FURY OF BLIZZARD

Nebraska Covered With Over Foot of Snow.

RAILROADS ARE BLOCKADED

Denver & Rio Grande Tied Up Between Antonito and Durango.

Lincoln, Neb., March 14.—A renewal of the heavy snow fall which visited Nebraska for the last three days came this morning. The snow is driven by a brisk wind and drifted badly and the train service is being interfered with. The average depth of snow is over a foot, more than had fallen all winter up to this time.

Winter Still in Denver.

Denver, Colo., March 14.—A heavy wet snow fell in this city last night and continues today. At 6 o'clock this morning there were eight inches of snow on the ground and prospects for at least four inches more. Heavy snows also fell in the mountains in this vicinity.

Floods Predicted.

Chama, March 14.—The train from Durango, Colorado, to Denver, Colorado, is snowbound near here and it is improbable that it will be able to move for three days. The deepest snow of the year covers the Cumbres Pass. If there is a sudden thaw there will be terrific floods in the Chama and other tributaries of the upper Rio Grande and also in the main stream.

New Mexico Weather.

The New Mexican this afternoon received the following weather reports from towns in the vicinity, indicating that though there was some wind, a cloudy sky and a slightly lower temperature here today, the worst weather did not strike the Capital City. Cloudy weather prevailed today at Alamosa with high westerly winds; temperature 35 degrees. There was no wind at Antonito. The weather there was partly cloudy and mild. Rain fell at Las Vegas last night and it was still cloudy and threatening there today. Cloudy weather prevails at Espanola with a mild temperature and light rains. Rain fell at Albuquerque last night and a partly cloudy condition prevails today. Warm cloudy weather exists at Raton.

Santa Fe Weather Not Bad.

Although the weather bureau predicted a cold wave for this portion of the Territory yesterday, it did not reach Santa Fe. The weather today was partly cloudy with perhaps a slightly lower temperature and but little wind. The clouds drifted about during the afternoon, allowing the sun to shine much of the time. There was only .05 of an inch of rain fell last night, which was just enough to freshen the grass this morning. From appearances, however, there was a heavy snow fall on the higher mountains in this vicinity.

VOLCANO WRECKS MANY HOMES

Terrible Disaster Reported From the Island of Savaii By Ship's Officers.

Honolulu, March 14.—The officers of the steamer Sierra, arriving here yesterday from Sydney, N. S. W., via Samoa, report that the eruption of the volcano on the island of Savaii, of the Samoan group, continues on a large scale. Three villages have been completely destroyed, including Malaeola, where was located the finest cocoa plantation on the island. The residences of A. King and C. Barley have been reduced to ruins and are a total loss.

The lava from the mountain is flowing into the ocean in a stream three-quarters of a mile wide and twenty feet deep at the rate of twenty feet an hour. At night a solid wall of molten lava five miles long can be seen reaching far out into the sea. For some distance ahead the sea water is boiling and the surf breaks over the fiery stream. The government recently chartered the steamer Maori to remove the women and children from the zone of danger.

CUT HIS THROAT.

Louis Brown Who Killed a Woman By Throwing Lamp at Her, Takes His Life.

Norfolk, March 14.—Louis Brown, 29 years old, awaiting trial on Friday for the murder of Flossie Reese, at whom he threw a lighted lamp which exploded, fatally burning the woman, committed suicide in the Norfolk jail early today by cutting his throat with a pen knife which was smuggled into the jail.

CONSPIRACY IN THE PALACE

Plots Under Very Nose of Czar Nicholas.

ASTOUNDING REVELATIONS

Massacres of Jews and Revolutionists Planned by Black Reactionaries.

St. Petersburg, March 14.—At today's session of the Cabinet, Premier Witte, who was warmly supported by Prince Alexis Obolsky, the procurator general of the Holy Synod, and Count John Tolstoy, minister of education, insisted on the suppression of the organization known as the League of Russian People, through which the agitation of the reactionary "Black Hundred" is propagated.

Where Plot Originated.

The prefect of police was summoned to the meeting and was asked to explain how the publication of a proclamation calling for the extermination of the Jews was printed in the official printing office attached to the department. The prefect denied personal knowledge of the printing. However, it was established that there is constantly accumulating evidence that the plot to produce a counter revolution in the hope of sweeping away the reforms outlined in the manifesto of October, had its origin in the court cabal.

The conspiracy also included General Trepoff, commandant of the Palace, General Count Ignatieff, M. Stuchinsky, former chief adjutant of the interior department, Count Sheremetieff, the noted reactionary and General Prince Putiatin, who are said to be utterly reckless of consequences.

Plan to Massacre Jews.

The plan is to provoke riots and massacre of Jews and revolutionists over as wide an area as possible to justify still more terrible repressions and thereby prove to the Emperor that the people are not ripe for any sort of self government. The complicity of the interior minister, Durov, is not proved, but is suspected. Premier Witte and the Liberal section of the cabinet will be compelled to fight the conspiracy and consequently a break in the ministry is not improbable.

RELIGIOUS MOVEMENT.

Federation Planned of Seven Presbyterian and Reformed Denominations at Charlotte, N. C.

Charlotte, N. C., March 14.—A federation of seven religious denominations is expected to result from a conference begun in this city today. The denominations represented are the Presbyterian Church, Presbyterian Church of the South, United Presbyterian Church, Reformed Church in the United States, Reformed Church in America and the Reformed Presbyterian Church.

The movement for a closer union of these denominations dates back several years. At a meeting held in Pittsburgh two years ago a basis for consolidation was prepared and arrangements were made to present the same to the executive bodies of the church. The various general assemblies and general synods received the report favorably, but in each instance referred it back to the joint committee for more detailed plans. It is to prepare these plans that the present meeting of the joint committee is held.

Prominent among the members of the committee are T. C. McRae, of Arkansas; J. W. Deardslee, D. D., of Holland, Michigan; R. F. Coyle, D. D., of Denver; W. N. Page, D. D., of Leavenworth, Kansas; R. H. Martley, D. D., of Grand Rapids, Michigan; William McKibben, D. D., of Cincinnati; J. A. Henry, of Philadelphia, President Francis L. Patton, of Princeton Theological Seminary, President J. D. Moffat, of Washington, and Jefferson College; G. H. Shie's of St. Louis; Henry W. Jessup, of New York; Rev. A. E. Dahlgren, D. D., of Buffalo; General J. E. Roller, of Harrisburg, Pennsylvania; Rev. C. R. Hemphill, of Kentucky; Rev. J. H. McNeilly, D. D., of Tennessee; Rev. W. E. Boggs, D. D., of Florida; Rev. W. McP. Alexander, D. D., of Louisiana; Captain C. N. Roberts of Texas, and Charlton H. Alexander, of Mississippi.

ANOTHER DEADLOCK.

Moroccan Conference Suspends and No Time Set for Next Meeting—Cannot Agree.

Algiers, March 14.—The Moroccan conference reached a deadlock on the questions which have arisen over the details of the police and bank questions. All sessions are temporarily suspended without knowing when they will be resumed.

SANTA FE OFFICIALS

In Their Testimony Before the Interstate Commerce Commission at Kansas City.

Kansas City, Mo., March 14.—Half a dozen witnesses were still to be examined when the Interstate Commerce Commission resumed its hearing today, in the charges of rate discrimination made by the Kansas Oil producers Association. J. R. Kountz, general freight agent of the Santa Fe testified that the Standard Oil pipe lines are on the Santa Fe right of way for some distance but declared that he did not know how the company secured the right. In regard to freight rates established by the Kansas legislature he said he considered them arbitrary. "It was an effort," he said, "on the part of the examiner to meet the scale in force in Texas with this difference, that while the Kansas rate is the same as the Texas rate upon crude oil, it is much lower than the Texas rate upon all productions of petroleum."

GATHERING OF MINERS.

Convention at Indianapolis Which Will Make Final Decision Upon Proposed Coal Strike.

Indianapolis, Ind., March 14.—Practically all the delegates are here for the national conference of the United Mine Workers of America which will be called to order by President John Mitchell in Tomlinson Hall tomorrow morning. No definite idea seems to exist among those already on the field as to just what action the conference is likely to take in regard to the strike proposition. President Mitchell will make to the delegates a full report of the recent New York conference with the operators and ask that the demands framed by the Indianapolis convention last month be again carefully considered. If any changes are decided upon they will be presented to the joint conference with the operators next week.

DEPEW HAS COLD.

His Condition is Not at All Serious and Published Rumors Are Denied.

New York, March 14.—The World today says: "Senator Chauncey M. Depew, about whose whereabouts there has been much speculation for several days, is at his residence in this city. It is said there that Depew's condition is much improved and he would go to Washington probably by the end of this week. It is also stated that he has been suffering from a slight cold but at no time was his condition serious. The report that he had been in a sanitarium is denied."

MONSTROUS LOSS.

155 Million Dollars is Amount Reported By the Commission on Russian Disturbances.

St. Petersburg, March 14.—The reports of the special commission which investigated in nineteen provinces the Agrarian disturbances which occurred last year show that the losses exceeded \$155,000,000.

REBEL LEADERS BEHEADED

China Punishes Outlaws Who Attacked House.

RAILROAD SPECULATION

Shares of Canton-Hankow Line Going Like Hot Cakes—Buyers Block Streets.

Canton, March 14.—The leaders of the rebels in Kuang Si province and others implicated in an attack on the house of Rev. Andrew Beattie, D. D., an American missionary at Fui in February, were beheaded on March 12th.

Eager to Speculate.

Canton, March 14.—The rush of applicants for shares of the Canton-Hankow Railway issued today is so great that streets are blocked with Chinese and soldiers are called out to maintain order. The concession of the Canton-Hankow Railway originally was American. Eventually the Chinese government cancelled the rights and concessions of the corporation, paying the owners an indemnity of six and three quarters million dollars. The road was to be 1,200 miles long, with an extension to Peking of about 1,400 miles, making a total of 2,600 miles. The acquisition of the concession by China came about through opposition of the Chinese to the enterprise being in foreign hands.

TELLS OF PENITENTIARY RECORD

F. H. Pierce Pays High Compliment to Supt. Bursum.

PRaises THE MANAGEMENT

Prison Best in the Country—Discipline Strict But Just.

F. H. Pierce, of Las Vegas, chairman of the Board of Penitentiary Commissioners, an office which he has held for six years to the greatest satisfaction of the people and the duties of which he has administered in a first class manner, tells an interesting story of the condition of the penitentiary and of the performance of his duty by its superintendent, Holme O. Bursum, in yesterday's Las Vegas Optic, which the New Mexican republicates that the people may know. Mr. Pierce does not exaggerate an iota but tells a fluent and easily understood tale which ought to be read by every citizen of the Territory. There is no question but that the Territorial penitentiary under the management of Superintendent Bursum has taken first place among the penal institutions of the United States and that its record is of the very best. Those who are acquainted with the situation and especially with prison affairs know that Superintendent Bursum is one of the very best prison officials in the country and that his administration of the institution has been marked with the greatest success in every respect.

Strict Disciplinarian. Although a strict disciplinarian, he is humane and as gentle as it is possible to be with the unfortunates under his charge. Every affair of the prison, great or small, has been conducted with the utmost nicety and with well directed efficiency, the greatest of caution and remarkable energy. Indeed, a better man than Holme O. Bursum for the position could not be imagined nor can he be found. That there are prison officials just as good as Mr. Bursum is probably true, although they are not known here. There is no superintendent of any prison in this country who ranks higher than Mr. Bursum in everything that goes towards the making of a competent official, an honest man and a good and patriotic citizen.

The interview says: F. H. Pierce Talks. "To an Optic representative Mr. Pierce expressed himself as greatly pleased with the condition of the institution and the excellent financial showing which the report of Superintendent Bursum revealed. The statement prepared up to the first of March showed the following amounts to be on hand in the various funds:

Balance in Funds.	
General maintenance	\$2,625.73
Convicts' earnings	270.89
Penitentiary income	14.05
Permanent improvement	.45
Scenic Route	314.27
Camino Real	3,845.35
Penitentiary Com'r's Board	844.91
Total	\$11,414.63
Supplies on hand	4,000.00
Accounts receivable	3,350.00
Total balance	\$18,764.68
Accounts payable	3,910.01
Total net balance	\$14,854.67

Fine Showing. "In addition to the above amounts on hand," said Mr. Pierce, "there is now due from maintenance fund appropriated for the present fiscal year about \$19,000, making a total credit to the penitentiary of nearly \$34,000. This is undoubtedly the finest showing which the penitentiary has ever been able to make at any period in its history, and is a cause of great satisfaction to Superintendent Bursum and the members of the board. It is noteworthy in this connection that the present penitentiary management can show about \$100,000 of improvement which has been largely produced by the labor of the convicts themselves and which is entirely paid for. This includes the fine brick plant, the new addition which is now ready for the roof, the walks and other improvements about the grounds of the institution.

Convicts' Earnings. "The public would doubtless be interested," continued Mr. Pierce, "in the statement of the earnings of the convicts during the seven years which the institution has continued under its present management. Mr. Bursum was appointed to the superintendency in May, 1899. From that month to the present day there has been a constant increase in the earnings of the convicts month by month. From

HOPE FOR SEPARATE STATE-
HOOD.

Yesterday's dispatches from Wash-
ington indicate that after all the sun
of separate statehood for New Mexico
is again rising and that this greatly
desired boon may be attained by the
people of this Territory before the
close of the 59th Congress, that is,
that the 59th Congress may pass the
separate statehood bill for New Mex-
ico, the people to vote upon the ques-
tion in 1907 or 1908. It has been ac-
knowledgeed for some time that there
is more or less danger that the Dem-
ocrats may make decided gains in the
House of Representatives this fall. It
is absolutely acknowledged that the
new state of Oklahoma will be strong-
ly Democratic by a majority of from
20,000 up. New Mexico, if admitted
before the 1908 elections will be safe-
ly Republican and its electoral vote
will be given for the Republican can-
didates for the Presidency and Vice
Presidency and its Congressional rep-
resentative will be Republican and so
will be its two United States Senators.
Combined with Arizona the political
complexion of the new state is not
sure. New Mexico alone is safe for
the Republican party. It seems that
this is at last having weight with the
party leaders in Washington and that
it is being seriously considered. This
is the time and Washington is the
place for the settlement of this ques-
tion by giving New Mexico separate
statehood, which will be satisfactory
to the people of New Mexico and of
Arizona. New Mexico has no ill-will
towards Arizona and its newspapers
and citizens have never said anything
derogatory to or uncomplimentary of
the sister territory and its people. This
cannot be said of Arizona. Unfortu-
nately, bad breaks in that direction
have been made by Arizona news-
papers and some of its leading men. Take
it all in all the logical and proper so-
lution of the statehood question is to
admit Oklahoma and Indian Territory
as one state, New Mexico as one state
and to give Arizona its desire, that is,
to let that territory wait for a few
years until it has at least attained
300,000 inhabitants, which is the figure
now honestly believed to be a fair es-
timate of the population of New Mex-
ico. Again, now is the time and here
is the place and the people of New
Mexico should not lose the opportuni-
ty. There is a tide in the affairs of
men and commonwealths which, tak-
en at its flood, leads on to fortune,
prosperity and advancement in every-
thing that goes to make a great and
powerful state. The people of New
Mexico cannot do much to bring this
about or to hasten it except to bring it
to the notice of the powers that be
and to ask favorable consideration of
their wishes at their hands. This is
being done and the New Mexican
hopes and trusts that favorable consid-
eration by the 59th Congress and by
the administration will be had.

MORE ENCOURAGEMENT FOR
AMERICAN COMMERCE.

According to recent Washington
dispatches the business interests of
Russia and the government are con-
ducting a systematic campaign to
develop the vast market afforded by
northern Manchuria. The primary in-
tention, according to a report made
public at the state department re-
cently is to make Vladivostok the
port of entry, thereby offsetting the
loss of Dalny and Port Arthur.

The docks are to be enlarged, go-
downs built, cargo landing facilitated,
and many other public improvements
made which will enhance the value of
the port as a trade depot.

One of the chief objects of the Rus-
sians is to render Vladivostok and its
vicinity particularly inviting to
American capital and enter-
prise. It is already announced that
the Chinese Eastern Railway will in-
stitute a system by which all charges
at fixed rates can be paid in America

for shipments to any point in Man-
churia reached by the Russian portion
of the line.

The first rush of commerce follow-
ing the war was checked by the riots
and mutinies at Vladivostok and Har-
bin, and it is estimated that within
three months the regular channels of
trade will be empty and crying for
replenishment.

Heretofore Shanghai has benefited
largely by the Manchuria carrying
trade, but under the new order of
things China's greatest port will suf-
fer. American cargoes will be landed
at Yokohama, Kobe, Moji and Naga-
saki, or will go direct.

As the statehood bill will be out of
the way of Congress soon, it is to be
hoped that it will push through the
bill for the promotion of American
shipping and take advantage of the
prospects offered by the opening of
Manchuria. This may help to offset
the Chinese boycott.

ALL FROM TEXAS.

The Carlsbad Sun in endeavoring to
extenuate the action of the Eddy
County Democrats in excluding from
the Democratic primaries all citizens
of Spanish-American descent, says:

"The principle remains that it is
wrong to allow a man to vote who can
not read or write, or who can not tell
why or what he votes for. The most
deplorable part, however, is the fact
that the matter will never down. In
the future, should it be forty years
hence, it will be remembered by the
natives of the northern portion of the
Territory and that to the detriment of
any Eddy County Democrat who
emerges for state office."

To which another Democratic paper
adds, that "with 300,000 immigrants
coming into New Mexico within the
next decade from the other states, and
175,000 American residents who are al-
ready here, the 'Mexicans' will not cut
much ice in the future, just as little
as he does at present in Arizona, Tex-
as or Colorado."

This is "big heap" talk on the part
of New Mexico's Democracy, which
its leaders will try to forget, or rather
have the voters forget in November of
this year. It is explained by the fact
that of the fourteen candidates who
have thus far announced themselves
for office in Eddy County, all are from
Texas.

COAL AND WATER POWER.

Before speaking of a general coal
strike and forcing a coal famine, the
coal miners had better take to heart
the fact that in Switzerland, the gen-
eration of steam by coal, is on the
point of being abolished altogether.
On all the railroads of that little re-
public, electricity generated by the
many water falls, will supplant steam
within the next two years, allowing an
increase of speed even in the most
mountainous districts. At the same
time, the rates of transportation both
for passengers and freight will be cut
in two. Beyond the cost of the dynam-
os and labor there is no expense in
generating electricity by utilizing water
falls and a Niagara or two would
suffice to move all the wheels in the
eastern United States at the present
day, throwing thousands of coal min-
ers out of work altogether. It is dif-
ferent in the western portion of the
United States where water power can
not be developed to such a large ex-
tent, but even here thousands of horse
power go to waste annually in water
falls.

The Santa Fe System is to have a
rival in its passenger business to the
Grand Canon of the Colorado. Sen-
ator Clark has decided to build a thirty
mile branch from the Salt Lake Route
to the very brim of the canon and to
make a bid for passenger business
from the east and the north. This will
not hurt the Santa Fe very much for
the additional advertisement to be
given the Grand Canon by the Clark
road will merely result in inducing
more people to act upon the maxim:
"See Europe if you will, but see Amer-
ica first!" devised by Major S. K.
Hooper, the veteran general passenger
agent of the Denver & Rio Grande
Railroad.

While Mayor Dunne of Chicago, is
busily engaged in riding his hobby of
municipal ownership, that city is in
the whirl of a reign of terror of
crime. Here is a list of felo-
nies that have been committed in less
than two months: Fifteen murders,
33 women and 40 men assaulted, 25
burglaries and hold-ups since the 1st
of January. That is over two felonies
for every twenty-four hours for sixty
days, in the Windy City. No wonder
that women are afraid to go on the
streets even in daylight, and that mass
meetings are being held to demand
protection for life and property. How
blessed we are in New Mexico where
such crimes happen so seldom.

On the 13th of April a convention
of delegates from commercial clubs
and boards of trade in the states and
territories west of the Mississippi is
to be held in St. Louis. The Business
Men's League of that city is making
strenuous efforts for a large attend-
ance. The gathering, if well attended,
ought to prove of benefit to the South-
west especially. Every commercial
club and board of trade in this Terri-
tory should be represented by dele-
gates. New Mexico should put itself
in evidence whenever and wherever
possible. This is an instance of the
kind

Says the Portales Herald: "Not only
feed stuff will be raised in Roosevelt
County this year, but a large acreage
of corn, cotton, oats, wheat and mil-
let." And the same glad news is
being shouted from the farm house-
tops in Quay, in Union, in Torrance,
and in other counties where dry farm-
ing will be given a thorough test this
year. Upon the result will depend
whether New Mexico is to have a mil-
lion inhabitants, most of them sturdy
farmers, in the next decade or not.
Good luck to the pioneers!

An Arizona daily paper rejoices that
by the action of the Senate last Fri-
day on the Hamilton joint statehood
bill the people of that territory have
been saved from serfdom and peonage,
and will be able to retain their self-
respect. That sort of truck reads very
well but it is, to say the least, very
ill-advised. It is a good deal like
cursing. Still, that sort of language
will relieve the feelings of some of
the Arizona newspapers but does no
one any sort of good.

The Albuquerque Fakir Journal a
day or two ago printed a fake dis-
patch from Santa Fe in which the coal
oil inspector of New Mexico is hand-
led in the usual manner which is al-
ways on the part of that paper to
create unjust prejudice and to throw
mud. Fortunately, Coal Oil Inspector
Eugenio Romero cares as much for the
low fabrications and silly fakes of the
Fakir Journal as he does for the Grand
Lama of Tibet.

A Washington correspondent tele-
graphs that President Juan Isidro Ji-
menez of Santo Domingo has recently
had a conference with President
Roosevelt. This would be interesting
were it true, but as President Juan
Isidro Jimenez has never been in
Washington, the New Mexican is
bound to conclude that the story is
another Albuquerque Fakir Journal
fake.

While Senator Ben Tillman is trying
to raise Hades in the United States
Senate, the people of the country
should remember that in the sov-
ereign state of South Carolina, repre-
sented by the pitchfork man in the U.
S. Senate, there are 30,000 children
under fifteen years of age and 35,000
women working eleven hours a day
in the cotton mills.

It is evident that Russia is not over
its troubles, and it is still more evi-
dent that the Russian people, high and
low are not fitted for self govern-
ment and will not be for many years.
They will have to learn as did other
nations and that at a heavy cost of
life and property.

Sunday and Monday Montana was
visited by a fierce and destructive
blizzard. In New Mexico the weather
was fine and in sections of it there
was a gentle and beneficial rain, while
in most of the Territory the Sun God
held undisputed sway.

The Estancia Valley is gaining daily
in population. There is every reason
to believe that its growth will be per-
manent. If it keeps on growing at its
present rate the valley will contain five
thousand people within two years.

New Mexico is still being widely ad-
vertised in Washington and in the
great papers throughout the country.
It is pleasing to note that the adver-
tising has a little better sound than it
had months ago.

Strange to say there are yet a num-
ber of southern Congressmen who de-
sire William Jennings Bryan to be the
Democratic candidate in 1908. Some
people never learn.

A Pittsburg dispatch states that an-
other millionaire of the Smoky City
is being sued for divorce. Tell us
something new.

AN OPPORTUNITY FOR SMALL INVESTORS.

There is no surer or safer investment than good inside City Property, but it takes money to handle propositions like this, and the man with small capital is barred. Growing new towns, with conditions favorable to permanency afford an opportunity to the small investor to place his savings where his money will earn a handsome profit, equal in proportion to that of his more fortunate brother with larger means. This chance is offered at

THEY NEVER FAIL.

That is What They Say About Them in Santa Fe, and it is Therefore Reliable.

Another proof, more evidence, Santa Fe evidence to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read the convincing endorsement of that remarkable preparation:

Thomas Quintana of San Miguel St. says: "When I noticed Doan's Kidney Pills advertised in a Santa Fe paper, I came to the conclusion that they would be just the treatment required by Mrs. Quintana. She suffered from backache I cannot tell for how long, but very often she was unable to do the slightest housework. More than once I have seen her scarcely able to move about the house. With the intention of testing the remedy thoroughly, I went to Ireland's Pharmacy for a box of Doan's Kidney Pills and she commenced the treatment. She took a second box and then a third when the last attack of backache stopped and for eight months she has had complete immunity from pain. Something novel in her existence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Some people imagine that they are never talked about because they never hear it.

A Safe Cough Medicine for Children. In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by all druggists.

You may think that when a man has a hobby it is to ride. You are wrong. It is to talk about.

If it is a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

Between an ordinary cold and the grip the difference is the size of the doctor's bill.

A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is for sale by all druggists.

Pat Crowe should be careful hereafter and not get his confessions mixed. It might embarrass the jury.

CARNIVAL AT AGRICULTURAL COLLEGE

Two Days' Event to Raise Money for Commencement Number of Collegian.

Special to the New Mexican.

Agricultural College, N. M., March 14.—Titus, the secretary of the Young Men's Christian Association of El Paso, Texas, visited the local chapter recently. In the morning, he spoke to a number of the boys of the College. In the evening an open meeting was held in which he spoke to an audience of about 125 people.

The spring vacation began on the 7th of March and ended on the 11th. Receptions for the third term have commenced.

On the 8th and 9th of March, the Columbian Literary Society gave a carnival for the purpose of raising money for the Commencement Collegian. The carnival compared very favorably with the traveling carnivals that visit this part of the country. One of the best shows was a miniature bull fight which was given by some of the boys of the college. A wooden frame with a pair of horns attached represented the bull. It was supported by straps on the shoulders of one of the boys, and the movements were very lifelike.

Burros were used instead of horses and naturally, had some difficulty in keeping out of the way of the bull. The work of the fighters was excellent, showing them to be the best of their profession. Another very attractive performance was a vaudeville consisting of a twenty minute play entitled: "An Interrupted Proposal," a negro stunt, and a comic musical number. These were all given by students. Refreshments were sold during the days at the Japanese tea house. During the first evening, an "enchilada" supper was served by moonlight. Other attractions were a museum, candy, cane and hat stands. The carnival ended with a ball which was pronounced one of the most enjoyable social affairs of the year.

There will be a special meeting of the members of Company F, First Infantry, New Mexico National Guard, at

the armory tonight for the purpose of making preparations for the annual inspection to take place in about three weeks. All uniforms will be turned in and new clothing will be issued. All members are requested to attend and be at the armory promptly at 7:30 o'clock.

All citizens desiring to vote at the coming city election on April 3, should see to it that their names are on the registration lists. The boards of registration are ready to register all legal voters who will give or send their names to them. The registration lists will be open until Saturday night of this week.

Leo M. Hines, a colored boy who until a year ago lived with his mother in Santa Fe, writes home from the east that he has taken up the study of electrical and mechanical drawing and engineering. The boy is only 18 years old but he has sent to his friends here some drawings which are very creditable.

Henry Krick, the jovial manufacturer of medicinal waters and who handles about all the beer consumed in Santa Fe, he being the wholesale agent, denies the soft impeachment that he is a candidate for the Democratic nomination for the mayoralty. He is not actively in politics and desires no office. What he wants is plenty of business.

The melodrama, Dora Thorne, which is produced by Roland and Clifford will hold the boards at the local opera house on Tuesday, March 20th. "The play is a clever dramatization of Bertha M. Clay's novel "Dora Thorne," and reports from places where the company has given performances state that it is out of the ordinary run of attractions. It is a play that appeals to most people for it is a clean, pure heart story.

It is announced that the first number of the Santa Fe Eagle, a Democratic newspaper to be published by A. J. Loomis, formerly deputy internal revenue collector, will appear without fail Saturday next. A good many difficulties have been in the way of the issue of the first number of this paper, but Mr. Loomis seems to be overcoming them. "Pi" was one of the causes of delay, but it was not "pumpkin pie."

A letter addressed to Frank Barela, San Luis, Colorado, is held at the post-office for postage. A letter addressed to Mrs. Henry Peyton, 1941 New Haven Street, Denver, Colorado, is held because it has an internal revenue stamp instead of a postage stamp on the envelope. A letter addressed to Juan Atencio, Box 824, is held for more definite address, and a souvenir postal card without any address is held for directions.

Rest the Stomach

Nothing will cure indigestion that doesn't digest the food, itself, and give the stomach a perfect rest.

You can't reasonably expect that any weak stomach will regain its strength and get well when it is compelled to do the full work that a sound stomach should do.

You wouldn't expect a sick horse to get well when it is compelled to do a full day's work every day of the week.

Your stomach must have rest. But it isn't necessary to starve yourself in order to rest your stomach.

Kodol Dyspepsia Cure is a perfect digestant. It will digest all of the food you eat regardless of the condition of your stomach.

mers, who until the house is finished will occupy the cottage of Celestino Ortiz, on Cerrillos Road. Mrs. Ortiz and family going to Belen for several months. Half a dozen applications have been received already by Mr. Delgado for the second modern cottage he intends to build, also on Upper Palace Avenue.

The weather report today is fair in south portion and snow in north portion tonight and Thursday, with colder weather tonight. The maximum temperature was 51 degrees at 2 p. m. yesterday and the minimum was 36 degrees at 3:50 a. m. The mean for the day was 44 degrees. The relative humidity was 69 per cent and the precipitation was .05 of an inch. The temperature at 6 a. m. today was 34 degrees.

"Any bones, any rags, any bottles today, There's a big black rag picker coming this way."

This is the popular melody just now with the Woman's Board of Trade, because it is planning to give a rummage sale in the near future and the agents thereof are searching the city for saleable articles. Any old thing from a last year's hat to a two year old shoe lace will do. Every one has been asked or will be asked to contribute. The date for the sale has not yet been set.

City Clerk L. F. Montenie informs the New Mexican that the persons who stated yesterday that he declined to turn over the registration lists of the 1904 city elections were entirely mistaken, and that he did "no such a thing." The city records are in a deplorable shape and many of them are missing. There were no registration lists of the 1904 election turned over to him, except one copy each for Ward No. One and Ward No. Two. These he has furnished to the proper registration boards. If there are any registration lists of the 1904 election for Wards Three and Four in existence, Mr. Montenie knows nothing about them and could not find them after a diligent search. Hence, the idea that he wilfully or intentionally failed to do right in the premises falls to the ground as being unsubstantiated.

ARIZONA NEWS NOTES

Reports from many towns in Arizona are to the effect that almost everybody is happy over the elimination of New Mexico and Arizona from the Hamilton joint station bill.

The marriage of Miss Laura Ella Ritter to Ernest Troy Smith, both of Phoenix, was solemnized last week at the home of the bride's parents. Both are well known residents of Phoenix.

The annual Teachers' Institute of Gila County was in session at Globe last week, it having been called to order last Wednesday. There was a large attendance and the program for the session was excellent.

At a session of the district court held Saturday in Phoenix, a judgment was rendered in the case of the Farmers' Loan and Investment Company against the Maricopa & Phoenix Railroad, against the railroad. Several other cases were reset for hearing on the 14th of this month.

James Rose, who was apprehended at Safford and brought back to Globe on a charge of having stolen upwards of \$100 from Joseph Paul, was given a preliminary trial before Justice Hinson Thomas last Thursday forenoon and was bound over to await the action of the grand jury, his bail being fixed at \$500.—Arizona Silver Belt.

There has been a steady improvement in the Old Dominion mine in the Globe Mining District of late and the force of men working there is being increased every day. Work is now being carried on in the sixth level and shaft work is being pushed as rapidly as possible. The outlook is very promising for a large production during the present year.

C. H. Couch, who has been in jail in Globe for the past two and a half weeks, charged with complicity in the murder of Jerry O'Connor and who asked for a separate examination, appeared in Justice of the peace court last Friday. No date has been set for the examination of W. R. Henry, who is in jail charged with the commission of the same crime.

James F. Patton, one of Globe's oldest citizens, died recently in the St. Luke's Hospital at Phoenix after a long illness of a complication of kidney and heart affections. His death came as a shock to his many friends. He was one of the oldest residents of Globe, having lived there since he was 14 years old. He was 42 years of age at the time of his demise. Besides the bereaved widow, three daughters survive.

At a meeting of the executive committee of the Arizona Canal Protective Association Saturday in Phoenix, reports were made by the solicitors under several of the canal laterals and these show that the work of signing the petition for the extension of the Arizona canal is slow. C. M. Flaherty, who is general manager of the construction work, says that he feels confident that water will be running through the canal by the 1st of April, as forces are now working at both ends of the canal.

Borrowed Justice.

A country justice of the peace called upon a retired attorney and, after presenting a statement of facts, asked as a matter of friendship for a legal opinion upon them. This the attorney gave. When the attorney had finished the justice rose and said:

"Well, those are just the facts in a case I am going to try next Saturday in my court, and I know you would give me the right kind of an opinion, so I come to you. The costs in that case will be just \$7.50, and I am willing to divide with you. When I was a candidate some of the folks in my county 'lowed I didn't know enough to run this office, and I intend to show them that I do. The next case I have I will come to you again, and we will run that court right or bust a ham string a-trying."

With that the justice of the peace dropped \$3.75 on his astonished friend's desk and took his departure.

SKIN DISEASES

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In **TETTER** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. **ACNE** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while **PSORIASIS**, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is **SALT RHEUM**. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter,

SSS

builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases. S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

Removing the Shutters.

An uptown man who may be designated as Mr. Blank was asked by his wife the other day to aid in removing inside shutters from windows through out the house so that they could be washed. Being in a hurry, he asked his better half to defer the matter until his return from the office. "I'll do it myself," was her retort. "Don't," was Mr. B's counsel as he departed. "Women don't understand such work," this of course only more firmly decided Mrs. Blank to go ahead, and when Blank returned that night he found the shutters down. His wife was nursing several lacerated fingers, but she wore a triumphant air. "The screw driver slipped once or twice," she explained in response to his inquiring glance at her bandaged digits. "Screw driver slipped!" repeated Mr. B. in a dazed tone. "Great snakes, woman! You don't mean to say you unscrewed all the shutter hinges?" "Of course," said his wife complacently. "What other way could I get the shutters down?" For answer Blank lifted a shutter and pulled the pin out of one of the hinges, showing that the taking down of each shutter only involved the removal of two pins. When he figured that there were ten pairs of shutters and each pair required the driving of sixteen screws to put them up he swore while his wife wept. Philadelphia Record.

When Modjeska Played Farce.

Count Boyens, Mme. Modjeska's husband, was arranging with Senator Tabor for Modjeska's first appearance in Denver, and the founder of dramatic art in Denver asked what parts she played.

"Well," said the count, "there is 'Mary Stuart.'"

"Who wrote it?" asked Tabor.

"Schiller," said the count.

"Is he a first class dramatist?" asked Tabor.

"Surely, surely," said the count. "He is most illustrious."

"Humph! Never heard of him," commented Tabor. "What else does she do?"

"As You Like It," Antony and Cleopatra, 'Macbeth'—"

"Who wrote them?"

"Shakespeare."

"How's he? Good writer?"

"Excellent; excellent."

"Well," said Tabor ruminatively, "those fellows may be all right as authors, but they ain't well enough known to suit the people out here. What we want is something popular, something that everybody's heard of. I tell you what you do you get her to give us something of Hays's!" Harper's Week-ly.

To Prevent Fraud in Election.

At this meeting of the City Republican Central Committee and many other prominent citizens, the following resolution was passed:

Resolved, That it having come to the knowledge of this committee by report, which we believe to be reliable, that certain judges of election appointed by the city council for the coming election, have openly boasted, that they will, if necessary, resort to fraud to carry this election against the regular Republican nominees.

Therefore, this committee protests against the appointment of such improper persons as judges of elections and request the city council to appoint only reputable and reliable citizens as such judges.

Motion was made and carried instructing the chairman and secretary of this committee to present a copy of this resolution to the mayor or president of the city council so that all the members of the same be informed of this protest.

L. A. HUGHES, Chairman of City Republican Central Committee.

H. L. ORTIZ, Secretary of City Republican Central Committee.

ANOTHER WAY TO KILL STATEHOOD

(Continued from Page One.)

and of no effect in law. Senator Foraker asked Senator Raynor to name them. Senator Raynor replied that the Senator from Ohio was intimately acquainted with them and that he (Raynor) would give the names after the adjournment of the Senate.

Discuss Livestock.

Senator Warren addressed the Senate on the bill extending from 28 to 30 hours the time during which livestock in transit on railroads may be confined without change, saying the measure was in the interest of humanitarianism and should be passed. He said extension of time was to be made only on the request of shippers and it would not work a hardship either to the owners or to the livestock. The bill was reported by the committee on agriculture and objections were made because it was not reported by the committee on Interstate Commerce. Senator Tillman contended that to keep cattle confined more than twenty-eight hours would cause a feverish condition. This Senator Warren denied. After further discussion several Senators asked that the bill be laid aside. Rainer then addressed the Senate in support of the railroad rate bill.

Senate Wants to Know.

Washington, March 14.—The Senate passed the resolution calling upon the secretary of war to send to the Senate copies of all reports on the recent attack by the United States troops on Mount Dajo, Jolo Island.

Appears Before Committee.

Washington, March 14.—John Ford, the secretary of the American Asiatic Association and the representative of commercial interests in several prominent cities in the United States, appeared before the House committee on foreign affairs today in support of the Foster bill to amend the Chinese exclusion act in the manner that the best class of Chinese may be admitted at convenience. Ford discussed the section of the President's message recommending a modification of the Chinese exclusion act. He said there is no desire to admit Chinese coolies.

Presents for Rear Admiral Downs.

Washington, D. C., March 14.—The Senate today passed a bill authorizing Rear Admiral C. H. Davis, United States Navy, to accept certain gifts tendered him by the British and Russian governments.

"Mum" is the Word.

Washington, March 14.—Before taking up the railroad question yesterday the Senate passed a number of bills some of which were of considerable importance. One of them provides for the punishment of government officials for the premature divulgence of secret information of government bureaus in such matters as the crop reports; another grants executive authority in the matter of construction of bridges over navigable streams, and still another gives congressional sanction to the effort on the part of Delaware and New Jersey to adjust their long pending boundary dispute.

Mr. Simmons made the speech of the day on the railroad rate question. He announced his support of the House measure but said he would not oppose reasonable modifications.

Mr. Tillman announced that after tomorrow he would seek to have the rate bill taken up for consideration each day immediately after disposing of routine business of the Senate, in stead of waiting until 2 o'clock.

Sensors and Statehood Bill.

A Washington correspondent writes as follows in explanation of the attitude of the two Senators from Wisconsin on the Hamilton statehood bill, which has puzzled many people in New Mexico who are close followers of events at the National Capitol:

"The contest between Senators La Follette and Spooner for the federal patronage in Wisconsin has commenced to attract attention. La Follette and Spooner have visited the White House together on patronage missions, but up to this time Spooner has carried off the plums. In no instance has La Follette won out where Spooner has set up a claim. In view of these facts the attitude of the Senators upon the statehood bill is curious. Spooner voted against joint statehood and with the Democrats upon every proposition that was submitted to an aye and nay vote. La Follette voted with the administration Republicans upon like propositions, and in the end voted against the Foraker amendment, and to strike out the provisions for Arizona and New Mexico from the measure.

"Spooner can afford to be independent occasionally. When the President needs defense upon the floor of the Senate there is no one so well qualified as Spooner to make it, and he rarely, if ever, fails to come to his relief. For this reason it is believed that the streak of independence shown by Spooner upon the statehood measure will not damage his patronage claims with the President.

La Follette's Strange Course.

"That La Follette should have voted with the administration on statehood is regarded as strange, except upon the theory that he wished to win the President's favor so as to carry off some of the patronage eggs in his basket. To coerce Arizona and New Mexico into joint statehood was a strange course for such a Senator as La Follette to take. That violates every principle of self government and in addition sets at naught the

solemn pledges given to Arizona forty-three years ago. Reformers should not cast votes of that kind, but perhaps the Wisconsin reform Senator feels that he can be inconsistent in what he holds to be non-essential that he may be fortified with presidential patronage in his struggles for great measures. The public eye will be kept upon the Spooner-La Follette fight for the favors of the President. Spooner, up to this time, holds the fort unmoved.

Taft Not to Succeed Brown.

"The report that Secretary Taft would accept the position upon the Supreme bench soon to be vacated by the retirement of Justice Brown, is not well founded. While the secretary would probably forego his presidential ambitions for the chief justiceship, he is not likely to abandon them for anything else. Besides, he has obtained a complete grasp of the problems associated with the construction of the Panama canal, and his ambition is to continue at the head of that great world enterprise until it is permanently under way with the kind of canal and its character of construction fully determined upon. That secretary Taft will be no mean candidate in the next Republican convention must now be conceded. He probably will have the support of Ohio and of the bulk of the liberal element in the Republican party. His prestige as the Governor of the Philippines in their darkest and stormiest days proves that he has that wide range of executive ability so necessary for a successful president. He is not a 'stand pater.' He is a strong advocate of rational reciprocity. He should be a favorite candidate in the great West, and in such progressive reform states in the East as Massachusetts."

UNIVERSITY CONFERENCE

San Francisco, Cal., March 14.—The Association of American Universities assembled here in seventh annual conference today as the guest of the University of California and Leland Stanford, Jr., University. The sessions opened this afternoon at Mark Hopkins Institute and will continue through the remainder of the week. The institutions represented include Yale, Princeton, Cornell, Columbia, Chicago, Wisconsin, Virginia, Harvard, Pennsylvania, Johns Hopkins and the Catholic University at Washington.

MORE INVESTIGATIONS.

Buffalo, N. Y., March 14.—The state railroad commission has met in secret session here to consider charges against the Ryan-Belmont Traction Merger in New York City and on adjournment announced it had decided to make an investigation. The state attorney general will be asked to take charge of it. The investigation will be held in Albany next Wednesday.

ANARCHIST CONFESSES.

Rome, March 14.—The Gazzetta del Tribuna says that a prisoner who is ill in the infirmary of the prison, confessed that he was present at a meeting of Anarchists in which a plot was concocted to kill the King of Italy during the Milan exhibition on April 18. A searching investigation of the story was ordered.

REPORT UNTRUE.

Tucumcari, N. M., March 14.—There is no truth in the report of a serious wreck on the Rock Island near this place. Nothing of the kind occurred yesterday or today so far.

JUMPED IN FIREPLACE.

Louis Gonzales While Suffering From Epileptic Fit is Horribly Burned.

While in the throes of an epileptic fit at 10 o'clock this morning, Louis Gonzales, 26 years old, jumped into a fire place in his room on De Vargas Street and was so badly burned that he may die. His flesh about the head and upper part of the body was terribly cooked and his clothing was partly burned off. Dr. J. M. Diaz was called and afforded what relief he could. The young man was then removed in a cab to the home of his mother Mrs. Rosalia Gonzales in the north part of the city. According to those in the house at the time of the accident, Gonzales, who was subject to epileptic spells, was suddenly attacked with convulsions and sprang from a chair in which he was sitting before an open fire place into the flames. His cries of agony brought those in adjoining rooms to his assistance. They found him lying upon the embers unable to help himself. By the time he had been lifted from the fireplace he was in a semi-conscious condition. He suffered severely from the nervous shock as well as from the pain. Gonzales was not married and at the time of the accident was unemployed.

PHARMACY BOARD IN ALBUQUERQUE.

Members of the Territorial Board of Pharmacists, which was in session here during the past two days, went to Albuquerque last night with the exception of A. J. Fischer, of this city, and are in session there today. Routine business is to be taken up and disposed of after which the board will adjourn.

TELLS OF PENITENTIARY RECORD

(Continued from Page One.)

May, 1899, to January 1, 1900, the earnings totaled \$4,455.43; 1900, \$8,554.32; 1901, \$14,808.05; 1902, \$18,968.61; 1903, \$14,643.92; 1904, \$17,396.60; 1905, \$26,039.83; 1905 to March 12, \$7,249.35. Total, \$112,116.11.

Costs to Territory Reduced.

"During these seven years it will be seen from this table that the grand total of the earnings has reached considerably over \$100,000. A comparison of Mr. Bursum's record with that of his predecessors shows that during the five years before Mr. Bursum assumed the management, it cost the Territory from 53 to 63 cents per man per day to maintain the penitentiary. This amount included such items as food and clothing. The first two years of Mr. Bursum's management this was reduced to 38 1/4 cents per day, and the year following he reduced the per diem as low as 29.9 per man.

"I have been closely identified with the institution as president of the board from the first month of Mr. Bursum's management. I regard him as an unusually competent and successful administrator of the penitentiary, and I know that in saying this I only voice the sentiments of the entire board. During these seven years the greatest harmony has prevailed in our board, and it has been a satisfaction to assist in the management of this institution."

COURT NEWS.

O. W. Piery and Henriquez Valdez Arraigned—Appeal Asked in Gonzales Case.

The District Court of the First Judicial District for the County of Santa Fe was called to order this morning at 9 o'clock, Judge John R. McFie presiding. Clerk A. M. Bergere was at his desk, and District Attorney E. C. Abbott represented the Territory. Under Sheriff Jose L. Lopez was in attendance.

Judge McFie heard argument in the application for appeal and writ of superedeas in the case of ex-Assessor Anastacio Gonzales, who was recently removed from office on a charge of incompetency and neglect of duty. The Territory was represented by Attorney General George W. Prichard and the plaintiff was represented by Attorneys Catron and Gortner and Renehan and Thompson. The argument was in progress this afternoon.

The grand jury indicted O. W. Piery, now a prisoner in the county jail on seven counts. Piery was arraigned before Judge McFie today and pleaded not guilty to a charge of securing money under false pretenses made by Thomas P. Gable and J. E. Lacombe, proprietors of the Claires Hotel and Bar. The counts in the indictment accuse Piery of securing about \$600 on worthless checks while representing himself to be an associate justice of the Supreme Court of Indian Territory. The trial was set for March 22. He had no attorney when brought into court this morning by one of the jail guards.

Henriquez Valdez indicted by a former grand jury, was arraigned this morning on an indictment charging him with assault and battery. He pleaded not guilty and his trial was set for March 20.

The ejectment suit of Dolina M. Martinez vs. Maria Antonia Archuleta de Torres, involving the title to land in precinct No. 13 of Rio Arriba County, was heard yesterday and the judgment of the court was in favor of the plaintiff. Attorney Benjamin M. Read represented the plaintiff and Judge N. B. Laughlin represented the defendant.

L. Tallmadge and associates for \$2,500,000. In this same matter, the Roswell Daily Record published an interview on Saturday evening of last week with C. L. Tallmadge in which he says:

"I will say that the sale is practically made. All the details have not been arranged, and therefore it is not a case of 'signed, sealed and delivered.'"

"I would like to say, also, that the extension to the Pecos Valley is going to be built, and the Tallmadges are the ones who are going to do it, regardless of whom we represent. I have told you that we represent ourselves partly in this matter. Since it is a part of our affair, we will devote our best efforts to the proposition, and the speed with which we promoted the road in Texas and have gotten it started ought to be sufficient guar-

anty of our ability in this line. The extension here will be built, beyond any doubt.

"The development of the Pecos Valley is yet in its infancy. The work that we and other companies have accomplished in settling up the valley will be along new and broader lines. I will not be satisfied until there are all kinds of enterprises here, including one or more large beet sugar factories. We are here to stay. I like the Pecos Valley and wish to see it prosper."
