# SANTA FE NEW MEXICAN

VOL. 43.

SANTA FE, N. M., WEDNESDAY, MAY 9, 1906.

NO. 68.

## PROSECUTION OF DRUG TRUST

### Government Files a Petition Enjoining Corporation.

## CONSIDERATION OF CANAL

### Counsel William N. Cornwell Defies United States Senator Morgan.

Washington, May 9.—Attorney General Moody today made public the following statement:

"The government today filed in the circuit court of the United States for the district of Indiana, a petition for an injunction against certain associations, corporations and individuals, comprising what is commonly known as 'the drug trust of the United States.' The parties of the defendant specifically named in the bill have voluntarily combined to control prices at which all proprietary medicines and drugs shall be sold to the consumer through retail druggists, in violation of the Sherman anti-trust law. The parties to the combination include the proprietary association of America and the national association of retail druggists.

### Cornwell Defies Morgan.

Washington, May 9.—"I will not reply to any hypothetical questions. If you will be good enough to ask a question that is pertinent, I will answer it." Thus William Nelson Cornwell, counsel for the Panama Railroad and in that capacity, an official of the United States, defied Senator Morgan in his quest for information as to the meaning of a letter written by Cornwell to the late Secretary Hay, concerning the original concessions of the Panama Canal Company. After replying that the letter spoke itself, Cornwell met a rapid fire of questions with the prompt refusal to answer. The examination was for some time then continued on the subject of bond issues and sales, Cornwell answering these questions freely but his recollection on the subject was limited. He said that in the books of the executive committee which Morgan had before him were recorded all of these transactions.

### Postmasters Nominated.

Washington, May 9.—The President sent to the Senate the following nominations for postmasters: W. W. Nagle, Dennison, Texas; G. W. Hill, Saratoga.

### New Mexico Public Land Tangle.

Special to the New Mexican.  
Washington, May 9.—In the Senate today the vice president presented a communication from E. A. Hitchcock, secretary of the Interior, transmitting the report of the commissioner sent by the Interior Department to New Mexico to make an investigation into the sales of certain public lands belonging to the Territory of New Mexico and which were sold in recent years, giving it as his opinion that Congress alone has the power to enforce the conditions of the grant by Congress, under which the donations of public land for the benefit of the Territory were made.

### House Ready to Do Business.

Special to the New Mexican.  
Washington, May 9.—Representative Brick, of Indiana, one of the members of the joint conference committee on the Hamilton statehood bill, today, stated that the House of Representatives was ready to do business regarding the bill at any moment and that the Senate was the cause of the delay.

### Sulzer Wants No Duty on Hides.

Special to the New Mexican.  
Washington, May 9.—Representative Sulzer of New York, has introduced a bill providing for the removal of the duty on hides.

## TURKEY READY TO BACK DOWN

Conferences at Constantinople Thought to Indicate British Demands Be Granted.

Constantinople, May 9.—Frequent conferences have been held during the last few days between the members of the cabinet in connection with the Anglo-Turkish dispute. The general opinion is that the Turkish troops will evacuate Tabah before the British ultimatum expires.

## SENATOR GORMAN CRITICALLY ILL

Washington, May 9.—Senator Arthur P. Gorman, of Maryland, is critically ill at his home in this city. He has not been in the Senate for many months, and during the last few days had a severe sinking spell. His sickness began with the grip and has been complicated by several ailments.

## PHOTOGRAPH CITY FROM BALLOONS

### Ruins of Frisco Pic- tured by War De- partment.

## CITY PANORAMA COMPLETE

### Estimate of Damage to the Vessels in the Harbor.

San Francisco, May 9.—The signal corps of the United States Army is now photographing San Francisco from balloons. A series of pictures is being taken, to be kept on file by the war department in Washington. Several hundred pictures have already been taken of the different buildings and an order has been sent for three balloons so that a complete panorama of the city can be had.

San Francisco, May 9.—A survey by the underwriters at the Union Iron Works showed the damage to vessels by the earthquake was considerable. Two 500 foot freighters, the Mexican and the Columbia, in course of construction for the American Hawaiian Steamship Company were found forwarded in their cradles and damaged to the extent of about \$15,000 each. The Harriman Steamship Columbia, which was on dry dock, was thrown on one side, wrecking one side, wrecking the dock and damaging vessel to about \$100,000. The Columbia and the dock later sank and have not yet been recovered. A pair of heavy shears fell on the City of Puebla, inflicting damage to about \$15,000.

### Urges Another Appropriation.

Washington, May 9.—Secretary Taft yesterday forwarded a message to Congress urging the appropriation of an additional \$500,000 to meet conditions at San Francisco. The same message shows to what use the quarter million dollars already appropriated has been put.

### Paris Sends Contributions.

San Francisco, May 9.—The following message was received from a prominent house of Paris yesterday. "The American chamber of Commerce in Paris has opened subscriptions already amounting to 120,000 francs, forwarded by mail to Mayor Schmitz." The telegram was received in answer to a cable by Raphael Weill the representative of a Paris house, saying the government at Washington refused to accept donations, and asking contributions be sent direct.

### Canadian Parliament Votes for Relief.

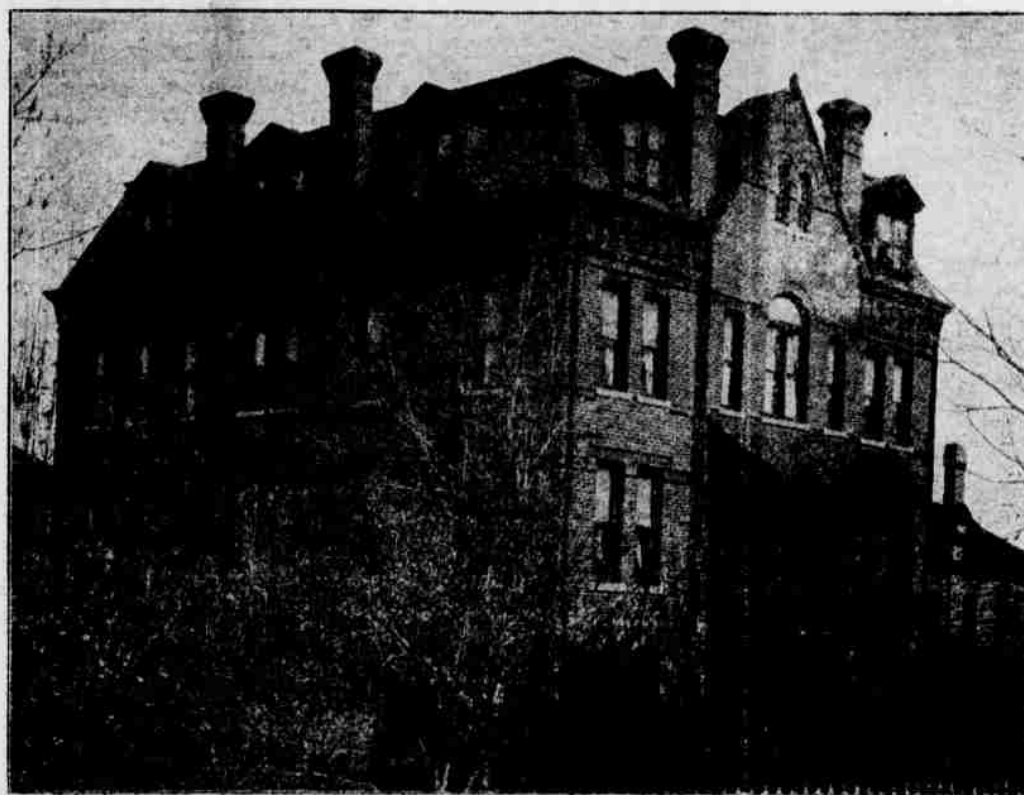

San Francisco, May 9.—The Canadian parliament has voted \$100,000 for the relief of San Francisco sufferers, according to a telegram received by Mayor Schmitz yesterday, and the money has been declined by President Roosevelt. The telegram asked if the money would be accepted if presented to the city direct.

## SUITS IN BERNALILLO COUNTY

Against Frank A. Hubbell for Recovery of Public Funds—Gunsul Claims Share of Profits.

Two suits have been filed by the county of Bernalillo against Frank A. Hubbell, ex-treasurer, and his bondsman, wherein the county seeks to recover \$7,000, alleging that this sum has been unlawfully paid out by Hubbell as treasurer upon warrants upon the school fund drawn by Eslavio Vigil, formerly county superintendent of schools and approved by Vigil but not approved by the Board of County Commissioners as required by law. One suit is for the specific sum of \$6,713.87 and the second suit for \$557.15.

Maynard Gunsul has filed a suit in the court of the Second Judicial District for Bernalillo County against W. H. Greer, the Albuquerque Traction Company, the Traction Land and Improvement Company and other companies associated with the Traction Company, alleging that under an agreement made by himself and the defendant, Greer, the plaintiff is entitled to one-half of the share on the part of W. H. Greer of the profits accrued from the business and management of the affairs of the companies made defendants and doing business in Albuquerque. The complainant also claims a share of profit from certain land transactions engaged in by defendants and from lots sold in Albuquerque. The share of the profits which Gunsul says are due him are claimed to be quite large as considerable money was made out of the transactions in question. The suit promises to be an interesting and lengthy one. An investigation and an accounting are also asked by petitioner.

ALLISON MISSION SCHOOL.

## INTERESTING COMMENCEMENT AT ALLISON MISSION SCHOOL

The commencement exercises of the Allison Mission School were held in the spacious sitting room of the institution this morning in the presence of a large audience, composed of the friends and relatives of the members of the graduating class. The room in which the exercises were held had been prettily decorated for the occasion, apple blossoms, lilacs and foliage being used with artistic effect.

For the first time in the history of the school, the members of the graduating class, Allison Candelario, Sara Trujillo and Sarita Montoya, were presented with certificates showing that they had completed the course prescribed by the institution. A pretty coincidence in connection with the exercises is the fact that Miss Allison Candelario, daughter of Mr. and Mrs. J. S. Candelario, who was a member of the first class receiving certificates, was the first child ever baptized at the mission. She has spent all her school years at the Allison institution and

### Professor Hadley Delivers a Pleasing Address to Graduates.

was named after its founder.

The program given was an excellent one and comprised both musical and literary numbers. The graduating address was made by Professor Hiram Hadley, superintendent of public instruction, and each of the members of the class participated in the exercises. Miss Sarah Trujillo read an essay on "Our Territory" which was well prepared; Miss Allison Candelario gave a reading entitled "Gwen's Canon" and played a piano solo and Miss Sarita Montoya read an excellent essay on "What the Presbyterian Church Has Done for the Territory." The program in full was as follows: Opening Prayer, Rev. Geo. F. Sevier. Anthem, By the School. Essay—"Our Territory".....

Sarah Trujillo  
Piano Solo—"Cen Amore".....  
Ruth Rendon  
Reading—"Gwen's Canon".....  
Allison Candelario.  
Chorus—"Now is the Month of May-ing.".....  
By the School.  
Essay—"What the Presbyterian Church Has Done for the Territory".....  
Sarita Montoya.  
Piano Solo—"Fifth Nocturne".....  
Allison Candelario.  
Address.....  
Prof. Hiram Hadley.  
Presentation of Certificates.....  
Supt. A. Brengle.  
Chorus—"Soldier's Chorus".....  
By the School.  
Benediction.....  
Rev. Gabino Rendon.  
The Allison school has had a successful year under the superintendency of Miss A. Brengle. She has been assisted in the work by the following teachers: Miss B. B. Bonine, Miss Grace Harris, Mrs. Harriet Campbell, Miss M. B. Morrow and Miss Eva Rupert.

## RAILROAD CONSTRUCTION IN TAOS COUNTY

St. Louis, Rocky Mountain & Pacific Pushing Westward—Live Stock and Agriculture Fine.

George B. Paxton, mining operator in the Red River district, Taos County, is in the city and will remain during the week on business. Mr. Paxton informed a representative of the New Mexican that development work was being done on the Independent group of mines, as well as on the Blue Rock group in the district. About thirty men are employed on the two properties and the work going on is quite satisfactory to the owners. There are a good many claims in the district on which annual assessment work is being done. The Red River district contains mineral mostly of a low grade character and can only be made to pay and produce as it ought to by railroad connection and cheap transportation to the Pueblo and Denver smelters.

Live stock says Mr. Paxton, in northern Taos County, is in the pink of condition and the sheep are now being driven into the higher mountains for lambing purposes. There is plenty of grass and an abundance of water. Farmers are also doing well and the outlook from an agricultural and stock raising standpoint in that part of New Mexico is very satisfactory.

Mr. Paxton says that he understands that the surveying corps of the St. Louis, Rocky Mountain & Pacific Railroad, will complete the location of the line west from the Cimarron Canon to the Moreno Valley this week. As soon as this is done, the camp of the locating engineers will be moved to the Taos Pass, a distance of about 15 miles, for the completion of a preliminary line of the road to Taos. The track laying gangs and construction locomotives of the road are at the Vermejo, ten miles east of Cimarron. It is expected that the track to Cimarron will be completed by June 1st and that then trains will run from Raton to Cimarron, a distance of 43 miles. The grade of the line is completed to point four miles west of Cimarron and construction crews are at work in the Cimarron Canon to Youth Creek, twelve miles west. About 1,000 men and several hundred single animal carts are at work. It is understood that the construction engineers will do their best to reach Youth Creek with the grade by July 1st and complete the grade to the Moreno Valley by October 1st, which is ten miles west of the Youth Creek crossing. From where the Cimarron enters the Moreno to Taos is a distance of about twenty-eight miles and within this distance, the Sangre de Cristo range will be crossed by the line through the Taos pass. As yet it is not known what direction the road will take from

the Moreno Valley. Several survey lines are being run and one of them may go through the Taos Canon or go through Red River pass farther north. The Moreno Valley is a distance of eighteen miles from Red River. Should the road go through the Red River Canon west it would bring much activity and lots of life to the Red River district.

## HEAVY SEAS SEND BOATS TO BOTTOM

### Terrific Storm Over Lake Erie—Worst in Years.

## HELPLESS SAILORS DROWN

### Schooner Algeria Goes to Bottom in Severe Gale.

Cleveland, Ohio, May 9.—The schooner Algeria sank about two miles off the harbor of Cleveland this morning and it is feared three lives were lost. The schooner Iron Queen is in a sinking condition outside, the breakwater and the crews of eight were taken off by life saving crews. The storm last night and early today kicked up a heavy sea which was a menace to shipping outside of the harbor, where a number of vessels are tied up by the strike.

The Algeria was of 2,000 tons burden and was loaded with iron. She generally carried a crew of seven men. It is known that three or four of these came ashore last night and it is believed that at least three went down with the schooner. The present storm is said by lake vessel men to be the worst during the month of May in many years.

## EDITOR WHELOCK PASSES AWAY

Head of Pioneer Press One Leading Journals of the Northwest Dies After Long Illness.

St. Paul, May 9.—Joseph Wheelock editor in chief of the Pioneer Press died here today. He has been in ill health for several years. Wheelock was born in 1831 and came here in 1850.

## MILES RETAINS CHAMPIONSHIP

On British Courts Young Gould Goes Down to Defeat After Hard Fought Battle.

London, May 9.—At the Queen's Club today after a splendid series of victories against the leading British covered tennis court experts, Jay Gould went down before the world's champion, Eustace Miles, in championship round, the latter winning by 3-1. The American champion started splendidly and won the first set by a score of 6-4, but Miles' perfect condition seemed to tell while Gould was palpably tired. The second set fell easily to Miles, who secured 6-1. In the third set Gould made a great fight and though the set ultimately fell to Miles by 6-4, some of the best tennis ever seen here in years was played in it. The fourth set also went to Miles by 6-3.

London, May 9.—In the court tennis championship round today, Jay Gould of Lakewood, New Jersey, won the first set against Eustace H. Miles the present holder of the championship.

## PIONEER PASSES QUIETLY AWAY

R. M. Smoot a Member of Plot to Kidnap President Lincoln, Dies in Arkansas.

Fort Smith, Ark., May 9.—R. M. Smoot, who was in the plot to kidnap President Lincoln and who sold to John Surratt, the boat with which it was intended to convey Lincoln across the Potomac, died here today aged 73. Smoot was a blockade runner. He stated to friends that while he sold the boat to Surratt, for the purpose of kidnapping Lincoln, and was to have been a party to the kidnapping, he knew nothing of the intention to kill the President.

## DIKES NEAR LAS CRUCES DESTROYED.

Special to the New Mexican.

Las Cruces, May 9.—The high water in the Rio Grande from the Elephant Butte to this town has done considerable damage in this vicinity, having destroyed the dikes recently constructed by the land owners and farmers on the east bank. It is estimated that the loss in construction work and damage to fields amounts to \$800 or \$1,000. The re-construction of the dikes will re-commence at once. The large arroyo northeast of town, which drains part of the plains between the Organ Mountains and town, has been walled with solid masonry for a considerable distance in order to prevent the inroad of its waters on lands near this place.

## TRAIN ROBBERS MISS BIG PRIZE

### Hold Up Canadian Pacific Train in Washington.

## SECURE REGISTERED MAIL

### Large Amount of Money in Express Car Completely Overlooked.

Bellingham, May 9.—A special from Vancouver today says: "The Imperial limited train was held up on the main line of the Canadian Pacific Railroad near Kamloops 25 miles from here early today. The robbers compelled the engineer to uncouple the mail car from the rest of the train, and haul it a mile away, where it was rifled of registered letters. The robbers were under the impression that the express packages containing thousands of dollars were in the mail car but when found the express was in another car they had not the nerve to go back for it and slipped away in the neighboring hills.

## BENEFICIAL INNOVATION AT PENITENTIARY

Change in Clothing of Convicts—Trustees and Probationaries to Be Encouraged.

An innovation, and one which is considered quite a reform and in the right direction has recently been introduced in the New Mexico penitentiary. The initiatory steps toward carrying it out were introduced by Hon. H. O. Bursum when he was superintendent of the institution and are being followed and extended by Captain Arthur Trelford, the present superintendent. The reform consists in a change of the clothing worn by convicts. This has been adopted in many of the foremost prisons and reformatories of the country and has so far universally proven successful. It helps the morale of the convicts, helps to restore them to good manhood and self-confidence, rouses their better sentiments and characteristics and makes them better satisfied with the lot they must endure while under sentence of the law.

In the New Mexico penitentiary, the convicts have been divided into three classes: The first grade, denominated "trusties;" convicts in this grade will wear clothing of plain dark blue stuff with the number they carry on the records in small white numerals on the collar; second grade, probationary, clothing will be of a gray, resembling what is known as cadet gray, the numbers being indicated in red letters of a larger size than the first grade on the collar; third grade will have to wear the prison clothing or prison stripes with large black numbers thereon.

In the New Mexico penitentiary convicts now wear the clothing above described. It was made by the tailors at the prison and the material and workmanship are very good. The suits for the first and second grades are comfortable and well fitting. Captain Trelford is of the opinion that the change has been good and he expects still greater results hereafter. The idea of the change is to give the "trusties" especially the best chance to reform.

### New Dormitory Planned.

In addition, Superintendent Trelford has under consideration plans for the erection of a dormitory for the trusties wherein they will be housed in large sleeping rooms and will not be compelled to occupy small cells as do all the convicts now, regardless of length of sentence, of the nature of the crime and of general behavior, good or bad. It is believed by Superintendent Trelford that this plan will also aid in making better men of many of the prisoners and in making them more satisfied with their lot.

Up to Monday last, the detachment of fifty convicts at work on the Scenic Highway in the Santa Fe Canon had completed 3,156 feet of as fine a highway as has ever been constructed in this or any other country. The work is now in hard rock, slow and difficult. A good deal of blasting must be done. A power hand drill has been secured which does the work of four men. As soon as this has been tried sufficiently to show its value, Superintendent Trelford believes that he will purchase three more of the same kind and will keep four of these drills constantly at work on the road.

Within two weeks, the superintendent expects that it will be necessary to move the present location of the convicts' camp two or three miles east. It is the intention to put up and use for the temporary housing of the men a frame building, which it is believed, will be safer, more comfortable and more satisfactory than the use of tents.

# SANTA FE NEW MEXICAN

THE NEW MEXICAN PRINTING COMPANY, PUBLISHERS.

MAX. FROST, Editor.

PERCY F. KNIGHT, Secretary and Treasurer

Entered as Second Class Matter at the Santa Fe Postoffice.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## SPLENDID CHANCE FOR THE NEW MEXICO GUARD.

Under a proviso of the army appropriation bill which makes appropriations for the maintenance of the army for the fiscal year commencing July 1, 1906, the sum of \$700,000 will be available for practice camps, maneuvers and drills of the regular army and the National Guard of the United States during the year coming. The government will furnish all necessary quartermaster stores, transportation, subsistence and camp equipment; the National Guard on duty in these camps will also be paid by army paymasters.

Companies of the National Guard, that have passed a satisfactory muster and inspection and that are fully armed and equipped, will be entitled to take part in the camps of instruction and in the maneuvers that are to be held in them. One of these camps will be located at San Antonio, Texas, and the National Guard companies of this Territory may avail themselves of the opportunity which will be offered there, if they so desire. The camps of instruction will be maintained during August and September of the present year. This is a chance which the companies of the New Mexico National Guard should by no means neglect; on the contrary, every company and all officers and enlisted men who hold membership in the guard now should avail themselves of this splendid chance to obtain greatly needed instruction in military tactics, in discipline, in camp duty, in soldierly behavior and in learning all that can possibly be done in such a short space of time concerning the duties of officers and soldiers, not only of the National Guard but also of the regular army. Such a training cannot but be of the greatest advantage to all concerned, to the country, to this commonwealth and to the officers and men who will take it. In addition it will prove a very pleasant and agreeable outing to those who will participate in it. It is not too early for the officers and members of the guard to consider the matter and to decide whether or not they will take advantage of it, and to prepare accordingly.

The New Mexican hopes that the New Mexico National Guard will make a creditable showing at the San Antonio encampment and will be represented there by a satisfactory number of its officers and enlisted men.

The Secretary of War has informed Governor Hagerman of the matter and the latter has instructed Adjutant General Tarkington to take it up with the different National Guard organizations of the Territory, and to urge them, one and all, to participate in the encampment, and that as strong in numbers as the personnel of the different companies, will allow. This laudable effort on the part of the authorities should be crowned with success. A squadron of cavalry and a battalion of three or four companies of infantry of the New Mexico National Guard should be present at the camp of instruction. Could this be attained it would add greatly to New Mexico's good name and right standing in the eyes of the people of the United States.

## THE REAL STATE OF AFFAIRS.

The muck rake newspapers and the men with the muck rakes are still at work howling, gibing and abusing whomsoever and wherever they can; they are bewailing the fate of the United States and the fearful corruption that exists, the dishonesty that characterizes officials and in fact, the general bad state of affairs that prevails throughout Uncle Sam's dominions from the Alaskan shores to the Gulf of Mexico and from the Atlantic to the Pacific. During the last few weeks there has not been quite as much of the yelping as there has been for a year or two, probably on account of President Roosevelt's timely and telling muck rake speech, yet enough of it has been going on to disgust patriotic and well-informed people. How little basis there is in national as well as in local affairs for this unseemly turmoil and malevolent influence, is well depicted in a strong and timely editorial in a recent issue of the Washington Post which is worth reading and is one of the best exponents of the situation that has appeared in print recently. The Post says:

"These may be troublous times, theoretically, with socialism, railroad know it.

regulation, public ownership, taxation of fortunes, and other questions perplexing the plain citizen. The fact is, however, that the country was never in better condition, commercially, politically, and morally. It may be questioned whether it is not the very exuberance of prosperity that gives rise to such widespread discussion of more or less Utopian schemes. If the times were hard and men were forced to hustle for their daily bread, there would be less opportunity to consider airy plans for the advancement of the millennium. With every wheel turning and every willing hand busy, the eager spirit of reform finds nothing tangible to feed upon, and turns to academic things. Politicians are looking for an 'issue' and they cannot find one.

"A country whose foreign trade has doubled in ten years, reaching by steady march the staggering total of three billion dollars a year, is certainly disposing of the real questions of life satisfactorily. There is nothing radically wrong with the United States so long as its people are able to transact such an enormous business."

"In 1896 the combined imports and exports of the United States amounted to \$1,539,000,000. For the twelve months ended March 31, 1906, the combined imports and exports were \$2,969,103,637. Within four months, if the growth continues at the regular rate, the foreign commerce of this country will reach an even three billions. The exports alone are now greater than the combined imports and exports were in 1896. The growth of our foreign commerce five years ago was regarded as marvelous, but the annual commerce is now three-fourths of a billion dollars greater than when Theodore Roosevelt became President."

"With such times as these, and without a cloud upon the business horizon, there would seem to be no warrant for the belief that the people are suffering for lack of reform legislation of any kind. If it were not a kind of heresy, the Post might venture to assert that if Congress should adjourn tomorrow, leaving all great constitutional problems hanging in the air, the country would go right ahead in its prosperity, not knowing what it had missed."

## HOMESTEADS ON FOREST RESERVES.

The idea that lands contained within forest reserves and that are more valuable for agricultural purposes than for timber should be subject to the homestead laws of the United States, has found favor in the present Congress. Its advocates were many and strong and the reasons given for its passage were cogent and good. Commenting upon this the Denver Republican says:

"An important bill which has passed both the Senate and the House of Representatives is one authorizing homestead entries of agricultural land within the limits of a forest reservation where it is shown that the land in question is more valuable for agricultural than for forest purposes."

"Any practical man can see at once how much more beneficial it is to the country to authorize the occupation and cultivation of the small tracts of agricultural land to be found in the midst of forest reserves than to drive out all persons who would establish homesteads on such land. But it has taken the officialism at Washington a long time to find this out. It is probable that Mr. Pinchot, the chief of the bureau of forestry, is entitled in part to the credit of the change, and if this is true it is one of the good results of transferring the management of the forest reservations to his bureau."

"Farmers establishing homes within forest reservations will not trespass upon the timber rights of the government. On the contrary, their presence will be more or less a protection to the forests against the carelessness of men who through neglect might cause destructive fires."

It is proposed to lengthen the term of members of the National House of Representatives to four years. If not, why not? It takes the average member of the House of Representatives two years to become acquainted and to learn "the ropes" in the National Capital. The fact that he has to work hard and spend three or four months of his second year to get himself re-nominated and re-elected also takes from his usefulness and efficiency. There is very little to be said in favor of the present term of two years, while on the contrary many cogent and strong reasons can be advanced why the time should be lengthened to four years.

Of late years Albuquerque has become the hot bed of territorial politics and more or less of corrupt politics, city, county and territorial whenever and wherever possible. This may partly be ascribed to the evil influence wielded by the political free booters who are supported by the Albuquerque Fakir Journal. That paper masquerades in sheep's clothing, but as it thrives on strife, on discord, on corruption, it is always an agitator on the wrong side of the questions of the day.

Roswell is evidently in the throes of woe on account of a good deal of dust and sand in its business streets and residence avenues and wants sprinkling and the streets kept moist and clean. The state of affairs there seems to be a little worse than in Santa Fe, although here it is bad enough. If the present city administration pays any attention to street sprinkling or to keeping the streets clean or in good condition even the oldest inhabitant does not seem to

## A HINT TO THE ALBUQUERQUE FAIR MANAGERS.

The Deming Graphic generously makes no charge for the following notice:

"Last year we made a written contract with the secretary of the Albuquerque fair for advertising the same for a certain price. We did at least twice as much advertising as we agreed to do, and when we recently wrote a courteous letter to the new officials respecting the amount so long overdue, we received no reply to our letter. We make no charge for this notice."

If the managers of the Albuquerque Fair know what is good for themselves they will settle what they owe the weekly newspapers of New Mexico. There are few of the latter that are rich or that are clearing \$25 a day. Their services in advertising the fair have been very valuable and they should be recompensed. The New Mexican does not exactly know who is to blame for this bad state of affairs, but chickens of this kind generally come home to roost. Here is a hint which the managers of the fair had best take.

The untiered Democracy of Otero County will determine on the 12th of this month whether nominations for county officers on the Democratic ticket shall be made by primaries or by precinct and county conventions. To the average voter of the county it will matter but little what course is adopted. In either case, the Democratic bosses will do the nominating, the rank and file will have nothing to say and will have to acquiesce in the mandates of the bosses. That is a way they have in Democratic circles in the Sunshine Territory.

"Whether the statehood bill becomes law or not, whether Arizona and New Mexico accept jointure under it or not, makes little difference. The time has come in the history of New Mexico when legalized gambling should go."—Las Vegas Optic.

And legalized gambling will go, never fear! The Littlefield bill, prohibiting public gambling in the territories of the United States, will become law at this session of the 59th Congress. This is the latest information from the National Capital.

Delegate Andrews has been doing remarkably well in the above line. He has secured by legislation one-half dozen pensions for New Mexico veterans already, and in addition has had about forty pension cases approved by the pension division of the department of the interior in which pensions have been allowed. The Delegate is all right. He is an effective worker and that in the right direction.

"One of the directions in which Delegate Andrews has done excellent work has been the obtaining of pensions for veterans whose claims could not be satisfactorily adjusted through the pension department."—Las Vegas Optic.

## ANNUAL MEETING.

Benevolent and Protective Order of Elks, Denver, Colorado, July 16-21.

For the above occasion, the Santa Fe will sell tickets to Denver and return at the rate of one fare \$16.90, for the round trip. Dates of sale July 13th, 14th and 15th. Good for return passage until August 20th. Low rates from all points on the Santa Fe to Denver. H. S. LUTZ, Agent.

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas, sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2 x 6 inches. These books are made up in civil and criminal dockets, separate of 320 pages each, or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal ..... \$4.00  
Combined civil and criminal ..... \$5.00  
For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted. Address NEW MEXICAN PRINTING CO.

Advertising rates made known on application.

## (Small Holding Claim No. 3281) Notice for Publication.

Department of the Interior, United States Land Office, Santa Fe, N. M., April 12, 1906.

Notice is hereby given that the following named claimant has filed notice of his intention to make final proof in support of his claim under sections 16 and 17, of the act of March 3, 1891, (26 Stats. 854), as amended by act of February 21, 1893 (27 Stats. 470), and that said proof will be made before the register or receiver at Santa Fe, N. M., on the 24th day of May, 1906, viz:

Dionela Trujillo de Lopez, widow of Albino Lopez, deceased, for the S2 NE1, S2 NW1, sec. 22, T 23 N, R 9 E. He names the following witnesses to prove his actual continuous adverse possession of said tract for twenty years next preceding the survey of the township, viz:

Ramon Duran, Felipe Herrera, Juan Atencio, Juan de J. Griego, all of Embudo, N. M.

Any person who desires to protest against the allowance of said proof, or who knows of any substantial reason under the laws and regulations of the Interior Department why such proof should not be allowed will be given an opportunity at the above mentioned time and place to cross-examine the witnesses of said claimant and to offer evidence in rebuttal of that submitted by claimant.

MANUEL R. OTERO, Register.

## (Homestead Entry No. 6285) Notice for Publication.

Department of the Interior, Land Office, at Santa Fe, N. M., April 17, 1906.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the register or receiver at Santa Fe, N. M., on May 24, 1906, viz:

Felipe Herrera, for the NE4 SW4, lots 3 and 4, section 18, T 20 N, R 2 E, NE4 SE1, section 13, T 20 N, R 2 E.

He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz:

Librado Herrera, of Hobart, N. M., Benigno Roybal, Miguel Herrera, of Namba, Jesus Ma. Sanchez, of Espanola.

MANUEL R. OTERO, Register.

## H. E. No. 4847.

### NOTICE OF PUBLICATION.

## CHEAP RATES TO NEW YORK.

The Mexican Central has recently placed on sale tickets to New York and return, going via the Mexican Central to either Vera Cruz or Tampico, thence via the famous Ward Steamship Line to New York. The return will be by rail over any line to El Paso. The entire trip, covering thousands of miles, Havana, Cuba, and its famous Moro Castle, Newport, and a dozen of the largest cities of the United States, can be made for \$122.50. A more delightful trip can not be planned, as stop-over privileges are allowed and the tickets are good for one year from the date of sale. The trip includes the City of Mexico, the "Paris of America." Further information can be secured by addressing A. Dulohery, Commercial Agent, El Paso, Texas, or W. D. Murdoch, Assistant General Passenger Agent, City of Mexico.

## MARRIAGE LICENSE LAW.

The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on cardboard and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately, as the new law went into effect on April 14 1905.

## THE FIRST NATIONAL BANK

OF SANTA FE.

The oldest banking institution in New Mexico. Established in 1870.  
RUFUS J. PALEN, President. JOHN H. VAUGHN, Cashier.  
LEVI A. HUGHES, Vice President. ALFRED H. BRODHEAD, Assistant Cashier.

Capital \$150,000. Surplus and Undivided Profits \$55,000.

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfers of money to all parts of the civilized world on as liberal terms as are given by any money-transmitting agency, public or private. Interest allowed on time deposits at the rate of three per cent per annum, on a six month- or year's term. Liberal advances made on consignments of live stock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety Deposit boxes for rent. The patronage of the public is respectfully solicited.

M. Reed, W. M. Atkinson, W. A. Finley and E. A. Cahoon. For particulars address **COL. J. W. WILLSON, Supt.**

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, an about twelve miles from Baranca Station on the Denver and Rio Grande Railway, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of

these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Femal Complaints, etc., etc. Board, lodging and bathing \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address

## NEW LEGISLATION TO FIX WEIGHTS

**W. A. Bayer Represents Territory at Convention.**

## SHOULD BE UNIFORM SCALE

**Government Inspection of Weights and Measures Advisable.**

W. A. Bayer, the efficient secretary of Delegate to Congress W. H. Andrews, has made a report to Governor Herbert J. Hagerman of the proceedings and the result of the convention of the sealers and weighers of the United States, held at Washington, D. C., last month, and to which Governor Hagerman had appointed Mr. Bayer, the delegate to represent New Mexico.

The aim of the convention was to bring to the attention of Congress the necessity of additional national legislation upon weights and measures, so that a uniform standard might be maintained throughout the Union and a thorough system of inspection of weights and measures be enforced. Each state and territory should have an inspector or sealer of weights and measures who should have the custody of the standards to be compared at least once every five years with the standards kept at Washington. Sub-inspectors should be appointed to inspect at any and at all times the weights and measures in commercial use.

The Bureau of Weights and Measures at Washington, will furnish a complete set of standards for \$550. Professor S. W. Stratton, the president of the association, being also U. S. director of U. S. standards of weights and measures.

**The Convention.**  
The convention held two sessions at which nine states, Massachusetts, Maryland, Kentucky, New Hampshire, New York, Ohio, Vermont, Virginia and Rhode Island, and one territory, New Mexico, were represented. The greater part of the time of the convention was taken up with a discussion of ways and means to overcome the conflict in weights and measures in the different parts of the United States. Each delegate was called upon to review the laws upon the subject in his commonwealth and to give a detailed account of methods of inspection. New Mexico's representative, Mr. Bayer, had to admit that while there are laws upon New Mexico's statute books regarding weights and measures, there is no system of inspection. However, it is only Massachusetts and Rhode Island that have a vigorous enforcement of the laws governing the inspection of weights and measures. The laws in the majority of states require weights and measures to be sealed at certain times, usually once a year, and the greatest difficulty is encountered in applying this inspection and sealing to street peddlers who often give short weight and short measure. Even among merchants with permanent places of business, instances have occurred, so delegates reported, where 35 inches, and in some cases 33 inches, made a yard and weights were rounded from wear and tear.

**Government Legislation Needed.**  
L. A. Fischer read a long and elaborate paper describing the inspection of weights and measures in Great Britain. The convention discussed the advisability of placing inspectors on a salary instead of the fee system and passed a resolution directing the officers and executive committee to prepare a letter to the Attorney General of the United States, requesting his opinion as to the constitutionality of federal legislation providing penalties for the use of short weights and measures. The convention adjourned to October after electing Professor S. W. Stratton, president; and L. A. Fischer, secretary, both of them being members of the Bureau of Standards at Washington, D. C.

Mr. Bayer's conclusion from what was said at the convention is a recommendation that New Mexico should have a sealer or inspector of weights and measures, who should have custody of the standards and who should make a comparison, at least once in

every five years, with the standards kept at Washington, D. C. He should have the power to appoint deputy inspectors, each deputy to have charge of a certain district and of a set of standards with which the weights and measures of every merchant in his district should be compared at least once every year. In addition to this there should be a strict enforcement of penalties for the use of short weights and measures.

### STOPS ANY ITCHING.

Doan's Ointment Cures Eczema and Itching Piles. Santa Fe People Recommend it.

One application of Doan's Ointment stops any itching. Short treatment cures eczema, itching piles, salt rheum—any skin eruption or skin itching. It is the cheapest remedy to use, because so little of it is required to bring relief and a cure. Here is Santa Fe testimony to prove it:

C. M. Conklin, ex-city clerk, living on San Francisco Street, says: "There came to my notice some time ago a case of hemorrhoids, commonly called piles. They were of the bleeding, protruding variety, and itched intensely. Doan's Ointment came to the notice of the party afflicted and was procured at Ireland's Pharmacy and a course of the treatment given. The first application soothed and a continuation of its use for some time longer radically disposed of that far too prevalent plague."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

"Yes," remarked the professor, "I rather pride myself on the discovery of another hypothesis." "Indeed," replied Mrs. Cumrox, a little doubtful, "I had an idea they were quite extinct."

### STOMACH TROUBLES.

Mrs. Sue Martin, an old and highly respected resident of Paisonia, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For sale by all druggists.

"Yes, that's Burroughs. He's an adept at constructing short stories." "You don't say! He doesn't look literary." "He isn't. I mean, he can think up more ways of telling you he's broken than any other man I know."

### Sciatica Cured After Twenty Years of Torture.

For more than twenty years Mr. J. B. Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25-cent bottle of Pain Balm and see for yourself how quickly it relieves the pain. For sale by all druggists.

Every page of the New Mexican contains news matter of interest to the general reading people. Read them all or you may miss something of importance to you.

### EXCURSION RATES.

George Rose, a knight of the grip from Denver, Colorado, was in the city today on commercial business.

A. W. Culver, a knight of the grip, arrived in the city yesterday and today interviewed Santa Fe merchants.

A. S. Merrill, carrying a line of ladies' furnishing goods, was in the city today in the interest of a St. Louis firm.

P. E. Giraldi, representing a tobacco firm, arrived here from Albuquerque last night and today called on the trade.

R. E. Childs, traveling out of St. Louis for a millinery firm, was in Santa Fe today in the interests of his house.

P. F. Harmon, a railroad man from Las Vegas, was in the city today, visiting friends. He returned home this evening.

B. A. Stutz, a knight of the grip, arrived here from Albuquerque last evening and today transacted commercial business.

G. F. Babcock, representing a San Francisco tinware house, was in the city today calling on hardware men and other dealers.

E. S. Hooper, representing a wholesale firm of Denver, arrived in the city last night and today called on prospective customers.

J. Herzskin, a business man from Clayton, arrived in the city last evening and registered at the Claire. Today he attended to personal business matters.

D. Baum, of Omaha, Nebraska, arrived in the city last night and will remain in the city three or four weeks, the guest of his daughter, Mrs. J. W. Reynolds.

Charles P. Downs, clerk of the Fifth Judicial District Court, is attending to the duties of his position at the special term of the court now in session in Lincoln.

Edgar Andrews and wife, of Bonanza, were in the city today, guests at the Normandie. Mr. Andrews is engaged in mining in the Cerrillos mining district.

F. R. Frankenburger, who is connected with the Bond Mercantile Company, arrived here from Espanola last evening and registered at the Claire. He came on business.

John Armstrong and wife, John Jones and Mrs. J. R. Harper, of Kingman, Kansas, stopped in Santa Fe today en route to Ojo Caliente Hot Springs in Taos County.

C. J. Grainger, a commercial traveling man from Palestine, Texas, carrying a line of general merchandise, arrived in Santa Fe last evening, and today called on merchants.

Dr. J. H. Sloan, insurance commissioner, left today for Moriarty to answer a sick call. Before going, Dr. Sloan stated that he expected he would be called upon to perform an operation.

W. S. Hopewell, general manager of the New Mexico Fuel and Iron Company, arrived in the city from Albuquerque yesterday afternoon and registered at the Palace. He came on railroad business.

J. L. Kugler, a boiler maker from Alamosa, arrived in Santa Fe last evening and today returned home accompanied by his sister, who has been a pupil at the Allison school during the past term.

F. E. Dunlavy, formerly the owner of a number of general merchandise stores throughout this part of the Territory, but now a resident of Denver, was in the city today and looked after business matters.

N. Salmon left yesterday for Albuquerque, where he will remain for a few days attending to business and to look at the interior of the Economist store which he intends to pattern after in his new store building in this city.

Judge Edward A. Mann, of the Fifth Judicial District Court, is in Lincoln the county seat of Lincoln County, where a special term of court was begun Monday last. The regular spring term of the court will be called next Monday.

G. P. Herin, wife and two daughters from Espanola, arrived in the city about 5 o'clock last evening, having made the trip from Espanola to Santa Fe overland. Mr. Herin is a farmer and fruit raiser in the vicinity of Espanola and came to purchase supplies.

Walter M. Taber, manager of the Glorieta Mercantile Live Stock Company, has returned from Torrance County, where his company has a large bunch of sheep, which will be driven from there to the company's home ranch near Glorieta in this county. He left this morning for Glorieta.

Mr. and Mrs. Charles B. Fowler and

Mr. and Mrs. W. R. Weeks, comprising a party of tourists from Salem, Massachusetts, arrived in the city last night and registered at the Palace. They spent today visiting the points of interest in and about Santa Fe before leaving for other towns in the Territory, which they have arranged to visit.

Dr. M. N. Rairden and wife, of Omaha, Nebraska, arrived in Santa Fe on the noon train today and are the guests of Professor J. A. Wood and wife. The afternoon was spent in sight seeing and is visiting the points of interest in the city. Dr. and Mrs. Rairden will leave on the Denver & Rio Grande train tomorrow for the east.

### EXCURSION TO "MY OLD KENTUCKY HOME."

On June 11th, 12th and 13th the Santa Fe will sell tickets to Louisville, Kentucky, at one fare for the round trip. The rate will be \$46.10 from Santa Fe. Return limit June 25th. Ticket can be extended to 30 days from date of sale if desired. The above rates are made on account of "Home Coming Week for Kentuckians". For particulars call on agents of the Santa Fe. H. S. LUTZ, Agent, Santa Fe, N. M.

## MINOR CITY TOPICS

The regular Wednesday evening prayer meeting service will be held at the First Presbyterian Church this evening at 7:45 o'clock.

The streams in the Santa Fe range are bank full with swift currents. The supply of water for the present agricultural season will in all probability be ample for all purposes.

The second rehearsal of the Capital City Band was held last evening and some improvement was noticed over the previous rehearsal. A number of changes have been made, which it is thought will add to the proficiency of the organization.

Several window panes in residences on Grant Avenue have been broken by boys throwing stones and the police have been informed of the matter, so that in case the ruthless destruction of property is repeated they will be in a position to take action.

A meeting of Santa Fe Lodge No. 400, B. P. O. Elks, will be held this evening at Masonic Hall. Several candidates will be initiated and it is possible the committee appointed to investigate the project of issuing bonds to secure funds for building a new opera house will make its report.

According to information received by the New Mexican from Espanola this morning, the water of the Rio Grande at that point, did not rise any during the night and no immediate trouble is anticipated. The water is at present six feet above the normal line, but as long as the night remains cool enough that the snow in the mountains does not melt, there will be no damaging results.

The following deeds have been filed in the office of Probate Clerk Marcos Castillo: Mary H. Harroun and husband to Irene Delgado and wife, land in precinct 18, consideration \$400. Trinidad Baca de Delgado to Benito Ortiz, land in precinct 4, consideration \$40. Oscar Klein and wife to Clarence O. Luckenbach, lot No. 6, on Fort Marcy Addition, consideration \$150. The Board of Education of the city of Santa Fe to Oscar Klein, lot No. 6 of Fort Marcy Addition, consideration \$450.

Partly cloudy tonight, with intermittent showers in the southeast portion, with the resumption of fair weather everywhere in the Territory tomorrow is scheduled by the local weather bureau for tonight and Thursday. Yesterday the thermometer at 2:30 o'clock in the afternoon registered 67 degrees, an increase of just 25 degrees over the minimum of 42 degrees, which was noted at 5:10 o'clock in the morning. The mean temperature was 54 degrees. The mean relative humidity for yesterday was 38 per cent. The thermometer at 6 a. m. today registered 45 degrees.

Business seems to be brisk at the local office of the Santa Fe Railway system, at least Agent Lutz and his subordinates have no time to spare and certainly none in which to "loaf." There must have been considerable of an increase in receipts for the month of April as the scenes around the depot during that month had a very

brisk and energetic look. This belief seems to be strengthened by the cordial smiles and the rather satisfied looks on Mr. Lutz's countenance and by the tone of his conversation. Still he is drumming up more business whenever and wherever possible. It seems that the railroad men, like the trust magnates, never have enough.

Rev. J. W. McKean, superintendent for the American Sunday School Union for New Mexico, who, with his family, came to this city about two months ago and took up their residence here, states that his work is progressing satisfactorily, as far as he has been able to prosecute it in other portions of the Territory. He has paid particular attention so far to the towns in Torrance County, as Estancia, Willard and Mountainair, where he thinks he has done work that will bear excellent fruit in due course of time. At an early date, he expects to extend his trips to the towns on the El Paso & Northeastern Railway in Otero, Lincoln, Guadalupe and Quay Counties. Rev. McKean is well pleased with what he has seen of New Mexico so far and is at work endeavoring to induce some of his friends and acquaintances way back in "old Missouri" to come to the Sunshine Territory.

The Board of Trustees of the Territorial Deaf and Dumb Asylum will meet in regular session at 3 o'clock tomorrow afternoon in the office of Major R. J. Palen, president of the board.

There will be a meeting of the Archaeological Society in the office of Judge N. B. Laughlin Friday evening, at which time arrangements will be made for sending a committee to look over the best location for another trail to Pajarito Park and the cliff dwellings.

Robert Stevenson, Roger Fliske and Fern Wiley broke the record for duck shooting on the reservoir this morning their killing amounting to 26 ducks, besides a pair of jack snipes. The three young men reached the reservoir long before daylight and were ready for the morning shooting. They seemed to have struck it unusually lucky, as three flocks settled there for their morning feed, affording them the best of shooting.

## ELECTED TELLER OF NEW BANK

Percy F. Knight, Secretary and Treasurer of the New Mexican Printing Company Secures Position.

At a meeting yesterday afternoon of the directors of the United States Bank and Trust Company held at the office of Judge N. B. Laughlin, Percy F. Knight, secretary and treasurer of the New Mexican Printing Company, was elected assistant cashier and teller of the company, which will open its bank in the Laughlin block, at the corner of San Francisco Street and Don Gaspar Avenue, on June 1. Mr. Knight, who came to the west four years ago from South Bethlehem, Pennsylvania, is by training and habit well fitted for the responsible position for which he has been chosen. Besides his experience as secretary and treasurer of the New Mexican Printing Company, he was for a number of

years bookkeeper for the Bethlehem Steel Company, cashier for the Postal Telegraph Company, at Denver, superintendent of telegraph for the Santa Fe Central Railway Company and city editor of the Daily New Mexican. His integrity, sobriety and energy have won him the esteem of the many with whom he has come into contact during his business career and he numbers his friends by the legion in every part of the Territory and especially in Santa Fe. C. H. Ingraham, formerly of La Harpe, Illinois, will be the cashier of the new banking institution.

## LEGAL BLANKS!

This is the schedule time allowed for carrying the mail, but under favorable conditions, the trip is made in about half the time. Grips and hand trunks at present.

**J. W. STOCKARD, Manager, Roswell, New Mexico.**

## CONTAGIOUS BLOOD POISON HUMILIATING—VILE—DESTRUCTIVE

The very name, Contagious Blood Poison, suggests contamination and dread. It is the worst disease the world has ever known; responsible for more unhappiness and sorrow than all others combined. Nobody knows anything about the origin of this loathsome trouble, but as far back as history goes it has been regarded the greatest curse of mankind.

No part of the body is beyond the reach of this powerful poison. No matter how pure the blood may be, when the virus of Contagious Blood Poison enters, the entire circulation becomes corrupted, the humiliating symptoms begin to appear, and the sufferer finds himself diseased from head to foot with the vilest and most destructive of all poisons. Usually the first symptom is a small sore or ulcer, so insignificant that it rarely ever excites suspicion, but in a short while the skin breaks out in a red rash, the glands of the groin swell, the throat and mouth ulcerate, the hair and eye-brows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores.

There is hardly any limit to the ravages of Contagious Blood Poison; if it is not driven from the blood it affects the nerves, attacks the bones, and in extreme cases causes tumors to form on the brain, producing insanity and death. No other disease is so highly contagious; many an innocent person has become infected by using the same toilet articles, handling the clothing, by a friendly handshake or the kiss of affection from one afflicted. But no matter how the disease is contracted, the sufferer feels the humiliation and degradation that accompany the vile disorder.

Mercury and Potash are commonly used in the treatment of Contagious Blood Poison, but these minerals cannot cure the disease—they merely mask it in the system. All external evidences may disappear for awhile, but the treacherous poison is at work on the internal members and tissues, and when these minerals are left off the disease returns worse than before, because the entire system has been weakened and damaged by the strong action of the Mercury and Potash. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S., the great vegetable blood purifier. It attacks the disease in the right way by going down into the blood, neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, strengthens the different parts of the body, tones up the system, and cures this humiliating and destructive disorder permanently.

The improvement commences as soon as the patient gets under the influence of S. S. S. and continues until every vestige of the

## S.S.S. PURELY VEGETABLE

poison is driven from the blood and the sufferer is completely restored to health. S. S. S. is not an experiment; it is a success. It has cured thousands of cases of Contagious Blood Poison, many of which had given the Mercury and Potash treatment, Hot Springs, etc., a thorough trial, and had almost despaired of ever being well again. S. S. S. is made entirely of roots, herbs and barks, and does not injure the system in the least. We offer a reward of \$1,000 for proof that it contains a particle of mineral of any kind. If you are suffering with this despicable and debasing disease, get it out of your blood with S. S. S. before it does further damage. We will gladly send our book with instructions for self-treatment and any medical advice, without charge, to all who write.

**THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.**

## AGRICULTURAL COLLEGE NOTES

Special to the New Mexican.

Mesilla Park, N. M., May 8.—The senior class was entertained at the home of Mr. and Mrs. Oscar Snow on the evening of the thirtieth of April. Mr. Snow is a prominent farmer and business man of the valley. He was a member of the class of '94 and has always taken a great deal of interest in the college.

The intercollegiate field meet resulted in an overwhelming victory for the college team, the score being 82 to 26. Allen and Alvord of the University team did excellent work and made nearly all of their points. The half mile run of Allen and the pole vaulting of Alvord were among the finest exhibitions of the day. The record for the hammer was broken by Redding and the record for the discus was broken by Kearney, both of the college team. The new records are 133 feet, 4 inches for the hammer, and 97 feet, 11 inches for the discus. Allen broke the half mile record, but it was ruled out on account of a member of his team running on to the track at the finish and coaching him in. Kirchner of the School of Mines showed excellent form, especially in the hammer, but he could not come up to the college boys in distance. The University team went to El Paso on Saturday and played a game of baseball with the high school team of that city. The field day ball which was given on the evening of the field meet was an entire success.

On Saturday night, May 5, the Freshman class gave a social in the main building. Each member of the class invited one guest. Progressive conversation was the principal feature of the evening. Several musical selections, both instrumental and vocal, were rendered. Ice cream and cake were served at 10 o'clock.

Bishop Kendrick was here last Sunday on one of his regular visits. Six of the college boys were confirmed in the Episcopal Church by him and his talk was directly to them. In the evening, he preached to a large congregation, composed mostly of college students.

Professors Vernon and Tinsley have been to Las Vegas, where they attended the dry farming convention.

### SORE NIPPLES.

A cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the child to nurse. Many trained nurses use this salve with the best results. Price 25 cents per box. Sold by all druggists.

## MINES AND MINING.

### Socorro County.

In the Mining and Engineering Journal for this week, R. W. Haddon, of Albuquerque, a mining engineer, describes zinc mining in the Magdalena and Kelly districts as follows:

The mines of the Magdalena district are situated in the Magdalena range, Socorro County, three miles from Magdalena on the Atchison, Topeka & Santa Fe Railway. A spur runs from Magdalena to the mines. The elevation of the range is 10,000 feet above sea level, and nearly 4,000 feet above the general level of the surrounding plains.

The range at its northern end, north of Little Baldy Mountain, consists of an axis of granite, and similar rocks, often capped and mixed with greenstone and metamorphic chlorite rock, upon which rests a series of limestone, schist, quartzite and shales. Only the lower part of this series is of practical importance. This consists of: (1) A bed of crystalline lime, broken near the middle by a band of close-grained lime about 12 feet thick, locally termed "silver-pipe lime." This crystalline lime has an average thickness of 100 feet. (2) A series of shale and thin bedded quartzites, about 300 feet thick. (3) A bed of massive coarse-grained quartzite about 10 feet thick. (4) A thin bed of limestone. (5) A variable series of shales, and a great thickness of dark earthy lime of Permo-Carboniferous age.

This series of stratified rocks has been broken by a system of faults, running from north to south, which extend throughout its entire thickness, and cross cut the ore bodies, the latter dipping from east to west, with a pitch to the southwest.

The recognized ore zones are situated in four different positions, and are locally known as the outer vein, the silver-pipe vein, the lower or copper vein, and the contact vein. The first is in the upper limestone; the second in the silver-pipe lime, and the third in the lower lime and close to the greenstone. All of these are practically blanket veins. The fourth vein stands vertically, near the base of the range, and lies between the eruptives (which outcrop to the west) and the stratified series above described (which lie to the east). This latter is known as the contact vein and can be traced on the surface from the Graphic mine at the north end of the range to Little Baldy about two miles to the south. But little development has been done on this contact vein, its principal exposure underground being in the new Graphic tunnel, where at a depth of about 100 feet it is 62 feet between walls, and richly mineralized. Fifteen feet next the west wall gives a general average of 15 per cent copper, 15 per cent lead, 25 per cent zinc, from 2 to 10 ounces silver, and 0.49 ounce gold; while the remainder of the vein is good milling ore. The development of this vein in depth will probably show junctions between it and the flat veins above mentioned, as these latter dip toward it from the east.

The other veins are strong, and have been and still are large producers.

### Quality of Ore.

The ore as may be seen from the contact vein, was originally a complex mixture of sulphides. In the oxidized zone these have been largely altered to carbonates, and the original zinc ore has been re-deposited as beautifully crystallized smithsonite. Another interesting feature is the complete replacement of the silver-pipe lime by a carbonate of zinc, in which may be observed shells of mollusks, etc., all distinctly marked, and now composed of zinc carbonate instead of the original lime. This replacement has extended in some instances to the softer portions of the crystalline lime, and it is difficult to tell where replacement begins or ends.

There is practically no water in the mines at the north end of the range. In the Kelly mine there is a very slight stream trickling down the lime wall of an old drift, where one can see the deposition of zinc still going on. A small flow of water was met with in the contact vein in the Graphic tunnel, which will likely increase with depth. In the Cavern and other mines at the south end of the range, however, water is plentiful.

So far, the principal development in this district has been in the Graphic and Kelly mines, although ore, principally silver-lead, has also been shipped from the Hardscrabble, Juanita, Juanita South, Iron Mask, Cavern, Imperial, Enterprise, Young America, and American. The mines were originally worked for silver and lead. The production credited to the Graphic and Kelly alone, up to 1904, exceeds \$8,000,000. Previous to 1903 the zinc was thrown out as waste, or left in the mines.

In 1904, the Shorwin-Williams Paint Company purchased the Graphic mine. The Kelly mine was also sold in 1904 to the Tri-Bullion Mining Company of Chicago, and is now making considerable output, principally of zinc carbonate, averaging over 40 per cent zinc, which fetches \$15 per ton at the mine on a 35 per cent basis, with \$1 per unit variation. Very little of the

sulphide ore has been shipped so far.

### Good Copper Ore.

The camp has also produced some good copper ore, carload shipments from the Young America having averaged as high as 13.5 per cent. In the fall of 1905 the Graphic Company opened a copper vein, rich in cuprite and native copper. This vein is about 40 feet wide; unsorted carload lots of this ore have been shipped, but the exploitation of the copper vein will not be made until the completion of the new working tunnel, when all work will be carried on through it.

To students of geology and mineralogy the district is one of particular interest. The specimens of cuprite, ruby copper, chalcantite, azurite, crystals, anglesite, cerussite, wulfenite, vanadinite, smithsonite in beautiful colors and forms, auriferous, and other zinc ores, and fine aragonite. One splendid cabinet specimen shows a combination of four forms of lead. The center is galena, surrounding which is about half an inch of anglesite while the outside crust is cerussite, in which are many flakes of wulfenite.

### How's This?

We Offer One Hundred Dollars Reward for any cure of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHERRY & CO., Toledo, O. We, the undersigned, have known F. J. Cherry for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by this firm.

WALDRON, RAY & MEYER, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

New Mexican advertising pays.

Not if as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by all druggists.

### THE HOT MONTHS ARE COMING.

During the summer time, when the heat seems to take all the "tuck" out of you, then is when a nice, cool drink of Dr. Lauritzen's Health Table Malt will revive your drooping spirits, tone up your system and make you feel like a new person.

# COME TO BELEN, N. M., Future Railroad Metropolis of New Mexico. Located on Belen Cut-off of Santa Fe R'y.

Belen is 31 miles south of Albuquerque, N. M., at the junction of the Main Line of the Santa Fe System—leading East and West from Chicago, Kansas City, Galveston and points East to San Francisco, Los Angeles, El Paso and Old Mexico.

1,000 business and residence lots, size 25x140 feet, laid out with broad 80 and 70-foot streets, with alleys 20 feet wide, with beautiful lake and public park and grand old shade trees; public school house, costing \$16,000; churches; Commercial Club; a population of 1,500 people; several large mercantile establishments; the Belen Patent Roller Mill, capacity 150 barrels daily; large winery; three hotels, restaurants, etc., Belen is the largest shipping point for wool, flour, wheat, wine, beans and hay in Central New Mexico. Its importance as a great commercial railroad city in the near future cannot be estimated.

## The Belen Town and Improvement Company are owners of the BELEN TOWNSITE

JOHN BECKER, President.  
W. M. BERGER, Secretary.

ALL FAST LIMITED EXPRESS, MAIL AND FREIGHT TRAINS OF THE SANTA FE WILL GO OVER THE MAIN LINE THROUGH TO BELEN, EAST AND WEST, NORTH AND SOUTH.

The lots offered are in the center of the city, well graded (many of them improved by cultivation); no sand or gravel. We need a first class bakery, tailor shop, shoe house, jeweler, plumbing shop, planing mill, coal and wood yard, drug store, harness shop, etc., etc., also a first class, modern hotel.

Our prices of lots are low and terms on easy payments; title perfect; warranty deeds. One-third purchase money, cash. Two-thirds may remain on note, with mortgage security, for one year, with 8 per cent. interest thereon.

Apply at once for map and prices, if you wish to secure the choicest lots, to

H. S. LUTZ, Agent.

## THREE BERNALILLO COUNTY CONVICTS

Brought to Penitentiary By Sheriff Perfecto Armijo and E. Romero Today.

Sheriff Perfecto Armijo of Bernalillo County, with Esquipo Romero, of Albuquerque, as a guard, at noon today brought to the territorial penitentiary three convicts, tried, convicted and sentenced at the term of the district court for Bernalillo County which has just closed and over which Judge Ira A. Abbott presided; James F. Donahue, age 38 years, sentenced for one year for forgery; George Holmes, age 45 years, sentenced for one year for forgery; Claude Eggleston, age 22 years, sentenced for one year for assault with a deadly weapon. The convicts were turned over to Superintendent Trelford of the territorial penitentiary.

## MURDER IN SECOND DEGREE

Jury in Case of Ramon Castro at Tucson, Returns Verdict—Charge Was First Degree.

After only six hours deliberation, the jury in the case of Ramon Castro charged with murder in the first degree, of Altamira Manzo, at Tucson, Arizona, returned a verdict of murder in the second degree, the extreme penalty of which is life imprisonment. The verdict was a complete surprise to all who had watched the case. Castro admitted killing his victim but pleaded extenuating circumstances. The testimony was largely against the defendant, several witnesses testifying that the murder had been particularly uncalculated and brutal. Castro is also wanted for murdering a woman at Minas Petras, and should he receive a short sentence and complete it he will be arrested again immediately, so it is not considered he will ever again be a free man.

## HOTEL ARRIVALS.

### Palace.

P. E. Giraldi, Albuquerque; R. E. Childs, St. Louis; A. S. Merrill, St. Louis; G. F. Babcock, San Francisco; A. W. Culver, Denver; D. Baum, Omaha; Charles B. Kehrman, St. Louis; W. S. Hopewell, G. R. ## MARRIAGE LICENSE LAW.

The new marriage license law requires probate clerks to post three copies of the new law in conspicuous places in each precinct. The New Mexican has printed the law neatly on cardboard and is now ready to fill orders in English or Spanish at fifty cents for each poster. Probate clerks should enter their orders immediately, as the new law went into effect on April 1, 1905.

## NEW MEXICO HAPPENINGS.

### Otero County.

The pipe line from the Sacramento mountains to Orogrande was completed last week and the Jarilla Mountains have the first flowing water in their history. Formerly water was brought to Orogrande in tank cars on the El Paso & Southwestern Railway. The event was celebrated with explosions of dynamite. The point from which the water comes is sixty-five miles from Orogrande. For the first twenty-five miles it flows in a canal and the remainder of the distance through steel mains. The water flows into a large reservoir near the Garnet mine and from there will be piped to the townsite of the Orogrande, the different mines, the Jarilla placers, the mining camp of Brice and to the smelter in the course of construction at Orogrande.

G. E. Moffett has resigned as justice of the peace and Alexander Mills as constable at Orogrande and the Board of County Commissioners has appointed W. H. Jackson, justice, and Frank Taylor, constable, to succeed them.

Orogrande now has a telephone exchange and long distance connection with Alamogordo and El Paso, Texas, has been established.

### Eddy County.

John R. Joyce, a business man of Carlsbad, was at Pecos, Texas, last week to give bond for his appearance at court. Five indictments have been found against him by the Reeves County, Texas, grand jury, on charges of making false entries on the books of the Bowen-Joyce Company.

Joseph Jacobson of Russellville, Arkansas, will this week open a dry goods store at Artesia.

Henry Hutsonpiller, aged 81 years, last week bought one-half of the Glogarry Ranch, 320 acres, near Artesia, from S. W. Gilbert, president of the First National Bank at Artesia. With the interest goes one artesian well and half interest in a well now being bored. At the same time, Lander and Brainard of Galesburg, Illinois, bought from J. C. Hale, 320 acres of land, one and a half miles east of Artesia, the consideration being \$20,000. James F. Crow, C. V. Ford, D. H. Tillett, J. H. Everett and Rice & Houser of Missouri, bought a ranch of 480 acres from Robert W. Yeargin, six miles south of Artesia. The consideration was \$24,000. All the land in the above sales was taken up as homestead land three years ago.

The Pecos Valley Immigration Company last week brought sixteen homeseekers to Artesia and twelve of these bought or filed on land. The sales of these twelve aggregated \$50,000.

The land contest case of Joseph Davis vs. Nora B. Clayton, involving a homestead entry, was decided in favor of Mrs. Clayton last week by the general land office at Washington.

Rev. S. R. Wood has resigned as pastor of the Baptist Church at Carlsbad and will remove with his family to Golden, Colorado, where he will take charge of a Baptist congregation.

An Eddy County Horticultural Society has been organized at Carlsbad.

## WHAT WE WILL DO.

Whenever you want an easy shave As good as barbers ever gave. Just call on us at our salon At noon or eve or busy noon. We'll curl and dress the hair with grace. We'll suit the contour of your face. This ranch is located in the midst of the best hunting and fishing grounds in New Mexico and is especially suitable for keeping summer boarders. Accessible by wagon. Can be had at a remarkably low figure on easy terms. For further information call on or address R. H. Hanna, Santa Fe, N. M.

**FOR RENT**—No. 106 College St., 6 rooms, hardwood flooring, electric light, water connection; \$10 per month. R. C. Gortner, Secretary.

**WANTED**—Carpenters. Inquire J. J. Rutherford at Governor's residence on Lincoln Avenue.

**OFFERED**—A good home and board for man, perhaps more, for light services. Call or address 102 Chapelle St., Santa Fe, N. M.

**FOR RENT**—Two good residences on Guadalupe Street. One of five and one of eight rooms. Both houses have all modern improvements, including bath. Inquire Hughes and Delgado.

The New Mexican Printing Company has on hand a large supply of pads and tablets suitable for school work, the desk, and also for lawyers and merchants; good anywhere. We will sell them at five cents in book form, but will give a discount on quantities.

## OH, JOY!

Said Bob to Dob, you great big slob, what makes you feel so glad? Old Dob replied, in accents mild, I'll never more be sad. Old Dob, said Bob, can you tell me the cause of this hilarity? The cause I'll tell, so you'll know well, what's brought this happy tone. My board is paid, three months' ahead at the famous old Bon Ton. Old Dob said Bob, I think you are a very lucky man. For the meals put down, are the best in town, and I eat there, when I can.

## R. R. TICKETS

PROMOTIONS IN SANTA FE RAILWAY

Guy V. Fischer Joint Agent at Kennedy—A. K. Frieland Advanced to Cashier.

G. V. Fischer, who has been cashier of the local depot of the Santa Fe Railway for the past eight months and who has given good satisfaction in the position, has been appointed joint agent of the Santa Fe and of the Santa Fe Central at Kennedy station and left yesterday to assume his new duties. This is a well deserved promotion. A. K. Frieland, who has been clerk and operator of the station here for the past two years and who has given very satisfactory and efficient service, has been promoted to the cashiership and took charge of the duties today. It has not been announced who will fill the place made vacant by Mr. Frieland's promotion, but Mr. Lutz expects an early appointment as the force of the office will be too small to perform the duties incumbent upon it efficiently and promptly.

SANDOVAL COUNTY COURT

Three Well Known Citizens Indicted for Assault With Intent to Kill—Strike Cases Disposed of.

The grand jury of Sandoval County, which has been in session in the county seat, the town of Bernalillo, since Monday has found indictments against Lautero de Baca, Manuel C. de Baca and Antonio Armijo, well known citizens of the county, for assault with intent to kill upon Salvador Sandoval in December, 1905.

Several indictments for assault with intent to kill, growing out of the railroad strike riots in Albuquerque in 1904, were disposed of by the following defendants pleading guilty of assault and battery and not intent to kill, and by being fined \$35 each and costs; John Dunning, A. Crosby and R. L. Shipley; while four of the indicted men, J. J. Gordon, H. H. Boyd, H. J. Martin and Irvin Farrell pleaded guilty to rioting and were fined \$25, without costs. This disposes finally of these cases. They were tried in Sandoval County on a change of venue from Bernalillo County.

WARSHIPS READY FOR QUICK ACTION

British Fleet at Piaras Has Steam Up—May Visit the Sultan.

Athens, May 9.—The British fleet consisting of twenty-one warships is lying at Piaras with steam up ready to sail. It will be further augmented today by the arrival of the second class squadron commanded by Rear Admiral Prince Louis of Battenburg, which was in American waters last November.

PLUCKY WOMAN UNDERTAKES TASK

With Invalid Husband and Four Small Children Makes Long Drive to Trinidad.

With her husband so ill as to be totally incapacitated from work, and scarcely able to move about, and four little children all under ten years of age, to be taken care of, with no possessions but a team of horses and a camping wagon, and scarcely money enough to start the long trip, Mrs. Joseph Simon, a plucky young woman of Houston, Texas, seven weeks ago started on the long drive from the Texas town to Trinidad, Colorado, the home of her mother, who is willing to share her few possessions with the daughter. Mrs. Simon at first believed that by carefully husbanding her funds she had sufficient money to last throughout the trip, but bad roads and hard weather made the traveling slow and, when the little camping outfit arrived in Santa Fe today en route for Colorado, the last of the money was gone and there seemed almost no way for the tired woman to turn.

"If we can get to Trinidad," she said, "my mother will give us a little, a place to lay our head and maybe a cow, and then I can work out and support my husband and give my babies some clothes and education, but the trip is slower than we expected."

Mrs. Simon visited the Capital today, where she was assisted by a number of officials, nearly all of whom contributed a small amount to aid her on her journey. Still cheerful and full of puck the determined woman will start tonight for the long drive which remains before the completion of the journey.

NEW BATTLESHIP WILL BE A MONSTER

Construction Department of Navy Will Accept Task of Building Leviathan.

Washington, May 9.—The construction bureau of the navy is willing to undertake the building of the Leviathan, 20,000 ton battleship provided for in the pending naval appropriation bill, and feels sure that it can execute the task with reasonable dispatch and at a minimum cost. A careful estimate of the limits of time place the construction at forty-eight months and at a cost of \$10,000,000.

COURT ENJOINS CATTLE RAISERS

Stockmen Given Five Days to Remove Their Fences From the Public Domain.

Omaha, Neb., May 9.—By an order issued by Judge Munger today, twenty-five cattlemen are given five days in which to remove their unlawful fences from the government domain, after which Marshal Warner has been ordered to pull them down and destroy them at the expense of the cattlemen. The cattlemen are also permanently enjoined from constructing any fences upon the public domain.

OFFICIAL MATTERS.

Promotions on Lincoln Forest Reserve.

John Kerr, ranger in charge of the Lincoln Forest Reserve, has been promoted to supervisor of the reserve. Rangers Bingham, Kinney and Peter on the reserve were also advanced one grade and will therefore receive an increase of salary.

**Notaries Public Appointed.**  
The following notaries public were today appointed by Governor Hagerman: Frank B. Coe, Glencoe, Lincoln County.

**No Increase in National Guard Companies.**

Adjutant General Tarkington today positively denied the report that several new militia companies were about to be started in different cities of the Territory. "There is hardly money enough for the maintenance of what companies we already have," he stated, "and instead of new companies being formed, we may have to disband some of the existing ones." He also denied that official permission had been granted for a troop of cavalry to be organized at Carlsbad.

PREVENT ATTEMPT ASSASSINATE EMPEROR

Anarchists Arrested at Berlin Believed to Have Planned to Dynamite Imperial Palace.

London, May 9.—A dispatch to the Central News from Berlin today says that five anarchists charged with high treason were arrested near Metz early this morning. The men had explosives and a large quantity of dynamite was found near the Imperial palace where Emperor William expected to arrive tomorrow.

BIG BANK CLOSES DOORS

Columbia Trust Company of Pittsburgh, Ceases Business By Order of Commissioner.

Pittsburg, May 9.—The Columbia Savings and Trust Company of this city closed its doors today by the order of the commissioner of banking. The capital of the Trust Company was given as \$145,000, the deposits \$200,000 and the loans \$290,000.
