# SANTA FE NEW MEXICO

VOL. 43.

SANTA FE, N. M., WEDNESDAY, SEPTEMBER 5, 1906.

## WORK NECESSARY IN TAOS COUNTY

To Carry Statehood Says Dr. Martin.

## PEOPLE NOT UNFAVORABLE

But Must Be Enlightened on Situation—Great Prosperity Prevails.

Dr. T. P. Martin, of Taos, is in the city, a member of the United States Petit Jury at the present term of the United States Court, for this district. The doctor has been a resident of Taos County for seventeen years and has practiced his profession there for that time very successfully. There is no citizen of the county who is better known or who knows the people and conditions there more thoroughly. In his practice, he visits every section of Taos County very often and keeps in touch with the people and with what is going on. A representative of the New Mexican accented the doctor last evening in the lobby of the Claire hotel and asked that some of the doctor's views upon material and political conditions of his section be given to the people through the medium of the Daily New Mexican. The doctor, big, jovial, good natured and a fluent talker, after a little urgency by the reporter said:

All Conditions of the Best. "I have never seen material conditions in my county in better shape than this year. The water supply has been of the best and indeed half of it was not put to the good use it could have been. Wheat, oats, corn and alfalfa are yielding abundant crops, in fact the greatest in many years and the quality is of the best. Fruit is very good except peaches. The wool clip by our sheep raisers has been sold at very satisfactory prices; ewes and lambs have been contracted for and are now being delivered at very good figures. Taos people do not own many cattle, but what heaves there were, were sold in the season at figures that made good profits. Live stock of all kinds is in the pink of condition and the outlook for the fall and winter is of the best as our mountain ranges are covered with nutritious grass and as all streams, springs and lakes are full to the brim. Portions of our county are receiving some settlers, not many to be sure, as there is little public land which can be obtained under the homestead or desert land entries, but the newcomers are purchasing improved ranches, are paying good prices and are well pleased with their purchases. The county seat and surrounding towns are presenting a busy appearance. Our merchants have done a good business this year and are doing still better and in Taos we have a store or two that will compare more than favorably with the best you have in your city. Freighters are very busy hauling freight and supplies into Taos, wool, hides, pelts and cereals from Taos to the railroad. We are still doing our railroad business via the Denver & Rio Grande Railroad and haul to the points on its line west of us. Your ex-townsmen, Frank C. Ellis, is well pleased with his change of location from Santa Fe to Taos. He has a fine and extensive drug store in operation, attends strictly to business and is evidently making money. His drug store is very neat and commodious and personally Mr. Ellis is very popular.

Republicans of Taos Will Win Elections.

"As to politics, I think the Republicans of Taos will make an excellent showing this year and will carry their tickets by large majorities. Up to this time there is no friction apparent in the party and if the Republicans of my county are united, they always win. There has been as yet not much talk of candidates and I hear that the county convention to nominate a ticket to be voted upon by the people in November next will be called to meet in Taos during the first week of October. Up to date, our citizens have not paid much attention to politics and even the statehood question has not been discussed to any great degree. The people have been too busy being prosperous and gathering their extensive crops and attending to business.

Majority for Joint Statehood. "As to the statehood question, I believe with proper work and with presenting the benefits that will accrue from the adoption of the Hamilton statehood law to our citizens, Taos will give a majority in favor of joint statehood. Some work has been done by anti-joint statehood men who have sent out literature in which they have informed the native born voters that they would be disfranchised, would not be allowed to act as jurors and would be kept from voting and could not hold office under the new state government, should joint statehood carry, because the constitution would require that they should understand, speak and read the English language before exercising their rights and privileges as citizens. This has caused some apprehension and must be undone as speedily as possible by the friends of joint statehood. This can be done by distributing literature in

the Spanish language throughout the several precincts setting forth the true state of affairs and informing the voters of what will really be done under the provisions of the law, should statehood be adopted and a constitution for the new state be formed this winter. It is very important that the voters should be clearly informed and become convinced that there will be no interference with the rights and privileges of citizenship which they have heretofore exercised under the Territorial form of government and that all these will be sacred and secure to them in a greater degree under a state government than even now exist. Mass meetings at which eloquent speakers in the Spanish language should address the people, should also be held at suitable points and the addresses to be delivered should especially contain references to what Republican policies have done for the advancement and progress of New Mexico, for the prosperity and well being of the people, and the great good the adoption of a state constitution and the becoming of a state will bring about. An active and energetic campaign of several weeks duration should be made during October. The people should be assembled and everything connected with the statehood question and the beneficial provisions of the bill should be clearly and fully explained to them.

"Our people are all alive to the necessity of having a good and extensive public school system that their children may be educated and become good American citizens. The many beneficial provisions of the joint statehood law and the great sums of money and donations of land for the support of the public schools, should be fully elucidated and when they understand these I feel sure that they will consider the question favorably and vote for it. I know that they are very anxious to have the best of schools and are endeavoring to give their children a fair education and a good knowledge of the English language. This sentiment is growing and will be felt in favor of statehood as soon as it is fully understood that five millions of dollars in cash and twenty millions of acres of public lands will be donated to the new state for the support of its public school system. This is a very important point and should not be forgotten by those who will have the campaign in charge.

Once for Single Statehood, Now for Jointure.

"Since I have been a resident of New Mexico, I have favored separate statehood for the Territory, but I have come to the conclusion that as joint statehood is the only thing that can be had, it will be best for our people and for all concerned to support joint statehood and attain it, if possible, at the earliest date. I am one of those who do not care to wait; I want to see something tangible in the statehood line now. I have worked for this for seventeen years and want to achieve statehood as soon as possible. I feel convinced that it will greatly benefit us in every way and will increase the present progress which is very apparent to all to a remarkable extent. I want our people to be free American citizens and to enjoy all the privileges and rights of such. I believe that many of my fellow citizens in Taos feel as I do. While we all would prefer separate statehood, we will cheerfully support jointure with Arizona if statehood can be attained now. There is not much sentiment in my county so far as I can see against jointure, but it is necessary to awaken the people and to get up enthusiasm and a lively campaign. This must be done in my county in all political campaigns and therefore this is no exception."

"The apportionment made by Governor Hagerman for council and representative districts as announced by the New Mexican yesterday in my opinion will be accepted by the Taos people. While Taos County does not get what it ought to have and while its representation is somewhat diminished, nevertheless I think that we can get along very well with the Representatives of Mora County, who will treat us fairly and that representation will be honestly and justly divided between the two counties, term about."

## REPUBLICANS WIN IN VERMONT

By Big Majority—Gain of 10,000 Votes—F. D. Proctor is Governor.

Rutland, Vermont, Sept. 5.—Complete returns from yesterday's state election show Fletcher D. Proctor, a Republican, was elected governor by 15,876 majority over Percival W. Clement, an Indiana Democrat. The remainder of the Republican ticket was also successful. The Republicans gained about 10,000 votes over their vote four years ago and the Prohibition loss was proportionately greater. Congressman Foster and Haskins, Republicans, were elected by increased majorities. All members of the senate but one are Republicans, and the lower house is overwhelmingly Republican.

## HUGHES DOUBTFUL AS TO ACCEPTANCE

Of Candidacy for Governorship of New York at Hands of Republican Party.

New York, Sept. 5.—Charles E. Hughes, who conducted the recent insurance investigation arrived here today from Europe. He would not state positively whether he would accept or refuse the Republican nomination for governor if tendered him.

## ABBOTT'S HEAD GOES IN BASKET

Resigned as District Attorney By Request.

## GORTNER FILLS VACANCY

Mail Too Slow for Executive—New Prosecuting Official "Muy Pronto".

Late yesterday afternoon it was reported about the city that Governor Hagerman had telegraphed District Attorney E. C. Abbott who is at Seagirt, New Jersey, requesting his resignation as Territorial prosecuting official for the counties of Santa Fe and Taos and that Mr. Abbott had complied with the Governor's telegraphic request also by wire. It was also stated that the Governor has appointed Robert C. Gortner, of this city, to fill the vacancy.

Gortner Offered Job Last Monday.

It seems that the position was offered Mr. Gortner Monday last and that he requested a day for consideration. Yesterday afternoon the New Mexican was informed that the Governor and Mr. Gortner were closeted for a long time, probably two hours, going over the situation and it is understood that an amicable agreement was arrived at under the terms of which Mr. Gortner accepted the office tendered him by the Governor. What occurred at the conference the New Mexican does not know but report has it that the expert's report on the financial condition of the Territorial Penitentiary recently published and its contents were among the principal matters of discussion. It is believed that part of this report will be brought to the attention of the Territorial grand jury now in session by the new district attorney. It had been stated for some time that there were two candidates for the position, namely R. H. Hanna and Charles C. Catron, of this city, and that the latter was supported by Mr. Gortner for the place.

Talk Says Abbott Balked.

It is also talked openly that Mr. Abbott had been requested during his present absence to have Charles C. Catron act as assistant attorney for him during the present term of the district court and that he declined to do so, but instead appointed his father, Judge A. J. Abbott, to act for him. The significance of the change is bound to be more and more apparent as time rolls on and as the investigations of the grand jury at this term of court proceed. This is the first time in the history of this Territory that a change in district attorneys has been made by a Governor so suddenly and during the progress of a term of court at which the district attorney in office has much important business, with which he was familiar and which he knows all about, to attend. Mr. Gortner has held the position before and was succeeded four years ago by E. C. Abbott therein. The appointment has created lively speculation and much talk.

This forenoon after it became known that E. C. Abbott had resigned as District Attorney for Santa Fe and Taos Counties, Assistant District Attorney A. J. Abbott declined to act any longer in that capacity. He had no objection to answering questions by the grand jury or giving that body any information it desired, but declined to sign any official papers as district attorney. As Mr. Gortner had not yet received his commission and, therefore, could not qualify, the Territory was not represented at today's session of the district court.

An Albuquerque special states that Governor Hagerman stated there last night and this morning that he had received the telegraphic resignation of E. C. Abbott, had accepted it and had appointed Robert C. Gortner his successor. Inquiry at the office of the Secretary of the Territory showed that up to noon today no official order or appointment had been filed by the Governor in that office.

## FRISCO STRIKERS TAKE WATER

Return to Work With Strike Breakers and Agree to Arbitrate Wages and Hours.

San Francisco, Sept. 5.—The strike of the carmen on the United Railroads, which have been completely tied up since August 26th was practically ended last night, when at a mass meeting, the strikers voted to return to work and submit the question of wages and hours to a committee of arbitration. This action is a complete back down, and it is said, was forced by the National Organization of Street Railway Workers. President Calhoun stated that he would take back all his old men and use all men imported to break the strike.

## ELECTION OF GENERAL HEAD OF JESUITS.

Rome, Sept. 5.—The first step in the election of the general head of the Jesuits' Order of the Priesthood, is now being taken. After a quadrivium of four days of the strictest seclusion which began yesterday, a final meeting will occur for the counting of the ballots.

## CONVENTION LAS VEGAS SEPT. 29

Decided By Territorial Republican Central Committee Today—Many Endorsed.

Special to the New Mexican.

Abuquerque, Sept. 5.—The Republican Territorial Central Committee met today at 10 o'clock in the rooms of the Commercial Club and was called to order by Chairman H. O. Bursum. The meeting was well attended, twenty-three out of the twenty-five counties of the Territory being represented.

The convention to nominate a candidate for delegate to the 60th Congress was fixed to be held September 29th at Las Vegas. The representation was determined on one delegate for each 150 Republican votes cast at the November, 1904, election.

The ratio of delegates to the convention was fixed at one delegate for each one hundred and fifty votes cast for W. H. Andrews, as the Republican candidate to the 59th Congress, at the election November 1904. By special resolution the County of Bernalillo was allowed three extra delegates. Strong resolutions were unanimously passed endorsing the record and services of Delegate W. H. Andrews.

A resolution endorsing H. O. Bursum's record as chairman of the Republican Central Committee, was adopted by unanimous vote.

The administration of President Roosevelt and his policies were fully endorsed.

The proposition of joint statehood for New Mexico and Arizona was also endorsed. It caused a lively debate and upon its introduction, Colonel George W. Prichard of Lincoln County, offered a substitute which was defeated by a vote of 35 to 14 whereupon the original resolution was passed. The meeting of the committee was lively and at times exciting. It lasted fully five hours.

Special to the New Mexican.

Abuquerque, Sept. 5.—The Republican Territorial Central Committee met at the Commercial Club rooms here, with all counties represented, except two, either by members or proxies. Hon. H. O. Bursum, chairman of the committee, presided and made a strong argument counseling harmony and predicting a great victory this fall.

Las Vegas, Santa Fe and Albuquerque, were named as places for holding the next meeting but the latter named cities were withdrawn and Las Vegas was chosen, the date being set for Saturday, September 29. The following resolution endorsing Hon. H. O. Bursum, was unanimously adopted:

"Resolved, That we the central committee of the Republican party of New Mexico, hereby congratulate the Republican party of New Mexico upon the fact that it has in the Hon. H. O. Bursum, chairman of this committee, an able, energetic and tireless leader who by his great executive ability has so harmonized the different elements in our party that today it presents a united front to its opponents and we further hereby express our complete confidence in the honesty and integrity of the Hon. H. O. Bursum."

The above resolution was offered by Charles A. Spiess of Las Vegas.

The following resolution was introduced by Eugenio Romero, of Las Vegas, and unanimously adopted:

"Resolved, That we endorse and approve most heartily, the able, efficient and unselfish services rendered to the people of New Mexico, by Delegate W. H. Andrews, and we especially congratulate our delegate in congress upon the success attending his efforts by which an appropriation of one hundred thousand dollars was secured for a public building in Albuquerque."

"We congratulate our chairman, Hon. H. O. Bursum, upon his efficient management of the affairs of this committee and hereby renew our confidence in him as a safe political counselor and worthy in every respect of the position he holds."

A resolution was adopted approving of the administration of President Roosevelt and in favor of joint statehood, although considerable opposition was manifested in and among some members of the committee against jointure.

## SEVERE FIGHTING IN SANTO DOMINGO

Rebels Defeated By Troops But Later Turned Tables on Soldiers, Says Messenger.

Cape Haylen, Sept. 5.—A messenger who arrived here today from Santo Domingo brought news that the Dominican insurgents who had been besieging Monte Cristi on the north coast of Santo Domingo had been defeated and put to flight. Later they attacked the town of Dajabon and the government forces were compelled to seek refuge in the fort where they are defending themselves with commendable courage.

## CASHIER BOUND MONEY STOLEN

Two Nerve Bandits Secure \$2,500 at Ranier, Oregon, Bank and Make Escape.

Ranier, Ore., Sept. 5.—Two bandits bound and gagged Cashier P. W. Van Aucher in the State Bank here Monday, secured \$2,500 in gold and escaped. Two hours elapsed before Van Aucher succeeded in freeing himself and giving the alarm. Van Aucher was working on his books and no one else was in the bank, it being a holiday.

## NEW LEGISLATIVE APPORTIONMENT

Announced By Governor Late Last Evening.

## APPARENT INEQUALITIES

Twenty-One House, Twelve Council Districts Are Fixed by Proclamation.

Whereas, It is provided by the Organic Act establishing the Territory of New Mexico that an apportionment shall be made as nearly equal as practicable among the several counties and districts for the election of the council and house of representatives, giving to each section of the Territory representation in the ratio of its population, as nearly as may be, and further, that after the first apportionment the time, place and manner of holding and conducting all elections by the people and the apportioning of representatives to the council and house of representatives, according to population, shall be as prescribed by law; and

Whereas, By an act of the legislative assembly entitled 'An Act to fix the time and mode of apportioning the council and house of representatives of the Legislative Assembly of the Territory of New Mexico' approved January 26, 1860, it is provided that thereafter, at the first session of the legislative assembly after the census shall have been taken in conformity with the laws of the United States and every ten years thereafter, it shall be incumbent upon said legislative assembly to apportion the members of the council and house of representatives, as near as practicable to the different counties according to the organic act of this Territory; and that, if the legislature should fail or refuse to make such apportionment, then, and in that case it shall be the duty of the Governor to apportion the members of the council and house of representatives, as nearly as practicable, to the different counties according to the organic act of this Territory; and

Whereas, The then Governor of the Territory did not make such apportionment after the said legislatures failed to do so; and

Whereas, The present apportionment is now manifestly unjust and inequitable to the citizens of a large portion of the Territory:

Be It Known, Therefore, That I, H. J. Hagerman, governor of New Mexico, by virtue of said act of the Legislative Assembly and in pursuance of the organic law, do apportion the representation among the counties of said Territory, in the Council and the House of Representatives as follows:

Twelve Council Districts.

There shall be twelve Council Districts, each one of which shall be entitled to one member of the council. The First Council District shall consist of Colfax and Union Counties.

The Second Council District shall consist of Taos and Mora Counties.

The Third Council District shall consist of Rio Arriba and San Juan Counties.

The Fourth Council District shall consist of San Miguel County.

The Fifth Council District shall consist of San Miguel, Quay and Guadalupe Counties.

The Sixth Council District shall consist of Santa Fe and Sandoval Counties.

The Seventh Council District shall consist of Bernalillo County.

The Eighth Council District shall consist of Valencia and McKinley Counties.

The Ninth Council District shall consist of Socorro and Sierra Counties.

The Tenth Council District shall consist of Grant, Luna and Doña Ana Counties.

The Eleventh Council District shall consist of Otero, Lincoln and Torrance Counties.

The Twelfth Council District shall consist of Eddy, Chaves and Roosevelt Counties.

House of Representatives Districts.

There shall be twenty-one House of Representatives Districts. Of these the following nineteen districts shall each be entitled to one member of the House of Representatives:

The First District shall consist of Colfax County.

The Second District shall consist of Union County.

The Third District shall consist of Taos County.

The Fourth District shall consist of Mora County.

The Fifth District shall consist of Colfax and Mora Counties.

The Sixth District shall consist of Rio Arriba County.

The Seventh District shall consist of Rio Arriba and San Juan Counties.

The Eighth District shall consist of Guadalupe and Quay Counties.

The Ninth District shall consist of

Santa Fe County.

The Tenth District shall consist of Santa Fe and Sandoval Counties.

The Eleventh District shall consist of Valencia County.

The Twelfth District shall consist of Valencia, McKinley and Torrance Counties.

The Thirteenth District shall consist of Socorro County.

The Fourteenth District shall consist of Socorro and Sierra Counties.

The Fifteenth District shall consist of Grant and Luna Counties.

The Sixteenth District shall consist of Doña Ana and Otero Counties.

The Seventeenth District shall consist of Grant, Luna, Doña Ana and Otero Counties.

The Eighteenth District shall consist of Lincoln and Chaves Counties.

The Nineteenth District shall consist of Lincoln, Chaves, Eddy and Roosevelt Counties.

The Twentieth District shall consist of San Miguel County, and shall be entitled to three members.

The Twenty-first District shall consist of Bernalillo County and shall be entitled to two members.

I do hereby, as Governor of New Mexico, make known and proclaim that the apportionment herein made shall be the representation to which each county and district shall be entitled in the Council and House of Representatives until otherwise changed according to law; and

I do further proclaim and require that all public officers shall strictly observe and enforce the same in all elections hereafter to be held in this Territory for the election of members of the Council and House of Representatives of the Territory of New Mexico.

Done at the Executive Office this, the Fourth Day of September, A. D. 1906.

Witness my hand and the great seal of the Territory of New Mexico.

By the Governor:

H. J. HAGERMAN,  
J. W. RAYMONDS,  
Secretary of New Mexico.

## MAY ELIMINATE BACK STAMP

On Letters in Large Postoffice—Experiments Thus Far Prove Great Saving.

A Washington dispatch says that an experiment, with a view not only to the saving of expense, but to the economizing of time, is being tried in the Chicago postoffice. It is the elimination of the use of the back stamp on letters, which indicates to the recipient of a letter the precise time of its arrival in the delivering office from the sending point. The services of about thirty clerks have been saved, and the time of the delivery of mail to the recipients in the office has been reduced from twenty minutes to two hours. It is proposed now to try the experiment in other large postoffices. If it should be as successful as it has been in the Chicago office the use of the back stamp probably will be eliminated entirely.

## DAILY SHORT STORY FEATURES

Hereafter on Page Seven of the New Mexican—Good Writers and Clever stuff—Read it.

Beginning today and continuing hereafter, the Daily New Mexican will publish each day, on page 7, a short story, especially selected from good writers. These stories consist of bright, clean, well written fiction and will prove an entertaining feature of each issue. They have been made part of the New Mexican at considerable additional cost as the result of a demand for something of the sort. They are recommended to readers of the paper who enjoy fiction.

## BIG PROFIT OF SMELTING COMPANY

Net Earnings of the American, were Over \$10,000,000 During Past Year.

New York, Sept. 5.—At the annual meeting of the American Smelting & Refining Co., at Jersey City today the retiring directors were re-elected. The net earnings of the year were \$10,161,358, an increase of \$1,262,546 over previous years. After the payment of extraordinary improvements and employee profit sharing fund, there remained a surplus for the year of \$2,024,655, an increase of \$405,143.

## TO HEAR SENA CASE ON MERITS

U. S. Circuit Court of Appeals Remands Matter to Territorial Supreme Court.

Denver, Sept. 5.—The United States Circuit Court of Appeals has remanded the case of Mariano F. Sena to the New Mexico Supreme Court with instructions to take jurisdiction and hear the case on its merits. Sena was convicted at Santa Fe of forging returns on census vouchers.

## TRANSPORT SHERIDAN A TOTAL LOSS

Washington, Sept. 5.—A dispatch received yesterday says the transport Sheridan will be practically a total loss. All personal property has been removed from the stranded steamer and an effort will be made to save the engines, boilers and other equipment.

## BIG MAJORITY FOR GOVERNOR

Milwaukee, Wis., Sept. 5.—The returns from yesterday's primary election indicate that Governor Davidson, a Republican, won from Speaker Irvine L. Lenroot, in the race for governor by 40,000 votes. John A. Lylward, a Democrat, received the nomination over Ernest Merton.

## SAYS JERO TICS A SCRA FOR OFFICE.

Albany, N. Y., Sept. 5.—District Attorney William Travers Jerome, of New York, was the central figure in the conference of Up State Democrats here today to consider the condition of the Democratic party in this state.

It was denied that the meeting was in the interest of Jerome's candidacy for nomination for the governorship. In a speech he said there were no real issues to divide the parties and that the elections are a mere scramble for office.

Hot Shot at "Boss" By Reformers.

The "Boss" is but a hired man of the capitalist whose sinister influence controls the party machinery for his own selfish and corrupt ends, people at the polls having only a choice between unfit candidates.

## BITTER SCORN FOR "BOSS"

From New York's District Attorney—No Real Issues Between Parties.

Over Questions of Forest Reserve Organization—Bitter Remarks On All Sides.

Boise, Idaho, Sept. 5.—The so-called "Policy" of the administration in setting aside the large areas in the west for forest reserves was a subject which precipitated acrimonious and at times sensational debates at last night's session of the National Irrigation Congress. Clifford Pinchot, chief of the Bureau of Forestry, stated that the policy of President Roosevelt was to "give every part of the public lands their very best use."

These reserves to a certain extent, control the stock business of the west," he said, "for the chief summer range is in these reserves."

Some reserves were practically without trees but it was the purpose to put trees there.

Senator Heyburn Waxed Bitter.

Senator Heyburn made a bitter attack on the administration's forestry policy. "The administration," he said, "had no business to have any policy except as stated in the statutes." Mr. Heyburn said he did not question the President's motives but believed that he had been misled by bad and not disinterested advisers.

Mr. Heyburn characterized Pinchot's theory of the forests reserving moisture as nonsense and attacked the National Forestry Association.

More Timber Than Any Man Had Ever Stolen.

"One of its vice presidents, Mr. Weyerhaeuser," he said, "owned more land than any other man in the world—more timber than was originally stolen by any man in the world."

## WARRANTS FOR BANK OFFICERS

Of Real Estate Trust Company Which Failed—Adolf Segal Included.

Philadelphia, Pa., Sept. 5.—Warrants were issued today against Adolf Segal, who borrowed more than five million dollars from the Real Estate Trust Company, on insufficient security, William F. North, treasurer of the Real Estate Trust Company, and Marshall S. Collingwood, assistant treasurer, charging them with conspiracy, embezzlement and false returns to the State Banking Department. The accused men waived formal service of the warrants and gave bail: Segal \$20,000 and the others \$10,000 each.

The loss by failure of the company, it is estimated, will exceed ten million dollars before the receiver finishes his investigation.

## JUNTA PLANS MANY WARS

Five Revolutions to Be Started in South American Republics—Funds Are Secured.

New Orleans, Sept. 5.—The existence of a junta which is collecting funds and supplies for a revolution to be started simultaneously in five Central American Republics was announced today by Don Angel Urgateho, who says his mission here is to collect funds for a revolution in Honduras where his cousin, Policarpo Bonilla, will lead the insurgents' forces.

## DIRECTORS MUST DIRECT.

The investigations into the business of corporations which have now been going on for a year and longer, have fully demonstrated that it is high time that "directors must direct." In the case of the great insurance companies, it was found that directors and boards of trustees were merely dummies and that they knew nothing of the business which it was their duty to direct and to administer. This has also been often found to be the case in failures of National and State banks.

One of the most noticeable and most recent instances is the one which has just come to light in Philadelphia, namely, the one connected with the Real Estate Trust Company of Philadelphia, a concern which has flourished for many years and the transactions of which were believed to be of the most safe and conservative character.

The New York Evening Sun has the following very timely and pertinent comment thereon in a recent issue, the paper editorially saying that Philadelphia has furnished the country with an extraordinary case of malversation of trust funds. The Real Estate Trust Company of that city was looked on a scale of almost unprecedented magnitude, but what most shock public confidence in the conduct of fiduciary institutions more than the extent of the plundering is the fact that it was possible.

The crash of the trust company will revive discussion along some old lines and may stimulate controversy in new directions. Much will be said about the relative safety and security of banks under state and banks under national supervision. Pennsylvania's own responsibility in the matter will be duly brought out, and it seems to be great, for we are told that "the State Banking Department examined the Real Estate Trust Company two years ago," but that "in the regular order of things" another examination "would have been begun" today. Nothing as great moment as the responsibility of the directors of the company for the failure. The financial extent of the collapse serves chiefly to make more impressive the one plain lesson of it all, that men who accept the duties of a directorate must discharge them; must, if that is necessary, be made to discharge them and that these duties cover moral as well as legal obligations.

We have the same old story told to us in this case. The directors reposed full confidence in the President and they accepted his trick account of loans as true statements. Perhaps an hour's work months or years ago by any one director who felt that, important as it was to have as president a man who commanded confidence, it was more important to consider the confidence that the public reposed in the directorate, which was the real custodian of the deposits of the public, would have resulted in discovery of what was going on. However, what might have been is of no consequence compared with what must yet be. If directors will continue to substitute for conscientious recognition of the confidence that is reposed in them and the work that it imposes their own confidence in the officers whom they elect and let it go at that, there can be no question then that the law must require of directors more than they will of their own accord require of themselves.

## IRRIGATION POSSIBILITIES.

Professor F. H. Newell, at the head of the Reclamation Service of the United States, declares that eventually each acre of land under irrigation in New Mexico will support one person. As there is enough water in this Territory, even in dry years, to irrigate anywhere from a million and a half to two millions and a half of acres, it does not take much figuring to foretell the coming greatness of this commonwealth. And yet, two million and a half of acres are only one twentieth of the area of public lands in New Mexico today. Of the remainder, at least five million acres and perhaps twenty-five million acres, can be reclaimed by scientific dry farming and the selection of crops, and while they will not support one person to every acre, yet, ten acres may suffice for that purpose. Ere this century has run its course, yes, even before every person of this generation has passed away, New Mexico will have five million inhabitants and will have cities and towns like Denver, Omaha and Los Angeles. This may seem like a wild prophecy to many, just as similar prophecy astounded the men of 1776, but let it be remembered the figures given above, apply only to agricultural possibilities and do not take into consideration the vast mineral and other wealth, the climatic advantages and scenic attractions of New Mexico. The east and the middle west are being crowded, immigration is being effected from the northwest to the southwest and the moment statehood puts New Mexico upon the same basis as other commonwealths, the stream of immigration, formidable as it is now, will soon increase tenfold in proportion. That statehood will bring this about is often disputed and the history of other commonwealths is cited to support this doubt, but it must be remembered that in the common mind, New Mexico has been always regarded

as somewhat of a foreign dominion, with laws and people differing from those of the rest of the United States. Until a state government assures outsiders of the permanency of property and other rights, even intelligent people fight shy of investing in or coming to this Territory. This was not the case with other territories and explains why statehood did not always bring sudden and unparalleled growth to them although it conferred other inestimable benefits. There is not a state today that would return to a territorial form of government without a revolution. But statehood or not, the irrigation possibilities of New Mexico assure its future growth and prosperity.

## THE NEW APPORTIONMENT.

The apportionment for legislative purposes promulgated by Governor H. J. Hagerman yesterday created no surprise in official and political circles. The New Mexican had published it several days ago accurately and the Governor made no changes, although it is understood that he examined the scheme for re-districting prepared by the New Mexican and thought well of it. The New Mexican is informed that Attorney General W. C. Reid gave an official opinion to the effect that the Governor had a legal right to make the apportionment at this time and to re-district the territory for legislative purposes before the coming election. Several other well known lawyers agree with the attorney general, while there are others who hold that the Governor has no right to make the apportionment. It may be that the question will be brought into the courts as the New Mexican is informed that there are some county authorities not satisfied with the arrangement. The apportionment is not as fair and as equitable as it might be. There are a few glaring inequalities both in the council and house districts which will be pointed out by the New Mexican in due course of time. A new apportionment is demanded by the exigencies of the situation, and it may be the best public policy to allow the action of the Governor to go unchallenged in the courts. This, however, is a local matter which must be considered and acted upon by county authorities as they deem best and proper for the interests of the counties which they represent. The question is a serious one and if there is an intention to test the legality of the action of the Governor, it should be done forthwith that it may be settled in good season before conventions make nominations. As far as Santa Fe County is concerned, it was expected that it would be part of a district to be composed of either Santa Fe and Torrance, or of Santa Fe and Sandoval Counties. The latter district both for the council and for one member of the house was made. There may be a legal fight on this part of the apportionment. This may be brought about by a politician whose interests may be involved. As far as the people are concerned, they are probably pretty well satisfied. As for this paper, it has no fight to make on the proposition, and believes that it will be best for the public interests if the apportionment is not attacked in the courts.

## STICK TO THE NEW MEXICO FARM.

For many reasons it is to be regretted that the native boys and young men of New Mexico are drifting from the land of their forefathers into the coal camps, railroad construction camps and manufacturing towns of neighboring states. It is true that the small allotments of land, the sheep herding and cattle driving, the old conditions are not very alluring to the average young man of ambition but the time is coming when these occupations will be preferable to working in coal mines or in mills. With improved methods of cultivation and breeding, and modern machinery, there is a future ahead for the owner of even a few acres of land in a river valley or upon a fertile mesa. With the improvement of public schools and the spread of intelligence, the tiller of the soil is offered compensation for his deprivations that even the city boy will envy. When the cultivation of five acres of fertile soil offers greater remuneration than employment in the camps or in the city, and certainly greater independence and health, it seems foolish to desert farming or stock raising for the temptations and the heartlessness of the town. The farmer need never fear hard times or live in the dread of the loss of employment. The New Mexican College of Agriculture and Mechanical Arts by distributing pamphlets printed in the Spanish language, the public schools and even the Territorial government should unite in bringing home to the tillers of the soil in New Mexico the advancement that has been made in scientific farming, the prospects it offers to New Mexico boys who remain on the farm or upon the range and the great future that is certain to be the heritage of the New Mexican farmer. New Mexico needs its boys and young men upon the farm more than Colorado needs them in its mining and railroad camps and it is better for the young people and better for the commonwealth if they remain tillers of the soil.

## JOINT STATEHOOD NOT YET LOST IN ARIZONA.

The Democrats of Apache County, Arizona, have elected four joint statehood delegates to the Democratic Territorial Convention which will be held on the 15th inst. The delegates are prominent and well known citizens. It is not believed they will attend the convention as they claim under the gag-rule, proclaimed by Chairman Ellinwood, of the Democratic Territorial Committee, they will have no voice and may be kicked out, because they will not fight the joint proposition. There is freedom in the Democratic party of Arizona for you with a vengeance! The delegates are: Isaac Barth, J. B. Patterson, W. H. Gibbons and Fred T. Colter. Mr. Barth is the chairman of the Democratic County Central Committee; Mr. Patterson was a member of the House of Representatives of the last Arizona assembly; Mr. Gibbons is an ex-treasurer of the county. This is the class of men to be disfranchised by the Arizona single statehood supporters in the Democratic convention. Such proceedings cannot but rebound and act as a boomerang. Joint statehood is not yet lost in the sister territory.

Governor Hagerman yesterday appointed Charles F. Basley, of this city, to fill a vacancy on the Board of Penitentiary Commissioners, created by the resignation of Lewis Liffeld, of Albuquerque, some time since. Mr. Basley is a Democrat and has been a resident of Santa Fe County for many years. During his residence here, he has been prominently identified with Democratic politics and is considered one of the leaders of Democracy in this county and in the Territory. At present he holds the position as secretary of the Democratic Territorial Central Committee. His competency for the place is acknowledged. There is no good reason why he should not prove a good and valuable member of the board.

As a preventative or as a cure for the evil of false tax returns a number of states have enacted laws for the publication of all tax lists, thus giving every person an opportunity to scan and study the returns of his neighbor. It is made the duty of every good citizen to bring to the attention of the authorities every false tax return and in many cases the publicity thus given prevents property owners from falsifying their returns. It is a plan worthy of consideration in this age of publicity.

The re-apportionment of Frank W. Clancy, of Albuquerque, to succeed himself as a member of the Board of Regents of the University of New Mexico is exactly what should have been done by the Governor. If there is an official or a member of a Territorial board who deserves re-appointment to the position which he holds, it is Mr. Clancy. He does honor and credit to the office and can always be depended upon to perform its duties conscientiously, honestly and ably.

Notwithstanding the gush that has been written about "the dying race," official figures show that the Indians in the United States are increasing instead of dying out. In 1860 there were 254,300 of them, and today they number 284,000. This is another popular illusion scratched.

A Massachusetts man caused Washington officials to go into fits by offering to donate a site, valued by him at \$30,000, for a postoffice building in his town. The offer may have been prompted by the man's desire to have the ownership of the adjacent real estate investigated.

If the Oyster Bay correspondents are well informed, the talk between President Roosevelt and Charles Emory Smith, editor of the Philadelphia Press, which is inclined to shy at the party state ticket, was more of a scolding than a conference.

Judge Parker, late presidential candidate, rises to remark that he will under no circumstances submit to the Hearst branding iron. Wonder what he will do if Hearst captures the Democratic nomination for governor of New York.

Of course, John Alexander Dowie will appeal from the court decision, closing Zion City's cash box to him. Appealing is his specialty, and he has made it pay all his life; but courts are not as credulous as his followers.

Charges have, from time to time, been made that Wall Street has used a secretary of the treasury, but Secretary Shaw is the first in his position to be charged with having used Wall Street. It is better for him to use Wall Street than to be used by it.

Counting chickens before they are hatched is profitable occupation compared with the time spent by Congressmen "Charlie" M. Towne of New York, talking of what he will do when he is Vice President.

## GO RIGHT AT IT.

Friends and Neighbors in Santa Fe Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it. But it won't cure it. You must reach the root of it—the kidneys.

Don's Kidney Pills go right at it: Reach the cause; relieve the pain. They cure, too, so Santa Fe people say. Cipriano Chavez, county jailer of Agua Fria Street says: "I had attacks of backache for three or four years. Lately they were of much longer duration and occurred much more frequently. For 20 days before I went to Ireland's Pharmacy there was no let up to the dull aching and nagging pain despite the fact that I used medicines and wore plasters. Two days' treatment with Don's Kidney Pills was sufficient to let me know that the remedy was going to the root of the cause and a continuation of it for some time stopped the very severe attacks."

## PUBLIC PLAYGROUNDS.

National Association Formed to Promote Them in Cities.

A generation ago the environment of the child was different from that now to be found in large cities. Now a third of the population is crowded into the cities, and the narrow streets, lined with towering buildings, have become canyons where sunlight enters in glints and where blasts of air laden with pestilential dust smother and blind the child amid the dangers from heavy trucks, swiftly moving automobiles and the rushing of trolley cars.

"The city fathers vain would see the beauty of the city by more or less infrequent patches of green," says Seth Thayer Stewart in the prospectus of the Playground Association of America, of which Theodore Roosevelt is honorary president and Jacob Rills honorary vice president, "but even these are covered with warnings of keep off the grass, and the city child, without the possibilities of outdoor physical development, wonders whether the progress of civilization is not conspiring with the arm of the law to prevent the natural development of his instinct for play and love of nature, and even to crush out the possibilities of child life in larger cities."

The object of the Playground association is to bring about the establishment and maintenance of playgrounds in the larger cities where children and young men may expend their physical energy in a way that will be beneficial to themselves. It believes that the maintenance of playgrounds is not a matter of ornamental philanthropy, but a part of the system of education of the state necessary to the development of the whole nature and not of the mind only, and that it is the duty of the state to maintain such space, place and opportunity in playgrounds and in the curriculum of the schools for all its growing citizens.

"Believing," says the prospectus, "that in a democracy the tide and tone of life should be kept full and high and that upon the physical well being of its people largely depends the well being of the nation, that the stress and strain of our industrial age, the artificial life of crowded centers and the isolation of the country tend to nervous disorder and breakdown, and believing that play is instinctive and tends to develop the whole man and the physical and moral qualities necessary to high character, thus maintaining the working power at its best, the Playground Association of America affirms the necessity for place, space and opportunity in the open air in order to insure life and happiness."

Dr. Luther Gulick of New York city is the active president of the association. New York has already spent about \$15,000,000 on small parks with playgrounds, and the Seward park recreation center in the Ghetto, alone cost \$1,900,000.—New York Tribune.

## A Trick of Sound.

Why did Princess Ena of Battenberg after her marriage to the king of Spain choose to be known as Queen Victoria? A writer says: "Her grandmother made Victoria a name of good omen, but Alexandria, not Victoria, was the first of the late British queen's baptismal names and was abandoned because Russian names are without sweet associations for English ears. Nor would Eugene be very agreeable now to Spaniards, with whom their French neighbors are not universally popular. Ena is, however, a name as uncommittively international as Victoria. It might very well have been the young queen's, too, but for a mere trick of sound. When her marriage was arranged her brothers began to call her in jest 'Quinine, ah!' and thus gave its teased bearer a prejudice against the conjunction of her new title with her old name."

**Pangman's Tree.**  
A living and leafy monument in the shape of a stately pine tree with traces of the name of Peter Pangman, 1790, still carved on it, stands at the junction of the Saskatchewan and the Clear Water rivers to commemorate the memory of the first white man to reach the Rocky mountains or see them from the east. Pangman was in the employ of the Northwest Fur company. He ascended the Saskatchewan and turning his face to the westward he beheld the white mass—the Rocky mountains. He afterward penetrated them, but the tree where he carved his name marks the spot of his first vision. For 125 years it has been known as Pangman's tree, and still stands in spite of the ravages of fire and flood. In the early days it was a landmark and distances were measured from it.

## The Chess Players.

It looks something more than a coincidence—this early decay of the chess players. The results of these prodigious intellectual stunts are not unlike those of the overtrained horse or the professional athlete, who sinks into decay before his time, his vitality gone, his organs a wreck. Chess is doubtless the beautiful and inspiring game, but its devotees would have us to think, but it appears to be a mighty poor profession. Even if it be not a short cut to madness, it certainly leads to no useful end. Some great men have been chess players, but no chess player has ever been a great man.—Kansas City Independent.

## All the Russias.

Nicholas II. is neither tsar, czar nor sar of Russia, but emperor of all the Russias. To call the emperor of Russia a tsar is a misnomer. He is tsar (king) of Moscow, Poland, Astrakhan and Kazan. Until the seventeenth century Russia was the "kingdom (tsars two) of Moscow." Peter the Great assumed the title "emperor of all the Russias" (Great Russia, White Russia and Little or Red Russia).

## LONG-LIVED

## NEW MEXICO HAPPENINGS

Dona Ana County.

Carl Luchenbacher died at his home south of Las Cruces, last week, from a hemorrhage of the lungs. Mr. Luchenbacher came to Dona Ana County about five years ago from New York, being a sufferer with consumption. He had been improving right along since he came and the news of his unexpected and sudden death was a shock to his many friends.

Tiburcio Lopez shot and killed Chon Rosales, recently, near Garfield. It is said that Rosales' horse was found in Lopez's alfalfa field and Lopez after catching the horse, when taking him to the justice of the peace, was intercepted by Rosales and in the quarrel following, Lopez shot Rosales. At the preliminary hearing held there before the justice of the peace, Lopez was bound over to appear before the grand jury at Las Cruces and gave bond in the sum of \$6,000.

Torrance County.

Jack Kelley, of Estancia, is building a large new livery stable near the court house.

The annual fiesta of Tajique will take place this year September 9 and 10. All is in readiness for a good time.

Mountainair has the distinction of being the best shipping point on the Cut-off. Lumber is being sent out as fast as it can be obtained. Ties are being loaded by twenty men. Supplies are constantly coming in for the local store and the stores of Manzano, Punta and Torreon.

The Adventists, who are holding a series of revival meetings in a tent at Estancia, still continue to draw big crowds and make many converts.

The Torrance County Fair is a thing of the past. Owing to a lack of interest in some parts of the county, the enterprise has been abandoned. However, Torrance County will be well represented at the Territorial Fair in Albuquerque, if present plans do not miscarry.

While it was intended that the public schools at Estancia should have opened on next Monday, September 3d, it has been found impossible to have it so, and the opening will occur a week later, Monday, September 10. Miss Gorbam, who had been chosen principal could not accept, and the board elected Miss Cochrane, of Ender, Oklahoma, as principal. She is expected to arrive during the week. Miss Nisbett will have charge of the lower grades. It is very probable that a third teacher will be employed, and another room secured. Last year the rooms were filled to overflowing, with the increased immigration. It is certain that the enrollment will be much more this year. As the money in the treasury will not be sufficient to employ a third teacher it has been proposed to raise the necessary funds by private subscription.

Chaves County.

W. H. Pearson and Mrs. Sallie Rainbolt were united in marriage last Monday evening at the home of Mr. and Mrs. Lib Rainbolt, on North Pecos Avenue, Roswell. Judge J. T. Evans performed the ceremony and the couple left Tuesday morning for a stay of a week at Canyon City.

Commissioners White and Atkinson visited the sites of the proposed bridge across the Pecos, at Dexter, and Hagerman, last Monday, and were given a rousing reception by the people of both towns. The final location of the bridge will be announced at the meeting of the board to be held later. Artesia school district has an enrollment of 400 children.

John Ewing, of Lake Arthur, will build the new \$7,000 school house at Dayton.

The annual Deaf and Dumb Chaves County picnic will occur at Hereford Saturday, and from all accounts there will be big doings.

W. E. Washington is rigging up a little irrigation scheme of his own west of Lake Arthur. Tar lake, artesian wells and natural springs will be utilized and there will be water enough for more than a thousand acres of land.

In drawing attention to the fact that over 200 children are enrolled for the coming scholastic year, it may be imagined that Lake Arthur has no belief in race suicide. The enrollment in so young a town is proof.

Last Friday was a great day at Lakewood the occasion being the laying of the corner stone of the new \$10,000 school building, and the matter was done up in a blaze of glory, for the White City turned itself inside out and assimilated the hundreds of visitors with a joyous hospitality all its own. The laying of the corner stone occurred in the forenoon, after the arrival of the Caribbea delegation, Postmaster T. M. Waller, acting as master of the ceremonies, with an appropriate attending program.

Socorro County.

Charles M. Crossman, of San Marcial, an old soldier and respected ranchman, was killed recently while driving to his ranch from San Marcial where he had been to secure his pension. A wild team of horses he was driving ran away, and the aged man was thrown under the overturned wagon. When his body was found the following morning by his son, his neck and one arm were broken and he was terribly bruised. The body was buried in the cemetery at San Marcial.

Despite the "terrible" earthquakes of yellow journalism, which recently visited Socorro, that hustling little town, led by its progressive Mayor H. O. Bursum, is making many needed improvements. Streets are being straightened and put in repair and new buildings are being erected. A few chimneys knocked down by the recent quakes have been replaced by new ones.

Marriage licenses have recently been issued in the office of Probate Clerk B. A. Pino, Socorro County, to the following named persons: Mamie D. Johns, aged 16 years, and James R. Shelton, aged 28 years, both of Clear Creek; Ignacio Torres, aged 30, and Mrs. Andrelita Montoya de Marquez, aged 23 years, both of Socorro; Paulita Barila, aged 22 years, and Ro-

male Valencia, aged 28 years, both of Socorro.

Socorro County's school superintendent, J. A. Torres, who is at present engaged in compiling his annual report to the Territorial superintendent, says that there have been during the summer, in the following respective districts two public school buildings erected: One in school district No. 5, La Joya, at a cost of \$400, and one in school district No. 24, San Marcial, costing the same. Other school houses undergoing radical changes during the past vacation period are Kelly's, Escandida and Polvadera's each at a generous outlay.

Candidates for office are beginning to come out into the open. Adan Baca, of Escandida, announces himself a candidate for representative for Socorro and Sierra Counties, subject to the action of the Republican party.

### GREAT ANIMAL TRAINER.

Of the Sells-Floto Shows Talks About Wild Beasts.

Strong drink has a most "calming" effect on the lion, who becomes most docile after partaking of an excessive amount of intoxicating liquor. It is doubtful if many people would venture to try the experiment, and it is not advised, so says Christopher Seitz, the well known animal trainer of the Sells-Floto shows. He states that when under the influence of a "stimulant" a stranger may with perfect safety enter a lion's cage, for it will show no signs of ferocity unless deliberately annoyed.

When taming wild animals are very difficult to deal with, and artifice enters largely into their treatment. At the winter quarters of the Sells-Floto Shows an elephant known as Mamma Mary contracted influenza. The attack was a very bad one, the animal suffering intense agony. In the course of one day no less than a half barrel of mustard was applied to Mamma Mary externally. In the same space of time she consumed three gallons of whiskey—more than any other animal has ever swallowed in a day before. The heroic—and, as it proved successful treatment, was considered necessary to save the elephant's life, which was well worth preserving, apart from any sentimental considerations. Up to that time there was no case on record of any animal having suffered from influenza.

On another occasion a favorite elephant, known as Tribby, fell ill, and could not be induced to touch her food. She moaned continually, shed floods of tears, and gradually grew weaker and weaker. What her complaint was it was difficult to determine, but something had to be done to restore the ponderous beast to health. She was therefore subjected to rather expensive treatment, a pint of brandy and some quantity of Rhine wine being administered alternately at frequent intervals. This Tribby swallowed greedily, and she was kept strictly to liquid diet. Three times a day she was allowed a bucket of gruel, each bucket containing no less than forty quarts. The elephant soon recovered her usual health and spirits.

The menagerie at the Sells-Floto Shows is open to the public every day for one hour before the beginning of the big show, where experienced lecturers tell of the wonderful beasts of the forest. The date is September 13.

## WILLARD

WATER WILL MAKE IT FAMOUS.

The A. T. & S. F. Railroad Company will sink fourteen deep wells at Willard and pump water as far east as the Rock Island. The company has bought twenty acres of land adjoining the town site and is negotiating for forty acres more.

### A WORD TO THE WISE INVESTOR IS SUFFICIENT

Willard has already made a most phenomenal growth and the price of lots will soon advance. Better come now. The town site is owned by

WILBUR A. DUNLAVY, Vice Pres.  
LOUIS C. BECKER, Treasurer.

Hard to Please.

Mr. Sally—You seem worried. There's no danger. Miss Valn—That's just it—no chance of a heroic rescue and all the folks talking about me!

Change.

"When old Uncle Weatherby was a poor farmer he used to go up to town and eat pie with a carving fork. The people smiled."  
"You don't say?"  
"Then later on he began eating it with a tablespoon. The people laughed."  
"I don't blame them."  
"From that he changed to a knife. They roared."  
"Great Scott! And he is still sticking to the knife!"

"No. Since they found oil on his farm and rated him as a millionaire he ate pie with his fingers and everybody nods his approval and says he is bizarre."—Chicago News.

On the Other Hand.

She—And do you really think you cannot live without me?  
He—You want the truth, the whole truth and nothing but the truth, I suppose?  
She—Certainly.  
He—Well, I can live without you, all right, if necessary, but I don't see how you can possible live without me.—New Orleans Times Democrat.

Pride.

"You need not be so critical," says the person accused. "You say I have a vinegary disposition, but every one knows that you have one too."  
"I acknowledge it," retorts the accuser. "But mine is a genuine pure older vinegar disposition, while yours is the commercial compound of sulphuric acid and water."—Woman's Home Companion.

Mental Limitations.

"Your honor," said the arrested chauffeur, "I tried to warn the man, but the horn would not work."  
"Then why did you not slacken speed rather than run him down?"  
A light seemed to dawn upon the prisoner.  
"Geel!" he said. "That's one on me. I never thought of that!"—Houston Post.

Cooking For Him.

"May Pechis graduated from our cooking school last year and now—"  
"Yes, I know—she's taking a post-graduate course."  
"Not at all. I was going to tell you that she was married last week."  
"Yes, that's what I mean."—Philadelphia Press.

Two Hairs.

"I begin to realize," said young Mr. Kallow, "that I am no longer a mere youth now that I've got a little hair on my lip."  
"Yes," said Miss Knox, "and I suppose in a month or so you'll have another one."—Detroit Free Press.

One Great Advantage.

"Of what benefit to society will the discovery of the north pole be?"  
"Well," answered the scientist, "for one thing it may put a stop to the loss of life and property among the explorers who want to be the first there."—Washington Star.

## HAVE YOU SENT YOUR DOLLAR?

### TO REPUBLICANS:

We are anxious to have every Republican in close touch, and working in harmony with the Republican National Congressional Committee in favor of the election of a Republican Congress.

The Congressional campaign must be based on the administrative and legislative record of the party, and, that being so, Theodore Roosevelt's personality must be a central figure and his achievements a central thought in the campaign.

We desire to maintain the work of this campaign with popular subscriptions of One Dollar each from Republicans. To each subscriber we will send the Republican National Campaign Text Book and all documents issued by the Committee.

Help us achieve a great victory.

### THE BEAUTIFUL ESPANOLA VALLEY

Finest Possible Conditions for Fruit Raising—Abundance of Water.

The Espanola Valley of the Rio Grande beginning twenty miles north of Santa Fe and extending north twenty-five miles to Embudo is perhaps the greatest irrigated valley in New Mexico. No other valley has a better climate, soil, variety of products or more abundant supply of water for irrigation. The soil in this valley is free from alkali, cold, stormy winters or excessively hot summers; it is shut in by high mountains and as a fruit district the conditions are almost perfect. Thousands of acres lie uncultivated and eighty per cent of the waters of the great Rio Grande roll by unused. Home seekers are settling here rapidly and more are welcomed to help make this beautiful valley the best in the Rockies.

For further particulars in general, prices of bearing orchards, improved and unimproved lands, etc., address Roscoe C. Bonney, real estate and immigration agent, Espanola, New Mexico.

### SUMMER EXCURSION RATES.

By way of the Santa Fe Central, E. P. & S. W. and Rock Island system to points in Illinois, Kansas, Michigan, Minnesota, Missouri, Nebraska, South Dakota, North Dakota, Wisconsin, Wyoming and to Memphis, Tennessee. Dates of sale June 9th to 16th, July 1st to 10th, good for return passage until October 31st. On these excursions, rates to Chicago for round trip will be \$48.35. St. Louis \$43.35, Kansas City \$35.85. Memphis, Tenn., \$45.50. For further information, call on S. B. Grimshaw, general passenger agent.

What's at the Bon Ton? Best oysters in the city.

As a dressing for sores, bruises and burns, Chamberlain's Salve is all that can be desired. It is soothing and healing in its effect. Price 25 cents. For sale by all druggists.

The laxative effect of Chamberlain's Stomach and Liver Tablets is so agreeable and a natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion and biliousness. Price 25 cents. Samples free at any drug store.

## PERSONAL MENTION

Mrs. M. Regan, who manages a boarding house at Golden, is in town on business.

Colonel J. A. Wood, manager of the Gold Bullion Company, at Golden, looked after mining business while in the city today.

Miss Lucy Becker, daughter of John Becker, well known merchant of Bolen, is in the Duke City on a visit to Miss Susie Dobson.

Miss Clara Olsen, secretary in the executive office, returned Monday night to the city after a pleasant visit to friends in Albuquerque.

Ignacio Lopez of Las Vegas, deputy assessor of San Miguel County, after a visit here to his mother and other relatives has returned to the Meadow City.

Sergeant R. W. Lewis, of the New Mexico Mounted Police, who is stationed at Socorro, was in the city today on official business at headquarters.

Judge Henry L. Waido, solicitor of the Santa Fe Railway for New Mexico, has returned to Las Vegas, from a visit to his family in Kansas City, Missouri.

W. E. Gortner, court stenographer of the Fourth Judicial District, and wife, have returned to Las Vegas, from a visit to relatives and friends in Tohosh, Indiana.

Mr. and Mrs. Edgar Andrews, of Bonanza, were registered yesterday at the Normandie. Mr. Andrews is engaged in mining operations in the Bonanza district.

County Treasurer Eugenio Romero, of San Miguel County, went to Albuquerque last night and today attended the meeting of the Republican Territorial Central Committee in that town.

H. D. Winsor, rancher at Cowles, accompanied by his daughter, Miss Ruth Winsor, was a visitor today in the Capital. Miss Winsor has resumed her studies at Loretto Academy.

Frank A. Hubbell, who owns sheep ranches in western Socorro County, has recently returned to the Duke City. He has been attending to the dipping of his sheep. He reports everything in Socorro County looking fine.

District Attorney Alexander Read, whose home is in Tierra Amarilla, arrived in the city last evening and went to Albuquerque last night and was present at today's meeting of the Republican Territorial Central Committee of that town.

Dr. M. F. Desmarais, of Las Vegas, has purchased a ranch home containing 160 acres on the headwaters of the Mora River, on the Pecos Forest Reserve, which he will use for a summer home for himself and friends. Dr. Desmarais is well known here.

L. E. Curtright, of Las Vegas, a special officer in the employ of the Atchison, Topeka & Santa Fe Railway, arrived in the city last night and is a guest at the Hotel Claire. Mr. Curtright came here as a witness before the present term of the district court.

Frederick H. Pierce, of Las Vegas, president of the Agua Fria Company, and also at the head of the Agency and Investment Corporation, returned last night to his home in the Meadow City after attending a meeting of the Board of Penitentiary Commissioners of which he is the chairman.

Mrs. M. H. Byington, of Washington, D. C., arrived in the city last night to look after a case in which she is interested that comes up at the present term of the United States Court here. She was accompanied by Miss F. E. Gunson, of Broughton, England. The ladies are registered at the Palace Hotel.

J. S. Duncan, of Las Vegas, was in Albuquerque on Monday, where he met his son and daughter, who have been on a visit to the California coast. His son has entered the University of New Mexico and his daughter will soon leave for Denver where she will attend Wolfe Hall during the coming school year.

Richard Dunn, of Las Vegas, manager of the Mora Timber Company, was a business visitor today in the Capital. Mr. Dunn is one of the oldest lumber men in the southwest. The company of which he is the head had a contract for supplying the railroad ties and other timber for the Bolen

## The Signs of Heart Trouble

You can Surely Secure Heart Health and Strength through Dr. Shoop's Restorative.

Heart weakness which can be dealt with as all is nerve weakness. Just as your hand trembles when your nerves are weak, when your heart nerves are weak your heart flutters and palpitate. Other signs are shortness of breath after slight exercise, fainting spells; pain or tenderness about the heart caused by irregular heart action; choking sensation as if the heart was in the throat; uneasy sensation in the chest, showing that the heart isn't working right; usually the left side, but frequently the right, painful breathing; feeling as if one way to treat a weak heart is to bring back natural strength to the nerves. Can you imagine how any one else can be done? Dr. Shoop's Restorative will bring back the strength to the heart nerves always. There is nothing in this remedy to stimulate, nothing that leads to reaction. The strength that it gives is natural and permanent. It is just the same strength as Nature gives to those who are well. Dr. Shoop's Restorative (Tablets or Liquid) creates strength which extends over the whole inside nerve system—it overcomes the cause of the trouble as well as the result. Sold by FISCHER DRUG CO.

cut-off which is being built by the Atchison, Topeka & Santa Fe Railway.

Jose L. Lopez, of this city, who for the past few months, has been engaged in working his mining properties in the Golden district, is in town and will remain a few days with his family. He reports development work on the San Miguel mine progressing satisfactorily and that good tests of ores have been made for some weeks in a small stamp mill pertaining to the property.

Charles E. Dagnette, of Albuquerque, outing and employment agent of the southwestern Indians, returned to the city last evening from a trip to Taos, San Hedeonso, San Juan and other Indian pueblos in the northern part of New Mexico. He was accompanied by J. H. Kirkland, of Phoenix, Arizona. Mr. Dagnette's mission was to secure laborers among the Indians to work in the sugar beet fields of Colorado. Indian labor is in demand with the beet growers who find the average Indian a good worker. Mr. Dagnette left this forenoon over the Denver & Rio Grande Railway for Colorado points.

Miss Anna Marie Nellis, of Kansas City, arrived in the city today for a brief visit with friends here while en route home to Kansas City. She was a guest here some time ago at the Catron residence.

F. W. Spencer of Albuquerque, secretary of the New Mexico Sunday School Association, which will hold its sixth annual meeting beginning today, writes that he was unable to attend the gathering owing to pressure of business.

Mrs. John R. McFie and Miss Amelia McFie, wife and daughter of Judge McFie, returned home yesterday from Los Angeles after an absence of about six weeks. The trip was undertaken for the benefit of Miss Amelia's health and she comes back much improved.

New Mexican's Daily Short Story, published on page seven. Read it. Candelario Rael, a well known merchant and sheep raiser at Anton Chico, Guadalupe County, died in that town last Sunday. He was about sixty years of age.

Sulphur Springs "Sour" Water, a sure and speedy specific for all stomach and kidney trouble. Now for sale at the "The Club" in carbonated form. Ask your doctor.

Beginning with today's issue, a bright, well written short story each by an author of consequence in the short story world will appear daily. Do not overlook this feature.

Miss Amburg, a professional nurse from St. Joseph's hospital at Albuquerque, is in attendance at the bedside of Miss Marian MacQuarie. The patient is reported as improving.

The county commissioners of San Miguel County have let a contract for the construction of a concrete bridge across the Sapello River to the Topeka Bridge and Iron Company, of Topeka, Kansas, for the sum of \$2,500.

The Indian band rendered an excellent concert Monday night at the U. S. Indian Training School near the city, but only a few people were in attendance from the Capital. The

musicians were in fine fettle and their music was greatly enjoyed by those who attended.

The Atchison, Topeka & Santa Fe Railway has made a rate of \$3.45 for the round trip from this city to Albuquerque while the Territorial Fair is in progress in the Duke City. Thursday, September 19, has been designated as Santa Fe day, and if a large enough delegation can be secured a special train will be run on that day from the Capital.

Democratic primaries in the city and county precincts for the purpose of electing delegates to the Democratic County Convention next Saturday, will be held tomorrow evening in the different precincts in the city and county. Much interest is being taken in Democratic circles and the faithful are expected to turn out tomorrow night in goodly numbers.

Passenger train No. 7 of the Atchison, Topeka & Santa Fe Railway, was late again Monday night, and for the second time this week the Santa Fe branch train did not make connection with it at Lamby. The result is that passengers, and mail bound for this city were delayed from thirteen to fifteen hours. Today the branch train was an hour late on its first trip from the junction.

A divorce case of Mrs. Mary Whaley vs. Samuel W. Whaley, has been filed in the District Court for Rio Arriba County. The plaintiff is suing for a complete divorce on statutory grounds, and asks for the custody of their infant child, Kenneth. The couple were married at Chama, on January 29, 1905, by Justice of the Peace C. M. Marshall, and lived together at Victor, Colorado, up to April 9, 1905. Since their separation the wife has been making her home with her parents near Chama. The child was born about three weeks after the parents parted and is now with the mother. Whaley's present whereabouts are unknown but he is believed to be still at Victor. Attorney J. H. Crist, of Monero, has been engaged as counsel for Mrs. Whaley.

Santa Fe baseball fans will have the pleasure of witnessing two baseball games here next Sunday to make up for the one that was cancelled last Sunday. Manager W. H. Kerr, of the Santa Fe Central, who remained in Albuquerque to attend the meeting of the Republican Territorial Central Committee today, telephoned last night that he had made arrangements for the Albuquerque team to be here next Sunday. The Duke City club will be accompanied by a big crowd of rooters, and it is expected that the delegation from there and Antonio will be between five or six hundred strong. A crowd of about three hundred fans is expected on a special train from Antonio. The Albuquerque-Santa Fe game will be played first and is scheduled to be called at 1 o'clock. The Antonio-Santa Fe game will take place within ten or fifteen minutes after the first contest is finished. Both games ought to be good ones and well patronized. Isabel the new pitcher signed by the Santa Fe club is a brother of second baseman Isabel, of the Chicago Nationals.

It was different Monday. The Santa Fe boys turned the tables on the McIntosh Browns in the Labor Day baseball game at Albuquerque. The Capital City team won by the score of 11 to 5, having the Duke City nine whitewashed up to the seventh inning. Isabel, of Kansas City, a new pitcher signed a few days ago by the Santa Fean's, was in the box for them, and he held his opponents down to four scattered hits. The Browns pinned their faith in Gallegos but he was knocked out of the box in the third inning and Forsythe pitched the remainder of the game. The Albuquerque and Santa Fe teams have played seven games together this season and the locals have won four of the series. The Antonio club will play here next Sunday.

Monday evening a meeting of retail merchants was held in Adam's Hall for the purpose of considering the organization of a Retail Merchants' Protective Association in this city. Hon. Arthur Seligman of the Seligman Brothers Dry Goods Company, called the meeting to order and S. G. Cartwright was elected temporary chairman. A letter was read from B. O. Jaffe, of Albuquerque, of the Retail Merchants' Protective Association of that town, suggesting that a similar association be organized here and that a delegation be sent to Albuquerque during fair week for the purpose of organizing a Territorial Retail Dealers' Protective Association. The matter was discussed and it was decided not to proceed with the organization of such an association for the present, but to send seven delegates to Albuquerque for the purpose of investigating, and if deemed proper to unite in the formation of a territorial association. Thereafter action would be taken by the local retail merchants in the matter. The seven delegates will be named by Mr. Cartwright and will be announced shortly.

**SELECTIONS**  
ARCTIC EXPLORATION.  
The Advancing Expeditions to the North Pole.  
"With the expedition headed by Walter Wellman from Spitzbergen, that of Mylius Erichsen from Greenland and that of Mikkelson from Alaska, all advancing upon the pole this summer, interest in Peary, who went north last summer and thus has a year's start of them, is becoming greater," writes P. T. McGrath in the Chicago News from St. John's, N. E. "Peary went north from Newfoundland in July, 1905, in his splendid new steamer Roosevelt and hoped to be able to work his way up into the polar basin west of Greenland before navigation closed, a feat almost accomplished by Captain Hall in the Polar in 1871. An open season in the sea way there, which occurs occasionally, enables an extreme northing to be made, and if Peary were so favored he would be able to shorten by some hundreds of miles the distance he would have to cover on foot in advancing toward the pole itself. Peary's intentions were to send Eskimos south from his ship to Cape Sabine this summer with news of his progress. The Scotch whalers which left Dundee in May for Davis strait took letters for him in case their cruise carried them so far north. They were also authorized to take aboard and convey south any dispatches which might be lodged there from him.  
"Cape Sabine is, so to speak, the last accessible outpost in the north. In addition to the Scotch whalers, the Newfoundland sealer Adventure, which has been chartered by the dominion government for patrol service in Hudson bay and will proceed there in July, will also go to Cape Sabine and should reach there about the middle of August. Peary's friends have requested that the Adventure make a special search there for records from him, and as these are always deposited beneath a cairn in Liffboat cove, the scene of the Greeley tragedy in 1884, it is certain that any papers which may be sent south by him will be recovered and the fact probably communicated to the world from the Marconi station on Labrador. It is thus highly probable that toward the end of that month some news of him will be learned by the world.  
"It is barely possible that with extreme good fortune he may have forced his ship so far up that he has achieved his aim and got, if not to the pole itself, at any rate beyond the farthest point—50 degrees 33 minutes—reached by any previous explorer—the Duke of Abruzzi, who advanced that far in 1900. On the other hand, the prospect is that he may have to spend a second year there, working into the polar basin this summer and pushing poleward next winter and spring over the mighty floes which stretch to the apex of the globe. Peary's most formidable opponent will be Wellman, with his airship."

**Mishaps of an Automobile.**  
An English automobilist, C. S. Rolis, tells of the things that have happened to him: "I have burnt my boiler out three times on a steam car, I was once stuck in a deep flood and had to bail a punt, once had to be practically dug out of a bog, was once stuck for want of a match for over three hours with my burners out, the longest distance I have had to walk for petrol was in France—twelve miles; have three times had a passenger fall off a racing car moving at a fair speed without being killed, once had a horse and cart on top of me, in the Paris-Vienna race ran a tree at seventy miles an hour, twice been overturned, once had my head mashed in by a starting handle, have twice run away completely down hill forward and two or three times backward, once upon an apple cart in the Strand, and twice had my car burnt up."

**Now, Then, Who's Who?**  
In his speech at the Royal Academy's annual banquet Mr. Kipling said that every writer has hope, or has had hope, that through him a miracle with words would be wrought. "And why not? If a tinker in Bedford jail, if a pamphleteering shopkeeper pilloried in London, if a muzzy Scotsman, if a despised German Jew or a condemned French thief or an English admiral official with a taste for letters can be miraculously afflicted with the magic of the necessary words, why not any man at any time?" So Mr. Kipling. Now, then, young ladies and gentlemen, let us see how much you know about the famous writers. The tinker is easy, but who were the pamphleteering shopkeeper, the muzzy Scotsman and the rest?—Harper's Weekly.

**Mr. Morgan's Ivorys.**  
Little by little our most precious works of art are going to America, where they obtain a most magnificent reception. Among the latest acquisitions of the great transatlantic collector, Pierpont Morgan, who has not only the means of buying everything, but the taste to choose well, are some admirable ivorys of the middle ages from the splendid collection of Baron Albert Oppenheim of Cologne—Paris Figaro.

**Dresden's Dog Bath.**  
At Dresden a new bath for dogs has been opened for the convenience of busy people who have not the time to look after the cleanliness of their own pets. Dogs are left at the bath by men on their way to business, and during the day they are kept in kennels, cared for, given a wash and a good rub down, clipped if necessary and returned to their master when the day's work is done.

**REPORTS OF FIGHT AS HEARD HERE**  
Billy Smith, Ex-champion, One of Interested Listeners—His Comments.  
A large crowd of local sports gathered at the bar rooms in this city Monday, where reports of the big battle, by rounds were being received. Considerable money changed hands. The result of the fight was a disappointment, as all looked for a knockout from one or the other of the pugilists. As clever work on the part of either fighter was reported, the crowds cheered, according as they were betting. In one of the hotels, standing apart from the enthusiastic throng, gathered to hear the reports from the ring side was "Billy" Smith, now deputy United States marshal, but once champion middle weight of the United States, and the hero of many well fought battles in the ring, both at home and abroad. While apparently not greatly interested, the ex-champion, caught every word, as each report was read and paused to comment on each round, to a little group of friends gathered around him.  
"It's a good fight—a good fight," he said approvingly, as round after round pulled off without, anything to indicate who was to be the winner. "Those first rounds were sure tough," he added, as the reports told, of rough work on the part of both men. "I'd like to see that scrap—you bet."  
When the rounds mounted well up into the thirties some one remarked that it would soon be over.  
"Can't tell a thing about it," said the ex-fighter, trainer and referee. "Went fifty-two rounds myself once, and then the battle was called off because it was Sunday morning. We took it up, on Monday and I won in eight rounds. You can't always tell."  
"Round 46," yelled a man who was reading off the reports to the crowd. Smith listened attentively.  
"It's simply a case of who gets in the punch now," he said. "Both men are pretty well tired out. Gans can hit Nelson any old time he wants to—yet, he's got the science—but he hasn't got the punch now. He can't hit hard enough. He's saving himself—that's his second work. He's telling him to use his head. Next round will be all Nelson's way. That minute's rest is a big thing. I've seen the time, though, when it didn't seem like fifteen seconds to me. Gans has sprained his ankle? Can't tell about that. He may be shamming. I've gone groggy myself and then took a brace and landed a couple of good stiff ones when the other man thought he had me."  
"Forty second round—Gans wins on points," yelled the reader. "Shucks!" said the ex-champion. "It's a shame for a battle like that to end on a foul. Well they'll meet again. Both of 'em are tired out, too bad, too bad. I'm going to bed now."

**SSS THE GREATEST OF ALL TONICS**  
The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's remedy—PURELY VEGETABLE—and while it is restoring the lost appetite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste matters so that it can supply to the system the strength and nourishment it needs to keep it in perfect condition during the depressing summer months that are to follow.  
Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general run-down condition is the result.  
Then the body must have assistance—it must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does not disagreeably affect the system in any way as do most of the so-called tonics on the market, which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re-establishes the healthy circulation of the blood, stimulates the sluggish organs, and calms the unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find ourselves with as hearty, hungry an appetite in Spring as at any other season.  
It acts more promptly and gives better and more lasting results than any other remedy, and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debilitated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do not experiment, but get the best—the tonic with forty years of success behind it, and the one endorsed by the best people all over the country—**S. S. S., THE GREATEST OF ALL TONICS.** It is necessary at this time, when the system is depleted and weakened at every point, that the right remedy be used—one that is especially adapted to the condition, and S. S. S. has proved itself to be this remedy for many years. If it is taken at the first sign of Spring the system will be so built up and strengthened that the disagreeable affections of the season will not be felt as warmer weather comes on.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

**FEASTING IN TIBET.**  
Description of a Banquet in the Lama's Palace.  
A correspondent of the London Times who accompanied the grand lama of Tibet on his recent return to that country after an absence of some months thus describes the feasting in the lama's palace in honor of the occasion:  
"Proceedings began with what had all the appearance of a blessing, except that each person brought a prostration, which the lama touched and an attendant took possession of. The presents consisted of silver shoes worth about \$50, vessels of various precious metals, rolls of silk, cloth and similar articles. When all the gifts had been handed over the inevitable tea was brought in. The lama had a huge golden pot, studded with turquoise, all to himself. Attendants passed among the seated lamas and filled the wooden cups which the latter produced from the bosoms of their capacious robes. For us four there were a special teapot and Chinese bowls. But as for drinking, we knew better. We took a blow at the surface to slide the rancid butter off the top, made a sucking noise with our mouths and then handed back the cups, sufficiently nauseated, without drinking, by the smell of the tea alone. Next came the distribution of the fruit and sweetmeats, of which we received an ample share.  
"Then the great doors of the hall were thrown open and there poured in a horde of struggling humanity that rushed at great stacks of Tibetan bread—a crisp, brown substance, fried in butter and very palatable in a cold climate. The bread was on tables in broad piles six feet high. With desperate fury the poor of the city fell on this provision of the gods and crammed the brittle stacks into sacks and bosoms, punching their receptacles when full to make room for more. They fought like cannibals for the bread and stole from each other when they could. And all the while the lictors of the road were among them, lashing with their whips, prodding with their butts and striking with their fists. One man had two sacks, and, though beaten unmercifully, he continued until both were full and then retired under a rain of blows.  
"Next came a religious controversy between two monks. These hunched up their clothes, slapped their hands together, stamped their feet, looking for a verbal opening just as a pugilist looks for a chance to get in with his left. One represented Satan and the other some sacred personage, the discussion dealing with the birth of Buddha. Satan said Buddha was born with red trousers, after which satly he went into loud roars of laughter, which drowned the indignant reply of his opponent. The saint then declared that Satan had a tail, whereat every monk in the room laughed delightedly. And so the two kept it at for about half an hour. When Satan looked a winner all over the controversy was declared closed and the saint the victor—another injustice to the devil."

**Lava Plant Cured Cough.**  
"Professor Riggs, I see, advises people to chew lava as a panacea for all ills," remarked a Providence woman who travels widely. "I cannot vouch for the theory that lava would be a panacea for all ills, but I can vouch that it possesses a plant or shrub which grows very near or in the lava that has a curative property in it for a cough. A few years since, while returning from Vesuvius to our hotel in Naples, I was annoyed and afflicted with a constant cough which nothing seemed to relieve. The coachman, a native, in our employ, seeing the dilemma, stopped his carriage and, picking a few stems from the shrub, gave it to me as a sure remedy for my cough. It certainly did prove a panacea and worked like magic. Perhaps this same plant, grown by the lava, may possess some of the constituents that Professor Riggs claims for the lava. The hated lava may yet become a friend of the physician and a benefit to the human race."—Providence Journal.

**The Demand For Aluminum.**  
There is a great scarcity of aluminum in the world today. The reason given is that the automobile manufacturers use this metal in the machinery of the cars, thus increasing the amount used far more than any other single industry. The supply of aluminum comes from only four sources in the world; hence the amount is limited to a very great extent. The chief of these sources is represented by the Pittsburgh Reduction Company at Niagara Falls. In Great Britain there is the British Aluminum Company, whose plant is at the Falls of Foyers, and on the continent of Europe there are the Neuhausen works in Switzerland and works in Germany.

**FACTS FROM FRANCE.**  
Esperanto is to be taught to the cadets at the French military college of St. Cyr.  
In consequence of the increasing abuse of opium its sale in France harbor cities has been forbidden.  
A boy of twelve in the custody of the Paris police told them that it is their business to find out his name and address.  
The French people are the greatest consumers of cheap wine in the world. It is used more generally than milk in the United States. Even the little children drink it. The public schools give it to the pupils. The servants insist on the daily allowance for wine.  
Yellow spectacles for weak eyes were recommended by Dr. Motals in a paper he read before the Academy of Medicine at Paris. The doctor declares that yellow is very soothing to weak eyes and that for fifteen years he has prescribed glasses of this color with excellent results.

## On the Turn of a Hair

By GRACE MACGOWAN COOKE  
Copyright, 1906, by Ruby Douglas

"Suffering Moses! Hochaska, it's heads I win, tails you lose, playin' poker with you these days. I rung in five jacks on you that hand an' you never turned a hair. What's up?"

The cowboy pushed back and regarded his silent companion quizzically.

The Indian glanced over his shoulder, laid a fine, slender hand upon the table and, leaning forward, whispered: "Burnt Bear runs his spotted pony in the races next week."

The cowboy nodded, stooping to tighten a spur leather.

"Keep your long green, pard," he said, with bent head. "I was just a foolin' them last three games. Well? The old chief runs his spotted pony in the races—and the gal is up here turnin' Hochaska's heart to water—is that the how of it?"

Again the Indian looked over his shoulder before he nodded.

"He has her up at the agency," he burst out fervently. "You know Mallock! It was Mallock before. What chance has a decent Indian girl as pretty as Ally with a father like she's got—and that beast around?"

"Hochaska," began the cowboy, "you're a fool—hold on! Don't you get gay, now! They whooped you off to the effete east and pumped good learnin' into you till you've got books whipped to a standstill and you can doctor a sick horse to beat any man between the Pecos and the Mississippi—but common sense you're short on."

"The reason's plain 'nough, pardner. The old man's out after the coin. You've got to bid up. You're sure a good looker and you're a plumb gentleman, Hochaska—jest the son-in-law I'd make a grab at if I was a Sioux chief with a pretty daughter to marry off."

"I have offered him all I have—and a mortgage on my future. Nothing will do."

"Somebody else is biddin' higher," reiterated the cowboy. "Or he thinks they will."

"Ally would come to me," said the Indian desperately. "It is not as it was before. Mallock's wife was living then. He may hold out hopes of a marriage to Burnt Bear."

The cowboy was up and ready to depart now. "If that there spotted pony should go lame, Chaska," he remarked, "they ain't a man but you that could doctor it—and the race couln' on next week. If such should happen I reckon you could name your price."

An eager fire leaped into the Indian's somber eyes. "I could," he answered. "But no such thing will happen. Burnt Bear sleeps with the pony's stake rope to his wrist."

"Don't you be too sure," remonstrated the cowboy. "I've got money up on that cayuse, an' I'm mighty uneasy that he's about to get some sort o' complaint in his right hind foot. The old man knows I'm bettin' heavy on his hawsefesh an' him an' me is great pals—we're thicker'n thieves. So long, Chaska."

He stepped to the front of the blacksmith shop, swung into the saddle and disappeared.

All day long the young Indian served his customers and attended to his usual duties with an air of preoccupation. He guessed what simple trick his cow puncher friend had in mind. If the game went through successfully, would the father pay the price?

Crowds were gathering for next week's races and business was brisk. For this scientific blacksmith and veterinarian of their own race who had learned his trade among the white men was a prime favorite.

The forge fire had died down to a smoldering red eye and the young blacksmith sat half asleep before his door when a stealthy sound from the steep slope behind his cabin roused him. It differed not at all from a hundred other small night sounds which had preceded it, yet he was suddenly broad awake and listening. It came again. He sprang to his feet. Once more—and he was walking rapidly toward the precipitous path which led up to his spring.

Within ten paces of the bushes which concealed it he halted. Out of those bushes soundlessly moved the shadowy form of a man leading a pony.

"How do?" said the newcomer, and Hochaska recognized the voice of Burnt Bear.

In the tongue which was common to them both the old chief stated, with the frankness of despair, that the spotted pony had gone suddenly lame.

"I have watched him as though he were my child," he declared. "And now tonight I find his right hind foot lame. Have you a quick cure? I care not if in the end it kills the pony, so that he be not lame when the race is run, for if he does not win this race I, Burnt Bear, must walk back to our people stripped and destitute."

The young smith drew up and folded his arms. He saw that something melodramatic was expected of him. He was to play the big medicine man. If Billy had only done his part and not overdone it and this lameness were not actual he could carry out the trick.

"I have," he said. "I have a bottle of medicine so strong and valuable that I have never used it upon the ponies of these common Indians nor even on the horses of the white men. Whatever I lamed your spotted pony, this medicine will cure him. But I must have my price."

"Cure first, pay after," said the old Indian sententiously.

### A Sea Lullaby.

THE little mermaids are blinking their eyes.  
The catfish is purring away.  
The moonfish is slowly beginning to rise  
And the dogfish commencing to bay.  
The starfishes twinkle far down in the deep.  
The sea horse has gone to his stall.  
So sleep you, my baby; oh, slumber and sleep.  
For drowsiness covers us all.

Oh, down in the sea all the shadows now creep.  
And the shadowy shad will supply us with more.  
And the drumfish is muffled in dream drumming deep.  
And the oyster reclines on his oyster-moor.

The sea cow is mooing out over the bars.  
The whale has been whaling its child.  
For asking the garfish to smoke some cigars.  
And waxing the seal till 'twas stiff.  
The porpoise is poisoning itself for a drift.  
The skate is up north on the ice.  
So sleep you, my baby, while wavelets will lift.  
Your cradle in swaying no nice.

Oh, down in the sea all the haddock have had.  
With the herring a hair raising romp on the floor.  
And they sleep in the shade of the shadowy shad.  
While the oyster reclines on his oyster-moor!

—Wilbur D. Nesbit in Judge.

At the Zoo.

Mrs. Farley (pointing to the giraffe at the zoological gardens)—Oh, just look! What animal is that?  
Mr. Farley—What? That is an ostrich.  
Mrs. Farley—An ostrich! Then where are its feathers?  
Mr. Farley (contemptuously)—Don't betray your ignorance, Maria. Don't you know that ostriches molt at this time of the year?

Sticking to Etiquette.  
"At last we shall have a chance," said Mrs. Newcomb, "to get acquainted with the Snipeleggs."  
"How?" asked her husband. "Has she finally seen fit to call on you?"  
"No, but they're going to build a new and bigger house across the street from the one they occupy now, and when they go there to live I can call because etiquette gives the ones that live anywhere the right to call first on others that just move in, you know."—Town and Country.

Wisdom.  
"You say you have confidence in the wisdom of that statesman?"  
"Yes."  
"It's my opinion that he holds dangerous views, but refrains from expressing them."  
"It is in not expressing them that he shows his wisdom."—Washington Star.

A Lottery.  
Dr. Phaker—Take this prescription: It will either kill or cure you.  
Patient—But suppose it kills me?  
Doctor Phaker—Nothing ventured, nothing gained. My motto is, "No cure, no pay," so I'm taking a chance as well as you.—New Orleans Times-Democrat.

A Fantasy Floored.  
Scribes—I'm getting up a fetching article on "How Men Carry Their Umbrellas."  
Mrs. Scribbles—Huh! Men don't carry their umbrellas; they lose their umbrellas and borrow other people's.—Chicago Record-Herald.

She Knew Him.  
He—Have you nothing to say to me, now that I am leaving you forever?  
She—No reply.

band in his own pocket prepared to do a like service at the time he discovered Mallock playing the trick ahead of him.  
"Here's your pony lamer, Burnt Bear—take him." And with a sudden unexpected jerk the cowboy flung Mallock almost into Burnt Bear's arms.  
"Bless you, my children," he concluded, turning to Hochaska and the girl. "I'll skip down to Casey's and take some good bread on the pony. Mallock has done spread the news that Nine Spot's gone dead lame, and we stand to make good money if it don't get out too soon that Hochaska has cured him."

### Jane's Caution.

"Jane is so suspicious."  
"What has Jane done now?"  
"She thinks the postmaster invariably reads all her letters, so she puts 'Personal' and 'Private' on each one of them."—New Orleans Times-Democrat.

### Conclusive Evidence.

"My husband says he is not afraid of horses," said the visitor.  
"How fortunate!" answered young Mrs. Torkins. "That shows that he doesn't play them."

### A Lover's Scheme.

London had recently a novelty in a breach of promise suit or at any rate in the evidence introduced. The young people, having arranged to get married exactly 110 weeks from their engagement, kept tally of the time by threading 110 squares of cardboard on a piece of string and taking one off and throwing it away every Sunday evening. This is a decided improvement upon the schoolboy's plan of the number of days to the holidays, with one day crossed out every night. Incidentally it may help the assessment of damages if a breach results. In this instance ninety-nine squares had been removed when all was over, and \$625 was claimed and awarded.

### Cooking With Crude Oil.

One of the finest hotels on the Pacific coast is cooking by means of thick crude oil which is burned with the aid of superheated steam. The burners were placed in the hard coal ranges previously in use and also in twelve large ovens. The oil has been used for three months past, says the Hotel World, with mighty satisfactory results and at a saving over coal which will amount to \$5,000 a year.

### Patents in Canada.

During the first year of a patent granted in Canada the patentee may import the article into the Dominion ready made. Within two years he must either begin the manufacture of his device in Canada or arrange that Canadian importers may bring in the article on terms as advantageous as though it were made there.

### Karache.

In case of karache do not put anything into the ear except by direction of a physician. The best way to relieve karache is to heat an iron or brick, wrap it in two or three thicknesses of flannel, pour warm water on the top, when steam will at once rise. If the ear is placed close to the flannel the steam will permeate every part of it.

### No Reason to Complain.

"I should think," he said to the man who was engaged to one of the twins, "that it would be dreadfully annoying. They look so much alike I don't see how you can avoid making mistakes."  
"My dear sir," was the reply, "that doesn't trouble me in the least. I don't want to avoid it. Are you so prosaic that you can't appreciate the advantage of getting a double allowance of bliss?"—Chicago Post.

### Hard to Collect.

Ascum—Whatever became of that queer patient you were telling me about last spring?  
Dr. Price—Oh, he's got a great deal of trouble.  
Ascum—Indeed! What is it?  
Dr. Price—Why, a complaint about the amount of my bill.—Philadelphia Press.

### How She Got Out of It.

"Didn't I hear that young Spooner kissing you on the porch last night?" asked her mother.  
"Certainly not," she replied.  
"Are you sure?"  
"Positive." Then, as she saw that the ordeal was over, she added to herself with a sigh of relief, "It was on the lips."—Chicago Post.

## CONCORD GRAPES.

Iowa concords are now in market. We are selling for the present at 50c per basket.

## CANTALOUPE.

Nice rich, sweet cants in plentiful supply, at 5c and 8 1/2c each.

## PEACHES.

Small size peaches at 60 cents per twenty pound box, up to \$1.25 for fancy yellow stock.

## VEGETABLES.

Large size egg plant, each 10c. Slice them, soak in salted water and fry in butter like oysters. Sweet potatoes, per pound 10c. Tomatoes, per basket, 30 cents.

## APPLES.

We have apples that are nice and clean and smooth almost entirely free from worms. Per pound, 5c; per box, \$1.50.

## CANNED CREAM.

For some reason the trade on canned cream has grown very large the past year or two. Many say the quality is the reason, others claim the canned article is more convenient and economical. We can especially recommend the following brands as being very fine: Pet, in three sizes, 5, 10, and 12 1/2 cents. Carnation in the large 20 ounce cans, only 12 1/2 cents.

## MUSHROOMS.

We carry mushrooms in several sizes and grades. The best in one pound tins, 35 cents. They are perfect in size, shape and color. Small cans, one quarter pound, 15 cents. Second quality, not perfect in color, and a little irregular in size, one pound tins, 30 cents. Third quality, pieces and stems, one pound tins, 25 cents. Third quality, in one half pound tins, 15c.

## MEAT MARKET.

We are now receiving on each Friday, a limited quantity of fresh oysters. Also a nice assortment of fancy fish, both eastern and California. The price ranges from 15c to 20c. We receive at our market several times per week, a fine lot of corn fed beef, pork and mutton. This meat is something that it will give you pleasure to see and to eat.

## SPICES.

Most spice that is sold is of inferior quality. There is little produced that is good enough to put under the "Fernell" label. Perhaps you do not wish to use twice as much spice as you do now. If you are getting the ordinary kind, a change to "Fernell" will double your pleasure, and probably increase your use of these condiments. We have all sorts in cans at 10 cents per can, except cinnamon, the cinnamon we are compelled to get in 15 cent cans. Mixed pickling spice in bulk, four ounces for 10 cents.

## U. S. COURT IN SESSION

Indian Gets Thirty Days for Carrying Liquor to Reservation—Other Cases Taken Up.

The United States Court for the First Judicial District of New Mexico, which is now in session in Santa Fe, reconvened at the court house this morning at 9 o'clock, Judge John R. McFie presiding. A. M. Bergere clerk of the court, was at his post. The United States was represented by Assistant United States Attorney David J. Leahy. Deputy United States Marshals W. R. Forbes, H. F. Bogh, and "Billy" Smith were in attendance. In the case of Lorenzo Trujillo, a San Juan Indian, who was arrested for carrying liquor unlawfully into the Jicarilla reservation, the defendant pleaded guilty to the offense as charged. He admitted having taken whiskey into the reservation with the intention of selling it, but denied that any of it had been disposed of in this way. He was sentenced to thirty days in the United States jail and to pay a fine of \$1 and costs. Another San Juan Indian was taken into custody for the same offense, and his case will be tried later on. A warrant was issued for a third Indian but this last one escaped into Colorado.

Demurrers were argued in the two cases against Jose R. Lucero, charged with making a fraudulent affidavit in a pension claim. Judge McFie overruled in one of the cases and has taken the other under advisement. The case against Jose M. Medina, who is charged with making false jurat was set for hearing this afternoon at 2 o'clock. A demurrer to the indictment returned was filed but it was overruled by the court.

In the cases of the United States vs. Maximiliano Tafaya and Cruz Pacheco, United States vs. Ignacio Martinez and Sabina Sanchez, and the United States vs. Juan Olivas and Virginia Benavidez, alias Brown, alias White, the defendants waived formal arraignment and entered pleas of not guilty. They are all charged with violations of the Edmunds act.

On the United States petit jury venire H. B. Cartwright of this city, and D. W. Tice of San Juan, were excused by the court from further attendance. Deputy United States Marshal W. R. Forbes under the law called in open court Santiago C. de Baca and Eusebio Escudero to fill the vacancies.

The Territorial Grand Jury continued its work today in spite of the fact that Judge A. J. Abbott declined to continue in his capacity as assistant district attorney, when notified of the enforced resignation of his son; District Attorney E. C. Abbott, who is

now at Seagirt, New Jersey. Robert C. Gortner, the newly appointed district attorney, will probably qualify tomorrow. Ireneo L. Chavez was appointed yesterday afternoon by Judge McFie as interpreter for the Territorial Grand Jury.

## Personal Mention.

(Continued from Page Four)

Miss Ada Nussbaum, of Las Vegas, is spending a couple of days in Santa Fe.

County Commissioner A. L. Kendall, of Cerrillos, was in the city today attending a special meeting of the board.

Ex-Governor L. Bradford Prince returned yesterday from Los Lunas, where he went on legal business, and left today for his ranch near Espanola.

B. F. Morris, merchant and postmaster at Santa Cruz, is in the city as a witness before the United States Grand Jury, and while here is a guest at the home of Leo Hersch.

Leo Hersch and little daughter, Josephine, have returned after a sojourn of three weeks at Pagosa Springs. Mr. Hersch went there to recuperate after his recent illness, and comes back feeling as chipper as ever.

Hon. Jose Ines Roybal, of Nambé, a member of the Board of County Commissioners, attended the special meeting here this afternoon which was held for the purpose of naming the boards of registration, and judges and boards of registration, of the fall election.

## Minor City Topics.

(Continued from Page Five.)

A marriage license was issued today by Probate Clerk Marcos Castillo to Miss Sofia Nieto, of Golden, aged 18 years, and Vicente Gutierrez, of San Pedro, aged 22 years.

Apolonio A. Sana, deputy county clerk of San Miguel County, is announced as a candidate for probate clerk at the coming election on the Republican ticket. Mr. Sana is well known in this city.

The brick walk leading from the street to the main entrance of the high school building has been completed. The pavement describes a semi-circle and in laying it a part of the trunk of one of the trees which was in the way was cut.

Deputy United States Marshal "Billy" Smith, of Albuquerque, who is attending the United States court here, is in receipt of a personal letter from President Roosevelt. The erstwhile pugilist has known the President ever since the latter was police commissioner in New York City and at which time "Billy" was connected with the New York Athletic Club. They frequently sparred together in those days.

The Democratic primaries in the city precincts tomorrow evening at 7:30 will be held as follows: Precinct No. 3, at the house of Simon Vigil; Precinct No. 4, at Trinity Hall; Precinct No. 17, at the store of Manuel Apodaca, and Precinct No. 18, at the house of Mrs. Julianita Vigil de Chavez. All Democrats, residents of the city precincts who can spare the time, are requested to attend and take part in the election of delegates to the county convention.

"Toting guns" is against the law. Bentura Baros of Galisteo, found this out yesterday afternoon when he was arrested here by Mounted Officer John W. Collier. Charged with carrying a concealed weapon Baros was arraigned this morning in the court of Justice of the Peace Jose Ma. Garcia. He was bound over in the sum of \$500 to await the action of the next Territorial grand jury. The six shooter which he carried, in the meantime, remains in the custody of the justice.

## SUNDAY SCHOOL ASSOCIATION

For New Mexico in Session at Santa Fe Today—Prominent Speakers on Program.

The sixth annual convention of the New Mexico Sunday School Association met this afternoon for a two days' session in Santa Fe. The Presbyterian Church is the scene of the gathering and the meeting will be in progress until tomorrow evening.

Professor William E. Harrison delivered the address of welcome which was responded to by C. Herbert Appleton of Albuquerque. A reception will be held after the session tonight at which light refreshments will be served. The general public is extended a cordial invitation to attend any and all of the sessions. A feature of the convention this year is addresses by Mrs. Mary Foster Bryner of Peoria, Illinois, a field worker of the International Sunday School Association. Mrs. Bryner is perfectly at home in the pulpit or on the rostrum. She is an eloquent speaker and her addresses are very interesting. She spoke this afternoon on the "Spokes of the Sunday School Wheel." She will deliver another address this evening on "The Successful Teacher," and tomorrow afternoon is on the program to tell of "Practical Plans for New Mexico." Judge John R. McFie, who is president of the organization in New Mexico, will deliver his annual address at the session this evening. Allan McCord is leading the praise service, and the program is supplemented with musical numbers.

## DELEGATE ANDREWS SELLS RESIDENCE AND CATTLE.

A Hillsboro dispatch says that Delegate William H. Andrews has sold his entire herd of cattle and a number of his horses to Joseph Richardson and Henry Oppenorth. It is also reported that United States Attorney W. H. Llewellyn has purchased the remainder of the horses and the residence of Mr. Andrews.

## TWO INDICTED FOR MURDER

Special to the New Mexican.

Albuquerque, Sept. 5.—In the district court for Valencia County at Los Lunas, the county seat, Victor Telles and Malcolm Smith were Monday indicted for murder by the grand jury. Telles and Smith are charged with the murder of a Russian named Peter Slocum at Camp 5 of the American Lumber Company in the Zuni Mountains not far from Ketter.

Ranger W. E. Duley of the New Mexico Mounted Police, did good work in arresting the criminals. The victim at the hands of the two murderers was found face downward in a hay stack with his head fearfully crushed by heavy blows from a blunt instrument. Telles and Smith were arrested on circumstantial evidence and finally the former confessed that he took part in the murder. It is believed that Slocum was killed while he was asleep. He was also robbed at the time. Delay in investigating the matter of the way Slocum met his death was broken by a complaint made by the Russian government. The regular September term of the district court for Valencia County convened Monday morning at Los Lunas with Judge Ira A. Abbott presiding. The court quickly empaneled the grand jury and appointed Miguel Chavez of Jarales as foreman. The only true bills so far returned by the jury is the one against Telles and Smith. Deputy Clerk Harry Owen and Interpreter Nestor Montoya will return later. Upon their arrival at Los Lunas the petit jury will be empaneled and the trial of jury cases will commence.

The following notaries public have been appointed by Governor Herbert J. Hagerman:

Charles H. Sims, Elida, Roosevelt County; James A. Hall, Carlisbad, Eddy County; Carlos M. Pierce, Narva, Union County; Anselmo Gonzales, Sanchez, San Miguel County.

Report Says Judge Pendleton Removed.

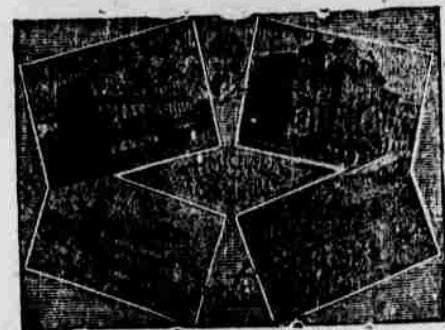

It was stated this forenoon that Governor Hagerman has removed Judge Granville Pendleton of Aztec, San Juan County, as a member of the Territorial Bureau of Immigration and had appointed ex-Governor L. Bradford Prince of Santa Fe, to fill the vacancy caused by the removal. This afternoon no official confirmation of this report had been filed at the office of the Territorial Secretary.

Indian School Teachers.

Mrs. Kerns, of Omaha, Nebraska, who was recently appointed assistant to the teacher at the Zia Pueblo day school, and who was injured in a railroad wreck at Wray, on the Chicago Burlington and Pacific Railroad, in Colorado, while en route to this Territory, is now in a Denver hospital, but is rapidly recovering from her injuries. As soon as she is able to travel she will come to this city and report to Superintendent Clinton J. Crandall, at the U. S. Indian Training school here, for duty. Mrs. Richards, who is the teacher at the Zia Pueblo day school, and who was also injured in the wreck at Wray in which Mrs. Kerns received injuries, left Denver on the 2nd instant, and has presumably arrived at the Zia Pueblo and taken charge of her duties.

## INSTANCES OF PUBLIC SENTIMENT

Opinions From Las Vegas Citizens on Penitentiary Report.

Las Vegas, Sept. 4.—The opinion thus far expressed in Las Vegas, as called forth by the penitentiary report seems to be that H. O. Bursum is innocent of any intentional wrongdoing in his administration of penitentiary affairs.

F. H. Pierce, president of the Board of Penitentiary Commissioners says that every apparent irregularity except possibly discrepancies of three or four hundred dollars, will be explained. Mr. Pierce thinks it not strange that in handling a half million dollars in small accounts, slight irregularities could be found.

Regarding the \$5,000 for which no vouchers were found, Mr. Pierce says that the board has not required a separate voucher for every small account of incidental expense, but drew a warrant for three or four hundred dollars at a time.

Mr. Pierce will insist on an investigation that will probe the whole matter to the bottom, but which will allow both sides to be heard.

Las Vegas friends of Mr. Bursum express confidence in his ability to explain the matters set forth in the report.

Judge H. L. Waldo says: "No one but a fool would suspect H. O. Bursum of being a petty thief."

Eugenio Romero says: "I believe Bursum entirely innocent and I will stand by him to the last ditch, and if necessary, go into the ditch with him."

S. B. Davis, district attorney, says: "I have examined every item of the export and I believe all can be explained."

Jefferson Reynolds expressed the belief that Bursum is innocent.

Hon. W. A. Hawkins Explains.

Said a Santa Fe attorney to a New Mexican reporter today:

"At Clondorff, during the sessions of the New Mexico Bar Association, Hon. W. A. Hawkins, of Alamogordo, spoke with pride of the transaction between the trustees of the New Mexico Blind Asylum and the New Mexico Penitentiary, by which the Territory was saved many hundred dollars.

"In fact," said Mr. Hawkins, "it is by deals of this kind that we put up a building worth \$40,000 for a little over \$20,000, certainly, a great saving to the Territory and for which the Board of Trustees and the Territorial Penitentiary deserve great credit. The penitentiary not only furnished the brick at cost but we also furnished coal at cost for the burning of the brick and in exchange for the brick, also getting the railroad companies to haul the coal from Dawson to Santa Fe at bare cost."

"And yet, the expert, who made the recent report upon the financial management of the Territorial penitentiary during the past seven years, charges up the bill for the brick for the Territorial Blind Asylum to Mr. Bursum, although he had been fully informed of the nature of the transaction which saved the Territory, and that means the taxpayers, so large a sum of money."

Mr. Pierce in Santa Fe.

F. H. Pierce, of Las Vegas, president of the Board of Penitentiary Commissioners, who was in Santa Fe yesterday informed a representative of the New Mexican that he was certain that every item in the alleged expert's report derogatory to the administration of the penitentiary under Superintendent Bursum and charging malfeasance or misfeasance in office or worse, would be fully explained and shown to the satisfaction of all fair minded men to be untenable and not borne out by the facts and the records. As president of the board he favors a speedy and complete investigation in order to do justice to all concerned. He knows by personal experience that penitentiary affairs under Mr. Bursum have been conducted in the cleanest and most efficient manner and made no hesitancy in saying no.
