## LAND OPEN TO MINERAL ENTRY

### Navaho Reservation at Last Available

### INDIANS GET ROYALTIES

### Something About This Interesting and Self-Supporting Tribe.

A treaty has just been signed with the Navaho Indians through the efforts of a special agent of the Indian office whereby their reservation in the northwestern part of New Mexico will be thrown open to mineral entry. In consequence there will probably be a rush of prospectors to the mine deposits in the Cariso Mountains which are located about sixty miles west of Farmington.

According to the reported stipulations of the treaty the mineral entries will be confined to gold, petroleum and natural gas and the Indians will receive a certain percentage of the proceeds in the form of royalties. The Cariso Mountains are said to be rich in gold deposits which have been jealously guarded heretofore by the Indians who were chary of invasion by the palefaces. There is a story that several prospectors in years gone by went into the Cariso Mountains and were carrying off gold nuggets by the can full when waylaid and killed by the Indians.

The Navajo Indians as a tribe are quite civilized and yet they have no tribal organization. When the present treaty negotiations were begun eleven of the best educated and representative Indians were selected to act for the tribe. The advantages to be derived from having the resources of the reservation developed were pointed out to the Indians and they finally consented to allow the filing of mineral entries under the laws laid down by Uncle Sam.

Indians Are Industrious and Wealthy. Navajo Indians are for the most part industrious and self-supporting. They are the only tribe which the government has not supplied with rations and other necessities of life such as are granted to other Indians, and it is probably the best thing that could have happened to them. Many of them are engaged in ranching and stock raising and have large herds of cattle and sheep. Some of the more thrifty have amassed fortunes well up into the thousands of dollars and live in substantial houses and "hogans."

Navajo blankets which find a ready market and have brought the tribe into prominence in the commercial world are woven by the women and the work is done entirely by hand. Practically all of the wool from which the yarn is made is sheared from native sheep and the fleece spun on the reservation.

The Navajos are also silversmiths of no mean ability and their silver trinkets and kindred wares are as eagerly sought by curio dealers as the justly famed blankets. The Swastika design which eastern manufacturing jewelers are now using so extensively is distinctive of the Navajos and is supposed to be an emblem of good luck. It appears on nearly all of the blankets and many articles made by them and the manufacture of which has grown into a profitable industry. Silver coins are used almost exclusively in the making of the silver ornaments and trinkets. They are hammered out in stone dies and shaped. Mexican money is pressed into service for this purpose.

How Missionary Secured a Convert. Attorney A. M. Edwards, of Farmington, who has been in the city several days on legal business, has visited the Navajo reservation a number of times and he says that within its borders are some of the richest agricultural land in New Mexico. Mr. Edwards tells an interesting little story showing the shrewdness of the Navajos.

"Missionaries have been trying for years to convert them without success. A Baptist missionary of my acquaintance lived among them for two years and during that time had only one convert to his credit. He would not have converted even that one if it wasn't that the Indian saw a chance to profit by professing conversion to the Baptist faith.

"The Indian had learned that the minister was going to locate at a certain settlement and intended buying a home. The Indian happened to have some land there and became converted with the result that the unsuspecting missionary purchased the property from him."

The Original Stamping Ground.

The Navajo reservation covers a wide area, a great deal of it being in New Mexico. It takes in the entire western half of San Juan County and

## STOCK MARKET STILL UNSETTLED

Excitement and Confusion Continues to Prevail—Bears May Have Overdone Matters.

New York, March 26.—Wild excitement and extreme confusion prevailed on the stock market again today. The action of the market showed the conflicting emotions of the operators as between the dread of the disastrous influence upon the market in the fall of prices yesterday and the nervous apprehension of the bears lest they had overdone their reckless selling.

Breaks Were Confused. The fright of the bears overbore the current of the market in the course of the first hour when some further wide breaks to far below yesterday's lowest were confusedly mixed with several violent advances. Different stocks in the same group moved widely, but in contrary directions at first.

A generally upward tendency clearly developed but the fluctuations were wide and feverish, the variations between sales running to large fractions of full figures both upward and downward.

London Market Holding Up. Uneasiness of the bears was heightened by the continual cheerfulness of the advices today from abroad. Much confidence was professed that the London stock market settlement would be concluded without serious casualties, although several additional small failures were reported from there today.

## NATIONAL BANKS MADE DEPOSITORIES

For Customs Receipts—Secretary of Treasury Modifies Recent Instructions.

Washington, March 26.—Under instructions recently issued by the secretary of the treasury, all collectors of customs throughout the country were directed to deposit their customs receipts in regular depositories. This, however, did not embrace the so-called sub-treasury cities.

These instructions were today enlarged by the secretary of the treasury so that public depositories with National Banks, depositories in any city will at once be increased about \$15,000,000 from the customs receipts under the provisions of the act of March 4, 1907.

This action is taken with a view to facilitating the redemption of 4 per cent government bonds of 1907 and also to render available additional money for use in the usual disbursements occurring April 1.

a big slice of McKinley County in this Territory. This region has been the stamping ground of the Navajos long before the westward march of civilization.

## TO EXAMINE THAW AS TO HIS SANITY

### Justice Fitzgerald Appoints Lunacy Commission

### COULD NOT BE WORSE

### For Defendant Says His Counsel—His Wife Breaks Down.

New York, March 26.—Justice Fitzgerald today decided to appoint a Commission of Lunacy in the Thaw case. The commission appointed by Justice Fitzgerald will decide the question as to whether Thaw is now sane. The trial before the jury for murder will be interrupted pending a report of this commission. If the commission reports him to be sane, the trial will be resumed, otherwise, he will be sent to the asylum, probably that at Mateawan, for the criminally insane.

Court Was Confused. Justice Fitzgeralds decision to appoint a lunacy commission followed a conference with the attorneys in the case this morning. The justice told the counsel that he had given the various affidavits careful consideration but that they were so widely at variance that he could not properly pass upon them. Therefore he thought it would be best to submit the entire matter to a commission of insanity experts.

Dark for Thaw. As Thaw's counsel left the room one of them said:

"It could not be worse."

Evelyn Thaw was weeping as she left the court room to go to the Tombs prison.

Mrs. Thaw had nerved herself for the ordeal of the announcement to her husband, but he greeted her with condolence.

"Never mind dearie," he said, "it will be all right. I am sane now, just as sane as the judge is, and any fair-minded commission will declare me so."

Three Compose Commission. The commission is composed of Morgan G. O'Brien, former justice of the Supreme Court; Peter B. Olney, a lawyer, and Dr. Leopold Pulzell.

## TRAINMEN HOLDING FINAL CONFERENCE

### Regarding Demand for More Pay and Shorter Hours

### IN FAVOR OF STRIKING

### If Railroads Do Not Accede --Both Sides Confident of Victory.

Chicago, Ill., March 26.—The joint meeting of the managers of the western railroads and representatives of the Brotherhood of Railway Trainmen and the Order of Railway Conductors began here today with what promises to be the final conference regarding the demands for an increase of pay and a working day of nine hours by the trainmen.

Trainmen Vote to Strike. For several weeks the men belonging to these organizations have been voting on the question of striking if their demands were not granted and although the vote was not announced today, prior to the commencement of the conference, it is understood to be overwhelmingly in favor of a strike if such step became necessary.

Offer Ten Percent Raise.

The general managers have informed the trainmen that they are prepared to offer a 10 per cent increase, but that they cannot grant the nine hour day. Before the meeting today both sides expressed the determination not to give way in any particular and both seemed confident that the other side would give way. It is expected that the conference will last several days and the definite outcome is now looked for by the end of the week.

## GONZALES GUILTY OF SIMPLE ASSAULT

Verdict of Jury in Case Against Ex-Policeman—Other Court News.

The First Judicial Court for Santa Fe county was in session today. Judge John R. McFie presiding and Clerk A. M. Bergere at his desk. The Territory was represented by District Attorney R. C. Gortner and Assistant District Attorney C. C. Catron.

In the case of the Territory vs. Manuel Gonzales a verdict of guilty of assault and battery was returned by the jury last evening at 5:30 o'clock. The defendant was sentenced today to pay a fine of \$100 half of which was suspended pending good behavior. The witnesses examined in this case yesterday afternoon were R. L. Baca, chief deputy sheriff, J. T. Sandoval a former deputy sheriff, George W. Armijo, probate clerk, and J. B. Wood, the hardware merchant. Mesars. Baca, Sandoval and Armijo testified that the affidavit signed by Francisco Trujillo, the complaining witness against Gonzales, was done so voluntarily and not by compulsion as she stated when placed on the stand. Mr. Wood's testimony was of an expert character with reference to single and double action revolvers.

The ejectment suit of Walter Miller vs. Albino Ortega was resumed today, and it was expected that a decision would be rendered this afternoon by Judge McFie.

The next case scheduled for trial is that of the Territory vs. Trinidad Apodaca taken on appeal from the decision of Justice of the Peace Jose M. Garcia.

## SWASTIKA ROUTE INTO TAOS COUNTY

Blue Print Showing Proposed Extension Now in Office of Territorial Secretary.

That it is the intention of the St. Louis, Rocky Mountain and Pacific Railway Company to extend its line westward through the Taos valley was evidenced today by the filing of a blue print map of the proposed route in the office of Territorial Secretary J. W. Reynolds. The construction of this extension will tap the Taos valley which has heretofore been without railroad communication, and it will provide an eastern outlet for the products of that county.

According to the blue print map the route surveyed is in a general southwesterly direction and the total length of the extension is given as 37.85 miles. The extension will begin at a point in Cimarron Canon and follow a winding course through the Moreno valley and across the Taos divide into the Taos valley. The western terminus is designated by the map will be at the eastern boundary of the San Fernando de Taos land grant and about three miles south east of Taos.

It is expected that the work of construction on the extension will begin in the near future. The railroad is now in operation between Des Moines and Ute Park running through Raton where the general offices are located.

## GRAB GAME BY MACPHERSON

### Wants To Gobble Bureau Immigration Funds

### A TOOL AS SECRETARY

### To Be Run for Benefit Morning Fakir and Real Estate Ring.

Special to the New Mexican.

Albuquerque, March 26.—The cat is out of the bag and the great devotion to the cause of reform and the slanderous abuse and cowardly labels that have for months past appeared in Macpherson's Albuquerque Morning Fakir against leading Republicans and prominent citizens of the Territory, are now easily explained. The basis for the dirty and slanderous attacks on the Republican members of the House of Representatives of the last Assembly are also now fully accounted for. Macpherson has come to the conclusion that the management of the Territorial Bureau of Immigration, if secured by him and his gang, would prove a very soft snap for his paper, for himself and for the fellow whom he could secure as secretary of the Bureau and who would do his bidding, regardless of aught else. One way to secure this in his opinion was the course he has pursued. He was appointed by Governor Hagerman a member of the Bureau of Immigration and confirmed by the Legislative Council. Immediately thereafter he set to work to procure the presidency of the Bureau for himself and the position of secretary for H. B. Henning, the correspondent who was in Santa Fe during the recent session of the Legislative Assembly and who did the dirty work which he was employed for. This it must be acknowledged he did up to the hilt.

Macpherson has addressed the different members of the Bureau insisting that he should be selected secretary and that the secretary's office should be moved to Albuquerque. Then and there he would have a soft snap and what a fine chance for graft there would come towards the Albuquerque Morning Fakir. The secretaryship could be used in many ways for the advantage of the yellow sheet. The secretary could travel all over the Territory at Territorial expense ostensibly to gather information and data for the purpose of the Bureau and to help immigration and incidentally to look after subscriptions, job printing and advertising business for the Morning Fakir. The plan is very nice and probably very feasible, especially if the members of the Bureau can be hoodwinked and be cajoled into silence and compliance.

It is also reported here and it comes direct from the Albuquerque Morning Fakir's office that Governor Hagerman is exerting himself in aid of the scheme and has written letters to each member of the Bureau of immigration saying that it was his wish that H. B. Henning should be selected as the new secretary of the Bureau. The information which has leaked from the Morning Fakir's office is to the effect that this must be done also that the office must be moved to Albuquerque and that Macpherson must be the president and Henning the secretary. The report also comes from the same source that the members of the Bureau were appointed with that end in view and would have to do as they were told in the matter of the election of officers, of the change of the office to Albuquerque and of awarding of the printing to the Albuquerque Morning Fakir.

The annual meeting of the Bureau at which new officers are to be elected will be held in Santa Fe on Monday, April 8, and Macpherson boasts that his plan will be carried out to the very letter and that thereafter he will be the "boss" of the Bureau of Immigration and will handle affairs in such a manner as to do Macpherson and the Morning Fakir no injury, but quite the reverse.

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## WILLIAM F. BROGAN, EDITOR OF THE ALBUQUERQUE CITIZEN.

William F. Brogan, who has been for the past year and a half connected with the Daily New Mexican as news editor and feature story writer, has resigned in order to accept the position of managing editor of the Albuquerque Citizen, the influential and live daily published in the Duke City, and a staunch supporter of the Republican party. Mr. Brogan is a very young man for such an important place, but the New Mexican fully believes that he will prove himself worthy and competent and will give the citizens of Albuquerque, of Bernalillo County and the large circle of readers the paper enjoys in Albuquerque, a first-class, up-to-date, clean, enterprising and honest newspaper, something which is certainly very greatly needed in that town. The evil influences exercised by MacPherson's Albuquerque Fakir Journal, must be counteracted whenever and wherever possible, and although the Citizen has done much in that line already it is sure to do still more under the new editor. Mr. Brogan has had great experience in all departments of the publication of a daily newspaper. He commenced to work in such an one at the early age of fourteen and has been a feature story writer, special correspondent and editorial writer on some very big papers in Kansas City and other cities. He is a young man of exemplary habits, courageous, energetic, honest, and understands his business to a "T."

He did very effective and gratifying work on the Daily New Mexican in several important capacities during the time he was connected with it. Personally, he made many warm friends here who regret to have him leave, but rejoice at his well deserved and speedy promotion. That he will take well with the citizens of his new home this paper fully believes. He is a good mixer and natural newspaper man and able writer, very clever at getting news and strong in discriminating between what should be published and what should not be published. The people of Albuquerque and the Citizen Publishing Company in special and the people of New Mexico in general are certainly to be congratulated upon the fact that the company owning the Citizen has employed Mr. Brogan as managing editor of the publications by it. The greatest possible success to the paper and to the editor who will do his very best, judging from his past work, his ability and experience, to bring such about.

## NO APPRECIABLE CHANGE IN CLIMATE.

It is only thirty-seven years since the Weather Bureau has been keeping official track of weather statistics in the United States. Santa Fe is one of the oldest stations in the service, therefore, for its records run back thirty-four years. Yet, Professor Moore, chief of the National Weather Bureau, says that there has been no appreciable change in climate anywhere during the past two thousand years. He scouts all the prevalent stories of a change of climate even in the Southwest, and his contentions are borne out by all available statistics including those at Santa Fe. There have been years before this, when there was practically no winter at Santa Fe, when there was an excess or a deficiency in precipitation, when the sunshine average for the year went below 60 per cent, and other years when it was far above 90. Professor Moore affirms without reservation, that year in and year out, the weather is what it used to be and, if he does not know, certainly no one else is in better position to know. He says that the same comparisons of the present with the past and the same deductions therefrom have been going on ever since the country was settled. Even Thomas Jefferson caught the prevailing impression, since among his papers at the State Department appears this:

"It is evident that the climate of Virginia has changed since 1607, when the settlers came into Jamestown. The old inhabitants here tell me that they rode in sleighs. Now it is rare that we get enough snow to have a sleigh ride."

Professor Moore's explanation of the prevailing impression is that the man of middle age or more, remembers the abnormal and in his mind brings it down to the present day and compares it with the average, which is not a fair comparison. Professor Moore continues:

"It is about thirty-seven years since the official records began to be taken by the Weather Bureau. There has been close and continuous study of data during all that time, and if these carelessly assumed modifications of

climate were taking place it would have been discovered before this. The latest encyclopedias tell us that there is no well authenticated case of a change of climate within the last two thousand years. Neither is it possible that any change on the surface of the earth, due to man, such as deforestation, reforestation, agriculture, canals, railroads, or telegraphs, or even Salton seas, can have anything more than the slightest local effect, if any, on climate phenomena that depend upon the action of the whole atmosphere. So the calculations that have served us in the past continue to be reasonably dependable. Seed-time and harvest shall not fall, or at least the shortage of one year shall be balanced by the abundance of another."

## SOME WORK OF THE ARIZONA ASSEMBLY.

Among the meritorious measures passed by the recent Arizona Assembly are some that are similar to certain laws that have been in force in New Mexico for years. One of them is the statute prohibiting women from frequenting or visiting saloons and acting as dancers and singers in them. New Mexico has had such a statute for twenty years. The Arizona anti-gambling law is better than the New Mexico article in this, that its provisions are more stringent and that it takes effect on April first. In New Mexico a better law than the one that was passed could have been enacted, had it not been for the fact that two or three members of the Council got "cold feet" and that one of them, E. A. Miera, of Santa Fe and Sandoval counties, did his level best to defeat the measure. Arizona also passed a mining tax law under the provisions of which 25 percent of the gross output of the mines in the Territory will be taxed. This will bring much money into the Territorial treasury as some of the Arizona properties are great producers of wealth. This latter law known as the Doran law was a bone of much contention, but it finally passed in the Republican Council by a vote of 9 to 3 and in the Democratic House by a vote of 17 to 7. A statute was enacted changing the location of the Territorial Penitentiary from Yuma to Florence, the present accommodations at the Yuma prison having become so miserable and unfit that new buildings were absolutely necessary in the old location or the prison had to be moved to a new one. The latter was preferred.

## MOVING AT A SNAIL'S PACE.

The citizens of this community who believed that the public school grounds would be turned into parks or at least partially beautified this year are again doomed to disappointment. The splendid grounds surrounding the high school building, for instance, have not been graded as yet, although plenty of time has elapsed in which to do this. The sidewalks have not been laid as planned although brick, labor and funds have been available for this purpose for some time. It is understood that the superintendent and the teachers are willing, yea eager, to establish school gardens, to beautify, with the aid of the children, the grounds surrounding the schools, to make them an example of civic improvement that will bear results at every home at which there is a school boy or school girl and which has a garden in which they can exemplify what they have learned and seen at school, but the slow moving body of the Board of Education stands in the way. It seems strange that Santa Fe insists upon earning manifold its reputation of being slow but this seems as inevitable as fate when even a Board of Education with ample funds, with every public encouragement, refuses to move faster than a burro pace.

A resume of the laws enacted at the last session of the New Mexico Assembly is good proof that the people of New Mexico are well fitted for statehood. While some very good bills were killed, others sidetracked and some disappeared in inexplicable ways, the legislation upon the whole is very good. The "Seventeen Swift Republicans" in the House of Representatives are entitled to the major credit.

Wall Street has been sick for a week, but the people of the United States are doing well, nevertheless. Wall Street is not as important as it once was.

The Territorial institutions in the Sister Territory have been treated liberally. In this Arizona did well to profit by the New Mexico example.

## NEW ELECTION LAW SHOULD HAVE BEEN PASSED.

It is rather unfortunate that a new election law was not passed at the recent Assembly. Such an one was greatly needed, but an agreement could not be reached. It is claimed that the bill prepared and passed by the House had a number of provisions that would have proved somewhat onerous and difficult of execution; there may be something in this claim, but a conference committee should have been appointed, the bill properly amended and it should have been passed. It is well known that a new election law is imperatively needed. Its defeat may be ascribed to two or three members of the Legislative Council who had been awarded fat jobs, and who cared more for their own interests than they did for those of the people. In due course of time this matter may be fully shown up if necessary. That is if the men responsible shall come up for elective offices; then there will be a ventilation of the affair and a correct statement of the situation will be published.

## MINERAL ON THE NAVAJO RESERVATION.

The mineral bearing section of the Cariso mountains on the Navaho reservation in this Territory are to be thrown open to prospectors and to mining. The Navahoes are to receive a royalty on the net proceeds. This will prove beneficial to northwestern New Mexico and to the Navahoes. It is understood that in various sections of the reservation there are precious and base minerals in quantities and in quality. Explorations there once commenced will in due course of time extend over the entire reservation. It is certainly high time that the mining prospectors and capitalists who desire to prospect for and invest in mining properties on the reservation are allowed privileges in the direction of the examination of mineral indications there. If these prove what is expected the complete opening of the reservation to prospectors and to mining investors is bound to follow. The policy has been inaugurated and it cannot be recalled.

## SANTA FE SHOULD ADVERTISE.

A Pennsylvania exchange says that the signal success of the state sanitarium for consumptives at White Haven in the treatment of tuberculosis is likely to make that place, which was a decayed lumber manufacturing town, a collection of sanitarium in time. The latest is a new one to be erected on the east side, across the Lehigh river from the town, by the Ideal Sanitarium Company of Philadelphia. The company is capitalized at \$50,000, and intends putting up a fine building surrounded by beautiful grounds, the building and grounds to cover 38 acres.

Yet, White Haven does not possess a modicum of the climatic or other advantages which exist at Santa Fe. Of the 40,000 consumptives in Pennsylvania recruited by thousands of others each year, the majority will eventually come to the southwest for cure despite a score of sanitarium at home. For this reason Santa Fe should advertise its advantages as a climatic resort and its superiority as a location for high class sanitarium for the cure of consumption.

Eastern newspapers are complaining that the cutting off of railroad passes is having a marked effect in the receipts of many of the leading hotels of the country. This is especially the case in Washington. At one of the big hotels of the National Capital, formerly about 200 pieces of baggage were checked each week on railroad passes. So general had the issuing of passes become that nearly everybody coming to Washington or going anywhere from Washington traveled on a railroad pass. Those persons who could not get passes from the railroad companies generally managed to get them through the intervention of Senators and Representatives in Congress. Some of the members of the House even carried books of passes which they were authorized to fill out. State and territorial capitals experience this falling off in travel to a slighter extent but still sufficiently to hurt certain interests such as those of hotels, saloons and curio stores.

About a dozen favorite individuals came out on top during the recent session of the Assembly, they having been endowed with good fat public jobs. The rest of the people of the Territory something like 275,000 will have to worry along for the next two years the best they can.

It is claimed that, although President Roosevelt favors the nomination of Secretary of War Taft as the Republican candidate for the Presidency next year he will not exert himself to help the big fat man's ambition. This may be so and again it may not be so; very likely the former.

It is never too late to mend. A paper hanger in the city of Hartford in far-off New England, who has been in that business for over fifty years and is nearly a hundred years old, has just quit and gone into the saloon business.

The great nations are talking of disarmament, but all of them that can are increasing in strength in their navies. Evidently talk is cheap everywhere and very often speech is indulged in to hide thought.

Card was on his way home one night with a large amount of money on his person when he was set upon by several highwaymen who almost beat him to death and escaped with a large amount of money. Tolbert was indicted as one of the highwaymen, but had been a fugitive from justice until arrested by the local authorities. He will be tried at the April term of the District Court for Chaves County.

## WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Santa Fe women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Santa Fe woman's words:

Miss Adela Arlas, living at 109 Griffin St., Santa Fe, N. M., says: "The use of Doan's Kidney Pills in my case brought quick and thorough relief from a disordered condition of the kidneys that has troubled me for some time. I suffered from a dull heavy aching in the small of my back, the attacks always being aggravated by colds, and in addition to this trouble, I was often distressed with headaches and dizziness. My attention was first called to Doan's Kidney Pills about three years ago and procured a box at the Ireland Pharmacy, their use proved the claims made for them genuine. Off and on since that time whenever occasion has required, I have used Doan's Kidney Pills and the quick and positive relief always obtained is what warrants my high appreciation of this medicine."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## CATTLEMAN FACES MURDER CHARGE.

Silver City, N. M., March 26.—At the recent preliminary examination of William M. Gibson and John Ingraham held before Justice of the Peace William H. Newcomb, the defendants being charged with murdering Frank Watkins in the lower Animas Valley in Southwestern Grant County two weeks ago, Gibson was bound over to await the action of the grand jury in the sum of \$10,000 bonds, while Ingraham was discharged.

The Territory was represented by District Attorney R. M. Turner, and Attorneys James S. Fielder and J. R. Waddill, of Deming. Attorneys J. B. Hamilton and A. A. Temke, of Deming, appeared for the defendants.

All of the testimony introduced was on behalf of the Territory, the defendants not presenting their side of the case. The witnesses for the prosecution who testified were Messrs. Miller, Cox, Good and Stidham. Their testimony in a general way went to show that there had been bad feeling between the principals in the tragedy for some time past.

## GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St. Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? For sale at the Ireland Pharmacy.

**WONDERFUL CURE BY  
CUTICURA REMEDIES**

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the torments of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I made up my mind that I would also use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1905."

Many good laughs with Hans Hanson.

The Fischer Drug Company's souvenir post cards. They are new and up-to-date.

An eight-pound baby girl was born last evening to John W. Lewis and wife. Mother and child reported doing nicely.

The daintiest leather post cards for Easter at Fischer Drug Company. Mrs. J. W. Reynolds has been indisposed and confined to her residence for the past few days.

Bring the little folks, the old folks and all the folks and spend the evening with "Hans Hanson" at the opera house tomorrow night. Reserve your seats early at Ireland's Pharmacy.

Five car loads of immigrants with the Estancia valley as their destination were handled yesterday by the Santa Fe Central Railway. Another carload was received today from Kennedy bound for Moriarty.

For neat inexpensive Easter novelties go to Fischer Drug Company.

There is talk of holding a three-days' merchants' carnival in Santa Fe in conjunction with the firemen's convention which will be held in this city on September 10th.

The Methodist and Christian denominations will soon have houses of worship at Moriarty. The New Mexico Fuel and Iron Company has donated ground for each on which to build churches and parsonages.

Last evening was the regular drill night of Company F, First Regiment, New Mexico National Guard. The soldier boys took advantage of the fine evening for marching maneuvers on the street under command of Captain E. C. Abbott. They made a fine appearance.

The Denver Republican on Sunday published a spirited article descriptive of the Taos rebellion. The story was illustrated and covered half a page of the Republican. While a little lurid, yet, it indicated that New Mexico history is crowded with events as thrilling as are to be found in the annals of any nation or state.

Last week surpassed all previous weeks of this year in the amount of money order business done at the local postoffice, the aggregate having been \$6,881.84 for the week. There were issued 148 money orders amounting to \$1,185.41; paid 139 orders amounting to \$1,999.43; received from money order surplus of other offices, \$3,697.

The following letters and postal cards are held at the local postoffice for postage or better address: Quaker Stamp Company, Toledo, Ohio; Mrs. G. L. Anderson, Shoemaker, New Mexico; Canute Sedlos, Cowles, New Mexico; Bob King, Big Springs, N. M.; Mrs. Retta Cash, Newkirk, Okla.; Mrs. A. T. Russell, Kansas City, Mo.; Mr. Louis F. Gomez, Grande Station, New Mexico; and one letter and three souvenir postal cards without any address whatsoever.

Hans Hanson is typically an American farce, bristling with ridiculous situations and dramatic climaxes. The air of the piece is especially wholesome and its fun is particularly clean, not being dependent on the buffoonery and suggestiveness so commonly employed by comedy dramas. The piece has an efficient cast with James T. McAlpin as Hans and Miss Dolly Foster as Chik. At the opera house Wednesday night.

One of the most noticeable indications that spring is here to stay is the green grass that is fast sprouting in the Plaza. The trees are also budding and the birds have begun to sing. This season the Plaza promises to be more beautiful than ever as it is receiving proper care and the walks are swept every day and the rubbish that is carried or blown there is removed daily.

### WIN TWO GAMES IN SUCCESSION

Boys From St. Michael's College Defeat Indians Saturday and Santa Fe Victors Sunday.

The baseball team of St. Michael's College added two more victories to its record of the season by defeating the Indians on Saturday afternoon last and the Santa Fe Victors Sunday. The College team has played six games thus far and has won five of them.

In Sunday's game at the College took revenge on "Abe" Lincoln, the Navajo pitcher who let them down with only three hits in the game at the United States Indian Training School on last Thursday. They landed so freely on his slants Saturday that he was obliged to retire from the firing line before the game ended. The College made seventeen hits, among them being two home runs, a three-bagger and two two-base hits. The Indians secured nine scattered hits off N. Baca, the College youngster, who held them well in check throughout the game. The final score was 12 to 6 in favor of the College.

In Sunday's game at the College grounds with the Santa Fe Victors, the College boys proved that the latter team has no right to the name under which it goes. The game threatened to be a very one-sided one, as the College scored eight runs in the first inning. Juan Alarid, pitcher, for the Victors, settled down after that inning, however, and the College succeeded in getting but four more runs during the next eight innings, while the Victors climbed up gradually to ten, leaving the final score 12 to 10 in favor of the boys from St. Michael's.

Nasario Baca undertook to pitch Sunday's game also and did splendid work in the box notwithstanding the fact that he had pitched a game the day before. In order to make sure of the game he gave way to E. Ossa who put the "quietus" on the Victors' seeming rally.

The two teams will meet in a return game on Easter Sunday at the College grounds.

### NO CHANGE OF VENUE IN MOYER-HAYWOOD CASE

Boise, Ida., March 26.—Judge Wood at Caldwell has overruled the motion for a change of venue in the Moyer-Haywood-Pettibone cases. He gave the defense their option of a trial at Boise or in Canyon County. Boise was agreed upon after a consultation of counsel. The date will be definitely fixed when court opens here next Monday.

The New Mexican Printing Company is prepared to fill promptly and satisfactorily all orders for engraved visiting cards, marriage announcements, invitations and all work of that kind. Prices as low as compatible with good work. Call at the New Mexican office and examine samples and prices.

### This is Worth Remembering.

### NOTICE TO OUR CUSTOMERS.

Does coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by Cartwright-Davis Company.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or packages. For this reason mothers and others should insist on having Dr. Shoop's Cough Cure. No poison-marks on Dr. Shoop's labels and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison mark there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by Fischer Drug Company.

### PEASANTS PUT TROOPS TO ROUT

Roumanian Soldiers Unable to Cope With Revolutionists—Are Out-numbered.

Bucharest, March 26.—That the revolting peasants of Roumania are at least temporarily beyond the control of the government forces in the field is evidenced by the stories of pillaging and incendiarism that are coming in from all parts of Moldavia and Wallachia.

There have been several serious conflicts between the peasants and troops notably at Becass, in the district of Vaslui, where 2,000 peasants armed with rifles and revolvers attacked a company of soldiers.

The troops fired several volleys, killing large numbers of them, but the soldiers were so greatly outnumbered that they finally were obliged to retreat.
