THE COAL OIL INSPECTORSHIP

No Pressure on Acting Gov. Reynolds For Change

THE NOTORIOUS STORY

How It Was Worked Under Hagerman Alleged Reform Administration.

Under the date of July 9 Boss Macpherson's Albuquerque Morning Coyote Journal published a special dispatch from this city of which the opening paragraph reads:

"It is now currently reported here that strong pressure is being brought to bear on Acting Governor Reynolds to cause him to remove Hon. James S. Duncan of Las Vegas from the office of coal oil inspector and reappoint to that place Eugenio Romero of Las Vegas who held the job with much profit and little inspection up to the time that Governor Hagerman came into office and caused the law to be enforced."

The above statements are either downright fakes or malicious fabrications sent by the lying correspondent of the Coyote Journal and published for the purpose of misleading and to lay the foundation for more slanders and lies. The remainder of the dispatch is in the same line. The New Mexican, however, will take up just one paragraph and review the situation as it really was and is.

In the first place no pressure has been brought on Acting Governor Reynolds to remove Duncan as coal oil inspector although the latter should have been removed long ago. In the second place Eugenio Romero was not in this city for the purpose of pushing for the place. He attended to official business as treasurer of San Miguel County. In the third place the following quotation is absolutely untrue and so known to be to the correspondent Loomis and to Boss Macpherson:

"And to reappoint to that place Eugenio Romero of Las Vegas who held the job with much profit and little inspection up to the time that Governor Hagerman came into office and caused the law to be enforced."

A Little Inside History.

Ex-Governor Hagerman came into office January 22, 1906; Eugenio Romero was coal oil inspector and held the position until March 20, 1907, fourteen months after Hagerman became Governor. Hagerman never sought the enforcement of the law from the date he assumed office until he left it for the good of the commonwealth and to the joy and gratification of the best citizenship of New Mexico. Here is the story that the people may read:

After Hagerman became governor of New Mexico charges were made to him that the provisions of the coal oil inspection law were not carried out and enforced by the then inspector. The secret service machinery of the Hagerman administration was set to work and the great reformer became convinced that such was the case. Here was a fine chance for posing as a reform executive, a la Folk and a la La Follette, and he proposed to take it. The law is specific in such cases and reads:

(Section 7, Chapter 66, Session laws 1905. "The failure on the part of any oil inspector to perform his duties as required, shall be considered a malfeasance in office, for which he may be removed from office by the governor.")

In haste and during the days of March 1906 the coal oil inspector was called on the carpet in the executive office. A representative of the Continental Oil Company was summoned and legal counsel was retained, an Albuquerque attorney who held that under the provisions of the organic act the governor was charged to see to the proper execution of the laws of New Mexico and therefore had the autocratic powers of doing as he pleased something like Abdul Hamid ruler of Turkey. However, there was no removal of the alleged offending coal oil inspector, the autocratic power of the governor of New Mexico was not exercised but the Territory was divided into coal oil inspection districts and the first appointee was Harold Hurd an intimate personal and political friend of the reform governor and thereafter other personal and intimate friends to the number of probably half a dozen were appointed as district deputy coal oil inspectors. Some of these appointees are pretty good fellows and cannot be blamed for accepting the soft job handed them in order to become active members of the Hagerman reform machine and to help put that machine into power with the ex-governor as dictator and as a ruling boss. Deals Made in Legislature

Thereafter came the session of the Thirty-seventh Legislative Assembly. Much work was to be done in order to put the Hagerman reform machine on top and give it control of the Territorial and county organizations. The fat job of coal oil inspector, worth, it is said, between \$9,000 and \$10,000 per annum to the holder, unless he "divvies" with favorites and those on the inside, was to be used as one of the principal levers in destroying the regular organization and putting the Hagerman reform machine in its stead. James S. Duncan had been elected as an organization Republican to represent the people in the Council of the Thirty-seventh Legislative Assembly from the 9th district. The organization did much to elect him, made his campaign for him and he was successful. Duncan went with the Hagerman fake reform clique and did its bidding in every particular and in a number of instances his votes were against bills and projects that if enacted would have proven of great benefit and usefulness to the commonwealth and again they were for measures which are now on the statute books containing improper, unwholesome and pernicious provisions. During the session it was also asserted and it is believed that part of the emoluments of the office of coal oil inspector were to go to the benefit of another member of the Legislative Council for support of the Hagerman schemes and plans. This latter the New Mexican has no means of proving at this time but it is universally believed.

The above is an unvarnished and unpadding account of the doings of the Hagerman reform administration as far as the execution of the coal oil law is concerned. The story has been public property for a long time and is notorious throughout the Territory. It is substantiated by circumstances, by facts and by records.

DENIES CHARGE OF ALLEGED GRAFT

T. W. Hayward of Penitentiary Board Says He Didn't Ask Exorbitant Price for Meat.

Special to The New Mexican. Las Vegas, N. M., July 13.—T. W. Hayward, a member of the Board of Penitentiary Commissioners today denied any attempt to hold up the Territory on a meat contract. He states that the physician, Dr. C. C. Gordon called to the convict's camp on the Scenic Highway to treat a number of the prisoners who were taken ill, blamed tainted meat as the cause of their sickness and advised the superintendent in charge to change butchers.

Hayward says that the meat was afterwards purchased of him as he handled nothing but native beef. He says that the meat purchased of Turner and Ground was probably all right when it left the meat market, but became spoiled through carelessness at the camp, as there were no facilities for keeping it there through the hot weather and it was given to the prisoners anyway.

The meat was purchased of Graaf and Hayward with the knowledge of Captain Trelford. He would say nothing about the prices charged, but stated that he did not solicit the business.

RESENTED INSULT TO STENOGRAPHER

Office of Trinidad Electric Railway Company Scene of Exciting Encounter.

Special to The New Mexican.

Trinidad, Colo., July 13.—Because J. P. Moran, local representative of the Armour Packing Company applied a vile epithet to pretty Miss Ruth Walker, a stenographer in the office of the Trinidad Electric Railway Company yesterday afternoon, which Auditor John Findley, of the latter company overheard, he struck him several times and both men were arrested and released later on cash bonds.

The young lady is at her home today suffering from a nervous collapse alleged to be the result of the abuse she received from Moran. The trouble grew out of the refusal of the young lady to divulge the name of a street car conductor whom Moran claimed insulted his wife.

"I have no statement to make," said Moran today.

"It's up to them to do the talking. I did the only thing a man could do," Findley stated, "and I'd do it again too."

DEFENSE RESTS IN CASE AT BOISE

State Begins to Introduce Evidence in Rebuttal

END OF TRIAL IS NEAR

Closing Hours in Famous Haywood Hearing are Interesting.

Boise, July 13.—With the opening of court today in the Haywood case, Attorney Richardson sprung a surprise by announcing that the defense rested. It was expected that a powder expert would be put on the stand this morning by the defense to testify regarding the Bradley flat explosion in San Francisco. Consequently the prosecution was not prepared with witnesses in rebuttal. The witnesses soon began to straggle in however.

John C. Rice was re-called. He testified that in November, 1905, Orchard did not wear a moustache. This was a contradiction of a witness for the defense who swore that he heard Orchard make threats against Steunenberg, describing Orchard as a man with a large moustache.

Dan Gainey, of Walla Walla, Washington, who lost both feet in the Independence depot explosion, testified that Domineck Flynn, who had sworn that he was playing poker with Orchard, April 19, 1899, the day of the Bunker Hill and Sullivan explosions, had told him in conversation that he had not seen Orchard since February, 1899. Gainey said on cross-examination that he had corresponded with Orchard since his arrest.

State Strengthens Its Case.

In contradiction to the testimony of an old soldier, John D. Elliott, who said he heard Orchard make threats against Steunenberg, the state introduced several railway officials who produced records showing trains on which Elliott said he and Orchard traveled did not make the connections which Elliott described as part of the journey.

J. H. Mozer, proprietor of the Kettle Block Rooming House, of Denver, testified that Orchard under the name of Dempsey stopped with him for two weeks late in July or August, 1904. Dr. McGee, a witness for the defense, testified several weeks ago that he saw Orchard in the Couer de Alenes at that time. On cross-examination Mozer said he kept no record of his guests and did not remember the names of any of the other transient guests in the summer of 1904.

Tell-Tale Deed Produced.

Interest in the rebuttal case was materially quickened by the calling of August Paulson, of Wallace, Idaho, one of the owners of the Hercules mine in which Orchard once held a sixteenth interest. Paulson said he could not remember the exact date when Orchard sold his interest, but after 1891 in the spring of 1898 he had nothing further to do with the property. The state claims that Orchard sold his interest a year or so before troubles in that part of the state began. The deed by which Orchard transferred his interest in the mine to Dan Carodner was admitted in evidence over the protest of the defense. It bore the date of March 7, 1898.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of New Southwest.

NEW MEXICO, THE LIFE-GIVING TERRITORY.

A eulogy on Colorado appeared in the editorial columns of the Denver Republican recently. The points made therein in favor of the Centennial State all apply more or less to the conditions in the same lines in the Sunshine Territory with the exception that there are as yet no fish hatcheries in successful operation in this Territory. They will come in due course of time and one big hatchery is to be established by the U. S. Fish Commission in the Sangre de Cristo range within the present fiscal year. There is another point in which Colorado has the best of New Mexico and that is that it has more railroad mileage and the big railroad systems are giving it about ten times the amount of advertising that they are extending to New Mexico.

Otherwise the editorial headed "Colorado, the Life-giving State," could be headed properly, "New Mexico, the Life-giving Territory." It reads:

"Is there anything in nature that will not be benefited by a stay in Colorado?"

The question is inspired by an article in the National Geographic magazine, written by Hugh M. Smith, deputy United States commissioner of fisheries. In the course of his article, Mr. Smith says:

"A few years ago a fishery official of an Eastern state made the prediction that the brook trout is doomed and will be unknown, as a wild species, a few generations hence. This gloomy prognostication is perhaps justified if restricted to certain streams of New England and New York, where pollution, obstructions, and deforestation have already destroyed many fine waters and are ruining others; but in the Eastern lakes the brook trout is more than holding its own, while the West is prepared to afford unsurpassed trout fishing for the entire country. The attention of anglers should be directed to Colorado, which has known the brook trout for only a few years, but is now more thoroughly stocked than any other state. So successful has been the work of acclimatization in Colorado that the government now draws on that state for most of its supply of brook-trout eggs, which are obtained chiefly from wild fish in mountain streams and lakes; and it is in accord with the eternal fitness of things that the progeny of Colorado brook trout should be used for replenishing the very Eastern waters from which the original stock was taken for introduction in Colorado."

"Evidently the railroads that advertise Colorado's trout streams as the finest in the world are not overstating the case, but probably the fact that Colorado is now the natural home of the Eastern brook trout has been known to only a few people. Apparently, however, there are few things that will not improve when brought to this magic land of pure air and pure waters. The potato and the sugar beet have attained perfection when grown in Colorado, and Colorado fruits lead the world. The horse thrives best on Colorado uplands, where pure air and the best natural feed make perfect lungs and bones. Suffering humanity, when brought from lower altitudes, rarely fails to regain health and strength in Colorado. In fact there seems to be nothing that will not improve under the perfect conditions nature has established here. The fact that Colorado has rescued the Eastern brook trout from oblivion merely adds one more item to the long list of benefactions the Centennial State has accomplished for humanity."

THE COMING OF THE PEOPLE MAKES THE LAND VALUABLE.

The El Paso Herald, a live and progressive paper, thoroughly awake to the interests of its town and also to those of southern New Mexico, from which the business men of the Pass City secure much business, tells a true and timely story in a recent editorial under the heading "The Coming of the People Makes the Land Valuable." The editorial sets forth concisely, but clearly, how land values in the irrigated sections of New Mexico are increasing, and insists that much more of this is in store for all sections of the Sunshine Territory. The editorial says:

"What will happen in the Rio Grande Valley when irrigation is assured on a large scale and with reliable service, is indicated by the experience of Dayton, N. M., on the Pecos line of the Santa Fe. Land that was taken up one year ago as raw prairie is selling right along for \$60

to \$70 an acre, for forage crops. Land values for farms have doubled in less than two years, and the population is increasing at a great rate. It is the coming of the people that makes land valuable.

"Land in the Rio Grande Valley at ruling prices is not high. Farmers may buy now and put their land into cultivation at once by means of pumping, and then be in good shape to gain the maximum benefits from the completed reclamation project.

"A pumping plant will pay for itself the first year. After that the profit is clear. The cost of running a pumping plant is not a heavy burden on the valuable product of valley land.

"It is folly to let 150,000 acres of fertile land lie idle waiting for the big dam. Suppose the profits were only \$10 an acre per year, we are throwing away \$6,000,000 a year, or \$30,000,000 before the dam can be completed. The amount we are wasting this way would build the dam four times over, and then some.

"To put it another way, the cost of the Rio Grande project to farmers will be but \$10 an acre all told, and this amount might be cleared in a year off the land by installing a pumping plant now, without waiting for the dam to be started.

"It would pay El Paso and all the large owners of valley land, to start a campaign right now for valley farmers of the highest class, men who have succeeded elsewhere and have money saved up. These people might be induced to come here now, buy land, and put it in cultivation by means of pumps. Thus the money now tied up in lands might be released for profitable investment and venture, and the populating of the valley would be advanced many years. The land that would be reserved by the owners would be worth, when the forced sale comes upon the opening of the project, many times what it will be worth if the valley be allowed to remain raw and unsettled up to the last moment."

YELLOW SHEETS INJURING NEW MEXICO.

About two months ago a representative of Utah capitalists visited Albuquerque for the purpose of investigating title and conditions to a land grant with a view to purchasing the same at a handsome figure if conditions and prices were satisfactory. The portions of this grant that could be irrigated or upon which crops could be raised by the Campbell dry culture method—and there are thousands of acres of such land on the tract—were to be settled by farmers and fruit raisers. During his stay in Albuquerque this party being there two days read two copies of the Albuquerque Morning Coyote Journal; the slanders and lies, false accusations and sinister misrepresentations in the editorial and news columns of that yellow sheet so disgusted this party that he concluded that he could not recommend to his principals the investment of capital in a country where such dirty license and foul newspaper work as he found in the columns of the sheet were the rule and were permitted by the court officials. This representative of outside capital knew personally some of the citizens of the Territory who come in for the libelous assaults and slanderous attacks of the Coyote Journal for no other reason than because they are opposed to the Albuquerque water supply gang that controls the sheet and have thwarted and undone many tax-dodging and boodle schemes of the gang. Comment is not necessary.

The pardoning of convicts, especially of murderers by former Governor Hagerman during his brief and inglorious career were very many and, strange to say, several criminals from the lower Pecos Valley were beneficiaries to a greater extent than the proportion of population of that section to the entire Territory seemed to demand, but then it must be remembered it was in the lower Pecos Valley that the Hagerman adherents made their first efforts to build up a political machine. There may be no connection between this and the pardons, but, according to the Hagerman yellow press, every pardon given by Hagerman's predecessor was in return for political services, and why be more charitable in attributing motives to Hagerman than are his supporters in seeking motives for the acts of Hagerman's predecessors?

Reports from the northern part of the Estancia Valley especially in the vicinity of Moriarty are of a very sanguine character and show that the many new settlers in that section are very hopeful in the matter of gathering good crops this season

although much of the area that has been broken and seeded has felt the plow this year for the first time. Oats, kafir corn, milo maize and sorghum are in a very satisfactory condition and should two or three good rainfalls occur within the next three weeks it is believed that very good yields will be the result and that the settlers will have plenty of feed for their livestock for the winter. This is certainly a remarkable showing when it is recalled that five years ago and before the advent of the Santa Fe Central Railway through that section it was considered valueless for anything but grazing.

"The public is still waiting to hear the late boy executive tell what he did with that contingent expense fund besides giving receptions and dinner parties 'in the line of his official duties.'"—Albuquerque Citizen.

Yes, and the dear people will have to wait. High-toned reformers are not in the habit of taking the "plain people" into their confidence. When former Governor Hagerman assumed office he intimated loudly and broadly that he would scorn even the insinuation of accepting any of the contingent fund of the executive office for personal expenses. Since then the vouchers for the expenditure of this fund amounting to \$3,750 can not be found among the territorial archives.

That \$4,496 balance in the penitentiary road fund had been better applied to the Scenic Highway, which during the Trelford administration has been permitted to deteriorate almost beyond repair in some places, especially on the stretch built by this management and which is another monument to its incapacity. It will take probably that entire balance to make necessary repairs and the Territory is practically out that much. But another instance of the ideas of economy instilled by former Governor Hagerman into Territorial officials.

That \$7,000 worth of coal alleged to be at the territorial penitentiary by ex-Superintendent Arthur Trelford has not yet materialized to any great degree, and what is more it will not. If the present supply of coal at the territorial prison worth about \$2,500 is to be increased so as to attain the value of about \$7,000, the difference will have to be purchased by the new superintendent—this, despite the lies concerning the amount published and insisted on by Maepherson's Albuquerque Morning Coyote Journal.

With a new superintendent who has no grudge against Santa Fe and Santa Fe people, no doubt, necessary work will be done on the Scenic Highway in the Santa Fe Canon and the stretch of road above the reservoir will be linked to that over the Dalton Divide from which it is separated by only a few miles. It is very likely that Superintendent Littrell does not need as many valets for his personal use and will find opportunity to place more convicts on the road work prescribed and directed by statute.

"Hagerman Out," "Trelford kicked out." "Others of the chumps who have put up boodle for us to be bounced." "What are we to do?" "Where is our boodle to come from?" are the wall lugs and yowls of the Albuquerque Morning Coyote Journal and the corrupt gang behind it. The New Mexican can not answer their questions, but they should take heart. There are always fools who like to be gulled by such outfits.

Comment sidewalks are being put down in great shape in the progressive county seat of Grant, namely pretty Silver City. In the capital of the territory unfortunately sidewalk extensions are the exception rather than the rule. Good time is being lost, but that seems to make no difference to the sleepy manana city administration, which appears to exist only to make expenditures without correspondingly benefits to the property owners and taxpayers.

The water supply company of Albuquerque has had its valuation for taxable purposes reduced to a ridiculous amount especially when it is considered that in the city campaign of Albuquerque in 1906 the outfit desired to sell its plant and franchise to the city for \$260,000. Fake reform county officials reduced the assessment. The Albuquerque Morning Coyote Journal supported the fake reform movement. The connection is plain.

The name of the president of the constitutional convention of Oklahoma is Murray. This high-toned person recently addressed the President a letter requesting that the latter immediately point out his objections to and deficiencies in the new constitution made in the convention presided over by Mr. Murray. Strange to say, President Roosevelt has not yet answered.

It is reported that former Superintendent Arthur Trelford of the Territorial penitentiary has shaken the dust of New Mexico from his shoes and has departed. This is tough on the Albuquerque Morning Coyote Journal. Another source of revenue gone. The sheet will have to seek for other easily fooled people to put up more money for defense or to attack enemies.

There are several citizens of Santa Fe who are owners of Japanese bonds. As yet they need not lie awake nights. War with the Mikado's country has not commenced.

CRYING FOR HELP.

Lots of it in Santa Fe But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble.

It is the kidney's cry for help. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Santa Fe citizen.

Mrs. M. S. Zimmerman, living at 331 San Francisco street, Santa Fe, N. M., says: "I have an exceedingly good opinion of Doan's Kidney Pills, and my estimation of this remedy is based on personal knowledge of the great value it has proved to a number of my friends and acquaintances. Of this fact I am positive, that those who suffer from kidney complaint will consult their own interests by giving Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

MINES AND MINING.

In a recent issue of the Arizona Mining Review there appears an extended article on the prosperity of the Cerrillos Mining District in south Santa Fe County. The article follows:

"It does the old-timer good to travel about a bit in New Mexico among the camps of Santa Fe County, which make up what we used to call the Cerrillos district. Cerrillos, Madrid, San Pedro, Golden and the smaller camps, which two years ago were considered as dead as the proverbial door nail, are pretty lively just now and there is every indication that they are coming back not only to their old-time vigor and bustle, but to a bigger era of wealth-producing than they have ever known. The re-awakening of these camps is general. It covers them all. Properties which have been lying idle for years are being opened up and worked with energy that cannot but bring results, for every man who has worked in this district knows that the mines are there and that there is ore in them. It has just needed the right kind of development to get the right kind of results, and that development is coming if it has not already arrived."

"At Madrid six coal mines have been opened up. Three are anthracite, two bituminous and one black-smithing coal. More than 100 miners are now at work in the ground."

"Cerrillos also gives evidence of the general prosperity of the district. The Santa Fe rock crusher now operating here and employing about 100 men has served to add some life to the town, while the re-opening of many of the old mines nearby and the development of new ones makes the outlook very encouraging."

"The price of zinc ore and the new process for extracting it have given much encouragement to the re-opening of the mines in this section of the district, for mines that used to lose money are now able to make money, in spite of the high cost of production. "A new shaft is going down on the old Fairview claim and the property will soon be shipping on a large scale. The company owns several other claims adjoining which are to be developed at once."

"The Bottom Dollar mine has just changed hands and a contract has been let for considerable development work. The Grand Central and Cash Entry, both famous mines and owned by Denver people, are being worked on a small scale."

"At San Pedro all the old life of the old copper camp has returned. The Santa Fe Gold and Copper Company is now working 350 men and shipping copper matte in large quantities every week, the ore showing up better values every day. The property is paying at the present price of copper and the activity of the old company is stirring other mine owners to activity. S. H. McCaffery is superintendent of the mines."

"James Caruthers, one of the old-timers of this district, owns a valuable claim called the Beautiful Boy, adjoining the Santa Fe Gold and Copper Company's property, and there are several other claims nearby which are showing up well. The ores in this camp show values in gold, silver, lead and zinc."

"The San Lazarus mine will shortly be opened up again by eastern people. This property is a free milling proposition and has been a big producer in the past."

"San Pedro needs a railroad and will doubtless have railroad connection before very long."

"One of the most important mining enterprises in New Mexico at present is the dredging plant of the Gold Bullion Mining Company, operating at Golden. The company controls 500 acres of placer ground, and expects to begin work with the enormous new dredge during the next week. This dredge, which cost \$50,000 will have a capacity of 1,000 cubic yards per day. The ground is rich, and rich results are expected."

ALBUQUERQUE GIRL WEDS IN BOSTON

Word has been received in Albuquerque to the effect that Miss Edna Gibson, daughter of E. J. Gibson, superintendent of the Albuquerque division of the Santa Fe, has eloped with a young writer, Raymond Lee Harriman, of the staff of the Broadway Magazine. It is reported that the young couple left New York in haste for Boston and were married by Rev. A. F. Pierce of the First Congregational church there. The parents of the bride learned of the engagement and telegraphed her to return home at once, but instead she went to Boston. The newly married pair met each other some months ago at the home of mutual friends and straightway fell in love. Miss Gibson was a member of the staff of the "Deineator," in New York and is well known in Santa Fe, where she has visited often. Her father, E. J. Gibson, is superintendent of the Winslow division of the Atchison and Santa Fe Railway and the family make their home in the Duke City.

MISSING EXPLORER TURNS UP ALIVE

Fred E. Hyde, of Farmington, Reported Murdered by Indians, is Sojourning at Colorado Springs.

Albuquerque, N. M., July 13.—Fred E. Hyde, the well known explorer and Indian trader of Farmington, San Juan County, who disappeared some months since from his ranch near that place, has been located, a telegram to a friend in the city stating that he is enjoying the summer at the Antlers Hotel in Colorado Springs, Colorado, and has never been in better health in his life.

Hyde says that he will soon return to Farmington, but expects to remain for a short time at the cool Colorado resort.

Fred E. Hyde is a millionaire, and one of the best known Indian traders in the Southwest. He was the head of the Hyde exploring expedition, and became known all over the country through his interest in matters in this part of the United States.

He is the son of Dr. Frederick E. Hyde, of New York, and the grand son of B. T. Babbitt, the millionaire soap manufacturer.

He left his ranch near Farmington on December 22 last year, and since that date the Indians, with whom he was very friendly, have insisted that he was murdered. Efforts to locate him have failed, but it now appears that he has been in the East, having failed to notify his friends of his intention to make the trip.

El Paso, Texas, July 13.—Clay McGonnigal, the world's champion broncho buster and roper, left this week for Goldfield, Nevada, where he will give exhibitions of throwing and roping in the great gold mining camp. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. PEOPLE TELL EACH OTHER ABOUT GOOD THINGS.

Twelve years ago few people knew of such a preparation as a Powder for the Feet. Today after the genuine merit of Allen's Foot-Ease has been told year after year by one gratified person to another, there are millions who would as soon go without a denitrifier as without the daily use of Allen's Foot-Ease. It is a cleanly, wholesome, healing, antiseptic powder to be shaken into the shoes, which has given rest and comfort to tired and aching feet in all parts of the world. It cures while you walk.

Sents free. All cordially invited.

SIGHTS OF SANTA FE

(A brief outline of Points of Interest in and about the City of Santa Fe. A Guide for Tourists.)
(July, 1907.)

The Plaza.—Under the care of the Woman's Board of Trade. Here Onate camped and set up the banner of Spain in 1598. Here the Pueblos in the uprising of 1680 burned the archives and historical records of the Province. Here De Vargas halted in triumph after taking the city from the Pueblos in 1692. Here General Kearny planted the Stars and Stripes in 1846. Most of the thrilling historical and gala events for the past three hundred years have centered here.

The Old Palace.—Without doubt the oldest governmental building in the United States. Date of construction variously set from 1598 to 1607. Occupied as executive building by Governors under the Spanish, the Pueblo, the Mexican and American regime, last occupied as a residence by the present Acting Governor James Wallace Raynolds. Ceded by the Federal government to the Territory, the present owner, but which has vote records it to the Federal government as a National Monument. It is at present occupied by the postoffice, the Historical Society Museum, the Daughters of the American Revolution and the Territorial Republican Central Committee.

The Historical Society Museum.—In Old Palace. Open free to visitors, from 10 to 12 a. m. and 2 to 4 p. m. on weekdays, and 2 to 4 p. m. on Sundays. Contains fine collection of New Mexico antiquities and the most complete library of books relating to the history of the Southwest to be found in the United States outside of the Congressional Library.

Ben Hur Room.—In Old Palace. Here Lew Wallace, while Governor of New Mexico, completed Ben Hur. Key given to visitors at the postoffice.

Soldiers' Monument.—In Plaza. Erected by the Territory. Much criticized because it refers to the Confederates as Rebels.

Lamy Fountain.—In Plaza. Erected by Woman's Board of Trade in memory of the late Bishop Lamy, who introduced the orchard industry at Santa Fe and surroundings.

The Kearny Monument.—In Plaza. Erected by the Daughters of the American Revolution.

Masonic Building and Hall.—On south side of Plaza. Oldest Masonic Lodge in the Southwest. Many interesting historic relics in lodge room. Kit Carson was a member of this lodge.

The Fonda.—At southwest corner of Plaza. End of the historic Santa Fe Trail. Now Exchange Hotel.

WITHIN FIVE MINUTES' WALK FROM PLAZA.

Public Library.—On Washington Avenue. Built and maintained by the Woman's Board of Trade.

Federal Building.—Headquarters of Federal Land Office, Internal Revenue Service for New Mexico and Arizona, Surveyor General, Weather Bureau, Forest Supervisor of Pecos, Jemez and Taos National Forests, U. S. Attorney for the Pueblo Indians, and other Federal officials.

Kit Carson Monument.—In front of Federal building.

The Court House.—On Palace Avenue. Contains County Offices and Court Rooms.

Saint Vincent's Sanitarium.—On Palace Avenue.

Saint Vincent's Orphans' Home.—On Palace Avenue.

Saint Vincent's Hospital.—On Palace Avenue.

Loretto Academy.—On College Street. Oldest School for Girls west of the Missouri. Quaint cemetery in rear.

Loretto Chapel.—On College Street. One of the most perfect specimens of Gothic Architecture in America. Built from design by French architects.

Loretto Convent.—On College Street. Occupied by Sisters of Loretto.

Roman Catholic Parochial School.—On Water Street.

Cathedral.—On Cathedral Square. Original structure commenced in 1612, destroyed in 1680. Modern structure not complete. When complete to have twin steeples and to be cruciform. Contains a number of paintings by old

masters. Reredo behind altar was erected by Governor del Valle and his wife in 1761. Fine old paintings and rich vestments in rear of Cathedral. From here start annually the famous Corpus Christi and the historic De Vargas processions. In rear of altar two Franciscan Friars, murdered by the Indians, are buried.

Archbishop's Residence.—On Cathedral Street.

Bishop's Residence.—On Cathedral Street. Adjoining is the beautiful "Bishop's Garden" with historic spring, lakelets and fine orchard.

Presbyterian Mission School for Girls.—Grant Avenue.

The Mary James Mission School for Boys.—On Federal Street.

The Santa Fe High School.—On the Old Fort Marcy Military Reservation famous in military annals and after abandonment granted to the City of Santa Fe for public school purposes.

The Garita. On the hill below and west of Fort Marcy. Ancient Spanish fortress along walls of which malefactors and traitors were executed. Adjoining oldest cemetery in the United States.

The Capitol. Dedicated 1900 replacing that destroyed by incendiaries in 1892. All Territorial offices and Territorial library in building. Fine view of city and mountains from dome. In Capitol park are to be found larger variety of trees than in any other park in New Mexico.

TEN MINUTES' WALK FROM PLAZA.

San Miguel's Church.—On College Street. Believed to be oldest church building in the United States still used for public worship. Built either in 1598 or 1607. Destroyed in 1692. Rebuilt in 1710. Renovated in recent years. In rear of auditorium stands bell cast in Spain in fourteenth century. Vespers Sunday evenings at 6 o'clock, attended by Christian Brothers and pupils of adjoining Saint Michael's College. At other times, admission 25 cents. Adjoining is the oldest cemetery in the Southwest.

Saint Michael's College.—On College Street. Oldest school for higher education of boys west of Missouri. Campus includes athletic grounds. Conducted by Christian Brothers.

Old House.—On De Vargas Street opposite San Miguel Church. Tradition has it that it was built by Pueblo Indians long before Spanish occupation and was occupied by Onate in 1598. It has been continuously occupied since but upper story was removed in recent years while interior has been frequently renovated. Without doubt the oldest continuously occupied house in the United States.

Guadalupe Church.—On Guadalupe Street. Over a century old. The altar paintings and those in the sacristy are of especial interest.

Fort Marcy.—Ruins of old fort erected on hill overlooking Santa Fe from north. Elevation 229 feet above Plaza. Commands fine view of city and surroundings much admired by President Roosevelt upon his visit to Santa Fe several years ago. Good wagon road to the top.

Perez Monument on Agua Fria Road.—Marks spot where Governor Perez was assassinated August 9, 1837, by Santo Domingo Indians.

Rosario Chapel and Cemetery.—Chapel was built in commemoration of retaking of city from the Pueblos in 1692 by De Vargas. This is the terminal of the De Vargas procession held each year in June.

National Cemetery.—Beautifully located commanding a fine view of city. Burial place of veterans of the Mexican, Civil and Indian Wars. The only National Cemetery in New Mexico and Arizona. Upon gravesites may be read the names of many warriors famous in southwestern history.

Saint Catherine's Indian School.—Opposite National Cemetery. Conducted by Sisters of the Holy Sacrament. Indians from many tribes in attendance.

United States Indian Industrial Training School.—South of the city. One of the large Federal Indian Schools of the United States with almost 400 pupils, representing a score of tribes.

The Territorial Penitentiary.—South of the city. Well worth half a day's visit.

Captain Wright enjoyed his visit to Santa Fe greatly especially on account of its great climatic superiority, beautiful scenery and historical attractions and objects. Captain Wright was a caller at the office of the New Mexican and was furnished with information printed and oral on Territorial conditions. Tomorrow he will go to Las Vegas to continue his tour of investigation. Thence he will return to his station at El Paso where he has been for one year.

Fifteen Club With Mrs. Prince.
Over fifty ladies assembled at the hospitable residence of Mrs. L. Bradford Prince yesterday afternoon to attend what was called an informal reception by the Fifteen Club, the hostess having invited the Wallace Reading Club and the Daughters of the American Revolution to meet with them and it proved a most enjoyable reunion.

The large museum was attractively decorated with vines and flowers. Yellow, the club color, was represented by yellow roses and yellow pansies which were thoughtfully provided by Mrs. Arthur Boyle. Each guest was asked to bring a quotation and a current event. All were most carefully selected and of great interest, many of them provoking intelligent discussion. After this little program was carried out Mrs. Prince gave a short talk on the Japanese drama and told the story of a Japanese pantomime in a most dramatic and charming manner. Refreshments and a delightful social hour followed.

Miss Laughlin's Bal Masque.
Dancing parties and balls are always a source of pleasure but the average event of this kind pales into absolute insignificance in comparison with the bal masque Wednesday evening last at Elks' Hall on Upper Palace Avenue. The affair was given by Miss Ruth Laughlin complimentary to her visiting guest Miss Lucetta Whitehead of Golden, Colorado, who was a college mate at Colorado College.

All of the guests came masked as requested on the invitations and the occasion was one of the jolliest imaginable. The disguises affected were all clever and few of the dancers were recognizable until after masks were removed. A feature of the event was a grand march which was led by Miss Whitehead who was attired in a black star spangled gown representing Night and J. W. Patterson, who personated a country gentleman of Mexico. Miss Laughlin was disguised as a Colonial dame and Miss Helen Laughlin wore a black point lace gown which was part of her mother's wedding trousseau. Mrs. Laughlin acted as chaperone and was assisted in entertaining by Mr. and Mrs. S. G. Cartwright. Punch was served throughout the evening and

other refreshments during an intermission in the festivities.

Among those present were Mr. and Mrs. Cartwright, Mrs. Laughlin, Misses Whitehead of Golden, Colorado, Christensen of Los Angeles, Rickert of Waterloo, Illinois; Horn, of Tierra Amarilla; Laughlin, Helen Laughlin, Seligman, Spitz, DuVal, Easley, Mabel Easley, Hansen, Dye, Cross, Abbot, Wiley, Boyle, Dougherty, Moore, Enos, Crandall, Newhall and Sylvia Morrison, Prof. W. E. Garrison, Dr. Frank Miera, Jerry Farris, J. W. Patterson, Thom Catron, John McFie, Vere Boyle, Frank Keefe, Elmer Marsh, Edward Safford, Clarence Pierce, Frank Newhall, Ira Grimshaw, Morris Thomas, Noyes Weltmer, Rolland Wittman, Henry Denda, Harvie DuVal, Robert Garrett and William J. Kelly.

McFie-Bloom Nuptials.

The First Presbyterian Church in this city will be the scene next Friday afternoon at 4:30 o'clock of an unusually pretty nuptial event in which the principals will be Miss Maude Elizabeth McFie, of this city, eldest daughter of Judge and Mrs. John R. McFie, and Rev. Lansing Bartlett Bloom, of Auburn, New York. The ceremony will be performed by Rev. J. W. Purcell, the new pastor of the church, who will arrive here to take charge of the parish Wednesday.

The wedding party in addition to the bride and groom will consist of a maid of honor, two bridesmaids, a best man and two ushers. Miss Mary McFie, a younger sister of the bride-elect, will be the maid of honor, and the bridesmaids will be Miss Elizabeth Foster of Las Cruces and Miss Hilred Hansen. Jerry Farris will serve in the capacity of the best man and John McFie, a brother of the prospective bride, and Harry Bowman of Las Vegas will act as ushers.

Following the wedding a reception will be held at the McFie home at 130 West Manhattan Avenue. The bridal couple will leave on the evening train for a honeymoon trip to Dripping Springs after which they will proceed to their new home at Saltillo Mexico where the bridegroom will assume charge of the local American Presbyterian Church. A large number of invitations have been issued for the marriage ceremony and reception and Santa Fe society is on the quiet vive in anticipation of the event.

Miss McFie is the recipient of a great deal of social attention in honor of her approaching marriage, and was the guest of honor at two pre-nuptial parties this week, a luncheon yesterday given by Mrs. T. B. Catron and a linen shower Thursday afternoon at which the hostess was Mrs. A. J. Fischer.

The Wallace Reading Club will be entertained tonight as a farewell to Miss McFie at the home of Mrs. W. H. Bartlett.

Two more pre-nuptial parties are on the tapis for next week at which Miss McFie will also be the guest of honor. One of them will be a dinner party Wednesday evening at the home of Mr. and Mrs. Charles L. Bishop. Mrs. J. W. Reynolds will also entertain during the week but the date has not yet been fixed definitely. Rev. Bloom is expected to arrive in the city tonight, accompanied by his mother and young brother, who will remain here until after the wedding.

Miss McFie was presented with divers and sundry dainty articles with which to start her married life at the linen shower presided over by Mrs. Fischer, who was assisted in entertaining by her mother, Mrs. T. P.

Gable. The gifts included an embroidered tablecloth, handkerchiefs, napkins, towels, dollies and many other useful articles in linen. Miss McFie was confronted with a pile of bundles stacked up on a table, the packages being wrapped in white tissue paper and tied with dainty ribbons.

The Fischer home was decorated very prettily with an abundance of roses and sweet peas. The pleasure of the occasion was enhanced by an impromptu musicale which consisted of a vocal solo by Miss McFie, a piano solo by Mrs. Sargent and a recitation by Mrs. Bartlett. Charming refreshments were served during the afternoon.

Those invited were: Mesdames Miller, of Washington, D. C.; Schuerich, of Enclino; McFie, Reynolds, Frost, Walter, Walker, Knight, Garrett, Sargent, Bartlett, Fiske, Slidbottom, Hurt, Haynes, Watson, Llewellyn, McMillan, Warner, A. Abbott, T. B. Catron, C. C. Catron, I. B. Hanna, R. H. Hanna, and Misses Christensen, of Los Angeles; Rickert, of Waterloo, Illinois; Hughes, DuVal, Easley, Lamy, Boyle, Hansen, Dougherty and Phelps.

Green and white was the color scheme of the dainty luncheon yesterday afternoon given by Mrs. Catron. The table was adorned with a profusion of cut flowers and greenery, and the menu was elaborate and delectable.

The guests with the exception of Miss Mary McFie and Miss Hansen, two of the wedding attendants, were members of the Wallace Reading Club. Covers were laid for thirteen and the place cards which were heart shaped to suit the different characters, were the work of Miss DuVal.

Those gathered at the table besides the hostess and guest of honor were: Mrs. Bartlett, Miss Christensen, of Los Angeles; Miss Rickert, of Waterloo, Illinois; Miss Mary McFie, Miss Hansen, Miss Staab, Miss Boyle, Miss Phelps, Miss DuVal, Miss Lamy, and Miss Easley.
