## TUCUMCARI THRIVING TOWN

### County Seat of Quay Growing Steadily

### INSTALLING WATER SYSTEM

**Plant Will Cost \$50,000  
When Completed --- Much  
Building Going On.**

L. P. Gamble, of Tucumcari, a bright and active young man, was a recent visitor to the Capital. He came to see the inauguration sights, to become acquainted and to enjoy the fine climate and attractions of the Capital. He arrived at Tucumcari a few months ago from Amarillo, Texas. By profession, he is a school teacher, but found this vocation too slow and that he could make more money in the real estate business in the thriving Quay County capital. He thinks that he has made a good choice. To a reporter of the New Mexican, Mr. Gamble said:

"Tucumcari is all right in every way, so is Quay County. Indeed, I am told by surveyors who know that there is hardly a quarter section of government land that is sufficiently level to be ploughed and on which a home can be built, that has not been entered under the homestead laws. The only free government land now is in the hilly section of the county and to that portion the live stock men have retired. On account of the heavy immigration and speedy settlement of the public domain most of the sheep and cattle that roamed over Quay County three years ago have been diminished in numbers and have gone elsewhere. The people who have come in during the past few years are of a very good class, pretty well to do and the majority of them have brought with them improved horses and cows, as well as farming machinery and much furniture.

Crops this year will be good, so I have learned. This will be especially the case with corn and feed stuff.

#### Tucumcari Growing Steadily.

"Tucumcari is growing steadily and rapidly. Ten new business houses are now under course of construction; nine of them are being constructed out of that peculiar red rock that abounds in the vicinity of Tucumcari, and one will be of concrete. These will be completed before the snow falls. The cost of these buildings when completed will be nearly \$75,000. The business portion of the city will be handsomely improved by their construction.

"Many new residences of all dimensions, sizes and shapes are being built, something between sixty and seventy. Nearly all of them are substantial and will prove fine additions to the residence portion of the city.

"The El Paso & Southwestern Railway people are doing much work and employing many men, which of course aids business and the growth of the city. The large roundhouse, which was at Santa Rosa, and extensive shops are now in course of erection.

"The grade of the Choctaw Railroad, a branch of the St. Louis and San Francisco Railroad, from Amarillo, Texas, to Tucumcari, 112 miles in length, is almost completed, and we have reason to believe in our town, that it is but a question of a few months when the grade will be thoroughly repaired and completed, and track-laying will commence. With this new outlet, Tucumcari is bound to become one of the largest towns in eastern New Mexico or western Texas.

"According to the records of the probate clerk, we expect to poll nearly 4,000 votes in November, 1908.

#### Big Increase in School Census.

"Our school census for the present year made by Superintendent Milner Rudolph, shows a total of 3,500 persons of school age. That means persons between the ages of five and twenty years, while the school census last year was only about 1,500.

"The Tucumcari Scouring Mills are all kept busy daily. Last year about 2,000,000 pounds of scouring wool were shipped from our town, while this year I am informed by well posted persons, that the shipments will reach 3,000,000 pounds.

"Sheep men in our section, as a rule, are prosperous, although a few of them suffered a loss of lambs during the cold spell in the spring.

#### City Grants Water Works Franchise.

"The city has granted a franchise for a new and extensive water system to W. F. Buchanan, president of the First National Bank, and his associates. At least \$50,000 will be spent to give the city a first class water system. Water will likely have to be

## COMPLIMENT TO COLONEL PRICHARD

Retiring Attorney General Receives  
Courteous Letter From Governor  
Curry Accepting Resignation.

In acceptance of the resignation of Colonel George W. Prichard as attorney general of New Mexico, Governor Curry has addressed a personal letter to the retiring legal adviser of the Territory which, while of characteristic brevity, is very complimentary. The communication reads:

"My Dear Colonel Prichard: I am in receipt of your letter of the 9th instant in which you tender your resignation as attorney general of the Territory of New Mexico, stating that on account of personal business you desire to retire from said office.

"I hereby accept your resignation, to take effect upon the appointment and qualification of your successor, whom I shall today appoint, namely, Hon. Albert B. Fall, of Dona Ana County.

"In connection with your resignation I desire to thank you on behalf of the people of New Mexico for the very able services you have rendered as attorney general and wishing you the greatest possible measure of success in your future undertakings. I am, sir, sincerely yours,

"GEORGE CURRY.

"Governor of New Mexico.

"Santa Fe, N. M. August 12, 1907."

Attorney General Prichard tendered his resignation to the new executive, as has been stated, because he felt that Governor Curry would want a legal adviser of his own choosing. He accepted the position only temporarily anyway, during the interval Secretary James W. Reynolds was acting Governor.

## WILL BUILD HUGE WARSHIPS

Reported That England Contemplates  
Construction of 30,000 Ton  
Monsters.

Washington, Aug. 14.—The naval experts here have been somewhat startled by a seemingly reliable report that England proposes to build battle ships that will relegate the terrible Dreadnaughts to the second class.

The proposed vessel is to have a displacement of 30,000 tons and will have the unique arrangement of six turrets, each to hold three guns. With such an arrangement and with six turrets for the main battery, it would be possible to carry eighteen 12-inch guns. Experts here say that if 30,000 ton ships are built by Great Britain there would be nothing to do but to follow suit and to match at least the first of the new fighting machines.

## JUDGE FALL NOW IN TEXAS CITY

Will Be Here in Few Days to Assume  
Duties as Attorney General  
of New Mexico.

Governor Curry is in receipt of a telegram from Judge Albert B. Fall, who has been appointed as attorney general of New Mexico, in which the latter says he will leave in a few days for Santa Fe. Judge Fall is now at El Paso, Texas, attending to private legal business. Colonel George W. Prichard, the retiring attorney general, is prepared to turn the office over to his successor at any time.

## FROM COLORADO TO TENNESSEE BY BOAT.

Denver, Aug. 14.—Claude Hamilton and his wife of Memphis, Tennessee, who have been spending their vacation in Colorado, will return to the South in a boat. They intend to drift home by way of the North Platte, Platte, Missouri, and Mississippi Rivers. The distance they will go in their boat will be 2,000 miles. They expect to reach Memphis about October 10.

## SECRETARY TAFT BACK IN WASHINGTON.

Washington, Aug. 14.—Secretary of War Taft returned to Washington this morning from his vacation and at once plunged into the great mass of work to be disposed of between now and next Sunday when he leaves on his Western trip and embarks for the Philippines.

procured from deep wells and will have to be pumped by steam or electric power to supply the city; also from a reservoir which will be constructed in the Pajarito River, which runs a great deal of water during the spring months.

Mr. Gamble impressed the reporter as a bright and active young business man who knows a good thing when he sees it and who stated that he had come to New Mexico to make it his permanent home. He was greatly pleased with the town and the county of his residence. He enjoyed his visit to the Capital very much.

## JAFFA SUCCEEDS J. W. REYNOLDS

### President Accepts Resignation of Secretary

### CHANGE NOT UNEXPECTED

**New Official Named on Gov-  
ernor Curry's Recommen-  
dation.**

Oyster Bay, L. I., Aug. 14.—President Roosevelt today appointed Nathan Jaffa, of Roswell, to be Secretary of New Mexico, vice James W. Reynolds, of Santa Fe, resigned.

The news of the resignation as secretary of the Territory of Hon. James W. Reynolds is not a surprise to his many friends, although such to the people generally. It had been rumored for a week that in case of the resignation Nathan Jaffa of Roswell, cashier of the Citizens' National Bank of that city, and one of its leading men in business, socially and in the Republican party, would be appointed upon the recommendation of Governor Curry.

Resignation Was Voluntary.  
The resignation of Secretary Reynolds means that Mr. Reynolds was desirous of retiring upon the assumption of the office of executive by Governor Curry believing and considering it proper and the right thing to do that the new executive should have in the Territorial office closest to that of the Governor an official who was in entire accord with his views of administration and official doings.

The kindest and best of feeling exists between Governor Curry and Secretary Reynolds and the latter's retirement is for the purpose of doing everything in his power to carry the administration policies of the new Governor into the speediest operation. Among the good people of this city and of Las Vegas, his former home, and throughout the Territory, Secretary Reynolds is very well and favorably known as an official and in private life. Universal regret at his retirement from office is expressed. His resignation was brought about by the exigencies of politics and in no wise affects unfavorably his official or personal character.

#### Mr. Jaffa Did Not Seek Office.

As for Mr. Jaffa, he was not a candidate for the position and accepted it at a great sacrifice, but did so in order to do his level best to stand by his old friend, Captain George Curry, by the Republican party of the Territory as well as to aid in every possible way toward the proper, efficient and honest administration of the Sunshine Territory and to help Governor Curry wherever possible for the progress and well being of New Mexico.

Secretary Reynolds has served six years and over in his present position. His commission, had he remained in office, would have expired January 13, 1910. It is expected that Mr. Jaffa will be in Santa Fe just as soon as he can be replaced in the important financial position he now holds, which, it is believed, will be by the end of this month.

## DEMURRER FILED IN DAMAGE CASE

Argued and Submitted Today Before  
Judge McFie—Matter Taken  
Under Advisement.

A demurrer filed by the defendant in the damage suit of Harry Friday against the Santa Fe Railway Company was argued and submitted today in chambers before Judge John R. McFie. Friday it will be remembered was employed as a brakeman on the Santa Fe Central Railway and met with an accident falling from a freight car which resulted in the loss of a portion of one arm. He instituted suit for damages in the sum of \$50,000. Judge N. B. Laughlin appears as counsel for the railroad company and Colonel George W. Prichard as attorney for the plaintiff.

## CLAIMS LAW IS UNCONSTITUTIONAL.

Magdalena, Aug. 14.—Solomon Montoya, who was arrested in Albuquerque last Sunday on the charge of obtaining money under false pretenses, was tried before the justice of the peace here and fined \$50 and costs. The case will be appealed, it being held that chapter 37, of the territorial statutes of 1905, under which the sentence was passed, has been ruled unconstitutional by the district court.

## LITTLE CHANGE IN BIG STRIKE

### Companies Refuse to Treat With Men

### ARBITRATION IS UNLIKELY

**Chicago Awaits Arrival of  
President Small—Associat-  
ed Press Circuit Opened.**

Chicago, Aug. 14.—Pending the arrival of President Small but little progress is being made today in the efforts to secure a settlement of the telegraphers' strike. The companies today adhered to their determination not to receive any deputation from the strikers or to submit anything to arbitration. Both the Western Union and Postal managers asserted they were in better condition than at any time since the strike began.

#### Associated Press Circuit Opened.

Chicago, Aug. 14.—The regular overland circuit of the Associated Press was opened through to Denver and Colorado Springs at 9:33 o'clock this morning.

#### Postal Operators Quit in Frisco.

San Francisco, Aug. 14.—Fifty postal telegraph operators struck here yesterday afternoon. Superintendent Storer says he can handle ordinary business, although slower than usual. Manager O'Brien of the Western Union whose men also struck yesterday, claims to be in better shape than when his men went on strike.

## TELEGRAPH STRIKE BECOMING SERIOUS

Extending to All Parts of United  
States and Cable Lines May Be Af-  
fected—Messages are Delayed.

Business of the country is being more or less tied up by the strike of the union telegraph operators which is spreading to all parts of the United States. Unless the differences between the strikers and the heads of the two great commercial telegraph companies are settled within a few days the cable lines may be affected and there is a possibility that the railroad operators will declare a sympathetic strike.

With the limited force of non-union operators it is an utter impossibility to handle the enormous amount of business transmitted daily over the telegraph wires, but telegrams are being accepted subject to delay. Although there are no operators in this city on a strike, the two offices here are affected because of the delays encountered in sending messages.

The long distance telephone systems throughout the country are reaping a harvest on account of the telegraphers' strike because people having urgent messages to be transmitted do not care to trust to the uncertainty of having a telegram forwarded and cannot wait for the slower process of delivery by mail.

## ALTON RAILROAD PLEADS IMMUNITY

Expects to Effectually Bar Prosecu-  
tion for Granting Rebates to  
Standard Oil.

Chicago, Aug. 14.—Upon a plea of immunity the Chicago and Alton Railway expects effectually to bar prosecution by the government on the charge of granting rebates to the Standard Oil Company of Indiana. This immunity is said to have been promised the Alton before the indictments against the Standard were returned last August, and in consideration of it the Alton furnished the federal authorities with all proof necessary to convict the oil trust. The federal grand jury convened today to investigate the charge against the railway company. Counsel for the Alton, however, claim they are not worrying over the outcome.

## JAPAN BUYS WAR TRANSPORTS

Pays \$400,000 for Two of Finest Ships  
in Canadian Pacific Railroad  
Service.

Bellingham, Wash., Aug. 14.—A dispatch to the Revue from Vancouver, says: "To be used as transports in time of war the Japanese government has purchased the steamships Tartar and Anthenian from the Canadian Pacific Railroad. The craft has been plying regularly between Australia and Vancouver. They are the finest vessels in the Canadian Pacific service. It is understood the price paid was about \$400,000."

## TERRITORIAL RIFLE TEAM IN PRACTICE

Santa Fe Detachment Leaves This  
Evening for Las Vegas Preparatory  
to Going to Camp Perry.

Preparatory to competing in the national rifle tournament at Camp Perry, the team which will represent the New Mexico National Guard will have a few days' target practice on the Territorial range at Las Vegas.

Sergeant E. S. Andrews, of Company F, First Infantry, New Mexico National Guard, went to the Meadow City night before last to erect the target frames, and have everything in readiness for the preliminary practice. The following other local members of the team will leave tonight: Team captain, Brigadier General A. P. Tarkington; range officer, Lieutenant Colonel E. C. Abbott, Lieutenant S. C. McCrimmon, Lieutenant H. E. McCullough, Lieutenant Carlos Vierra, First Sergeant J. H. McHughes, Quartermaster Sergeant Ashley T. Reed, Sergeant John Gutterman, Corporal Charles Lingenfelter.

Lieutenants E. A. Lohman and George E. Buffman, of Roswell, were expected to leave city today for Las Vegas, and Sergeants E. C. Wade and W. R. Ames leave tonight from Las Cruces. These constitute the territorial rifle team, with the exception of Major R. C. Rankin, of Las Vegas, and Major B. Ruppe, of Albuquerque, who will join the team in the Meadow City as "coach" and "spotter" respectively.

## TO EXPOSE FAKE MINING SCHEMES

General Uncovering of Alleged Frauds  
to Be Feature of Federal Grand  
Jury at Denver.

Denver, Colo., Aug. 14.—A general uncovering of alleged mining frauds is likely to be the feature of the next session of the federal grand jury. The postoffice inspectors have been at work on a large number of cases since the session of the grand jury last spring, and they have an immense mass of evidence partly ready to be submitted to the district attorney for presentation to the grand jury. It is expected that a grand jury will be called in October to meet at either Denver or Pueblo.

The grand jury last spring returned several mining fraud indictments, including those against the Lost Bullion Spanish Mines Company. It now appears that this was but the preliminary outcropping of a sweeping investigation, which may, before it is finished, involve hundreds of men in trouble with the federal authorities.

Just how many cases, if any, will be presented to the grand jury this fall cannot be predicted. The action of the government may depend in part upon the outcome of the Lost Bullion trial now in progress in the United States district court. It is said upon good authority, however, that the post-office inspectors are at work on something like 100 cases.

## KILLS WOMAN WHO SHOT BROTHER

Friendly Scuffle Ends Fatally at Coal  
Camp of Dawson—Slayer  
in Jail.

Dawson, N. M., Aug. 14.—Lizzie Zeller, is dead and John Jenkins is probably fatally wounded as the result of shooting affray which occurred here last night. Tom Jenkins, brother of the injured man is in the county jail at Raton, charged with the murder of the Zeller woman.

It is stated that John Jenkins went to the house of the Zeller woman and was engaged in a friendly scuffle for the possession of a revolver when the weapon exploded. The bullet struck Jenkins in the left breast near the heart.

As soon as Thomas Jenkins heard of the affair he ran to the place and asked that the woman be pointed out to him. When this was done, it is alleged that he shot her three times. Death was instantaneous.

The Jenkins are prominent here, their father being a pioneer in the district. The boys are miners, and also have worked for the Santa Fe Railway.

## DESERTED BY ELOPING RECTOR

Unfrocked Minister Leaves Young  
Girl Who is in Canadian Sanitar-  
ium a Nervous Wreck.

Hemstead, L. I., Aug. 14.—According to news that has reached Hemstead, the awakening has speedily come to Miss Floretta Whaley, the 17-year-old girl who eloped April 29 with her guardian, the Rev. Jere Knode Cooke, then rector of St. George Episcopal Church at Hemstead. Miss Whaley, it is reported, has been deserted by the unfrocked minister and is reported to be in a sanitarium in Canada, a nervous wreck. The whereabouts of Cooke have not been learned.

## SOME FRUIT IS BEING RAISED

### San Juan County Will Have Half Crop

### APPLES BRING FANCY PRICES

**Navajo Indians Share in  
General Prosperity of  
Northern New Mexico.**

An early spring followed by late frosts caused the destruction in the bud of orchard fruit the length and breadth of the United States with the exception of in a few favored sections of the country. In most localities the fruit crop this season is a total loss and in other places only about half a crop will be raised. San Juan County, New Mexico, is placed in this latter category and the fruit growers there will derive more revenue from their half crop this season than they did last year with a full crop.

Arthur M. Edwards, an attorney of Farmington, who is also a member of the Bureau of Immigration, has been a visitor the past few days in the Capital. Mr. Edwards is identified with a large canning factory in his home town and naturally he is deeply interested in the fruit outlook. The prospects are that there will be little left for canning as there is a healthy demand for the fresh fruit which is growing as the season advances. Mr. Edwards in an interview last evening stated that summer apples which a year ago were fed to the hogs or rotted on the ground are now being sold at one dollar and a half per box in Farmington. He said:

"San Juan County farmers and fruit growers are this year experiencing the most prosperous season in the history of the county. While some of the growing orchard fruit was damaged by the spring frosts the almost total failure of the fruit crops elsewhere has resulted in a great demand and high prices for the San Juan product.

"The apple crop this year is especially abundant and of a superior quality. Summer apples which were fed last year to the hogs on account of the immense crop are now bringing one dollar and a half per box at Farmington. Near Cedar Hill in the northern part of the county good peach and pear crops are being raised. It seems that the peaches and pears were not far enough advanced in this section to be destroyed by the frost as was the case in the southern portion.

#### Crops Bring High Prices.

"Vegetables and cereals of all kinds have done well this season, thanks to the abundant rains which furnished plenty of moisture for the growing crops. The alfalfa crop has been unusually abundant. Altogether it will be seen that the agriculturists and the horticulturists have every reason to be happy and contented. The fruit growers will receive more for their half crop of apples this year than they did for a full crop last year.

"The Navajo Indians are sharing in the general prosperity of that section of the Territory. They are entirely self-supporting and raise good crops of corn and other products by their own "dry farming" methods. They possess large herds of sheep and are now investing in spring wagons, top buggies and other luxuries of the successful farmer.

"The restoration to entry of over 200,000 acres of land adjacent to Farmington, Fruitland and La Plata means a great increase in population. These lands are open to selection on September 9 and to entry on October 9. They comprise some of the best land in the county. Surveys are now being made for a ditch to cover these lands, including the famous "meadows," which are embraced in the restoration order.

#### Want New Bridge.

"The county commissioners, it is hoped, will soon build a bridge across the San Juan River, which will divert a large trade that now goes to Thorpe and Gallup and will open up for easy settlement an immense area of the finest land in the county.

"Farmington has raised \$2,500 for the fencing of the fair grounds and the erection thereon of a grandstand. The Farmington fair to be held September 18 to 21, will be the largest and best ever held in San Juan County.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## CURRY WILL "MAKE GOOD."

Referring to the inauguration of Governor George Curry as executive of New Mexico last Thursday in the issue of the Roswell Register-Tribune, Republican in politics and a weekly newspaper having a very large circulation in southeastern New Mexico appeared an editorial which is very timely, very interesting and hence very readable. The New Mexican coincides with its Roswell contemporary when the paper said in its last issue:

"Today at Santa Fe, George Curry is inaugurated with due ceremony as Governor of the Territory of New Mexico. Numerous citizens of Roswell and Chaves County, and of the Pecos Valley, who consider him one of their own, are there to see that the job is well done, and to demonstrate to the rest of the Territory that the people of this section believe in and back up their men, no matter what their politics may be, and that they are first of all for good government.

"The circumstances attending the appointment of Governor Curry are perhaps without parallel in the history of the commonwealth. Mr. Curry did not seek the office, did not want it, and took it only upon the insistence of the President, who depended upon his knowledge of Territorial conditions and his ability to administer the principles of a square deal so clearly shown in his work in the Philippines to restore peace among the warring factions in the Territory. It is understood at the start that the ideas of President Roosevelt will be adhered to very closely in his administration, and all fair people applaud the declaration, as well as the announcement that the only purpose of the new administration will be a clean government.

"That is certainly just what we need. We have had too much of diplomacy and 'practical' politics. The disastrous administration of Governor Hagerman, begun with the very highest and cleanest ideals, has resulted in a combination of circumstances that are to say the least unfortunate, and which President Roosevelt is wise in his determination of abatement. From our knowledge of him, we know that he will not be deceived by the slogan of fake reform, and that he will cause a general clean-up that will restore the Republican party to the position and prestige that rightfully belongs to it.

"So far as Governor Curry is concerned, there need be no fear whatever. He is going to make good. He always did, and he always will. The present task that lies before him is a big one, but he is going to take care of it properly, as a stepping stone to something better. The matter of his personal politics is not of moment. He stands as the representative of the greatest Republican administration in the history of the country, the wisest and the most successful administration that has stood for the principles of Republicanism. That we like and have confidence in him personally is proven by the welcome we gave him this week.

"All good citizens, irrespective of party, will hold up the hands of Governor Curry. The Register-Tribune proposes to do so, reserving the right of criticizing his actions the same as if Roosevelt himself were the man, and it feels that the people of the Pecos Valley will do the same thing."

## IS THERE A REAL DEMOCRATIC PARTY?

As the Presidential campaign approaches, the question, is there a real Democratic party in existence in the United States, is becoming more and more a matter of serious discussion and consideration. In the great cities the newspapers are handling it with great gusto, often very seriously, and at times very cleverly. It seems to be pretty well conceded that so far Colonel Bryan has the "bulge" on the Democratic, its platform, and its doings, and that this state of affairs will continue and will be carried into the next national Democratic convention. The Washington Post in handling the situation is one of the papers that take the clever and at the same time rather consistent view and believes that it is a rather healthy sign, the discussions among Democrats as to what the national platform of 1908, shall declare. As a general proposition the candidate is the platform, and it is always so when the candidate is the most conspicuous man of his party, as were Jackson, Clay

Grant, Blaine, Cleveland in 1892, Bryan in 1900, and Roosevelt in 1904. Nobody paid the slightest attention to platforms when these men were on their respective tickets.

Suppose Roosevelt were re-nominated? Who would think of the platform, except as it would be incarnate in Roosevelt's personality and interpreted in Roosevelt's administration? Platforms are mere dragnets for votes. Every Republican platform declares in effect, that Mississippi is a Republican State, and of right should return a Republican majority. That is for our colored fellow-citizens who vote at the North; but it is a dead letter the day after election as the Hon. Crumpacker and Keifer can testify.

And so if Mr. Bryan should be the nominee of his party a Democratic platform would be a perfectly useless and absolutely worthless piece of paper, that might as well be written in Sanscrit. Nobody would read it, in the first place, and if any one should discover curiosity enough to examine it, he would throw it aside as so much poppycock. Mr. Bryan and Mr. Bryan's speeches would be the platform and it would be the most voluminous declaration of political principles the world ever saw.

Whatever Mr. Bryan stands for the party would have to tote, because, next to Mr. Roosevelt, Mr. Bryan is the most conspicuous American now living, and as the nominee he would be absolute autocrat of his party. If our Democratic friends are serious in making a platform, a real platform, like those of 1856 and 1876, it might be well enough for them to get a lantern and go about looking for a candidate.

From what appears on the surface, the Democratic platform makers insist on a strong States' rights plank, but Mr. Bryan indorses the Beveridge child labor bill. They also demand a strong tariff plank, declaring for revenue only, but Mr. Bryan has decreed a subordinate place for the tariff.

Nevertheless, it is healthy to discuss the platform at this stage. If there is a real Democratic party left in this country, it may be able to build a real Democratic platform.

## WILL SUPPORT GOVERNOR CURRY.

In commenting upon the inauguration of Governor George Curry and his assuming the office of executive of the Sunshine Territory, the Albuquerque Citizen will hereafter, judging by the following editorial comment, be of the many Republican newspapers which have the true interests of the Territory at heart, and will hold up the Governor's hands and aid in making his administration a benefit to the people, a credit to the Territory, and an honor to himself. Especially as a matter of record it is well and timely to record such editorial expressions, and hence the New Mexican, with much approval, publishes the editorial remarks of its Duke City contemporary. The Citizen says:

"The enthusiastic inauguration and reception tendered Governor Curry by the good people of this Territory at Santa Fe last week, augurs well for his future as our executive. Governor Curry has the confidence of the people and of the Republican leaders and his determination not to recognize factional fights will give him much more latitude in choosing his appointees than Hagerman had under his narrow and biased administration. Governor Curry is broad minded in public and private life and he will not be found wanting when he is called upon to decide upon a course of action in an emergency. Having no wealthy father to pay the bills, the new Governor will, of course, not employ 'expert' counsel to tell him what to do. His record shows that he is possessed of brains of his own and uses them very effectively. Governor Curry will make good."

## "AS OTHERS SEE THEM."

The Bisbee (Arizona) Review gives the following harrowing view of what happened in Santa Fe on the day of the Curry inauguration. That those "political pirates" referred to might see themselves as others see them the New Mexican republishes the item with the additional information that ex-Governor Hagerman was not in the Capital of the Sunshine Territory on that auspicious occasion. The Review says:

"Many of the New Mexico political pirates who were slobbering over Governor Curry on the occasion of

his inauguration yesterday were likewise fawning at the feet of Governor Hagerman when he was inaugurated. "The dispatches did not mention the presence of ex-Governor Hagerman at the inauguration of Governor Curry. It is likely that the ex-Governor was down on the banks of the Pecos whetting his political snicker-see in preparation for the New Mexico political battle next year."

## THERE WILL BE NO TROUBLE WHATEVER.

An anxious inquirer addresses the New Mexican to know, post haste, if any of the special agents or special attorneys from the national capital have as yet been assassinated in Santa Fe or in New Mexico. The New Mexican hastens to assure its anxious inquirer, who is evidently sincere and conscientious, that nothing of the kind has happened so far as known, and it is believed that every one of these gentlemen is eating three meals a day and drawing his salary with the utmost regularity and precision. The New Mexican also violates no confidence in saying to this anxious inquirer that it looks very much as if no assassinations were contemplated by anybody, and that as long as the parties interested will pay their board and settle any other bills they may incur there will be no trouble whatever.

## STOP THEIR TAX DODGING.

Among the greatest tax dodgers in this Territory are the water supply corporations of this city and of Albuquerque. The law to compel these sharks and wolfish corporations to pay honest and just taxes is strong enough if the Territorial Board of Equalization will take a hand and enforce it, and if the law officers of the Territory and counties will see to it that no undue or underhand advantages are taken and that the rights of the people in the courts are properly protected. This is a question between the decent people and the corporations and the decent people must win despite the bribing and corruptions exercised by these trusts. Fair taxation, decent water rates and just prices for light, electric or gas, are demanded, and they must be had and will come.

The Roswell Register-Tribune pays the following well-deserved compliment to W. S. Shepherd, who recently retired as owner and editor of the Alamogordo News after seven years' service:

"W. S. Shepherd has sold the Alamogordo News, to J. P. Anan, after seven years of service, which should entitle him to a seat in the Territorial Legislature at the very least, and certainly to the honor of being the man who has done the most for Alamogordo."

Mr. Shepherd is one of the pioneers of what is now Otero County, and has done good work for twenty-five years past in aiding and bringing about the present growth and prosperity of that section. Credit where credit is justly due.

These fine August days are somewhat warm in certain sections of New Mexico but nevertheless the New Mexican thinks it a very good time to recommence its long and serious campaign for statehood for the people of this commonwealth. It can not be commenced any too soon. If they will work together loyally, faithfully and steadfastly and send the false affidavit makers, the shysters, the back-biters and culminators to the rear, they stand a mighty good chance of securing an enabling act and a liberal one at that during the Sixtieth Congress and probably during its first session.

The good citizens of the town of Socorro, have gotten together, formed a county fair association, and propose to give creditable fair exhibitions in their pretty little city. They will make a commencement this year and have already secured the presence of Governor George Curry. This is an auspicious beginning, and there is no good reason why the fairs in the Gem City should not become important and valuable as well as paying.

"It is an ill wind that blows no one good." The apple crop of San Juan County will be only one-half this year of what it was last season, but more money will be realized than in 1906 with a full crop. Purchasers will have to pay much higher figures and contracts are already being made. Blessed San Juan County will be about the only section of the Sunshine Territory that will produce any fruit of consequence this year of our Lord.

It seems that the awful tide wave of corruption and the cyclone of broodism which have swept over New Mexico for 10, these many years, have been suddenly checked. Even the yellowest of the yellow sheets of the Territory have not said boo for a day or two and the false affidavit men, the backbiters and knickers have also taken a temporary rest. For this relief much thanks.

There is so much prosperity in the Sunflower State that the people there are becoming too high toned. The recent Legislature has passed a statute forbidding the bakers in Kansas to knead dough with their feet. What is this country coming to, anyway?

Walter Wellman may not discover the North Pole this year but evidently he and his companions are having a good time trying.

Judge Mills Grants Application of Petitioners—Treasurer Must Submit Report Quarterly.

Las Vegas, N. M., Aug. 14.—In the matter of the application for the appointment of a secretary to administer the affairs of the Las Vegas land grant, Judge W. J. Mills has made the following ruling:

"That the said board of trustees employ, beginning with the first day of September of this year, at the quarters rented by the board, for the purpose of transacting business pertaining to the Las Vegas grant, a clerk, at a compensation not to exceed the sum of \$75 a month, whose duty it will be to be present at all the meetings of said board and to take notes of all proceedings of the board at both their regular and special meetings and to enter the same in full in the proper books of record of the proceedings of the board and to preserve the records, books, contracts, reports and all papers filed with the trustees in his possession and during reasonable business hours, to be prescribed by the trustees, Sundays and holidays excepted, to keep the office open and the records for inspection by all parties who may desire to examine them."

The court further orders that the treasurer of the board shall make a full report every quarter as to the amount of funds on hand derived from the sale of lands on the grant and from all other purposes, and that \$45,000 of the funds now on hand be deposited in the First National and San Miguel Banks to bear interest at the rate of 4 per cent per annum.

Chaplain and Mrs. C. C. Bateman, stationed at the Fort Bayard Military Sanitarium, are visitors in Fort Wingate, where the chaplain officiated last night at the wedding of Lieutenant William V. Carter to Miss Helen Hunt, daughter of Colonel George K. Hunt, of the Fifth United States Cavalry, commanding officer at Fort Wingate. Lieutenant Carter is a son of Brigadier General William H. Carter, Brigadier General Thomas, commander of the Department of Colorado, and a large number of other army officers, attended the wedding, which was one of the most brilliant army social events ever held in the Southwest.

## Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds it strengthens; it offers real, genuine heart help. If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Mrs. J. P. Lyng has issued invita-  
tions to a card party Wednesday eve-  
ning to meet her niece, Miss Helen  
Walsh, of Portsmouth, Ohio.

The Misses Dibert will entertain  
at a dancing party tonight in honor  
of Miss Laura Gray of Ocean Park,  
California, who is a guest at the Di-  
bert home.

Mrs. Nettie Baldwin, one of the op-  
erators at the local telephone ex-  
change, has been confined to her  
apartments on Johnson street for sev-  
eral days by sickness.

Custodian David Miller of the Cap-  
itol building put several of his men  
to work yesterday cutting the weeds  
in the vacant lot where it is proposed  
to erect an executive mansion. With  
the weeds gone the looks of the prem-  
ises are greatly improved.

A war on the weeds has been in-  
augurated and it should be waged un-  
ceasingly until these are entirely an-  
nihilated. The weeds should be burned  
or carted off after being cut instead of  
thrown into the streets or alleys to  
create a greater stench than before.

A decree of absolute divorce was  
granted by Judge Ira A. Abbott, in  
the Second judicial district court of  
Bernillo County, at Albuquerque,  
yesterday, to Felix Torres, from his  
wife, Josephine Lopez de Torres, on  
account of abandonment and deser-  
tion.

Forty hour devotion services will  
begin tomorrow morning in the chap-  
el of the Sisters of Loretto marking  
the close of a retreat which has been  
in progress since August 5. The re-  
treat of the local community is be-  
ing conducted by Reverend Father  
Roy, a Jesuit priest.

William R. Kelly is reported as  
slowly improving at St. Vincent's Hos-  
pital. He is suffering from an attack  
of mountain fever. Mr. Kelly who  
came to this city several months  
ago from Greeley, Colorado,  
has been granted a temporary per-  
mit to practice law pending the next  
session of the Territorial Supreme  
Court.

Tomorrow is the feast of the As-  
sumption of the Blessed Virgin which  
is observed as a day of fasting and  
obligation by Catholics. Special ser-  
vices will be held in all of the Cath-  
olic Churches in honor of the feast  
it commemorates. Low mass will be  
celebrated at 6 a. m. and solemn mass  
at 9:30 a. m., at the Cathedral.

Encouraged by their fine showing  
last Sunday against the Albuquer-  
que McIntosh Browns, the local base-  
ball team is practicing daily and is  
confident of wrestling victory away  
from the Duke City aggregation when  
they cross bats again next Sunday.  
Several hundred people will probably  
go on the excursion from this city to  
Albuquerque to witness the game be-  
tween the two old time rivals.

## SIGHTS OF SANTA FE

(A brief outline of Points of Interest in and about the City of Santa Fe. A Guide for Tourists.)  
(July, 1907.)

The Plaza.—Under the care of the Woman's Board of Trade. Here Onate camped and set up the banner of Spain in 1598. Here the Pueblos in the uprising of 1680 burned the archives and historical records of the Province. Here De Vargas halted in triumph after taking the city from the Pueblos in 1692. Here General Kearny planted the Stars and Stripes in 1846. Most of the thrilling historical and gala events for the past three hundred years have centered here.

The Old Palace.—Without doubt the oldest governmental building in the United States. Date of construction variously set from 1598 to 1607. ### TOWN OF CLOVIS IS BOOMING

Contract Let for \$50,000 Harvey House—Many Buildings in Course of Erection.

Special to The New Mexican.

Clovis, N. M., Aug. 14.—Fully one-half of the grading is now done on the Pecos Valley line cut-off between Clovis and Cameo. When this part of the road is built the old track between Texico and Cameo will be torn up and Clovis will be the junction point between the Eastern Railway of New Mexico and the Pecos Valley line.

The contract was let yesterday for the \$50,000 Harvey House to be erected here. With a concrete coal chute, eighteen-stall roundhouse and a two-story concrete depot, Clovis will have a splendid equipment as a railroad town and in time will undoubtedly be on a par with Albuquerque as a railroad center.

Forty carloads of brick are en route here from the east and a dozen fine business blocks are in course of construction. Renters are wanting buildings faster than they can be erected.

The Roosevelt County Telephone Company is putting in an exchange at this place. The company already owns four exchanges in this county and has 250 miles of toll lines in operation. The company also owns the only metallic system in Eastern New Mexico.

W. F. Bayless, of Roswell, is putting in a large coal and grain yard here, and Kemp Brothers, who own lumber yards at Artesia, Lakewood, Roswell, Texico and Fort Sumner, are putting in a yard here.

### WILL ORGANIZE PRESS ASSOCIATION.

Roswell, N. M., Aug. 14.—A call has been issued for the purpose of organizing a press association to embrace the Pecos Valley section. The date set for holding the first meeting is Wednesday, August 21 and the meeting will be held in this city. This date was selected as the New Mexico Bar Association will be in session at that time and Governor George Curry is expected to be here, which will give the valley editors a chance to meet the new executive. The purposes of the association will be to promote friendship among the various editors and to advance the profession.

### SILVER CITY BOY ON TOUR OF EUROPE

Silver City, N. M., Aug. 14.—Arnold Rosenfelt, of Hanover, this county, has written his father, R. Rosenfelt, that he is greatly enjoying his tour of the Continent. After all young Rosenfelt thinks New Mexico is the only place to live.

### NEW SETTLERS STILL COMING

Eighteen Families From Texas Join Advent Colony Near Kenna, in Chaves County.

New settlers continue to settle in the Pecos Valley in large numbers, as is evidenced by the following item in the last issue of the Kenna Record: "This time it is fifteen to eighteen families from Kenna, Texas. These people come to join the Advent colony already established northwest from here in the Pecos Valley, near the river. They will load their cars at Kenna about the fifteenth of this month. This country is developing rapidly. There are houses going up in every direction every day and with the nesters coming in at this rate there will be a house on almost every quarter section in twelve months' time."

### TEXICO TO HAVE DAILY NEWSPAPER.

Texico, N. M., Aug. 14.—It is announced that the Texico Trumpet will begin the publication of a daily in the near future. This town is growing rapidly and those behind the proposition believe that a daily paper will pay from the start. If a daily is launched, Texico will be one of the smallest towns in the Territory to boast of a daily paper.

### LOSES EYE AS RESULT OF PECULIAR ACCIDENT

Kenna, N. M., Aug. 14.—One of the most peculiar accidents on record happened to W. H. Blackwell, a new settler residing four miles from here, one day recently. While engaged in cutting "soap weeds" a stalk flew up and pierced his left eyeball, causing the entire loss of the eye. He came to this city and had the injury dressed. The accident was very painful as well as unfortunate.

### GATHERING DATA ABOUT STREAMS

U. S. Geological Survey Aiding Territorial Engineer in Ascertaining Flow of Rivers.

Territorial Engineer Vernon L. Sullivan has enlisted the co-operation of the United States Geological Survey in gathering data concerning the flow of the various rivers in New Mexico. The geological bureau has agreed to furnish all of the instruments and other paraphernalia for the work, as well as paying the salary of observers, providing Mr. Sullivan will take charge of the several gauging stations established throughout the Territory.

The Territorial engineer has already initiated the work of securing hydrographic measurements of the principal rivers in New Mexico for the purpose of determining the per second flow of water at different seasons. Twelve of these stations have already been established and more may be installed later. Mr. Sullivan is deeply interested in this work and believes the data thus secured will prove valuable, as it will be given publicity through the medium of the United States Geological Survey and the free advertising thus obtained will be of inestimable benefit. Mr. Sullivan has not yet decided what course he will pursue in this work. Owing to the routine duties of his office, which require his presence, he is thinking seriously of having an assistant appointed.

### APPROVES PLATS OF IRRIGATION WORKS

Territorial Engineer Sullivan Grants Permit to Citizens' Ditch and Irrigation Company.

Territorial Engineer Vernon L. Sullivan has approved the plans and specifications of the Citizens' Ditch and Irrigation Company, which proposes to place under irrigation about seven thousand acres of fertile land in San Juan County. Blue print plats of the project have been filed in the Territorial engineer's office. Mr. Sullivan satisfied himself of the practicability of the enterprise on a recent trip of inspection in which he went over the land. The Citizens' Ditch and Irrigation Company is incorporated and capitalized at \$75,000. It is estimated that the irrigation works complete will cost between \$75,000 and \$80,000. The water will be diverted from the San Juan River, which flows through the county.

The directors of the company are Charles E. Spath and Wallace Epperson, of Aztec, and Walter McClove, Fred W. Townsend and George Salmon, of Bloomfield.

### LAS VEGAS-MORA ELECTRIC LINE

\$40,000 Subscribed at Enthusiastic Meeting of Capitalists in Meadow City to Further Project.

Las Vegas, N. M., Aug. 14.—At an enthusiastic meeting of the Commercial Club, held here \$40,000 were pledged by local capitalists and Felix Martinez, a wealthy citizen of El Paso, Texas, for the construction of an electric line between this city and the town of Mora. The project has been in the air for some months and was brought to a head on Saturday evening last, when Martinez, a former resident of this city, but now of El Paso, outlined a plan by which the undertaking could be carried out successfully. In company with Martinez, Dr. J. M. Cunningham, Jefferson Reynolds, H. W. Kelly, Charles Ireland and others will back President W. A. Buddecke, of the Las Vegas Railway and Power Company, in the enterprise. Already a substantial sum has been pledged and a committee consisting of the above named men is now at work soliciting additional funds for the road. It is thought there will be no trouble in securing a sufficient subscription to inspire eastern capital to build the line. The road will tap a rich section heretofore without rail communication.

Of the \$100,000 necessary the sum of \$40,000 has already been raised as follows:

The San Miguel National Bank, \$10,000; The First National Bank, \$10,000; H. W. Kelly, \$5,000; Charles Ireland, \$5,000; Felix Martinez, \$5,000; W. A. Buddecke, \$5,000.

### THIRTEEN TEACHERS ARE NOW ENROLLED

At Santa Fe County Institute in Progress at High School Building—Attendance Smaller Than Usual

Thirteen teachers are now enrolled at the institute of Santa Fe County which is in progress at the High School building in this city and will continue two weeks. Superintendent J. A. Wood of the city schools attributes the small attendance to the fact that during the past few years permits have been given teachers without the requirement of attending an institute. County Superintendent John V. Conway is emphatic in saying that no such permits will be issued this year even if some of the schools will have to close on account of not having teachers. He says the schools might just as well remain closed as to have children taught by incompetent teachers. If there are not enough qualified teachers for the rural schools of the county he proposes to arrange the terms so that it will be possible for some of the teachers to preside over two schools.

### DOWIE COLONY IN SAN MIGUEL COUNTY

Voliva Will Bring Portion of Followers at Zion City to New Mexico.

Las Vegas, N. M., Aug. 14.—A Dowie colony will settle on the mesa near this city on a tract of 5,000 acres, which has been purchased by representatives of Voliva, who succeeded the late Alexander Dowie as leader of the people of Zion City. Negotiations are now under way for the purchase of 5,000 acres additional land for these people, who are mostly thrifty farmers and who intend to turn the lands into rich farms.

It is expected that Leader Voliva will visit this city at an early date with a few of his followers for the purpose of completing arrangements for the transfer of a number of the members of the Dowie religion to New Mexico. It is the intention of Voliva to establish a city in the Territory similar to that of Zion, only on a smaller scale.

During the past few weeks thousands of acres of land in this county have been disposed of to Iowa parties, who will colonize the tracts with farmers from the populous sections of the Hawkeye State.
