IRRIGATION CONGRESS OPENS

Fairbanks Outlines Plans of Government

IN INTERESTING ADDRESS

Delegates Gather at Sacramento From All Parts of West and South.

Sacramento, Calif., Sept. 2.—Many governors, Senators and Congressmen and other distinguished men of the West and South and hundreds of less famous delegates are assembled in this city to attend the sessions of the Fifteenth National Irrigation Congress which opened here today. The guests were welcomed to the city by Governor Gillette and Mayor Beard and will be entertained in an elaborate manner during the week. Vice President Charles Warren Fairbanks was the principal speaker at the first day's session. His address had to do with irrigation, the work of the Reclamation Service and the preservation of the forests of the United States. Mr. Fairbanks said in part:

"The suggestion that the government should participate in the work of irrigation awakened some opposition among those who had given little thought to it and who failed to realize its tremendous possibilities. I look upon no incident of my public service with more satisfaction than the support which I gave to the reclamation act upon the statute books. The measure now speaks for itself. Its critics have become its supporters and the marvel of it all is that its virtues were not earlier foreseen and such a measure sooner enacted. The work of development under it may sometimes seem to be slow. The results, however, are sure. Those who are familiar with what has been done by the government will agree that much progress has been made and that the faithful execution of the law will result in bringing under a high state of cultivation many millions of acres of land which are now unproductive.

Wonderful Results of Irrigation.
"The effect of irrigation in this western country can be appreciated only by those who are familiar with it from personal observation. The change made in the conversion of an arid waste into fruitful fields seems almost incredible. There is no more radical transformation to be found anywhere than in the parched valleys and plains which have been irrigated and which prior thereto produced nothing but sage brush. The most unproductive land has become the most fertile. From the worst, it takes rank as the best. It is hard to find anywhere more apparently unproductive land than that which is occupied by sage brush, and no more bountiful harvests are gathered than those which this same forbidding land produce when touched by the vitalizing influence of irrigation. There are promising fields today where there was no sign of habitation before we entered upon the present reclamation policy, and what is being done is but prophetic of what we shall accomplish if we faithfully adhere to the policy upon which we have entered and carry it out to the limits of its possibilities.

"We have long since passed the experimental stage and it only remains to push the work wherever feasible with the utmost vigor. The reclamation of every ten or twenty acres of land means the creation of a homestead which will comfortably support a family of industrious, intelligent and patriotic American citizens.

"The development of irrigation by the national government must have a profound and far-reaching influence upon the general subject of irrigation throughout the country. It will tend powerfully to the extension of irrigation into portions of the country which have hitherto relied largely upon rainfall in the cultivation and growing of crops. There is no more important subject for the consideration of farmers in many of the humid and semi-humid regions than that of so-called supplemental irrigation. We must prepare more and more for the increased demand upon our food supply which comes with the multiplying millions of our population. Therefore the development of the subject of irrigation is of interest, not only to the farmers of these great western regions but to the farmers and consumers everywhere.

Forests Must Be Saved.
"Closely related to the subject of irrigation is the work of forestry preservation. The two subjects go hand in hand. We have pursued a some-

what reckless policy with regard to the forests of the United States. In some sections of the country, in fact, in almost every section, we have denuded our lands of timber in what now seems to have been almost a wanton fashion. We have thought only of today, having no proper regard for the future. The demand of the country for timber needed to build our railroads, construct our cities and homes has been tremendous. We have cut away our forests and paid no attention to the necessity of taking steps for their ultimate restoration. We now see what some of the older countries in their experience have seen, that it is necessary to adhere to a rational, scientific forestry system not only in the interest of our future forests but in the interest of the important subjects of irrigation and navigation. It is but a truism that if the forests are swept away, the rainfall quickly flows into the streams and is wasted into the sea, whereas, if the trees are properly preserved upon the watersheds, the rainfall and melting snows are stored in nature's reservoirs and are gradually fed into the streams for the benefit of both agriculture and navigation.

"We are earnestly carrying forward the construction of the Panama Canal, confessedly a work of great importance not only to our commerce but to the commerce of the world. Important as this matter is, it is not more important than the improvement of navigation upon many of our rivers. The improvement of navigation upon them may well go hand in hand with work upon the great canal. The one is in a very considerable degree the complement of the other. This is a large subject and must be considered in a large way.

More Business and Less Politics.
"Upon such an occasion as this, I would not venture to obtrude politics; nothing could be more inappropriate. The fact is that we have a surfeit of politics. What we need most is more business and less politics. Unless the business affairs of the people are arrested by unwise policies, unless the seeds of distrust are sown among ourselves, unless commercial unrest is encouraged by doctrinaires, we shall continue to expand our industries and the great west will continue to grow and fulfill her mighty destiny. Can we stand prosperity? We are in the midst of a prosperity the like of which has never before been seen. Can we utilize it to our benefit? Can we retain it or will we distrust each other and involve it all in hopeless confusion? There never was an hour when it was more important that we should be governed by sober judgment. We should sedulously cultivate a tolerant spirit and a spirit of justice towards each other. We should not forget that confidence is the sure foundation of prosperity and progress, and we should have a care that we do not undermine it.

"Our rapidly multiplying industries and increasing population give rise to new questions which tax the wisdom and patriotism of our people. In recent years we have out of the evils which inhered in our commerce between the states, under the sharp and certain condemnation of the written law. We have sought to expatriate them in the interest of fair play. We have proceeded advisedly, not blindly, to destroy the bad and preserve the good. We are bringing to the solution of these and other problems an enlightened judgment and exalted purpose. We are solving them and will continue to solve them according to the principles of justice and in the interest of wholesome trade and commerce. The American people do not go far astray because there is a national conscience which never sleeps, and their conclusions are reached by its unfailing light."

ANGRY BULL GOES MATADOR

Juarez Ring Scene of Fatal Tragedy—Thousands Saw Sickening Incident.

El Paso, Texas, Sept. 2.—Moronito Chino, a matador, was caught on the horns of an angry bull in the bull ring at Juarez, yesterday. The unfortunate man was horribly mangled by the infuriated animal. Thousands of people, among whom were many Americans, saw the contest in which the bull unexpectedly proved the victor. It is said today that Chino cannot live until morning.

BURGLAR KILLS COAL OPERATOR

When Latter Flashed on Electric Lights Intruder Shot Him and Escaped.

Cleveland, Ohio, Sept. 2.—John J. Phillips, a prominent coal operator, was shot by a burglar at his home on Mount Union street last night and mortally wounded, dying a few hours after. Phillips, upon hearing some one moving about the house, arose and turned on the electric lights. At the same moment a revolver shot rang out, and he fell fatally wounded. The burglar escaped.

PLANS SPEECH MAKING TOUR

President to Talk Much on Memphis Trip

NOW PREPARING ADDRESSES

Canton, Ohio, Keokuk, Iowa, Cairo, Illinois and Other Towns to Be Honored.

Oyster Bay, Sept. 2.—The preparing of half a dozen addresses, each to be read very generally by a nation of eighty million people, to be delivered from September 30 to November 1, is a task to which the President is now devoting his time from 8 o'clock in the evening until midnight, when he retires to rest. Besides the half dozen set speeches the President is to be called upon for as many more extemporaneous talks.

The President is to terminate his vacation with a dash through the Middle West and the southern States. He will appear first at Canton, Ohio, on September 30, and a few days later at Keokuk, Iowa, he is again scheduled to deliver an address. Although there is no intimation of the character of these speeches, it is thought that they will deal with the problems of the day. At this place the President will begin his cruise down the Mississippi River aboard a steamer bearing the name of the river. The journey on the steamer will give no opportunity for platform talks and handshaking with the admiring populace, but it is expected that many persons will line the river banks just to get a glimpse of the President as he floats down the Father of Waters. The river trip will be punctuated with functions at St. Louis, where a speech will be delivered; at Cairo, Illinois, where there will be another talk, and at Memphis, where the trip will end.

On the way back from Memphis to Washington by train, there is indication that the President will be forced to yield to the importunities of the people along the route for more talks. He will probably speak to the people of Nashville, Chattanooga and some other large city along the route.

NO CHANGE IN CLERICAL FORCE

Mrs. Montoya and Juan Ortiz, to Remain in Office of Territorial Secretary.

Mrs. Marguerite G. Montoya, and Juan J. Ortiz, are to be retained on the clerical force of the Territorial secretary's office. They are old-timers in point of service in that particular department of the government. Mrs. Montoya has been employed as assistant clerk and stenographer, also acting as private secretary to the secretary for a period of over eight years. She was first employed by Hon. George H. Wallace, who died in office.

Mr. Ortiz, the messenger, is a printer by trade, having been employed by the New Mexican for many years and entered the employ of Mr. Reynolds six years ago. He is an able Spanish scholar, and has attended to the proof reading of the laws and journals, as well as various other publications issued by the secretary's office during the many years he has been employed by the secretary.

FUNERAL OF LATE ANTONIO ORTIZ

Requiem Mass Celebrated at Cathedral—Remains Laid to Rest in Rosario Cemetery.

A large number of sorrowing relatives and friends who had known the deceased for many years, attended the funeral services this morning over the remains of the late Antonio Ortiz y Salazar, who, during the prime of life, held many public offices of trust in New Mexico. After brief prayer service at 8 o'clock at the family residence the funeral cortege proceeded to the Cathedral, where at 8:30 o'clock a requiem song mass was celebrated, after which all that was mortal was laid to rest in Rosario Cemetery. The pall bearers were Hon. T. B. Catron, Marcelino Garcia, George W. Armijo, Jose Ma. Garcia, Trinidad Alarid, Charles M. Conklin and Evaristo Lucero.

Many floral emblems were placed upon the bier as silent tokens of esteem and affection.

ALFORD COOLEY VISITS SANTA FE

Is Assistant to Attorney General Bonaparte

CONSULTS WITH OFFICIALS

Mission Here Believed to Be in Connection With Investigation.

Alford Cooley, of Washington, D. C., first assistant to Attorney General Bonaparte, spent part of yesterday and today in Santa Fe. He came here for the purpose of consulting with Governor Curry, United States Attorney W. H. H. Llewellyn and Ormsby McHarg and Peyton Gordon, special assistants to Attorney General Bonaparte, regarding land transactions and other official matters in New Mexico.

Mr. Cooley arrived here at noon yesterday via the Atchison, Topeka and Santa Fe Railway, and left this morning for Denver, Colorado, over the Denver and Rio Grande Railroad. While here he was a guest of Messrs. McHarg and Gordon at their apartments in St. Vincent's Sanitarium. When seen by a New Mexican reporter this morning at the Capitol building he said his present trip was mainly one of pleasure. However, he admitted that it was official business that had brought him to Santa Fe.

Assistant Attorney General Cooley was an early caller this morning upon Governor Curry and remained in the executive office until a few minutes before train time, when he made a hurried tour of inspection of the first floor of the Capitol building. He was escorted to the railroad station in a carriage by Governor Curry and Major Llewellyn.

While being shown through the magnificent structure which New Mexicans hope will soon be in reality a state house Mr. Cooley who was accompanied by a representative of the New Mexican expressed surprise at finding so splendid and well appointed an edifice. He regretted that he did not have the time at his disposal to make a tour of the entire building.

Major W. H. H. Llewellyn, United States attorney for New Mexico, and Judge Albert B. Fall, attorney general of New Mexico, were at Governor Curry's office with Mr. Cooley. While Assistant Attorney General Bonaparte's right hand man was at the executive office he met a number of present and former officials including Secretary Nathan Jaffa, ex-Secretary James W. Reynolds, Territorial Treasurer J. Howard Vaughn, Commissioner of Public Lands Robert P. Ervien, and others.

Mr. Cooley is a comparatively young man with the unmistakable appearance of college breeding. He made a very favorable impression upon those who met him during his brief visit here. Prior to appointment to his present position he was a member of the Civil Service Commission.

RAILROAD FINED FOR VIOLATING LAW

Baltimore and Ohio Guilty of Keeping Cattle in Cars Over Twenty-eight Hours.

Cincinnati, Sept. 2.—Judge Thompson, of the United States district court, has decided that under the humane animal act railroads must unload once every twenty-eight hours shipments of live stock for water, food and rest. The Baltimore and Ohio Southwestern brought to Cincinnati on one train eleven shipments of stock and kept the animals forty-five hours without water, food or rest. The government filed separate suits for each shipment to recover in each the heavy penalty imposed.

The Baltimore and Ohio said there should be only one penalty imposed. It admitted the charges to be true. The court granted the contention of the company and imposed only one penalty, holding that the court is not concerned with various shipments but with the operation of the train.

HEARING ON DEMURRERS HAS BEEN POSTPONED

The hearing on the demurrers filed in the timber suits instituted by the United States against the Territory of New Mexico, the American Lumber Company, Clark M. Carr and others was to have been resumed today in Albuquerque in chambers before Judge Ira A. Abbott, but being a legal holiday it was postponed until Wednesday.

EASTERN PARTY SPENDS DAY HERE

General Solicitor J. H. Carroll of Burlington Railroad and His Family Charmed With Santa Fe.

Judge J. H. Carroll, general solicitor of the great Chicago, Burlington and Quincy Railway system, arrived in the city last evening in his private car en route to the Pacific coast for rest and recreation and to gain information concerning the Great Southwest. Judge Carroll was accompanied by Mrs. Carroll, his daughter, Miss Frances Carroll and son, J. H. Carroll, Jr., Miss Margaret Allen and E. Bartell, all of St. Louis.

Delegate W. H. Andrews had telegraphed the editor of the New Mexican that the party would spend the day here. General Manager S. B. Grimshaw of the Santa Fe Central acted as chaperone while they were in the Capital City. Under Mr. Grimshaw's guidance they visited the various points of interest and called on Territorial officials as well as at the residence of a number of Santa Fe citizens. At all these places they enjoyed the many historical objects and curiosities that were shown them, especially at the residence of ex-Governor L. Bradford Prince and Colonel Frost.

They called at the office of the New Mexican where Judge Carroll was furnished with a set of publications of the Bureau of Immigration and other printed matter on New Mexico and Santa Fe. Judge Carroll and party said that they were very agreeably surprised and favorably impressed with the fine climate and many scenic attractions, historical and archaeological, they found here, the public buildings and especially amongst these the Capitol and new school building were very much admired and praised.

This afternoon Judge Carroll and party spent at the Tesque Pueblo. The drive to the pueblo was found very agreeable and exhilarating, and the visit to the pueblo highly entertaining. They were greatly impressed with the magnificent vista and view of the upper Rio Grande Valley for sixty miles, north of Santa Fe. They regretted exceedingly that their stay here was limited and thought they would return next year for a longer stay and more thorough enjoyment of Santa Fe's attractions and great climate.

This evening Colonel and Mrs. Frost were at dinner with Judge Carroll and his party in their private car at the Santa Fe depot.

They left this evening for the West.

WEALTHY STOCKMAN IS DROWNED

Jose Manuel Duran Loses Life in Swollen Waters of Chama River at Abiquiu.

Abiquiu, N. M., Sept. 2.—Jose Manuel Duran, a wealthy stockman of Ensenada, was drowned in the Chama River at this point on Friday last. He had come to Abiquiu to participate in the annual fiesta of Santa Rosa and was returning home when the fatal accident occurred. When about midway of the river which was swollen as a result of the recent heavy rains the current swept the buggy over and Duran was thrown out. He was unable to make headway against the current and was drowned. The team reached the opposite bank in safety, dragging the buggy. Up to yesterday his body had not been recovered.

The deceased was 60 years of age and leaves a bride of but a few months. His widow is prostrated. He leaves other relatives in this section, all of who are well connected.

Rains of the past two weeks and several cloudbursts in the mountains have filled the Chama River until it has gone on a rampage. Hundreds of people who came to attend the fiesta, turned back fearing to cross the swollen stream. There will be serious damage to wheat and other cereals in this section if the rains do not abate as the crops are beaten down badly and cannot be cut.

HEAVY RAINS PLAY HAVOC

Silver City and Town of Cuchillo Suffer Much Damage as Result of Cloudbursts.

Silver City, N. M., Sept. 2.—This city and vicinity were visited by a cloudburst Saturday evening which transformed the streets into rivers filled with debris of all sorts, including wagons, bricks and boulders. Much damage was done to the streets and sidewalks and cellars were filled.

Reports from Cuchillo, Sierra County, are to the effect that that town was almost wiped off the map by the waters of the swollen Rio Cuchillo Negro. Several houses were washed away there, but no lives were lost.

COURTS CONVENE AND ADJOURN

Juries to Be Organized Tomorrow

BUSY SESSIONS EXPECTED

Jurors Were Examined Today as to Qualifications Then Dismissed.

United States Court for the First Judicial District and the Territorial District Court of Santa Fe County convened at 10 o'clock this morning. Judge John R. McFie presiding. Being a legal holiday nothing of record was done aside from examining the prospective jurors summoned for the federal grand and petit juries and the Territorial grand jury relative to their qualifications to serve. Following this both courts were adjourned until tomorrow morning at 9 o'clock when the juries will be empanelled and enter upon their respective duties. The Territorial petit jury will not report for duty until the third week of the term.

The federal term of court this fall promises to be one of more than ordinary interest, owing to the rumors anent land investigations now in progress in New Mexico. Several cases of alleged conspiracy to defraud the government in connection with coal and timber lands in which indictments were returned at the last term of court are on the docket for trial and it is reported that other cases of a like nature may be presented before the grand jury for investigation.

The following are the names and places of residences of the jurors who reported for duty this morning and were accepted:

United States Grand Jury—Frank F. Gornley, Santa Fe County; Celos Ortiz, Santa Fe County; Ramon Quintana, Santa Fe County; Pedro Roybal, Santa Fe County; Augustin Salcido, Santa Fe County; Benito Borlegu, Santa Fe County; Felix Ortega, Santa Fe County; Encarnacion Varela, Santa Fe County; Cosme Herrera, Rio Arriba County; Antonio Burciaga, Rio Arriba County; J. S. Hamilton, Rio Arriba County; Luis M. Ortiz, Rio Arriba County; Juan de J. Aragon, Taos County; Gregorio Griego, Taos County; Pedro Lopez, Taos County; Francisco M. y Martinez, Taos County; Luis M. Mondragon, Taos County; Sherman Waggoner, San Juan County.

United States Petit Jury—George Blunt, Santa Fe County; Thomas Gwinn, Santa Fe County; Miguel Gorman, Santa Fe County; Philip Humphrey, Santa Fe County; Jose Lopez, Santa Fe County; Jose Mandrano, Santa Fe County; Manuel Griego, Santa Fe County; Manuel Padilla, Santa Fe County; Donaciano Gallegos, Rio Arriba County; David Gallegos, Rio Arriba County; Enrique Jaquez, Rio Arriba County; Antonio Manzanera, Rio Arriba County; Jose D. Manzanera, Rio Arriba County; J. N. E. Quintana, Rio Arriba County; Juan J. Abeyta, Rio Arriba County; Chop Ballard, Taos County; Felipe Garcia, Taos County; Vicente Garcia, Taos County; Juan C. Lopez, Taos County; George Pacheco, Taos County; Agapito Quintana, Taos County.

Territorial Grand Jury—Epifanio D. Atencio, precinct 15; Estevan Dominguez, precinct 4; Sacarias Gabaldon, precinct 3; Jose Manuel Gonzales, precinct 5; Perfecto Gallegos, precinct 9; Narciso Mestas, precinct 15; Epimenio Maestas, precinct 15; Ambrosio Medrano, precinct 4; Jose R. Ortiz, precinct 18; Benito Ortiz, precinct 4; Vicente Romero, precinct 9; Ramon Rivera, precinct 3; Eutemio Roybal, precinct 1; Francisco Sandoval, precinct 12; Cosme Salas, precinct 17; Pablo Tafuya, precinct 3.

Walker McClure, of San Juan County, was excused from duty on the Federal grand jury and John Hampel, of Santa Fe County; William Fraser, of Rio Arriba County, were relieved from service on the Federal petit jury. Jerome Kunkel and George T. Redman were excused from duty on the Territorial grand jury. The others on the venues either could not be found or were unable to report for duty through disabilities. Ascencio Romero, who was drawn on the Territorial grand jury is blind, and N. J. Sturmquest was reported as being very sick. Antonio Leyba, whose name was also on the list, has been dead for some time.

Deputy United States Marshal W. R. Forbes is here to be in attendance at the term of the Federal court, for the purpose of paying jury and witness fees and serving subpoenas if necessary.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THIS IS THE PLACE AND NOW THE TIME FOR STATEHOOD WORK.

New Mexico is the place and now is the time to recommence earnest and steady work for statehood for New Mexico. President Roosevelt has announced that the project of joint statehood for the Territories of New Mexico and Arizona has been given up by the administration and while he has not indicated what his action on single statehood will be, the New Mexican believes that it will not be opposed by him and that with proper representations of the real situation to the President by Governor Curry, by Delegate Andrews and by other leading citizens of the Territory, the President may be induced to favor the passage of an enabling act for New Mexico during the first session of the Sixtieth Congress. Evidently one good result of the trip and the investigation of the Southwest and of this Territory recently made by Secretary James R. Garfield of the Department of the Interior is the President's change of mind in the matter of statehood for New Mexico and Arizona. This is as was expected and very grateful and pleasing to the people in the two commonwealths.

Again, as said above, this is the place and now is the time for more active and steadfast work to secure statehood for New Mexico. The people as a whole are strongly in favor of such a measure. This was fully proven when, in November last, they voted for joint statehood by 12,000 majority, not because they liked the proposition or were in love with it, but because they preferred any kind of statehood to territorial conditions. New Mexico today, at the lowest calculation, has a population of 300,000 and its taxable property at a fair valuation is about \$200,000,000, although only about one-fifth of this appears on the tax rolls. The people are perfectly able, competent and willing to support a strong and efficient State government. The Republicans of New Mexico think this has been a Territory of the United States long enough and have always been in the van and carried aloft the banner of loyalty, patriotism, progress and advancement. They should again take the lead on this statehood question and if they do this unitedly and strenuously, success will perch upon their banners surely by 1910 and probably in 1908.

Oklahoma is sure to be Democratic and to elect a solid Democratic delegation to the Congress of the United States; if New Mexico is admitted in 1908 it is highly probable that it will be Republican and send a Republican delegation to the Congress of the United States from the new State. This would not be as large as the Oklahoma delegation, but with the Republican preponderance in the Senate and the chances that the next House of Representatives will be Republican, this is quite an important factor in favor of the movement and will have much to do with inducing the administration and the Republicans of the Sixtieth Congress to heed the just demands and sincere requests of the people of the Sunshine Territory to be admitted into the family of States and to the self-government to which they are justly and fairly entitled in every respect. Of late beneficial change has occurred and the backbiters and slanderers who have injured New Mexico, giving the people a bad name, and have to some degree been instrumental in the non-success of the statehood movement, have been compelled to take a back seat and are not quaking as much as they did under the late unlamented fake reform administration. They have been shown up in their true colors and can no longer do the harm they once did. This is another step in the right direction and will help the statehood movement.

FROM CHICAGO TO NEW YORK IN THREE HOURS.

The Windy City by the lake must keep in the public eye and in the calcium light of public opinion. If it isn't a corrupt city government it is antics of professors of the Chicago University; if that ends and people get tired, must come trust prosecutions and fines of millions of dollars of trusts and railroad corporations charged with violating laws of the land; its great disasters, in which scores of human lives and vast amounts of property are lost, are scarce; sensations in other directions must be found. This mania for public notoriety and cheap advertising

may explain the recent report of the Chicago man who claims to have manufactured an airship which will travel the distance between Chicago and New York in three hours in perfect safety.

The Brooklyn Standard-Union fixes this recent attempt of Chicago to keep itself and its doings before the people of the country and the nations of the earth in a very readable manner when it says that a Chicago inventor has constructed a bird-like airship. He is so confident of its qualities and endurance that he is ready to start for New York and is willing to carry one hundred passengers at one dollar apiece for the journey, that he estimates will consume three hours. He offers as recommendations, "greater safety than by rail; no dust; no jolting; cheap and speedy."

It is to be feared that the Chicago man is somewhat ahead of his time. Perhaps there are one hundred persons in the Windy City who think even less of their lives than they do of a single dollar and are willing to enjoy the risk in order to earn the enviable record of being the pioneers in a trip through the air from Chicago to New York at a bewildering rate of speed.

The scheme may be regarded as a brilliant solution of the so-called railroad problem. What more simple than to inaugurate a system of air lines covering every portion of the country with all lines running at different atmospheric heights for the purpose of avoiding collisions? Indeed, the plan, in theory, is so ridiculously simple that it is cause for wonderment it had not before now been proposed. But is the scheme practical? Does Chicago genius balk at impracticability, even when it is incorporated with assets worth \$999,999 and \$5 in cash in the treasury? No, siree! Time is the great solvent. Perhaps, some day the air line to New York will be a reality. Meanwhile the railroads will remain with us.

A CHANGE SHOULD BE MADE.

In looking over lists of members of boards of regents of various Territorial institutions made during the recent fake reform administration, it is very apparent that there was very little attention paid by the late fake reform governor in the selections as to fitness, location and the general good of the commonwealth. Changes in some of them ought to be made.

In looking over the regents of the College of Agriculture and Mechanic Arts one bad appointment is especially noticeable and that is the one of R. R. Larkin. This man, if the New Mexican remembers aright, was at one time employed on the faculty of the college and discharged. It is notorious that he represents a school book publishing firm, which certainly is not a recommendation for membership of one of the largest educational institutions of the Territory. These facts must have been known to the fake reform ex-governor, yet he made the appointment. The New Mexican may be able in the near future to ascertain the inside of this appointment; if this can be done it will certainly be given to the dear people that they might not forget. The New Mexican does not know how Governor Curry will look upon this matter, but for the benefit of the Territory and the New Mexico College of Agriculture and Mechanic Arts at Mesilla Park, an institution which ought to be very dear to the people and of which they should be very proud, Mr. Larkin's room would be much more preferable than his presence on the board.

A CHANGE FOR THE BETTER NECESSARY.

It is one of the principal aims of this paper to make Santa Fe a clean, orderly and beautiful residence city, and a health resort of the first class. The criticisms the paper is compelled to make from time to time either on the manana policy or the do nothing administration of city affairs are simply for the purpose of bettering conditions and of bringing about what is contained in the opening lines of this editorial. These criticisms may be at times disagreeable to some of the people of this city, but they must be made if a betterment is to be had. Time flies and waits no man. During the past year and a half unfortunately very little has been done in the way of beautifying the town, making it more attractive, healthy and a pleasant place of residence. A change for the better is imperatively necessary.

ALBUQUERQUE SHOULD BE SELECTED.

The fifteenth National Irrigation Congress commenced its session in Sacramento today. It is well attended and New Mexico is fairly represented. Albuquerque is a candidate for the holding of the Congress in 1908, and the New Mexican sincerely hopes that the effort will be successful. The third irrigation Congress was held in the Duke City fifteen years ago. It was brought there principally through and by the efforts of the late Walter C. Hadley, who was then a resident of Albuquerque, and the editor of this paper, who a member of the executive committee of the Congress. The irrigation question was then in its infancy, but has grown to great importance since. Walter C. Hadley was a member of the Council of the Legislature, and with the aid of the New Mexican secured an appropriation for the holding of the Congress in the Duke City in 1895. Had this matter been thought of during the last session, although the chances are it would have been opposed by the fake reform administration, the Republicans of the Legislature would doubtless have secured an appropriation to defray the expenses of holding the convention in Albuquerque.

As time rolls on and circumstances adjust themselves under New Mexico's new administration it is being demonstrated that the knockers, the liars, the slanderers, the libelers and false affidavit men who have given the New Mexico people in general and Republican leaders and officials in particular very black eyes, have done the Sunshine Territory great injury which it will take time to repair and to undo. Fortunately, this has already commenced, and while it is proving a hard, laborious task, it is advancing in goodly and satisfactory shape.

Every once in awhile Uncle Sam can be very small. The controversy over the payment of the witness fees amounting to \$72 due John D. Rockefeller, president of the Standard Oil Company, for attending the session of the United States district court in Chicago, at which the Standard Oil Company was fined over \$29,000,000, is, to say the least, very undignified and rather silly. It makes no difference how rich Rockefeller is, these fees are lawfully due him and ought to be paid him without any more ado.

The impression made by Secretary William H. Taft during his recent visit in Denver and in Colorado is of the most favorable, judging by the comments of the leading newspapers of Denver, regardless even of party, and by the remarkably sincere and enthusiastic receptions he has received by the masses of people. Mr. Taft's "swing around the circle" is evidently the right thing at the right time.

It is reported that a new international paper trust starts out with a capital of \$30,000,000. How much of this is water the promoters of the trust will not tell. Here is a fine chance for the Department of Justice and for Attorney General Charles J. Bonaparte and some of the special assistants to the attorney general to look after the interests of the plain people.

A few Democratic newspapers are strongly opposing statehood for New Mexico in the near future. Cannot blame them. They evidently think that by waiting six or eight years the immigration into this Territory from Texas, Oklahoma and Indian Territory will be strong enough to make the future State of New Mexico solidly Democratic, ala Oklahoma.

The keynotes for his presidential campaign that have been sounded within the last few days by Secretary of War William H. Taft are certainly in clarion notes—loud, penetrating, clear and invigorating. The Secretary's big body, big voice, big heart, big experience and big brain are standing pat in his swing around the circle.

The recent rains throughout Central New Mexico have done growing crops great good, but have rather played havoc with this fine climate for the time being. There must be exceptions to all rules, however, hence there is no need to despair. This great climate will again assert itself and that speedily.

Tom Lawson is advising the dear people to buy railroad stocks these days because there is a slump in them. Tom is always noted for giving disinterested advice to investors and the plain people and then coming out at the big end of the horn, while the investors and the plain people generally hold the empty bag at the end.

The Democratic newspapers in the Pecos Valley are showing signs that the Hagerman "bar!" is holding out, and that they like it. After all, self-interest is very strong in human nature and even in the offices of Democratic newspapers in the Sunshine Territory.

The splendid surplus in the national treasury is still keeping up. Another indication that the business of the country is first class and that prosperity obtains despite the Wall street fakers, who insist that a very stringent panic prevails.

It is evidently the voice of Taft that is heard throughout the land, but it does have the Rooseveltian ring.

WHAT THE KIDNEYS DO.

Their Untiring Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Louis West, living at 225 Manhattan St., Santa Fe, N. M., says: "On and off for a couple of years I was troubled with a dull heavy aching in the small of my back. I tried many remedies and used plasters but derived little or no benefit. In March a neighbor recommended Doan's Kidney Pills to me and I procured a box at Ireland's drug store. The result of its use was so satisfactory that I continued with them taking a second box until the pain in my back left me and the secretions from the kidneys became more free and natural. From that time on I have been a well man, have had a strong back and no trouble of any kind with my kidneys. I shall always speak well of Doan's Kidney Pills and have recommended them to a good many occasions to my friends."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver & Rio Grande Railroad, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids, and tourists. People suffering with consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m., the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. They are stopping at the Hotel Normandie. Mr. Groce is well pleased with the crop prospects in the Estancia Valley.

Wilson Price, cotton planter and merchant at Edwards, Mississippi, who has been a visitor in the Capital for the past two months for the benefit of his health went home yesterday. Mr. Price enjoyed his stay very much and was so much benefited that he felt he could go home for the fall and winter's business in safety. He will return to Santa Fe next year to remain two or three months and expects to bring several friends with him from his part of the country to enjoy Santa Fe's great health giving climate and many scenic attractions. While here Mr. Price made a number of friends.

Mr. and Mrs. J. A. Jones, of Fort Worth, Texas, who have been in the city for the past few days sightseeing, left today for Denver from which point they will return to their Texas home. This was the first visit of Mrs. Jones to Santa Fe and she and her husband found their stay here very pleasant. Mr. Jones is claim agent for the Fort Worth and Denver Railroad and several years ago was an attaché of the New Mexican editorial department. He came here for his health, which he fully recovered. He is a bright, energetic and honorable young man and is sure to make his way in the world.

Santa Fe Lodge No. 259, Fraternal Union of America, will meet in regular monthly meeting tonight at 7:30 o'clock at Odd Fellows' Hall, on lower San Francisco Street.

The regular monthly communication of Montezuma Lodge, No. 1, A. F. and A. M., will be held this evening at Masonic hall at 7:30 o'clock. Visiting Masons are invited to be present.

FOR SALE—A gentle, well-bred mare, five years old and of fine appearance. Man's saddle and bridle will be sold with the animal. Apply at the office of the Daily New Mexican.

Funeral services were held yesterday afternoon over the remains of the late Miss Mary Alda Dietz at 1:45 from the residence and at 2 o'clock from the Cathedral. Interment was in Rosarito Cemetery.

The remains of the late Arthur R. Wheeler, who succumbed to an attack of tuberculosis here Saturday, will be forwarded tonight for burial at his Louisville, Kentucky, home. Edgar L. Wheeler, a brother of the deceased, will accompany the body.

Today, Labor Day, was a legal holiday and the Federal and Territorial offices, the postoffice, many stores and banks were closed. This fact made business rather dull and it was quiet on the streets and in the hotels. The New Mexican, however, as usual, issued its regular daily edition and worked for the benefit of this city and county.

The Nye Dramatic Company, one of the largest repertoire troupes on the road, will commence a week's engagement tonight in its mammoth water-proof tent theater. Miss Day Dayton, late of Rice's "192" Company, heads the list of high class specialty artists. There will be nine big vaudeville and musical acts. In the production of "A Man of the World" tonight, ladies will be admitted absolutely free, with or without escort.

Great dissatisfaction is expressed at the condition of the water supply of the city. The supply is not as wholesome as it ought to be but this is not the fault of the water itself, but the manner in which affairs are managed, and it should be remedied promptly. The county commissioners, the city council and the Santa Fe Board of Trade should take up this matter promptly to secure a betterment of affairs.

The Salado Live Stock Company, of which ex-Governor M. A. Otero, is president and Hon. James W. Reynolds, is secretary, has opened an office in the Laughlin building, corner San Francisco Street, and Don Gaspar Avenue, where ex-Governor Otero and Mr. Reynolds will be found during office hours. The company has extensive stock ranges in Guadalupe County, about seventeen miles west and north of Pastura station, on the El Paso and Southwestern Railway, and its affairs will be managed from this city.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Mr. Seligman will make a few alterations in the house and expects to move into it with his family before the end of this month. The consideration is private. It is understood that Mrs. Wiley will purchase another property and will remain here with her daughters for some time to come.

is famous for Strength, Durability, Honest Construction. We are Exclusive Agents for this famous wagon.

Here are some of its many points of Superiority over any other wagon on the market:

First and Foremost—Greater strength, more durability, lighter draft.

Wood Stock—Bone dry and strictly clear of all defects.

Ironing—Thorough and substantial throat, no skimping.

Painting—The handsomest and most durable ever put upon a farm wagon.

Skins and Castings—Moulded in the largest wagon factory in the world, of the best mixtures of pig iron and absolutely guaranteed perfect.

Wheels—Made with square shouldered spokes driven with shoulders sunk into the hubs by a patent spoke driver, hubs bored true to center of wheel, and boxes pressed on under 60 tons hydraulic pressure.

Tires—Welded by machinery and set hot by hydraulic pressure, insuring perfectly uniform "dish" to the wheels.

Axles—Made exclusively of Black and Shell Bark Hickory, and skains fitted to axles by patented skain fitting machinery insuring perfect "pitch" and "gather." Every axle tested to see that skain is perfectly set before leaving factory.

LAST, BUT NOT LEAST—The most reasonable wagon on the market.

SIGHTS OF SANTA FE

A brief outline of Points of Interest in and about the City of Santa Fe. A Guide for Tourists. (July, 1907.)

The Plaza.—Under the care of the Woman's Board of Trade. Here Onate camped and set up the banner of Spain in 1598. Here the Pueblos in the uprising of 1680 burned the archives and historical records of the Province. Here De Vargas halted in triumph after taking the city from the Pueblos in 1692. Here General Kearny planted the Stars and Stripes in 1846. Most of the thrilling historical and gala events for the past three hundred years have centered here.

The Old Palace.—Without doubt the oldest governmental building in the United States. Date of construction variously set from 1598 to 1607. Occupied as executive building by Governors under the Spanish, the Pueblo, the Mexican and American regime, last occupied as a residence by the present Acting Governor James Wallace Rayolds. Ceded by the Federal government to the Territory, the present owner, but which has voted to recede it to the Federal government as a National Monument. It is at present occupied by the postoffice, the Historical Society Museum, the Daughters of the American Revolution and the Territorial Republican Central Committee.

The Historical Society Museum.—In Old Palace. Open free to visitors. from 10 to 12 a. m. and 2 to 4 p. m. on weekdays, and 2 to 4 p. m. on Sundays. Contains fine collection of New Mexico antiquities and the most complete library of books relating to the history of the Southwest to be found in the United States outside of the Congressional Library.

Ben Hur Room.—In Old Palace. Here Lew Wallace, while Governor of New Mexico, completed Ben Hur. Key given to visitors at the postoffice.

Soldiers' Monument.—In Plaza. Erected by the Territory. Much criticized because it refers to the Confederates as Rebels.

Lamy Fountain.—In Plaza. Erected by Woman's Board of Trade in memory of the late Bishop Lamy, who introduced the orchard industry at Santa Fe and surroundings.

Masonic Building and Hall.—On south side of Plaza. Oldest Masonic Lodge in the Southwest. Many inter-

esting historic relics in lodge room. Kit Carson was a member of this lodge.

The Kearny Monument.—In Plaza. Erected by the Daughters of the American Revolution.

The Plaza.—At southeast corner Plaza. End of the historic Santa Fe Trail. Now Exchange Hotel.

WITHIN FIVE MINUTES' WALK FROM PLAZA.

Roman Catholic Parochial School.—On Water Street.

Public Library.—On Washington Avenue. Built and maintained by the Woman's Board of Trade.

Federal Building.—Headquarters of Federal Land Office, Internal Revenue Service for New Mexico and Arizona, Surveyor General, Weather Bureau, Forest Supervisor of Pecos, Jemez and Taos National Forests, U. S. Attorney for the Pueblo Indians, and other Federal officials.

Cathedral.—On Cathedral Square. Original structure commenced in 1612, destroyed in 1680. Modern structure not complete. When complete to have twin steeples and to be cruciform. Contains a number of paintings by old masters. Reredo behind altar was erected by Governor del Valle and his wife in 1761. Fine old paintings and rich vestments in rear of Cathedral. From here start annually the famous Corpus Christi and the historic De Vargas processions. In rear of altar two Franciscan Friars, murdered by the Indians, are buried.

Kit Carson Monument.—In front of Federal building.

The Court House.—On Palace Avenue. Contains County Offices and Court Rooms.

Saint Vincent's Sanitarium.—On Palace Avenue.

Saint Vincent's Orphans' Home.—On Palace Avenue.

Saint Vincent's Hospital.—On Palace Avenue.

Loretto Academy.—On College Street. Oldest School for Girls west of the Missouri. Quaint cemetery in rear.

Loretto Chapel.—On College Street. One of the most perfect specimens of Gothic Architecture in America. Built from design by French architects.

Loretto Convent.—On College Street. Occupied by Sisters of Loretto.

Archbishop's Residence.—On Cathedral Street.

Bishop's Residence.—On Cathedral Street. Adjoining is the beautiful

"Bishop's Garden" with historic spring, lakelets and fine orchard.

TEN MINUTES' WALK FROM PLAZA.

San Miguel's Church.—On College Street. Believed to be oldest church building in the United States still used for public worship. Built either in 1598 or 1607. Destroyed in 1692. Rebuilt in 1710. Renovated in recent years. In rear of auditorium stands bell cast in Spain in fourteenth century. Vespers Sunday evenings at 6 o'clock, attended by Christian Brothers and pupils of adjoining Saint Michael's College. At other times, admission 25 cents. Adjoining is the oldest cemetery in the South-west.

Presbyterian Mission School for Girls.—Grant Avenue.

The Mary James Mission School for Boys.—On Federal Street.

The Santa Fe High School.—On the Old Fort Marcy Military Reservation famous in military annals and after abandonment granted to the City of Santa Fe for public school purposes.

The Garita. On the hill below and west of Fort Marcy. Ancient Spanish fortress along walls of which many factors and traitors were executed. Adjoining oldest cemetery in the United States.

Guadalupe Church.—On Guadalupe Street. Over a century old. The altar paintings and those in the sacristy are of especial interest.

Saint Michael's College.—On College Street. Oldest school for higher education of boys west of Missouri. Campus includes athletic grounds. Conducted by Christian Brothers.

The Capitol. Dedicated 1900 replacing that destroyed by incendiaries in 1892. All Territorial offices and Territorial library in building. Fine view of city and mountains from dome. In Capitol park are to be found larger variety of trees than in any other park in New Mexico.

Old House.—On De Vargas Street opposite San Miguel Church. Tradition has it that it was built by Pueblo Indians long before Spanish occupation and was occupied by Onate in 1598. It has been continuously occupied since but upper story was removed in recent years while interior has been frequently renovated. Without doubt the oldest continuously occupied house in the United States.

SERIOUS SHOOTING AFFRAY AT SILVER CITY

Silver City, N. M., Sept. 2.—Phil Estes and John Fitzgerald got into a dispute in the lobby bar, which wound up in both young men pulling six-shooters and emptying them at each other.

Estes was shot through the arm and Fitzgerald through the leg, neither being hurt seriously, while the ten or eleven shots fired played havoc with the mirrors and other furniture in the saloon.

Estes is a well known young horse dealer of this section and Fitzgerald has been tending bar in one of the saloons here.

SIGHTS OF SANTA FE.

(Continued from Page 6.)

WITHIN THIRTY MINUTES' WALK OF PLAZA.

Fort Marcy.—Ruins of old fort erected on hill overlooking Santa Fe from north. Elevation 229 feet above Plaza. Commands fine view of city and surroundings much admired by President Roosevelt upon his visit to Santa Fe several years ago. Good wagon road to the top.

Perez Monument on Agua Fria Road.—Marks spot where Governor Perez was assassinated August 9, 1837, by Santo Domingo Indians.

Rosario Chapel and Cemetery.—Chapel was built in commemoration of retaking of city from the Pueblos in 1692 by De Vargas. This is the terminus of the De Vargas procession held each year in June.

National Cemetery.—Beautifully located commanding a fine view of city. Burial place of veterans of the Mexican, Civil and Indian Wars. The only National Cemetery in New Mexico and Arizona. Upon gravestones may be read the names of many warriors famous in Southwestern history.

Saint Catherine's Indian School.—Opposite National Cemetery. Conducted by Sisters of the Holy Sacrament. Indians from many tribes in attendance.

United States Indian Industrial Training School.—South of the city. One of the large Federal Indian Schools of the United States with almost 400 pupils, representing a score of tribes.

Summit Tent City.—At the foot of Talaya Mountain, southeast of the city and overlooking it. A Sanitarium successfully conducted for the cure of consumptives.

The Territorial Penitentiary.—South of the city. Well worth half a day's visit.

The Territorial School for the Deaf and Dumb.—This is the third of a trio of important public institutions, situated just south of the city boundary, but within the boundaries of the Santa Fe Grant.

Nagel's Pinecroft Ranch.—Adjoins Summit Tent City and is charmingly situated amidst pines and cedar.

Santa Fe Race Track and Baseball Park.—Laid out in 1907 southwest of the city, not far from Indian School.

SANTA FE CHURCHES.

Besides the Roman Catholic churches mentioned, there are Protestant churches as follows: Church of the Holy Faith, with rectory on Palace Avenue, Protestant Episcopal; First Presbyterian, with parsonage, on Grant Avenue; First Methodist, on Don Gaspar Avenue; Spanish Presbyterian with parsonage, on Cathedral Street; Spanish Methodist with parsonage, on San Francisco Street; Congregational, abandoned, with Whitin Hall, near Union Depot.

WITHIN FIVE MILES OF SANTA FE
Aztec Springs.—Four miles from Plaza, one mile north of large reservoir. Mineral springs and ruins of old hotel, fashionable in the days of Santa Fe's military glory.

Reservoirs of Santa Fe Water and Light Company, the large reservoir being at mouth of Santa Fe Canon and forms a considerable lake. Three miles from Plaza.

Bishop's Ranch.—In sheltered spot north of Santa Fe with private chapel of the late Bishop Lamy. Romantic surroundings. Good wagon road going by coal workings and lime quarries.

Small Box Canon on Bishop's Creek.—In the heart of the mountains amidst the tall pines and spruce. Good wagon road to bottom of canon in which are located silver-zinc-copper mines. Coal mines and lime quarries are passed on the road.

Arroyo Hondo.—South of Santa Fe. Largest tributary of the Rio Santa Fe. Has beautiful canon and on its banks are situated several mounds, the remains of prehistoric Pueblo villages upon which are scattered fragments

of ancient pottery and where excavations have brought forth many interesting relics.

Tesque Valley.—Dotted with lovely orchards, prosperous homes and ruins of a prehistoric village. North of Santa Fe and reached by a fine highway that offers superb views of the mountains.

The Scenic Highway.—A Territorial road that crosses the Sangre de Cristo Range in its most rugged parts and at present terminates within three miles of the Pecos River. It begins in the Santa Fe Canon, three miles from the Plaza, and winds over the Pecos Forest Reserve and in thirteen switchbacks crosses the Dalton Divide at an elevation of 10,000 feet passing down the Macho Canon through dense pine forest and at every turn revealing magnificent vistas of mountains, forest and streams. One of the wonders of the Southwest. It is twenty-two miles long as far as constructed.

Agua Fria.—An ancient Mexican village, south of Santa Fe. On the opposite side of the river from the village is a huge mound and the remains of a very large prehistoric village, the surface being covered with fragments of ancient pottery.

WITHIN TEN MILES OF SANTA FE.

Monument Rock.—In Santa Fe Canon and on the Pecos Forest Reserve. Reached by the Scenic Highway. At its foot is the Montezuma gold mine, now abandoned. Just beyond it, the Scenic Highway winds in thirteen switchbacks over the Dalton Divide and the Santa Fe River emerges from a picturesque but almost impassable canon. Nine miles from Plaza.

Tesque Pueblo.—Nine miles northwest of Santa Fe. The Indian Pueblo nearest to town and one of the most interesting, reached over a scenic highway of great natural beauty.

Tesque Box Canon and Sawmill.—From seven to nine miles from town. Leads straight into the heart of the over 12,000 feet high. Good wagon road all the way.

WITHIN TWENTY MILES OF SANTA FE.

Nambe Falls.—The most beautiful falls in the Southwest and near the quaint Indian Pueblo of Nambe, sixteen miles northwest of Santa Fe. Very interesting trip.

Tributary Canons of the Pecos.—The Macho, Dalton, Indian Creek and Holy Ghost. Reached by the Scenic Highway.

Summit of Lake Peak.—North of Santa Fe. Elevation 12,360 feet. Vast and perfect crater in which are located crystal lakes, sources of Santa Fe and Nambe Rivers. An easy mountain climb. Good wagon road for twelve miles. Horse trail for remaining six miles.

Battle field of Glorieta.—Beautifully located in Glorieta Mountains, southeast of Santa Fe on the old Santa Fe trail going over historic Apache Hill and by old Canoncito Church. Ruins of old way house. Famous well dug by federal government.

Miss Domatila Read, a niece of Secretary Benjamin M. Read, of the Law Revision Commission, and employed as assistant translator for that body, left this morning on a visit to relatives at Taos.

Mrs. J. E. Clark, wife of Professor Clark, superintendent of public instruction, left yesterday on a visit to her old home near Detroit, Michigan. She anticipates being gone several weeks or longer.

Professor Alfredo M. Sanchez, assistant superintendent of public instruction, returned Saturday evening from Belen and Clayton, where he delivered addresses before the county teachers' institutes.

Robert Montoya, formerly of this city but now engaged in business at Moriarty, spent Sunday with friends in the Capital and returned to Moriarty via the Santa Fe Central Railway this afternoon.

Rev. L. M. Bernal, of Questa, pastor of the Spanish Presbyterian Church at Penasco, was an arrival in the city Saturday evening. He was summoned here as a member of the United States petit jury for the First judicial district court, but was excused from duty this morning.

Alford Cooley, of Washington, D. C., first assistant to Attorney General Bonaparte, was in the city yesterday and today in conference with Governor Curry, United States Attorney W. H. H. Llewellyn and Special Assistants to the Attorney General C. M. McHarg and Peyton Gordon. He left this forenoon for Denver via the Denver and Rio Grande Railroad.

Frank Curry and Charles Curry, the two sons of Governor Curry, arrived here early this morning from Oakland, California, where they have been visiting relatives. They were with their father in the Philippines and accompanied him upon his return to the United States. He left them at Oakland while he proceeded to Roswell and thence to Washington and Oyster Bay. The Curry boys are both manly young fellows. They were accompanied by two Filipino boys, one of whom will enter the New Mexico Military Academy.

HALE AND HEARTY AT EIGHTY YEARS

Captain Jerome Kunkel, of Glorieta, Veteran of Two Wars—Has Interesting Life History.

Captain Jerome Kunkel, who lives on a homestead near Glorieta, in the southern part of this county, arrived here Saturday, having been summoned as a member of the petit jury for the Santa Fe County district court. Captain Kunkel came to Glorieta from Kansas in 1880 and has been a resident of that section ever since. He is the owner of several mining properties located a distance of from two to four miles from Glorieta, upon which he has done assessment and development work for many years. The claims contain vast quantities of ore carrying copper, but only in low grade. Captain Kunkel has great faith that sooner or later he will be able to dispose of these properties, which he has worked for many many years at a profit, and although he is eighty years of age, he is sanguine that this time will come before long. At any rate he will stick to the propositions as long as he is able to and until the last roll call.

Captain Kunkel is a veteran of two wars and a man who has seen much history during the eighty years of his life. He was born in Lycoming County, Pennsylvania, eighty years ago, and was raised on a farm. At the breaking out of the Mexican war he enlisted in Company C, of the Second Pennsylvania Volunteer Infantry, commanded by Colonel John W. Geary, who later became governor of Pennsylvania, and a man very prominent in military and political life. The regiment was assembled at Pittsburgh, sent to New Orleans in a steamboat, down the Ohio and Mississippi Rivers to New Orleans, thence on a transport to Vera Cruz, Mexico, from which point the regiment marched to the City of Mexico.

Captain Kunkel and his company and regiment took a prominent part in the siege and storming of Vera Cruz, in the battle of Cerro Gordo, battle of Contreras, and the storming and taking of Chapultepec, near the City of Mexico. He served with the regiment for two years, the army being commanded by General Winfield S. Scott. He was honorably mustered out and sent back to the United States, returning to Pennsylvania, where he engaged in farming.

In 1856 he moved to Jefferson County, Kansas, of which the celebrated town of LeCompton, where the so-called LeCompton constitution was framed, is the county seat. He took part in the stirring times in "Bleeding Kansas" then, was several times a member of the Legislative Assembly and also one term a member of the State Senate. In 1861, upon the organization of the State of Kansas, he voted for Lane and Pomeroy for the United States Senate. He served two years in Company D, Eleventh Kansas Infantry, and was honorably mustered out as captain. His regiment saw much active service in western Missouri and southern Kansas and what is now Oklahoma. His company was in Lawrence two hours after the celebrated "Quantrell Raid," when the town was still on fire and many bodies still unburied.

Captain Kunkel has voted for many presidents, casting his first vote for Zachariah Taylor in 1848 and his first Republican vote at the second election of Lincoln in 1864. In 1860 he could not vote, Kansas then still being a Territory. He has been a consistent Republican all his life and bore a

prominent and courageous part in the Kansas border troubles from 1856 to 1860.

Captain Kunkel is remarkably hale and hearty for his eighty years. He works daily on his homestead and on his mining claims, stands erect, is firm of step and carries himself with much self-possession and strength. His hair is white, but otherwise his appearance does not indicate that he has attained the ripe old age of eighty. Indeed, he does not look to be over sixty years of age. He receives a Mexican war pension of \$20, the highest that is paid under the law pensioning veterans of the Mexican war. He has been a widower for some years, but has two sons, a married daughter and several grandchildren. He expects to spend the remainder of his days in sunny New Mexico, which he loves dearly and thinks the best place on earth. He is a good talker and tells many interesting reminiscences of his long and eventful life. He has seen the United States grow from a nation of twenty millions of people to over eighty millions and has watched the immense progress of this country since boyhood.
