TAFT PACIFIES THE JAPANESE

Secretary Makes Notable Speech at Tokio

REMOVES WAR CLOUD

Declares Conflict Between Japan and U. S. Would Be Great Crime.

Tokio, Japan, Oct. 1.—The banquet in honor of Secretary of War William H. Taft, of the United States, given last night by the Municipality and Chamber of Commerce and attended by Japanese statesmen, brought forth a notable speech by the American war secretary, which made a splendid impression. After dinner the assembly room presented a remarkable scene. Every one was congratulating every one else on what was considered a complete removal of the war cloud that had arisen between Japan and the United States and the silencing of the sensationalists.

America Proud of Japan.

Secretary Taft began by giving thanks for the evidence of good will, and stated that all Americans were deeply proud of Mr. Roosevelt, who with the prestige of presidency, hastened peace, honorable to both Japan and Russia in the late war between those two countries. He spoke of the share that American had in aiding Japan's great progress and said that all Americans were proud of Japan, who always had cordial sympathy in us.

"Now, for a moment," continued the Secretary, "there is only a little cloud over our friendship of fifty years, but the greatest earthquake in history could not have our enmity. I cannot trespass upon the jurisdiction of the department of state and discuss the recent events of San Francisco, but I can say there is nothing in them that is not capable of honorable and full adjustment by ordinary diplomacy."

The Secretary said he did not hold that war is entirely unjustifiable when international grievances cannot otherwise be redressed, "but war is Hell," continued the Secretary, "and the only great cause which cannot be settled by diplomacy, justifies it."

"War is Hell."

Secretary Taft said that war between Japan and the United States would be a crime against civilization. He further stated that neither desired it, neither would gain anything by it and both governments would strain every nerve to prevent it. Mr. Taft characterized even the suggestion of war as infamous and declared that America's good will toward Japan was as warm as ever.

CONFESSED HAVING KILLED HIS BROTHER

So Witnesses Testified Today in Murder Trial of Juan Garcia—Insanity to Be Defense.

Territorial district court for Santa Fe county reconvened this morning at 9 o'clock, Judge John R. McFie, presiding, and Clerk Francis C. Wilson at his desk. The territory was represented by Assistant District Attorney Charles C. Catron.

Examination of witnesses was begun today in the murder trial of Juan Garcia who is under indictment charged with having killed his brother Florencio Garcia, which occurred on the night of November 8, 1907. The jury sitting in the case was completed at a special session of court held last night, but it required a special venire of thirteen, only eight jurors having been accepted from the regular panel. The names of the jurymen are Julian Baca, C. M. Conklin, Sixto Sanchez, Encarnacion Salazar, Ramos Velarde, Henry C. Alarid, Emilio Ortiz, Romulo Ortega, Monico Trujillo, Patricio Lucero, Aniceto Lobato, and Felipe Archuleta.

According to the testimony of the witnesses who were examined for the prosecution today the defendant had made statements either to them or in their hearing that he had slain his brother. The case is a peculiar one. Juan Garcia who is now being tried is a gray haired old man over seventy years of age and it is said his brother whom he killed was three or four years his senior. The pistol with which the fatal deed was committed has been introduced in evidence.

Dr. David Knapp was the first witness placed upon the stand. He told of having examined the body of the murdered man and found two bullet wounds, either of which, in his opinion would have proved fatal. He stated the defendant when asked who had killed his brother replied, "I am the man who did it." Witness said his brother replied, "I am the man who killed him," and then added, "He killed my wife."

Severino Rivera, who was a mem-

ber of the coroner's jury which sat at the inquest over the remains of Florencio Garcia, also declared that the defendant had confessed to having committed the crime. He said he did not understand the defendant's statements in English, but remembered Juan Garcia had made a statement in Spanish, herewith quoted: "I killed him. It is better to die with honor than with dishonor. You may hang me if you want to."

Felipe Ortiz who was a deputy sheriff at the time and placed Juan Garcia under arrest after the murder had been discovered was the next witness. He related the circumstances relative to what transpired at the Garcia home when he arrived there and also said the defendant had made a confession to him.

Sixto Garcia, a nephew of the defendant and the brother whom the latter is now on trial for having killed told of having been at Juan Garcia's home on the night of the tragedy. He said he and his wife had called there to spend the evening, and remained until about 10:30 o'clock. While there he said Florencio Garcia knocked at the door and was admitted. When he and his wife left, he stated, the two brothers were talking together good naturedly, and he never knew of any difficulty ever existing between them.

Mrs. Emelia Krumpel de Garcia, wife of Sixto Garcia, was the first witness examined this afternoon. Her story was substantially the same as that of her husband and she too stated that she had never known of the two brothers ever having trouble with one another.

The defendant has so far exhibited no emotion and sits stolidly at the side of his counsel Attorney A. B. Renahan. It is said the defense will try to prove insanity as the cause of the crime.

MAN BLOWN UP BY BOMB

Ex-Sheriff of Oregon County Victim of Dastardly Outrage—Cannot Recover.

Baker City, Ore., Oct. 1.—An attempt was made at 10:30 o'clock last night to assassinate former Sheriff Harvey K. Brown by blowing him up with a dynamite bomb. He had just returned from a trip to mining property owned by him.

Brown was found lying on the sidewalk in front of his home near the gate. One leg was blown off, one arm badly mutilated and he was injured internally. He is now lying at the point of death in a local hospital.

A wire was found extended twenty-five feet along the fence and about thirty feet further to the middle of the road. It is presumed that the assassin lay in wait for Brown and exploded the bomb by pulling the wire.

The motive for the crime is not known and there is no clue to the would-be murderer.

WEIGHING OF MAILS BEGINS

Order Went Into Effect 1 Minute After Midnight

TO CONTINUE 30 DAYS

Work Has For Its Object Securing of Reliable Statistics.

New York, Oct. 1.—At a minute after midnight this morning the railway mail clerks throughout the country began weighing the mails as required by a recent act of congress. The weighing will continue for thirty days. It is the first time in the history of the postoffice department that the weighing of all mail matter on all trains over all roads on which mail clerks are employed has been required. In former years special periods were set aside to determine the amount of certain classes of mail matter carried over certain roads only. The object of this thirty days' trial is to give the department and congress reliable statistics to ascertain the cost of handling and transporting the different classes of mail.

DIVIDENDS OF COPPER COMPANY FALL OFF.

New York, Oct. 1.—The directors of the Anaconda Copper Company, the main producing company of the Amalgamated Copper Company, today declared a dividend of one dollar and twenty-five cents a share. This is a reduction of 50 cents from the last dividend declared in the previous quarter and is at the rate of 20 per cent per annum instead of 28 per cent as declared for the previous quarter.

PRESIDENT BEGINS TRIP DOWN MISSISSIPPI RIVER

Stopped at Keokuk, Iowa, This Morning Long Enough to Deliver Speech

His Talk to Iowans an Interesting One Dealing With Questions of Paramount Importance to the Western States and Territories.

Keokuk, Ia., Oct. 1.—President Roosevelt began his trip down the Mississippi river from Keokuk to Memphis this morning. He arrived at 9:10 o'clock and was met at the station by the governors of Iowa, Florida, Louisiana, Minnesota, Nebraska, both Dakotas, Oregon, Wyoming and Illinois, and by several companies of state troops. The morning was fair but there was a sprinkle of rain shortly after the presidential party started for the band park where the chief executive delivered a speech.

Following the address, which was heard by 20,000 people, the President was driven to the lower lock of the government canal and boarded the steamer Mississippi for his trip to the South. In the speech delivered here the President spoke in part as follows:

The President's Speech.
"Men and Women of Iowa: I am glad indeed to see you and to speak to you in this thriving city of your great and prosperous state. I believe with all my heart in the people of Iowa, for I think that you are good, typical Americans, and that among you there has been developed to a very high degree that body of characteristics which we like to regard as distinctively American."

"During the last few years we of the United States have been forced to consider very seriously certain economic problems. We have made a beginning in the attempt to deal with the relations of the National Government—that is, with the relations of the people of the country—to the huge and wealthy corporations, controlled for the most part by a few very rich men, which are engaged in interstate business—especially the great railway corporations. You know my views on this matter. You know that I believe that the national government, in the interests of the people, should assume much the same supervision and control over the management of the interstate common carriers that we now exercise over the national banks. You know furthermore that I believe that this supervision and control should be exercised in a spirit of rigid fairness toward the corporations, exacting justice from them on behalf of the people but giving them justice in return."

The Need of Wise Laws.
"Therefore we need wise laws, and we need to have them resolutely administered. We can get such laws and such administration only if the people are alive to their interests."
"One way of exercising such control is through the laws of the land. Ours is a government of liberty, but it is a government of that orderly liberty which comes by and through the honest enforcement of and obedience to the law. At intervals during the last few months the appeal has been made to me not to enforce the law against certain wrongdoers of great wealth because to do so would interfere with the business prosperity of the country. Under the effects of that kind of fright which when sufficiently acute we call panic, this appeal has been made to me even by men who ordinarily behave as decent citizens. One newspaper which has itself strongly advanced this view gave prominence to the statement of a certain man of great wealth to the effect that the so-called financial weakness was due entirely to the admitted intention of President Roosevelt to punish the large moneyed interests which had transgressed the laws. I do not admit that this has been the main cause of any business troubles we have had; but it is possible that it has been a contributory cause. I, so, friends, as far as I am concerned it must be accepted as a disagreeable but unavoidable feature in a course of policy which as long as I am President will not be changed. In any great movement for righteousness, where the forces of evil are strongly entrenched, it is unfortunately inevitable that some unoffending people should suffer in company with the real offenders. This is not our fault. It is the fault of those to whose deceptive action these innocent people owe their false position. A year or two ago certain representatives of labor called upon me and in the course of a very pleasant conversation told me that they regarded me as 'the friend of labor.' I answered that I certainly was, and that I would do everything in my power for the laboring man except anything that was wrong. I have the same answer to make to the busi-

ness man. I will do everything I can do to help business conditions, except anything that is wrong. And it would be not merely wrong but infamous to fail to do all that can be done to secure the punishment of those wrongdoers whose deeds are peculiarly reprehensible because they are not committed under the stress of want. Whenever a serious effort is made to cut out what is evil in our political life, whether the effort takes the shape of warring against the gross and sordid forms of evil in some municipality, or whether it takes the shape of trying to secure the honest enforcement of the law as against very powerful and wealthy people, there are sure to be certain individuals who demand that the movement stop because it may hurt business. In each case the answer must be that we earnestly hope and believe that there will be no permanent damage to business from the movement, but that if righteousness conflicts with the fancied needs of business, then the latter must go to the wall. We can not afford to substitute any other test for that of guilt or innocence, of wrongdoing or well-doing, in judging any man. If a man does well, if he acts honestly, he has nothing to fear from this administration. But so far as in me lies the corrupt politician, great or small, the private citizen who transgresses the law—he be rich or poor—shall be brought before the impartial justice of a court."

Cannot Have too Many Highways.

"Since I have been President I have traveled in every state of this Union, but my traveling has been almost entirely on railroads, save now and then by wagon or on horseback. Now I have the chance to try traveling by river; to go down the greatest of our rivers, the Father of Waters. A good many years ago when I lived in the northwest I traveled occasionally on the upper Mississippi and its tributaries; but then we went in a flatboat and did our own rowing and paddling and poling. Now I am to try a steamboat. I am a great believer in our railway system; and the fact that I am very firm in my belief as to the necessity of the government exercising a proper supervision and control over the railroads does not in the least interfere with the other fact that I greatly admire the large majority of the men in all positions, from the top to the bottom, who build and run them. Yet, while of course I am anxious to see these men, and therefore the corporations they represent or serve, achieve the fullest measure of legitimate prosperity, nevertheless as this country grows I feel that we can not have too many highways, and that in addition to the iron highways of our railway system we should also utilize the great river highways which have been given us by nature. From a variety of causes these highways have in many parts of the country been almost abandoned. This is not healthy. Our people, and especially the representatives of the people in the national Congress, should give their most careful attention to this subject. We should be prepared to put the nation collectively back to the movement to improve them for the nation's use. Our knowledge at this time is not such as to permit me to go into details, or to say definitely just what the nation should do; but most assuredly our great navigable rivers are national assets just as much as our great seacoast harbors. Exactly as it is for the interest of all the country that our great harbors should be fitted to receive in safety the largest vessels of the merchant fleets of the world, so by deepening and otherwise our rivers should be fitted to bear their part in the movement of our merchandise; and this is especially true of the Mississippi and its tributaries, which drain the immense and prosperous region which makes in very fact the heart of our nation; the basin of the Great Lakes being already united with the basin of the Mississippi, and both regions being identical in their products and interests. Waterways are peculiarly fitted for the transportation of the bulky commodities which come from the soil or under the soil; and no other part of our country is as fruitful as this in such commodities. Encourage and Protect Homestead Settler."

"The states of the high plains and of the mountains have a peculiar claim upon me, because for a num-

ber of years I lived and worked in them, and I have that intimate knowledge of their people that comes under such conditions. In those states there is need of a modification of the land laws that have worked so well in the well-watered fertile regions to the eastward, such as those in which you here dwell. The one object in all our land laws should always be to favor the actual settler, the actual homemaker, who comes to dwell on the land and there to bring up his children to inherit it after him. The government should part with its title to the land only to the actual homemaker—not to the profit-maker, who does not care to make a home. The land should be sold outright only in quantities sufficient for decent homes—not in huge areas to be held for speculative purposes or used as ranches, where those who do the actual work are merely tenants or hired hands. No temporary prosperity of any class of men could in the slightest degree atone for failure on our part to shape the laws so that they may work for the permanent good of the homemaker. This is fundamental, gentlemen, and is simply carrying out the idea upon which I dwell in speaking to you of your own farms here in Iowa. Now in many states where the rainfall is light it is a simple absurdity to expect any man to live, still less to bring up a family, on one hundred and sixty acres. Where we are able to introduce irrigation, the homestead can be very much less in size—can, for instance, be forty acres; and there is nothing that Congress has done during the past six years more important than the enactment of the national irrigation law. But where irrigation is not applicable and the land can only be used for grazing, it may be that you can not run more than one steer to ten acres, and it is not necessary to be much of a mathematician in order to see that where such is the case a homestead of one hundred and sixty acres will not go far toward the support of a family. In consequence of this fact, homesteaders do not take up the lands in the tracts in question. They are left open for anybody to graze upon that wishes to. The result is that the men who use them moderately and not with a view to exhausting their resources are at the mercy of those who care nothing for the future and simply intend to skin the land in the present. For instance, the small sheep farmer who has a home and who wishes that home to pass on to his children improved in value will naturally run his flock so that the land will support it, not only today, but ten years hence; but a big absentee sheep owner, who has no home on the land at all, but simply owns huge migratory flocks of sheep, may well find it to his profit to drive them over the small sheep farmer's range and eat it all out. He can then drive his flocks on, whereas the small man

ACQUITTAL OF BORAH LIKELY

Government Fails In Case Against Senator

PROSECUTION CLOSES

Counsel For Defense Will Ask That Case Be Taken From Jury.

Boise, Oct. 1.—What will probably be the last day of the prosecution in the Borah case began this morning with the introduction of evidence to show that the defendant in his capacity as attorney for the Barber Lumber Company had many deeds to timber lands recorded in the office of the county clerk in this city.

The defense announced yesterday that this could in no way connect Borah with any criminal conspiracy and that they were ready to concede the fact without any testimony whatever. The government attorneys declined to accept the offer.

Defense to Ask For Acquittal.
It is stated Borah's counsel will move to have the case taken from the jury immediately after the government closes.

Judge Whitson notified the prosecution last night he would allow no more testimony of a general nature and that some evidence connecting the defendant with the alleged crime must be introduced.

Rulick Cleared of Charge.

The Borah trial was interrupted for a short time today to allow the special grand jury which has been investigating the charges of misconduct against District Attorney Rulick to report. The grand jury returned a "no true bill" against Rulick and returned indictments against two of the men who filed affidavits against Rulick.

SECRETARY ROOT MEXICO'S GUEST

Arrived in Capital of Sister Republic Last Evening

WAS WARMLY WELCOMED

Historic Palace Turned Over to Distinguished Visitor.

Mexico City, Oct. 1.—Greeted by several thousand persons, among whom were many members of the American colony in this city, Secretary of State Elihu Root arrived in Mexico City at 4 o'clock yesterday afternoon on the special presidential train which brought him from the border as the guest of the Mexican government.

As the train pulled into the national station the artillery band played an American patriotic air and the statesman was given a rousing welcome.

Given An Enthusiastic Greeting.

Secretary of Foreign Affairs Ignacio Mariscal, who headed the local reception committee, was one of the first to greet Mr. Root. The board of governors of the city and the aldermen in a body were on hand to extend an official welcome to the visitors. Shortly after their arrival at Chapultepec castle tea was served. Officials of the city and several government officials, with their families, were present. There were no other functions on the entertainment program for the day, and Mr. Root and his party were left to recuperate after the long journey from Washington.

Housed in Historic Castle.

In accordance with the Mexican custom, Chapultepec castle was formally turned over to Mr. Root, who was told that the historic palace will be his residence during his stay in Mexico. The apartments which Mr. Root and his family occupy are the most elaborate in Mexico. In the telegraph room, two of the most expert operators from the central station are in charge and the palace is fitted up for the convenience of Mr. Root. An automobile and two carriages have been provided for the use of the secretary and his family.

SOLDIERS EN ROUTE TO ISLANDS

Eighteenth U. S. Infantry Passed Through Lamy Today—William Paulding Is Lieutenant Colonel

The Eighteenth U. S. Infantry, which for the past three years has been stationed at Fort Leavenworth, passed through Lamy early this morning for San Francisco, California, where the regiment will be quartered for a few days at the Presidio, and on the 5th instant embark on a transport steamer for Manila for a three years' tour of service in the Philippine Islands.

This will be the third term of service for the regiment in the islands in the last nine years. Colonel E. F. Davis, is the commander and the lieutenant colonel of the regiment is William Paulding, who was stationed here as a first lieutenant in the Tenth U. S. Infantry in the early 90's and who has several very warm friends in this city. Colonel Paulding has since been promoted to his present position and saw active service with his regiment in Cuba during the Spanish-American war. He is considered a very fine and efficient officer.

There were about thirty officers and nine hundred enlisted men on the several sections of the train and the trip from Leavenworth to Lamy was made without a mishap.

BOOKBINDERS GO ON STRIKE

Between 1,000 and 1,500 Walk Out to Enforce Demands For Eight-Hour Day.

New York, Oct. 1.—A number of strikes of bookbinders belonging to the International Brotherhood of Bookbinders will take place today in several cities, including New York, Chicago, and Boston, for the enforcement of the eight-hour work day. The typothetae has refused the demand in this city and other cities and strikes of the bookbinders. It is stated, will be ordered in all typothetae shops. It is believed that a thousand to fifteen hundred men will be affected in this city.

FEARFUL WRECK IN KOREA CLAIMS MANY LIVES.

Seoul, Oct. 1.—Forty-two persons, including thirty Japanese soldiers, were killed or injured by the derailment of a southbound train near this city early today.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THE PROPOSED PRESBYTERIAN SANATORIUM.

People of the Capital City should bestir themselves to obtain the location of the proposed Presbyterian sanatorium in this city. At the recent synod of the Presbyterian church of this district a committee was appointed to select the location of such a sanatorium and this committee is now actively at work. The New Mexican understands that Albuquerque and Silver City have already made offers of sites for the purpose.

It is established by medical and meteorological data that this city is the ideal location for such an institution. There are other places that have certain advantages at certain seasons but take it all in all and all the year around Santa Fe's climate, its altitude, its location, its greater percentage of sunshine, its smaller velocity and number of miles of wind, its lower percentage of humidity, its greater proportion of clear and fair days, its magnificent scenery, its fine and successful school system, its many social attractions, and last but not least, its great number of churches, and peaceful population, place it at the head of the procession and at the top of the list of suitable places. The Presbyterians of this city are a strong congregation and proverbial for energy, for good business capabilities, and for a capacity to accomplish successfully the work that they undertake. The congregation here should endeavor to secure a suitable site to be offered for the purpose named and property owners, business men, professional men, and even the office holders who are here temporarily as well as every person who is at all interested in this city in any way, and believes in doing good for his fellow man, should aid the Presbyterian congregation here towards success and the placing of this institution in the Capital of New Mexico. The buildings are to cost in the neighborhood of \$50,000 and are to be placed upon a suitable plot of comfortable nearness to the city and yet removed from the business center. There are several available sites around this city and Santa Feans should bestir themselves to secure the location in their town.

BACA'S APPOINTMENT AS DEPUTY COAL OIL INSPECTOR.

The appointment of Roman L. Baca of this city and county to be deputy oil inspector is a fully deserved recognition of the valuable services rendered by the Republican party of New Mexico in particular and the people of the territory in general by Mr. Baca while serving as speaker of the House of Representatives of the 37th Legislature. By his energetic and well directed efforts, by his honesty of purpose and loyalty to the best interests of the people and of the Republican party he was instrumental in securing much beneficial and greatly needed legislation; as speaker he opposed strongly and courageously much vicious attempted legislation, and many bills that had they become laws would have benefited class interests and tax dodgers, and that were pushed by the late fake reform administration with might and main. He stood up manfully and loyally for the principles, good name and success of the party of which he is a member, and upon whose ticket he was elected. Blandishments and offers of office held out to him in order to abandon his party and what was best for the people were not heeded by him in the least but he heeded to the line which he had marked out as true and proper, and worked with the Republican organization in a straightforward and honorable manner during the entire session. Mr. Baca was strongly recommended for the position by the leading Republicans of the territory, by the Republican territorial organization and by the Santa Fe County Republican central committee. He also had the endorsement of Governor Curry. He is energetic, faithful, courteous and quick, and while the duties of deputy coal oil inspector are not very onerous, or very important, yet he may be counted upon to perform them faithfully, honestly, with a due regard for the rights of all concerned, and a thorough observation of the provisions of the coal oil inspection law.

THE SOCORRO COUNTY FAIR.

"Where there is a will there is a way" is very apparent and well established by the success of the first Socorro county fair which was inaugurated Saturday morning last and closed yesterday. The directors of

the fair association had but a month's time for preparation and they certainly used every moment of that time to the best advantage possible. President Aniceto C. Abeytia did splendid work. Every director did his level best. Chairman W. E. Martin of the entertainment committee was as usual on top, and conspicuous for exceedingly efficient and successful work. The attendance was large, the exhibits were interesting and instructive, and the sports suited the assembled multitude to a high degree. The success of this fair is a lesson that should be heeded and taken advantage of by other counties. Of course there are not many counties in this territory that have the extent and the varied resources of the great county of Socorro but there is not one of them but with proper effort and judicious spending of money and well directed and energetic efforts of its leading citizens can not establish successful county fairs at their respective county seats. Visits of citizens of surrounding counties and from the outlying precincts of the county itself to the particular county seats can not but be productive of great good. People become acquainted, will take a greater interest in their county affairs and in their neighbors after such acquaintances, and act more unitedly and spiritedly for the advancement and progress of their county and county seats. Socorro county and its fair association are entitled to great and fully deserved credit, and the example set this year by Socorro should be emulated by every other county in the territory and that next year.

BOTH SIDES SHOULD BE BROUGHT TO TIME.

In an editorial comment on the proposed violation of written contracts by the striking telegraphers, the El Paso Herald says:

"The telegraph operators are in danger of losing the public sympathy they have enjoyed, if they sanction the New York local union's proposal to call out all the contract men. The public, which is neither striker nor struck but is apt to suffer more than either from these widespread disturbances has a sound, old fashioned regard for a written contract, and the proposal to call out men who are not only themselves satisfied with their treatment, but who are bound to their employers by written contracts on a fair basis, will prove very unpopular—perhaps even fatal to the telegraphers' cause." The above is all right with one exception. The striking telegraph operators are in no danger of losing the sympathy of the public. They can not lose what they do not possess. This they have lost many weeks ago. There is no plausible excuse for the telegraphers' strike and there was none when it was initiated. The people and especially the newspapers which are a very integral part of the people or the United States have suffered more than enough. It is high time that both sides to this controversy were taught a serious and severe lesson. If nothing else will do it then compulsory arbitration must be resorted to. If the newspapers of the country will stand together as they should and protect their own interests as they ought to, they can bring the striking telegraph operators and the companies to speedy terms.

The Albuquerque Citizen did good work for the success of the recent Socorro county fair. Its articles descriptive of the affair were very readable and extended as well as up to date. The paper published the speech of Governor Curry at the opening and Mayor H. O. Bursum's address of welcome to the executive in full. The paper also worked hard for the project of a special excursion train and a large excursion of Duke City residents to attend the fair and to be with the good people of the Gem City and Socorro county during this first attempt in that line. The people of the Gem City and of Socorro county should remember this timely and valuable aid of the Citizen.

It seems that there are a few Cubans egged on by interested parties in the city of New York who want to play at revolution in the "ever fateful isle." They will find that that game will not pay. The American governor whose name is Magoon will stand no fooling and no nonsense. These high-toned Cuban patriots will find quite a difference between opposing Uncle Sam and attending a cock fight. They are cut out for the latter pastime and will do well to leave the former alone.

THE ACQUITTAL OF CHAVES AND RONQUILLO.

The acquittal of Benito Chaves and Ramundo Ronquillo last Saturday, by a jury of their peers of the charge of murder of Rufus Tucker in this city on the night of June 10, 1906, was not a surprise. The verdict could not have been anything else and while public sentiment in this community finds no excuse for the brutal conduct of the two boys indicted and others who were with them at the dance at which Tucker met his death still the verdict meets generally either with approval or little criticism. The evidence disclosed clearly that there was no premeditation and no malice aforethought. It was an unfortunate row in which Tucker was knocked down and kicked. Had the indictment charged a lesser crime, in all probability a verdict of guilty would have been arrived at, but it was really out of the question to find a verdict of murder in the first degree. At the utmost manslaughter might have been established. The affair is one of those unfortunate incidents that will happen when too much liquor and too little dancing obtain at a "balle."

CREDIT FOR ANDREWS WHERE IT IS DUE.

"Andrews has announced himself as a third-term, so far as Roosevelt is concerned, and after counting up that Andrews has been sent to congress twice, we begin to suspect that he is a third-term in the congressional line too."—Albuquerque Industrial Advertiser.

"Well, why not? You don't suppose we are going to kill the goose that laid the golden egg?"—Deming Graphic.

Delegate Andrews has done splendid service for the people of New Mexico during the 59th Congress and will do still better work during the 60th Congress. His record as a delegate from the Sunshine Territory is of the best, and even his worst enemies who have made cowardly and dirty assaults upon him on account of business enterprises and business connections have not been able successfully to attack his record as the people's delegate to the national legislature. Credit where credit is due.

NEW MEXICO NEEDED IN THE UNION.

The Deming Graphic gives a very cogent and excellent reason why New Mexico should be speedily admitted into the sisterhood of states. New Mexico if allowed to enter the Union next year will elect two Republican U. S. Senators and two Representatives as well as a state and legislative ticket. This result which has many chances in its favor would offset the big Democratic majority in Oklahoma. The Graphic says:

"Oklahoma upheld her constitution at the recent election and the Democrats practically made a clean sweep. The Republicans, for fear statehood might be lost, did not take Taft's advice to vote against the constitution. Under the circumstances the Republicans, as they generally do, acted wisely. To offset this new Democratic strength of Oklahoma, New Mexico is needed in the Union, and if we are up and doing right now we undoubtedly stand an excellent chance to drop our territorial skirts."

AN OPINION OF JUDGE PARKER.

The New Mexican cheerfully republishes the following editorial opinion as to the judicial character and standing of Associate Justice Frank W. Parker of the territorial supreme court and agrees with the Silver City Independent thoroughly in the matter. The Enterprise says: "With each recurring session of the district court, the people of Grant county are given additional evidence of the absolute impartiality, the splendid ability and the delicately balanced sense of justice of the presiding judge, Hon. Frank W. Parker. We doubt if the bench ever had an occupant who commanded more fully the universal respect of the people and the bar and it is a matter of never ending satisfaction to know that if we must go to law, we are at least sure of fair and just treatment at the hands of a sound, sensible judge, who is impartial, unbiased and unprejudiced."

The electric lights furnished by the Santa Fe Water and Light Company are poor, inefficient and unsatisfactory, but the rates paid for them by consumers are very high, very brilliant and very satisfactory to the corporation. Here is another instance in which the consumers and the plain people come out at the small end of the horn. If there is no improvement and that in the near future, the New Mexican will have more to say on this subject. The people who are compelled to use these lights are becoming very restive and thoroughly dissatisfied with the state of affairs that now exists.

The dove of peace is not hovering over the political horizon of Bernalillo county at present, Chairman Frank A. Hubbell of the Republican county central committee sticks to the position and the alleged good government league reformers are looking at him askance. There may be room for the two contingents in Bernalillo county but at this time this is not apparent.

Governor Curry was right in his speech in Socorro last Saturday when he advocated loyal and untainted support in the movement to obtain speedy statehood for the Sunshine Territory. Here is hoping that President Roosevelt will coincide with Governor Curry's views when they are placed before him tomorrow.

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Santa Fe Citizen Shows You the Cure.
Why will people continue to suffer the agonies of kidney complaint, back ache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Santa Fe testimony:

Mrs. Bernarda Rivers de Escudero, living at 106 Griffin St., says: "As a good general tonic and in all cases of trouble arising from the kidneys and in the back, I know of no remedy more worthy of confidence than Doan's Kidney Pills. For about a year I was bothered with a weakness and a dull aching across my loins and kidneys. I tired easily from any exertion and the pains were very distressing. Using nearly two boxes of Doan's Kidney Pills which I procured at the Ireland Pharmacy, the pains were relieved, my back was strengthened and my health better in every way. I am indeed grateful to Doan's Kidney Pills for the great benefit I have received from them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A well decorated window makes a good showing to people taking in the sights, but advertising your wares in the New Mexican makes a better showing and attracts more attention.

FORT WHIPPLE IS FINE MILITARY POST

Judge A. L. Morrison Visits Historic Arizona Barracks—Banishment of Army Canteens a Curse.

Judge A. L. Morrison, who returned Sunday from Prescott, Arizona, where he went to accompany his daughter, Miss Mary, home, she being quite sick, visited the historic Whipple army barracks situated near that city. Judge Morrison who is a keen observer of all things, talked interestingly of his visit to the army post to a New Mexican representative. He said:

"During my stay in Prescott, I visited Whipple Barracks, and was greatly interested in the splendid permanent improvements that are now being constructed there. Situated as this post is in the foot hills of the Rockies, supplied with abundance of air, the purest air and the most perfect manner, Whipple will soon be an ideal post, wherein the soldiers can enjoy the purest air and the most healthful surroundings in the Union. When the buildings, now rapidly approaching completion are ready for occupation, a full battalion of troops will find ample accommodations there. The Old Mansion, as it is called, which was erected by General Crook, at an expense of \$80,000, is still in existence; every foot of lumber in the building was transported hundreds of miles to the post, there being no saw mills in that neighborhood.

"As the banishment of canteens from all military posts and its effects on the morals of our soldiers is being widely discussed, I made inquiry on that very important subject. One of the oldest and most respected chaplains in the army, who takes the deepest interest in the spiritual and temporal welfare of the men assured me that the removal of said canteens from the posts, was attended by the most deplorable consequences. It is all very well to say that soldiers should not drink spirituous liquors; as a man who never drank one glass of any kind of such liquors, I say so too; but I recognize the fact that there seems to be a demand in human nature for some kind of a stimulant and the question before the people is the adoption of a system with the minimum of evil results. We have the experience of both systems before us now, and ought to be able to adopt such a one, as can be regulated properly. While the canteens were tolerated in the posts, efforts were made to procure the least harmful kind of liquors, and these were sold under the supervision of an officer who was especially selected for that purpose and whose duty was to see that no one was permitted to drink to excess. But certain well-meaning persons affected to be scandalized at the idea of the government, as they said, being engaged in the liquor business; then pressure was brought to bear on Congress, a law was passed prohibiting the sale of spirituous and malt liquors in military posts.

"Any one with the slightest knowledge of human nature could have foreseen the results that inevitably followed. Simultaneous with the closing of the canteens in the posts, saloons of the vilest character conducted by human ghouls, whose business is to pander to the lowest appetites of humanity, were opened just beyond the legal limits and there the most abominable soul-destroying liquors were sold without let or hindrance to all comers; drunkenness, debauchery, military punishments, and desertions set in to such an extent as to appall the military authorities, who are at the end of their wits, and unable to control the miserable situation. The Reverend Chaplain already referred to informed me that the old soldiers on whose example so much depended to maintain the morale of the army, have ceased to re-enlist, their reasons being that they cannot obtain a moderate supply of stimulants, which they claim they need, and their self-respect forbids them to resort to the hell-holes that have taken the place of the old, time canteens. And so it stands at present—it depends on Congress to say whether the present demoralizing system shall continue, or whether the canteens in the military posts will be again permitted."

ARTESIA MEN STRIKE IT RICH

Mining Claims Owned By Them at Goldfield, Nevada, Turn Out to Be Bonanza.

(Special Correspondence to the New Mexican.)
Artesia, N. M., Oct. 1.—The Exploration Company, a mining company of this place of which Harry Burt is manager, has recently received an offer for their claims near Goldfield, Nevada. Their stock was originally put on the market for twelve cents a share, and the offer would give the company 700 per cent profit. Messrs. Harry Mull, H. A. Lay, Harry Hamilton and Harry Burt are the principal stockholders.

Martin Yates, Jr., of Fulton, Miss.

souri, has bought the C. E. Lukens place of 240 acres.

A recent inspection of the artesian wells by Harry Mull of the Eddy County district, and W. A. Wilson of the Chavez County district, reveals the fact that there are 575 artesian wells in use in the Pecos valley of New Mexico. The wells all show a steady and undiminished flow of water.

A. C. Keinath, cashier of the First National bank, has purchased a block of land on Richardson avenue and will erect a business block.

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

SETTLERS POURING INTO PECOS VALLEY

Completion of Carlsbad Irrigation Project Cause For Renewed Activity in That Section.

(Special Correspondence of the New Mexican.)

Carlsbad, N. M., Oct. 1.—The great Carlsbad irrigation project is completed and the work of putting in the main and lateral ditches has begun. Settlers are pouring into the valley. At Malaga, many new store buildings are going up and farms opened. Land sells for \$25 an acre and only settlers are buying, as under the rule, speculators are barred.

The fall term of court closes here Friday of this week.

I. S. Osborne, a capitalist and property holder, has gone to Kansas City for a short visit in the interests of the valley.

Lobe Cojair, the grading contractor on the reservoir, is looking up a contract at Amarillo, Texas. Mr. Cojair has twenty-five mule teams and is well equipped for large contracts.

Henry E. Jones, of Tampa, Florida, writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine." For sale by Ireland's Pharmacy.

"BOOTH'S OYSTERS."

The very finest in the land have just been received at the Bon Ton Restaurant. These are the very first of the season and can be found only at this place where they are up-to-date in everything. A trial will convince you.

They Make You Feel Good.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create makes one feel joyful. Price 25c cents. Samples free at all drug stores.

"HO! OYSTERS! HO!"

The first of the season just received at the only up-to-date short order house, The Bon Ton, where they are being served to your taste. Call and be convinced. They handle A. Booth's New York oysters, which come in sealed cans.

No home is so pleasant, regardless of the comforts that money will buy, as when the entire family is in perfect health. A bottle of Orino Laxative Fruit Syrup costs 50 cents. It will cure every member of the family of constipation, sick headache or stomach trouble. For sale by Ireland's Pharmacy.

The New Mexican Printing Company is prepared to do the best of brief work in short order and at very reasonable rates. Lawyers, who decide to have their briefs printed rapidly and correctly and to present them to the Supreme Court now in session here on time, should call on the New Mexican Printing Company.

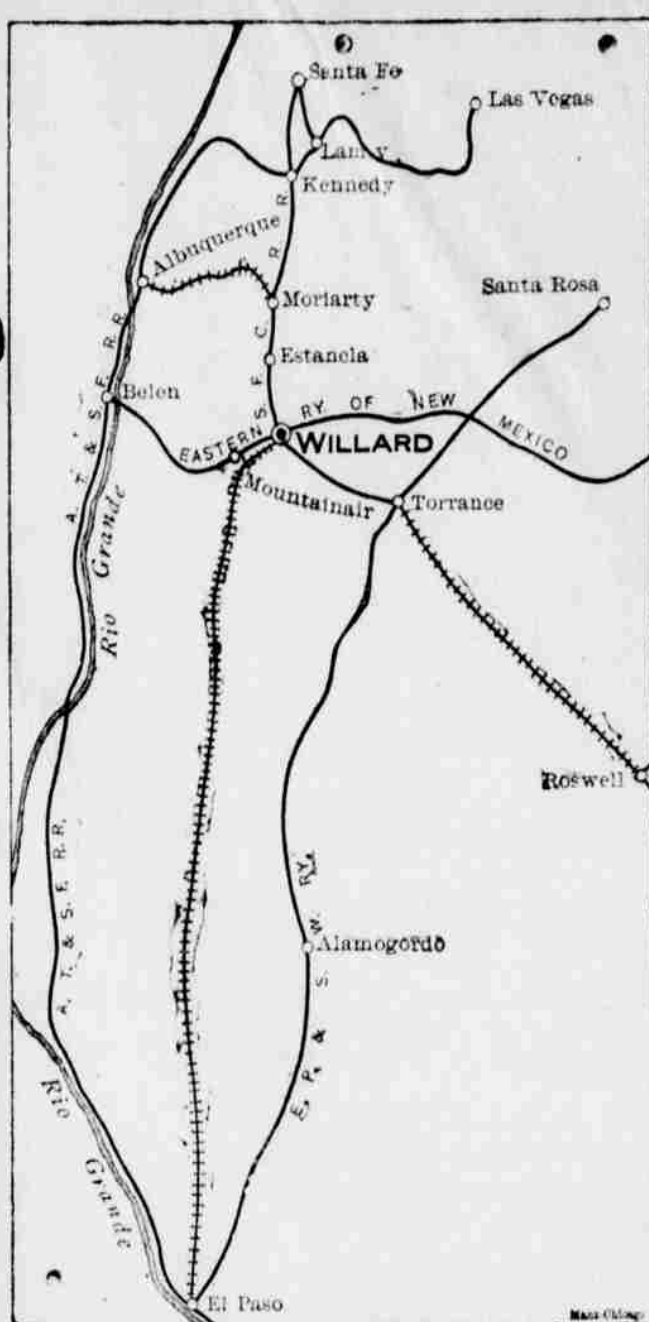

A Card.

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. For sale at Ireland's Pharmacy.

DeWitt's Kidney and Bladder Pills relieve backache, weak kidneys, and inflammation of the bladder. Sold by Ireland's Pharmacy.

The Weekly New Mexican Review is published by the New Mexican Printing Company every Thursday. It contains the most reliable and latest territorial mining, educational, stock raising, railroad social and political news of the week from all points of the Territory. It is an excellent paper to send to friends in the east. Price five cents per copy.

Willard is Growing Fast

A Natural Commercial Center

STUDY THE MAP.

The natural point on the New A. T. & S. F. Cut-off for the distribution of freight, having the advantage of the easy grades and short route to the East and West, and direct communication with all points in the Territory.

Wholesale houses are coming to Willard as soon as the Cut-off is open. Surrounded by a fine farming country. The purest water in New Mexico. The geographical center of Torrance County and of New Mexico. The water point on the great A. T. & S. F. short line through New Mexico. Willard is a growing town. Willard will make a City. OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver & Rio Grande Railroad, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids, and tourists. People suffering with consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in

the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m., the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. MINOR CITY TOPICS

The Capital City Club will hold its regular fortnightly dance this evening at Elks' hall.

Miss Florence Hecker assumed her duties yesterday as assistant bookkeeper for the New Mexican Printing Company.

Funeral services were held yesterday over the remains of the late Mrs. Lucia Lambertson, who died Saturday evening at her home on Agua Fria Street. Requiem mass was celebrated at the Guadalupe church followed by interment in the parish cemetery. The deceased was a widow and is survived by two daughters and one son.

Mrs. Joseph Hersch, who recently purchased the vacant lot on San Francisco street, opposite her store has had the ground cleared, and it is understood contemplates the erection of a two story modern business block there in the spring. The new building it is said will contain store rooms on the first floor and the upstairs will be fitted out for living apartments.

An anniversary requiem mass will be celebrated at the Cathedral Saturday, October 5, for the repose of the soul of the late Mrs. John Digneo. This service was to have been held on September 5, but was postponed owing to the absence from the city at that time of members of the family. Relatives and friends are invited to assist in the celebration of the mass next Saturday.

Probate Clerk George W. Armijo has issued marriage licenses to the following: Miss Felipita Lucero, aged 36, and Ramon Ortiz, aged 39, both of Santa Fe; Miss Anna Martinez, aged 19, and Carmel Carrillo, aged 38, both of Lamy; Miss Adelaida Robal, aged 40, and Justo Sandoval, both of Glorieta, and Mrs. Dorothy Bischoff, aged 54, and Anthony S. Dickinson, aged 46, both of Santa Fe.

Letters received this forenoon from San Pedro state it is very likely that the force at work in the camp and employed by the Santa Fe Gold and Copper Company, would be greatly reduced in numbers today and that many men would be laid off. The report has not yet been fully substantiated, although it is probable that a reduction will take place on account of the present low price of copper.

The street has it that Surveyor General Morgan O. Llewellyn is to tender his resignation at an early date and that Captain William Strover, at present examiner of surveys in the general land office, is to succeed Mr. Llewellyn. As far as the latter is concerned, he knows nothing of the rumor, has not tendered his resignation and is performing the duties of his office in his usual effective manner.

The October devotions which are celebrated every year by Catholics throughout the month of October will be observed as usual at the churches of that denomination in Santa Fe. The services which consist of the exposition and benediction of the Blessed Sacrament, the litany of the Blessed Virgin and the recitation of the rosary will be held at the Cathedral each evening beginning at 6:30 and at the Guadalupe church at 7 o'clock.

The delinquent tax lists for the years 1902, 1903 and 1905, will be published for the last time in Thursday's issue of the New Mexican Review. The list contains the names of the owners of all property upon which the taxes amounting to not less than twenty-five dollars have become delinquent; the year or years for which the same are due; the amount of such taxes, penalties and costs due; the description of the property whereon the same are due, and the amount of taxes, if any, due on personal property by such party. Those desiring copies of the paper containing said lists can secure same at the New Mexican office at 5 cents per copy.

(Continued on Page Eight.)

Advertising pays. Try it and see.

QUAIL SEASON OPENED TODAY

Also Opening of Season for Wild Turkeys, Mountain Grouse and Prairie Chickens.

Today marks the beginning of the open season for native or crested quail, wild turkeys, mountain grouse, and prairie chicken, and bright and early this morning there was an exodus of hunters bound for the quarries of these game birds. Quail in particular are said to be very plentiful this season in the vicinity of Santa Fe. The quail open season lasts four months, beginning on October 1 and ending January 31. The open season for wild turkeys, mountain grouse and prairie chickens embraces the months of October, November and December. The open season for deer will not begin until October 15.

WHY DID YOU COME WEST?

To rest, recuperate, hunt, fish, breathe fresh, pure air, see mountain scenery, get a change, live a new and fascinating life under new conditions, and get food that needs no pure food law.

That's why you came west!
There is a beautiful little valley that nestles between the highest mountains of the Rockies on the upper Pecos river; ideal altitude, 7,000 feet, and temperature identical with Santa Fe. Its streams swarm with trout and the woods and ranges are filled with game large and small. The ranchers live the life of the west. There are mountain lion, bears, deer and wolves for the hunter. There are saddle ponies to be had for the asking, rooms in a big, rambling ranch house with wide verandas, tent rooms or a cabin if you want it. The days are never dull. You see a great ranch and the genuine western life. Fresh milk, butter and eggs—all you can drink and eat. Sleep in blankets at night—fish in your shirt sleeves during the day. You couldn't spend more than \$9 a week if you tried. It's the place you are looking for. Accommodations for both men and women.

Inquire this office or address THE VALLEY RANCH, Pecos N. M.

Quinsy, Sprains and Swellings Cured.
"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Michigan. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

MEADOW CITY HAS BAD FIRE

Blaze Believed to Be Result of Incendiarism, Causes Loss of \$4,500.

Las Vegas, N. M., Oct. 1.—Fire believed to be incendiary, on Sunday night, totally destroyed the second hand store of C. J. Johnson and Son at the corner of Main and Sixth Streets and but for good work on the part of the fire department the entire block would have been consumed. As it was the stock of goods, valued at \$3,000 was totally destroyed and the building damaged to the extent of \$1,500. The firm carried insurance on its stock of \$2,500.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc. Sold by all dealers.

FORMER SANTA FEAN DIES AT CHAMITA.

Chamita, N. M., Oct. 1.—Mrs. Manuel S. Salazar died at the family home here Sunday after a lingering illness due to kidney trouble. She is survived by her husband, four children, her mother, Mrs. Fernando Delgado and eight brothers, among them Francisco Delgado, employed in the First National Bank at Las Vegas. She was a former resident of Santa Fe and leaves a large circle of relatives and friends in that city.

Triax Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by all dealers.

COME TO BELEN, N. M., Future Railroad Metropolis of New Mexico. Located on Belen Cut-off of Santa Fe R'y.

Belen is 31 miles south of Albuquerque, N. M., at the junction of the Main Line of the Santa Fe System—leading East and West from Chicago, Kansas City, Galveston and points East to San Francisco, Los Angeles, El Paso and Old Mexico.

1,000 business and residence lots, also 25x145 feet, laid out with broad 80- and 70-foot streets, with alleys 20 feet wide, with beautiful lake and public park and grand old shade trees; public school house, costing \$16,000; churches; large mercantile establishments; the Belen Patent Roller Mill, capacity 150 barrels daily; large winery; three hotels, Commercial Club; a population of 1,500 people; several restaurants, etc. Belen is the largest shipping point for wood, flour, wheat, wine, beans and hay in Central New Mexico. Its importance as a great commercial railroad city in the near future cannot be estimated.

The Belen Town and Improvement Company are owners of the BELEN TOWNSITE

JOHN BECKER, President. WM. M. BERGER, Secretary.

ALL FAST LIMITED EXPRESS, MAIL AND FREIGHT TRAINS OF THE SANTA FE WILL GO OVER THE MAIN LINE THROUGH TO BELEN, EAST AND WEST, NORTH AND SOUTH.

The lots offered are in the center of the city, well graded (many of them improved by cultivation); no sand or gravel. We need a first-class bakery, tailor shop, shoe house, jeweler, plumbing shop, planing mill, coal and wood yard, drug store, harness shop, etc. etc.; also a first-class modern hotel.

Our prices of lots are low and terms on easy payments; title perfect; warranty deeds. One-third purchase money, cash. Two-thirds may remain on note, with mortgage as security, for one year, with 8 per cent interest thereon.

Apply at once for map and prices if you wish to secure the choicest lots.

The Belen Town and Improvement Company

M'KINLEY MAUSOLEUM SIMPLE BUT ELEGANT

Stands On an Eminence Overlooking City of Canton, Due West of Family Home.

The McKinley mausoleum which was dedicated yesterday at Canton, Ohio, as a lasting tribute to the memory of the martyred President, stands on an eminence to which has been given the name of Monument Hill, about two miles due west of the McKinley home. It is not an ornate affair, but its simplicity is relieved by sufficient artistic embellishment to make it an object of beauty, as well as of massive proportions and breadth of design.

Four states have contributed a share of the material which has been used in the building of the monument. The granite used in the approaches and the mausoleum proper are from the quarries of Milford, Massachusetts. Tennessee has furnished the grey marble for the interior of the tomb, while the sarcophagi which now hold the bronze caskets in which lie the bodies of President and Mrs. McKinley are of dark green granite from Windsor, Vermont. The base upon which the sarcophagi rest is black granite from Berlin, Wisconsin.

From the first step of the approach to the monument, to the actual top of the structure is 163 feet 6 inches, the mausoleum itself being 98 feet 6 inches high above the summit of the mound. The top of the dome has an oculus 15 feet in diameter through which comes a softened light which adds greatly to the beauty of the interior.

The mausoleum is 78 feet 9 inches in diameter. In the center of the floor beneath the dome stand the sarcophagi containing the bodies of the president, and Mrs. McKinley, and in niches on the north side of the dome are the caskets containing those of the two daughters, Ida and Mary, who died in infancy.

Huge Doric columns are placed around the interior in such a manner as to appear half buried in the sides of the building. The floor is of mosaic, marble having been brought from many states for the purpose.

Half way down from the top of the 125 granite steps that lead up to the main entrance on the south side of the mausoleum stands an heroic bronze figure of President McKinley representing him in the attitude usually assumed when speaking—his left hand holding a roll of manuscript, and the right hand in the trousers pocket. Behind the figure is a bronze chair encircled with a wreath, and draped with the flag of the United States. The bronze figure, which is nine feet high, stands on a pedestal 18 feet from the base to the feet of the figure.

Upon the face of the pedestal these words are inscribed: "William McKinley, President of the United States; statesman singularly gifted to unite discordant forces of the government and mould diverse purposes of men toward progressive and salutary acts; a magistrate whose poise of judgment was tested and vindicated in a succession of national emergencies; a good citizen, a brave soldier, a wise executive helper and leader of men, an exemplar to his people of virtues that build and conserve state, society and home."

Twenty-six acres of ground were purchased by the monument's commission, and the utmost art of the landscape gardener has been lavished upon the grounds. Natural streams flow past the base of the mound, and trees and flower beds have been arranged with an eye to the greatest artistic beauty. From the entrance to the grounds on the south to the foot of the mound is 590 feet, and along this distance a double driveway 175 feet in width has been constructed. Between the two sides of the driveway is a lagoon which is constantly filled with fresh water. Long rows of trees

ESTANCIA VALLEY COMING TO FORE

Prosperity Abounds on Every Hand—Fine Crops This Year—Much Building Activity.

(Special Correspondence of the New Mexican.)

Estancia, N. M., Oct. 1.—The Estancia valley is forging to the front rapidly as a farming country. Where last year one could only see large herds of sheep and goats, now those same pasture lands are clothed with acres and acres of golden grain, ripening corn, fragrant clover and thrifty gardens, and there is a general spirit of hustle in the valley.

Two steam plows have been busily at work for almost two weeks breaking ground for the farmers to put in crops next year. There is also a new steam thrasher at work in the valley. It is owned and controlled by the Cochran brothers. The first crop of wheat to be threshed was at George Wood's place, near Estancia. The work was first class. The next work done was at C. B. Howell's ranch, three miles west of Estancia. Mr. Howell made ninety bushels of fine wheat on seven acres. Others have done as well or better. All this goes to prove Estancia is right in the middle of the best wheat and other grain growing country on earth and the stock farmers are trying very hard to interest capitalists in establishing a flouring mill and also a sugar beet factory at Estancia. Sugar beets grow to perfection in the valley as do grains. Estancia has the railroad facilities, water in never failing quantities and can raise all the required products in this vicinity.

Buildings are going up in the county seat, the cost of which amounts to twenty thousand dollars. A two story 25x100 foot brick store building is being built by James Walker, a brick residence by M. H. Senter, and a two story rooming house by Miss Mary Norris. Julius Meyers is also building a two story adobe residence.

The valley will be heard from in the near future as a great grain center.

Foley's Kidney Cure will cure any case of kidney trouble that is not beyond medical aid. For sale by Ireland's Pharmacy.

The New Mexican Printing Company keeps on hand a large assortment of blanks are carefully prepared in accordance with statute and will be found satisfactory. Reductions in prices are made to those who purchase in quantity. Blanks necessary in making homestead entries, or final proof thereon, desert land entries or final proof thereon, coal declaratory statements and in securing mining claims also kept in stock and for sale by the New Mexican Printing Company.

PROPOSALS FOR BUILDING MATERIALS, ETC. Albuquerque, N. Mex., Sept. 14, 1907. Sealed proposals plainly marked on the outside of the envelope "Proposals for Building Materials, etc.," and addressed to the undersigned at Albuquerque, N. Mex., will be received at the Indian School until two o'clock on Oct. 10, 1907, for furnishing and delivering at the school as required during the fiscal year ending June 30, 1908, about 37,000 feet of lumber, 25,000 shingles, 84 doors, windows and transoms, 15 columns, 10,000 brick, 10 square shingles, 200 feet of valley, 111 feet of stone sills, 1,337 square yards plastering, 250 barrels cement, 2 boilers, 2 lavatories, 2 closets, a bath tub, and a quantity of pine, electrical supplies, radiation, etc., etc., as per list and specifications obtainable at the school. Bidders must state in their bid the proposed price of each article to be offered under contract. All articles so offered will be subject to rigid inspection. The right is reserved to reject any or all bids or any part of any bid if deemed for the best interests of the service. Each bid must be accompanied by a certified check or draft on some United States depository or solvent national bank made payable to the order of the Commissioner of Indian Affairs for at least 5% of the amount of the proposal, which check or draft shall be forfeited to the United States in case a bidder receiving an award shall fail to execute promptly a satisfactory contract in accordance with his bid; otherwise to be returned to the bidder. Bids accompanied by cash in lieu of certified check will not be considered. For further information apply to BUREAU OF INDIAN AFFAIRS, INDIAN SCHOOL.

He names the following witnesses to prove his continuous residence upon, and cultivation of the land viz:

Francisco Duran, of Jemez, N. M.; Benito Gallegos, of Jemez, N. M.; Regulo Armento, of Perea, N. M.; Jose Maestas y Ruiz, of Perea, N. M.

MANUEL R. OTERO, Register.

Train report at 3 p. m.: Santa Fe branch train leaves for Lamy at 5 o'clock to connect with No. 1; Denver and Rio Grande and Santa Fe Central trains reported on time.

Miss Felipita Lucero of this city and Ramon Ortiz of Penas Negras were united in marriage yesterday at the Cathedral, the ceremony being performed by Very Rev. Anthony Fourchegu, V. G. Mr. and Mrs. Juan Moya acted as best man and matron of honor. The wedding was a quiet one, owing to the recent death of the bride's mother. Mr. Ortiz is a ranchero by occupation and he and his bride will make their home on his ranch at Penas Negras.

**TO FLOAT TIES
DOWN RIO GRANDE****W. S. Hopewell Goes to Taos County
to Superintend Operations—Tells
of Eastern Trip.**

General Manager W. S. Hopewell of the New Mexico Fuel and Iron Company arrived in the city last night and this morning went to Taos county, where he will remain until Friday engaged in starting the ties cut on the Santa Barbara land grant for transportation to Albuquerque. The ties will be hauled to the Rio Grande and floated down the river. A corporation consisting of Albuquerque capitalists and in which the American Lumber Company is also interested, has purchased the Santa Barbara Land Grant and the cutting is going on actively on the property.

Concerning the construction of the Albuquerque Eastern Railway from Moriarty to the Albuquerque and the branch line to the Hagan coal fields, Mr. Hopewell entertains strong hopes that work will be commenced on the project probably before spring, although he has nothing certain or definite to give out for publication at this time. The construction and finishing of the railroad line has been seriously considered by Eastern capitalists and the situation is hopeful. That is the utmost, however, that can be gleaned from Mr. Hopewell's conversation at present. He returned last week from Chicago where he and several Albuquerque financiers had a consultation with representatives of the capitalists who are interested in the new railroad.

**DELEGATE ANDREWS
GOING TO MEMPHIS****Accepts Invitation to Join Presidential
Party at St. Louis, Mo.,
Tomorrow.**

Special to the New Mexican.

Washington, Oct. 1.—Delegate W. H. Andrews, who reached here yesterday from New Mexico, received a telegraphic dispatch from Congressman Barthold, of St. Louis, and the president and secretary of the lakes to the Gulf Deep Waterways Association, to join the party that will escort the President from St. Louis to Memphis. Delegate Andrews left last night for St. Louis and will be one of the party tomorrow. He will return to Washington from Memphis as he has much business to attend to before the departments for his New Mexico constituents.

**ANOTHER DYNAMITE
OUTRAGE IN CHICAGO****Tenth Explosion as Result of War
Among Gamblers—Saloon Partially
Wrecked.**

Chicago, Oct. 1.—A nitro glycerine bomb was exploded last night on the roof of ex-Alderman John A. Roger's saloon, between West Madison and May Streets, doing considerable damage. Rogers was a witness earlier in the day before the grand jury which is expected to return wholesale gambling indictments. This is the tenth explosion in a series resulting from the war among the gamblers.

**MINERS FIGHT
AT CERRILLOS****General Mix-Up Follows Pay Day
Drunk—Several Hurt—Ringleader
in Jail.**

Special to the New Mexican.

Cerrillos, N. M., Oct. 1.—Yesterday was pay day on the Atchison, Topeka and Santa Fe Railway at Cerrillos and a number of Mexicans employed by the company imbibed too freely of poor whiskey, got gloriously drunk and then started a big fight. No one was seriously hurt. Three of the Mexicans and one negro woman, are in jail.

**DISASTROUS FIRE
WIPE OUT KENNA.**

Kenna, N. M., Oct. 1.—This town was practically destroyed Sunday night by a disastrous fire which originated in the office of the Kenna Record, a weekly paper published here. The building of the First National bank, the entire business section and many residences, were swept away by the flames. Although established within the year, Kenna, which now lies a waste of smoking ruins, was one of the most thriving towns on the Pecos Valley line of the Santa Fe railway.

**TORRANCE COUNTY
HAVING ITS FAIR****Event Begins Today at Estancia and
Will Continue Four Days—
Large Attendance.**

Special to the New Mexican.

Estancia, N. M., Oct. 1.—A large number of visitors from all parts of the Estancia Valley including a number from Santa Fe, joined hands with the townspeople here in the opening of the Torrance County fair and carnival which began today and will continue four days.

A feature of the entertainment part of the fair is the free exhibitions given in connection with the shows of the Hatcher-Russell Carnival Company. Reckless Russell, the intrepid one-legged bicycle rider, is one of the attractions. Russell's dive while astride a bicycle from a high platform into a tank of water is one of the most daring feats imaginable and he risks his life at every performance. There are a number of other free exhibitions which are not so thrilling, but are more entertaining.

Another feature of the fair embraces an exhibit of vegetables and farm products raised in the valley in which cash prizes will be divided among the prize winners. Five dollars is the prize for the best collection of vegetables and there are prizes ranging from 50 cents to \$1 per individual vegetables.

The Santa Fe Central Railway has made a special rate of one fare for the round trip from any point on its line including this city on account of the fair.

**LOPEZ HURT IN
BASEBALL GAME****Struck On Back of Head With Swiftly
Thrown Ball and Knocked Un-
conscious—Condition Serious.**

The Salmon Grays of this city which were entered in the baseball tournament at Socorro, which was one of the feature attractions of the Socorro fair returned home on the noon train today, having tied with two of the other teams for first prize.

During the game yesterday between the locals and the Socorro team which was won by the Capital City boys by a score of 9 to 2, James Lopez was accidentally struck on the back of the head by a swiftly thrown ball and fell unconscious to the ground.

Today when he returned with the team he was still in a critical condition and had to be carried on a stretcher. The accident was a most unfortunate one and the only incident that marred the pleasure of the fair.

OFFICIAL MATTERS.

Articles of Incorporation.

The following articles of incorporation have been filed in the office of Territorial Secretary Nathan Jaffa:

The Lake Arthur Supply Company. Principal place of business at Lake Arthur, Chaves county. Territorial agent, John D. Bratton, at Lake Arthur. Capital stock, \$50,000, divided into five hundred shares of the par value of \$100 each, commencing business with \$14,000. Object, general mercantile business. Period of existence, fifty years. Incorporators, J. A. Edwards, J. K. Hearte, John D. Bratton, W. E. Rogers, and John L. Howell, Jr., of Lake Arthur, and John H. Cooper and Lacy L. Moore of Canyon City, Texas.

**SOCORRO COUNTY
FAIR COMES TO CLOSE.**

Special to the New Mexican.

Socorro, N. M., Oct. 1.—Socorro county's first annual fair was brought to a fitting close last night with a grand ball in the opera house attended by local citizens and many visitors. The fair just closed was a great success and will be repeated next year. It is not known how much the association cleared but there was no deficit. The visitors left last night and today and the town has resumed its normal aspect.

**\$150,000 FIRE AT
LEADVILLE, COLORADO.**

Leadville, Colo., Oct. 1.—Fire this morning destroyed half a block of buildings at the corner of State and Harrison streets. One woman was severely injured by jumping and one man had his leg broken. It is reported a woman burned to death but firemen who are searching the ruins have not yet found the body. It is believed that the fire was caused by a gasoline explosion. The loss is placed at \$150,000.

**HARD FOUGHT CRIMINAL
CASE ENDS AT CARLSBAD.**

Carlsbad, N. M., Oct. 1.—One of the hardest fought criminal cases of the present term of court here, ended in the acquittal of Charles Hughes, charged with robbing the Schoonover saloon in this city several months ago of several thousand dollars in cash. The prosecution was conducted by District Attorney Fullen, assisted by W. C. Reid, while W. W. Gatewood looked after the defense.

**RETIRED REAR ADMIRAL
FAVORS BIGGER NAVY.**

New York, Oct. 1.—Read Admiral Joseph B. Coghlan, retired, is quoted at length in the American today on sending the battleships to the Pacific and increasing the navy. Both these measures, the admiral contends, would be moves toward peace.

**PRESIDENT BEGINS TRIP
DOWN MISSISSIPPI RIVER.**

(Continued From Page One.)

can not. Of course, to permit such a state of things is not only evil for the small man but is destructive of the best interests of the country. Substantially the same conditions obtain as regards cattle.

**Why Fencing of Vast Tracts is Pro-
hibited.**

The custom has therefore grown up of fencing great tracts of government land without warrant of law. The men who fenced this land were sometimes rich men, who, by fencing it, kept out actual settlers and thereby worked evil to the country. But in many cases, whether they were large men or small men, their object was not to keep out actual settlers, but to protect themselves and their own industry by preventing overgrazing of the range on the part of reckless stock owners who had no place in the permanent development of the country and who were indifferent to everything except the profits of the moment. To permit the continuance of this illegal fencing inevitably tended to very grave abuses, and the government—as therefore forced the fence to take down their fences. In doing this we have not only obeyed and enforced the law, but we have corrected many flagrant abuses. Nevertheless, we have also caused hardship, which, though unavoidable, I was exceedingly unwilling to cause. In some way or other we must provide for the use of the public range under conditions which shall prevent its being wasted. This means that in some shape or way the fencing of pasture land must be permitted under restrictions which will safeguard the rights of the actual settlers. I desire to act as these actual settlers wish to have me in his matter. I wish to find out their needs and desires and then to try to put them into effect. But they must take trouble, must look ahead to their own ultimate and real good, must insist upon being really represented by their public men, if we are to have a good result. A little while ago I received a very manly and sensible letter from one of the prominent members of the Laramie County, Wyoming, Cattle and Horse Growers' Association. My correspondent remarked incidentally in his letter, 'I am a small ranchman, and have to plow and pitch hay myself,' and then went on to say that the great majority of their people had complied with the governmental order, had removed their fences and sold their cattle, but that they must get some kind of a lease law which would permit them to graze their stock under proper conditions or else it would be ruinous to them to continue in the business.

New Lease Laws Needed.

The thing I have most at heart as regards this subject is to do whatever will be of permanent benefit to just exactly the people for whom this correspondent of mine spoke—the small ranchmen who have to plow and pitch hay themselves. All I want to do is to find out what will be to their real benefit, for that is certain to be to the benefit of the country as a whole. It may be that we can serve their interests best by permitting all homesteaders in the dry country to inclose, individually or a certain number of them together, big tracts of range for summer use, the tracts being proportioned to the number of neighboring homesteaders who wish to run their cattle upon it. It may be that parts of the range will only be valuable for companies that can lease it and put large herds on it; for the way properly to develop a region is to put it to those uses to which it is best adapted. The amount to be paid for the leasing privilege is to me a matter of comparative indifference. The government does not wish to make money out of the necessary supervision that will prevent its being eaten out or exhausted; that is, that will secure it undamaged as an asset for the next generation, for the children of the present homesteaders. Of course we must also provide enough to pay the proper share of the county taxes. I am not wedded to an one plan, and I am willing to combine several plans if necessary. But the present system is wrong, and I hope to see, in all the states of the Great Plains and the Rockies, the men like my correspondent

ent of the Laramie County Cattle and Horse Growers' Association, the small ranchmen 'who plow and pitch hay themselves,' seriously take up this matter and make their representatives in Congress understand that there must be some solution, and that this solution shall be one which will secure the greatest permanent well-being to the actual settlers, the actual homesteaders. I promise with all the strength I have to co-operate toward this end."

**MURDER SUSPECT
ARRESTED AT LAS VEGAS.**

Las Vegas, N. M., Oct. 1.—Local police yesterday arrested a negro who closely answers the description of "Butch" Williams, a Chicago thug, wanted for the murder a week ago in the Windy City of Mrs. Lillian W. Grant a kindergarten teacher. He is being held awaiting the arrival of a detective from Chicago. He refuses to talk.
