SPLENDID IRRIGATION PLAN  
Fertile Lands Being Rapidly  
Disposed of--Mrs. Lucia M.  
Harvey's Investigation.

Mrs. Lucia M. Harvey, of Chicago, Illinois, who is touring the territory gathering information and educational data for the Auxiliary Educational League, of Boston, Massachusetts, has spent the past week in this city. She came here from the Miami ranch located a few miles west of Springer, and owned by the Farmers' Development company, which company owns about 12,000 acres of fine land under first class title and in what is known as the Rayado valley and plains.

Mrs. Harvey was so well pleased with the plans of the company and the manner in which its business is being conducted by its general manager M. N. Mikesell, that she purchased a forty-acre tract under the reservoir and ditch system now under construction by the company and took an option on eighty acres more. The price paid by her for the forty acres is \$70 per acre, which may seem high for some people but she has carefully investigated the project, the water supply, the reservoir and ditch system now under construction, the class of people who have heretofore purchased farming tracts, the character of the soil, its fertility, the markets for the fruits, cereals and vegetables that can be raised there and is well satisfied with the bargain.

Mrs. Harvey has traveled a great deal and especially in the West and is a close and keen observer. She is no stranger to investments in farm lands, having made an investment in farm lands in Kansas which proved very profitable. She is a magazine article and newspaper writer of ability and has done much good work along those lines.

To a reporter of the New Mexican she said:

"One can hardly come down to this 'Sunshine Territory' of yours without getting brimful of enthusiasm over its possibilities and resources. And a visit out at Miami ranch, a few miles west of Springer, Colfax county, will inspire in the most confirmed pessimist enough hopefulness and confidence to dispel every vestige of doubt which might lurk in his system. Frederick Remington, the famous sketch artist walls over the departure of 'His West' and well he may. Exit the cowboy! Enter, The Man with the Hoe! This is the spirit of the hour in New Mexico."

"Interesting indeed, is a drive out to the great reservoir now building at this model ranch, where the big dam is doing in and where they are throwing dirt at the rate of a ton a minute--more or less. Think of it! A 160-acre reservoir and 12 miles of canal from which the life-giving waters will make the land below to blossom as the rose next year. Yes, next year! for there is a big forfeiture if the work under construction is not completed by February 1st, 1908. I do not remember just what the sum is, but it is enough to make it more expensive for them to fail than to succeed. Six new steam plows were set up a fortnight ago and the young man in charge has a heart interest in the way those machines do their work. He invented them, I believe, and the man inspecting the work up there has a personal interest in the thoroughness and excellence of that job for he owns a farm below which is going to be profited in direct ratio to the superiority or otherwise of those self-same dam operations, (no profanity intended,) in fact the co-operative spirit is noticeably to the fore at every turn out there. Everybody works but father--and he works too. It looks like dealing in 'futures' to drive over the already surveyed townsite and the future metropolis Miami, to drive around the Plaza and imagine we see the fountain playing in the center."

To Found New Town.

"The foundation of the first general store is being laid there, however, and a dozen buildings are under contract to be erected before spring. A bank is a foregone conclusion and the wire-pulling for the postmastership is already begun. They haven't organized a Woman's club yet, but it's in sight of course. Seriously, there is a plenty to inspire unbounded confidence in the future of Miami ranch. The Santa Fe Railway people are ready to build a

ADJOURNED MEETING  
SANTA FE PRESBYTERY

Secretary of Board of Home Missions to Speak Tonight--Installation of Rev. Purcell Tomorrow.

An adjourned meeting of the Santa Fe presbytery convened at 10:30 o'clock this morning in the First Presbyterian church. Rev. J. M. Whitlock of Lumberton presiding as moderator, and Rev. Samuel Magill of Raton at his post as stated clerk.

The following clergymen in addition to Revs. Whitlock and Magill are in attendance: Rev. Hugh A. Cooper, of Albuquerque; Rev. Norman Skinner, of East Las Vegas; Rev. J. W. Purcell of Santa Fe; Rev. John D. Gass, of Albuquerque; Rev. Manuel Madrid, of Mora; Rev. Gabino Rendon, of Santa Fe, and Rev. R. W. Crichton, of Albuquerque. The elders present are Judge John R. McFie of this city and Mr. Ross of Albuquerque.

Rev. Purcell, who was recently appointed pastor of the First Presbyterian church in this city presented his letter of dismissal from the Winchester presbytery, synod of Virginia, which was received, and his name was enrolled as a member of the Santa Fe presbytery, whereupon the call of the church was placed in his hands and accepted. The formal installation of Rev. Purcell will take place tomorrow evening at 7 o'clock. Rev. Whitlock as moderator will preside at the installation ceremonies. Rev. Magill will deliver the charge to the pastor and Rev. Crichton will deliver the charge to the congregation.

Rev. J. Earnest McAfee, of New York City, secretary of the Board of Home Missions of the Presbyterian church who is here attending the meeting today of the Santa Fe presbytery will deliver an address this evening at promptly 7 o'clock. It is necessary for Rev. McAfee to leave on the 7:40 train this evening, and that is the reason he will speak earlier than originally intended.

The general public is invited to attend the services this evening and installation ceremonies tomorrow night.

PEOPLE MUST  
BE UNANIMOUS

President Roosevelt Tells New Mexicans They Must Stand Together on Statehood Question.

Special to the New Mexican.

Washington, Oct. 29.--Delegate W. H. Andrews, of New Mexico, Judge Florence D. Morse and son of Santa Rosa, and A. H. Hilton of San Antonio called on the President this morning. They were received very cordially at the White House. The President in substance said:

"We tried to join New Mexico and Arizona together as one state; Arizona voted against the proposition. We cannot always get what we want. I will do all I can to help New Mexico become a state. The opposition in Congress may require the taking of a census of the Territory. In Oklahoma and the Indian Territory a census of their population was taken for one month. The people of New Mexico must be unanimous to get statehood."

HENEY ENTERS  
FRISCO CAMPAIGN

"Fighting" District Attorney Takes Oath to Prosecute Patrick Calhoun on Bribery Charge.

San Francisco, Calif., Oct. 29.--Francis J. Heney, last night made his first political speech of the present city and county campaign, addressing three thousand men and women in behalf of the candidacy of District Attorney William H. Langdon for reelection.

Heney roused his audience to a great pitch by holding up his right hand and taking this dramatic pledge:

"To prosecute Patrick Calhoun between November 5th and January 1st, with all my energy and ability, so help me God."

SOCIALISTS TAKEN  
INTO CUSTODY

Seattle Mayor Orders Their Arrest for Speaking on Streets--Put to Work With Chain Gang.

Seattle, Wash., Oct. 29.--Eight Socialist speakers and a like number of sympathizers were arrested last night for speaking on the streets. Mayor Moore has declared he will not allow any street meetings. The Socialists have secured about forty speakers and say they will continue their meetings as long as volunteer martyrs last. In the list of those arrested last night included Mrs. Hattie P. Titus, who was refused bail and placed in the chain gang.

U. S. STEEL CORPORATION

New York, Oct. 29.--The directors of the U. S. steel corporation today declared their regular quarterly dividend of 1 3/4 per cent on preferred stock and half of one per cent on common stock.

TAX ASSESSMENT  
GUADALUPE COUNTY

Gain Nearly One Hundred Thousand and Dollars  
EXEMPTIONS ARE REDUCED  
Increase in Railroad Classification Amounts to Nearly \$50,000

Guadalupe county is enjoying its share of the general prosperity that obtains all over New Mexico. No better proof of this statement is needed than a glance at the abstract of taxes recently compiled which shows a net increase of nearly one hundred thousand dollars in the assessment valuation of taxable property this year over that of 1906.

The total assessment on property returned for taxation purposes in Guadalupe county in 1906 amounted to \$871,386, while it totals \$996,941 for 1907. The million dollar mark at the present rate of progress will be passed next year. This is not only an increase in the valuation of taxable property but there is also a decline in the exemptions which bring the total amount subject to taxation to \$893,786 or a net gain of \$96,849.

The El Paso and Southwestern Railroad appears on the tax rolls in the county this year, which fact is responsible for a gain in that one item of \$49,758.

The regular county tax levy this year is 23 1/2 mills, while there are special levies for school purposes ranging from 3 to 10 mills.

The comparative abstract follows:

Agricultural lands, 1906, \$34,465; 1907, \$57,721, an increase of \$23,256.

BERLIN EDITOR  
IS ACQUITTED

Found Not Guilty of Serious Libel Charge  
RESULTS IN SCANDAL  
Verdict Was Popular One--Socialist Papers Begin Agitation.

Berlin, Oct. 29.--Maximilian Harden, editor of Die Zukunft, who has been on trial for some time in a defamation case brought against him by Count Kuns Von Moltke, was acquitted in court today.

General Von Moltke was condemned to pay the costs of the trial. The trial attracted great interest throughout Germany. Counsel for Harden charged that a court squire of which General Moltke was a member, was guilty of infamous practices and also sought to exercise their influence over Emperor William.

The presiding judge said Harden was justified in what he had published in the Zukunft, but there was no evidence that General Von Moltke at any time acted upon abnormal inclinations. Harden was cheered by the spectators when the verdict was announced.

The trial is already having considerable political effect. One hundred and forty socialist daily newspapers are attacking the monarchial principles and assailing exotic conditions which have been described as "fourishing in the hothouse of the court."

RAILROAD DENIES  
SENSATIONAL RUMOR

Pennsylvania System Has No Idea of Reducing Working Force--Has All Business It Can Handle.

Philadelphia, Pa., Oct. 2.--Rumors that the Pennsylvania Railroad company will lay off between 20,000 and 60,000 men was today denied by a high official of that company. The following statement was given out at the company offices:

"There is no truth in the statement that 20,000 men will be discharged by the Pennsylvania Railroad company. Nothing of the kind has ever been discussed. In view of the fact that traffic for October is eleven per cent greater than for the same month last year, which makes business for this month the largest in the history of the company, any material reduction in forces would not be possible."

ITALIANS ENGAGE  
IN FIERCE RIOT

Five Hundred Laborers in Chicago Take Sides in Personal Quarrel--Many Injured.

Chicago, Oct. 29.--One man was shot and fatally wounded, several others were cut and battered and twelve men arrested during a riot today at Halstead and Taylor streets, in which 500 Italians took part. The fight started between Charles Speciale and Angelo Caporbelli, between whom a feud had existed. Speciale was shot twice and will die. Friends of both men joined in the melee and in a short time a free-for-all fight was in progress.

FEAR RACE WAR  
IN TEXAS TOWN

Killing of White Man at St. Augustine Followed by Murder of Two Negroes--Rangers to the Scene.

St. Augustine, Tex., Oct. 29.--A force of state rangers is here awaiting developments because of the intense feeling caused by the killing of Jack Davis White and the wounding of his companion by negroes, several days ago and the subsequent finding of the bodies of two negroes near the scene of the shooting. Last night Captain Rogers telegraphed to Austin for more rangers.

NEW MEXICO  
BANKS SOLID

In Best Possible Financial Condition--No Alarm Need Be Felt.

Secretary Hallett Reynolds of the New Mexico Bankers' Association has addressed a very timely and proper letter to the newspapers of the territory which the New Mexican publishes.

It is a highly gratifying fact that New Mexico financial institutions, national and territorial, are in splendid shape, and in fact in the best condition in the history of the territory. It is also very pleasant to note that some of the national banks of the territory are among the best conducted and safest of that class in the United States, and that many of the banks under territorial charter can be put in the same category in their class.

The First National bank of Santa Fe, Major R. J. Palen president, and J. H. Vaughn, cashier, is the oldest national bank in the Southwest and is acknowledged to be of great financial strength and very conservatively and successfully conducted. It is as firm as the rock of ages.

The First National Bank of Roswell, E. A. Cahoon, cashier, is a splendid and well managed banking institution in every respect and on top. The Citizens' National bank of Roswell, Captain John W. Poe, president, is a thoroughly reliable and trusty institution.

The First National bank of East Las Vegas, Jefferson Reynolds president, is very solid and safe. So is the First National bank of Raton, C. N. Blackwell, president. The Silver City National bank, W. D. Murray, president, and C. A. Carter, cashier, is another fine institution.

The First National bank of Las Cruces, Fay Sperry cashier, is strong, as is also the First National bank at Clayton, H. J. Hammond president, and the First National bank at Carlsbad, G. M. Cooke, cashier. The First National bank at Belen, John Becker president, is very conservative and has ample resources. The First National bank at Alamogordo, Henry J. Anderson, president, is very secure and the affairs of the Hagerman National bank at Hagerman, John I. Hinkle, cashier, are carefully conducted.

The Bank of Commerce at Albuquerque, of which Solomon Luna is president and W. S. Strickler cashier, is one of the finest financial institutions and very trustworthy.

The United States Bank and Trust Company of Santa Fe, although it has been doing business only one year and a half, has won an enviable place among the reliable and trusted territorial banks. Howard S. Reed is president and C. H. Ingraham cashier.

The Bowman and Son Bank of Las Cruces, is sound to the core and one of the oldest banks in the territory.

The Estancia Savings bank although a new institution, but a month old, bears a good reputation.

Take it all in all the financial outlook as far as the banks are concerned in this territory is of the best. Secretary Reynolds' letter reads:

"Editor, Santa Fe New Mexican. Dear Sir:--Recognizing how important a factor the press has become in creating public opinion, our association is requesting all of the territorial papers to avoid any unnecessary display or scare headlines in publishing the financial news, while business in the far East is in the present disturbed conditions."

"Territorial business conditions have never been better; territorial banks have never been stronger, and we earnestly bespeak your co-operation in maintaining the present sound status."

"Yours Respectfully,  
"HALLETT REYNOLDS,  
Secretary."  
"East Las Vegas, N. M., Oct. 26, 1907."

Illinois Congressmen Meet at Chicago and Start Presidential Ball to Rolling.

Chicago, Oct. 29.--Speaker Joseph G. Cannon's official campaign for the presidential nomination was started yesterday at a meeting of fourteen Illinois Republican congressmen at the Auditorium Annex. It was decided to place Speaker Cannon in the race whether he acquiesced or not, but when the speaker was called in at the end of the three hour conference he said:

"Well, boys will be boys. Do as you please."

Five other Illinois congressmen who were unable to be present are also back of the movement. Congressman McKinley was made chairman of a committee that is to have the Cannon campaign in charge.

MANUFACTURER IS DEAD.

Chicago, Oct. 20.--Charles H. Deere, head of the great plow works at Moline, Illinois, who has been ill in Chicago for several months, died at 1:05 o'clock this morning at the Lakota Hotel. Deere had been sick for more than a year. His illness was diagnosed as pernicious anemia. The deceased was born at Hancock, Vermont in 1837, and leaves an immense fortune.

CONFIDENCE

WALL STREET

Public Has Gotten Over Its Recent Scare  
IMPORTING MUCH GOLD  
Clearing House Certificate Plan Put in Operation in Many Cities.

New York, Oct. 29.--The financial situation was without any notable developments today and the abating interest indicates the public had practically gotten over its scare. The stock market was a little unsettled, but without extreme agitation.

Great assistance in relieving the financial stringency is expected to result from the large engagements of gold for import made yesterday and from the further large imports which probably will be made within a few days. The movement of American crops to European markets, together with a revival of the demand for copper abroad, will give the United States large credits with foreign bankers and these can be availed in bringing in gold, it is believed, to the fullest extent necessary.

Banks to Re-Open.

It was announced today that several of the local banks which were compelled to suspend last week have just about perfected plans to re-open for business. Runs on the Trust Company of America and the Lincoln Trust Company continued today but in a greatly diminished volume.

Slight Slump in Stocks.

The stock market this morning gave evidence of a renewal of forced liquidation caused by the withdrawal of credits. Canadian Pacific slumped 8 points; Pennsylvania four; Union Pacific two and one-half, and other stocks a point or more. Shortly after eleven o'clock the market quieted.

Portland Banks Close Temporarily.

Portland, Ore., Oct. 29.--At the request of the Portland Clearing House Association, Governor Chamberlain last night declared the next five days legal holidays in this state, in order to prevent a money famine. This step was taken because the Portland banks cannot draw money loaned the outside state.

Frisco Banks Limit Withdrawals.

San Francisco, Oct. 29.--The Clearing House certificate plan was put in operation today by all the San Francisco banks. Everything worked smoothly and there was no excitement.

German Bank Raises Discount Rate.

Berlin, Oct. 29.--The discount rate of the Imperial Bank of Germany was raised today from 5 1/2 to 6 1/2 per cent. The change is directly due to New York's demand for gold, which it is feared here will lead to large gold exports from Germany.

London Markets Effected.

London, Oct. 29.--The rise in the discount rate of the Bank of Germany had a depressing effect on the markets here. Operators here now expect the discount rate of the Bank of England will be increased from 4 1/2 to 5 1/2 per cent. The exchange of all the leading countries is now above the gold point.

The sum of six hundred thousand pounds of sterling in bar gold today was sold and nine hundred, ninety-eight thousand pounds of sterling in American eagles was taken from the Bank of England as a part of the amount intended for shipment to America.

Situation Normal in Middle West.

Chicago, Oct. 29.--The financial condition throughout the West today was satisfactory in general to the banks and to a majority of the business interests. In all the money centers today the check and certificate plan was used. The banks commenced their second day's business under the check system, greatly encouraged by the manner in which the new method was accepted by the depositors. Out of four hundred thousand savings depositors in the city, only fifteen hundred made application for a withdrawal of their accounts or gave notice of a desire for withdrawal.

New Mexico Banks Form Clearing House Association.

As a precautionary measure to protect the supply of currency until financial conditions in the east have again become normal, the banks of Albuquerque and Las Vegas, yesterday formed Clearing House Associations. For the present withdrawals will be limited and cash payments, save in reasonable amounts will be made in Clearing House certificates. The

## OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## THE REPUBLICAN PRESS UNITED FOR STATEHOOD.

It is gratifying to note the almost unanimous sentiment throughout the Sunshine Territory for the establishment of a state government in New Mexico. This sentiment is very noticeable not only in the oldest settled sections of the territory in the counties traversed by the Santa Fe Railway system and in the Rio Grande valley, but also in the portions which contain the newer settlements which commenced only a few years ago. The counties of Quay, Union, Guadalupe, Roosevelt, Chaves and Eddy are certainly coming strongly to the front for statehood. County statehood leagues are being organized and the newspapers, especially the Republican ones, are very enthusiastic and consistent in their advocacy for self government for the territory. The Times, publishing in the flourishing county seat of Roosevelt county, the town of Portales is among the Republican newspapers that are making strong and persistent efforts and are enlightening the people upon the important question. In a very able and timely editorial the Times says:

"Governor George Curry and Delegate W. H. Andrews are working hand in hand to secure statehood for New Mexico during the year 1908. Governor Curry has seen the president and has secured the active aid of the nation's executive for the plan. He has also talked to about forty senators and representatives during his recent eastern visit, and has received many favorable responses to his request for the admission of New Mexico. Delegate Andrews is already at the national capital working for votes for the bill for an enabling act for New Mexico, which he will introduce during the first week of the coming session of congress and working as Delegate Andrews knows how to work in such matters, namely: carefully, diligently and successfully. The delegate will do some necessary work in this direction with the Hon. Joseph B. Cannon, speaker of the House of Representatives, who will succeed himself in that position in the Sixtieth Congress. Fortunately, the speaker entertains a very cordial friendship for New Mexico's suave and politic delegate. Conditions in the national capital are therefore very promising.

"At home leading Republicans have commenced to push the question of statehood to the front and that in earnest. There is not a single prominent Republican who has not announced his intention to work for the project from now on. Republican newspapers, without exception, have aligned themselves on the right side. The daily Republican papers are in line and the weekly newspapers are following suit. Among the dailies, especial credit is to be given to the Santa Fe New Mexican, which has been a staunch and consistent advocate of statehood since its birth, over forty years ago. It has always been a leader in the statehood movement, and for that matter, in everything also that has stood or stands today, for the growth, and progress and the benefit of our territory. The Albuquerque Citizen is found doing everything possible on the same journalistic firing line, and it can truthfully be asserted that the Republican press of the territory is united in the movement.

"Last year's election shows conclusively that the people, with insignificant exceptions, are for statehood. They gave nearly 13,000 majority for joint statehood to demonstrate their desires. The great majority was not given because they wanted joint statehood so very much, but because they wanted to prove to the country that they wished any kind of statehood, at any cost, and that they desired to become a self-governing political subdivision of our great country. All in all, conditions are most favorable, and it certainly looks like the state of New Mexico and the forty-seventh star on the American flag in 1908."

## CREDIT WHERE IT IS JUSTLY DUE

Under the heading "Credit to Whom Credit is Due," the Denver Republican gives due and just recognition to the financial ability and public spirited sagacity of Secretary George B. Cortelyou of the United States treasury and to the public spirit, financial acumen and desire to be of service to the country of the rich capitalists and bankers who last week in New York City took steps to allay the financial panic then operating there. The New Mexican has already said that there was good and public spirit even in the

richest American trust magnate and manipulator of huge sums, stocks and bonds. The instance bears out this statement. Says the Republican: "Although much has been said in condemnation of some of the leading financial men of New York and from time to time the opinion has been expressed by the thoughtless people that there would be no occasion for regret if those leaders suffered heavily from depression in business conditions, still the country will not fail to appreciate the way in which these leaders came to the rescue when some of the banks of New York City were threatened and the storm gave evidence of sweeping scores of firms into ruin.

"By throwing millions into the market and providing funds to support the threatened banks, these financiers, aided by Secretary Cortelyou of the treasury department, checked the run and so supported the market that the threatened crash was averted.

"It was with a sense of relief that the country saw this action taken, for it is not alone Wall Street which is affected when a great financial storm arises. If the panic in New York had involved many more banks and dragged down into ruin many of the great financial institutions of that city, the effect upon the country at large could not have failed to be disastrous. The West is strong and powerfully fortified by its large production of wealth. It is strong also in its comparative freedom from heavy obligations to the East. Nevertheless, it would have been seriously injured if the storm had spread throughout the country; and that it might have done this if it had not been for the action of the prominent business men who came to the rescue is beyond question. "The fact that these men were guarding their own interests, does not detract from the credit which is due them. They might have saved all their own holdings even if they had refused to take this action. But they appreciated the injury to the whole country which a general panic would inflict, and so they stood in the breach and stopped the rush over the precipice.

"Credit should be given to those to whom it is due; and whatever some persons may think or be disposed to say about the conduct in other particulars of certain prominent leaders in finance, it must in justice be acknowledged that in this instance they did valiant service for the business interests of the country."

## ENFORCING THE SUNDAY CLOSING LAW.

The action by this paper in calling the attention of the court officials in Bernalillo county to the reports from Albuquerque that the territorial Sunday closing law was more observed in the breach than in reality there has done good, and the New Mexican is glad of it. In accordance with orders from the proper officials the sheriff of the county Saturday last, informed the saloonkeepers and the sporting element of the Duke City generally that from now on and henceforth the spirit and letter of the law will have to be observed and that all violators against whom proper proof could be adduced would be prosecuted and punished. This is a great step forward in the right direction and while it may be very unpleasant and distressing to the sporting element there, will be hailed with delight and approved by the good citizenship of the town, which despite the unfortunate fact that a very very yellow unscrupulous and venomous yellow sheet is published there daily of morning, is in the majority and desires the laws of the territory carried out promptly and efficiently. Some time ago the Albuquerque Citizen, a paper which believes in public morality, decency and observance of the laws, called attention to the very bad state of affairs that existed in Albuquerque on Sundays and insisted that a change for the better should take place.

There can be no doubt that the carrying out of the provisions of the Sunday closing law in this section of the country has proven so far very beneficial and will continue so to do. Another view is that although there may be some points in the statute that may be objectionable to certain people and certain classes of the population as long as the law exists, let it be impartially carried into effect and enforced throughout the territory. The sporting element of no town should be strong enough to be immune from punishment for violations of the law. What is sauce for one

should be sauce for the other. Treat them all alike.

In Santa Fe and in this district generally for years past the provisions of the Sunday closing law have been observed to a very gratifying extent. There may be some failures but that is but natural and if these are found out they are promptly punished. The New Mexican congratulates the decent, respectable and law abiding citizens of the Duke City upon this change for the better. It goes without saying that the less gambling, the less drinking and the less the sporting element is in evidence, the better for the best interests of any community. If the change shall be carried out as the New Mexican hopes and trusts it will be Albuquerque will lose the character of a "wide open town," and that will certainly be for the best.

## LOOK ON THIS PICTURE: AND ON THAT.

In the good (?) old Democratic days the tornado that wrought such havoc in Wall Street, last week; would have swept all over the country in its ruinous course. It is true that such a panic prevailed after the conclusion of the civil war, but as that war was the logical result of Democratic teaching, that panic must be credited to that party. It took long years of care for Republican statesmanship to place the finances of the country on a stable basis, but in spite of democratic obstruction and opposition the great work has at last been accomplished, and now Wall Street panics have no more effect on the money centers of the West than a summer breeze blowing over the prairies. Sufficient proof of this statement is found in the following from a recent issue of the Chicago Inter-Ocean:

"Yesterday's developments in the East made no unfavorable changes in the Chicago financial institution. There is not a bank in the city held under the slightest suspicion. Clearing house examinations have shown all of the important ones to be absolutely sound, and these institutions have verified the stability of all the banks clearing through them.

"Local banks have easily a total of \$135,000,000 to \$150,000,000 in cash on hand, which is enough to pay the account of every savings depositor, and the quick assets of banks are perhaps twice the amount needed.

"There were no unusual happenings at any of the banks during the day. Twelve of the largest institutions reported withdrawals of money normal. In several instances confidence of the people was shown in that deposits and other receipts of money were larger than the amount the banks paid out, the excess in one case being nearly \$1,000,000.

"Average declines in stocks on the Chicago exchange were 1 to 3 points, with some issues, which are also traded in on the New York exchange, dropping from 5 to 7 points, but on the whole the real liquidation of securities was not enough to cause a scare."

## THE PENITENTIARY PERMANENT IMPROVEMENT FUND.

During the late fake reform administration which afflicted this territory for about fifteen months, a great hullabaloo was set up in yellow sheets and by interested federal and territorial officials for their own sinister purposes and the charge was made that about \$27,000 of funds pertaining to the permanent improvement fund of the territorial penitentiary which had come into this fund during the past five years from sales of territorial public lands donated to the institution by the United States for permanent improvements had been squandered and used for other purposes than those declared by law. Traveling Auditor Charles V. Safford has just closed a lengthy and exhaustive examination into the fund named and has submitted his report to Governor George Curry. The report shows that during the period mentioned about \$41,000 have been used in making permanent improvements at the prison. Of this sum about \$26,000 was derived from the sale of public lands donated by the federal government and the remainder between \$14,000 and \$15,000 came from savings in regular appropriations made by the territory annually and from the convicts' earnings fund. The report goes into minute details, and every receipt and expenditure of funds is accounted for and shown in detail. It is gratifying to note that by this report another contemptible and trumped up charge against the administration of the territorial penitentiary under the Republican administration up to January, 1906, is proven false and based upon nothing except wilful and mischievous misrepresentation of facts, perversion of facts and untruths.

In its Saturday issue the Albuquerque Citizen contained a lengthy descriptive article nicely illustrated of the Estancia Valley, in which in addition to the resources, growth and advancement of that section some historical reminiscences were also given. The story is well written and presents a word picture that portrays in excellent style and in very graphic manner the great advance that has taken place there during the comparatively speaking short space of three years. The resources of the valley are correctly given and their value and extent are not at all overdrawn. It is an article that will be of great value to the section and it is as good and solid advertisement as could well be given. The Citizen has certainly done very well in its publication.

## RHEUMATIC FOLKS.

Are You Sure Your Kidneys are Well? Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is Santa Fe testimony to prove it.

Anselmo Armijo, living at 124 Cerillos street, Santa Fe, N. M., says: "For several years my wife suffered a great deal from back ache, pain in the back of her head and rheumatism. Medicines that she used proved of little or no avail until she commenced with Doan's Kidney Pills which we had the good fortune to learn of and procured a box at The Ireland Pharmacy. The genuineness of this medicine as a cure for the kidneys was amply proven in her case. After using five boxes she was a well woman and has enjoyed good health ever since. I make this statement unsolicited, being prompted to do so that I may show my appreciation of this remedy, Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## OFFICIAL MATTERS

### Postmasters Appointed.

Elisha A. Dow has been appointed postmaster at Gran Quivera, Torrance county.

Edward Y. Park has been appointed postmaster at Stanley, Santa Fe county.

### Civil Service Examination.

The United States Civil Service Commission announces an examination on November 19, 1907, at Santa Fe, New Mexico, to secure eligibles from which to make certification to fill vacancies as they may occur in the position of railway mail clerk.

As the commission has experienced considerable difficulty in securing eligibles to meet the needs of the service in this state, qualified persons are urged to enter this examination.

The examination will consist of the subjects mentioned below:

Spelling (20 words of average difficulty in common use).

Arithmetic (simple tests in addition, subtraction, multiplication, division and fractions).

Letter writing (125 words on some subject of general interest.)

Pennmanship (treating on legibility, rapidity, neatness, etc.)

Copying from plain copy.

Geography of the United States.

Reading addresses.

Systems of railway transportation (questions relating to the names of railways entering or running through the applicant's railway mail division.)

Age limit, 18 to 35 years on the date of the examination. The minimum height has been reduced from 5 feet, 6 inches, to 5 feet, 5 inches, exclusive of shoes, and the minimum weight has been lowered from 135 pounds to 120 pounds without overcoat and hat.

Applicants should apply at once either to Charles Parsons, the secretary of the board of examiners, or the district secretary at Denver, Colorado, for application form 304 and form 1497, "Information for applicants for the railway mail clerk examination."

No application will be accepted unless properly executed and filed with the civil service commission, Washington, D. C.

As examination papers are shipped direct to the places of examination from Washington, it is necessary that applications be received in ample time to arrange for the examination desired at the place indicated by the applicant. The commission will therefore arrange to examine any applicant whose application is received in time to permit the shipment of the necessary papers.

## GOVERNOR CURRY'S HOME COMING

Executive's Visit Last Week to Lincoln, Marked By Enthusiastic Welcome.

(Special Correspondence to the New Mexican.)

Lincoln, N. M., Oct. 29.—Governor George Curry arrived here at noon on last Friday from Roswell. He was escorted into town by fully one hundred mounted citizens leading a large procession of carriages containing old residents of Lincoln county who felt proud to do honor to a man whose career in New Mexico commenced here.

Upon the arrival of the procession at the court house the governor was greeted by the public school children. They sang patriotic songs and presented the governor with bouquets of flowers. This greeting was especially touching and brought tears to the eyes of the executive.

A reception was tendered Governor Curry in the court house during the afternoon at which he met many citizens. After a dinner served in his honor the party returned to the court house where the governor delivered an address on the statehood question. The program was brought to a close with a grand ball in honor of Lincoln's distinguished citizen.

## OJO CALIENTE HOT SPRINGS.

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver & Rio Grande Railroad, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids, and tourists. People suffering with consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m., the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. SPECIALIST PRESCRIBES CUTICURA

A Famous French Specialist on Diseases of the Skin Prescribes Cuticura as the Most Effective Remedy Known to Him, Charging as His Fee 100 Francs (\$20).

ALSO PRESCRIBED IN HOSPITAL SAINT LOUIS

"Gentlemen: You may be pleased to learn that a patient suffering from an irritation of the skin, caused by motor- ing, on consulting a noted physician in Paris, for which a fee of one hundred francs (twenty dollars) was charged, was advised to use Cuticura, which advice, although received with astonishment, was followed and resulted in a perfect cure. (Signed) Lewis Gower, 1123 Broadway, New York, U. S. A., December 16, 1906."

French physicians, particularly those making a specialty of the treatment of skin diseases, have for many years regarded Cuticura as a specific and have prescribed it freely. It enjoys the rare distinction of being prescribed in the Hospital Saint Louis, Paris, one of the largest and most famous hospitals in the world devoted exclusively to the treatment of diseases of the skin.

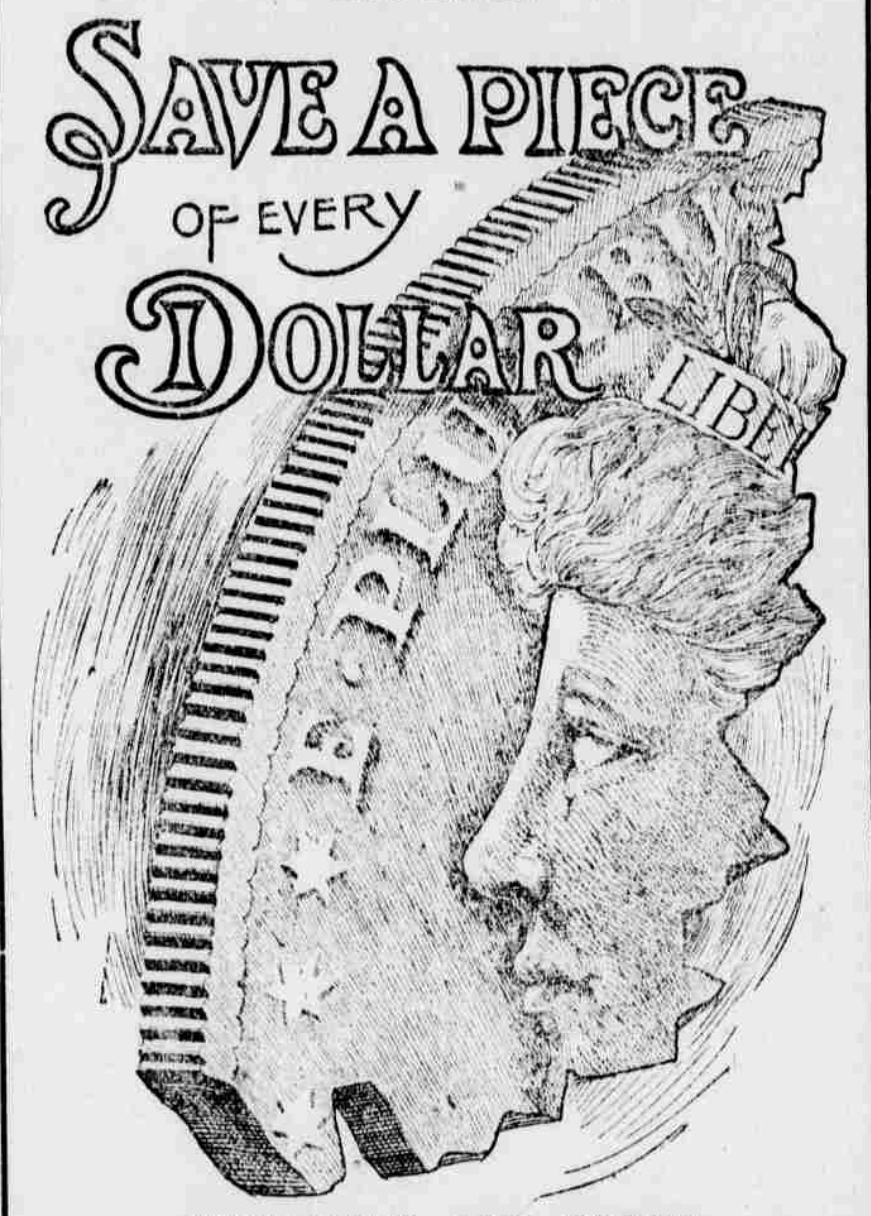

Mother Of Ten Always Kept Cuticura Ready for Children's Skin and Scalp Troubles.

"I wish to add my voice to the praise of Cuticura Remedies. I am the father of ten children, whose mother is dead. In our homes in England and America, she kept in her little medicine chest, always on hand, and often used to use the Cuticura Remedies, and they brought the best of results in children's skin and scalp troubles. These children are all grown and scattered and I cannot recall any specific cases of cure, but I do know that I have spent remarkably little in doctors' fees. George W. Rugby, 62 N. Clark St., Chicago, Ill., Oct. 25, 1906."

Complete External and Internal Treatment for Every Humour of Infants, Children, and Adults, consists of Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin, and Cuticura Pills (50c), or in the form of Chocolate Coated Pills, 25c per box of 60 to Purify the Blood. ## WHY DID YOU COME WEST?

To rest, recuperate, hunt, fish, breathe fresh, pure air, see mountain scenery, get a change, live a new and fascinating life under new conditions, and get food that needs no pure food law.

That's why you came west!

There is a beautiful little valley that nestles between the highest mountains of the Rockies on the upper Pecos river; ideal altitude, 7,000 feet, and temperature identical with Santa Fe. Its streams swarm with trout and the woods and ranges are filled with game large and small. The ranchers live the life of the west. There are mountain lion, bears, deer and wolves for the hunter. There are saddle ponies to be had for the asking, rooms in a big, rambling ranch house with wide verandas, tent rooms or a cabin if you want it. The days are never dull. You see a great ranch and the genuine western life. Fresh milk, butter and eggs—all you can drink and eat. Sleep in blankets at night—fish in your shirt sleeves during the day. You couldn't spend more than \$9 a week if you tried. It's the place you are looking for. Accommodations for both men and women.

## METHODIST SPANISH MISSION GROWING

In Northern Part of New Mexico—A  
Large Increase Shown in Number  
of Communicants.

There passed through the city yesterday en route home three ministers belonging to the Spanish Missions of the Methodist Episcopal church in New Mexico. They were in return home from attending the conference of the missions last week in Albuquerque. Two of them live and work in the county of Taos and one in the county of Rio Arriba.

In talking to a representative of the New Mexican, they stated that mission work of their church in the northwestern counties among the Spanish speaking population was progressing favorably and quite satisfactorily. Where twenty-five years ago members of their church there were numbered by ones or twos they are now growing into the hundreds.

Rev. Eulogio Montoya, has a parish at Taos, the interesting and picturesque county seat of Taos county. He is forty-eight years old and has been in the service twenty-three years. He commenced with a half dozen communicants and now has one hundred and seventy-eight and eleven on probation.

Rev. Cruz C. Martinez, stationed at Dulce, Rio Arriba county, has one hundred and ninety communicants under his charge and seventy-five on probation. He is fifty-seven years of age and has been twelve years connected with church work; Rev. Romulo Suazo of Costillo, a fruitful section in Taos county, has fifty-six communicants in his charge and twenty-five on probation. He is fifty years old and has been in the church nineteen years.

Each pastor has a church edifice for services and Mr. Montoya at Taos has two, one in Taos proper and one about two miles off. A comfortable residence has also been provided for each pastor. All these buildings are the property of the Spanish Missions of the Methodist Episcopal church. They hold services and preach in the Spanish language and their congregations are almost exclusively composed of native citizens of Mexican descent.

When in need of anything in the printing line, such as wedding cards, invitations, briefs, call on the New Mexican Printing Company, where all work is guaranteed.

## The New Mexican's Daily Short Story

### MADNESS OR DEATH.

The Inevitable Fate That Awaits the Absinth Tippler.

What is absinth? It is prepared by pounding the leaves and flowering tops of various species of wormwood, star anise root, sweetflag root, leaves of dittany and other aromatic plants, and steeping them in alcohol. After eight or ten days the mixture is distilled, and oil of aniseed or some similar essential oil is added. This is the method of producing the genuine absinth, but it varies usually in the direction of cheapening production and increasing profits. Poisonous wood alcohol is used for macerating the vegetable ingredients, and inferior and often injurious herbs are employed. These do not always produce the much desired greenish opalescence, and turmeric, indigo, sulphate of copper and other coloring matters are employed. The consequences of regularly drinking even carefully prepared absinth are in the end ruinous to mind and body. The main difference between the various qualities of the liquor is the rapidity with which deleterious effects are produced. A man can go on drinking the better qualities a little longer before he becomes a mental and physical wreck; that is all. And, whether one drinks to excess or only takes a regular daily dose, the end is the same. The sequence of events and their duration only are different. In the first case the large doses of the liquor necessary to produce any effect speedily render the victim unable to eat food. He is tortured by an unquenchable thirst. Hallucinations speedily follow, and the grave or the madhouse is the inevitable end. The absinth tippler goes to ruin down an easier slope. His earliest symptoms are loss of weight and strength, followed by the development of muscular twitchings and a tottering gait, somewhat similar to that of locomotor ataxia. Then hallucinations set in, accompanied by gradually spreading paralysis, which ends in death. If a person is a regular daily drinker of absinth, whether he drinks to excess or only tipsles moderately, ruin of the nervous system, followed by madness or death, is absolutely certain.—Exchange.

### SOME NEW YORK FIRSTS.

The first governor was Peter Minuit. He was appointed in 1624. The first male child born of European parents was Jean Vigue (1614). The first female child born of European parents was Sarah Rapalja (1615). The first physician was Dr. Johannes La Montague, who began practicing in 1630 and who for many years was the only doctor.

The first engineer was Kryn Frederick, who was authorized by the governor in 1626 to superintend the construction of a permanent fort on Manhattan Island.

The first meeting room for religious services was (1626) in the loft of the horsepower mill located on what is now South William street, near Pearl.—New York Herald.

The first warehouse was erected in 1626. It was a rude, inartistic structure, one corner of which was set apart as a village store. Here the Indians came for a drink of the white man's "fire water."

#### A Dutch Superstition.

Live but to learn! When you give a pointed or sharp instrument to a friend he makes return of a penny, so that friendship may not be pierced or cut. I gave a kitten to our washwoman, the daintiest bit of Wilhelminesque ware in this country—about thirty-five, avoirdupois 222. She was nearly tickled to death. "I won't thank you for the present," she said, "because the kitten would pine away and die." She then explained that in Holland to thank a friend for a present was always supposed to bring bad luck. Maybe all men these days are Hollanders. The more favors you do them the less they thank you.—New York Press.

#### Why Tears Flow.

All human emotions, however slight they may be, either decrease or increase the circulation of the blood. Those emotions that bring tears cause the blood vessels around the eyes to expand, thus flooding the lacrimal or tear glands with blood. The tear glands always secrete a little to keep the eyes cool and moist and carry off specks of dust through the nasal passages, but the extra supply of blood increases this secretion to such an extent that it cannot go off in the usual way, so overflows.

#### Von Moltke at Cards.

Count von Moltke, Germany's great field marshal, never lost a battle, and it annoyed him to lose a game of cards. A biographer says of his old age: "The family were trained to let him win if they could without his noticing their maneuver, and they would reckon up the sums to the smallest amount." It is really wonderful that I have won in spite of my bad play," he remarked to me once rather suspiciously, but he abided by the result."

#### A Free Hand.

"You sketch with a free hand, Miss Brownsmith," remarked the professor, who had been critically examining her portfolio.

"Entirely free," said the young lady as she cast down her eyes in soft confusion and waited for the professor to follow up the opening.

### TO SPEND \$10,000 ENTERTAINING VISITORS

All Arrangements Completed For the Coming Session of American Mining Congress at Joplin, Missouri.

Joplin, Mo., Oct. 29.—Dr. E. R. Buckley, state geologist of the Rolla School of Mines, and the moving spirit in securing the coming session of the American Mining Congress for Joplin, spent one day in the camp this week inspecting the detailed arrangements for the meeting November 11, which he pronounced far in advance of the work of preparation for the previous sessions. The \$10,000 needed for the congress is on hand; excursions to all parts of the district to inspect mines and machinery, have been all planned; together with many social entertainments, none of which will in any way conflict with the regular business of the congress. The homes of the city have been generously offered to care for the overflow from the hotels, showing a genuineness of hospitality found only in mining camps. The Auditorium, in which the meetings are to be held seats 3,000 people; while the mineral display close by will be worthy any mining camp in the states.

One mine, the Continental Zinc Company, has generously offered to stop work for two hours each day, that the ladies in attendance on the congress may have the pleasure of visiting the underground development. This company's hoister is equipped with a cage that is absolutely dry. It is officially announced that there will be one thousand members, delegates and visitors in attendance.

**Quinsy, Sprains and Swellings Cured.** "In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Michigan. Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

### MUST SHOW CONTINUOUS RESIDENCE ON HOMESTEAD.

Taken at the "Sneeze Stage" Preventics will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventics. Good for feverish children. 48 Preventics 25 cents. Trial boxes 5 cents. Sold by all dealers.

### CATHOLIC SCHOOL TO BE ERECTED

Will Be Companion Institution to Girls' Parochial School of Cathedral to Cost About \$14,000.

Ground was broken yesterday for a new parochial school in connection with the Cathedral parish which will be erected at the corner of San Francisco street and Cathedral Place. It is expected to have the foundation laid this winter so that work on the building proper can be begun in the early spring.

The new parochial building will be utilized exclusively for boys. It will be built of brick, two stories in height and contain eight rooms. The contract for the building has been let to Carlos Digneo and F. P. Creighton. It is estimated the cost of construction will be approximately \$14,000.

For four or five years past a school for Catholic girls has been conducted in connection with the Cathedral, in which the children are taught studies customary in the primary and grammar grades of the public schools in addition to being given a religious education. The school has accommodations for 240 pupils and it is filled to its capacity every term.

The Cathedral girls' school having proven such a success it was decided to build a companion school for boys, which it is expected will be completed in time for occupancy some time next year.

### ALBUQUERQUE MEN BUY GALLUP MINE

Coal Trust "Busters" in the Duke City Go Into Fuel Business on Extensive Scale.

Gallup, N. M., Oct. 29.—A company composed of prominent Albuquerque business men, who have entered the retail coal field in that city in opposition to the alleged coal dealers' trust, have purchased the Union coal mine, one of the best properties in this district and will begin mining on an extensive scale. The price paid for the property was in the neighborhood of \$15,000. The new owners will put about one hundred miners to work in the mine at once and it is proposed to mine about 100 tons of coal a day. A big retail yard will be established in the Duke City and the coal will be sold direct to the consumers at prices lower than the other retail coal dealers sell coal for. The re-opening of this mine will be a great help to Gallup, as it will give employment to many miners whose homes are in this town.

### CATARRH IS CURABLE.

Successful Experiments in Abating and Curing This Disease.

Catarrh is an entirely unnecessary disease and should not be tolerated for a single day now that Hyomei is so generally known and has made so many cures in Santa Fe and other towns.

Until comparatively recent times catarrh was thought to be a blood disease and stomach dosing the only treatment. Modern science finally disproved this idea of the cause of catarrh, and found that it was a germ disease, and, after many experiments, the remedy was decided to be Hyomei. Hyomei medicates the air you breathe; it kills the catarrhal germs; it heals the smarting and raw membranes of the passages in the nose and throat; it cures all catarrhal troubles.

As there is life and health in the air in the mountain-tops where the pine forests give off their fragrant and healing balsams, so there is life and health in breathing Hyomei. There is no need of suffering from catarrh if the simple and natural treatment of Hyomei is used.

So sure is this prescription to cure even the worst cases of catarrh, that The Ireland Pharmacy sell it under an absolute guarantee to refund the money if it does not do all that is claimed for it.

Charles W. Fairfield, confidential clerk for Levi A. Hughes, is confined to his room by illness.

A. H. Brodhead who was numbered among the sick a few days ago is now out again and has resumed his duties at the First National bank.

Train report at 3 p. m.: Santa Fe branch train will leave for Lamy at 5:10 to make connection with east and west bound trains; the Denver and Rio Grande is 2 hours late and the Santa Fe Central, one hour late.

Friends in this city of Mrs. Zula Nevitt Wood will be pained to learn of her death which occurred in a Denver hospital on Sunday last. Mrs. Wood was formerly employed on the editorial staff of the Daily New Mexican, being at that time Miss Zula Nevitt. She was a brilliant newspaper writer and reached the highest rank of her profession. She went from the New Mexican to the Denver Post, and later to Salt Lake City. She returned to Denver two years ago and for a time was society editor on the Times until her marriage a few months ago to Samuel H. Wood, a well known Denver newspaper man. A woman of sweet personality, Mrs. Wood was loved by those with whom she came in contact, and during her stay in Santa Fe numbered her friends by the score. Appendicitis was the cause of her death.

Carrizozo, N. M., Oct. 29.—As a result of Governor Curry's visit here on Saturday last, a strong county statehood league was organized and is now actively at work. Its officers are as follows:

President—J. H. Canning; first vice president, M. G. Peden; second vice president, George L. Ulrich; treasurer, Ira O. Wetmore; secretary, N. R. Rose; corresponding secretary, A. H. Harvey.

Governor Curry arrived here on Saturday evening about 5 o'clock from Roswell via Lincoln. He was met about five miles from town by a committee and taken for a drive over the town so that he might see the rapid strides Carrizozo is making toward becoming a city.

Following the drive the executive and party repaired to the home of Ira O. Wetmore, where a dinner and reception were given in his honor. At 8 o'clock he addressed a crowd of 1,000 people in the big tent of the Lloyd Gentry show, which happened to be here. His talk was on the statehood question. Colonel George W. Prichard also delivered an interesting and timely address.

Following the rally Manager McConnell of the El Paso and Southwestern dining hall at this place tendered the executive and his party an informal banquet which was greatly enjoyed.

EMPLOYEES GET  
WAGE INCREASE

Subsidiary New York Central Line Grants Voluntary Raise of From \$5 to \$15 Per Month.

Dunkirk, N. Y., Oct. 29.—Telegraph operators, station agents and clerks of the Dunkirk, Allegheny Valley and Pittsburg railroad were notified today that an increase in wages of from \$5 to \$15 per month had been granted them effective at once. This road is part of the New York Central lines.

EL PASO BOOSTERS  
ON SPECIAL TRAIN

Will Reach Santa Fe on Evening of November 8—Excursionists Will Have Band—Agent Here.

Fifty representative business men of El Paso, accompanied by the crack Banda Mexicana of twenty-four pieces, the occasion being the fourth annual trade excursion given under the auspices of the El Paso Chamber of Commerce, will arrive in Santa Fe on a special train Friday, November 8, at 5:30 p. m. via the Santa Fe Central railway.

The Mexican band will give a concert in the plaza during the evening while the excursionists are making the acquaintance of the business men of Santa Fe. The El Pasoans have outlined an itinerary through New Mexico and this tour will embrace a total of 1,300 miles. They are making these annual trips for their own information and to become acquainted with the people of the various cities and towns contiguous to El Paso.

W. R. Humphreys of El Paso, arrived in the city today as special advance agent for the excursionists. Mr. Humphreys is a leading photographer and engraver of the Pass City. He was piloted around town this afternoon by General Manager S. B. Grimsdew of the Santa Fe Central railway and met a number of the business men of the city.

Mr. Humphreys is something of a booster himself and he is telling the Santa Fe merchants how they can derive the maximum benefit from the visit of the "El Paso Boosters" and is making arrangements to utilize the time of the party to the best advantage during their limited time here. He says the main object of the trip is to become personally acquainted with the progressive men of neighboring towns, and to see the results of recent development in the territory.

"El Paso possesses certain great advantages," said he, "by reason of her geographical position and the large number of railroads entering there. Her incoming freight rates are very favorable, and El Paso merchants can sell to the merchants of the surrounding towns to better advantage than these merchants of the towns can buy in any other jobbing or manufacturing center. The El Pasoans all realize the truth of the familiar saying that 'Trade is reciprocity,' and they realize that it is only by sharing these advantages with her neighbors that El Paso can derive benefit from them herself. We make money only as you make money," he continued, "we grow and prosper as you grow and prosper, and as we are all working to build up and populate the great southwest, we want to get to know each other better so that we can cooperate more successfully."

WEATHER FORECAST  
SLIPPED COG

Thunderstorm Prevailed Last Night But Only Edge of It Visited Santa Fe.

Generally fair weather and stationary temperature were promised last night by the official weather forecast, but he must have got his dates mixed as a thunderstorm began at six p. m. and lasted until about midnight. The center of the storm was north and west of Santa Fe, only the edge of it touching this city. A light fog was visible over the foothills during last night and this morning.

Today's weather forecast calls for fair weather tonight and Wednesday with stationary temperature. The weather cleared nicely today after the storm and there was scarcely a cloud visible in the canopy of blue sky.

In Santa Fe the temperature at 6 o'clock this morning was 41 degrees and the lowest during last night was 39 degrees. The maximum temperature yesterday was 56 degrees at 2:10 p. m., and the minimum temperature 47 degrees at 5:50 a. m., the mean temperature for the day being 52 degrees. The relative humidity yesterday at 6 a. m., was 79 per cent and at 6 p. m. 67 per cent, making the average for the day 73 per cent.

LAS VEGAS MORA  
LINE ASSURED

Announced That \$80,000 of \$100,000 Necessary for Construction of Road Has Been Raised.

Las Vegas, N. M., Oct. 29.—It is announced here that \$80,000 of the \$100,000 necessary to secure the construction of an interurban electric line from this city to Mora, Mora county, has been pledged and that preliminary surveys for the line will be made at once.

This will be the first long-distance electric railroad in New Mexico, and will open one of the richest sections of the territory, which up to this time has not been touched by development.

W. A. Buddecke, president of the Commercial Club is the originator of the plan and is backed by St. Louis capitalists.

spur out from their main line when a sugar-beet factory can be supported at that point. The factory people are ready and waiting to build just as soon as the beet growing industry is established and the beet growers are ready to begin operations as soon as the ditches are in. And these practical farmers who are coming in here, men who are informed in regard to irrigation methods and possibilities; men who, from actual farming experience know exactly how and where to begin.

"Pioneer life at the present day differs vastly from that of the past. While difficulties are met and sacrifices made, the conditions are comparatively superior to those of a generation ago. Ideal roads make a trip by auto or carriage a matter of small moment. Mail is received every other day at the ranch bringing all the news from the great outside world. Telephone communications with neighbors and town is a matter of course. For instance, a message (via telephone) came to Mrs. Mikesell, the charming wife of the genial manager, M. N. Mikesell, that a party of 20, 25 or 30 would arrive on No. 1, via the Santa Fe Railway from the East. She communicated the fact to her trusty, competent, right-hand man, Mr. Pyle. Then there was 'somethin' doin'' down in the big ranch kitchen, 59 loaves of bread, 23 pies, 500 cookies and all the other good things that are so bountifully provided at the ranch table, were soon ready. Cheerful open fires greeted the guests and the hearty welcome given made homesickness an impossibility.

## In Heart of Beautiful Country.

"And, Ah! the beauty of the Rayado Country! The violet mists veiling the mesas in the mornings! the vivid colorings of the mountain sides! The divine things are mists and clouds; those exquisite shiftings of light and shade make vistas of such overwhelming glory that dull indeed must be the mind and heart that do not respond to its charms. That the development of this new-old country is to be rapid beyond precedent is assured. It is the psychological moment for the awakening of New Mexico with statehood almost in reach, with the conviction most widespread as it is at the present that wealth and opportunity lie in the West, all that remains to be done is for the advertising man to get busy.

"Now is the time to prove the omnipotence of advertising! (Your own clever expression, Colonel Frost) Knight-errants of pen and pencil as well as the sword sway the rank and file of men of industry of business and of politics.

The New Mexican prints the news.
