CAPTAIN DAVID J. LEAHY, WHO HAS BEEN AN ASSISTANT UNDER MAJOR LLEWELLYN, HAS BEEN APPOINTED TO FILL THE VACANCY.

MORGAN O. LLEWELLYN, A SON OF MAJOR LLEWELLYN, HAS RESIGNED AS SURVEYOR GENERAL OF NEW MEXICO, WHICH WILL TAKE EFFECT ON JANUARY 1. HIS SUCCESSOR HAS NOT YET BEEN DECIDED UPON.

NEW MEXICANS LUNCH WITH THE PRESIDENT.

Special to the New Mexican. Washington, Nov. 23.—The President today entertained at luncheon at the White House Solicitor General Henry M. Hoyt, and Governor George Curry, Major W. H. H. Llewellyn and Captain David J. Leahy of New Mexico.

Solicitor General Hoyt will leave this evening via the Pennsylvania railway for Santa Fe, while Governor Curry, Major Llewellyn and Captain Leahy will leave tomorrow evening for New Mexico. Special Assistant to the Attorney General Ormsby McHarg of the Department of Justice, and E. P. Holcomb, chief clerk of Division G, of the general land office, will leave this evening for Santa Fe to give evidence and information concerning the indictments against the Phelps-Dodge company officials and employees recently found in the U. S. district court in Santa Fe for alleged coal land frauds.

Delegate Andrews has his bill for an enabling act for New Mexico about ready and will introduce it during the first two days of the coming session of Congress. It is expected that the bill will be immediately referred to the House committee on territories as soon as announced.

MATTERS IN CONTROVERSY SETTLED SATISFACTORILY.

Special to the New Mexican. Washington, Nov. 23.—Inquiries at the Department of Justice and the Department of the Interior elicited information that stories circulated in Santa Fe by interested parties concerning Special Assistant Attorney General Ormsby McHarg returning to New Mexico with greater powers and that Assistant Secretary Woodruff might be governor of New Mexico or that Governor Curry had resigned or would resign are false pure and simple, and are not worthy of the least attention.

On the contrary your correspondent

finds that the New Mexico situation here is most favorable, and that all matters of controversy have been settled satisfactorily to the New Mexico delegation here and to the people of the territory. Governor Curry is held in high esteem by the President and has his entire confidence.

As to statehood the President and Governor Curry have had several conferences and there is now a complete understanding of the situation on the part of the President who has declared that he favors prompt statehood for New Mexico and Arizona as a matter of justice and right and that he would aid New Mexico's ambition for immediate statehood in every proper and legitimate way, and would urge favorable action during the coming session of Congress. Governor Curry is very sanguine that such will be the case and feels that he has secured the active aid of the President.

Delegate W. H. Andrews is of the same opinion as Governor Curry and believes that he has secured sufficient pledges already in the House or Representatives for favorable action on the bill and that he can induce Speaker Cannon to give up any opposition to the project he may now entertain and support the measure for an enabling act for New Mexico which will be introduced by Delegate Andrews during the first few days of the coming Congressional session.

Governor Curry has requested Acting Governor Nathan Jaffa to call a meeting of representative citizens and statehood advocates for Saturday, November 30, to meet in Santa Fe, for the purpose of conferring with the governor and to select a delegation of citizens to go to the national capital to work for statehood. Governor Curry believes that such a delegation can do splendid work towards helping the statehood cause.

New Mexico matters at the different departments are in very good shape.

CALLS TERRITORIAL STATEHOOD MEETING.

In accordance with a telegraphic request received this forenoon by Acting Governor Nathan Jaffa from Governor Curry the acting governor today issued a circular letter calling a meeting of representative citizens of the territory who favor statehood to meet in this city on Saturday, November 30 for the purpose of considering questions connected with the statehood movement for New Mexico and to select a delegation of citizens to proceed to Washington to work with U. S. Senators and members of the House of Representatives for favorable consideration of the bill for an enabling act for New Mexico which will be introduced on Tuesday or Wednesday, the third or fourth of December, and simultaneously in the United States Senate.

Acting Governor Jaffa telegraphed the general passenger agents of the Santa Fe, the Denver and Rio Grande and El Paso & Southwestern railways, requesting that reduced rates be made for the gathering. General Manager S. B. Grimshaw of the Santa Fe Central Railway has already announced a rate of one fare for the round trip.

Copies of Acting Governor Jaffa's circular were mailed today to representative citizens in various parts of the territory. The letter reads: Territory of New Mexico,

Acting Governor's Letter. Office of the Executive, Santa Fe. November 23, 1907.

To the People of New Mexico: Information has been received today from the National Capital to the effect that the prospects for the admission

## BIOGRAPHICAL SKETCH OF NEWLY APPOINTED U. S. DISTRICT ATTORNEY

CAPT. DAVID J. LEAHY.

The above picture is an excellent likeness of Captain David J. Leahy, whose appointment today as United States district attorney to succeed Major W. H. H. Llewellyn who resigned to take a more remunerative and responsible position with the Department of Justice as announced in dispatches from Washington.

Captain Leahy served in the famous Rough Rider regiment as a second lieutenant of Troop G, during the Spanish-American war when he acquired the friendship of President Roosevelt. His appointment is a well deserved recognition of his work as assistant district attorney which position he has filled for the past two years and his promotion will be welcome news to a host of friends throughout New Mexico.

David J. Leahy is a comparatively young man, being about thirty-eight years of age. Within the space of a few years by diligent effort and natural ability he has risen in the legal profession until he is known as one of the ablest of the younger lawyers in New Mexico. He is married and resides at Las Vegas.

Mr. Leahy is a native of Illinois, born in La Salle county. After attending the district schools at his birthplace he aspired to be a teacher

and completed his education in the northern Indiana Normal school at Valparaiso, Indiana. In 1891 he came to New Mexico to take charge as principal of the public schools at Springer. He held this position for three years and then went to Raton. While engaged in school work he took up the study of law and was admitted to practice by the territorial supreme court on February 15, 1897. In 1896 he was elected superintendent of schools of Colfax county.

At the outbreak of the Spanish-American war in 1898 he was commissioned as a second lieutenant in Troop G of the First Regiment, U. S. Volunteer Cavalry, which is better known as the Roosevelt Rough Riders. He served through the war and was wounded in the famous battle of San Juan Hill.

Upon being mustered out of service he returned to Raton where he resumed the practice of the legal profession. Afterwards he was appointed to the position of clerk of the Sixth Judicial district court by Judge Edward A. Mann which position he held until two years ago when he was made Assistant U. S. district attorney of New Mexico under Major Llewellyn.

In politics Captain Leahy is an uncompromising Republican and is a familiar figure in the councils of his party.

## BRYAN CONFERS WITH ROOSEVELT

**Interview Was Private and Lasted Half Hour**

## TALK OF CURRENCY REFORMS

**Democratic Statesman Believes His Plan Will Be Successful.**

Washington, Nov. 23.—President Roosevelt and William J. Bryan were in conference half an hour in the President's private office today. Bryan remarked that he had a pleasant chat with the President but said he was not willing to discuss the details of the interview.

Discussing his plan to have the government insure the depositors in national banks against loss by reason of the failure of such banks, he said it was not intended to have the government collect a fund for this purpose but it would be the duty of the government to make an assessment on all the banks to meet losses by reason of failures. This assessment, he said, would be of intangible benefit. He felt enthusiastic over the prospect of the ultimate success of this plan.

Bryan said it was evident that no tariff revision could be hoped for from the coming Congress. He favored the removal of the tariff on all trust controlled articles.

## WATSON IDOL OF POPULISTS

Indications Point to His Renomination as Candidate for President on That Ticket in 1908.

Joliet, Ill., Nov. 23.—The Populist national committee will have a conference at St. Louis, November 26, which may result in the fixing of the time and place for the convention in 1908 and the re-nomination of Tom Watson of Georgia as a candidate for president. National Chairman Ferriss denied today that an alliance was being arranged with the Independent League of Prohibitionists but added:

"We feel individually as friendly to the league as we do to Bryan or Roosevelt. We are pleased they are going our way and would be more pleased if they would go further." Ferriss said Bryan hit the key note in the banking matter when he proposed that the government guarantee the bank deposits.

## WILL CUT WAGES OF CARPENTERS

New York Contractors Announce a Reduction of 50 Cents Per Day Effective January 1.

New York, Nov. 23.—The master carpenters' organization has given notice to the Brotherhood of Carpenters that their wages will be reduced on the first day of next January, from \$5 to \$4.50 a day. Building operations, it is said, have decreased fifty per cent, owing to the tightness of the money market. Representatives of the carpenters union declare they will strike rather than accept the reduction.

## AUTOMANUFACTURER KILLED IN ACCIDENT

Drove Speeding Machine into Heavy Truck—His Guests Injured, One Fatally.

Des Moines, Ia., Nov. 23.—In a collision of his automobile with a gas repair wagon today O. R. Nattinger, vice president of the Sears-Nattinger Automobile Company, was killed and four others, his guests, badly injured. Frank Getchell, of the Getchell-Martin Lumber company, is believed to be fatally injured. Nattinger was driving the machine at a high rate of speed and did not see the wagon which emerged from a side street.

## TO ENFORCE SUNDAY CLOSING IN CHICAGO

Temperance Workers to See That Lid Goes On at Least One Day in the Week in Windy City.

Chicago, Nov. 23.—The most forceful attempt to close the saloons on Sunday ever made in Chicago will begin tomorrow. All over the city the temperance workers will gather evidence of violations of the law. The saloon men talk of seeking an injunction against interference with their open Sunday privileges.

## QUIT DEALING IN CURRENCY

**Brokers Will Offer No More Fancy Premiums**

## ENCOURAGING SIGN

**Chicago Banks Take Steps To Resume Business on Cash Basis.**

New York, Nov. 23.—The demand for a higher premium on currency by persons who have been hoarding has become so insistent and the opportunity to dispose of such purchases at a profitable percentage so meagre, that Zimmerman and Forshay, leading brokers, who have dealt in many millions since the money stringency began, announced that after the close of business today they will neither buy nor sell coin for bills. This example will probably be followed by all the money brokers in the financial district. It is estimated that since the beginning of the shortage that the total amount of currency bought and sold has footed up to fifty millions of dollars. The highest rate obtainable lately in large lots has been 2 1/2 to 2 3/4 per cent.

Banks Show Improvement at Close of Week.

The statement of the clearing house banks for the week ending today shows that they hold \$54,163,600 less than the requirements of the 25 per cent reserve rule. This is a decrease of \$436,650 in the proportionate cash reserve as compared with last week. Chicago Banks Want to Get Back to Cash Basis.

Chicago, Nov. 23.—A step looking towards the resumption of business on a cash basis has been taken by the Chicago Clearing House Association. Letters have been mailed to bankers of the middle west and western sections of the country asking them to express their opinions on the general situation. The statements of the correspondents will be tabulated. It is expected the answers will begin to come in tomorrow and that the answers from the furthestmost points will be received by the end of next week.

## MURDERS WIFE THEN SUICIDES

Terrible Deed of Wealthy New York Manufacturer—Set Fire to Home to Cover Up Crime.

New York, Nov. 23.—A case of wife murder and suicide was discovered early today by firemen called to subdue a blaze in the home of Nicholas Smith, a wealthy manufacturer of New Rochelle. When the firemen burst into the house they found Smith and his young wife, dead, each with a bullet wound in their body. Mrs. Smith had been shot in the breast. The bullet which killed Smith entered his head behind the ear. Beside his body was a revolver. That Smith killed his wife, fired the house to conceal his crime and then killed himself was proven by a note found in his room. The note was addressed: "Dear Minnie," (who is supposed to be a relative), and told of the writer's intentions of firing the house and killing his wife and himself. It is believed the man was crazy. The note said he had cut off his hair because his head ached. A servant in the house said Mr. and Mrs. Smith quarreled violently last night.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## A DISCOURAGED PARTY AND ITS DISCREDITED LEADER.

Nevertheless and notwithstanding Mr. Bryan's coy assertion that he would accept the Democratic nomination for the presidency next year if no other patriot of his stamp can be found to do so the untimely Democratic and many of the leading journals and newspaper exponents of that party and its untimely principles are not at all pleased with conditions and instead of falling over each other for sheer joy, making the welkin ring with loud shouts of applause, and giving to their readers the joyful and happy tidings they are not only lukewarm but in many, many instances quite hostile to the idea that Mr. Bryan should be the nominee of their party again. The Los Angeles News makes a very timely comment and quotes from the New York World, certainly a leading Democratic newspaper, establishing right well how Mr. Bryan's position is looked upon by a powerful Democratic journal. Says the News:

"Instead of the expected paeans of joy from the Democratic party, in response to Mr. Bryan's consent to run again, a disconcerting note of pessimism is predominant. No place in the North, where the Democrats must look for votes, have we noticed the least indication of elation or happiness. To the contrary, there is growling and grumbling, amounting to an ineffectual revolt against the program. No combination of electoral votes, founded upon logical conditions, will give the Democrats a majority, without New York. The Republicans may win without the Empire state, but the Democrats cannot. The New York World, in a double-headed editorial, declaring that the nomination of Bryan means a walkover for anybody the Republicans may nominate, says:

"An occasional defeat might be excused, even in a peerless leader, but what is to be said of a 'logical candidate' for president whose state has gone against him in every election since 1890? The returns from Kentucky are no more flattering to Mr. Bryan's political leadership than the returns from Nebraska. Mr. Bryan made two speech-making invasions of Kentucky during the campaign, and the Republican candidate for governor is elected by 14,000. Kentucky has taken its place among the doubtful states. In New Jersey a Democratic party not handicapped by Bryan policies or Bryan speeches has reduced the Roosevelt plurality of 80,000 to a scanty 8,000 and rehabilitated itself as an aggressive political organization. The Republican majorities in Nebraska and Kentucky ought to mean the elimination of Mr. Bryan from the leadership of the Democratic party. Why should he be nominated for president, or why should he be allowed to dictate the nomination?"

"Where are there indications that Bryan is any stronger than he was eight years ago? His own state, Nebraska, has gone against him, eight years in succession. This year, he arranged a fusion ticket, and framed the platform, yet the state went Republican by twenty thousand, the largest plurality in years. Since he has been its leader, his party has lost New York, New Jersey, Delaware, Connecticut, West Virginia, Indiana, Wisconsin, Missouri, and several Western states, including California. Nowhere are there any signs of a return to Democracy. The elections this month are especially disconcerting to such hopes. The one chance for Mr. Bryan lies in a stupendous blunder by the Republicans. There is little likelihood of this, however, for the simple reason that President Roosevelt's hold upon the party has not been shaken, that, under his leadership, a good man is certain to be nominated.

"Bryan's announcement has renewed the talk about Judge Gray as a candidate. He could, certainly, carry every Southern state, and would be stronger in the East than Bryan. But the Democratic party seems to be so thoroughly under the domination of Bryan as the Republican party is of Roosevelt if he decides, eventually, not to run himself, he will name his substitute."

Governor George Curry has evidently done great good for the cause of statehood for the Sunshine Territory during his recent visit in the national capital, and has also strengthened out several links in the political situation that have been very irksome and trying to the people of New Mexico and especially to the Republican party. Governor Curry is all right!

## A WILD CAT LEGISLATIVE PROPOSITION.

The Albuquerque morning paper advocates the holding of a special session of the territorial legislative assembly for the purpose of aiding the tax payers of the territory to hold off paying taxes for six or eight months, and to take off the penalty for non-payment of taxes now in force for that period. Who will pay the piper in the meantime? The territorial government will have to be maintained, county administrations will have to go on, schools will have to be supported, inmates of jails must be kept safely and be fed, and a hundred and one incidental territorial, county and city expenses must be provided for.

How, when and where, is all this to be done and where will the great benefit come in should the measure go through? As it is, the tax system of the territory is too lax at any rate. The penalty for non-payment of taxes upon the dates established by law is not at all irksome or burdensome. The plans will bear the fullest discussion should this be deemed necessary.

In addition no special session of the New Mexico legislature could be held legally and lawfully unless sanctioned by act of Congress. To be sure the members of the last legislature might meet and make enactments and if the people choose to observe and abide by them well and good.

Congress when it meets on the first Monday in December might pass an act providing for an emergency legislature; could this be done in time to do any good?

The El Paso Herald looks at the situation as it is in the following editorial remark:

"It might be respectfully suggested to New Mexico that it would not be a good advertisement to go out over the country that she had called a special legislative session to postpone the time of tax delinquency. Moreover, nothing of the sort is needed. New Mexico is able to pay her taxes now or any other old time."

## NEW MEXICO AT THE TRANS-MISSISSIPPI CONGRESS.

New Mexico was not as well represented at the Trans-Mississippi Congress at Muskogee, Oklahoma, this week as it should have been but under the circumstances the results attained by the few delegates who were there from this territory is gratifying and should be appreciated by the people of New Mexico. There were present from this territory, ex-Governor L. Bradford Prince of this city; who was a delegate from the territory and from the Santa Fe Board of Trade; Will C. Barnes, Inspector of grazing of the Bureau of Forestry, who represented the territory and the forestry service; J. V. Tully, of Lincoln county, and W. H. Merchant of Eddy county. A strong resolution declaring for immediate statehood for New Mexico was introduced by ex-Governor L. Bradford Prince and passed by an almost unanimous vote. Other resolutions of interest to New Mexico introduced by the ex-governor were also taken up and passed, among them one petitioning the Congress of the United States to extend the provisions of the Carey Irrigation act over the territories of the United States, that they might enjoy the same benefits under the act as are now granted to the states in the arid belt; also petitioning for the passage of an act to permit the mining of gold, silver and quick-silver on Spanish and Mexican land grants in New Mexico. The deliberations and resolutions adopted by the Congress will prove very beneficial to the southwest and especially to the Sunshine Territory.

Under a three-column scare head, "More Trouble in New Mexico," the El Paso Evening News of Wednesday last published a lengthy news article purporting to be a dispatch from this city in which it was stated that Special Assistant to the Attorney General Ormsby McHarg had returned from Washington and that havoc would be the result among the Republican office holders, Republican leaders and the Republican party of the Territory generally and specifically, collectively and singly. The filling of the pages of the News in this instance is too ridiculous, too silly and too false to need more than passing notice, as demonstrating and proving that there are lots of liars still in existence in this world and not a few of them are connected with the yellow sheets of New Mexico, Arizona and El Paso and with federal jobs.

## STATEHOOD PROSPECTS ARE BRIGHTENING.

The statehood situation for New Mexico is constantly improving and the outlook for the passage of an enabling act by the 60th Congress is becoming brighter and more favorable almost daily. Delegate W. H. Andrews will remain in Washington to watch progress and to push it along and the people may rest assured that he will allow no grass to grow under his feet, but will work with might and main in season and out of season for the success of the plan. It is a well known fact that your Uncle Joe Cannon, who will be the speaker of the coming House of Representatives thinks a good deal of New Mexico's delegate and it is believed that Uncle Joe will give a favorable ear to the delegate's pleading for justice, for New Mexico's rights and for the recognition of its proper claims in the matter of statehood. With President Roosevelt in the White House, with a Republican majority in the Senate and Speaker Cannon and a majority of Republicans in the House in favor the statehood bill must pass, and then the people of New Mexico, the loyal, patriotic and public spirited citizens will do the rest.

## MONEY IN CANTALOUPE.

Cantaloupe growing is to be one of the great industries of the fruitful Mesilla valley, and that commencing with next season. Several hundred acres are to be planted with the best cantaloupe seed and the plants are to be attended to by experts. It is estimated that a minimum yield of \$300 per acre will be the result. Cold storage and refrigerators are to be used and the cantaloupes are to be shipped to markets in Kansas City, St. Louis and Chicago. The Mesilla valley cantaloupes will be ripe and ready for shipment between the California cantaloupe season and the La Junta, Colorado, cantaloupe season and hence it is expected will find a ready and profitable market. Verily, New Mexico is coming to the front.

Referring to the cantaloupe raising project the El Paso Herald gets off the following neat editorial squib: "From \$300 to \$500 an acre growing cantaloupes, and pretty soon the growers of the Mesilla valley will be collecting rent from everybody in El Paso. Next to the money making monopoly of the United States treasury, nothing beats cantaloupes, and these people are the big capitalists of the future, if all dreams come true."

The American Mining Congress which was recently in session at Joplin, Missouri, passed a strong resolution favoring the creation of a bureau of mining as a part of the Department of the Interior which is to have charge exclusively of mining matters and mining affairs. The resolution is timely and in order. Mining and the production of the precious and base ores and minerals constitute one of the leading and chief industries of the country, and this importance should be duly recognized by having the best interests of this industry and its workings properly recognized by the federal government, and to a proper extent under federal supervision. It is reported that the President approves the plan and will make a recommendation for the establishment of a bureau of mining in his forthcoming message. It is hoped that this will be the case and that the 60th Congress will heed the recommendation.

It looks as if all the turmoil, trouble, tribulations, the sensational yellow newspaper charges, alleging that great and gigantic land frauds have been committed in New Mexico, and a few other unpleasant, uncalled for, and disagreeable conditions of the political and administrative situations in New Mexico of late will soon come to an end. It is high time. The knoekers, the false affidavit men, and the libellers have had too much rope. The fair fame and good reputation of the people at large have been besmirched enough, and a stop should be had. Part of this can be blamed justly on the yellow sheets published in Albuquerque, in Roswell and in one or two smaller towns that have aided in this bad work by fake dispatches, and libelous stories concerning leading men and conditions in New Mexico.

Between the Supreme Court of Appeals in the state of New York and Tammany votes, Editor William Randolph Hearst has a hard time of it. The Court of Appeals of the Empire state has just decided that the act of the recent New York legislature providing for a recount of the votes in the majority contest between Hearst and McClellan in which Hearst claimed to have a majority but in which the actual majority, according to the returns was for McClellan, was unconstitutional and the votes could not be recounted. Evidently the Court of Appeals and Tammany hall are a strong combination.

The people of the city of Mobile have expressed strong displeasure at the action of the Alabama legislature in passing a stringent prohibition law for the state to go into effect January 1, 1909. The Mobile people declare that they will secede unless the legislature recedes. This attempt at an ineffectual rebellion, however, will not amount to much. The successful day for that sort of business is over even in Alabama and in Mobile, never to return.

The New Mexican's Albuquerque morning contemporary does not enjoy the editorial course of the New Mexican. No explanation needed.

### WHY SO WEAK?

Kidney Trouble May Be Sapping Your Life Away—Santa Fe People Have Learned this Fact.

When a healthy man or woman begins to run down without apparent cause, become weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is Santa Fe testimony to prove it.

Jose Ortiz y Baca, living on Alto street, Santa Fe, New Mexico, says: "From a short use of Doan's Kidney Pills I derived benefit which gives me just cause to vouch for the efficiency of this medicine. At intervals for three years I was more or less troubled with pain in my back and seeing Doan's Kidney Pills highly recommended for this complaint I procured a box at Ireland's Pharmacy and after taking them as directed I was relieved in a short time and in every sense of the word the result was satisfactory. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## A TOURIST ON THE TRAIL.

(A Trip to the Cliff Dwellings Described by Mrs. Lucia M. Harvey.)

Omar Kayham's conception of a model outing party was expressed thus: "A Loaf of Bread, A Jug of Wine and Thou." But Brother Kayham probably never had an opportunity of going to the Pajarito Cliff Dwellings with a company of six "just right people," as did the writer recently.

An extended vocabulary in ten languages would be inadequate to picture the joy of it. It was something to which words do not readily adjust themselves.

Over hills of myrrh and valleys of rosemary we went, leading the eye up to the splendid heights of snow-crowned peaks in the blue distance, sweeping the horizon in a long line of majesty.

An equipment of steamer rugs, Indian blankets, field glasses, cameras, guns and the all-important lunch boxes made our start from the hotel Claire rather a "Kansas or Bust" expedition.

The point of view is always the pivot of recollection; and the joy of the morning bubbled over in song and story and laughter as we swung up the mountain trail.

Up, up, until one felt like a fly on a bald man's head, looking down on the little hills that might, like their scriptural sisters, "skip for joy."

We crossed the Rio Grande at Buckman and the famous stream gave us a big surprise at this point, having heretofore seen it but a foot deep in its most impressive pools. Here, it rushed by in noisy fashion as if it had a tremendous amount of business to attend to.

The weird canon El Diablo came into view just as the setting sun sent its rays aslant the northern cliffs, making a moment of opportunity for our camera lady.

The dignified commander of the expedition introduced us with punctilious politeness to each famous mountain peak as it came into view. For the life of me I cannot remember but one, Old Baldy. When I make my bow to them again, I'll have to say, "Pardon me, dear mountains, your faces look familiar but I cannot recall your names."

It was quite dark when we reached the lumber camp where we spent the night. The odor of pines, the bright lights twinkling from the many tents and the cheerful prospect of a hot camp supper filled the mortal part of us with material content.

Mrs. R. G. McDougal, the hospitable hostess of the camp, gave us a warm welcome, as well as clean comfortable beds and had arranged for a delicious supper for us at the cook house.

A lumber camp dance was on the program in the evening and we had the joy of learning how to dance a Spanish quadrille. There was some uncertainty as to whether we were qualified in certain details of costume for the function, but our hosts were too polite to embarrass us in the matter. So on went the dance and joy was unconfined until long after we had retired to our tents. Nothing but a Wagner opera could compete in volume of sound with that which poured out into the pine laden air of that lumber camp.

The next morning Mrs. McDougal, in her cozy camp home, told us of her successful gardening operations, and related, in delightful fashion, some of her previous experiences with tenderfoot guests, and camping parties with idiosyncrasies culinary and otherwise.

The camp is in the heart of the cliff dwelling country. Little did the cave dweller of long ago dream that his caved out mansion would descend to the bed room of a modern lumber camp man. Most of these are scarcely big enough to swing a cat in; not that there was, perhaps, the remotest necessity of swinging a cat, but the figure of speech is useful.

We reached the communal dwellings on the mesa at exactly the right time for securing snap shots of them. Twelve hundred rooms we found here with bits of broken pottery scattered everywhere. The ruins of an underground estufa, the sacred rite room of the cliff dwellers, was most interesting.

The pictured rocks were discovered in many places, and it was at the foot of the one on which was carved the revered plumed serpent that we were prepared for a pre-historic group.

The paint or chalking on the serpent, necessary for clear outlines in photography, had been obliterated by rain and weather, so we went into executive session to discuss ways and means for getting a good picture. No chalk, no paint, no powder? Yes,

eureka, a box of talcum powder and cold cream were forthcoming. Such a grooming as that revered snake was given. I'm sure his celebrated ancestors, of Garden of Eden fame, would have turned green with envy. You could see him a mile distant, and he was already to have his picture "took." We all tried to look pre-historic too, but nobody succeeded but the doctor.

These cave dwellings have a wonderful fascination. Specters of the past seem to lurk in the shadows of the crumbling old walls. A phantom world of a long lost past with its mute evidences of the struggles of a dawn in civilization to preserve their traditions of a home, of worship, of self protection, greeted our understanding.

One travels back over the centuries into long forgotten ages, feeling that these people of long ago lived and loved and fought and died, even as we of today.

We trilled around the rocks and ledges until lunch time. A camp fire was built and what manner of feast was spread on the grassy plot under the cottonwood trees, near the clear waters of a mountain stream, will never be known to any but one fortunate enough to dine with our lady of the commissary. With masculine lack of forethought the coffee kettle had been left behind at camp. Our resourceful commissary lady rose to the situation by ordering the bacon broiled on sticks over the camp fire, while she proceeded to make most delectable coffee in the frying pan, fried coffee, as our mighty hunter remarked, was a most unusual feature of a camp menu.

The return trip had its full measure of enchantment, for the exquisite changes of light and color were ever before us until the shadows settled over all.

It was on the homeward trip that our mighty hunter did himself proud in the way of shooting stunts. He resisted the ferocious attacks of a wild rabbit, capturing it after several shots. A sociable coyote trotted along with us a mile or so and we had opportunity of making little nature studies of cottontails and coveys of quail while the hunter was off hunting them. Meek eyed cows looked up surprised at us as we startled them out of their calm meditation by our hilarity and song.

That reminds me. The doctor's songs. His voice is his wealth. There would have been another chapter added to the great book on sound had John Tyndall ever heard him. The camera lady remarked that it was a wonder he had never had it treated or operated upon. The dry suggestion from the commander of the expedition was that dry farming might be the thing, to all of which the doctor maintained a polite but scathing silence.

We reached home when the lights of the grand old city of Santa Fe twinkled a welcome to us, wishing we were just starting instead of just ending our journey, and singing: "We are here because we are here," to the tune of Auld Lang Syne," as a fitting finale to a trip of unalloyed pleasure.

## WHY DID YOU COME WEST?

To rest, recuperate, hunt, fish, breathe fresh, pure air, see mountain scenery, get a change, live a new and fascinating life under new conditions, and get food that needs no pure food law.

That's why you came west! There is a beautiful little valley that nestles between the highest mountains of the Rockies on the upper Pecos river; ideal altitude, 7,000 feet, and temperature identical with Santa Fe. Its stream swarms with trout and the woods and ranges are filled with game large and small. The ranchers live the life of the west. There are mountain lion, bears, deer and wolves for the hunter. There are saddle ponies to be had for the asking, rooms in a big, rambling ranch house with wide verandas, tent rooms or a cabin if you want it. The days are never dull. You see a great ranch and the genuine western life. Fresh milk, butter and eggs—all you can drink and eat. Sleep in blankets at night—fish in your shirt sleeves during the day. You couldn't spend more than \$9 a week if you tried. It's the place you are looking for. Accommodations for both men and women. Inquire this office or address THE VALLEY RANCH, Pecos N. M.

### NEW MEXICO MAN'S IMPRESSIONS OF PARIS

William J. Eaton, Clayton Attorney, Writes Interestingly of the Frivolous Capital.

William J. Eaton, attorney-at-law at Clayton, Union county, and a former Santa Fean, is on an European tour and has written about his first impressions of Paris, the gay capital of France. Mr. Eaton is evidently a close observer and although this is his first visit to the European continent he sees things clearly and describes them interestingly. He has left France and is now in Spain. In this latter country he will also address letters of his observations to the New Mexican. Mr. Eaton's Paris letter follows:

"We arrived at Havre, Thursday, October 31st, at 5 o'clock p. m., on the steamer La Lorraine, having been delayed for seven hours by rough sea weather.

"From Havre we took the Special Express to Paris, which was awaiting the arrival of the steamer. No one can accuse this railroad of exceeding the speed limit even if it is a 'special express.' It took us five hours to run eight miles. However, we arrived at Paris about 11 p. m.

"Paris is properly named 'Frivolous Paris,' if what I saw last night when I came in was a fair sample. I can now properly appreciate the descriptions of Victor Hugo and also the description of the drinking house and the characters in 'If I Were King.'

"I saw scenes of folly last night in half an hour, while I was taking a lunch in a cafe, which very nearly rivalled those described in that book. 'The people appear sensible enough in day time, but with the lighting of the street lamps, fully and frivolity reign supreme; they cast discretion to the winds, forget the world of business and by unanimous consent adjourn to the public house and the cafe to make merry and drown life's cares in the flowing bowl and yet I never saw any people drunk.

"Paris by lamplight is a non-descript carnival, there is no city in the world like it, there cannot be, because there is but one Paris; its atmosphere is intoxicating, its frivolity is infectious. At first you are shocked at what seems brazen lewdness universal, your attention is irresistibly held; you watch their actions, you discover that they are entirely unconscious of evil, you conclude that what you at first seemed brazen immorality is simply unconscious frivolity, you admire their careless gaiety, you feel its influence growing on you, you enjoy it, you hear the siren's sensuous song and like the sailors in the land of the Lotus Eaters, you can't resist it, and you don't want to.

"Paris is laid out in the form of a large park with streets traversing it in every direction and opening into various little parks called 'Places' and at the intersection of these 'Places' (plazas) frown wedged shaped and triangular blocks which are very pretty. All over the city at short intervals there are little plots laid out for children's play grounds.

"There are a great many sights of interest, such as the Triumphal Vendome, the monument de La Republique, the Pantheon, the Monument de la Concorde, the Colonne de Juillet, the Eiffel Tower, 300 meters in height; Notre Dame and a great many others that I visited and don't remember and many I did not visit. They are mostly dedicated to heroes of the French Revolution."

### RECEIVER FOR MINING COMPANY

H. H. Majors of Alamogordo Appointed By Judge Mann to Take Charge of Excelsior Properties.

Alamogordo, N. M., Nov. 23.—Judge Mann has named H. H. Majors as receiver for the Excelsior Mining and Development Company. The properties of the company are located mainly at Jarilla.

A reception and afternoon tea was given the pastor of the Presbyterian church, Rev. J. J. Meeker, at the Manse last Thursday afternoon.

W. A. Saunders, who has been contracting with farmers in the Mesilla Valley for a large acreage of cantaloupes, has been in the city for some days interesting the agriculturists of this section. Saunders represents the New York and Pittsburgh commission houses of Lyman Brothers and M. O. Coggins. If a large enough acreage can be contracted for with the farmers, Saunders will arrange for an accommodation of refrigerator cars from this place. He hopes to get a pledge of four or five hundred acres in this vicinity.

The medicinal springs located three miles north of Alamogordo, are to be exploited by a company which has recently been organized here. The springs are noted amongst the old timers of this region and tradition has it that the springs were known for their healing qualities to the Indians. J. C. Barrett, head of the company has plans under way at the present time for the erection of a large hotel and bath house.

The artesian flow of water from the well of W. D. Dennis, four miles west of town, still continues. The water flows above the casing of the well which is but 80 feet deep. The supply from this well is not sufficient to use in irrigation, but it is believed that by drilling deeper wells and casing the deeper flows so that they will not be carried away by the gravel strata that underlie the country around here, that irrigation by artesian waters is a real possibility. Should such a fact be discovered it would mean much to this city and country. Quite a number of land owners have signified their intention to start drilling soon.

A Sunday school institute is in progress in the Baptist church here. Rev. J. L. Rupard, the Baptist Sunday School missionary for New Mexico, is conducting the sessions, but a large number of prominent Baptists will assist on the program. The institute will last over Sunday.

### How to Cure a Cold.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability one that has an established reputation and that is certain to effect a quick cure. Such a remedy is Chamberlain's Cough Remedy. It has gained a world-wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic and may be given as confidently to a baby as to an adult. For sale by all druggists.

The New Mexican Printing Company is prepared to furnish cards de visite for ladies or gentlemen on short notice, in first class style at reasonable prices, either engraved or printed. Call on the New Mexican Printing Company.

### ARTESIA ODD FELLOWS TO BUILD HOME

Lodge Has Incorporated For This Purpose—Enforcing Law Governing Artesian Wells.

Artesia, N. M., Nov. 23.—The Independent Order of Odd Fellows of Artesia have taken out papers of incorporation and will build a hall on the corner of First and Main streets. The structure will be a two-story brick building, 25x100 feet. The lodge will use the second story for lodge rooms and also rent it out to other orders. The lower room will be rented as a store building.

The Artesia fire department has elected officers for another year. C. R. Echols is chief and Ernest King, secretary.

H. E. Mull, the Artesian well supervisor for the county of Eddy has issued notice to well owners that all wells must be capped and shut off when not in use for irrigating or stock purposes. The large number of new wells that are being brought in over the county may cause a diminishment of the pressure unless the water is conserved. While Artesia and vicinity being in the lower artesian belt will have water when the northern part of the valley will be pumping, should the water ever fail, yet it is to the interest of well owners to be careful about needless waste.

Interest has again been revived in the mineral fields east of the Pecos river near here. That copper in paying quantities is to be found in that region has been believed for some time, as prospectors have found copper ore that also runs good values of gold and silver. The high waters of the river has kept prospectors from doing any development work, but now that the water is receding, the development work will begin in earnest.

The Rev. John R. Gass of Albuquerque has been visiting the Rev. E. E. Mathes pastor of the Presbyterian church of this place. Dr. Gass has assisted in holding several services in the interest of the local congregation.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine, Wisconsin. You don't have to boil it twenty or thirty minutes. "Made in a minute," says the doctor. Assistant U. S. Attorney Edward L. Medler, whose home is at Albuquerque, left there last night on a vacation trip to Mexico. He was granted a ten days' leave of absence.

## Interesting Meeting of Enavant Club.

The regular meeting of the Enavant club was held during the present week in the rooms of the New Mexico Historical Society in the Old Palace. About twenty-five ladies were present and sat beside the carved desk and chair which were used by the Spanish governors previous to the advent of General Kearney and the United States conquest in 1846. The current events period was filled by readings from the newspapers of 1848, extracts from which had been selected by Mrs. Henry Woodruff for the occasion. During the intermission the Enavants inspected the Ben Hur room which Mrs. Woolger, the press correspondent of the club, describes thusly:

It has been stripped of the trappings in which its picture was taken and is bare and desolate. The ladies exclaimed over the room which is supposed to be the "strong room," where in the seventeenth century, Penatosa imprisoned the commissary-general of the Inquisition—a windowless cell surrounded by thick walls, impenetrable to groan, or shout. Now the "strong room" has a small window and has been degraded from a dark medieval dungeon to a modern bath room—modern in that the pipes are out of order and the whole room in an unsanitary condition. In another room was a map printed in 1657 on which California is shown as an island; and the Rio Grande empties into the Pacific.

In the midst of these strange relics of the past, it was fitting that the club should listen to the paper prepared from the story of William G. Rich, by the hostess, Mrs. Henry Woodruff. At her request, it was read by Mrs. J. W. Purcell; the curious "Legend of Montezuma," was heard with interest and appreciation by the club. The next meeting of the club will be held at the home of Mrs. A. J. Abbott; the subject for consideration will be "Catholicism in New Mexico," by Mrs. H. C. Yontz.
