## FACTS CONCERNING VELARDE MURDER

### Liquor Responsible for Brutal Crime

#### VICTIM LOVABLE WOMAN

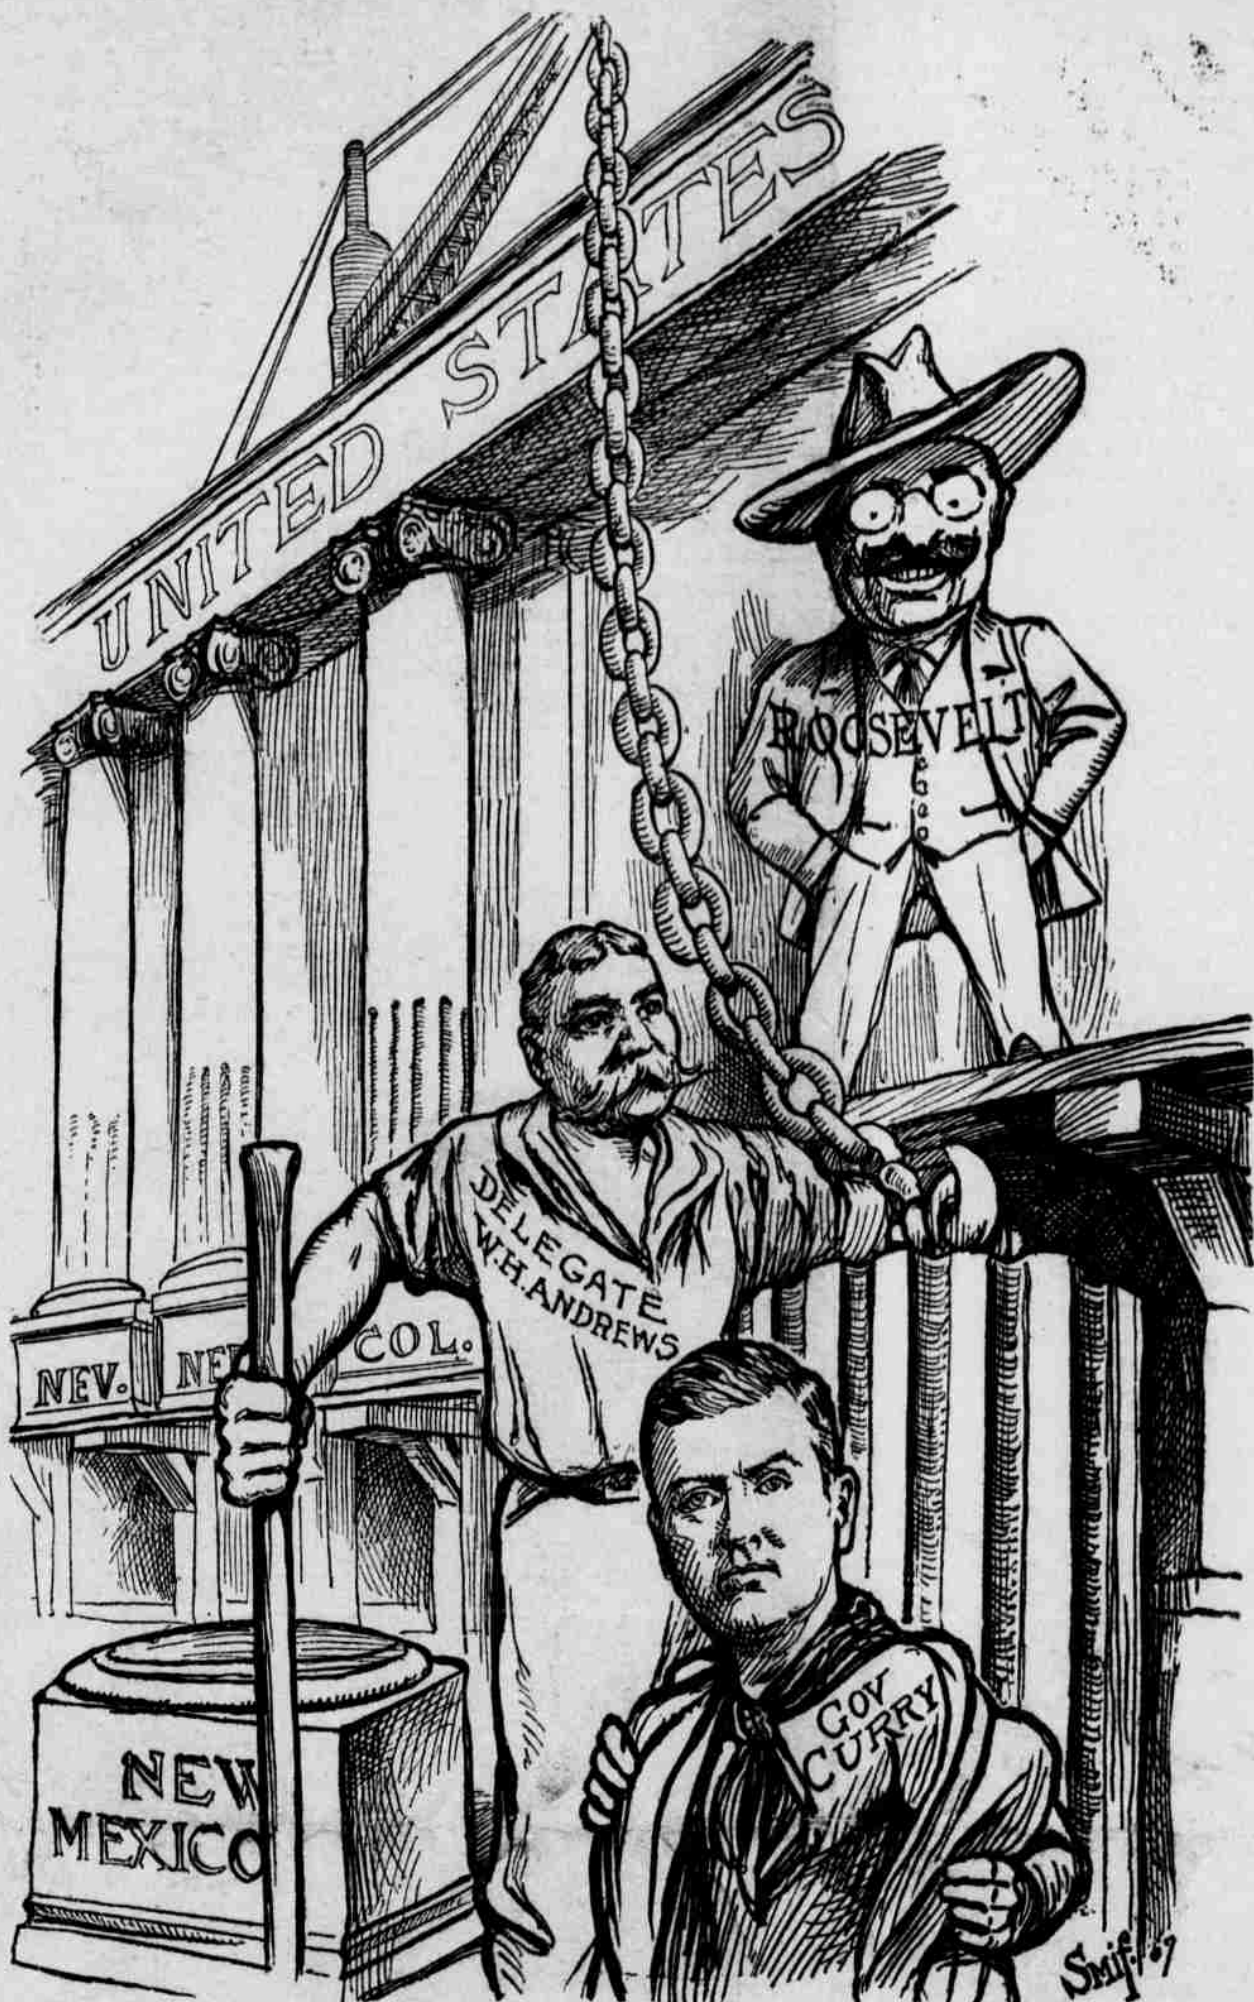

#### Slayer's Excuse for Killing Miss Templeton Was He Was Drunk

Although the killing of Miss Jennie Templeton at Velarde, Rio Arriba county, fifty miles north of Santa Fe, was naught more than an ordinary, brutal murder devoid of sensational circumstances, the New Mexican has gone to the trouble to investigate the circumstances and details of the crime so as to counteract the false reports sent out and which sought to make the murder appear the result of religious bigotry and surrounded with highly sensational features.

Mrs. T. B. Bailey, a widow, sister of the murdered woman, who has been a resident for over ten years at Velarde, has been running a small store on the main road to Taos, only one house south of the Baptist church and parsonage occupied by Rev. and Mrs. W. H. Rishl. A short time ago this store was sold by Mrs. Bailey to her son-in-law, I. B. Ismay. Mrs. Ismay recently went to Taos for health reasons and her mother, Mrs. Bailey, and Mr. Ismay went to Taos last week to spend Thanksgiving day, leaving Miss Templeton and a native servant in charge of the store and home, which are all in one building, the store being in the middle with rooms on each side. The building is a long one and stands back from the road within a fence and an orchard stretching in back of it towards the river. The servant left Miss Templeton early last week.

**Events Leading Up to Murder**  
On Thursday evening, Thanksgiving Day, after Miss Templeton had gone to her room, she heard a noise in the store and looking into it through a window, saw a man strike a match. She thought she recognized David Martinez y Sanchez, who bore the reputation of being a gambler, a hard drinker and had been accused of dishonesty and of assaulting several persons. The next morning she found that the front door had been kicked in, the cash drawer open and there was missing five dollars and a cancelled check which David Martinez y Sanchez tried to pass the following day. She also found a black pocketbook, which she identified as belonging to Sanchez. It is known that Sanchez learned of this but he made no threats. On Saturday afternoon he is known to have taken four drinks and in the afternoon he was seen going toward the Ismay store. Shortly before four o'clock, a boy who wanted to buy coal oil, found Miss Templeton lying in the door leading into the store from the orchard, with her skull crushed in but still breathing. Blood was spattered over the door and formed a pool in which the woman was lying. Immediate alarm was given and medical aid summoned, but four hours afterwards, before physicians either from Espanola or Taos reached the scene, the woman was dead, not having regained consciousness. Her wounds indicated that she had been felled by a blow from a bludgeon or heavy, sharp stick upon the back of her head. When down she was further belabored with this instrument, while her skull, around the left eye was crushed in with a heel of the murderer's boots. The assassin ran out of the back door, through the orchard, to a ditch, there washed his hands, went home, hid his bloody shoes and clothes and from his front door watched the crowd gathering around the store. There was no evidence of any struggle and the murderer afterwards said that the woman had not uttered a word before he felled her.

**The Arrest of Sanchez.**  
Sanchez was taken into custody, the same evening, but had it not been for the arrival of Dr. T. P. Martin, of Taos, Sanchez would probably have been released. Dr. Martin and J. F. Pollock took matters in hand, organized a coroner's jury and succeeded in having Sanchez kept in custody until the arrival on Monday afternoon of Judge John R. McFie, Assistant Attorney General Robert C. Gortner, Captain Fred Fornoff and Lieutenant John W. Collier of the Mounted Police. The coroner's jury returned a verdict, charging David Martinez y Sanchez with the crime and on Tuesday morning Judge McFie, as committing magistrate, gave the accused a preliminary hearing at which the latter repeated a confession made the night before to Messrs. Gortner and Fornoff and acknowledged that the confession was secured without intimidation or unfair means by the officers. Sanchez was thereupon committed to

THE THREE NEW MEXICO STATEHOOD BUILDERS.

the territorial penitentiary for safe-keeping, without bail, and was lodged there last evening by Captain Fornoff and Lieutenant Collier.

This is an outline of the bare facts. There were no sensational, but a number of pathetic incidents. While David Martinez y Sanchez bore an evil reputation and had been of a roving disposition, working for a time in Colorado, he had also a tender heart. During a recent epidemic of diphtheria and also during the prevalence of smallpox, Sanchez alone was unafraid and assisted the sick. He went to Rev. W. H. Rishl, the Baptist missionary, who was ill with diphtheria, and offered his services day or night, this indicating sufficiently, that there was no religious hatred in the heart of the accused. Sanchez is about thirty years of age, of strong build and more than ordinarily intelligent, speaking English quite well. His wife is the daughter of one of the most prominent families of the Valley, the Velarde family, after whom the settlement is named. There are two daughters, lovable children, who attend the mission school. It was a heartrending scene, the wife with arms around the neck of the murderer and the children clung to him, crying bitterly before his departure for Santa Fe, but not more touching than the sight of the murderer's father, an honorable old man, who has been a United States mail carrier for twenty years, whose tears were streaming down his cheeks. He sobbed loudly as he heard his son acknowledging the heinous crime.

Naturally the village was greatly wrought up. There was no school on Monday and Tuesday, no one worked, every male resident was at the office of the alcalde and thronged the court room. Judge McFie took this opportunity to address the men upon the consequences of gambling and excessive indulgence in strong liquor. It was a fatherly talk and many were affected to tears. David Martinez, who holds a high place among the residents of that part of the county, acted as interpreter, and Manuel Sanchez of Ojo Sarco, as counsel for the defendant and asked for the clemency of the court. It was a scene never to be forgotten, as the accused, pale, tottering, eyes bloodshot from a night's vigil, arose and pleaded guilty amidst a deadly silence in the crowded court room.

Velarde has always enjoyed the reputation of being a peace-loving, law-

## HOUSE WILL PASS STATEHOOD BILL

Andrews Measure Will Be Taken Up in Congress Immediately After Holidays.

Special to the New Mexican.  
Washington, Dec. 4.—The Andrews statehood bill No. 4 will be pushed and the indications are that it will be considered in the House of Representatives immediately after the holidays. The first and most important business to be attended to will be the consideration of the currency bill. While it can not be announced as positive it looks very much as if Delegate Andrews has secured sufficient pledges in the House for prompt action on the statehood bill. There will not be any important changes in the House committee on territories. Some of the members of the committee were not re-elected and these vacancies will have to be filled.

U. S. Senator Albert J. Beveridge will remain chairman of the committee on territories in the U. S. Senate and on good authority it is believed that he has joined the statehood forces and will be friendly to the Andrews bill for an enabling act for the territory of New Mexico should it come to the Senate. He may also prepare a similar bill and introduce it in the Senate.

On the first ballot the jury stood nine for acquittal and three for conviction. General Ford gave out the following statement regarding the verdict:

"Under the peculiar conditions now existing in our city it is greatly to the credit of the twelve men who just rendered their verdict that they had the courage to do exact and even justice to a falsely accused fellow citizen."

A family consultation was held as to the advisability of informing Secretary of War William H. Taft, another son, that he must hurry home. Horace Taft announced after the conference that no message would be sent to Secretary Taft as the family considers his absence an affair of state and more important even than his presence at his mother's death bed.

## FINANCIAL FLURRY CAUSES MANY DEATHS.

New York, Dec. 4.—That sudden increases in mortality in New York is due in part at least to the recent financial flurry is the opinion of Dr. William K. Guiltry, registrar of vital statistics. ## AOKI'S RECALL CAUSES ALARM

### Diplomatic Sensation of the Day in Washington

#### TREATY NEGOTIATIONS OFF

#### Japan Losing No Time in Preparing Navy for War ---Outlook Serious.

Chicago, Dec. 4.—A dispatch to the Tribune from Washington says: "The recall of Viscount Aoki, Japanese ambassador to the United States is the diplomatic sensation of the day in Washington. Its significance was heightened by information allowed to leak out that he had been withdrawn in spite of earnest intimation made to his government by President Roosevelt that he would be glad to have Ambassador Aoki remain the accredited Japanese representative to the United States. While the authorities are not a little puzzled and a great deal concerned over this strange course of the Japanese government, they claim it should have no doubt as to the friendliness of Japan towards the United States. Inquiry in naval circles has elicited the information that reports have been received from Tokio showing that Japan is losing no time in preparing her navy for war."

#### Treaty Negotiations Called Off.

Washington, Dec. 4.—It is understood that since the withdrawal of Ambassador Aoki there has been a stiffening of the instructions sent to Ambassador O'Brien at Tokio. There is no intention on the part of the President now to negotiate an immigration treaty with Japan, though this might have occurred had Aoki remained at Washington.

#### Japanese Government Issues Statement.

Tokio, Dec. 4.—The recall of Viscount Aoki, Japanese ambassador at Washington, is a result of his own expression of a desire to resign. It is now regarded as a foregone conclusion that he will not return to Washington. Baron Takahira, at present ambassador to Italy, and formerly minister at Washington, will undoubtedly be appointed as Aoki's successor if he is acceptable at Washington. The Associated Press is assured by the highest authority in the foreign office that the recall of Aoki is not intended as the slightest reflection upon his course, nor should it be construed to denote the slightest change of the friendly attitude of the Japanese government toward America on the immigration question. It is added that Minister Hayashi is determined to exercise all the authority vested in the foreign minister to control the immigration of coolie laborers.

## TAOS COUNTY RANCHER FROZEN TO DEATH.

Frank Williams, an old-timer of Taos, who was known throughout the entire county, died on Saturday evening as the result of exposure. He was aged 84 years and was found on Saturday morning about a mile from town near his ranch, with both hands and feet frozen. Pneumonia also developed during the day. There were indications that Williams had tried to gather some brush during the night and set fire to it in order to warm himself but did not succeed.

## BANK ROBBERS SHOOT OFFICER.

Salisbury, Mo., Dec. 4.—Robbers tried to loot the Salisbury Savings Bank here early today and shot and dangerously wounded City Marshal Dameron, who slept in a room in the rear of the bank. After shooting the marshal in the mouth the robbers pounded him over the head with their revolvers until he was unconscious, and then attacked the safe but failed to get into it. They made good their escape.

S. district court of the Sixth judicial district at Alamogordo, have been lodged in the territorial penitentiary to serve out sentences of one year each. They were found guilty of violating the Edmunds' act.

## THE PRESIDENT'S MESSAGE.

The President's message read to Congress yesterday is a state document without frills. President Roosevelt has grown beyond the rhetorical stage of his career and while he has always managed to get to the heart of conditions he does so today much more directly than he did in his earlier years. Maturity of judgment comes only through experience and this furnishes an unanswerable argument for giving so important an official as the President of the United States a longer tenure of office and why it would be well for the nation if President Roosevelt were to consent to serve another four years, even at a personal sacrifice.

The financial situation being uppermost in the minds of the people, the President naturally speaks of it first in his message. He lays down the proposition: "In no nation are the fundamental business conditions sounder than in ours at this very moment; and it is foolish, when such is the case, for people to hoard money instead of keeping it in sound banks." This is language to restore confidence. However, the President does not abate one jot or tittle from his announced policy of using the government machinery to prosecute the successfully dishonest and in this connection places the blame indirectly for the financial disturbances upon the shoulders of this class. The message also points out the defects, and especially the insufficiency, of the present currency system but urges no definite system of reform except to state that greater elasticity is needed, that an emergency currency system should be provided, and that trust companies should have the same supervision as national banks. One gratifying condition is the excellent condition of the National Treasury. The income of the nation during the past six years reached the enormous sum of \$3,465,000,000, exceeding the expenditures by \$150,000,000.

For this reason, says the President, it will be unwise to make sweeping changes in the tariff. Despite often repeated reports to the contrary, President Roosevelt is sound on the Republican tariff doctrine. He says: "This country is definitely committed to the protective system and any effort to root it up could not but cause widespread industrial disaster. There must always be as a minimum a tariff which will not only allow for the collection of an ample revenue but which at least make good the difference in cost of production here and abroad; that is the difference in the labor cost here and abroad, for the well being of the wage-worker must ever be a cardinal point of American policy." That is a good platform upon which to go before the people next November. However, the President is not averse to making such changes of obsolete schedules as will best serve the purposes outlined above and he favors the removal of the tariff on wood pulp, in order to protect the American forests which are being devastated in order to furnish material for paper making.

Considerable space is devoted to a recommendation for the federal investigation of railroad accidents, the conservation of our natural resources and the use of our inland waterways. On reclamation he says, that "irrigation should be far more extensively developed than at present" and "the Federal government should seriously devote itself to this task." He declares that the public land system "has largely broken down when applied to the dryer regions of the Great Plains, the mountains, and much of the Pacific slope, where a farm of 160 acres is inadequate for self-support. The laws themselves are defective." Of special interest to New Mexico is the recommendation of a leasing system to apply to the public range so as to permit fencing. He says: "Fencing is the only way by which to keep in check the owners of nomad flocks which roam hither and thither, utterly destroying the pastures and leaving a waste behind so that their presence is incompatible with the presence of homesteaders. The existing fences are all illegal those that are hurtful as well as those that are beneficial and must come down. But it is an outrage that the law should necessitate such action on the part of the administration."

A considerable part of the message is devoted to a discussion of the forestry policy and it predicts a timber famine that will be disastrous to the

nation. The advice to preserve the forests is followed with a recommendation that the nation should also take care of its fuel supply, especially the coal, oil and gas fields.

The President urges the passage of laws to establish a postal banks system and of an adequate parcels post system. In discussing postal affairs he also recommends that fourth class postmasters be placed under the civil service.

Congress is urged to create a Bureau of Mining. In concluding, the President advises legislation to meet the needs of both Navy and Army.

Upon the subject of statehood for New Mexico and Arizona, the message is silent, as had been foreshadowed. But, as the President has pledged himself to support New Mexico in its efforts to attain statehood and has permitted this pledge to be made public, there was no necessity of incorporating such a recommendation in the message although to us in New Mexico it is not clear what harm would have been done, if the President, after speaking of the admission of Oklahoma, had embodied a sentence advising that this Territory be made a state.

While the Daily New Mexican, and undoubtedly many people in the Southwest, will not say "Yea and Amen," to every word of the message, which covers 63 closely printed pages of book-size, especially when the President speaks of grazing, forestry and other essentially western topics, yet all in all, there is much to praise and much to support in the document and it is in every respect safe and sane and bound to inspire confidence not only at home, but also abroad.

## CURSE OF YELLOW JOURNALISM.

Mistakes will happen in the best regulated families and very often in newspaper offices. Errors and misstatements in the news are liable to occur and if committed unwittingly or because of mis-information, scarcity of facts or for similar reasons they should be condoned by the reading public. Otherwise this should not be the case. In yesterday's issue of the Albuquerque Journal appeared a dispatch giving the news of the brutal murder of Miss Jennie Templeton at Velarde Saturday last. The simple facts are atrocious and brutal and needed no coloring. Unfortunately the first news was very meager, and a mistake was made by this newspaper and others in good faith by designating the murdered woman as a Baptist missionary upon information received in a dispatch from Taos. This was not the case. The man who committed the foul crime claimed to have been drunk and made a full confession.

Unfortunately for the good name of the territory, dispatches were sent out from here and from Denver giving untrue and highly colored versions of the affair. Several of them stated that the murdered woman was a missionary teacher and had been killed by Indian pupils. Another dispatch was sent from this city to the Albuquerque Journal which was so sensational, so devoid of facts and which so strongly assails some of New Mexico's population, namely the native people of the district, that it may prove very injurious and very detrimental, especially at this time. It is republished herewith and is as follows:

"Santa Fe, N. M., Dec. 2.—Miss Templeton, the only white woman missionary at the Baptist Indian mission at Velarde, Rio Arriba county, was brutally murdered yesterday either by Mexicans or Indians. Full details of the crime are lacking but an unconfirmed report has it that Miss Templeton was assaulted before being put to death. David Martinez y Sanchez is under arrest as a suspect.

"The brief news of the murder was contained in a brief telegram received from Taos today by District Judge John R. McFie. Summoning Captain Fornoff, of the mounted police, Judge McFie and District Attorney Gortner, accompanied him to Velarde to make a thorough investigation and take such action as they deemed necessary to capture the murderer or murderers. A posse was also formed at Taos to take part in the chase.

"Miss Templeton's body, mutilated almost beyond recognition it is alleged, was found in a grove near the school house.

"Sanchez, who was arrested on suspicion, has been brought to jail here for safe keeping. He denies all knowledge of the murder and the authorities refuse to make known what

reasons they have for connecting him with the crime.

"Suspicion points to Mexicans, as the murderers, for the reason that they have always opposed Christianizing of the Indians in that region.

"Miss Templeton was working under the direction of the Baptist missionary board of New York City.

"Her predecessor at the mission, Phoebe Howard, was killed in a similar manner at Embudo several years ago, and her slayers were never captured."

A falsehood especially when couched in such sensational and high flown language is hard to catch and while the truthful version of the unfortunate and horrible affair when read by the people will convince them that the crime was one of those awful occurrences that happen too often for the good of the country in large cities and for that matter in the country sections, yet the dissemination of dispatches like the above quoted from the Albuquerque Journal even if afterwards followed by the truth must and will count against New Mexico and its people as there are and always will be people who are more prone to believe evil than good and swallow false stories easily and comfortably.

Too much yellow journalism is a curse, a great drawback in every respect and subversive of good government and against public policy. There are many correspondents and newspapers that will stretch out any news, especially criminal, of the muck-raking kind, of a scandalous character or that contains vicious, venomous and untruthful assaults upon public men, for the sake of the pay that the correspondents receive or to increase circulation of the papers, or to make political capital, or to get even for the lowest and dirtiest motives. Part of this very bad and unsatisfactory condition in the matter of the publication of yellow sheets and yellow news must be placed upon the readers of these sheets who voraciously and gluttonously devour anything and everything black on white that describes crime and criminals in red and glaring headlines, that brings to the surface the depravity and immorality of human nature, that assaults and destroys the characters and reputations unjustly and unfairly of men and women, and that reeks with fiendish tales of outrages, of murder, of burglary, of political dishonesty or corruption, and of heinous violations of the law and of the moral code. Legitimate and proper news of all occurrences is one thing and the publication of fakes, of lies, of libels, of prevarications, of misstatements in yellow sheets is another thing. It is really indeed a great pity that these days there is too much of the latter and that some of this nefarious faking is done at home and is wallowed in by a few daily and weekly yellow sheets in Albuquerque, in Roswell, in Santa Fe and in a few other small towns.

## ANDREWS' STATEHOOD BILL NO. 4.

House Bill No. 4, introduced by Delegate W. H. Andrews, for an enabling act for New Mexico, contains many generous and liberal provisions for the benefit of the new state. Delegate Andrews prepared the bill very carefully and in every direction looked out minutely and effectively for the interests of the new state. The bill contains the most liberal and generous provisions made so far for any state that has gained admission into the Union from the date of the Declaration of Independence. If it passes in its present form and New Mexico enters into the sisterhood of states under its declarations the new state will be the best provided for financially, except Texas.

The bill appropriates \$5,000,000 for the benefit of the public schools, a large amount of public lands for the benefit of the territorial institutions, and more lands for the payment of the railroad bonded debts of Santa Fe and Grant counties, which indebtedness was legalized by act of Congress. Its sections concerning the electorate, the number and apportionment of delegates to the constitutional convention, and the method of providing for their election and the holding of the constitutional convention are of the best. There is not a line in it that can or ought to be justly objected to by patriotic and decent citizens of the Sunshine Territory who have the best interests of the community at large at heart. The chances for its passage are excellent and with the right kind of work on the part of the united people, the outlook for the new state is of the brightest and most promising. The plan to send a delegation of representative citizens duly apportioned according to location, politics, standing in the community, worth, etc., to the national capital to work for its favorable consideration and to aid Delegate W. H. Andrews in his labors for its passage is sensible, timely and politic. Now is the time and the national capital is the place where the good people of New Mexico regardless of party must put in their best labors and their most energetic and well directed efforts.

After all, at times there is not much in a name. A day or two ago U. S. Senators Kittredge and Gamble of South Dakota were given a division of the federal offices in their state by drawing lots from the many candidates whose applications were on file in the various departments. Senator Kittredge secured the lion's share and Senator Gamble came out at the small end of the horn.

# 30 FINE PIANOS 30

## For New Mexico Buyers In The Next 30 Days

Remarkable Introductory Offer  
From the West's Greatest Music  
House :: :: :: ::

The Knight-Campbell Music Co of Denver say they are going to place  
30 of their fine instruments in this state in 30  
days, and tell how they will do it.

## EVERY PIANOLESS HOME SHOULD READ THIS

The heading above means just what it says: We are going to place 30 high-grade Schaeffer pianos in New Mexico homes in the next 30 days, if a genuine inducement to buyers will do it. During the past 33 years we have been shipping pianos, organs, talking machines, etc., etc., into nearly every nook and corner of this broad western country, and we are not at all loath to admit that a big per centage of these shipments have been to points in New Mexico. But, to the readers of this paper for the next 30 days we are going to offer a buying opportunity never before equalled

For the lack of space we are not going to give a lengthy discourse on "why you should have a piano" if you haven't one, because this is a fact that it needs no arguing to drive home--one simply has to look around him to see that really the only difference between the "best" homes and the "others" is that the first have pianos and the latter have not. The point is: If your home is without a piano, you need one, and if this applies, it is to you that this offer is directed.

### SCHAEFFER PIANOS WELL KNOWN

Unlike most Special Piano Offers the instrument concerned is not one of which the buying public knows nothing. On the other hand, the Schaeffer Piano has been before the public for the past quarter of a century and as early as 1878 the sterling qualities of the instrument won for the manufacturer the distinction of Honorable Mention among numerous competitors at the great International Exposition at Paris. Since then, more than 35,000 Schaeffer Pianos have been purchased by discriminating buyers. IT IS GUARANTEED FOR TEN YEARS. It is such a piano we would not hesitate to recommend to our friends or anyone desiring a really artistic instrument. It is the biggest value on the market at the regular prices \$350. up. But--

### TO THE FIRST 30 PERSONS

Sending us the coupon below we are going to make a SPECIAL INTRODUCTORY OFFER on as many pianos. There are 6 styles, but as this offer is for INTRODUCTORY PURPOSES only, we are not going to sell more than one each of these styles in any single locality, so that this necessarily limits the very best selections to the first ones sending us the coupon. The price of the Schaeffer Piano, owing to superior manufacturing facilities and a large output, runs as low as \$350, but during the life of this offer, we will make the different styles to persons answering this adv. AT THE LOWEST FIGURE AT WHICH A TRULY HIGH-GRADE PIANO HAS EVER BEEN SOLD IN THIS STATE, and in ADDITION, WE WILL QUOTE EXCEPTIONALLY EASY TERMS OF PAYMENT IF THE CUSTOMER DESIRES TO PURCHASE IN THIS WAY.

This is not a "Catch" offer at all. It is simply a business proposition of such a character that the buyer profits by our own and the Schaeffer Piano Co. desire to get the Schaeffer Piano established in the Southwest as it is in the other sections of the country. To accomplish this we are willing to sacrifice the profits on the first 30 pianos that we sell--after that we expect to realize on the sale of every Schaeffer Piano, so the proposition simply resolves itself into whether or not you are going to be among the first 30 to send in the coupon.

Remember, you are dealing with "The Largest Music Concern in the West" AND THAT OUR PROMISES ARE BACKED BY A REPUTATION COVERING 33 YEARS AND SUFFICIENT CAPITAL TO GUARANTEE THEIR BEING FULLFILLED ABSOLUTELY. And also that this is not a "cheap" piano offer, but an unusual opportunity to buy a good, guaranteed piano "cheap." But send us the coupon today and let us get the details to you, so you can decide for yourself.

### THE KNIGHT-CAMPBELL MUSIC CO.

(THE LARGEST MUSIC CONCERN IN COLORADO)

The entire building at 1625-27-29-31 California St., Denver.

GENTLEMEN:--Please send me, charges prepaid, details of your Introductory offer concerning the Schaeffer Piano as advertised in the SANTA FE NEW MEXICAN.

Very truly yours,

### COW PEAS FURNISH HIGH CLASS FORAGE

Grow Best in Southern Rio Grande  
Valley of New Mexico--A Hardy  
Plant.

Press Bulletin No. 132 just issued by the Experiment Station of the New Mexico College of Agriculture and Mechanic Arts treats at length the raising of cow peas in New Mexico. As the cow pea is grown to great advantage in the southern part of the territory and is an excellent forage plant, the bulletin is re-published for the benefit of stockmen. It reads:

"The cow pea is a legume. Legumes include such plants as alfalfa, beans, vetch, etc. This family possesses the peculiar power of securing nitrogen from the air through the aid of bacteria which form nodules of varying sizes upon their roots. Nearly all of the leguminous plants contain a very large per cent of nitrogen in some of its different forms. This fact renders the family very valuable to the farmer. No other group of farm crops has the power of securing free nitrogen from the air, and none carry so high percentages of nitrogen.

The cow pea is especially adapted to the southern sections of the United States. It grows best in a warm climate. It makes splendid growth in the southern portion of the Rio Grande Valley and produces a large quantity of high class forage. The cow pea will stand very little frost and therefore it cannot be grown in altitudes sufficiently high to render frost probable during the growing season. It does equally well under irrigation as under humid conditions.

The cow pea is an annual and is grown from seed. It may be sown broadcast or planted in drills. When planted in drills it may be cultivated as any other hoed crop. It may be harvested with the bean harvester or cut with a mowing machine and allowed to cure for hay, or it may be used for a soiling crop. It is one of the best of crops of green manuring and as a soil corrective it has no superior. A great many old, worn-out farms have been brought back to their old-time productive capacity by plowing under two or three crops of cow peas when they were in full bloom and in their most succulent vegetative stage.

Farmers who have grown cow peas and recognize their great value as a soil corrective are very careful to turn under all stems and trash in the field, even when the crop has been harvested and fed to stock. By this means, the roots and stubble are utilized as soil corrective agents and as such are of great value. The cow pea is used extensively as a soiling crop in dairy regions. Each day a quantity of the peas is harvested and fed to the cows green. The amount of grain and roughage may be considerably reduced when the cows are supplied with an abundance of this highly nitrogenous succulent food. Some dairy-men save a part of the expense of cutting and hauling by turning the cows into the fields of peas regularly every day. This is an excellent plan and results in very little waste. Turning the cows into the field has an additional merit if there is danger of approaching frost, for the reason that the cows nearly always consume all of the foliage before they attack the peas themselves. The foliage is the part damaged by even a light frost.

While cow peas have been tried in all parts of New Mexico, it seems to the writer that this crop deserves attention from the farmers in every section of the Territory where the seasons are sufficiently long for the crop to mature. If a few farmers in each section of the Territory were to give them a trial the coming year the possibilities of the crop might be carefully and clearly indicated. The cow pea has given such excellent results on the New Mexico Experiment Farm Station that the writer wishes to bring this crop to the attention of the New Mexico farmers. Whether cow peas will succeed or fail in other parts of the Territory it is difficult to say at the present time, but the results in the Rio Grande valley indicate that it may prove a most excellent crop for most sections of the territory.

The seed can be obtained from almost any southern seed house and from most northern seed houses. Those who wish to try one or more varieties of cow peas should make inquiry of the seed house with which they have been dealing. It is advisable to plant only a small quantity for trial the first season.

### Good Cough Medicine For Children

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by all druggists.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness--nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy--Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative--Tablets or Liquid--and see for yourself what it can and will do. We sell and cheerfully recommend

### ARIZONA NATIONAL FOREST ENLARGED

320,000 Acres Added to the Prescott  
National Forest--70,000,000 Feet  
Yellow Pine.

Prescott, Ariz., Dec. 4.--Arizona now has 320,000 more acres of timber land in the Prescott national forest by reason of a proclamation creating two additional reserves which were signed by the president Saturday.

The tracts will be put under forest service administration and protected from fire, theft and waste. The additions will give the Prescott forest an area of 1,063,256 acres. The country included is located in the central portion of Yavapai county, between the boundary line of the present forest and the Baca grant, and occupies a portion of the divide between Williams Fork and Perverde river.

It is estimated that there are about 70,000,000 board feet of yellow pine in the additions.

### NOTABLE MEDICAL DISCOVERY

Of Special Value to Many Here in  
Santa Fe.

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Santa Fe is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is now no excuse for anyone suffering with indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heart-burn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by The Ireland Pharmacy under an absolute guarantee to refund the money if it should fail to cure.

### HEALTHY CHILDREN.

There is nothing better for weak, puny children than Dr. Lauritzen's Health Table Malt. It makes them strong, fat and hearty. And being absolutely non-intoxicating, can result only in good for the little ones.

### WHY DID YOU COME WEST?

To rest, recuperate, hunt, fish, breathe fresh, pure air, see mountain scenery, get a change, live a new and fascinating life under new conditions, and get food that needs no pure food law.

That's why you came west!

There is a beautiful little valley that nestles between the highest mountains of the Rockies on the upper Pecos river; ideal altitude, 7,000 feet, and temperature identical with Santa Fe. Its streams swarm with trout and the woods and ranges are filled with game large and small. The ranchers live the life of the west. There are mountain lion, bears, deer and wolves for the hunter. There are saddle ponies to be had for the asking, rooms in a big, rambling ranch house with wide verandas, tent rooms or a cabin if you want it. The days are never dull. You see a great ranch and the genuine western life. Fresh milk, butter and eggs—all you can drink and eat. Sleep in blankets at night—fish in your shirt sleeves during the day. You couldn't spend more than \$9 a week if you tried. It's the place you are looking for. Accommodations for both men and women.

Inquire this office or address THE VALLEY RANCH, Pecos N. M.

### OTERO COUNTY FORMS STATEHOOD LEAGUE

Alamogordo, N. M., Dec. 4.—After waiting several weeks for the chairman of the Republican and Democratic county central committees to issue a call for the purpose of organizing a non-partisan statehood league, the business men of Alamogordo, within eight hours, issued a call, held a meeting at which over 100 prominent citizens were present and elected W. R. Eldson and J. E. Wharton, of Alamogordo, and Charles Meyer of La Luz, as delegates to attend the territorial statehood convention, which was held at Santa Fe last Saturday. This quick and effective work of the business men is proof that an ounce of public spirit is worth a pound of politics. Several other enthusiastic statehoodites accompanied the delegates to Santa Fe.

### TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Santa Fe readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Benito Romero, living on San Francisco Street, Santa Fe, N. M., says: "I made a statement for publication some five years ago in which I gave an account of my suffering from backache, due to kidney trouble and told how Doan's Kidney Pills, which I procured at the Ireland Pharmacy, brought me the first relief. As I then stated, I had been suffering from pain across my loins and kidneys and had been subject to the attacks for over a year. Some times I would work until noon and then on account of my kidneys and back would have to stop for the balance of the day. I tried plasters, but they afforded me no relief whatever. Two boxes of Doan's Kidney Pills cured me and I have on a few occasions noticed a slight return of the old trouble, but at once appealed to Doan's Kidney Pills and the results have always been prompt and satisfactory. I can call to mind a number of my friends who have, on my advice used Doan's Kidney Pills for kidney complaint and have been made well by them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

#### HORSE THIEVES IN ESTANCIA VALLEY

Fine Team is Stolen From George Smith—Mounted Police to the Scene.

Estancia, N. M., Dec. 4.—Monday night of this week George Smith, living in the west part of town, had a fine team of dapple gray horses stolen from his stable. The thieves left no clew. Mr. Smith reported the loss to the local officers who in turn notified the Mounted Police, who have begun a search for the thieves. Mr. Smith is a newcomer in the valley and expected to go to work for a local saw mill.

The recent snow in this section has disappeared. The moisture was greatly needed and will prove of much benefit to the farmers. For the past ten days the weather has been clear. The nights are quite cool.

Homeseekers continue to arrive in large numbers on every train. All are enthusiastic over the prospects of this section and rarely a newcomer leaves after once visiting the valley. The greatest immigration is from Oklahoma and Kansas.

On Friday evening of this week a mass meeting is to be held in the court house for the purpose of organizing a county statehood league to co-operate with the territorial statehood league at Santa Fe.

#### Muscular Pains Cured.

It is 60 years ago that Doniphan's command marched from Santa Fe on its memorable Mexican expedition, one of the greatest if not the greatest and most successful military marches in history. abiding community. It is well therefore that the crime of Saturday was so quickly followed with the apprehension of the guilty party and his confession, leaving no doubt as to the motive and character of the crime. Captain Farnoff and District Attorney Gortner very skillfully led up to the confession without the employment of any harsh, or objectionable means. The presence of Judge John R. McFie inspired confidence and allayed immediately all bitter feeling and fear that justice would not be done.

## Victim Daughter of Civil War Hero

Miss Templeton, the victim, was born sixty years ago in eastern Pennsylvania, the daughter of Major Templeton, of Civil War fame. As a young girl she went to Louisiana, Missouri, and also lived at a brief time at St. Louis. About twenty years ago she came to Pueblo, Colorado, where she held membership in the First Presbyterian church up to the time of her death and where she is well and favorably known. She also made brief stays in Colorado Springs and Denver. Thirteen years ago, Mr. Raley, her brother-in-law, became interested

In New Mexico mining properties and bought himself a home at Rinconada, Taos county, where Miss Templeton would visit her sister for months at a time. After the death of her husband, Mrs. Raley moved to Velarde, and bought the small store and house in which she lived. Thirteen years ago, Miss Templeton joined her and soon became known throughout the neighborhood for her kindness of heart and her charitable deeds, of some of which her murderer and his family had been beneficiaries. She had no enemies, even the murderer acknowledging that he had no animosity towards Miss Templeton and excusing his deed only with the excuse that he was drunk when he committed it and did not know what he was doing. The funeral of the deceased took place yesterday forenoon, Rev. W. H. Rischl a close friend of Miss Templeton, conducting the funeral services at Velarde. Interment was made in the the Presbyterian cemetery at Embudo Plaza, Taos county, where services were also held. There are no surviving near relatives, except the sister, Mrs. Raley, a brother-in-law residing at Colorado Springs, and Mrs. Raley's daughter and her husband, Mr. and Mrs. Ismay of Velarde.
