According to a report released July 29 by the Fundacao Getulio Vargas (FGV) Economic Institute, the consumer price index rose 121.39% over the first seven months of the year. The 12-month figure is 341.90%. The FGV's financial market index [Indice Geral de Precos do Mercado (IGP-M)] showed a 13.22% increase for July 1991, compared to 8.48% in June, and 7.48% in May. The consumer price index (INP-C) for July was calculated on the basis of average prices over the June 21-July 20 period, compared to average prices for the May 21-June 20 period. (Basic data from AFP, 07/29/91)
