WILL EXPLORE

PAJARITO PARK

Prof. Hewitt, Noted Archaeologist, Reaches City

PLANS LONG RESEARCH

Will Spend From Six to Eight Weeks in Cliff Dwelling Region.

Professor Edgar L. Hewitt of Washington, D. C., the noted and skillful archaeologist and ethnologist, and connected in an important capacity with the School of American Archaeology, reached the city yesterday and will leave tomorrow for a six or eight weeks' sojourn in the Pajarito Cliff Dwellings region.

Three camps of five students each of the School of American Archaeology will be established in that section for research during the coming six weeks or two months. The principle campaign will be in El Rito de Los Frijoles in which canon Professor Hewitt expects to find many archaeological and ethnological objects of great antiquity and value.

Professor Hewitt has just finished a six months' visit to Europe during which time he visited the schools of American Archaeology, established in Jerusalem, Athens and Rome and also spent some time with European capitalists consulting with archaeologists and ethnologists and other men of science in connection with the great treasures in these lines in the United States and in Mexico.

Archaeology School Here.

He had a very pleasant trip, found the schools in good condition, containing a large number of students and doing splendid work. The schools are conducted in the English language. In addition to these three schools already established in Europe and in Asia, the fourth one is to be established in the United States and Santa Fe is in a very good way to secure it on account of its location near the many rich fields of archaeological and ethnological objects of its history, its antiquity, its splendid climate and its already fair historical collections of Southwest antiquities and objects.

Professor Hewitt has secured a very enviable reputation as a skillful and thorough investigator and searcher and has made a high place for himself in his chosen profession.

Within a few days two professors from Harvard University, Professor A. W. Sozzer and Professor R. B. Dixon, are expected to reach here and will be with the exploration parties in Pajarito park for some time to satisfy themselves personally of conditions and to become acquainted with the surroundings and especially the many historical, archaeological and ethnological associations centered around the Pajarito park and this city.

Miss Alice Fletcher Coming.

Miss Alice Fletcher, president of the board of regents of the School of American Archaeology, is also expected here in three or four weeks to satisfy herself personally as to the value of this region in historical, archaeological and ethnological matters. She is a very intelligent, well posted and energetic woman and has done great work in the important work in the position which she holds with the School of American Archaeology. She is an important factor on the Board of Regents. In addition to being highly educated and very intelligent she has had much experience in official life. She was a member of the commission that was appointed by the late President Grover Cleveland during his second administration to segregate lands for several Indian tribes which were given these Indians in severalty and her opinions and decisions in the work of this commission were of paramount influence and recognized by the department of the interior.

Indians to Assist in Work.

Professor Hewitt will visit Santa Fe frequently within the next six weeks and two months during which time he will be at work in the Pajarito Cliff Dwellings' region and will keep the New Mexican posted as to his finds and achievements. A good many Indians will be employed in the three camps. They will be taken from the surrounding pueblos and will be paid fair wages. The camps will be comfortably fitted up with tents, furniture, cooking utensils and like and the students will spend an agreeable time, although they will be required to do much hard manual labor and stand all kinds of hardships incident to outdoor life and at times unfavorable conditions of the weather. However, the students are all enthusiastic and came to take part in

Continued On Page Eight.

BOUND OVER TO THE GRAND JURY

Roberto Montoya and Mrs. Montoya Given Preliminary Hearing—Professor Ramirez Arrested.

Roberto Montoya, who last Sunday was arrested on the charge of attempting to murder Professor Bartolo Ramirez, had his preliminary hearing before Justice of the Peace Ricardo Alarid this morning. After several witnesses were heard Justice Alarid bound him over to the grand jury and his bond was fixed at \$2,000, which he furnished.

Mrs. Maggie Montoya, wife of the accused man, was also arrested as an accomplice in the attempted murder and after hearing a few witnesses, Justice Alarid bound her over to the grand jury and her bond was fixed at \$1,000, which she gave.

The witnesses for the territory were not heard at this time, but will be used before the grand jury.

From the evidence thus far adduced it appears that Professor Ramirez and Mrs. Montoya had probably close relations during the past few weeks. Montoya, according to the evidence at today's hearing, had engaged the servant girl at the house to keep a watch on the couple and as a result of this spying the trouble Sunday came about.

Sunday Montoya accused his wife of infidelity and mentioned his suspicions of Ramirez. Mrs. Montoya denied the accusation and requested him to go and get the professor, that she might prove her innocence. Montoya went to the room of Professor Ramirez on Galisteo street and asked him to come over to see his wife, saying that she wished to have him hear a new piece of music.

The professor unsuspectingly accompanied Montoya to the house where the fight followed in which Ramirez got the worst of it.

Professor Ramirez was arrested yesterday on complaint of Montoya and is being held on a charge of assault with intent to kill and his bond was fixed at \$5,000, which he furnished. His preliminary hearing on this charge will come up before Justice of the Peace Jose Ma. Garcia tomorrow afternoon at 2 o'clock.

Peace proceedings were also taken against the professor by Montoya, the hearing of which took place before Justice Garcia this afternoon. The court placed Ramirez under a \$100 peace bond.

Ramirez was able to appear in the justice court this morning and this afternoon.

IS CANDIDATE SPIESS TO QUIT?

Reported on Reliable Authority That He Will Withdraw and Throw Support to Judge Mann.

Special to the New Mexican.

Las Vegas, N. M., Aug. 11.—It is reported here on reliable authority that Candidate Charles A. Spiess is seriously contemplating his withdrawal from the delegate race and that he is trying to make a deal by which the delegations that have been instructed for him in San Miguel and Mora counties and the ones he expects to be instructed for him at the Republican territorial convention at Santa Fe on the 18th of August, will vote for Judge Edward A. Mann. The deal, however, is not meeting with much favor among the delegates and it can truthfully be asserted that the proposition is frowned on by many Republicans in this city and county. It is becoming apparent that the support of Spiess here consists not of the masses of the Republicans, but of a clique of East Las Vegas that is trying to control the county of San Miguel and territorial politics.

SULTAN OF TURKEY COMES DOWN OFF HIS PERCH

Constantinople, Aug. 11.—The Sultan has made known his intention of de-fraying the entire cost of building the new house of parliament and has given orders that plans for the same be prepared. The general attitude of the Sultan with regard to the new order of things in Turkey is giving satisfaction. In an interview with his new ministers, the Sultan said:

"Every man in Turkey is a member of the union of progress and I am their president. Let us live together and make this country prosperous."

NORTH DAKOTA TOWN VISITED BY TORNADO

Mandan, N. D., Aug. 11.—A tornado struck Mandan last night and did damage estimated at \$50,000. One boy was picked up by the wind and carried for three blocks in the air. Two hotels had their roofs blown off, houses were tipped over and many windows shattered, but there were no fatalities.

THIRTEEN PERISH IN GERMAN MINE EXPLOSION

Saarlöben, Germany, Aug. 11.—Thirteen men are dead and eight badly injured as a result of an explosion of fire damp in the Dudweiler mine, four miles from here.

MASKED MEN TORTURE WOMAN

Attempt to Make Her Reveal Hidden Money

Washington, Pa., Aug. 11.—Three masked men entered the home of Miss Maria De Garmo in a remote part of this city yesterday morning, bound and gagged Miss De Garmo and her niece, Miss Lizzie Hartman, the only occupants of the house, and robbed them of their jewelry and a small amount of cash. They tortured the elder woman until she fainted to make her disclose the hiding place of her money and then left. Miss Hartman freed herself and released her aunt. Fifteen hundred dollars which Miss De Garmo received the day before for some timber land was not found by the robbers who evidently had heard of the payment.

VICTIM FINALLY FAINTS

Pennsylvania Farm Scene of Daring Robbery—Thieves Escape.

Washington, Pa., Aug. 11.—Three masked men entered the home of Miss Maria De Garmo in a remote part of this city yesterday morning, bound and gagged Miss De Garmo and her niece, Miss Lizzie Hartman, the only occupants of the house, and robbed them of their jewelry and a small amount of cash. They tortured the elder woman until she fainted to make her disclose the hiding place of her money and then left. Miss Hartman freed herself and released her aunt. Fifteen hundred dollars which Miss De Garmo received the day before for some timber land was not found by the robbers who evidently had heard of the payment.

TEXAS REPUBLICANS IN CONVENTION

Two Candidates After Gubernatorial Nomination—Democrats Endorse Ticket Chosen at Primaries.

Dallas, Tex., Aug. 11.—The Republican state convention met here today and was well attended. The noticeable feature was the diminution in the number of colored delegates. Nearly all the Republican leaders of the state attended and many express the opinion that this party will cast the largest vote in its history in November.

A. H. Atwell, of Dallas, and Charles W. Ogden, of San Antonio, are the leading candidate in the gubernatorial race. The Independence party in convention today nominated E. W. Kirkpatrick, president of the Texas Farmers' Congress, for governor.

Democrats Ratify Ticket.
San Antonio, Tex., Aug. 11.—The Democratic state convention met here today and formally announced the state ticket elected at the recent primaries. The prohibition plank will lead to a spirited fight.

SWEEPING CLAIMS OF BRYAN SUPPORTERS

See Nothing But Victory Ahead For Commoner—Chairman Mack Arrives at Fairview.

Fairview, Lincoln, Aug. 11.—Upon the arrival of Chairman Norman E. Mack, of the Democratic National committee, this afternoon, the executive committee will hold a conference with Mr. Bryan at which campaign plans will be discussed. The members of the committee have already reached Lincoln and some of them visited Bryan today. Among them was Charles Edman, of California, who told Bryan that California was safely for him, but urged that he make a couple of speeches in that state. Bryan took the matter under advisement. Thomas P. Byrnes, a Unitarian minister who recently finished a lecture trip through Ohio, Illinois, Kansas and Nebraska, told Bryan he found the drift to be towards him everywhere.

THREE GIRLS ARE BURNED TO DEATH

Escaping Gas in Flat Responsible For Fatal Blaze—Occupants Jumped From Windows.

Wheeling, W. Va., Aug. 11.—Escaping gas in a building on South Toff street caused a fire this morning which resulted in the death of Mamie Clara and Margaret Garvin aged respectively 29, 27 and 21 years and the probable fatal injury of Mrs. S. Garvin, their mother. Two servant girls and four sons of Mrs. Garvin jumped from the third story windows and escaped with minor injuries.

JULY BUSINESS AT THE TUCUMCARI LAND OFFICE

Tucumcari, N. M., Aug. 11.—The following is the business done by the United States Land Office at Tucumcari during the month of July: Homestead entries, covering 13,300 acres; fees received, \$1,500; cash sales \$2,088; final homestead entries and commutation of homestead entries have been made at the rate of ten per day but the business now is slackening. There has been plenty of rain during July and August and the farmers are feeling very much encouraged.

WILL PURCHASE BALDWIN AIRSHIP

Government Needs It Says Chief Signal Officer

Washington, Aug. 11.—"The military dirigible balloon built for the Signal Corps by Captain Thomas R. Baldwin will be accepted. We need it." Thus spoke General James Allen, chief signal officer of the U. S. Army, today. He indicated that the failure to comply with the speed requirements will not prevent the purchase of the airship. It is generally understood therefore that the speed and endurance trials will merely determine the price to be paid. The first speed test is expected to take place this evening and Captain Baldwin is satisfied he can make 22 miles an hour under the conditions presented by the Signal Corps.

SPEED TO DETERMINE PRICE

Inventor Confident It Will Come Up to all Requirements.

Washington, Aug. 11.—"The military dirigible balloon built for the Signal Corps by Captain Thomas R. Baldwin will be accepted. We need it." Thus spoke General James Allen, chief signal officer of the U. S. Army, today. He indicated that the failure to comply with the speed requirements will not prevent the purchase of the airship. It is generally understood therefore that the speed and endurance trials will merely determine the price to be paid. The first speed test is expected to take place this evening and Captain Baldwin is satisfied he can make 22 miles an hour under the conditions presented by the Signal Corps.

LUNA COUNTY FOR DELEGATE ANDREWS

Delegates From That County to Territorial Convention Instructed to Vote For Him.

Special to the New Mexican.
Deming, N. M., Aug. 11.—The Republican county convention of Luna county was held here yesterday and nearly every precinct was represented. The convention was harmonious and unanimous. B. Y. McKee and Thomas A. Carr were elected delegates to represent the Republicans of this county at the territorial convention Tuesday next.

The resolutions endorsed the Republican national ticket and platform, approved very heartily of the administration of Governor George Curry and contained the following:

"We most heartily endorse the candidacy of William H. Andrews as the Republican nominee for delegate to the Sixty-first Congress and we recognize the splendid services rendered by him and his manifest efforts in behalf of New Mexico and his constituents."

"We heartily endorse the conscientious and able leadership of the Hon. H. O. Bursum as chairman of the territorial Republican central committee."

AMERICANS IN MEXICO TORTURED

Taken Prisoners on Robbery Charge, Pittsburgh Crooks Are Horribly Maltreated.

Pittsburg, Pa., Aug. 11.—The police officials have received news of the torturing of William Moffatt and Edward Maloney, who were arrested recently in Mexico City charged with robbing a bank messenger. The police here say both men were well known to them before leaving for Mexico. Captain of Detectives McGough said today:

"If it were not for the records of these men their torture would mean international complications."

"The two Pittsburghers were arrested by the Mexican police but their two companions escaped. When they refused to give the names of the men who escaped the prisoners were then strapped to the bars of their cell and their nails torn from their fingers. Unable to bear this torture they gave the names of their companions."

AUCKLAND IS ROYALLY ENTERTAINING THE FLEET

Auckland, New Zealand, Aug. 11.—The glorious weather continues and the entertainment for the officers and men of the American fleet is being carried out with even greater enthusiasm than was expected. Lord Plunkitt, governor of New Zealand, gave a state ball this evening in honor of Admiral Sperry and his officers. Over a thousand guests were present. In the meantime the men of the fleet were entertained at smoking concerts in the various music halls.

BUSH FIRES AGAIN RAGING IN BRITISH COLUMBIA

Winnipeg, Aug. 11.—A special from Cranbrook says a big brush fire is raging near Sullivan which in all probability will destroy the camp of the Sullivan Mine company. Another fire is raging near Kimberly and there is danger of its destroying that town.

INDEPENDENTS WIN IN BERNALILLO

Yesterday's Primaries Result in Defeat of Regulars—Contest Though Spirited, Was Peaceable.

The Republican primaries in Bernalillo county yesterday, although a very spirited and lively contest was made, passed off quietly and orderly. A large vote was brought out by the contending forces, namely the regulars and the independents and the latter were victorious, as the result shows. The ticket voted on by the independents in the various city and county precincts carried the day. In the city precincts the regular, or Hubbell faction, met with a decisive defeat. The Independent faction in precinct number 26, had a majority of 165. In precinct No. 12, the Independents had a majority of 89. In Old Albuquerque precinct the Independents carried the day by 84 majority. Alameda precinct went forty votes against the regular faction. San Jose precinct gave the Independent Republicans a majority of 27. In most of the county precincts the independent faction also gained a victory. The result as far as the territorial Republicans are concerned means a delegation to the Santa Fe territorial convention on August 18th in favor of the nomination of Delegate Andrews, and as the Bernalillo county delegation will be the first on the list its vote will have a decided influence if there shall be any wavering delegations in the convention.

The New Mexican believes that the regular or Hubbell faction will accept the result with equanimity and good sense. This outcome was decreed by a majority of the Republican voters of Bernalillo county and that fairly and peaceably.

The information of the New Mexican is that both parties will acquiesce and that the county convention will also be harmonious and show a united party. At that convention a county central committee to conduct the coming campaign will be organized, and it is very likely that due regard will be given to both factions and that harmony, friendly spirit and unity will prevail. If this takes place, Bernalillo county can be counted on for the Republican delegate legislative and county tickets by 2,000 majority on November the third next.

The latest estimate at 3 o'clock this afternoon gives the independent Republican ticket a majority of 400 and more, all the precincts not having been heard from.

DIG BARBECUE AT NARA VISA

Plans Completed For Noteworthy Event and Large Attendance is Expected.

Willard Belknap, one of the founders and prominent men of the flourishing town of Nara Visa, in northeastern Quay county, and other leading citizens of the town, have arranged for a large barbecue for the 27th and 28th of August at Nara Visa. Prominent men and good speakers have been invited to deliver addresses and the farmers of the surrounding country and their families will be there in goodly numbers.

The section is well settled with sturdy and intelligent agriculturists and farmers who hail mostly from the northwestern states. Homesteaders on the public domain are as thick as blackberries in Virginia. The section has proven a fine agricultural country where extensive crops of wheat, corn, oats, milo maize, kafir corn, broom corn, alfalfa and vegetables have been successfully raised for several years without irrigation.

The farmers there are prosperous and as a great many of them have come from the northwestern states they are Republicans. Nara Visa is a progressive, advancing town of between 800 and 1,000 people, has two newspapers, two banks, two U. S. court commissioners, good hotels and many business houses. The barbecue is expected to be a grand affair.

Three weeks ago a barbecue was held at Amistad, which is in southeastern Union county, and about twenty miles north of Nara Visa. At the very least calculation from 800 to 1,000 people were in attendance, most of these being with their families. Four big beefs were killed, roasted at the barbecue and eaten to the bone, in addition to the great number of chickens, eggs, bread and other edibles. A good time was had and the people became acquainted.

Two years ago there were not fifty settlers in that section. The New Mexican's correspondent states that eastern Quay and southern Union counties are growing at a very rapid rate and that there are not many quarter sections of public land which can be cultivated, that are open for entry and that the class of settlers that has come into that section is of a very superior grade. They have brought their household furniture, farm machinery, horses, mules, cattle, hogs and poultry, have constructed many good homes and have built a great many fences.

If you want anything on earth—try a New Mexican want "ad."

NATIVES UNFIT FOR SELF-GOVERNMENT

Results of Election in Manila Prove This

Manila, P. I., Aug. 11.—Returns from the municipal election show that Simon Villa carried the southern district of this city, being elected alderman by a wide plurality, while Ramon Dickno won a similar office in the northern district. Villa is an ex-officer in the insurgent army and only escaped a trial for the murder of a Spanish officer by the general amnesty proclamation. He made many incendiary speeches during the campaign, declaring in the event of another revolution he would advocate the slaughter of all Spaniards in the islands. Dickno is a lawyer and the leader of the labor party. The American residents and foreign population declare the election of Villa and Dickno clearly demonstrates the incapacity of the natives for self-government.

CRANKS ELECTED TO OFFICE

American Residents and Foreign Population Sorely Disappointed.

Manila, P. I., Aug. 11.—Returns from the municipal election show that Simon Villa carried the southern district of this city, being elected alderman by a wide plurality, while Ramon Dickno won a similar office in the northern district. Villa is an ex-officer in the insurgent army and only escaped a trial for the murder of a Spanish officer by the general amnesty proclamation. He made many incendiary speeches during the campaign, declaring in the event of another revolution he would advocate the slaughter of all Spaniards in the islands. Dickno is a lawyer and the leader of the labor party. The American residents and foreign population declare the election of Villa and Dickno clearly demonstrates the incapacity of the natives for self-government.

EXCURSION FROM WILLARD SUNDAY

Santa Fe Central Will Run a Special Train to Capital—Greatly Reduced Rates For Occasion.

The Santa Fe Central railway will run a special train from Willard to the Capital City next Sunday, leaving Willard at 7:30 a. m., and arriving in this city at 11:25 a. m. Returning the special train leaves this city at 7 a. m., promptly.

This is another opportunity for the people of the Estancia valley to visit their friends in this city and see the sights of the oldest city in the United States, as well as witness one of the best ball games of the season. The Santa Fe Central will entertain the valleyites in a royal manner. Arrangements will be made to have La Banda de Santa Fe meet the excursion train at the Union depot and escort the visitors to the Plaza. The band will also play at the ball park.

The following special rates for the round trip have been made by the Santa Fe Central from the various towns along its line: Willard, \$1.50; Estancia and Antelope, \$1.25; McIntosh and Moriarty, \$1; Dilbert, Stanley and Williams Spur, 75 cents; Clark, Kennedy and Vega Blanca, 50 cents; Donaciana, 25 cents.

Arrangements have been made for a return ball game to be played in Estancia in the near future when an excursion will be run from this city to the Torrance county seat.

ELECTRIC CARS COLLIDE HEAD-ON

Five Killed and Forty Injured, Several Fatally, in Ohio Trolley Accident.

Piqua, O., Aug. 11.—Five were killed and nearly forty persons injured, several of them fatally, when two suburban electric cars of the Western Ohio Traction company collided at a sharp curve a few miles north of here last night. The dead are: James Kehoe, of Dayton; William McClellan, of Lockington; George Robertson, of Sydney; C. W. Hummelhouse, of Detroit; passengers and William Bailey, of this city.

Both trolley cars were late and in addition to their usual high speed, are said to have been making up lost time. The cars collided on a curve just before the switch was reached where the southbound car was to have waited for the north bound car to pass.

VALENCIA REPUBLICANS WILL MEET TOMORROW

Special to the New Mexican.
Los Lunas, N. M., Aug. 11.—The Republican county convention of Valencia county will meet here tomorrow for the purpose of electing twelve delegates to the territorial convention to be held in Santa Fe on the 18th of August. It is understood that the delegation will be instructed to vote as a unit for the nomination of Delegate W. H. Andrews.

TURKEY RECALLS ITS MINISTER TO WASHINGTON

Washington, Aug. 11.—At the Turkish legation this afternoon it was officially announced that Mehmed Ali Bry Turkish minister to the United States, had been recalled.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and as a large and growing circulation among the intelligent and progressive people of the Southwest.

THE REPUBLICAN NATIONAL TICKET.

For President—William Howard Taft, of Ohio
For Vice-President—James Schoolcraft Sherman, of New York

THE DIRTY CAMPAIGN ON ANDREWS WILL NOT AVOID.

It seems at times that the part of the Democratic papers which are against Delegate W. H. Andrews are unconsciously doing as much to renominate him as delegate as the Republican press. The New Mexican says, "a part of the Democratic press," as there are several Democratic papers which place the best interests of the territory and the statehood idea higher than the "tin god" of the Democratic party in New Mexico, which is rank heresy but good common sense. One of the papers which "supports the Democratic party when it is right" is the Albuquerque Sun. It seems to this paper that the Sun will not be with the Democratic party much on territorial issues, for, alas, they are so seldom "right." For their efforts against Andrews, which are really for Andrews, though these papers which are Democratic right or wrong, mostly wrong, do not know it, and for this reason deserve no credit, though they call forth the fair play spirit of New Mexico voters, the reader of those papers finds his spirit of fair play calling up on him to champion the cause of a man who is being defamed to meet political ends. In vain the reader searches for the evidence on which these insinuations should be founded. The reader finds that it is but an underhand way in which these papers are trying to erect, without the shadow of a fact, a structure of falsehood, which no man, be he ever so honest, could answer except in the standard manner for cases of that nature. That is by the use of a horsewhip and an after ablution of antiseptic. These papers had better beware lest this laboriously erected dream structure without a foundation topple and cover them in a downfall that will be no dream.

When there is a specific charge made against the character of any man, as can, if innocent, answer it. But who can answer insinuations that mean as much or as little as the reader wishes them to mean. They are for this reason as hard to catch as the greased pig at the country fair, and fully as greasy, but one does not need to catch it to know that it is a pig all the time. It is a greasy campaign that one finds in these papers against the character of the present delegate, by men who never politically or in any other way, have done as much for the territory in the whole of their careers as has Delegate Andrews in the last Congress.

If they know anything against the delegate why do they not use it instead of making their poor heads sore imagining things that a man might do, were he degenerate enough and then give Mr. Andrews credit for all the vices they see in their ravings, or perhaps it was in their conscience. While be it far from the New Mexican to deny their rights and competency to act as judges on depravity this paper suggests that dream editorials and dream news letters written in the office in the hour of inspiration (?) and purporting to give the political news of the different parts of the territory are poor things to place before a public that refuses to be cheated and scorns to be bought into forsaking a broad-minded statesman, one who can do things, without the aid or suggestions of men who lower their papers to a campaign that would be a disgrace to the Kilkenny cats.

Will not the intelligent New Mexico voter say to himself and others: "Well they do not say anything specific against Mr. Andrews and if there was anything specific to say they would naturally say it?" Is it not natural that after seeing through their artifice he should imagine that the delegate's biggest crime is that he stands in the way of their chance of amalgamating with any of the government's money. And a good bet would be that this was not all imagination on the part of the voter.

What the people want newspapers for is that they may get the news and read a wise consideration of the great topics in every department of life. They do not want them to do all their thinking for them. The age of the world when the public believed everything it saw in the papers has, if it ever existed, passed into the past as has the age of dictators. Its doom was sounded with the education of the people to responsibilities of American citizenship and the opening of the public schools to the rich and the poor alike. A paper can not ram beliefs down the readers' throat as a farmer would ram grain into a duck that he is fattening for market. The quicker these papers learn that the people are calling for them in the public lands and, unfortunately, are not possessed of cloven

hoofed wealth, thing it nothing but fair that they pay for the use of our part of the common property. Had the speaker been more conversant with the history of the Pecos Valley he would have devoted less time to alleged election irregularities and had he well understood the hardy, independent natures of his hearers, he would not have rehearsed the booby act of claiming an election which the official count accorded to another. At various places in the valley, Mr. Larrazolo imputed all the crimes in the calendar, from murder down, to the Republican party. He "scathingly arraigned" the Republicans of the territory and implied collusion on the part of general government in the wrong doings, winding up with an eloquent appeal for support in the coming election without advancing one argument in support of his claims.

"As regards the delegateship, the people of the valley are not interested in the career of that grand old man, Thomas Jefferson; they want to know what Mr. Larrazolo has to offer them. We know little of the tariff question but we can comprehend the effects of a reduction in the present freight rates. "Centralization is a momentous question but just now we are interested in the creation of Artesia county. Writs of injunction affect the peaceable residents of the valley but little, but a large storage reservoir upon the Pecos river would be of immense value to the entire community. Every community and every political party has among its number individuals of which they are not especially proud and abuses and injustice occur in every phase and condition of existence, facts that Mr. Larrazolo fails to comprehend or recognize as is evidenced by his arraignment of over one-half of the citizens of the United States. "Mr. Larrazolo is not big enough, broad enough nor is he possessed of sufficient force and ability to fitly represent us in the halls of Congress."

It is going to be a cold, cold world for the Democratic party this year if this is the only method of campaigning that the papers, whether of that class whose editors have the manhood to acknowledge themselves Democratic or of the class which claim to be Republican and are to parody a common saying, so that it may fit them more appropriately. Coyotes in sheep's clothing. Certainly will it be a cold world for these after the election but the

world if their methods of loosing elections continue to be by way of the defamation of character route.

Delegate Andrews deserves the thanks of the territory for his strenuous efforts for the best interests of New Mexico and he deserves universal respect for the enemies he has made.

LARRAZOLO'S FIASCO AS A SPEAKER.

The Pecos Valley News, a wide awake weekly newspaper in the wide awake and growing town of Artesia, Eddy county, in a recent issue lays before its readers an account of the visit of that "noble Spaniard" who his Democratic supporters claim was born in lovely Andalusia, but is in reality a native of Mexico, at which meeting it found this "blue blooded" Castilian whose forefathers did not fight against the Moslems and the Saracens under Ferdinand of Castile and Isabelle of Aragon, which clearly demonstrates that this alleged descendant of the grandees of the Spanish Peninsula, is not the eloquent, convincing public speaker that the few Democratic sheets in the territory try to make him.

The editor of the Pecos Valley News was on the ground and knows whereof he speaks and here follows his unpolished opinion:

"Mr. Larrazolo's speech before an Artesia audience last Wednesday night was certainly a disappointment to most of his hearers, treating as it did upon subjects with which most people are unfamiliar and in which few of our citizens are interested. There have been perhaps a dozen men in the history of the United States who have had a comprehensive idea of the tariff question, and yet Mr. Larrazolo discussed the subject with fluency and, no doubt, thinks that the people of Artesia are now fully conversant with every detail of this perplexing question. Writ of injunction was another subject deemed worthy of consideration, notwithstanding the fact that probably the attention of not one of his audience had ever been called to the subject before and are not likely to meet up the formidable term in a lifetime. The thoroughly hammered and weather beaten question of State Rights under the name of Centralization received the attention accorded it in anti-bellum days and yet Mr. Larrazolo would hardly dare to openly disparage the subject before an audience composed wholly of southern people: Free grazing on the public domain did not strike a responsive chord here as the cattlemen appear to have no serious objections to the small fee charged for market. The quicker these papers learn that the people are calling for them in the public lands and, unfortunately, are not possessed of cloven

hoofed wealth, thing it nothing but fair that they pay for the use of our part of the common property. Had the speaker been more conversant with the history of the Pecos Valley he would have devoted less time to alleged election irregularities and had he well understood the hardy, independent natures of his hearers, he would not have rehearsed the booby act of claiming an election which the official count accorded to another. At various places in the valley, Mr. Larrazolo imputed all the crimes in the calendar, from murder down, to the Republican party. He "scathingly arraigned" the Republicans of the territory and implied collusion on the part of general government in the wrong doings, winding up with an eloquent appeal for support in the coming election without advancing one argument in support of his claims.

"As regards the delegateship, the people of the valley are not interested in the career of that grand old man, Thomas Jefferson; they want to know what Mr. Larrazolo has to offer them. We know little of the tariff question but we can comprehend the effects of a reduction in the present freight rates. "Centralization is a momentous question but just now we are interested in the creation of Artesia county. Writs of injunction affect the peaceable residents of the valley but little, but a large storage reservoir upon the Pecos river would be of immense value to the entire community. Every community and every political party has among its number individuals of which they are not especially proud and abuses and injustice occur in every phase and condition of existence, facts that Mr. Larrazolo fails to comprehend or recognize as is evidenced by his arraignment of over one-half of the citizens of the United States. "Mr. Larrazolo is not big enough, broad enough nor is he possessed of sufficient force and ability to fitly represent us in the halls of Congress."

It is going to be a cold, cold world for the Democratic party this year if this is the only method of campaigning that the papers, whether of that class whose editors have the manhood to acknowledge themselves Democratic or of the class which claim to be Republican and are to parody a common saying, so that it may fit them more appropriately. Coyotes in sheep's clothing. Certainly will it be a cold world for these after the election but the

world if their methods of loosing elections continue to be by way of the defamation of character route.

Delegate Andrews deserves the thanks of the territory for his strenuous efforts for the best interests of New Mexico and he deserves universal respect for the enemies he has made.

ROOSEVELT'S SOUND ADVICE TO BOYS AND GIRLS.

President Roosevelt has addressed an open letter to the boys and girls of Washington, D. C., which is an echo of the address he made to the boys and girls of Santa Fe several years ago when he was the honored guest of this city. What he says bears repeating and should be read by every boy and girl. He says:

"I believe in work and I do not believe in sacrificing work to play; but I most emphatically believe also in play. A boy or a girl who has a healthy body will be all the better fit for serious work, and if the health comes through vigorous sports pursued in an honorable, straightforward manner, not only the mind but the character is benefited.

"To the boys I wish to say a special word. I emphatically believe in manliness, in courage, in physical advantages, but I believe quite as much in good comradeship and in a spirit of fair play. I hope that whenever you enter a contest you will do all that is in you to win and yet that you will remember that it is far better to fall than to win by any unfairness, by any underhand trickery.

"Keep in mind that it is only by persistent effort in the face of discouragement that any of us ever do anything that is really worth doing. The fellow who gives up when he is only beaten is made of mighty poor stuff, and if he thus gives up as soon as he is beaten in a sport, he does not stand much chance of success in the serious conflicts of after life.

"The true spirit, the spirit which wins victories in after life, is the spirit which fights hard to succeed, but which takes defeat with good nature and with the resolute determination to try again. It is a good beginning for this serious work of after life if on the playgrounds you learn how to co-operate with your fellows and do your best to win, while at the same time treating your opponents with fairness and courtesy."

NEW MEXICO SHOULD FOLLOW COLORADO'S EXAMPLE.

Colorado will make a climatological exhibit at the International Congress on Tuberculosis at Washington, D. C., from September 21 to October 12, that will prove an invaluable advertising feature. The exhibit will not be a costly one, as it will consist merely of maps, charts and photographs, and therefore New Mexico could make an even more convincing exhibit, for New Mexico's climate, especially that of Santa Fe, is far superior to that of any part of Colorado, not only in winter, but also in summer, for at Santa Fe, it does not get to be near as hot in summer, nor as cold in winter, as at Denver or at Colorado Springs. In consequence, Santa Fe has a much lower range in temperature. In addition to its exhibit, Colorado is preparing a souvenir book for free distribution to the members of the Congress, which is to be a cyclopedic work of reference of the climate, scenic and economic advantages of the Centennial state. Ten thousand copies of the book will be printed at a cost of \$3,000, and they will be distributed among men who will value the work and will help in sending to Colorado, tourists, health-seekers and capital. If New Mexico had an active, experienced secretary of its Bureau of Immigration, it too would seize an opportunity like this to impress upon the world the territory's advantages as a haven for healthseekers and a land to delight the tourist and interest the man of money seeking for investments.

Legal blanks—both English and Spanish—for sale by the New Mexican Printing company.

NEW MEXICO REPORTS VOLUME NUMBER 13

Just issued From Press of New Mexican Printing Company—Essential to Every Attorney.

Volume 13, of the reports of cases argued and determined in the supreme court of New Mexico is now ready for distribution among the members of the bar. No law library in New Mexico is complete without it and to the practicing attorney it is absolutely necessary. Justices of the peace, U. S. commissioners, court officials and all others who are interested in the interpretation of the law, especially the New Mexico law, by the highest court of the territory, should have the volume at their elbow. It is compiled by Judge A. J. Abbott, the supreme court reporter, and federal attorney for the Pueblo Indians, and his experience on the bench, as practicing attorney and as the author of previous volumes of Reports, assures that volume 13 has been carefully edited and indexed. The typographical work and binding is by the New Mexican Printing company which is being complimented upon the fact that it is the best printed and best bound volume of New Mexico Reports thus far issued. The price per volume, \$2.70, is lower than that of any previous volume. To this 30 cents should be added for postage, if volume is ordered by mail. The edition is limited and orders will be filled in the sequence of their receipt.

Every Woman
is interested and should know about the wonderful **MARVEL Whirling Spray**. The new vaginal syringe. Best—most convenient. It cleanses thoroughly.

OJO CALIENTE HOT SPRINGS.

These celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranco Station, on the Denver and Rio Grande Railroad, from which point a daily line of stage runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the entire year round. There is now a commodious hotel for the convenience of invalids and tourists. People suffering from Consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,825.24 grains of alkaline salts to the gallon, being the richest alkali Hot Springs in the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m. and reach Ojo Caliente at 4 p. m., the same day. For further particulars address:

Are You on Good Terms With Your Stomach?

Treat it right—its your best friend. Abuse it—and you'll find there's a limit. When the limit is reached, the stomach must rest. Kodol rests it.

That is what Kodol is for. The stomach cannot stop work; if it did you would stop existing. It cannot even take a vacation and "rest up"—except when it has Kodol to assist it.

Very likely you never gave a thought to how hard your stomach works. Most people don't until they have to. Sometimes, though, it costs less to do a little thinking before one has to.

Even the galley-slave of the ancients rested—at intervals. But the stomach of modern man works harder than the galley-slave, and it never rests—of itself.

Kodol, of course, will rest the stomach, but that is something nature didn't provide for. If people now-a-days lived the way nature intended, it wouldn't have been necessary to provide for it. But they don't—that's the trouble.

Better keep on good terms with your stomach, if you can. Your health depends absolutely upon the perfect performance of the stomach's functions. Ever think of that—or why it is true?

The human body is composed of certain chemical elements. These are combined to form substances such as fat, protein, carbohydrates, mineral matter and water.

The food we eat is composed of exactly these elements. The stomach must disintegrate this food and correctly apportion it to the needs of the system. Looks like a lot of work for the stomach, doesn't it? No wonder it occasionally needs Kodol to help it do this.

The person who has the kind of a stomach that can do its own work continuously, without assistance has a good deal to be thankful for. Most people haven't that kind. That is why they require Kodol.

Kodol will do all the stomach's work for it, when necessary—giving it a period of complete rest. The rest that restores health. That's how Kodol cures indigestion—which is merely a good digestion "gone wrong."

People used to think that when they had indigestion they should stop eating or limit themselves to a prescribed diet. Others commenced purging with cathartics. All that is very disagreeable and unpleasant. Also, it isn't necessary.

Starvation or purging doesn't cure anything. Kodol doesn't cure anything either—but shows nature the right road, in short order. Kodol merely establishes complete and perfect digestion. It does this by digesting every particle of the food. The stomach then rests and cures itself. That is what was intended when Kodol was made. It couldn't be any other way.

Kodol is quite indispensable to a good many persons. To all, in fact, who haven't time in their daily lives for a careful selection of foods and diet. It very quickly enables nature to rectify any disagreeable effects of wrong eating.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say that it has not done you any good return the bottle to the druggist and he will refund your money. We will then repay the druggist. This offer applies to the large bottle and to but one in a family. Every druggist knows our guarantee is good.

The dollar bottle contains 24 times as much as the fifty cent bottle. Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

TERRITORIAL NEWS NOTES

Gragg Brothers have opened a new drug store at Cuervo.

Fruit trees that were set out last spring are looking fine in Cuervo.

A rattlesnake was killed last week at Des Moines, Union county, which had thirteen rattlers.

"Corn never grew faster nor better than it has in this party of New Mexico," says the Cuervo Clipper.

A herd of four hundred cattle was driven from Cimarron to Des Moines last week to graze on the Sierra Grande.

Lake Arthur, an enterprising town in the Pecos Valley, now comes to the front with a day appointed by the city dads for the cutting of weeds.

The Amistad Republicans met in convention last Friday and elected seven delegates to the Union county convention, which was held at Clayton today. They were instructed for Andrews.

Work is now being done on the road between Amistad and Romero in Union county. The grading machine drawn by eight horses and mules is getting things into shape for easy travel between these two towns.

Sheriff J. K. King of Hughes county, Oklahoma, was in Duran last week and took back with him a railroad man charged with grand larceny from the Frisco railway, and who broke out of

the jail while awaiting trial on this charge.

John Morrow of Raton, left Sunday for Lincoln, Nebraska, he being a member of the committee appointed by the national Democratic convention to notify Mr. Bryan of his nomination for president. The committee will meet Mr. Bryan at his residence at Fairview, tomorrow.

The Santa Fe Central Railway is desirous of obtaining several exhibits of products in the Estancia Valley along its line, which will be placed on exhibition in the general offices of the company at Santa Fe, the general offices of the El Paso and Southwestern in El Paso and other points, where tourists and home-seekers may examine them and see for themselves what has been accomplished in this new agricultural region.

Last Saturday at Cimarron a tragedy was averted by what might be called a justifiable accident. Carlos Roybal, Cruz Ayrela and other convivial spirits met at the Pink saloon to quaff the cup that cheers. Then a quarrel started and Roybal pulled a 44-Caliber and attempted to let the daylight shine through Ayrela, who sprang at his assailant, and knocked the gun down. Just as Roybal pulled the trigger, a flash and a roar, and Roybal was down and out, with a big 44 bullet in his foot. The victim of his own gun is now in a serious condition as it is feared blood poisoning will set in.

This is a funny old world, made up of lots of queer people. Last week there appeared before the justice of the peace at Springer, a man and woman who made application for a marriage license. It was secured and the justice was to unite them in marriage the following Sunday afternoon. She was pretty, stylish and a little inclined to be timid; giving her address as Denver, age 21, birthplace, Moberly, Missouri, and name Alta May Phelps. He was a prosperous looking young man, dressed in the height of fashion, address, Denver, age 26, first experience, birthplace, Baltimore, Maryland, and name, George H. Turner. They went away seemingly happy in anticipation of the fact that they were soon to belong to each other for better or worse. The bride to be, had been in Springer two days and the groom to be, a week. That evening they went to the hotel and registered. G. H. Turner and wife, of Denver, saying they had been married by the judge. They left on the east bound train the following afternoon. It is difficult to surmise what their game was, but it is evident that they were up to something from the mere fact of securing a marriage license. They were not married and the justice simply holds the blank license.

Diarrhoea Cured.

"My father for years has been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle, of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured me and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all druggists.

The New Mexican Printing company has on hand a large supply of pads and tablets suitable for school work, the desk and also for lawyers. We will sell them at 5 cents in book form.

EPISCOPAL RECTOR VISITS SOCORRO

Rev. Fletcher Cook of Albuquerque Delivers Excellent Sermons—Dr. Ferguson Goes East.

Socorro, N. M., Aug. 11—Rev. Fletcher Cook, rector of the Episcopal church at Albuquerque, is spending a portion of his vacation here and preached two excellent sermons at the Episcopal chapel last Sunday. Dr. Cook is acting as a volunteer bishop of the vacant pulpits and spends much of his leisure time visiting the mission fields.

Joseph Smith has purchased the property known as the Fire Clay Works. The former owner P. J. Savage in the deal transferred ninety lots in the Chaves addition.

Dr. Ferguson has gone to Chicago for a month's post-graduate work and during his absence Dr. W. A. Pervis will have charge of the office.

E. H. Sweet, wife and daughter are enjoying a visit in the mountains of Colorado. Mr. Sweet's brothers G. H. and A. E. Sweet, prominent railroad men, connected with the Santa Fe railway, arrived here last week in their private car and took the whole party for a month's visit in the cool resorts of the Rocky mountains.

Mr. and Mrs. W. D. Crabtree are enjoying a visit from Mr. and Mrs. G. M. Sands of New York City.

The Park hotel is having rooms added to its already fine equipment of accommodations. Manager Hoffman is making a success of this popular hostelry.

August time tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative improvement will be noticed. Of course, full health will not immediately return. The gain however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the "inside nerves" then the stomach, heart and kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by The Ireland Pharmacy.

NOT COAL LAND. FOREST.

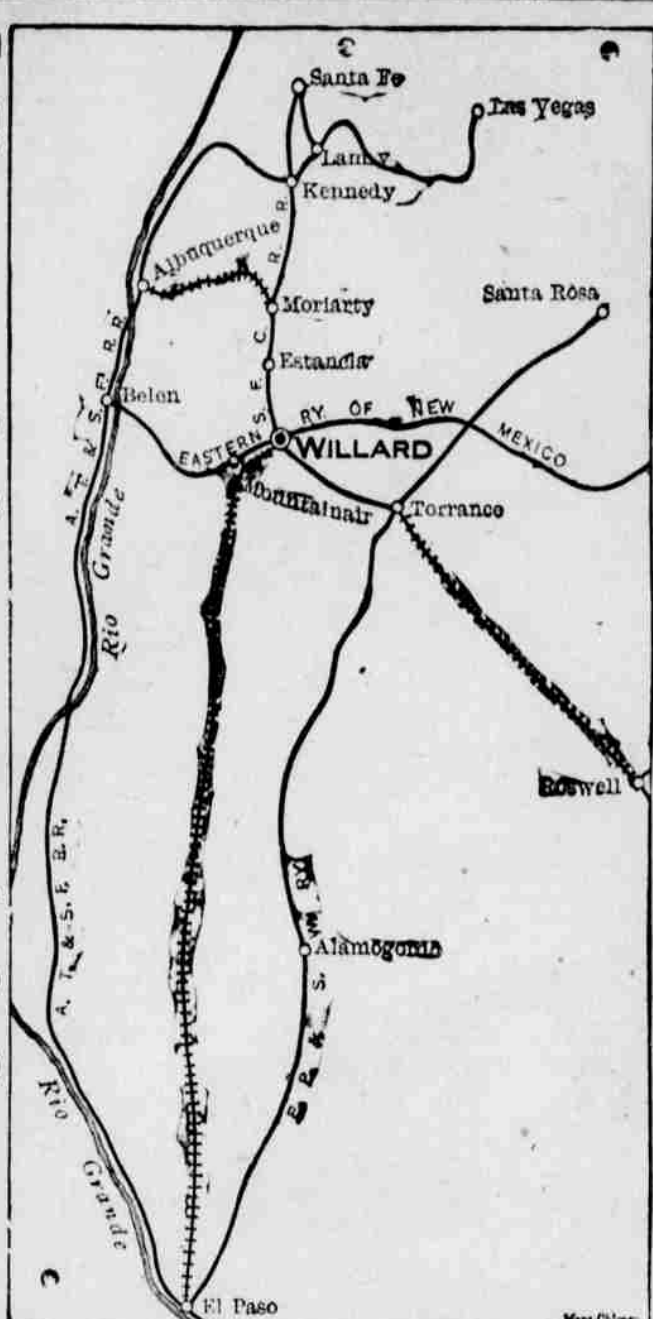

(Notice For Publication.)
Department of the Interior,
U. S. Land Office,
Santa Fe, N. M., August 4, 1908.
Notice is hereby given that Crestino O'Can, of El Rito, N. M., who, on July 21, 1903, made Homestead Application No. 7578 (0641), for NW 1-4 SW 1-4 NW 1-4 and lot 4, sec. 2, twp. 25 N., range 6 E., N. M. P. meridian, has filed notice of intention to make final five-year proof, to establish claim to the land above described, before Francisco Luna, Probate Clerk, at Tierra Amarilla, N. M., on the 19th day of September, 1908.

PERSONAL MENTION

B. S. Phillips, the Buckman lumberman, was in the city today and had a room at the Claire.

Juan S. Segura, a resident of Stanley, was in the city this morning and had a room at the Coronado hotel.

H. P. Hawkins of Estancia arrived in the city last evening on personal business. He had a room at the Normandie hotel.

Rev. J. R. Carver, Presbyterian pastor at large for the Estancia Valley, was among the visitors in the Capital today from his home at Estancia.

H. S. Van Slyck, live stock agent of the Santa Fe railroad with headquarters in El Paso was a business visitor in the Duke City yesterday.

A. E. Powell, assistant superintendent of the Wells-Fargo Express company with headquarters in Denver, was in Albuquerque yesterday on company affairs.

R. J. Crichton and Alan R. McCord, who have been on a fishing trip at the headwaters of the Brazos river in Rio Arriba county, returned home last evening. They brought back with them a fine string of fish.

M. H. Redford, J. D. Canham and Charles Saint, of Otto, a prosperous town on the Santa Fe Central, were in the Capital City this morning. Personal business brought them here. They had their names on the Coronado hotel register.

Captain William Strover, inspector of surveys for the General Land office, left this morning for Arizona to examine government surveys. He will be absent from the territory five or six months. Mrs. Strover will remain in Santa Fe.

William E. Turner, wife and son of Trinidad, Colorado, returned last night from the Jemez Hot Springs in Sandoval county, where they went with J. A. Davis of the Wood-Davis Hardware company. All enjoyed their outing and were greatly benefited by their stay at the springs.

City Ticket and Freight Agent J. P. Lyng, of the Santa Fe Central railway, and Mrs. Lyng, returned last night from Columbus, Ohio, where they went two weeks ago to attend the funeral of his mother, who died at Columbus.

Mr. Lyng said that they traveled through Oklahoma and Missouri and since seeing that country the Sunshine Territory looks better than ever. During the time they were at Columbus, the weather was very hot. They were glad to get back to Santa Fe's good climate. Mr. Lyng says it is just like getting into a different world to reach this city after suffering from the heat in the East.

CURES COUGHS AND COLDS.

Hyomei Gives Relief in 10 Minutes—Cures Over Night.

Everybody knows, or ought to know that Hyomei is recognized among scientists as the specific for Catarrh, Asthma, Bronchitis and Hay Fever, but there are a great many people who do not know that Hyomei will cure a cough or a cold in less than 24 hours.

But everyone should know that the soothing, balmy and antiseptic air of Hyomei when breathed over the raw and inflamed membrane of the nose and throat will instantly allay the inflammation, and will effect a prompt cure.

Complete Hyomei outfit, including inhaler, costs only \$1.00 at The Ireland's Pharmacy, extra bottles, if afterwards needed, will cost but 50 cents.

Joseph M. Harbaugh, Heldredge, Neb., writes: "I have used your Hyomei in my family for two years or more, and find it one of the best remedies we ever used for a cold or sore throat. We find that it gives quick relief in cases of catarrh."

The New Mexican Printing company has on hand a large supply of pads and tablets suitable for school work, the desk and also for lawyers. We will sell them at 5 cents in book form.

Served as coffee, the new coffee substitute known to grocers everywhere as Dr. Shoop's Health Coffee, will trick even a coffee expert. Not a grain of real coffee in it either. Pure, healthful toasted grains, malt, nuts, etc. have been so cleverly blended as to give a wonderful satisfying coffee taste and flavor. And it is "made in a minute," too. No tedious 20 or 30 minutes boiling. Sold by Cartwright-Davis Co.

The New Mexican Printing company will do your job work with neatness and dispatch.

A careful wife will always keep supplied with

FRESH CANDY

The Saving Habit

If you are thrifty, you have some of your money left over. The extra money is the foundation for future riches, if you will only persistently save it. What if it does only amount to a few dimes or nickels a day—there are going to be a great many days in your life; and these dimes and nickels will grow into a good large sum.

The opportunity may come, when a few hundred dollars might change your whole financial condition; Might mean buying an interest in some growing business; Might give you a chance to grasp your next opportunity.

AND WHAT IS THE USE OF ALL THIS?

Why it just means making a man of you.
Making you free to do as you wish.
Making you and your family happy and contented.

MINOR CITY TOPICS

Weather forecast for New Mexico: Fair in south; local showers in north portion tonight or Wednesday.

The hotel arrivals in this city yesterday numbered thirty-two, namely: Palace, eight; Claire, ten; Normandie, ten; Coronado, ten.

For sale, a mare about five years old, gentle and safe animal, with good man's saddle and bridle. Will be sold cheap. Apply at the editorial office of the Daily New Mexican.

The Wood-Davis Hardware company today purchased a car load of heating material from the U. S. Water and Steam Supply company of Kansas City through its southwestern agent, W. E. Turner, of Trinidad, Colorado. It is understood that the material will be installed in the Seligman and Doll residences.

Miss Isidora Tenorio died at the family home on Hillside avenue at 2 o'clock this morning after a lingering illness. The deceased was 46 years of age and had been a cripple for more than a year and her death was principally due to this cause. The funeral will take place at 2 o'clock tomorrow afternoon from the Cathedral and burial will be made in Rosario cemetery.

These visitors to the rooms of the New Mexico Historical Society registered yesterday: R. M. Fecht, F. L. Hunter, both of El Paso; W. J. E. Bruce, of Little Rock, Arkansas; F. W. Switzer, of Minneapolis, Minnesota; Edgar L. Hewitt, of Washington; H. V. Clark, of Kansas City, Missouri; L. C. Curtis, of Omaha, Nebraska; A. F. Jarrott, of San Antonio, Texas; James A. Nelson, of Denver.

The Travelers' Insurance company has paid over \$20,500.00 to policy holders who were injured while cranking autos. Total number injured 225. These injuries involved a total loss of business time of 304 weeks and a partial business time of over 552 weeks. In the face of such facts it is not wise to delay. Insure today! Call at our office, we will write you.

O. C. WATSON & CO., Agents Travelers' Insurance Co. Dr. W. G. Shadrach of Drs. Shadrach and Tull, of Albuquerque, New Mexico, will be in Santa Fe August 17 at the Claire hotel and remain for ten or fifteen days for the purpose of doing any eye, ear, nose and throat work and fitting glasses. He will make regular visits to Santa Fe in the future, every two months, thus enabling him to handle chronic diseases. Office hours 9 to 12 a. m. and 1:30 to 4 p. m. Evenings by appointment. Referring you to any physician of standing in the territory.

A steady rain began at 6:15 p. m., last night and continued until 8:30 p. m. The first peal of thunder was heard at 5:45 p. m., and the last, late in the evening. The storm moved from west to east. The maximum temperature yesterday was 82 degrees at 2 p. m., and the minimum temperature was 55 degrees at 5:30 a. m. The mean temperature was 68 degrees. The relative humidity at 6 a. m., was 72 per cent and at 6 p. m., 70 per cent. The average relative humidity for the day was 71 per cent. The highest velocity of the wind was 34 miles per hour from the southeast at 5 p. m. The precipitation for the 24 hours ending at 6 a. m. today was 0.31 of an inch. The lowest temperature during last night was 53 degrees and the temperature at 6 a. m. today was 56 degrees.

(Continued On Page Eight.)

State of Ohio, City of Toledo, Lucas County.—ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. RANGE REASON No. 2

Four-fifths of the service required of a range is the cooking done on the top. In view of this, think of the ADVANTAGE it would be TO YOU IF THE TOP OF YOUR RANGE HAD SOME REAL HONEST MERIT. The lids and cross pieces of

THE MONARCH MALLEABLE RANGES

Are made of the finest Malleable iron. They are polished as brightly as a well-worn steel rail. When first used these turn a deep blue color and thereafter they require no polishing, blacking or rubbing, as ordinary ranges do. These lids and plates will also withstand the effect of the intense heat without burning, cracking or warping, and, since the iron is very close grained in structure, it will heat through much quicker than cast iron. Therefore, a top that will heat more quickly, and conduct more heat rapidly, with less loss of heat WILL SAVE FUEL. It will do more, it will save your range and fire box and lengthen the life of the range.

THE STAY SATI-FACTORY RANGE

MALLEABLE TOP—Unbreakable; never warped.
DUPLEX DRAFT—Air admitted to entire fire box.
FULL ASBESTOS LINING—Heat all retained within range.
OVEN THERMOMETER—Amount of heat perfectly regulated.

TRIPLE WALLS PLANSIHED STEEL—Perfect, durable construction.

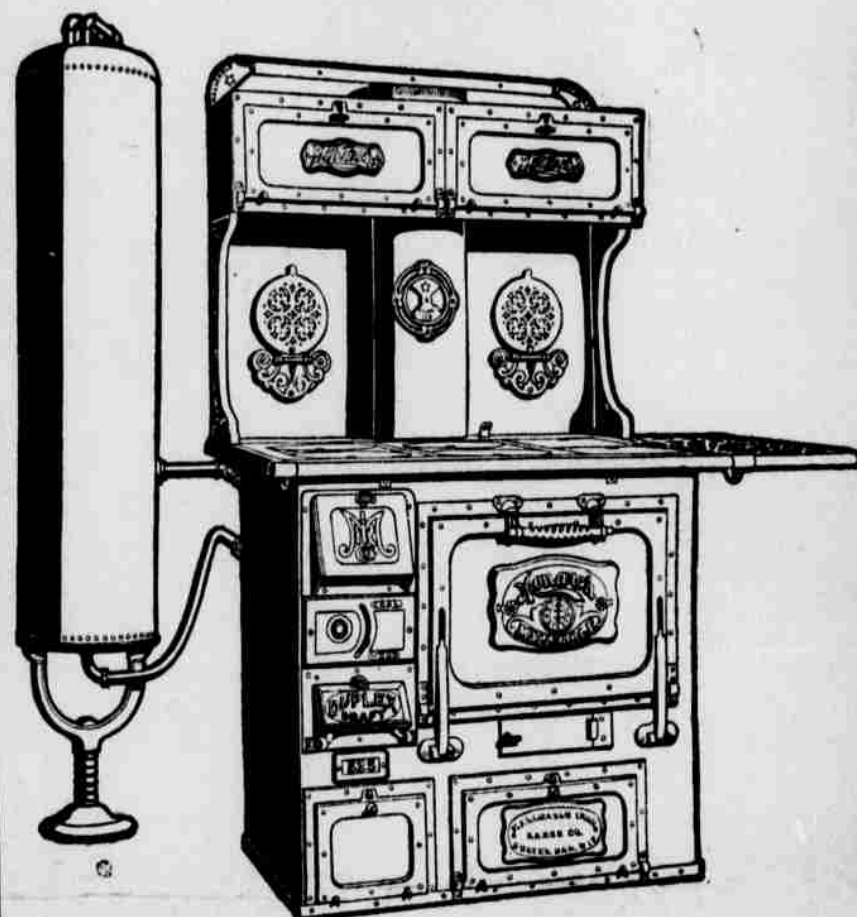

HEAVY VENTILATED FIRE BOX LINING—Quick fire, easily controlled.

PIN EXTENSION WATER FRONT—Rapid heating, fuel saving.

SMOOTH DURABLE NICKLE—A clean, highly finished surface.

We have the largest exhibit ever shown in the City.

Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack on the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and who have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by all druggists.

The New Mexican Printing company

has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak for it. For sale by all druggists.

FEAST OF SAN LORENZO

OBSERVED AT BERNALILLO (Special Correspondence of the New Mexican.)

Bernalillo, N. M., Aug. 11.—The fruit crop this year is abundant. Other crops are good. Bernalillo is one of the garden spots of the Rio Grande Valley.

The Sisters of Loretto and the Christian Brothers have fine orchards and are heavy shippers of fruit. The Brothers reminding one of Trappist Monks, donning at times the farmers' attire and working like Trojans.

Yesterday was the feast of St. Lorenzo. Vespers were sung at 5:30 Sunday afternoon with High Mass at 9:30 o'clock Monday morning. Peters Mass in D., was sung by a mixed choir in charge of the Sisters of Loretto in the convent here. C. M. Laughlin, formerly a choirist of Santa Fe, was a visitor and assisted in the choir. The officers of the mass were as follows: Father Hartmann, of Santa Fe, celebrant and Albert Franciscan, of Pena Blanca, subdeacon.

Brother Hermes, president of St. Michael's College, of Santa Fe, and Brother Bernard, of St. Mary's School, of Oakland, California, are sojourning here with the Brothers. They will soon start for the Jemez Hot Springs on a camping trip after a hard season's work in the various schools.

Baseball is lively here and games are played often.

A Boon to Elderly People.

Most elderly people have some kidney or bladder disorder that is both painful and dangerous. Foley's Kidney Remedy has proven a boon to many elderly people as it stimulates the urinary organs, corrects irregularities and tones up the whole system. Commence taking Foley's Kidney Remedy at once and be vigorous. Sold at the Ireland's Pharmacy.

COLFAX DEMOCRATS NAME THEIR TICKETS

Raton, N. M., Aug. 11.—The Democrats of Colfax county in convention here nominated the following county and legislative tickets:

For Probate Clerk—W. L. Kegel.
For Sheriff—A. Hixenbaugh, of Raton.

For Treasurer and Collector—J. W. Smith, of Dawson.

For Assessor—D. Baldwin, of Raton.

For Probate Judge G. W. Wilson, of Colmar.

For Superintendent of Schools—Mrs. Josie Lockard, of Raton.

For County Commissioners—Third district, Severino Martinez, of Black Lake; Second district, Wade Brackett, of Vermejo.

For Surveyor—Florencio Trujillo, of Springer.

The following ticket was then nominated:

B. H. Carter, of Raton, for representative from Colfax county; Emilio Valdez, of Springer, for representative from Colfax and Mora counties.

The councilmanic nomination for the district was left to a committee of three.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Foley's Orino Laxative cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Foley's Orino Laxative does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Sold at the Ireland's Pharmacy.

The seals and record books for notaries public for sale by the New Mexican Printing company at very reasonable rates. Seals for incorporation companies are also handled. Call at or address the New Mexican Printing company, Santa Fe, New Mexico.

DON'T EXPERIMENT.

You Will Make No Mistake if You Follow This Santa Fe Citizen's Advice.

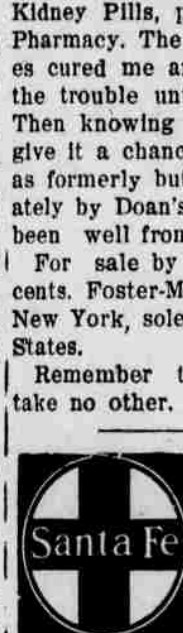

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Santa Fe. Follow the advice of a Santa Fe citizen and be cured yourself.

Locario Lopez, living on Alto street, Santa Fe, N. M., says: "I have never lost my confidence in Doan's Kidney Pills since the first day I used them. Trouble from my kidneys caused me a great deal of suffering for ten years. At times I could not walk, sleep or even lie down on account of the intense pain in my back. A weakness of the kidneys caused me to rise often at night and during the day I experienced difficulty in controlling the secretions. I tried various remedies but derived no benefit until I began to use Doan's Kidney Pills, procured at Ireland's Pharmacy. The contents of three boxes cured me and I had no return of the trouble until about a year ago. Then knowing what to do I did not give it a chance to get a hold on me as formerly but was relieved immediately by Doan's Kidney Pills. I have been well from that time to this."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Low Rates

For fall merchants meeting at Chicago, Kansas City, Omaha, St. Joe and St. Louis very low rates are given on certificate plan. Dates of sale, August 15 to 23, inclusive.

RATES TO ST. PAUL.

Ancient Arabic Order Nobles of Mystic Shrine Meet in

COME TO BELEN, N. M., Future Railroad Metropolis of New Mexico. Located on Belen Cut-off of Santa Fe R'y.

Belen is 31 miles south of Albuquerque, N. M., at the junction of the Main Line of the Santa Fe System—leading East and West from Chicago, Kansas City, Galveston and points East to San Francisco, Los Angeles, El Paso and Old Mexico.

1,000 business and residence lots, also 25x14½ feet laid out with broad 80 and 70-foot streets, with alleys 20 feet wide, with beautiful lake and public park and grand old shade trees; public school house, costing \$16,000; churches; large mercantile establishments; the Belen Patent Roller Mill, capacity 150 barrels daily; large winery; three hotels, Commercial Club; a population of 1,500 people; several restaurants, etc. Belen is the largest shipping point for wood, flour, wheat, wine, beans and hay in Central New Mexico. Its importance as a great commercial railroad city in the near future cannot be estimated.

The Belen Town and Improvement Company are owners of the BELEN TOWNSITE

JOHN BECKER, President.
WM. M. BERGER, Secretary.

ALL FAST LIMITED EXPRESS, MAIL AND FREIGHT TRAINS OF THE SANTA FE WILL GO OVER THE MAIN LINE THROUGH TO BELEN, EAST AND WEST, NORTH AND SOUTH.

The lots offered are in the center of the city, well graded (many of them improved by cultivation); no sand or gravel. We need a first-class bakery, tailor shop, shoe house, jeweler, plumbing shop, planing mill, coal and wood yard, drug store, harness shop, etc.; also a first-class modern hotel.

Our prices of lots are low and terms on easy payments; title perfect; warranty deeds. One-third purchase money, cash. Two-thirds may remain on note, with mortgage as security, for one year, with 8 per cent interest thereon.

Apply at once for map and prices if you wish to secure the choicest lots.

The Belen Town and Improvement Company

WEEKLY WEATHER BULLETIN

For the week ending Monday, August 10, 1908.
Santa Fe, New Mexico, Tuesday, August 11, 1908.

Partly cloudy weather with generally light showers and moderate temperature prevailed throughout the week. In the northwestern part of the Territory the rains were more frequent than anywhere else; they will prove of considerable benefit for, comparatively, the northwest had very little rain during July. Except in sections of Eddy county, where a fairly heavy rain fell during the first of the week, the remainder of the Territory had relatively light precipitation, but practically every locality had one or more showers.

The warmest weather was during the middle of the week, but no temperatures that were especially high were recorded. The nights were moderately cool and the minimum temperatures were very uniform. The mean temperature for the week was below normal in every section of the Territory.

Remarks of Correspondents.

Bernalillo Co.—Albuquerque, T. R. Overton: 0.31 inch of rain fell on the 3d; the maximum temperature was 94 degrees on the 6th and the minimum was 62 on the 4th and 8th.

Chaves Co.—Roswell, U. S. Weather Bureau: The maximum temperature was 90 degrees on the 5th; the minimum was 62 degrees on the 5th; the total rainfall was a trace, on the 3d.

Dona Ana Co.—Rincon, Chas. H. Raitt: Good rains fell on the 2d and 3d; the maximum temperature was 95 degrees on the 5th and 6th; the minimum was 61 degrees on the 3d.

Eddy Co.—Carlsbad, W. H. Frankland: On the night of the 2d this section was visited by a rain which (at this station) amounted to 1.30 inches; the country could not be in better condition; the maximum temperature was 90 degrees on the 5th and 6th; the minimum was 64 on the 3d.—Monument, James M. Cook: On the 3d there was 1.00 inch of rain; several light showers occurred during the latter part of the week; the maximum temperature was 85 degrees on the 5th; the minimum was 63 on the 6th.

Grant Co.—Fort Bayard, Medical Corps, U. S. Army: There were several light showers during the week; the temperature was moderate.

Guadalupe Co.—Santa Rosa, John L. Chapman: 1.02 inch of rain fell during the week; the maximum temperature was 94 degrees on the 4th; the minimum was 59 on the 5th.

Lincoln Co.—Fort Stanton, J. E. Bergman: The total rainfall was 0.09 inch; the maximum temperature was 81 degrees on the 5th; the minimum was 49 on the 6th.

Luna Co.—Deming, J. T. Clayton: Two days were partly cloudy; the remainder of the week was clear; the total rainfall was 0.06 inch; the maximum temperature was 96 degrees on the 6th; the minimum was 51 on the 4th.—Gage, T. H. Elpersen: 0.22 inch of rain fell on the 4th; the maximum

temperature was 95 degrees on the 6th; the minimum was 63 on the 4th.

McKinley Co.—Fort Wingate, Post Surgeon: The total rainfall was 0.46 inch; the maximum temperature was 86 degrees on the 5th; the minimum was 54 on the 4th.—Manuelito, W. A. L. Tarr: The week was cloudy and wet, with very little wind; the maximum temperature was 94 degrees on the 6th; the minimum was 52 on the 7th.

Mora Co.—Watrous, M. C. Needham: The fore part of the week was sultry; a heavy shower (amounting to 0.87 inch) occurred on the 6th; the maximum temperature was 80 degrees and the minimum was 48.

Quay Co.—Tucumcari, John F. Seaman: The total rainfall for the week was 0.03 inch; the maximum temperature was 94 degrees on the 4th; the minimum was 63 degrees on the 3d; the rains during July brought up the grass and some seeds that had been planted before the drought, making the country look very fresh and green.

Rio Arriba Co.—Chama, George Huth: Several showers occurred during the first part of the week; the maximum temperature was 86 degrees on the 6th; the minimum was 49 on the 3d.

Roosevelt Co.—Melrose, Dr. F. A. White: There was no rain after the 2d; the maximum temperature was 89 degrees on the 7th; the minimum was 58 on the 4th, 5th and 6th.

San Juan Co.—Bloomfield, Fred LeClerc: The drought has at last been broken; 1.07 inches of rain fell during the week and the weather continues cloudy and threatening; the rain on the 2d, amounting to 0.74 inch, was the best that we have had at this season of the year for several years; the river is high and very muddy; the maximum temperature was 96 degrees on the 4th; the minimum was 60 on the 3d.—Turley, A. C. Jacques: The week was warm, cloudy and rainy.

San Miguel Co.—Bell Ranch, C. M. O'Donel: Light rain fell during the first part of the week; the maximum temperature was 86 degrees on the 4th; the minimum was 59 on the 5th.

Santa Fe Co.—Santa Fe, U. S. Weather Bureau: The weather was partly cloudy; there were several showers, but the total precipitation for the week was below the normal; the daily mean temperature ranged from 2 degrees above to 2 degrees below the normal; the maximum temperature was 86 degrees on the 6th; the minimum was 53 on the 4th.

Socorro Co.—Rosedale, W. H. Martin: 0.69 inch of rain fell during the first part of the week; the maximum temperature was 82 degrees on the 4th and 6th; the minimum was 61 on the 3d.

Union Co.—Albert, A. Knell: The weather was moderately cool during the first half of the week; during the latter half it was hot, except on the last day, when it was cloudy and cool; strong south winds blew frequently; there was no rain; the maximum temperature was 94 degrees on the 4th and 6th; the minimum was 61 on the 3d.

MONTROSE W. HAYES,
Section Director.

POPULAR HOSTELRY CHANGES HANDS

Orient Hotel at Silver City Under New Management—Other News of Grant County Capital.

Silver City, N. M., Aug. 11.—The Orient hotel has been leased by J. L. Kinard and W. W. Broadhurst. The former manager, with his wife, will return to their old home at Atlantic City, New Jersey.

W. R. Chapman and wife have gone to Rhyolite, Nevada, where Mr. Chapman has extensive mining interests.

Judge W. H. Newcomb and wife are in California, where Mrs. Newcomb will spend the summer. The Judge expects to tour British Columbia and the Alaskan coast before returning. The report that the Newcombs were injured in a wreck on the Southern Pacific en route west, and which gained currency in the daily papers, was a mistake.

Major C. C. Bateman, chaplain of the Fort Bayard Military Sanitarium, will leave this week for Mountainair and Santa Fe, where the major will give several lectures.

Mr. and Mrs. John Thompson are home after a vacation spent at Atlantic City, New Jersey.

Rev. W. A. Nicholas, formerly pastor of the Baptist church of this city, but for the past six months fieldworker for the Children's Home Society, will remove his family this week to their new home at Albuquerque.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fall. Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is simply a make-shift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Sold by The Ireland Pharmacy.

What is Best for Indigestion?
Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price 25 cents. Samples free at all drug stores.

The New Mexican Printing company will do your job work with neatness and dispatch.

Cured Hay Fever and Summer Cold.
A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months, with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold at the Ireland's Pharmacy.

MARRIED WOMEN

Every woman covets a shapely figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided by the use of Mother's Friend before baby comes, as this liniment prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend makes the danger of child-birth less, and carries her safely through this critical period. Thousands gratefully tell of the benefit and relief derived from the use of this remedy. Sold by druggists at \$1.00 per bottle. Book mailed free to all expectant mothers. THE BRADFIELD REGULATOR CO., Atlanta, Ga.

the work for the love of it and the interest they have in it.

Professor Hewitt is well and favorably known to the people of New Mexico, not only by scientists but also because for several years he was president of the faculty of the Normal University at East Las Vegas, which position he filled with great ability and success.

Minor City Topics.

(Continued From Page Five.)

Train report: Santa Fe and Santa Fe Central trains on time; Denver and Rio Grande train 3 hours late.

According to the Journal of Commerce, New York, of July 2nd, the auto casualties are very numerous. In the state of Massachusetts alone the number of persons killed during the year ending June, was sixty-two, while that of those injured, was six hundred and forty.

FOUR FAST BALL GAMES SCHEDULED

Manager Edward Ehle of Salmon Grays Arranges for Some Excellent Sport.

Manager Edward Ehle of the Salmon Gray announced today that he had booked four baseball games to be played between the local club and outside teams during the next four Sundays. Of the four games all will be played on the local grounds except one.

On next Sunday the Santa Fe Central will run an excursion here from Willard, the occasion being a baseball game here on that date between the Estancia club and the Salmon Grays. The Estancia team has been materially strengthened and it is expected that the contest will be an interesting one. Several hundred visitors are expected to take advantage of the excursion and spend Sunday in the Capital City.

A week from Sunday the Barelas Grays of Albuquerque will play a game here.

On Sunday, August 23, an excursion will be run from this city to Willard and the local club will play the strong Willard team.

On Sunday, August 31, the Albuquerque Browns will come to Santa Fe for a game.

From the foregoing it can be seen that local fans are assured of plenty of amusement in the baseball line for the next month at any rate.

IMPROVEMENT IN BOSTON WOOL MARKET

Boston, Aug. 11.—Improvement is noted in the local wool market with increased demands, good sales and fresh contracts. Several large sales of Oregon wool have been made as well as Idaho fine staple, the latter at 22 to cost 60 scoured. Other lines are moderately dull.

NEVADA MINING TOWN WIPED OUT BY FIRE

Ely Nevada, Aug. 11.—Ripetown, a mining camp, nine miles from here, with a population of 300, was almost completely destroyed by fire last night in a blaze caused by the explosion of a lamp. Only two buildings escaped destruction.

New York, Aug. 11.—Prime mercantile paper 3 1-2@4.

New York, Aug. 11.—Money on call 1 to 1 1-2 per cent.

St. Louis, Aug. 11.—Spelter, quiet, 46 1-2@65.

Chicago, Aug. 11.—Wheat—79 1-4@3-8; Dec. 96 5-8.

Corn—Sept. 78 1-4; Dec. 65 3-4@7-8.

Oats—Sept. 48; Dec. 48 3-8.

WOOL MARKET.

St. Louis, Aug. 11.—Wool, market quiet, unchanged.

LIVESTOCK.

Kansas City, Aug. 11.—Cattle, 11,000.

Stockers and feeders, \$3@4.75; bulls, \$2.30@3.50; calves, \$3.50@5.50;

western steers, \$3.50@5.60; western cows, \$2.25@3.60.

Hogs—12,000. Market 5 to 10 cents higher. Bulk of sales, \$9.40@9.80;

heavy, \$6.75@6.90; packers and butchers, \$6.40@6.65; light, \$6.20@6.70; pigs, \$3.75@5.75.

Sheep—6,000. Market weak. Muttons, \$2.40@4.25; lambs, \$4.50@6;

range wethers, \$3.50@4.25; fed ewes \$3.25@4.

Chicago, Aug. 11.—Cattle, 4,000. Market steady. Texans, \$3.50@5.20;

westerns, \$3.60@6; stockers and feeders, \$2.40@4.50; cows and heifers, \$1.50@5.60; calves, \$5.50@7.25.

Sheep—12,000. Market weak. Westerns, \$3.40@4.10; yearlings, \$4@4.85;

western lambs, \$3.75@6.

The New Mexican Printing company has on hand a large supply of pads and tablets suitable for school work, the desk and also for lawyers. We will sell them at 5 cents in book form.

NIGHT IRRIGATION MORE SUCCESSFUL

F. G. Tracy of Carlsbad Gives Views on Subject

AN EXCELLENT TREATISE

His Opinions are Founded on Practical Experience.

In competition for the handsome trophy offered by Territorial Engineer Vernon L. Sullivan for the best article on the subject of "Irrigation in New Mexico," F. G. Tracy, of Carlsbad, has submitted a most excellent treatise. As it is of interest to the irrigationist in particular and those interested in fruit raising and agriculture, it is republished herewith. Mr. Tracy says:

"I had intended to publish these few remarks as part of a paper which I have promised to write for submission to the delegates to the forthcoming National Irrigation Congress to be held in Albuquerque in September, but I conclude it will do no harm to submit them to you in competition for the cup offered by you in the El Paso Herald of May 14th.

"It is true that the people of the western states are daily gaining experience on irrigation matters, but there is still much to be learned especially under the following headings:

"1. Obtaining additional water.
"2. Proper use of water and additional cultivation.
"3. Distribution of water without waste.

Under these three headings respectively will the following brief remarks be found to apply:

"No country in the world presents such opportunities for the construction of masonry dams, and the storage of large quantities of water, (rain or snow) as the mountain ranges of the Western States of America.

"Any engineer with an eye to business who has ever ascended the Rockies in pursuit of bear or other big game, must have noticed with a sigh many grand sites for rich reservoirs, but has regretted the distance that the water would have to be conducted before becoming available for irrigation purposes. I have experienced this in days gone by in the Himalayas and other mountain ranges of Hindoostan, as well as the Western States of this country and in Mexico, but today it has become a different matter for the following reason.

"Cheap power and labor saving machinery is being looked for all over the country, and this is to be obtained by first using the water from reservoirs for the purpose of driving turbines and Pelton wheels, by which electricity can be generated and transmitted to the lower altitudes for use in factories and mills in the immediate vicinity of our already agricultural centers and towns. In some cases this water can be used over and over again according to the difference of altitude and distance between the reservoir site and the mesas, or plains, upon which it is proposed to deliver the water for irrigating purposes. In most instances the power thus generated will sell readily and pay a good dividend on the outlay, and the water for irrigation should be looked upon as clean profit.

"Should the power company and irrigation company be one and the same, they will be killing two birds with one stone, and the combination should become most remunerative with the result that more irrigated land and more farmers would come into existence. In addition to this a good class of mechanical laborers, that receive good wages all the year round would be brought in from the East. Factories, mills and manufacturing towns would spring up, creating a market for the consumption of home products, and homes for many thousands of people of all classes, who at the present time are so densely packed together in eastern manufacturing cities. There are innumerable opportunities for combining water power and irrigation, and people should look into this matter without delay, and not wait till all the waters obtainable from the rivers is deeded away.

Proper Use of Water.

"As regards the quantity of water necessary per acre to produce a full crop, this can only be learned by practice and varies with the latitude and longitude, altitude and soil. Practice alone will tell you the right time and the amount of water necessary. After repeated experiments in various parts of the world, including the last six years in Northern Mexico, I have come to the conclusion that if the garden, grain or fruit trees be watered at night, sundown to sunrise, instead of in the day time, that two-thirds of the water now being used will produce a full crop. In the day time the amount of water lost by evaporation is enormous, while as soon as the water disappears below the surface, the soil becomes baked, and sets hard around the butts of trees and the stalks of grain crops at the surface of the ground. Upon minute examination it will be found that the bark or outer skin has been completely eaten through and permanently injured. Of course night irrigation cannot be indulged in by every one, nevertheless I have clearly proved to my own satisfaction that at least 35 per cent of water can be saved where it is practicable.

face of the ground. Upon minute examination it will be found that the bark or outer skin has been completely eaten through and permanently injured. Of course night irrigation cannot be indulged in by every one, nevertheless I have clearly proved to my own satisfaction that at least 35 per cent of water can be saved where it is practicable.

"Again it will be found that very great benefits will be derived from a little more cultivation with the hoe in the garden and cultivator or plough in the fields, by which the soil will be loosened up and more air admitted into the ground during the growth of any crop, necessitating less water.

Proper Distribution of Water Without Loss.

After having measured many of the principal canals of the west I find nearly all (in earthwork) are losing more water by seepage than was originally intended or calculated for, by their designer, and consequently are not delivering to each separate acre of ground the amount they are taking in at the headgate.

"It is not supposed that canals of any length will flow through the same class of soil for the whole or their length, consequently upon examination there will be found many long and short lengths along the line where the water is percolating, or seeping away to a much greater extent than in other parts. I find that as a rule in the older canals, the designer has struck an average as the allowance for seepage. This will not do for reasons space will not permit me to go into here. To rectify the great loss going on everywhere by excessive seepage, I would advocate largely the lining of all canals with cement, concrete or asphalt if not through their entire length, along such lengths as an excess of seepage occurs.

"The 'Gage Canal' is a good example of the money to be made by such outlay. On completion of the concrete lining throughout this canal, it was found that, under the old ordinary earthwork wet perimeter, they had been losing as much as 50 per cent of their water. Many canals are taking the matter up, and I hope to see it adopted everywhere the soil is porous above the average. With cement concrete lined canals, there can be no seepage whatever, consequently, no soddening of the land below the canal.
