SANTA FE NEW MEXICAN

VOL. 45.

SANTA FE, NEW MEXICO, FRIDAY SEPTEMBER 25, 1908.

NO. 192

FAVORS IMMEDIATE ADMISSION OF NEW MEXICO AS A STATE

President Roosevelt Will Use Every Effort and Legitimate Means to Pass Statehood Bill at Short Session of Congress.

Washington, D. C., Sept. 23.—I favor the immediate admission of New Mexico and Arizona to separate statehood. I shall recommend it in my message to Congress and use all honorable means to secure favorable action at once, and I hope to sign the bill before March 4th, 1909.

"THEODORE ROOSEVELT."

The above positive and unqualified statement was made by the President to Governor George Curry when the latter called at the National Capital and presented to the president the invitation to attend the Sixteenth National Irrigation Congress and International Exposition at Albuquerque, commencing on September 29, which was engraved on a golden leaf.

The President is so busy that he cannot attend but the people of New Mexico certainly have his best wishes, help and effective aid in their ambition to secure statehood during the coming short session of Congress.

The above statement was made in the presence of Hon. Henry P. Bardshar, Internal Revenue Collector for the district of New Mexico and Arizona, who called in company with Governor Curry at the White House.

Will the citizens of New Mexico show their appreciation of the positive declaration made by the President, who has proven himself, at every opportunity, the staunch friend of the great West and the champion promoter of its wonderful resources—one of the strongest testimonials in this regard being the passage of the Reclamation Act—by supporting a candidate

for Congress who is in absolute harmony with and has the cordial support of the administration of President Roosevelt, or will they support Mr. Larrazolo, who admits that he has no chance of obtaining any benefits for the territory except through a landslide for Bryan, in which event he would have to wait eight years in order to elect a senate in harmony with Bryan, a result which would be impossible, except upon the theory that the Democracy could carry the country for eight consecutive years.

The opportunity is now at hand! Will you grasp it? President Roosevelt is in the saddle; he has a Congress in harmony with his administration, that can and will deliver the goods; it is up to you, Mr. Voter, to choose between a man who can and will bring results, or Mr. Larrazolo, whose principal stock in trade is sour grapes over his defeat at the polls at the last election.

A VOTE FOR ANDREWS IS A VOTE FOR IMMEDIATE STATEHOOD. A VOTE FOR ANDREWS IS A VOTE OF APPRECIATION OF THE MAGNANIMOUS AND POWERFUL ASSISTANCE THAT PRESIDENT ROOSEVELT WILL RENDER FOR THE CAUSE OF STATEHOOD.

DISTRIBUTES COPIES OF POSTAL LAWS

Postmaster Paul A. F. Walter Compiles With Recent Order of Postoffice Department.

Postmaster Paul A. F. Walter today distributed a hundred copies of the Postal Laws and Regulations among the teachers and instructors of Santa Fe's colleges, private and public schools and institutions of learning, addressing a letter to the superintendent of each as follows:

"The postoffice department would appreciate very much if the teachers of your schools would impress upon the pupils in their charge, the importance of properly addressing mail, prepaying the correct rate of postage, placing a return card on every piece mailed, learning how to register mail, how to make out applications for domestic and foreign money orders, and acquainting themselves with the Postal Laws and Regulations in so far as they affect the public. I enclose a dozen booklets issued by the postoffice department, for your teachers, giving a synopsis of the Postal Laws and Regulations and will be pleased at any time to give such additional information or assistance, as will attain the object desired by the department, that is, that every piece of mail reach the addressee in the quickest time possible."

Professor J. A. Wood, superintendent of the public schools, has assured Postmaster Walter, that he would have the teachers and pupils take up this important work and those in charge of the colleges, academies, Indian, territorial, mission and parochial schools of this city, will undoubtedly follow his example.

WRIGHT MAY FLY ACROSS THE ENGLISH CHANNEL

Lemans, France, Sept. 25.—Wilbur Wright made a flight this morning that lasted thirty-six minutes and 14 seconds, covering 22 miles at an average height of 45 feet. The friends of Wright are trying to persuade him to fly over the English channel as this feat would furnish the best evidence of his absolute confidence in his machine.

SHERMAN AND BEVERIDGE OPEN CAMPAIGN IN NEW YORK

New York, Sept. 25.—Today marks the real opening of the Republican presidential campaign in New York City. After a brief campaigning tour in New Jersey, Vice-Presidential Candidate Sherman came here last evening and today will make a noon-day address. Following this Mr. Sherman will talk over campaign plans with National

NAME REPUBLICAN TICKET IN RIO ARRIBA

First Class Legislative and County Nominations Made By Convention Held at Tierra Amarilla.

Chama, N. M., Sept. 25.—The following is the Republican ticket nominated at the county convention at Tierra Amarilla yesterday:

For the Council—Hon. L. Bradford Prince, of Espanola.
For the House—Emerjildo Martinez, of Velarde.
For Sheriff—Silviano Roybal, of Chama.
For County Commissioner, Second District—Martin Lopez, of El Rito.
For County Commissioner, Third District—Antonio Valdez, of Tierra Amarilla.
For Assessor—David Maestas, of Park View.
For Treasurer and Collector—B. C. Hernandez, of Tierra Amarilla.
For County Superintendent—J. M. C. Chaves, of Abiquiu.
For Probate Judge—Pedro Maes, of Alcalde.
For Probate Clerk—Elsino Lucero, of Ojo Caliente.
For Surveyor—J. R. Young, of Chama.

The convention was harmonious and every precinct was represented. The nominees are sure of election as Rio Arriba county is expected to give at least 1,000 majority for the Republican ticket. The nominees are all well known citizens and the selection of Hon. L. Bradford Prince for member of the council, is a most happy one. There is no citizen of the territory who is better fitted by public service by attainments, by knowledge of New Mexico public affairs, by intelligence, by education and by ability as a speaker to represent the people of the district in the legislative council than is ex-Governor Prince.

Price Walters, of Aztec, who was nominated by the Republicans of San Juan county for member of the House of Representatives for the district composed of Rio Arriba and San Juan counties, was endorsed by the convention for the position.

SOCORRO FAIR GRAND SUCCESS

Biggest Gathering in History of Gem City

VISITORS TREATED ROYALLY

Judge A. L. Morrison, Who Attended, Gives Interesting Account.

Judge A. L. Morrison, who attended the Socorro county fair in the Gem City this week, where he was one of the principal speakers of the occasion, has returned home. He says the fair was a big success and that Socorro was crowded with visitors from all parts of southern New Mexico. In the following communication addressed to the New Mexican, Judge Morrison describes the festivities in detail:

"Santa Fe, N. M., Sept. 24, 1908.

"Editor New Mexican:
"The New Mexican, being the recognized leader in all matters affecting the welfare of the territory, I ask your permission to give me space enough to report my recent visit to Socorro. Through the kindness of our mutual friend, Hon. W. E. Martin, I was invited to participate in the opening of the fair in that prosperous county. Preliminary thereto permit me to say that I have been present at scores of festive meetings in many parts of the Union but for patriotism, hospitality, industry and intelligence, I am compelled to place the splendid people of Socorro county at the head of them all. There is no exaggeration in this statement; it is the plain unvarnished truth.

4,000 Enjoyed Festivities.

"On arriving at the city of Socorro under the able conduct of County Clerk Sweet, who had come to our city and secured the services of the Santa Fe band for the entire week, we were driven to the city park, which was crowded with an assemblage of the nicest dressed women, the jolliest children and the happiest men I have seen in many a day; it was a perfect joy to look at them. I was told that those present, numbered in the neighborhood of four thousand people. They had assembled from all parts of the county to have a good time and they certainly had it. The proceedings were opened by 'Billy' Martin, who was the leading spirit of the occasion, in an eloquent address which was received with loud and repeated cheers; then your correspondent was introduced and spoke about half an hour.

A Grand Procession.

Then the procession of the day was formed and it would have done credit to any town in America. Among the prominent features of the procession were about 200 cowboys, splendidly mounted and riding as they only know how to ride; the leading business houses of the city had large floats exhibiting their wares, which attracted great attention. Of course the 'fire ladies' also were in evidence, but by far the daintiest and most artistic feature of them all was the carriage in which sat 'the Queen of the Fair,' who received the homage of her 'subjects' with dignity and decorum. Here and there in the procession were beautiful carriages decorated with flowers and the national colors and containing ladies and gentlemen of the city and neighborhood. Taken all together, the procession must have extended over a mile and it was so ably directed that not the slightest hitch marred the good order of the ceremony.

Fine Exhibits of Products.

"The horticultural, agricultural and artistic exhibits were creditable in the highest degree to all concerned. I do not think I ever saw a more beautiful pear and apple display anywhere else in the country and as for corn, you know I am a citizen of Illinois, which claims to be the corn state of the union, but Socorro county can challenge the richest fields of the Sucker state to produce such corn as is now on exhibition down there. Some of the stalks must have measured at least ten feet in height and the ears were worthy to grow on such splendid stalks. There were also fine specimens of sorghum, tomatoes, pumpkins and other vegetable productions and I am glad to say that some of them were grown by the new system of 'dry farming,' which with irrigation, will solve the problem of the arid parts of the country and will make the desert bloom like the Rose of Sharon.

Everyone Is a Booster.

"I might try to describe the ladies' needle work but I know I would only make a muddle of it. This could be done only by some of the ladies themselves, so you must take the will for the deed, and let me out of it. One of the best signs of the times I heard was

HASKELL ON HIS WAY TO CHICAGO

Denies He is to Resign as Treasurer

TAKES SHOT AT ROOSEVELT

Declares President is Biggest Fore-Flusher in National Politics.

Kansas City, Sept. 25.—Governor Charles N. Haskell, of Oklahoma, treasurer of the Democratic national committee, passed through Kansas City this morning en route to Chicago, where he goes to confer with W. J. Bryan and leaders of the Democratic national organization regarding the charges recently made against him by President Roosevelt and W. R. Hearst. Governor Haskell declined to reply at this time to the charge made by Hearst last night that "Haskell is not only a Standard Oil tool and crooked railroad promoter, but also a steel trust organizer."

Denies He is to Resign.

Haskell denied that he intended to resign his position as treasurer of the Democratic national committee. Regarding Hearst's charges coupling him with the steel trust, Haskell said he felt highly honored at being coupled with Schawb, Carnegie and J. P. Morgan. He denied that he was in New York City in 1896 at the Gold Democratic meeting in Madison Square Garden, applauding the attack made at that time upon Bryan.

Calls Roosevelt a Fore-Flusher.

He declared President Roosevelt is the "biggest fore-flusher in national political circles today," and added, "you ought to hear what they think of the rascal down in Oklahoma."

Haskell was handed a copy of a morning paper and hurriedly glanced through its pages. He read only the headlines and was asked to make more definite some of the accusations against him the paper contained, but he refused to do so until he had read them all over carefully.

Will Meet in Chicago.

Chicago, Sept. 25.—While Candidate Bryan is working his way through Indiana towards Chicago today, Governor C. N. Haskell was a passenger on a Santa Fe train, bound for the same city. Little is said at Democratic national headquarters concerning the charges made against the national treasurer. Joseph Daniels, chairman of the Democratic press committee, said he had heard nothing of the resignation of Mr. Haskell. A report which cannot be confirmed says Haskell will meet the Bryan special on its way from Terre Haute, Indiana, to Chicago tonight, but the general belief is that a conference between the two leaders will not occur until Bryan arrives in this city tomorrow morning.

JAMES J. HILL RIDICULES BANK GUARANTY LAW

Lincoln, Neb., Sept. 25.—A communication from James J. Hill and an address by Professor James L. Laughlin, of Chicago University were the features of the Nebraska bankers' convention today. In his letter Hill declares that the bank guaranty scheme was the latest financial fad. He asserted that for several years railroad business had been the object of incessant attack and said the effect had been bad for business.

FIRE CAUSES \$125,000 LOSS AT CAIRO, ILLINOIS

Cairo, Ill., Sept. 25.—Fire today destroyed manufacturing property here valued at \$125,000. The flames consumed the lumber yard of Kelly Brothers, the plant of the Three States Implement company and several houses.

CINCINNATI 7; NEW YORK 1; BOSTON 2; PITTSBURG 1.

New York, Sept. 25.—In the first game of a double-header here this afternoon at the Polo grounds, Cincinnati won from the home team by the decisive score of 7 to 1. The score by innings:
Cincinnati 7 10 1
New York 1 6 2
Boston 2 5 4
Pittsburg 1 4 1

TWENTY-FIVE REPORTED KILLED IN WRECK ON NORTHERN PACIFIC

Passenger Train Collides Head-On With Through Freight Near Youngs Point, Montana, With Frightful Results

Helena, Mont., Sept. 25.—A special dispatch from Livingston, Montana, says that Northern Pacific passenger train No. 16, east-bound, collided head-on at midnight with a through westbound freight near Youngs Point. The casualties are given from forty to fifty with about twenty-five dead. A blinding snow storm which prevailed at the time prevented the flagman of the freight train making his presence known to the engineer of the passenger train. The freight had become stalled on a steep grade.

Details of Disaster Lacking.

St. Paul, Minn., Sept. 25.—No further details regarding the wreck at Youngs Point, Montana, has been received at the Northern Pacific headquarters here than that contained in the Helena dispatch. President Elliott said at noon today that he would give out a statement as soon as he received a report on the disaster.

REPUBLICAN TICKET OF UNION COUNTY

Enthusiastic Convention Held on Monday at Clayton—Delegates, Andrews Strongly Endorsed.

Clayton, N. M., Sept. 24.—The Republicans of Union county met here on Monday last in county convention at the court house for the nomination of a Republican ticket for the coming campaign. The convention was well attended and every precinct was represented. The following ticket was nominated:

Councilman for the district comprising Colfax and Union counties, Eutacio F. Gallegos.

Representative—Benjamin F. Brown.

Sheriff—D. W. Snyder.

Treasurer—R. Q. Palmer.

Assessor—Isidro Montoya.

Probate Clerk—J. Andreas Pacheco.

County School Superintendent—Joseph Gill.

County Commissioners—Juan Vigil and Encarnacion Sandoval.

Surveyor—James A. Robb.

Probate Judge—E. Lucero.

This is a very good ticket and the organization feels sure of electing every one on the ticket. The Republicans will carry this county for Andrews by at least 300 majority.

E. F. Gallegos was the chairman of the convention and N. F. Gallegos and Charles A. Law, secretaries. D. W. Snyder was re-elected chairman of the county central committee for the ensuing two years.

Resolutions were adopted, praising Governor George Curry, Delegate W. H. Andrews, Judge W. J. Mills, District Attorney Jerry Leahy and the county officials.

GENERAL BELL EN ROUTE TO ALBUQUERQUE

Butte, Mont., Sept. 25.—General Franklin J. Bell, chief of the staff of the U. S. Army, arrived here today on his way to Albuquerque, New Mexico, where he will meet Secretary of War Luke E. Wright. General Bell has just come from Yellowstone Park which he entered Monday from the Wyoming side, making a dashing trip of three hundred miles on horseback. He averaged more than a hundred miles a day and traversed some of the wildest and most inaccessible regions of the park.

JURY DISAGREES IN ATCHISON MURDER CASE

One of Jurors Goes Temporarily Insane During All-Night Debate in Attempt to Arrive at Verdict.

In the territorial district court, Judge John R. McFie presiding, in the murder case of the Territory vs. W. W. Atchison, the attorneys' arguments were closed at six o'clock last night after which Judge McFie gave his instructions to the jurors.

The jury retired about 8 o'clock and remained in the jury room until noon today when it reported a disagreement. The jury was immediately discharged by Judge McFie. It is not known how the jury stood.

One of the jurors Prudencio Sandoval, during the night in the jury room, became temporarily insane and the bailiff and his fellow jurors had a hard time to keep him in the jury room. Sandoval recovered his senses this forenoon.

Atchison was charged with the murder of Willie Thayer and John O'Mara in 1902 at the San Pedro mining camp in south Santa Fe county. He claims self-defense and many of the witnesses testified to that effect. The case has been on trial since Tuesday morning and about fifteen witnesses were heard.

E. C. Abbott was special prosecuting attorney, while Catron and Gortner were the attorneys for the defendant.

The jurors who heard the case and agreed to disagree were: Rosillo Mora, Pedro Jimenez, Tibucio Lopez, Abran Garcia, Juan Sanchez, Nestor Garcia, Bartolo Barela, Prudencio Sandoval, Lorenzo Ortega, Benito Martinez, Manuel Vigil and Jesus Griego.

The next case to be tried is the Territory vs. Allen West, on the charge of the murder of Jim Owens at Madrid last Saturday night. The jurors are being examined for this case this afternoon and the testimony of the witnesses will be heard tomorrow afternoon.

BREWERY DESTROYED BY AN INCENDIARY FIRE

Hudson, N. Y., Sept. 25.—Fire today almost totally destroyed the plant of the Shell's Brewing company here. The loss is \$150,000. The fire is believed to have been an incendiary one.

CLAIMS BRYAN KNEW OF CHARGES AGAINST HASKELL

Kansas City, Mo., Sept. 25.—L. T. Russell, editor of the Ardmore, Oklahoma, Morning Democrat, who is in this city, gave the Associated Press last night an open letter to William J. Bryan, in which he calls attention to the fact that the charges made by William Randolph Hearst against Governor C. N. Haskell relative to the governor's connection with the Standard Oil company had previously been given to Mr. Bryan who refused to read them. Mr. Russell also gives what he alleges to be proof of Governor Haskell's intimate relations with the Prairie Oil and Gas company. The letter in part follows:

"Kansas City, Sept. 24, 1908.
"William J. Bryan, Lincoln, Neb.
"Dear Sir:—I notice that in your reply to President Roosevelt's attack on Governor Haskell you say you were entirely ignorant of there ever having been any charges made against Mr. Haskell. If you were ignorant of such charges it is because you refused to read them when they were presented to you when you visited Oklahoma

last fall in the interest of Candidate Haskell. At the time I personally presented to you ten typewritten pages of charges against Mr. Haskell, covering his operations in Ohio, New York, Arkansas, Texas and Oklahoma. You did me the courtesy of tearing them up and throwing them out of the train window without reading them. The charges recently made by Mr. Hearst were all made by me at that time.
"In the past Mr. Haskell's answer to all charges has been: 'You are a liar.' I wish to say that the statements made above can not be answered in that way for I will, on an hour's notice, go to Guthrie and appear before a board of inquiry and there testify under oath with Mr. Ledbetter, making the telegraph records a part of the hearing, the same to speak for itself, the conditions to be that the telegraph records be made public and Mr. Ledbetter agree to testify under oath and answer all questions tending to prove or disprove my charges.

"L. T. RUSSELL.

"Ardmore Morning Democrat."

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and as a large and growing circulation among the intelligent and progressive people of the Southwest.

REPUBLICAN TICKET.

For President—William Howard Taft, of Ohio
For Vice-President—James Schoolcraft Sherman, of New York
For Delegate to Sixty-first Congress—W. H. Andrews.
For Member of Council From Santa Fe and Sandoval Counties—T. B. Catron
For Member of the House From Santa Fe and Sandoval Counties—E. A. Miera

TAFT'S GRAND CHARACTER.

If President Roosevelt possesses one characteristic that is strong and paramount it is that he stands by his friends through thick and thin. If there is a strong characteristic in Judge Taft's make-up it is that he is absolutely honest and fearless and will not bend his knees for public preferment or for money be it for the presidency or for sums up in the millions. He values his self respect too highly and is a man too clean and conscientious to stoop even an inch from the high grade of public duty and official morality.

A very pointed incident is the one just brought out by President Roosevelt in publishing a letter which Judge Taft wrote the President when it was broached a year ago that Judge Taft make up with Senator J. B. Foraker and thus make it easier for him to obtain the nomination on the Republican ticket for president.

The letter of Judge Taft, has just been published and was given out by President Roosevelt. The Denver Republican, a strong but also a fair Republican newspaper, makes the following very timely and correct comment on this important disclosure and its views in the matter are approved by all patriotic and public spirited newspapers. Says the Republican:

"It was characteristic of President Roosevelt to give expression to his admiration for Judge Taft in the letter through which he made public a letter written by Judge Taft over a year ago refusing to give countenance to a suggested compromise with Senator Foraker.

"The President is enthusiastic in his love for Judge Taft, who inspires that feeling in all his intimates. During the years of their close association the President has had many opportunities to form a correct estimate of Judge Taft's character, and the more he saw of him, his judicial poise and his unflinching courage, the more devoted and unselfish became his friendship.

"Out of this study of the man in his private and public relations grew the President's conviction that no one else in the United States was so well fitted to champion the rights of the people. Convinced of this he never hesitates to express his high opinion of Judge Taft in his personal character and his qualifications for the office for which he has been nominated.

"A friendship of this kind never fails to excite admiration and the one between Roosevelt and Taft is all the more to be considered at the present time because it throws a strong, clear light upon the issues of the campaign. No intelligent American can fail to be impressed by the confidence which the President has in his friend.

"It is a confidence which has long been felt by all who have known Judge Taft in the intimacy of personal association, but, although the incumbent for a long time of high office, Judge Taft was known to the public rather in an official than in a personal way. His public acts rather than his personal character were under observation, but now he is under closer study and it is a matter of great public interest that so able and patriotic a man as President Roosevelt finds in him one in whose fitness for the presidency he has the most perfect confidence.

"In this high estimate of Judge Taft's character all who have any knowledge of him share, and nothing which has been said by his most bitter foes has shaken in the slightest degree the growing respect and esteem of the people. They were willing at the outset to accept President Roosevelt's estimate, and now they are endorsing from personal observation the high opinion to which the President has given expression."

THE PRESIDENT'S ESTIMATE OF JUDGE TAFT.

A remarkable interview with President Roosevelt appears in the Success Magazine for November, from which the New Mexican is pleased to quote the following, because it is an answer to some of the campaign slanders that the Democrats are spreading assiduously, even in the territories:

"Why, Mr. Roosevelt, in your judgment, is Mr. Taft so well equipped for the Presidency?"

"The bigness of the job demands a man of Taft's type," was the reply. "He is thoroughly prepared for the task which will confront him. Never has there been a candidate for the Presidency so admirably trained in varied administrative service. Then,

Taft is a thoroughly national man. There is no stronger appeal to him from the North than from the South, from the West than from the East. Creed and color make no difference to him. He seeks to do substantial justice to all. There isn't a mean streak in the man's make-up."

"He is not of the fighting type, though."

"Yes, he is," insisted the President; "no man fights harder when he thinks it necessary; but he hates to fight unless it is necessary."

"It is said that he would carry out your policies quietly,—too quietly, perhaps, to obtain real results."

"Taft has his way of doing things and I have my way. I gave out my recent statement regarding the Standard Oil decision without consulting him. He wouldn't have made that public statement, and yet he was greatly disappointed at the decision. Perhaps Taft's way of accomplishing results is better than mine. But I have to do things in my own way."

"You blazed the way, Mr. President. If elected, Mr. Taft will find the people alive as never before to public questions. It will be much easier for him to obtain popular support for what are now the Republican policies, than it was for you, at the outset, to get backing for those same policies."

"That may be true," agreed the President. "But I think Mr. Taft will succeed better with Congress than I have done."

FIRSTCLASS ADVERTISING BY THE NEW MEXICAN.

The more the distribution of the nicely illustrated and well printed edition of the pamphlet, "The Sights of Santa Fe" by the New Mexican Printing company the more compliments are being paid to the little booklet, the information it contains and the New Mexican Printing company, its publisher. The Silver City Enterprise, a widely read and influential newspaper in southwestern New Mexico, pays the little brochure the following compliment:

"The Enterprise acknowledges receipt of a neat little booklet, entitled, 'The Sights of Santa Fe,' with the compliments of the New Mexican Publishing company, which published same. The booklet sets forth in an attractive manner the many interesting sights to be found around what is probably the most interesting city from a historical point of view in America, today, viz.: Santa Fe, the capital of New Mexico. Nowhere on the American continent is to be found such a collection of archaeological treasures in their natural habit as in the ancient capital. The history of these treasures, including the ancient church, governor's palace, etc., are treated at great length and make interesting reading. But the booklet is not confined to the relics of the dusty past; it also treats of the modern Santa Fe and gives views of the magnificent new capitol building, the cathedral, imposing business blocks and handsome residences—all of the newer and more modern Santa Fe. The booklet, if placed in the hands of a tourist, is bound to give him such an itching desire to see the oldest city in America that all the inconveniences of the side-trip from Lamy junction will be forgotten in the maze of interesting things to be seen at the end of the trip. Colonel Frost, the veteran editor of the New Mexican, is to be congratulated in this his latest contribution to the advertising literature of New Mexico. The edition is five thousand copies and is published by the New Mexican at its own expense."

The Las Vegas Optic is of the opinion and that correctly that fools do not emigrate. Hence the paper believes that many of the new immigrants into the Sunshine Territory are Republican in politics. Commenting upon this view it says:

"It is an old saying that 'fools do not emigrate.'"

"Our Democratic friends lay the flattering unction to their souls that the large immigration into eastern New Mexico from Oklahoma, Texas and other southern states will largely increase the Democratic vote of the southeastern part of the territory."

"The vote for delegate this fall will prove the truth of the above quotation."

"The Democrats who have come into New Mexico are wise men, and know the importance of sending W. H. Andrews to Washington."

TOO MUCH "AMERICAN MUD."

"American Mud," is the peculiar title of a two-page article in the most largely circulated magazine in the United States. It is from the pen of F. Hopkinson and is a severe, yet just arraignment of the tendency of American publicists to vilify those in charge of the government and the readiness of the American public to believe the meanest lie about the highest official that some irresponsible writer may spread. George Washington, Abraham Lincoln, William McKinley, were sufferers from calumnies that were as cowardly as they were untrue and one need not go outside of this Territory to find a whole pack of professional character assassins. The New Mexican would like to assert that their calumnies fall upon deaf ears, but it cannot do so truthfully, for human nature is everywhere the same and every community, has its small mean spirits that are greedily reading, and spreading the falsehoods manufactured with malice aforethought to injure men in high public places. It is the spirit of envy, of malevolence, that centuries of civilization have not yet eradicated, that are at the bottom of the eagerness to utter, believe and repeat slander, and the uglier it is and the higher and nobler the person whom it besmirches, the more applause it will find among people, whom one would imagine far above such pettiness. Even pulpits right here in Santa Fe have lent themselves to this ugly national trait and have given the endorsement of religion to slanders circulated for political and selfish purposes. It is a habit hard to reach, more difficult to prevent and almost impossible to punish adequately. Nevertheless, it is a trait of which every American who believes in the square deal, is thoroughly ashamed.

ROOMS FOR HISTORICAL SOCIETY IN CAPITOL BUILDING.

It was the legislative intent that the addition to the Capitol now under construction should be large enough not only to provide the additional office rooms so urgently needed, but also the invaluable collections of the New Mexico Historical Society. These collections are on exhibit in the Old Palace in rooms that are comparatively dark, very difficult to ventilate, keep clean and poorly adapted to the purpose. In winter it is hard to heat them and they are far from fire-proof.

The legislature, in a resolution, offering to recede the Old Palace to the Federal Government as a National Monument, states plainly and unequivocally, that the Historical Society Museum is to be placed in the Capitol, and the initial appropriation of \$50,000 was obtained in part with this purpose in view. Of course, the legislators knew that \$50,000 would not build and complete an executive mansion and the desired extension of the Capitol, but that it would merely meet the expenses of the initial work, following a precedent set by former assemblies that made successive appropriations to pay for the building of the Capitol and territorial institutions.

The New Mexican therefore hopes, that knowing the intent of the legislature, which ought to govern, and the precedents set that the board in charge of the Capitol extension construction, has adopted plans worthy of the commonwealth and of the character of the main building, that will give plenty of floor space to the historical museum, allow for the office room of a rapidly growing commonwealth for some years to come and embody modern ideas of architecture and convenience. No picaresque consideration should rule the commission in its work!

THE RIDDANCE OF INSECT PESTS.

Next to late frosts, insects are beginning to be the greatest enemies of New Mexico fruit growers. Only a few years ago, New Mexico could send train loads of apples to eastern markets with the legend: "A million apples and not a single worm," but it cannot do so any more and not only apples but other fruit suffers. The spraying of trees mitigates the evil where all fruit growers of a district spray frequently and diligently but at the best, spraying is a costly, clumsy and ineffective method. It merely emphasizes the need of a real and economical exterminator, and it seems the Germans have hit upon a plan that is proving remarkably efficacious. It has been tried at Zittau, Saxony, and the apparatus, portable in form, will free a large area from pests of moths and bugs at comparatively small cost. It is certainly worth while trying in New Mexico, even where electricity is not available, for searchlights can be fed with gasoline or coal oil or other illuminants, if properly constructed.

The trap includes two searchlights, and these are arranged over exhaust fans, which suck the air into a deep receptacle. In the first trial the trap was placed at the top of the municipal electric station. The reflectors at night threw two great streams of light upon the wooded mountain-sides, a half-mile away, and the effect was amazing. Lured along the great white ways, the moths came in fluttering armies. At a certain distance from the reflectors, the draught from the fans caught the dazed victims, which are then whirled into the pit beneath. The first night's catch at Zittau was three tons and in a few nights, the entire vicinity had been cleaned of flying insects.

The New Mexican can do printing equal to that done in any of the large cities. Our solicitor, every piece of work we turn out. Try our stock once and you will certainly come again. We have all the facilities for turning out every class of work, including one of the best binderies in the West.

JUST IN TIME.
Some Santa Fe People May Wait Till It's Too Late.

Don't wait until too late. Be sure and be in time. Just in time with kidney pills. Means curing the back. Before backache becomes chronic. Before serious urinary troubles set in.

Doan's Kidney Pills will do this. Here is Santa Fe testimony to prove it.

Mrs. Agripina D. de Gonzales, living on Lincoln avenue, Santa Fe, N. M., says: "My sister who was in a very critical condition from kidney complaint was cured by the use of Doan's Kidney Pills. For some time she was attended by two physicians and the verdict given by them was that she could not be cured. Furthermore, they stated that she would not live more than a month or so. Doan's Kidney Pills coming to her notice she procured a supply and the result was as above stated. About six months ago I procured Doan's Kidney Pills at Ireland's Pharmacy for backache which had clung to me for some time and by spells and caused me a good deal of suffering. The use of one box had sufficed to rid me of the trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

Good for Billiousness.
"I took two of Chamberlain's Stomach and Liver Tablets last night, and I feel fifty per cent better than I have for weeks, says J. J. Firestone of Allegan, Mich. "They are certainly a fine article for billiousness." For sale by all druggists. Samples free.

EARLY HISTORY OF COP- PER IN GRANT COUNTY

(The Silver City Independent.)

(Continued From Thursday's Issue.)

Prior to the location of the Sampson the Southwestern Copper company leased their property. Operations of the lessees centered in the St. Louis mine which did not materialize as a paying proposition. For several months this noted property was idle and unproductive but during this period of enforced idleness Theodore W. Carter, was fairly engaged in perfecting negotiations which terminated in his securing a lease on all of the Southwestern company's claims. That Mr. Carter was in earnest and determined to secure a lease and option on the property, is fully attested by the fact that he made no less than eight trips to Boston, Mass., before he succeeded in securing the greatly coveted lease on a mine, which, while it had not been turned down, by many it was regarded as very uncertain. Mr. Carter first became identified with mining in 1900, and prior to that date, was well and favorably known throughout the west as an architect of marked ability. In 1903 he began operations on a small scale and with knowledge acquired from experience and observation of conditions elsewhere, it was only a short time before the St. Louis mine was in line as a producer. As the mine developed the working force was increased and within less than six months the road between Silver City and Burro Mountains was lined with teams laden with the red oxides, and sulphide ores of copper from the St. Louis mine. With his characteristic business and mining ability he kept the development of the mine ahead of production, and within eighteen months shipped over \$100,000 worth of copper. During the life of the lease which covered a period of three years he was successful in organizing THE BURRO MOUNTAIN COPPER MINING COMPANY, and succeeded in interesting the wealthy Leopold Bros., of Chicago, and later disposed of his interests, retaining but a small share in the company, and was made a resident managing director.

The mining estate covers nearly one mile square of territory, all of which is underlaid with deposits of copper ore, aggregating millions of tons, having a concentrating value of three per cent of copper per ton. When the company organization was perfected a concentrating mill was erected on the ground, of 100 tons capacity; this has been increased to 300 tons per day. The ore concentrates in the ratio of ten tons into one. The concentrated product is shipped to distant points for smelting. The deepest workings on the Sampson are less than 300 feet, in depth. From this point, main drifts and laterals are intersected with cross cuts, which have blocked out ore sufficient to keep the present mill in constant operation day and night, including Sundays and holidays, for a period of twenty years, without opening new ground. The properties of the company are being systematically developed under the immediate supervision of J. W. Hall, an able mining man of extended and successful experience. In his labors he is ably assisted by Alex. Woodburn, a practical miner, well and favorably known throughout New Mexico and Arizona.

THE AZURE COMPANY MINING ESTATE.

The honor of the discovery of turquoise in the Burro Mountains seems to be equally divided as between John Coleman and N. Rascom, veteran prospectors, who discovered and located the famous Santa Fe and Gem mines, which have produced so many Elizabeth gems of matchless turquoise. Closely following the discovery of turquoise rivaling the famed Persian in color, hardness and unfading qualities, the present company was organized and incorporated and the work of mining gem stones began in earnest. Immediate results followed, and the reputation of the mine established beyond question as being without a peer in the production of the finest turquoise known in the world of gems. The group proper consists of 20 claims.

DEVELOPMENTS.

The openings were first, as illustrated, an immense open cut 700 feet in length, 150 to 195 feet in width, at the top, 60 feet at the bottom, with a general depth approximating 65 feet. The open cut was adopted in conjunction with the underground stopes and levels to fully recover the mineral of the great mineral values of the fault-fissure of the Santa Fe and Gem locations. From the "Cut" shafts were sunk, tunnels driven, and winzes connecting with the second level with the lower levels, which insured perfect ventilation. Three parallel drifts were driven, one on the foot wall, one in the center and one next to the hanging wall.

The turquoise occurs in nuggets, veinlets and clay streaks in the vein material. The method of mining has been overhand stoping, and open cuts and the values collected on plank floors and canvass bottoms, in the overhand stopes. The refuse or waste material is left in the mine, and the gem bearing rocks sent to the surface, assorted and graded for shipment. It is estimated that upwards of 1,000,000 tons of gem-bearing rock

has been broken. A portion of the waste material, and gem values was hoisted through the medium of five shafts. It is interesting to note that in the admirable plan adopted to operate this property successfully and economically, and to the best commercial advantage, that 100 feet of linear work on the fissure called for, 400 feet of cross-cuts and laterals to systematically and economically explore the property. The product to date, approximate estimation, aggregates \$2,500,000, representing a net profit of at least \$1,500,000. The actual product as per the books of the company, have never been listed, even with the U. S. Geological Survey. The outlying claims of the Santa Fe group show from 3,000 to 4,000 feet of work, and does not include two miles of working in the Santa Fe and Gem mines.

The quality of the best turquoise is classified in trade circles as the Elizabeth grade. The color, dark blue, has never been equalled for purity and depth of color, hardness, brilliancy, or permanence. The color does not fade or turn green, a fact which is clearly demonstrated at the mine, after fifteen years of exposure to the elements. Numerous dykes of andesite porphyry cross the eruptive granite in the immediate vicinity. The Santa Fe and Gem vein producing turquoise is an enormous fault-fissure with well defined foot and hanging walls, having an average width of sixty feet.

COPPER AZURE CLAIMS.

The copper bearing claims of the Azure company, Number 20, a portion being protected by U. S. patents. The first deposit of note, producing copper, is on the western side of the Andesite dyke. The gossan vein stone has an average width of 200 feet and traverses the Ricker, Rogers, Zona and American locations, and are destined to become with additional labor producers of large quantities of low grade ores.

THE KID.
vein and system of that name is a continuous fissure traceable for 2,200 feet and is from four to eight feet between walls, carrying from ten to twelve per cent of copper per ton. The deepest workings is a shaft 100 feet in depth. East of The Kid is the great Santa Fe vein which has yielded so much in gem values and is now a portion of the copper area, a gulch separating the former area from the gem turquoise bearing ground. The vein and croppings may be easily followed by the casual observer a distance of 6,000 feet. The mineral is rich and ranges in value from two to six per cent. The strike is N. 57° East and dips 53° S. E. The main workings consist of shaft 417 feet in depth, cross cuts expose width of vein matter and drift No. 1 175 feet East, the bottom of the shaft, and drift No. 2, 230 feet prove continuity of ore channel. The vein material in the upper level is fifteen feet in width and averages quite two per cent as a whole. The foot wall material five feet in width, yields from two to five per cent copper per ton. A noticeable feature that while the second level is 410 feet below the surface the mineral values are still in the oxidized zone and contain iron oxide and copper carbonates. The present workings will be continued to a depth of 600 feet. It is confidently believed that at this depth the sulphide areas will be met with. The sulphide or secondary zone of enrichment usually carries from two to four times greater values than the upper or oxidized areas. Eastward from the above there is a small fault-plane two or three feet wide similar in its general features to the Kid location, as to the value of the ores exposed.

The Azure company own five claims situated between the towns of Leopold and Tyrone on the east side of St. Louis gulch, in the leached porphyries of the "Burros." This portion of the estate will be thoroughly prospected with a core drill of the Cyclone type, and the values of the property quickly ascertained. The management of the Azure mining estate has been conservative and the company is exceedingly fortunate in securing the services of W. R. Wade, an able mining engineer, a man of tireless energy and excellent executive ability to manage their business and mining interests in the Burro Mountains.

GEOLOGY.

The geological conditions of the Burro Mountains are intrusive and eruptive. The intrusive rocks for the most part are noticeable in the Bullard's Peak region, the northwestern portion of the chain. This district is distinctively silver bearing and many strong, continuous, and exceedingly rich veins of silver bearing ore, yielding native silver ranging from half an ounce to ten pounds in weight have been found. The intrusive imperceptibly blend into the Biotite granite near and south of Forker gulch. On the biotites are superimposed the porphyries of the Azure, Chemung, Ocala, Burro Mountain, Humboldt, Morril, Copper Gulch, Comanche, and National mining estates, all of which are copper bearing and carry but a trace of gold and silver. The Cherry Creek and White

(Continued on Page Seven.)

OJO CALIENTE HOT SPRINGS.

These celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranco Station, on the Denver and Rio Grande Railroad, from which point a daily line of stage runs to the springs. The temperature of these waters. Is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the entire year round. There is now a commodious hotel for the convenience of invalids and tourists. People suffering from Consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,626.26 grains of alkaline salts to the gallon, being the richest alkalin Hot Springs in the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m. and reach Ojo Caliente at 4 p. m., the same day. For further particulars of line salts to the gallon, being the richest:

PERSONAL MENTION

J. G. Darden, of Albuquerque, spent yesterday in the city on legal business.

Francisco Chavez and Manuel Chavez, of Lamy, reached the city yesterday on court business.

Herman Schweitzer, of the Harvey curio department spent yesterday in Santa Fe on business.

H. G. Sanders and family of Estancia reached the city last evening and had rooms at the Normandie hotel.

H. C. Viles, one of the old-time ranchmen on the Pecos, and wife, are in the city. They are guests at the Claire.

Leroy O. Moore, chief of special agents of the general land office, left yesterday on a several days' official visit to Roswell.

T. Buckingham, a mining man of Cerillos, came to the city yesterday on mining business. He had a room at the Normandie.

Charles W. Fairfield, of Estancia, is in Albuquerque on a short business visit. Mr. Fairfield was formerly a resident of this city.

Ramon Aragon, a miner of Golden, south Santa Fe county, was in the city yesterday on mining business. He had a room at the Normandie.

Jose Martinez, a ranchero from Pines, was in the city yesterday and stopped at the Normandie hotel. Personal business brought him here.

W. H. Dearstyne of Denver, representative of a paper house, spent the day in the city on one of his periodical trips. He was a guest at the Palace hotel.

E. McBroom and Charles McBroom, of Lumberton, Rio Arriba county, were arrivals in the Capital City yesterday and had their names on the Coronado hotel register.

Captain Fred Fornoff of the territorial mounted police returned last night from a week's official visit to the southern part of the territory. He also made an official visit to El Paso.

T. R. Stewart, assistant forest supervisor, reached the city yesterday from Pecos, where he has been for the past few weeks on an inspection trip. He will remain in the city for several days.

Hon. and Mrs. Nathan Jaffa have arrived in Albuquerque and will remain there during next week in attendance upon the National Irrigation Congress and the International Industrial Exposition.

Page B. Otero, territorial mounted policeman, returned last night via the Denver and Rio Grande railway from a several weeks' official trip in the northern part of the territory and southern Colorado.

Judge A. L. Morrison has returned from Socorro, where he made an address at the opening of the second Socorro county fair. The Judge was favorably impressed with the attractions of the Gem City.

Colonel E. C. Abbott, assistant U. S. district attorney, left last night for Albuquerque, where he will be in attendance at the U. S. district court now in session there.

Captain W. C. Poterfield, of Silver City, commanding the National Guard company at that point, is in the Duke City arranging for the encampment of his company there during the Sixteenth National Irrigation Congress.

Mrs. H. W. Warner has returned from a week's vacation, which was spent at the Cliff Dwellings in the Pajarito Park and is again at her post of duty as manager of the Postal Telegraph company. She enjoyed her vacation very much.

A. R. Manby, president of the Taos Valley Land company, returned yesterday.

The secret of old age is Health. Use **BALLARD'S HOREHOUND SYRUP**

And you will have health. Great care should be taken of one's health and Ballard's Horehound Syrup will cure

COUGHS, COLDS, CROUP, BRONCHITIS AND ALL PULMONARY DISEASES.

Mrs. J. H. McNeil, Salt Lake City, Utah, writes: "I am eighty years old and I thank Horehound Syrup for having cured me of coughs, colds and other like diseases."

day from Taos, where he has been for a few days. He will remain here until next week, when he will go to Albuquerque and will deliver a very striking address on "Irrigation of the Lands in the Rio Grande Valley," at the Sixteenth National Irrigation Congress.

(Continued On Page Eight)

DEMOCRATS OF MORA COUNTY NOMINATE TICKET

The Democrats of Mora county have held their convention at the county seat and have nominated the following ticket to be voted on at the coming election. The convention was nothing to boast of and the attendance was small. The few delegates present did some talking and claimed that Mora county would give Larrazolo a great majority but it seems that this was done to keep up courage. The following is the ticket:

For Council—E. Martinez.
For Representatives—Emilio Valdez and Rafael Romero.
For Commissioners—S. Garcia and Pablo Branch.
For Probate Judge—G. Borrego.
For County Clerk—Albino Maes.
For Assessor—M. Martinez.
For Collector and Treasurer—J. W. Tyler.
For Sheriff—Trinidad C. de Baca.
For Superintendent of Schools—Blas Gallegos.
For Surveyor—R. G. Williams.

Delicious Banana Cream.

This recipe is highly recommended by one of our correspondents; try it for dessert to-morrow.
Peel five large bananas, rub smooth with five teaspoonsful of sugar. Add one teaspoon cream beaten to a stiff froth, then add one 10c package of Lemon JELL-O dissolved in 1 1/2 teaspoons boiling water. Pour into mould and when cold garnish with candied cherries. Served with whipped cream, or any good pudding sauce. JELL-O is sold by all Grocers at 10c. per package.

The Saving Habit

If you are thrifty, you have some of your money left over. The extra money is the foundation for future riches, if you will only persistently save it. What if it does only amount to a few dimes or nickels a day—there are going to be a great many days in your life and these dimes and nickels will grow into a good large sum.

AND WHAT IS THE USE OF ALL THIS?

Why it just means making a man of you.
Making you free to do as you wish.
Making you and your family happy and contented.

OPEN AN ACCOUNT WITH US NOW.

MINOR CITY TOPICS

Weather forecast for New Mexico: Partly cloudy with cooler weather tonight and Saturday.

FOR SALE—Two gentle saddle horses. N. B. Laughlin.

The hotel arrivals in this city yesterday numbered, twenty-eight, namely: Palace, four; Claire, fourteen; Normandie, seven; Coronado, three.

The citizens of Santa Fe welcomed the nice shower this morning. They have been anxiously waiting for the street sprinkler to come along and sprinkle the dusty streets but instead the rain this morning laid the dust and everybody is happy.

We overheard a lay over at The Racket remark: "There are some men and (women too), who slumber peacefully within whispering distance of opportunity and never arouse themselves to the possibilities and big bargains at The Racket."

Twenty-five couples enjoyed the social dance at the opera house last night. The dancing began immediately after the second show and continued until 12:30. Refreshments were served and everybody had a good time. Music was furnished by Digne's orchestra.

The funeral of the late Mrs. Caroline McKenzie, whose death occurred in Los Angeles a few days ago, will be held from the Church of the Holy Faith on Sunday afternoon at 2:30 o'clock. Interment will be in Fairview cemetery. The body, accompanied by the son and two daughters of the deceased, will reach Santa Fe tomorrow noon.

Democratic primaries for the election of delegates to the Democratic county convention will be held in the several precincts on Thursday, October 1, throughout this city and county. The coming convention will be held on Saturday, October 3, for the purpose of nominating a Democratic legislative and county ticket. The convention will be held at the court house in this city.

Those who do not see "A Country Girl's Life and Experiences at a Seminary" at the opera house, will miss one of the best films shown this season. The arrival at the Seminary, the initiation, the basket ball game the fire scene and rescue are thrilling throughout. The other films are very laughable and the song, "Little Black Lamb," is good. Don't forget the first matinee tomorrow afternoon.

The remarkable archaeological discoveries made during the past month in the Los Frijoles Canon, less than 30 miles west of Santa Fe, will be explained by Director Edgar L. Hewett of the American Institute Archaeology at a public meeting tomorrow evening at 8 o'clock in the Supreme Court chamber at the Capitol. It is something in which every Santa Fe resident is interested and therefore every one is urged to attend.

There were showers in the vicinity of Santa Fe last night. The maximum temperature yesterday was 77 degrees at 1:45 p. m., and the minimum temperature was 53 degrees at 3:50 a. m. The average daily humidity for the day was 32 per cent. The lowest temperature during last night was 52 degrees and the temperature at 6 a. m. today was 54 degrees. The precipitation for the twenty-four ending at 6 a. m., today was 0.05 of an inch of rain.

Music lovers should not forget the organ recital at the First Presbyterian church tonight under the auspices of the Woman's Aid Society. Tickets are 50 cents each and are on sale at Zook's.

16th National Irrigation Congress

INTERSTATE INDUSTRIAL EXPOSITION AND NEW MEXICO TERRITORIAL FAIR AT

Albuquerque N. M.
Sep. 29 to Oct. 10.

Come and see the prosperous Santa Fe Southwest—where all the way from Colorado to California water is king.

The U. S. Government is spending millions of dollars to get a permanent water supply for the semi-arid lands.

It means millions of acres made tillable and fit for homes.

A national event, worth crossing a continent to see. Foreign diplomats, Government Officials, noted irrigation experts and Captains of Industry will attend.

A great exposition of Southwest farms, ranches, mines and industries. Indians too and Cowboys—U. S. Cavalry.

Rate from Santa Fe to Albuquerque and return, \$3.45.

Attractive side-trips to U. S. Reclamation projects and Grand Canyon of Arizona.

H. S. LUTZ, Agent

Ask for Irrigation Booklet

MISS. A. MUGLER.

Shows A MOST BEAUTIFUL LINE OF Ostrich Plumes Breast Feathers Wings, and Aigrettes together with the very latest in Hats.

Southeast Corner Plaza.

Pharmacy, Fischer's drug store or at the Winter Grocery company store. They can also be had at the door of the church this evening. Mrs. S. J. Howard is an organist of wide reputation and the recital is sure to be a musical treat such as has not been enjoyed in many months by Santa Feans.

(Continued On Page Eight.)

NOTICE OF WITHDRAWAL.

Notice is hereby given that the undersigned has sold all his interests in the Santa Fe Meat and Live Stock company, and retired from that corporation, and that the said Santa Fe Meat and Live Stock company is to assume all debts and collect all amounts due it.

The undersigned will open and run a meat business in his own name in Santa Fe, in the near future, and requests the patronage of his former friends in the meat business, as soon as he shall be able to open his shop.

WM. L. ARRIGHI.

Santa Fe, N. M., Sept. 21, 1908.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it though the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, 75c. per bottle. Take Hall's Family Pills for constipation.

Just Different That's All

You'll find my millinery distinctive—Away from the sameness seen about town—Away from the stiff ready-made look—Away from anything ordinary, but more like hats worn by the stylish women of New York, London and Paris, and yet you'll find my prices very reasonable, quality considered.

Perfect Fitting "Elastic" Book-cases are the only ones which successfully adapt themselves to the conditions of the modern home.

There may be certain limitations as to room, but whatever space is available can be utilized and beautified by an artistic arrangement of these cases, the only kind of sectional book-case made in two lengths, 34 and 25 1/2 inch lengths, and in three distinct types—Colonial, Standard and Ideal. Our catalogue illustrates in colors eight different finishes of quartered oak and mahogany.

We will call and measure any space in your house and give you the exact cost in any finish you may select.

TERRITORIAL NEWS NOTES

Fred Wiel of Curevo is the possessor of a few freak chickens. They get into everything and a few days ago they got into a can of green paint. They are green chickens now.

A large delegation of members of the Chaves County Sheep Breeders and Wool Growers' Association will go to Hope, in Eddy county, Saturday, September 26, for the purpose of organizing the sheepmen of that locality. The trip will be made in automobiles.

Seven persons, some of them prominent citizens of Roswell, were arrested last week for failure to comply with the orders of Sanitary Officer W. W. Witt relative to cutting the weeds in and about their premises. The prosecutions for violations of the sanitary ordinance will not be passed over in Roswell as often is done with such ordinances in many other cities.

A number of prominent Republicans of San Jose, precinct No. 1, met Tuesday night at Samuel Montoya hall and organized a W. H. Andrews Republican club that promises to become a factor in politics in Bernalillo county at the fall election. The new club started in with fifty-six members and will reach a hundred at the first meeting, which will be tomorrow night.

Every available team and man is at work these days in the Pecos Valley, plowing and planting alfalfa, winter oats, or putting up alfalfa. Never in the history of the Carlsbad Project has there been so much general work going on in the country as at the present time. Land that has been an idle waste for years, is now being put back into crops, and land that has never been cleared is being grubbed and planted in alfalfa or oats.

"It looks as though Logan would come into its own in the near future. It has enterprising citizens, its merchants are good, clean and energetic business men, it has good school facilities, the religious denominations are doing good work, the irrigation and Commercial club is stirring up business and advertising the town and country, the crops are fairly good considering the season and the amount of work put on them. The fact is, Logan and the Logan country is a fine place to live in," says the Logan Leader.

Over twenty Pullman cars are expected to be parked on the tracks at Albuquerque during the Sixteenth National Irrigation Congress next week, which will mean that nearly one thousand of the many thousands who will throng the Duke City at that time will sleep in the berths of the company's cars. Of this number thirteen cars have already been spoken for, which will be occupied by the delegations from the following cities: Carlsbad, one car; Hagerman, one car; Roswell, one car; El Paso, four cars; Las Cruces, four cars; Silver City, one car; and Deming, one car.

The New Mexico School of Mines, located at Socorro, opened last week for the work of its sixteenth year with exceptionally bright prospects. The enrollment of collegiate students for the first week, was a little more than double that of the same week last year and is by far the largest in the history of the institution. This can not fail to be very gratifying to all friends of the school, for it shows that the hard work heretofore done under discouraging conditions to promote the school's welfare and prosperity is at last beginning to bear substantial fruit.

Central City celebrated an event recently which was somewhat out of the ordinary and if other towns would follow the example, it would be a blessing to their community. That section of Union county, like all others of New Mexico has been infested with a class of people known as "knockers" who are no good to themselves, to the county, to the country from which they came or to the country to which they will go. Some of Central City's knockers left town a few days ago and the citizens built a bon fire on the square and danced around it like Comanche Indians in fact, had a general jubilee and congratulated themselves that the town was rid of its worst pests. If every city would treat its knockers in this way they would probably not be bothered with them very long.

Don't be afraid to give Chamberlain's Cough Remedy to your children. It contains no opium or other harmful drug. It always cures. For sale by all druggists.

The New Mexican Printing company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2x6 inches. These books are made up in civil and criminal dockets, separate of 32 pages each, or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following prices:

Civil or Criminal\$2.75

Combined Civil and Criminal .. 4.00

For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted.

For a Sprained Ankle.

GO TO

WILLARD, NEW MEXICO.

THE LIVE COMMERCIAL CITY OF THE ESTANCIA VALLEY.

THE CITY OF WILLARD destined to be the COUNTY SEAT of Torrance County New Mexico. Was laid out in the fall of 1905. It is now a thriving city of nearly 1000 inhabitants. It lies on the main line of the Atchison, Topeka & Santa Fe Railway system, running east and west from Chicago to all California points and the Santa Fe Central Railway running from Santa Fe, N. M., in close connection with the Denver and Rio Grande and the Rock Island System. The Santa Fe System have expended on its depot yards a million dollars, in freight and passenger depot, eating house, water system, round house and coaling chutes.

Sixty houses have been erected. Several of the largest mercantile houses in the Territory are built and doing a big business. It has four large hotels, churches, schools. A live Board of Trade, energetic business men, two lumber yards, etc. The new city is in the center of the best agricultural and grazing section of New Mexico. The best shipping and distributing point for all merchandise, cattle, sheep and wool. The large wholesale houses are in operation.

THE WILLARD TOWN & IMPROVEMENT COMPANY

ARE OWNERS OF THE
WILLARD TOWNSITE

EARLY HISTORY OF COPPER IN GRANT COUNTY

(Continued From Page Three.)

Signal portion of the system, present a variety of geological conditions—eruptive in character—consisting of extensive monzonite areas with here and there sections of quartz-porphry. The White Signal region in addition to copper, carries appreciable quantities of gold and silver. The initial intrusions of the monzonite areas, and dykes caused intense fissuring—the fissures trending north, east and southwest and intersected from almost every conceivable point of the compass with fractures, joints and fault planes, all showing positive and irrefutable evidences of the existence of copper deposits identical in character and extent with the monzonites of the great copper mining camp of Bingham, Utah. The northwestern, the southeastern and the middle central portions of the Burro Mountain system have all been exploited to a greater or less extent, with most excellent results. Evidence is constantly accumulating as to the area and extent of the copper bearing regions of the Burro Mountains and the contention of geologists and mining men is indisputable and universally confirmatory, that the inevitable tendency of sulphide ore bodies is to assume a horizontal, rather than a vertical position, has been practically demonstrated. The Azure company by a system of seven drill holes on the Emerald claims has conclusively proven this, in addition to the scientifically conducted explorations of the great ore bodies of the Chemung, Copper Gulf and Burro Mountain companies' properties. Veins, fissures, fractures, joints, and fault planes are of frequent occurrence in the porphyry and monzonite areas and will inevitably lead to the great ore lenses of the Burro Mountains. The opinion obtains and is current among mining men and miners, that the features noted above, will prove on intelligent exploitation to be in a majority of instances, pipes leading to the copper deposits below. The ore zones in the eruptive formations do not exceed, as a rule, two hundred and fifty feet in depth from the surface, and in several instances

the sulphide areas are intersected at depths less than one hundred feet. Hence it will be observed that copper mining in the Burro Mountains is an inexpensive proposition, comparatively speaking, with operations of a similar character in other localities. Usually in the copper regions of Montana and Arizona, when planning for the installation of a copper mining plant, the syndicates having the business in hand, base their estimates of cost necessary to fully equip their mine with the requisite machinery to sink 1,000 feet, before any hopes can be entertained of deriving any dividend benefit from the investment. There are instances of note, whence this initial expenditure has been increased sufficiently to sink an additional 600 feet, making a total depth of 1,600 feet before ore of commercial value and extent was exposed. The knowledge which hitherto was theoretical, as to the existence of copper at moderate depths in large and practically inexhaustible quantities, in the Burro Mountains, is now a positive certainty and affords a most attractive field for the investment of capital. The field for its extent and area, the shallow depth and small outlay necessary to find the ores of copper, natural resources, nearness to rail transportation, is without a parallel in the wide world of mining industry.

(To Be Continued.)

Best Treatment for a Burn.
If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by all druggists.

The New Mexican Printing company has on hand a large supply of pads and tablets suitable for school work, the desk, and also for lawyers and merchants; good everywhere. We will sell them at 5 cents in book form.

New York	47	93	.336

National League
New York, Sept. 25.—After an exceptionally nerve-ringing two days for the baseball enthusiasts, the New York Chicago series ended yesterday in a victory for the locals. The game kept the thousands of fans at a high pitch of excitement and there were demonstrations notable even for such an exceptionally string of contests as New York has been witnessing for the past fortnight. There was no doubt as to the earnestness of each side to win. At the opening New York put Wiltse and Bresnahan in the points and Chicago, Brown and Kling. New York scored promptly in the first, Tenney on a double by Donlin and Hergog on an infield single by Seymour. In the fifth they took their other three, Tenney and Bresnahan on a slashing triple by Donlin and Devlin on a sacrifice.
Chicago bunched its four in the seventh. A single by Tinker scored Steinfeldt, and a triple by Kling was the means of bringing in Hoffman and Howard, batting for Coakley, who had replaced Brown, brought in Kling.

The score—			
	R. H. E.		
Chicago	4	7	2
New York	5	7	3

Batteries—Brown, Coakley, Overall and Kling; Wiltse, Mathewson and Bresnahan.
At Brooklyn—
Pittsburg..... 6 15 1
Brooklyn..... 1 4 3

Batteries—Wills and Gibson; Wilhelm and Bergen.
At Philadelphia—
Cincinnati..... 0 7 2
Philadelphia..... 5 12 2
Batteries—Savage and Schell; Moore and Doolin.

American League.
Cleveland, O., Sept. 25.—Washington broke Cleveland's winning streak yesterday, taking the game by a score of 2 to 1. Washington got in its first run on Clymer's pass and hits by Pickering and Freeman. Its second run was gained on McBride's hit, a passed ball and Milan's scratch hit. Cleveland got its only run on Lajoie's double and singles by Bemis and Birmingham. After the second inning not a Cleveland player reached the second base. Johnson struck out nine men. Bradley was put out of the game in the seventh for disputing a third strike called. This necessitated a patched up infield the last three innings. McBride played a brilliant game as shortstop. Twice he pulled down line drives by Goode with one hand.

The score—			
	R. H. E.		
Cleveland	1	3	1
Washington	2	8	0

Batteries—Leibhardt and Bemis; Johnson and Street.
At Chicago—
Chicago..... 0 1 1
New York..... 1 4 0
Batteries—Walsh and Shaw; Lake and Blair.
At Detroit—
Detroit..... 4 8 0
Philadelphia..... 4 9 1
Batteries—Mullin and Schmidt; Coombs, Plank and Powers. (Game was called at end of eleventh inning on account of darkness.)
At St. Louis—
St. Louis..... 3 5 0
Boston..... 0 3 1
Batteries—Waddell and Spencer; Morgan and Donohue.

A Traveling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to Le Grande, Ore." writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a deathlike look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into Le Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into Le Grande she was all right, and I received the thanks of every passenger in the car." For sale by all druggists.

The New Mexican Printing company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2x6 inches. These books are made up in civil and criminal dockets, separate of 32 pages each or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. THE STRENUOUS LIFE.

Pulls So Hard On the Stomach It Must Have Help.

The stress and strain of the strenuous life in both city and country makes stomach troubles. Five people suffer today where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bloating, nervousness, sleeplessness and the many other symptoms of indigestion.

All who are suffering with stomach troubles, and that means at least two out of three in Santa Fe and other towns, should use Mi-o-na stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na.

So reliable is Mi-o-na that The Ireland Pharmacy with every 50-cent box they sell, give a guarantee to refund the money unless the remedy cures.

If you want anything on earth—try a New Mexican want "ad."

Minor City Topics.

(Continued From Page Five.)

All trains are reported on time this evening except the Denver and Rio Grande, which is six hours late.

News has reached Albuquerque that a daughter was born to Dr. and Mrs. J. W. Elder of that city, now sojourning in Los Angeles, on the 19th.

Everybody is invited to the birthday offering social given by the Ladies Aid Society of the St. John's M. E. church at the home of Mr. and Mrs. Simon Nusbaum on Washington avenue, this evening. A musical and literary program has been prepared and light refreshments will be served.

This evening, at sundown, the Jewish New Year, 5669, second in importance of the Jewish festivals, will arrive. In every corner of the known world, wherever Jews exist, it will be celebrated. No matter how lax may have been the religious life of the Hebrew during the rest of the year, the advent of this season is a signal, too powerful to be ignored, for the return of the Israelite to his ancient faith. Wherever ten or more Jews live, they will assemble to hold most solemn services and to vow fidelity to the God of their fathers. It is the commencement of the penitential season, culminating with the Day of Atonement, which occurs ten days thereafter and which is the most holy and the most important of all the days in the Jewish calendar. The Hebrew liturgical music, especially that which is traditional, is noted for its grandeur, and it is this music which is heard in the temples and synagogues at these services. Several of the business houses in the city whose proprietors are believers in Hebrews will close their places of business tomorrow, among them are Leo Hersch, the Lowitzki Brothers and several others.

JAMES B. HAYWARD WILL GO IT ALONE

Severs Partnership With George H. Fleming in Insurance Business at Moriarty.

J. B. Hayward, well known and active citizen of the town of Moriarty in northern Torrance county has dissolved partnership in the insurance and real estate business with George H. Fleming and will conduct the business hereafter alone.

The firm was established about six months ago and with energy, fair dealing and experience in business Mr. Hayward has prospered and a good business has been done. Mr. Fleming retires absolutely from the firm from and after this date.

Mr. Hayward will conduct the business and also continue to act as U. S. court commissioner for the purpose of taking jurors and affidavits in homestead entries final homestead proofs, desert land entries, and desert land proofs in the section tributary to Moriarty.

The New Mexican knows Mr. Hayward very well and can consistently recommend him as a safe and reliable business man.

AMERICAN SAILORS MUST NOT LAND AT MANILA

Manila, P. I., Sept. 25.—Following the receipt of advice from Washington to the effect that the visit of the American battleship fleet must be made under restricted conditions should the city continue to be infected with cholera to the dangerous extent that it is now, the proposed reception planned will be postponed until the return of the warships from Japan. The number of new cases of cholera are diminishing daily and the plague is said to be not so virulent, but it is feared that the city cannot be made healthy by the time of the arrival of the warships.

BOLD ROBBERY AT LAMY LAST NIGHT

Special to the New Mexican.
Lamy, N. M., Sept. 25.—Burglars broke into the store of John Pfeuger in this town last night and stole a considerable quantity of clothing and other merchandise. The proprietor, Mr. Pfeuger, is also postmaster and the postoffice is in the store. The burglars stole some cash belonging to the postal laws and some stamps. The loss is not known as yet. There is no clue to the burglars.

ACTRESS SUES SON OF U. S. SENATOR ELKINS

Philippi, W. Va., Sept. 25.—The filing here today of a suit for \$100,000 damages for alleged breach of promise, by Mary Louise Lonsdale, a New York actress, against Blaine Elkins, the youngest son of U. S. Senator Stephen B. Elkins has caused a sensation. The young man is a brother of Miss Katherine Elkins, who is reported to be engaged to the Duke of Abruzzi. Senator Elkins declares there is no truth in the allegation of the actress.

LESLIE CARTER, FORMER CHICAGO CAPITALIST, DEAD

Chicago, Sept. 25.—Leslie Carter, at one time a prominent capitalist and president of the South Side Elevated Railroad company of Chicago, died in this city today after a prolonged illness. The present Mrs. Leslie Carter Payne, up to the time of her divorce some fifteen years ago was the wife of Leslie Carter.

GENUINE LOVE FEAST AT ABIQUIU

Delegate Andrews and Party Received With Open Arms in Rio Arriba County.

Special to the New Mexican.

Abiquiu, N. M., Sept. 25.—Delegate W. H. Andrews and party, consisting of ex-Governor M. A. Otero, Hon. E. A. Miera, Elias E. Baca and Jose D. Sena, who spoke at this place on Tuesday, were greeted by far the largest crowd in the village for many years. A procession of carriages and people on horseback nearly half a mile in length escorted the carriage in which rode the distinguished party, from the residence of Tomas Gonzales to the hall in Abiquiu. The procession entered the village amid the firing of guns and loud cheers. The business houses were decorated for the occasion with bunting and flags and lithographs of the popular delegate were framed in red, white and blue paper and hung in windows and doors.

The hall that had been decorated for the occasion was far too small to accommodate the crowd and on the courteous invitation of Henry Grant and company the speakers adjourned to their place and addressed the people from the commodious porch in front of the store. Delegate Andrews' appearance on the porch was greeted with loud applause, after which, through his capable interpreter, Jose D. Sena, Delegate Andrews in a forceful, but short speech, responded to some of the assertions made Sunday last by O. A. Larrazolo, and proved to his hearers that he was doing and would be able to do more for New Mexico than any one else now in the field. He spoke of his successful efforts in getting bills through Congress for the benefit of the territory. Among them the bill appropriating lands for the support of public schools, the many pensions for the veterans of New Mexico, etc. The delegate made a very favorable impression upon his hearers.

Hon. E. A. Miera, of Cuba, was next introduced. He being a prosperous sheep owner, himself, demonstrated in a very concise manner what the Republican party had done and could do for the stockmen of the territory. He was present at the speaking of Larrazolo here last Sunday and convinced his audience that all the statements made by Mr. Larrazolo regarding the oppression of the sheep and stock owners were untrue. Mr. Miera's convincing address will result in a large vote for the Republican ticket in November.

Ex-Governor M. A. Otero followed with an address in his interesting way saying that he was born and raised in the Sunshine Territory, but it was his first visit to this portion and he hoped to visit here again in the future. He went on to tell of the good work Delegate Andrews had done and was doing for the people of New Mexico and said that one of the greatest things he secured was the appropriation of land as a fund for the support of the public schools to educate the 85,000 children of school age in New Mexico. He also impressed upon his audience that the Spanish-speaking people must keep abreast with the progress of the territory and there was only one way to do so and that was by improving the schools and educating the children and getting statehood. Then there would be an equal chance to elect the chosen men of the people and that Hon. W. H. Andrews was the only man who could at the coming session of Congress secure the admission of the territory as a state. His sincere and honest appeal touched the hearts of his hearers.

Elias Baca, in his social manner, created many a good laugh among the crowd. Among his stock of good stories was one where Larrazolo was in the field two years ago. Mr. Baca said after one of his speeches a comedia came to him requesting change for a \$20 gold piece. He gave her as many dollars in silver in exchange for the gold which she refused, saying, "my friend Larrazolo tells me I should have sixteen silver dollars for each gold one." Here, replied Mr. Baca, take your \$20 gold piece to Mr. Larrazolo to change it.

Hon. Jose D. Sena closed the speaking in a short, well chosen address after which Delegate Andrews and others extended a cordial greeting and a handshaking to the crowd. They then adjourned to the residence of J. M. Chavez for refreshments and later were driven to the home of Tomas Gonzales, where dinner was in waiting on their arrival. Late in the afternoon the speakers were driven to El Rito accompanied by Tomas Gonzales, where they spoke Tuesday night.

The crowds in Abiquiu were the largest ever seen in this town at any one time. The people commenced arriving the night before the speaking. They poured in from Gallinas, Coyote, and other places. The interest in politics manifested by the people is greater than in many years and the prospects now are that Rio Arriba county will cast a greater vote next election than in many years past for the Republican ticket.

ARREST BANRUPT BROKERS ON GRAND LARCENY CHARGE

New York, Sept. 25.—Albert O. Brown, Edward F. Buchanan, Wren W. Hittman and Lewis Ginter Young, comprising the failed firm of A. O. Brown and company, stock brokers, were arrested on the charge of grand larceny as they were leaving the federal court room where they had been examined before a U. S. commissioner today.

S.S.S. BEST TREATMENT FOR CATARRH

The entire inner portion of our bodies is covered with a soft, delicate lining called mucous membrane; this is kept in healthy condition by the nourishment and vital vigor it receives from the blood. So long as the circulation remains pure this membrane will be healthy, but when the blood becomes infected with catarrhal impurities and poisons this inner lining of the body becomes irritated and diseased, and the unpleasant and serious symptoms of Catarrh commence. There is a tight, stuffy feeling in the nose, watery eyes, buzzing noises in the ears, often slight deafness, difficult breathing, etc. The disease cannot be reached by external treatment, though such measures afford temporary relief in some instances. S. S. S. cures Catarrh by cleansing the blood of all impurities and poisons. Then as rich, pure blood circulates through the body, the inflamed, irritated membranes heal, the discharge ceases, headaches are relieved and every symptom disappears. Catarrh, being a disease in which the entire blood circulation is affected, can only be cured by a remedy that goes to the very bottom and removes every particle of the impurity from the blood, and this is just what S. S. S. does. Book on Catarrh and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SOCORRO FAIR GRAND SUCCESS

Continued From Page One.

that every one just swears by Socorro county. It is the Garden of Eden to them and that is the spirit that makes a county or a state. My only trouble was that there was only one of me and that I could not be in more than one place at a time. It was perfectly painful to me to be compelled to refuse the hospitable invitations I received from so many of those great-hearted people but there is a limit to even such invitations and I soon reached it, very much to my regret.

"Old Glory" Much in Evidence.

"And high above all, over all, mingling with all, beautifying all, on the houses, the flagstaffs, and the people's clothing, in God's golden sunlight gleamed the radiant colors of Old Glory. God bless it wherever it purifies the atmosphere with its presence. If these people are not fit for all the privileges of American citizenship then there are no people in all the Union fit for them. So long as the citizens of Socorro county can count such men as Bursum, Martin, Savage, Sweet, Abeytia, Brown, Griffith, Drake and many others as good and true, among their leading men, their future is secure.

"Permit me in conclusion to say although the city was, as they say, 'wide open,' and was crowded to the limit with pleasure-seeking people, I did not see one sign of liquor, nor did I hear of the slightest symptom of disorder of any kind and so for the present goodbye to the women, men and children of Socorro county, may God's choicest blessings be with them now and forever.

"Your friend,
"A. L. MORRISON."

FATAL WRECK ON THE COLORADO AND SOUTHERN

Trinidad, Colo., Sept. 25.—Engineer Bennett was instantly killed, Fireman Brown badly scalded and Brakenan Davis seriously hurt when a freight train on the Colorado and Southern railroad collided with a string of empty box cars at Cueharas Junction near here today. All traffic on this road is badly delayed as a result of the wreck.

HUNTING TRIP OF KERMIT

Roosevelt in Dakota Ends
Pierre, S. D., Sept. 25.—Seth Bullock, Kermit Roosevelt and party arrived here last evening from their hunt west of the Missouri river and go East this afternoon.

COMPTROLLER ISSUES CALL ON NATIONAL BANKS

Washington, Sept. 25.—The comptroller of the currency today issued a call on all national banks for a statement of their condition at the close of business on September 23, last.

WANTED—Girl for dining room.
