THE SCHOOL BOARD MAKES NEW RULES

Requires Superintendents to Visit Schools

NEW SALARY BASIS JAN. 1.

Board Will Also Ask for Several Amendments to Laws Relating to Education.

At the recent meeting of the territorial board of education held in this city the board adopted a new rule for county superintendents to go into effect after January 1, requiring them to visit the schools in their counties. Under the old school laws the county superintendents did little more than attend to the clerical work of their offices. They were not required to visit schools, to consult with directors in the management of the schools or to confer with the teachers in regard to their work, and under such conditions as then obtained, the territorial board of education had no power to require any better or more effective services from them.

At the last meeting of the legislative assembly, in 1907, some of the members suggested that if the superintendents had no other duties than merely to attend to the clerical work, the office might as well be abolished, and the clerical work turned over to the probate court. However, the assembly amended the law in such a manner as to get real supervision of the public school by the county superintendent.

Duties Are Prescribed.

That law set out what the duties of the county superintendents should be, and also provided that the Territorial Board of Education might in its discretion make additional rules and regulations which the county superintendents should obey. The law also provided a change in the method of fixing the salaries of the superintendents. Under the old law their salaries were based on the classification of the counties with no regard whatever to the amount of work that would devolve upon the office, inasmuch as the classification of counties is determined by the amount of money paid into the territorial treasury. Thus a county rich in property might be poor in the number of its school children and schools, and on the contrary a poor county might have a large school population. Under this provision, a superintendent might have from 50 to 60 schools under his charge and to require him to visit them even yearly on a salary of perhaps five or six hundred dollars would have been a burden upon him.

New Salary Basis.

The law passed at the last session, however, bases the amount of a superintendent's salary upon the number of school rooms in his county. This provision goes into effect January 1st, and in view of this more equitable plan the territorial board at its meeting passed an order which requires each superintendent to make at least one visit annually during the school session to each school having a term of 4 months or less, and to make two visits annually to each school having a term of more than 4 months and to report to the board all such matters as are called for by the blanks provided him for that purpose.

The law passed in 1907 gave the territorial board power to make such regulations for the office of county superintendents as it saw fit, and that part of the law went into immediate effect. Under its provisions the board has prescribed many regulations, which are being lived up to by the very efficient corps of county superintendents. The board, however, has hitherto not required that the schools be visited because under the salary regulations such an order would have been a hardship upon superintendents.

Will Ask Amendments.

The Territorial Board of Education will make several recommendations for amendments to the territorial school law at the next session of the legislative assembly. Many of these have not yet been formulated but are being put into shape by attorneys for the board. Two recommendations however, have been definitely decided upon. One of these is to provide for a new manner of establishing school sites in the various districts. Disputes and much dissatisfaction has arisen from this matter heretofore. Under the present law the district school directors have full power to determine the site upon which a school shall be established free from the interference of the county superintendent or any body else. It is proposed to ask that the law be amended to require that the directors locate schools only upon petition of, and upon the recommendation of a majority of the electors residing in the school district, thus making the popular will govern in the selection of the site.

Another recommendation for amendment to the law has to do with the removal of directors who are either inefficient or unsatisfactory to the patrons of the school. Such directors can now be removed only after charges filed by the county superintendent. Frequently the superintendents are reluctant to file charges and others will not. It is proposed to ask that the law be amended so that the superintendent may remove peremptorily any director whom a majority of the electors of the school district may petition to have removed, thus relieving him of the odium of the removal and giving the people of the district home rule.

NEW CONSISTORY AND COUNCIL INSTITUTED

Two High Degree Masonic Bodies Added to Order in the Territory.

The institution of Coronado Council No. 1 of the Knight of the Kadosh, and of New Mexico Consistory No. 1 of Masters of the Royal Secret, and the installation of the officers took place last evening in the Masonic hall. A great many Scottish Rite Freemasons from the various towns of the territory were in attendance. Illustrious Brother Harper S. Cunningham 33d, Inspector General for Oklahoma, was the instituting and installing officer.

The following officers were installed:

New Mexico Consistory, No. 1, A. A. S. R.: Charles A. Wheelon, Master of Kadosh; S. Spitz, Prior; H. H. Dorman, Preceptor; Chas. F. Easley, Chancellor; Nathan Jaffa, Orator; H. B. Cartwright, Almoner; H. F. Stephens, Registrar; A. F. Spiegelberg, Treasurer; R. H. Hanna, Prelate; J. W. Mayes, Master of Ceremonies; J. A. Massie, Expert; C. L. Kennan, Assistant Expert; Arthur Seligman, Captain of the Guard; Samuel Eldott, Tiler.

Coronado Council of Kadosh, No. 1, H. H. Dorman, commander; Dr. James A. Massie, first lieutenant commander; Samuel G. Cartwright, second lieutenant commander; Henry F. Stephens, recorder; A. F. Spiegelberg, treasurer.

Thereafter several degrees were conferred upon candidates in ample form by the officers of the consistory. The ceremonies then closed and New Mexico now has fully instituted and legally at work the following Scottish Rite Masonic bodies:

Santa Fe Lodge of Perfection No. 1, 14th degree; Aspen Chapter Rose Croix, No. 1, 18th degree; Coronado Council of Kadosh No. 1, 30th degree; New Mexico consistory No. 1, 32nd degree.

After the closing of the consistory a splendid banquet was served which was greatly enjoyed and at which felicitous speeches were made. The ladies of Santa Fe Chapter No. 19 order of the Eastern Star prepared the banquet, and served it admirably.

PACKING FIRM WILL PENSION EMPLOYEES

Morris & Co. Provide Liberal Allowances for Old and Faithful Men in Their Service.

Chicago, Dec. 21.—Morris & Co., packers, will put into effect after Jan. 1 an employers' pension and co-operative system, the details of which have been worked out by Edward Morris, president of the company. It probably will be shared by 10,000 employees at the various plants, and \$100,000 will be distributed yearly. It is provided the pension fund shall be raised by annual contribution by the company of \$25,000 until the fund reaches \$500,000, and by 3 per cent of the salaries of such employees as care to take advantage of the offer.

A pension is to go to an employee when he shall have completed 20 years of continuous service, and when he is 55 years old.

After 30 years of service, if his salary be \$20 weekly, he will receive 60 per cent of this, or \$624 a year. If he should retire after 20 years on a salary of \$35 weekly, his yearly income will be \$728. The maximum pension is \$5,000. A life insurance feature is included.

If an employee has served 20 years before arriving at the pension age and is incapacitated physically to continue at work, he is to be permitted to retire and receive his pension. The widow will be entitled to half her husband's pension until she remarries again. In case of her death, provision is made for the children that may survive.

Gets Wool Guaranteed.

Cheyenne, Wyo., Dec. 22.—Secretary George S. Walker of the National Wool Growers' association has returned from northern Wyoming, where he addressed meetings of flockmasters at Sheridan, Buffalo, Gillette and Newcastle, and secured a large guarantee of wool for the national storage plant which is to be erected in Chicago and in which it is expected 25,000,000 pounds of wool will be stored annually.

MUNICIPAL SCANDAL IN THE SMOKY CITY

Corruption May Exceed That Uncovered in 'Frisco

COUNCILMEN ARRESTED

Charges are Bribery, Conspiracy, and Corrupt Solicitation

Pittsburg, Pa., Dec. 22.—Following the sensational arrests here last night of seven councilmen and two bankers on charges of alleged corruption in conducting public affairs of the city, it is intimated today that even more startling developments will transpire either today or tomorrow. The suddenness of the arrests caused general surprise. According to the best information, it is possible that the municipal scandal at San Francisco may be insignificant as compared with alleged grafting here. The information against the seven councilmen charge conspiracy, corrupt solicitation and bribery.

The following are the men accused: Councilmen William Brand, John F. Klein, J. C. Wasson, T. O. Atkinson, Jacob Soffel, W. H. Melaney and Hugh Ferguson. Former President W. W. Ramsey and former Cashier A. A. Vilsack of the German National bank, are also accused.

All the defendants were released on bail of from \$14,000 to \$30,000 each and aggregating a total of \$178,000.

Many Corrupt Measures.

The seven councilmen, it is formally alleged, conspired with each other, and with other persons known to secure the passage by corrupt means and by bribery of members of the Select and Common council of ordinances and resolutions designating depository banks for city, of the bond ordinances for making free the bridges between Pittsburg and Allegheny which were recently consolidated and of the ordinance for additional filter beds, for the new filtration plant, of the Herberston Street railway ordinance, of the resolution to pave a portion of Fourth avenue with wood blocks, and other ordinances pending before the council. All the informations were sworn to by Leonard DeWolf, secretary of the Voters' League and formerly a political writer on a local paper.

Robert Wilson, superintendent of the Municipal League of Scranton, Pa., is designated as the "Man behind the gun." Wilson assisted by a corps of private detectives whom he brought to this city from Scranton gathered evidence against the defendants. In this manner the entire matter was investigated without the least publicity. The Pittsburg police were not consulted until yesterday, when it was desired to make the arrests.

The councilmen and bankers will be given a preliminary hearing tomorrow.

Another sensation was exploded today when it became known that Director of Public Safety Lange demanded the resignation of Captain of Detectives E. T. McGough. Lange says the demand has nothing to do with the arrest of the councilmen, but is "for another and more serious one," which he refused to discuss.

ILL HEALTH DROVE HIM TO SUICIDE

Las Vegas Man Blows Off His Head in Absence of His Wife and Child.

East Las Vegas, N. M., Dec. 22.—Ed C. Coulter of this city, an engineer employed by the A. T. & S. F. railway, shot himself in the head last night, killing himself instantly. His head was blown to pieces, scattering his brains on the walls of the room in which the shooting occurred. "He had been in poor health, and brooded over it. He leaves a wife and one child in good circumstances. The wife and little one were down town doing Christmas shopping when Coulter committed the rash act, and upon their arrival home they discovered the body in a rocking chair, where he was evidently seated when he fired the fatal shot.

WOULD CHRISTEN THE DELAWARE WITH WATER

Newport News, Va., Dec. 22.—If the plans of the W. C. T. U. of Delaware are successful the giant 20,000-ton battleship, Delaware, which will be launched here February fifth, will be christened with water. The battleship, Kentucky, the only vessel of her class ever christened with water, had a hundred bottles of whiskey broken against her hull by Kentuckians when she slid down the ways.

CABINET BUILDERS BUSY THESE DAYS

Making Up Taft's Official Family Without His Aid

ONLY TWO PLACES SURE

Guesses of People Who Think They Know Better Than President-Elect.

Washington, Dec. 22.—Cabinet builders at the national capitol and those who have moved to Georgia as a part of the entourage of President-elect Taft, are succeeding in placing on the anxious bench public men in all sections of the country who have been looked upon as aspirants for portfolios or whose qualifications have been urged by admiring friends.

The announcement of the appointment of Frank H. Hitchcock to be postmaster general followed by that of Philander C. Knox to be secretary of state and the generally accepted report that George W. Wickersham of New York as the choice of Mr. Taft for attorney general, indicates that the state is being made up rapidly and that an announcement of the entire cabinet may be expected before long.

From a discussion of the cabinet slate among Mr. Taft's close friends in Washington, who would not be likely to indulge in idle gossip concerning it, there seems to be a reasonable certainty that in addition to those named Secretary Wilson will continue for a year or more as the head of the agricultural department; that Secretary Garfield will retire from the cabinet; that Judge Richard A. Ballinger of Seattle, Wash., will be given a place, probably that of secretary of the interior; that Luke E. Wright will retire from the cabinet and again take a post in the diplomatic service; and that an Ohio man will be given the position of secretary of the treasury.

Missouri Suggested.

Within the last few days the name of Charles Nagle of Missouri has been discussed in connection with the secretaryship of the department of commerce and labor.

Other names heard in connection with that department are those of William Loeb, Jr., secretary to President Roosevelt; Oscar S. Straus, who now has a portfolio; and George A. Knight of California. It is not believed here, however, that two places will go to the Pacific coast.

Probably the most difficult place remaining to be filled is that of secretary of the treasury. Among the Ohio men mentioned are former Gov. Myron T. Herrick and Representative Burton.

For secretary of war, Charles Macgoon, now governor of Cuba, is heard frequently but the generally accepted idea is that Mr. Taft has not yet made up his mind whom to appoint. He is said to be looking for a man who has made a record as a business man. William Loeb, Jr., is also mentioned for secretary of the navy, as is also Charles H. Thompson of New York.

COOK URGES THE SIGNING OF THE BILL

Tells President That C. F. and I. is trying to Block Boundary Bill.

Washington, Dec. 22.—Representative Cook of Colorado discussed with the President today his veto of the bill fixing the boundary line of Colorado, Oklahoma and New Mexico on the 37th parallel of latitude. Mr. Cook told the President that he and Attorney General Bonaparte had been imposed upon. Further he declared that the Colorado Fuel and Iron company sought the veto to escape taxation of property in the vicinity of the boundary line. Mr. Cook believes the president will investigate the matter and he hopes will recall his veto.

FRA HUBBARD IS HURT BY A FALLING TREE

New York, Dec. 22.—A special dispatch to the Times from Buffalo says that a falling tree seriously injured Elbert Hubbard, author and lecturer, in a wood shed at the colony settlement at East Aurora yesterday. While assisting workmen he miscalculated the distance the tree would fall and was crushed.

NEWMAN LEAVES N. Y. CENTRAL.

New York, Dec. 22.—W. H. Newman today resigned as president of the New York Central Railroad company, his resignation to take effect Feb. 1, 1909. It was accepted by the directors. It is expected that he will continue to be a member of the board of directors.

CHOOSING A SITE FOR LARGE COLONY

Co-Operative Settlement of Odd Fellows and Woodmen Looking for Suitable Location.

H. D. Scuyler, of Albany, N. Y., has been in the city several days looking over conditions. He came to the Sunshine Territory to choose a site for the location of a co-operative settlement of New Yorkers. For a year a proposition has been considered by people living in and around the Empire state capital of moving to New Mexico. As a result one hundred families are already prepared to come here when the proper site has been selected.

The people who are to immigrate are Odd Fellows and Modern Woodmen of America in whose lodges in and around Albany, N. Y., the scheme has been fostered. The company includes 65 farmers, many carpenters, business and professional men. None are included who are not property holders and many have considerable wealth. Farmers interested in the project are advertising and selling their farms. Many have already sold.

The plan is to found a co-operative town. Mr. Scuyler had a conference with the Arroyohondo promoters Monday, and if the company fulfills the demands of the eastern settlers they will doubtless come to this part of the territory. The Hondo people said they would build a store on the proposed town site, and furnish electricity and build an electric road to Santa Fe. This would give the settlers opportunity to send their children to the capital city for education. It is claimed that sufficient power for such an enterprise can be secured from Dam No. 2.

The Hondo people expect to begin work upon their irrigation project the first of the year, and claim they can have water for the farmers within four months. The York states, however, will not immigrate anywhere until they are sure everything is right for success. Mr. Scuyler is looking over different parts of the territory. He examined the Hondo field carefully and leaves tomorrow to look over conditions in the Estancia valley.

Mr. Scuyler was formerly a district deputy of the Modern Woodmen, and is well known about Albany and that part of the Empire states. The different Odd Fellows and Woodmen lodges have been uniting in this scheme to form a co-operative settlement, and all desire to locate in the Sunshine Territory. The settlement, wherever made, will carry with it a large amount of capital for the development of that portion of the territory where they settle. Their representative, Mr. Scuyler, is well pleased with the outlook, and hopes to bring his settlers to New Mexico at an early date.

NO CHANGE TO BE MADE IN WOOL DUTY

Committee Indicates That Tariff on Shoddy May Be Cut—Hearings Are Ended.

Washington, Dec. 22.—Unless it is decided to call further witnesses before it, the tariff hearings of the house ways and means committee have been completed. W. A. Graham Clark, an expert on woollens, connected with the bureau of manufactures of the department of Commerce and Labor, appeared before the committee today. He gave a mass of figures relating to the cost of production in various wool-producing countries, and supplied the committee with figures as to shrinkage, shoddy and other matters relating to wool. From the character of the questions put to him it is indicated that a reduction of the duty on shoddy is favored, while it is hardly probable that any change will be made in the woolen schedule generally.

EARTHQUAKE SHOCK TERRIFIES MONTANA

Six Tremors Were Felt and the Ground Opened in Many Places in Wide Cracks.

Virginia City, Mont., Dec. 22.—Six earthquake shocks within 24 hours have thrown the people of this city almost into a state of terror. The ground in some places opened for a space of three inches and at Crater Lake, six miles from here where this is an extinct volcano, the ground opened a foot and a half.

Cabmen Strike in Gotham.

New York, Dec. 22.—A general tie-up of all stables and garages owned by members of the livery stable owners' association was caused today by cabmen and chauffeurs who are on a strike in this city, and whose leaders have ordered out 1200 still at work in fifteen stables. This means that 2,500 men will be on a strike and forty-five stables badly crippled or idle. This is the second big cab strike in New York City within three months.

Bishop Michaud Dead.

New York, Dec. 22.—Right Rev. John Steven Michaud, bishop of the Roman Catholic diocese of Burlington, Vermont, died at St. Vincent's hospital today of Bright's disease.

NEW MINISTRY AT HELM IN CARACAS

Castro's Overthrow is Made Complete. City Quiet

ATTEMPT ON GOMEZ LIFE

Charges Filed Against Dictator and Impachment Is Demanded.

Caracas, Monday, Dec. 21, via Willemstad.—The downfall of President Castro was made complete Saturday when a desperate attempt to assassinate Juan Gomez, acting president, was frustrated. Secret cablegrams have passed between Castro and his agents here since the popular demonstration against him December 13 and 14, and from these a prominent lawyer has filed accusations in court charging Castro with complicity in the attempt to assassinate Gomez, and asked that Castro be impeached.

There have been no repetition of the anti-Castro demonstrations, but the enforced resignation of the Castro cabinet, which occurred last Thursday is regarded as sealing the fate of President Castro in Venezuela. The fall of the cabinet is the logical outcome of the fact that Acting President Gomez permitted the anti-Castro demonstration in Caracas in the early days of this week.

The new Venezuelan administration has revoked the decree prohibiting the transporting of goods destined for Venezuelan points. This revocation is regarded by all well-informed persons as practically a settlement of the dispute between Holland and Venezuela.

Willemstad, Dec. 22.—This city is still without direct news from Venezuela, but reports brought in here today by the steamer Zulia, indicate that the political outbreak against President Castro last week has been followed by other developments showing the continued unrest of the country. It is said that the political prisoners at Puerto Cabello have been set at liberty and that several followers of Castro have been imprisoned. It is furthermore rumored that two Venezuelan delegates left Caracas for Willemstad to open negotiations with the Colonial government looking to an arrangement of all existing difficulties.

A change in ministry has been effected and was made known only after the arrival of 1,500 soldiers from the interior, who are loyal to Gomez. There is much military activity everywhere, and troops are being recruited and armed with energy.

Berlin, Dec. 22.—News of the appointment of a new Venezuelan cabinet came as a complete surprise to Castro and his associates in Berlin, and was received with more or less apprehension. The Venezuelans have no confirmation of it, and for this reason are inclined to discredit it, as they have other Venezuelan news known to be authentic.

SENATOR TELLER STILL CLINGS TO SILVER

Hopes to Persuade Monetary Commission to Use It as a Basis for Notes.

Washington, D. C., Dec. 22.—Senator Teller was not at his office today, but there is no doubt that the letter made public last night addressed to Morton Frewen of England, which has been attributed to the senator is genuine. In this letter Senator Teller seems to indicate plainly that the currency commission has under consideration a plan to issue circulating notes secured by silver, if the government of India will co-operate. It was, however, a mere personal expression of Teller's views, and was not intended in any way to commit the monetary commission to the opinion expressed. Teller and Frewen have been in perfect accord on the silver question for fifteen years and have maintained a correspondence during that time. This letter, therefore, is only one of many on the subject.

Later in the day Senator Teller said that in his letter to Frewen he inadvertently used the word "we." He added that the letter to Frewen was entirely personal, and was written without consultation with the commission, but he said it is inevitable that the commission should at some time during its labors consider the question of exchange with India, which subject forms the basis of his letter.

JUSTICE OF PEACE IS ARRESTED FOR SHOOTING

Trinidad, Colo., Dec. 22.—Early Sunday during a Mexican dance at Aguilar, S. M. Vigil, a justice of the peace at that place, it is alleged, fired at 10 or 12 Mexicans with a six-shooter, the bullet striking Frank Maestas in the right arm near the shoulder. Vigil was overpowered by the other Mexicans and later arrested and brought to the county jail here.

According to reliable information, it is said Vigil attempted to quell a disturbance at the dance while the crowd adjourned to the street. During the conversation, it is alleged, Vigil suddenly drew a revolver and did not fire at any particular one, but just into the crowd.

Vigil was released from jail tonight on bond and returned to Aguilar.

Coughs that are tight, or distressing tickling coughs, get quick and certain help from Dr. Shoop's Cough Remedy. On this account Druggists everywhere are favoring Dr. Shoop's Cough Remedy. And it is entirely free from Opium, Chloroform, or any other stupefying drug. The tender leaves of a harmless lung-healing mountainous shrub give to Dr. Shoop's Cough Remedy its curative properties. Those leaves have the power to calm the most distressing Cough, and to soothe, and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babies. Test it once yourself, and see! Sold by Stripling, Burrows & Co.

The Bon Ton restaurant is now under the management of Hugh F. DuVal, who has bought out the interest of John V. Conway. TERRITORIAL NEWS NOTES

In the case of the United States against Carl Adamson, William Sullivan and John N. Webb, at Alamogordo, charged with smuggling Chinese into the country, Adamson and Sullivan were convicted and sentenced to one year and six months in the penitentiary. Webb was acquitted. Adamson's and Sullivan's lawyers appealed the case and the court fixed the amount of their supercedas bond at \$1,000. Adamson furnished bond, but Sullivan being unable to do so, was committed to the penitentiary at Santa Fe to begin serving his term.

A brick storehouse will be erected at Clovis, N. M., at an estimated cost of \$21,000. The dimensions will be 50x200 feet.

Quite a few of the farmers near Montoya have signed a paper now being circulated, stating the number of acres of broom corn they will plant this coming season with a view to causing sufficient machinery to be purchased to harvest seed and bale the same.

Freight Conductor Jim Durst came into Clovis from Vaughn this week with ninety-three cars in his train attached to engine No. 1975. This is the longest train ever pulled over the cutoff.

The Clovis Potato Growers' association is the name of the latest organization in Clovis. The object of the association is to promote the planting, cultivation and growth of Irish potatoes among the farmers in Roosevelt and Quay counties; to procure buyers for the potato crop and to devise and adopt ways and means suited and designed to aid the farmers in said counties in marketing the crop.

The Methodist Episcopal church, south of Tucumcari will build a new church in the near future to cost about \$16,000.

E. R. Buchanan, of Temple, Texas, has bought the Holder claim, one and three-quarter miles from Clovis, for a consideration of \$4,000.00. There was but little improvements on the tract. The real estate firm of Reid & Mansfield made the deal. G. W. Puckett sold his claim this week for a consideration of \$8,000.00. This claim is located near the junction of the P. V. tracks, about a half mile west of the round house.

The boilers and engine of the 75-ton ice plant in Clovis are being put in place this week and the brick is on the ground for the construction of the building over them as soon as they are in place. It is something like the plan of putting the furniture on the ground and building the house over it. The new ice plant when in working order will be able to ice thirty to forty cars daily.

Fire broke out Friday night in the store room of the Allbritton, Brake & Apple company in Raton which resulted in the almost total destruction of the contents of the building and serious damage to one of the finest store buildings in the city. The fire was evidently caused by bad electric wiring. The stock of goods was valued at \$125,000 and was insured for three-fourths its value. The building was soaked with water from roof to basement.

Clovis is growing. There is a \$100,000 Santa Fe railroad machine shop in course of construction; \$200,000 are being invested in terminal improvements, such as round house, power house, coal chutes, water works, sewerage, 25 miles of siding and other things too numerous to mention; 1,000 families settling upon what was known as the disputed railroad land within the trade territory of Clovis; twenty-five miles more of new railroad, a two railroad division point with prospects in the near future for the third, a \$15,000 new brick school building, a \$25,000 electric light plant soon to be in operation, a \$5,000 brick church and \$75,000 in new residences. Five new brick business houses are some of the latest improvements.

James Thwaites, aged 71 years, died at his ranch home at White Signal shortly after midnight Wednesday, Dec. 16, after a lingering illness of several weeks, of complications due to old age. In accordance with the express wish of the deceased, the body was buried on the home ranch, where he had settled a quarter of a century ago, and where during the intervening years he built up a large cattle business.

The Franciscan fathers at St. Michaels, Arizona, near Gallup, will issue in the near future a dictionary of the Navajo language, upon which they have been engaged for the past ten years. The book, besides containing a vocabulary as complete as it is possible to be obtained, will also have a series of articles on Navajo religion, ceremonies, arts and industries, each to be followed by a list of Navajo terms employed, with more or less detailed explanation.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by all druggists.

The old-fashioned way of joshing a weak stomach, or stimulating the heart or kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fail, then those organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days and see! Improvement will promptly and surely follow. Sold by Stripling, Burrows & Co.

Good Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by all druggists.

SHERMAN ANTI-TRUST LAW WILL BE IMPROVED.

The Sherman anti-trust law will not be taken off the statute books, but will be continued in force, and will be strengthened for the benefit of the entire people, and especially of the laboring men and of the wage worker.

In discussing this subject President-elect William Howard Taft spoke eloquently, and for the best interests of all the people at the great banquet last Monday night in the big city of New York in which speech he indicated clearly in what direction his mind is pointing. He is not disposed to join in the hue and cry for the repeal of the Sherman act, nor is he of the number that would repeal it as to certain clauses of combination and continue it as to others. Nor does he suggest that he would deem it wise to introduce into the law an academic and declaratory differentiation between reasonable and unreasonable combinations. "I'm not quite ready," he said, "to part with the anti-trust law, the Sherman act. Probably it does need amendment, but even the amendments need not be extensive. It is more important to enforce it than to repeal it."

The Sherman law recognizes two forms of the evil against which it is directed. First, an agreement among producers of an article for the maintenance of its price and the suppression of competition. This is the part of the statute which was aimed at the trusts as they were first organized—at the system under which the combining concerns, maintaining their separate ownership and identity, placed management in the hands of a common committee or board of trustees. This form of the trust has practically disappeared—the law has gained a victory over it. The other form denounced was a monopoly of interstate trade, and covered the union of the conspiring companies into one company, which, by owning all or nearly all the plants, could control prices. It is to this big, consolidated company that the average person now refers when he speaks of a trust. Now the Supreme Court of the United States, as many times as it has reviewed the Sherman act, has never clearly construed this part of the act—has not defined what a monopoly is under this section of the act. Until it does it is obviously impossible to tell what amendment, if any, is necessary to the Sherman act. In the tobacco case this issue of what is a monopoly is raised, and it is possible that it is thrust forward in a way to compel the Supreme court to give judgment; but this is not certain, for the courts have a liking for side tracks, and do not decide anything more than is essential to the determination of the case before them. If the court shall ever say that the mere consolidation of plants into one company and ownership is a monopoly as that term is used in the Sherman act, then it will obviously be necessary to amend the Sherman act, for it will be at war with political economy; but until the court so speaks no one has a right to say such will be its decision.

In the carefully prepared address that he delivered when announcing his candidacy for the presidency, Mr. Taft indicated what, in his opinion, should be the decision of the Supreme court when it passes on the monopoly issue. He declared it his opinion that there must be something more than union or consolidation, no matter how large the aggregate, before the Sherman law is violated. "There must be some use by the company," he said "of its comparatively great size either to coerce persons to buy of it rather than of some competitor, or to coerce those who would compete with it to give up their business. There must, in other words, be an element of duress in the conduct of its business toward the customers in the trade and its competitors before mere aggregation of plant becomes an unlawful monopoly."

It is thus in the conduct of the business rather than its organization that Mr. Taft would look to discover the badge of unlawful monopoly. His doctrine in essence is that the law does not prohibit aggregation, even though it extends to bringing all the plants of an industry into one ownership—that a purpose to restrain trade will not be imputed and punished until the company overtly does things in restraint of trade. If this theory is correct it is unnecessary further to legitimate consolidation, and legislative effort should be directed to defining what specific conduct is in restraint of trade, and therefore to be punished by fine and imprisonment.

Mr. Taft in effect says to the captains of industry: "Consolidate as you please, but watch your behavior after you consolidate." What opinions President Roosevelt entertains concerning the trust problem have always been enveloped in a thick haze,

but in the obscurity they are integrated enough to make it clear that as to one most fundamental matter the next president has different ideas.

THE NEW SECRETARY OF STATE.

President-elect William H. Taft has announced that United States Senator Philander C. Knox of Pennsylvania, one of the greatest lawyers and foremost statesmen of the country, will be selected to serve as secretary of state under the incoming Republican administration. The appointment is a very happy and unsolicited one and could not be improved upon. The Republicans of the country will approve it heartily and the newspapers all over the country, those of Republican faith, are lauding it very highly. Referring to this the Denver Republican takes occasion to approve it in the following very correct and pertinent language, saying that:

"The acceptance of the position of secretary of state in the Taft cabinet by Senator Knox of Pennsylvania, augurs well for the next national administration. The President-elect has chosen wisely. He has been fortunate as were his predecessors in getting for his 'premier' a citizen of the republic who has demonstrated in two cabinets his ability, statesmanship and progressiveness. He will uphold the standard set by Secretaries Hay and Root. Mr. Knox is a keen, hard-headed lawyer, who has placed his unusual ability and experience at the service of his country from a conscientious conviction that to amass money is not the be-all and end-all of an American citizen. When he entered the McKinley cabinet he was in the prime of life and in the enjoyment of a lucrative law practice. He at aside this practice and entered on a larger field.

Mr. Root will retire from the Roosevelt cabinet to enter the United States Senate; Mr. Knox will leave the Senate to enter the cabinet. Each man to his bent. The former would prefer to be an important part of the law-making body, while the latter would deal direct with the representatives of foreign governments and lend counsel to the cabinet.

Senator Knox is a product of the modern world of economics. In his private capacity he served the trusts and great combinations as their legal advisor. In his public capacity—and no man did more to uphold the right arm of President Roosevelt in his assaults upon the citadel of entrenched wealth than his attorney general—he has seen to it that the rights of the citizens were protected from modern combines. Mr. Knox has grown with his public duties. When he was chosen to enter the McKinley cabinet the radical and short-sighted people and publications in the country objected fiercely to the appointment of a "trust lawyer" to be attorney general. But McKinley's judgment in this as in many other matters of like nature was sound. Mr. Knox began slowly but he never lagged. When the "psychological moment" arrived later under another President he was well prepared to proceed. There was nothing of the doctrinaire or theorist about him. He was the eminent lawyer with the public as a client. Before proceeding he had taken every precaution to guard his clients. One after another the forts fell before him. He was the practical, business reformer.

"The office of secretary of state at Washington is becoming of greater importance every year. This republic has become, not so much of its own volition as through a culmination of events arising beyond its boundaries, a world power in the proper sense. It has interests to guard in the Orient; it is getting into closer communication with the Latin republics to the South, and from a trade standpoint it must maintain a standing with European nations. Mr. Knox has the poise and foresight to carry forward the splendid work of his predecessors in enlarging the trade channels of his country and advancing the cause of freedom."

They are still wrangling over the question of voting bonds for the construction of the sewer in Albuquerque. The people there should know that wrangling builds no sewers, and they certainly know that a good and extensive sewer system is very necessary for the well being and advance of the Duke City. There is one point which counts against the proposition, and that is, that the Albuquerque Morning Muckraking Journal is supporting it. That paper has been so corrupt, and so gaffy during the past few years under its present management, that people have come to believe that any measure advocated by the yellow sheet, no matter how beneficial or desirable apparently, is to be defeated because of the advocacy of this muckraker.

THE AMENDMENT OF THE CONSTITUTION.

President-elect William Howard Taft is not only one of the most intelligent citizens of this country, but is also a very far-seeing and well-posted man upon conditions of this great country and what the country desires. In a recent speech he declared that he favored that the judges of the Supreme court of the United States should construe the constitution, rather than to have this important document amended by public upheavals that are always more or less dangerous and hurtful. Judge Taft is absolutely correct, and it is for the good of the whole country that he has such views. Discussing the question, the Kansas City Star views it rightly and properly in saying editorially that:

"A number of worthy lawyers have doubtless been on the verge of spasms since Mr. Taft declared the necessity for the courts to construe the Constitution in such a way that it would continuously meet the national needs. It is a legal fashion to believe that this is a dangerous doctrine, placing the legislative power in the hands of the judiciary. 'Legislation by construction' is indeed a mouth-filling phrase.

"Well, there are two ways of acceding to the letter of the Constitution to the new situations that arise with a growing civilization. One is by amendment; the other is by construction. It has so far proved to be impossible to amend the Constitution except under some almost revolutionary stress. Admittedly it should be made easier to amend that document. In the meantime—and even when specific amendments can be quickly made—it will be the duty of the courts to interpret the Constitution for what it was meant to be—an instrument to give force to the will of a free people.

"Mr. Taft said: 'I think that we can depend upon the acumen, the patriotism and the ability of the members of the Supreme court of the United States so to construe the Constitution as to enable us to carry out the reforms that are needed as the nation advances, giving to the government the power of dealing broadly with the greater problems, and to the states the power of dealing with the lesser ones. By this I do not mean at all that the Constitution is to be perverted, but when we examine that wonderful instrument we find that the men who made it, made it short, comprehensive and simple, that it might be open for us to carry out what the future had in store.'"

"There is in this statement nothing but patriotism, statesmanship and common sense. Those who would see in it anything revolutionary do not know the history of the Constitution nor of American jurisprudence. The Constitution is what it is today because John Marshall and lesser supreme justices of early and later days construed it to mean what they sell it meant. It is not possible to avoid legislation by construction. The only question is whether the Constitution shall be construed to fit the needs of the great nation that has grown up under it, or whether the needs of that great nation shall be construed to fit the petrified letter of an altogether different day.

"Judge Taft conceives so highly of 'the wonderful instrument' as to believe that it does not stand in the way of the Republic's progress, nor oppose the essentials of a righteous society."

The best interests of the people of New Mexico demand a number of changes in federal and territorial officials during the coming session of the legislative assembly. Such a course on the part of Governor Curry will serve the public interests and prove for the good administration of the territory. There are a number of officials now holding federal and territorial office who are utterly incompetent and unworthy to hold official position.

The New Mexican hopes United States Senator Albert J. Beveridge of Indiana, who has been opposed to statehood for New Mexico, has seen the error of his ways, and will, when the 60th Congress reassembles, support the enabling act for New Mexico to become a state now pending in Congress and introduced by Delegate W. H. Andrews. The New Mexican hopes that the Senator will withdraw all opposition and will support the measure.

The year 1909 starts out under most favorable auspices for the people of this territory, and next year promises to be a very prosperous and good year in which much progress will be made and great prosperity will obtain.

Congress has adjourned for the holidays and hence there is nothing doing politically in the national capital, and in the capital of New Mexico. Political matters, however, will again be lively after the holiday recess.

Herewith are some bargains offered by the New Mexican Printing Company: Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c; Missouri Pleading forms, \$5; Missouri Code Pleadings, \$6; the two for \$10; Adapted to New Mexico Code, Laws of New Mexico, 1899, 1901 and 1903, English and Spanish pamphlets, \$2.50; full leather, \$3; Sheriff's Flexible Cover Pocket Docket, single, \$1.25; two or more books, \$1 each; New Mexico Supreme Court Reports, Nos. 2 and 10 inclusive \$3.50 each; Compilation Corporation Laws, 75c; Compilation Mining Laws, 50c; Money's Digest of New Mexico Reports, full sheep, \$6.50; full flat school blank.

Muscular Pains Cured.
"During the summer of 1903 I was troubled with muscular pains in the instep of my foot," says Mr. S. Pedlar, of Toronto, Ont. "At times it was so painful I could hardly walk. Chamberlain's Pain Balm was recommended to me, so I tried it and was completely cured by one small bottle. I have since recommended it to several of my friends, all of whom speak highly of it." For sale by all druggists

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. HALL'S Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Address: F. J. CHENEY & CO., Toledo, Ohio.
Sold by druggists, 75c.

THE FIRST NATIONAL BANK

OF SANTA FE.

The oldest banking institution in New Mexico, Established in 1870
RUFUS J. PALEN, President. JOHN H. VAUGHN, Cashier.
LEVI A. HUGHES, Vice President. ALFRED H. BRODHEAD, Assistant Cashier.
Capital Stock, \$150,000. Surplus and undivided Profits, \$63,508.

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency, public or private. Interest allowed on time deposits at the rate of three per cent per annum, on six months' or year's time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in its banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

PERSONAL MENTION

W. W. Corbett left yesterday for
Brookfield, Pa., where he will spend
the holidays.

B. S. Phillips of Buckan arrived in
the city yesterday on business mat-
ters. He registered at the Normandie.

Miss Irene Whitmore of Las Vegas
went to Watrous yesterday, where she
will be the guest of Mrs. Wengel till
Wednesday.

Miss Louis Cunningham of Las Ve-
gas reached home last evening from
Mt. Ida Seminary at Newton Heights.

J. P. McNulty of Cerrillos arrived
in Santa Fe yesterday to purchase sup-
plies. While in the city he was a
guest at the Palace.

Miss Mary Coors, daughter of H. C.
Coors of Las Vegas, has returned from
Kansas university at Lawrence to
spend the holidays with her father.

Arthur Clouthier is expected to ar-
rive from the City of Mexico at his
home in Las Vegas some time this
week to spend the Christmas holidays.

Mrs. A. B. Cone and daughters ar-
rived last evening in the city from
Chicago to enjoy Santa Fe's superb
climate. They registered at the Pal-
ace.

Judge James O'Brien, a former chief
justice of New Mexico, is in Las Ve-
gas from his Minnesota home, the
guest of his daughter, Mrs. D. J.
Leahy.

Cards have been received in this
city announcing the marriage of Miss
Leona Meade Buswell to Mr. Warren
C. Ward at Hastings, Neb., December
8, 1908.

District Clerk Secundino Romero
and wife left Las Vegas yesterday for
their ranch at El Cuervo. Mrs. Ro-
mero will return to Las Vegas as soon
as possible.

Judge Alphonso Hart, who has been
the guest of his son, E. W. Hart, in
Las Vegas, looking after litigation in
the district court, departed for his
home in Washington, D. C., Sunday.

Miss Laura Wood, daughter of J.
A. Wood, superintendent of schools,
returned Saturday evening from Ot-
tawa University, a Kansas educational
institution where she is a student, to
spend the holiday vacation at home.

Gov. George Curry, who left Wash-
ington Sunday evening, is expected to
arrive home either tonight or tomor-
row morning. No word has been re-
ceived from him since he left the na-
tional capital.

Judge Thomas A. Tillotson, register
of the U. S. land office at Roswell, is
reported very ill with pneumonia. He
assumed charge of the office but a few
months ago, and overwork in straight-
ening out its accounts is believed to
be the cause of his illness.

Dr. R. S. Parsons, an osteopath
from Roswell, was in town Sunday en
route home from East Las Vegas, to
which place he had taken an insane
man to the insane asylum. This was
his first visit to Santa Fe, and he was
greatly pleased with the city.

E. A. Stevens has severed his con-
nection with the Claire hotel, and after
a few days' rest will go on the road.
Mr. Stevens' genial face will be great-
ly missed behind the desk, as he was
well known by the traveling public.
H. A. Hart succeeds to the clerkship
at that hotel.

Prof. J. H. Vaughan of New Mexico
Normal university faculty, will spend
part of his vacation in this city look-
ing up facts in regard to the history
of New Mexico. Dr. Vaughan is plan-
ning to write a history of New Mex-
ico, which promises to be a work of
wide interest, and he is spending all
of his leisure time in investigation.

Hon. Harper S. Cunningham a
member of the Oklahoma state senate
and a very prominent Scottish
Rite Freemason, who has spent the
past ten days in this city on Masonic
business, left this morning for his
home, greatly pleased with the splen-
did work that was accomplished here
in the rite while he was a visitor to
this city. He takes with him a very
good opinion of the city and its peo-
ple and especially of the Scottish Rite
Freemasons who are residents here.

Henry Grant, the prosperous Abi-
quiu merchant and sheep raiser who
came to the city Saturday and attend-
ed the Scottish Rite Masonic conven-
tions here for the last three days,
went north this morning to Denver,
where he will attend to commercial
business and then go to New York to
visit his family. Mr. Grant has a
son who is sixteen years old and who

Stop and figure out
how much money you
would save if you cut
your fuel bills right in
two, and still doubled
the heating power of
your coal. The result
will be the strongest of
all arguments why you
ought to own a Wilson
Hot Blast Heater. It is
constructed upon en-

For That Dull Feeling After Eating.

"I have used Chamberlain's Stomach and Liver Tablets for some time, and can testify that they have done me more good than any tablets I have ever used. My trouble was a heavy, dull feeling after eating."—David Freeman, Kempt, Nova Scotia. These tablets strengthen the stomach and improve the digestion. They also regulate the liver and bowels. They are far superior to pills but cost no more. Get a free sample at all druggists and see what a splendid medicine it is.

WOOL MARKET STRONGER

Bradstreet's review of the Boston wool market says:

Wool is comparatively quiet, manufacturers having supplied their needs pretty fully, while the available stocks of wool have been very materially reduced. There is, however, still a demand from day to day, and in some cases more of a demand than the dealers are able to meet, owing to the fact that they are still behind in deliveries on sales previously made. The market is very strong, and such price changes as are noted have been upward. Manufacturers have lately shown a more pronounced disposition to buy wool in the original bags, and several large transactions of this kind have been made during the week. A happening that shows the strength of the market as plainly as anything could is the reported contracting for Montana individual clips on the basis of 20 cents. This is thought to be even more of a speculation than in previous years, owing to the uncertainty regarding possible tariff changes, and the more conservative traders are disposed to deprecate any such movement. Some western growers who have recently been in this market expressed themselves as entirely willing to sell their clips in advance, practically on the basis of the last clip, and it is considered that they are taking no risk whatever in so doing. This movement to contract is by no means general—possibly no more than an intimation of what may happen if market conditions continue to improve—but it very clearly shows the marked change that has come over the wool trade in the past few months. Foreign markets continue very firm, and the wools now being bought in London and Australia are reported to cost more money than has been recently realized on similar wools in stock here. The bulk of the trading during the early part of 1909 will be in foreign wools, as the stocks of domestic in houses here are the smallest for years. Fleece wools have been especially strong and prices are now very nearly back to the level maintained before the slump of 1907, XX and above Ohio stronghold at 34 cents, fine unmerchanted at 27 cents, quarter blood at 27 1-2 cents, washed half blood at 38 cents, and the remaining stocks of these and other grades of Ohio fleeces are held for still higher prices.

Why pay more—when you can get not only 90 fine large cups of Dr. Shoop's Health Coffee from a 25c package—but a Coupon on a 25c silver "No-Drip" Coffee Strainer besides? Look for the Coupon—I put them in now. The satisfaction is, besides, most perfect. Sold by Cartwright-Davis Co.

Falling in Love.
I do not doubt that as the world goes on a deeper sense of moral responsibility in the matter of marriage will grow up among us. But it will not take the false direction of ignoring these our profoundest and holiest instincts. Marriage for money may go, marriage for rank may go, marriage for position may go, but marriage for love, I believe and trust, will last forever. Men in the future will probably feel that a union with their cousins or near relations is positively wicked; that a union with those too like them in person or disposition is at least undesirable; that a union based upon considerations of wealth or any other consideration save considerations of immediate natural impulse is base and disgraceful. But to the end of time they will continue to feel in spite of doctrinaires that the voice of nature is better far than the voice of the lord chancellor or the royal society and that the instinctive desire for a particular helpmate is a surer guide for the ultimate happiness both of the race and of the individual than any amount of deliberate consultation. It is not the foolish fancies of youth that will have to be got rid of, but the foolish, wicked and mischievous interference of parents or outsiders.—Grant Allen.

Knew the Sound of Wood.
There was an argument on a cricket field in a village near Nottingham, England, which interrupted the game for some time. The match was being played between the local tradesmen of the village. All went well until the bowler, who was the village constable, a man over six feet tall, sent a ball which bumped up from the ground and hit the village butcher, who was batting and who was exceedingly fat and perspiring freely, on the head. The wicket keeper, a remarkably thin and agile man, who was the village grocer, caught the ball and yelled, "Ow's that?" "Hout!" shouted the village baker, who possessed only one eye. "Hi say now!" roared the fat butcher, who refused to have it so. "But hit 'it me on the head." "Hi don't know where hit 'it you," responded the umpire, who was the village undertaker, "but Hi knows the sound of wood when Hi 'ears hit, so hout you go."

The Tricksters.
"Political tricksters always give themselves away," said a congressman. "Their methods remind me of the two men who wanted to sell their corpses for dissection. These two men, miserably clad, called on the dean of a medical college in New York. "We are both on the verge of starvation, sir," the spokesman said. "We are well on in years, and it is clear that we haven't much longer to live."

Would you care to purchase our bodies for your dissecting room?
"The dean hesitated.
"It is an odd proposition," he muttered.
"But it is occasionally done," said the spokesman in an eager voice.
"Well," said the dean, "we might arrange it. What price do you ask?"
"Over in Philadelphia," said the spokesman, "they gave us \$40."—New York Tribune.

Not So Bad as She Feared.
"George," she whispered as she crept a little closer and placed her head against his left hand second story vest pocket—"George, I want to ask you a question, a very important one. Why do you allude to papa as a pirate? Surely you must have some good reason for doing so?"
"I have, indeed," responded George, with a dreamy, faraway look in his eyes. "Pirates board people, you know, and I expect your father, if my plans work all right, to eventually board me."
"Oh, how clever you are, George! Do you know, I was awfully afraid you were going to get off that ancient chestnut about his being such an old freebooter, and I'm so glad you didn't, because all the fellows I've had have said that, and I was longing for something new."

A Natural Cross.
One of the most beautiful natural rock carvings in the world is the Southern Cross, on the island of Grand Manan, in the bay of Fundy. It stands at the head of a ledge of rocks jutting into the bay from the foot of one of the immense cliffs at the southern end of the Grand Manan. Its shape is that of an almost perfect cross.

Corroborated.
"Though many people think so who hear me play," said the long haired amateur, with studied carelessness, "I have no intention of becoming a professional musician. I play merely to kill time."
"I knew that as soon as I heard you," enigmatically replied one of his listeners.—Kansas City Independent.

Said What She Meant.
"Oh, I am so awfully ashamed of myself," said Edith Jones to her dearest girl chum. "When Henry proposed to me last night I intended to say, 'So sudden' but I quite lost my head and exclaimed, 'At last!'"

An Exception.
"Animals," said the teacher, "frequently become attached to people, but plants never do."
"How about Mrs. Teacher?" queried the small boy at the foot of the class.—Chicago News.

Hard to Tell.
Miss Oldgirl—Do you think Mr. Satisfactor is sincere when he writes that he loves me more than tongue can tell? Miss Peachblow—I dare say. He's tongue tied, you know.

The Lopsided Habit.
The girl was tugging her chiffonier across the room when a friend dropped in unceremoniously and demanded an explanation. "That's the third time you've changed that piece of furniture in so many months. I'd like to know the reason for such foolishness."

The girl gave the chiffonier a final shove into the corner and then said gaspingly: "In order that I may be beautiful on all sides, Sherlock Holmes is to blame for it. You know he pointed out that the side of the body which the light struck the most clearly is always dressed the most immaculately. He showed that on that side the hair would be most artistically curled, the powder most carefully applied, the neckwear most painstakingly adjusted."

"And I've found out a lot more things he didn't speak of. On that side a woman will pencil her eyebrows more cleverly, will massage her face more thoroughly, will put in her side comb more neatly, etc. So every month I shove my chiffonier across the room that I may not become lopsided."

About Flatirons.
Flatirons that are put away for a few weeks often get rusty, and the best way to prevent this is to rub a little warm grease over the surface and then wrap them up in brown paper. When taken out dip into hot water that has had a small piece of soda dissolved in it, rub dry and then put them to heat in the usual way. When they are ready to be used on the ironing board have a piece of brown paper with a little powdered bath brick on it and rub the surface of your iron with this. It seems rather a lengthy process, but it really does not take long to do, and housewives will be rewarded for the trouble they have taken by finding the irons delightfully smooth and easy to use, and when they are like this the work can be done twice as quickly.

The Baby Baskets.
Nothing is better for a baby basket than a wire dish drainer, either round or oblong in shape. They only cost 10 cents at any store where kitchen goods are sold. Cover the wire with blue cambric or blue satin first. Over that place white dotted or plain muslin, rather full. Make a deep ruffle edged with baby lace to fall over the outside. Cut out a piece of cardboard to fit the bottom. Cover it with a layer of cotton batting. Cover with the cambric and then the muslin.

Sprinkle sachet powder on the cotton batting if one cares to have the basket

scented. Make little pockets and pin cushion to fasten on the sides. Around the top edge sew beading with ribbon run through it. The wire frame is durable and light.

Introduction Customs.
In introducing a woman and a man the latter should be presented to the former, as, for instance, Mrs. Jones, allow me to present Mr. Smith. In the case of two women, one elderly, the younger should be presented to the elder as a pretty mark of respect, as, Mrs. Jones, my friend, Miss Brown. In the event of one party to the introduction being an elderly man of prominence it would be proper to show him the deference and present both a man and woman if younger to him.

A Dainty Sandwich.
A very pleasant and healthy variation of the meat, jam, egg or lettuce sandwich can be made with the assistance of the nutritious currant. Take a teaspoonful of currants and rub them in a cloth; then butter rather thickly some thin slices of bread. Cover the buttered bread all over with currants, sift a very little castor sugar over them and make into sandwiches. This satisfying little novelty is wonderfully appreciated and will not fail to delight the children.

To turn out a hot pudding plunge the mold or bag into cold water for thirty seconds. If it is a cold pudding, a jelly or blancmange, dip it for an instant in very hot water. If ice cream refuses to leave a mold after being loosened wrap for an instant around the mold a cloth wrung from boiling hot water.

To clean zinc dip a piece of flannel in paraffin and with it well rub the zinc, which should then be washed with hot water and soap to remove the smell of the oil and polished with a dry cloth.

When running brass rods through window curtains put an old glove finger over the end that is being pushed through the hem. Unless this is done the material is apt to tear.

A dyspeptic can eat and retain raw eggs when nothing else will stay on the stomach.

Preventives, the new Candy Cold Cure Tablets, are said by druggists to have four special specific advantages over all other remedies for a cold. First—They contain no Quinine, nothing harsh or sickening. Second—They give almost instant relief. Third—Pleasant to the taste, like candy. Fourth—A large box—48 Preventives—at 25 cents. Also fine for feverish children. Sold by Stripling, Burrows & Co.

MINOR CITY TOPICS

Denver, Colo., Dec. 22.—Weather forecast for New Mexico: Fair tonight and Wednesday with stationary temperature.

Our Christmas candies have just arrived by express. Fischer Drug Co. Orphanage Christmas—The children at St. Vincent's orphanage will be given a Christmas tree entertainment Christmas eve. The treat will include all that goes to make young hearts happy.

Christmas Rush On—There is a decided impetus to the Christmas trade today. The stores are filled with shoppers choosing Christmas presents and all the business men report a great revival in business today.

Work Begins Soon—Contractors Lyon & Axtell of Pueblo, who have secured the contract for the erection of the Elks opera house, expected to begin the work of excavation the 28th. The work will be pushed to completion as fast as possible. The contract calls for the construction of the building within 100 working days.

Get your Christmas candy of Fischer Drug Co. The freshest candy in town. Standpipe Overflowed—There was a skating ring along the tracks before the D. & R. G. depot this morning as the result of an overflow of water which took place yesterday afternoon when a standpipe in the water works system in the railroad yards gave way flooding that portion of the city. Before the water could be shut off a miniature lake had been formed.

Indians to Give Cantata—Supt. Clinton J. Crandall of the United States Training school has arranged for a festival on New Year eve for the Indian pupils at the institution. A cantata called "Quintessa," will be rendered by several Indian girls and boys who have been instructed carefully and will make a success of the performance. The affair promises to be very pleasant.

Our holiday goods are reasonable in price. Call and inspect them. Fischer Drug Co. Held for Grand Jury—Justice of the Peace Ma. Garcia of Precinct No. 17 yesterday afternoon heard the case against E. Pimiento Romero, charged with stabbing Tomas de la Ora at a dance at Arroyohondo Saturday night. The judge held Romero for the grand jury on the charge of assault with intent to kill in the sum of \$1,000. The defendant was unable to give bond and was remanded to the county jail.

Crowd at Opera House—A good crowd witnessed the first lot of Christmas pictures at the opera house last night, and were well pleased, especially with the "Leprechaun," the Irish fairy story. The drawing for the oak rocker will take place Friday, and every ticket purchased until then will have a chance to get it. Don't forget to send the children to the matinee tomorrow to see the Christmas pictures.

Weather Report—The weather forecast is for fair weather. The maximum temperature yesterday was 38 degrees at 3:40 p. m. and the minimum 16 degrees at 4:30 a. m.; the mean temperature was 27 degrees or 2 degrees below the normal. Relative humidity at 6 a. m. was 68 per cent; at 6 p. m. 64 per cent; relative humidity average for the day, 66 per cent. Lowest temperature last night, 17 degrees; temperature at 6 a. m. today, 20 degrees.

Cigars in Christmas packages at Fischer Drug Co. You can get his favorite brand here.

Bank Report—The report of the condition of the United States Bank and Trust company at the close of business Saturday, December 19, shows that the institution is in a flourishing condition. Its total resources are \$167,033.10 and its deposits have grown to \$116,400.15. In the recent changes in the bank's officers C. H. Bowlds succeeded G. H. Ingraham as cashier and N. A. Perry was elected vice president. These two young men take hold of the active management of the bank's affairs under auspicious circumstances.

Museum Visitors—Recent registrations at the rooms of the New Mexico Historical society are: G. E. McColm, Viola McColm, Bucklin, Kansas; T. W. Tolbhoof, Marshfield, Ore.; W. D. Southworth and wife Grand Lodge, Mich.; Capt. and Mrs. C. B. Humphrey, U. S. A.; C. L. Parsons, Roswell; David R. Boyd, Norman, Okla.; Mr. and Mrs. M. W. Higgins, Traverse City, Mich.; H. E. Gardner, Chicago; Charles Eckhart and wife, Auburn, Ind.

Will Build Home—T. C. McConnell has sold the lot on Lincoln avenue between the property of F. E. Nading and J. J. Goutchy to August Reingardt. Mr. Reingardt will improve the lot with a modern cottage for a home.

At the Penitentiary—There are now 271 prisoners confined in the territorial penitentiary. Twenty-seven of them are at work on the construction of the scenic highway between Raton and the Colorado state line. Twenty are engaged on the construction of the extension of the capitol building and the remainder in making bricks. There are constant and steady orders for bricks, and the force is kept very busy. The new reservoir is completed, and water is being pumped into it from wells on the penitentiary grounds. Everything is very peaceful and orderly at the territorial prison.

Letters Held—The following letters and postal cards are held at the local postoffice on account of postage due, or for better address: David Garcia, Atarque, New Mexico; Miss Linnea Forsell, 116 W. 109th Place, Roseland, Chicago, Ill.; Mrs. E. CONTRACTOR DID NOT KNOW THE LAW
An Arrangement to Pay Armory Laborers Half in Goods Is Stopped.

Complaint was made to Mayor Jose D. Sena last Sunday by some laborers employed at the building of the new armory that they had been compelled to take half of their week's pay in goods from the store of Frank Andrews, who has a store on the south side. Mayor Sena investigated the complaint, and found that it was true, and he immediately ordered Contractor Dahlgren and Andrews to stop making the payments in this manner. Mr. Andrews and Contractor Dahlgren both explained the matter, and said that they did not know that they were violating the law, and promised that subsequent payments would be made in cash.

According to their explanation, Contractor Dahlgren got Mr. Andrews to hire his laborers for him. Andrews in making the contracts with the laborers stipulated that they should come to him for their pay, and that they should take half of it in goods from his stock. Inasmuch as there was no intentional violation of the law, no further action will be taken in the matter.

CHILDREN ORGANIZE LOCAL LOYAL LEGION

Are Enthusiastic and Will Keep Open House on New Year's Day.

Mrs. E. A. D. Blair was in Santa Fe last week and held a children's meeting for the purpose of getting them ready for organization of a Loyal Temperance Legion. The children met later in the week at the W. C. T. U. rooms, and a permanent organization was effected. The organization is under the superintendency of Miss Blackshear and Miss Sloan. The children are most enthusiastic and have planned to keep open house on New Year's afternoon from 3 to 5 p. m. at the W. C. T. U. headquarters, 105 Washington avenue. They extend a cordial invitation to parents and all their friends. If the fathers and mothers of this territory were as enthusiastic as the children there would be no doubt but that our new state would come in right. "The children of today are the statesmen of tomorrow."

CALL OUT FOR DRY FARMING CONGRESS

Meets at Cheyenne in February of Next Year in Third Session.

The official call for the Trans-Missouri Dry Farming Congress to be held at Cheyenne February 23 to 25 inclusive of next year has been received in this city. The call is sent to governors of states, agricultural colleges, state boards of agriculture, and all executive officials of cities, railroad and commercial bodies. The purpose of the congress as set forth in the call is to discuss all matters pertaining to dry farming in the arid region of the West, as well as to take steps looking to the greater encouragement to this sort of farming from states and the national government. The congress will be a strictly business affair, and the matters debated will be handled by practical men who are experts on the subjects.

Foreign nations have been invited, through the courtesy of the department of state, to participate and the congress will assume an international character.

Men of prominence in the public life of the west, who have led in development, will participate in the program.

Governor George Curry is third vice president of the congress and Prof. J. D. Tinsley of the Agricultural college at Mesilla Park, is a member of the board of directors.

GUARDING AGAINST SPREAD OF DISEASE

Children Must Have Certificates When They Return to School After Holidays.

Owing to a few cases of scarlet fever and one case of diphtheria which have developed in the city, and owing more especially to the reports of the prevalence of these diseases in the nearby villages, Mayor J. D. Sena and the city board of education has passed an order that when children return to the schools after the Christmas holidays they will not be received unless they bring with them a certificate from a physician showing that there has been no contagious disease in their families during the holidays.

This is a precautionary measure and the board hopes that parents will cooperate with them in preventing the spread of the diseases which have made their appearance in isolated sections of the city.

YOUNGSTER OF THREE STARTS ON JOURNEY

La Junta, Colo., Dec. 22.—Wallace Hubbard, son of Mrs. W. W. Hubbard, a widow, celebrated his third birthday anniversary by running away from home, and when Santa Fe passenger train No. 6 came through got on board unnoticed by the conductor or the brakeman and is now speeding on his way to Las Vegas, N. M., where he will be put off the train and sent home.

His mother did not know that he had disappeared until some time later and then thought he had only gone to a neighbor's. When a search failed, she became alarmed and this afternoon the fire alarm was sounded and all the citizens of the town joined in a general search until a laundryman was found who had seen the boy get on the train. He had thought nothing of it at the time, believing the child's mother was along.

Word was telegraphed ahead of the train, and the boy located.

Paddock-Cahall

Monday evening at half past six o'clock at the Church of the Holy Faith, Miss Ethel Paddock and W. H. Cahall were quietly married. Rev. W. R. Dye, rector of the church, officiating. The bride was given away by her uncle, Dr. Shoop of Racine, and only the immediate relatives of the family were present. After the ceremony the newly-married couple left for Mexico, where they expect to remain for several months. Mrs. Paddock, mother of the bride, has gone east to spend the holidays at her old home, but will return to Santa Fe later and Mr. and Mrs. Cahall will spend much of their time with her here. Mrs. and Miss Paddock came to Santa Fe several years ago and have made many friends here, who will wish for the bride a future of much happiness.

FRIEND OF TERRITORY
MAY GET KNOX SEAT

The acceptance by United States Senator Philander C. Knox of the portfolio of Secretary of State under the Taft administration will be of greater interest to people of this city because of the fact that James Francis Burke who was manager of the Knox presidential boom last summer is likely to succeed Senator Knox in the senate. Mr. Burke is now congressman from the Pittsburg district, and is close to Senator Knox. He is a brother of Edward C. Burke of this city. Congressman Burke has been a good friend of the territory and has worked diligently with Delegate Andrews to get the statehood bill passed. His most formidable opponent for the senatorial toga which will be laid down by Senator Knox is Henry C. Frick, the steel magnate, who lives in New York and is a millionaire several times over.
