## LAVISHLY ENTERTAINED

### Were the Members of the Legislature of New Mexico

### THE GOVERNOR'S RECEPTION

### One of the Most Elaborate Social Events Ever Given In Good Old Santa Fe.

It was a happy throng, indeed, that wended its way last night to the Old Palace Building to attend the reception of Governor Curry to the members of the Thirty-eighth Legislative Assembly. The electric sign of "Welcome" over the entrance blazed forth the announcement of boundless hospitality awaiting within and from 8 until 11, a steady stream of visitors passed in and out. It is estimated that the guests numbered between 400 and 500. Every possible provision had been made for their comfort and enjoyment and yesterday an immense amount of work was done by way of preparation. Nor did the efforts of the workers fail, for the affair was one of the most successful ever attempted in Santa Fe and brought forth favorable comment on all sides. Every room used was tastefully and generously decorated and there prevailed a perfect profusion of beautiful flowers and choice palms. The reception room in the part of the Old Palace, occupied by Land Commissioner and Mrs. R. P. Ervien, was done in red, the effect being obtained by the use of red carnations and a harmonious background of great palms added tone. Here the guests were met after they had divested themselves of their wraps. Besides Governor Curry, in the receiving line, were ex-Governor and Mrs. L. B. Prince, ex-Governor and Mrs. M. A. Otero, Territorial Secretary and Mrs. Nathan Jaffa, Judge and Mrs. John R. McFie, Hon. and Mrs. Solomon Luna; besides Mayor J. D. Sena and Dr. J. A. Masie, of the governor's staff. After being met by the reception committee, the guests entered the dining-room where, amid harmonious decorations the "inner man" was plentifully supplied with refreshments. The room was a picture in pink and white, interspersed with the inviting green of hot house palms. The scene was one of fairy land in the subdued light of wax tapers in candelabras, which added to the effect of the other decorations. In this cozy room many pleasant moments were spent by the guests. In the hallway, a string orchestra of the Banda Mexicana, caused pleasing strains of music to waft upon the air. Across the hallway, the governor's room presented a delightful appearance, being decorated with red carnations and many palms. Here the visitors were served with drink from two huge bowls hung with giant bunches of grapes in charge of Mrs. W. H. Bartlett and Miss McFie, respectively. From one was served punch and from the other lemonade. Many a toast was proposed and the legislators seemed to enjoy themselves here, more than when making laws. The beautiful and elaborate floral decorations were a credit to the hard and careful work of Captain Christman of the territorial penitentiary, the palms and flowers being from the penitentiary hot house. Credit is also due to his many willing assistants. The dining-room was in charge of Mrs. S. Spitz and Mrs. R. J. Palen. The coffee table was looked after by Mrs. Adolph Fisher and Miss Spitz was in charge of the following pretty and tastefully-gowned young ladies, who saw to it that the guests were served: The Misses Spitz, Boyle, Parker, Groggla, Bishop, Lamy, Baca, Floersheim, Bergere, Bean, Jaffa and Christenson.

Later in the evening the young folks danced to their heart's content. The reception will go down in history as the most brilliant of the many social events that have taken place in the Old Palace during the past three hundred years.

### MANY IDLE MINERS.

Indianapolis, Ind., Jan. 20.—Reports were received by the convention of the United Mine Workers of America today. President Lewis' report says that at no time in the history of the country has there been so many idle miners as during the past year. In view of this condition, he says, he feels gratified in reporting a membership of 294,746. Touching on the contempt decision against Gompers and associates, he says it is evident that "injunction is now to be settled by the highest courts of the land. The injunction question is not a new one. In the last decade it has been made an instrument of evil in its application to organized labor."

The New Mexican is today in receipt of the following dispatch regarding statehood: Washington, D. C., Jan. 20.—New Mexican, Santa Fe, N. M.—Andrews and the Republican house committee on territories are considering the statehood bill, and the same will be introduced tomorrow as amended. The next day it will be considered by the whole committee. The bill will pass the house soon.

### A NEW ARCHBISHOP HAS BEEN APPOINTED

Very Reverend Jean Baptiste Pitaval Receives Unofficial Notification of His Elevation.

The residents of Santa Fe will rejoice to hear the news that a new archbishop has been appointed to fill the existing vacancy caused by the death of the late lamented Archbishop Peter Bourgade. They will rejoice all the more to learn that the recipient of the ecclesiastical honor is the Very Reverend Jean Baptiste Pitaval, so well and so favorably known to all. The appointment has not yet been received by His Grace in official form, the announcement so far being but a personal communication from Papal Delegate Monsignor Falconio at Washington, D. C., but at an early date the official bull is looked for. A special day will be set aside for the conferring of the Pallium and very elaborate services will be held, all of which will be fully detailed in these columns in due time. Bishop Moty of Denver and other well known ecclesiastics had been mentioned for the honor, but it was fittingly bestowed upon the bishop co-adjutor of the late Most Rev. Peter Bourgade, archbishop of Santa Fe.

This afternoon Governor Curry, Hon. Solomon Luna, and many prominent Catholics, as well as the chief justice and associate justices of the supreme court, called upon Bishop Pitaval to offer their congratulations. Tomorrow, some time, the members of the legislature will do likewise. All day long the archiepiscopal residence was besieged with friends and well wishers of all creeds, who rejoiced over the elevation of Bishop Pitaval to the archiepiscopate and offered their heartfelt congratulations. Last evening, about 6 o'clock, the important event was announced by the happy ringing of the bells of the Cathedral.

### SLAYERS OF CARMACK NOW ON TRIAL

Jury Is Sworn and Another Important Murder Proceeding Is Under Way.

Nashville, Tenn., Jan. 20.—When the trial of the Coopers, father and son, for the murder of Senator Carmack began today, it became known the State had prepared a surprise for the defense by having the body of the murdered man exhumed and an autopsy held. The defense asserts that Carmack fired the first shot in the street duel which resulted in his death. The state's theory is that Carmack, with his hat raised to greet a lady was shot from behind. It claims to have proof that the bullet entered Carmack's neck from behind. This, however, does not entirely disprove the theory of the defense, which is that Robin Cooper, seeing that his father's life was in danger, fired at Carmack to protect his sire and it is not contended that Robin stood elsewhere than behind Carmack. The courtroom was crowded when Judge Hart ordered the jury panel sworn. A number of women were present. An imposing array of legal talent was on hand. Colonel Cooper and his son entered the courtroom arm in arm. The young man was fashionably attired and seemed in excellent spirits. The father was quiet and showed the effects of his confinement in jail.

### EXTENSION OF THE CAREY ACT.

Washington, Jan. 20.—The House committee passed the bill introduced by W. H. Andrews of New Mexico, extending to Arizona and New Mexico the provisions of the Carey Act. In a letter, Secretary of the Interior Garfield says there are in New Mexico and Arizona many opportunities for reclamation under the Carey act and he strongly recommends the enactment of the bill extending the provisions of that act to the two territories. The Carey act is for the purpose of aiding public land estates in reclaiming their desert lands and in securing settlement, cultivation and sale in small tracts to actual settlers. The United States is bound to donate, grant and patent, free of cost of survey such desert lands not to exceed one million acres to each state as the state may have cause for same to be reclaimed.

### BANDIT SENTENCED TO HANG.

Manila, Jan. 20.—Pope Isio, leader of a fanatical band of Ladrone (thieves) composed of southwest negroes has been sentenced to hang. A later report, however, says a reprieve has been granted Isio by Governor General Smith. He was convicted of murder.

## JOINT MEMORIAL IS INTRODUCED

### Extension of Carey Act Given Consideration

### HOUSE SESSION BRIEF

### Members in Company With Governor To Pay Respects To New Archbishop.

Sessions of both houses of the legislature today were brief. A little business was transacted by the Council this afternoon.

### COUNCIL.

It was 2:45 o'clock when the Council was called to order this afternoon by President Spiess. All members were present. Chaplain Rendon led in prayer. The reading of the minutes was dispensed with.

Hanley introduced joint resolutions Nos. 4 and 5 to provide each member with copies of the Compiled Laws of 1897, and the Session Laws since then and the Journal of 1907.

P-rince introduced the following joint memorial:

### Joint Memorial.

To the Congress of the United States, requesting the passage of House bill introduced by Hon. W. H. Andrews, amending the irrigation law generally known as the "Carey Act," so as to extend its operation to the Territories:

Whereas, There is now pending in the Congress of the United States a bill introduced by Hon. W. H. Andrews of New Mexico amending the irrigation law generally known as the "Carey Act," so as to extend its operation to the territories;

Whereas, The speedy passage of said bill by the present Congress is very important for the following reasons:

1. In several sections of New Mexico, and especially in the county of San Juan, those interested in irrigation are convinced that in no way can the reclamation of their arid lands be so successfully accomplished as under the provisions of the law known as the "Carey Act." But as that law now stands it applies only to states and not to territories; and the object of the pending bill to amend, is to extend its operation to territories as fully as to states.

2. The "Carey Act" requires action by the state legislature in order to make it effective. The legislature of New Mexico will close its session on March 18, so that the time is short in which to obtain the necessary local legislation between the pages of the pending amendatory act in Congress and the expiration of this session of said legislature.

Now, Therefore, (if the House of Representatives concur), be it resolved by the legislative assembly of New Mexico:

That the Congress of the United States be earnestly requested to pass the House bill introduced by Hon. W. H. Andrews, to amend the irrigation law known as the "Carey Act" so as to extend its operation to the territories, at the earliest date possible.

Resolved, That a copy of this memorial be sent to the president of the Senate and Speaker of the House of Representatives of the United States, and to Hon. W. H. Andrews.

Prince explained the provisions of the Carey Act, and said its provisions have been applied very successfully especially in Wyoming and Montana; that the omission of the territories from its provisions had been a mere oversight on the part of those who drafted the act, and as it required action by the territorial legislature in case the act is extended to the territory, speedy action by Congress is desirable so that its application to the territory be not delayed two years until the next legislative session.

The memorial was adopted unanimously.

A list of extra legislative employees was read. The employees will be assigned to their positions by the chief clerk and the sergeant-at-arms.

Adjournment was taken to 2 o'clock tomorrow afternoon.

### HOUSE.

The session of the House this forenoon was very brief, and adjournment was taken until 2 o'clock tomorrow afternoon to give Speaker Miera time to arrange his committees. The only action taken was the appointment of a committee consisting of Messrs. Baca of Santa Fe, Chavez of Bernalillo and Blattman of Mora, to wait upon Governor Curry to determine when it would be convenient for the chief executive to accompany the members of the legislature to the archiepiscopal residence to congratulate Bishop J. B. Pitaval upon his elevation to the archiepiscopate.

## ANOTHER NEW EDUCATIONAL INSTITUTE

### Rev. Gray Comes to the Front With a Proposal

### UNIVERSITY FOR WOMEN

### The Establishment of Which Will Draw the Lime Light Upon New Mexico.

The plan to found a university for women in the United States, in some respects the greatest educational institution in the United States, is taking definite shape and is gaining many zealous supporters for the idea, when presented by Rev. McQueen Gray is convincing and imposing in its magnitude and importance. The Oxford and Cambridge idea of a university with no attempt at housing and boarding students, but an institution clustered about by cottages and foundations endowed by people of wealth, underlies the project. Co-education is not the brilliant success it was anticipated and an institution of learning for women, of the pure university type, such as made the universities of old at Padua, Salamanca and other places famous and which today attracts the students by the thousands from all parts of the world to Berlin, Paris, Göttingen, Marburg and other great universities of the Old World, is one of the coming necessities of this nation and will be supplied sooner or later. New Mexico's magnificent climate is an inducement but the locality of the university will have little influence upon its fame, which will lie in the greatness of its instructors and the fact that it will be of the classic university type, for the students will flock to the point where the great minds impart instruction. Munificent endowments will be procured for this institution and New Mexico will become like a great light upon a high mountain on account of the carrying out of this magnificent project. The following is the bill as drafted:

An Act to establish a University for Women in the Territory of New Mexico. Be it enacted by the Legislative Assembly of the Territory of New Mexico:

Section 1. That whereas there does not exist any university for the exclusive instruction of women, and whereas the need for such an institution is widely admitted, there is hereby established in the Territory of New Mexico a university for women.

Sec. 2. That this university shall be non-sectarian in character and that its objects shall be to provide instruction of the best university type in literature, science and art, and also in those branches of technology, the industries, applied arts, and other departments of economic effort for which women are adapted, to women of sixteen years and upwards.

Sec. 3. That this university shall be purely a teaching, governing, and examining body.

Sec. 4. That the Governor of the Territory shall forthwith appoint forty men, to be selected from the citizens of the Territory, and in such manner that the principal cities and towns and each county of the Territory may be represented therein; and that the men thus appointed shall, together with the Governor of the Territory, form the foundation committee of the university and be charged with the promotion and locating of the university, and that all vacancies occurring in the foundation committee shall be filled by the governor of the Territory.

Sec. 5. That the Governor of the Territory shall forthwith appoint a President of the University, who may hold office as such during the period of the promotion of the University, and who shall be charged with the duty of advancing the interests of the University; and that the Treasurer of the Territory shall act as Treasurer of the University during the aforesaid period of the promotion of the university.

Sec. 6. That the services of the foundation committee, the President and Treasurer of the University and other committees appointed during the period of the promotion of the University shall be wholly gratuitous during said period.

Sec. 7. That said Foundation Committee upon the concurrence of a majority of its members may cause said University to become a body corporate under and in pursuance of Sections 462 to 466 inclusive of the compiled laws of this territory as compiled in the year 1897 and that said section 462 be and is hereby amended by inserting the word "universities" after the word "of" and preceding the

## INVITATION TO THE LADIES

To Meet at Home of Mrs. N. B. Laughlin to Discuss Proposed Archaeological School.

There will be a meeting of the ladies of Santa Fe at the home of Mrs. N. B. Laughlin, at three o'clock, on Thursday afternoon, the twenty-first day of January, with reference to the Archaeological School. All the wives of the members of the legislature and all the ladies interested in this movement are cordially invited to be present.

## ONE HUNDRED THOUSAND DOLLARS OFFERED JEFFRIES

San Francisco, Jan. 20.—James J. Jeffries, who is filling a theatrical engagement here, has received an offer of a hundred thousand dollars for thirty-three weeks of sparring exhibitions on an eastern vaudeville circuit. The offer was made by Sam Wheeler, a fight promoter of St. Louis. Jeffries still refuses to admit that he has any intention of attempting to wrest the championship from Jack Johnson, but the belief is growing stronger each day that the former will again be in the ring. Although a trifle fat, Jeffries shows all the speed that made him a wonder of the heavy-weight division during his active fighting days, and his sparring partner, Sam Berger, is the authority for the statement that the big fighter's blows have not lost steam.

## TWELVE ARE HURT IN POWDER PLANT EXPLOSION

Philadelphia, Jan. 20.—An explosion of the Dupont powder plant at Gibbstown, across the river in New Jersey, occurred today and injured twelve men. It also destroyed several small buildings. The shock was felt within a radius of thirty miles.

## FAMOUS ACTRESS IS ILL.

New York, Jan. 20.—Clara Morris, the actress so well known to old theatre-goers, is seriously ill at her home in Yonkers, as the result of nervous prostration and spinal trouble. She has been confined in bed six weeks.

## LILLEY NO LONGER A CONGRESSMAN

Washington, Jan. 20.—George W. Lilley, who was inaugurated governor of Connecticut January 5, while occupying a seat in the house of representatives, was dropped from membership in that body today.

## CAGED LIKE RATS IN FIERY FURNACE

### Men are Confronted By Raging Flames

### THIRTY FOUR LOSE LIVES

### An Explosion of a Powder Magazine Wraps Frame Structure In Blaze.

Chicago, Jan. 20.—A number of men, estimated as high as thirty-four, is reported to have lost their lives in a fire which destroyed immediately the water supply crib, a mile and a half from shore in Lake Michigan, today. Twenty-six injured were rescued by the tug Morford and brought to this city. A survivor says that sixty men were employed at the crib. Twenty were working in the tunnel, while most of the others were asleep in their bunks, when suddenly confronted by death through the explosion of the powder magazine. The explosion immediately wrapped the wooden structure in flames. Those not killed or injured by the first fiery blast, rushed out of doors only to find no means of escape. At every point were the waters of the lake. The only escape was by means of the tug which had seen the blaze through the haze of the fog and smoke.

### A Tug to the Rescue.

The captain of the tug had already hoisted anchor to go to the rescue of the threatened men and the sturdy little craft made quick speed. From the deck of the tug black spots were seen to appear on the surface of the crib and then disappear in the waters below. The imprisoned men were evidently seeking escape by swimming. Some were seen to cling to cakes of ice for a time and then disappear.

### Tragic Message Received.

At the shore office the last word received from the crib was tragic in the extreme. It was: "The crib on fire. For God's sake send help at once or we will be burned alive. The tug—" Then the telephone wire broke and the men on shore heard no more. All attempts to send rescuers to the crib from the shore by a suspended tramway, connecting the crib with the land failed for the motive mechanism failed to work and the few daring spirits were compelled to abandon all their efforts.

### TWENTY-THREE DEAD.

Chicago, Jan. 20.—It is now estimated that twenty-three men lost their lives in the fire which destroyed the crib. Forty-seven, suffering from burns or cuts, or from immersion in the icy waters of the lake into which they jumped to save their lives, have been rescued. The dead are supposed to be imprisoned in the tunnel under the crib. Death might have come either from fire, smoke, an explosion of some of the dynamite, or the shutting off of the air pipe. In the tunnel the men worked under air pressure. Fire tugs extinguished the flames and an attempt was made to enter the tunnel.

### Tug Reaches Scene.

After a seemingly interminable trip the tug Morford reached its goal through the ice. All around, victims with their hair singed off and their skins blackened, were struggling in the water. Some half crazed fought off the rescuers. Everybody in sight was taken on board. At this point a muffled explosion occurred, probably snuffing out more lives in the crib. The tug started for shore with forty-five men aboard, a number of whom were in a very serious condition. On the way back, the tug passed three other tugs, noses headed for the crib. When the tug arrived at the pier a great throng was in waiting. Wives and children of many of the victims were present and the scenes were heart-rending.

A telephone report from the crib at 1 p. m. stated that twenty bodies have been recovered from the tunnel. It was added that there are more at the bottom of the shaft.

## TAKEN FOR EARTHQUAKE IS CLOUD BURST

Manila, Jan. 20.—Late dispatches from the Tayabas province, express the opinion that what was believed to have been an outburst of the volcano of Langan last night was not an eruption but a great cloud burst over Mount Banahai. The area damaged is apparently very wide. The governor of the province reports that fields are ruined, highways impassable and bridges destroyed.

## APPARENTLY NO LET-UP.

Reggio, Jan. 20.—Several additional earth shocks at short intervals were felt here today.

## MINOR CITY TOPICS

Denver, Colo., Jan. 20.—Weather forecast for New Mexico: Fair tonight and Thursday with stationary temperature.

Nurse at Sanitarium.—Mrs. Robert Helbig has entered the employment of the Diaz sanitarium as a skilled nurse.

Funeral Tomorrow.—The funeral of Mrs. Jose Armijo will be held tomorrow morning at 9 o'clock from the Cathedral; interment in Rosario.

Shipment of Cattle.—E. VanHorne, territorial cattle inspector, went to Lamy today where tomorrow Harry Kinsell will load about ten cars of cattle from the Twitchell yards.

At the Sanitarium.—Work on the excavation for St. Vincent's sanitarium has progressed so well that carpenters are making the forms for the concrete foundation which will be laid soon.

Judges Leave.—Judge Ira A. Abbott left today for his home in Albuquerque. The other Supreme Court judges will probably leave for their homes tomorrow as all court work will be at an end today.

On the Sick List.—Railway Mail Clerk J. E. Wood is confined to his home at the corner of Don Gaspar and Manhattan avenues. Substitute Clerk T. C. Harris is covering his run from Santa Fe to Antonio, Colo.

Four Deaths at Las Vegas.—Four deaths occurred yesterday in Las Vegas: Mrs. Eligio Baca, of Chappelle, aged 61 years; Maria Luisa Martin, aged 58 years; G. A. Baca, aged 2 years, and Guillermo Chacon, aged 9 months.

Irrigation Pictures.—The Sunday Magazine of the Denver Republican gives a page of fine half tone pictures to irrigation scenes in New Mexico, illustrating the Pecosco Diversion Dam of the Elephant Butte Irrigation Works, the Rio Hondo Reservoir, in Chaves county, and the Cement Flume of the Carlsbad Project.

Mrs. Adelaida Krummick, whose death occurred yesterday, will be buried tomorrow in Rosario cemetery after mass at the Cathedral. The following relatives remain to mourn her decease: Jacob Krummick, Mrs. Lizzie M. Chavez, Mrs. Minnie Howland, Miss Clotilda Montoya, Miguel Chavez, Nicolas Montoya and Jose G. Armijo.

Death of Promising Young Man.—Sheriff S. Roibal of Rio Arriba county, reports the death of his first cousin, Elefio Roibal, at Denver of pneumonia on January 12. The young man was aged 31 years, was unmarried and had no near relatives besides his mother, Mrs. Dolores M. Roibal, of Santa Cruz, to which place the remains were sent. The funeral took place on Sunday, January 17, and was largely attended.

Weather Report.—Pleasant weather continues with the temperature above normal. The maximum temperature yesterday was 51 degrees at 2:15 p. m. and the minimum was 29 degrees at 7:50 a. m.; the mean temperature was 40 degrees or 12 degrees above normal. Relative humidity at 6 a. m. was 64 per cent; at 6 p. m. 52 per cent. Lowest temperature during the night, 30 degrees; temperature at 6 a. m. today, 32 degrees.

At the Armory.—Work upon the armory is progressing rapidly. The contractor is unloading a car of steel arches for the building. This morning when the wagon loaded with steel was coming across a bridge over the Santa Fe the coupling pole of the wagon broke causing some trouble in re-connecting the parts of the wagon. Foreman Penrose who was driving got his foot caught in such a manner that he narrowly escaped sustaining a fracture.

Archaeological School.—Hon. T. B. Catron, as well as President Charles A. Spiess, of the Council, are interesting themselves in the proposition to establish the School of American Archaeology in New Mexico, and will draft a bill to conform with Governor Curry's recommendation as to that school. Professor Edgar L. Hewett, director of American work of the American Institute of Archaeology, will be in Santa Fe next week from Washington, to consult with legislators in reference to the school and also to address a public meeting on the subject.

USED CUTICURA AND WAS QUICKLY CURED

"I suffered from eczema on my hands, arms and feet for about twelve years, my hands and feet would swell, sweat and itch, they would become callous and get very dry, then peel off and get raw. I tried most every kind of salve and ointment without success, only got temporary relief. As soon as I would leave off using them I would be as bad as ever. I tried several doctors, took arsenic for two years and at last gave up thinking there was a cure for eczema. A friend of mine insisted on my trying the Cuticura Remedies but, supposing they were the same as other 'cures' I had tried, I did not give them a trial until I got so bad that I had to do something. I secured a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and by the time they were used I could see a vast improvement and my hands and feet were healed up in no time. I used several bottles of Cuticura Resolvent. This was over a year ago and have had no trouble since. I think I am entirely cured." Charles T. Hays, R.F.D. 65, Volant, Pa., Mar. 11, 1908."

## BABIES CURED Of Torturing, Disfiguring Humors by Cuticura.

The suffering which Cuticura Soap and Cuticura Ointment have alleviated among skin-tortured, disfigured infants and children, and the comfort they have afforded worn-out and worried parents have led to their adoption in countless homes as a priceless treatment for the skin and blood. Hewett, director of American work of the American Institute of Archaeology, will be in Santa Fe next week from Washington, to consult with legislators in reference to the school and also to address a public meeting on the subject.

## The Pure Food Law.

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by all druggists.

The New Mexican Printing company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound, with leather back and covers and canvas sides, had full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1-2x6 inches. These books are made up in civil and criminal dockets, separate of 32 pages each, or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following prices:

Civil or Criminal ..... \$2.75  
Combined Civil and Criminal .. 4.00  
For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted.

S.S.S. NATURE'S CURE  
FOR BLOOD POISON

S. S. S. is known as Nature's Cure for Contagious Blood Poison because it is prepared entirely from the blood purifying and healing extracts of roots, herbs and barks taken directly from the natural forests of the land. It does not contain the least particle of strong mineral ingredients, and is so prepared as to aid in the upbuilding of every portion of the system, while driving Contagious Blood Poison from the blood. No unpleasant effects ever follow the use of S. S. S., such as stomach troubles, dyspepsia, mercurial rheumatism, etc., as is so often the case where other medicines are used. S. S. S. goes down to the very bottom of the trouble and gently but surely, drives out every trace of the disease, cleanses and purifies the circulation, and by its fine vegetable tonic effects, assists the system to rapidly overcome the ravages of the disease, and regain its natural healthful condition. S. S. S. does not cover up or hide the symptoms for awhile, to break out later, but so thoroughly does it remove the cause that no signs of the trouble ever return. S. S. S., Nature's cure, is the surest and safest remedy for Contagious Blood Poison. Home Treatment Book with valuable suggestions and information, and any medical advice free to all who write.

## NATIONAL CAPITAL PROCEEDINGS

Washington, D. C., Jan. 19.

President Roosevelt, in conversation with numerous senators and representatives, stated that he was anxious to sign the bills admitting New Mexico and Arizona as states, so as to round out all the territories in the United States proper, before he closed up his administration. It is stated, as appears on reliable authority, that President-elect Taft has written a letter that he favors the earliest possible admission of New Mexico and Arizona as states, as he firmly and positively insists upon carrying out every pledge made in the republican platform at the last election which carried him to the White House; and that he has no patience with any republican who is a backslider from any plank in that platform now or hereafter.

Speaker Cannon has withdrawn all objections and is now willing that the bills may be reported to, and passed by the House. This is an important gain of itself for the territories.

Chairman Hamilton, of the house committee on territories, has been willing to report the bills to the House for some time and has only been waiting till certain objections had been withdrawn, so that when the bills were reported they would go through practically unanimously and without incurring any opposition. It is believed that this time has now arrived. The bills have been favorably considered in the House committee on territories and passed out of the committee and will be reported to the House today, Wednesday for early passage by that body.

The former serious opposition in the Senate is rapidly disappearing and it is believed that when it comes to action there that it will be reported out of the senate committee on territories and pass the senate by practically a unanimous vote.

After more than six years of continuous and persistent work Delegate Andrews says:

"For the first time I think I see a New Mexico-Arizona sun breaking through the clouds and I hope before many moons to see two bright stars representing New Mexico and Arizona shining resplendent on the grandest and most beautiful flag, the Star Spangled Banner, which is the bearer of freedom, liberty, and justice, wherever it waves throughout the world."

Andrews had his bill giving New Mexico the benefit of the Carey act up but Reeder of Kansas objected to unanimous consent and it went over to wait another opportunity and then was passed. Senator Dick, from naval affairs, reported the Andrews House bill to place John Crowley on the retired list of the navy. This secures its final passage.

Delegate Andrews' bill to extend the provisions of section four of an Act entitled "An Act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1895, and for other purposes approved August 18, 1894, to the Territories of New Mexico and Arizona; which is commonly known as the 'Carey Act' and given material assistance to irrigation enterprises; was reported today by Chairman Mondell, from the Committee on Public Lands. It was reported to the Committee of the Whole House on the States of the Union, ordered printed, and passed this week. Chairman Mondell submits letters from the Secretary of the Interior and Acting Secretary of the Interior. The Secretary says:

"Your report amends the bill so that it relates to New Mexico only. From my personal investigations in New Mexico and Arizona I am convinced that there are many opportunities for reclamation under the Carey Act and urge that your committee recommend favorably the enactment of a bill extending that Act to both territories."

"Very truly yours,  
"JAMES RUDOLPH GARFIELD."  
Acting Secretary Frank Pierce says: "In reply I have to state that I know of no objection to the passage of the bill extending the provisions of said act to both Territories. There is probably a great quantity of arid land in the Territories which may not come within the projects of the Reclamation Service, nor be reclaimed by private parties, but which could be selected, irrigated, and reclaimed by the Territories under the proposed law in large tracts and made to yield some revenue to them by the sale of the land to settlers. The settling of these lands would probably increase the population of these Territories considerably, and the enhanced value of the land, by the time the patent is secured, would bring a great in-

crease in revenue in the form of taxes.

"FRANK PIERCE,  
"Acting Secretary."

J. D. Hamlin, of Texas, is in Washington to try to straighten out a difficulty with respect to the boundary line between Texas and New Mexico. "When this boundary line was drawn it was drawn crooked," said Mr. Hamlin. "Instead of running due north and south it takes jumps now and then. For instance, it will run 40 miles in a straight line and then jump east or west for a mile or two, then run straight for awhile, only to jump in another direction. The result is that a man living close to the border between Texas and New Mexico frequently does not know which he is in. He cannot tell whether he is a citizen of a State or Territory."

"The line was drawn by the geological survey, but somebody made a mistake, so that it will take an act of Congress now to straighten out the matter," added Mr. Hamlin.

The House Committee on Public Buildings and Grounds today decided to report a public building bill, but it does not carry an appropriation. The bill is to make a few minor corrections in the present law and grants additional authority in certain cases.

This is the second "pork measure" to go by the board, it having been decided by the leaders that there shall be no river and harbor bill this session. While there is some fight in the committee against this action, yet the leaders believe they are in a position to prevent the committee from reporting a general bill at this session.

Another meeting of the insurgents of the House, seeking to amend the rules of that body, will be held Monday night. The meeting was called immediately after the return from the Isthmian canal zone of Colonel Hepburn, who has presided at all the formal meetings of the insurgents. Whether the insurgents will be able to agree upon a course of action is regarded as problematical. Owing to the absence of several members in the Canal Zone there has been little discussion of a program since the holidays.

Among the measures passed by the House was a resolution requiring the Interstate commerce commission to inform the House what advances have occurred in freight rates since the passage of the Hepburn act of June 29, 1906; whether such advances have been occasioned by advances in the tariff rate or change in classification, or by charging for some privilege which formerly was given free.

What is known as the anti-pass provision of the railroad rate act is amended for the benefit of publishers of newspapers and periodicals by a bill introduced by Representative Hayes of California. It provides that nothing in law "shall be construed to prohibit the interchange by carriers and publishers of newspapers and periodicals of transportation for advertising and printing, when based on the lawfully advertised schedule rates of both the carriers and publishers as a basis for such exchange."

The Senate committee on agriculture authorized a favorable report on the McCumber bill providing for the inspection and grading of grains. Under this bill, national inspection is provided for, and the Department of Agriculture is authorized to fix definite grades.

The postoffice appropriation bill, carrying \$234,000,000, has been reported to the House.

By unanimous vote the House granted the franking privilege to Mrs. Benjamin Harrison and Mrs. Grover Cleveland, widows of former presidents.

Hon. Ralph H. Cameron, delegate-elect from Arizona, was a guest of honor at a dinner given by Honorable Theodore W. Noyes, president of the Associated Press, last night.

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

## A PRINCE OF THE CHURCH.

The lines of Santa Fe have fallen in pleasant places of late. It seems to lie directly in the road of travel of the bearers of good tidings and scarce a day elapses but brings some welcome news to this historic capital. Last evening arrived a private notification from the Apostolic Delegate of the Roman Catholic Church at Washington addressed to Bishop John Baptiste Plival of this city, notifying him that he has been appointed Archbishop of the arch-diocese of Santa Fe.

All of Santa Fe and all of New Mexico will rejoice that this honor and responsibility have been thus worthily bestowed, for Bishop Plival has made himself beloved within and outside the circles of his church. He is a man endowed with missionary zeal and yet with intensely human virtues; though engaged in a holy work he is not so wrapped up in his mission as to pass by the other mortals without a smile of recognition or a word of comradeship. As one of the fourteen archbishops of the United States, his rank, of course, is high and his responsibilities great.

The title of archbishop is a historic one, for the office appears as early as the Fourth Century of the Christian era. The great archbishops of the early church were those of Jerusalem, Antioch, Ephesus, Alexandria, Constantinople and Rome, and what a galaxy of glorious names of martyrs and saints has hallowed the pallium in the centuries that have passed! In the Eastern church, archbishops are called metropolitans because they have supervision of the suffragan bishops in their province besides exercising episcopal authority in their own archiepiscopate, even in century, the archbishop of Rome has borne the title of Pope. The Synod of Antioch in 341, assigned to the archbishop the superintendence over all the bishoprics and a precedence in rank over all the bishops of the church, who, on important matters, were bound to consult him and be guided by his advice. By degrees there arose, out of this superiority of rank, privileges which at length assumed the character of positive jurisdiction in ecclesiastical matters. The archbishops enjoyed the honor of having the cross carried before them in their own archiepiscopate, even in presence of the Pope himself, and of wearing the pallium.

The archbishopric of Santa Fe was founded in 1850 and the city was elevated to a metropolitan see in 1875. Since then the archbishoprics of Chicago and Saint Paul have been created, while the archbishoprics created before it, in the order of their elevation are: Baltimore, Oregon City, Saint Louis, New Orleans, New York, Cincinnati, Dubuque, San Francisco, Milwaukee, Boston and Philadelphia.

The conferring of the pallium upon Bishop Plival should be made a memorable and historic occasion and the people of Santa Fe, irrespective of creed, extend to Bishop Plival hearty congratulations and are no doubt, ready to co-operate with him in every endeavor for the betterment of the religious and moral conditions that prevail.

## MEXICO'S NEW MINING LAW.

Mining men of the Southwest are much interested in the new mining law of Mexico which consists of 150 articles embodying the present laws and the decrees and regulations that have been in force, with some important changes, mostly with the view of removing conflicting legal provisions. The regulation as to pertenencias remains unchanged. Article 3 provides that matters relating to mining property shall be subject to the civil code of the federal district, except when specifically determined otherwise in the law itself.

The provisions relating to the restriction of mining rights to Mexican companies is absent from the draft submitted; and the restrictions which required the foreigner to secure executive permission to locate claims in the border states is made to apply only to an 80-kilometer zone on the boundaries. The law will become effective July 1, 1909, except that the provisions as to prospecting permits became effective after the promulgation of the law.

Today New York elected Elihu Root to the U. S. Senate and thereby re-established itself in the eyes of the nation as a state that will conform to the higher demands of the political conscience and will not stultify itself at the behest of any influence adverse to good citizenship. With Elihu Root in the Senate, every New Yorker can lift his head with pride when he speaks of the Empire State's representation at the National Capitol.

## LOCAL OPTION.

The readers of the New Mexican may be assured that no action of the present legislative assembly will arouse wider comment than its disposition of the local option and licensing bill introduced in the Council yesterday by President Charles A. Spiess. It seems certain that the bill will become law in time to have the cities and towns vote on the question whether they desire prohibition or high license, this spring at the municipal elections. No doubt, efforts will be made in committee and from the floor to alter many, if not all of the provisions of the bill, but this much is sure, that New Mexico will have local option and high license within another sixty days. The defeat of the bill would bring upon the territory, state-wide prohibition under the most severe penalties. The interests, which will loose by this prohibition sentiment, had better therefore let well enough alone and not oppose the present very conservative and moderate local option measure which raises licenses in towns of less than 3,000 people to \$700 a year and in towns of more than 3,000 people to \$1,000, placing the regulation and licensing of the traffic in the hands of a territorial excise commission, at the same time giving incorporated municipalities an opportunity to decide whether they want to close the saloons or whether they desire to continue under high license. It seems a fair proposition all around, for it leaves the decision of the question with the sentiment of each locality. However, the friends of the temperance movement will introduce another local option bill which is also deserving of serious consideration.

## CONSERVATION OF NATIONAL RESOURCES.

It is expected that President Roosevelt will this week transmit to Congress the report of the national conservation commission together with a special message. The president is in earnest and the country is with him on this proposition. Says the Mining and Engineering Journal on this subject:

"The first practical fruit of the recent report of the conservation commission was the withdrawal from entry by executive order, of the public lands containing phosphate rock in certain western states, and all the public lands in the petroleum and natural gas field in northwestern Louisiana, known as the Caddo oil field. Previous to the conference of the governors last May, the public coal lands in the western states had been withdrawn. This is the proper action. It is to be regretted that the scope of the government in this direction is so limited. But, although the president, with the advice of the conservation commission, will probably be unable to accomplish much directly in the way of preserving our natural resources, an immense stride has been achieved through the awakening of public sentiment to the necessity for reducing the waste of resources that cannot be replaced. We venture to predict that the historian of the future will pronounce this to be one of the greatest events of the present administration."

## THE SILVER DOLLAR.

The quarterly estimate made by the directors of the mint shows the value of silver on December 31, 1908, to have been 50.447 cents fine ounce as against 52.855 cents on September 30, 1908, a reduction during the last three months of 2.358 cents a fine ounce. If the free silver idea had been adopted by the people, silver dollars would now be worth about 50 cents apiece; or in other words they would be worth the price of silver in the markets of the world, some days a little more, and other days a little less, thus fluctuating with every change of said price; so that no one could tell what his dollars were worth until he knew the price of silver. What a confusion this would make, but thanks to the Republican adherence to the gold standard the people were saved from such financial disaster.

President-elect Taft has sent for J. C. Schaeffer, editor of the Chicago Post, to report to him upon the qualifications of the different Chicago men who have been recommended to him for secretary of the treasury. The President-elect is on the right track, for if the editor of an influential newspaper isn't posted on the in's and out's of everyone prominent enough to be a candidate for a cabinet position, then certainly no one else is. If editors were to speak out of school about the follies of their fellow citizens there would be many a surprise in exclusive social and political circles, even right here in Santa Fe.

Albuquerque wants the legislature to appropriate a little more than \$13,000 to reimburse such of Albuquerque citizens, as advanced the means to complete the National Guard Armory in that city in time and on large enough a scale to entertain the irrigation Congress. The deficit should be paid and will be paid by the territory although it is only one of several that the territory will be called upon to meet on account of the Congress. Santa Fe, Roswell and other towns, will also ask for sufficient money to complete and furnish their National Guard Armories, although none of them expects to receive a sum near as large as that which will be granted Albuquerque. It is hoped therefore, that the Bernillo county representatives and their friends will not antagonize just appropriations that may be asked for from other parts of the territory. The appropriation bill of this session, however, should be liberal and definite enough to reduce deficiencies to a minimum in the future for the deficiency habit is not a sound one and is apt to lead to abuse.

"Discourses and Sermons for Every Sunday and the Principal Festivals of the Year," by James Cardinal Gibbons, archbishop of Baltimore, is the title of a well-printed book of more than 500 pages from the press of John Murphy company of Baltimore and New York, of which a copy has been sent to the New Mexican for review. The discourses are brief but pithy and filled with a devout spirit. Coming from so high a source they must be accepted as the result of mature judgment and as an authorized interpretation of the Divine Word. In a Catholic community like Santa Fe, the book should find its way into many homes, for it is a guide to right thinking and right living, which even a Protestant can read and ponder with profit to himself.

The new county boomers are keeping under cover for the present. It is rather wise not to waste ammunition while the legislature is wrestling with the question of employees and the best methods of complete organization for business. However, after next week, when all committees have been appointed and are working hard, the new county boomers will have their innings. Much local interest is being manifested in the different plans to organize at least two new counties in eastern New Mexico, one in the southwestern part of the Territory and a fourth in the central portion. The fight for and against these counties made outside and within the legislative halls promises to be very spirited.

The resolution offered by ex-Governor Prince in the legislative council yesterday, memorializing Congress to pass the bill of Delegate W. H. Andrews, to extend the time for the filing of small holding claims, is thoughtful and timely. Its passage will establish the title of hundreds of poor people in New Mexico to their present homesteads, which they have cultivated and occupied for many years, but which otherwise would be clouded and uncertain. Ex-Governor Prince may be depended upon to look out sharply for the interests of the entire territory, but especially of its Spanish speaking inhabitants to whom he has been a wise counselor and friend ever since he came to this territory more than thirty years ago.

The passage by the House of Representatives at Washington of Senator Andrews' bill to extend the provisions of the Carey Act to the territories, is good news, for as far as known, the Senate will not oppose the measure. The president will undoubtedly sign the bill when it comes to him, and through it New Mexico will obtain the use of another million acres and that for purposes of building irrigation works and reclamation under state supervision and to be paid for by the beneficiaries upon such terms as the territory may prescribe. Thus another important stone will be added to New Mexico's Temple of prosperity.

Arizona is bound to press its claims for statehood. If the enabling act should fail of passage by Congress at the present session, Governor Kibbey of Arizona will call upon the legislative assembly to provide for the election and holding of a constitutional convention at Phoenix, in time, to prepare a constitution to present to the special session of the new Congress with a demand for immediate admission. It is a plan that has been advocated in New Mexico the past few years and might be seriously considered again. The territories have attained the stature of manhood and cannot be squelched in their just demands which sooner or later must be granted.

The Republican legislature of Oregon is to be congratulated for keeping faith with the people and electing their choice, Governor George E. Chamberlain, a Democrat, to the United States Senate. Would any Democratic assembly have been so faithful to the pledges of the people, when such so tremendous party advantages were at stake as the election of a Senator? It is greatly to be doubted.

According to yesterday's dispatches from the national capital, it is statehood day in the House of Representatives today. In New Mexico it is statehood day every day and the territory is pounding vigorously at the doors of Congress for entrance into the circle of states.

California is unnecessarily stirring up the Japanese immigration question again. It is an unwise policy on the part of that state, a policy fostered by foolish advisers of the labor unions. The Japanese immigration spectre is nothing but a figment of the imagination, but the harm that would ensue to the United States in its commercial and diplomatic relations with the Japanese Empire if California enacts unfriendly laws, would be exceedingly serious. Japanese public opinion is very touchy in this matter and there is absolutely no provocation for arousing it to enmity against the United States.

Española this morning after a few  
days' sojourn in Santa Fe.

Miss Rebecca Clark of Morris &  
Clark of Santa Cruz returned home  
this morning after spending a few  
days in the city.

Hon. C. T. Brown arrived this fore-  
noon from Socorro. He is here on Ma-  
sonic business.

Gregorio Griego returned to his  
home in Embudo this morning after  
being in the city to witness the open-  
ing of the legislature.

Miss E. Estelle Sloan, who has been  
the house guest of Mr. and Mrs. John  
Becker, Jr., at Belen for a week was  
given a complimentary party Saturday  
night.

Captain Smith H. Simpson, one of  
the old-timers at Taos, and a well-  
known veteran of the Civil War, was  
an arrival on last evening's Denver  
& Rio Grande.

J. W. Kurn, division superintendent  
of the Atchison, Topeka & Santa Fe  
railway system, with headquarters in  
Las Vegas, arrived in the city today  
noon.

Alfredo Lucero, county commis-  
sioner, returned to his home at Santa  
Cruz today after attending a meet-  
ing of the board of county commis-  
sioners here yesterday.

Hon. Thomas D. Buras arrived last  
evening over the Denver and Rio  
Grande from Parkview, Rio Arriba  
county, and is an interested spec-  
tator in legislative halls.

Hon. Secundino Romero, district  
clerk of the Fourth Judicial District,

**SUPREME COURT  
'WILL ADJOURN**

Habeas Corpus Hearing This After-  
noon—A number of Cases Yes-  
terday.

The territorial supreme court will  
probably adjourn this afternoon. At  
today's session, Chief Justice Mills  
and the associate justices were pres-  
ent, as well as the other officers of  
the court. The application of John  
Donahue, who is held for murder in  
Bernalillo county, for writ of habeas  
corpus, was heard at this forenoon  
session.

Yesterday afternoon, in the case of  
W. B. Mersfelder et al. appellants, vs.  
T. Garcia, sheriff, et al. of Union  
county, appellees, judgment was given  
against the sureties on the super-  
sedens bond for \$1,187 and execution  
ordered issued.

In the case of the Stern-Rogers Man-  
ufacturing company, et al. appellees,  
vs. The Aztec Gold Mining and Mill-  
ing company, et al. appellants, an ap-  
peal from the District court of Col-  
fax county, the two motions for a re-  
hearing were overruled.

In the case of the Sacramento Val-  
ley Irrigation company, plaintiffs in  
error vs. Oliver M. Lee, defendant  
in error, from Otero county, motion  
to dismiss the writ of error was dis-  
missed.

In the case of Michael A. Ross, ap-  
pellee, vs. Clark M. Carr, et al. ap-  
pellants, from Bernalillo county, thirty  
days was granted appellants to file  
motion for a re-hearing.

Deming, N. M., Jan. 20.—An old resi-  
dent of this place, Joe Whitmore, while  
visiting in El Paso, where he had not  
been for some time, met with pretty  
rough treatment during his stay. He  
was not only robbed of a fat roll of  
bills which he was carrying in his  
possession, but the nifty ones got  
away with his clothes and almost ev-  
erything else he had, including a  
brand new set of store teeth. The old

TWELVE HUNDRED  
CASES IN NEW MEXICO

Lands Valued at Half a Million Dollars to Be Recovered From  
Fraudulent Holders.

Washington, Jan. 20.—In making a plea for an appropriation of \$1,000,000 to investigate land entries, an increase of \$500,000 over this year's appropriation, Secretary Garfield cites a large number of cases pending in western states for recovery of lands improperly entered.

In Colorado, he states, suits have been commenced in United States court to recover from the Juniata Coal company coal lands valued at \$840,000; from the Utah Fuel company, \$500,000; from the New Mexico Lumber company, \$640 acres of the best timber land in Colorado, valued at \$432,000; timber trespass case against Barnes and others, \$50,000.

Cases are now pending in the interior department, the secretary says, for the recovery of coal and timber lands in Colorado aggregating in value \$20,000,000. Similar cases to recover lands in New Mexico valued at \$500,000 are pending.

Secretary Garfield promises that if \$1,000,000 is given him for investigation, he will return the amount tenfold to the government in recoveries of national resources.

The secretary reports that in Wyoming suits are pending against the Union Pacific Railway company to recover 500,000 acres of coal lands valued at \$1,500,000. Wyoming cases pending in department for recovery of timber and coal lands improperly entered aggregate \$3,200,000. There are 1,021 cases set for hearing before local land offices. Of these 77 are in Colorado, 101 in Wyoming and 71 in New Mexico.

Secretary Garfield also submits a statement of H. H. Schwartz, chief of the field service, showing over 32,000 distinct cases of alleged land frauds demanding further investigation. Of the number of such cases awaiting investigation there are in Oregon, 1,462; California and Nevada, 1,409; Washington and north Idaho, 1,323; Montana, 3,605; Colorado, 8,621; Arizona,

496; Wyoming, 21,155; Utah, 1,482; New Mexico, 1,206.

SANTA FE BOY FOR U. S.  
ATTORNEY OF ARIZONA

Joseph E. Morrison in Lead for That  
Important Office—Successful  
Party Worker.

The New Mexican is much pleased to learn that Joseph E. Morrison of Bisbee, Ariz., son of Judge A. L. Morrison of this city and a former student of Saint Michael's college in this city, is in the lead for the appointment of U. S. District Attorney for Arizona. Mr. Morrison, like his father, is a most eloquent speaker. He is a very successful and brilliant lawyer and his appointment would be a credit to the appointing power and a benefit to the people. Says the Arizona exchange:

"From reports coming from over the territory it looks now that J. E. Morrison is well in the lead for the appointment to the office of United States district attorney. The work of the Bisbee attorney during the past campaign for the success of Ralph Cameron seems to have placed him so far in the lead that he at present has no active opponent.

"Word comes from Phoenix that the present incumbent of the United States attorney's office, Joe Alexander, will not make the race, which practically leaves the way clear for Joseph E. Morrison. It is also stated that Morrison has the endorsement of the majority of the territorial Republican committee, consisting of one from each county as well as the territorial chairman and several of the office holders, as well as the Republican leaders of Arizona. It is understood that he has the endorsement of Ralph Caeron, delegate to congress, and of George U. Young, the secretary of the territorial committee.

"The only other name which has been mentioned is that of John Wright of Tucson, who does not seem to be making a very active fight for the office. The friends of Morrison over the territory are active in their effort for his success, and feel that his appointment is practically assured."

## OFFICIAL MATTERS

Oath of Office Administered—Supreme Court Clerk Jose D. Sena yesterday afternoon administered the oath of office to Paul A. F. Walter as reporter of the territorial supreme court.

The Territorial Board of Education which adjourned on Saturday, will meet again later during the legislative session at the call of Governor

## Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. He is probably his Preventics' greatest efficiency. Sold in 5c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

STRIPLING-BURROWS CO.

Curry. Before adjourning it granted a number of life, five-year and three-year certificates to teachers. The board will recommend a number of minor changes in the school laws and the addition of penal clauses wherever these are lacking, but no radical changes in the law are deemed expedient at this time.

Mounted Police Appointed.  
Governor Curry today appointed Rafael Gomez, of Santa Fe county, a private of the territorial mounted police to succeed M. Cicero Stewart, who, on January 1, assumed the office of Sheriff of Eddy county and therefore resigned as a member of the mounted police.

Arrest by Mounted Police.  
Mounted Policeman Fred Higgins arrested W. B. Rice and J. C. Mueller at Knowles, Eddy county, near the Texas boundary, for disposing of mortgaged property. They were held under \$1,000 bond for the territorial grand jury.

Certificate Suspended.  
Although the Great Western Life Insurance company of Kansas City has been organized and is solvent, it has not yet complied with the territorial law and Insurance Commissioner Jacobo Chavez, has continued the suspension of its license to do business in New Mexico.

Governor Curry this morning accepted the resignation of Adjutant General A. P. Tarkington to go into effect on February 20, and appointed to succeed him, Captain R. A. Ford

of Silver City. General Tarkington served efficiently under three governors, and has given the office a business-like administration under many inherent difficulties. He will remain a resident of New Mexico and will retain his interest in the New Mexico National Guard, giving it his spare time and energy. Captain Ford is a young man, who served as second lieutenant of an Illinois regiment during the Civil war and has been a member of the National Guard for quite a number of years, both in his home state and in New Mexico. He took a military course at Leavenworth, Kansas, and is in every way fitted for the responsibilities and work of the office to which he has been appointed.

Fever Sores.  
Fever sores and old chronic sores should not be healed entirely, but should be taken in healthy condition. This can be done by applying Chamberlain's Salve. This salve has no superior for this purpose. It is also most excellent for chapped hands, sore nipples, burns and diseases of the skin. For sale by all druggists.

## Minor City Topics.

(Continued From Page Two.)

**Train Report**—The train report this afternoon is to the effect that No. 1 of the Santa Fe is 25 minutes late; Rio Grande, one hour late; New Mexico Central one and a half hours late.

**Automobiles Must Sound Whistle**—Automobile chauffeurs will be required by the municipal authorities in the future to blow a whistle or horn when approaching crossings or round corners. Unless the ordinance is complied with prosecutions will be instituted.

**Supreme President Coming**—F. F. Roosevelt of Denver, supreme president of the Fraternal Union, will arrive in Santa Fe Friday on his way to California. He will address a meeting of the Santa Fe union in Odd Fellows' hall and later will be tendered a banquet at the Coronado.

**Contradict An Untruth**—As it is understood reports circulate to the effect that the Postal Telegraph company is unable to reach very few, if any, of the New Mexico points, the management of the postal company desires to strenuously deny the falsehood and wishes to state that the Postal Telegraph company is in position to handle business for all of the important towns of New Mexico without delay of any kind.

**A Football Warrior**—Do not miss seeing the best of Edison's feature films, "A Football Warrior," and see the great college campus, the college game of football and a story of love and hate of a red man. The other films, "A Summer Idyll" and "Jones at the Carnival," are also of the finest. The song and slides, "We're Still True Friends," is fine. As before, the fact that "we lead, others follow," is shown every day. The management has nothing but the best and latest films and no repetitions or vulgar pictures are allowed to be shown. Who? It's at the opera house.

**Accident to Aged Lady**—Yesterday at supper time the people in the lobby of the Palace hotel were startled by the sound of something falling very heavily on the landing of the stairway. Upon rushing to the scene it was discovered that an aged lady in descending the stairway on her way to her evening meal, had caught her foot in her skirt and had tumbled head foremost down the first small tier of steps. In falling she struck her head very forcibly on the floor. She was hurriedly assisted to the sitting room and restoratives applied. She soon recovered and seemed none the worse for her painful experience. Her gameness was disclosed when she insisted that the matter be kept quiet for fear her husband might hear of it.

**Museum Registrations**—The following have registered at the rooms of the New Mexico Historical society during the past three days: Miss Lela Armijo, Albuquerque; Jack L. Wolf, Chicago; H. R. Peltier, Detroit; Julian S. Thompson, Mr. and Mrs. George W. Baker, Topeka; Mrs. Elizabeth S. Hartman, Miss Mary Komore, W. L. Hartman, Pueblo; Stella Van Hark, Kansas City; Juan D. Kavanaugh, Pablo Valdez, Las Vegas; C. V. Plant, C. C. Burkholder, Delphi, Ind.; R. A. Morris, Amarillo, Texas; Milnor Rudolph, Tucumcari; Andreas Medina, Mora; Tomas Varela, Pedro Rivera, Pedro A. Varela, Pecos; E. V. Baca, Socorro; Pablo Trujillo, San Marcial; W. K. Shupe, W. P. Shupe, Gallina; Mrs. H. Alexander Smith, Colorado Springs; George Sena, Santa Rosa; Thomas H. Jamison, E. P. Holcombe, Washington, D. C.; Jose Armijo, Santa Rosa; R. R. Hazelwood, Amarillo, Texas; J. H. A. Lacker, Chicago; Mrs. J. H. Herzstein, Philadelphia.

## LEGISLATIVE THUMB NAIL SKETCHES

**Appropriation Divided**—The Council is to have the expenditure of \$6,000 of the \$15,000 contingency appropriation for extra employees and the House \$9,000. These amounts are to be divided equally for employees nominated by the Republican members for the positions necessary to be filled, so that each member will receive about the same proportion for disposal.

**Not An Irrigating Plant**—Over at the Palace hotel there is an individual from Alamogordo (and by the way there is quite a representation here from that beautiful town), who is unique to a touching degree. While Alamogordo is a dry place so far as farming goes, it probably has on tap, something not regarded as dry, for this soulful son of hers has been busy lobbying among the judges of the supreme court trying to secure their aid in the passage of a most novel and unusual measure. Just why he is so anxious he does not state, nor does he aver that he wants the bill passed as a matter of personal self-protection. The bill is a provision for new and more secure, as well as additional, hand-holds and foot-holds on the water wagon. The Alamogordian seeks to have the bill made a law in time for the next New Year's resolutions. However, the adoption of Governor Curry's local option recommendation, will in all probability answer the same purpose. The same gentleman is also seeking the solution of what he terms "a much mooted" question: "Is a water wagon, legally and technically, a common carrier?"

**Fernist All New Counties**—Councilman W. D. McBee is quoted as being against any and all new county schemes in general and against any scheme in particular that seeks to dismember Roosevelt county. Though

a member of the democratic minority, McBee will have to be reckoned with.

**Served Under Three Administrations**—It is not only the men who make the pretty speeches in the legislative halls, who are bearing the burdens of lawmaking by themselves. There are hard workers, not only in the employ of the legislature, but in territorial offices, who contribute a goodly share to the success of a legislative session. In the executive office, the secretary of Governor Curry, Miss Clara Olson, for instance, has been exceedingly busy the past few weeks in preparation for the legislative session. She has served under three successive administrations and has gathered a vast fund of valuable information as to legislative and executive routine and precedent which it otherwise would take considerable time and effort to dig up. The fact that she has made good under Governors Otero, Hagerman and Curry is a testimonial to the character of her work that speaks for itself. Miss Olson is affable and a favorite with all who have occasion to visit the executive office, and these are many year in and year out.

**The Efficient Speaker of the House**—One of the wealthiest stock growers and successful businessmen of the Southwest is Hon. E. A. Miera of Cuba, Sandoval county. His flocks truly graze upon a thousand hills and he gives employment and sustenance to scores of people. He is a self-made man in every sense of the words, for he has advanced himself from a poor boy through his own tireless efforts, to leadership in politics, in stockgrowing and in business. He is only forty-five years of age and was educated in St. Michael's college in Santa Fe. He owns and conducts several mercantile establishments, runs a grain mill, operates a saw mill, is a stockholder in two and director of one bank in Albuquerque and is interested in a large number of other enterprises. He was chairman of the board of county commissioners of Bernalillo county for seven years and of Sandoval county for one year, was elected treasurer and collector of Sandoval county in 1904, and served in the Thirty-seventh legislative assembly as a member of the Council, achieving signal success as a legislator who had the interests of the people at heart. He has been a member of the territorial board of equalization and held other places of trust and honor.

He is a fluent English speaker, a polished and eloquent orator in Spanish, a man of advanced and progressive ideas, patriotic to the core, a friend of the public school system and always in the favor of economy, but not at the expense of true progress.

**Introduced the First Bill**—To Councilman P. Hanley of Albuquerque, belongs the honor of having introduced the first bill of the 38th legislative session. It is council bill No. 1, and provides for the reimbursement of those people of Albuquerque who advanced the funds for the completion of the National Guard armory in that city which was used as a convention hall during the irrigation Congress last fall. The bill carries with it an appropriation of \$3,028.50. Councilman Hanley can be depended upon to look out for the interests of his home city, the metropolis of New Mexico.

**Couldn't Have Picked a Better**—At the caucus of the Council yesterday the members made as their selection for First Assistant to Chief Clerk Wm. F. Brogan, Ed. C. Wade, Jr. Wade is the young man who was recently admitted to the bar with an exceptionally high average. He is the court reporter of the Sixth judicial district under Judge Mann. As a stenographer he is quite clever and manipulates the typewriter with ease and skill. His work in the Council will be highly satisfactory.

**Popular, You Bet**—The term "popular" is apt to be overworked, but it fits Thomas P. Gable, colonel by honorary brevet, like a well selected glove fits the hand. "Tom" has the faculty of pleasing people, of bringing out their cheerful side, of making them feel good all over, and he is at the same time ubiquitous, it seems, and always doing the right thing just at the right time to provide for the comfort of the members and visitors of the Council, of which he is the sergeant-at-arms.

**Committees**—President Charles A. Spless of the Council and Speaker E. A. Miera, of the House, will announce their committee appointments tomorrow. They have devoted considerable time and thought to the subject.

**No Interpreter**—It is a matter of congratulation that the Council is doing without the services of an interpreter.

**Local Option**—Hon. R. L. Baca in the House and Hon. M. C. Mechem in the Council, will tomorrow introduce the local option bill drafted by Rev. W. W. Havens of the Anti-Saloon League and by the Women's Christian Temperance Union.

## ANOTHER NEW EDUCATIONAL INSTITUTION

word "colleges" in the fifth line of said section 462.

Sec. 8. That all sums of money or valuable grants of any kind in favor of this University shall be deposited with the Treasurer of the Territory of New Mexico and held by him to the credit of said University.

Sec. 9. That the sum of ten thousand dollars is hereby appropriated towards the expenses of said University and that such portions of this sum as may be hereafter expended in establishing said University shall be paid by the Treasurer of this Territory against expense warrants signed by the Chairman of the Foundation Committee and the President of the University.

Sec. 10. That when it shall be agreed by a majority of the Foundation Committee that there are funds in the Territorial treasury sufficient to warrant the commencement of the buildings of the University, the said Foundation Committee shall resign their office into the hands of the body corporate created as provided for in Section 7; provided that if said Foundation Committee shall not reach aforesaid decision within two years after their appointment, all such moneys and property shall be returned by the Treasurer of the Territory to the donors, their heirs or assigns and all unexpended portion of the appropriation herein provided for shall forthwith become a part of the General Fund of the Territory.

Sec. 11. That when the said Foundation Committee shall have resigned their office as provided for in the preceding section, the office of the President of the University and all other offices of the promotion period of the University shall expire ipso facto and their holders shall present such reports and accounts as shall be required by the body corporate aforesaid and shall deliver to said body corporate all property of the University which may be in their hands; and that the Treasurer of the Territory of New Mexico shall transfer to said corporate all property which may have come into his possession or be controlled by him by virtue of the provisions of this Act.

Sec. 12. That nothing in this Act shall be construed as an obligation of the Territory of New Mexico to endow, maintain or in any manner provide for the University hereby established except insofar as is specifically stated in this Act.

Sec. 13. That this Act shall be in full force and effect from and after its passage.

## CONDEMNATION PROCEEDINGS HAVE BEEN INSTITUTED

After the visit of numerous officials of the Atchison, Topeka and Santa Fe railway system officials to this city in connection with the building of a new depot here it finally looks as if something were to be done. A petition has been filed by the Santa Fe Railroad before Judge John McFie wherein the appointment of three commissioners is prayed to assess damages in compliance with the law of 1905 of certain tracts of land in question, being lots 117, 118, 160, 161 and 162. These lots are located at the foot of Garfield avenue where it is proposed to build the depot. The depot will face this street and will be just north of the location first examined soon after it was decided to build the depot. It is understood that work upon the foundation will be begun next week.
