STRENUOUS MORNING SESSION

Member Walters Breaks Bill-Introducing Record

WANT AUSTRALIAN BALLOT

Bills are Being Presented Thick and Fast in the Lower House.

The lower House was today the scene of tremendous activity, a flood of bills being offered, that bid fair to snow the members under. A new record in the line of introducing new bills was made by Representative Walters, who presented ten bills. Permission was unanimously granted to the New Mexico Archaeological Society to hold a public meeting in the House chambers on next Tuesday when an interesting lecture will be delivered by Professor Edgar L. Hewett of Washington, D. C.

HOUSE—Friday Forenoon Session.

All members responded to the roll call after Speaker Miera had called the House to order.

The following petitions were introduced:

House Petition No. 2, by Baca, from the New Mexico Historical Society asking for the use of the House chamber for a public meeting of the Society. A resolution granting the request was unanimously adopted.

House Petition No. 3, by Mullens, asking for the enactment of an Australian Ballot Act. Referred to the committee on territorial affairs.

Would Create Taft County.

House Petition No. 4, by Brown, asking for the creation of Taft county with the county seat at Taiban. Referred to the committee on counties and county lines.

House Petition No. 5, by Mullens, favoring the consolidation of school districts into one district for school purposes. Referred to the committee on education.

House Petition No. 6, by Mr. Speaker, by request, on behalf of the Children's Aid Society with headquarters at Albuquerque. Referred to the committee on education.

Permission for Public Meeting.

House Petition No. 7, by Baca, by request, asking for the use of the House chambers on Tuesday evening, next week, for a public meeting of the New Mexico Archaeological Society to be addressed by Professor Edgar L. Hewett of Washington, D. C., on the Archaeology of New Mexico and recent discoveries in the Territory. The request was granted without dissent.

House Joint Resolution No. 2 was introduced by Sanchez, to appoint joint committees to visit the various territorial institutions and report thereon to the assembly.

New Bill Introduced.

The following bills were introduced: House Bill No. 35, by Melquiades Chavez, an act to amend Section 694 Compiled Laws of 1897, relative to the publication of proceedings of county commissioners. Referred to the committee on judiciary.

House Bill No. 36, by Brown, an act to prohibit the running at large of live stock. Referred to the committee on territorial affairs.

House Bill No. 37, by Mullens, an act to amend Section 7, Chapter 68, Laws of 1905. Referred to the committee on judiciary.

House Bill No. 38, by Mullens, an act to amend Section 3, Chapter 68, Laws of 1905. Referred to the committee on banks and banking.

House Bill No. 39, by Sweezy, an act to amend section 3, Chapter 53, Laws of 1907.

House Bill No. 40, an act to amend Section 18, Chapter 49, of the Laws of 1907. Referred to the committee on judiciary.

Sweezy Kicks Against Railroad.

House Bill No. 41, by Sanchez, an act to amend the General Appropriation Bill for the 59th and 60th fiscal years, by reducing the age prescribed for admission to certain territorial institutions from 14 to 13 years. A motion by Sanchez to suspend the rules for the passage of the bill was lost by a vote of 12 to 12. Sweezy protesting against railroad any except an emergency measure through the House.

House Bill No. 43, by Martinez, an act referring to the selection and qualifications of jurors. Referred to the committee on judiciary.

House Bill No. 44, by Valdez, providing for the acceptance of county debts in payment of county taxes. Referred to the committee on finance.

House Bill No. 45, by Martinez, an act relating to the right of eminent domain. Referred to the committee on mines and mining.

House Bill No. 45, by Martinez, an

(Continued On Page Eight.)

CARDINAL OPPOSES DISFRANCHISEMENT

Washington, Jan. 29.

Cardinal Gibbons, as per a telegram from Baltimore today, expressed himself as opposed to the proposed amendment to the state constitution of Maryland, which will be submitted to the voters of the state at the next general election and which is known as the "disfranchisement" amendment. There has been little attempt to conceal the fact that the purpose of the amendment is to deprive the greater part of the negroes of Maryland of their votes, and the cardinal bases his opposition to its passage upon his belief that only the negroes will be disfranchised and they should not be thus discriminated against.

He also expressed the belief that the objections to their exercising the right of suffrage could be overcome by other, if less prompt, methods, such as the education of the race and the strict enforcement of laws looking to the purification of elections. It has created consternation among the Democratic leaders and an equal degree of exultation among the Republicans to learn that he, one of the leading ecclesiastics of the world, had publicly defined his attitude on the question. The amendment as proposed is similar in its provisions to the laws now in force in many of the Southern states that have taken away from the negro his right to vote. Two years ago it was defeated at the polls, many of the prominent leaders opposing it, and also the governor. It is admitted that the complexion of the new general assembly which will choose a successor to Senator Rayner, will depend in great measure upon the fate of the amendment, hence the fight will be more bitter than usual in this state of close elections.

What is known as the "independent" vote is largely against the amendment, because it is contended that it will result, if adopted, in taking Maryland out of the doubtful column and placing it on the list of one-party states.

Cardinal Gibbons confirmed a class of 112 at St. Mary's Catholic church today, besides preaching the sermon and delivering a special address to those who united with the communion of the church at Annapolis. Upon his request all the boys gave their pledge that they would abstain from intoxicants till they became twenty-one years of age. He said if they abstained that long they would not likely become intemperate.

Delegate William H. Andrews of New Mexico, introduced the following bills:

Granting a pension to Joseph B. Watrous, captain in General Romero's regiment, New Mexico Volunteer Infantry, of \$30 a month. Sybilie Grossart, widow of F. W. Grossart, Co. C, 41st Regiment and Co. D, 22nd Regiment, Veteran Reserve Corps, New York Volunteer Infantry at \$36 a month and continue for her daughter Mildred M., now 13 years old, at \$2 per month, until August 12, 1910.

For the relief of Theophilus L. Keen, that the secretary of the treasury be and is authorized and directed to pay out of any money in the treasury of the United States not so otherwise appropriated to said Theophilus L. Keen, of Roosevelt county, territory of New Mexico, \$8,400 in full compensation for loss of property sustained by him at the hands of the Kiowa Indians in the fall of 1892.

ACCUSED OF CHANGING COURT RECORDS

Governor Kibbey of Arizona Is Accused of By Those Who Would Prevent His Re-Appointment.

Phoenix, Jan. 29.—Reports of alleged charges filed in Washington against Gov. Kibbey of Arizona, whose nomination for appointment is now before the Senate for confirmation, were confirmed today when the nature of at least one charge became known. It is to the effect that while district judge of Pinal county, about twenty years ago, Kibbey changed the court record. No denial is made of the act but an explanation is offered. It is explained that Francis J. Heney, the noted bribery graft prospector of San Francisco, then a young lawyer, was being defended before Kibbey. Later concluding Heney's conduct merely a harmless impropriety, Kibbey expunged the record with his own pen without making an open court order to that effect. It is this erasure which it is stated, Kibbey's opponents have brought to the attention of the Senate.

SUSPICIOUS CHARACTERS FATALLY WOUND NIGHT MARSHAL

Stockton, Cal., Jan. 29.—George Morrison, night marshal at Oakdale, was shot and fatally wounded this morning during a battle with suspicious characters in the railroad yards. Morrison was hit four times. Though mortally wounded, Morrison walked across the street and gave warning of what had happened. Fire bells were sounded and the whole town arose, but a search failed to discover the assailants.

COUNCILMAN EUFACIO F. GALLEGOS.

A GOOD MAN IN THE RIGHT PLACE

Another Native Son Who Has Broken Into the Lime Light of Fame and Who Serves In the Legislature With Marked Distinction.

When the Republican district convention of Colfax and Union counties selected Eufacio F. Gallegos to be the candidate for representative of that district in the Territorial Council, they scored a bull's eye. A man of varied experience, toned by a good education in the public schools of Union county and in the Christian Brother's College at St. Joseph, Mo., Mr. Gallegos has matured into an able and skillful legislator, one to whom the native people, and others as well, point with pride. This is not the first time that this gentleman has held public office, for his services have been in great demand and he has served his county in various ways, for many years, including the chairmanship of the county board of commissioners. The handsome majority with which he was elected to membership in the Council, amply testifies to his great popularity. His early life was spent on the Gallegos ranch where he was born in 1878. The ranch is situated at Gallegos, named after the Gallegos family. Francisco Gallegos, the father was prominently connected with the creation of Union county and helped considerably in the development of the territory. As a ranchman and stock raiser, Hon. Eufacio Gallegos has achieved signal success and has become prosperous. Yet, all this has been due to exceedingly hard and assiduous labor on his part. He is not a dreamer, but an active wide-awake business man, imbued with good, hard, sound common sense. A thorough man, "capable," he is well fitted to take care efficiently of his end in the deliberations of the upper house of the assembly. He is an able speaker and possesses a striking personality and as a result is proving a credit not only to the constituency whom he represents, but to himself and the territory.

SANTA FE ATTORNEY PROMOTES BIG DEAL

Portion of the Florida Everglades Purchased By Colorado Springs Capitalists.

Colorado Springs, Colo., Jan. 29.—R. P. Davis and J. R. McKinnin of Colorado Springs today sold to a group of Denver, Kansas City and Colorado Springs capitalists 46,000 acres of land in the Everglades of Florida for \$900,000. The purchasers are Edward Van Asmus of Denver, J. C. Meacham of Des Moines, J. W. Burdard of Kansas City, P. S. Delaney, formerly of Denver, but now of Kansas City; H. H. Barbee and E. H. Every, both of Colorado Springs. Each of them will incorporate a company to erect a sugar mill on the lands.

The above press dispatch is of interest to people of Santa Fe when it is known that Harvie DuVal, a local attorney promoted the deal. Mr. DuVal is a former resident of Florida and has been working a long time consummating this sale. He is now in the Everglades state. The tract of land mentioned is a portion of the Everglades, which has been drained and it is the intention of the capitalists who have purchased it to colonize the same. This is but one tract of two or three which Mr. DuVal has charge of.

OFFERS REWARD FOR CAPTURE OF CHINESE

Santa Ana, Cal., Jan. 29.—Chinamen who travel by way of the underground route from Mexico to Los Angeles, may find it harder to make connections from now on, because of the fact that Chief Inspector Whiddle has decided to offer goodly sums as a reward to people capturing contraband Chinese or giving information leading to their capture or the breaking up of smuggling bands.

A CROESUS PRICE PAID FOR A RANCH

A Texas Man Disposes of Two Hundred Thousand Acres of Land Getting \$3,000,000.

El Paso, Tex., Jan. 29.—Probably the largest land deal ever made in Texas was closed at Big Springs, Tex., today, when the Waterloo, (la.), company purchased a 200,000 acre ranch belonging to C. C. Slaughter, which is located in Howard, Marlin, Dawson and Borden counties. The price paid was three million dollars. Only the land and the improvements were transferred, Slaughter retaining possession of forty thousand head of cattle grazing thereon. A year ago the same company purchased from Slaughter over a hundred thousand acres in Hale and Lamb counties. The land will be used for colonization purposes.

TURKEY-BULGARIA SITUATION CAUSES ANXIETY

London, Jan. 29.—The Balkan situation is causing much anxiety again in the European capitals. The foreign trouble between Turkey and Bulgaria, which had the result of Bulgaria calling out her reserves, has been instrumental in causing the powers to bring pressure to bear for a peaceful settlement. Great Britain has advised Turkey to accept the indemnity of twenty millions and Bulgaria is inclined to pay this amount provided Turkey abandons her claims for rectification of the frontier.

EARTHQUAKES STILL ANNOY THE PEOPLE AT MESSINA

Messina, Jan. 29.—A number of severe earthquakes felt here yesterday, just a month since the great earthquake that overwhelmed the city, caused great alarm. Terrific rain storms have caused much distress among the people and have also caused suspension of all work.

APPROPRIATION FOR FOREST SERVICE

Washington, Jan. 29.—The agricultural appropriation bill reported to the House makes a total appropriation of \$1,646,200 for the forest service, which is \$750,000 more than was appropriated last year, but nearly two and a half millions less than was asked by Forester Pinchot.

Of the amount appropriated, \$600,000 is for improvements in national forests. Among other items carried in the bill are the following:

Dry farm experiments, \$31,750; experiment farms under government irrigation projects, \$76,680; improving grazing lands, \$18,250; studying alkali and drought resistant crops, \$17,550; maintenance Montana bison range and other reservations for mammals and birds, \$7,000; experiment stations in Alaska, \$28,000; irrigation investigations, \$75,000; drainage investigations, \$81,160; studying sugar producing crops, \$24,300.

Transfer of Ft. Lewis School.

The senate committee on Indian affairs has made a favorable report upon Senator Guggenheim's bill to transfer the Fort Lewis Indian school buildings and grounds to the state of Colorado.

Senator Guggenheim has introduced a resolution providing for creation of a commission to investigate the administration of the national forests. The commission is to be composed of three persons, two appointed by the president of the Senate and one by the speaker of the House, and is authorized to hold meetings throughout the West for the purpose of hearing complaints and suggestions from persons directly affected by the forest reserve methods of the administration, and is directed to report to Congress at the commencement of the next session in December. Senator Guggenheim is of the opinion that much good can be accomplished should his resolution be adopted, through having complaints of the forest administration which may be well grounded reach Congress through a commission of its own creation and that based upon the report of the commission, legislation may be enacted which will serve to remove the friction which now exists between the forest bureau and many citizens of western states.

Hepburn's Bill Favorably Reported.

Senator Borah has reported favorably on the committee on irrigation Senator Hepburn's bill authorizing reappraisal of town lots on government irrigation projects two years after the original appraisal, in all instances where the original appraisal was too high. The committee reported this bill because of the interminable delay of the department in determining whether it can make reappraisal without further legislation.

Senator Borah's bill prohibiting special agents of the land office from employing dishonest means in procuring evidence intended to dispossess settlers on public lands, was brought up in committee, but on the statement that Secretary Garfield was opposed to the legislation the bill went over until next week, so that Garfield can make plain his reasons. If the committee does not act Senator Borah will bring before the senate and enter his protest against methods of special agents and undertake to get a vote on his proposition in some form.

BLOW VAULT MAKING BIG HAUL

El Paso, Tex., Jan. 29.—The vault of the Charlton State Bank at Charlton, Tex., was blown open with dynamite by robbers last night, who escaped after taking all the money in sight. It is reported that they got away with \$10,000.

The vault was drilled and the big safe inside was then blown open. Money taken was all currency. The robbers evidently were men of experience as they left no clue behind them. They worked without arousing any one and the first information the residents of the town had of the affair was when the wreckage of a portion of the front of the bank building was noticed this morning. The authorities all over the state have been wired to be on the lookout for the robbers. It is believed at Charlton that the robbery was the work of an organized gang that has been operating in a number of small towns in Texas during the past two months in which time nearly a score of robberies occurred.

PAYS THE PENALTY.

San Quentin, Calif., Jan. 29.—Chas. Baldeslar, who murdered his wife and her mother-in-law at Stockton last September, was executed today at the state prison, here. He kept up a brave appearance until he ascended the scaffold when he nearly fainted just as the trap was sprung. He did not deny his guilt.

POLICE CATCH MAIL ROBBER.

Vallejo, Cal., Jan. 29.—Charged with robbing the United States mails, Edward Goodhart, alias Edward Gullard, was arrested here last night. It is believed by the police that he is a partner of Charles McCarthy, who is serving fifteen years in the penitentiary for robbing the mails at Fargo, N. D.

ISOLATED FROM OUTSIDE WORLD

Telegraph Wires Coated With Ice Snap in Two

COMMUNICATION STOPPED

And Denver and Inter-mountain Country are Cut Off From all Other Parts

Denver, Jan. 29.—A heavy sleet storm, extending along the Missouri River for a distance of nearly 100 miles, has practically cut off not only Denver but the whole inter-mountain and Pacific coast country from the outside world. Since eleven o'clock last night, when the last telegraph wire east, went down, wire communication with the east has been at a standstill. The storm started in the eastern portions of Kansas and Nebraska last night with a thick fog. Later this turned to rain, then, as a cold wave and strong wind swept across the Kansas and Nebraska prairies the telegraph wires became badly coated with ice, snapping one by one, under the heavy burden.

Efforts to get through a route either to the north or to the south failed. Neither the Western Union nor the Postal telegraph companies had any information regarding the extent of the storm.

Cumbres is Blocked.

Denver, Jan. 29.—Southwestern Colorado is in the throes of one of the worst snowstorms it has experienced this year and as a result traffic on the railroads has been temporarily suspended at certain points. The Denver & Rio Grande, which for several days had its Silverton line blocked, succeeded in getting it open this morning. The snow began falling steadily, however, on the line near Alamosa and on Cumbres mountain. The snow is drifting and the road is blocked over the mountain. The snowplows have been sent there and one of the big rotaries will begin boring its way through as soon as the snow stops falling. No passenger trains were caught and preparations have been made to open the line as soon as it stops snowing.

Houses Unroofed—Storm Worst in Years.

St. Joseph, Mo., Jan. 29.—The worst storm in this locality for many years raged during the last eighteen hours. It started with a warm rain, the mercury being at almost summer heat, and then it turned to sleet and snow with a freezing temperature. The wind attained great velocity, and during the night many houses were unroofed and plate glass windows were destroyed. Telegraph and telephone lines are down in all directions.

Trains Delayed.

All trains coming from Denver are delayed. A passenger train from Leadville is reported stuck in the snow in Platte Canon and the Gunnison branch of the Colorado and Southern is tied up at the Alpine Tunnel. On the south park division of this road the storm is said to be the worst in ten years.

Old Boreas Adds to Suffering.

The blizzard which was heightened by a sixty-mile wind, raged throughout Nebraska, western Iowa and southern South Dakota all night and toward morning increased in fury. Hardly a single line of communication was open in any direction and in this city the public service corporations were almost demoralized. From a temperature of 55 degrees at 6 o'clock Thursday evening, the thermometer fell almost to zero at midnight, greatly increasing the seriousness of the storm. Snow fell all night and during the early hours of the day and was whirled by a strong wind in clouds which completely filled the air.

Demolishes Hotel and Buildings.

St. Joseph, Mo., Jan. 29.—That the cyclone demolished the Tremont hotel and several buildings at Macon, Mo., is the report brought here this morning by a traveling man. Efforts to confirm the rumor are yet unavailing.

FELL UNDER FREIGHT TRAIN

Joseph Burke, a brakeman on an eastbound Santa Fe freight from Albuquerque to Las Vegas, had his left leg cut off last night while the train was passing Lamy. He was applying the brakes on a freight car when his brake club broke and he was thrown under the train, which passed over him, cutting off his left leg. A special train was made up immediately and he was taken to the Santa Fe hospital at Las Vegas in the record-breaking time of an hour and fifty minutes. Owing to the great loss of blood, his condition is serious. Burke is a middle-aged man and has a family at Las Vegas.

WAYS OF LOVE

PROVE STRANGE

Albuquerque Woman No Sooner Di-
vorced Than She Re-marries.

Albuquerque, Jan. 29.—Yesterday afternoon Mrs. Charlotte Eling Van Eman was granted an absolute separation from her husband by Judge Abbott and restored to her maiden name, Charlotte Eling Waterhouse. Shortly after the granting of the decree, the divorcee was married to Mr. Arthur Garfield Fleming. The ceremony was performed by Reverend Fletcher Cook, pastor of St. John's Episcopal church. The divorce from Van Eman was obtained on the grounds of brutality and drunkenness.

TRIES TO CASH

FRAUDULENT CHECK

Albuquerque, Jan. 29.—An attempt was made the other night by a supposed George Miller, formerly of Valencia, to obtain money by cashing a worthless check. The timely intervention of a police officer frustrated his scheme and landed him in a cell.

When arrested Miller was waiting for change for a \$10 check he had given a Chinese restaurant keeper on North Third street, and would have gotten the money had the officer not arrested him. Previous to going to the restaurant Miller had attempted to pass a check for \$50 in a South Third street store. The check for \$50 was signed "William Mayberry" and made payable to "Alfred Stone." The check for \$10 was signed "W. E. Baldwin" and made payable to "Frank Lawrence."

When taken to the police station Miller broke down and confessed.

"I had lost my job on the section," he said "and was discouraged. Let me go and I'll get out."

Miller was given a hearing in Judge Craig's court and bound over to the grand jury under \$250 bonds.

PROPOSE TO BUILD

RAILROAD TO TAOS

The International Trust Co. of Denver has been designated as the depository for money derived from the sale of \$7,500,000 of the bonds of the St. Louis, Rocky Mountain & Pacific Railroad company, for the purpose of building a railroad, opening coal mines and constructing coke ovens in Northern New Mexico.

The company was organized three years ago, and has since secured control of over 800 square miles of coal and timber land, built 100 miles of main line of railroad, opened and equipped 10 electrically operated coal mines and built 396 standard coke ovens, with a capacity of 150,000 tons each. The promoters are a party of St. Louis capitalists.

The company has in operation a railroad from Des Moines, on the Colorado and Southern railway in Union county, to Ute Park, in Colfax county, a distance of 118 miles and its business now amounts to \$2,000,000 a year. It proposes to build across Taos pass to Taos and possibly on to a connection with the Denver & Rio Grande. While it is mainly a coal carrying road at present, it is bound to be in the near future an important link in a new transcontinental road.

IMPORTANT MINING COMPANY

ELECTS OFFICIALS

Albuquerque, Jan. 29.—At a meeting held here the La Luz Mining, Milling and Smelting company, which owns and operates extensive interests in the Sandia Mountains, elected their officers as follows:

Jacobo Yrisarri, president; B. Ruppe, vice president and general

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments, must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

manager; Dr. E. Osuna, treasurer; R. D. Reaves, secretary. The charter members of the corporation form the first board of directors.

Among the important matters attended to was the letting of a contract for the running of a working tunnel on the company's property in the Sandia mountains. The work is to cost \$2,000, and when completed, according to a survey, will tap the main vein 500 feet below the place where it appears on the surface.

The La Luz Mining, Milling and Smelting company is the most active company working in the Sandia district. The corporation papers of the company were recently filed with Territorial Secretary Nathan Jaffa.

BRINGS SUIT

FOR EXCESS FEES

Albuquerque, Jan. 29.—A suit was filed here yesterday by District Attorney F. W. Clancey against former County Treasurer John S. Beaven, to compel the return to the county of an excess in fees amounting to \$8,150, retained by Beaven when in office. A certified check for the amount claimed, has been deposited with the court by Beavin, pending the outcome of the suit. The compliance by Beavin with an agreement to make sufficient deposit with the court to cover the amount involved, lead to the withdrawal of a prior suit which involved the bondsmen of Beavin and the present suit pending is against the ex-treasurer only.

PURCHASE WATER RIGHTS

AT LARGE FIGURE

Cerro. N. M. Jan. 29.—The Moffit Brooks company, which recently bought the Costilla grant of 500,000 acres, has just purchased from the Paxton company, the option on the waters of the Red river. They plan the building of a large canal, to irrigate the southern portion of the valley.

Don't Take the Risk.

When you have a bad cough or cold do not let it drag along until it becomes chronic bronchitis or develops into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive use. Sold by all druggists.

The Normandie Hotel, Santa Fe, popular \$1.50 a day hotel, is now under the management of Hugh F. Du Val. Extensive improvements are being made, the cuisine materially improved and the new landlord propose to make the Normandie the best moderate priced hotel in the territory. Give this hotel a try.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

RICH BEYOND DREAMS OF AVARICE

Will Grow Men
Mixed in Panama
Scandal

RAYNEY GROWS CAUSTIC

Makes Ugly Charges Regarding Isthmus Affairs, Involving Prominent Men.

Washington, Jan. 29.—Charging that William Nelson Cromwell, Roger L. Farnham, Charles P. Taft and others are parties to the "most infamous railroad proposition ever submitted to any government" and that they "are being permitted not only to rob the Republic of Panama, but indirectly the treasury of the United States, Representative Rayney of Illinois in his speech before Congress the other day directed the searchlight of publicity upon affairs in the canal zone in a startling manner in support of his resolution, providing for an investigation by Congress of the Panama canal.

"Their efforts in this direction," he continued, "have had so far the complete co-operation and active assistance of the present administration and of the next president of the United States.

Mr. Rayney traced the history of the proposed canal four hundred years back and warned that "we have already started in the direction of the rocks upon which the French companies were wrecked."

Referring to the government's libel suit against the New York World and grand jury investigations now under way in this city and in New York Mr. Rayney said: "If we are to carry this project through to a successful conclusion we must avoid graft. It is not the part of wise statesmanship to dispose of resolutions asking for an investigation of any phase of the canal question with the sweeping and absolutely unsupported official declaration that there is nothing to investigate. It is not the part of sound statesmanship and through patriotism to attempt to revise the obsolete common law customs of 200 years ago and to employ all the tremendous agencies of the government in attempting to crush newspapers which have had the courage to call attention to a questionable transaction in connection with the canal."

Mr. Rayney was particularly bitter in his denunciation of Mr. Cromwell, general counsel for the new French Panama canal company and counsel and a director of the Panama railroad, which is owned by the United States government. He charged that "through the manipulations of Mr. Cromwell the French canal company was permitted to steal from the U. S. government three or four million dollars" and that after he "had become an officer in fact of the United States, he became a party to an attempt to collect from the United States a fraudulent claim on the part of the canal company of \$2,200,000."

He also was unsparing in his attack on Don Jose Domingo De Obaldia, president of Panama, who he said represented "as no other Spanish statesman in his generation, all that is corrupt in Spanish-American politics."

"Without Obaldia," he stated, "Cromwell's career would have been impossible. Without Cromwell, Obaldia would have been impossible."

Against President-elect Taft now enroute to the canal zone, Mr. Rayney directed the accusation that on the occasion of his last trip to Panama in May "he did nothing on the isthmus except to openly push the candidacy of Obaldia for the presidency." He asserted that a very thinly veiled threat to seize the republic if Obaldia was not elected was contained in a letter written by Mr. Taft to the then president Amador and that to prevent this Arias, Obaldia's opponent, withdrew.

Reference to Roosevelt's recent attack on Senator Tillman was made by Mr. Rayney by asserting that Senator Lodge of Massachusetts, was responsible for the expenditure on January 1 last of over \$1,000,000, purchase of the steamships Shawmut and Tremont for the Panama railroad company, which the canal commission did not want and did not need, but which were bought because the constituents of the senior senator from Massachusetts wanted to sell them.

He said that for some weeks the secret agencies of the government had been at work investigating the senior senator from South Carolina. "They have," he said, "discovered that he used his frank inadvertently in private correspondence and so deprived the government of revenue to the amount of two cents and the matter was considered important enough to be embodied in a special message from the president to Congress. The senior senator from Massachusetts, I believe is still invited to White House dinners, is the president's friend and adviser and the cabinet-maker for the incoming president. I have not heard of any secret service agents disturbing the senior senator from Massachusetts, and yet he is directly, individually and solely responsible that there was taken out of the treasury of the

United States over one million dollars."

"A year or two after the independence of Panama," continued Mr. Rayney, "the officials of the little republic commenced to absorb ideas of patriotism peculiarly distasteful to Mr. Cromwell. Mr. Cromwell determined to displace Dr. Amador and the other leaders of the constitutional party of Panama, and put in as president some more pliant personage, less devoted to high ideals and of course in such an emergency as that his attention was directed to his old friend and ally Obaldia. He was a man after Cromwell's own heart. So it was determined that Obaldia was to become president of Panama. Cromwell and his friends had developed certain methods for defrauding and robbing the little country and they did not propose to be interrupted in any way by the awakened public patriotism and honesty of Dr. Amador and his friends."

"Subsequently," he said, "Obaldia's opponent withdrew on account of the interference of Secretary Taft in the elections."

In President Amador's farewell message to the general assembly, said Mr. Rayney, he directly charged Mr. Taft with forcing the election of Obaldia.

"The plan of Mr. Cromwell and his associates," he declared, was to "absolutely appropriate to their own use the revenue of the republic and to steal the forests and the public lands. The necessity for Mr. Taft's interference and for the election of Obaldia becomes now as plain as day."

Mr. Rayney referred to the fact that there was pending and about to be adopted in the general assembly of Panama "the most infamous railroad proposition ever submitted to any government by which Randolph D. Ward, of New York, was to be largely the beneficiary. He called attention to what he said was the failure of Arnold Shanklin, the American consul general at Panama to make a report requested by the bureau of forestry last year because "he evidently feels he owes his position there to William Nelson Cromwell" and charged that certain interested parties were seeking to levy tribute upon the people of Panama and indirectly the people of the United States in connection with these timber land frauds.

"It will be interesting to know who the gentlemen are who are attempting in this way to impoverish the republic of Panama," and he mentioned William N. Cromwell, Roger L. Farnham and Charles P. Taft.

"I don't charge that the gentleman who will be inaugurated president of the United States on March 4th is a party to this infamous scheme for robbing this little country. His friendship for Cromwell, Farnham and E. A. Drake, as members of the board of directors of the Panama railroad, his continued endorsement of both Cromwell and Farnham, his interference on the isthmus of Panama, which compelled the election of a corrupt statesman, absolutely under the control of Cromwell, as president of that republic—all these things and other things for which the present administration is responsible—made possible the signing of a contract by Obaldia which may bring to the gentlemen interested therein, riches beyond the dreams of avarice."

Mr. Rayney charged that Mr. Cromwell and Mr. Farnham have been actively engaged for two or three weeks promoting treaties affecting Columbia and Panama, pending before the Senate. He said that if the plans of Mr. Cromwell and his associates go through and if these treaties are confirmed there will be no revenues in Panama out of which to pay the million dollars or more indemnity to Colombia, payment of which is guaranteed by this country.

"The United States government will be called upon to pay it all," he predicted, "and if these plans for the spoliation of Panama proceed to a successful conclusion it will not be long until immense burdens of a different character connected with Panama will be imposed upon our treasury."

"These patriotic gentlemen," said Mr. Rayney in conclusion, "therefore are being permitted not only to rob the republic of Panama but indirectly to rob the treasury of the United States and in their efforts in this direction they have had, so far the complete co-operation and the active assistance of the present administration and of the next president of the United States."

The Pure Food Law.

Secretary Wilson says, "One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by all druggists.

The New Mexican can do printing equal to that done in any of the large cities. Our solicitor, every piece of work we turn out. Try our stock once and you will certainly come again. We have all the facilities for turning out every class of work, including one of the best binderies in the West.

New Mexico Military Institute

ROSSELL, NEW MEXICO.

"The West Point of the Southwest."
Army Officers Detailed by War Department.
Army Inspectors RANK SCHOOL IN CLASS "A."

Through Academic course, preparing young men for college or for business life. Great amount of open air work. Healthful location of any Military School in the Union. Located in the beautiful Pecos Valley—the garden spot of the West—at an elevation of 3,700 feet above sea level, sunshine every day, but little rain or snow during season.

Eleven Officers and instructors, all graduates from standard eastern colleges. Ten buildings, thoroughly furnished, heated, lighted and modern in all respects.

REGENTS—E. A. Cahoon, President; W. G. Hamilton, Vice President; J. Phelps White, Treasurer; W. M. Atkinson Secretary, and W. A. Flynn.

Superintendent.

OJO CALIENTE HOT SPRINGS.

These celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Santa Fe, and about twelve miles from Baranco Station, on the Denver and Rio Grande Railroad, from which point a daily line of stage runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the entire year round. There is now a commodious hotel for the convenience of invalids and tourists. People suffering from Consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,626.24 grains of alkaline salts to the gallon, being the richest alkalin Hot Springs in the world. The efficiency of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m. and reach Ojo Caliente at 4 p. m., the same day. For further particulars address:

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THE NAME NEW MEXICO.

It was a timely protest that the legislature voted against any change in the name of New Mexico and it was a fine plea that was made by Congressman Prince for the present name, at yesterday's session of the Council. While he traced the origin of the name back to Espejo in 1583, Colonel R. E. Twichell is authority for stating that the name was bestowed already in 1561, although not exactly to what is now known as New Mexico, which received its name definitely in 1853 as correctly stated in the fine address by Governor Prince. Colonel Twichell says:

"The country now called Mexico was not so called till 1810, when the revolt against Spain began. Up to the time of independence the country was called New Spain and was divided into the same number of provinces as Spain, each with a name of a province in Spain, with the prefix 'new,' but New Mexico was not included in this division. It got its name in this way: In 1561 Francisco Ibarra was in charge of an expedition of exploration into what is now Northern Durango and Southern Chihuahua, and discovered an Indian village near where Santa Barbara now stands in which the houses were whitewashed and the people made and wore cotton cloth, raising the cotton in the neighborhood. He wrote an account of his discovery to his brother in the city of Mexico, telling him he had discovered 'una nueva Mexico,' a new Mexico, another Mexico, meaning that he had found another town like the city of Mexico, and thereafter all this portion of Northern New Spain was known as 'Nueva Mexico,' that is, New Mexico, which name it has retained, though now much reduced in extent."

That the alarm about the change of the Territory's name is not a false one, can be gathered from the following editorial in the Indianapolis Star, which is undoubtedly interesting because it is published in the state that is represented in part by Senator Beveridge in the Senate, and because it persists in throwing doubt upon the fitness of the native people of the Territory for self-government, although it has been demonstrated that the native people are patriotic and as well able to govern, as any other people in the United States. Says the Star:

"It may be taken for granted that statehood will be conferred on the territories of Arizona and New Mexico by the next session of Congress, if not by this, and there is, therefore, no good reason why the proceeding should be delayed. The controversy over separate statehood has been fought out, with the accepted verdict in favor of complying with the desires of the people of the two territories and admitting them as two states instead of one. Senator Beveridge was an advocate of joint statehood, but in view of the prevailing sentiment of the region it is believed that he will not further oppose separate statehood."

"One objection to the admission of New Mexico alone was based on the semi-alien character of a considerable part of the population, Mexicans, Indians and half-breeds being numerous in the territory and to a large extent ignorant and indifferent to the character of our institutions. It was thought that by uniting the territories this element would be offset to a great degree by the higher average of intelligence in Arizona. This theory perhaps did injustice to New Mexico in underestimating the prevailing quality of citizenship; at all events, conditions in that territory are changing rapidly, the new settlers who are coming in being intelligent and progressive, and there is every prospect that the coming state will bring credit to itself and to the Union. Both states are, of course, only in the beginning of their development. They have immense mineral wealth and almost equal possibilities in an agricultural way through the building up of irrigation systems. Their climate makes them the health resort for the nation and of their transient visitors for health's sake many remain permanently and become active, useful citizens, while others sound the praises of the region on their return home and become its best advocates."

"It is possible that the name of Arizona will be retained for the state, but that New Mexico will be changed. Certainly this should be so. The name Mexico should be dropped, but there is some weight to the argument in favor of substituting a Mexican or an Indian name. 'Montezuma' has been urged and is euphonious and historically suggestive. It is likely

however, that inasmuch as this is the Lincoln centenary year Congress will decide to give the new state the name of our martyred President as one means of honoring his memory. No objection can be raised to this save that no state should ever have been named after any individual; but since the precedent has been set in the case of Washington opposition to the second, and doubtless the last, case of the kind must necessarily be weak. Before the end of 1909, as matters look now, our Union will be made up of forty-eight states and will so remain until such time as Alaska shall knock at the door and be admitted."

The Cleveland, Ohio, Leader, takes a more just view of the claims of New Mexico and Arizona to statehood when it says editorially:

"Good judges of conditions and prospects in Congress believe that even in a hurry of this short session New Mexico and Arizona may be admitted as states. The movement, which once seemed near success, to make one state of the two territories is dead. They will come into the Union separately. The only question is that of time."

"Congress will make no mistake in letting both states enter the fold now. They are growing fast. Their future is not doubtful. They have size and natural advantages sufficient to make their prosperity and progress certain for generations to come. Both will leave several states already in the sisterhood far behind in population, wealth and importance."

"There is no logical place in the American scheme of government for big and thriving territories. The territory must necessarily be only a makeshift. It ought to give way to the state, in every instance, as soon as circumstances justify the change. The manner in which Oklahoma was kept out of the union was nothing less than a national scandal. Arizona and New Mexico must not share that treatment."

"Let Theodore Roosevelt sign the bills which will make states of the two remaining territories in the great region which used to be the whole country, before the purchase of Alaska and the acquisition of Hawaii, the Philippines and Porto Rico. He has written his name upon the continent, as one of his eulogists truthfully says. No other president ever did so much to arouse the nation to the need and value of forest preservation, irrigation works, the reclaiming of swamps, the conservation of all natural resources. No other President ever knew the West so well."

"It ought to be Roosevelt's privilege to proclaim the admission of the last of the territories."

THE NEED OF A RAILROAD COMMISSION.

Governor Herbert S. Hadley of Missouri, a few months ago, at Santa Fe, in an address to the New Mexico Bar association, dwelt upon the need of the regulation and supervision of corporations, especially those which served the public. He said that the work of railroad regulation should be undertaken by boards composed of trained, experienced and fair-minded men. He insisted that "to one even limitedly familiar with this question, it must be at once apparent that it is practically impossible for a legislature to deal intelligently and fairly with the question. And if there is one piece of advice that I would feel justified by reason of my official and professional experiences in giving to the people of New Mexico, when they shall have entered into the province of statehood, it would be this: Provide by law for a board of railroad commissioners to be appointed by the governor in such a way as to be free from political influences, and in such a way as to secure men of such character and ability that their orders will be respected, both by the railroad companies and the public. I recognize that this is easier to state than it is to accomplish. But if you can be successful in securing such a board to deal with the problem of the regulation of the rates and the operation of your railroad companies, you will do as much or more than any state has yet accomplished in the solution of this difficult problem."

At the time he spoke, Governor Hadley was the attorney general of the state of Missouri, and had already gained fame as a "trust buster" and anti-corporation lawyer. His advice must have been in the mind of Governor Curry when he recommended the creation of such a railroad commission. Governor Curry wisely refrained from speaking of the powers that the legislature should confer upon such a commission and merely indicated his idea that it should be more

of an investigating and supervisory board than a rate-making board, for it is to be doubted whether a territory, being under the direct suzerainty of the federal government, has any right to make or establish rates, although the courts have practically sustained the contention of the states to the right to establish intra-state rates provided certain legal requirements as to notice, hearing, etc., are observed, and it can be shown that the rates are not confiscatory. But there is little doubt that the territory can create a commission to investigate all complaints as to inequality or discrimination in rates or as between different communities, and to call the attention of the interstate commerce commission to them, in case the railroads would refuse to remedy the evil. A railroad commission, even if not a rate-making body, may be of service and of great benefit in many directions, but the law creating it must be skillfully drafted and after much consideration both by the legal and the other members of the legislature. As to legislation establishing a three-cent passenger rate or otherwise prescribing to the railroads the maximum they dare charge, these had better be left to the consideration of the future state for by the time they have fought their way through the courts, a state government will have been established, with ample and undisputed powers to regulate both passenger and freight rates on commerce within the boundaries of New Mexico.

IN TIME OF PEACE PREPARE FOR WAR.

This may seem a trite phrase, but it is as wise a maxim as any in the language, and as long as the people believe in it and act up to it, all will be well with the Republic. If ever a Nation had cause to bitterly regret the neglect of this sage Washingtonian maxim, America is that Nation. Much useful knowledge can be acquired by imitating the wisdom of our ancestors, and avoiding their mistakes; we study history in vain if we do not treat both of these as they deserve. A glance at the years immediately preceding the war of 1812, will throw a strong light on the inexcusable mistakes of that period, and we may learn useful lessons from them. In the preface to the third edition to his History of the Naval war of 1812, President Roosevelt says: "It was criminal folly for Jefferson and his followers, Madison, to neglect to give us a force of either regulars or well-drilled volunteers during the twelve years they had in which to prepare for the struggle that one might see was inevitable; but there is far less need of an army now than there was then. Circumstances have altered widely since 1812. Instead of the decaying might of Spain on our southern frontier, we have the still weaker power of Mexico. Instead of the great Indian nations of the interior, able to keep civilization at bay, there are now left only broken and scattered bands which are sources of annoyance freely. To the north we are still hemmed in by the Canadian possessions of England, but since 1812, our strength has increased so prodigiously, both absolutely and relatively, while England's military power has remained almost stationary, that we need be now under no apprehension from her land forces, for, even if checked in the beginning, we could not help conquering in the end by sheer weight of numbers. If by nothing else. So that there is now no cause for our keeping up a large army; while, on the contrary, the necessity for an efficient navy is so evident that only our almost incredible shortsightedness prevents our at once preparing one. Strong emphasis can be laid on the above by stating that Roosevelt wrote his History four years before we had acquired the Philippines, and hence it must be obvious to the most careless student that a larger navy is required now to protect our Pacific possessions in the Orient than when he wrote. At the beginning of the war of 1812 we had 17 vessels carrying 442 guns, and 5,025 men and even of these two were condemned as unfit for service; while England had 1,048 ships carrying 27,300 guns, and 151,572 men; and with that terrible preponderance of sea power there were so-called statesmen who opposed an increase in our navy. Of course, it may be urged that we beat England at sea, and so we did, but how did we do it? Not through any energy of the Government but by the enterprise and daring of the mariners along the Atlantic seaboard, who covered the ocean with privateers who literally drove English commerce from the seas, and compelled the enemy to sue for peace. As for the land fighting the less said about it the better for our credit. Unfortunately, we have still some of the same class of statesmen (?) who prevailed in 1812; during the debate on the Naval appropriations in Congress recently Representative Finley of South Carolina said in opposing the increase of the Navy: "It is unnecessary, because we are at peace with all the world, and, what is more, we have wisely managed to safeguard our peace as it has never been safeguarded before."

Just so, wait until we are at war, and that will be time enough to prepare. Happily there were but few who took those asinine views; for the bill passed by a large majority appropriating \$135,000,000, including \$18,000,000 for two first-class battleships, and so far so good.

The Ohio Supreme Court has declared unconstitutional the tax of two and a half per cent that the insurance department of that state levies upon all insurance premiums, if the premi-

ums collected are sent to headquarters outside of the state. The New Mexico law taxing insurance premiums two per cent and subject to the reciprocal clause, which may increase the premium in certain cases, is similar to the Ohio law. While the Ohio decision does not necessarily govern the New Mexico or the Federal courts, yet it is important as a judicial decision to which will be given due weight in case the New Mexico law should be tested in the courts.

Fever Sores.
Fever sores and old chronic sores should not be healed entirely, but should be taken in healthy condition. This can be done by applying Chamberlain's Salve. This salve has no superior for this purpose. It is also most excellent for chapped hands, sore nipples, burns and diseases of the skin. For sale by all druggists.

The seals and record books for notaries public for sale by the New Mexican Printing company at very reasonable rates. Seals for incorporated companies are also handled. Call at or address the New Mexican Printing company, Santa Fe, New Mexico.

Subscribe for the New Mexican.

THE FIRST NATIONAL BANK

OF SANTA FE.

The oldest banking institution in New Mexico, Established in 1870

RUFUS J. PALEN, President. JOHN H. VAUGHN, Cashier.
LEVI A. HUGHES, Vice President. ALFRED H. BRODHEAD, Assistant Cashier

Capital Stock, \$150,000. Surplus and undivided Profits, \$63,506.

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency, public or private. Interest allowed on time deposits at the rate of three per cent per annum, on six months' or year's time. Liberal advances made on consignments of livestock and products. The bank executes all orders or its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

PERSONAL MENTION

Hon. E. M. Sandoval of Albuquerque, is a legislative visitor today.

Mrs. H. P. Bardshar, wife of the internal revenue collector, is ill with the grip.

H. H. Hart and J. L. Hartley went to Espanola this morning to bring an automobile to the city.

W. E. Newman of Raton, was among the day's guests at the Claire while passing through the city.

A. Menner, traveling man who makes his home at Las Vegas was an arrival last evening.

W. P. Buchanan, a prominent citizen of Tucumcari, is in Santa Fe looking into legislative matters.

Elmer Betty, of Whit, Ill., was among the tourists to arrive in the city yesterday. He is at the Claire.

Last night, Attorney John H. Knaebel, after having finished his business in this city, left for his home at Denver.

J. B. Underwood, proprietor of the Kelly addition to the town of Willard, is in the city on matters connected with that enterprise.

Land Commissioner R. P. Ervien returned this noon from an official trip to Chaves county.

G. W. Sayles, who represents a maple syrup concern in the east is in the city today from El Paso. He registered at the Claire.

W. D. Shea, traveling freight and passenger agent of the D. & R. G. railroad is spending a few days in Albuquerque and Las Vegas.

A. D. Goldenberg, the well known business man of Tucumcari, and who has served as county commissioner of Quay county, is in Santa Fe on legislative business.

R. L. Powell of Silver City, U. S. Deputy Surveyor, is in Santa Fe on a business trip and will leave for home tomorrow. He is an old timer in New Mexico and lived at Santa Fe from 1880 to 1882.

General H. F. Robinson, superintendent of irrigation for the Pueblo Indians, and who has charge of the construction of the reservoir at Black Rock, near Zuni, McKinley county, is a guest at the Claire.

Rev. Father Edwin Cazals of Park View, Rio Arriba county, and Rev. Father C. Barro of Cosilla, Rio Arriba county, returned to their respective homes this morning after spending a few days in the city.

W. B. Walton, editor of the Silver City Enterprise, and R. L. Powell, mining engineer arrived last night from Silver City and registered at the Claire. They will remain a day or two looking after legislative matters.

G. A. Dahlgren, the genial contractor, arrived last night from La Junta, Colo., and took a room at the Claire. He is looking after the work on the national guard armory for the construction of which he has the contract.

Dr. C. E. Lukens, who is superintendent of the Children's Aid Society of the Territory, is in the city from Albuquerque, seeking to interest legislators in an appropriation for the Children's Home at Albuquerque, in the Duke City.

H. A. Judd, a British mining engineer, who is associated with Governor Otero, and others in the Corona Queen Mining Company of Lincoln county, and other mining propositions, will leave tonight for northern New Mexico after a stay in Santa Fe of several weeks. He will make a tour of the mining camps of the territory to make geological examinations for a report to English capitalists who have become interested in the Southwest.

R. A. Ford of Silver City recently appointed adjutant general to take the place of A. P. Tarkington, resigned, arrived in the city last night. Mr. Ford has come to remain permanently in the city although his duties do not officially begin until the twentieth of next month. Meanwhile he will be in consultation with the present incumbent becoming familiar with the work to be carried on. Mrs. Ford will

AFTER THE GRIPPE

Vinol Restored This Man's Strength

"Several years ago I was attacked by a severe case of grippé, which left me with a hacking cough, soreness in my chest, and bronchitis. I took nearly every kind of cough syrup sold on the market, besides medicine given me by physicians.

I received no permanent relief until my druggist asked me to try Vinol, and after taking three bottles I was entirely cured.

I believe Vinol to be the greatest blessing ever offered to the public, as it does what is claimed for it." R. E. R. Hicks, Maplesville, Ala.

The reason Vinol cures chronic coughs, colds and pulmonary troubles is because it contains tonic iron and all the healing and body building elements of cod liver oil but no oil.

Vinol is also unexcelled as a strength builder for old people, delicate children, weak and run-down persons, and after sickness.

arrive within a week or ten days and take up her abode with Mr. Ford at the Palace hotel.

W. Frank Owen, manager of the Santa Fe Water and Light company, has returned from an extended tour of the East, during which he visited a number of water and light works in the larger cities.

CLAIM \$2,000,000

FOR DAMAGE DONE

New York, Jan. 29.—Counsel for the Ocean Steam Navigation company, owners of the White Star Line steamer Republic, yesterday filed a libel in the United States district court against the steamer Florida of the Lloyd-Italiano line, which ran down and sank the Republic off Nantucket lightship. Damages amounting to \$1,500,000 for the loss of the ship and \$500,000 for the loss of cargo and effects of the passengers and crew were claimed. It was asserted in the libel that the collision was due to no fault on the part of Captain Sealby of the Republic, but wholly to the fault of the Florida.

File Counter Plea.

The Lloyd-Italiano Societe de Navigazione, owners of the Florida, also filed in the United States district court a libel and petition for a limitation of liability against the Florida, her freight and passage money. The papers state that the collision was solely caused by the fault and neglect on the part of the Republic. The petitioners say that damage value of the Florida now does not exceed \$224,000 and asks the court to fix the liability at not more than that amount.

After the filing of papers in the proceedings against the Florida, United States Marshal Hekel seized the Italian vessel under a writ of attachment.

STORM FELT LOCALLY.

The extent of the storm to the north and east, is so great and the intensity so severe that the usual market reports could not be secured by the news service today. In fact the storm has crippled the telegraph service so badly that eastern news dispatches are not available this afternoon.

After the filing of papers in the proceedings against the Florida, United States Marshal Hekel seized the Italian vessel under a writ of attachment.

STARVING THOUSANDS IN LONDON STREETS.

London, Eng., Jan. 29.—Derelict humanity is undergoing its severest pangs in London just now, and anyone who wishes to catch a glimpse of its experiences has but to visit one of the Salvation Army relief centers in London. The men's shelter at Blackfriars, the soup kitchen at Millbank, the labor bureau at Whitechapel, all of these will furnish poignant tragedies of unemployment and homelessness. "Our officers who are constantly with the poor find," said Colonel Kitchen, "that there is more unemployment than ever among them. The greatest number of these are unskilled laborers, but there are also large numbers of skilled men out of work. Their position is pitiable in weather like this, for very many of them, both men and women, are not only without work or money, but without a home. At the present moment the Salvation Army is housing nearly 6,000 men in its shelters every night. Some of the men came only for a night, but if they leave in the morning their places are immediately taken. Others come night after night until they get something to do, and many go back to the provincial towns from which they came with high hopes of success in London. The army also accommodates 2,000 women in the women's homes and shelters throughout London. The distress among women workers is very great, and is much more severe than we have ever known it. In most of these cases the women have reached their present plight simply through misfortune. They are working women who have lost their employment and have no home to go to."

LIFE PUNISHMENT FOR ROBBERING MAILS

Helena, Mont., Jan. 29.—George Frankhauser was found guilty of robbing a Great Northern train, extracting \$40,000 from the registered mails and placing the lives of the custodians in jeopardy, by the jury in the federal court here and will be sentenced by Federal Judge W. H. Hunt today. Under the statutes Frankhauser must serve the rest of his life in a federal prison at hard labor. Aside from a slight twitching of his face the prisoner showed no emotion. It is probable that Frankhauser will be sent to Leavenworth.

USES SWORD TO ATTACK OFFICIAL

Tokio, Jan. 29.—A report from Seoul brings the news that while the imperial train was en route to Pyenyang with the Emperor of Korea and Count Ito of Japan, on a tour of inspection, one of the emperor's aides attacked the home secretary with a sword. The official escaped with his life but suffered a bad wound. A bomb was thrown at the temporary building at Kalsyong where the reception to the emperor was held. General feeling of unrest caused the trip to Wiju to be abandoned.

Lame Shoulder Cured.

Lame shoulder is usually caused by rheumatism of the muscles and quickly yields to a few applications of Chamberlain's Pain Balm. Mrs. F. H. McElwee, of Bolstown, New Brunswick, writes: "Having been troubled for some time with a pain in my left shoulder, I decided to give Chamberlain's Pain Balm a trial, with the result that I got prompt relief." For sale by all druggists.

The New Mexican Printing Company

has ready and for sale up-to-date and correct compilations of the territorial incorporation laws, price 75 cents, of the territorial road laws, price 50 cents, and of the territorial mining laws, price 50 cents per copy. These can be purchased by applying in person or by mail at the office of the company.

GO TO

WILLARD, NEW MEXICO.

The Live Commercial City of the Estancia Valley

THE CITY OF WILLARD destined to be the COUNTY SEAT of Torrance County New Mexico. Was laid out in the fall of 1905. It is now a thriving city of nearly 1000 inhabitants. It lies on the main line of the Atchison, Topeka & Santa Fe Railway system, running east and west from Chicago to all California points and the New Mexico Central Railroad running from Santa Fe, N. M., in close connection with the Denver and Rio Grande and the Rock Island System. The Santa Fe System have expended on its depot yards a million dollars, in freight and passenger depot, eating house, water system, round house and coaling chutes.

Sixty houses have been erected. Several of the largest mercantile houses in the Territory are built and doing a big business. It has four large hotels, churches, schools. A live Board of Trade, energetic business men, two lumber yards, etc. The new city is in the center of the best agricultural and grazing section of New Mexico. The best shipping and distributing point for all merchandise, cattle, sheep and wool. The large wholesale houses are in operation.

THE WILLIARD TOWN AND IMPROVEMENT COMPANY

ARE OWNERS OF THE
WILLARD TOWNSITE

TERRITORIAL NEWS NOTES

At La Luz.

The La Luz Mining, Smelting and Development company has sent four expert miners to its property in the Sandia mountains with a view to letting a contract for a 200 foot tunnel. The work proposed will tap the ore body 500 feet below where it appears on the surface and will prove the value of the property conclusively, it is believed. Mining men say that at present the prospect is the best yet discovered in the vicinity of Albuquerque. The La Luz Mining, Smelting and Development company was just recently organized by Albuquerque men, and incorporated under the laws of New Mexico.

At Tucumcari.

The El Paso and Silver City Telephone company has petitioned the board of aldermen for a permit to install a Central Energy Telephone system in this town. Service will be maintained between all towns of consequence from here to El Paso.

Two residences were destroyed by fire during a high wind. The house belonging to C. H. Young on Center street and an adobe of N. W. Gallegos were reduced to ashes.

The residence of Conductor Beeckman on High street was almost completely burned down before the fire fighters were able to apply water. The loss was \$11,200, covered by insurance.

At Sylvanita.

The organization of the Sylvanita board of trade was perfected the other evening at a meeting held in the Aguirre Mercantile company's store, the initial membership being more than 50. Galen F. Humbert was elected president and W. J. Stoneham secretary. The board will at once take steps to place Sylvanita before the general public of the country in its proper light as an investment proposition.

The directorate of the board will consist of seventeen members who will be named by the president at the next meeting to be held Monday evening. A unique feature will be a committee of invitation and reception who will extend personal invitations to distinguished miningmen over the coun-

try and will receive them upon arrival. Several celebrities who will later be invited were mentioned at the meeting, among them being Colonel W. F. Cody ("Buffalo Bill"), who is understood to be in the market for a good mining proposition.

Enthusiastic speeches were made by several visiting mining men among whom were W. B. Root, of Denver; Lee Glockner, of Cripple Creek; Colonel Burbridge and Mr. Nichols, of Goldfield. Mr. Glockner, who has seen most of the big mining camps of the country, even went so far as to aver that Sylvanita has the best surface showing of any camp he has ever seen. Development is all that is needed to prove its worth, he declared.

At Lincoln.

The scarlet fever that has been so prevalent here and caused many deaths, has abated.

Sheriff Charles A. Stevens has gone to Solomonville after a man who was indicted here last court for attempted criminal assault.

The weather is very dry, but stock of all kinds is doing well.

A brother of G. A. Barber is here from Iowa visiting. It has been many years since they met.

At Roswell.

At the closing session of the Roswell Farmers' institute, the following officers were elected for the coming year: Charles D. Keyes, president; Cooley Urton, vice president; Robt. Beers, secretary; Capt. M. S. Murray, treasurer; Arthur J. Stevens, librarian; H. J. Hagerman and R. C. Nisbet, executive committee.

There is considerable excitement again, over the oil field of the Pecos river, opposite Roswell. A few days ago the drillers at work on the Hagerman well, twenty miles east of town, which has now reached a depth of 2,200 feet, discovered fully a quart of oil in each bowlful of slush brought to the surface. Fillings are being made by parties on the large tract that was filed on by others last May, June and September under the belief that the first fillings have expired under the three months rule. The older claimants insist that they have one year from the first of January following the date of their fillings in which to do the work on the claim required by law. There is some feeling over the matter.

At Willard.

The opening up for traffic of the eastern railway of New Mexico, sometimes called the Belen cutoff, but in fact the shortest line from the east to the Pacific coast on the great Santa Fe system, has caused Willard to leap forward. Its natural position and inexhaustible supply of pure water are sure to make it a very important point on this road.

Also in the past year the patent to the townsite was issued and placed on file, thus settling forever the question of titles to town property.

The first newspaper in this town, the Willard Record, celebrated its first birthday by getting out a very creditable special edition recently.

Aside from business affairs, yet closely connected with them, is the quality of citizenship that has been added to our community. The newcomer demands to know about schools and churches, and other evidences of advanced civilization.

The number of saloons has been decreased 25 per cent.

Willard's schools have grown till the building will no longer accommodate the pupils, and the board of trade hall has been made use of temporarily for the advanced grades.

Now, in the new year, the town is working upon the proposition of issuing bonds and erecting a school building commodious enough to accommodate the pupils another year, and in such shape that it can be added to as the town grows, as it is sure to do.

This section needs many more farmers, who understand how to so cultivate the soil as to conserve the natural moisture (as some have done) and thus assure splendid crops of potatoes, grain and vegetables of all kinds.

At Logan.

Quite a colony of Germans have settled just north of town. Last week eighteen more arrived from Oklahoma and twenty more families are looked for very soon. As the Germans are splendid farmers, their coming is hailed with delight and the rapid development of that section of the country can be looked for.

At Las Cruces.

Work on the street improvement has begun in earnest. The first shipment of eight cars of crushed rock to be used in macadamizing the streets

has arrived. Mr. Blumenkranz, an engineer of El Paso, engaged to superintend the work, is on the ground. Mayor Martin Loman intends to push the work as rapidly as possible to completion. The work will be done block by block.

The Women's Bowling club of Las Cruces has been organized with a membership of ten. The club meets every Thursday afternoon at the Las Cruces bowling alleys to indulge in this sport which is very popular here. The members of the new organization are Mesdames D. F. Baker, F. W. Parker, C. A. and J. F. Sattley, Robert Dross, W. Jacoby, C. D. Thompson, Morgan Llewellyn, W. A. Field and George Mayes.

CEREBRAL HEMORRHAGE CAUSES DEATH

Albuquerque, Jan. 29.—Patrick Maycock, aged 78, died at 8 o'clock yesterday of cerebral hemorrhage, at his home, 110 South Broadway. He was born in Ireland and came to America fifty-five years ago, residing in Albuquerque for the past six years. The funeral will be held at the Immaculate Conception church at 9 o'clock tomorrow morning, the cortege leaving Strong's undertaking parlors at 8:30. Burial was at Santa Barbara cemetery. Mr. Maycock leaves a daughter, who is a teacher in the Fourth ward school. Another daughter, Mrs. E. J. Atkins, died at Las Cruces about a month ago and was buried here.

AUTHORIZE BOND ISSUE.

Albuquerque, N. M., Jan. 29.—The city council has passed an ordinance authorizing the issue of \$290,000 in sanitary sewer bonds, bids for which will be received March 1. Work on the new sewer system, which will be the most modern in the Southwest, will begin in about three months.

Herewith are some bargains offered by the New Mexican Printing company: Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c. Missouri Pleading forms, \$5; Missouri Code Pleadings, \$6; the two for \$10. MINOR CITY TOPICS

Denver, Colo., Jan. 29.—Weather forecast for New Mexico: Fair weather tonight and Saturday with stationary temperature. New Spanish green onions, radishes, lettuce, celery, endives at Arrighi's Chess Club.—The Chess club will meet with Dr. David Knapp this evening.

Postal Telegraph.—The Postal Telegraph company, in its new quarters, in the New Mexican Building, at the northwest corner of the Plaza is drawing a large share of the telegraph business of the city.

New Suit Filed.—Papers have been filed with F. C. Wilson, clerk of the first judicial district court in the matter of Case & Sons vs. The Rio Arriba Coal company. The case involves an account.

Arrighi's Parlor Meat Market and Delicatessen for eastern smelt, salmon, perch, fruit and Blue Point oysters.

Pearless Minstrels, at the opera house last night gave one of the best shows that has been seen in this city for a long time. Those who have not seen it should not fail to go tonight. The jokes and songs tonight will be entirely new.

A Bowling Alley.—C. J. McCauley, proprietor of the Smoker is having the foundation laid to the rear of the billiard hall for a bowling alley. There will be two alleys for those who enjoy this kind of sport. There will be a rear entrance for ladies.

Sheep Inspectors Busy.—E. O. Speaker, Federal sheep inspector, went to Stanley today to inspect a shipment of sheep to be made by D. J. Costello. F. L. Marshall, Federal sheep inspector, went to Servilleta this morning to inspect a shipment of sheep by Antonio J. Ortiz to Kansas City.

The choicest cuts of Kansas City and home dressed beef, pork, mutton, veal and lamb at the right prices, at Arrighi Parlor meat market. Phone 49.

Jury Commissioners Finished Work.—The jury commissioners appointed to select the names for the county court jury list have finished their work after two days' session at the court house. J. L. Seligman, U. S. jury commissioner, and Clerk Wilson, have also made up the jury list for the U. S. Court.

Sweet pickles, sour pickles, dill pickles, kraut, mince meat, eggs, butter, all varieties of cheese, honey, jellies, preserves, and the best of canned goods at Arrighi's Parlor meat market. Phone 49.

For the Sake of Sanitation.—Beginning the first of the next month, Mayor Jose D. Sena will give instructions for the strict enforcement of the ordinance requiring garbage cans to be covered. The garbage collector will be ordered to carry away all boxes and receptacles found on the curb or in the street that do not have covers.

Bar Association.—Secretary C. C. Catron today issued a call for the meeting of the New Mexico Bar Association in the Supreme Court rooms at the Capitol on Thursday afternoon, four o'clock, February 4. Among the important matters to be taken up is the selection of a place and the time for the annual summer meeting of the Association and also the admission to membership of a large number of applicants.

A Silent Tribute.—Today, the sixty-sixth anniversary of the birth of William McKinley, the beloved and lamented president, is being silently remembered by many of Santa Fe residents as well as throughout the country, by wearing a carnation, McKinley's favorite flower. The available supply of the flower in the city was exhausted by the middle of the forenoon and many desirous of securing one were disappointed.

Turkeys, ducks, geese, springs and hens, fresh fruits and vegetables at Arrighi's Parlor meat market. Phone 49.

Money Has Been Paid.—The Atchison, Topeka & Santa Fe railroad has deposited with F. C. Wilson, clerk of the first judicial court, the money as per assessment of the commission appointed to appraise the valuation of the lots to be used on the south side as a site for the new depot. After ten days, if no exceptions are taken to the report of the commissioners, the money will be turned over to the former owners of the lots.

Summer Tourists.—The Southern-West company, under the management of V. L. Bean, is in correspondence with a teachers' association that will probably result in many people making a side trip to Santa Fe from the convention of educators to be held at Denver in June. The Southern-West company is reaching out with a view of attracting tourists generally to the many places of interest, with Santa Fe as a base.

Weather Report.—The lowest temperature during last night was 10 degrees below zero at 2:30 p. m., and the minimum was 18 degrees at midnight; the mean temperature was 26 degrees or 4 degrees below normal. Relative humidity at 6 a. m. 72 per cent; at 6 p. m., 43 per cent; relative humidity average for the day was 58 per cent. The highest velocity of the wind was 36 miles per hour at 2 o'clock when it was blowing from the northwest. Temperature at 6 a. m. today, 11 degrees. A high northwest wind prevailed during most of yesterday, and a trace of snow remains on the ground in drifts.

Trains Are Late.—The train report today is to the effect that Santa Fe No. 7 is eight hours late and No. 9, five hours late. Rio Grande one hour and 20 minutes late; New Mexico Central on time.

LEGISLATIVE THUMB NAIL SKETCHES

Hopeful for Statehood.—According to a letter from Congressman J. Francis Burke of Pennsylvania to his brother Edmund C. Burke of this city, the passage of the statehood bill through the House next week is certain. However, a fight over the measure is anticipated in the Senate, but it is believed that all opposition will be overcome before March 4.

What Constituents Want.—Representative Bushkevitz was in receipt of a letter from a prominent financier and citizen of Roy which pointed to some legislation desired by the people of that part of the territory and which includes the repeal of the herd law; defeat of any local option proposition, the creation of Bent county, a county surveyor's bill, grant of a school section for cemetery purposes at Roy, and the fencing of the Dawson railway's right-of-way.

Want the Archives Back.—Ex-Governor L. Bradford Prince is determined that the United States return to New Mexico the archives loaned some six years ago and for the return of which past legislatures have made repeated demands. The archives were loaned with the understanding that the Congressional Library would make copies of such documents as it desired and that the originals would be returned within a certain time, but Uncle Sam hasn't kept his word.

An Interesting Character.—Frank N. Page of Buchanan, Guadalupe county, who was in Santa Fe this week, to urge the legislators to place a law upon the statute books providing for a license fee that must be paid by Nimrods who desire to hunt quail or other game, is an interesting character. He is an old-time plainsman and yet has kept up with the progress of events. He can quote Shakespeare and Balzac by the yard and is a fervent friend of the public school system. At the same time, when occasion demands he can use language more forcible than elegant. Mr. Page is U. S. court commissioner, postmaster, deputy game warden, agent for the townsites and holds a few minor honors on the side. The day was a time when he was one of the wealthiest cattle owners in the Panhandle, but now he is seeking fame as a dry farmer and horticulturist. He brought with him to Santa Fe a sackful of as beautiful winter apples as are raised anywhere. They come from his orchard near Pueblo de Luna where he was a pioneer orchardist. He is an enthusiast in the cause of protecting game and is active in more than one direction for the public good. The influx of many settlers to southern Guadalupe county keeps him busy and he is delighted to see the land taken up by farmers who mean business. He declares the Buchanan country to be the best dry farming section in the Southwest, free from snakeweed and producing bumper crops of kafir corn.

Railroad Commission Bill.—Hon. Eugenio Romero of Las Vegas is much interested in the establishment of a railroad commission, such as was recommended by Governor Curry, and is interesting himself in behalf of a measure that will carry the recommendations into effect. Mr. Romero is a politician of the first class and numbers his friends by the hundreds. He is making considerable headway, therefore in pleading the cause with the legislators.

New County Advocate.—Dr. E. P. Brown of Roy, is one of the energetic hustlers from Roy who is working for a new county of which Roy is to be the county seat. The measure is embodied in House Bill No. 4, which has been advanced to second reading and will be taken up for consideration at a very early date.

Quick Work.—Immediately upon the passage of amended House Bill No. 25, by the Council providing for the re-annexation of the precinct of Logan to Union county, and of a bond issue of \$15,000, by the county of Quay, in payment of the cession of Nara Visa and Logan two years ago by Union to Quay county, the board of county commissioners of Quay county met at Tucumcari in special session and passed resolutions authorizing the issue of \$15,000 in bonds and sent a copy of the proceedings and the resolution to Attorney General Hervey, who today approved the form of the bonds which will be in denominations of a thousand dollars each. There will be no difficulty in placing the bonds on account of the good financial condition and high assessment of Quay county. Of course Councilman Gallegos is very happy over this quick action.

The New Mexican printing company has ready and for sale up-to-date and correct compilations of the territorial incorporation laws, price 75 cents, of the territorial road laws, price 50 cents, and of the territorial mining laws, price 50 cents per copy. These can be purchased by applying in person or by mail at the office of the company.

If you want anything on earth—try a New Mexican want "ad."

STRENUOUS MORNING SESSION.

(Continued From Page One.)

act referring to the election of directors of schools. Referred to the committee on education.

School Section for Cemetery. House Bill No. 46, by Bushkevitz, an act to grant to precinct No. 22, Roy, Mora county, part of a school section for cemetery purposes. Referred to the committee on internal improvements.

House Bill No. 47, by Bushkevitz, an act to amend section 242, Compiled Laws of 1897. Referred to the committee on judiciary.

House Bill No. 48, by Bushkevitz, an act to repeal Chapter 86 of the Laws of 1901. Referred to the committee on judiciary.

House Bill No. 49, by Walters, an act to amend Section 25, Chapter 97, Laws of 1907, an act to revise and systematize the school laws. Referred to the committee on education.

Bonds for Officials. House Bill No. 50, by Walters, an act providing for the furnishing of proper bonds by territorial and county officials and for other purposes. Referred to the committee on judiciary.

House Bill No. 51, by Walters, an act regarding the sale of territorial, county, school district and municipal bonds, prescribing the duties of certain officials and for other purposes. Referred to the committee on judiciary.

House Bill No. 52, by Walters, an act in reference to fees of district attorneys. Referred to the committee on judiciary.

House Bill No. 53, by Walters, an act to amend Section 2, Chapter 45, Laws of 1907, an act referring to the classification of counties and fixing salaries of certain county officials. Referred to the committee on judiciary.

Fencing Laws. House Bill No. 54, by Walters, an act defining a lawful fence. Referred to the committee on territorial affairs upon request of the introducer.

House Bill No. 55, by Walters, an act classifying employees of the House and providing compensation therefor. Referred to the committee on finance.

House Bill No. 56, by Walters, an act to provide for the collection of poll tax and prescribing the duties of certain officials. Referred to the committee on education.

House Bill No. 57, by Walters, an act amending Section 1, Chapter 33, Laws of 1905, creating the Twelfth district, for district attorney purposes. Referred to the committee on judiciary.

House Bill No. 58, by Walters, an act providing for the printing and furnishing of tax schedules and assessment rolls. Referred to the committee on printing.

House Bill No. 59, by Sanchez, an act to amend the School Laws of 1907. Referred to the committee on education.

Council Bill No. 4, by Mechem, to validate the intended incorporation of cities and incorporated towns and contracts already made thereunder, and passed by the Council, was referred to the committee on corporations.

Council Bill No. 1, by Hanley, to reimburse citizens of Albuquerque for advancing \$13,000 to complete the National Guard armory in that city and which has passed the Council, was referred to the committee on finance.

Council Joint Resolution No. 9, by Prince, providing for an expenditure of not more than \$750 for copies of the official souvenir of the Irrigation Congress to be sent to members of Congress, and which passed the Council, was referred to the committee on finance.

The House adjourned to 2 o'clock on Monday afternoon. The committee on education of which Walters is the chairman, met at the capitol this afternoon to consider the many educational measures before it.

An effort was made this forenoon to get a meeting of the joint special committee on the capitol extension and executive mansion, to make estimates as to what sums will be needed to complete the structures.

COUNCIL—Friday Afternoon Session. Every member was present except one when the Council was called to order by President Spies.

Council Petition No. 7, from Children's Aid Society of New Mexico, asking for territorial support, was presented. The petition asks for an appropriation of \$10,000 and recites the good work the Society is doing. The appropriation is wanted to build a

home at Albuquerque for destitute and homeless children. The petition is signed by Joshua S. Reynolds, C. E. Lukens, Nathan Jaffa and others. Referred to the Finance committee.

Want Archives Back. Council Resolution No. 4 introduced by Prince, asking for the return by the United States to New Mexico of the Spanish and Mexican archives. Hanley introduced Council Joint Memorial No. 4, asking for the immediate admission of New Mexico as a state. The Memorial which is addressed to Congress, was adopted and 500 copies were ordered printed to be sent to each member of congress.

Bills Introduced. The following bills were introduced:

Council Bill No. 38, an act relative to ditches and drains of communities and to repeal certain sections of the Council Bill No. 39, an act fixing the time for the holding of district court in the Fourth Judicial District. Referred to the committee on judiciary.

Council Bill No. 40, by McBee, an act defining the qualifications and fixing the salaries, etc., of probate judges. Referred to the committee on judiciary.

Council Bill No. 41, by the President an act to punish the making or use of false statements to obtain credit. Referred to the committee on judiciary.

By unanimous consent, Mechem introduced Council Joint Resolution No. 6, that hereafter no bill shall be ordered translated until it is reported from the committee.

The finance committee reported favorably Council Joint Resolution No. 30, fixing the rates for legislative printing in Spanish.

A recess was then taken.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.
