SANTA FE NEW MEXICAN

VOL. 46.

SANTA FE, NEW MEXICO, WEDNESDAY JULY 14, 1909.

NO. 129

PYTHIAN SANATOR- IUM INCORPORATES

Governor Appoints Reforms School Trustee

LUJAN ASSUMES OFFICE

Assistant Hydrographer and Rifle Range Inspector Appointed.

Governor Curry today appointed J. R. Aguilar, a well known Republican, business man and stockgrower of Wagon Mound, Mora county, a trustee of the New Mexico Reform School at Springer, vice A. D. Vargas, resigned. This fills all the vacancies on the board.

Assistant Commissioner Takes Charge

Today, upon the return of Land Commissioner R. P. Ervian from Clayton, Assistant Commissioner Mateo Lujan of Clayton, who succeeds W. H. Bartlett, took charge of his official duties. Mr. Ervian, who is also a member of the Good Roads Commission, says that the roads from Las Vegas to Clayton are in fairly good condition and that the Good Roads automobile made good speed and proved its work to the commission. Several minor mishaps laid up the automobile for repairs at Las Vegas, but it is a strong and speedy machine.

New Mexico Banner.

Superintendent of Public Instruction J. E. Clark brought with him from the National Educational Association meeting at Denver, the New Mexico banner which decorated New Mexico's headquarters. It is made of purple silk and has upon it in gold the New Mexico seal. The banner was made by Miss Daisy Pain of Las Vegas and is a most handsome piece of work.

Notary Public Appointed.

Governor Curry today appointed Otto Lange of Watrous, Mora county, a notary public.

Incorporation Notes.

In the office of Territorial Secretary Nathan Jaffa, papers were filed today to certify to the change of name of the Farmers' Savings Bank at Elida, to the First State Bank of Elida, Roosevelt county.

The National Pythian Sanatorium Association filed incorporation papers today under the benevolent associations clause of the incorporation act. The headquarters are at East Las Vegas and Francis T. B. Fest is named as New Mexico's agent. The trustees are George M. Hanson of Calais, Maine, president; Charles F. Easley of Santa Fe, vice-president; Otto G. Schaefer of East Las Vegas, secretary and treasurer; Thomas J. Carling, Macon, Georgia; George E. Samuels of Oakland, California; William R. O'Neil of Orlando, Florida; George G. McConnell, Chicago; Howell Earnest of Clayton; Charles M. Bernhardt of East Las Vegas. Under the incorporation filings four of the trustees are always to be residents of New Mexico. The other trustees, as has been seen, are scattered from Maine to California and Florida.

Good Roads Commission.

This noon the Territorial Good Roads Commission met in the office of Governor Curry, who is president of the commission, the other members, Commissioner R. P. Ervian and Engineer Sullivan being present. Work on the scenic highway and the Circle Drive, near Santa Fe, was discussed as well as good roads projects in Southeastern and Southwestern New Mexico and the scenic highway through Colfax, Mora, San Miguel and Santa Fe counties.

Assistant Hydrographer.

Territorial Engineer Vernon L. Sullivan has appointed Engineer W. A. Sutton of Albuquerque, to be assistant to Hydrographer J. B. Stewart, who has been detailed by the U. S. Geologic survey.

Will Visit Institutes.

Assistant Superintendent of Public Instruction Acasio Gallegos will leave tomorrow on an official visit to the teachers' institutes at Espanola and at Taos, and will also visit various school districts in those two counties.

Appointed Range Officer.

Captain Carlos Vierra, was today relieved of the command of Company F, First Regiment of Infantry, by Adjutant General R. A. Ford and assigned to duty as range officer and inspector of small arms practice during the encampment at Las Vegas. Captain Vierra will take command of Companies E and F and the regimental band on their trip to Las Vegas tomorrow.

The Mechem Appointment.

Governor Curry was advised from Washington, D. C., today, that the Senate committee on judiciary did

U. S. COURT OF CUSTOMS APPEAL

House Conferees Agree to Senate Amendment

CLAUSE OF TARIFF MEASURE

Will Be Superior to Govern- ment Board of Appraisers.

Washington, D. C., July 14.—In the tariff bill conference this morning the House agreed to accept the Senate customs court provision.

The court will be known as the United States court of customs appeals and will decide all appeals from the government board of appraisers.

Reclamation Service Claims.

Washington, July 14.—Illustrating the magnitude of the business transactions of the reclamation service, that bureau today announced that during the quarter ending June 30, 1909, 8,000 claims against the government were settled, involving the expenditure of \$1,800,000.

At the same time 1,200 claims in favor of the government for repayments on water rights, etc., were examined, involving a return to the reclamation fund of \$175,000. During the preceding quarter, that ending March 31, 1909, 7,000 claims against the government were passed, involving an expenditure of \$1,700,000 and 800 repayments to the reclamation fund were passed upon, bringing back to the fund \$92,000.

Interstate ommerce Commission Com- ing West.

Washington, July 14.—An extended series of hearings will be held on the Pacific coast next autumn by the Interstate commerce commission. The commission, as a body, will go to the coast, transferring in effect for the time the headquarters there from Washington.

Several important cases of interest to western shippers and railways are pending before the commission. It has been determined to hear the cases at the points of origin so as not to require witnesses and the interested parties to come to Washington.

Hearings will be held in Spokane and Seattle, Wash., Portland, Ore., San Francisco and Los Angeles, Cal., Salt Lake City, Utah, and Reno, Nev., probably in the order named. A hearing also may be held at Phoenix, Arizona.

The commission will leave Washington about the first of October and will not return until approximately the middle of November. It will be accompanied by several members of the corps of special examiners and a force of clerks and stenographers.

BATTLING NELSON WORSIED BY WOLGAST

Champion Did Not Have a Single Round in His Favor in Bout at Los Angeles.

Los Angeles, Cal., July 14.—Ad Wolgast, of Milwaukee, despite the fact that he weighed five pounds less than Battling Nelson, gave the Durable Dane a thorough whipping in a ten-round bout before the Pacific Athletic Club last night. After an even first round, Wolgast waded in and had the advantage in six of the remaining nine rounds. The champion did not have a single round in his favor, an even break being the very best he could get. Wolgast fought the champion at his own game and beat him decisively. Nelson's face was badly swollen and blood streamed from his nose and mouth at the close of the fight. Wolgast was practically unmarked. It was a terrific fight from start to finish and it was not until the ninth and tenth rounds that Wolgast succeeded in stopping Nelson's steady rushes. Nelson was a badly worried man in several stages of the fight. No decision was rendered because of the local ordinance which limits bouts to ten rounds and prohibits decision by referee.

PRESIDENT LEWIS FORBIDS STRIKE

Eighteen Thousand Men of the Pitts- burg Coal Company in Kansas to Remain at Work.

Pittsburg, Kan., July 14.—President Lewis of the United Mine Workers of America forbids the strike of 18,000 men at the mines of the Pittsburg Coal Company, called for tomorrow morning.

Trouble With Strikers.

Pittsburg, Pa., July 14.—Serious troubles occurred between the strikers and police at the steel car plant at McKee's Rocks, near here this morning. Several shots were fired and a number are reported injured.

BALLINGER JUMPS ON PINCHOT

Will Not Let Forest- er Run Interior Department

GIVES OUT AN INTERVIEW

Matter Passed Up to the At- torney General for Decision.

Seattle, Wash., July 14.—"The idea seems to have gone forth that I have clashed with Secretary of Agriculture Wilson over forest reserves," declared Secretary of the Interior Ballinger last night, "but such is not the case. I have not had a quarrel with Secretary Wilson. My views and those of Gifford Pinchot, head of the Forestry Bureau, which is part of the Department of Agriculture, diverged in the matter of forest reserves. I maintain that the law should be enforced and it is now up to the attorney general for decision. The Department of the Interior has charge of all public lands and does not intend that the Forestry Bureau shall run the Department of the Interior. By act of Congress the Forest Reserves are open for mineral exploration. Mr. Pinchot set aside certain sections of the Forest Reserve which he called administrative sites and rangers posts. He refused positively to allow these to be opened for mineral exploration and exploitation. Among his motives was the laudable one to the effect that some of the mineral sites might also have valuable water power advantages. I maintain that the law of Congress which throws public land open for mineral exploitation applies to these so-called administration sites whether or not they have water power advantages. I do not think Mr. Pinchot is within the law in closing such sections."

FIGHTING IN STREETS OF TEHERAN

Persian Cossacks Open Artillery on Nationalists

SHAH'S SOLDIERS NEAR CITY

The Revolutionists Occupy Sheltered Garden Now Being Shelled.

Teheran, July 14.—Fighting in the streets continues since yesterday morning and became serious at midnight when the Persian Cossacks opened artillery on the Nationalists who attempted to storm the Cossack position. The Nationalists occupied a sheltered garden where they are now being shelled. The soldiers of the Shah approached within three miles of the city shelling the parliament buildings.

WHEAT MAKES SENSATIONAL ADVANCE

Shorts are Covering on Poor Pros- pects of Movement of New Wheat to Market.

Chicago, Ill., July 14.—Wheat made a sensational advance of over five cents on the board of trade this morning, jumping to 125 1/4. This was caused by the shorts covering on poor prospects of movement of new wheat to market this month.

Wheat advanced to 127 a gain of 6 3/4 cents above record price for July option, caused by the stampede of shorts over delay of harvesting in the west and southwest.

WILL DESTROY OLD LAND MARK

New Bridge to Replace Structure Over Which Booth Fled From Washington.

Washington, D. C., July 14.—The old bridge over which John Wilkes Booth sped his horse to escape from the city the night he shot Lincoln at Ford's theatre is soon to be torn down. The District commissioners will receive bids for wrecking the old landmark as a new bridge is to be erected.

NEW CHANCELLOR FOR GERMANY

Dr. Von Holleweg Succeeds Prince Buelow

LATTER DEFENDS HIMSELF

Claims He Defeated Socia- lists Without Aid of Police.

Berlin, July 14.—Dr. Von Bethmann Holleweg, has been appointed chancellor of the Empire succeeding Prince von Buelow. Various other cabinet changes are gazetted today. Von Buelow commenting on the fact that he had been reproached with want of courage for not dissolving the Reichstag, said such action would increase the forces of Socialism. "I have been able," said the prince, "to give the Socialists a smashing defeat at the elections without resorting to the police."

ELSIE SIGEL WAS POISONED

Tests Show it to Have Been Power- ful Drug Known to Scientist in New York.

New York, July 14.—Professor George A. Ferguson, of Columbia University, finder of poison in the viscera of Elsie Sigel, is unable to determine the nature of the drug. Tests show that it is a powerful poison and the professor believes it to be a powerful Oriental drug known to the Mongolians only. He will give it to rabbits and watch the effect.

Chinese Masons Protect Leon Ling.

Denver, Colo., July 14.—It is stated by the Chinese here that the Chinese government, following a report of the Chinese consul at New York on the Elsie Sigel case, has set the seal of official approval upon the protection of Leon Ling by the Chinese Masons and that Ling will never be found with the assistance of his countrymen. A Chinese newspaper having the unofficial sanction of the government prints the consul's report made at the direction of the authorities in Peking. The report states that Elsie Sigel came to Ling's room and in a moment of desperation took poison, killing herself. Ling was absent at the time, the report says, and when he found the dead body, called in Chung Sin, occupying the next room and told him of the circumstances. Sin told him the police would never believe the story and he might be lynched so Ling made a desperate effort to hide the body and conceal his own whereabouts. The report of poison stated in the consul's report which has just become public in America was sent to Peking three weeks ago. The report is evidently regarded by the Chinese authorities as the true solution of the mystery and the Chinese are encouraged to conceal Ling.

A member of the Chinese colony said today: "Only God can find Ling now, he is under the protection of the Masons who are aiding him to escape the police." The Chinese intimate that assurance of assistance from the Chinese in this country should be taken with a grain of salt.

FOREIGNERS ATTACKED IN COLORADO

Miners in Cripple Creek District Re- sent Cutting of Wage Scale and Longer Day.

Cictor, Colo., July 14.—Foreigners recently imported by a mining company said to have cut the wage-scale and lengthened the working day, were attacked by American miners last night. Paul Zorby, an Austrian, was wounded by a bullet. The foreigners warned to leave town immediately.

SALOON RATHER THAN CHURCH

Dowieites Will Fight Proposition to Erect Edifice Near Grave of Founder.

Chicago, Ill., July 14.—Within one hundred yards of the grave of Dowie, the Methodists will erect a \$10,000 church in Zion City and a bitter fight is expected. Overseer Volvia says he would rather have a saloon in Zion City than a Methodist church.

PEDERSTRIAN WATSON IS NEARING HIS GOAL

Goodyear, Calif., July 14.—Weston passed here this morning expecting to reach Oakland tonight.

RAILROAD CONDITION IS IMPROVING

Kansas City Resu- mes Traffic on Normal Basis

RAIN REPORTED AT TOPEKA

Missouri Drops Six Inches Kaw a Foot, Others Streams Stationary.

Kansas City, Mo., July 14.—With all the rivers stationary or falling, and railroad conditions greatly improved, Kansas City began to assume its normal condition and business was resumed today. The Missouri river has fallen more than six inches since yesterday. The Kansas river has fallen more than six inches since yesterday. The Kansas river has fallen more than a foot. At Topeka, the Kansas river shows a fall of a foot but a heavy rain fell there last night.

Body of Drowned Girl Found.

Kansas City, Mo., July 14.—The body of the four year old daughter of George A. Rose, drowned in the train wreck at Ottawa, on Wednesday, was found last night.

Drought in New York.

New York, July 14.—New York City and the territory for one hundred miles around, is in the grip of a serious douth, according to detailed reports, made last night to the local weather bureau. Throughout this territory there has been no rain since the middle of June and as a result vegetation is parched, wells and rivers are drying up, and roads are almost impassable because of dust.

The danger is aggravated by the outbreak of forest fires in several places to the north and south of New York City. The temperature yesterday was about 80 degrees, in New York and vicinity. Many prostrations occurred.

Mercury Soars in Boston.

Boston, July 14.—Boston was the hottest city in the country with the exception of New Orleans, yesterday, the mercury rising from 71 degrees last night to a maximum of 91 degrees, official in the afternoon.

Five Dead in Philadelphia.

Philadelphia, July 14.—Heat yesterday day caused five deaths. Four of the victims were children.

Terrific Heat at El Paso.

El Paso, Tex., July 14.—With the thermometer registered 105.2 between 4 and 5 o'clock Monday afternoon all records of the weather bureau for warm days in El Paso, Texas, were shattered. While the government instrument over which Col. N. D. Lane presides only recorded 105 and a fraction, a thermometer on the west side of the transfer station at San Jacinto Plaza soared to 119.

Dead of Sunstroke.

Tulsa, Okla., July 14.—Silliman Ballor, aged 35, died in a hospital last night from a sunstroke, received Sunday.

Heat Records Broken at Roswell.

Roswell, July 14.—Sunday was the hottest day Roswell has witnessed since June 9, 1896, thirteen years ago, when the thermometer marked 110 in the shade. On May 30, the same year it reached 107. On the seventh day of July, 1895, the temperature reached 106, but these are the hot days of local history and yesterday when the U. S. weather man's thermometer reached 105 in the shade and ordinary people's thermometers ran as high as 112, the verdict was unanimous that it was the "hottest day I ever saw."

FIGHT FOR BIG LAND GRANT

San Francisco, July 14.—Miguel de la Vega, scion of one of the oldest Spanish families here, filed today a contest of the will of his sister, Maria Concepcion de la Vega, alleging that she had been incompetent from birth and that she was unduly influenced by another sister, Maria Cebrian, with the result that the testator left the bulk of her \$4,000,444 estate to Mrs. Cebrian.

The suit involves one of the richest of the old land grants, half in California and half in Mexico. A curious point will be the spelling of a word upon one letter of which the disposition of the De la Vega millions might depend, according to the plaintiff. The will was written in Spanish. In it occurs the word "Hermana," meaning sister. Had it been written "Hermano," meaning brother, De la Vega claims the estate would have been his.

OPERATED ON THREE TIMES FOR APPENDICITIS.

Minneapolis, July 14.—Governor John A. Johnson is seriously ill. He has already undergone three operations for appendicitis.

ELKS MAY WEAR TEETH

They Are Not Re- sponsible for Ex- tinction

REPORT OF COMMITTEE

Grand Lodge Takes No Ac- tion and Incident is Con- sidered Closed.

Los Angeles, Cal., July 14.—The question of wearing elk's teeth as emblems of the order is regraded as a closed incident by the members of the Elks grand lodge. The report of the committee which has investigated this matter was to the effect that members of the lodge in no way are to blame for the rapid extinction of elk and no action therefore is probable by the grand lodge which resumed its meeting today.

Elks Elect Officers.

Los Angeles, July 14.—The grand lodge of Elks elected these officers: Grand exalted ruler—James U. Sammis, Lemars, Iowa.

Grand leading knight—Warren G.

Sayre, Wabash, Ind.

Grand lecturing knight—J. D. Jones,

Scranton, Pa.

Grand secretary—Fred C. Robinson,

Dubuque, Ia.

Grand treasurer—Edwin R. Leach,

New York.

Grand trustee—Percy A. Clay, Den-

ver.

Grand tyler—Charles L. Dicker,

Bermidji, Minn.

Grand inner guard—A. M. Taylor,

St. Augustine, Fla.

Balloting for grand exalted loyal knight resulted in no election, four candidates being voted for and no one receiving a majority. J. L. Preston of Wyoming received 325 votes. Sammis received 532 votes and Hermann 529.

The big fight of the session of the grand lodge was over, the election of a grand exalted ruler. The result of this contest was in doubt until the count of the votes was completed.

During the last hours the struggle for votes, led by the Iowa delegation for Sammis and the Ohio delegation for Hermann, grew into a bitter one, and of course in this signal struggle many prominent Elks, including Rush L. Holland, the present grand exalted ruler, were drawn.

In a statement regarding the publication of a letter he had written to Sammis, Mr. Holland complained that unfairness had been shown in not giving out the entire contents of the letter, but only such portions as made it appear that he had endorsed the candidacy of Sammis.

The only other contest was over the office of grand exalted lecturing knight, Harry Walter of Philadelphia and J. D. Jones, Scranton, Pa., were nominated. Jones developed considerable strength during the last hours.

The grand lodge today outside of the election of officers was the selection of Detroit as the place for holding the reunion in 1910. St. Louis, Boston and Portland, Ore., were mentioned as rivals of Detroit, but no strength for any one of these developed and when St. Louis withdrew from the contest Detroit was named by acclamation.

In the annual report of Grand Exalted Ruler Rush Holland, the matter of establishing an orphanage for the children of deceased Elks is submitted to the grand lodge without recommendation.

The location of the present national Elks home at Beauford, Va., was criticised by the grand exalted ruler, who suggested that a fund of \$216,000 be raised by the order during the next ten years by an annual assessment of five cents a member and that a new home be built in some other city.

The report shows that the last year has been one of unprecedented prosperity for the order. Forty-two new lodges have been established and the total number of members exceeds 300,000.

The report condemns the use of membership in the Elks order for political purposes and urges the expulsion of any member so abusing his privileges.

MOTHER GIVES CHILDREN STRYCHNINE

Then Attempted Suicide and Calls Upon Physician to Save the Little Ones.

Des Moines, Ia., July 14.—Mrs. William Olyphant, living near West Branch, despondent over family troubles last night, gave her four small children strychnine, and then swallowed strychnine and carbolic acid. She later telephoned a physician to save the children but to let her die. One child is dead. The mother and three of the children will probably recover.

(Continued on Page Eight.)

The Big Store

"NOW" Let us ask you why pay \$3.50 for pair of shoes, when it will require three pair to wear as long as one pair of our \$5.00 kind. WHY pay \$5.00 when we can duplicate the shoe for \$3.00. It is a gamble and your feet as well as your pocket will suffer. You will find in our \$4.00 shoes every POINT KNOWN TO GOOD SHOES-MAKING.

WE BELIEVE OUR \$4.00 SHOES ARE THE BEST \$4.00 SHOES ON EARTH

THE DAILY ROUND UP.

OMNIO SOMNIA.

(Rosamund Harriott Watson in London Athenaeum.)

Dawn drives the dreams away, yet some abide.
Once, in a tide of pale and sunless weather,
I dreamed I wandered on a bare hill-side,
When suddenly the birds sang all together.

Still it was winter, even in the dream:
There was no leaf nor bud nor young springing;
The skies shone cold above the frost-bound stream;
It was not spring, and yet the birds were singing.

Blackbirds and thrush and plaintive willow wren,
Chaffinch and lark and linnet, all were calling;
A golden web of music held me then,
Innumerable voices, rising, falling.

Oh, never do the birds of April sing
More sweet than in that dream I still remember;
Perchance the heart may keep its songs of spring
Even through the wintry dream of life's December.

Death of Marcos Chaves—Marcos Chaves died at Las Vegas at the age of 67 years.

Sentenced for Assault—Pedro Gonzales at Albuquerque was sentenced in justice of the peace court to pay a fine of \$60 for cutting a woman in the finger with a knife.

Third Automobile Town—Only Roswell and Albuquerque beat the Meadow City as an automobile town. Motor cars to the number of twenty-eight are owned by Las Vegas citizens and several more have been ordered.

Kicked By Her Pet Pony—Sadie Arak, aged eight years, was kicked in the face yesterday by her pet pony at Albuquerque and narrowly escaped death. The girl had her nose crushed and the bones were broken even with her eyes.

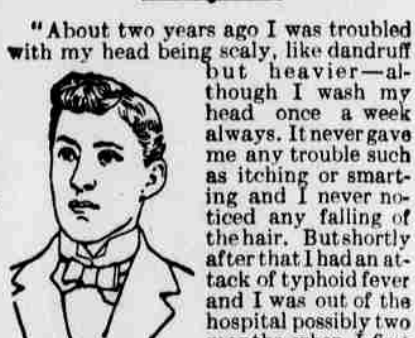

Knocked Down By a Team—A double team driven by G. A. Fleming, formerly of this city, at Las Vegas on Monday evening, knocked down J. Roe, at a street crossing. Roe escaped with a few bruises and a ruined suit of clothes.

Arrested for Assault—Newton Jackson of Raton, was arrested on Sunday on the charge of assaulting S. I.

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time
—After an Attack of Typhoid
Fever his Hair Began to Fall Out
by the Handful—Now It is

THICKER THAN EVER THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier—although I wash my head once a week always. It never gave me any trouble such as itching or smarting and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more—in fact I was afraid to. My brother, who had used the Cuticura Remedies with satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be and my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Stoesse, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (liquid or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusted humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Chocolate Coated Pills (25c), are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., 137 Columbus Ave., Boston.

Mail Free, Cuticura Book on Skin Diseases.

All careful women use

HERBINE

Woman who suffer from severe headaches, and all diseases due to a torpid liver, should not fill their stomach with calomel and other drugs.

HERBINE QUICKLY CURES Biliousness, Constipation, Chills and Fever, Dyspepsia, Malaria and all Liver Complaints.

Mrs. C. D. Philley, Marble Falls, Tex., writes: "I find Herbine the best liver corrective I ever tried. It has done my family and myself a world of good. I recommend it to my friends."

PRICE 50c.

Ballard Snow Liniment Co. ST. LOUIS, MO.

Sold and Recommended by FISCHER DRUG COMPANY

Amdursky, whom he attacked on the street and struck over head, Jackson was placed under \$500 bond. Jackson is also under indictment and out on \$2,500 bonds, on the charge of having robbed and assaulted Amdursky some time ago.

Jap Marries White Girl at Las Vegas—Frank S. Mada, a Japanese, was married yesterday at Las Vegas, according to the Optic, to Miss Kate Gallas, a white girl of Polish descent, who came from Los Angeles. The groom is a cook at the Castaneda, 26 years old, while the bride is a beautiful young woman, 23 years of age.

THE FORUM.

APHORISMS.

"Telling the truth is a business in which there is very little competition."
"Don't sit down in the meadow and wait for the cow to back up to be milked—go after the cow."
"Advantages are obligations."
"If you have knowledge let others light their candles by it."
"Don't value a man for the quality he is of, but for the quality he possesses."
"Talk happiness; the world is sad enough without your woes."

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

NEEDFUL KNOWLEDGE.

Santa Fe People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warnings and there is danger of dropsy. Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Santa Fe proof:

Hyman Lowitzki, 115 Guadalupe Street, Santa Fe, N. M., says: "I can recommend Doan's Kidney Pills, as they have been used by myself and other members of my family with splendid results. The value of Doan's Kidney Pills for relieving pain in the back and other kidney difficulties has been thoroughly proven to me. I take pleasure in making the merit of this remedy known to other kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

TO AND FROM ROSWELL.

Connection made with Automobile Line at Torrance for Roswell daily. Automobile leaves Torrance for Roswell at 4 a. m., and arrives at Roswell at 12, noon. Automobile leaves Roswell for Torrance at 1 p. m. and arrives at Torrance at 10 p. m. The fare between Santa Fe and Torrance is \$5.50 and between Torrance and Roswell \$10. Reserve seats on automobile by wire.—J. W. Stockard, manager, Automobile Line.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by all druggists.

If you want anything on earth—try a New Mexican want "ad."

QUARTER MILLION IRRIGATION FARMS

More Than Fifteen Million Acres in the United States Are Now Under Ditch.

Spokane, Wash., July 14.—Supplying moisture to semi-arid and desert lands by artificial means, one of the problems of world-wide importance to be discussed by experts at the 17th sessions at the National Irrigation Congress in Spokane, August 9 to 14, was practiced by the Arabians, Egyptians, Assyrians and Chinese long before the advent of Solomon, and it has since formed a part of the agriculture of the countries bordering on the Mediterranean sea. The ancient art had its origin in America in prehistoric times, by the Pueblo Indians, who inhabited portions of what are now New Mexico and Arizona, and their descendants were still cultivating the lands when the first Spanish colonists came from the south, several centuries ago.

A census today would show fully 250,000 farms in the United States under ditches, watering more than 15,000,000 acres of lands. Colorado leads in the number of acres irrigated, California has the largest number of irrigators, while Washington has the greatest percentage in the number of irrigators. The science is also practiced in Canada, England, France, Italy, Japan, the Argentine, South America, Algeria, Australia, Switzerland, Belgium, Denmark, Bohemia, India, Spain and Scotland. It is estimated that more than 75,000,000 acres are under irrigation throughout the world.

History records that the valley of Mareb, in Arabia, was supplied with waters drawn from a reservoir made by a dam 120 feet in height and two miles in length. This wall was constructed of hewn stones and it restrained the swift current of an important stream for more than 2,000 years. Mention is also made of the canal of the Pharaohs, connecting the Red Sea with Pelusium. Flood waters of the river were used to irrigate the valley of the Nile centuries before, and the plains of Babylon were literally criss-crossed with canals, some of them hundreds of miles in length. The Romans also operated vast systems, while the Chinese supplied moisture to their rice lands by artificial means before the Christian era.

Mormons settling on the shores of the Great Salt Lake, in Utah, were the first of the English-speaking people to make a systematic application of the principles of irrigation in the west. They turned the waters of the Wasatch mountain streams upon their holdings, the present site of Salt Lake City, mastering the art after years of effort. Priests of the early missions also made use of water on the lands in southern California, where today may be seen the ruins of pretentious works built by the Indians. Placer gold miners in California utilized the water from their ditches for irrigation purposes.

The result obtained in Utah and California induced settlers in other states and territories to try the plan and small tracts of land were put under the ditches in Idaho, Washington and Oregon. The Indians in the Clearwater country, in Idaho, were the first in this part of the country to use artificially supplied moisture in the cultivation of crops. Rev. Henry H. Spaulding, who came to the northwest with Dr. Marcus Whitman mentioned this fact in his early letters to relatives in New England.

Less than 20,000 acres were under irrigation in the United States in 1870, but during the next decade the acreage was increased to 1,000,000. The federal census shows 3,631,481 acres on 54,136 farms under the ditch in 1889, the area doubling the following decade, due largely to the extension of the existing canals. A special census in 1902 showed 126,008 farms with a total of 9,034,526 acres under irrigation. Congress adopted the national irrigation act that year which saw the beginning of the construction of work under the control of the secretary of the interior, the fund being derived from the disposal of reclaimed lands. The law provides that the cost of the work is to be apportioned to the land and refunded to the government in 10 yearly installments without interest.

Twenty-five projects completed and upon which the government is now at work will, when fully developed, add 3,198,000 acres of land to the crop-producing area of the United States, while 13 others held in abeyance until the completion of the former, will reclaim 3,720,000 acres making a total of 6,468,000 acres reclaimed at a cost of \$159,621,000.

The largest of the projects in Washington are in the Yakima valley, as follows: Sunnyside, 90,000 acres, cost \$1,600,000; Tieton, 30,000, cost \$1,500,000; Wapato, 120,000, cost \$1,500,000. The Okanogan will water 8,000 acres at a cost of \$500,000. Other projects contemplated will add 400,000 acres to the state's crop-producing area.

Government projects in Idaho are the Minnedoka, 160,000 acres, costing \$4,000,000 and the Payette-Boise, 200,000 acres, completed at a cost of \$3,000,000. The latter covers the largest single tract under irrigation on the continent at the present time. Oregon has the Umatilla, 18,000 acres, costing \$1,100,000 and the Klamath, extending into California, 120,000 acres, costing \$3,600,000.

The projects in Montana are the Huntley, 33,000 acres, costing \$900,000, the Sun river, 16,000 acres, cost \$500,000, and the Milk river, including the Saint Mary, 30,000 acres, costing \$1,200,000. The Lower Yellowstone project 65,000 acres, in Montana and

North Dakota, will cost \$2,700,000. The Blackfeet will water 37,000 acres in Montana, where will also be built the Flathead, 130,000 acres, and Fort Peck, 75,000 acres.

Salt river project in Arizona will water 200,000 acres, while the Yuma in California and Arizona will care for 100,000. Other projects are the Uncompahgre, Colorado, 150,000 acres; Garden City, Kansas, 8,000; North Plate, Wyoming and Nebraska, 110,000; Truckee-Carson, Nevada, 200,000; Hondo, Carlsbad and Rio Grande, New Mexico, 45,000; Buford-Trenton, North Dakota, 40,000; Belle Fourche, South Dakota, 100,000; Shoshone, Wyoming, 100,000, and Strawberry valley, Utah, 35,000.

Several millions of acres of lands will also be covered in Montana, California, Washington, Colorado, Arizona, Idaho, Texas, Nevada, New Mexico, Oklahoma, Wyoming, and Oregon as soon as the funds are available.

More than 10,000,000 acres of lands are under private plants in various states where plans are now under way to put 5,000,000 acres under the ditch during the next three years. If these projects are carried out the Horse Heaven country, in Washington, will contain a single tract of 600,000 acres, watered at a cost of \$15,000,000. The Canadian Pacific project in the Bow River valley, east of Calgary, Alberta, upon which work started in 1904, will cover 3,000,000 acres at a cost of \$5,000,000, making it the largest single tract on the continent.

MADE WHOLE SOUTHWEST LAUGH

Further Details of the Episode Near Afton in Which a Tenderfoot Reported Cowboys Killed.

Further details of that wholesale slaughter of cowboys at Afton, N. M., by Mexican bandits last evening, which turns out to have been a practical joke with an innocent but willing "tenderfoot" as the joke, show that the raid on the camp must have been an awful thing and those cowboys haven't recovered yet. The El Paso Herald which sent a reporter to Afton as quickly as the Southern Pacific railroad could get him there, gives a graphic description of the affair. Says the Herald:

"Lying on his back in the little chicken coop station of the S. P. at Afton, his teeth chattering from fright and his feet blistered from his long run across the desert in his stocking feet to give the alarm and summon aid, E. W. Scott, the self-anointed sole survivor of the awful massacre in the chaparral war with the cattle rustlers, told his hair-raising story of the killing that had occurred that night.

Scott, who confessed that he is a tenderfoot, when he had recovered from his attack of fright, told the details of the awful affair in all of its awfulness. He had been working his way with the horse drivers on the trip to El Paso, punching the buckskins for his grub and bed.

"All day Sunday the herders told of the depredations of the Mexican Indians in that wild and woolly country through which they were passing. When night fell and they established a camp, pickets were set out and the men warned not to sleep with less than one eye open for the expected bandits. Removing only his shoes, Scott laid his tired head on the improvised bed and was just dozing into an uneasy sleep with visions of Indians, Mexicans and murders in his fevered brain when shots were heard.

"Go take care of that man who is shot," sang out some one in the party. "Nuf said for Mr. Scott—he of the tender foot. Not waiting to get into his shoes, he hit the desert for the nearest human habitation, bent only upon getting as much distance between himself and the attacking party as possible. Reaching Afton he panted his story in the ear of the night operator, who immediately flashed it over the wire and asked for aid from surrounding burghs.

"In the meantime there were nine alleged dead men rolling on the ground, not in the convulsions of death but of mirth. Ticked? Those horsemen were tickled out of a year's growth. It was the old, old story of the believing and verdant tenderfoot who had swallowed the tales of the old timers without the customary grain or two of salt.

"That laugh which started in the horse camp out there on the New Mexico desert has extended as a zone of mirth to encompass the entire southwest and today the population of that great section is chuckling over the harrowing experience of that tenderfoot, who barely escaped extinction at the hands of the blood-thirsty Indians of New Mexico."

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La., "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill. Sold by all druggists.

The New Mexican printing company has ready and for sale up-to-date and correct compilations of the territorial incorporation laws, price 75 cents, and of the territorial mining laws, price 50 cents per copy. These can be purchased by applying in person or by mail at the office of the company.

New Mexico Military Institute

ROSSELL, NEW MEXICO.

"The West Point of the Southwest."

Army Officers Detailed by War Department. Army Inspectors RANK SCHOOL IN CLASS "A."

Through Academic course, preparing young men for college or for business life. Great amount of open air work. Healthiest location of any Military School in the Union. Located in the beautiful Pecos Valley—the garden spot of the West—at an elevation of 3,700 feet above sea level, sunshine every day, but little rain or snow during session.

Eleven Officers and Instructors, all graduates from standard eastern colleges. Ten buildings, thoroughly furnished, heated, lighted and modern in all respects.

REGENTS—E. A. Cahoon, President; W. G. Hamilton, Vice President; J. Phelps White, Treasurer; W. M. Atkinson Secretary, and W. A. Filyan

OFFICIAL PAPER OF SANTA FE COUNTY.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the Territory, and has a large and growing circulation among the intelligent and progressive people of the Southwest.

THE BECK OF THE HILLS.

Even the Esquimaux loves his dreary frozen plains, but love of home is intensest among those who live in the mountains. The lure of the hill is stronger than the call of the sea and the lover of nature finds his greatest gratification and joy when he gives in to the beck of the hills, and with fishing rod or with gun in hand, hies himself to the titanic fastnesses that nature has thrown up so prolifically like ramparts in every part of the globe. Fortunate is Santa Fe that it is built in the lap of the most beautiful mountains on the continent, which rise to an altitude of more than 13,000 feet to the north and east of it, and to 10,000 and more feet to the south and to west. Seen every so beautiful that words cannot describe it is therefore found right at the gates of the city in every direction. Rivers and hills of the purest water, dashing, foaming, tumbling falls, aromatic pines, cliffs and chasms and wonderful peaks piercing the blue empyrean—what need to go elsewhere for scenic attractions, or diversion, or enjoyment, when the mountains, the most attractive part of the world, are to be found right here at home. No wonder that the old New Mexico scout, whose death is recorded in today's New Mexican, exclaimed before dying: "Oh, these beautiful mountains; how I hate to leave them, I wish I could live in them another thousand years!" Even Ibsen, who loved the northern ocean in "When We Dead Awaken," spoke of a journey among the island channels on the Norwegian coast as "damnable sickly gutters-floundering about in the brackish ditchwater. Dishwater I should rather call it." While of the mountains he says: "No much better come up with me to the mountains—away, clean away from the trail and taint of men. You can't think what that means for me." While Maia, in the same play, implores her husband: "You said you would take me up to a high mountain and show me all the glory of the world." Yes, the glory of Santa Fe of New Mexico, lies in its mountains, and to be pitted is that man or woman or child, who has not yet seen the glory of the world in and from the hills as they leaguer so picturesquely so magnificently, right around this favored city, ancient Santa Fe.

During the next six weeks, all those who possibly can do it, should make a trip to the Rito de los Frijoles twenty to thirty miles west of this city. To those, who have never made the journey it will prove a revelation of the wonders that lie practically undiscovered within sight of the city. But to be convinced, every one should see for him or herself. It will prove a pleasant, an interesting journey a trip that will repay any one taking it. Even to those who do not care for prehistoric ruins almost without number; for beautiful and magnificent scenery, for skimming over good roads on top of mesas or in canons; but always in sight of the mountains the journey will be enjoyable. Dr. Edgar L. Hewett is about to establish his camps in the Pajarito Park, and it will be helping him in his efforts to make Santa Fe the center for students and scientists the world over, to acquaint yourself, even though only superficially, with the archaeological characteristics of the Pajarito and the Rito de los Frijoles. Once you see them you will never stop talking about them, and that after all will prove the best kind of advertising for you will impart your enthusiasm to others and these will spread it in ever widening circles. Yes, take the trip to the Rito de los Frijoles this year and then sit down and read Ban Delier's "Delightmakers." It will beat a journey to Long Beach or Coney Island in more than one respect and will be infinitely better to yourself and the old city you make your home.

New Mexico traffic must help to pay the losses of the Santa Fe system under the two cent fare law in Kansas. The Santa Fe has never shown any extraordinary profits and when compelled to carry passengers at less than cost in so large a jurisdiction as Kansas, the other territory tributary to the railroad must make up the loss through an increase of rates or curtailment of service. Railroad rates can no more be fixed justly by law than can the price of butter or of eggs or of newspapers. It is as unjust to compel the Santa Fe to carry a passenger one mile for two cents, as it would be to compel New Mexico newspapers to be sold at one cent a copy. Theoretically, it may not be confiscation, but in every practical aspect it is. The regulation of prices, wages and rates by law, is the very ultima thule of socialism in its most impracticable aspects.

Colonel William J. Bryan demands the election of Senators by the people. He calls upon President Taft to bring this about as if President Taft could legislate in the matter. While the Constitution of the United States provides the manner of electing Senators, yet, as in the case of Oregon and other states, which desired the direct vote on Senatorships, there is nothing to prevent taking such vote. The fathers of the republic had a well defined idea in their mind when they adopted the constitution and the plan they provided for a Senate, that should be a balance wheel to the House, that should be removed from popular clamor, that should be conservative and deliberate, is very wise. It would be no calamity to elect Senators directly just as the members of the upper House of New Mexico or of the states are elected, and yet, it is to be doubted whether it would be altogether wise. Sweeping changes of that kind should be made only after extensive discussion and deliberate forethought. As long as each state has the right to enact a direct primary law, even for Senatorships, there should be no occasion for the nation to coerce states that prefer the present method of electing Senators through their legislatures, into electing them by the direct method proposed.

Conditions so admirable in many respects in Colfax county, are not what they ought to be on the law and order side, if the Raton Daily Range, the Cimarron Citizen and the other newspapers are not exaggerating conditions as they exist. As a rule, newspapers rather minimize the lawlessness in their own communities, and therefore, it seems, as if a strong hand, a Heney or some other vigorous public prosecutor, would find Colfax county a fertile field for making himself famous. The New Mexican has faith that District Attorney Studley will take hold of the situation with a firm hand and that henceforth, prize fighting, the protection of law breakers, the violation of saloon and Sunday laws, the evasion of proper assessments and the payment of taxes, and other conditions of which complaint comes continually from Colfax county, will cease. The record of Colfax county in that line has been and still seems to be quite a lurid one, although, on the other hand, the county is in some respects the most progressive, the most prosperous and the best in the Territory. Let there be a good house cleaning, and the county will realize its ambition to be at the head of the procession of the twenty-six New Mexico counties.

The New Mexican Printing Company has in press a pamphlet descriptive of Santa Fe county. It will be the best ever issued by the Territorial Bureau of Immigration, and it is due to the members of the Bureau and to its energetic secretary, H. B. Henning, that funds have been appropriated for the printing of the pamphlet at this time. However, the appropriation is limited to \$250. The New Mexican Printing Company is figuring on issuing a pamphlet that will cost twice as much and will bear the extra expense out of its own resources. It does this for the love of the old town and to help make it grow. It is doing that sort of thing right along and does not care to brag about it. Attention is called to this particular pamphlet at this time, however, because it is thought that there may be merchants or even the commercial bodies, that may desire to increase the edition of 5,000 to a greater number, so that they may have some for free distribution among friends and customers. To such, copies of the pamphlet above the 5,000 ordered by the Bureau of Immigration, will be furnished at cost and they should notify Secretary Henning within the next week or so, as to the number desired.

South America, although it has almost as many half-baked republics as Europe has kingdoms, has been comparatively quiet for a number of years, excepting internal complications such as are periodical in Venezuela. But now, at least, three if not four of the republics are on the verge of war. The primary cause is a boundary dispute between Bolivia and Peru which was given to Argentina to arbitrate. The arbitration award has been so distasteful to Bolivia, that it is very likely that war will ensue. Bolivia has been very unfortunate in its wars and not so long ago received a severe drubbing from Chili. A war with Peru and Argentina, is apt to wipe the picturesque, high-plateau republic from the map, which in itself would not be a calamity for then a serious element of disturbance would be removed from the continent.

The Delgado street bridge has not been built yet. In fact, the contract for its construction has not been let. Unless the New Mexican is misinformed, the board of county commissioners has not even asked for bids in fact, has taken no action whatever, although the people have been clamoring for the bridge the past five years, ever since the floods took out the old bridge and left the banks of the river on both sides of Delgado street in highly dangerous condition as far as travel on that street is concerned. They do these things differently in San Miguel county as the following from the Optic indicates: "On those roads leading southwest from the city, new culverts and bridges spanning the arroyos are being built under the direction of the county commissioners. The new bridges are of stone and concrete, replacing the shaky wooden structures, which were as dangerous as they were unsightly. The county roads are also being raised in low places, leveled and drained. The county commissioners are deserving of the thanks of the people generally for their public spiritedness in this regard."

Part of the National Guard goes into encampment at Las Vegas tomorrow. It is a matter of pride to Santa Fe that it will send two companies and a band, demonstrating that the fires of patriotism burn high in this ancient city. If other towns did equally as well, the National Guard of the Territory would not be near the tail end of the state organization. Among the towns represented on the National Guard roster are Las Vegas, Las Cruces, Silver City, Roswell, Alamogordo and Artesia, but the latter three cannot send their companies to the encampment because of lack of appropriation for the purpose, as the allotment of funds by Uncle Sam for New Mexico is based on the April inspection, when the militia was at low ebb in the Territory. It is to be regretted that cities like Albuquerque, Raton, Tucumcari, Deming, Carlsbad, Clayton, Farmington and others have no National Guard companies.

Let Santa Fe go Las Vegas a little better, and have a well attended meeting of its Board of Trade on Friday evening. Says the Optic of the "quorum" difficulty when it comes to meetings for the benefit and good of the community:

"In times past it has been rather difficult to obtain a quorum of any organization that has to do with the welfare, present and prospective, of this city. The city council has this difficulty and the Commercial Club has it. That the members of at least one city organization do not take sufficient interest in the town to attend the regular meetings is passing strange. Let the Commercial Club directors set a good example by turning out in force tonight."

According to cablegrams received yesterday, "Young Persia," has duplicated the remarkable success of "Young Turkey" and has taken the nation's capital, Teheran, without much of a struggle. The Shah, like the former Sultan, is virtually a prisoner, and the parliament first established by him but then dissolved when it would not do his bidding, will now meet untrammelled. Medievalism is being banished from the most remote corners of the earth and the new conditions will soon demand new arguments in the political as well as in the industrial world.

The Sunnyside-Fort Sumner Townsite controversy in Guadalupe county, which was supposed to have been settled months ago during a visit of Governor Curry at which the matter was fully discussed and an amicable agreement reached, has broken out again to the detriment of the local community. It is claimed, and that no doubt justly, that saloons and houses of ill repute are at the bottom of the latest disturbance and if that is the case, short shrift should be made of them and the federal authorities at Washington should give them no ear and cease no longer in doing justice.

It appears now, that scientists were wrong when they blamed the Tsetse fly for the sleeping sickness. The credit for discovering the fallacy belongs to the Americans who will likely also be the first to announce a cure for the dreaded malady. The Rockefeller Institute is achieving remarkable victories for science, and it has justified conditions which enable one man to accumulate such a large fortune that he can found and endow so beneficent an institution.

Instead of taking the hunderd, prosaic train, it would have been picturesque indeed and probably useful if the two infantry companies of the National Guard stationed at Santa Fe had marched over the Scenic Highway and the trail from Santa Fe to Las Vegas. It would have tested the mettle of the organization and would have complied with what might easily be an actual condition during war fare.

"The distiller," says the Atchison Globe, "rides in a steam yacht, the wholesale dealer in an automobile, the retail dealer in a carriage, but the consumer of the liquor is pulled around by the hair of the head by a policeman." And the strangest part of it all is that the consumer pays for the steam yacht, the automobile, the carriage and the policeman.

The First National Bank

OF SANTA FE.

The oldest banking institution in New Mexico. Established in 1870.

R. J. PALEN, President.
 J. A. HUGHES,
 Vice President.

J. H. VAUGHN, Cashier.
 A. H. BRODHEAD,
 Assistant Cashier.

CAPITAL STOCK, \$150,000

SURPLUS AND UNDIVIDED PROFITS, \$75,000

Transacts a general banking business in all its branches. Loans money on the most favorable terms on all kinds of personal and collateral security. Buys and sells bonds and stocks in all markets for its customers. Buys and sells domestic and foreign exchange and makes telegraphic transfer of money to all parts of the civilized world on as liberal terms as are given by any money transmitting agency public or private. Interest allowed on time deposits at the rate of three per cent per annum, on six months' or year's time. Liberal advances made on consignments of livestock and products. The bank executes all orders of its patrons in the banking line, and aims to extend to them as liberal treatment in all respects, as is consistent with safety and the principles of sound banking. Safety deposit boxes for rent. The patronage of the public is respectfully solicited.

UNITED STATES BANK AND TRUST CO.

SANTA FE, N. M.

It's All Matter of Habit

Whether you spend all of your income or save part of it. It's just as easy to accumulate as it is to waste, after you once get the habit—and it's surprising how fast the dollars grow once you plant the seed. One dollar will do it.

Start Today Open an account with this bank. We pay interest on all savings accounts from one dollar up. Interest compounded twice a year.

PERSONAL MENTION

Miss Lyon of Las Cruces is a guest for four or five weeks of Mrs. Yaer. W. L. Burton, a Louisville traveling man, is in town stopping at the Palace.

Alan G. Klein, a traveling man from St. Louis, is in town a guest at the Palace.

Dr. George W. Harrison of Albuquerque, has gone to Denver on a business trip.

J. W. Roberts will entertain his friends at a birthday party on Saturday evening.

Judge H. L. Waldo of Las Vegas, arrived on the late train last night. He is at the Palace.

Henry P. Bardshar, internal revenue collector, left this morning on a fishing trip to the Pecos.

H. G. Held, a millinery salesman from Denver, arrived on last night's train. He is at the Palace.

Charles Ritchie, of Piedmont, W. Va., is in town seeing the sights. He is registered at the Claire.

H. Schweizer of the curio department of the Harvey House at Albuquerque, is a Santa Fe visitor.

Louis Gumbel, reporter on the Albuquerque Citizen, has left on a visit to his home at Peoria, Illinois.

A. Lilly, a traveling man from Baltimore, is calling on local merchants. He is stopping at the Palace.

Clem Russell, a traveling man from Denver, is in town calling on the trade. He is quartered at the Claire.

Attorney E. W. Dobson, of Albuquerque, was an arrival on last night's train. He is registered at the Claire.

Bruce Wolf, a traveling man from South Bend, Indiana, is calling on the trade today. He is registered at the Claire.

Frederick H. Lau and John T. Lau of Brooklyn, are sightseers in town today. They are guests at the Claire.

B. A. Johnson, wife and daughter of Beatrice, Neb., are in town seeing the sights. They are guests at the Coronado.

Richard Warren and H. L. Haynes, railroad men from El Paso, are visitors in town today. They are stopping at the Claire.

Ray M. Thomas, a railroad man of La Veta, Colo., is in town with his son, on his way east. He is quartered at the Claire.

Mrs. Charles Eller and two children of Albuquerque, are among the many guests at the Valley Ranch on the upper Pecos.

Mrs. J. J. Dye of Waynesboro, Ga., is in Santa Fe again, on a visit with her son, Rev. W. R. Dye, rector of the Church of the Holy Faith.

J. S. Barton and wife, and Miss Katherine Barton of Kansas City, are in town today seeing the sights. They are quartered at the Palace.

District Forester A. C. Ringland has returned to Albuquerque from a trip to eastern points but left immediately for El Paso, Texas, on business.

Dr. Thomas A. Olney of Chicago; A. L. Breeding of Texico, and J. B. Bratton of Lake Arthur, have left on a fishing trip to the upper Pecos.

Mr. and Mrs. O. C. Watson left this noon for the Pacific coast, expecting to go as far as Seattle returning to their present home at Pueblo, Colorado, by the northern route.

F. C. Larrabee and Paul Staab returned last evening from a most delightful stay at the Nordhaus cottage at Trout Springs, in the Gallinas Canon, forty miles east of Santa Fe.

C. D. Boucher, high priest of the Masonic grand lodge, has returned to Las Vegas from a trip of visitation which included the Masonic lodges at Portales, Roswell, Artesia, Clovis, and Carlsbad.

Land Commissioner and Mrs. R. P. Ervien and son Howell, have returned from Clayton, Union county, after a rather hard trip in the Good Roads automobile, which was abandoned at Las Vegas to be sent to a repair shop.

E. L. Knight of the building department of the Santa Fe system, is in Santa Fe today and together with Arthur Sellman looked over local placitas and patios for ideas to be embodied in the new Harvey house construction at Lamy.

B. J. Kennedy and W. D. Kennedy of Chicago, arrived in the city last night and were met by their brother J. P. Kennedy, agent for the New Mexico Central at Estancia. J. P. Kennedy has a ranch near Antelope where his brothers will spend a vacation.

"Judge Henry L. Waldo, solicitor in New Mexico for the Santa Fe Railway Company, with office here, has presented his married daughter, Mrs. A. T. Rogers, Jr., wife of the attorney, with a handsome and costly automobile, a 1909 model Chalmers-Detroit 30 horse power machine."—Las Vegas Optic.

County School Superintendent John V. Conway, Mrs. John V. Conway,

HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Rent Money Will Do

We will sell you a very desirable home on payments, which your rent money will make. Don't wait. Begin now paying for your home.

LET US EXPLAIN OUR CONTRACT FOR CHEAP MONEY.

GEO. M. KINSELL
294 San Francisco St.

Mrs. J. W. Conway and Miss Rebecca Conway will leave tomorrow morning on a two weeks outing to the Jemez mountains. They will visit the Sulphurs, San Antonio and Jemez Springs going via Espanola and Santa Clara canon and returning by way of the Jemez canon and Pena Blanca.

"Superintendent J. W. Reynolds, of the territorial penitentiary at Santa Fe, left for the Capital City this afternoon, accompanied by his bright little sons, Dick and Bob, who had been the contented guests of Grandpa and Grandma Jefferson Reynolds at Lonesome Hurst on Hot Springs boulevard for ten days. Mr. Reynolds pulled into Las Vegas shortly after 7 o'clock last evening with his brother, E. D. Reynolds manipulating the lever of a Chalmers-Detroit automobile which was purchased by Messrs. E. D. and H. M. Reynolds in Denver and driven to this city by the above named brother. The running time from Denver to Las Vegas, a distance of 362 miles, was twenty-one hours. The trip over the Raton mountains from Trinidad to Raton, twenty-five miles, was made in two hours, while it required but forty minutes to cover the twenty miles from Watrous to this city."—Las Vegas Optic.

MOVNI GICTURE MACHINE
SETS FIRE TO THEATRE.

Nogales, Ariz., July 14.—Fire at 11 o'clock Monday night in the Ramirez theatre in Nogales, Sonora, was set by a moving picture machine. The audience, panic stricken, escaped without injury and a serious blaze was averted by the Nogales, Arizona, fire department's quick work with a chemical engine.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.

GLEANINGS BY A PERIPATETIC PEN

INFLUENCE.

We are sowing ever sowing,
Something good or something evil
In the lives of those around us,
We are planting what we will.

Not a word we utter falls fruitless,
Not a deed we do decays,
Every thought and word and action
Will be found in future days.

When perhaps the one that sowed them
Shall have ceased to be,
Still the record of their being
Will live on into eternity.

Grant therefore all the honest

That the daily seed we sow
May refresh the hearts of others,
Spreading blessings as they grow
JNO. P. WAGNER.

The Way the East Sees It—The following is clipped from an Eastern newspaper:

A Western newspaper contained the following ad:

"Wanted—A first class grocery salesman, capable of driving delivery wagon, and taking orders, work in store nights and manage business when owner is away, and take care of the stable. Must also be a good pitcher and firstbaseman, able to hit .300, so he can manage local ball team, which I own. Will pay \$50 a month for a good man. No others need apply. Address, &c."

Here's a fine chance for an aspiring and ambitious young player. Hours probably from 4 a. m. to 12 p. m. Day off on February 31. Sleep in the hay-mow unless the old man has company. Two meals a day. Buy your own uniform. Time your own after midnight. Help yourself to anything in the way of food unless the horses object. A winning game means an additional measure of oats for the plowhorse. Other favors too numerous to mention for the right man.

(When we get the address of this modest grocer, will publish it.)

Ain't It So—Says the Las Vegas Optic: "Just because the undertakers are busy, it is not a sign that Las Vegas is a dead town."

Which when paraphrased means that it not necessary for the undertakers to be busy in order to prove that the Meadow City is a dead 'un if it does not consolidate.

The Idea—It is reported that a certain girl was mean enough to remark to another: "You see, I can never be found in society while I always can."

An Interesting Coincidence—On last Sunday Judge A. J. Abbott happened into a local restaurant to secure a meal. After he had been seated a while, a throng of Georgia excursionists found their way into the place all eager to satisfy their appetite. Two of the party were placed by the head waitress at the same table with Judge Abbott. It was not long before the judge and the young ladies engaged in conversation, part of which ran as follows:

"I suppose," remarked the judge,

"that you are from Georgia and came on the excursion?"

"We came on the excursion," replied the girls, "but we two happen to be from Yoakum, Texas."

The conversation then drifted to inquiries about Santa Fe.

"Do you happen to know a certain Judge A. J. Abbott?" inquired the girls from Texas.

"Yes, I do know him," replied Judge Abbott, blushing.

"And do you think he is in town?"

"I am certain that he is. But tell me do you know him?"

The girls admitted that they did not but informed the judge that they knew his daughter Frances, that they had been her classmates at Yoakum, Texas.

At this the judge broke the ice by informing his questioners, who proved to be the Misses Clemine and Margaret North, that the girl they were speaking about was his daughter and consequently he was the judge about whom they were inquiring.

A good allround laugh followed the disclosure and after the meal the judge took great delight in showing his daughter's friends the oldest town in the United States.

PARADE OF PROGRESS AT IRRIGATION MEET

Ten Thousand Uniformed Men Will Be in Line on August 10 and 11, at Spokane.

Spokane, Wash., July 14.—Historic incidents, showing the transformation of the northwest from semi-savagery to civilization, will be depicted in parades of progress the afternoon of August 10 and the evening of August 11, in connection with the 17th session of the National Irrigation Congress in Spokane, August 9 to 14. There will also be a march in review by the industrial and irrigation army the afternoon of August 12, when it is expected to have 10,000 uniformed men in line. The evening parade will be illustrated. E. F. Cartier Van Dissel has been appointed grand marshal and will be assisted by a large staff of mounted aides.

The various divisions will be headed by the 14th Cavalry band of Walla Walla, under the direction of William Osterman, followed by Indians from the Spokane reservation, led by Chief Jim Sam, who was recently chosen successor to the late Oliver Lott. They will bring with them their squaws and some of the tribal flery and gala day garb, also their best horses and make camp near the city.

The advent of Captains Lewis and Clark and their followers into the Clearwater country will be depicted by men in costumes of the period on a series of floats, followed by floats showing trappers and traders in garments of fur, carrying implements of their occupation. Then will come a number of floats bearing the early missionaries and Jesuit priests, also the hardy pioneers who made their way across the plains in the old fashioned prairie schooners, miners' pack trains with grizzled prospectors carrying rifles, picks and pans, and a band of wild and woolly cow punchers wearing wide brimmed sombreros, chaps and high heeled boots with clanking spurs.

Another division will show the early lumbermen with axes and cross cut saws, loads of logs, finished lumber, shingles, sash and doors, followed by a magnificent display of farm machinery, including plows, drills, harvesters, headers and combines, with 32 horses attached to the latter and loads of grains and flour bringing up the rear.

The third division will be headed by a float with the official emblem of the National Irrigation Congress showing science bidding the desert drink. This will be represented by two beautiful young women in classic garb posed in the shade of a bearing fruit tree.

Next in line will be floats of the districts in the northwest and other states, followed by exhibits of fruits and grasses of the various communities on elaborately decorated vehicles, with flower covered carriages, automobiles and smart traps and a large number of caparisoned saddle horses. It is expected that every district in the inland Empire will be represented in this division of the parade, also that communities in New Mexico, Texas, Kansas, California, North Carolina, South Carolina, Florida, Georgia, Missouri, New York, Illinois, Colorado and other states will participate in this event.

The parade of the industrial and irrigation army will show representatives of every district in which irrigation is practiced on the continent. Practically every marching club will be headed by its band of music. The parade will begin immediately after the close of the afternoon session on August 12, and the plan is to have each district distinguished from the other by uniforms or head-dress. This will afford opportunities to the various marching clubs to bring their communities directly to the attention of thousands of delegates and visitors from the eastern, middlewestern and southern states.

"We expect to have marching clubs from the irrigated and dry farming districts in Idaho, Oregon, Montana, Washington," said Mr. Van Dissel, "also from California, Wyoming, Utah, North Dakota, South Dakota, Colorado, Nevada, Arizona, Kansas, Texas, Oklahoma and other states in the middlewest, east and south, and the provinces of British Columbia and Alberta."

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—William H. Strolling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it was castor oil according to the plain printed directions and a cure is certain. For sale by all druggists.

OFFICIAL MATTERS

Star Service Schedule.

The following star service schedule has been established between Porter and Revuelto. Leaves Porter on Tuesday, Thursday and Saturday one-half hour after arrival and arrives at Revuelto in three hours. Leaves Revuelto on Tuesday, Thursday and Saturday on receipt of mail from Tucumcari but not later than 5 p. m. and arrives at Porter in three hours.

The seals and record books for notaries public for sale by the New Mexican Printing company at very reasonable rates. Seals for incorporated companies are also handled. Call at or address the New Mexican Printing company, Santa Fe, New Mexico.

Heart Strength

Heart strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Possibly, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling nerve. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to those weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed, with

Dr. Shoop's Restorative

INDIAN FIGHTER OF NEW MEXICO

William Gabin Lewis Laid to His Final Rest at the Age of Eighty-Six Years at Spokane.

Spokane, Wash., July 14.—When the clouds of earth rattled on the wooden covering of the coffin containing the remains of William Gabin Lewis, who died in Spokane a week ago at the age of 86, all but a bare outline of his eventful life was buried with him. He was one of the best known and oldest Indian fighters in the Pacific Northwest, Arizona, Nevada and New Mexico, having served with General Nelson A. Miles as an independent scout several years.

Lewis was a native of Ohio, born on a farm near Cincinnati in 1823. He ran away from home when nine years of age, and since that time he never saw any of his relatives, but passed his life among strangers, red and white and brown. He was in his time a hunter, trapper, prospector, Indian scout, miner and guide. He possessed fortunes on two occasions, but could not keep his money.

He owned a plantation in Southern Missouri years ago, but harkened again to the call of the West, gave his holdings to a friend and turned his face toward the land of the setting sun. He lived among the Apaches in Arizona and New Mexico for years. A silver mine in Arizona brought him \$40,000. He was the discoverer of the Black Traveler in Montana, the Leucetia at Mullan, Idaho, and the Lone Pine in Arizona. He also prospected in California.

During the gold excitement in the Klondike he heard the call of the North and, though more than 71 years of age, he left Spokane on a trip to Alaska, walking every step with rifle, pick, pan and pack. He returned with enough money to keep him the rest of his days.

His last years were passed in Spokane, where he made his home at 418 Oak street. His health was good until a few days before his spirit crossed the Great Divide. He was a child of the hills to the end, and almost his last words were: "If I could only get out among the pines; I love to hear the wind blow through the treetops. I wish I could live a thousand years more in these old hills."

TEN YEARS FROM NOW.

Clipped From the Columns of the Daily News Published on the Planet Mars.

Special Flash Correspondence to the News.

Santa Fe, N. M., July 10, 1919.—Dr. J. M. Diaz, who for years was a great devotee of the now obsolete automobile, but who for several years past has attracted great attention because of his great passion for airships, met with an accident yesterday that nearly terminated seriously. While in his aeroplane hovering over the vicinity of Mount Baldy, one of the propellers got out of order and the machine turned upside down. Dr. Diaz and his two friends who were with him, managed to cling to the airship and later succeeded in getting hold of the parachutes wherewith they descended in safety, there being no further incident save the fact that an alighting Dr. Diaz came feet foremost upon a sleeping bear. Bruin was so frightened that he immediately vacated without showing fight. It is understood that Dr. Diaz will shortly conduct some very interesting flying experiments. He now has five machines.

Yesterday the New Mexican closed the largest annual advertising contract ever signed in New Mexico. The space is to be taken by Pluck, Push & Company, this firm being the first to realize that in order to accomplish results and be thoroughly up-to-date, continuous and varied advertising is necessary. Most firms in Santa Fe are getting away from the old idea of merely having a standing card advertisement in the newspapers as they have found out that they attract more attention by frequent changes in copy and especially by offering special inducements. They are well repaid the extra cost of advertising.

Cures Biliousness, Sick Headache, Sour Stomach, Torpid Liver and Chronic Constipation. Pleasant to take

That the merchants are doing this is another sign of the great progressiveness of Santa Fe.

PROSPECTS FOR COPPER EXCELLENT

Money in the East is Drug on the Market Says Old, Experienced Mining Man.

Spokane, Wash., July 14.—Patrick Clark of Spokane, who has operated mines in various parts of the Northwest, California, Nevada, Arizona and Mexico, announced on his return from New York, where he arrived from a trip abroad with his family, two weeks ago, that he had sold his interest in the Magistral-Ameca mines, near the city of Guadalajara, Mexico, to his partners, who will continue the development of the copper property. He retains his interest in the Furnace Creek properties in California, but he says the outlook there is not good just now. Mr. Clark gave out this statement regarding the prospect of a lively copper market:

"The demand for copper is good, although there is a large production, due chiefly to the output of the low-grade mines in Arizona and Nevada. I note that the surplus is being reduced, and I regard the prospect for the copper market as excellent. Consumption will increase steadily.

"Money in the east is a drug on the market. That means there is ample capital to finance legitimate projects, which will bring about the return of industrial activity. Eastern money is now seeking investment in the Northwest. There is a big change in the attitude of eastern financiers toward the Northwest. They want to invest here. The big financiers are making an investigation of this part of the country. It was significant that George W. Perkins, who, with his associates, controls more money than any other group of men in the world, has been making a personal inspection of the inland Empire. The Northwest will not lack money for development in the future."

LIVE ITEMS FROM MORIARTY

Busy and Prosperous Town on the New Mexico Central Tributary to Santa Fe.

(Haywood and Friends, Moriarty, Agents for the New Mexican.)

Marion Dye and John Dye of Estancia spent Monday in Moriarty. Mr. Marion Dye has spent some time in St. Louis and on the Mississippi river, but expects to make New Mexico his home in the future.

Mrs. P. C. Copple who has been spending the past few weeks in Albuquerque was in Moriarty Monday on business. Mrs. Copple arrived on the north bound train and returned to Albuquerque on the south bound train Monday evening.

T. B. Stubblefield left Moriarty Monday evening for his home in Nashville, Tenn. Mr. Stubblefield has spent the past six months in this town.

John Meyer, sheriff of Torrance county and Attorney Ralph Easley of Estancia, drove to Moriarty Tuesday morning on business pertaining to a suit of the New Mexico Central Railroad Company against Grover C. Martin for excess freight.

John Fielding, Jr., drove fifteen miles southeast of Moriarty Tuesday morning.

William B. Taylor having commuted his claim about seven miles east of town, left Tuesday afternoon for Walla Walla, Wash.

C. E. Butts, agent for the New Mexico Central Railroad Company, at this point, has resigned his position to take effect Wednesday, July 14th.

C. L. Lewis, former agent at Moriarty, will have temporary charge of the station until the vacancy is filled.

B. A. Johnson and family left Tuesday on the southbound train for their home in Beatrice, Neb. Mr. Johnson has spent the past few days visiting friends and relatives in this locality.

J. L. Owens of McIntosh made a business trip to Moriarty Tuesday.

Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Prince, 25 cents. For sale by all druggists.

Herewith are some bargains offered by the New Mexican Printing Company; Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c; Missouri Pleadings forms, \$5; Missouri Code Pleadings, \$6; the two for \$10; Adapted to New Mexico Code, Laws of New Mexico, 1899, 1901 and 1903, English and Spanish pamphlets, \$2.50; full leather, \$3; Sheriff's Flexible Cover Pocket; Docket, single, \$1.25; two or more books, \$1 each; New Mexico Supreme Court Reports, Nos. 8 and 10 inclusive \$3.30 each; Compilation of New Mexico Reports, full leather, \$5.00; Money's Digest, \$6.50; full list school blanks.

Get Well

If you are sick, you wish to get well, don't you? Of course you do. You wish to be rid of the pain and misery, and be happy again.

If your illness is caused by female trouble, you can quickly get the right remedy to get well. It's Cardui. This great medicine, for women, has relieved or cured thousands of ladies, suffering like you from some female trouble.

TAKE CARDUI

For Women's Ills

Mrs. Fannie Ellis, of Foster, Ark., suffered agony for seven years. Read her letter about Cardui. She writes: "I was sick for seven years with female trouble. Every month I would very nearly die with my head and back. I took 12 bottles of Cardui and was cured. Cardui is a God-send to suffering women." Try it.

eral Ford have been invited to come
to Albuquerque on July 26 to assist
in the reorganization of the Albu-
querque National Guard Company.

Interesting Contest—The double
medal contest to be held Thursday
evening in the Elks' new opera house
promises to be one of the most inter-
esting contests ever held in our city.

Died of Tuberculosis—This morning
tuberculosis claimed Lola P. Mercer,
of 112 College street. The deceased
was 38 years of age and was born at
Hope, Arkansas. The funeral will
take place at two thirty Thursday af-
ternoon from the Methodist church.
Interment will be at Fairview.

Historical Rooms Point of Attraction—
One hundred and fifty Canadians
visited the Historical Museum in the
Old Palace today. Ex-Governor L. B.
Prince, president of the Historical So-
ciety, and Judge John R. McFie, pil-
oted the visitors through the Old Pal-
ace.

Albuquerque's Sewer Contract
Awarded—The contract for the sewer
system at Albuquerque was awarded
to Glass & Fischer of Bakersfield,
California, for \$261,842.90. Additional
charges to be borne by the city will
run the cost of the system up to \$288,
345.50.

Enter the Fight—When the people
of a nation or city become aroused on
a great and vital question, that ques-
tion will be settled and settled right.
Brother I guess you would enter this
fight, if it were your boy down there
tonight, ruined and wrecked by the
drink appetite. Prices 10, 20 and 30
cents. All tickets reserved at above
prices. On sale at Fisher's drug
store.

Rehearing in Beaven Case Asked—
District Attorney George S. Klock,
made a motion in district court at Al-
buquerque yesterday for a rehearing
in the case of the Territory vs. John
S. Beaven and S. Grunfeld who were
given a verdict in their suit for four
per cent commission on public mon-
eys collected while they were treas-
urer and assessor of Bernalillo coun-
ty respectively.

Ten Will Take Part—Ten of Santa
Fe's talented young people will take
part in the medal contest Thursday
evening, perhaps a future governor or
a U. S. president may be among the
number.

Local Showers Tonight—So says
the weather bureau and also on
Thursday. Heavy rains fell yester-
day afternoon to the north and north-
east of Santa Fe and the city had
a shower between 2:49 p. m. and 3:50
p. m., and again between 4:34 to
5:20 p. m., the total precipitation be-
ing .37 of an inch. There was also

some hail but not sufficient to dam-
age vegetation. The wind attained a
velocity of 32 miles an hour at 5:00
p. m. The minimum temperature yes-
terday was 56 degrees, the maximum
87 degrees.

**Alamogordo Business Men to Have
Club House**—The Business Men's club
of Alamogordo will build a \$25,000
club house within the next few
months. The plans call for a two
story and basement building with
roof garden on top. The building will
be constructed of brick with Alamo
marble trimmings. It is planned to
have a large swimming pool, auditori-
um, plain and Turkish bath rooms,
bowling alley, billiard and pool room,
barber shop and reception room. In
addition there will be an office and
quarters for the Business Men's
Club.

CAPTAIN VIERRA IS PROMOTED

Change is Made in Local National
Guard Which Goes Into En-
campment at Las Vegas.

Tomorrow the local militia leaves
for Las Vegas where it will encamp.
The following special order has just
been issued, promoting Captain Vierra
and making Second Lieutenant
Graham Frost a first lieutenant and
placing him in charge of Company F.
The order follows:

Special Order No. 9.

Office of Adjutant General.

Santa Fe, N. M., July 12, 1909.

Captain Carlos Vierra, First Regi-
ment of Infantry, is relieved of com-
mand of Company F, and assigned to
duty as inspector of small arms prac-
tice. Captain Vierra will report to
the adjutant general upon receipt of
this order for further orders.

Second Lieutenant Graham Frost,
unassigned, is promoted to first lieuten-
ant, subject to examination, and
assigned to command of Company F,
First Regiment of Infantry. Lieuten-
ant Frost, upon receipt of this order
will report to the adjutant general.

The following men are detailed for
special duty at Las Vegas, and will
report to the adjutant general upon
their arrival at the rifle range with
their companies: Quartermaster Ser-
geant W. A. Flannery, Musician Ha-
vens, Private Albert Clancy.
By order of the Governor.

R. A. FORD,
Adjutant General.

SALE OF TIERRA AMARILLA GRANT

All Details Not Yet Completed But is
to Be Consummated on Wednes-
day of Next Week.

Denver, Colo., July 14.—Special
Master in Chancery John H. Knaebel
has been asked to adjourn the sale
of the Tierra Amarilla land grant
from today to the following Wednes-
day. The grant contains 500,000 acres
lying in southern Colorado and north-
ern New Mexico. The sale was
made some time ago, but the details
have not been closed and the final
order of sale will be made on the date
named.

The sale of the Tierra Amarilla
land grant in northern New Mexico
and southern Colorado has been ad-
journed because of some of the de-
tails of the deal. John Andrus and
other Minneapolis capitalists and
Kansas City and New York people
are the purchasers while New Mexico
people are the owners. Colonel W. E.
Hughes of this city holds a mortgage
for \$400,000 against the property,
which was about to be sold June 28
to satisfy this claim. A sale for \$1,
000,000 was arranged in time to save
it, and the first payment will amount
to one-half this sum.

PUEBLO DEMOCRATS FAVOR DIVES

They Work Against Mayor Fugate's
Efforts to Clean Up Colorado
Smelter City.

Pueblo, Colo., July 14.—The saloon
question came up again at tonight's
meeting of the city council, but with-
out ending the wrangle.

When the license committee report-
ed a list of 100 saloon men who should
be entitled to licenses, the report was
approved by the council, but a few
minutes later Alderman De Tienne
arose and presented a resolution
granting licenses to 13 more, many
of whom have been generally classed
as dive keepers and undesirables. He
called on the chief of police for a
statement as to whether any of the
saloonmen in the group of 13 had bad
police records. Chief Sullivan could
not be found and when the resolu-
tion was put to a vote it carried by
a vote of five to three, all Democrats
voting in favor of it. Mayor Fugate
states tonight that he will not approve
the licenses of any of the 13 in addi-
tion to the 100, and the three Re-
publican aldermen claim the move-
ment is illegal and they will fight it.
Mayor Fugate will secure legal ad-
vice tomorrow and will probably take
definite action soon.

POLICE PRAISED FOR KILLING SALOON MAN

Fort Worth, Texas, July 14.—The
grand jury in the district court ad-
dressed to Police Commissioner Mul-
key, a communication signed by all
members commending Patrolman
Campbell, who shot and killed Bob
Hammond, proprietor of the Red
Light saloon, Saturday night, and
recommending that the commissioner
furnish Campbell assistance of more
men of his kind.

HON. L. B. PRINCE DECLINES RE-ELECTION

Important Annual Meeting of the
Board of Trade Which Every
Citizen Should Attend.

The board of trade meeting on Fri-
day evening is not only important
because it is the annual meeting when
officers for the ensuing year will be
elected, but because it comes at a
critical period in the history of the
city. Every one of intelligence must
see that the next year is going to
show more development in Santa Fe
than has taken place in the preceding
decade. Besides improvements
which are certain to occur there are
many projected enterprises which can
be made or marred by the action of
the commercial community. It is a
time when a body like the Board of
Trade can do a most effective work
for the upbuilding of the city. All
that is needed is a concerted effort
and united action on the part of the
people. For more than a quarter of
a century the Board of Trade has been
the active force in the development
of prosperity, and with proper co-op-
eration it can do a great work in
the year to come.

Very much depends on the selection
of officers and committees.

Hon. L. Bradford Prince, who has
been president for several years, pos-
itively declined a re-election, and is
very anxious that the most efficient
man possible shall be selected to be
the leader during the coming year.
Under the articles of incorporation
seven directors are to be elected as
well as a secretary and treasurer.
The president is chosen from among
the seven directors.

At the meeting on Friday there will
be an interesting and important re-
port as to the Chautauqua which is to
be organized for next year and which
is expected to be a prominent factor
in the future of the city. A large
number of other interesting topics
will be discussed and altogether it
will be an occasion when no public
spirited citizen should be absent.

TAKEN BACK TO CANON CITY

Santa Fe's Burglar Will First Serve
Out Term at the Colorado
Institution.

Parole Officer Sydon of Canon City,
Colorado, today took with him from
the Santa Fe county jail, Santa Fe's
gentleman burglar Fox, alias Luis
Madril, who is wanted in Colorado to
serve out a maximum sentence of six
years for burglary, which he began
serving on January 6, 1908, escaping
on April 15, of the same year. Madril
also served a term in Montana where
he escaped from confinement. Madril
is young in appearance, has a gentle-
manly demeanor and ingratiates him-
self with prison officials, a fact, which
has aided him in making at least two
escapes from penal institutions in two
different states.

EL PASO GETS COLD FEET

Game Called Off and Albuquerque
Ball Team Will Play Here
Instead.

Manager Kerr of the Salmon Grays
team today received a telegram from
the El Paso base ball team stating
that the latter team had made an
engagement with the Clifton, Arizona,
team and would not be able to come
to Santa Fe until later.

Arrangements however, have been
made with the Albuquerque team
which will come here on next Sunday.
The game will be of great interest ow-
ing to the bitter rivalry between the
two teams. Albuquerque is fuming
mad over the recent defeats and
intends coming here stronger than
ever.

EXAMINING THAW FOR HIS SANITY

Matrons of Jail Testify That They
Consider Murderer to Be of
Right Mind.

White Plains, N. Y., July 14.—Dis-
trict Attorney Mack is careful to ask
all witnesses in the examination of
Harry Thaw whether he ever discuss-
ed the killing of White with the pris-
oner. The theory of the state is that
the victim of paranoia only exhibits
symptoms of pronounced insanity, when
the subject is mentioned. All
witnesses denied approaching him on
the subject. Anna G. Dayley and Mary
Murnane, matrons in the jail, said
they considered Thaw sane.

UNEMPLOYED LABORERS FOUND ALMOST STARVED.

San Antonio, Texas, July 14.—Frank
Lawritzen, aged 28, from Beaumont,
was found exhausted in the brush
eight miles west of here. He had not
eaten or had anything to drink for
three days. He lost his way looking
for work and wandered aimlessly
about.

PHYTHIAN SANATOR- IUM INCORPORATES.

(Continued from Page One.)

not hold its weekly meeting on Mon-
day as only one members of the com-
mittee was in the National Capital
at the time. But Senator Clark of
Wyoming, chairman of the committee,
will return this week and then an ef-
fort will be made to meet on next
Monday to act on the appointment of
Hon. M. C. Mechem to be judge of the
Seventh Judicial District. As far as
known, there are no objections to
Judge Mechem's confirmation, but he
is the victim of unfortunate circum-
stances that have thus far prevented
the committee from holding a meeting
to recommend his confirmation by the
Senate.

Guards Appointed.

W. H. Kessler and C. H. Wilson
have been appointed guards on the
Jemez forest.

Star Service Changed.

Star service has been changed be-
tween Baldy and Ute Creek, Colfax
county, so that beginning July 7,
the route will end at Ute Park, without
change in distance.

Star Service Schedule.

Between Galisteo and Kennedy—
Leave Galisteo daily except Sunday at
9:15 a. m., and arrive at Kennedy by
10 a. m. Leave Kennedy daily except
Sunday on receipt of mail from train,
due at 10:28 a. m., but not later than
12:30 p. m., and arrive at Galisteo in
45 minutes.

LEAVE ON A FISHING TRIP

Tomorrow morning bright and early
Probate Clerk George W. Armijo,
Celso Lopez, county treasurer, George
Miguardot, Victor Garcia, Juan How-
land and Paulo Padilla and Bonifacio
Lucero will leave for the headwaters
of the Pecos where they will pitch
camp and stay two weeks on a fish-
ing trip. Yesterday sixteen burros
were loaded down with the camp out-
fit and supplies and sent on ahead.
The trip will be made overland.
