VOL. 46.

SANTA FE, NEW MEXICO, MONDAY AUGUST 2, 1909.

NO. 145

APPOINTMENTS BY GOVERNOR CURRY

New County Commissioner in Guadalupe

FIRE COMPANIES GET FUNDS

C. H. Neal Designated as Superintendent of Good Roads,

Governor Curry today appointed W. B. Giddings of Puerto de Luna, commissioner from the first district, Guadalupe county, vice County Commissioner Ricardo Chavez, resigned Mr. Giddings was recommended by the county central committee and by many business men.

Delegates to Irrigation Congress.

Governor Curry today appointed the following additional delegates to the Irrigation Congress at Spokane: Nat. H. Green and Julius E. Kraft of Albuquerque; and General B. J. Viljoen of La Mesa, Dona Ana county.

Notaries Public Appointed.

Governor Curry today appointed the following notaries public: Charles D. Carmichael of Kenna, Roosevelt county; Juan C. Martinez of Des Moines, Union county; Walter E. Burnside of Silver City, Grant county; Manuel R. Chavez, Mesilla, Dona Ana county; John C. Plimmans of Hillsboro, Siera county.

New Mexico Agent Designated.

D. O. Thing, was today designated as New Mexico agent for the Chama Valley Land Company and the certificate of his appointment filed in the office of Territorial Secretary Nathan Jaffa.

Incorporation.

Incorporation papers were filed today in the office of Territorial Secretary Nathan Jaffa by the Espanola Milling and Elevator Company of Espanola, Rio Arriba county. The capitalization is \$20,000, divided into 20,000 shares. The incorporators and directors are: George W. Bond of Trinidad, Colorado; Franklin Bond, Louis F. Nohl and Lewis T. Hary of Espanola, each subscribing to 5,000 shares. The company will build an electric power plant on the Santa Cruz river in northern Santa Fe county and use the power for milling purposes at Espanola.

Board of Bar Examiners.

A meeting of the Territorial board of bar examiners was held today in the office of Supreme Court Clerk Jose D. Sena. Attorneys W. J. Lucas of Las Vegas, and Julius Staab of Albuquerque, were present, while Attorney Charles C. Catron was absent. Temporary rules and regulations were discussed as well as the time for holding the next examination of applicants for the bar.

The board decided to hold the first examination under the new law on August 24 and all applications must be in the hands of the Secretary and Treasurer, Jose D. Sena by August 20th.

Fire Company Funds.

Superintendent of Insurance Jacobo Chavez was today distributing the funds designated by statute for distribution among the various city fire departments of the Territory, the amount to each being regulated by statute. The total distribution was \$14,500. The fire departments of Santa Fe and Raton receive \$1,200 each; of Roswell \$1,000; of Albuquerque, \$2,250; of Las Vegas, \$800; Silver City \$700; Alamogordo and Carlsbad \$600 each; Springer, Deming, Socorro, Las Cruces, Tucuman, Clayton, Artesia, Gallup, \$500 each, and East Las Vegas \$400.

Appointed Road Superintendent.

The Good Roads Commission has appointed C. H. Neal of Piacito, Lincoln county, superintendent of construction of the Scenic Highway between Santa Fe and the upper Pecos, work on which was resumed today. Mr. Neal is a graduate of the Polytechnic School at Troy, New York, and the past few years has been doing hydrographic work for Territorial Engineer Vernon L. Sullivan. Mr. Neal and wife will come to Santa Fe next week. Work on the Scenic Highway was begun today by convicts who will devote their time to placing in good shape the road above the Water Company's power house, until the tents arrive for the camp to be established just above Monument Rock.

Chaves County Assessment.

The following is the assessment of Chaves county for 1909, and it now looks as if Chaves county would stand at the head of the column passing Bernalillo and San Miguel counties as to assessment:

Agricultural land, 135,225 acres, \$1,175,878; grazing land, 361,637 acres \$388,598; town lots, 9,261, \$1,119,848;

(Continued on Page Eight.)

TARIFF REPORT FACES DEFEAT

Joker Discovered in Leather and Hide Schedule

CONFEREES TO REASSEMBLE

Another Poll Shows That Situation Is at Best Uncertain

Washington, D. C., Aug. 2.—With the conference report facing defeat in the Senate because of the discovery of an alleged joker in the hide and leather compromise, it was decided today to re-assemble the conferees that they might prepare an official explanation of the wording of the schedule. It is understood that the re-assembling of conferees resulted from a conference of the president and Aldrich, although it is denied at the White House that the president had anything to do with it. The action of the Western Republican Senators in compelling a reading of the conference report in full enabled the leaders to take a new poll of the Senate which showed that the former canvasses had been useless. Some "Progressive" Republicans are quoted as saying that the schedule is a direct betrayal of the president's confidence, but the president says the idea of a "joker" is absurd and the wording is that agreed upon.

Count of Mail on Rural Routes.

Washington, D. C., Aug. 2.—In order to obtain an estimate of the amount of postal business transacted on rural routes, the postoffice department ordered a count to be kept on all rural routes of the number of pieces of mail delivered and collected, the number of money orders sold, the number of pieces of registered mail handled, the value of postage on all mail matter collected, and the value of stamps, stamped envelopes, postal cards and stamped paper sold, during the months of March, April and May, and report thereon to be submitted to the department. Practically all of these reports have been received and are being compiled.

Postmaster General Hitchcock was advised by the fourth assistant postmaster general that such of the reports as have been examined indicate a very large increase over the last compilation made several years ago, and that patrons of the rural service thoroughly appreciate its value and utility. In order to secure the earliest possible delivery of mail on rural routes, all carriers whose reports show five thousand or more pieces of mail delivered and collected during each of the months of March, April and May, will be excused from keeping further count of mail matter delivered and collected, but will be required to make daily reports to postmasters of the number of applications for money orders received, the number of registered letters delivered and collected, and the value of stamps, stamped envelopes, postal cards and stamped paper sold.

Champ Clark prevented the urgent deficiency appropriation bill from going to conference today by objecting to unanimous consent on the Senate amendments. The conference report on the Philippines tariff bill was adopted without objection. Mr. Taft has written a letter to Senator Brown of Nebraska endorsing the compromise on hides and leather.

Ready to Rebel.

Washington, Aug. 2.—The lowest rate fixed by either body, by the proviso adopted in connection with the paragraph on hides is in dispute. A canvass of Senators this morning showed many supposed adherents to the conference report "ready to leave the reservation." The regular Republicans are greatly alarmed at the prospect.

SANTA FE COUNTY INSTITUTE OPENS

Will Run for Four Weeks With Mrs. George Dixon as Conductor.

This morning at nine o'clock the Santa Fe county institute for third grade teachers, opened in the High School building. Mrs. George Dixon will conduct the proceedings which will last four weeks. Two weeks from today Professor J. A. Wood will instruct first and second grade teachers for two weeks.

Governor Curry was present at the opening this morning and made an excellent address to the teachers present. County Superintendent John V. Conway and Professor Wood also made brief addresses. About thirty-five teachers were present.

GENERAL JOHN P. VICTORY.

ANSWERS THE FINAL SUMMONS

General Victory After Long Siege Succumbs to Dropsy—Was Prominent G. A. R. Man.

This morning shortly after midnight General John P. Victory who has been ill for over a year, succumbed to the effects of dropsy. About a week ago his condition had become so serious that he was removed to the St. Vincent hospital but he daily became worse.

The General was born in Brooklyn, New York, September 10, 1837. His father, James Victory, emigrated from county Longford, Ireland, in 1826, then a young man, and located in Brooklyn, where he was married to Miss Catharine Brennan, also a native of that country. He was engaged in contracting and building in that city until his death, which occurred in 1876, at the age of seventy-two years. His wife had departed this life in 1837, soon after the birth of General Victory. The latter attended the pay schools in his neighborhood and one year in St. James Academy, after which he entered the law office of Greenwood & Tucker. He was admitted to the bar at Poughkeepsie, New York, and was immediately appointed city attorney of his native city, in which capacity he served two years. Mr. Victory continued the practice of law in that city until 1866; from that time until 1883 he followed his profession in New York City, residing a portion of the time in Richmond county; and then, on account of failing health, he came to Santa Fe, New Mexico. He opened an office in this city, and soon became one of the leading members of the bar of the Territory. During his residence here he had been

fully identified with the affairs of the city. For five years he served as director of the city schools, and in 1889 was elected county school superintendent, was one of the promoters of the incorporation of Santa Fe, and was the first city attorney, having held the position under both Democratic and Republican rule. In 1893 Mr. Victory received the appointment of assistant secretary of the Territory, in which he served until January, 1895. In the fall of 1894 he was elected to the legislative council of New Mexico, and during the session of the legislature of 1895 proved an active and influential member of that body. He served in the council as chairman of the judiciary committee, the committee on public instructions, the committee on education, and other important bodies auxiliary to legislation. On January 7, 1895, Governor Thornton appointed Mr. Victory solicitor-general of the Territory, upon the duties of which office he entered March 4, 1895.

General Victory was twice married. In January, 1864, he married Miss Kate Marshall, who died in 1876, four children having been born to the union. In August, 1890, he married Miss Mary Maltby, daughter of Norman Maltby, at the time mayor of St. Louis, Missouri. Mrs. Victory, with a son, Thornton Haltby, remain to mourn the deceased.

General Victory was a member of Carlton Post, G. A. R., and held a number of honorary positions in the Department of New Mexico. He was reared a member of the Catholic church and remained faithful to it in life and death.

The funeral services will take place on Wednesday morning from the Cathedral. In the afternoon services will be held by members of the Carlton Post of the G. A. R. and interment will be at Fairview.

JOHN HEYDLER TO SUCCEED PULLIAM

Baseball Magnates Will Meet at Louisville Tonight

FUNERAL OF EX-PRESIDENT

Neither of the Two Great Leagues Played Any Games Today.

New York, Aug. 2.—The first time in the history of baseball, all games of both major leagues, were postponed today because of the funeral this afternoon at Louisville, Ky., of Harry C. Pulliam, president of the National League. A number of individual games of other leagues were also postponed. The president of the American League, a close personal friend of Pulliam, is one of the pall bearers. There is little doubt of the election of John Heydler, present secretary of the League, as Pulliam's successor at a meeting of the magnates at Louisville tonight.

CZAR VISITS KING EDWARD

Greeted by Room of Cannons From War Fleet

MAGNIFICENT NAVAL REVIEW

Much Significance in Meeting of Rulers of Russia and England.

Cowes, Aug. 2.—The Standard left booming cannons from 156 or the pick of England's war fleet assembled to welcome them, the Russian Emperor and Empress who arrived here on the imperial yacht to visit King Edward were given an imposing official welcome today. King Edward and Queen Alexandra on board of the yacht Victoria and Albert met the imperial yacht Standard outside of Spithead.

King Edward boarded the Standard and after welcoming the guests returned with them to the Victoria and Albert from which they reviewed the immense fleet. The presence of Sir

(Continued on Page Eight.)

FOUND COMPLAINTS UNFOUNDED

No Saw Dust Being Put Into Taos Streams

DISPOSITION TO OBEY LAW

By All People of the County Except the Pueblo Indians

Game and Fish Warden Thomas P. Gable who has returned from a trip through Taos county where along streams and in the forests he posted copies of the game and fish laws, speaks in glowing terms of the beauty and fertility of the Taos valley and its bountiful supply of pure water. He says that there is a noticeable influx of new settlers, of improvement in farming, of additional business houses and indications of an awakening industrially that needs but the completion of a railroad into the valley to make Taos county one of the most populous and most prosperous portions of the Southwest. However, Mr. Gable says, that Taos needs a Woman's Board of Trade to fix up its plaza. Mr. Gable investigated the complaint that saw dust is being dumped into the streams of Taos county. As far as the Santa Barbara Pole and Tie Company on the Santa Barbara is concerned, he found the complaint unfounded as the company is doing all it can to avoid the sawdust washing into the stream. However, at one saw mill on the Pueblo, it was found that occasional floods washed saw dust into the stream, but protective boards are now being put up which will remedy the matter. Both the Santa Barbara and Pueblo are full of fish, but the Arroyo Hondo needs restocking and applications for that purpose are being sent to the U. S. Fish Commissioner at Washington. Everywhere, except among the Pueblo Indians, Game Warden Gable found a disposition to obey the game and fish laws.

MRS. THAW ALMOST LOSES SELF CONTROL

White Plains, N. Y., Aug. 2.—When the third week of the Thaw habeas corpus proceedings to gain release from Matteawan opened this morning District Attorney Jerome took up the reading of testimony given in the Thaw trials. The statements of Catherine O'Neill, a former seamstress in the Thaw household regarding her fits of passion when a child, followed by the statements of Mrs. William C. Thaw, who seemed about to lose control of herself, as the testimony presenting Thaw as the victim of extreme nervousness throughout life, was read. Jerome also read extracts from the testimony of Thaw's, his teachers, nurses, doctors and the newspaper men who saw him before and after the shooting of White. He read the story of his actions on being told of White's actions with Mrs. Thaw and of his alleged attempted suicide in Paris.

SPANISH AMERICAN NORMAL SCHOOL

Directors Meet at El Rito and Organize

HON. L. B. PRINCE, PRESIDENT

Arrangement Complete for Opening Institution Next Month.

The first meeting of the directors of the new Spanish American Normal School of the Territory, was held at El Rito, Rio Arriba county, on last Friday. Every member of the board was present as follows: L. B. Prince and Venecio Jaramillo of Rio Arriba; Malaquias Martinez and Squire Hart of Taos, and Dr. John H. Sloan of Santa Fe. Superintendent of Public Instruction J. E. Clark was also present and much disappointment was felt that illness caused Governor Curry's absence.

Early in the forenoon, the board proceeded to a thorough inspection of the

(Continued on Page Eight.)

REPUBLIC PROCLAIMED IN SPAIN

King Alfonso Much Worried Over Situation

GENERAL STRIKE BEGINS

All Telegraphic Communication With Interior Has Ceased.

Bayone, France, Aug. 2.—News from San Sebastian reports conditions grave throughout Northern Spain this morning. All trades unions have given notice of a general strike beginning today. The government seized all telegraph and telephone lines to prevent communication between the strike leaders and press dispatches are entirely stopped, forcing the suspension of the majority of papers. King Alfonso is greatly distressed over the situation and was with difficulty prevented from going to Barcelona. Premier Maura told him it would be suicide to go to that hot-bed of anarchy.

Republic Proclaimed.

Paris, Aug. 2.—The true facts concerning conditions at Barcelona are still unknown. The city is still cut off from the land and sea and while it is evident that order has been restored, the district north of the city is still in the hands of the revolutionists. Even the official dispatches from Madrid speak of the necessity of restoring order in the interior and the difficulty of dislodging the anarchists in the mountains. Some reports insist that the republic has already been proclaimed and a regular junta is directing the operations of revolutionists.

Editor Shot Without Trial.

At what cost of life and property the tranquility of Barcelona was restored is not known. Refugees speak of terrible slaughter estimating the dead at thousands. It is not clear whether the ring leaders were captured and condemned or had been executed, but it is known that Emiliano Iglesias, editor of Progreso, was shot without trial. A serious effort was to be made today to resume work, employers offering bonus of one week's wages to all who return to work.

Slaughtered Like Sheep.

Oran, Aug. 2.—Led into ambush by incompetent officers, huddled into a confused mass in a narrow defile, swept by artillery and unable to see whence it came, the fire decimating the ranks, thousands of Spanish soldiers were sacrificed by the stupidity of the antiquated military methods of their superiors in the fighting near Melilla on July 27, according to the officers of the steamship Emri, which arrived today from Melilla. They were ordered to advance in close order into a narrow pass in the hills from whence the Moors shelled them with terrific effect. Many Spanish had just disembarked and were without rations.

Brave, But Stupid.

San Sebastian, Aug. 2.—Reports from Melilla say that arrangements for caring for the wounded are deplorable. There are a few doctors. Medicines, surgical instruments and supplies are almost entirely lacking. During the fighting on July 27, the staff of General Marina lost half of its strength and three-quarters of its officers. All reports mention the bravery of the officers and men, but make plain the incompetency and stupidity of the methods employed.

Order Restored.

Madrid, Aug. 2.—Order is almost completely established in Barcelona today although trouble continues in the outskirts. The government categorically denies that the 119 revolutionists sentenced to death have been executed. It states that they are being held in the dungeons of Fort Montjuic and Citarinjos, pending the approval of the minister of war. Among the prisoners condemned are two members of the chamber of deputies, and eight aldermen of Barcelona. It is stated that railroad communication probably will be resumed on Wednesday.

Palamos Free and Independent.

Paris, Aug. 2.—A special from Cerbere reports that a number of Communes in Catalonia have proclaimed a republic and states that the municipality of Palamos declared itself free and independent.

Will Visit Italy and Turkey.

Cowes, Aug. 2.—The Standard left Cherbourg this morning and was escorted by the French fleet. The foreign minister confirmed the report that the emperor will visit Italy and Turkey in the fall.

JACK JOHNSON'S BACKER

POSTS \$5,000 FOR FIGHT. Chicago, Aug. 2.—George Lytle, backer of Jack Johnson, today posted \$5,000 for a battle with Jim Jeffries.

The Big Store

GOOD WILL

The success of our business depends upon the confidence that buyers have in us and in our methods there must be good will and mutual friendliness between us. Prices must be lower than elsewhere. THE DAILY ROUND UP.

THROUGH THE NARROWS.

(By Edith M. Thomas.)

Out through the Narrows they go—
The ships to the highway seas—
As they sink, yon verge below
"They're gone!" sings the rippling breeze.

In through the Narrows they glide,
With whirling of giant wheels;
"They come!" calls the swelling tide,
Pushed by their giant keels.

And so, by the Morning Way,
By the path that forever is new,
The world is passing, today,
Greeting—or bidding adieu.

Once, through the Narrows I passed
But when I again I came,
The wild, bright tears dropped fast
For joy that I could not name!

—From "Success Magazine."

Marriage License Issued—A marriage license has been issued to Carlos Trujillo and Nicolasa Trujillo of Las Torres, San Miguel county.

Clovis Has Daily Paper Again—Clovis has a daily paper again, a successor to the two dailies that led a brief and inglorious career. This time it is the Clovis Journal.

Kicked to Death by Bule—Fred Nash of Clayton, Union county, while at work on his farm, four and one-half miles west of Clayton, was kicked in the abdomen by a work mule and died 48 hours later. Nash was married.

Fire at Farmington—An adobe house owned by W. A. Hunter, and located between the postoffice and the First National Bank at Farmington, burned to the ground a few days ago, being set on fire from a gasoline explosion.

Roswell Postoffice Moves—The Roswell postoffice today opened in its new quarters at the Hobson building. The working room has 4,000 square feet of space and has a cement floor. There are two large front doors from the street to the lobby, which is completely equipped for the use of the public and is much larger than in the old office. The government receives a rental of \$850 a year for the new quarters.

MOVED FROM THE OLD PALACE

Daughters of the American Revolution
Secure Storage Room at Capitol Building.

The local organization of the Daughters of the American Revolution, who for a number of years have occupied rooms in the Old Palace, Friday transferred all of their furniture and other property to a storage room provided for them in the Capitol building. The society will not have a regular hall for the holding of their regular meetings until the capitol extension is completed, when they will be allotted space in that building. In the interim they will hold their meetings at the residence of Mrs. L. B. Prince on Palace avenue.

The society has recently made many valuable acquisitions for its library which is undoubtedly one of the best existing in the Southwest, in fact many books are contained in the library that are to be found in no other section of the West. Recently a number of very valuable genealogical books were purchased and other books have been contracted for.

Among the possessions of the organization is a complete set of Savage's genealogical dictionary and also a number of volumes of the New England Genealogical and Historical Register, besides many other valuable reference books. When the quarters in the Capitol extension are ready, the library will be nicely arranged and will be open to any one desiring to look up genealogical matters.

The local organization of the Daughters of the American Revolution has been progressing nicely and is looking forward to a still brighter future.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY, & CO., Toledo, O.

HARVEST LABORERS ASK BIG PAY

Spokane, Wash., Aug. 2.—Three dollars a day for 10 hours' work is demanded by harvest laborers in the wheat fields in eastern Washington, where the ranches in thirteen counties will gather a crop of 37,000,000 bushels this season. The scale in 1908 ranged from \$2.50 for laborers to \$7 for engineers, working from 5 o'clock in the morning until dusk. Farmers say that will be the schedule this year. They do not expect to have any difficulty in obtaining sufficient help to harvest the crop. Another situation is presented by the Farmers' Union of Washington and northern Idaho, which, through Y. C. Mansfield of Endicott, Wash., a member of its executive committee, has addressed an "open letter" to the millers in Washington and Oregon, in which it is made plain that if the price of Bluestem wheat is not at least 10 cents a bushel higher than Club or Turkey Red grain the growers will establish mills.

OJO CALIENTE HOT SPRINGS.

These celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellings, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranco Station, on the Denver and Rio Grande Railroad, from which point a daily line of stage runs to the springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the entire year round. There is now a commodious hotel for the convenience of invalids and tourists. People suffering from consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,626.24 grains of alkaline salts to the gallon, being address:

ANTONIO JOSEPH, Proprietor.

CURED TO STAY CURED.

How a Santa Fe Citizen Found Complete Freedom From Kidney Troubles.

If you suffer from backache—From urinary disorders—From any disease of the kidneys, Be cured to stay cured.
Doan's Kidney Pills make lasting cures.

Santa Fe people testify.
Here's one case of it:
Eusebio Escudero, 106 Griffin street, Santa Fe, N. M., says: "In 1902 I used Doan's Kidney Pills and derived so much benefit that I gladly recommend them in a public statement. For two or three years I suffered from backache and kidney complaint. There was a retention of the kidney secretions and other difficulties which gave evidence that my kidneys were very weak. My attention was finally called to Doan's Kidney Pills and I procured a box at Stripling, Burrows & Co.'s drug store. They promptly relieved the pain in my back, strengthened my kidneys and removed every symptom of my trouble. On a few occasions since then I have had need of a kidney medicine and I am glad to say that at such times I have used Doan's Kidney Pills with the greatest benefit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by all druggists.

"YELLOW JOURNALISM" DOES NOT PREVAIL

Most of the Newspapers Devote Their Space to Serious and Vital Topics and Not to Scandal.

"An expert librarian and indexer has spent 16 years in carefully analyzing the contents of the leading newspapers in the principal cities of the United States. His records cover 35,000 items. From this great mass of data he has compiled tables showing the proportionate space given on the average in the newspaper press to various classes of news. The Chicago Tribune prints his compilation for the year 1908, and the result of his 16 years of study.

"The proof is incontestable that the amount of serious and important matter printed in the daily newspapers far outweighs the sensational and superficial. It is demonstrated that the newspapers are even more alive to the things that make for real progress than they are to crimes or the evil phases of society. Mr. Street's work thoroughly substantiates the assertion of those who understand the newspaper best, that it is the most comprehensive, valuable, and effective factor in modern human advancement.

"The year 1908 was characterized by many particularly offensive scandals and sensational crimes, and the year is remembered by many people for its stories of Thaw, Hains, Castellane, Earle, the Black Hand crimes, and various tragic murders and bomb outrages. The tables show 15 times as many items dealing with politics, international relations, educational, science, prominent men and progressive movements, as those relating to outrageous crimes and scandals. Adding in all the reports of crime, still the criminal news made up only one-sixth as much as the news of the other subjects above mentioned.

"Some remarkable facts are disclosed. For instance, murders and suicides combined have not been mentioned as often as railroads, and neither one of them received as much attention as educational and scientific matters. Only one principal news item out of 26 was devoted to crimes and scandals.

"There were six times as many items referring to real public leaders and important business men as to all the notorious crimes and scandals of the year. There were more than three times as many items on religious, educational, and scientific matters as on murder. Not only superiority in numbers is shown for the serious and progressive news topics, but also at least equal, or even superior, zeal in the pursuit and preparation of such news. New medical discoveries have been given tremendous publicity, and great campaigns for public health and intellectual and civic progress have been taken up and successfully promoted by every daily newspaper; for example, the magnificent campaign against tuberculosis, which is to a very large extent a campaign of the press.

"There was more religious news in the papers last year than there was news of all crimes put together, excluding suicide and murder; there was more religious news than news of either of the great parties. If account were taken of space devoted to the speeches and sermons of educators and clergymen, and to discussion (aside from news items) of the graver topics of civilized life, the economic conditions, legal decisions, and aspects of social welfare, morality, ethics, education, and religion, the amount of space devoted to these things would be many times the total amount devoted to crime and scandal in the newspaper press.

"Governmental affairs received more attention than the sensational news items. As showing the relative importance in the daily press of the real leaders of men and affairs, as compared with the sensational, scandalous, or criminal news, it is shown that such men as E. H. Harriman and J. P. Morgan received more notice in the press than the Castellane scandal or the Black Hand outrages. Samuel Gompers received as many notices as all the bank embezzlements put together. John D. Rockefeller was in the newspapers as much as all the robberies, safeblowers, and burglars. Grover Cleveland, Governor Johnson, G. B. Cortelyou, or Leslie M. Shaw, each one had as many mentions in the press as the Hains murder case and accompanying scandals.

"The universities received more attention than the Thaw case. The churches appeared in the news items six times as often as the work of dynamiters or Black Hand criminals. Arctic exploration received as much attention as robbery and safeblowing. The railroads received as much attention in the news as all the crimes and scandals put together.

"The newspapers of the United States reflect life as it is, 'with the various parts well balanced, the serious phases thoroughly understood and properly presented, the tragedy and romance occupying only the space which a well tempered historical sense requires,' and those persons who for the time being, actually put themselves at the front, are given the amount of space to which they are entitled.

"The inquiry of this statistician is of very great value as proving that the newspapers are not given to sensationalism. Most people who make loose criticisms upon the press of today base their views upon the methods of a few exceptional papers, number-

ing perhaps not over a dozen in the United States—the extremists which are in no sense representative of the American press.

"The more thorough one's acquaintance with the daily newspapers of the United States, the deeper one's respect for the universality of their interests, the completeness of their news service, the saneness of their comments and interpretations, and their whole hatred devotedness to public service."—El Paso Herald.

\$20,000,000 FOR NEW IRRIGATION PROJECT

Series of Dams to Be Built By United States and Mexico in Rio Grande in Texas.

San Antonio, Texas, Aug. 2.—An irrigation project of gigantic proportions, calculated to water over nine million acres of the best land in the Rio Grande valley, will in the near future find realization. A number of large American and Mexican land owners are behind the undertaking and a large part of the money necessary will be furnished by the Pimental financial institutions. Jose Y. Limantour, minister of finance of Mexico, and his brother, Jukio Limantour, who own a big body of land in the territory affected, will also aid in financing the enterprise, and so will the Terrazas syndicate in which Governor Enrique Creel of Chihuahua is largely interested. General Geronimo Trevino of Monterey, owner of about 2,000,000 acres of very fine land along the banks of the river, is also one of the promoters. The American interests are composed mostly of large colonization companies and a few individual owners.

The dams, locks, canals and ditches needed will cost at least \$22,000,000, and many months will be necessary for their construction. It is intended to dam the Rio Grande at four different points where the nature of its bed is especially favorable. The biggest dam will be located near Lajitas where the river runs in a canyon nearly a thousand feet deep. Adopting this method will mean that large quantities of water can be stored up at a minimum risk and expense and very little tillable land will be wasted in the storage of the water. The effect this irrigation project will have on land values when it is completed will be tremendous. Similar lands below Zapata sold for from \$2 to \$3 an acre before they could be irrigated while today from \$50 to \$75 is asked and gladly paid. The present value of the land to be put under irrigation ranges from \$2 to \$5 on the Mexican side of the river and on the American side \$5 to \$8 per acre is paid.

The company formed to launch this great enterprise will have a capital stock of \$50,000,000 and will be able to draw \$48,000,000 gold from the Mexican treasury. A law passed several years ago provides for a subsidy of \$6 per acre for any meritorious irrigation project.

Before work can be commenced a treaty between the United States and the Mexican republic will have to fix the status of the undertaking from the point of view of international law. The preliminary data and surveys for this are now being obtained and no difficulties are anticipated. It is known that both governments favor the reclamation of the Rio Grande valley and that for this reason no obstacles will be placed in the Zapata project.

Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by all druggists.

GOLD DISCOVERIES IN HOODOO DISTRICT

Rush of Prospectors to Northern Idaho and Central Washington.—Free Milling Ore.

Spokane, Wash., Aug. 2.—Gold discoveries in the Hoodoo district in northern Idaho and in the Summit district in central Washington have created considerable excitement, and there is a rush of prospectors. Miners in the Hoodoo camp encountered a 14-foot ledge a few days ago, and assays show it is rich in free-milling gold. The property was discovered more than 10 years ago, since which time thousands of dollars have been spent in exploration work without success until the ledge was encountered by Albert Baumgartner, manager for Portland owners. Assays of the free-milling ore found in the Summit district run more than \$250 a ton in gold. The property is within 16 miles of North Yakima, but lacks transportation facilities. The owners are preparing to install machinery to develop the claims, which experienced mining men say are equally as rich as any in the Coeur d'Alene and Grapple Creek districts of Idaho and Colorado.

RAILROAD COMPETITION
IN NORTHWEST

Spokane, Wash., Aug. 2.—Railroad builders representing the Northern Pacific, the Chicago, Milwaukee & Puget Sound, the Harriman system and the mysterious North Coast Company, headed by Robert E. Strahorn of Spokane, are waging a competitive campaign in Washington, Idaho, Oregon, Montana and North Dakota which gives every promise of attracting world-wide attention.

Contracts calling for a total expenditure of almost \$45,000,000 have been awarded or scheduled in the last three months and there is information at hand that not less than \$50,000,000 will be added to that amount as soon as the present work is completed.

Among the contracts already awarded are the following: By the Northern Pacific, \$22,750,000; Harriman system, \$10,445,000; Chicago, Milwaukee & Puget Sound, \$5,450,000; North Coast, \$3,500,000, exclusive of \$2,000,000 for terminals in Spokane, North Yakima and Walla Walla, Washington; Pittsburg & Gilmour Valley, \$2,500,000. In addition, the Milwaukee road is planning to expend \$25,000,000, and the Chicago road is planning to expend \$25,000,000 on branch line construction in the northwestern states.

The chief battles will be fought in Central Oregon, North and Central Idaho and Eastern Washington. The Hill people are forcing matters by sending construction crews into so-called Harriman territory in Central Oregon, now without adequate transportation facilities, and the completion of one or two lines there will open a rich district and provide homes for thousands.

There is also a stiff fight against the entrance into Spokane of the North Coast line, now recognized as part of an important transcontinental system. This line, projected between Spokane and tidewater, in all 731 miles, is a thorn in the side of the Hill people, who, with others have been successful so far in blocking plans to give it terminal facilities in this city, where already more than \$2,000,000 has been expended in acquiring station and track sites.

RESERVOIR NEAR
NEW MEXICO LINE

Trinidad, Colo., Aug. 2.—Plans on the part of Denver and Eastern capitalists to reclaim a vast tract of arid land in the southern part of Otero and Bent counties by the construction of an immense reservoir in the northern part of the county, were made known by the filing of a map of the proposed reservoir of the Purgatoire Development Company of Denver by F. T. Lewis, the company's engineer, but there is much secrecy concerning the plans of the concern.

The site of the reservoir is 65 miles southeast of Trinidad, the dam will be 125 feet high and 15 sections of vacant land are described as being within the area over which the water will spread when the dam is completed. The capacity of the reservoir is to be 7,500,000 cubic feet. T. C. Henry of Denver is president of the company. The surveying was begun last April and has been going on quietly since. The dam is to cost \$500,000, and it is understood that the project has been financed.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd, of Henrietta, Ky. 'In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since.' This salve is for sale by all druggists.

S.S.S. DRIVES OUT
RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SOUTH AMERICAS
WARRING REPUBLICS

Argentina is a Wonderland, Wonderfully Rich in Resources—Bolivia Building Railroads.

Argentina is a wonderland. In growing wheat, hay, cattle and sheep she is running the United States and Canada a close second, and today exports more corn than any country on earth. Yet so far only one-tenth of the agricultural possibilities are realized. It is a big country! It has 1,135,000 square miles; more than one-third of the size of the United States, and this means all the area east of the Mississippi and the first row of states from Minnesota to Louisiana west of that river in addition. Size, however, is not all there is to Argentina, by any means. She has the industry and the equipment to take advantage of her opportunities. This country is gridironed with railroads, 18,000 miles of them, so that the traveler can go from one end to the other as comfortably as from New York or Chicago to Texas. But Argentina is not satisfied. There are concessions and contracts for many more, so that in two decades more she purposes to have 60,000 miles. This is and will be all modern equipment, too, constructed as thoroughly as engineers know how to construct.

In fact, everything in Argentina is an up-to-date and ambitious scale. One of the largest irrigation dams in existence has been built there, and the first train ferry in South America, across the Rio de la Plata for 37 miles, has been in operation for years. The traveler cannot go any place in the interior without finding modern farms and ranches on a splendid scale. The sheep and horses are of the best blooded stock, the great ranch houses will satisfy the finest taste for style and comfort. The fields of grain are cultivated by the newest methods, and the best of American agricultural machinery is in daily use. Into this splendid region is poured annually an immense stream of immigration, but even then not enough to till the fields, harvest the crops or transport them to market. But this is only the country; how about the town?

Do many Americans realize that Buenos Aires is the largest city in the world south of the Equator? That the city has nearly one and a half millions inhabitants; that it has more and better paved streets, in proportion to its size, than any city in the western hemisphere; that its trolley service carried last year nearly 8,000,000 people and is now so crowded that plans for an underground railway are prepared; that its opera house can put to shame anything in America, and has entertained all celebrated artists from Patti to Bernhardt; that its home for the Jockey Club is famous for art treasures and decorations in marble; that one of its many newspapers maintains a huge building all its own, in which are a library, lecture room, museum, and even a dispensary for the public, as well as rest and refreshment rooms for its employees? From Buenos Ayres 15 regular passenger lines run to Europe, with as fine steamers as money can buy, and England, France, Germany and Italy are competing keenly for trade which we in the United States imagine is hardly worth a serious struggle. This is the capital of the republic, but Rosario, La Plata, Cordoba and Bahia Blanca are also progressive, and the interior cities vie with those on the coast as centers of intellectual and industrial activity.

Bolivia. What about Bolivia. Many people think that this republic is in the same condition as the Spaniards found it 300 years ago. This is an error of ignorance! Bolivia is pushing into the front rank of industrial nations, and has long ago abandoned the isolation to which tradition unfortunately confined it. Bolivia is the third largest republic in South America; the area is 709,000 square miles and equals the size of the two tiers of states next the Pacific ocean. It is a mountainous country, in striking contrast to Argentina, which is essentially a land of plain and prairie. Bolivia practically leads the world in production of tin, but the silver and copper play a large part in foreign markets. But Bolivia has more than mineral wealth. There are hundreds of square miles of some of the richest agricultural lands on earth. On the plateaus wheat, corn and fruits will grow. Further down there are limitless possibilities for coffee and cotton, while closer to the great rivers running into the Amazon and Para-

guay are immense tracts of rubber trees and soil suitable for cacao.

Bolivia has decided to throw open these opportunities to the world. How will she do it? By building railroads into and across these virgin spots. Already there are two lines running from ports on the Pacific to La Paz, the capital, and a third is under construction. This is not enough, however. A northern, an eastern and a southern outlet are demanded, and Bolivia has determined to supply them. Consequently the nation has agreed with Brazil to help construct from the north a wonderful road around the Falls of the Madeira river to tap the heart of the tropics. It has agreed with Argentina to run a line to the south to connect with the railway coming up from Buenos Ayres, so that within a few years the traveler can journey in modern style over the old Inca and Spanish trail all the way to La Paz. The nation has also a plan of its own to build almost due east toward the wonderful forest land of the Chaco, and reach, within its own territory, the head of navigation on one of the great tributaries of the Rio de la Plata.

5,033 APPLES
FROM ONE TREE

Only Twenty Were Wormy—Crops of Forty Acres Will Yield \$60,000 This Year.

Spokane, Wash., Aug. 2.—Byron Hill, foreman at Hillcrest, a 40-acre orchard near Sunnyside, Wash., southwest of Spokane, reports that the apple trees are so heavily loaded this season that he has removed more than two-thirds of the young fruit to prevent the limbs from being torn down. Five thousand and thirty-three well formed apples were plucked from a 14 year old Grimes Golden tree, leaving more than 2,500 to mature. Only 20 of the apples picked were wormy. The crop will run 20 boxes of 50 pounds each to the tree, and as there are 55 trees to the acre this means 1,100 boxes, or 44,000 boxes for the orchard, the crop will have a value of approximately \$60,000 this season. Growers in other parts of Washington say that the crop will be large, running between 85 and 90 per cent. The commercial output of the orchards in Washington, Idaho, Oregon and Montana probably will not be larger than last season, but the fruit will be of better quality and, as a consequence, it should bring high prices. Much of this season's crop will be exported to European markets following the second national apple show in Spokane, November 15 to 20.

What is Best for Indigestion.

Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Sample free at all druggists.

DEPARTMENT OF THE INTERIOR, Office of Indian Affairs, Washington, D. C.—Sealed proposals for letting grazing privileges on the Jicarilla Indian Reservation, New Mexico, under the permit system, will be received at the Office of the Commissioner of Indian Affairs, Washington, D. C., until two o'clock, p. m., on Monday, August 30, 1909, and will be immediately hereafter opened in the presence of such bidders as may attend. Maps showing the location of the reservation and all necessary information may be obtained on application to the Superintendent of the Jicarilla Indian School, Dulce, New Mexico. R. G. VALENTINE, Commissioner.

GLEANINGS BY A
PERIPATETIC PEN

SANTA FE.
(By J. B. Manby.)
A plain extends from Santa Fe sloping down to Rio Grande. El Rio Grande del Norte, is what the Spanish people say.

The view of mountain ranges here, by reason of clear atmosphere, is what sight-seers most admire. A landscape which can't help inspire.

The foreground, if you look again, Santa Anna Mesa stands out plain across the gulch of Rio Grande. Makes terrace of the table land.

In the northwest, the Valle range, with snow capped peaks makes quite a change.

While further south the eye may seek the softer hues on Jemez Peak.

Southwest of Jemez, you can see Mount Taylor, high, alone and free, where the crest of San Mateo glistens in perpetual snow.

Across the River Galisteo stands the Peaks of the San Pedro. And further south, massive and cold, Sandia looms up, in contrast bold.

Joining Manzano by a pass and the Canyon of Tijeras. The faint outline in distance far is the range of the Oscura.

The vale between the ranges seen consists of Bosques, groves of green and meadows in the valley land. Where flows the winding Rio Grande.

In many shades and changing hue, from silvery gray, to a deep blue, according to the light or shade, reflecting from a grove or glade.

The swift but silent waters flow toward the Gulf of Mexico. In bends or reaches all the way it flows to Matamoros Bay.

A different sight in the Spring. The raging torrents often bring timber and driftwood on the breast of that dangerous foaming crest.

The waters swell'd from snow and rains, carrying silt from the mountains which is rich in vegetation. Grows fine crops by irrigation.

West of Manzano to the right, with bluish tint in the sunlight, stands out a hill with peak or cone known as the Mountain of Ladron.

And further still in gentle trace, a mountain with a lady's face, called "La Sierra Magdalena" completes this wonderful arena.

Just climb a hill or rising ground, and all these places can be found. Described as views from Santa Fe, if you select a clear bright day.

It is an admitted fact that real estate, financial men and merchants all obtained by advertising in the New say that quickest and best results are Mexican.

Certificate of Comparison.Territory of New Mexico,
Office of the Secretary.

I, Nathan Jaffa, Secretary of the Territory of New Mexico, do hereby certify that there was filed for record in this office at nine o'clock, a. m., on the seventeenth day of April, A. D. 1908; Certified copy of the articles of incorporation, and amendment to articles of incorporation of the Eminent Household of Columbian Woodmen, Nos. 5436 and 5436-A., and also that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript therefrom and of the whole thereof.

Given under my hand and the Great Seal of the Territory of New Mexico, at the city of Santa Fe, the Capital, on this thirtieth day of July, A. D. 1909.

(Seal)

NATHAN JAFFA,

Secretary of New Mexico.

EDWIN F. COARD,

Assistant Secretary.

State of Georgia,

County of Fulton.

To the Honorable, the Secretary of

State of the State of Georgia.

The petition of W. J. Northern,

Jonathan B. Frost, E. H. Thornton, W.

F. Manry, P. E. Murray, M. D. Clement,

A. Evans and Hoke Smith, all of the

city of Atlanta, county of Fulton,

state of Georgia, respectfully shows:

1. That they desire for themselves

their associates and successors to be

incorporated under the laws of Georgia

under the name of "The Eminent

Household of Columbian Woodmen."

2. The kind of insurance business

they propose to carry on shall be that

which is incident to a fraternal bene-

ficiary order, national and international.

The order shall have initiative and

degree ritualism, fraternal and sacred

obligations, signs and ceremonies, under

which there shall be united only white

people of sound health, good

morals and high character, and may

extend to social as well as beneficiary

members.

3. There shall be an Eminent

Household, in which shall be vested

the power to regulate the conditions

of membership, to provide plans for

the organization of district lodges and

other subordinate bodies, to adopt

constitutions and by-laws and to promote

and supervise the general pur-

poses of the order.

4. The Eminent Household shall

be composed of the officers and advisory

board of the order, and of delegates

or heralds from the subordinate

bodies, and of such other persons as

the constitution and by-laws may provide.

5. There shall be no capital stock,

but the resources of the corporation

shall be of two classes: (1) Install-

ments in behalf of the beneficiary

fund to be used to pay the claims ac-

cruing under its beneficiary certifi-

cates. No part of said beneficiary

collections shall ever be used for any

purpose but for the payment of claims

due on beneficiary certificates. (2)

Collections for entrance, certificate

and degree fees, and collections for

general expenses. The collections

from these sources may be used for

promoting the extension of the order

and for the expense of conducting

the business of the order.

6. The business of the order shall

be under the control of the Eminent

Council, composed of the officers, di-

rectors and managers of the order, a

majority of whom shall have author-

ity to contract with members of the

order or with other members of the

council for conducting the work of

promoting and carrying on the busi-

ness of the order, provided no such

contract shall affect the beneficiary

fund.

7. The Eminent Council may select

an executive committee to which

may be entrusted the business of the

Eminent Council.

8. The incorporators shall be au-

thorized to perform all the duties of

the Eminent Household until the first

session of the Eminent Household is

held. They shall also be authorized

to perform the duties of the Eminent

Council until the same is organized.

9. Your petitioners show that they

have given the thirty days' notice of

their intention to apply for this char-

ter, by publication of this petition

in the newspapers publishing the legal

advertisements of Fulton county,

where the principle office of this com-

pany is to be located, once a week

for four weeks before filing of this

petition.

10. Your petitioners further show

that they intend in good faith to go

forward without delay to organize

said company, and they pray to be

incorporated under the laws of this

state, with all the powers thereby

given to fraternal beneficiary orders.

JONATHAN B. FROST,

W. J. NORTHERN,

E. H. THORNTON,

W. F. MANRY,

CLEMENT A. EVANS,

P. E. MURRAY, M. D.,

HOKE SMITH.

In the matter of the application of

W. J. Northern, et al., to be incorpo-

rated under the name of The Eminent

Household of Columbian Woodmen.

State of Georgia,

County of Fulton.

Personally appeared Jonathan B.

Frost and W. J. Northern who, being

first duly sworn, says that they are

two of the persons named in the Ap-

plication for Charter further says

that the names subscribed to said ap-

plication for Charter are the genuine

signatures of the persons named

therein, and that the facts stated in

said petition for charter are true.

Sworn to and subscribed before me

this 21st day of August, 1909.

JONATHAN B. FROST,

W. J. NORTHERN,

LEE M. JORDAN,

Notary Public, Fulton County, Ga.

Office of Secretary of State,

Atlanta, Ga.

Filed Aug. 24, 1903.

Recorded Aug. 24, 1903.

GOODE PRICE, Clerk.

State of Georgia,

Office of Secretary of State.

WHEREAS, In pursuance of an Act

of the General Assembly of the State

of Georgia, Approved December 18th,

1893, and acts amendatory thereof,

W. J. Northern, Jonathan B. Frost,

E. H. Thornton, W. F. Manry, P. E.

Murray, M. D. Clement, A. Evans and

Hoke Smith, all of the City of Atlanta,

County of Fulton, State of Georgia,

having filed in the office of Secretary

of State a certain petition seeking the

formation of a corporation to be

known as The Eminent Household of

Columbian Woodmen for the purpose

of organizing and running an insur-

ance company on the Fraternal Bene-

ficiary order, and having complied

with the Statutes in such cases made

and provided:

THEREFORE, the State of Georgia

hereby grants unto the above

named persons, their successors and

assigns, full authority by and under

the said name of The Eminent House-

hold of Columbian Woodmen, with its

principal office in Fulton County,

Georgia, to exercise the powers and

privileges of a corporation for the

purposes above stated, according to

the terms of their said petition, sub-

ject to the provisions of the Constitu-

tion of this State, and all the laws,

rules and regulations governing in-

surance companies of force at the date

of this certificate, or that may here-

after become of force either by Con-

stitutional or Statute law, or by any

rules or regulations of the Insurance

Commissioner of this State or other-

wise, which govern insurance com-

panies in this State, of the fraternal

beneficiary order class.

In witness whereof, these presents

have been signed by the Secretary of

State, and to which is annexed the

Great Seal of the State, at Atlanta,

Georgia, this 24th day of Aug. 1903.

PHILIP COOK,

Secretary of State.

Georgia, Fulton County.

To the Honorable, the Secretary of

State, of the State of Georgia.

The petition of The Eminent House-

hold of Columbian Woodmen respect-

fully shows:

(1) Said, The Eminent Household

of Columbian Woodmen was duly in-

corporated by order of the Secretary

of State of the State of Georgia, on

August 24, 1903, as a fraternal bene-

ficiary order.

2) Petitioner desires an amend-

ment to its original articles of incor-

poration as follows: In Article 4 of

said Original Articles, after the

word "Officers," in the second line

thereof, strike the words "and advi-

sory board of the order," and insert

the following: "As honorary members

without vote, except in case of an

equal division, when the Eminent

Consul, being the presiding officer,

shall have the power to cast the de-

termining vote," and also in said Ar-

ticle 4 after the word "from" in the

fourth line of said Article strike the

remainder of said Article 4, and in-

sert in lieu thereof the following:

"Household or Royal Household," so

that said Article 4, as amended, shall

read as follows:

4- The Eminent Household shall

be composed of its officers as honorary

members without vote, except in case

of an equal division, when the Emi-

nent Consul, being the presiding offi-

cer shall have the power to cast the

determining vote; and of delegates or

heralds from Household or Royal

Household.

(3) Petitioner shows that said

amendment has been duly authorized

by resolution of said The Eminent

Household of Columbian Woodmen

passed November 11, 1904, a certified

copy of which resolution is hereto

attached.

(4) Petitioner shows that it has

given thirty days notice of its inten-

tion to apply for this amendment by

publication of this petition in the

newspaper publishing the legal

amendments of Fulton County, where

the principal office of petitioner is

located, once a week for four weeks

before filing this petition.

Wherefore, petitioner respectfully

prays that an order be passed by

the Honorable Secretary of State of

the State of Georgia allowing said

amendment as above set forth.

THE EMINENT HOUSEHOLD OF

COLUMBIAN WOODMEN.

By Jonathan B. Frost, Eminent Consul

By C. H. Belmont, Eminent Clerk.

Resolved, That the Eminent Con-

sul and Eminent Clerk shall be and

are hereby authorized to take all ne-

cessary measures to secure, and shall

secure, if possible, amendment to

Articles of Incorporation as follows:

Strike out of Article 4, the words

"and advisory board of the order," al-

so strike out all of said Article 4, af-

ter the word "from," in line 2 of said

Article 4, add the following: "As

honorary members without vote, ex-

cept in case of an equal division, when

the Eminent Consul, being the pre-

siding officer, shall have power to

cast the determining vote; also after

the word "from" add the words,

"Household or Royal Household,"

making the Article as amended, read

as follows:

4. The Eminent Household shall

be composed of its officers as hono-

rary members without vote, except

in case of an equal division, the

Eminent Consul, being the presiding

officer, shall have power to cast the

determining vote; and of delegates or

heralds from Household or Royal

Household.

heralds from Household or Royal

Household.

This is to certify that the above

is an accurate and true copy of the

resolutions effecting change in by-

laws of the Columbian Woodmen at

an adjourned meeting held in their

office, 122 Peachtree St., Atlanta, Ga.,

on November 11, 1904.

Witness my signature and the offi-

cial seal of the Eminent Household of

Columbian Woodmen, this 19th day

of November, 1904.

C. H. BELMONT,

Eminent Clerk.

Office of Secretary of State,

Atlanta, Ga.

Filed December 15, 1904.

Recorded December 15, 1904.

(Seal) GOODE PRICE,

Clerk.

State of Georgia,

Office of Secretary of State, Atlanta.

To Whom it May Concern—Greeting:

The Eminent Household of Colum-

bian Woodmen, a corporation created

under the General Law, August 24,

1903, having petitioned for an amend-

ment of the Charter of said Corpora-

tion, asking that the words "and ad-

visory board of the order" after the

word "Officers," in the second line of

paragraph 4 of the original applica-

tion for said Charter, be stricken,

and that the words "as honorary mem-

bers without vote, except in case of

an equal division, when the Eminent

Consul, being the presiding officer,

shall have the power to cast the de-

ciding vote," be substituted therefor;

Personal Mention

(Continued From Page Five.)

J. Hogan, commonly known as Jack O'Brien, the prize fighter, of Philadelphia, arrived today on the noon train from Denver. He is on his way to the Pacific coast and is a guest at the Claire.

A. M. Dettelbach left this afternoon for Carlsbad to make arrangements for the annual convention and tournament of the New Mexico Firemen's Association of which he is secretary. He will be gone about ten days and will also visit Albuquerque, Roswell, Portales, Clovis and Artesia.

Attorney C. M. Cavenee of Chicago, Illinois, was an arrival this noon on business before Judge John R. McFie this afternoon, in connection with injunction proceedings of the Blue-water Irrigation Company. Attorney E. L. Medler of Albuquerque is in Santa Fe in the same matter.

MINOR CITY TOPICS

Denver, Colo., Aug. 2.—Forecast for New Mexico: Generally fair tonight and Tuesday with stationary temperature.

Nusbaum's photo-post cards "the latest." Stripling, Burrows & Co.

Meeting Tonight—Tonight at the regular headquarters Montezuma Lodge No. 1, A. F. and A. M. will hold a regular meeting.

Death of Lewis Burdick—Lewis Burdick, aged 82 years, and for 27 years a resident of Silver City, died last week after an illness extending over several years.

Death of Pioneer Stockman—T. Pitts, aged 70 years, a pioneer stockman of western Grant county, died last week at the home of his daughter, Mrs. Allison, on Mule Creek, Grant county.

W. C. T. U. Meeting—An interesting program will be given at the regular meeting of the W. C. T. U. at the rooms 105 Washington avenue, Tuesday afternoon at 3 o'clock. Every body welcome.

Talked to St. Louis—Today for the first time in the history of the local telephone exchange, St. Louis, Missouri, called up for a "chat." The service proved to be good, every word spoken being intelligible.

Licenses Issued—On Saturday George W. Armijo, probate clerk issued marriage licenses to the following: Camilo Winters and Vicente Ortiz; Severo Ortiz and Crucia Alire. The latter couple being from Pojoaque.

To Be Restored to Public Domain—Sixty sections on the northwest portion of the Lincoln reserve, will be restored to public entry, upon the recommendation of Forest Supervisor Neal as no trees grow or can be grown on this land.

Married at Albuquerque Yesterday—Warren A. North and Miss Belle Franklin, both of Albuquerque, were married in that city yesterday afternoon by Rev. John A. Shaw of the Baptist church. They left on a wedding trip to Chicago.

Price of Ice Goes Up—Owing to the fact that this summer has been unusually warm a greater amount of ice has been consumed than in any previous year. As a result the price of that household article has been boosted about ten per cent.

Gold Strike on Little Fannie—From Silver City comes the report of a gold strike made in the Little Fannie in the Mogollon district last week. It is estimated that there are 20,000 tons of high grade ore in this discovery which is on the 300 foot level.

Primary Election Law Invalid—The primary election law passed by the last legislative assembly of Arizona, which was Democratic by the way, has been declared invalid by the attorney general of Arizona. The law was designed to disfranchise Spanish-American citizens.

Dance Tomorrow Night—Tomorrow night at Library hall a dance will be given under the auspices of the Woman's Board of Trade. As usual excellent music will be provided and the dancers may expect to have a most delightful time. Everybody is invited so do not forget to attend.

Change of Pictures—The following is the new picture program at the Elks' opera house: The Living Wreck; Willie's Water Sprinkler; Miss Faust; Alphonse Gets in Wrong; A Prairie Town Romance. The illustrated song is entitled "Sweetheart Days" and the ballad "If I Had a Thousand Lives."

Noon Arrivals at the Hotels—Palace—George S. Stateson, Kansas City; E. L. Medler, Albuquerque; B. Franklin, Albuquerque; R. Winchester, Kansas City; J. H. Orb and wife, Detroit. Claire—H. S. Noll, Albuquerque; J. H. Hermann, Wichita; J. Hogan, Philadelphia; Thomas Duncan, Lafayette, Ind.

Special Music at Methodist Church—The members of the St. John's Methodist Episcopal church were favored with several special musical numbers at their services yesterday. The regular choir under the leadership of A. J. Teare being assisted by Mrs. Allen McCord and Mr. and Mrs. A. E. P. Robinson.

The Big Change—Manager Dettelbach presents the greatest and latest of all pictures at the opera house tonight. The feature of all will be the Cattle Rustlers, a tale of the west; Italian Artillery, and four other good ones. Do not miss these great pic-

tures as they are of a series to be followed by other changes.

Poisoned With a Straw—Frank L. Myers, superintendent of the Rio Grande division of the Santa Fe, has left St. Joseph's Sanitarium, Albuquerque, after recovery from an operation that saved his life. Myers, some time ago chewed at a straw which slipped down his throat and worked itself into a gland there causing blood poisoning.

Fair Tonight and Tomorrow—Such is the prediction of the weather bureau. Yesterday was an ideal summer day. The maximum temperature was the same as on Saturday, 79 degrees; the minimum, 56 degrees. On Saturday the precipitation was .02 of an inch and yesterday .04 of an inch. The relative humidity at 6 o'clock last evening was 32 per cent.

Espanola Merchant Wedded—A quiet wedding took place at the St. John's Methodist Episcopal church last Saturday evening when the pastor Rev. E. C. Anderson united in holy matrimony Louis F. Nohl of the firm of Bond and Nohl, of Espanola, and Mrs. Virginia Drace of Moriarty. The couple left yesterday for a wedding trip to the home of Mrs. Nohl in Missouri. They will also visit other eastern points before their return.

APPOINTMENTS BY GOVERNOR CURRY.

(Continued From Page One)

horses, 7,407, \$157,474; Mules, 933, \$39,005; cattle, 55,560, \$517,233; sheep, 144,044, \$250,741; goats, 8,169, \$11,405; swine, 861, \$2,774; burros, 221, \$544; vehicles, 1,998, \$44,031; saddles and harness, \$12,919; sewing machines 949, \$9,040; merchandise, \$235,048; farming implements, \$17,854; fixtures, \$25,567; money, \$18,689; books, \$6,348; watches and clocks \$5,433; jewelry \$3,454; musical implements \$24,755; household furniture \$92,391; shares and stocks \$121,375; tools \$3,785; cement plants \$10,480; engines, \$2,345; notes and book accounts \$16,850; honey bees \$2,966; automobiles \$15,215; gas plant \$7,100; grain \$392; creamery plant \$500; railroad right of way and stock \$400,930; steam laundries \$1,750; ice plants \$4,250; well machines \$11,425; scouring mill \$1,000; planing mill \$1,000; grist mill \$5 cents; telephone lines \$13,760; electric light plant \$4,500; printing plants \$5,500. Total \$4,784,237. Deductions \$315,377. Final assessed value \$4,468,860. Final assessed value 1908, \$3,890,250. Gain \$578,610.

District Court.

John H. Walker, U. S. jury commissioner, was busy today selecting 500 names to go into the jury wheel.

Judge John R. McFie gave judgment today in favor of the plaintiff in the case of T. D. Burns vs. Ramon Montano, for \$66. Alexander Read was attorney for the plaintiff.

Appointed Deputy Coal Oil Inspector. John H. Canning was today appointed assistant to Deputy Coal Oil Inspector George Sena at Santa Rosa, by Inspector Samuel B. Grimshaw. Mr. Canning will be stationed at Carrizozo and will inspect all shipments arriving at or leaving that point.

Appointed Regent of University. Governor Curry this afternoon appointed William J. Johnson, assistant cashier in the Bank of Commerce at Albuquerque, to be a member of the board of regents of the University of New Mexico at Albuquerque, to succeed Rev. Fletcher Cooke, who resigned because of his intended removal to California.

WELL KNOWN

CITIZENS DIE

Blood Poisoning Claims Michael Berardinelli and Old Age Mrs. M. Armijo.

At 1:15 Sunday morning Michael Berardinelli who has been ill for a number of months, died from the effects of blood poisoning which he contracted while sick. The deceased was sixty-four years of age and was born in Italy. He came to this country at an early age, coming to Santa Fe from Trinidad. For a long period he was engaged in the contracting and building business.

The funeral will take place from the Cathedral on Tuesday morning at seven o'clock, the cortege leaving the house at 7:45. Interment will take place at Rosario.

He was a member of the Rosario Cemetery Association and of the Ancient Order of United Workmen. A wife and seven children survive him.

Dies of Old Age.

Yesterday afternoon Mrs. Miguela Armijo of Manhattan street passed away. The deceased was 78 years, old age being the cause of her demise.

ILLNESS CAUSES

POSTPONEMENT

Lecture on Philippines Has Been Called Off and Moving Picture Program Substituted.

Owing to a sudden attack of illness ex-Governor Charles Reynolds is unable to deliver the lecture on the Philippines which was scheduled for this evening at the Elks' opera house. In place of the lecture, the management of the opera house has provided a splendid new bill of moving pictures. Every film is a brand new one and is of great interest. The machine is working perfectly and a pleasant evening is guaranteed. The songs included in the evening's program are of unusual merit and are sure to satisfy.

SPANISH-AMERICAN

NORMAL SCHOOL.

(Continued from Page One.)

building which was originally erected for a reform school. They found it in admirable order, so far as its construction had proceeded, and only lacking the heating plant and the introduction of water, to be entirely completed. The building itself is considered the most substantial territorial structure, and is admirably adapted for the educational work to which it is now devoted.

On returning to the residence of Colonel Venceslao Jaramillo, the board organized by the election of the following officers: President, L. Bradford Prince; vice-president, Hon. Malaquias Martinez; secretary and treasurer, Colonel Venceslao Jaramillo. The various questions connected with the opening of the institute, were then taken up and discussed at great length. The difficulty which confronts the directors is on account of the smallness of the appropriation made by the legislature. There seemed to be a disposition on the part of some of the members of that body to cripple the school from the start, by depriving it of the means necessary for successful operation. The total appropriation for the year is \$4,500, and this has to cover furnishing, heating, obtaining all necessary appliances for opening and paying all the running expenses until July 1910. It was, of course, impossible to attempt anything as to the heating or water plant; and it was determined only to furnish the rooms actually required for the immediate use of the school. These will include two large school rooms and the library room situated between them on the first floor; and rooms for the principal and assistant teacher and matron on the same floor. For the convenience of students from a distance, two large dormitories will be furnished with thirty beds. While the directors will not undertake any boarding arrangements, they will provide the use of one of the great kitchens, with all utensils, to any club or combination which the students may organize for that purpose.

It was determined to open the normal school on September 21, when it will be prepared to receive all eligible students. No charge whatever will be made for tuition or matriculation, the services of the institution being absolutely free.

The question of instructors, and of an acceptable matron to have charge of the young lady students, was taken up and considered at length; and the directors expect to make a formal announcement regarding these matters in a very few days.

Everything looks most encouraging for the success of the school, even in this first year. A considerable number of students of the very best class, has already made application for entrance. The general public interest in the institution is very strong, as its importance to the future welfare of the Territory is more fully appreciated and its scope is understood. The meeting was most harmonious as well as enthusiastic, all the directors being impressed with the importance of the work entrusted to them.

BACK FROM EL RITO VALLEY

Superintendent of Public Instruction J. E. Clark is home from El Rito and he cannot speak too highly of the beautiful Venceslao Jaramillo home at which he and the directors of the Spanish American Normal School were guests last week. Superintendent Clark says that El Rito is a pretty and prosperous settlement and that the valley is very fertile but is suffering from lack of rains at present. The new Spanish-American Normal School building he calls very handsome and substantial. It has a fine well of water which will be connected with the plumbing as soon as the board of trustees can afford to build a tank and erect a gasoline pump. Apricots, peaches and pears are yielding a good crop this year in the El Rito valley.

CZAR VISITS KING EDWARD.

(Continued from Page One.)

Edward Grey, foreign secretary, M. Iswolsky, Russian minister of foreign affairs, emphasized the diplomatic significance of the visit.

EAST TO FIGHT RECLAMATION SERVICE

Lively Discussions Will Take Place at Irrigation Congress at Spokane Next Week.

Spokane, Wash., Aug. 2.—Surface indications are that powerful corporation interests, supported by Senators Aldrich and the New England delegation in Congress, are preparing to make the fight of their lives against the United States reclamation service at the 17th sessions of the National Irrigation Congress in Spokane the week of August 9. The apparent purpose is to destroy the co-operative plan of lending money without interest to establish reclamation plants, hoping thereby to put into effect a system by which private individuals could become rich on the interest of the funds necessary to carry on these vast projects. Scouts have been sent into various parts of the western and southwestern states, but their mission has been without success. Now it is proposed to resort to other means. The various communities in which moisture is supplied to the land by artificial means have been notified to send representatives to thwart the plans of the enemies of the service, and, as practically every one will send its quota of delegates, there is every reason to believe that the coming sessions will be the liveliest in the history of the congress.

METAL EXCHANGE ON NEW BASIS

For the First Time in Years There Was an Actual Sale of Commodities Dealt In.

New York, Aug. 2.—Carrying out the reforms of the Hughes investigating committee the New York Metal Exchange today began business on a new basis. For the first time in years the actual sales of metal took place on the floor of the exchange and quotations were established on actual transactions.
