CURRY TO ADDRESS OLD SOLDIERS

Goes to Dodge City, Kansas, a Former Home.

MOUNTED POLICE ARRESTS

Assessment Returns of Chaves and McKinley Counties.

Governor Curry will leave tomorrow for Dodge City, Kansas, to address the Old Soldiers. Two years of the youth of Governor Curry were spent in Dodge City and he has received repeated invitations to visit the town and address its people. He will make his address on Thursday and will return to Santa Fe on Friday. While at Dodge City, he will meet both Kansas Senators and also the Congressmen of the state who will be at the reunion.

Arrested By Mounted Police.

It has been reported to Captain Fred Fornoff of the Mounted Police that Officer J. B. Lusk has arrested Ramon Mesquenez at Penasco, Taos county, for disposing of mortgaged property. The property has been recovered and the offender has been placed under bond for his appearance. Officer Fred Higgins reports the arrest of William Musick at Knowles, Eddy county on the charge of the larceny of cattle and was held for the grand jury.

Convict Escapes.

Judson B. Isbester, one of the convicts working on the Scenic Highway in the Santa Fe canon made his escape this morning. He had been sentenced from Silver City.

Martin Chacon, another convict, who had escaped, was brought back this afternoon from El Paso, Texas, by Mounted Policeman Page B. Otero. Appointed Special Mounted Policeman.

Governor Curry today appointed Frank McDaniel of Roswell a special mounted policeman without pay.

District Court.

Suit was filed today in the district court for Santa Fe county by James W. Norment vs. Frank Dibert, asking for a partition of certain real estate in ward four consisting of two lots, one on Hillside avenue and the other just east of the Palace hotel.

HALF CRAZED BY WHISKEY

Murderous Negro Shoots Down 21 Persons

CITIZENS RETURNED HIS FIRE

Fell Dead in His Tracks Receiving Score of Wounds.

Monroe, La., Aug. 24.—Half crazed either by whisky or cocaine, Bill Way, a negro from Hineville, Arkansas, injured 21 persons today when he ran down the main street of Monroe with a shotgun, firing in every direction. The citizens returned the fire and the negro finally fell dead after receiving a score or more of wounds.

The negro appeared on the street with a shot gun under his arm and pockets filled with shells. When he started to fire, the citizens who were armed forced him into a doorway. He would fire, step back into the doorway, reload his gun and fire again. He finally fell with a bullet through his heart. Four of the citizens who were wounded by the negro are in serious condition, while the injuries of the other seventeen are of a minor nature.

When the negro fell his body was dragged into the street and later taken to the public square and burned in the presence of several thousand people.

TERRITORIAL WOOLS LEAD IN ACTIVITY

Boston Market is Practically Cleaned Up as Result of Heavy Operations of Consumers.

Boston, Mass., Aug. 24.—The local wool market is nearly cleaned out of the best selections of domestic worsted wools, the result of heavy operations of the largest consumers in the country. The prices are firm and territory wool led in activity last week, the fine staple selling at 27; half blood at 29; three eighths at 30.

SHIPS ROTTING IN THE BAY

Congressmen Now Favor a Subsidy Bill

HAD OCULAR DEMONSTRATION

Anything Rather Than the Stagnation in the Oriental Trade

San Francisco, Cal., Aug. 24.—After a trip around the bay where scores of ships are rotting for lack of merchandise to carry at a profit, several of the delegation of Congressmen on the way to Hawaii expressed themselves favoring a ship subsidy appropriations rather than the state of stagnation such as shown them yesterday.

QUIET IN STRIKE ZONE TODAY

Pittsburg, Pa., Aug. 24.—All was quiet in the strike zone at McKees Rock today. The several strikers killed during Sunday night's rioting were buried while the bodies of the state troopers were shipped to their homes. No demonstration occurred. More than 50 of the imported men quit work and left the plant today. About 1,000 imported men are working. The strikers called off a meeting today for fear of being raided by the constabulary. Eugene V. Debs was to deliver an address and it is reported that Emma Goldman had been invited but did not appear.

SUPREME COURT CONVENES

Associate Justice Mechem Sits For the First time.

MANY CASES CONTINUED

Bar Examiners Receive Protest Against Admitting Clovis Attorney.

An adjourned session of the January term of the Territorial Supreme Court convened this forenoon at the Supreme Court chamber at the Capitol. Chief Justice William J. Mills, presided and every member of the bench was present, namely Associate Justices John R. McFie, Frank W. Parker, William H. Pope, Ira A. Abbott, Alford W. Cooley and Merritt C. Mechem, the last named sitting for the first time. Attorney General Frank W. Clancy of the Territory, Supreme Court Clerk Jose D. Sena was present and U. S. Marshal Charles M. Foraker was represented by his deputy W. R. Forbes.

The following cases were set for tomorrow forenoon: The Arizona & Colorado Railroad Company of New Mexico, appellee, vs. The Denver & Rio Grande Railroad Company, appellant; Joseph C. Baldridge, appellee, vs. A. L. Morgan, et al., appellants; Eagle Mining and Improvement Company, plaintiff in error, vs. R. E. Lund, defendant in error; Nick Metz, appellee, vs. Andres Romero, appellant.

In the case of M. G. Paden, et al., appellants, vs. American Placer Company, appellees, a diminution of record was granted and the case continued.

The following cases were continued: Nos. 1250, 1256, 1263, 1270, 1271, 1276, 1281, 1283, 1290, 1292, 1293, 1294.

In case No. 1261, the forfeiture of bond was set aside, the costs being paid by the bondsmen. The case was argued this afternoon.

The cases of the Fire Association of Philadelphia, Intervenor Burton Lingo Co., appellants, vs. S. E. Patton et al., appellees, and of Cordelia Irwin, appellant, vs. Sovereign Camp of the Woodmen of the World, appellee, were submitted on briefs.

The case of the Territory of New Mexico, appellant, vs. ex rel. Albuquerque Traction Company, relator, vs. Ira A. Abbott, respondent, was dismissed.

The cases of Sam Davidson, appellant, vs. Joseph Schweikard, et al., appellees, and Sam Davidson, appellant, vs. V. O. Moutry, et al., appellees, were dismissed at appellant's costs.

The court also granted a temporary injunction in the Denver rate case, which is based on a similar principle as the Missouri river case. The Denver case involved shipments to Denver instead of to Missouri river points and is still pending a final decision on demurrer filed by the Interstate Commerce Commission to the bill complaining of the railroads.

Bar Examinations.

The New Mexico Board of Bar Examiners organized yesterday with every member present, W. J. Lucas of Las Vegas being elected president. Julius Staab of Albuquerque, and Charles C. Catron of Santa Fe are the other members, while Supreme Court Clerk Jose D. Sena is ex-officio secretary and treasurer. Today seven applicants were examined while eight applications on certificate are pending. The protest against the admission of Attorney Fred W. McDonald of Clovis, is being considered this afternoon by the board.

INSANE WOMAN ATTEMPTS SUICIDE.

Special to the New Mexican. East Las Vegas, N. M., Aug. 24.—Isaac Ratzulsky, an insane patient at the territorial asylum, was ordered deported to his old home at Kieff, Russia, by the immigration authorities. Ratzulsky, in charge of Immigration Inspector P. A. Rowe, of El Paso, left this afternoon for Galveston, Texas, where he will be placed aboard a vessel bound for the foreign port. Ratzulsky entered the asylum from Santa Rosa last November and it was not known then that he was an alien.

Mrs. J. H. Tolle, wife of a well known business man, and Mrs. Eva Field, also of this city, were adjudged insane by Chief Justice Mills late yesterday afternoon and was ordered committed to the insane asylum.

Mrs. Tolle yesterday attempted suicide by jumping from a second story window of her home. She was painfully but not seriously hurt.

PROSPERITY REIGNS IN THE LAND

Optimistic Wireless Telegram from E. H. Harriman

CROP PROSPECTS ARE GOOD

Union Pacific Declares Quarterly Dividend of 2-1 2 Per Cent.

New York, Aug. 24.—E. H. Harriman who is now approaching New York after several months sojourn in Europe, today sent a response to a request by wireless message to the Associated Press. "My condition is good. I am going back to Arden for an after-cure and to regain the ten pounds which I left at the Gastein cure. The condition of American crops makes the outlook bright and business conditions for the future satisfactory. The views which I expressed June 1, before leaving the United States have undergone no change."

Harriman's statement of June 1 was to the effect that the business of the country is on a very substantial basis; that the large crops in prospect should bring happy times. Idle money should be properly employed in the upbuilding of real undertakings and not the development of fake projects. There was no excuse for the panic of 1907, which was a panic of sentiment. We are on a saner basis today.

Harriman Roads Declare Dividends.

New York, N. Y., Aug. 24.—The directors of the Union Pacific railroad today declared a regular quarterly dividend of 1 1-2 per cent on common stock. These meetings were held before Harriman arrived by steamer.

FEUD ON IN MEADVILLE, MISSISSIPPI

Town Filled With Followers of Chancery Clerk Ernest Newman.

Natchez, Miss., Aug. 24.—Meadville is filled with the followers of Ernest Newman, the chancery clerk on whom an attempt of assassination was made on Sunday night. There are but few adherents of Pritchard's about. The latter disclaim all knowledge of the identity of the persons who shot Newman. Sheriff Jones announced he can cope with any trouble that may arise. Squads of soldiers are patrolling the town.

EXCURSIONISTS FIND WATERY GRAVE

Almost 300 Women and Children Drowned

COLLISION OF STEAMERS

Captain Had to Be Restrained From Committing Suicide

Buenos Ayres, Aug. 24.—A collision between two excursion steamers at the entrance to Monte Video harbor today resulted in the drowning of 150 to 300 persons, mostly women and children. The vessels were carrying passengers to a festival at Monte Video. One sank so quickly that all attempts at a rescue were hopeless. The captain and a few passengers were saved and the former had to be restrained from committing suicide.

THREE RAILROADERS ROBBED AT TUCUMCARI.

Two El Paso Men Arrested in the Rock Island Railroad Yards Charged With the Deed.

Tucumcari, N. M., Aug. 24.—At the point of the revolver, three employees of the El Paso and Southwestern Railway Company were held up in the local yards and relieved of \$50. Harry Eberhardt and Jacob Heck of El Paso, Texas, were arrested in the Rock Island yards, and it is alleged were identified by their three victims. Both claim they can prove an alibi. The hold-up occurred within a few yards of the depot and just after dusk.

WILSON WAS HOT UNDER COLLAR

Defends Finding of Remsen Board at Denver

BENZOATE OF SODA FIGHT

Commission Had Been Appointed at Instance of President Roosevelt.

Denver, Colo., Aug. 24.—A bitter tilt over the merits of the Remsen referee board appointed at the instance of President Roosevelt to investigate the use of benzoate of soda as a food preservative, took place between Secretary of Agriculture Wilson and J. Q. Emory, president of the Association, before the convention of the Association of State and National Food and Dairy Departments today. Emory attacked the finding of the Remsen board and charged Secretary Wilson with blocking a re-investigation. Secretary Wilson warmly defended the board. He declared that the meeting of the Association at Mackinac had condemned the entire Agriculture Department and he (the secretary) did not think "you were proper material to make a supreme court of." The debate was interrupted by adjournment.

Food Adulterations.

Denver, Aug. 24.—In discussing benzoate of soda which as a preservative for food for human consumption held by some experts to be harmful and by others to be harmless, J. Q. Emory of Madison, Wis., president of the association, in his annual address reviewed the efforts made at Washington to have the federal government frown upon the use of the preservative.

After experienced chemists had shown that benzoate of soda as used in many of the common food products was harmful, he said the referee board, headed by Dr. Ira Remsen, of Baltimore, conducted a series of experiments with the result that the federal government was informed that the preservative was not harmful. "This board conducted experiments upon a limited number of healthy young men with what they called small doses of benzoate of soda added to foods for two months and with what they called large doses for one month," said President Emory. "We realized that if the finding of this board was accepted by the government a crisis had been reached in our efforts to purify food. They pointed out the following objections to benzoate of soda; that it is harmful; that physicians usually banish it from their homes; that it is unnecessary since foods properly prepared do not need chemical preservation; that it permits the use of unfit materials in food; that it encourages unsanitary practices and encourages substitution for refrigeration and sterilization; that it sends through the dairyman, butcher, soda dispenser and grocer, a drug which is harmful to the public health. We held that if the national government should adopt benzoic acid it would thus license one of the preservatives which encourages the same conditions in fruit and vegetable manufactures, as were all abolished, in the meat packing establishments by the national meat packing law.

Opposes State Model Law.

Denver, Colo., Aug. 24.—A. H. Jones, food and dairy commissioner of Illinois, opposed the state "model" law plan, declaring that conformity with the federal plan was better. "It took seven years' work with the various committees of the public house and senate to carry our complete federal pure food law. That law was offered for adoption by the various states and already twenty-five states have adopted. The purpose of uniformity is to enable state commissioners to co-operate, to make 'purity' in one state mean 'purity' in another and to enable manufacturers to use the same label for every state. In Illinois, we have found the operation of the national law to be satisfactory. In my judgment it would be an error for each state to cut loose and attempt to put up a food law of its own. It would create chaos, no two states would agree or co-operate and manufacturers of food would again be at the mercy of the whim of every commissioner in the Union. The consumer would be equally distressed for he would not know from the label what the real article was. For the reason that no two states would define alike on the label. Let us modify and perfect the national law if necessary and then have it adopted by every state in the country."

FIELD SECRETARY LEHMAN HERE

Representative of Christian Endeavor Touring Territory.

SOCIETY MAKING GAINS

Lecture Will Take Place at Presbyterian Church This Evening.

Today at noon, Karl Lehman, field secretary of the Christian Endeavor who has headquarters at Denver, arrived in Santa Fe. For the past four years Secretary Lehman has been engaged in field work, having jurisdiction over the states of Colorado and Alabama and the Territory of New Mexico. He is now engaged in making a tour of southern Colorado and northern New Mexico looking after the growth and improvement of Christian Endeavor societies already established and seeking to establish new societies wherever possible.

This evening at eight o'clock at the First Presbyterian church Mr. Lehman will deliver a public lecture using as his subject, "The Place and the Power of the Young People's Movement in the Church." At six thirty there will be a worker's conference to which are invited all young or old folks who are in any ways interested in young people's work. The lecture which begins at eight is absolutely free and everybody is invited. Mr. C. E. Linney will preside and will present the speaker of the evening.

Mr. Lehman is an able and polished speaker. He is well known to the church people throughout this section of the country where he has labored so zealously and so vigorously. He is thoroughly wrapped up in his line of work and speaks enthusiastically of the wonderful success with which the Christian Endeavor Society is meeting throughout the world. Societies, he states, have been established in all parts of the world save in Tibet, which has always been regarded generally as "the forbidden land." Says Secretary Lehman: "In the last two years twenty-three hundred new societies have been established bringing in an additional membership of 95,000. This gives the Christian Endeavor Society a total of 71,860 societies and a membership of 3,555,620. Colorado which is under my jurisdiction ranked third in this country among the states in the matter of growth there being an increase of forty per cent, 118 new societies having been organized. Ohio was first in rank and California second."

"In New Mexico, for the past three years the work of the Society has been greatly neglected, in fact, Christian Endeavor matters have been in a bad state of disorganization. Headquarters are at Albuquerque and I am going there from Santa Fe for the purpose of effecting new and complete re-organization. Some radical changes may be looked for. At present there are about forty Christian Endeavor societies in the Territory with a membership of about 1,600. From now on work will be pushed and every effort made to bring New Mexico high up in the line."

After September 1st, Mr. Lehman will no longer serve as field secretary but will go to Boston in the capacity of international secretary, he having been elected to that office at the last Christian Endeavor convention which met at St. Paul in July. With headquarters at Boston he will have under his jurisdiction work in the states of New York, West Virginia, Alabama, Tennessee, Oklahoma and North Dakota. He will start out by beginning work in the state of New York.

BEGGING THE KING TO INTERVENE.

Stockholm, Aug. 24.—A petition signed by women of all classes of society has been presented the king begging him to intercede to bring about an arbitration of the dispute between laborers and employees that resulted in the strike now almost a month old. The ministry of the interior has telegraphed instructions to all local governors to take drastic measures to protect laborers who have returned to work.

WESTERN RAILROADS GIVEN INJUNCTION.

Chicago, Aug. 24.—The permanent injunction sought by the western railroads against the Interstate Commerce Commission in the famous Missouri river rate case was granted here today by Judges Grosscup, Baker and Kohlsaat, of the United States Circuit Court.

THE DAILY ROUND UP.

THE BOSS.

When things go easy, he just saunters
round
At ten o'clock or so; then reads his
mail,
Dictates some half-dozen letters to the
girl,
Tosses us each a word, or maybe two,
Looks at the papers, lights a good
cigar,
Phones to a friend, and then goes out
to lunch.
And I go home and say to maw, "Gee
Whiz!
I hate to work. I wish I was the boss!"

But my, when thing go wrong! Maybe
a strike,
Or prices down, or some bank goes
and busts—
Then ain't he Johnny-on-the-spot at
eight!
Then he don't take no time to read
the news,
Nor eat no lunch, but keeps us all a-
jump.
Then he shoots letters at the girl till
she
Gets flustered red spots on her cheeks,
and makes
Even old Chief Clerk hustle—you
know him,
That fat one, with a sort of double
chin—
And me—why, I'm greased lightning
when he calls.

And when night comes, then he looks
kinder pale
And anxious like—and yet so full of
fight!
I get a sort of aching in my throat,
Like something choked me, when I
look at him,
And I go home and say to maw, "Gee
Whiz!
Bizness is tough. I'm glad I ain't the
boss!"

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by all druggists.

OVERTAXED.

Hundreds of Santa Fe Readers Know What it Means.

The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains—

Backache, sideache, headache.

Early symptoms of kidney ills.

Urinary troubles, diabetes, Bright's disease follow.

A Santa Fe citizen tells here the way to keep the kidneys well.

Mrs. Bernarda R. de Escudero, 106 Griffin street, Santa Fe, N. M., says:

"I hold the same high opinion of Doan's Kidney Pills today as when I publicly recommended them in January, 1907. I then said that for about a year I had been bothered by a dull ache and weakness across my loins and kidneys. I tried easily and any exertion brought on severe suffering with my back. Hearing Doan's Kidney Pills highly spoken of, I was induced to try them. The results proved beyond a doubt that Doan's Kidney Pills live up to representations. The cure and benefit this remedy brought has led me to praise it on more than one occasion."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

RELIGION CENSUS OF UNITED STATES

Result of Statistical Work Undertaken By Chief Statistician W. C. Hunt.

Washington, Aug. 24.—That the church members in the United States numbered nearly thirty-three millions in 1906; that there were a billion and a quarter dollars invested in church edifices; that every day eight new churches sent their spires skyward; that males form considerably less than half the total church membership; that a larger percentage of Catholic males than Protestant males were members; that in 16 states the majority of the total church membership were Roman Catholic; but that of the grand total of church members reported for the United States 61.6 per cent were Protestants and 36.7 per cent Roman Catholics; these are the salient and conspicuous facts appearing in the proof sheets of a United States census bureau bulletin, prepared by Chief Statistician William C. Hunt of the division of population, of the United States census bureau.

The bulletin will be issued this month. It is in the nature of an abstract of the comprehensive report now in press, giving the results of the fifth census of religious bodies in the United States.

Fewer Male Than Female Members.

It is stated that United States census statistics of church membership by sex were collected for the first time in 1906. Of the total number of members reported by the various religious bodies and classified by sex, 43.1 per cent were males and 56.9 per cent females. Among the Protestants the difference was greater, only 33.3 per cent being males. In the Roman Catholic churches there were relatively more males, the number forming 49.3 per cent of the total membership.

Fewer males than females were found among the Later-day Saints, the Lutherans, Disciples, Methodists, Baptists, Presbyterians, and Protestant Episcopalians, the percentages of male members decreasing in the order shown, and there being but 35.5 per cent male among the Episcopalians. Among the Christian Scientists, only 27.6 per cent were males; and of the Shakers but 21.3 per cent; but, in the Greek Orthodox church, 92.9 per cent were male, as practically all Greek immigrants have been males.

Proportion of Church Members in Total Population.

Of the total estimated population of continental United States in 1906, the church members formed 23.1 per cent as against 22.7 per cent for 1890, amounting to 6.4 per cent more in 1906 than in 1890. Of this 6.4 per cent increase, the Roman Catholic church is credited with 4.4 per cent, and the Protestants with 1.8 per cent; the remainder being divided among all other denominations.

It is stated in the bulletin that the total number of members reported by the various religious bodies for 1906 was 32,936,445, of which number the Protestants were credited with 20,287,742, and the Roman Catholics with 12,079,142. Of the Protestant bodies the Methodists numbered 5,749,833; the Baptists, 5,662,234; the Lutherans, 2,112,494; the Presbyterians, 1,830,553; and the Disciples of Christians, 1,142,358.

Of the total of 32,936,445 church members, 61.6 per cent were Protestants; 36.7 per cent Roman Catholics, and 1.7 per cent members of other religious organizations. The rate of increase shown for the Roman Catholic church is 93.5 per cent, which is more than twice that of all the Protestant bodies combined. The Methodist reported 17.5 per cent of all Protestant church members; the Baptists, 17.2 per cent.

Increase in Number of Organizations. The total number of local religious organizations in 1906 is given as 212,230, an increase since 1890 of 47,079, or 28.5 per cent. The Protestants are credited with an increase in this particular amounting to 27.8 per cent; the Roman Catholic church, 21.9 per cent; the Jewish congregations, 231.9 per cent, and the Latter-day Saints, 38.3 per cent.

The Methodists reported the largest number of local organizations, 64,701; the Baptists reported 54,880; the Presbyterians, 15,506; the Lutherans, 12,703, and the Roman Catholics, 12,482.

Other interesting features of the bulletin are those showing that the total seating capacity of churches was 58,536,830, an increase over the 1890 United States census figures of 34.4 per cent; that the rate of increase was practically the same for both Protestants and Roman Catholics, and kept pace with the increase in population; and that \$1,257,575,867 was invested in church edifices in 1906. The total amount of debt was \$108,050,846, or 8.6 per cent of the total value; of this total the Protestants bodies owed \$53,301,254 and the Roman Catholics, \$49,488,055. In 16 states a majority of the church members were Roman Catholic; in 29 states, Protestant; and in one, Utah, Latter-day Saints.

GLEANINGS BY AN PERIPATETIC PEN

As to Reporters—"Your reporters are no good," said a citizen this morning, with virtuous indignation; "my Aunt Henrietta and her two daughters, Gladys and Imogene, have been visiting at my house for several days, and there hasn't been a word in the Gazette about it."

A good many similar kicks are heard in the course of a long summer day, and although the management of the Gazette has taken a good many reporters into the basement and shot them down in cold blood for neglect of duty, there is still room for criticism.

The Gazette has long been looking for the ideal reporter, and when he is found expense will not be considered if he can be signed up for regular service.

The ideal reporter, to begin with should be a mind reader. Most every man in town knows something that would be interesting if he would tell it; and when he meets a reporter he always forgets it, and says that he doesn't know a thing. Then in the evening he says that there isn't a finished thing worth reading in the paper, and he rolls it into a wad, and throws it at the cat, and holds an indignation meeting. An expert mind reader could get a lot of information from such a man.

The ideal reporter should be trip-lets. It is absolutely necessary, at all hours of the day, that he should be in three places at once, he should be at the depot, taking notes of all arrivals and departures, and he should also be at the hotels, copying bughouse signatures from the register, and he should be simultaneously, at the meeting of the Ministerial Association, for a great deal of hot stuff has its origin there.

The ideal reporter will have his private aeroplane, so that he can soar, at great speed, over the town in every direction, making notes of all the doings in the various backyards, and putting down accurate descriptions of the family washings which may be hung on the clothes-lines. This machine will also enable him to look into second story windows and see whether people keep their bedrooms in respectable order.

The ideal reporter will be a clairvoyant, and capable of going into a trance at any moment, during which trance he will read the future, and thus will be able to be on the spot whenever anything important happens.

He will also be a prize fighter and a doctor of laws; and he will have a thorough knowledge of the millinery business, so that he can write up receptions; he should be a practicing physician and a private detective and a good cook, and he should have a pair of seven league boots. Any young man answering these requirements can have a steady job on the Gazette, and he can name his own salary.—Emporia Gazette.

Weak women should read my "Book No. 4 for Women." It tells of Dr. Shoop's Night Cure. Tells how these soothing, healing, antiseptic suppositories bring quick and certain help. The book is free. Address Dr. Shoop, Racine, Wis. For Sale by Stripling-Burrows Co.

REAL ADMIRAL SWINBURNE RETIRES

Honorable Career in the Navy, in the Spanish-American War and in the Philippines.

Washington, D. C., Aug. 24.—Rear Admiral William Thomas Swinburne retires today, after a long and valuable service to the government. The admiral was born at Newport, R. I., August 24, 1847 the son of Daniel Thomas and Harriet (Knowles) Swinburne. He graduated from the U. S. Naval Academy, entered as midshipman, September 29, 1862. After graduation he was appointed to the U. S. S. Saco, West Indian squadron in 1866-1867. He next was placed on the U. S. S. Kearsarge, South Pacific squadron 1868-1870. He was promoted to ensign in 1868, master in 1869, lieutenant in 1870. He was on the U. S. S. Michigan 1870 to 1872; then on the Flagship Lancaster, South Atlantic squadron 1872-1874. From 1875 to 1877 he was on the U. S. S. Atlantic. From 1883 to 1886 he was on the Trenton. In 1886 he was transferred to the U. S. Naval Academy where he remained until 1890. In 1887 he was promoted to lieutenant commander and was executive officer on the U. S. S. Boston from 1890 to 1893. He was commander of battalion, landing in Honolulu, January 16, 1893. From 1893 to 1897 he was at the head of the department of seamanship at the U. S. Naval Academy, being promoted while there, in 1896, to commander. He was in command of the U. S. S. Helena, 1897 to 1899. During the Cuban war he captured the Spanish steamer, Miguel Joru. He joined the fleet at Manila under Admiral Dewey, February 1892, was senior officer in command of vessels assisting General Lawton. He was at the Portsmouth Navy Yard 1899 to 1902 and was promoted captain, March 1901. He commanded the U. S. S. Texas, 1902 to 1904, a member of the general board at Washington and made rear admiral July 22, 1906. Since August 10, 1906, he has been commander in chief of the Pacific squadron.

THE CENSUS IN MEXICO.

The decennial census of Mexico is about to be taken. The difficulties in counting noses in the neighboring republic are great as appears from the following in the Mexican Herald:

"The central committee on census work appointed by the local authorities to draw plans for the taking of the census in the federal district has completed arrangements for making an accurate estimate of the inhabitants of the capital and outlying towns and has decided to appoint prominent persons in every town to take down the names of residents personally to preclude the possibility of any names being left off the lists.

"In former years it has been the experience of census takers that a large majority of natives refused to give the names of all the members of their household for fear that they might be recruited in the army. The government has decided to appoint prominent persons as census takers in order that the actual number of inhabitants of the republic may be secured within a close margin of accuracy.

"President Diaz will personally take the census of the block on the north side of Calle de Cadena, where he lives; members of the cabinet will perform a similar duty in their respective neighborhoods; the archbishop of Mexico will take the census of population in his own quarters, and an effort will be made to have all prominent citizens accept the appointment for their neighborhoods generally, in order that confidence may be inspired among the natives and the figures may be as accurate as possible.

"But in interior Mexico an uphill task is in store for the authorities, as the majority is bent upon thwarting the census work, being formed of illiterate peons and ignorant laborers who are still afraid of compulsory military service."

THE PARAMOUNT ISSUE.

The question of who is to be U. S. Senator and who are to be Congressmen and who are to be state officials of New Mexico, naturally is of great importance and is occupying considerable of the thought of the politicians. However, the question first to be disposed of is the fight for admission a few months from now, the drafting of a constitution and its adoption. It is a mere waste of energy to discuss senatorships and offices before the actual admission of the Territory. It does not add to harmony or good feeling to be taking sides now, to stake out the honors and the plums at this stage of the game. Of course, ambitious men will seek to strengthen themselves, but they will find that they have little to work on. They will discover that combinations made now are destined to fail, that the situation will change with kaleidoscopic rapidity and that U. S. Senators from New Mexico will not be picked out a year before the admission of the Territory. The men or faction or party that will pledge itself to certain action on these matters a year ahead, is reckoning without the people, who will insist upon having a say in the matter. The New Mexican's advice is to keep these contests for vantage points on the part of ambitious individuals in the background, and to make the fight for statehood and the adoption of a good constitution the first and only consideration for the present.

CAMPING OUT.

With the rainy season drawing to a close, the time is at hand for camping out. September is perhaps the best month in New Mexico for that purpose. The abundant rains during August have made vegetation luxuriant and filled the streams and springs with water. The atmosphere begins to have an intimation of autumn. He who can take off a week or two or a month during September to camp in New Mexico's forests or hills, is to be envied indeed. Says the Youth's Companion:

"Were one to inquire into the relation of nature study to the increasing number of people who 'camp out,' it would be hard to say which is cause and which effect, but it is certain that the two have developed simultaneously within comparatively few years.

"It was not very long ago that camping out was regarded as a mysterious diversion in which the male members of the family found a quite inexplicable pleasure. Then mother and the girls tried it for a season, and since then they have understood. Today, if one turns the advertising pages of the magazines in spring and early summer, one finds long lists of summer camps for boys and summer camps for girls,

and all of them classed under the heading, 'educational institutions.'

"Aside from the mere pleasure of a sojourn in camp, there are material benefits which last the whole year through, and are making important contributions to health and national character.

"Camp life means reducing one's needs to their lowest terms. It conduces to simplicity of dress, food, recreation and social intercourse. Many things commonly regarded as necessities at home are found to be easily dispensable in camp.

"The value of fresh air, at night as well as by day, is another wholesome thing to learn, and so, too, is the primary and fundamental contact with the raw materials of life. Many a man has realized in camp for the first time how the most familiar vegetables look in their raw state, and how the spoils of gun and fishhook must be treated to prepare them for the pan or the pot.

"Of all the people who take holiday during the summer, there are none who come back to town more healthy, wholesome and happy than the campers. By this time most of them are planning next year's trip."

SEND ALL CHILDREN TO SCHOOL.

Superintendent of Public Instruction J. E. Clark calls attention to the compulsory school attendance law, under which children between the ages of seven and fourteen must attend school. New Mexico has had compulsory school attendance for many years, but the law has been laxly enforced. However, as amended by the last legislative assembly there can be no excuse for the non-enforcement of the statute. Not only is it compulsory that the children attend school, but that they attend the entire term. It is made the duty of the clerk of the district board to notify the district attorney of children not attending and of parents not sending their children to school and it is made the duty of the district attorney to give particular heed to the prosecution, which can be had either in the justice of the peace court or in the district court. County school superintendents too, shall see to it that the law is enforced. The law is a salutary one, it is for the protection of the children who might otherwise be robbed of their opportunity to obtain an education. A child that has not attended school is handicapped in life, it is likely to become a burden upon the community, and it is therefore a double duty that falls upon those entrusted with the enforcement of the compulsory school attendance law, a duty to the child and a duty to the community, which should not be neglected under any circumstances.

TRUTH TRAVELS SLOWER THAN A LIE.

Naturally, the stories that there are cases of want and destitution among homesteaders in the dry farming country of New Mexico, travel much faster and further than the denial of these conditions. When a man is found starving, it is a news item, when he isn't starving, that isn't news at all for there are 80,000,000 other people in the United States that are not starving. In the same manner, when the wires flash the news that night riders have shot up a saloon at Endee or shot into the house of a poor widow at Mountainair, the news finds a place in every newspaper of the land, for it is news. But a denial of the story of night riders, is treated rather frigidly by the press for there is no news in the average denial. All of which should make correspondents for the newspapers exceedingly careful to stick to the truth. In the anxiety to be "newsy," an event of no importance at all is too often magnified into a sensational episode; the discharge of a blank cartridge becomes an attack by night riders; a case of laziness and poverty becomes widespread destitution and want, a sporadic instance of contagious disease an epidemic, and an entire community or a whole commonwealth are harmed, for there is no doubt that the stories of night riders and of starvation which have emanated from New Mexico the past few weeks have done incalculable harm even though no harm had been intended.

Congressman Francis Burke of Pennsylvania, who is one of the Republican House leaders and who is in line for a Senatorial toga, or to succeed Speaker Cannon when the latter retires, is confident that statehood will be an accomplished fact in another eight months. There is no particular

reason why Congressman Burke should deceive himself or seek to deceive New Mexico. It is no particular consequence to him whether New Mexico is given statehood or not, except that he is a firm friend of the Territory and wants to see it admitted. But otherwise, his testimony is impartial and his opinion is unsolicited. He is thoroughly posted on the situation, he is aware of the plans of the leaders, for he is one of them for the next session, he is helping to draft the legislative program, and he is as close to President Taft as he is to the Senate and the House Republican leaders. If any one knows, therefore, it is Congressman Burke and he says that it will be statehood this time sure, and that New Mexico has no time to lose in preparing for it.

It is greatly to be regretted that President Taft will not make a longer stay in New Mexico. The fact that he will see nothing of the rich and fertile Rio Grande valley; that he will catch no glimpse of the prosperity of the Pecos valley, that he will not view the grandeur of the mountains and the sparkle of brooks and rivers, will be a distinct loss to him and to the Territory, for no man can get an adequate idea of the resources, of the actual appearance of the Territory from the car window alone, especially between Gallup and Albuquerque. As he will see Albuquerque only at night, he will get no idea of the rich farms and fields on all sides of the Duke City and his recollection of the Territory may be not much better than that of Senator Beveridge, whose visit to New Mexico has remained a sore spot to the Territory to this day. Of course, President Taft will make allowances for all that, but there would have been no greater delight to New Mexico than an opportunity to show the chief executive of the land, that it is really a fertile, a rich, a beautiful, a most promising portion of the United States.

The school census of East Las Vegas just completed is disappointing but shows the necessity of East Las Vegas and Las Vegas consolidating and taking in the outlying districts in order to reach the 10,000 population figure before the census is taken. The school census shows a loss of 30 school children since last year. This means a loss of population of 120. The total number of persons between the ages of 5 and 21 is given as 1,185, which means that East Las Vegas will show a population in the census of less than 4,800 or far behind Albuquerque, Santa Fe, Roswell, Raton and perhaps even behind Clovis, Tucuman and other towns. That would be regrettable, for the two towns and suburbs are really one community and might as well show up as a city of 10,000 people instead of two towns with less than 4,800 people each and scattered suburbs having a population of 1,000 and more.

The pessimists have just quit worrying over the panic and the tariff but are now worrying about the trouble that it will be to move the big crops. They are talking about its being an eight billion dollar harvest this year, and are worrying whether there will be money enough to move such a vast amount of crops to the proper markets. The interstate commerce commissioners also predict a big shortage in freight cars. No doubt there is some cause for concern along these lines. But, after all, it gives one a comfortable sort of feeling to think that the crops are so large that the chief problem is how to dispose of them to the best advantage. It is a whole lot nicer to worry about that sort of thing than to be disappointed in the size and value of the crops themselves.

New Mexico has no strike riots, no labor disturbances such as are stirring Western Pennsylvania at present. This should be an inducement to men interested in manufacturing industries to examine into the advantage of locating in New Mexico. For many lines of industries, such as woolen mills, shoe factories, beet sugar factories, the raw material, the water power, the fuel, the labor as well as the markets are found in New Mexico, and can be commanded upon the most advantageous terms, not to speak of cheap lands and a climate under which work can be prosecuted to the best advantage.

It was a "great object lesson" given twenty-three Congressmen yesterday when they found in San Francisco harbor scores of ships that are idle for no other reason than that they are sailing under the American flag and are therefore discriminated against. The Oriental trade demands shipping and lots of it, but as long as the American people are not willing to do for their merchant marine what Japan and Germany and other nations are doing, so long the trade will go to foreign bottoms, whose owners will naturally seek to divert it to foreign seaports.

Simplicity and good eating will mark the meeting of President Taft and President Diaz at El Paso on October 16. Whether there will be any kissing as there is when Kaiser Wilhelm and Czar Nicholas meet, has not been decided as yet by the master of ceremonies. But the New Mexican's advice is to cut it out. Have a glass of pink lemonade instead to cement the ties of international friendship.

IN WHICH CLASS ARE YOU?

The World has always been divided into two classes—those who have saved, those who have spent, the thrifty and the extravagant.

It is the savers who have built the houses, the mills, the bridges, the railroads, the ships and all other great works which stand for man's advancement and happiness.

The spenders are slaves to the savers. It is the law of nature. We want you to be a saver—to open an account in our Savings Department and be independent.

Attorney Julius Staab of Albuquerque, is a guest at the home of his father, A. Staab on East Palace avenue. Attorney Staab is a member of the board of New Mexico Bar Examiners which convened yesterday.

Miss Madden, the charming niece of Governor Curry, who has been presiding over the executive mansion the past few months, will leave tomorrow for her home at Oakland, Calif., much to the regret of society folk, especially the younger set.

Fred Collins, who is in Santa Fe for his health and who is well known to the public as the young man who sang at the picture shows at the Elks' opera house, was yesterday evening removed to the Sanitarium as his condition has been growing serious.

Mother Pancratia and Sister Dolores, the latter a daughter of Judge A. L. Morrison, have left for Loretto Heights, near Denver. Both were much impressed with the many improvements in and about Santa Fe and were delighted with their stay.

Mr. and Mrs. McPherson of Los Angeles, Calif., who were guests of Governor Curry at the executive mansion, left today for Raton. Mr. McPherson's former home. Mr. McPherson is a warm friend of Senator Flint of California. He is also a great booster for New Mexico.

District Attorney E. R. Wright of Santa Rosa, who has just recovered from an attack of typhoid fever at the Alamogordo hospital is in Santa Fe to attend the convention of district attorneys called by Governor Curry to consider the better enforcement of Sunday saloon and assessment laws.

It is an admitted fact that real estate, financial men and merchants all say that quickest and best results are obtained by advertising in the New Mexican.

WOMAN'S NIGHTMARE

No woman can be happy without children; it is her nature to love them as much so as it is the beautiful and pure. The ordeal through which the expectant mother must pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of **MOTHER'S FRIEND** prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

Book containing information of value to all expectant mothers mailed free.

MOTHER'S FRIEND

YOUNGEST TOWN ON THE CONTINENT

Luzon, in Southeastern Washington, Will Be an Electric City in Every Sense of the Word.

Spokane, Wash., Aug. 24.—Mary D. eastern Washington boasts of the youngest and most modern town on the continent in Luzon, 60 miles west of Pasco, on the Spokane, Portland & Seattle Railway Company's line. The plat for the townsite was filed on April 5, 1909, and since then there have been constructed numerous business and dwelling houses, also an electric plant, which not only furnishes light and heat, but also power for pumping water from the Columbia river used in supplying moisture to orchard and garden lands by artificial means. Residents of the town are now talking of a newspaper. Not only the town, but the country homes will be supplied with electrical energy, so that the farmer's wife will have a motor-driven churn, electric iron, fan and range. Plans have been prepared to erect a reservoir on a nearby hill at an elevation of 160 feet to be filled by a motor-driven pumping plant, so there will always be an inexhaustible supply of water for domestic and other purposes. The people of Luzon believe they have made record which is without parallel in the world.

August time, tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The gain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influence depress first the "inside nerves" then the stomach, heart, and kidneys will usually fail. Strengthen and see how quickly will be yours again. Sold by Stripling-Burrows Co.

WHEN THE CLOCK HANDS TURN BACK

Taken From The Daily New Mexican of August 24, 1889.

Yesterday afternoon death claimed the youngest child of Mr. and Mrs. Perfecto J. Gonzales.

E. L. Snowden and family, who came here recently from Florida, will now locate here permanently as Mr. Snowden has purchased Dr. L. Engle's dairy and also part of the land.

J. M. H. Alarid and family from Galisteo, are in town visiting friends.

C. F. Easley has returned from a trip to Cerrillos, where he went on Masonic business.

Rev. O. J. Moore left yesterday for El Paso with his family. He was escorted to the depot by a large delegation of friends.

Mr. and Mrs. H. Hartman and Mrs. Carpenter returned to Santa Fe yesterday after camping ten days at the Aztec mineral springs.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fail. Don't drug the Stomach—nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Sold by Stripling-Burrows Co.

CONVENTION INSURANCE COMMISSIONERS

Colorado Springs, Colo., Aug. 24.—The National Convention of Insurance Commissioners opened here this morning. An address of welcome was made by the Hon. John F. Shafroth, governor of this state and the mayor of this city. It was responded to by the Vice-President Frederick W. Potter of Illinois. At the conclusion of these ceremonies the Hon. Benjamin F. Grouse of Maryland, president of the convention, made a lengthy and interesting address, after which the various committees made their reports and the meeting adjourned until tomorrow when addresses will be made. The subject of the "Fraternal Insurance Situation," will be dealt with by the Hon. James R. Young of North Carolina, that of "Discussion of Insurance Companies" by Hon. Thomas B. Love of Texas. He will be followed by the Hon. Joseph Button of Virginia, followed by Hon. W. L. Clayton of Colorado, "Insurance Legislation."

TAFT TO PLAY GOLF IN IDAHO

Mountain Trout, Duck, Grouse, Venison and Bear Steaks to Be Part of His Menu.

Spokane, Wash., Aug. 24.—Golf on the shore of Hayden lake in the heart of the Coeur d'Alene national forest reserve, in Northern Idaho, is one of the items on the cards for the entertainment of President Taft by the Chamber of Commerce and the people of Spokane during his stay in this city on his transcontinental tour. Another feature will be a genuine Western dinner, such as would warm the cockles of the heart of his predecessor. The menu will include mountain trout, caught on the spot; wild duck and grouse and venison and bear steaks, also the choicest fruits and vegetables grown in Eastern Washington and Oregon, North and Central Idaho, Western Montana and Southern British Columbia, which compose the Inland Empire of the Pacific Northwest.

The president's special is due to reach Spokane at 6:30 o'clock the morning of September 28, and at 8 o'clock President Taft and his party will breakfast in the Hall of the Doges with Frederick E. Goodall, president, and trustees of the Chamber of Commerce, Mayor Pratt, Judge Edward Whitson of the federal court, Congressman Poindexter and Postmaster Edris. This will be followed by an automobile drive through the residential district to the Civic Center, where at 10:30 o'clock, there will be a parade of military and civic and fraternal organizations, including representatives of 100 orders.

It is expected the president will make a speech in an amphitheatre to be erected at the foot of the Monroe street bridge, overlooking the Spokane falls. Arrangements are being made for the accommodation of 50,000 persons. Afterward there will be a luncheon, at which the chief executive will meet prominent residents of the Inland Empire and the Northwest. A trip to Coeur d'Alene, Idaho, through the Spokane valley, will take up part of the afternoon. It is also likely the president will address the people at that point, whence he will journey to Hayden lake in a special train for golf and dinner, returning to Spokane at night to continue his trip westward.

GREATEST TUNNEL IN CANADA

Work Completed on the Two Spiral Tunnels Between Field and Hector.

Montreal, Canada, Aug. 24.—Work has been completed on the greatest piece of tunneling work ever attempted in Canada, the two famous spiral tunnels on the main line of the Canadian Pacific between Field and Hector. The work meant the excavation of 650,000 cubic yards of rock, the boring of about one and one-half miles of tunnels through mountains 10,000 feet high, and the building of two bridges over the Kicking Horse river. It will reduce this grade from 4:5 to a maximum of 2:2 doubling the traction power of the locomotive, and this will mean that the worst obstacle to the running of trains over the Rocky mountains has been removed.

DAMES AND DAUGHTERS.

Mme. Curie has been appointed chief professor of physics in the faculty of science, Paris university.

One of the most successful physicians in South Carolina is Dr. Matilda Evans, colored, of Columbia, where she has established and personally conducts a hospital for the penniless of her race.

Dr. Elizabeth Athman of Gotthelmer is the first woman to be elected teacher in a night school in the German empire. She entered upon her duties at the beginning of the present school season in Frankfurt.

It seems to most theater goers to be but a few years since Mary Anderson, now Mme. de Navarro, in all her fresh youth and beauty, was one of the most prominent figures on the stage. But recently she celebrated her fiftieth birthday. She is now living on a pretty farm in Worcestershire, England.

Sister Gregory of the Little Sisters of the Poor, Seattle, Wash., is possessor of a certificate which entitles her to practice as a stationary engineer. She recently passed examination before the board of engineers and is authorized to operate steam plants with not more than fifteen pounds pressure.

Mrs. Herman V. Hilprecht, wife of the archaeologist, has a diamond studded medallion, insignia of the knight commander of the Shekafet, which was given to her by the sultan of Turkey. In the center of the star of brilliants are sixty rubies. The sultan conferred the honor upon her in 1907 out of regard for her husband.

Short Stories.

The population of the United States per square mile is 27.71.

The new Quebec bridge to replace the one that fell will be 160 feet above the water.

A New York auctioneer recently advertised that he was going to sell "pew No. 63, Grace church, and ten shares Consumers' Brewing company."

The smallest healthy adult human brain ever recorded was that of a New York coachman who died recently at the age of forty-six. It weighed but twenty-four ounces.

A freak of nature in the form of a cornucopia with a growth on one end that curiously resembles a human hand has been received by the agricultural department of the University of Missouri. The cob has four fingers and a thumb, all perfectly formed.

Things Theatrical.

Otis Skinner is thinking about a production of Robert Louis Stevenson's "Macaire."

The new play which Eugene Walter has been writing for Viola Allen is not yet named.

"The College Widow" and "The County Chairman" are to be used by stock companies.

Mabel Wilbur and Ruby Dale are alternating in the prima donna role of the New England "Merry Widow" company.

Mrs. Ivy Ashton Root, wife of a well known lawyer who is a nephew of Secretary of State Elihu Root, has written another play, "A House of Cards," which was produced by Miss Mary Manning in the Star theater, Buffalo, recently.

Sporting Notes.

"Farmer" Burns, although fifty years old, is still engaged in wrestling.

The skeleton of Synsby, the great race horse, was recently mounted in the American Museum of Natural History, New York city.

Tales of Cities.

In point of geographical elevation Madrid is the highest city of Europe.

Most of the dwellings in Philadelphia are of red brick and nearly all small. Dr. Weir Mitchell calls Philadelphia "The Red City." A fair house in a fair quarter rents for \$25 a month.

The city of Aleppo has an estimated population of 197,000 inhabitants. It is the center of transit of certain exports from Asia Minor, Mesopotamia, Arabia and Persia and is in a rich mineral district.

German Gleanings.

More rye is used than wheat for breadmaking in Germany.

Luminous street name plates have been successfully tried in Berlin.

The trees in Berlin streets give employment to a thousand gardeners and assistants, who take care of them.

Probably the oldest married couple in the civilized world live at Alton, Germany. They are Hermann Unterberger, aged 120, and his wife, Rebecca, aged 102.

English Etchings.

There has never yet been a duke of Lord of London.

Dartmoor is the largest tract of uncultivated land in England.

Thirty-three survivors of the heroic charge of the light brigade at Balaclava are still alive.

The cost of keeping up the public drinking fountains and cattle troughs in London is nearly £2,000 per annum.

A Warning.

A negro was passing under a scaffolding where some repairs were going on when a brick fell from above on his head and was broken by the fall. Sambo very coolly raised his head and exclaimed: "Hello, you white man up dar! If you don't want your bricks broke just keep 'em off my head!"—Tilt-Bits.

At the Restaurant.

"I love you more than tongue can tell," He said and softly sighed.

"Can I be sure you love me well?" The cautious girl replied.

"I love you more," the lover said, "Than tongue can tell, ah, me!"

The girl, reflective, bent her head And then exclaimed: "I see!"

"This sandwich I'm devouring now"—

"I see you get the point."

A cloud sat on his manly brow—"I hate this eating joint."

"Instead of sandwich made of tongue I fain would place for you A nectar bowl with garlands hung Or else an Irish stew."

Bashful.

"He wants to get married the worst way."

"Why doesn't he?"

"Can't get up the nerve to ask a girl."

"Maybe he is waiting until he can drop a nickel in the slot and get a wife."

In Absence.

You cannot hear the things I say Or know the things I do, And yet each word, each act, today Is guided, dear, by you.

I am too careless to be wise, Too human to be good, Yet, though I may not meet your eyes, I live as though I could.

The Vaudeville Girl.

The frost is on the pumpkin And on the actorine. The days are melancholy, The worst I've ever seen.

I jumped my job of clerking And on the stage did go, And now I am not working, Because I have no show.

Slipping in a Word.

"Her husband talks a great deal in his sleep."

"Maybe he has a troubled conscience."

"No. Those who know her best say that is the only way he can get in a word occasionally."

Afterthought.

God wrote a thought—'twas rock; Another—life organic; another still, And man, with conscious soul, was given being.

And then he wrote once more: P. S.—Woman!

A Phonetic Purchase.

The late Henry Miller, who was guide, philosopher and friend to many book lovers within a thousand miles of New York, was a most successful salesman. One day he called on Collis P. Huntington and showed him a rare copy of a book.

"There are two volumes of this," said Mr. Miller. "The other volume is in perfect order, as you see this one is. You cannot possibly let them escape you, for you know you have nothing like this in your library."

"What is the price?" asked the railroad king.

"Seven hundred dollars," said the bookman.

"Those are too valuable volumes for my library," Mr. Huntington exclaimed.

Mr. Miller went back to his place and sent the books to Mr. Huntington's house with a bill for \$700. Next day the railroad king sent for him.

"Why did you send me those books?" he demanded sharply.

"Because you bought them," was the bookman's calm reply.

"I certainly did not!" cried the millionaire.

"Oh, yes, you did!" answered Mr. Miller. "You'll remember perfectly well when I tell you what you said. You told me distinctly, 'Those are two valuable volumes for my library.'"

—Harper's Weekly.

Books of Reference.

Newspaper editors like to answer questions addressed to them by their readers—if they are not too hard—and they deem themselves as arbiters rather than as accessories to a misdemeanor when they are appealed to for information "to decide a bet." But they wonder sometimes why certain questions are put to them for arbitration when the answers are to be found in one of three very accessible books—an almanac, a grammar and a small dictionary.

These are books of reference that ought to be in every home library, however small. We guess that they are, but that they are sometimes dusty with misuse or out of easy reach on a top shelf. It is well to have an almanac, a dictionary or an atlas handy when you are reading your newspaper. By consulting them frequently the reader will find his daily paper relates his early historical studies to present events and makes his touch with the world closer and more significant. Get the habit!—New York Mail.

A Sporting Parson.

The inhibition of a hunting rector by his bishop reminds a correspondent that the Rev. Jack Russell, the famous west country sporting parson, was once cited to appear before the bishop of Exeter to answer charges of neglecting his spiritual and parochial duties, and he was also remonstrated with for keeping and following a pack of hounds. The charges were proved unfounded, and Russell refused to give up the sport, which he continued to pursue almost to the day of his death in 1883, at the age of eighty-eight. Besides being an insatiable hunter, he was, as his biographer pithily remarks, "a staunch supporter of Devonshire wrestlers, an admirable sparrer and an enthusiastic upholder of the virtues of Devonshire cider and cream." And in the pulpit he tried to reform conduct rather than to expound doctrine and was a stern denouncer of bad language, strong drink and "the filthy habit of smoking."—St. James' Gazette.

Sarcasm in the Commons.

The reluctance of the house of commons to adjourn over Derby day recalls a story related of one of the Roman Catholic peers who took their seats some four or five years before the passage of the first reform bill after an exclusion of a century and a half. He gave notice that on a certain day he would make a certain motion, whereupon there arose from his noble colleagues a general cry of "Derby!" The astonished novice named another day, only to be greeted with an equally unanimous expostulation of "Oaks!" At this he explained that he would have to ask the forgiveness of their lordships; but, having been educated abroad, he was forced to acknowledge that he was not familiar with the list of saints' days in the Anglican calendar.

His Glasses.

He came home in the small hours of the morning, and his loving spouse confronted him with wrath in her eye and a telegram in her hand, saying, "Here is news that has been waiting for you since supper time."

He blinked, looked wide and, braced up against the hatrack, felt through his pockets, murmuring, "I left my glasses down town."

"Yes," she replied, with scathing irony, "but you brought the contents with you."

Not Grasping.

"What a grasping fellow you are, Hawkins! You've bothered me about this bill fifty times in ten days."

"You wrong me, Jarley. I'm not grasping. I've bothered you about the bill, I admit, but I haven't been able to grasp anything yet."

Found Him Guilty.

Counsel (to the jury)—The principal fault of the prisoner has been his unfortunate characteristic of putting faith in thieves and scoundrels of the basest description. I have done. The unhappy man in the dock puts implicit faith in you, gentlemen of the jury!

She Had to Mend Them.

Benham—I believe in putting my best foot forward. Mrs. Benham—I have noticed that your toe always goes right through your stocking.—New York Press.

TEACHERS INSTITUTE NOTES

(By Daniel C. Ortiz.)

The Santa Fe County Teachers' Association, which was organized last Friday, held a meeting at the high school at two o'clock for the purpose of hearing the report of the committee on constitution. After the president had called the meeting to order the constitution committee reported its work, and the chairman of the committee read the constitution, which was approved by the whole association. Then upon motion of the president the meeting adjourned. The constitution of the new association is a very liberal one. All the members of the association are much encouraged, and will do their best to make the association a permanent success.

Yesterday a photograph was taken at the high school of the members of the Institute.

Prof. R. R. Larkin of Las Vegas, yesterday visited the Institute and made an eloquent address to the teachers. Prof. Larkin is well known in the territory, especially by people interested in education. He is all the time working for the advancement of education in New Mexico.

Miss Zoe E. Smith, who last year successfully taught school at Otto, is attending the Institute and is an applicant for second grade certificate.

Victoriano Cruz of Chimalayo, who is also attending the Institute, is doing some good work and will very probably get a good certificate. He is a graduate of Menaul high school of Albuquerque. Mr. Cruz has a very fine method of teaching, and everywhere he has taught has given perfect satisfaction. He speaks, writes and reads both English and Spanish languages with fluency.

RACE IN BATTLESHIP CONSTRUCTION

Delaware at Newport News Passes in Per Centage the North Dakota at Quincy.

Boston, Mass., Aug. 24.—The battleship North Dakota, under construction at the Fore River shipyard, Quincy, has at last been passed in percentage of construction by her sister ship, the Delaware, being built by the Newport News Shipbuilding Company. For many months it was a merry race between the builders of both of these vessels which would be delivered to the government first. Since the vessels were laid down the North Dakota has been away ahead of the Delaware in percentage of construction, and at one time the difference between them was 10 per cent. For the past six months the Delaware has been steadily creeping up on her rival. The reason for the slow progress on the North Dakota has been the non-arrival of armor. Both vessels are now over 90 per cent completed. Work on the other four battleships under construction is progressing satisfactorily. One of them, the South Carolina, will have her speed test this month. The strides made by the Utah, under construction by contract at Camden, N. J., as compared with the navy yard built Florida are very great.

Accused of Putting Tie on Track—
Ira Brown, aged 16, was arrested at
Gage, Luna county, for placing a tie
on the Southern Pacific track twice in
succession before two trains, each
time an accident being narrowly aver-
ted. Brown confessed.

Blames it on Whisky—Felipe Ben-
avidez was killed at El Paso in a bat-
tle with three natives who had been
drinking. Mebus furnished \$5,000
bond for his appearance in court.

Stabbed Himself in the Breast—Jose
Ramirez, aged 16 years, stabbed him-
self in the breast at El Paso, because

his fourteen year old sweetheart had
quarrel with him. He will recover.

FINALLY SUCCEEDS IN ESCAPING

Max Gardner, Who Was Being Held
for Embezzlement, Last Night
Took French Leave.

After making an ineffectual attempt
to escape some time ago, Max Gar-
dner, who was being held at the local
jail on a charge of embezzlement,
last night finally succeeded in gain-
ing his freedom. When his first at-
tempt to escape was discovered, the
jail authorities took the precaution
each night to lock him up in a sepa-
rate cell and no longer allowed him
the freedom of the entire cell room, a
privilege accorded all prisoners.

Last night the jailer, who is a new
man and rather old, opened the large
door of the cell room with the inten-
tion of locking Gardner up for the
night. The old man descended the
stairway but did not notice that
Gardner was concealing himself be-
neath the stairs. As the old man
passed on down Gardner leaped out
and felled him with a well directed
blow. Before the old man could re-
cover Gardner had bounded up the
stairs and soon gained the street,
quickly disappearing.

As soon as the jailer regained his
senses he notified the mounted police
and at once a posse of men was or-
ganized who gave pursuit. Until the
early hours of morning the search
was kept up and all trains were care-
fully watched but no sign of the flee-
ing jail bird could be discovered. This
morning another searching party
started out early on horseback and a
thorough search of the entire sur-
roundings about Santa Fe is being
made. Telephone and telegraph mes-
sages have been sent out to different
towns and cities and no effort is to
be spared in landing Gardner.

Some of the police officials were of
the opinion that the prisoner did not
leave the city but he was being har-
bored by some friend.

Later search, however, revealed the
fact that he was seen four or five
miles out of town making his way
overland to Lamy, where it is supposed
he boarded a freight train.

MRS HELEN GOULD GIVEN DIVORCE

New York, Aug. 24.—Mrs. Helen
Kelley Gould obtained a final decree of
divorce from Frank J. Gould today.
The decree gives the custody of the
two children to each parent for six
months each year. Gould is not per-
mitted to re-marry in this state until
after the death of his wife. The pa-
pers did not mention alimony.

NEARLY LAUGHED HIMSELF TO DEATH.

Moving Picture Show Effects, The Ri-
able Nature of an Old
Gentleman.

Last night's show at the Elks' opera
house came near resulting seriously
as an old gentleman who
was present became so wrapt in one
of the comical pictures that was
shown, that he nearly laughed him-
self to death. After the performance
was over the man left the theatre but
could be heard still laughing as he
sauntered down the street. The pic-
ture that aroused such a hearty laugh
was called "Boys Will Be Boys." It
is one of the liveliest and best human
nature pictures ever thrown on a mov-
ing picture screen. The balance of
the pictures were likewise good. They
show up clearer than ever and there is
no flickering. The music furnished by
Morrison's orchestra was most delig-
htful and greatly pleased those present.
Larger. Pictures of local people are
each night the crowds are growing
still being displayed, the lucky person
winning the two dollar bill. Have you
got the habit?

Commissioners Will Discuss Accident as Well as Fraternal Policies.

Colorado Springs, Colo., Aug. 24.—
Insurance Commissioners and heads
of great companies from all over the
country assembled here today for a
four days' convention of the fortieth
annual meeting of insurance com-
missioners. One important subject
to be discussed is fraternal insurance.
The standard provisions for accident
insurance are also to be debated as
it is asserted that the contracts used
by many of the smaller companies
are woefully incomplete.

Spokane, Wash., Aug. 24.—Where
bosses used to roam over the hills in
Idaho county, long recognized as the
cattle center of Idaho, there will gam-
bol Mary's little lambs in the future.
Prominent cattlemen, headed by O. B.
Canfield of Joseph, Idaho, have organ-
ized the Salmon River Livestock Asso-
ciation, with a capitalization of \$75,
000, to embark in the sheep industry.
The company, which controls 10,000
acres of range, will receive 12,000
sheep within 60 days, and the 2,000 cat-
tle grazing there will be sent to the Pa-
cific coast and Montana. The climate
of the Salmon river country is ideal
for sheep breeding and wool growing,
and it is likely that others will change
their herds. It is better adapted to
sheep though the cattlemen never suf-
fered losses because of weather con-
ditions. Sheep raising is one of the
principal industries in Southern Idaho
and the ranchers in the new district
believe they can duplicate the success-
es on the Salmon river.

BIG PRIZES FOR HORSE RACING

Seventy-five Hundred Dollars to Be
Hung Up in Purses By Albu-
querque Management.

Albuquerque, N. M., Aug. 24.—Sev-
enty-five hundred dollars in prizes for
horse racing. That is what the man-
agement of the Twenty-Ninth Annual
New Mexico Fair and Resources Expi-
sition, October 11 to 16 offers the
horsemen of the West. And from all
indications the horsemen of the West
will all be in Albuquerque during the
fair races. Albuquerque being on the
same circuit with Pueblo, El Paso,
Phoenix and Dallas, Texas, will get
the benefit of all the horses that
enter those fairs. Albuquerque, in
short is on a big southwestern circuit
upon which hundreds of thousands of
dollars will be turned loose among the
owners of the thoroughbreds. Albu-
querque is to donate a big slice of that
money to the fast ones and the fastest
horses from Denver to Los Angeles
will be entered.

The management has just made an
arrangement with Dr. F. E. Stone,
started at Dallas, El Paso and Phoenix
to officiate at the Albuquerque races.
He is the best starter in the West and
is just finishing up a series of engage-
ments on the grand circuit.

The latest addition to the list of
events is a thousand dollar stake race
donated by the Blackwell's Durham
Tobacco Company, to be known as the
"Bull Durham Stake," and to be run
on "Bull Durham Day." The agents
of this great tobacco company all
through the West are carrying entry
blanks with them all over Wyoming,
Colorado, New Mexico, Arizona and
several other states thus assuring the
fair races a vast amount of advertis-
ing.

NO OLD AGE LIMIT FOR HIM.

No Man Should Retire From Business
or His Profession Before
His Death.

Spokane, Wash., Aug. 24.—"No man
can do justice to himself and his gen-
eration by retiring from business or
profession before death."

Albert Johnson of Minneapolis, born
in Massachusetts 72 years ago, a min-
ing engineer by training and a min-
eralogist and banker by profession, ad-
vanced this theory in the course of an
interview on his arrival in Spokane,
his former home, where he amassed a
fortune in the early days. He said:

"I believe in staying by the ship un-
til it sinks. I laid down the reins of
active business three years ago, when
my wife died, and I have been wonder-
ing ever since why I did it. I am
happy, but not as contented as I might
be if I had not given up my business."
"Since then I have lost my grip on
current events which I might just as
well have kept up. However, I am
not idling away my time, but instead
of busying myself with public and
private affairs I have turned to wood-
carving, traveling and thinking. I was
70 years of age before I touched to-
bacco, and now I find an occasional
cigar a source of companionship, but
I would not advise any young man,
who desires to advance, to touch the
weed."
