MANILA MATTERS

Hospital Ship Relief Ordered At Once to Manila With All the Speed Possible.

LIGHT CASUALTIES CONTINUE

Rebels Fire at a Cruiser, Whereupon the Monadnock Turns Loose on Them, and Messrs. Rebels Immediately Be- came Back Numbers.

New York, Feb. 28.—Orders have
been issued to the hospital ship Relief
to sail for Manila at the earliest possible
moment, and to travel at as great a
speed as is safe.

MONITOR CLEANED 'EM OUT.

Manila, Feb. 28.—Rebels at Malabon
fired upon the cruiser Calao from the
jungle yesterday, while Admiral Dewey
was visiting the Monadnock. Three
shells were immediately dropped by the
monitor into Malabon church, demol-
ishing the structure and killing a num-
ber of rebels inside.

The factory at Malolos is reported
running day and night to supply ammu-
nition to the insurgents. The igno-
rance of the natives is shown by the fact
they collected empty Springfield shells
and are refilling them. Over 2,000 of
these cartridges have been discovered
in houses in Pandayan by an officer of
the Washington volunteers. The cruiser
Charleston and gunboat Concord have
gone on a ten days' cruise, presumably
looking for filibusters, as it is believed
arms are being landed in small quanti-
ties at northern ports. Everything was
absolutely quiet last night.

There has been the usual desultory
firing along various parts of the lines,
but the only casualties today are Cap-
tain David S. Elliott, Company G, and a
private in the 30th Kansas, both seriously
wounded. They were shot by the en-
emy's sharpshooters near Calocan. A
battalion of the 33rd United States in-
fantry relieved a battalion of the Cal-
ifornia volunteers at San Pedro Macao
today. The latter may be ordered to
embark on the transport St. Paul to-
morrow.

USUAL FAIRY TALE FROM MADRID.

Madrid, Feb. 28.—La Reforma asserts
it has received letters from reliable
Manila sources saying that 30 cannon,
20,000 rifles and several million car-
tridges from Japan have been landed at
Sual on the Gulf of Lingayen on the
west coast of Luzon, about 100 miles
from Manila, and had been taken thence
to Malolos, the seat of the rebel govern-
ment. La Reforma adds: "Japan
evidently intends to act towards the
Americans in the Philippines as the
Americans acted towards Spaniards in
Cuba."

GERMAN DIPLOMACY.

Washington, Feb. 28.—At the instance
of the German government, the presi-
dent has consented to take under the
protection of the United States army
and navy commanders at Manila and
other Philippine points, the lives and
property of German subjects residents
there. The German government wishes
to relieve the German war vessels not
stationed at the Philippines for service
on the Chinese coast.

Following Up the Clues.

New York, Feb. 28.—Roland B. Mo-
lineux, alleged poisoner of Mrs. Ad-
ams and Henry C. Barnett, spent the
night in the toms. It was said that
District Attorney Gardiner would today
ask the grand jury to indict Molineux.
Mrs. Molineux will doubtless take an
important part in the trial. Her relations
with Barnett previous to her marriage
being characterized by Colonel Gardiner
as the cause of the murder of that
club man. The evidence so far pro-
duced against Molineux is considered
ample to secure indictment for sending
the poisoned bromo-seltzer to Harry Cor-
nish, which he innocently administered
to Mrs. Adams. Dr. Withaus has not
made his report on the chemical analy-
sis of the organs taken from Barnett's
exhumed body. Should his report prove
what is generally expected, Molineux
may be indicted for the murder of Bar-
net.

CONGRESSIONAL

Chairman Hull Says the Senate Revision of the Army Bill is Irretrievably Bad.

HOLDS SENATE RESPONSIBLE

House in a Wrangle Over the Scramble for Public Building Appropriations Which Are Denounced—Nicaragua Com- mission to Sit During Recess.

Washington, Feb. 28.—Senator Frye,
chairman of the committee on com-
merce, reported the shipping and sub-
sidy bill, "with many restrictive amend-
ments." At his request it took the
place on the calendar of the bill of the
same title previously reported.

Senator Frye today proposed to the
House a Hanna-Payne shipping bill, limiting all
payments under it to a maximum of
\$9,000,000 per year.
Senator Morgan has secured an adoption
of a resolution continuing the select
committee on the Nicaragua canal, and
authorizing it to hold sessions during
the recess of congress. A partial con-
ference report on the postoffice approp-
riation bill was agreed to. A new con-
ference was ordered on the special ap-
propriations for the fast mail service for
the south and between Kansas City and
New York, Kan.

The senate agreed to the conference
report on the claims bill.

THE HOUSE.

Mr. Mercer, (Rep. Nev.) called up a
special order, setting aside today for
consideration of the public building
bills.

Chairman Hull called a meeting of the
house military committee tomorrow to
consider the senate revision of the army
reorganization bill. He gave it as his
personal view and thought the commit-
tee also believed the bill irretrievably bad,
but should be passed exactly as received
and the responsibility placed upon the
senate.

Chairman Burton, of the house river
and harbor committee, today said in his
opinion it was better that the whole
river and harbor bill fall than that the
senate Nicaragua canal amendment pass
as part of it.

He explained the order in which the
committee had decided to call up bills
favorably acted upon by the committee
of the whole body. He said that thirty-
nine bills had been acted upon. Thirty-nine
in the classification given the preference,
provided for buildings in cities having
first class postoffices, federal courts or
custom houses, and carried \$7,300,000.
Twenty-three other bills carried \$1,322-
000. Mr. Maddox (Dem., Ga.) introduced
in the present state of the treasury
not one of these bills could stand alone
and pass without the support of the log
rolling combine. States represented by
15 members on the committee, got
\$5,700,000. The southern members,
however, got only a pittance.

For every dollar they got, the north-
ern members of the committee got \$10.
After the passage of ten bills, Mr. Mad-
dox admitted the inability of the small
minority to place members upon record.
He has done his duty, and so far as he
is concerned, he was now willing to
hand the matter over to the senate. He
in a bunch and passed. Mr. Dockery (Dem.,
Mo.) said he and his colleagues were
powerless to antagonize the combina-
tion supporting these bills. They had
the support of the committee on rules,
and he would content himself during
the remainder of the day with voting
against each bill.

Brewing Company in Trouble.

Chicago, Feb. 28.—A confessed judg-
ment of \$10,000, entered yesterday in
the superior court against the American
Brewing Company in favor of Magnus
& Sons, malsters, was today made the
basis of a bill for appointment of a re-
ceiver for the brewing company, filed on
behalf of Carl Binder, Adolph Hartmann
and John G. Daly as creditors and
stockholders. The present indebted-
ness of the company is declared to ex-
ceed \$100,000 in notes and open ac-
counts, with an additional indebtedness
of \$750,000 covered by bonds.

Havana, Feb. 28.—The 7th army

oid developed last month now has

VON BUELOW SERVES NOTICE

On the Chinese Government That Further Assaults on Germans in Pekin Will Result in Some One Get- ting Hurt.

Berlin, Feb. 28.—During the session
today of the budget committee of the
reichstag the minister of foreign affairs,
Baron Buelow, said that in view of the
fact that several Germans were grossly
insulted and afterwards assaulted at
Lien-tsin last Saturday, he had in-
structed the German minister at Pekin
to make it perfectly clear that if such
acts were not severely punished, or if
there was recurrence of such acts,
grave consequences would ensue for the
Chinese government. He added: "We
do not intend to interfere with the in-
ternal affairs of China, but duty com-
pels us to protect the lives and property
of Germans."

American Flag Over Guam and Wake Islands.

San Francisco, Feb. 28.—The steamer
Gaelic from Hongkong, via Honolulu,
arrived today. The Associated Press
representative at Honolulu sends the
following news dated, February 21:

the American flag going up over the
new possession February 1. The Ameri-
can flag was also raised over Wake
Island by Commander Tausig.

Captain Cottman, of the Collier Bru-
tus, says that all stories of the revolt at
Guam against the United States author-
ity following the departure of the Char-
leston are pure fiction. Everything was
quiet and orderly when the Brutus left.

Does Your Head Ache?

Are your nerves weak?
Can't you sleep well? Pain
in your back? Lack energy?

These are sure signs of
poisoning.

From what poisons?
From poisons that are al-
ways found in constipated
bowels.

If the contents of the
bowels are not removed from
the body each day, as nature
intended, these poisonous
substances are sure to be
absorbed into the blood, al-
ways causing suffering and
frequently causing severe

There is a common sense

Berlin, Feb. 28.—Statements pub-
lished in foreign newspapers regarding

alleged conduct of Rear Admiral Dewey,

the minister of foreign affairs said be-
long to the category of "Pumpkinards"
previously described by him. As far as
he knew, the Irenes was at Hongkong.
The only German warship at Manila
was the Kaiserin Augusta. There
were, he added, German merchants in
the Philippines whom the German navy

minister said, "that our countrymen
will find security under American rule."

TUESDAY, FEBRUARY 28.

The 33d legislative assembly is doing well. What is, is right in this instance.

The death of the man who invented angel food is announced. The truly good died young.

The amended Bursum refunding bill contains many excellent features, and if it becomes law, as it should, will prove of great benefit to the financial system of the territory.

New York, and particularly the city bearing that name, are sad. For the first time in over half a century the Empire state is not represented in the president's cabinet, and the cry of the Yorkers is: "Why is this?"

For unmitigated liars, Aguinaldo and Agoncillo, of the Philippine islands, and the Santa Fe correspondent of a more or less esteemed contemporary over in the thriving city of Las Vegas, take the cake.

There are many reasons for believing that the Santa Fe correspondent of our contemporary in Las Vegas gets his information concerning legislative doings from a can of decomposed roast beef. At any rate decent people want none of him, none of his kind and none of the rot he sends to his paper.

The public spirited citizens of Las Vegas propose to make the dedication of their new normal university a great affair on next Saturday. Governor Otero and the members of the 33d legislative assembly have been invited. That the affair will be a success, can hardly be doubted. The people of the Meadow city know how to do these things right and will do so in this instance. The best of luck to the city, its people and its new educational institution.

Governor Roosevelt has signed a bill passed by the New York legislature, which prohibits the use of the stars and stripes as an advertisement, and the mutilation and desecration of the flag of the United States. The great state of New York has led the way in this matter and its example should be followed by every other state and territory in the Union. The starry banner is the emblem of liberty, of advancement, of the highest type of civilization, and its folds should be protected from all sordid uses.

Imports during January amounted to \$88,000,000, which compared with those of January, 1898, shows an increase of about \$8,000,000. The total exports for the month were \$115,000,000, about \$7,000,000 more than in January a year ago. Thus the favorable balance for January 1899, is about \$27,000,000. Perhaps a good part of this amount has been set off by the return of American securities from European commercial centers, a movement which has assumed large proportions since the New Year.

Judging from the gathering of warships in Asiatic waters, all trouble in that part of the world has not entirely disappeared. Great Britain heads the list of the nations represented with floating fighting machines with 33 powerful vessels; the United States is second with 23 and more on the way; Russia third, with 12, and Germany fourth, with 8. Germany has caused considerable trouble in the waters around the Philippine islands by the eccentric actions of these warships, but judging from the array of warships the United States has concentrated near Manila, Admiral Dewey is more than able to hold his own with the Kaiser and his allies, and Great Britain is apparently standing by ready to render such assistance as 33 ships can, if necessary. There need be no uneasiness over complications with European powers over the Philippine question so long as the present arrangement of forces obtain.

Gadsden Purchase Extension.

Border papers, among other things, have got to discussing the advisability of extending the southern boundary line of the Gadsden extension, eastward along the line of the 33d parallel of latitude to the Rio Grande river, which would just about include the town of Guadalupe in the United States. The success of the scheme would also land Juarez in this country, much to the delight of its American, and chagrin of its Mexican inhabitants. There is more or less friction between the people on the opposite sides of the river at El Paso del Norte continually. The bull fights and gambling dens of Juarez are a steady source of demoralization to American residents and visitors from the north bank; there has always been antagonism due to river front defenses from floods and international communication and traffic, and

the indifference of the Mexican authorities to small-pox quarantine, or any control of the disease for that matter, is a constant source of danger to American territory. With Juarez under the United States flag, most desirable and radical changes would be made, and the two cities become an embryonic St. Paul and Minneapolis.

But while the south line referred to is being extended eastward, why not extend it westward along the same parallel to the Pacific Ocean? This would give Arizona a respectable bit of gulf coast, bring the Colorado river entirely within Arizona and California, and give southern California a very fair sized addition of mining territory, including All Saints Bay on the Pacific coast, where an international immigration company essayed some years ago to found a large colony. There is fine country north of the parallel in Lower California, and from what is said by prospectors and travelers, it might pay Uncle Sam to acquire it.

The Gospel of Greed.

There is a steadily increasing call in this country for legislative, if not congressional, limitation of illegitimate capitalization of stock, the payment of dividends on purely fictitious properties, and which has resulted in increasing the burdens of the laboring class directly dependent upon corporations paying such dividends as to threaten serious consequences in the future. There is a call, and a righteous one, too, to prohibit capitalization beyond a fixed ratio or percentage relation to the value of plant, the ratio to be fixed by law. The spirit of this principle is illustrated in the law governing the earnings of the Union Ferry Company of New York City, as all moneys earned by the company over and above to per cent on the capital invested go to the hospitals. But the Metropolitan Traction Company of New York and other companies holding valuable franchises for which they have paid the city nothing, do not seem to be thus hedged in with safe guards for the public, and upon a capitalization far in excess of the value of their plant, they are trying to pay large dividends. The result is that they can only do this by squeezing their help, by not maintaining their repair service proportionate with the needs of the road and in other directions. The men are worked up to 15 hours a day, until they are in condition to relieve them from moral responsibility for anything they may do, the cars are imperfectly equipped, and everything is conducted in a slipshod unbusinesslike manner, all to make the greatest amount of money possible, and pay unscrupulous dividends. Such business policies do not pay in the long run, for dividends thus paid are not really earned. They are filched through oppression of servants unable to help themselves and similarly reprehensible methods by property owners making haste to be rich.

Such methods are the primary schools of anarchy. When a man's whole time is occupied in fighting for the bare necessities of life on \$1.65 cents per day, and his children grow up in comparative ignorance and their bodies and minds are stunted by lack of nourishment, the seeds of discontent and revolution the more easily take root, until some great crisis comes, and then the foundations of society are endangered. The love of money is truly the root of all evil, and the gospel of human greed is one of the most pernicious things society has to fight against.

Financial Horse Sense.

Chairman Cannon, of the appropriations committee of the lower house of congress, has called a halt in expenditures of large sums from the national treasury until it is definitely known by what means sufficient revenue is to be raised to meet the incurred obligations. And to emphasize the exigency of the occasion he reported a probable deficiency for the fiscal year of \$150,000,000, to which must be added the \$20,000,000 to be paid to Spain for the Philippine islands. Mr. Cannon is a strong supporter of rehabilitating the American merchant marine, and building the Nicaragua canal, but in his recent plain speech he declared, "I am not willing to enter upon either of these vast enterprises until we have given them full and proper consideration, and until we have provided the revenue to meet these expenditures. I insist that there shall go hand in hand with legislation for these projects the legislation necessary to provide the revenues to meet their cost." Mr. Cannon was told that the revenues from Cuba and Puerto Rico might be counted upon to help out; but the astute financier refused to anticipate any such source of revenue, as not only counting chickens before incubation, but the eggs before being laid.

It is just as well that there is a man of such clear ideas as Mr. Cannon in the responsible position he holds, and that he has the courage of his convictions sufficiently to compel congress to count the cost of the future before assuming any such heavy obligations as the construction of the Central American canal or expending any large sums in reconstruction of the merchant marine, however patriotic and promising in the future such projects may appear. Mr. Cannon is only acting in accordance with sound commercial principles, in the stand that he has taken, principles that are as old as the hills. The Jews of 2,000 years ago were strictly onto this, for Luke's gospel, XIV:28, says: "Which of you desiring to build a tower does not first take account of the cost, if he have not enough to complete it? For, after he has laid the foundation, and is unable to finish the structure, all who see it will begin to mock him, saying, 'This man began to build, and was not able to finish.'"

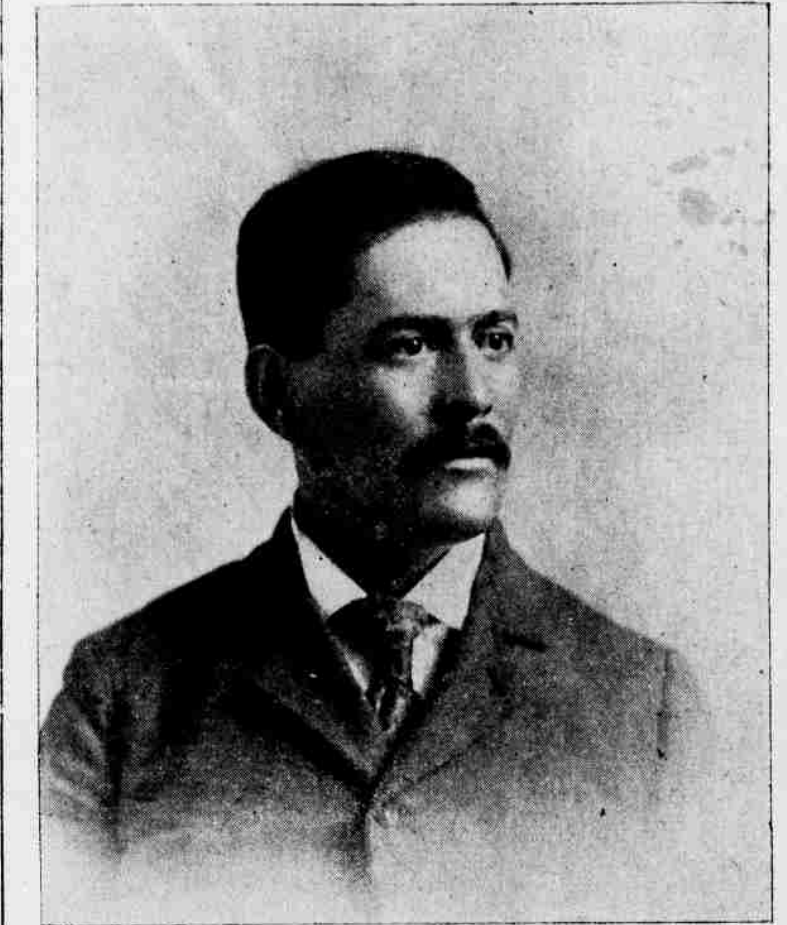

This is the A. B. C. of finance, a scheme, however, that has long been honored more in the breach than in the

HON. RAMON DE HERRERA,

Member of the House of Representatives of the 33d Legislative Assembly from San Miguel County.

The subject of this sketch, Hon. Ramon de Herrera, was born at Rociada, San Miguel county, August 12, 1865. He was the son of Diego de Herrera and Crisostoma Montoya, and by them was given a careful, early training. This was supplemented, while a young man, by a two years' course in the Brothers' college at Mora, where he left an excellent impression as a student and a conscientious young man. Mr. Herrera then removed to Conejos, Colo., where he attended the Brothers' college there for the ensuing 18 months.

At the expiration of that time the young graduate determined upon a business career; but before engaging in purely commercial pursuits, he went into raising hay and grain for the Colorado market. He subsequently removed to Las Vegas, where he entered active business, showing a steady application to commercial pursuits and maintaining a good name. Mr. Herrera was honored with the nomination for the lower house of the legislature, last fall, on the Republican ticket, and elected by 384 majority, the largest of any one on the San Miguel county ticket.

Mr. Herrera was married in November, 1888, to Miss Natividad Lujan, daughter of Jesus Lujan, of Mora county, but who had been raised by Antonio Vigil, of San Miguel county, and brought up in the most careful manner; she is making her husband a model wife. Mr. Herrera has been a Republican since his first vote, and his politics have been courageous and straight, with no side issues of any makeshift parties for him. His course in the legislature has amply vindicated the choice of the San Miguel county voters, and he is proving a clean, energetic and careful member of the house.

His violation inevitably resulted in disaster, as countless commercial failures will attest. The proposition to build a ship canal across Nicaragua ought to be carried out, for its value is apparent on the face of it; but, at the same time, it will be the way of wisdom to provide means for raising the money to cover the expense before the contracts are let.

WAS MERRY.

His Poem Was Rejected, but the Author Smiled.

"I have here," the stranger said in somewhat hoarse tones, "a poem which I am at liberty to offer you as a gratuitous contribution."

"I infer," said the editor, "that you have the author's permission?"

"You are justified in drawing the inference," said the unknown with a gracious gesture. "I am the author."

The editor opened up the manuscript and read the poem aloud:

With fingers knotted and worn,
With eyelids leaking and red,
A woman sat in a robe de nuit,
Rubbing her throbbing head.

Grip, grip, grip!
From grippy moon till night,
Grip, grip, grip!

Oh, isn't the gripper a sight?
For it's grip, grip, grip!

The editor shook his head as he refolded the manuscript and handed it back to the author.

"You appear to have quite a grip on the muse," he remarked in a pleasant tone.

"I beg pardon," said the mystified author.

The editor hesitated. He disliked to repeat his own motto. But there was no help for it.

"I say you appear to have quite a grip on the sacred nine."

The author smiled broadly.

"Ah, yes," he chuckled, "guanine." And he went away laughing in hoarse but joyous guffaws.—Cleveland Plain Dealer.

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one can know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only while I used them, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely. The dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of

S. S. S. For the Blood

will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.

LEGISLATIVE GOSSIP.

OPPOSED TO MINERAL COUNTY.

On last Thursday evening a mass meeting of the citizens of Red River was held in that place, to consider the advisability of the creation of Mineral county out of certain portions of Colfax, Mora and Taos counties. Keen and E. C. Stevens, was appointed to draft resolutions expressing the opinion of Red River concerning the proposed new county, and the following were presented and adopted:

Whereas, The question of the formation of a new county out of parts of Colfax, Mora and Taos counties, New Mexico, said new county to be known as Mineral county, is being discussed by the various communities in said proposed new county, therefore be it

Resolved, By the citizens of Red River in Taos county assembled in a public meeting called for the purpose of ascertaining the desire of said citizens on said question, that we are earnestly opposed to the creation of said "Mineral" county at the present time, for the following reasons, to-wit:

First. The total real estate and personal property within the area of said proposed Mineral county, and subject to taxation, is insufficient to support a county organization.

Second. The population in said proposed new county is, at present too small to justify the promotion of said county.
